Family Accidentally Poisoned.

Mr. M. F. Wallace and family of the Miller Grove community became very sick shortly after eating supper Monday night and a physician summoned found them all suffering with symptoms of poisoning. There are nine members of the family and they were all more or less affected, and while none of them were sick enough to be in a dangerous condition, it was a decidedly unpleasant experience.

They were undoubtedly poisoned by something eaten at supper and it is supposed to have been the cooking oil or some other ingredient of biscuit, but it is a matter of conjecture. However, it is known to have been an accident and the friends of the family are rejoiced that there were no serious results.

Drowned In A Flood.

Mrs. George Terry and five children and John Lanier and wife were drowned in the flood water of south Leon river near Gustine, Comanche county, Monday night. The people drowned lived in the low lands near the river and the heavy rain Monday night caused the stream to rise so rapidly that a perfect wall of water struck the houses and carried them away. Geo. Terry was rescued from a tree and he had the dead body of one of his children in his arms. The residence of Sam Cunningham was also moved a considerable distance and lodged against some trees, which held it and saved the family, but their household goods were all ruined.

Other reports of people having been drowned along the same river have been received, but not authenticated and it is believed the people named were the only ones who perished.

The report of rainfall in that section varies from 12 to 24 inches within ten hours Monday night, and while it was not so heavy, perhaps, as these figures would indicate, it is known that at some places empty barrels standing in open were filled to the brim by the falling rain.

PRESBYTERY ADJOURNS.

An Interesting and Beneficial Session Held in Goldthwaite.

The Brownwood Presbytery held a very interesting session here this week. While the business session did not begin until Tuesday night, the meeting commenced with preaching services Sunday and the entire session was interesting and beneficial. There were delegates here from all over the district and some of the strongest preachers of the Presbyterian church were in attendance and some splendid sermons were delivered.

The Presbytery adjourned in time for the delegates to leave on Thursday night's train. The Goldthwaite people enjoyed having this meeting held here and will always welcome the coming of the Presbytery to this place.

Before adjournment the following resolution was adopted:

Resolved, that this Presbytery extend a vote of thanks to the good people of Goldthwaite for their open hearted hospitality during our stay here. That we also extend this expression of thanks to Pastor Maynor for his untiring efforts to make the meeting a success, to our moderator for a spirit of fairness during the deliberation and to our clerk for his painstaking care in helping to expedite business to a successful consummation, and to Lawyer Williams of Goldthwaite for valuable service rendered in securing papers of incorporation for the local church and to Editor Thompson for free advertisement of the meeting of Presbytery and to Mrs. Hudson for free ice water.

The board of examiners for school teachers held a session last Friday and Saturday and there were ten applicants for examination before them and of that number eight secured certificates, as follows: J. Johnson, second grade for three years; Roy Simpson, Bryan Hayes, Miss Lowdie Taylor and Miss Mable Sullivan each third grade for one year. Two of the applicants failed to secure certificates.

A Narrow Escape.

"Uncle Billie" Carlock had a narrow escape from being badly burned and perhaps losing his house hold effects one night this week. A lantern he was holding exploded in his hands and the flame caught his beard on one side and badly blistered his face, but did no further damage. Oil was thrown over the floor and a blaze flashed from it, but Mrs. Carlock dashed a bucketful of water on the fire and extinguished it without damage being done to the house or furniture.

A house in which Mr. and Mrs. Carlock lived was burned about two weeks ago, but at that time they escaped without injury and saved most of their household goods.

A test well is being sunk near Edith, Coke county, prospecting for oil and experienced men say the indications are encouraging.

Five negroes caught, in attempt to commit murder, assault and arson were lynched near Athens, Ga., at an early hour Monday morning.

The 100th anniversary of the independence of Mexico is being celebrated by the people of that republic. The festivities and celebrations will probably continue a month.

A railroad engine standing in the yard at Ballinger Monday took fire and was badly damaged before the blaze could be extinguished. It is supposed the fire was caused by the overflow of oil.

The pastor of a church in Grovesville, N. J., is so greatly prejudiced against the new style "hobble" skirts that he has given instructions that no lady so attired be admitted into his church.

A son of County Clerk Scott of Brown county was accidentally shot in the shoulder while hunting near Brownwood Saturday. On the same day a negro boot-black in Brownwood cut and dangerously wounded L. P. Baugh, jr.

Predictions are being made by some political leaders that ex-President Roosevelt will be the Republican nominee for president in 1912 and they believe his present campaign in the west is in the interest of his candidacy.

The legislature provided for the removal of the remains of Stephen F. Austin from Brazoria county to the state cemetery at Austin and committees were appointed from both houses to attend to the matter. The expenses are to be paid by the state.

Two new dormitories are to be erected at the A. & M. college, at College Station. The contract for the buildings was awarded this week to J. S. Harrison of Waco for \$129,750. The buildings are badly needed, as some of the students at the last session of the college had to live in tents.

The pastor of the Brunner Methodist church at Houston gave an arrogant street car conductor a thrashing Monday for his insolence toward an aged lady passenger. The pastor was making report to an official of the company, who would have likely given little heed to the complaint, but the conductor appeared and the preacher knocked him down and jumped on him and had to be pulled off.

Secretary Hester of the New Orleans cotton exchange has published statistics on last year's cotton crop showing that it brought more money than any crop in the history of the country. While the total crop amounted to 10,016,000, of which Texas produced 2,860,000, the money value of the crop was \$778,894,095. The crop of 1906 was the next highest in value, the amount being \$716,352,265. These figures do not include the worth of the seed.

Worry That Kills.

Worry, it is said, will kill cats. Not only that, but it will kill kings, it is no respecter of persons. The death of England's king but recalls the truth of the above. No sooner had Edward breathed his last than the doctors gave out the information that his death was brought on by worry. Affairs of state weighed heavily on his mind and instead of facing them with Rooseveltian strength and courage he fell a victim to worry. Worry never produces any thing but wrinkles, gray hairs, torn nerves and death. It contributes nothing to man's pocketbook nor to his popularity.

It is a thing of evil that blows its blighting breath upon every fine sensibility and transforms a useful structure into a charnel house. I have seen women with six and eight children retain the bloom of youth because, forsooth, they did not worry over petty annoyances, but surmounted every trial with the spirit of cheerfulness while many a mother of one child carries furrowed cheeks and shattered nerves. There are business men, too, who drive nails in their coffin every day over petty annoyances that come from one horse business, while the man of great affairs fights off his worries like a giant and stands forth a man of strong mind and body.—Pittsburg Gazette.

H. H. Simmons, 506 Grand Ave., Lampasas, Texas, says: "I hold just as high an opinion of Doan's Kidney Pills now as I did three years ago when I gave a public statement in their favor. I have only had occasion to use them once or twice during the time that has since passed and they have always brought the desired relief. When I first began taking Doan's Kidney Pills, I was bothered a great deal by irregular passages of the Kidney secretions, especially at night. Want Single Desks.

The Mothers and Teachers club has undertaken to raise funds with which to buy new desks for the school building. They are to be single desks and the advantages thereof are many and they will also add to the appearance of the interior of the rooms. The cost will be approximately \$600 and the old double desks can be sold for perhaps \$150. The club held a meeting Thursday and appointed Prof. Goodman, Mrs. Anderson and Misses Mamie Kelley and Addie Hudson to solicit funds for the purchase of these desks and they raised \$50 in a few minutes. The committee will work again today and hopes to largely increase the amount of the subscription list.

The club has decided to paint the ceilings and woodwork in the school building and decorate the walls of the interior, which will make the rooms much more attractive.

Drowned His Horse.

Mr. C. C. Yarborough had the misfortune to lose a large horse Tuesday by the animal being drowned in the river. Worms had gotten into a sore on the horse and in order to wash them out Mr. Yarborough tied the animal in the river at a place where the water came up to the horse's flank. After a couple of hours he returned to the river to get the horse and found the water had risen very rapidly and the horse, which had been left tied to a tree, was drowned.

In the prohibition election at Hamilton Tuesday the prohibitionists were victorious by 275 votes.

It is believed the legislature will adjourn today.

Weg-z-up n' the achievement of man and are dazed. We contemplate his wonderful possibilities and are amazed. We look at the flying machine as it take its ethereal flight with its load of human freight and wonder at man's genius; we sit in raptured bliss and are carried to higher realms by the eloquent words as they roll from the orator's lips and meditate upon man's wonderful brain power; we see the mighty throbbing locomotive, fired and steamed up ready to pull the mighty load, and praise man's skill. In fact there are times when we are tempted to take our eyes from nature and our minds from nature's God and dwell in the realms of intellect alone. But let trouble come to the heart and anguish seize the soul—then it is what we seek for solace, that neither man's genius can give nor his intellect nor skill nor power supply—then it is that our own greatness pales and we find ourselves in full realization of what we really are—atoms. When we are suffering that anguish of the soul that can no longer be satisfied by human agencies nor consoled by friends—when even the beauties of nature pale before our eyes—then it is when we can go to our secret closets and receive solace from the most high God—who alone has power to bring peace to the longing soul.—Ex.

Producers

To promote the prosperity of a community we must increase our wealth. To increase wealth, we must create property, increase the value of property, and move property into the community. The farm, the mine and the fisheries are the natural wealth creating lines of industry. They create property. The building of factories, railroads, opening mines and farms add wealth to adjoining property. They increase the value of property. The immigrant and the capitalist in moving to Texas and buying farms and building railroads and factories bring property with them. They move property into the State. So view it as you will, to be prosperous we must create property, increase the value of property and move property into the community. The man who increases our wealth through either of these channels is a producer and is a public benefactor. There are other important factors in the development of a community, but production is the basis of all prosperity.

In discussing economic subjects it is customary to divide the people into two classes—the producer and the consumer. The farmer is the most prominent type of the Texas producer.

A Producer.

The producer is interested in producing all he can and getting as high prices for his products as he can. The consumer is interested in consuming as little as he can and buying it as cheaply as he can. The tramp is the highest type of an exclusive consumer.

An Exclusive Consumer.

The tramp consumes as little as he can and gets it as cheaply as he can. Low price products make tramp life easy and farm life difficult, and vice versa. All the people are consumers, and most all people consume more or less the products of another. Most all the people are producers directly or indirectly, and net profits accrue only by production exceeding consumption. High prices for products of the farm, mine, factory, etc., and all lines of productive and industrial endeavor encourage development and promote prosperity. Low prices cheapen labor, stagnate development, discourage production and destroy prosperity.

Mullin.

Editor Eagle:
H. C. Cobb has returned from his trip to Kentucky and reports a fine time. Did not see anything there to make him feel like abandoning Mills county.

The meeting at the Baptist church is still progressing; Bros. Ward, Wade, Crim and Hayes are the preachers in attendance. Bro. Crumby, the singer entertains the audience at nearly every service with a solo. Good congregations, but up to date the unconverted part of the audience has been unmoved. Services announced up to and including Saturday night.

Rev. Wade and family, who have been visiting Bro. Ward, left for home Thursday morning.

Mrs. L. M. Kemp's sister from Colorado Springs, Col., arrived Thursday morning on a visit to her sister.

Misses Beulah Skaggs and Lottie Van went to Belton Monday morning to enter Baylor college.

Mrs. W. E. White and Miss Ella V. White left Monday morning for California, where they will reside in the future.

Mr. R. Y. Bayer's family from San Marcos arrived at Mullin Wednesday morning of this week to make this their home. Mr. Bayer is coming through with a car of stock and household goods.

The heavy rain prevented the farmers from picking cotton for several days.

The subscription part of the school began Monday morning. Prof. Pickens and Kemper are holding the fort as teachers.

RAMBLER.

Caradan.

Editor Eagle:
I will send in some of the happenings of late.

Health is good in our community.

Farmers are all very busy picking cotton.

The rain Monday night was greatly needed, as stock water had begun to get pretty scarce.

Watson Wright and wife of Priddy visited in this community Saturday night and Sunday.

The protracted meeting at North Bennet church closed Sunday. There were several additions to the church. Bro. Everitt of Goldthwaite did the most of the preaching.

Misses Jones and Couch of Hamilton county were the guests of Mrs. Pelsick last week.

Commissioner Mason had business in this community this week.

Well as news is scarce I close with best wishes for all.

Commercial Club Meeting.

President B. F. Geeslin of the Commercial club has issued a call for a meeting of the club to be held Monday night at 8 o'clock in the court house. It is sincerely hoped that the business men of the city will all respond to this call and join in an effort to advance the interests of the town.

Cities of much less importance than Goldthwaite have live and energetic commercial clubs and by the united efforts of their business men and property owners good roads are built, enterprises are secured and other desirable results are attained. It is by the concentration of efforts that the towns and cities are made to grow and prosper and the business interests of Goldthwaite can be greatly benefitted by the united efforts of the business men through the Commercial club.
