LOMETA

R. J. Brister, who lives a few miles west of Lometa, and Miss Lizzie Fox of San Saba county, were married last week at the home of the bride.

At the Methodist parsonage Sunday afternoon, Jan. 1, 1911, at 2:30 o'clock, Rev. W. B. Moon spoke the words that made Forest Yett and Miss Ruth Chansey man and wife.

Noon Wallace died at his home in Lometa, Wednesday morning about 5 o'clock from la grippe. The remains were carried to San Saba Thursday for interment.

Mrs. R. C. Cravy received a telegram from Galveston, Friday, December 30, stating that her father, Mr. Joe Linnett, had died that morning. Mr. Linnett was a resident of this county for a number of years.

Fire was discovered in the old school building Monday morning, catching from a defective flue up stairs in the east end of the building. The school boys soon got in some effective work and the blaze was extinguished before much damage was done.

A marriage took place near Lometa at the residence of Mr. Frank Wallace, the father of the bride, when A. J. Whitehead and Miss Eunice Wallace, in the presence of a few friends and relatives—the ceremonies took place at 2:20 p. m., Sunday, Dec. 25—became husband and wife.—Reporter.

BROWNWOOD.

Sunday afternoon while playing with other children at the home of Mr. and Mrs. W. A. Marquis in Ford's addition, little Judson Neff, son of Mr. and Mrs. A. J. Neff, was quite seriously burned when his clothing caught fire supposedly from burning grass.

The school house at Grosvenor was burned Monday with the furniture and many of the books belonging to the children. The cause of the fire is unknown. Prof. J. E. J. Warren and Prof. John Armstrong are the teachers and they report that they have no idea of how the fire was started unless it caught from the stove, in which there was considerable fire Monday afternoon. The building was burned between 8 and 9 o'clock Monday night. It was valued at \$1000 and was insured for \$800.00.

When asked why it took so short a time to complete the criminal docket Judge Goodwin said the adoption of local option is responsible. Prior to the adoption of local option laws it required from two to three weeks to get through with the criminal docket, but in the present term it took only two days, and the only case tried was one that has been pending for ten years. Judge Goodwin says this is the result in every town in his district where local option has been adopted.—Bulletin.

Miss Balla Greenwood returned last night to her elocution work at Brady, after spending the holidays here.

James Mayhew works at what has been known as the West market, and occupied a residence belonging to Sam Dickens on

Sixth Street. His habit is to arise early and Tuesday morning he was waiting for the milk man to arrive before going to work. Hearing the milk wagon on the street he hastily arose from his rocking chair which rebounded and struck the table upon which the lamp was burning. The lamp was overturned and the oil spilled upon the matting and floor, and immediately there was a great fire. Mrs. Mayhew was still in bed, and the fire spread so rapidly that practically nothing was saved.—Leader.

Mr. Thomas has sold his home to John T. Jay, and expects to leave for Austin about Jan. 16.

The Masonic temple was considerably damaged Wednesday night caused by the bursting of a water pipe in the northeastern corner of the third story. The pipe is supposed to have bursted about 11 o'clock and run with full force until 3:30 o'clock when the nightwatchman discovered the water pouring into Catter's store on the first floor and phoned to Mr. Catter, who with his clerks at once began to protect the goods and get the water out of the house. He estimates his loss at nearly \$2,000 in the dry goods department as the water covered most of that side of the building.—Exponent.

At Home.

The Misses Rahl and Lowe were at home to the Bachelor Maids at the Rahl home Wednesday afternoon from four to six, in honor of Miss Flarein Jones.

Being a formal function and dress occasion every one came in their best bib and tucker and a number of pretty costumes were in evidence.

The first contest was a written list of ideas supposed to suggest words beginning with the letters

cro; but in that merry hubbub some of them could not be associated with anything hence no one got them at all. Later all

all engaged in the mirth provoking game of Progressive Jenkins.

Miss Mary Pardue won the first prize, a fluffy lace jabot.

Mrs. Leonard Skaggs received for consolation a copy of "Who Killed Cock Robin?" The honoree of the day was given a

pretty heart shaped apron of white material adorned with lace and pink ribbon.

Sandwiches, hot chocolate and cake were served.

Besides the regular club members those present were Misses Jones and Pipkin, Mrs. Gillispie, Mass, Skaggs and Little, the last two being honorary members of the club. No greater tribute could be paid the hostess than the way the guests lingered even after they rose to say adieu.

COMMERCIAL CLUB.

Reorganization Perfected—Officers to Be Elected—A Banquet.

The Goldthwaite Commercial club has been reorganized and the interests of the city are to be carefully looked after in future.

A meeting of business men was held in the court house Monday night and it was decided to reorganize the club and undertake to look after the town's interests in a systematic way. The plan for reorganization was for the president and vice president to each choose two assistants to join them in soliciting members and the new members secured were to at once become solicitors for the club. Blue and red badges were adopted for the two sides and it was agreed that \$1 should be the membership fee and the side securing the smallest number would be required to do the work of preparing a banquet for the club, the expense of the entertainment to be paid out of the treasury.

President B. F. Geeslin chose R. E. Clements and R. M. Thompson as his helpers and they were given the red badges. Vice President W. E. Miller selected L. E. Miller and E. M. Boon to assist him and they were given blue badges. Wednesday afternoon was the time fixed for soliciting and after a short and enthusiastic campaign the blues secured 51 members and the reds 29, making a total of 80 members secured. However, the champion of the red side was summoned to serve on the jury during the progress of the campaign and was not able to give much aid to the solicitors and his committee-men believe that with his help they could have made a much better showing.

The membership of the club is now made up of those who paid the dollar membership fee and they are requested to meet in the district court room Monday night at 7:30 o'clock to elect officers, select committees and transact other important business. Those who have the red badges are especially urged to be there, for at that time a meeting of the "reds" will be held to perfect arrangements for the banquet.

The membership roll is still open and any who have not had an opportunity to join can secure a membership by applying to any member of the committees named herein.

Bank Officers Elected.

The stockholders of the Goldthwaite National Bank met Tuesday and elected a board of directors composed of J. H. Randolph, W. E. Grisham, Mrs. W. E. Miller, J. W. Driskill, and W. E. Miller. The directors then elected W. E. Miller, president; J. W. Driskill, vice president; G. A. Swaim, cashier and Mrs. M. A. Bridgforth, assistant cashier.

Governor Colquitt is to take the oath of office next Tuesday and it is said he has his message ready for delivery to the legislature.

Judge Gill of Houston, who was appointed to a place in the court of criminal appeals, declined the appointment and Governor Campbell appointed A. C. Pendergast of Waco to the place.

The law provides that a citizen can pay his poll tax and allow his other taxes to become delinquent if he so desires, but he must pay the poll tax prior to February 1 in order to have the division made.

The governor of West Virginia appointed David Elkins to succeed his father in the United States senate. The will of the late Senator Stephen Elkins has been filed for probate and shows his estate to be worth twenty million dollars.

An especially sad double funeral was held in Waco Monday when a young man and his sister were both buried at once, the lady's death having been caused by exposure while attending upon her brother in his last illness and her grief because of his death and the death of her child.

It is claimed that the prohibitionists are in control of both houses of the legislature and can run business their own way. They will submit the state wide amendment, it is said, on July 22 and will adopt some stringent laws regarding "bootlegging" and other methods of violating the law.

It is not in the market place or in large affairs that a man's character can best be judged, but in private matters and small transactions. A man who defrauds a creditor of \$1 is dishonest, no matter if he is good for a million dollars on a note or bond, for the amount involved is large enough to justify the collection by a levy.

In the organization of the legislature Tuesday Sam Rayburn of Bonham was elected speaker on the second ballot. C. E. Gilmore of Van Zandt county was a close second. Rayburn would have been elected on the first ballot had not some of the audience voted, thereby making the first ballot illegal. His success was said to be due largely to the fact that he was a supporter of Senator Bailey.

The aviators are attracting most of the public attention now and the "meets" in various parts of the country are largely attended. The success that has attended the demonstrations of the different air ships is indeed interesting for those who have followed the progress of the machines. While a great many aviators have lost their lives or have been injured in their attempts to show what could be done with the flying machines, these accidents, bad as they are, were to be expected and more will occur, but the misfortune of one who dares too far is a means whereby others reach success and the possibility of aerial navigation is now a well known and fully demonstrated fact.

Boasts for Texas.

During 1910 eighteen hundred car loads of fresh tomatoes were marketed in Texas, most of them being shipped to points in the North and East. The tomatoes put \$1,400,000 into the pockets of the farmers who produced them, with practically no extra cost for cultivation, as in most cases they are planted with other winter crops, thereby requiring very little extra work. The one dark spot on this bright agricultural picture, however, is the fact that these tomatoes were shipped to the canning factories of Maryland and other New England States, only to be sent back for consumption by Texans who have to pay the freight both ways. With a production of over a million car loads of tomatoes alone, not to mention thousands of cars of other truck, annually and with cheap fuel in abundance, and all other requisites for the building of factories, the shipping of our products to other states to be canned is not in keeping with the spirit of progress which is manifested in other lines of Texas industry.

Texas furnished her prorata of fruit and truck to the markets of the world and then some, during the year just closed, according to recent reports which show that 19,490 car loads of truck and fruits were marketed in this state during 1910, which brought a net yield to the growers of \$15,000,000. This is like getting money from home to the truck growers, as it is only within the last few years that many of the crops marketed were raised in sufficient quantities to create an impression on the markets of the world, and is clear money to the producers. Diversification has played an important part in Texas agriculture during 1910 and is destined to even greater popularity during 1911 and following years.

The bee business is on the hum in Texas, says the Commercial Secretaries' Association, and Texas honey, like all other Texas products, commands tip top prices. Reports from the Uvalde country, where this industry is more prominently in evidence than in any other section of the state, say that the honey crop for 1910 is larger than for any preceding year. This increase in honey is easily accounted for by the fact that Texas prosperity is contagious and even the bee, who is considered the paragon of industry, is taking lessons from the progressive element that is striving to make Texas greater, and is working overtime to make the output of the hives a little larger each year. United effort and co-operation after all, is the foundation of all prosperity and the bee is the living exponent, on a small scale, of this mighty commercial doctrine, for the thousands of bee as they sip the honey from the fragrant Texas flowers, work in harmony and unison in their intricate task of constructing the luscious honey comb, and are contributing in their own small way to an industry which bids fair to take first rank in Texas enterprises.

The promoters of the "Onion Day Movement" in Texas may take hope for the Texas onion crop is reported by those in close touch with the situation to be 50 per cent larger during 1910 than any preceding year. The onion is fast gaining in popularity as a leading staple and with agricultural methods advancing every day, no doubt a grade of onions will soon be evolved leaving the smell behind, and "Onion

Day" should then receive recognition at the hands of every loyal Texan. Here to the Bermuda.

There were 4,500 cars of peaches shipped from Texas during 1910, the net profits accruing from the harvest of this golden fruit being \$2,362,000. Improved methods of planting and handling fruit trees, the assistance given by our Department of Agriculture, experimental stations and Agricultural colleges in spraying, pruning, etc., is directly responsible for the increased production of this luscious fruit. Hats off to the Elberta.—Commercial Secretaries

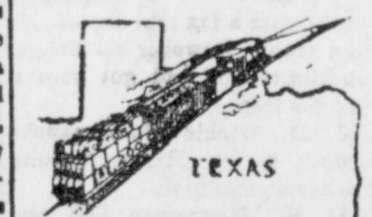

Markets

It is as important to properly market as it is to properly raise farm products. We are a producing country and therefore interested in markets and market facilities for our products. The world's average is two acres of cultivated land per capita while in Texas we have seven acres of cultivated land per capita leaving a surplus production of five acres of cultivated land for each individual which must be sold. The world's average in consumption of cotton is thirteen bales per 1,000 population; in Texas we raise one thousand bales of cotton per one thousand population or one bale per capita. We have a surplus production of 987 bales of cotton per one thousand population for sale. Texas produces 20 per cent of the cotton of the world and on a per capita basis uses one fourth of one per cent. We not only produce a large surplus but, through lack of diversification, concentrate our production—making a deficit in certain lines of production, equally as abnormal as our surplus production in other lines. We are a people of producers and interested in receiving a high price for our products. An increase of one cent per pound in the market price of cotton on 1908 basis of production will place in the hands of the Texas producers of cotton \$30,000,000 and take out of the pockets of the Texas consumers of cotton goods \$250,000 leaving a trade balance of \$19,750,000 in our favor, says the Texas Commercial Secretaries' Association.

"Balance in Favor of Texas Producer." Our prosperity depends upon the producer getting a high price for his products. The Farmers Associations, Fruit and Truck Growers Associations, and all organizations and influences that tend to raise the price of products should be encouraged by all the people.

There is more seriously in need of assistance than perhaps any other state in the union. Our principle products are cotton and cattle and the entire output of the cotton field and the much meat pass through the factory before it is consumed. The Texas farmers ship \$1,300,000 of raw material daily to the factories out side the state and buy a portion of this back as a consumer.

"Raw Material Leaving Texas Daily." The farmer must pay the freight to the factory and although his products may cross the ocean he must foot the bill every mile of the way. By moving the factory to Texas we move the market to Texas, and eliminate the expense of transportation.

Household Hints.

If you happen to have sheets that are too short and pull from the foot of the bed, sew three buttons on the foot of the mattress and make three strong buttonholes in the foot of the hem of the sheets to correspond with the buttons, then button down, and you will have no further trouble. Potatoes will bake more quickly if there is a fire in the stove. To keep lettuce fresh and crisp, place it in the ice chest and don't eat it. To tell when a pie is done, hold it upside down over the sink, if baked sufficiently it will fall out of the tin. To keep the soup from boiling over, remove the kettle from the stove. Butter will last longer if sprayed with kerosene before serving. To keep the dust from flying, don't disturb it with broom or cloth.—Hale County Herald.

Furthermore, if you are bothered with bats in your beltry, wear a bird cage in your hat. A good way to get the washing out early is to let the laundress come with the milk man. To keep waffles from sticking to the irons, bake them on a shingle. For removing buttermilk from your whiskers, the best way is to soak your head.—Dallas News.

"On The Wing.

Received three issues of the Eagle at one time and how I feasted on the contents. It seems that the holidays brought with them determinations to forsake the walks of single blessedness and hook up either for weal or woe with another state of existence. Such changes are sometimes for the best and yet there are many disappointed, sad hearts battling with the experiment. The best of wishes for the happiness of all who have so recently embarked on the matrimonial voyage in Mills county.

We have just returned from St. Louis, Mo., where we spent two days with the little adopted daughter who was the child queen in our home when death (more than four years ago) stepped in and said "The scene must change." The visit brought to mind these sad hours, yet it was delightfully pleasant and sweet to again fondle upon our lap the now 12 year old little lassie who showered upon us kisses from arrival to departure. Bright and full of life she assured us by both vocal and instrumental music that her little life is not being lived in vain.

At 2 o'clock a. m., Jan. 10, 1911, in the city of Leavenworth, Kan., Mr. Frederic Wellhouse, the apple king of the world, passed into the great beyond. At one time he owned 1600 acres of apple orchard in three counties in Kansas, from which he shipped one year 80,000 bushels of apples that took 200 cars to carry them to the markets. He was born in Wayne county, Ohio, in 1828, but had been a resident of Kansas for many years.

Yesterday being a pretty day my brother took me to Lansing to visit the state prison and the guard who showed us through, proved to be a Kentucky boy who went to school to me nearly 40 years ago. We had not met before in 27 years. Leavenworth has the state prison, federal prison, soldiers home and the fort where over 3000 soldiers are now stationed. The home has several thousand old soldiers and both prisons are pretty well filled.

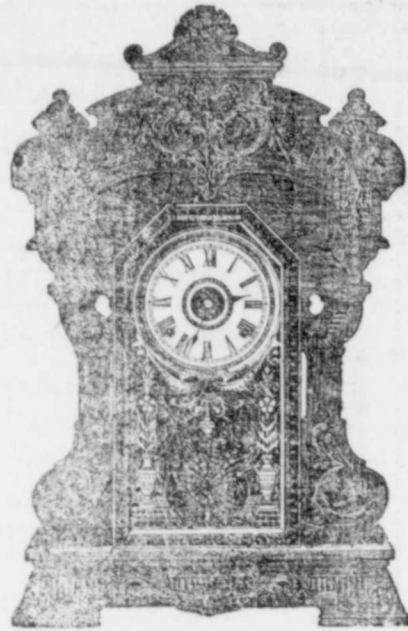

Hi! ha! ha! and Uncle John has been heard from once more. Things will begin to pick up now. The next to be heard from is Maid of Honor and Washboard. Just sit still, Uncle John, for we assure you that the crowd you selected to sit with extends to you a welcome that we hope will encourage you to remain indefinitely.

Kansas papers don't seem to gather much news from Texas. We have read them closely hoping to see some account of the rains descending upon Texas soil. It is dry in Kansas and Oklahoma.

I see some person or persons have been quite handy with rocks and their guns smashing windows in Mullin. Wonder what poor old Uncle Ben Kettle has been doing to cause any one to shoot into his house. Mullin! Mullin! Mullin! What stranger or strangers are in your midst? Surely no Mullinites would be guilty of such destructive and unkind deeds. Such fellows should be equally yoked with the one who undertook to force a great Sabbath observer to work on Sunday. Haste away to the hills, ye — who would do us harm and let our little village have a rest.

Solves A Deep Mystery.

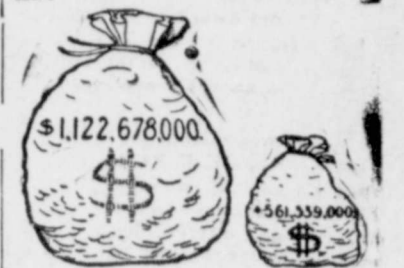

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. NOT SPECIFIC ENOUGH.

"I thought that tall fellow at the far table was lovely the first time I met him," said she. "He talked so beautifully about his home and his wife. Called her the little woman. Talked about his children."
"The next time I met him I asked after her. 'How is the little woman?' I asked."
"Which little woman?" said he.

Increasing Production.

The increase in agricultural production has both an individual and community interest. The farmer is vitally interested in increasing the yield, as it costs no more to cultivate an acre of land that produces two bales of cotton than it does an acre of land that produces one bale of cotton, and the second bale is clear profit to the farmer. The farmers who have followed the advice of our agricultural departments in selecting seed, methods of culture, character of crops, combating pests, etc., have been able to double production. The farms of Texas are yielding an average of \$1,540,000 per day, and by doubling production in that portion of the land now under cultivation we can produce \$1,122,678,000 instead of \$561,339,000 per annum as shown in the figure below.

Increase in Production.

A concrete example would perhaps be more satisfactory than an imaginary standard, says the Texas Commercial Secretaries' Association, and we will, therefore, compare Texas with Illinois. Our lands are more fertile, our seasons more reliable and our climatic conditions more favorable to farming than in Illinois. In Illinois the average farm contains 124 acres and yields \$1,309 per farm. In Texas the average farm contains 287 acres and yields \$681 per farm.

The cut shown below illustrates the growth the Texas farmer must make to reach the Illinois standard.

The Farmer Must Grow.

To build up the Texas farmer we must improve our public highways, build railroads, build factories, open mines, build cities, and otherwise increase our markets and facilities for reaching the market. We must look to our Agricultural Department, A. & M. Colleges, Experimental Stations and agricultural agents to build up the farm and instruct the farmer. These institutions ought to be liberally supported by appropriations and cooperation in their work.

NOT TO BE PUT OFF.

"If you want to marry me, you should see my father."
"I've seen him several times, but I want to marry you just the same."

ASKING TOO MUCH.

Charlie and Nancy had quarreled. After their supper mother tried to re-establish friendly relations. She told them of the Bible verse, "Let not the sun go down upon your wrath."
"Now, Charlie," she pleaded, "are you going to let the sun go down on your wrath?"
Charlie squirmed a little. Then: "Well, how can I stop it?"—Everybody's.

Obituary.

W. F. Page departed this life at Lometa, Lampasas county, Dec. 21, 1910.

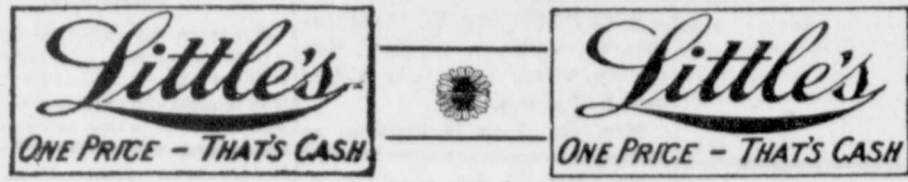

Mr. Page was born in the state of Alabama Dec. 29, 1855, and came to Texas when he was about 14 years of age and located in Williamson county, where he grew to manhood and was married to Miss Josephine Robbins Sept. 27, 1877. To them were born twelve children, ten of whom with their mother survive him. He moved from Williamson to Mills county and his home has been in and near Goldthwaite until about five months before he died he moved to Lometa. He was converted and joined the M. E. Church, South, when he was 16 years of age and was faithful until death. He was a true Christian, a kind and loving husband and father, a good citizen, a kind neighbor and a true friend. He was in the hotel business at the time of his death. His death was a great shock to his family and friends, but they mourn not as those who have no hope. They know where to find him. The Lord told John to write "Blessed are the dead who die in the Lord." Brother Page is not dead, but is alive forever more. Across the open grave the rainbow of hope stretches its radiant span, while out of the valley of death Faith sights the rising star of immortality. For his family and loved ones the separation is hard to bear. They realize that by his death they have lost one whose place can not be filled, yet by his going away heaven is made richer. His body was laid to rest in the Odd Fellows cemetery at Goldthwaite to await the morning of the resurrection. May heaven's rich blessings rest upon the bereaved ones and as they pass away one by one may they finally make an unbroken family in the home prepared for the pure and good is the prayer of a friend and brother. IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.

Mrs. J. H. Whaley, 203 W. Lee Street, Brownwood, Texas, says: "I do not believe there is a better kidney remedy to be had than Doan's Kidney Pills. For several months I was annoyed by a dull ache in the small of my back. I was also subject to dizzy spells and my kidneys were weak. A friend advised me to try Doan's Kidney Pills and I finally procured a supply. In a few days after beginning their use the trouble had entirely disappeared."

For sale by all dealers. Price 50cts Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
