### THINGS IN GENERAL.

To look over our trackless prairies of fertile land, see agriculture wither in the field for want of transportation facilities and listen to the muffled throb of industry, one can realize in a measure what a monumental task our Railroad Commission has before it. Texas was the first state in the union to establish a railroad commission and yet we have perhaps solved fewer of our problems in transportation than any of our sister states. The Railroad Commission can become a power for progress if the commissioners will devote their talent and energies to increasing our mileage and improving the service. There is no use fighting a duel with civilization, amending the laws of commerce or issuing orders to the elements. Transportation is a business problem and should be handled in a business way. It will yield to no other treatment.

According to federal census reports, our sexes are out of balance. We have more females than males. We have at least 100,000 old maids and widows (grass and sod) who ought to marry and many of them must look outside the state for husbands because we have not the raw material in Texas. We have some of the most beautiful women on earth who have never had an opportunity to marry, our grocery stores are bulging with rice, our furniture emporiums are filled with house furnishings and our trackless prairies are awaiting happy homes. We have the girls and Texas is the place and now is the time, but it is hard to find the men.

The farmers of the south have for several years heard much about crop diversification, and there can be no doubt of the wisdom of such a movement, as it has brought great good to the south already, and yet the benefits have only just commenced. Other and later advice to the farmers of Texas, somewhat synony-

mous with "diversification," but better and more rational, is "proportionate development," which includes diversification, but preaches the doctrine—as the name indicates—of a development which is proportionate, full, rounded and complete. In plain English, "proportionate development" means railroads for the freight and freight for the railroads, raw products for the factories and factories for the raw products, people for the food and food for the people. When the Texas resident has to purchase abroad at a high cost, merchandise or food supplies which can easily be produced at home, there is plainly something wrong with the plan of development. "Proportionate development" is the correct principle not only for physical culture but for the proper and successful development of this and other states.

The Philadelphia Record in commenting on the breaking up of the great 3,000,000 acre X. I. T. ranch to offer for sale, says: "Rainmaking has been dropped, Charles Farwell is dead, and the X. I. T. ranch will be broken up and sold with such water as nature has provided for it." The Record came near enough hitting the nail on the head to miss it. When the Lord sentenced man to earn his living by the "sweat of his brow" this was certainly the best thing for man. Most everything that is worth much costs something in labor or its equivalent, money. To give to a man a state with so fine a climate and such bountiful natural resources as has Texas, both above and below ground, without even having to dig for them, would be too much like picking up gold in the streets, which would soon destroy man's energy and inventive genius. The Record's editorial staff evidently hasn't been down to Texas, the "Do Things State," where men are not only willing to work, but actually love to go right after things and "get 'em."—Commercial Secretaries.

### COMMERCIAL CLUB.

There was no meeting of the club Monday evening, owing to the lack of a quorum, which was much regretted, for there is business of importance to the town and county to be discussed and outlined.

One of the matters to receive attention from the club is the formulation of a premium list for the next year's fair. The displays of live stock, as well as farm and garden products will be much better if notice is given now of the character of exhibits expected and premiums that are to be offered. This fair is of vital importance to the town and county and the business men should be especially interested in making it a great success. There is not a county in Texas that can surpass Mills county for variety or quality in products of any kind and we should take pride in this fact and use every effort to have the displays made at these fairs that will attract the people and reflect credit upon the county.

### NEW WINDMILL.

R. D. Moon of Mullin and H. J. Horne of Wall have patented a combination wind mill and power plant that will to a great extent solve a perplexing problem in this section of the country. The new machine has two fly wheels, instead of one, and one tail. One of the wheels acts as a suction for the second one. The machine can be regulated with ease and should the wind be insufficient to drive the machine, the patentees have an electric attachment with a storage battery, and can use it for driving the mill. The machine may be used for many purposes about the farm. Mr. Horne was in San Angelo Wednesday making arrangements to get the machines manufactured here.—San Angelo Standard.

A. J. Weathers made a business trip to Ballinger and other points in the west the first of the week.

When rain falls it does not actually soak into the earth, but bores its way in, forming tiny tubes. These tubes are so small that it would be impossible to insert a hair in one of them without bursting its walls. Sometimes the tubes are bored down to a depth of four or five feet. When the surface dries, the water evaporates from the tubes, just as it would from a pipe. If the tubes are twisted it takes longer for the water to evaporate. If one takes a rake and stirs the ground after each rain, he breaks the tops of the tubes, and the water will stand in them for months. In this way the farmers of the West on semi arid lands, store the rainfall one year, and raise a crop of wheat every other year—there being sufficient water in two years, but not enough in one to raise a crop.—Harper's Weekly.

Are you making use of every one of the 600,000,000 cells in your brain? Or are most of them plugged up with stupid laziness? Each one of these cells represents a unit of work, just as each cell in the honeycomb means a certain amount of labor for the bee. The beehive cells are filled with honey and the cells of your brain are filled with protoplasm. This protoplasm may be dead, useless stuff, or it may be the active, wide-awake kind. Is the protoplasm in your brain dead or alive? If most of it is dead, then wake it up. Stimulate it with some good old fashioned hard-headed thinking. Don't be afraid to think hard. If you are not required to think constantly in your present position, get a job where you will have to use all your brains.—Selected.

During a revival service held in Fort Worth a few nights ago a man arose in the audience and announced that he had decided to live a better life and to make a new start. He would confess to being an escaped convict and desired to be returned to the penitentiary.

### DARROCH-KELLEY.

The social circles of this city were somewhat surprised Sunday evening when it was announced that Miss Eddie Evelina Kelley and Mr. John Charles Darroch had been quietly married at the Methodist parsonage by Rev. F. M. Jackson immediately after the evening church service. Dame Rumor had expected that the wedding bells would soon be ringing for that couple, but the exact date was unknown to any except the contracting parties.

Miss Kelley is the youngest daughter of Rev. and Mrs. J. W. Kelley of this city, and is a most charming young lady and quite a favorite among her many friends. She will be missed very much from the Bachelor Maids club, of which she is a charter member, but once more Cupid has caused a Bachelor Maid to forget her vows to the club to make new vows quite different.

Mr. Darroch is a prominent and rising young lawyer of this place. He came here from Fredericksburg about three years ago, and has made many friends by his courteous and gentlemanly manner. He was nominated to fill the office of county attorney at the July primary. He is to be congratulated upon securing this young lady as his companion for the "voyage upon the sea of life."

The happy young couple have the best wishes of their many friends for a long and prosperous life.

### A FRIEND.

It was indeed consoling to the Fort Worth grocer whose store was robbed Saturday night to find a note on his door saying the robbers considered him a "good fellow" and had helped themselves to his goods, as they were hungry.

The revolution in Mexico is not confined to the northern part of the country, but the rebels have been active in all parts of the government, especially in the state of Oaxaco, where great damage has been done during the last few days.

Mr. Darroch is a prominent young attorney of this city and is the Democratic nominee for county attorney. He has resided here for several years and has made a good reputation as a lawyer and a citizen. The bride is a daughter of Rev. and Mrs. J. W. The police patrol auto in Waco collided with a railroad train Wednesday evening and as a result one man was killed and two others were injured. A drunken prisoner who was being carried to the lockup escaped injury.

The commissioner of the general land office, in his annual report of his department makes one important suggestion for legislative action. He declares that the old Mexican grants, the 3,000,000 acres held by the Capital Syndicate, the 2,000,000 acres held by the University, and tracts ranging from several thousand to a million acres now held by individuals all tend to create a land monopoly, holding back agricultural and industrial development and compelling small tax payers to bear the burdens of taxation while the large divisions of land are held for an increase in price.

**SEWALL'S**

"A good sized pig is now worth what a good steer was worth a few years ago and a real pig will bring as much money as a bale of cotton has brought on a ten year average," remarks the Temple Telegram. Yes, a pig now sells at from \$25 to \$40, according to its size, which is a pretty big bunch of money for a pig. In the old days a hog was scarcely fit for market until a year and a half or two years old, so it cost considerable to raise one, but now a pig of nine or ten months is popular, and it can be produced at comparatively small expense. Time was when a bale of cotton would not sell for more than \$25, though now, together with the seed, it brings a much better price. But a pig is still a very profitable animal and the wonder is so many Texas farmers fail to appreciate this fact.—San Antonio Express.

Kenneth Applewhite went to Temple Monday night to meet his sister, Mrs. Edda Grundy, of Beaumont, who has been seriously sick with typhoid fever. She is now at the home of her parents, Mr. and Mrs. Applewhite, in this city.—Mullin Enterprise.

J. L. Farmer, one of the good men of Mullin, had business in the city yesterday and dropped a dollar in the Eagle's strong box, for which we thank him.

—Sherwin—Williams paint is not a cheap paint but a good one. Harris & McCullough sell it.

Miss Nellie Cannon will leave this week, visiting for a few days in Goldthwaite and then going to Indian Gap, where she will teach in the public school this winter.—San Sabá News.

—C. P. C's. pretty colorings for dainty cakes for unique parties. Get the genuine. Mrs. D. Goode has it.

How To Treat Your Watch

A Watch is one of the most wonderful pieces of machinery ever constructed and is called upon to perform some wonderful duties. Yet, as a rule, it receives less care and attention than any piece of machinery made. A watch will keep the best time if wound at the same time each day. Be sure to wind it full up. Don't be careless with your watch. If possible, you should wear a chain on it to prevent dropping it. If it stops or goes wrong, don't fill it full of machine oil; that only makes matters worse. Don't open your watch and expose the movement to the dust. Don't pry into it and bother any of the parts. Take it to a reliable and competent jeweler and have it corrected as it ought to be, and you will find you will get good satisfaction and a pleasure from its use.

ICE CREAM SUPPER IN BIG VALLEY.

On last Saturday night the Mothers and Teachers club of Big Valley assisted by other citizens, prepared an ice cream supper at the beautiful arbor near the school house. The purpose was two-fold—social and financial. The small charge made for a big dish of cream was to obtain money for some needed repairs on the interior of the school house. So unexpectedly large was the attendance that the bountiful supply of cream was exhausted before all were satisfied to quit eating and drinking. It lasted long enough, however, to net the sum of \$46.60, which has been placed in the bank to the credit of the school.

Socially, it could not have been a greater success. All the throng of fathers, mothers, young folks, boys and girls and babies and visitors were happy throughout the occasion. Nobody was sad or embarrassed; everybody was happy and joyous. After a season of cream eating and conversation, the audience was called to order by a member of the school board, S. P. McPherson, who introduced Prof. A. J. Street, Superintendent of the Goldthwaite school. Prof. Street's address was full of good things from start to finish and served to keep him in the highest esteem of his hearers as a school man and a speaker. After his excellent address on education, Judge S. H. Allen was called and made a short talk. Throughout the period allotted to speaking, he said to the credit of Big Valley people, there was perfect quiet, and most respectful attention by all present. This in spite of the fact that the hour was late and it was an outdoor meeting, and a mixed crowd. Truly this meeting was a vindication of the school as a social center for the community. Communities are robbing themselves by neglecting such gatherings. Those of us who attended from Goldthwaite and elsewhere found the occasion one that made us glad we went. We want some more like it to go to.

Hurrah for Big Valley! She knows how to do things right and she does them.  
AN ATTENDANT.

DEATH'S VISITS.

Mr. Sellman, an old citizen of San Saba county, died at the home of his son-in-law, Mr. Noah Tyson, at Mullin Thursday afternoon, after a protracted illness. He came here from San Saba county about a month ago and was injured internally while unloading his wagon. He was carried to the home of Mr. Tyson and it was hoped for a time that he would recover, but the hope was in vain.

The Eagle extends sympathy to the bereaved family.

G. Tischler.

Mr. G. Tischler died at his home in Priddy community Wednesday afternoon. He was an old citizen of that community and owned a large farm and other valuable property. He had been a sufferer from some nervous affection for a number of years and while his death was not altogether unexpected, it was indeed a sad shock to his family and friends.

The Eagle extends sympathy to the bereaved.

CAMPAIGN FUNDS.

Hon. Cato Sells, Democratic national committeeman for Texas, is sending out appeals to the Democrats of this state to raise campaign funds for the national committee, and many counties in Texas have responded liberally to the call. Little if anything, has been done by the Mills county Democrats, but many of them will contribute to the fund if given an opportunity. County Chairman Jno. W. Roberts or Mr. Phil H. Clements will receive such donations and forward them to the proper persons. Contributions of any amount will be acceptable, but \$1 donations are especially solicited.

RAIN AND HAIL.

A good rain, accompanied by considerable hail, fell between Goldthwaite and South Bennett Sunday afternoon. The hail did much damage to cotton in some of the fields, but the rain was decidedly beneficial.

Rain fell in the North Brown community and from there to Priddy Sunday afternoon and as a result the grass will be improved, the land will be put in better condition for fall plowing and fall feed crops will be helped.

Rain has fallen at intervals during the week in nearly every part of the county.

test case of importance to all city seat towns will be made by Railroad Commission in an effort to compel the Santa Fe railway to obey the order of the Commission, and stop its fast trains at Meridian, the county seat of Bosque county. The Commission asks that mandamus be granted to force the road to stop its trains. The case will come up for trial in October.

Governor Colquitt, accompanied by Will H. Mayes, nominee for lieutenant governor, and B. F. Looney, nominee for attorney general, started on a tour of inspection of the penitentiaries and state convict farms this week. The party will inspect the system very thoroughly, with a view to suggesting some improvements to the next legislature, as well as making some changes now.

The arrest of Sidna Allen and his nephew, Wesley Edwards, who were the principals in the shooting in Hillsville, Va., court house last March, was affected in Des Moines, Iowa, Sunday afternoon and they were returned to the scene of the murders. A girl who was in love with Edwards left her home in Virginia to meet and marry him in Des Moines and detectives followed her, thereby locating the fugitives. It will be remembered that the men escaped after the shooting and were hunted in the mountains for several weeks by the officers, but could never be located.

A special from Baltimore, Md. says that on Babe, a little monkey that grimaces at visitors at the Biological laboratory of the Johns Hopkins university, rests the responsibility of determining whether his race is, or is not, related to the human tribe. There has hardly been an hour since he came into this world several weeks ago that he has not been under the surveillance of learned scientists. In the effort to forge Babe into the missing link between the ape and man, Dr. John E. Watson, director of the psychological laboratory, is the moving spirit, and it is under his direction that all the experiments are being made.

According to Dr. Wiley, the pure food expert, formerly in the employ of the national government, oysters eaten on the half-shell suffer great agony, for most of them are alive and when jabbed with a fork and sprinkled with sauce the pain to them is excruciating. Dr. Wiley says: "It is true that they are a very low order of life, but as they eat and drink, they must be live animals and have feeling. Imagine some monster coming to earth from Mars, who thought that its poor human beings were very succulent morsels of food when eaten alive. It would indeed be a nice sensation to be poked full of holes and covered with about six pounds of salt."

The postal department is notifying publishers of an act that becomes effective next month. The law requires that publishers shall file on the first days of April and October of each year, both with the postmaster general and the local postmaster, under penalty of denial of the use of the mails, a sworn statement of the names and addresses of the owners, publishers, editor, managing editor and business manager of their newspapers and periodicals. Religious, fraternal temperance and scientific publications are excepted. For a corporation the names of the holders of more than one per cent of the stocks, bonds or other securities must be given, and in the case of daily newspapers a statement of the average paid circulation for the preceding six months is required. All editorial or other reading matter appearing in a newspaper or magazine for the publication of which pay is accepted or promised must be marked "advertisement" under penalty of a fine of not less than \$50 or more than \$500.

A Bulletin man this morning observed a hand car in the Santa Fe yards here, upon which was all the equipment necessary for a surveying party. The car moved out east of town. The killing of Al Boyce by J. B. Sneed at Amarillo last Saturday afternoon added another chapter to the tragedies in the Sneed and Boyce families, which have resulted from Boyce's elopement with Mrs. Sneed from a sanitarium in Fort Worth, where she had been placed by her husband for treatment. Sneed believed his wife to be demented and this fact added to the outrage of her being taken away by Boyce. The run-away couple was overtaken in Canada and Mrs. Sneed was returned to the sanitarium in Fort Worth. Sneed subsequently killed old man Boyce and the tragedy of Saturday put an end to the operations of the principal in the case. He was struck by a handful of buckshot and many of them passed clear through him.

A minister down in Arkansas found his people too poor to purchase hymn books, says an exchange, so being offered the same book free by a patent medicine house, provided they be allowed to insert their advertisement, ordered three dozen for the congregation. He was elated upon receiving them to find no ad in same. The next Sunday he distributed the books, telling the brethren his good fortune, and requesting that they sing page 120. His chagrin may be imagined when they sang as follows: "Hark, the heavenly angels sing: 'Johnson's pills are just the thing. Hear the voices meek and mild—two for a man and one for a child.'"—Exchange.

P. L. Stuck, who returned a few days ago from a protracted stay in the Miles country, reported the drouth having cut the crops mighty short in that section.

## GOOD NEWS.

Many Goldthwaite Readers Have Heard It And Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Goldthwaite are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the old quaker remedy. Here is an example worth reading:

H. T. White, veterinary surgeon, Goldthwaite, Texas, says: "I was taken with sciatica about six years ago and was under the treatment of a good doctor who relieved me for awhile but the trouble would return. My back was so lame and painful that I could not get about. I did not sleep well, and arose in the morning feeling miserable in every way. I also had rheumatic twinges in my limbs. I tried plasters and many other remedies but got more relief from Doan's Kidney Pills, procured at R. E. Clements' Drug Store, than anything else I ever took. The first box relieved me and I continued the use of this remedy until I felt better in every way. I heartily recommend Doan's Kidney Pills to my neighbors."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## A BALLAD OF LIFE'S DELIGHT.

By LOHN STARR.

O Life with her exquisite giving,  
Red lips and the roses as red!  
Sing ho! and its life for the living,  
And let the dead bury the Dead!

I have not a wish to live over  
This wonderful bountiful life,  
Though Life has been always my  
lover.

My mistress, my princess, my wife,  
We have raved and delighted and  
passioned

Through a splendid ineffable youth,  
And our wedded desire has fashioned  
Each form of art save the uncouth.

No desire, but we fled to pursue it,  
No folly, but was I'ool at our court,  
No sin, but we'd dare it and do it  
In frolic and exquisite sport.

No Giant Despair but we banded  
His brow with the iron of our rule,  
And set him, like Samson, blind-  
handed,  
To play in our palace the fool.

For us he slew lions at cry with us,  
While in indolent heart's-ease we  
chaffed;

We seduced his Delilah to lie with us,  
And pilfered his honey, and laughed.

O Life with her exquisite giving,  
Red lips and the roses as red!  
Sing ho! and its life for the living,  
And let the dead bury the Dead.

O Life, O sweet Life that begirt me,  
Like the white arms of Helen of  
Troy;

Neither Death nor his Master can  
hurt me,  
Nor help me nor save nor destroy.

As the priest at the altar the Master  
Of Life spoused my spirit to thee;  
We are one past defeat or disaster,  
We are one past his power to free.

Dear God, for this vital epousal  
Of Life and my soul, I upraise  
This heart-given hymn of carousal—  
'Tis my first and last word in Thy  
praise!

I raise it, a song of thanksgiving;  
Thank me back as my glad spirit  
flits,  
With such death as befits my man's  
living,  
So my soul and Thyself shall be-  
quits!

I shall lie with the Dead, and forever  
Without me shall ceaselessly roll  
The blind endless ages, but never  
Shall Life's spirit be free of my  
soul.

I have lived with sweet Life and  
caressed her;  
Whoever lives after must bear  
With the blood of my life on her  
vesture,  
With the tang of my kiss in her  
hair.

Gold-shod were her feet, and gold-  
banded  
Her brow with its fragrance of  
myrrh;

White-bosomed, white-armed and  
white-handed,  
Was the beautiful body of her.

Snow-white as the foam on the  
fountain  
All her beautiful body made bare;  
Utter white as the snow on the  
mountain,  
Save her eyes and her lips and  
her hair.

O Life with her exquisite giving,  
Red lips and the roses as red!  
Sing ho! and its life for the living,  
And let the dead bury the Dead.

O tawny gold eyes and gold tresses,  
O beautiful bosoms of bliss,  
O arms of a million caresses,  
O lips of one exquisite kiss!

(The above poem was published in The Stylus, a high class literary journal, in its issue of Sept. 7, and while the writer's name is given as Lohn Starr, those acquainted with the writings of Mr. Leonard Doughty know full well that he is the author. The Stylus characterizes the "Ballad of Life's Delight" as a remarkable poem and indeed it is and will be read with interest by Mr. Doughty's friends here.)

## MUSIC CLASS OPENED.

Miss Nora Hooks is now teaching music at her home, and will be glad for pupils to begin at any time. When the public school begins her studio will be near the college building. Those who desire to enter now or later are invited to call or phone at any time, and convenient hours will be arranged for lessons.

The Remington-UMC makes no other magazine

For singles—trap or field—just toss in a shell, press the button and—"PULL." The side bolt makes it easy. You don't have to tug at the barrel or watch an on-and-off device. The action stays open after each single shot is fired.—It always stays open when the magazine is empty. Five shots—three to get the cripples—each under absolute control of the trigger finger. The recoil reloads for you—kicks another shell in; takes the strain off the gun—the discomfort out of the kick—all without diminishing the drive behind the shot.

Simple take-down—a few turns of the readily handled magazine screw-cap makes cleaning, carrying and interchange of barrels quick and easy.

Send for a motion picture booklet telling how the kick is used—how a friction device found only on the Remington-UMC Autoloading Shotgun takes the punishment out of heavy loads.

**The Woman's Tonic**  
 Cardui has helped thousands of weak, tired, worn-out women, back to health. It has a gentle, tonic action on the womanly system. It goes to the cause of the trouble. It helps, it acts quickly, surely, safely. It has helped others. Will it help you? It will. Get a bottle today!

**COURT HOUSE BONDS.**  
 The election today is not to determine whether or not we will have a court house, but rather to determine whether the house will be built with money secured by the sale of bonds payable in from 10 to 40 years or will be built with county warrants payable whenever the money is in the treasury. The bonds will require an additional tax levy of 2 cents on the \$100 valuation over the present levy, or 7 cents on \$100 in the entirety, while the court has the authority to make a special levy to pay the warrants and that levy can be as much as 50 cents on \$100 valuation, if the court so desires. Notwithstanding the fact that the special levy will undoubtedly be much greater than the amount required by the bond system, the warrants can not be placed at face value and by that method we will get a house of perhaps one-third less value for the same amount.

The commissioners court is forced by law to provide or build a court house and as there are no court houses for rent in the county it will be necessary to build one. True some store building or similar place might be rented, but there would be no vaults for the records, quarters for the officers and provisions for the comfort and convenience of jurors and others having business in the courts and the argument in favor of renting quarters will have small weight with the mass of voters and the Eagle feels sure the commissioners have no idea of adopting such a plan.

The question is, shall we build a court house by issuing bonds or warrants. Which shall it be?

**A PLEASANT AFTERNOON.**  
 The Ladies Aid society of the Baptist church entertained their much loved member, Mrs. B. A. Harris, who is soon to leave us to make her home in Temple, Thursday afternoon at the home of Mrs. W. B. Jackson.

The occasion was pleasant yet sad for the ladies of the society knew they did not often have added to their ranks such members as Mrs. Harris. Such sterling Christian character as is found in her, and such unselfish and untiring service as she rendered is rare indeed.

A lovely hand painted register book was furnished by the society and during the afternoon every member wrote in it a good wish for our honored guest.

After enjoying several little contests, a Bible questioning and some sweet music, delicious refreshments of ice cream and cake were served. Then we all sang together Mrs. Harris' favorite song, "Just When I Need Him Most," after which the president of the Aid read the book of good wishes and presented it to our guest as a token of the society's love and appreciation for her. During the reading of this book scarcely a dry eye was to be seen for we all felt that we were suffering an irreparable loss in having to part from a much loved friend.

After singing "Blest Be The Tie That Binds" we were dismissed by a short prayer.

Dear friend, you shall dwell in our hearts,

Though you must be far away.

We can never refuse to do our parts—

Your life inspires us day by day.

In your new home may friends abound.

To bless your life as they do here.

Above all may the God of peace be round,

To keep and bless and love and cheer.

The God and Father of us all,

Take you dear friend in His great arms of love,

Keep you and loved ones, till His call

For you from that bright land above.

A MEMBER.

**KINGS DAUGHTERS.**

The Kings Daughters will meet with Mrs. J. H. Kelly next Tuesday afternoon at 3 o'clock. All members are requested to be present, as there is business to attend to.

**LOOKOUT SCHOOL HOUSE.**  
 Editor Eagle:  
 Health of this community is tolerably good.

Cotton picking is the order of the day. It is turning out just only tolerably good, not much cotton sold yet, waiting on the cotton co-operation.

The W. O. W. camp did some real fraternal work last week for Charlie Fulcher near Pottsville, who is down sick with typhoid fever. On Tuesday the 10th they picked 4443 pounds of cotton for him and on Friday, the 13th, they went back and picked 4330 pounds for Emmitt Fulcher and his father. Emmitt's little girl is down with the same fever, but was better at last report.

People want cotton pickers, but are unable to get them.

Well, Mr. Editor, there is a right smart fuss being made about the court house. I don't know whether that will build a house or not.

Having rain in some parts of the community. S. J.

**FAREWELL RECEPTION.**  
 The beautiful home of Mrs. G. N. Atkinson was open to the Art Embroidery club on Wednesday, Sept. 18, in honor of Mrs. Harris, who will leave for Temple in a few days to make her future home. Mrs. Harris was a charter member of the club, and it is with regret that we as a club lose her from our midst. On our arrival Wednesday afternoon we were met by our charming hostess and then served to punch. After a few moments of conversation, discussing our summer vacation, the hostess passed score cards for the game of "Forget-me-not." After several progressions Mrs. Clements was the lucky winner of the prize, a beautiful hand made collar, which she presented to the honoree. The booby, a hand made handkerchief, was won by Mrs. Faulkner, who also presented it to the honoree. We were then served to a delicious three course luncheon, after which we bade the hostess adieu, thanking her for the pleasant afternoon. REPORTER.

**RESOLUTIONS**

Duren, Sept. 15, 1912.

Whereas, the church at Duren and the Duren community have sustained an irreparable loss in the burning of the tabernacle at this place, and, whereas the county has lost thousands of dollars in the burning of her public buildings, viz: The calaboose at Mullin and the court house at Goldthwaite, all of which is believed to be the work of incendiaries and, whereas, we believe that our community has not only sustained a great loss in the burning of the tabernacle, but places a cloud over us that will be hard to remove, as public sentiment places this awful deed at the door of some one in this community, which if unrevealed places (to some extent) the guilt on the citizenship of Duren community, and, whereas, if such crimes go unwhipped of justice it will prove a blow to the very foundation of good government.

Therefore, be it resolved that we call upon all law abiding citizens to assist in every way possible to put down lawlessness of this kind as well as all lawlessness that so much disturbs the peace of good citizens.

Be it further resolved, that these resolutions be spread upon the record of the different churches now organized at Duren and sent to the Goldthwaite Eagle and Mullin Enterprise for publication.

This committee also examined the deed made by Mr. P. D. Duren to the school house lot and indorses his liberality in favoring the separate denominations with one Sunday each.

Respectfully submitted,

**THANKS FOR HELP.**

Editor Eagle:  
 We, the committee on preparations for the ice cream supper given at Big Valley Saturday night, Sept. 1, for the purpose of raising funds to repair the interior of our school building, wish to express, through the columns of your good paper, our appreciation to all who helped in making our supper such a success, and especially do we feel under many obligations to Judge Allen and Prof. Street for their good talks and liberal patronage at our supper. We hope to have them speak to our people again on the subject of education, when we have nothing else to do but listen, and consider the importance of their speeches.

We kindly remember and do appreciate the donation of 100 tickets by the Eagle Editor and 100 cones by J. D. Brown, druggist, which helped to make our supper a decided success. We took in \$46.60, expenses deducted leaving \$32.86 which the committee turned to our teacher, Miss Zora Alvis, to be appropriated for repairs on the school building.

 MRS. G. A. JARRETT, Committee.
