COUNTY MISSION WORK

To the Brotherhood:

A committee was appointed at the late fifth Sunday meeting, held at Mullin, whose duty it is to arrange and recommend measures for county mission work. This committee was called together by Chairman A. R. Watson on the 4th inst. Among the other things done the secretary was requested to ascertain the amount of money each church in the county will contribute to a county mission fund.

Beside the plan to write to each board member privately I am by the kindness of our papers asking the Baptist brotherhood to give the matter earnest thought and as soon as each church meets in business session decide on an amount to be given this week.

Some of the churches have already reported and so far these reports are encouraging.

With better system and promptness to any system we shall be able to do more mission work with less difficulty. As the missionary is to be settled with at least once a quarter, I suggest that the pledges be made as so much per quarter and so collected.

Brethren, please attend to this as soon as you have opportunity. The committee means to recommend a good and strong man for the work. All of us agree on the need of such a man. When you have decided what you can do, write me about it.

I am yours in hope,

L. L. HAYS.
Mullin, Tex., R. D. 1.

If you use your patronage as a means of collecting bad debts you force your cash paying customers who want your patronage to "stand off" their obligations in order to be on an equal footing with the hard pay man. See the point?

P. W. Boulton and Randolph Whitley were among the visitors from Mullin Monday.

Mrs. R. J. Atkinson returned Sunday night from a visit to San Angelo. Mrs. H. A. Atkinson came home with her for a visit.

Sam Ross was here from Fort Worth last Friday and bought several car loads of mules from the buyers here. The animals were shipped to his firm's barn in Fort Worth.

P. J. Kunkle of Priddy, who is preparing to move to the Corpus Christi section, was here the first of the week making arrangements for a warehouse in which to store his feed stuff and other goods preparatory to shipment to his new home.

Rev. H. P. Wilford has been called to the pastorate of the Baptist church at Rochelle and writes to have his paper changed from Mercury to that place. He is a Mills county boy and we are all proud of the success he has made in his life work.

Dormer Simms and his wife and her brother left the first of the week for San Antonio and other points in that section, prospecting, after a short visit to Judge E. B. Anderson and family and other relatives in this city.

Messrs. Tul and Chas. Ware, the former of Amarillo and the latter of Fort Worth, spent a part of Sunday afternoon visiting Judge P. H. Clements of this city. Messrs. Ware lived in Williams Ranch in its palmy days and the former was a merchant in that place when Judge Clements was the superintendent of public schools in that prosperous city.

Miss Ruth Brazill arrived Saturday morning for a few days visit to the home of her uncle and aunt, Mr. and Mrs. B. P. Lee of this city. Miss Brazill is just from Austin, where she has been taking a course in the law department of the University. She will be associated with a law firm in south Texas. Miss Brazill is employed by Judge Hall of Wharton as stenographer and is one of the most popular young ladies of Wharton.

IRRIGATION CONGRESS

President Taft sent a message to the irrigation congress at Salt Lake City that he was in "full sympathy with the problem of farm irrigation."

Governor Woodrow Wilson's views which were forwarded for presentation, expressed "hearty approval of conservation of storm and flood waters for irrigation, water power and feeding of navigable streams."

Senator Reed Smoot speaking on general themes, said that "the emigration of Americans to Canada proved that there was something the matter with our land and settlers' laws, which needed more liberalizing." Continuing, he said that "our natural resources should be utilized according to our present needs. To conserve for unborn generations is wrong."

The general feelings of the convention were that storm and flood waters should be stored and conserved for gradual use, thus preventing floods and using flood waters for irrigation, water power and the feeding of navigable streams.

Texas has enough water above and below the ground to make the state a garden patch. The next thing is to know how to save and apply it the most economically and to the best advantage in gradual and wide spread utilization. That the state should waste no time in solving the problem, is the opinion of all.—Commercial Secretaries.

The commissioner of agriculture of Tennessee in a recent report said that it cost the farmers of that state \$8,000,000 to haul to market their products, amounting to \$130,000,000, the hauling thus costing over one-thirteenth of the value. "Had we an improved system of highways this cost would have been reduced at least 50 per cent, and the farmers would have saved \$4,000,000, or enough money to have built 1800 miles of first-class macadamized road."—Commercial Secretaries.

O. N. Hamilton was a business visitor from Star one day this week.

F. Leineweber was a business visitor from Mullin one day this week.

J. D. Priddy and H. E. Dalton have been in the western part of the state this week, buying mules.

A great many farmers are getting their ground ready to sow oats, wheat, barley or other crops.

Rev. Wolters of Priddy returned the first of the week from Eden, where he had been to fill a preaching appointment.

Mrs. M. J. Baskin will hereafter receive the Eagle at Murrucross, Ala. by order of her brother, Mr. J. T. Prater, of this city.

Mrs. K. F. Cunningham arrived from Bonus Tuesday morning for a visit to her home folk. She is just recovering from a severe sick spell.

A number of wagons were here from Caradan country Monday hauling lumber for W. A. Couch to build a new house on the site his home was burned last week.

Mr. and Mrs. W. S. Miller of Big Valley left Monday for Elgin, to attend a reunion of his brigade and expected to spend a few days with relatives in and around Bastrop.

R. H. Patterson returned to his home at Star last Saturday, after spending several days in Temple with his wife, who is in the hospital. He reported her improving.

The cause for the suicide of Thos. J. Ryan, a Democratic leader in Philadelphia and a man prominent throughout the country, is said to be a complete mystery. He shot himself through the head as he sat in his office in Philadelphia Sunday.

The Eagle always appreciates communications regarding local happenings and thanks its friends for writing such letters, but must know who does the writing. The names of writers are not published, unless they desire such publication, but the editor must know the names of those sending in the communication.

ANTELOPE GAP.

Editor Eagle:
 Well, as I have wakened from my slumber, I will give you a few items. It is still dry here. No rains in several months. Stock water is scarce. The Laughlins and Armstrongs have to drive their stock about two miles to the creek to water.

Nearly every one is about through picking cotton. Have some late cotton to pick.
 Mr. and Mrs. Bradley are spending a few days with their daughter, Mrs. C. H. Black. Mrs. Bradley's health is somewhat improved.

Misses Mary Smith and Ora Ford went to Goldthwaite last week to enter the High school at that place. Mr. and Mrs. Strayley also moved to Goldthwaite to get the benefit of the school.

Mr. Will Fox and lady of near Lam pasas came up Friday to spend several days with Mrs. Fox's parents, Mr. and Mrs. R. D. Evans.

Miss Lora Maund went to Goldthwaite to stay awhile.

Webb Laughlin was up Sunday to see home folks. Mrs. Laughlin's little brother, Relliegh, went home with them to spend the week.

Miss Emma Judd is spending this week with Mrs. Harber. Mr. Harber is still with his father.

Jess Reese, J. D. and Hassell Ford are picking cotton for Mr. Byrant and attending the singing school at the Kelley school house. Mr. Kirby taught the singing school here at the Gap. He is certainly a fine teacher and understands his work.

They have singing at the Gap every Sunday eve. Everybody is invited to come and take part in singing.

The school starts at the Gap school house Monday, Oct. 14. Let all the pupils be ready and at school the first day. Miss Rosa Keese is the teacher for this term. We hope she will teach us as fine a school as Miss Snow Reed did last term.

Two men came up to look at the Nail & Madden ranch Sunday, but have never learned whether they sold or no. Mr. Nail also came in with the men.

Hardy Bradley came down from Brownwood Sunday to see his mother.

John Kuykendall and his sister, Mrs. Munsey, spent the day in Goldthwaite Monday.

Brother Dillard will fill his regular appointment Saturday and Sunday. Let all come that can, also to the singing in the evening.

OUR FRIENDS.

Notwithstanding the price of cotton has been lower this week than for several weeks previous and there have been other hindrances, a number of the Eagle's friends have renewed their subscriptions. Some of these have been readers of the paper ever since it was established and their friendship and continued patronage are appreciated by us to the fullest extent. Those who have renewed since last report are:

A package containing \$200,000 consigned to a bank in New York from a bank in Havana disappeared a few days ago and there is little hope of recovering it, as some of the bills known to have been included in the shipment have been put in circulation and it is likely the thief has made a complete get-away.

A frightful accident was reported from Arlington, between Dallas and Fort Worth Sunday night when a blacksmith from Palmer ran his auto on to the interurban track immediately in front of an interurban car and he, his wife and two children, his sister and her child were all instantly killed and the bodies of the women and children were terribly mangled beneath the wheels of the interurban. There appears to have been no reason for the accident, as the driver of the car and the motorman were in plain view of both roads for a quarter of a mile before they ran together and each could have seen and doubtless did see the other approaching.

REAPING BENEFIT

From The Experience of Goldthwaite People

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Goldthwaite residents on the following subject will interest and benefit many of our readers. Read this statement. No better proof can be had.

W. C. Frazier, farmer, Goldthwaite, Texas, says: "We have used Doan's Kidney Pills in our family and they have proven of great benefit. A member of the household had been suffering for a long time from her kidneys. There were pains in her back and she was laid up in bed. The kidney secretions were unnatural and caused her much annoyance. I had seen Doan's Kidney Pills advertised and I procured a box at R. E. Clements' drug store. She began taking them and a few doses improved her condition. The pain in the back left and in a short time the kidneys were normal. Since then we have had great faith in Doan's Kidney Pills and can safely recommend them for kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SAVED BY HIS WIFE.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is of that kind. "She insisted on my using Dr. Kings New Discovery" writes Mr. Flint, "for a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds. It's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. 50c and \$1.00. Guaranteed by R. E. Clements. (adv.)

A FINE FARM.

Ernest was injured some months ago by jumping from a house which was on fire.

A freight train wrecked at Mount Vernon, Ohio, a few days ago and one of the cars contained medicines in tablet form. The tablets were scattered all over the ground in every direction and children passing en route home from school filled their pockets with the tablets and many ate the tablets. As a result there was a hurry call for physicians from every direction and many of the children were critically sick.

In the economy of nature nothing is presumed to be idle, and it is where the greatest number of idle men and women are found that hard times exist and where the greatest degree of poverty prevails. Where everybody is busy, money is kept in circulation and each person gets a portion of it; therefore, idleness should be discouraged by moral examples, and it is hoped the time will soon come when every person will be induced to do something to help keep the world moving and to benefit his fellow men.—San Antonio Express.

CLUB MEETING

The Self Culture club met on Thursday, Oct. 10, with Mrs. Floyd Mullan as hostess. Several of its members were out of town and others unavoidably detained at home, so the attendance was not as full as usual.

The President, Mrs. Randolph, was not with us. She has been gone about two weeks and returned on the night of the 10th.

Mrs. J. C. Street gave a reading the club enjoyed very much.

Mrs. Keeling of Brownwood, a relative of Mrs. Gillespie, was a pleasant visitor to the club.

After the business session and lesson was over the hostess served delightful refreshments.

Subscribers who fail to receive their papers regularly are requested to notify this office. Sometimes it is our mistake, for our list is extremely large now—larger than any time in the history of the paper's publication—and it is most impossible to prevent an occasional mistake in the rush and hurry incident to making up the mails, but we strive to prevent errors and always gladly correct them. Don't think we have stopped your paper, but notify us of its failure to arrive promptly and if it is not our fault we will make a "roar" to the "other fellow" and see that a second mistake is not made in the same way.

—Every sack of flour is guaranteed—Harper & Barrow.

The Democratic campaign committee is badly in need of funds and those interested in the success of the party should contribute to its expenses. In the Democratic party no one man should have any more interest than any other man and, therefore, it is a common cause that demands attention. Some men have been liberal in their contributions, but the popular subscription plan of \$1 has been brought to the attention of the people in all sections of the country and nearly every Democratic voter desires that much investment in the cause. The Democratic women have also undertaken to raise funds for the campaign and are meeting with much success. The school teachers are taking part and the rock-ribbed old Democrats who affiliate with no organization or body except the Democratic party will not be lacking in their duty when the final test comes.

Proceedings have been begun in New York, backed by the National Publishers association, to prevent the postmaster general from enforcing the provisions of the new law, which requires the publication of the number of actual subscribers daily papers have and the labeling of all advertising, as well as other requirements before a paper can be sent through the mail. The Eagle believes the law a good one, notwithstanding some of its requirements cause annoyance. An honest publisher should not object to making oath to the number of subscribers to his publication, for if he accepts the advertiser's money on representations that he will not swear to be obtaining money under false pretenses and is no better than any other thief.

An Associated Press report from Paris, France, relative to the trouble in the Balkans, says: "A general conflagration in the Balkans is expected by officials here within 48 hours. Montenegro's declaration of war against Turkey is regarded as the beginning. It is believed other units in the Balkan coalition will follow suit as soon as the mobilization of their armies is complete. There is only a faint hope now that representations of the powers will avert hostilities. Montenegro's move is considered in Paris to be part of a pre-arranged plan. It is asserted Greece was first selected by the Balkan confederation to force the issue and inaugurate the war. Greece however, declined to accept the responsibility for starting the flame of battle. Montenegro then was picked. She had a long standing quarrel with Turkey over the boundary question and Turkey's refusal to grant satisfaction was seized upon as justification for Montenegro's resort to arms."
