A special from Brownwood under date of Wednesday says: "A. C. Bray, a man 39 years of age, confined two days ago here in the county jail on charges of bootlegging, died sometime during the night last night in the county jail. Bray was an excessively fat man and it is thought that the intense heat probably caused his death. Another inmate of the same cell was unaware of Bray's death until he awoke this morning and noted that Bray was crouched in one corner of the cell. He called the jailer and found the man dead. Bray has two brothers in Douglas, Ariz., and a mother near Bangs, in this county."

### A CHAPTER OF ACCIDENTS.

A special to the Temple Telegram of Monday says: "A Brownwood physician was called to Mullin today to attend three persons who had suffered broken limbs. The 5 year old daughter of John T. Allen was run over by a wagon and her left thigh bone broken. An hour later the six year old daughter of Emery Singleton was swinging on a limb of a tree over a wagon when she fell into the wagon and suffered a compound fracture of the elbow, the bones protruding through the flesh. Thirty minutes later and just as the Brownwood doctor arrived "Grandma" Vaughn, 80 years of age, slipped and fell while trying to walk in the mud, and broke her hip and is tonight in a serious condition."

The Eagle learns that Mrs. Vaughn died Tuesday night.

The total number of goats on all the farms and ranges of Texas is 1,135,344 and are valued at \$2,21 each, making a total value of \$ 2,514,977. Two per cent, or 7,937 of the 417,770 farms of this state raise goats.

Constantly changing are the problems and opportunities in life. The graduates of today face a far different future than did their predecessors of a half or a quarter of a century ago. The opportunities which lie before the young people are steadily broadening, the educational advantages are continually being bettered and the effort to give them a larger number is showing its good results in all directions. Education proves its value many times to those who have profited from it or watched others do so, and while there is a chance at the top for all, it is the one who is better prepared through education who is in demand. It is not alone those who go into the professions who can profit from a college education. The college graduate is needed in business as well as in the professions. Such an education does not bar him, however, from plenty of positions of remuneration and prospects, but simply increases his qualifications. The college diploma is not necessarily a key to the road to success, but serves to overcome many of the obstacles which would otherwise intervene. The training which is gained in securing an education can not help but prove a valuable asset in the life of every young person if it is put to proper use, and today there are constantly increasing opportunities for putting it to such use in all lines of effort. It is the taking of advantage of the educational opportunities which equip for the acceptance of the opportunities of life.—Norwich Bulletin.

The constitutional amendment allowing the legislature to issue large quantities of bonds for the University and to build another A. & M. college will be "snowed under" good and plenty by the people of this state. The plan to build an A. & M. college at Austin is especially unreasonable at this time, when hundreds of thousands of dollars have been expended on the institution at College Station and some of the improvements have scarcely been completed.

Postmaster General Burleson requested the postmaster at San Francisco to resign, but that gentleman replied that he was appointed by a former president and had several years yet to serve and would not resign. The postmaster general now announces that the gentleman can either resign or be fired.

High water caused the loss of one bent of the Orient railroad bridge across the Colorado river in Coke county Thursday.

### CHANGES IN POSTAL REGULATIONS.

The following important changes in the postal regulations became effective July 1.

Parcel post stamps and ordinary postage stamps will be interchangeable on all classes of mail matter. Heretofore parcel post packages required special parcel post stamps, but ordinary postage is now permissible on parcel post packages, and parcel post stamps may be used on letters or other mail matter.

No more parcel post stamps will be made, but they will be issued from the Bureau of Engraving and Printing until the supply now on hand is exhausted.

A merchandise package may be insured against loss up to the value of \$25 for a fee of 5 cents, instead of 10 cents as heretofore. Parcels valued at \$25 or over will be insured for 10 cents as heretofore applied to all parcels.

"I believe that the country, which God made, is more beautiful than the city, which man made; that life out of doors and in touch with the earth is the natural life of man. I believe that work is work wherever we find it, but that work with Nature is more inspiring than work with the most intricate machinery. I believe that the dignity of labor depends not on what you do, but how you do it; that opportunity comes to a boy on a farm as often as to a boy in the city; that life is larger and freer and happier on the farm than in town; that my success depends not upon my location, but upon myself; not upon my dreams, but upon what I actually do; not upon luck, but upon pluck. I believe in working while you work, and playing while you play, and giving and demanding a square deal in every act of life."—Suburban Life Magazine.

### The Best Medicine in the World.

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For sale by R. E. Clements. (Advertisement.)

Thousands of dollars damage was done at Greenville Wednesday night by storm and rain. Many people in the low lands were forced to abandon their homes on account of high water.

### SHERIFF'S SALE.

The State of Texas—County of Mills. NOTICE IS HEREBY GIVEN, That by virtue of a certain order of sale issued out of the Honorable District Court of Mills county, on the 3rd day of July, 1913, by L. E. Booker, Clerk of said court, for the sum of Three hundred and forty seven (347.00) Dollars and costs of suit, under a foreclosure decree, in favor of Henry Morris in a certain cause in said Court, No. 1320, and styled Henry Morris vs. J. T. Owens et al., placed in my hands for service, I, E. O. Priddy, as sheriff of Mills County, Texas, did, on the 3rd day of July, 1913, levy on certain real estate situated in Mills County, Texas, described as follows, to-wit:

The west one half (1/2) of the A. J. Allen survey No. 2 (2) in Mills County, Texas, located by virtue of Certificate No. 1077, sold and awarded by the Commissioner of the General Land office to J. S. Casbeer on May 23, 1898, and levied upon as the property of J. T. Owens.

And that on the first Tuesday in August, 1913, the same being the 5th day of said month, at the court house door of Mills County, in the city of Goldthwaite, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said J. T. Owens.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Goldthwaite Eagle, a newspaper published in Mills County.

Witness my hand this 3rd day of July, 1913. E. O. PRIDDY.

Sheriff Mills County, Texas.

### PLANT FEED CROPS.

The good rains of the last few weeks have put the ground in good condition in most of the county and the farmers who plant maize or other feed crops will be glad of their work, the Eagle believes. It is safe to estimate that there will be a fairly good corn crop in the county and in case of another rain on the corn the yield will be sure to be good, except in cases where the dry weather injured the crop some weeks ago, but where a good crop of maize is grown and a full crop of corn is gathered the revenue will be greater to the farmer and will save many dollars being sent out of the county for stock feed. Many experienced farmers are planting feed crops now.

Several fresh Jersey cows to sell.—J. C. Street.

Bargains in second hand saddles.—Cockrum & Rudd.

Sliced ham in any quantity at our market.—Marshall & Dickerson.

W. W. Condon has moved into his nice new residence on Parker street.

Miss Zella Prater left Tuesday night for Nevada, Texas, to visit her sister.

Charley Harris came in from Temple this week for a visit to relatives and friends.

Mrs. L. T. Brashear has been quite sick for some time at the family home west of this city.

Mrs. Zulke has returned to her home in San Antonio, after a visit to Henry Martin's family in this city.

Mrs. Beulah Sanders of Mullin arrived yesterday for a visit to her parents, Mr. and Mrs. Canady, east of town.

Claude Eacott is repainting his residence and making other improvements on it, which will add greatly to its comfort and appearance.

Hides—We are better prepared this year than ever before to handle hides, fur and beeswax.—Hudson & Rahl.

Good rains fell in several communities of the county last Saturday and again Sunday. The rain gauge at the Trent bank showed one-half inch rainfall in Goldthwaite.

For Sale—A good fresh Jersey cow to sell cheap for cash or trade for a horse. Apply to L. E. Booker, district clerk.

Mrs. Stokes and children of Carlsbad, who have been visiting her brother, Mr. S. H. Woody, and family and other relatives here, left for their home Monday morning.

If you are thinking of buying furniture, matting, rugs or anything in furnishing your home see us before buying. We will save you money.—Weems & Burks.

Tax Assessor A. E. Evans, assisted by his brother Will, has been busy for some days compiling the 1913 tax rolls and will have them ready for the court's inspection in a few weeks.

If you intend to sell land get your abstract of the title thereto prepared first, otherwise the delay in perfecting your title may cause you to miss a sale.—E. B. ANDERSON, Abstractor.

Lost—On the Center City road last Friday a sack of oats somewhere between Mr. Obenhaus' place and the Harwell place. Finder will please notify me personally or by rural phone at Goldthwaite.—W. D. Fuller.

Those who read every line in this paper are the best posted on local, county, state, national and world wide subjects. Try reading every line every week for a year and you will be surprised at the benefits you will receive.

Horace Potter had the misfortune to step on a nail while engaged in carpenter work one day this week and has since been on crutches as a result. The nail penetrated quite a distance into his foot and made quite a painful wound.

Weems & Burks have pretty new furniture to trade for stock, second hand furniture or nearly anything.

Attention is directed to the attractive advertisement of Daniel Baker college of Brownwood, which appears in this paper. This is one of the leading colleges of the state and the Eagle feels that its readers will make no mistake if they patronize this splendid school.

F. L. Young of London, England, is in the city visiting his brother, C. S. Young, the engineer and general supervisor of the court house building. The young man came here direct from New York City and is necessarily much pleased with this country, which his brother says is the best outside of their native land.

The Star State Bank has just had printed at the Eagle office a lot of Telephone directories on calendar forms for the convenience of telephone users in that section. The Star bank is always progressive and up-to-the-minute and the people of that community should feel proud of that institution.

POSTOFFICE TO BE ESTABLISHED

It now seems certain the postoffice will be established at Priddy in the near future and in course of time a mail route will be established to that place. It is hoped the route will start from Goldthwaite, for the people of the community would be served to a better advantage in that way. The following letter to the Eagle editor from Congressman Slayden gives an account of what has been determined by the department and it also shows that Mr. Slayden has been giving the matter the proper attention: Washington D. C. June 30. Mr. R. M. Thompson, Goldthwaite, Texas.

My dear Mr. Thompson: Herewith I beg to hand you copy of a letter that I have just received from the fourth assistant postmaster general stating that the postoffice at Priddy in Mills county, would be re-established upon completion of certain necessary details. For the present the postoffice will be supplied with locked pouch service over the rural route from Indian Gap. That arrangement will continue until the business of the Priddy postoffice develops and the department can determine what character of mail service will be required to meet the needs of the community.

Yours most truly,  
JAMES L. SLAYDEN.

MERCANTILE TO MOVE.

Mr. H. F. Martin, business manager for the Goldthwaite Mercantile Co., announces this week that his company will move their stock to Frisco, Texas, on the first of the coming month. The reason for the change is a desire to concentrate the company's business as near Dallas as possible, making the general supervision more convenient for Mr. Hudson and putting the stores in better condition to co-operate.

This company has been in business here for a long time, having bought B. A. Harris' dry goods store in this city. This is one of the largest stores in the city and its management has always been liberal toward the public enterprises of the town and county and has borne its full share of advancing the interests of the town and county and the announcement by the manager is received with genuine regret by everybody. Mr. Martin and his family have only been here a short time, but they have made many friends here who will be sorry to part with them.

FARM FACTS.

(By Peter Radford, President Farmers' Union.)

Farming is the most fascinating game in the world.

The farmer is the most conservative person on earth.

We want material as well as political prosperity.

Let us have organized production instead of over production.

Planters are as essential to our prosperity as rough-riders.

The secret of success in all business is constancy of purpose.

Have you ever stopped to think what it means when the horse sighs?

Fine sense and exalted sense are not so useful as common sense.

Birds are nature's equalizers. They protect the crops and should be protected.

There is a market side to agriculture that does not reflect its hardships in production.

It is poor policy to follow a crop to the harvest field and there let it rot for the want of a market.

The only incentive which should be recognized in farming is making a profit from the sale of the product.

As you start the plow you feel your soul uplifted and your life takes on new power—that is the inspiration of the soil.

The Fair is a good place to exchange practical results and experiences and a few moments study and conversation will save time and labor.

The farmer need not take off his hat to any man. He is as good as anybody and if he will only believe it himself no one will think of disputing it.

The men who give us the sickle, the binder, the cotton gin and hundreds of other valuable inventions work in every field on earth will continue their labors as long as time.

The products of fancy farming are of no educational value and should not be permitted on the fair grounds unless properly labeled and exhibited solely for the amusement of the sightseers.

**TEXAS FARM LIFE COMMISSION.**

Naples, Italy, June 19—In my last paper I stated that the Italy of 20 years ago is not the Italy of today, and that Rural Credits had done more to bring the change than any other one thing. Let us examine the underlying cause of this great productivity of this country. I need go no further than the two words, "Credit" and "Co-operation."

In speaking of the most powerful influences in the world's advancement, Mr. Fowler places the invention of printing first and credit second. Printing first because it opens up the paths of knowledge to the poorest as well as the richest and completely destroys the supremacy of wealth in the acquisition of knowledge. The second most powerful agent in the advancement of the human race is that instrumentality called "Credit" says the author, by which all the resources of the human mind have been developed and brought into requisition in meeting the ever increasing demands of mankind throughout the world. It has destroyed the supremacy of money and proved the means by which the most humble of the race can place his foot upon the ladder of opulence.

Credit is certainly the gateway to opportunity and opportunity is the everlasting hope of the world. Without credit no development. Credit builds state houses, court houses, improves highways, builds electrical and steam railroads, telegraph and telephone lines, ships to sail the seas, and loads them with valuable cargoes; credit has built our cities, for there is credit to build houses and carry on business in our cities; credit builds factories and moves our farm products to the factories, through them, and back to the consumers. The nations of the world must have credit or they will fall to pieces. Credit raises armies and supports navies. The nation with the largest credit is today the most powerful. Surely credit is the touchstone of success in every undertaking.

Is it any wonder that agriculture should have gained such magic quickening wherever systems of credit suited to its needs have been provided? Is it not a most anomalous condition in the world of business and industry when that industry which produces the wealth and which is the basis of all wealth, upon which all business is dependent, should be the only industry in our country for which no system of financing has been provided?

How long will the people of the United States continue to ignore the great needs of agriculture for institutions that are organized to meet the financial needs of their great industry, agriculture?

If a system of credit is to be worked out for agricultural America, hope it will be on the basis of cooperation, just as has been done in Europe. The farmers over there, by their co-operative rural banks, learn to be business men. They also learn the value of character, punctuality and thrift.

Let me quote the words of Luigi Einaudi, who was the father of the popular banks of Italy and who addressed our Commission at Rome the other day. Said he, "The rural bank, for instance, which arose without capital, rich only in its resource of human trust and mutual solidarity, is the fruit of the modest, unrecognized virtues of the country folks, bound together by bonds of mutual affection, who assist and watch over each other with the subtle vigilance of neighbors. And, lo and behold, these humble folk, void of economic lore, have accomplished a miracle, due to the fact that a moral and not a material impulse guided their work—the miracle of creating capital without nothing. They have succeeded in coining their simple good faith and their honor, and in transforming them into concrete credit—so rebellious to all idealistic considerations, promises of payment guaranteed only by their obscure immortal souls. And now in Germany and in all other countries which have followed in its footsteps, the business transacted by these banks, founded without capital and which have laboriously built up their own reserve funds, amounts to several billion each year and they represent the billionaires of agrarian poverty."

Mr. Wolk, in his most valuable work on the Peoples Banks, says of the co-operative banks: "Now see how co-operation of this kind acts up-

on the men who engage in it. It knits people very much more closely together; it enlists very much higher sentiments than the mere pursuit of gain. It links interest. It binds people together as with the tie of one single family, bringing sentiment, aspiration, the consciousness of common needs into co-operative enterprise. And it opens the doors through which others not needy themselves, wishing to help rather than to be helped, may legitimately come in, but by helping people to help themselves.

Be it remembered that these institutions are built upon the solid principle of strict self-help. The member is given an opportunity to help himself, but nothing else is done for him. It is recorded that in every instance where either the state or some rich individual has undertaken to give money to start these institutions, the enterprise has failed. The reason is that farmers desire only opportunity and not gifts and prizes.

Members of our Commission are saying that the people of America will never be able to get together in one of these rural credit banks. This may be true, but if true it will be without any just reason. Italy is the very melting pot of Europe. Here are every nationality of people and religious differences far more fixed than in America. Then too fifty per cent of the Italian farmers cannot read. Surely conditions for the organization of rural credit associations are far more favorable in Texas than in Italy. That is if laws are given our people under which they are accorded the opportunity to organize.

Some of our Commission are saying that farmers of America will never join an unlimited credit society and thereby become responsible for the default of others. I myself am not so sure about that. When they get to thinking they will soon see that they are now paying the default of others. Every bank which lends money to farmers and every merchant who sells goods on credit to farmers calculates to have some losses but the interest in the one case and the profits in the other take care of the losses. Would a rural credit bank not be as able to select honest members and make only good loans as our commercial banks, and would not they be as likely to extend credit to their members as do merchants?

Think it over and see if the advantage in extending credit is not with the Rural Credit Bank through which neighbors deal with neighbors only. Upon this principle are built these rural credit banks, and they have an economic fitness, which is where they are successful.

S. A. LINDSEY, Chairman.

## OUR LOMETA STORE.

To Our Friends and Customers:

The firm of LITTLE & SONS has taken a long lease on a building in Lometa and expects to locate a store there.

We have been in Goldthwaite 12 years and also in Hamilton, Texas, 2 years, and we have made good at both places. We go to Lometa with the same expectations. We expect to SELL STRICTLY FOR CASH and to have One Price and treat everyone just the same in every transaction. We have made this a rule and we think it pays, and we always try to do our part in everything that comes up. In fact, we will treat you right if you will let us.

We have two large Dry Goods houses and will have the third one when we get in at Lometa. We visit St. Louis and New York twice a year and buy our goods a great deal cheaper by buying them in quantities. We stay several weeks in New York and thus get bargains that other buyers never see. If you will visit our stores at the beginning of the season, you can readily see why we can make it pay by buying in quantities and making prices that will get the business.

We invite everyone to keep the LITTLE firm in mind, for they make "Little" prices and there is nothing too "Little" in the way of a mistake that might occur that we are not glad to correct. So don't forget the LITTLE firm—first at Goldthwaite, later at Hamilton, Texas, and now at Lometa, where we shall carry as large a stock as the town will justify—and that will be a large one. We expect to get opened up ready for business by the first of September.

#### A WOMAN'S CREED.

I do not ask Thee to lighten my burdens but to give me greater strength with which to bear them. Give me gentleness, serenity and cheerfulness with strength, so that others may not know how heavily laden I am.

Wreath my face in smiles, that none but Thee may see the tears. Let the wounds in my heart make me ever considerate of the hurts of others. Help me to understand, that I may feed other souls with the sweet sympathy for which my own is a-hungered.

Enable me to face the hard experience of life without flinching. Give me the courage of my convictions that I may live up to the light I have. Enlarge the scope of my usefulness that the satisfaction of work well done may appease the hunger of desire and bring content.

On the dial of life mark the tragic moments, that in the brighter hours I may not forget my life's lessons nor fail to profit by my mistakes.

If I may not be loved, give me the capacity to love, richly devoted, unselfishly, carelessly, and let the welling springs of love flow out from my heart, quenching the soul-thirst of all humankind.

If my arms may not know the bliss of caressing, may they, in spirit gather to my breast the whole heart-hungry world. If my lips may not know the touch of other lips may they ever be kissed with sweet words of helpfulness for the downcast and sorrowing.

Make me compassionate toward others, ever mindful of my own frailties, and let there be no room in my heart for bitterness.

Ere the life-light goes out give me one who understands.

—KATHERINE M. BLACKFORD.

FROM MRS. VAN GLAHN,  
Los Angeles, Cal.  
June 27, 1913.

Editor Eagle:

This month "Time's Year Hand" stands at half past 1913. June days are gliding by very swiftly, and so far the weather has been unnatural; yesterday a record that has stood for thirty-five years, ever since weather records were kept in Los Angeles, was broken. At 4:30 p. m. a winter rain began falling and continued throughout the night. This freak storm was general throughout the state. Snow fell in the higher peaks of San Bernadino mountains; think of it! A June snow! The people in this city are wearing coats and furs I find a fire very acceptable and comfortable.

Today, the 27th, I have passed my seventy-seventh milestone in life's journey; have recently had conferred upon me the honor of "Great Grand Mother" by the arrival of William White Nefay, on the 29th of May, son of D. W. and Jennie Mae Nefay. "Grandma" White is feeling quite venerable and proud of her grandson.

I am sending you a book describing "Thornycroft Farm," a delightful home for the sick or convalescent. Many persons in good health take advantage of this delightful resort. It is seven miles from Los Angeles, situated in the beautiful San Fernando valley, in a grove of oranges, lemons, apricots, pears, figs and other fruits. Elevation 7,000 feet; climate ideal. Miss Maude White has half interest in the business in connection with her work at College of Osteopathy, 321, Sekill street, where she has been for four years and still is manager of the Clinics. Should any of the Mills county people need perfect rest from dust they can find it at the "Thornycroft Farm" with every luxury of both city and country.

I hear through our young friends, Arch and Carroll Rodgers, that their grandparents, Mr. and Mrs. Henry Baker of Mullin, Texas, returned home with their daughter, Mrs. Thos. Baird, and will spend the summer at Belle Flower, a few miles from this city, the home of Mr. and Mrs. Baird.

After a most delightful visit to her parents at Overton, Texas, Dr. and Mrs. A. W. Barton, Mrs. Snead returned to this city the 14th inst. to the delight of her husband and also her friends.

I must now mention a little Texas girl of whom I am very proud, Miss Hallie Hutchenson Poole. She graduated last week from the grammar school with honor, and will enter, next term, either the Polytechnic or Manual Art High School.

I look forward to the coming of the Eagle with its messages from dear old Goldthwaite, with increased interest. G. V. M.

**THINGS IN GENERAL.**

The president insists upon congress giving the country a panicleless financial system and those whose vision is sufficiently acute to penetrate the dense fog surrounding our currency plans are framing up their bills, and chieftains who have grown gray in the service of the dollar will now be in the spot lights of publicity. Many of us who are unable to make money faster than others can take it away from us would like to see a system evolved that would make two dollars grow where one grew before and a currency system adopted that would keep us out of the net of the get-rich-quick fisherman. There are so few people that can work these financial systems. We need to get them down where the common people can turn the combination.

It is quite a common sight in Texas to see farmers drive to the harvest fields in automobiles. It takes a solemn sum of money to buy an automobile and it takes good roads as well as a gasoline to run them. A joy ride in the Texas harvest field is one of the most exhilarating experiences that is available on this continent and one that would charm a tourist and convince a homeseeker. A speedway lined with wheat fields that yield 50 bushels to the acre and oats twice that quantity is a landscape that one seldom tours through in a lifetime. In mapping out automobile routes the Texas harvest field should be given prominent position.—Commercial Secretaries.

Says Dodson's Liver Tone is the Best Remedy for Constipation and Shirking Liver he has Ever Sold.

Every person who has tried Dodson's Liver Tone and knows how surely and gently it starts the liver to working and relieves biliousness will bear out the Clements drug store in this statement about Dodson's Liver Tone.

"It is a purely vegetable liquid, that entirely takes the place of calomel, harmless and pleasant to the taste, that has proven itself the most satisfactory remedy for a slow-working liver that most of our customers have ever tried. A large bottle sells for fifty cents and we do not hesitate to give the money back to any person who tries a bottle on the strength of this statement and is not satisfied with the result."

In these days of doubtful medicines and dangerous drugs, a statement like the above is a pleasant assurance that Dodson's Liver Tone is a reliable remedy for both children and grown-ups. In buying a bottle for immediate or future use it is well to make sure you are getting the genuine Dodson's Liver Tone and not some spurious imitation that has copied our claims, but do not stand back of their guarantee. You may be certain of getting the genuine if you go to Clements Drug Store for it. (Adv.)

The song service is one of the most attractive parts of the meeting and members of all the choirs in the city take part in this service.

## COMMERCIAL CLUB.

### Night Watchman Employed—Arrangements for Fair.

The business meeting of the Commercial club Monday night was largely attended and interesting throughout.

The first business transacted was the selection of a night watchman for the town. Several names were presented as candidates for the position and on the second ballot Mr. D. Y. Fox was elected. He is a good man for the place and will do his duty faithfully and well.

The matter of preparing the fair grounds for the forthcoming fair and reunion was discussed and the committee in charge of the grounds announced a determination to have the grounds sprinkled well several times before the fair, in order that the dust may not be troublesome.

It was announced that a speaker for the Southern States Cotton Corporation had been given a place on the program to discuss his company's plan of business and other matters in which the people have interest.

The arrangement committee reported progress in the way of securing premiums, advertising for the fair, etc.

Judging from the enthusiasm of the club members and others interested the coming fair will be a great success and the reunion will be one of the most enjoyable ever held here.

### Surprising Cure of Stomach Trouble.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Sengle, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by R. E. Clements. (Advertisement)

### Causes of Stomach Troubles.

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, partaking of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by R. E. Clements. (Advertisement)

### LAMPASAS

Mrs. R. D. Evans of Antelope Gap, Mills county, is with her daughter, Mrs. Will Fox, out on Misquite creek for a few days.

Mrs. Mary Finlan died at her home a mile east of Lampasas court house, June 20, at 2:15 a. m., after an illness of several days. She was 63 years of age and had lived in this section about 27 years.

The marriage of Mr. B. Simpson and Miss Minnie Thelma Wiley took place Tuesday evening at the home of the bride's parents, Mr. and Mrs. J. E. Wiley, in the presence of a number of invited guests.

Rev. J. W. Cowan is at home from Mason, San Saba and Llano counties, where he has been holding quarterly meetings in the interest of the Methodist church. He reports that he is gradually securing funds from the different churches to suitably furnish the district parsonage, which he and his family now occupy.

Quite a little excitement was caused Monday night after 10 o'clock on the hill at the residence of Dr. J. W. Ellis some shots being fired and the neighborhood aroused from their peaceful slumbers. The excitement was caused by the return of two negro boys who had taken a "joy ride" in the auto belonging to Dr. Ellis, without having obtained permission to use the machine. Marshal Zivley had been notified that the auto was gone and was on the watch for its return. Coming back to the garage the operator sent his companion around to open the door, and suspecting that there might be an officer about, he left while the other was making arrangements to allow the machine to enter. The negro who was opening the door was accosted by Marshal Zivley and ran, but was later overtaken and placed in jail over night.—Leader.

The splendid premium list prepared will insure a fine lot of exhibits for the fair and all who have entries for premiums are requested to notify the fair committee as soon as convenient.

B. A. Harris, having sold his residence, contemplates either buying or building another in the near future and there are rumors of a contemplated business deal that will be headed by him, but nothing definite is known of this now. However, the Eagle can give the people of Goldthwaite and Mills county the positive assurance that Mr. Harris has no idea of leaving Goldthwaite and that he will again engage in business here in the near future. This information is appreciated by his many friends in the town and country, for he is one of the foremost business men of this section and his removal would be a serious loss to the community.

Dr. M. L. Brown visited Brownwood this week and while there purchased a lot on which he expects to build a residence to be occupied by his family this fall and winter. He expects to move his family to Brownwood in order to get the advantages of the colleges and school system, but he will not go there himself this year, if at all. The Eagle is informed that he does not intend to dispose of his business interests or give up his professional business at this place.

T. Thompson was badly hurt in a railroad accident at Somerville Tuesday night and has since been in the hospital in Temple, in a critical condition. He was engaged as brakeman on a freight train on the Santa Fe railroad and while attempting to turn a "switch" his foot caught in a "frog" and he was unable to release it in time to avoid being struck by the engine. He was thrown to the ground and a severe gash was cut in the back of his head and he was otherwise bruised, but no bones were broken. It was at first thought his injuries would prove fatal, but his condition now gives rise to the hope that he will fully recover in a short time.

### MILLS COUNTY LAND.

Mills county farm land averages \$11.90 per acre and has increased \$1.98 per acre in value during the past decade, according to a recent census report. We have 406,705 acres of farm land, improved and unimproved, in Mills county, which is valued at \$6,808,329 by the census bureau.

The state's average value per acre is \$14.53 compared with \$4.70 ten years ago. There are 112,435,000 acres of farm land in Texas and the total value is \$1,633,207,000. This value is for the land alone and does not include buildings, machinery, etc. During the past ten years the average of Texas farm lands has diminished 13,372,000 acres and the value has increased \$1,041,657,000.

### GOOD BUSINESS OUTLOOK.

The business men and farmers are looking forward to the most satisfactory business conditions this fall and arrangements are being made by merchants to take care of a large volume of trade in the fall time.

Large stocks of goods have been purchased for fall delivery and soon the buyers for many of the houses will go to the factories and larger wholesale centers to make heavy purchases.

This most pleasing condition is brought about by the splendid crop prospects and the general prosperity of the county. Never have the whole people been in a more prosperous condition throughout the county and the crop prospects could not well be improved for this season. True, the small grain crop was light, but the other crops will more than overbalance the loss in that respect.

It is doubtful if ever there was more money in the banks belonging to the people and there is a spirit of contentment and good hope in every quarter.

These most satisfactory and encouraging conditions doubtless exist to a greater or less extent throughout this section, but Mills county is the center of it all.

### CLUB ENTERTAINED.

The coming of the warm days has occasioned a lull in the social world, but the tide of gaiety was set in motion Wednesday afternoon when the members of the Merry Maids and Matrons club and a few invited guests responded to the invitation to meet with Mrs. Max J. Thorpe.

Welcome was given informally then it was a merry contest around the forty-two table. Mrs. C. S. Young held the game punch and recorded high score for Miss Lawrence Thompson. The game was twice souvenired, Mrs. Al Dickerson receiving consolation prize.

The tea service offered the plate of some daintiness and supplemented the continuous passage of a confection during the game.

All the hostess' pretty devices of entertaining entered into her hospitality and the afternoon was pleasurable in the superlative.

The guest list included Misses Dera Humphries, Lawrence Thompson, Mesdames J. M. Campbell, Jno. C. Hicks, Al Dickerson, C. S. Young, Frank Rahl, M. E. Ebers, J. A. Gillespie, Will H. Trent, Frank Geeslin, Leonard Skaggs.

REPORTER.

### REHEARING REFUSED.

The court of criminal appeals this week overruled the motion by defense in the case of George Brown, charged with the murder of his wife, and Brown will now be taken to the penitentiary.

In a recent ruling the court of appeals affirmed the judgment of the district court, which found George Brown guilty of murder and fixed his sentence at life imprisonment in the penitentiary. The defense then presented a motion for a rehearing by the higher court, and the refusal of this request ends the case.

The circumstances on which Brown was convicted are familiar to Brownwood people. The case has attracted statewide interest and was especially interesting here because of the trial of the noted Beatty case in the east, the defense in the two cases being similar. Beatty claimed that a highwayman had shot his wife while the two were out in an automobile, while Brown claimed that a burglar had entered his home and beaten his wife in the head with an iron cudgel.—Brownwood Bulletin.

Brown was formerly a citizen of San Saba county and is well known in this city. His wife also visited here at one time and had some acquaintances here.

"The LIFE of a wagon is what counts — that's why I buy a Studebaker"

"That's reasonable, isn't it?"

"A wagon that doesn't last is expensive no matter what price you pay for it."

"Suppose you buy three wagons, one after the other, and the three of them don't last as long as one Studebaker—which is the best bargain?"

"I didn't find this out myself. I heard my grandfather say it a good many years ago. He said he had proved that it paid to buy a Studebaker. I followed his advice to my own satisfaction."

"A wagon can't have life in it unless it has the material and work and finish in it. The Studebaker people have been making vehicles for sixty years. They ought to know how to make wagons right—and they do. They have the reputation because they've produced the goods. They don't put the name Studebaker on until the wagon's right, and when you see the name Studebaker on a vehicle of any kind it is your insurance of quality."

"That's why I buy a Studebaker. I trust a Studebaker wagon because I trust the people that make them. It's good business."

"A Studebaker promise is always made good."

Many a Goldthwaite Household Will Find Them So.

To have the pains and aches of a bad back removed,—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Goldthwaite readers.

C. W. Lindsey, farmer, Goldthwaite, Texas, says: "Doan's Kidney Pills were first recommended to me by a friend and as I had been bothered with kidney trouble for ten years, I got a box. They did me a great deal of good. My back stopped paining me and I had less trouble from the kidney secretions." (Statement given May 28, 1908.)

### KILL THE FLY.

By Mrs. E.P. Turner, Chairman, Homes and Schools, Farm Life Commission.

With the buzzing of flies everywhere, carrying disease germs and depositing their harbingers of death on the faces of children and on food of all kinds to be eaten by the family, it is time to begin the fight on this arch ally of the cemetery.

The hog cholera in a community creates quite a commotion, when there is disease among the chickens the housewife is frightened, the boll weevil terrorizes the farmer and the strong arm of the law is thrown around the cattle to protect them against the fever, yet the fly, the most deadly enemy to human life, glides subtly throughout the length and breadth of the land, unchallenged carrying disease on its wings and leaving death and destruction in its wake. So noiseless and cunning does it yield the sickle of death that it takes a deadly toll of thousands of human lives per annum without arising serious resentment.

It is in the power of the farmer to protect his family from such danger. The house should be screened. No accumulation of filth should be permitted on the place and no decaying material of any sort be exposed or allowed around the place. The food on the table affords a cordial reception to bacteria and microbes flourish in milk and when exposed to contamination even drinking water has its perils. Scraps from the kitchen table and vegetable refuse are a joy to life-loving microbes. It takes nine days for the common fly to hatch and one pair will lay millions of eggs. If there is no dirt or filth there will be no flies. Take an inventory of your premises, remove filth and kill the flies.

### RID YOUR CHILDREN OF WORMS.

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin of Elgin Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. (Adv)
