"The Home of Economy"

"The House with a Conscience"

Dr. Buel Hearne of Lampasas spent Sunday here visiting his father and other relatives.

Miss Ruth Fletcher of Mullin visited relatives here this week and attended the fair and reunion.

Rev. J. W. Kelley came home from Floydada Friday to visit his wife and daughters for a few days.

Hon. Joe Frazer Brown of Cherokee was among the prominent visitors in attendance upon the reunion.

Mrs. G. A. Swain and Mrs. W. H. Walton came in from Lometa the first of the week for a visit to relatives and to attend the fair.

Now that the primary election is over and the fair and reunion have been held successfully, we can all settle down to business again.

Mrs. Bates and baby arrived from Arkansas the first of the week for a visit to her parents, Mr and Mrs. W. H. Morgan, and other relatives.

Messrs. John and Jack Lockaby have been here this week visiting relatives and attending the fair and reunion. The former lives in San Angelo and the latter at Richland Springs.

Miss Mamie Kelley arrived at home Saturday from Georgetown, where she taught primary methods in Southwestern University summer school. After spending a few weeks at home, she will go to Fort Worth to enter upon her duties as primary teacher in the schools of that city.

Editor W. D. Cowan of the San Saba Star was here to see the fair Tuesday and made the Eagle a pleasant call. Mr. Cowan was receiving congratulations from his Goldthwaite friends on account of his nomination for the legislature by the Democratic voters of his district in the primary last Saturday. He is well qualified in every way to discharge the duties of a law maker and the Eagle predicts a fine record for him.

### PLEASANT SURROUNDINGS.

#### The Farm Home and the Flight to the Cities.

Every farmer who owns his farm ought to have running water in his kitchen and a bathroom in his house, and those who do not own them should have these necessities supplied by the owner, said Mr. A. C. Ebbie, a business man of Dallas in talking recently to his neighbors in a farming community near Canton, Ohio, the occasion being the Ebbie reunion, when about three hundred relatives and connections of the family came together, and his remarks apply to conditions in Texas as well as Ohio.

A reason why young people leave the farm as soon as they are able is that they are very much less happy there than they might be if a little consideration on the part of their parents were shown them. The reason so many farm wives are old and worn out before their time is that they do so much work every day that a little study and less expense on the part of their husbands would make unnecessary. It is surprising how much additional pleasure and comfort can be gained at little or no cost, and what a wonderful difference it makes in a home and in the memories of that home. The farmer in reasonable circumstances buys sulky plows and improved farm machinery of all kinds, and generally lives in a house that is absolutely devoid of comfort. A farmer of my acquaintance has running water piped into his barn for the horses and cattle, while his wife has to carry what she uses in cooking and washing from a spring an eighth of a mile distant. It is only reasonable and natural that boys and girls, as they grow up, should get away from conditions such as these, and go where they can live more easily and comfortably. —Texas Industrial Congress.

### MARRIED IN CALIFORNIA.

Miss Ella V. White, formerly of this city and Mullin, was married Tuesday of last week to Mr. Paul W. Brown in Los Angeles, Cal. All of her Mills county friends unite in extending congratulations and good wishes.

The following was taken from a Los Angeles paper:

"In her prettily decorated home at 2118 Twenty-ninth place, Miss Ella V. White became the bride of Paul Winthrop Brown at 8 o'clock last night. The Rev. D. W. Honn, pastor of the West Side Christian church, officiated. Only immediate relatives were present.

The bride wore a hand embroidered net gown, with a duchess lace cap and veil covered with orange blossoms. She carried a bouquet of Cecil Bruner roses and lilies of the valley. Her jewels were pearls. Frances Brown, the little niece of the bridegroom, carried the wedding ring on a large pin. rose. Shasta daisies were used to decorate the living room, and carnations, ferns and lilies beautified the dining room.

The young couple have planned a wedding trip which will include Niagara Falls, New York and Washington, D. C., returning by way of New Orleans.

The report circulated to the effect that a change of 50 cents entrance to the San Saba fair will be charged for the day and 25 cents for the night is entirely erroneous. The entrance fee is only 25 cents for the twenty-four hours and this one entrance fee entitles the person to see several free shows, including one 50 cent show. San Saba has a fine fair and the gate fee of 25 cents is exceedingly small for an entertainment of that character, but this is all the charge, just the same. Don't believe the report about an additional charge, for it is positively not true.

Miss Myrtle Madden and her brother, Lucien, arrived from Colorado City Monday night for a visit to friends.

Mrs. F. M. Jackson of San Antonio and her sister, Miss Annie Hicks, of Zephyr, spent Sunday and Monday with friends in this city.

Gen. Askew and Judge Kyser of Austin were among the prominent visitors at the fair and reunion this week and both made addresses to the old soldiers.

Messrs. W. A. Gamble and C. P. Guess, who put on the sale of lots in College Hill addition, were here this week selling lots.

R. J. Atkinson and family arrived from San Angelo Monday for a visit to friends and relatives and to attend the fair and reunion.

Mr. and Mrs. Lonnie Thompson and Miss Lizzie Carson came over from Carlton this week in their auto to visit their cousin, W. K. Marshall, and wife and to attend the fair.

### STAR

A good rain fell in Star last Friday evening that was highly appreciated by the farmers, as cotton and other crops were needing rain badly.

Henry Morris lost a good Jersey cow last week. The cow had her head tied down and another cow tried to "hook" her and the cow in trying to get away accidentally broke her neck.

W. S. Teague, father of W. A. Teague, returned to his home in Moody one day last week. He was accompanied to Goldthwaite to board the train by F. A. Teague. Miss Lois Knowles went home with him.

Peck Bros. finished threshing for this season last week. They had a pleasant surprise in store for their hands in the form of a nice lot of ice cream, which the boys enjoyed heartily as a farewell treat for the season.

Miss Hurta Garret, who has been quite sick with typhoid fever for some time, is now getting along fine and it is thought she will soon be able to be up.

The Methodist meeting here closed Tuesday night. The meeting was one of the many good things that Star has had in the last few months, and was a very successful one. About 15 conversions was the result of the meeting. Brother J. J. Clark of Paris, who helped Brother Myers in the meeting, commenced a meeting at Center City last Wednesday night.

Elvis Morris, one of our good merchants, has been quite sick with fever the past few days.

Star has decided to build a Methodist church and subscriptions to the amount of between \$750 and \$800 have been secured and the prospects for a church right away is indeed pleasing to the advocates of Methodism.

Howard Morris has been quite sick with fever the past few days.

The Christian meeting was to have commenced last night. I am told that there were to have been two preachers to make the good cause move, but I failed to get their names.

Mr. Editor, I am sorry that I have no more news than this for this week, but nearly everybody in Star aim to attend the fair and there will be lots of news for next week.

### PROPOSED AMENDMENT TO THE STATE CONSTITUTION, AMENDING ARTICLE XI, SECTION 7A, OF THE CONSTITUTION PROVIDING FOR AUTHORIZING COUNTIES BORDERING ON THE GULF OF MEXICO TO BUILD SEAWALLS.

(S. J. R. No. 22.)

#### Senate Joint Resolution.

To amend Section 7, of Article XI of the Constitution of the State of Texas, authorizing counties bordering on the Gulf of Mexico to build sea-walls by adding Section 7a, so as to authorize such counties to build sea-walls and designate sea-wall reclamation districts for the protection of life and property from storm overflows, and to build or condemn land for sea-wall and reclamation districts, the county to have State's title to the roads and bay shore line to low tide within the district and the right to issue district bonds for acquiring and developing the district and building the sea-walls, and when district is developed as townsite, to sell such portions of the land as not reserved for public use by the county.

Be it resolved by the Legislature of the State of Texas:

That the following amendment to the Constitution of the State of Texas be proposed to the voters of the State of Texas for their adoption in accordance with law, and that the Constitution of the State of Texas be amended so as to add Section 7a of Article XI, and that Section 7a of Article XI shall read as follows, to-wit:

Section 7a. Where protection against the waters of the Gulf of Mexico is needed for protection of life, health, property or the sea-wall, any county bordering on the Gulf of Mexico may acquire title to the land for said sea-wall or sea-wall reclamation district as designated by the county Commissioners' court by purchase or condemnation of all the land desired for sea-wall and land for the sea-wall reclamation district from the sea-wall to bay shore tide line boundary of the property abutting on the bay, and the State hereby cedes to the county, for such district, for reclamation and general uses of the district, the title to bay shore lands in the district between the property tide line boundary and the low tide line of the bay shore, and any land in the reclamation district that may have been retained by the Republic of Texas or the State for roads when the lands adjacent were platted and sold, and the county is given the right to dredge in the bay or in the gulf for fill for the district, and right to sell the land when reclaimed and laid off as townsite or otherwise, and where condemnation is used to acquire the land, the proceedings to be as under the Statutes for condemnation for railroads, provided that the condemnation shall vest title in fee in the county, and county may issue bonds or other evidence of district indebtedness for acquiring the property, building the sea-wall, reclamation developments and all incident thereto as expenses of sea-wall and reclamation district, with lien on land and such terms and conditions as county, through its commissioners' court may deem best, and the county commissioners' court shall appoint two persons who are owners of land within the district, and who desire to sell for reclamation and buy back from the county when reclaimed, who with the county judge as chairman, shall continue a sea-wall reclamation district commission whose compensation shall be fixed by the court, and this commission has power to make all rules and regulations for acquiring the land of district sea-wall build-

district, issuing bonds or other evidences of indebtedness for same, subject, however, to all such rules, regulations, and acts of the commission being authorized and approved and ratified by county commissioners' court. The district must bear all expenses of sea-wall and purchase of the land and expenses of filling (filling) same and other expenses, and the same shall not in any way involve the credit of the county or be a basis for a tax by the county on general lands of the county unless authorized by a vote of two-thirds of the property taxpayers of the county voting at a special election therefor. It is further provided that any owner of land in a proposed district may subscribe and pay for the district commission, when organized, as the pro rata of his land of the expense of the wall, reclamation, platting as town lots on a basis as such area of land is to be the whole land of the reclamation district and sea-wall, and at any time before the completion of the district may surrender the bonds and receive from the county a bond or title for his land in town lots, less streets and alleys deducted therefrom for which on surrender deed may be demanded from the county after the district is walled, filled, and platted into streets, alleys, and lots, and bonds so bought shall so provide. It is further provided that no district shall be formally designated by the county commissioners' court until owners of at least one-half of the proposed area of district petition therefor, and subscribe out for bonds for repurchase from the county as herein provided. This amendment may be acted on without delay of legislation in and thereof or legislative action may be had in furtherance thereof if desired by the county, acting through its commissioners' court.

Be it further resolved by the Legislature of the State of Texas:

That the foregoing proposed amendment to the Constitution shall be submitted to the qualified voters of the State of Texas for their ratification and adoption at an election to be held throughout the State on the second Tuesday in November, A. D. 1914, and at such election those favoring the ratification and adoption of said amendment shall have written or printed on their ballots: "For the amendment to Article XI, Section 7a, of the Constitution, providing for authorizing counties bordering on the Gulf of Mexico to build sea-walls," and those opposing the adoption and ratification of said amendment shall have written or printed on their ballots: "Against the amendment to Article XI, Section 7a, of the Constitution, providing for authorizing counties bordering on the Gulf of Mexico to build sea-walls." Proclamation of such election shall be made by the Governor, as required by the Constitution and the law, and there is appropriated out of any funds not otherwise appropriated the sum of five thousand (\$5,000.00) dollars or so much thereof as may be necessary, to pay the expenses of advertising and holding such election.

(Note.—S. J. R. No. 22 passed the Senate by a two-thirds vote, yeas 24, nays 1, and the Senate concurred in House amendments by a two-thirds vote, yeas 27, nays 0; and was passed by the House of Representatives with amendments by a two-thirds vote, yeas 114, nays 0.)

Received in the Executive Office April 1, 1913, and filed in the Department of State April 5, 1913, without the approval of the Governor.

## PROPOSED AMENDMENT TO THE STATE CONSTITUTION, AMENDING SECTION 1, ARTICLE 3, OF THE CONSTITUTION, PROVIDING FOR THE INITIATIVE AND REFERENDUM

S. J. R. No 12, Senate Joint Resolution.

To amend Section 1, Article 3, of the Constitution of the State of Texas, so as to give to the people, or reserve to them, the power to propose laws and to enact or reject the same at the polls, and to approve or reject at the polls any Act of the Legislature.

Be it resolved by the Legislature of the State of Texas:

That Section 1, Article 3, of the Constitution of the State of Texas, be amended to read:

Section 1. The legislative power of this State shall be vested in a Senate and a House of Representatives, which, together, shall be styled "The Legislature of the State of Texas," but the people reserve to themselves power, as herein provided, to propose laws and to enact or reject the same at the polls, and to approve or reject at the polls any law, or any part of any law, enacted by the Legislature. The Legislature shall provide by law for submitting to the vote of the people, upon petition of twenty per cent of the qualified voters of the State, the enactment of laws and the approval or rejection of any law enacted by the Legislature.

Be it further resolved by the Legislature of the State of Texas: that the above and foregoing is proposed as an amendment to the constitution of this State, and shall be submitted to the qualified electors of the State of Texas for members of the Legislature, for their adoption or rejection as a part of the Constitution of this State, and shall be voted on by such electors at the regular election for the election of officers to be held throughout the State, on the second Tuesday in November, A. D. 1914, and those voting for the adoption of said amendment shall have written or printed on their ballots the words: "For the amendment to Section 1, of Article 3, of the Constitution of the State of Texas, providing for the initiative and the referendum," and those voting against the adoption of said amendment shall have written or printed on their ballots the words: "Against the amendment to Section 1, Article 3, of the Constitution of the State of Texas, providing for the initiative and the referendum."

And the foregoing proposed amendment shall be duly published once a week for four consecutive weeks, commencing at least three months before the election at which it is to be voted upon, in one weekly newspaper in each county in this State, in which such a newspaper may be published. The Governor shall make proclamation of such election upon said proposed amendment by publication as aforesaid, and as required by the Constitution and laws, and the sum of five thousand dollars (\$5,000.00) is now appropriated out of any fund in the Treasury, not otherwise appropriated, to pay the expense of making such proclamation and publication and holding said election.

(Note.—S. J. R. No. 12 passed the Senate by a two-thirds vote, yeas 21, nays 5, and was further passed by a two-thirds vote, yeas 21, nays 7, and Senate concurred in House amendments by a two-thirds vote, yeas 23, nays 0; and was passed by the House of Representatives with amendments by the following vote: yeas 84, nays 36.)

### WHEN WE ARE OLD.

When we are old, what will be our fate? I see many old men and women tottering about on the edge of the grave, their eyes blurred by the flight of time, their steps slowed by the infirmity of age, it is quite natural for me, accustomed to meditation, to wonder when I grow old, will I be tenderly cared for and loved for the deeds of my stronger days, or will I be regarded as an old, useless, only in the way? It seems that this generation is one that does not pay the respect and homage to age that it should. Instead of giving the old the best we have, we, in the selfishness of our youth, take for ourself the best of everything and give our aged only things that are left, often only the bare husks. The time will come, in spite of what we may do or wish when we too will feel the chill of age creep into our veins and our old dim eyes will look out upon the fast vanishing world.

I am a firm believer of the Justice of the Creator, and of "Do it unto others, it shall be done unto us." If we forget what our loved ones did for us, the agony that our mothers suffered that we might see the light of day, the long hours of toil that father endured that we might have an education and might become useful men and women, and when they grow old, cast them aside as cast-off garments, we may expect to step into shadow land unloved and unloved. The aged are entitled to our highest honors. They should be placed upon a pedestal above the crowds of clamoring youth and their progress and their achievements in the days long gone heralded and sung. Scripture admonishes us to "honor our father and mother that our days may be long in the land." No matter how young we may be, how fast the rich red blood courses through our veins, the shadows are creeping toward us, and it is only a question of time until we will be groping about waiting for the summons that comes to all. Let's take our loved ones by the hand when they grow old and let them feel that we have not forgotten their prowess, their deeds of valor, their sacrificial hours, their tender solicitation and their prodigal affection.—Cleburne Enterprise

### THANKS TO FRIENDS,

Another political battle has been fought. Again the people of our county have selected those they would have to serve them officially for the next two years. As I am not one of the chosen, I wish to express hereby my sincere appreciation of the honor given me in having me your county judge during the past four years. This is not so much appreciated by me, however, as the loyalty to me and the confidence in me expressed by my friends in this campaign just closed. I have long since learned that no man can really do things without opposition from some of the people for whom he does them. In the position with which I have been twice honored by the voters of Mills county, I have conscientiously tried to make every month count for some helpful advance in worthy lines. And while our record in these things has not been excelled by any county in Texas, there is much yet to be done if we are to measure up to the full standard of duty. We hope the work will be developed more satisfactorily in other hands; yet it will probably be done along different lines. While Mills county has made an enviable record in her county court, the work of most vital concern to us, it seems to me, is that for the education of our children. No people ever responded more nobly to appeals along this line than have you to my appeals. And while I surrender this work cheerfully at your bidding, there are some endeavors affecting your school work that must be modified. My undertaking in the matter of developing your boys and girls in declamation and oratorical contests that has proved such an interesting and powerful force hitherto, I regret to drop. At our contests last May, in which I awarded five gold medals, I offered six medals for our next contest. Owing to the fact that I will not be situated so as to give the matter the personal attention that it requires for preparing the boys and girls for these efforts, I am forced to recall the offer of these medals. I regret to do this and would not if I knew some one could and would assume leadership in these things. It is a great and worthy work and ought not to cease.

Another work begun last year, that has so wonderfully aroused and improved all our schools in the county is the Rural School Improvement League. I selected a grading committee, who very grac-

iously gave their time to the work of visiting your schools. But it was necessary for me to furnish them conveyance. I shall be engaged in another line of work that will prevent me taking my automobile to convey the committee to the schools as I have done heretofore. Therefore, I am compelled to cancel that engagement. And then to Mills county's noble band of teachers who have so nobly stood by me, believed in me, and followed me, I can but say I am pained at severing my connection with you. The teachers' library, which we installed last winter, I hope you will continue to use for professional improvement, and that you will add to it from year to year. It is a sacrifice you feel you can ill afford to make; but from such sacrifices the world's greatest benefactions come. I have learned to love and appreciate you all, for you have stood by me with unflinching loyalty in the hardest battles for the public good, and these battles have been many. I trust that under your new leader, you may have more efficient help, and that you may carry on that great work—the work of developing human character and fitting it for service—with more telling effect than you have been able to do under my leadership. Most of our schools have installed libraries this year. Don't quit till all of your schools have them. School children, I lose none of my interest in you because I must cease to superintend the important work you are engaged in. My withdrawal of the offers made concerning your work is due solely to the approaching change of relationship between you and me. I still recognize the fact that you are the greatest value Mills county has and that you can make of yourselves what you are willing to make. I'll still watch your work with interest and will be ready at all times to give you any assistance within my power to give. I hope the fathers and mothers of the school children of the county will give to Judge Dalton the same co-operation that has been given me; and that the croak of the man who would rob your child of its opportunity for development and a chance in life in order to save himself a few dollars school tax, will not deceive you. I am sure that Judge Dalton will do for your schools more than I am able to do; and that he will give to you much more than the few things I have to take away on leaving the office. Let us all pull together in the work of making our

county a county of high standing, materially, socially, morally, and mentally. Good roads, good schools, good churches and good homes, will accomplish this and will give us a foundation and conditions on which and in which to properly develop that which certainly means more to us than does anything else—our children. Any of these neglected will severely cripple us and collect from our children the price of the neglect. And when I shall have left the office, remember that I shall stand ready, at all times, to render any service within my power, as a private citizen, that may be needed by any Mills county citizen. Again, I thank the people for the honor conferred on me in

past; and those who conferred on me that higher honor of supporting me still in this losing fight will be good men, misled, have temporarily fallen away, I am trying to be big enough to exercise charity toward those who are thus pulled away; but selfishness makes me almost worship those who have stood by me, the same as I have stood by you in the storm as in the quietest trying days. With love, admiration, and appreciation for some, and with good will for all, I am,  
Very Sincerely,

## OUR GAS-MAKING BURNER

PLACED IN YOUR COOK STOVE SOLVES THE FUEL PROBLEM

Bakes Perfectly

Every Housekeeper Appreciates a Steady Heat When Baking.

Meals can be cooked much quicker than with the use of coal or wood.

Burner fits in any cook stove or range and operates perfectly, whether stove is old or new. Very easy to install and exceedingly simple to operate. Generates gas in one minute after lighting and in four to five minutes stove is hot. To put out fire valve is simply turned off.

Do not compare use of coal oil with that of gasoline, for the latter is more or less dangerous to use. Coal oil used in our burner is absolutely safe. Safer to use than any kerosene lamp, for the oil supply is several feet from the flame and the oil is fed into burner one drop at a time. The main thing to consider, however, is the perfect cleanliness and convenience involved.

### QUESTIONS ANSWERED

We receive hundreds of letters asking many questions about our wonderful Vapor-Gas Burner. The main one is "How much oil will it take per day for ordinary cooking?"

Answer: One gallon per day of the cheapest grade of coal oil or kerosene. For fire all day one and one-half to two gallons or possibly more if very hot fire is had continuously. In summer, however, very little fire is needed. Oil by the barrel can be bought for about 8 cents per gallon, except in some parts of the west where the price is higher and where coal is higher in proportion.

**WHEN WE ARE OLD.**

When we are old, what will be our fate? I see many old men and women tottering about on the edge of the grave, their eyes blurred by the flight of time, their steps slowed by the infirmity of age, it is quite natural for me, accustomed to meditation, to wonder when I grow old, will I be tenderly cared for and loved for the deeds of my stronger days, or will I be regarded as an old, useless, only in the way? It seems that this generation is one that does not pay the respect and homage to age that it should. Instead of giving the old the best we have, we, in the selfishness of our youth, take for ourself the best of everything and give our aged only things that are left, often only the bare husks. The time will come, in spite of what we may do or wish when we too will feel the chill of age creep into our veins and our old dim eyes will look out upon the fast vanishing world.

I am a firm believer of the justice of the Creator, and of "Do it unto others, it shall be done unto us." If we forget what our loved ones did for us, the agony that our mothers suffered that we might see the light of day, the long hours of toll that father endured that we might have an education and might become useful men and women, and when they grow old, cast them aside as cast-off garments, we may expect to step into shadow land unhonored and unloved. The aged are entitled to our highest honors. They should be placed upon a pedestal above the crowds of clamoring youth and their progress and their achievements in the days long gone heralded and sung. Scripture admonishes us to "honor our father and mother that our days may be long in the land." No matter how young we may be, how fast the rich red blood courses through our veins, the shadows are creeping toward us, and it is only a question of time until we will be groping about waiting for the summons that comes to all. Let's take our loved ones by the hand when they grow old and let them feel that we have not forgotten their prowess, their deeds of valor, their sacrificial hours, their tender solicitation and their prodigal affection.—Cleburne Enterprise

### THANKS TO FRIENDS,

Another political battle has been fought. Again the people of our county have selected those they would have to serve them officially for the next two years. As I am not one of the chosen, I wish to express hereby my sincere appreciation of the honor given me in having me your county judge during the past four years. This is not so much appreciated by me, however, as the loyalty to me and the confidence in me expressed by my friends in this campaign just closed. I have long since learned that no man can really do things without opposition from some of the people for whom he does them. In the position with which I have been twice honored by the voters of Mills county, I have conscientiously tried to make every month count for some helpful advance in worthy lines. And while our record in these things has not been excelled by any county in Texas, there is much yet to be done if we are to measure up to the full standard of duty. We hope the work will be developed more satisfactorily in other hands; yet it will probably be done along different lines. While Mills county has made an enviable record in her county court, the work of most vital concern to us, it seems to me, is that for the education of our children. No people ever responded more nobly to appeals along this line than have you to my appeals. And while I surrender the work cheerfully at your bidding, there are some endeavors affecting your school work that must be modified. My undertaking in the matter of developing your boys and girls in declamation and oratorical contests that has proved such an interesting and powerful force hitherto, I regret to drop. At our contests last May, in which I awarded five gold medals, I offered six medals for our next contest. Owing to the fact that I will not be situated so as to give the matter the personal attention that it requires for preparing the boys and girls for these efforts, I am forced to recall the offer of these medals. I regret to do this and would not if I knew some one could and would assume leadership in these things. It is a great and worthy work and ought not to cease.

Another work begun last year, that has so wonderfully aroused and improved all our schools in the county is the Rural School Improvement League. I selected a reading committee, who very grac-

iously gave their time to the work of visiting your schools. But it was necessary for me to furnish them conveyance. I shall be engaged in another line of work that will prevent me taking my automobile to convey the committee to the schools as I have done heretofore. Therefore, I am compelled to cancel that engagement. And then to Mills county's noble band of teachers who have so nobly stood by me, believed in me, and followed me, I can but say I am pained at severing my connection with you. The teachers' library, which we installed last winter, I hope you will continue to use for professional improvement, and that you will add to it \$500 year to year. It is a sacrifice you feel you can ill afford to make; but from such sacrifices the world's greatest benefactions come. I have learned to love and appreciate you all, for you have stood by me with unflinching loyalty in the hardest battles for the public good, and these battles have been many. ## PROPOSED AMENDMENT TO THE STATE CONSTITUTION, AMENDING SECTION 24, ARTICLE 3 OF THE CONSTITUTION INCREASING COMPENSATION OF THE LEGISLATURE AND EXTENDING LENGTH OF REGULAR SESSION.

(S. J. R. NO. 26.)

Senate Joint Resolution.

Joint Resolution proposing an amendment to Section No. 24, of Article 3, of the Constitution of the State of Texas, relating to compensation for members of the Legislature.

Be it resolved by the Legislature of the State of Texas:

Section 1. That at the next general election of the State of Texas for the election of State Officers, or at a previous general election, in case a general election for the State shall be sooner ordered by the Governor for other purposes, there shall be submitted to the electors of the State of Texas, for their adoption or rejection, the following amendment to the constitution of the State of Texas, as provided for in Section 1, Article 17, of said Constitution, relating to proposed amendments thereto, it being intended to amend Section 24, Article 3, of said Constitution relating to the pay of members of the Legislature, and extension of term of regular sessions, so that the said Section shall read as follows:

Sec. 24. The members of the Legislature shall each receive from the public treasury as compensation for their services twelve hundred (\$1200) dollars for the year in which each regular session of the Legislature is held, payable in equal installments on the twentieth days of January, April, July and October of the year in which the regular session is held, or every special session held in the year next succeeding that in which any regular session is held. In addition to said compensation the members of each house shall be entitled to mileage going to and returning from the seat of government, which mileage shall not exceed five cents per mile, the distance to be computed by the nearest and most direct route of travel by land, regardless of railways or water routes; and the Comptroller of the State shall prepare and preserve a table of distances to each county seat, now or hereafter to be established, and by said table the mileage of each member shall be paid. Each regular session shall continue until the business of such session is disposed of.

## THIRD ANNUAL FAIR

FINE EXHIBITS MADE IN EVERY DEPARTMENT.

Programs Were All Good and the Attendance Large All Three Days.

The greatest fair and reunion in the history of Mills county is now a matter of history.

Early Tuesday morning the people commenced to arrive for the event that had been looked forward to with so much pleasure by the people of this and surrounding counties and by noon the grounds were literally filled with people. When President W. C. Dew of the Commercial club, delivered his address of welcome at 2 o'clock, he faced a perfect sea of faces and from that time until midnight Thursday night there was "something doing every minute" at the grounds.

To attempt to give a detailed account of the speaking and reading and singing and other modes of entertainment would take much time and space, but most of the readers were present at this time or have attended similar affairs here and when the statement is made that the third annual fair and reunion was far superior to all former occasions of the kind, those who were here will agree and those who have been here on former occasions will realize the magnitude of the undertaking.

Judge Robinson of Belton, Judge Kyser of Austin, Prof. Corrigan of Hamilton, General Askew of Austin were among the speakers from a distance, while other visitors entertained the public or the camp with short talks. Our home speakers were President Dew of the Club, Mr. L. E. Miller, Dr. Em. Wilson, consul commander of the Woodmen lodge, Mr. F. P. Bowman, our in-

coming county attorney, Judge S. H. Allen and others.

Each day the entertainment seemed to grow in interest and to add to the pleasure of the people in attendance and each day the Commercial club officers and members, aided by other good citizens, increased their efforts for making the occasion a great success.

The special program arranged by Mrs. John Scott for Wednesday evening was especially enjoyed by everybody, while the Woodmen's program consisting of music, readings, songs and speeches on Thursday, could not well have been improved.

### Air Ship Failed.

The Moisant Aviation Co., with whom the Commercial club had a contract for the exhibition of a flying machine for this occasion, failed to comply with their part of the contract and have not even notified the club of the reason for the failure. Every condition of the contract was met by the club and the \$450 was placed in the bank to be paid to the parties when they made the required flights. The visitors felt great disappointment, while the business men here felt aggrieved and chagrined over the matter. They care nothing for the uncharitable remarks of some who have seen

proper to attribute a misrepresentation to them, for they know that men of character realize that other men of standing could not afford to make a false representation to the people, hence they know that all right thinking people fully appreciate the embarrassment felt by those who contracted in all good faith for the bringing of the airship here, but the failure of the aviation company to fill their contract is regretted by all.

### CONFEDERATE MEETING

STAR

(Intended for last week)

After an absence of two weeks, I now come again with a few jots in regard to the happenings of Star. Star is dry both politically and literally. Cotton needs rain, as well as the other crops.

H. D. Barrow of Goldthwaite, who is representing the Hupmobile Co., was in Star a few days ago.

The Baptist meeting closed last Friday night, after having run for a week. The pastor, Rev. Newton, did some very good work and said things that have put the people to thinking, and when a people goes to THINKING, something is going to happen. It does no harm to really think and right thinking is the keynote to success in any undertaking.

The Rural Telephone Co. has taken charge of the Price line and the wires now run into the Rural switch board.

E. G. Triplett, who has been visiting friends here for some time, has gone to Clovis, New Mexico, to visit his daughter, Mrs. Cox.

F. A. Teague made a trip or two or three to the Colorado river in the last two weeks and got watermelons, which have easily been disposed of lately.

The picnic at Star last Saturday was extra well attended, there being people from all over the country. Speeches were made by the various candidates and the singing classes rendered some songs. Prof. B. B. Edmiston sang a couple of solos that were highly appreciated and applauded. Among the candidates that the writer saw on the picnic grounds are: Judge S. H. Allen, J. C. Darroch, F. P. Bowman, Judge Dalton, J. S. Caldwell, A. E. Evans, E. L. Martin. There may be some more men that I do not mention, but I was very busy enjoying myself and the other fellows did not come around and introduce themselves, so I am not to blame. The crowd was truly immense and everybody seemed to enjoy themselves well. The proceeds of the picnic are to be used for the benefit of the community in the form of the improvement of the public school. The place selected for the picnic grounds was the compliments of F. F. Henry, of whom many of the Star people are very proud, and was one of the very best places that could have been selected for such an occasion. Large trees, plenty of water, plenty of shade, both for horses and for the people, lots of good dinner and to spare, and plenty of room and a delightful day made the occasion a great success.

Mr. and Mrs. S. P. Williams and family of Mullin were among the many people who attended the picnic at Star Saturday.

Orvis Burney of Evant attended the picnic at Star last Saturday.

Will Gent accompanied his father, N. S. Gent, to Goldthwaite the first of the week to board the train for his home in Moody.

While working about a thresher the other day, J. E. Peck suffered a very severe wound in the forehead. A bolt or something came loose and flew and hit him in his forehead, inflicting a very painful wound, nothing serious, however. Mr. Peck being able to be up and is doing more work than he is really entitled to do.

Harley Williams and family are visiting his brother, Jos Williams, and family, of Cross Plains.

The S. D. N. College of Music has closed its first regular session for Star. The normal has been quite a boost for Star and has done much more real good than can be imagined at the first glance. As an evidence that Prof. Edmiston's work here is appreciated, a contract has already been signed with him for a four week's normal next year—beginning July 26—at quite an increase in price. The last time I saw the contract, 38 men had signed it and prospects for more were entertained. This is rather out of the ordinary in the way of a contract, but the idea is that with a big lot of signers some gratis advertising will be secured, and goodness knows advertising pays, especially when you have something good—like Star—to advertise.

Miss Berta Garrett has been quite

sick with typhoid fever the past few days.

Z. S. Lee made a business trip to Hamilton one day last week.

Elmer Berry of Dawson, who has been attending the S. D. N. here, left the early part of the week for his home.

Threshing is nearly over in this community. Dry weather is good on the threshing, but we welcome a rain right now.

G. D. Burney, proprietor of Star-view farm, made a business trip to Hamilton one day last week.

Mason Goode went to Evant one day last week.

Prof. Edmiston and wife and boy went to Hamilton in the early part of the week to board the train for Viola, Ark., where he will hold a branch session of the S. D. N.

The Methodist meeting began last Sunday morning. The pastor, Rev. L. N. Myers, has Rev. J. J. Clark of Paris, Texas, to assist him in the meeting.

Our Sunday school last Sunday morning was not as well attended as have been some of the meetings, but the interest was very great and the young people's enthusiasm is steadily growing stronger.

A character assassin in one of the greatest nuisances any community can fall heir to. There emanates from the mouths of such people a poison that is far more deadly than the sting of death and for its relief no antidote exists. The purest woman whom God has created since the setting up of His kingdom is not immune from this monster's fangs. In fact, the character assassin would seem to thrive best where purity, virtue, and nobility exist, where it can invade the sacred precincts of home or entangle in its coils the fair name of a beloved member of the home circle and crush the hearts of each loved one.—Killeen Herald.

A special from Austin says: "Tax assessors in 250 counties in Texas are being advised by the comptroller's department of the new state ad valorem tax rate fixed recently by the State Automatic tax board. Early fixing of the tax rate will enable assessors to complete their rolls earlier than heretofore. The board reduced the state tax from 23 to 12.2 cents on the \$100 and the school tax was increased from 17 to 20 cents while the Confederate pension tax remained as at present—5 cents. Rates fixed by the board were based on a total assessed valuation of \$2,716,119,596, an increase of \$40,140,633 over last year; but when all counties have reported, this is expected to reach \$50,000,000."

Once more the assertion is made that the Bible is the world's "best seller." In an age of thoughtless fiction and exploiting publishers, such announcement is distinctly gratifying from every viewpoint. The Bible is the "book of books." To the seeker of truth it is a storehouse. To the literary artist it is a stylistic delight. To the poet it is a garden of lyric flowers. To the philosopher it is a moving tale of wonder. To the sorrowing it is a balm of solace. To the disconsolate it is a beacon of hope. To the shipwrecked it is a rock of refuge. Despite the increasing output of new thought the Bible holds today a secure place in the hearts and homes of the people. And as long as it remains "best seller" the human old world cannot go far wrong.—Dallas Evening Journal.

There is skill and science required to arrive correctly at the exact grade of cotton. But with this grader, and our ten lessons with it, any man can tell the grade of cotton, who has good sight, well balanced mind and comparison.

The time has come for the man who handles cotton to know what it is and what it is worth on the market. Protect yourself.

You will readily see that our GRADER is what you need. It will save you its cost on two bales of cotton. Then you will have the pleasure of knowing the correct grades of your cotton, and by reading the cotton quotations in the daily papers you can know the value of your grades.

It is within the reach of every boy on the farm to learn how to class and grade cotton by using our cotton grader. No farmer who raises as many as two bales of cotton can afford to be without one of these graders.

Highly endorsed by the U. S. Government, as well as by farmers, cotton buyers and merchants who have used it:

Red Oak, Ellis County, Texas.  
The Farmers' Cotton Grader Company.

Gentlemen:—On Monday last I purchased one of your cotton graders, for which I paid you \$10. This week I sold four bales of cotton upon which I saved \$18, by reason of being able by the grader to know what my cotton would class.

(Signed) F. K. CAMPBELL.

Estelline, Hall County, Texas.  
The Farmers' Cotton Grader Company.

Gentlemen:—I am using your cotton grader this season and would not be without it. It is an indis-

pensable instrument for accurately grading the cotton. It is simple and handy, and should be used by all those raising cotton. Every farmer should have one. Yours truly,

(Signed) B. R. RUSSELL.

Plano, Texas  
The Farmers' Cotton Grader Company.

Gentlemen:—I have used your cotton grader when grading my cotton to my entire satisfaction. I would not take \$50.00 for my cotton grader. I cheerfully recommend your cotton grader to all cotton raisers. Respectfully,

(Signed) V. L. CASEY, Route 3.

#### DEAD.

Breathes there a man with soul so dead

Who never to himself hath said: "My trade of late is getting bad; I'll try another eight-inch ad." If such there be, go mark him well. For him no bank account shall swell.

No angels watch the golden stair To welcome home the Millionaire. The man who never asks for trade. By local line or ad displayed, Cares more for rest than worldly gain.

And patronage but gives him pain. Tread lightly, friends, let no rude sound Disturb his solitude profound. Here let him live in calm repose. Unsought except by men he owes. And when he dies, go plant him Deep—

That naught may break his dream—less sleep— Where no rude clamor may dispel The quiet that he loved so well. And that the world may know its loss.

Place on his grave a wreath of moss, And on the stone above "Here lies A chump who wouldn't advertise." —Implement Trade Journal.

You know us and know we are reliable, for you know if we fit you with a pair of glasses, that we are right here all the time and if anything should go wrong with them, we will make good. Let us test your eyes for glasses, and we guarantee you will be pleased.

—L. E. Miller, Jeweler and Optician.

## Ready for To-morrow?

Horses digest their feed less thoroughly than other farm animals. In order to insure thorough digestion of all the food eaten, and to make your horses ready for next day's work, add to their evening feed a teaspoonful of—

**Bee Dee STOCK MEDICINE**

It will lessen your feed bills.  
It will increase your profits.

I am using Bee Dee STOCK MEDICINE with my horses regularly and find it a saving proposition on feed. It also makes them healthy, thriving and clean.

#### FIRE PREVENTION.

It has been said that "as the fire waste is, so must the insurance tax be." A burned city cannot replace itself, neither can an insurance company replace loss property. Insurance acts as a distributor of funds that come from the pockets of the people, and it is of much importance that our citizenship, both private and official, take notice of the vast loss brought about by the destruction of property by fire in this State.

No one will be found to question the statement that the annual loss of some \$10,000,000 in Texas is a public reproach. The trouble is that, while we feel and know the situation, we are inclined to submit in a helpless sort of way, and rather content ourselves in the belief that all of these values have gone up in smoke as the natural result of conditions due to our comparative newness and rapid growth as a state.

It is the duty of organized society to protect the individual citizen against himself, as well as guard his life, his rights, and his property.—S. W. English, State Fire Marshal.

 There were no candidates for constable in precincts No. 2 and 4, and the names given are those receiving the greatest number of votes.  
 These figures are not given as the official count, but were secured by telephone. The executive committee will make the official count at Goldthwaite Saturday.

The election brought many surprises and the results were not in accordance with the wishes of many in the entirety. However most everybody "saved" a few of their men and for that reason should be satisfied.  
 Submission was defeated. Jas. E. Ferguson was nominated for governor, W.P. Hobby of Beaumont, lieutenant governor; J. T. Robinson, land commissioner; H. B. Terrell, comptroller; J. M. Edwards, state treasurer; Earl Mayfield, railroad commissioner; Col. Jas. L. Slayden, congressman for the fourteenth district; Cyclone Davis and Jeff. McLemore, congressmen-at-large.  
 Mr. Ferguson carried Bell county by a large majority and also carried Harris county, the home of Col. Ball.  
 In Mills county the result is shown in the accompanying table. The nominees are good citizens and capable men who will fill the positions for which they have been nominated with honor and credit. Some of the best citizens the county has were defeated, but the result was to be expected, since there were several candidates for almost every office and all were good men. In many cases it was hard to decide between the candidates.  
 These figures were secured by

telephone the night after the election and it is possible some few mistakes may appear in this table, but the executive committee will go over the returns today and we hope to secure an absolutely correct table at that time.

**THANKS TO VOTERS**  
 I desire to express my hearty appreciation of the honor conferred upon me by the Democrats in nominating me for the office of sheriff and tax collector of Mills county. It shall be my endeavor to so conduct the affairs of the office after my election in November that every one who supported my candidacy will be glad of their action and the entire citizenship will be pleased with the result of the primary.  
 While I most sincerely thank my friends for their support, I bear no ill will toward those who advocated the claims of other candidates. I realize that there were good men who gave their support to the other gentlemen and I accord to every one of them that privilege.  
 The candidates whom I defeated in the race are all good men and it is but reasonable that they should all have supporters. In fact, if there had not been good men among the defeated, there would be small credit to me for having secured the nomination over them.  
 With good feeling for all and wishing the best of fortune for all the people of Mills county, I am,  
 Sincerely,  
 J. H. BURNETT.

**ED KIRBY, OBIT.**  
 Ed Kirby, Jr., familiarly known as "little Ed Kirby", died unexpectedly yesterday morning, after suffering a short time with appendicitis.  
 It is said he suffered from the trouble on several previous occasions but always believed it was bilious colic to which he was subject. Thursday afternoon he was observing with a party of friends at P. H. Rahl's blacksmith shop when he was stricken, and it is believed the appendix busted at that time. Physicians gave him attention and it was soon found that an operation would be necessary. Yesterday morning he was placed aboard the train en route for Temple, where he was to have been placed in the sanitarium, but he died just as the train reached Antelope Gap. His remains were carried on to Lometa, where burial will take place today.  
 Ed Kirby was a son of Mr. W. C. Kirby of this city and, besides his parents he leaves a wife and several small children and many other relatives. He was jolly, big hearted man, who did not have an enemy and everybody liked him.  
 The bereaved ones can be sure of the deep and abiding sympathy of all who know of their great sorrow.

One of the exhibits at the fair ground this week with the big steer grown by Mr. J. H. Burnett on his ranch in the Valley and owned jointly by Messrs. Burnett, Trowbridge, and Oglesby. This steer is believed to be the largest animal of its kind in the world, is proportioned properly, and is a beauty. He will be exhibited at the San Antonio fair next week and later at the Austin fair. It is the intention of the owners to exhibit him at the Panama-Pacific exposition at San Francisco next year. He is a wonder and was grown in Mills county nature without special attention.

### GOOD NEWS.

Many Goldthwaite People Have Heard it and Have Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Goldthwaite are glad to learn where relief may be found. Many a lame, weak and aching back is weak no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading:

W. C. Frazier, farmer, Goldthwaite Tex., says: "One of our family had been suffering for a long time from weak kidneys. She had pains in her back and was laid up in bed. The kidney secretions were unnatural and caused her much annoyance. I had seen Doan's Kidney Pills advertised and procured a box at Clements' Drug Store. She began taking them and a few doses helped her. The pain in her back left and in a short time her kidneys were normal."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—The same that Mr. Frazier had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

Summer Constipation Dangerous  
Constipation in summer time is more dangerous than in the fall, winter or spring. The food you eat is often constipated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Stomach Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose tonight. 50c. at your Druggist. (adv)

Of the ordinary face creams, it stands out from the others as noticeably as the sun compared with the moon. In our opinion no other face cream compares with Dike's Peroxogen Cream. For sale at Brown & Lowrie's, at 25c the jar. (Adv)

### Constipation Causes Sickness

Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the backed-up waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose tonight. 25c. at your Druggist (adv)

### Infection and Insect Bites Dangerous.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects Cuts, Bruises, and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c. at your Druggist (Advertisement.)

### TREAT ME RIGHT.

Those who are indebted to me should pay me at least a part of what they owe, for I need the money and need it badly. Some who are indebted to me individually and to Dr. Townsen and myself jointly have sold oats and now have the money with which they should pay at least a part of the accounts. I have had sickness and other expense which makes it absolutely necessary that I secure some of the money due me right away. Don't overlook or forget this—I served you when you needed such service and now I am entitled to payment. Think right and act promptly.

Yours Truly,  
J. D. CALAWAY, M. D.
