Miss Sophia Martin went to Lometa Wednesday for a visit to friends.

Miss Mary O'Donnell of Houston arrived in the city Tuesday evening for a visit to her friend, Mrs. Frank Geeslin.

S. F. McBurney, telegraph operator for the Santa Fe at Brownwood, spent Saturday and Sunday with his sister, Mrs. E. P. Thompson, and family in this city.

Marshall Butz and his sisters, Misses Wilma and Bazie, returned to their home in Greenville Sunday, after spending some days with friends in this city.

Capt. D. T. Bush returned the first of the week from a business visit to Colorado City. He expected to go to the state convention at El Paso, but became ill and decided to return home.

Jno. W. Roberts, the popular, industrious, and efficient chairman of the Democratic executive committee, attended the State convention in El Paso this week. The executive committee, in recognition of his untiring services in the interest of the party and his close attention to his duties in the late campaign, appropriated the unused funds in the hands of the committee to defray the expense of his trip. This was a well deserved compliment to his services.

W. H. Oglesby, in charge of the "Big Steer" did well with his exhibit at San Saba last week and expects to be on the road for the next fifteen weeks, exhibiting the steer at various fairs in the state, including the Waco Cotton Palace and the state fair at Dallas. Early next year he expects to start with the animal to the Panama-Pacific exposition at San Francisco. The company has been offered a very attractive price for the steer, which is the largest ranch grown steer in the world and is a product of Mills county.

PRIZE WINNERS.

Mills county products are prize winners wherever they are shown and compare favorably with the products of any country under the sun. We have taken first honors at Dallas fair for pecans and secured other prizes in county fairs and confidently expect to bring back rolls of blue ribbon and prize money from the Panama-Pacific exposition next year.

Last week a number of the citizens of Big Valley made entries in the San Saba fair and secured every prize for which they entered. If they had made more entries they would have secured more prizes. W. M. Trowbridge received first prize of \$30 for the best community display of farm products; C. C. Bledsoe secured the second prize for farm products; G. A. Knowles secured first and second prize on corn and Steve Ezzell was given first prize on watermelons.

MEETING CLOSED.

The revival services held in the Baptist church for ten days were brought to a close Tuesday night and Rev. Andrews and his assistant, Mr. Robertson, left for their homes in Hillsboro Wednesday morning.

These services were enjoyed by large congregations and the result of the strong sermons will be lasting and beneficial. Mr. Andrews is a preacher of power and Mr. Robertson is a fine choir leader as well as a vocalist of splendid ability. Religious people of all denominations were benefited by the meeting and the entire town was helped by the series of services.

MEETING IN PROGRESS.

Elder I. A. Dyches commenced a meeting at Shaw Bend last night to continue ten days. He invites the people of the entire community, regardless of denominational affiliations to attend and take part in the services.

Rev. J. C. Newman made a business visit to Brownwood last Saturday.

Commissioners court has been in session this week with all members present.

Mrs. Geo. Ross orders the Eagle sent to her brother, Joe B. Lewis, at Flynn, Texas.

Mr. William Bratton of Brownwood arrived in the city Wednesday for a visit to his daughter Mrs. B. A. Harris.

Mr. E. M. Smith of Wood county is visiting his grandson, E. F. White, and family and other relatives in this county.

For the first time in the history of expositions, China has applied for space for machinery in the Panama-Pacific International Exposition. Two thousand square feet of space in the Palace of Machinery has been requested by China and the space probably will be granted. This makes China an exhibitor in every Exposition department. The new republic's appropriation is \$750,000 in gold.

Texas has made rapid strides towards the front ranks in population since the first census, as will be seen by the following figures given out by the census department of Washington: "The first Federal Census of Texas was taken in 1850 and the records show that Texas ranked twenty-fifth with other states in total population. Ten years later Texas ranked twenty-third. The next census, which was taken in 1870 showed Texas in 19th place. The following census, or the one in 1880, credits Texas as ranking 11th with the other states. The 1890 census shows Texas in 7th place and in 1900 she ranked 6th with other states, while the last census showed only four states with a greater population than Texas. During the 1900-1910 decade, Texas wrested the 5th place from Missouri, a position which that state had held for thirty years previous."

CALLED MEETING.

There will be a called meeting of the Farmers Union of Mills county held in Goldthwaite on Saturday, Aug. 22, at 2 o'clock p. m., for the purpose of receiving reports from delegates to the state and district conventions. R. W. GEESLIN, Pres. W. H. LEVERETT, Treasurer.

W. H. Leverett and R. W. Geeslin, two of the most prosperous farmers of Caradan community, were pleasant callers at the Eagle office one day this week.

Be it resolved by the Legislature of the State of Texas:

That the following amendment to the Constitution of the State of Texas be proposed to the voters of the State of Texas for their adoption in accordance with law, and that the Constitution of the State of Texas be amended so as to add Section 7a of Article XI, and that Section 7a of Article XI shall read as follows, to-wit:

Section 7a. Where protection against the waters of the Gulf of Mexico is needed for protection of life, health, property or the sea-wall, any county bordering on the Gulf of Mexico may acquire title to the land for said sea-wall or sea-wall reclamation district as designated by the county Commissioners' court by purchase or condemnation of all the land desired for sea-wall and land for the sea-wall reclamation district from the sea-wall to bay shore tide line boundary of the property abutting on the bay, and the State hereby cedes to the county, for such district, for reclamation and general uses of the district, the title to bay shore lands in the district between the property tide line boundary and the low tide line of the bay shore, and any land in the reclamation district that may have been retained by the Republic of Texas or the State for roads when the lands adjacent were platted and sold, and the county is given the right to dredge in the bay or in the gulf for fill for the district, and right to sell the land when reclaimed and laid off as townsites or otherwise, and where condemnation is used to acquire the land the proceedings to be as under the Statutes for condemnation for railroads, provided that the condemnation shall vest title in fee in the county, and county may issue bonds or other evidence of district indebtedness for acquiring the property, building the sea-wall, reclamation developments and all incident thereto as expenses of sea-wall and reclamation district, with lien on land and such terms and conditions as county, through its commissioners' court may deem best, and the county commissioners' court shall appoint two persons who are owners of land within the district, and who desire to sell for reclamation and buy back from the county when reclaimed, who with the county judge as chairman, shall continue a sea-wall reclamation district commission whose compensation shall be fixed by the court, and this commission has power to make all rules and regulations for acquiring the land of district sea-wall building, reclaiming and platting land of district, issuing bonds or other evidences of indebtedness for same, subject, however, to all such rules, regulations, and acts of the commission being authorized and approved and ratified by county commissioners' court. The district must bear all expenses of sea-wall and purchase of the land and expenses of filling, (filling) same and other expenses, and the same shall not in any way involve the credit of the county or be a basis for a tax by the county on general lands of the county unless authorized by a vote of two-thirds of the property taxpayers of the

county voting at a special election therefor. It is further provided that any owner of land in a proposed district may subscribe and pay for the district commission, when organized, as the pro rata of his land of the expense of the wall, reclamation, platting as town lots on a basis as such area of land is to be the whole land of the reclamation district and sea-wall, and at any time before the completion of the district may surrender the bonds and receive from the county a bond or title for his land in town lots, less streets and alleys deducted therefrom for which on surrender deed may be demanded from the county after the district is walled, filled, and platted into streets, alleys, and lots, and bonds so bought shall so provide. It is further provided that no district shall be formally designated by the county commissioners' court until owners of at least one-half of the proposed area of district petition therefor, and subscribe out for bonds for repurchase from the county as herein provided. This amendment may be acted on without delay of legislation in aid thereof or legislative action may be had in furtherance thereof if desired by the county, acting through its commissioners' court.

Be it further resolved by the Legislature of the State of Texas:

—If you are buying land require the seller to furnish you an abstract of his title, so you may know you are getting a good title. remains of Mrs. Woodrow

 Monday by the
 parents.

Heavy rains have fallen in the sec-
 of the country between San An-
 and Corpus Christi and some of
 streams have been swollen to
 proportions than they have
 for years, resulting in great
 loss to crops. One report stated
 a 13 inch rain fell at Beeville.
 The Duval county court house at
 San Diego burned Tuesday morning
 and most of the county records were
 destroyed. The building was a double
 story frame structure and was built
 many years ago. The county has
 been involved in litigation for some
 time by some of the citizens en-
 deavoring to force the officers to
 show the books and make a report
 of the county's financial affairs. As
 the records of the tax collector,
 treasurer, clerk and other officials
 were destroyed it is likely this lit-
 igation will be brought to an end.

One day gives the assurance that
 the constitutionalists will be given
 possession of the Mexican govern-
 ment without opposition from the
 federal forces and the next day comes
 the information that a hard struggle
 between the forces will result from
 an attempt on the part of the forces
 under Gen. Villa and Carranza to
 take charge of governmental af-
 fairs. The only way we have of
 knowing what the Mexicans intend to
 do is to wait until they have al-
 ready succeeded in carrying out
 their plans.

It now appears that W. P. Lane
 was really the winner in the race
 for congressman at large over Mc-
 Lemore, notwithstanding the returns
 sent to the state executive committee
 gave McLemore the nomination by a
 small majority. Returns from Dim-
 mit, Montagne, Menard, Oldham,
 Reagan, Reeves and San Saba coun-
 ties did not reach the committee in
 the time prescribed by law for such
 reports and, therefore, Lane lost the
 nomination unless the courts sustain
 his contention that the votes should
 be counted in the grand total, which
 will nominate him by a large
 majority, according to unofficial fig-
 ures. It is pretty safe to predict
 that the result will be the placing
 of Lane's name on the official bal-
 lot as the nominee.

Great fear is expressed by many
 that the result of the war in Europe
 will be disastrous to American mar-
 kets and that cotton will be almost
 unsaleable. Just how they reach this
 pessimistic view point it is hard to
 understand. By all the reason the
 Eagle can bring to bear on the sub-
 ject the markets will not suffer,
 should the war continue, but the war
 cannot continue for any considerable
 length of time because of the fact
 that it is one sided and is too ex-
 pensive in men and treasure. The
 overwhelming odds against which Ger-
 many is fighting cannot fail to force
 a termination of the war speedily,
 and by the time cotton begins to
 move the commercial world will have
 no signs of the war.

Reports received in the United
 States from the war in Europe are
 largely imaginary and many are
 doubtless pure fiction. The general
 manager of the Associated Press has
 issued a statement concerning the
 source of information and the ex-
 tent of news service in Europe,
 which states that the strictest cen-
 sorship ever known is now being im-
 posed. No authentic news of any
 character has been received from
 Germany since the war began and
 reports that are given out regarding
 affairs in that country are made up
 by English or French war corres-
 pondents, while all matter regard-
 ing the other armies, their move-
 ments, losses, and victories are
 such as to extent that no
 can be placed in them.

SWAT THE ARMY WORM.

Several places in the state have
 reported that the army worm is
 beginning to be troublesome, although
 no serious damage has yet occurred,
 and the Texas Industrial Congress,
 following its custom when unfavor-
 able conditions are noted in its re-
 ports of local crop conditions over
 the state, has sent suggestions to
 farmers of those sections as to the
 best means of exterminating the
 worm. The Congress is now in re-
 ceipt of information from the U. S.
 Department of agriculture that there
 is a general outbreak of this pest in
 the Northern States east of the
 Rocky Mountains and in other sec-
 tions of the country, and that the
 worms have apparently swarmed from
 the Southwest. It appears advisable,
 therefore, to send the following to
 the press of the state for general
 publication:

As the army worm travels usually
 in one direction, the farmer whose
 crop is threatened may plow a fur-
 row around it with the perpendic-
 ular side toward the field to be pro-
 tected, and drag a log along in the
 furrow from time to time to keep
 the soil loose and dusty and kill the
 worms which have accumulated in
 the ditch. This, with poisoning
 thoroughly half a dozen outside rows
 of the crop with one pound of ar-
 senate of lead to fifty gallons of
 water will answer the purpose.
 The heavy use of Paris green or
 London purple for poisoning is sure
 to injure more or less the foliage
 of the plants, and it is not recom-
 mended unless the arsenate of lead
 cannot be secured.

Where farms are carefully and
 cleanly cultivated, and not near to
 waste or swampy land, damage will
 not often be sustained. Deep fall or
 spring plowing to break up the un-
 derground homes of the larvae or
 young moths with the burning off of
 the old grass near the fields will
 generally prevent a start. Of
 course, the preventive methods are
 best because there are four or five
 and sometimes six generations of
 these worms in a season.

Where the worms are already dam-
 aging a cotton field they may be
 poisoned by scattering loose dough
 made of one pound of Paris green to
 a bushel of wheat bran thoroughly
 mixed and moistened with sufficient
 water, to which has been added a
 quart of molasses. This mixture
 should be scattered at the foot of
 the stalks late in the evening and
 care taken to keep chickens and live
 stock away from it. It should be
 remembered that arsenate of lead,
 Paris green, and London purple are
 deadly poisons and that these mix-
 tures must be kept away from the
 children—Industrial Congress.

SO DECEPTIVE.

Many Goldthwaite People Fail to Realize the Seriousness Backache is so deceptive. It comes and goes—keeps you guessing. Learn the cause—then cure it. Possibly it's weak kidneys. That's why Doan's Kidney Pills are so effective. We present the following case as proof:

Mrs. Mary E. Bourland, 1513 First St., Brownwood, Texas, says: "About four years ago, while doing my housework, I was suddenly seized with severe pains in my back which laid me up for two days. I was so bad that I couldn't move in bed and had to call for help when turning to another position. Seeing Doan's Kidney pills advertised, I got a box and began using them. After I had used half the box, the pains in my back left. I have had no return attack. My health also improved greatly." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bourland had. Foster-Milburn Co., Props, Buffalo, N. Y. (adv)

Summer Constipation Dangerous
 Constipation in summer time is more dangerous than in the fall, winter or spring. The food you eat is often constipated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the Bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose tonight, 50c, at your Druggist. (adv)

Oath having been made as required by law, you are hereby commanded to summon S. L. Darrow, and the unknown heirs, legal representatives, legatees, and devisees of S. L. D. 1914, in a suit numbered on the docket of said court, No. 13, wherein E. B. Anderson and Mrs. Jinx Smith are plaintiffs, and S. L. Darrow, and the unknown heirs, legal representatives, legatees and devisees of S. L. Darrow, deceased, are defendants, said petition alleging that the plaintiffs on or about the 1st day of January, 1914, were lawfully seized and possessed of the following described land and premises, lying and being situated in the city of Goldthwaite, Mills county, Texas, known and described as Lots Nos. Eleven (11) Twelve (12), Thirteen (13), Fourteen (14), and Fifteen (15), in Block No. Nineteen (19) according to the plat thereof made by A. S. Hayne, Engineer, holding and claiming the same in fee simple; that on the day and year last aforesaid, the defendants unlawfully entered upon the said premises, and ejected plaintiffs therefrom, and unlawfully withheld from them the possession thereof to their damage in the sum of \$500.00.

Notice is hereby given of the filing of Transfer of vendor's lien on said lots by G. C. & S. F. Ry. Co. to Whit Smith dated Jan. 9, 1909, retained in the deed from said Company to S. L. Plaintiffs further allege that the nature of the claim of the defendants is unknown to plaintiff, except that the defendant S. L. Darrow is a grantee in a deed from G. C. & S. F. Ry. Co. to S. L. Darrow dated Sept. 28, 1885, conveying to him the said lots, in which a vendor's lein was retained to secure the payment of the purchase money notes given therefor.

Plaintiffs pray judgment for the title and possession of the said land and premises, and the defendants equity of redemption be barred and estopped and for such other and further relief to which they may be entitled in law or equity.

Herein Fall not, but have before said court on the 1st day of the next term thereof this writ with your return thereon, showing how you have executed the same.

Witness L. E. Booker, Clerk of the District Court, Mills County, Texas.

The Case of L. L. Cantelou.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera, and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife, who had been troubled with severe bowle complaint for several months, I bought a 25c. bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured. For sale by all dealers. (Advertisement)

Not So Strange After All.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. Mrs. Rosie Rish, Waba-h, Ind., writes, "Nothing did me the least good until I began to use Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." The following letter from Prof. Albert Power, formerly of Star, to his home folks at that place will probably be of interest to his friends and the other readers of the Eagle. He has gone to the Philippines in the government service as a school teacher and gives some attention to that subject in this letter. After he gets located, he will likely write more fully of the conditions as he finds them. He says:
We are learning all of the time better how to comport ourselves, and at the same time we meet with many strange sights, sounds, and smells; and find many wayward characters from the states. We have now been on the road for several days and we have lost only one of our maestros so far, the same being our Mr. Lucas, who was an old man in the Islands, a gentle, unassuming successful man, and one in whom I had a great deal of confidence. Many of the men in this country are prone to be very windy, as you know are many in the homeland, but you will find many genuine men here, that the horrors of a rigorous climate, a pernicious system of civilization, and desperate loneliness, have left comparatively intact.
The names of the towns here are unbelieveable, as is the variety of the people, but I have a pocket map, and I never pay any attention to the unharmonious state of the population, any more than does the merest native. I am enclosing you herewith an extract from my journal that may interest you, although it is in a great degree patched, and is not done on the most approved style of English, and also the typing is of the very worst.
We now lie in the harbor of Catabalogan, and expect to make two more towns tomorrow, and to wind leisurely along from the last, which is Tulo-ban, so called because we there leave four more of our dear beloved pedagogues, and go on our lonely journey to heathen land. We went ashore today and saw the native constabulary soldiers at target practice. They seemed to do very well as long as some one was by to tell them how to adjust the sights, but to have no eye for details. They made a record of 90 per cent, a very good record indeed.
We also visited the schools here, and they seemed to be good except for the fact that the system did not seek to teach self-reliance, but permitted the pupil to rely too much on the maestro. In the trade school, they let the teacher do too much work, and the pupil too little.
We lay in the bay by the mine until some time in the night, when we set out for the city of Aroroy. Last night I spent in restless rolling, and this morning Mr. Lucas and I set out for the shore without taking any breakfast. There are several mines at this place, and there is also much to be seen in the way of native life; and though we did not have occasion to visit the mines, we went about and saw how the people of this land live at home.
The majority of their stock in trade seems to be dogs, hogs and chickens; but there is also an occasional suggestion of educated people. We met one young woman that said "Good morning" very politely, and one little girl even more so; and the charm of their expressions is such as is seldom seen anywhere, when they give this salutation. Women go about in very simple dresses and the men wear almost nothing, while the children go about clad in the breezy atmosphere.
Here the sea comes up almost around the little village, and the water rises during high tide until it surrounds the houses on one wing. There are very crude bridges over all the pools, in some places merely a small pole, across which one must walk or fall into the water. There was a very pleasantly disposed woman there too, who laughed and her breath at our awkward attempt to walk the board.
Mr. Lucas had been sick the night before, and had not slept well, so we did not feel secure in attempting the step across a pole of perhaps fifteen feet long with out any support. Any way we made it safely, and went along a narrow beach that was covered with shells

in great variety, but even here, there were not many of great beauty, but we found many colors of coral formation, and many peculiar shells and seeds.

The track of Chinese commerce is here also, and the Chinese wholesale merchants are said to handle all of the mine supplies. Great piles of rice bags were unloaded upon the shore, and borne upon the shoulders of natives up to the warehouse. The natives are slow to take advantage of the splendid opportunities for trade, but are commonly left to the places of more work and smaller profits, which is manifestly unjust to them, yet it cannot be helped if they themselves do not show an aptitude for business.

Last night we were lying in Masbate, and it is a larger port than Aroroy, and more Americans have their homes here. In almost every government building there are several Americans, although there are many places that the Philipinos can fill. It seems that though there are many English-speaking natives, one cannot always find one, but we are about over the inconvenience that this causes, as we find many that speak Spanish fairly well. Many serve here without speaking a word of Spanish even, and fare very well; this is because there are many provinces that were never touched by Spanish civilization, and in consequence, are not used to the language. Two great native languages obtain here; Tagalog and Vissayan, each of which is spoken about equally over the provinces. On the island of Luzon, Tagalog, and on the southern islands, Visayan and Moro. The Moros are fierce Mohammedan tribes on the southern end of Mindanao, and the Philipinos were first conquered by them, and they still hate the Philipinos, though they seem to be willing to be ruled by Americans. They die happy when they have atoned for the death of one of their tribe by taking some one's head and the Philipino's head is usually preferred, though white men suffer occasionally for the mania.

We have not been out of sight of land since we left Manila. We touch every day on some port and often make two ports per day, passing, as we go through the calmest of seas, though we have barely escaped the full force of another typhoon, and even felt the ruffling of the waves as we went into port at a mine ere we anchored at Aroroy. We docked at Masbate, the first time we have docked since leaving Manila, and it was a real pleasure to be able to walk ashore, instead of having to go ashore in the launch. This steamer carries a launch with it as it goes from port to port, for at some ports there are no launches, and a launch is a convenient thing to have along to tow the freight ashore when placed in the clumsy scows from ashore.

Farmers' Scientific Cotton Grader

(Grades Established by Act of Congress)

This cut represents a metal cabinet underneath a glass, with nine compartments, one grade of cotton to match the government type in each compartment.

There is skill and science required to arrive correctly at the exact grade of cotton. But with this grader, and our ten lessons with it, any man can tell the grade of cotton, who has good sight, well balanced mind and comparison.

The time has come for the man who handles cotton to know what it is and what it is worth on the market. Protect yourself.

You will readily see that our GRADER is what you need. It will save you its cost on two bales of cotton. Then you will have the pleasure of knowing the correct grades of your cotton, and by reading the cotton quotations in the daily papers you can know the value of your grades.

It is within the reach of every boy on the farm to learn how to class and grade cotton by using our cotton grader. No farmer who raises as many as two bales of cotton can afford to be without one of these graders.

Highly endorsed by the U. S. Government, as well as by farmers, cotton buyers and merchants who have used it:

Red Oak, Ellis County, Texas. The Farmers' Cotton Grader Company,

Gentlemen:—On Monday last I purchased one of your cotton graders, for which I paid you \$10. This week I sold four bales of cotton upon which I saved \$18, by reason of being able by the grader to know what my cotton would class. (Signed) F. K. CAMPBELL.

Estelline, Hall County, Texas. The Farmers' Cotton Grader Company,

Gentlemen:—I am using your cotton grader this season and would not be without it. It is an indis-

pensable instrument for accurately grading the cotton. It is simple and handy, and should be used by all those raising cotton. Every farmer should have one. Yours truly, (Signed) B. R. RUSSELL.

Plano, Texas. The Farmers' Cotton Grader Company,

Gentlemen:—I have used your cotton grader when grading my cotton to my entire satisfaction. I would not take \$50.00 for my cotton grader. I cheerfully recommend your cotton grader to all cotton raisers. Respectfully, (Signed) V. L. CASEY, Route 3.

For this needed help call at the store of

J. C. STREET, Goldthwaite

The Velie "Young Man's Buggy" will just about suit you. Take a look at it.—Bodkin, Hurdle & Co.

I sell for cash and will make you cash prices on Feed, Flour and Meal.—W. E. Pardue.

STAR

One of the movements for the greatest good to the people of Star is the new Methodist church being built at this place. Contracts have already been signed and Mr. E. N. Reister was the first man to bring out lumber for the church, he having donated the hauling of two loads toward the good cause. It is aimed that the church be ready for conference in September.

Dana Everly was here from Goldthwaite one day last week, visiting our big little town and shaking hands with friends.

Our gin men, T. E. Hamilton and T. L. Adams, are getting ready for the ginning season by way of repairing the gin and getting ready to run both sides. The gin at Star is really two complete gins in one house and Messrs. Hamilton and Adams expect to run both sets this fall.

Mrs. Jim McCarthy was called home from Hico, where she was visiting relatives, last week, to the bedside of her husband, who is quite ill with slow fever. Mr. McCarthy was carried to the home of his sister, Mrs. Z. T. Roberts, until his wife came back, it then being thought best not to risk moving him home until he improves some. He is doing as well as could be expected at this writing.

P. C. Ragsdale of Brownwood had business in this community last week.

M. N. Brinson had business in this community the first of the week. He says he thinks that Goldthwaite is still on the map.

Elvis Morris, one of our good merchants, is able to be up after several days of fever.

Rev. L. N. Myers, our lively, bustling Methodist preacher that is doing so much real work for the good of Methodism in this community, is holding a meeting at Knox. It was through the energy and determination of Brother Myers that the new Methodist church is now being built.

Joseph Worthington of Moline had business in this community one day last week.

John Manning and brother, Cris Manning, Jr., who have been working in the street car service in Houston, are here visiting relatives and friends.

Miss Rudd of Gorman is here visiting Dr. L. L. Jackson and family.

The Christian meeting held by Rev. R. J. Smith of Oenaville, and Paul C. Young of Cleburne, closed last Sunday night. The preachers went to Mullin, where they intend to hold a meeting.

Jim Cook of Moline had business in our big little city— one day last week.

Cotton in this community is doing fine. Cotton in some parts of the country is being bothered by worms, or caterpillars, and some fields have suffered considerable damage. The farmers are poisoning their cotton and are effectually killing out the worms.

Corn is already made and the yield promises to be the largest in several years. The prospects for the future are indeed encouraging.

Miss Berta Garrett, who has been quite sick with typhoid fever, is doing nicely now and it is thought that she will soon be able to be up.

Mrs. Jake Roe is doing much better now. She has been sick for

quite a while and her recovery is pleasing to her many friends. Mrs. Gib Watson, who has been sick with fever is rapidly convalescing and will soon be up.

Frank Mills has returned from a trip to Victor, where he visited friends.

W. A. Hawkins, one of Star's best citizens, is building a nice house for T. A. Gardner at Center City.

The Holiness meeting at Center City is drawing quite a crowd, several Star people going there during the week. STAR REPORTER.

Mrs. P. G. Palmer returned the first of the week from a visit to relatives in Lometa.

A card from Mr and Mrs. T. F. Toland announces their arrival in St. Louis and states that the folks were all at the depot to meet them. Such a reception was to have been expected, for the people in the wholesale centers have learned that when Goldthwaite merchants arrive, they buy large bills and pay the money, therefore, are mighty desirable customers and always receive a cordial reception.

GONE TO MARKET

THE Buyer for Little Dry Goods Company of Hamilton, Mr. W. T. Little, Mr. W. H. Walton, buyer for Little Mercantile Company of Lometa, and Mr. and Mrs. T. F. Toland, buyers for Little & Sons of Goldthwaite, Texas, left last Saturday night for St. Louis and the other Eastern markets to purchase Fall stocks.

Being familiar with the wants of the people of this section, we are going to put up the best assortment of merchandise we have ever had. Our long experience in buying, coupled with buying for three large stores and paying cash for our goods, will enable us to give you the best goods for less money. If you intend to buy land be sure and demand an abstract of the title, so you may know its condition, as otherwise you may get a bad title.—E. B. ANDERSON, Abstractor.

T. F. Toland and wife left Saturday night for St. Louis and other markets to buy fall goods for Little & Sons. They were joined en route by the buyers for the firm's other stores at Lometa and Hamilton.

Fred Faulkner has been employed by the Farmers Union Warehouse company to manage their warehouse and cotton yard the coming season. He is well qualified for the position and is popular with the people.

If you are buying land require the seller to furnish you an abstract of his title, so you may know you are getting a good title. If you contemplate selling your land, have an abstract thereto prepared first, so you will know what kind of title you can make to it, as the purchaser is almost sure to want to know. I have the only complete set of abstracts of the land titles of Mills county and will make your abstracts for a reasonable charge and will help you cure your titles if defective.—E. B. Anderson.

WHEN OUT OF SORTS START YOUR LIVER WORKING

No Matter What Ails You, Dodson's Liver Tone is Usually a Big Help in Getting Well. Avoid Calomel.

Nine times out of ten, when you are ill or out of sorts, your liver is out of order and getting it in order again will make you feel better. When your liver is sluggish and torpid and you are constipated and bilious, it is impossible to feel well.

There was a time when a great number of people took calomel when so troubled. But this is not true today. It has become widely known that calomel often has had after-effects and is even dangerous to many. The use of Dodson's Liver Tone instead of calomel has spread wonderfully because it has proved so beneficial in so many households.

R. E. Clements recommends and guarantees Dodson's Liver Tone instead of calomel and guarantees to return purchase price (50c) to you instantly and without question if you are not perfectly pleased with the way in which it relieves you from constipation, sick headache, biliousness, etc. It "lives the liver" and is a pleasant-tasting vegetable liquid, easy to take and causes no pain, no gripe, no bad results, no change from your regular duties and habits.

To test Dodson's Liver Tone is a sensible matter because you get your money back if you are not satisfied. (Advertisement)

Summer Coughs Are Dangerous

Summer colds are dangerous. They indicate low vitality and often lead to serious throat and lung troubles, including Constipation. Dr. King's New Discovery will relieve the cough or cold promptly and prevent complications. It is soothing and antiseptic and makes you feel better at once. To delay is dangerous—get a bottle of Dr. King's New Discovery at once. Money back if not satisfied: 50c. and \$1.00 bottles at your Druggist. (adv)

FAR AHEAD

Of the ordinary face creams, it stands out from the others as noticeably as the sun compared with the moon. In our opinion no other face cream compares with Dike's Peroxygen Cream. For sale at Brown & Lowrie's, at 25c the jar. (Adv)

Constipation Causes Sickness

Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the backed-up waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose tonight. 25c. at your Druggist (adv)

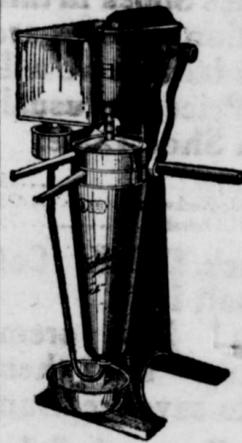

Infection and Insect Bites Dangerous.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects Cuts, Bruises, and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c. at your Druggist (Advertisement)

TREAT ME RIGHT.

Those who are indebted to me should pay me at least a part of what they owe, for I need the money and need it badly. Some who are indebted to me individually and to Dr. Townsend and myself jointly have sold oats and now have the money with which they should pay at least a part of the accounts. I have had sickness and other expense which makes it absolutely necessary that I secure some of the money due me right away. Don't overlook or forget this—I served you when you needed such service and now I am entitled to payment. Think right and act promptly.
