#### THE MEN BEHIND THE PLOW

The eleventh annual meeting of the National Farmers' Union was in session for three days at Fort Worth last week. The delegates attending the meeting came from more than two-thirds of the States in the Union, and every branch of agricultural endeavor was represented. The wheat farmer from the northwest, the corn farmer from the middle west, the tobacco farmers from the Virginia, and the cotton farmer from the sunny south—all held counsel together and were united in their effort to solve the grave problem which now confronts the American farmer. Coming, as they did, direct from the soil, with their hands brown from exposure and their minds attuned to the needs of the hour, there was no chance for dissension among their ranks and there was a complete harmony and unity of thought and action such as befit the class which feeds and clothes the world.

In direct contrast to another body which is now in session in Texas, presumably to aid the farmers in their plight, the national meeting did not play politics, employ dilatory tactics to consume valuable time, nor turn loose a flood of oratory, but with a thorough understanding and concerted thought, they offered valuable suggestions and passed resolutions looking to the relief of the farming class.—Commercial Secretaries.

W. J. Philen and family, who made their home in Refugio county for two years, have returned to their home at Ebony. Their many friends are mighty glad they have come back and hope they will now be content to remain in good old Mills county—the best part of the world.

Mrs. J. C. Cook and Miss Eva Philips returned to their homes in San Saba the first of the week, after a visit to Mrs. Gartman and family in this city.

Mrs. A. W. Bradshaw of Commerce visited her brother, H. O. Porter and his wife in this city the first of the week.

B. F. Geeslin returned Saturday from a business visit to Taylor county and reports good crops in that section.

Miss Mamie Kelley left Monday for Fort Worth to enter upon her duties as teacher in the public schools of that city.

Dr. Jackson of Star accompanied A. E. Wright and wife to Temple Monday, where the lady went for treatment in the sanitarium.

Miss Poca Taylor returned to her home in Dallas the first of the week, after spending a week here in attendance at her father's bedside.

Mr. S. R. McCraey, who has made his home with his son, Dr. L. P. McCraey, for some time, left the first of the week for a visit to relatives in Corsicana.

Mrs. Elmo McPherson and little daughters left Monday for a visit to relatives at Waco. Temple and Mc Gregor. They expect to return to this city for another visit before returning to their home at Orange, Cal.

Rev. J. C. Newman and family left Wednesday for Brownwood, where he will enter Howard-Payne college and Mrs. Newman will be matron at the young ladies' dormitory. He will continue as pastor of the Baptist church at this place and will fill his pulpit here Sunday at the usual hours.

Prof. Jeff Wilcox and family stopped over in Goldthwaite Saturday night for a visit to Everett Evans and family, while en route home to San Saba from a trip to Water Valley where they had been called on account of the serious illness of a relative. They left for their home Sunday and Mr. Evans accompanied them for a short visit.

# To our Friends And Patrons:

**O**UR trade, since coming to Goldthwaite, has been good--far beyond our expectations--and we are thankful to the people for it. We hope to be always able to supply the needs of the people with the same efficiency that we have this year, but the time has come when our bills are coming due and we are expected to pay them and are going to pay them.

Now, conditions have been thrust upon us for which we are not responsible. The farmer, the retail merchant nor the wholesale merchant--none of us are responsible for the conditions that confront us. But because we are not responsible does not relieve us of the obligations due to others. We are all going to have to make some sacrifice--every one of us.

We are willing to do anything reasonable to pay our wholesale people and we are making sacrifices and expect to continue to do so. Hence we expect you, one and all, kindly but positively to commence paying your accounts with us. Any man, woman or child that applies what they can on their account as they get it, can receive all the goods of any kind that they may want on credit.

We are not pessimistic, but very optimistic, and we believe we are on the eve of the most prosperous times we have had for many years. We hope that this simple request will be sufficient and that all our business relations will be continuous and pleasant.

We are, yours truly---

### TO THE CITIZENS OF GOLDTHWAITE.

There are several worthy country boys and girls in Mills county who are ambitious and anxious to go to school; but who have not the money to pay their way. Some homes in Goldthwaite may be in position to take such a boy or girl to help about the place mornings and evenings to pay board; or at least a part of their board. If you have such a home and you will let me know what you want, I shall be glad to assist you in getting it. Surely, no more commendable service to the world and to mankind could be rendered than that of making it possible for a worthy boy or girl to develop himself or herself to useful living. I have succeeded in placing two already in excellent homes. Very Respectfully,  
S. H. ALLEN.

# The Goldthwaite Eagle

PUBLISHED EVERY SATURDAY

ONE DOLLAR PER ANNUM

Entered at the Goldthwaite post-office as second class mail matter.

R. M. THOMPSON, Editor

With a fair price for cotton the country will be in fine condition.

President Wilson was one of the first to join the "Buy-a-Bale" club. He gave an order for a bale of cotton to be bought for him at 16 cents per pound.

It is said by those who claim to be in position to calculate the cost of the European war that every day hostilities continue an additional expense of sixty millions of dollars is incurred by the nations involved.

It may be that conditions are not much improved in Mexico, but the constitutional government has at least given the world a rest from the ailing of the woe of the people of that nation.

It is evident that President Wilson and his advisers do not expect the European war to end in the next three weeks, for he has designated Oct. 4 as a day of prayer for peace in Europe.

A report has gained circulation that Emperor Francis Joseph of Austria-Hungary has been dead for several weeks, but that the fact of his death has been kept from his subjects. It has been known for a long time that his condition was serious and if it develops that he is really dead there will be no surprise.

A convention has been called in Mexico by Gen. Carranza to nominate candidates for president and vice president of the republic. It is thought that Carranza will deliver the reins of government to a civilian and will enter actively upon a campaign for election to the presidency. The plan of government as outlined meets with the approval of Gen. Villa, who will support a member of the Madero family for the presidency.

An analysis of our Federal Census Records reveals the startling fact that the population of the rural districts of Texas increased only 19 per cent during the past decade and the cities population gained 68 per cent during this time. Every well informed, patriotic citizen of Texas realize that country life in this state is both unprofitable and unsatisfactory. The fact that our urban population is growing four times faster than that of the country is conclusive evidence that farm life fails to meet the requirements of an ambitious and progressive citizenship. If this mad rush of humanity from the farms to the cities continues, Texas will soon be an empire of consumers and the farms will become depopulated within another half century.—Commercial Secretaries.

The "buy-a-bale of cotton" plan suggested by many of the leading men and commercial organizations will undoubtedly be of some benefit in the present crisis, but it is by no means the panacea for the entire trouble. If every man who is able to buy a bale of cotton and hold it indefinitely will do so, the taking of that much cotton from the market at this time will be of some benefit, but far greater benefits can be derived by such buyers selecting the men who need to sell the cotton and buying it from them, rather than from wealthy land lords or speculators. Again to pay the prevailing market price will not be of great benefit to the seller, but if these "buy-a-bale" organizations will agree to pay 10 cents per pound for the cotton they buy they will assist the cotton growers to a much greater extent. Some of them have already agreed on this price as a basis, while others simply agree to buy the cotton at the prevailing price.

## A GOOD CAUSE

To The Mothers and Women of Goldthwaite and Vicinity:—

Do you think that Texas should have an institution where a girl who has made a mistake in life may have a chance to correct her mistake?

We want all those who think such an institution should be established, to join hands with the Board of Control and Finance Committee of the "State Girls Training School" and help us raise the necessary funds for its establishment. The State of Texas is to furnish \$25,000.00 when we raise an additional sum of \$25,000.00 and we now have about \$10,000.00 of the necessary amount and are asking the women of Texas to raise the balance, by giving us \$1.00 each. Can you give this much for this most needed and worthy institution?

The week of Nov. 8th-14th, 1914, has been set aside for the Campaign to be waged to secure these funds and there will be a woman appointed in your community to take charge of this Campaign. Her name will be announced later and you can give her your dollar or send it direct to the undersigned.

We expect to raise at least \$15,000. in this Campaign which will insure the establishment of the Girls Training School of Texas. The entire amount raised in this special Campaign by the women of Texas will be used in the erection of a Main or Educational Building. This Building is to be dedicated to the women of Texas, and an inscription to that effect will be placed on the cornerstone.

If you haven't a dollar that you can lay aside now, you can surely lay aside at least 10 cents a week so that by Nov. 8th, you can have the much needed dollar.

As Mothers and Women you should certainly feel very much interested and join us in showing the Men of Texas that the Women of Texas believe in lending a helping hand to a fallen sister.

Any information you may desire will be gladly furnished.

Sincerely,

QUENTIN D. CORLEY  
Chairman, Finance Committee,  
State Girls Training School.

## RANK AND POSSIBILITIES OF G. H. S.

Owing to the fact that there has been much said about affiliation for the Goldthwaite High school, much of which has been misleading, we give this statement to the press for the benefit of those who are interested. We hope that after this has been read that the friends of the school will pull together for a bigger and better school.

### Approval and Affiliation

In this state we have two kinds of schools. The first are approved high schools. This grading is fixed by the State Department of Education. The second kind are affiliated schools. Affiliation is granted only by the University of Texas upon recommendation of the University visitor of schools. There are three classes of approved schools: viz. first class, second class, third class. Likewise there are three classes of affiliated schools: viz. first rank, second rank, third rank. The rank of affiliation depending upon the number of grades carried in the high school. The graduates of an approved high school of the first class are admitted to the Junior class in the state normal. The Junior class in the state normal corresponds to the old Senior class. Graduates of second class high schools are admitted to the second year class in the State Normal. But approved high schools are not entitled to recognition as affiliated schools, unless they have been visited and passed upon by the University Visitor of schools. This affiliation admits graduates to the University of Texas, Baylor, Southern, and other schools of Texas. These students do not have to stand entrance examination. This means a great deal to the people of a community and much to graduates of the high school.

First: Many pupils who would go on into an institution of college rank are deterred from doing so by possibility of failure in entrance examinations. This is a well founded fear, because a school that is not recognized can hardly hope for its graduates to pass an examination given by the colleges.

Second: Any failure to pass the entrance examinations will force pupils to do a year's work in the preparatory department, making the course five years instead of four. It then comes to a financial question. Each pupil will probably spend \$400 per year. In case five pupils each year, go to higher institutions a saving of \$2000 per annum will result. But this is not all. The increased efficiency, which the higher standard will bring will be worth much to other graduates, especially those who wish to teach. This is of immeasurable importance, as fully 80 per cent of our graduates do begin teaching as soon as they leave the high school. Now the question arises: how may we obtain affiliation?

It may seem an easy matter to obtain this recognition, but a few facts will show that it is not. In Texas today we have 780 approved high schools (all classes) 280 first class. Of this entire number only 176 are affiliated. During the year June 3, 1913 to June 1, 1914, 109 schools applied for affiliation and all were refused but eighteen. Seven that had previously been on the list were dropped, and many others lost one-half or more units. No school can be affiliated unless they conform to certain conditions. The exact conditions are as follows:

1. Teachers must not have more than six recitation periods each day.
2. No teacher shall teach more

than two separate subjects. For example, a teacher may teach Mathematics and History, or Mathematics and Science, but no teacher is allowed to take an additional subject.

3. All teachers must have had two or more years of University or equivalent academic training, and each teacher must be a specialist in his or her subject.

4. Every school must maintain a nine months term.

5. Each school shall maintain a reference library for work in history and English.

6. The buildings must be comfortable, and conducive to study.

7. A good school spirit must prevail.

But satisfaction of these conditions is not always sufficient. The requirements for promotion and graduation must be uniformly high. A few practices such as too rapid promotion, carelessly performed work, bad discipline are extremely destructive to a school's chances for recognition. Even with these things out of the way the work must show signs of development. Two or three years' and often four years, is the least time in which any school can reasonably expect recognition, after all of these conditions have been satisfied. It now becomes necessary to explain in just what particulars the Goldthwaite school has complied and what its standing now is.

First of all, on July 7, 1913, the Goldthwaite high school was classified as a high school of the second class by the State Superintendent. At the beginning of last year some changes were made in the course of study, and the board insisted upon preventing premature promotions and overgrading. As a result of this policy the State Department, on Jan. 26, recognized the school as a high school of the first class, the only one between Brownwood and Lampasas. This was equivalent to raising the course of study one year. However, we did not deem it wise to apply for affiliation with the University. But during the year, we invited the Visitor of schools to inspect the school and make a report on his findings. Mr. Flechers report follows:

Goldthwaite High School, (F. E. Norton, Supt.) (unaffiliated) Mar. 13, 1914.

1. The high school is quartered in a comfortable well designed building, which is provided with a splendid study-hall.

2. The Visitor found practically all of the high school work below standard. The senior class is a full year behind in the various subjects. Students have been over-promoted and the speed of the pupils has been slow. A number of factors have probably contributed to create the present conditions, constant change of faculty, and short school terms are chiefly to blame.

3. The English is especially low grade, though a remarkable improvement during this year is evident. The English course is now well organized. It takes time to develop an English course.

4. The Latin witnessed was well taught and can be brought up to the standard in one more year.

5. The other work witnessed was below standard.

6. The program of studies is well planned. Too many subjects are now undertaken, but it is planned to drop some of them next year.

7. The discipline in general seemed good.

Recommended:

1. That if possible the school be maintained nine months.
2. That only teachers of adequate

scholarship be employed for high school work.

3. That a strong attempt be made to retain successful teachers.

4. That pupils be retained in their grades until they are prepared for promotion.

5. That pupils be speeded up to their capacity.

6. That only so much subject matter be carried as can be successfully taught by the teaching force.

This school board has made a strong effort to act positively on each of these recommendations. In fact each item has been carried out to the letter.

We deemed this explanation wise in that it would correctly inform all who are interested in the progress of the school, leaving no explanations to be made by those who do not know the conditions or requirements. GOLDTHWAITE SCHOOL BOARD.

Editor Eagle:

Rev. Frank Tippen closed a very successful and beneficial meeting Sunday night. While there was only one conversion, the church seemed to have been strengthened and all Christians benefited. The church unanimously called Rev. Tippin as pastor, but he has not definitely accepted the call. However, it is hoped he will. A weekly prayer meeting has been started up and the first Sunday in October has been set for reopening of our Sunday school.

## HOW TO HANDLE

### THE COTTON CROP THIS FALL

Is a puzzling question just now. It is not our purpose to attempt to suggest ways and means to dispose of it, as the subject in its entirety is far beyond our comprehension. But if in your judgment you should decide it best to hold your cotton off the market a while, you will doubtless want it insured; and in this particular phase of the matter we feel that we are qualified to advise and serve you. Following are a few reasons why we think you should patronize this agency:

The insurance business is not a side line with us -- our entire time is given to the study and handling of insurance. We endeavor to keep thoroughly abreast of the times in insurance matters, viz: State laws governing same, rates, policy forms, etc.

Our long experience in the business is another important reason. An inexperienced agent, though perfectly honest, may be the cause of trouble in the adjustment of a loss. From a standpoint of service we are now the oldest agents in Goldthwaite actively engaged in the insurance business.

We represent none but old line companies, all duly authorized to transact business in Texas. We represent 22 such companies, the combined assets of which are more than \$178,000,000.00. We can, therefore, easily insure every bale of cotton in Mills county.

All rates of stock companies are the same, but by exercising a little good judgment at the beginning you may be able to save some money. Let us explain to you how this may be done.

While we are directing your special attention to cotton insurance, we wish to remind you that we write all kinds of insurance.

**MULLIN**

To the Eagle, the Bird that soars  
as high in times of war as in times  
of peace and devours the crumbs  
that fall from the pen of Uncle  
Jann, Joan of Arc the Star corre-  
spondent and the little old Who's  
Who over at Mullin.

Amid the clash of arms, the rattle  
of muskets, the roar of canons, des-  
truction on land and water among the  
nations beyond our border; with our  
own dear native land pleading for  
peace, sheathing the sword and to  
go home to learn war no more. A  
prophet has arisen before us with  
drawn dagger and taking advantage  
of a pulpit thrust his dagger (as he  
thought) into the very heart of the  
Sunday School and left it to die; but  
the next morning as the great luminary  
threw her warming rays from  
ocean to ocean, from the lakes to the  
gulf and over the islands of the seas  
and beyond these into once heathen  
lands the news was heralded by the  
aged, middle aged, and the young on  
their way to the house of God to  
prove this windy prophet that what  
he thought was death dangling at  
the point of his dagger was a myth,  
for the intelligent and best people  
God ever made were on their way  
to Sunday School and his wonderful  
tirade was in comparison to the  
tiny insect that chanced to light  
on the elephant's back.

My! What Whoppers "we 'uns" get  
to be in our own self conceit and  
imagination, and how diminutive in  
the eyes of intelligent people who  
read and think for themselves. Ha!  
Ha! Ha! and the Sunday School is  
still alive notwithstanding the  
thrusts of the Mills county prophet.  
You need not shoot any more like  
unless you can find something to load  
with.

Well, Mr. Editor, we have been  
having happening since my last ap-  
pearance upon the stage. The old  
hotel on the corner has been con-  
verted into a nice 14 room two story  
building.

The old Dew gin changed hands,  
which moved Mr. Owen to Lampasas  
and Rufus Martin becomes a citizen  
of Mullin, who takes charge of the  
gin.

Our young folks maids and bachelors  
are scattering in different directions  
to teach and go to school. Three  
meetings have been held, one at the  
Methodist church, preaching by Bro.  
Wilson the conference evangelist,  
which was pronounced by all first  
class and very instructive. The  
rainy weather interfered very much  
and the results were not what was  
desired. The "Church of God in  
Christ" under the leadership of Mr.  
Bradley held its annual feast on  
Mullin Creek, the result of which  
is unknown to the writer. Then  
came the Primitive Baptist Associa-  
tion bringing people from near and  
far whose voices floated out in melo-  
dious strains as they sang nothing  
but the old songs of Zion. The writer  
was there on Sunday morning and  
heard two sweet spirited sermons by  
two of their old ministers. As it was  
their closing service they sang one  
of the farewell songs, shook hands  
and shouts of praise went up to Him  
who has it in His power to keep His  
saints under the hollow of His hands.

Richard Burgess has bought the  
old Colleenback blacksmith shop and  
we presume will move to same.

Uncle Henry Cobb has been quite  
sick, but at present seems to be  
reaching out for his good health  
again.

The head lines of the dailies fill us  
with indignation and almost actual  
madness as they portray the uncalled  
for, butchery of men. If the praying  
people believe that God hears and  
answers prayers they ought to go  
to their knees and implore for His  
interference against such human  
slaughter.

Now Mr. Editor, if any one asks  
you "Who's Who" just tell them  
its who: Who stands for liberty of  
speech and thought. Who believes  
in Sunday Schools and everything  
that tends to lift humanity up toward  
God and Heaven. Who believes in  
the formation and protection of Char-  
acter. Who thinks others are as  
smart and smarter than he. Who  
thinks the reins of home government  
too slack. Who is a prohibitionist  
from principle. Who never joined

nor endorsed a mob nor mob law.  
Who never was run down by the  
authorities as a boot legger and forced  
before the courts to swear and  
get others to swear falsely to keep  
him out of irons. If your interrogator  
is not satisfied with this kind of a  
who just tell him its who and let  
him Skiddoo. WHO'S WHO.

**KRYPTOK  
LENSES  
A CATECHISM YOU  
SHOULD KNOW**

**1. What are Kryptok  
Lenses?**

Kryptok lenses are an improved  
form of Bifocals. By a clever patent-  
ed method of using two kinds of  
specially prepared optical glass, the  
reading and distance portions are so  
combined that there are absolutely  
no visible dividing lines between to  
mar the appearance or irritate the  
sight.

**2. Why Should I Buy  
Kryptoks?**

Instead of two pairs of glasses, a  
single pair of these bifocals is all  
that is necessary. Compared with  
KRYPTOK LENSES, the old  
style bifocal lenses with a reading  
portion pasted on are unsightly and  
even disfiguring. They accentuate the  
age of the wearer, besides making it  
necessary to duck and dodge the ever  
present dividing lines in a most awk-  
ward manner. But with Kryptoks all  
this is avoided. No one, even inti-  
mate friends, would suspect that you  
wear bifocals, for there are no dust-  
collecting visible marks to advertise  
the fact. Both surfaces of each lens  
are clean and clear.

**3. Where Can I Buy  
Kryptoks?**

Our modern methods of scientific  
eye examination enable us to tell ex-  
actly what your eyes need in the way  
of correct lenses for far and near  
vision. We are fully equipped to com-  
bine these corrections exactly in  
Kryptok lenses. Our experience in-  
cludes the perfect fitting of the lenses  
before the eyes in mountings best  
suited and most becoming to your  
features. This is a science to which  
we have given very careful study,  
and consequently our patrons enjoy  
the utmost in comfort and improved  
appearance.

The matter of glasses is one  
closely associated with your own  
health and happiness, and we urge  
you not to delay in the matter of  
consulting us on this very important  
subject. If you wear glasses, we  
can very easily prove the value of our  
service; if you do not wear glasses,  
we can quickly and accurately tell  
whether you should, and if so what  
kind of glasses you need, no matter  
what they may be.

# THE UNITED STATES CREAM SEPARATOR

1914 MODEL

## The Only Mechanically Washed Separator

Mechanical washing of the U. S. Separator skimming device is possible for three reasons.

First.—The smooth curved blades of the skimming sections form narrow, circular "runways" through which a tremendous current of water rushes when the sections are rotated (in same direction as the blades curve), by the Mechanical Washer (Centrifugal force does this cleaning largely); thus are all the surfaces scrubbed perfectly.

Showing the quick and simple manner of washing the skimming device with the Mechanical Washer.

You can test this quick washing at our store or at your home. Call, telephone or write.

Second.—U. S. superior construction eliminates all obstructing corners or rough surfaces in which or behind which milk or dirt can lodge. The construction of no other separator borders so close to perfection in this particular.

Third.—The sections which make up the skimming device are built of non-rusting, non-adhesive Nickel Silver—the easiest to clean and most sanitary metal used in Separators.

### STAR HOME MISSION

On Tuesday, Sept. 1, the Woman's Home Mission met in the hospitable home of Mrs. Henry Morris. It was indeed, a pleasant meeting after the lapse of hot summer days. Fourteen members were present with two new ones to add to their list. After pleasant and sincere greetings were exchanged the meeting opened for business with a song and prayer. The reading of the 103 Psalm was very impressive. Then followed the regular lesson, a general review of the first four gospels, Matthew, Mark, Luke and John. It was a spiritual lesson with a list of questions to be answered in regular "spelling class" style. At the close of the lesson only two were found to be able to repeat the Beatitudes from memory. They were Mrs. M. J. Peck and Mrs. Henry Morris. After the singing of several songs the meeting closed, but instead of returning to their homes immediately the guests were ushered into the lovely dining room by their hostess and were served with cake and punch.

An hour or so was spent in pleasant conversation, and despite the closing of the business session, plans and charities were discussed with unlimited zest. But after awhile, when the sun was near dropping behind the western hills the guests reluctantly departed to their homes, taking with them the memory of a most pleasant afternoon. They meet again on Sept. 15, at the home of Sister L. N. Myers, and everybody (ladies of course) is invited to come and join and take a part in the good work.

**CONFEDERATE MEETING**

Jeff Davis Camp No. 117 U. C. V., met in a regular session in the Justice of the Peace's office with Commander Jno. W. Allen present and presiding.

The Camp was opened with prayer by Chaplain Haralson. The adjutant, A. C. Decker, being absent, J. T. Prater acted adjutant pro tem.

Minutes were read and some payments made at Reunion were taken up and explained.

The report was made to the Camp that the Club was thinking of throwing up its contract with the Camp, buying ground and improving it. It was reported they had become offended at the Jeff Davis Camp from remarks made by members that the Air Ship for the last Reunion was a fake and was done to draw a crowd. Comrade Haralson denied the charge made against our Camp, and was mortified to think that the Commercial Club should credit a false report and reflect on our Camp without first making a thorough investigation of the matter. That had some member of our Camp made such an erroneous charge the Camp did not approve the same and should not be reflected upon or held responsible. That a contract was made to have an Airship for the occasion. That the money to pay for it was made up and placed in the Trent State Bank by the Club, citizens and some members of Jeff Davis Camp. is a fact beyond any doubt.

Parties were applying to lease the ground, from the Camp, but the Camp felt disposed to treat this matter in a business way, and appointed a committee of two, G. H. Denison and D. E. Hopkins, to meet with the Commercial Club at its next meeting and ascertain their desires and intentions in this matter.

The business over the Camp adjourned to the next meeting.

JNO. W. ALLEN  
Commander.

**MR. HOOKS DEAD**

Mr. D. M. Hooks died at his home in this city Tuesday night and the announcement of his death was a great shock to many of his friends. For his illness was known to only a few.

Mr. Hooks was one of the oldest citizens of Mills county, both in age and time of residence. He located in Center City community many years ago and after living there a few years he moved to Hamilton, where he served as county surveyor for several years. In the early days of Goldthwaite he moved to this city and made his home here continuously until the time of his death. He was one of the best men of which the county could boast and was a devoted member of the Presbyterian church. He had many friends and no enemies and everybody held him in high esteem. He was 76 years of age at the time of his death and was very active and energetic for one of his years. He leaves a wife and grand daughter here and a daughter whose home is in New Mexico.

Funeral services were held in the Presbyterian church Wednesday afternoon, conducted by Rev. Gay, pastor of the church, assisted by Rev. D. I. Haralson, chaplain of the Confederate camp, of which organization Mr. Hooks had been a loyal and honored member. Interment was made in Odd Fellows cemetery and the services at the cemetery and at the church were largely attended.

**TO THE PATRONS OF THE HIGH SCHOOL**

The Mother, and Teachers Club met in called session in the Rest Room of the Court House, with Mrs. McCullough, presiding, Aug. 24, 1914.

Matters of interest to the school were discussed and several important topics were introduced.

Mr. Norton spoke of the lack of reference books for historical study and ways and means for supplying the needed volumes were planned.

The growing extravagance of dress by the girls of the High School was discussed at length and realizing that the mothers are not only home makers, but represent the purchasing power of the family, the Mothers and Teachers take this method of asking the parents of the girls of the High School to combine in an effort to cut out the useless and senseless expenditure for dress that there may be more money for the things that are sensible and useful. Knowing that uniformity of dress will aid in beauty and simplicity in this matter the Mothers and Teachers recommend that, as the summer clothing is laid aside, only middie blouses and skirts be worn by the girls of the High School. These garments are easily made, comfortable, and hygienic, and will set a standard of economy and judicious dressing. MEMBER.

**B. M. C. ENTERTAINED**

On Friday evening of last week the B. M. Club as embled at the Promp on home. After the guests had arrived we were told Miss Lawrence had planned a theater party. This proved quite enjoyable. The theater was followed by a romp on the lawn, in other words a "lemon race," a lemon being carried in a spoon from the porch to the fence and back again, the one making the most trips was adjudged prize winner, who proved to be Mr. Claude Burch and was awarded a fountain pen. Ghost stories were told till everyone had a creepy feeling. Delicious melon was served.

At a very late hour the girls bade Miss Thompson a kind good night, with fond memories of the evening.

The visitor were: Mesdames W. K. Marshall, Edward Geeslin, Misses Vaghti Power and Lizzie Stephens.

The club will be entertained on Friday, Sept. 18, by Mrs. Claude Saylor. S. S.

### CALOMEL A GREAT DANGER—TO MANY

Has Bad Effect on Some—Dodson's Liver Tone Takes Its Place and is Perfectly Harmless.

If you will inquire at Clements' drug store you will find that Dodson's Liver Tone is guaranteed to be a safe, reliable remedy to take the place of calomel and a harmless liver stimulant having no bad after-effect. Indeed many of these firms will refund purchase price (50c.) without question if you are in any way dissatisfied with this vegetable liquid.

It is very unwise to take calomel, even dangerous, as many people suffer from the poison afterwards, even though they may appear at first to be temporarily relieved. On the other hand, Dodson's Liver Tone works easily and naturally (really assisting nature) with no pain nor gripe and correcting all bilious conditions, andills of constipation, clearing away the sick headache and the coated tongue, brightening up the dull brain and strengthening the weakened body at the same time that it removes collected waste from the overburdened system.

Those who have tried Dodson's Liver Tone have found that it made them healthier and happier. A test may prove of great benefit to you right now. (adv.)

### TREAT ME RIGHT.

Those who are indebted to me should pay me at least a part of what they owe, for I need the money and need it badly. Some who are indebted to me individually and to Dr. Townsen and myself jointly have sold oats and now have the money with which they should pay at least a part of the accounts. I have had sickness and other expense which makes it absolutely necessary that I secure some of the money due me right away. Don't overlook or forget this—I served you when you needed such service and now I am entitled to payment. Think right and act promptly.

Yours Truly,
