AN IMPORTANT ISSUE

Will Goldthwaite Have A System of Water Works.
The question of water works is now clearly before the people of this community and every tax paying citizen will be called upon to assist in reaching a correct decision. The committee appointed by the Commercial club to look into the cost of a water system sufficient for fire protection and domestic purposes will report to the meeting next Tuesday night and then plans will be outlined to secure just such a system as is thought necessary. There is but one way to provide funds for such an enterprise and that is by a city bond issue. The taxation method is too slow and we know by experience and long years of waiting that private capital can not be induced to take hold of the enterprise. Then the question comes squarely to the taxpayers: Do we want a bond issue for the purpose of putting in water works, or shall the town continue to do without such a system? There is no reason for quibbling or misunderstanding. There are but two sides to the question and every man interested on either side will be given an opportunity to be heard at the club meeting next Tuesday night. If a sufficient number of taxpayers appear to oppose the bond issue to indicate a defeat of the proposition, in an election the subject will likely be dropped, for there is no need for the expense of an election and the engendering of strife in the community if the proposition is not favored.
It is generally believed that the only feasible way to secure a water system is by sinking several wells and placing a reservoir on some eminence from which a pressure can be had sufficient to afford protection in case of fire and to insure a flow to every part of the town. The cost will not be less than \$10,000 and more likely be double that sum. It is for the property owners to say what shall be done about it.

Lee Son was here from Brownwood the first of the week, looking after business matters.
Wilbur Fairman returned Wednesday morning from a visit to his brother Earl at Corpus Christi and a short business visit to Austin.
O. H. Robbins, county farm demonstrator, made a business trip to Brownwood the first of the week to attend a district meeting of demonstrators.
Goldthwaite merchants are receiving and putting on display large stock of spring goods and are anticipating a good business during the spring and summer.
The rains have put the ground in fine condition for plowing and the small grain is doing fine. Prospects could not be better at this time of year.
Miss Isophene Tolar left for her home in Loraine Wednesday, after a visit to Mrs. S. A. Lowrie and family in this city. She expected to stop for a short visit to friends in Talpa on her way home.
Jas. P. Dumas, referee in bankruptcy for the San Angelo district, and Fred Williams, trustee for the Geeslin Mercantile company's assets, spent Wednesday in this city looking after business connected with the Geeslin company's affairs.
The examining trial of Julio Fuentes before Judge Hines last Saturday afternoon resulted in the accused being held under a bond of \$500. He was charged with killing another Mexican in the railroad camp near Antelope Gap one night last week.
The Methodist congregation here has under advisement plans for building a modern parsonage on the site now occupied by the preacher's home. A committee of stewards has been appointed to look after the details and submit estimates and other facts to a meeting to be held later. A new parsonage is not only needed but it will add greatly to the appearance of the church property.

HEARNE-SULLIVAN

O. B. Hearne and Miss Mattie Sullivan were married at the residence of J. R. Lee in the Plainview community last Sunday afternoon at 3 o'clock, in the presence of a large assembly of friends and well wishers, Rev. Jo. H. Frizzell officiating.
The groom is the youngest son of W. F. Hearne of Payne and the bride is a daughter of Mr. W. V. Sullivan of the same community. Both of the young people were reared in this county and have a host of friends, who join in extending to them hearty congratulations and sincere wishes for a long and happy life.

WHEN WAR IS DONE
In Europe when the war is done—may that day soon be greeted!—when some their victory have won, and some have been defeated 'twill be a country of the old, the halt, the maimed, the dying; in unmarked couches, 'neath the mould, the young men will be lying. Afar the youthful hosts are flung, like grain that waits the reaping; for war takes harvest of the young, and leaves the old men weeping. In Europe, when the war is done, and the rust dims sword and saber; in barren fields from sun to sun, old men and dames will labor. The patriarch must guide the plow in fields yet red from slaughter; while hitched like horses are the frau, the grandma and the daughter. Perhaps, some cripple from the war may help to do the seeding; while groaning o'er his varied scars, the old wounds freshly bleeding. Some veteran on his wooden leg, whose strength is swiftly dwindling, may milk the cow and fetch the eggs, and split the daily kindling. But everywhere the weak and old must do the heavy toiling, must strive the little farm to hold, and keep the pot a boiling. Old men and dames—the harvest waves—go forth and do the reaping, for in the red and shallow graves, your strong young men are sleeping.—Walt Mason

Just what demands Japan has made on China is a curiously dark question. There is a radical variance between the press version that comes from Pekin. Even the explanations which come from Washington are more confusing than enlightening, which suggests that, at all events, it is a decidedly secret diplomacy that is being practiced, notwithstanding the world is now distracted by a war which is itself largely the consequence of secret diplomacy. If the Pekin version of these demands is the correct one, then another seems to have been born to the time's brood of troubles and dangers. If the Pekin version is to be accepted, Japan has not been content to demand the transfer to itself of all the exclusive privileges from which it ousted Germany at Kiau Chau. It has demanded privileges far beyond any enjoyed by Germany. If the grant of these demands would not have the effect of closing the "open door" they would at least have the effect of making Japan the doorkeeper to a considerable extent of Chinese territory. In any case, whether the Pekin or the Tokio version is the correct one, it is evident that our State Department has fallen heir to another problem that would abundantly tax its energies if there were no others to claim a share of them.—Dallas News.

PAY CHECK FORGED

The forgery of a Santa Fe pay-check voucher has come to light, and the Hub Dry Goods company is the loser of \$40.50 through the deal. The check was presented at the Hub store Monday, in payment for a bill of goods, and the goods and change from the check were handed to the purchasers, three Mexican women. The banks being closed, the check was held until Tuesday, and upon inquiry it develops that the check was a forgery.

The check was made payable to J. J. Oliver, and was endorsed with the name of J. J. Oliver on the back. The voucher was a printed form such as the Santa Fe use, the printing being identical with that of the genuine vouchers. The paper used was different, the genuine vouchers bearing the watermark "Santa Fe" while the forgery was on plain paper. What made the check noticeable as a check, however, was the forged signature of K. S. Hull, as paymaster. Mr. Hull is division superintendent, and of course never signs checks for the company.

An effort is being made to locate the Mexicans who cashed the check, but with so many Mexicans in town it is very difficult to identify any of them with the meagre descriptions available.—Brownwood Bulletin.

NEW DEPOT ASSURED

The much talked of and long expected new passenger depot is soon to be a reality. Mr. J. M. Arnold, Santa Fe agent at this place, has been notified by his company that the plans for the new structure have been approved, the money appropriated for the building and bids will be opened and the contract awarded on March 10.

The depot will be of tiling or brick and will be modern in every particular. It is understood a location for the new building has been selected opposite the present depot and immediately in front of the Taft hotel. Mr. Arnold has asked for a complete description of the new building and we hope to be able to give full details in the near future.

Just received big shipment of spring Suits and Pants for boys.—McKinley Corrigan Co.

R. M. THOMPSON, Editor

It is stated by Postmaster General Burleson that the public has been defrauded of \$351,000,000 in the past five years by the fraudulent use of the mails.

The great Panama-Pacific exposition opened in San Francisco Saturday morning with great ceremony. An immense throng attended the opening and passed through the gates.

The attorney general of New York has brought a libel suit against the New York Tribune for an editorial in which he says his motives were impugned in dispensing with the services of Jerome as special prosecutor in the Thaw case.

The amputation of Mme. Sarah Bernhardt's right lower limb will not cause her retirement from the stage, according to a statement credited to her immediately after the operation Monday in the sanitarium in Bordeaux, France.

A federal grand jury in California has indicted a number of prominent men in that state on a charge of violating the neutrality of this government by having recruited soldiers to serve in an army of invasion of Lower California—a possession of Mexico.

The first vessel flying the United States flag to be sunk in European waters was the steamship Evelyn in the North Sea. The vessel was loaded with cotton and was en route for Bremen, Germany, when it struck a mine and went down, but the crew was saved. It is not expected that responsibility for the disaster can be placed by investigation, for all the warring nations have placed these mines.

The publishers of a northern monthly journal have conceived the novel plan of securing free advertising by sending a copy of their publication to newspapers throughout the country with a paragraph slandering the southern people marked for attention. The scheme is working beautifully and many newspapers "take a fall out of the paper," which makes the public want to look at the publication that is thus being scored.

The statement of ex-President Taft that this country is facing a crisis in the protection of its rights and maintaining its neutrality as to the European war is not a new thought, but it was very pertinent at this time. Many of the foremost men of the nation believe that this government will be drawn in the crisis within the next few months and perhaps few weeks. Those who do not regard the situation as serious will be surprised when they learn the actual conditions.

A negro desperado was shot and killed in a battle with officers in Dallas Saturday night and in the battle the assistant chief of police had a part of his hand shot away. The negro had murdered several negroes and had boasted to members of his race that he was the murderer of Miss Florence Brown, whose dead body was found in an office in Dallas a year or more ago, but the grand jury investigated his case and decided he could not have been guilty of the crime.

An Austin special says: "So great is the problem of solving the penitentiary question, according to members of the legislature, that they have practically abandoned the idea of attempting to secure passage of remedial laws on the penal system of Texas at this session. The report of the committee which investigated the state farms and the penitentiaries legislators say, discloses a state of affairs which requires serious and thoughtful consideration and which will require more time than can be spared to the question at the present session. The committee's report shows the penal system was operated at a loss of \$850,000 during the past year. Those interested in this legislation believe at least two weeks should be given to consideration of the penitentiary laws.

EVERYTHING'S ALL RIGHT

There's a man in our city, and perhaps in yours too, who goes a-whistling and a-singing at everything he has to do; and he never sees a storm cloud dark enough to make him "blue," for he knows that very shortly the sunshine will filter through; yes, he knows that notwithstanding there are clouds all drooping low, up above the sun is shining and the mountain top's aglow, and the lowlands and the valleys which are now by mists concealed soon will come forth in their beauty, their loveliness revealed to the eyes of men and women and their admiration gain like the snow upon the mountain and the flowers on the plain. He believes that wisdom's guiding, but just why he can not tell, still he feels there's safe abiding and that all will yet be well. He is satisfied to struggle and in all things do his part; he may have in mind some trouble, but a song is in his heart. Matters not how dark the night is; at last comes the broad daylight; when you ask him, "How're they coming?" he says, "Everything's All Right."

He has found a thousand song birds where there's one old hooting owl; he has found there're many smiling where there's one who wears a scowl; he has found ten thousand flowers where there's one obnoxious weed, and he sees ten kindly actions where there's one unkindly deed. He sees many days of sunshine where there's one of storm and cloud; he finds scores of laughing children where there's one old croaker loud. In the brooks he hears the murmur of sweet music soft and low, and the waterfall's deep thunder gives a joy we all should know. He looks out upon the prairie with its miles of waving green, and the dewdrops look like diamonds with their bright prismatic sheen; finds the air filled with perfume from the flowers nodding low—and they got their sweet aroma in the sunshine's radiant glow. So our hero keeps on smiling, 'spite of storm, or cloud or blight; when you ask him "How're they coming?" he says "Everything's All Right."

Yes, he is a real hero and his warfare is the kind that gives courage to the hopeless and that causes them to find that quite often when they are droopy and look on the seamy side, there's another and a brighter where their thoughts should all abide. He defies the bile and hookworms of the fellow with the frown, and the wrinkled brow and blue funk of the pessimist and slouch, and with confidence and effort soon these "bugs" he puts to flight; even the pessimistic microbe leaves his presence in a night. "Oh, please forget this whimp'ring," says the hero of our song; "soon you'll find all things are glorious which you now think are all wrong. Match your song and manly courage against the frown's face so blue, for the joy and peace you send out will be sent right back to you; and with interest quite often is this debt of love repaid; so of trouble and misfortune we should never be afraid. They are phantoms and grim specters conjured up to scare those who could at once a whole battalion of such things as these outdo if they'd only get their nerve up and defy them with a smile; then their lives would seem worth living and their efforts be worth while." This advice comes from our hero with the smile and face so bright; when you ask him "How're they coming?" he says "Everything's All Right."—Dallas News.

Whatever the differences of opinion as to the wisdom of the President's policies, his critics concede his patriotism, his intelligence, and his sincerity. He takes his high duties seriously. Not a cheap man, he makes no cheap appeal for support. He compliments the American people by assuming, as in his speech at Indianapolis, that they have outgrown the taste for the old partisan fustian and wish their public men to establish contact with the verities of present-day life. It is new and refreshing for a political leader to rest his claim for support on ideas rather than on mechanical membership in a party. The assumption hitherto has been that a party won as a party rather than as trustee for a specific set of government proposals.—New York Globe.

PROCLAMATION

Whereas, March 10 has been designated as "Clean Up Day" in this state and is to be observed by many of the cities, towns and communities by improving their sanitary conditions and it is desirable that Goldthwaite be kept fully abreast with other progressive cities of the state, and whereas, the ladies of the Self Culture Club of this city have also designated this date as clean up day for the city and asked the co-operation of the citizens and officials in the very important movement.

Therefore, I, as mayor of Goldthwaite do hereby designate March 10, 1915, as Clean Up Day in the said city. On that day all citizens are requested to co-operate in the good and beneficial work by clearing their premises and vacant lots of all trash, tin cans, etc. Those who place scrapings from their premises in some convenient receptacle can have the same removed by the city wagons upon application to the scavenger, the city marshal or myself. Rocks and scrapings from the barn lot will not be hauled without charge, but trash that can not be burned will be hauled free.

Immediately after the date designated as clean up day the city marshal will be required to make an inspection of all premises, barn lots, stables and vacant lots and report to the recorder the names of all persons whose premises are not in proper sanitary condition.

If every citizen will co-operate in this work we will continue to have a clean and healthful town and will thereby be well repaid for the labor and expense.

WILL H. TRENT,
Mayor.

At its last meeting the city council emphatically urged the chief of police to see that the ordinance against fast running of autos in the city is enforced. The council takes the view, and very properly, that it is better to come down on it now than to wait until some child or other person is run over and killed or seriously injured by the fast running of autos within the city limits.—Herald.

W. T. Little, proprietor of the Little Dry Goods Company house, the exclusive dry goods establishment of Hamilton, is at home from an extended purchasing trip which took him to the cities of New York, St. Louis, Chicago and other big wholesale market centers. The notes and accounts valued at twenty-eight thousand dollars were sold at six hundred. Since this sale was not accepted by the court the entire stock and notes will be sold at private sale. There has already been a better offer than the sale brought, and it is thought that it will bring considerably more than the eight thousand, six hundred and twenty-five dollars.—Chief.

VALENTINE PARTY

Among the delightful valentine socials was the one given by Mrs. Harry Martin on the eve of February 16, to the "Wallace Workers" not only to the Sunday school class, but a number of visitors besides.

The guests were greeted at the door by Mrs. Martin, very appropriately attired in white satin trimmed with red hearts. Each guest was gracefully escorted by Miss Lillie Martin to the punch bowl that was placed in a beautiful bed of chrysanthemums. Miss Marjorie Taylor clad in white, with a pink heart-shaped apron and cap to match, served delicious iced punch. Entering the parlor lively strains from the piano were heard rendered by Misses Sophia Martin and Vergie Taylor. Here the color scheme was red and white. Valentine post cards were in profusion everywhere. Score cards a "Musical Romance" were passed each blank to be filled as the piece of music was being played. This caused much excitement and merriment for the time.

Over hanging the piano was a huge heart from which hung fluffy streamers to which were tied valentines. These hearts were intermingled in a lacy fern. In each heart was written a verse ending with a letter or figure. Everyone was told to clip a valentine and find who held his heart. In the dining room the color scheme was further in evidence. The highly polished table was over laid with a white lace cover, having as its central adornment a miniature "Fortune tree" covered with tiny hearts. Small triangle baskets tied with red ribbon held the mints. A delicious ice course featuring the color motif was served. Each was then told to pluck his fortune. Dame Fortune, it appears, has great things in store for some.

"Your wedding bells will echo soon" Then high-ho! for the honey moon" While to others "Single blessedness" etc.

At a late hour all bade Mr. and Mrs. Martin good-night with fond memories of the evening.

The out of town guests were Mr. and Mrs. Earl Power of Waco, Mr. and Mrs. Dechert and Misses Taylor of Mullin. A GUEST.

THE SILO AND FEEDING

This is the season for making plans as to how the animals are to be taken care of through the summer and the winter following. Many farmers will begin to raise livestock this year who have never before kept livestock, except work stock and perhaps a cow or two to supply the family with milk and butter. Hence those who have increased their flocks and herds should plant crops to supply plenty of feed.

Grazing crops will be of paramount importance. The cheapest gains made on livestock are usually when the animals harvest their own crops and when grazing is supplemented with feed suitable for a balanced ration. Grain and hay will also be needed, as it will be a very difficult matter to secure profitable returns from animals where it is necessary to buy much grain and hay.

The silo should be carefully considered as a means of conserving feed. It will save a large per cent of the corn, sorghum or other crops usually lost without the silo. The crops needed to fill the silo can be planned and planted at the right time, then, if necessary, the silo can be ordered to be erected later. Should the manager not have sufficient animals now to justify building a silo, but expect to increase the number during the year, he should plant a crop suitable for ensilage and order his silo. The time is short for selecting the land and planting the crop, consequently no time should be lost. The silo will help provide economical feeding and it should have consideration.—Farm and Ranch.

PREACHERS WE KNOW

Rev. J. B. Reese and wife are moving from Brownwood to Lometa where they will live with their son.

Pastor J. H. Hunt of Mullin was in this week and reported his work moving along nicely. Only half of his time is taken in pastoral work. He is a splendid young preacher and we hope all his time will be called for. He hopes later to attend the Seminary at Ft. Worth.

Rev. H. P. Wilsford of Eden has resigned the pastorate at Melvin where he has been giving half time. During the 14 months of his work there he raised about \$600 to pay off some indebtedness on the building and the church received about 45 members. He closed his work there last Sunday with a baptismal service.—Central Messenger.

A Mexican laborer with the steel gang on the railroad works was badly injured Thursday by a tie falling on his legs. No bones were broken, but the injury was quite painful and he was sent to the railroad hospital at Temple.

THE HIGH SCHOOL SENIORS ENTERTAIN

Misses Ebers, Johnston and Forehand entertained the Senior class on Friday evening, February the nineteenth, at the home of Mrs. M. E. Ebers. Besides the class and high school teachers, Miss Forester, Mr. Mullan and Mr. Gardner were present.

The guests entertained themselves by writing patch work Romances, then reading them aloud. Progressive "Lagomachy" followed with five tables playing. At the end of the game a silver handled nailfile was given to Miss Sophia Martin for getting the highest number of points. A second prize, a staghorn paper knife was given Norman Grisham. Throughout the evening music was furnished by Misses Forester and Ebers. Refreshments were served consisting of marshmallow whip, punch and wafers. The refreshments carried out the scheme of class colors—white and gold.

The evening was greatly enjoyed, as are all of the Senior class entertainments. REPORTER.

A cruel murder has been revealed near the Mason-McCullough county line, where Hugh Chamberlain, a transient horse trader, was murdered and a traveling companion is reported to have confessed the crime. It is said the man was killed while asleep in camp on the Brady-Mason road and his body was carried into a pasture and left wrapped in a wagon sheet. The man charged with the crime had \$214 in his pocket when arrested and is said to have admitted that approximately half of the money belonged to the dead man. He claimed to have known the murdered man only a few days, having joined him at Belton for a trip through the country.

HUMAN TRAITS IN TREES

In Their Struggle For Existence Some Are Cowardly, While Others Are Aggressive.

Forest trees and human beings possess certain traits in common. Some are aggressive, while others cannot stand competition. It has always been a feature of history that certain tribes of men have retreated to deserts or to bleak and inhospitable climates rather than fight for and hold the good countries. The same rule holds with forest trees. Some withdraw to tracts where competition cannot follow.

The great and stately white pine is a vegetable coward, but that term must be used in a pretty wide sense to be wholly applicable. This tree was found in the original forests of America occupying sandy tracks, rocky hills and uninviting situations. In its long struggle with competitors it lost the rich valleys and fertile hills, and retreated to situations where pursuit and competition would be less vigorous. It found retreat easier than fighting.

Some people suppose that the white pine occupies sand, swamp and rocks because it likes those conditions best. The correctness of the opinion is doubtful. Probably no tree "likes" poor soil, though some are seldom found elsewhere. It is true that some have lived so long in such situations that they have partly accommodated themselves to their environments, in seed bearing and in other ways; but it is doubtful if it should be stated as a general proposition that any trees seek poor places from choice. Back of their presence there, it may be taken for granted that there is compulsion elsewhere.

Cypress is a vigorous tree, of gigantic bulk and long life; but it fled to the southern swamps while the white pine was taking refuge on sandy tracks and rocky ridges in the north; and it fled from the enemy—other trees which demanded the best lands.

The southern white cedar, which grows from New Jersey to Florida along the coast, has likewise taken refuge in swamps and tublo gum has done likewise, and so has water elm, though it is not of much importance anywhere.

The mangrove tree is one of the best known instances of trees which literally "got off the earth." It grows in the water along the shores of southern Florida, and has done it for a period so long that its seeds have lost any land habits they ever had, and are now adapted to water planting only.

The southern pines resist competition feebly. The longleaf pine, which sticks to the sandy land more closely than some of the others, is a poor fighter for space. It is the opinion of some good botanists that if left to its own resources, with no human help, it could not hold its present ground many hundred years. Grass would choke the seedlings, and broadleaf trees would finally take possession. It is believed that before the white man's coming it was the Indian's yearly fire that enabled the longleaf pine to hold its ground. The fires burned the grass and the broadleaf seeding, but the pines managed to survive the scorings sufficiently to perpetuate themselves, though the stands were usually quite thin.—Hardwood Record.

We are having a cool spell the last few days. Many of the fruit growers are afraid that "Jack-frost" will make a raid and defeat their orchards.

The school children are rejoicing that cactus season has come again. Bro. Thomas, the Methodist pastor, filled his regular appointment Sunday evening.

After service Sunday morning the Baptist people called Rev. Smith of Locker as pastor. W. J. Philley elected superintendent of the Sunday school, to fill Mr. J. M. Robertson's place. (Uncle John).

Mr. Roy Reynolds made a flying trip to San Diego, California, the last month. He and Uncle John found that the "gold" had all been picked up.

Mr. Mora White visited his sister, Mrs. E. J. Griffin at Regency Sunday.

Mr. Luke Russell, Misses Maud Russell and Levia Whittenburg and also Mr. Louie Jones attended a valentine party at Oakland.

Mr. C. C. Gilly gave the young people a party Saturday night. All report a nice time.

The young people enjoyed a singing at Mr. F. M. Egger's Sunday night.

The school celebrated Washington's birthday last Friday night. Quite an interesting program was rendered. Mr. Duncan's complaint of his wife's buying a fifteen cent egg beater from an agent was very amusing when the audience saw him have to pay two dollars for a book to get rid of his agent.

Mr. and Mrs. Winters with the help of the maid finally got ready for their visit. It is to be hoped that in real life his hat will not be so hard to find. Mrs. Buttermilk and Johnnie with their belongings, were too convinced to describe, while the society for the suppression of slang did not seem to impress any of those misplaced of missused words. A number from the communities were present. We were very sorry that so many could not get in the house.

Mr. Williams and the teacher gave the school a valentine entertainment on Friday evening of the thirteenth. Fishing the apples from the bucket of water with the teeth and pinning the head on the deer furnished the amusement of the evening. Everyone received a valentine.

FURNISHED FREE !!

A Washer and Sterilizer

UNITED STATES CREAM SEPARATOR

WITH EVERY NEW

The patented U. S. Mechanical Washer and Sterilizer saves hours of time.

The U. S. Mechanical Washer is a marvelous cleaner. It is a marvelous sterilizer. In a year this Washer actually saves days of time over other ways of washing skimming devices.

The U. S. has the only cream separator bowl that can be successfully washed, rinsed and sterilized mechanically, for the following reasons.

It has the only bowl through which the water can be driven with such tremendous force that its cleaning power is superior to hand washing, and lots quicker and easier.

The U. S. Separator has the only skimmer built of solid Nickel Silver sections. They always remain smooth and non-adhesive.

You could not wash a silver platter any cleaner in the dish pan than you can the Nickel Silver skimming sections in the patented Mechanical Washer.

Mr. Elmer Nixon, Victory, Wis., says, "The new washing device is a dandy. Mrs. Nixon declares that washing the separator is now a pleasure and that with the new Washer the U. S. can be washed in one-third the time required to wash any other separator."

Why not buy the most improved separator—the U. S. You will use it twice a day for the next ten years.

Old separators taken in trade. A demonstration of the new U. S. gladly given at your home, without obligation.

HUSBAND RESCUED DESPAIRING WIFE
After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.
The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. Had gotten so weak I could not stand. I gave up in despair.
At last, my husband got me a bottle of ardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I am now walk two miles without its helping me, and am doing my work."
If you are all run down from womanly troubles, don't give up in despair. Try ardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should readily help you, too. Your druggist has had Cardui for years. He knows what will do. Ask him. He will recommend it. Begin taking Cardui today.

AN INTERESTING PROGRAM
The Self Culture club prepared an interesting program for "Arbor Day" exercises in the court yard and every number was appreciated by the audience.
Judge E. B. Anderson was the master of ceremonies and the first speaker was Judge G. H. Dalton, who told of some of the early history of the county and enthused his hearers with a spirit of progress.
Mr. P. H. Clements followed in one of the characteristic addresses in which he gave some good advice and dwelt on the importance of tree planting.
Following these addresses, several interesting papers were read by club members as follows:
Paper: "The Law Establishing Arbor Day" by Mrs. S. A. Lowrie.
Paper "A Grove of Historic Trees" by Mrs. J. C. Street.
Reading: "Woodman spare that tree" by Mrs. J. M. Campbell.
Paper: "Trees valued for their food as well as other properties" by Mrs. M. E. Thompson.
Then followed the planting of three trees in the court yard, which marks the beginning of the planting of trees and shrubbery by direction of the Self Culture club, which will add greatly to the appearance of the grounds and surroundings. Each member of the club present assisted in planting these three trees and a number of their friends also proved their endorsement of the efforts of the ladies by giving assistance in the tree planting. The three trees planted were christened in the name of Judge Dalton, county judge, Mr. P. H. Clements and Mrs. E. B. Anderson, president of the Self Culture club.

THANKS FOR LIBERALITY
The Self Culture Club desires to extend its sincere thanks to the commissioners court, the Commercial club and the citizens who so generously responded to our call for financial assistance in the purchase of trees and shrubbery with which to beautify the court yard. The response was very encouraging to us and the contributions to the cause were as liberal as we could have desired. In fact, more money was contributed than will be necessary for the purchase of the trees, but it will be used by the club in making other improvements on the grounds.
The spirit of co-operation and friendship for the club and its work was not overlooked by us, but is equally as much appreciated as were the contributions and we hope that the result of our undertaking will be highly pleasing to all citizens of the town and county.

Just in time with kidney pills

Means curing the backache, the dizziness, the urinary disorders. That so often come with kidney troubles.

Doan's Kidney Pills are for this very purpose.

Here is testimony to prove their merit.

Mrs. S. A. Harness, 204 W. Lampasas, St., Lampasas, Texas, says:

"I used Doan's Kidney Pills, after I had been told that they were good for kidney trouble, from which I was suffering. I had lameness across my kidneys and my back pained me severely. Headaches were common. Doan's Kidney Pills quickly removed these troubles and improved my health."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Harness had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv.)

HOW TO PREVENT BILIOUS ATTACKS

WANTS SETTLEMENT

I am now preparing to make a change in my business affairs and it is important that those who owe me make settlement at once. It is desired that full payment be made on all accounts, but those who find it impossible to pay in full can certainly make satisfactory arrangements. J. H. LOGAN, M. D.

POST BARGAIN WEEK

It was at some convention or other attended by Texas newspaper men. The boys, of course, were talking shop. One of them said:

"The Houston Post is not only a live, readable daily, always upholding and fighting the battles of Democracy in the State as well as the Nation. Not only this, but The Post is and has always been most instrumental in the boosting and upbuilding of South Texas."

Somehow his remarks have since remained in my memory, bright and luminous. Just a few sentences, but as pat and right to the point as George Bailey's best paragraphs. This newspaper has for a few weeks, been announcing that March 10th to March 25th would be Houston Post Bargain Days. The regular price for The Daily and Sunday Post one year by mail, is \$8.00. During the Bargain Day period you can get The Post for a year for \$4.99 through this newspaper. It will come to you by mail. Daily and Sunday. Get ready with your \$4.99. XX.
