Editor Eagle:

I will drop the old Bird a few crumbs this clear cold morning, and let him know where to fly to as we have moved and can't afford to miss a copy.

We now live about twenty-five miles southwest of Childress close to a beautiful little creek called Running Water. It runs the year around. It seems a little lonesome here, after being used to the noise of town thirteen months but we enjoy out here much better than we did in town, but in place of the noise of town and the whistle of engines, about all we hear is the howl of the lonely coyote, both evening and morning, and the lonesome squall of the blue quail and they are here by the hundreds.

I am not able to do much work but my job is mostly to see after a few hogs and feed the poorest cows and poison prairie dogs, but I will do some farming if it ever rains so we can plow. We are close by a little school and have an extra good teacher and there are five pupils. There were only three until we moved out here and started our two. They all seem to be learning fast and all seem to love each other and enjoy being together.

We have had a very severe winter, but has been dry and cold only one light snow yet, but Mr. Editor, I think I will prefer a warmer climate before another winter unless I can get well of this awful rheumatism.

Now, wishing you and your host of readers the best of fortune, I'll say adieu.

DAVID L. GOODWIN.

When you have visitors, make a trip or know any other item of news tell the Eagle.

T. E. Lancaster was here from Zephyr the early part of the week, looking after business matters.

The income tax officer will be in Mullin next Wednesday and remain there two or three days. He will be in Goldthwaite next Friday and remain three days.

Every voter should be sure to secure his poll tax receipt before the end of the present month. It is important and absolutely necessary if he expects to vote in elections this year.

Mrs. Nipper of Big Wells stopped in Goldthwaite for a visit to Rev. W. G. Callahan and family, while on her way home from a visit to relatives in Brownwood the first of the week.

Mrs. Friesle and Mrs. Roll of San Angelo, accompanied by Lawrence Friesle of the U. S. army, visited Gora Knight and family here the first of the week and Mrs. Knight accompanied them home for a visit.

In sending in his subscription renewal this week W. W. Wall gives the pleasing information that he expects to return to Mills County to make his home. He is a mighty good man and holds a warm place in the hearts of those who know him.

W. E. Ruttencutter, circulation manager for the Temple Telegram, was a business visitor to Goldthwaite the early part of the week and made the Eagle an appreciated fraternal call. It doesn't take a trained eye to tell that he is "there with the good" when it comes to his line of business and with men like him in charge of the business affairs of the Telegram it is no wonder that it is "The world's bond" you can buy war savings stamps. Every citizen should help some,

MERRY WIVES

The Merry Wives met Tuesday afternoon with Mrs. T. F. Toland, hostess. The tables for 42 were placed amid attractive environments, ivory baskets of carnations being effectively placed amid a wealth of potted plants. Mrs. Will H. Trent and Mrs. Walter Fairman scored high as club members and Mrs. L. E. Miller received a box of hand-worked handkerchiefs for success among the guests.

A salad course of refreshments was served with hot chocolate and fruit cake.

Guests other than club members Norman Weatherby, L. E. Miller, were Mesdames Sam Sullivan, Ethel Weatherby, G. N. Atkinson.

As everything was arranged for games and the afternoon had passed all too swiftly, the Merry Wives and husbands walked in on Mr. and Mrs. Toland at 7:30 p.m. for a New Year's trick on these good natured people. The first part of the evening was devoted to music, social chat and a number of members are in the habit of doing Red Cross work that they had their knitting and worked as well as visited, until tables were placed for 42. Mrs. O. H. Yarborough and Mrs. J. D. Brown received high honors among the ladies and Mr. J. A. Gillespie among the men.

Mr. and Mrs. Toland served hot chocolate and wafers before good-byes were said. The entire evening was so enjoyable that host and hostess need not be surprised to receive an unexpected visit from this club at any time.

Mrs. Mary Mauldin returned Monday night from a protracted stay in Miles.

T. A. Gardner of Center City was looking after business matters in the big town the first of the week.

Mrs. Carroll Lowrie and little son returned Monday from a visit to Carroll, who is now employed in San Antonio.

Mrs. Mamie Lee left for her home at San Benito Monday, after a visit to her parents, Mr. and Mrs. Jas. Rahl, and other relatives at this place.

Miss Bertha Stephens of Arbutte, Okla., arrived in the city Monday for a visit to her uncle, C. L. Stephens, and family.

The impossible condition of the roads seriously interfereed with the rural mail carriers the latter part of the week and the first of this week.

Mrs. John Schooler left Tuesday for her new home in Miami, Arizona, after spending some time here with her parents, Mr. and Mrs. Lewis Hudson, and other relatives. She expected to stop at Ballinger for a short visit with relatives.

It is interesting to Mills country people to know that Leonard Doughty, Jr., is now naval instructor at Harvard University and is the only naval officer on duty there. He spent his childhood in this city and is remembered by all who knew him as an exceptionally intelligent boy. The great success he has attained at so early an age is indeed gratifying to his friends and the friends of his father and other relatives. He is a son of Mr.

Leonard Doughty, formerly of this city and now of San Antonio and grandson of the lamented Col. Dan Triplett,

Have you ever stopped to consider the real significance to you of the trade-mark or brand name on the package or label of the article you buy at the store?

Have you ever stopped to think that the presence of an advertised trade-mark on a can o' pork and beans, for example, is a guarantee that these beans are of good quality?

This must be true else the advertising would defeat its own purpose. The trade-mark, being a mark of identification, is as much a means of rejection as of selection.

That is, if the article so identified proves unsatisfactory, you are enabled by this trade-mark to avoid it a second time.

Manifestly, a manufacturer could not afford to put a brand name or trade-mark on an unsatisfactory product. People would not buy it a second time and he would run himself out of business almost immediately.

A manufacturer backs a branded product by his reputation. Therefore, he cannot afford to stake his reputation on any product that is not good.

It is only when he puts on the market a satisfactory product, one which people will like and call for a second time, that he can afford to put the mark of identification upon it.

But when he has such a product, he wants people to know that it is his. Every package he sells then helps to build a reputation for him and his goods.

Advertised, trade-marked goods then are most apt to be good goods.

The advertised trade-mark is your guarantee of quality.

NOTICE TO FARMERS AND STOCK RAISERS!

The time of year is at hand when your stock is more liable to sickness. As we have at present a good deal of sickness among stock I urge every stock raiser and farmer to close attention and at any time notices any ailment among his stock phone me, as my advice is probably the best. I can usually do much to help the owner of the animal, as in many cases a stitch in time saves nine.

Don't let your stock get sick a day or two or 4 days without medical aid. When they show some ailment, phone me. It costs nothing to ring me and give me the symptoms and in many cases I can save you money and bring great benefit to your stock. I will tell the animal is most dead and then go to treating it, as the time to treat anything—man or beast—is at the first attack. Get after it in time. Give your stock a purgative and cleanse their systems of the accumulated poisons. A run their livers and get the digestive organs to handle their food.

The Tick Fever season is near at hand and I urge all cattlemen and farmers to have their cattle vaccinated against this fever. Don't do like some of my customers last year—wait till they lost 2 or 3 good cows and then call me and have the rest of them vaccinated. Have it done before they take the fever, for my medicine has been demonstrated out here and every man knows it will prevent Tick Fever. I vaccinated several thousand head of cattle last year and they never had any more tick fever, so there isn't any guesswork about my medicine. It does the work.

If I vaccinate your cattle and within 6 months one of them takes Tick Fever I will furnish you with another dose free of charge. If that isn't fair, what is? The first of February is the time to vaccinate against Tick Fever. I keep in stock a nice line of high grade veterinary medicines and do a general veterinary practice. Call and answer day or night.

After a wedding journey to New Orleans, Key West, and Palm Beach, they will be at home to friends, Feb. 1 at Baldwin, Fla.—Lampasas Leader

The menu served to the sailor boys at Mare Island for Christmas dinner will be printed in the Eagle next week.

MULLIN

From the Enterprise:

Miss Lizzie Varn visited relatives in Goldthwaite Saturday and Sunday.

Mrs. T. A. Lovelace happened to quite a painful accident last week by falling while the snow was on the ground and injuring her hip which caused her to be confined to her bed for several days.

A horse of rather poor appearance and seemed to be without an owner walked up on the back porch at the Herrington home during last Thursday night and froze to death.

Mrs. N. J. Ish, a pioneer lady of the Zephyr community, died there last Wednesday and was buried in the Zephyr cemetery on Thursday. Mrs. Ish had made her home in that community for almost forty years.

Frank Greer, who lives a few miles west of Mullin, lost forty head of goats from freezing to death during the blizzard of last week. This is the most damaging loss we have heard of in this section from the freeze.

Ollie Murphy and wife left Friday for Colorado City where they will spend a few days visiting with relatives before going on to Arizona, where they will make their future home. Mr. Murphy left in his car while Mrs. Murphy made the trip by rail.

R. P. Canady, son of Mr. and Mrs. J. J. Canady of Mullin has been made local manager of the West Texas Telephone Company at Brownwood, having been transferred from Coleman where he held a similar position.

PLANTING GOOD SEED

Good seeds are far more important than many farmers believe. Many failures and low yields could be traced to poor seed.

Not all of us would agree probably as to what the ideal should be in good seeds, but we do not differ as to the essential points in selecting or buying good field and garden seeds. What we expect and what we insist upon is that the seeds be capable of reproducing their kind in the best possible manner.

In the first place the seed should be viable. It is a great waste of money and time to plant seeds that germinate very poorly. Where one-half of the seeds fail to germinate one must double the cost of getting a stand. Perhaps where one-half or less germinate it may be impossible to get a stand under the conditions, in which case you cannot afford to plant such seeds.

Not only should the seeds be viable, but a large percent of them should produce vigorous plants; weak, sickly plants are always a great handicap. Plants are similar to animals—inherited is a great factor for vigorous offspring. It is highly desirable that the seed in question have possibilities for the reproduction of fruitful, high-yielding plants of the species. It is not enough that the seed be plump and heavy; they should be as nearly uniform as possible. That is necessary to insure even and uniform distribution in planting. There are many kinds of planters now on the market but better results will be had with any of them when uniform, clean seeds are used.

The time has come when we must take greater pains with the seeds we plant. A stand of plants is very important. Even with good seed a poor stand may be had owing to a poor seedbed and lack of attention in planting. The importance of planters and grain drills will not be questioned this year. With seed's high and scarce and farm products worth so much, it will not take long to pay for planters and drills in the saving these implements will make. Then there is a saving in labor and the further advantage of planting on time all of which should be considered.—Farm and Ranch.

The British government will undertake the mobilizing of another half million men for army duty, that number of men being declared necessary by the military authorities.

Fire destroyed a million dollars worth of food and other supplies at the military barracks at Washington Monday. The explosion of a large quantity of gasoline gave an impetus to the flames, which were of unknown origin.

The military committee of the senate has been advised by Secretary Baker that the administration favors the discharge from draft liability those citizens who become 31 years of age since registering last June where they have not been called into service.

Capt Bill McDonald, the noted Texas ranger, scout and peace officer, died at Wichita Falls Monday. He was serving as United States marshal for the northern district of Texas at the time of his death. He was well known throughout the country and had some personal acquaintances in Mills' county.

Senator Morris Shepherd has announced his candidacy for re-election to the United States senate. A number of prospective candidates have been suggested to try the strength of the Texas junior senator, but it is not likely any will be found with the nerve to go against him when the campaign opens in earnest.

A big reduction has been ordered in the cost of maintaining the military draft boards. Prior to Dec. 1 the cost to the government for each accepted man for military duty was \$11 and under the new order it will be but 30 cents, being 10 cents each for board members. The cost in Texas has been \$100,000 per month to maintain the 279 draft boards of three members each. The total cost in this state for board members and clerk hire prior to Dec. 1 reached the aggregate of \$400,000.

A fast train on the Houston & Texas Central road was wrecked near Calvert Monday morning at 3:30, killing sixteen passengers and injuring a large number. The wreck was caused by one of the wheels of a chair car "splitting" the switch at a small siding. The derailed cars struck a locomotive standing on the siding, causing some of the strain pipes to burst, resulting in many of the passengers being scalded with the water and escaping steam. The wreck was from a most unusual cause and the fatality list was unusually large.

A terrible tragedy was enacted in Camp Funston, Kansas, last Friday night, resulting in the loss of four lives and the injury of one man, besides the theft of a large amount of money estimated as high as \$80,000. Four men were in the army bank when a captain of one of the companies located there knocked on the door for admittance. As soon as he was allowed to enter the door he covered the four men with his revolver and forced one of them to tie the other three. He then tied the fourth man and proceeded to rob the bank. When he found that the men recognized him he deliberately struck each with an ax he carried concealed beneath his coat. Three of the men were killed outright, but the fourth will recover notwithstanding he was badly injured. When the captain found that one of the men would recover and would, therefore, be able to identify him he suicided.

MULLIN

Editor Eagle:

As the gray dawn of morn'g is pushing back the shades of night for another rainless day and while a meatless breakfast is being prepared, I thought I might spend a few of these early favored moments letting Bro, Bob, and the children of the quill know that I am not starved out, discouraged, nor very much affected by sweetless sweets, meatless meats, drouthy drouths and the such like.

While the signs of the times are not very flattering, yet when we consider the goodness of an all wise Father and the great tendency of the people to pleasure, money and violation of His laws, with but little signs of making amends, we could hardly expect further indulgence on His part without some reprimand and chastisement. "His thou shalt nots" are being trodden under as though they had never been uttered. Many of us would have been seriously dealt with long before this had we been as persistent in disobeying an earthly father or mother. Until we gather ourselves together as a nation and restore the sanctity of the sabbath, the marriage relations, home influences, stricter adherence to divine and man-made laws we need not expect God to withhold his wrath, or at least permit drouths, famine, war and other things that will greatly trouble and should point our minds back to the wilful and continued violations of His commands and bring us in penitence to the feet of Him who spake as never man spake.

These things must begin in the home, therefore, the sacred precincts of the home need the unmolested unity of man and wife to train their children to know the importance of obedience and loving submission to home rule. If they fail to get these lessons in the home, the chances are fines, imprisonments and fugitives from justice point the index finger to many. How sturdily then should the marriage ties be guarded. Marriage is the navel of the world and should preserve kingdoms, filling cities, churches and heaven itself. Like the useful bee builds a house and gathers sweetness from every flower and labors and unites in societies and republics and sends out colonies, feeds the world with delicacies, obey their kings, keeps order, exercises many virtues, promoting the interest of mankind and is that state of good to which God hath designed the present constitution of the world. If this be true, may we not emphasize the fact that the home is where these foundations must be laid? Can it be done with any certainty of success without the co-operation of the heads of the homes and a love for the Christ to thus unite that the sunbeam of His love may fall across their path? Just a sunbeam, yet perchance it may pierce and gladden some stricken heart or its golden light find its way thru the leafy branches of some wild-wood and kiss the moss covered bank where the tiny violet's grow, casting shades of beauty to adorn its lovely form. As a gentle breeze fans the aching brow and cheering hearts by its gentle touch, so may the unity in the home drive away the clouds that overhang so many.

Just a stray bullet may pierce the noble soldier boy as he treads the lonely midnight road, faithfully guarding the precious lives intrusted to his keeping and the life blood slowly ebbs away, the sunbeam of God's love will fall on the face of that dead boy as a reminder to mother and father that their home training was not in vain. Only a sunbeam, just a stray bullet and a drop of ink carrying the news of death to anxious ones at home, causing tears of anguish, yet amid this grief a peaceful thought comes to mother and father that they did their duty in the home and they have the assurance that the boy trained in the home accepted the

Storm-Proof Pigs are Scarce!

AND every Spring they get scarcer, because cold, wet and exposure kill off enough young pigs every year to fill the packing houses if they had grown to maturity.

Warm, dry, light hoghouses are absolutely essential to profitable pig production—otherwise there will be heavy losses from disease and hardship suffered in inclement weather.

Why sacrifice valuable pigs to the weather when so little money will buy strong, durable, economical Southern Pine or other good lumber sufficient to provide adequate shelter? One pig saved from death due to exposure will more than pay for a good portable hoghouse!

Stop attending pig funerals and come in and get the necessary lumber that will save many future generations of pigs. We have plans for hoghouses, too, from which you can select and build the type you prefer—they're free.

DO IT NOW—and save your bacon!

(Intended for last week)

Editor Eagle:

Health of this community is very good at present, with the exception of sore eyes and bad colds.

William Braker visited his mother, and other relatives at Taylor last week and his sister, Miss Minnie, and his brother-in-law accompanied him home.

Miss Vangie Kauhs, after spending several weeks with friends and relatives in Austin, Marble Falls, Spicewood and other places, returned to her much loved work. Miss Vangie is first clerk in Mr. Jeske's dry goods department.

Miss Lydia Buffe was very sick last Sunday, but is much improved at this writing.

They are progressing nicely with the school building. If bad weather doesn't prevent, it will be completed by the first of February. The teachers as well as the pupils are very anxious for its completion, for they are very crowded in the small building.

Miss Tony Schuster from Eden is visiting her sisters, Mrs. Jeske, Mrs. Spiser and Mrs. Henry Buffe.

Emil Schuster, Rinald Wagner, Fritz Wuestinger and Rudolf Schuman spent part of Sunday evening with Carl Meyer.

Miss Hanna Walther was the guest of Miss Emma Meyer Sunday evening.

E. M. Meyer, Ed Hein and Wm. Braker went to Caradan on business last Monday.

We presume the dance at Mr. H. Buffe's Saturday night was enjoyed by a large crowd.

Miss Hanna Schwartz went to Pottsville last Sunday, where she will stay with her sister for several weeks. SALLY

CAMP TRAVIS

Good Suggestions By the Publicity Department

Experience of thousands of members of the national army upon reporting for duty at Camp Travis has developed some "don'ts" that may be timely for the second contingent of men selected to serve their country, who will soon leave for training camps. The first one of these is an admonition against overloading with all kinds of personal effects. Some men have brought trunks, for which there is no room and no place. A suit case is the best thing to have here in which to keep your clothes, whether you bring anything in it or not.

Don't wear your best clothes or even your good clothes to camp. It may be several days before your uniform can be issued to you and you will have fatigue duty to do in your good clothes. It is best to bring clothes you can give away to the Belgian Relief society. Your civilian clothes cannot be kept in camp and will have to be sold or sent to your home.

The same thing applies to your shoes. It is not bad however to have some light slippers or moccasins to slip on when you have taken off your marching shoes.

Three bath towels and as many face towels is more than enough. Don't bring a half dozen of each or more. They will be in your way. You will be issued several towels by the government.

Don't wear a good hat, or one that you want to keep.

It is well to bring your shaving and toilet articles. A soap box is almost necessary. An unbreakable mirror is desirable and will last a life time. Shoe brushes or rags will also be needed. A clothes brush would not be out of place, or a whisk broom. Get a "housewife" or some needles, olive drap thread and a few bachelor buttons for underwear, etc.

In bringing handkerchiefs the crew drab or bandana style give the best service, however a half dozen or more white handkerchiefs could be used.

One or two soft bosom shirts with cuffs attached can be used. They are worn with the uniform blouse together with a standing collar or stock.

Bed clothes will not be needed. Blankets, bed sack and quilts are issued by the government. A small pillow can be purchased here at the camp exchange if desired.

The government issues in addition to bedding summer and or rain coat, socks, underwear, woolen shirts, hat, hat cord, bolt, winter clothes, overcoat, pouch, barracks bag or laundry bag, comb, brush, soap and towels, shoes, one pair for dress and one pair for marching and drilling, gloves and leggings.

A mess kit is also issued including knives, forks, spoons and plates and drinking cup.

GUS FORD DEAD

Mr. A. B. Ford died at his home in Antelope Gap community Tuesday morning at 1 o'clock, after an illness covering a period of about two weeks. He first became ill with measles and pneumonia developed a few hours before his death. His relatives here and elsewhere were not aware of his serious illness until a short time before his death, owing to its suddenness.

Mr. Ford was 40 years of age and was born and reared in the same community where his death occurred. He was engaged in farming all of his life and was successful in his work, leaving a comfortable estate for his family, composed of a wife and ten children, several of whom are grown and one is married. He was held in high esteem by those who knew him and had many friends in this city and elsewhere who grieve and deeply sympathize with his family. He was a brother of Mrs. Jas Rahl and Mrs. Mary Mauldin of this city. He had one brother, Walter Ford, formerly of this city and now of San Saba, and a half brother, J. E. Ringer, of the Antelope Gap community, besides other relatives who mourn his loss.

The burial was made in the old Senterfitt cemetery Wednesday

and was attended by a large company of friends of Mr. Ford and his family.

INSURANCE

We represent twenty of the oldest, strongest and best Old-Line Companies of the United States. The rates charged by these old companies, some of which are over one hundred years old, are just the same as those charged by the small companies, as the State of Texas has entire jurisdiction over the rates to be used in writing fire insurance and all companies are compelled to use the same rates.

We write Farm Property, Outside Mercantile Property, Cotton Gins, Country Schools and Churches; insure Livestock against death from any cause; insure crops against damage by hail; insure your Automobile against fire and tornado anywhere in the United States or Canada, and if desired can furnish you with a Combined Automobile Policy protecting you against liability for personal injury to others and property damage, also fire, theft, transportation and tornado.

We write Life Insurance at the same old rates. In fact, we are here to serve you and can render you efficient service by reason of the fact that we are just finishing our eighth year of continuous service in the general insurance business. We appreciate the patronage that has built for us.

A nice lot of Monuments and Markers at Close Prices. Can save you 15 to 25 per cent and give the very best material and the highest grade work. How? By eliminating the agent-commission-business, which means that amount saved for the buyer. Agents will tell you their firms can buy marble or granite cheaper than your home dealer and make you a better price, which is false and misleading, as we dealers pay exactly the same price for the same grade of stock. Figure with me before placing your contract, as I can save you money—and I guarantee my work. Will take feed or Good Stock in trade.

THANKS FOR PATRONAGE

I have sold my furniture business in Goldthwaite to Mr. J C Evans and bespeak for him the same liberal patronage I have received in the business.

The people of this trade territory have given me a liberal share of their trade and I appreciate it to the fullest extent and want them to know that I thank them. My business experience has been pleasant and I trust the dealings have been as satisfactory to my customers as they have to me. I want one and all to know that I thank them for whatever patronage they gave me or any kind word spoken for me or my business. J. T. WEEMS

Build Now!

Buying lumber and hog wire at this time is the best investment you ever made. There are several very good reasons.

Unusual conditions make it possible to get twice as much lumber and hog wire as you did in 1914 for the same amount of farm produce.

Investment in lumber and hog wire and the placing of new buildings on your property will increase its value out of all proportion to the cost.

Lumber—the world's greatest building material—and hog wire have advanced much less than any other material used for building.

Double value can be had without sacrificing quality—and the lumber and hog wire of today are better than ever before.

Nothing is more important than conservation at this time, and all grain, stock and implements must be properly sheltered.

Opportunity—such as you have NOW—may never come again. After the war, lumber and hog wire prices may be higher.

We are giving you this information in the right spirit—with a desire to see you buy when you can get more for your farm produce.

It is also your duty to see your neighbor or friend who is not wearing a button and get him in line by enrolling his name as a member at once. If you who are members do not want to be worried by these live membership committees it will be a good plan for you to be able to exhibit this evidence of your membership, or they will be after you good and strong.

Every man, woman and child in Mills county should be enrolled as a member of this order. It only requires the small sum of a dollar and a good heart to join. W C DEW, Chairman.

A BAD HURT

Mr S J Bachelor, whose home is between Caradan and Center City, was severely hurt in a runaway accident at his farm Wednesday. He was engaged in hauling poles when his team became uncontrollable and ran away throwing him from the wagon and one wheel passing over his head. His scalp was torn loose on the right side, his right shoulder was thrown out of place and there is a bad cut across the left side of his head. His injuries are serious and he has been in a critical condition since the accident. His many friends regret his misfortune and hope for his speedy recovery.

THRIFT DAY

Feb. 4th

A Special Invitation

February 4th, 1918, is our third annual THRIFT DAY. Last year the second celebration was observed at the Goldthwaite National Bank on Feb. 3, 1917.

Two big ideas are behind the plan of a day set apart on which to "consider" and "practice" thrift; first, to turn the collective thought of all individuals on thrift; second, to have a set time for every one to start some new habit or act of thrift.

The plan is not that any other day will be less thrifty but that on this particular day all constructive thought be turned into definite action.

There are a thousand ways in which thrift may be put into practice. It may be exemplified in acts of earning, planning, spending and conserving as well as saving.

A strong evidence of thrift is found in a growing Deposit Account. Many individuals on Feb. 4 will start the account that they have been putting off from day to day or year to year. Many others will add some amount—large if possible, small if necessary—to their present Account.

Every individual will be bettered as the result of concentration on ways and means to greater individual thrift.

Our Officers cordially invite the universal observance of THRIFT DAY. Celebrate it not only in thought but in deed by making a Deposit with our good Bank on Thrift Day, Feb. 4, 1918, and receive from us a suitable souvenir.

POLL TAX PAYMENTS

Every voter is familiar with the law which requires the payment of a poll tax for the current year before suffrage is granted. The last day of January is the last day of the year in which a poll tax receipt can be issued that will give the holder the right to vote for one year. Up to yesterday afternoon the poll tax payments were far short of the total number of voters in the county. A statement of the number of receipts issued up to yesterday, together with the number paid up to Jan 31, last year is given herewith:

AS YOU LIKE IT

To the Voters of Mills County:
Under our present primary law a county democratic nomination is equivalent to an election.

We, the undersigned, being democrats whose democracy has never been questioned and feeling that this law works an injustice equal to disfranchisement, on the independent, socialist, republican, prohibitionist, etc., are seeking a means to remedy this unjust condition.

We have contributed \$1 each toward starting a campaign to get half of the voters of Mills County to refuse to participate in the Democratic primary this year.

If you indorse this movement sign your name to the pledge that you will find at the end of this article and mail it to Mr. J. L. Burkett, Mullin, Texas.

If you are willing to contribute to a fund to have pledge cards printed and distributed in every voting precinct in the county send the contribution to Mr. H. C. Cobb at Mullin.

If you are willing to see your neighbors and get them to sign these cards when printed also write to Mr. Cobb.

If we do not get half of the voters of the county to pledge themselves two weeks before the primary Mr. Burkett will cause a notice to be printed and you will be released from this pledge.

Cut out the following pledge, sign it and mail it to Mr. Burkett:

I pledge myself not to enter the Democratic county primaries in 1918 and by this means leave myself free to vote in the general election for the candidate for county office whom I think best qualified for the job. Nothing in this pledge is to be construed as pledging me not to vote for the Democratic nominees if I see fit to do so.

(Signed)

This pledge is void unless half of the qualified poll tax paying voters of Mills County sign and return similar pledges to Mr. J. L. Burkett two weeks before the primary election.

Some of the farmers report the loss of hogs in the recent snow. The hogs were chocked to death trying to walk thru the snow where drifts were deep.

Ruffin Johnston and family left Thursday for their new home in Lometa, carrying with them the good wishes of many friends in this city and in other parts of the county.

Now is the time to do your hog and goat fencing. DO IT NOW and buy your fence from Barnes & McCullough. They carry a large stock of these fences and their prices are absolutely correct. (adv)

Mrs. John Scott left Thursday for Wills Point, where Mr. Scott is engaged in the hardware and furniture business and where they will make their home. Mrs. Scott has a host of friends here who regretted exceedingly to see her leave and her promise to return for frequent visits is remembered by them with pleasure.

THIS MAN COULDN'T WALK ACROSS ROOM

Says Condition Was Ahmes' Hopeless When He Began Taking Tanlac—Troubles Now Over

"I was in such a weak and rundown condition before taking Tanlac I couldn't walk across the room without becoming exhausted," declared L. E. Hormann, of 2403 Gold Street, a well known employee of the Great Western Oil Co., El Paso. Before coming to El Paso three years ago Mr. Hormann was for many years assistant superintendent of the Shreveport Electric Company of Shreveport, La.

"About four years ago," he explained, "I had an attack of the grip, complicated with pneumonia and my health gave way entirely. My system seemed to be full of malaria and I had a very bad case of stomach trouble, too, and for months all I could eat was raw eggs and buttermilk. I had terrible headaches and was so nervous and tormented I just couldn't sleep hardly at all. I was in such a terrible condition I had to resign my position and thinking a change of climate might help me I came out here but did not get any better."

"I had about given up all hope of ever getting well again but when I saw what Tanlac had done for my friends I got a bottle. Well, sir, it went right to the seat of my trouble and I began to feel a big difference right away. My appetite improved and I can now eat things that would have been like poison to me a few weeks ago. My skin seems to be clear, I have no more headaches, my nerves are alright and I sleep like a log. I have more vim and energy than I have had in a long time and I am so much stronger that I am working every day."

Tanlac is sold in Goldthwaite by L. E. Miller & Son, in Marton by J. R. Clark, in Regency by Keeling & Keeling, in Priddy by G. H. Spiser and in Star by Star Drug Co. (adv)

GIRL'S STATEMENT WILL HELP GOLDTHWAITE

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. One spoonful relieved me instantly. Because Adler-i-ka flushes the entire alimentary tract it relieves any case constipation, sour stomach or gas and prevents appendicitis. It has quickest action of anything we ever sold."
