J. A. Harris, farmer-banker of Indian Gap, transacted business in the big town Tuesday.

Wm. Weltecke of the Priddy country, looked after business matters in this city the first of the week.

W. T. Moorland of Pleasant Grove, one of the Eagle's appreciated friends, was a pleasant caller at this office Tuesday.

Dr. D. D. Smith, one of the foremost citizens of the Priddy community, transacted business in the metropolis the first of the week.

Rev. W. G. Callihan has moved his office from the court house, to the second story of the Brown building, the change being necessary because the court house office was too public to afford him the opportunity he desired for study.

The business houses in Goldthwaite are to close all day next Thursday. Those who expect to buy supplies or transact any other business in this city the next few days should remember about this Thanksgiving closing.

It is hard to realize that a great many people really do not believe that newspapers are not allowed to be sent on credit to subscribers. Frequently good men to whom we would be glad to loan money on their own responsibility say to us, "Just send the paper along and you will get the money all right," not seeming to understand that the question of getting the money does not enter into it, but it is a matter with us of obeying the law and being allowed to purchase paper on which to print. Some of the best friends we have and some of our relatives failed to send in their renewals before the law became effective and their names had to be dropped from the roll, much to our regret.

UNION THANKSGIVING.

After some days of suspended social gatherings, the Central Embroidery club held a very interesting meeting Saturday, Nov. 16, with Mrs. F. P. Bowman, the president, Mrs. J. N. Weatherby presiding.

The meeting brought to a close the year's work and after a short business session the following officers were elected: Mrs. Henry Martin, president; Mrs. W. B. Jackson, vice president; Mrs. J. V. Cockrum, secretary and treasurer; Mrs. J. N. Weatherby, parliamentarian; Mrs. G. N. Atkinson, reporter.

Mrs. C. E. Strickland and Miss Sophia Martin came in for the social hour.

Mrs. D. L. Lanford and Miss Martin favored the club with delightful music, after which the hostess passed a dainty refreshment plate.

The club will meet Dec. 6 with Mrs. J. V. Cockrum.

REPORTER.

Mrs. Chas. Taylor of Temple has been in the city this week visiting her parents, Mr. and Mrs. Little, and other relatives.

Preparing for Business.

The Methodist stewards met in the pastor's study at the church Monday night and organized for the year's work by re-electing Will H. Trent chairman and Neal Dickerson secretary.

Plans were perfected for a more thorough business organization for the year. An auditing committee was selected and arrangements made for all collections to be deposited in the bank and deposit slips for such collections to be placed in charge of Mr. Dew for delivery to the secretary.

We are moving forward nicely with the work and the indications are for a great year ahead. We are expecting great things and by the help of the Great Head of the Church we will accomplish great things. The boys are coming back from the battle front and the army training camps to swell the congregations in the churches, bringing with them new ideas and advanced thought along many lines connected with church work. They do not demand the preaching of a new religion or the holding up of a new Christ, but they do expect and will demand a more perfect and business like system than has ever been in vogue before, for they have been associated with system and business principles so long and intimately that they realize the worth of such organization in everything everywhere that is worth while.

Come to church and Sunday school and help the pastor and officials in their undertakings.

W. G. CALLIHAN,
Pastor Methodist Church.

Mrs. H. G. Bodkin went to Temple Tuesday, to be with her sister, Mrs. Floyd Mullan, who was carried to the sanitarium last Saturday.

W. G. Welch has sold his farm and ranch in Center City community to L. R. Hendrey, late of Ranger. Mr. Welch is to retain possession of the property another year and Mr. Hendrey and family will live in Goldthwaite.

The ladies of the Methodist missionary society will send a coop of chickens to the Methodist Orphans' Home in Waco for Thanksgiving and will appreciate chickens sent in by the members and their friends. Please send or bring to Archer's grocery store Saturday or Monday, as the coop is to be shipped Monday night.

The week from Dec. 1 to 7 has been designated as conservation week and Will H. Trent, county food administrator, will ask all preachers to use the subject for their sermons Dec. 1. He will also call for public meetings one day during the week, likely Dec. 3, at Mullin, Priddy, Star, Goldthwaite and perhaps other places to organize and co-operate.

A representative of the Texas Bridge Co. was here yesterday figuring on repairing the bridge and approach at Lunsford crossing and the approach to the Slack crossing bridge, which were damaged by the recent overflow of the river and bayou. The Blanket creek bridge was also badly damaged, but the Eagle is informed that it will not likely be repaired at this time.

BACK GIVES OUT

Plenty of Goldthwaite Readers Have This Experience

You tax the kidneys—overwork them—

They can't keep up the continual strain.

The back may give out—it may ache and pain;

Urinary trouble may set in.

Don't wait longer—take Doan's Kidney Pills.

Goldthwaite people tell you how they act.

J. C. Carlock, farmer, Fisher St. Goldthwaite, says: "I was doing some heavy work and strained my back. At first I had pains in my back and mornings I couldn't straighten up. The pains extended into my hips and limbs. My kidneys became weak and I had to pass the kidney secretions frequently. I used a kidney medicine, but it did me no good and finally I began taking Doan's Kidney Pills. The pain in my back soon left and my kidneys were regulated. I haven't needed a kidney medicine since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same Mr. Carlock had. Foster-Milburn Co., Mfgs., Buffalo, N.Y. (Advertisement)

For Sale—I have two lots in Dalhart, Texas, to sell or trade for other property in Goldthwaite. The title is good and taxes paid on the lots. Any one interested come to see me.—Mrs. J. W. McAlexander.

"OVER THE TOP"

We are happy to state that in the United War Work campaign Mills county has gone "over the top" and then some. During our campaign the Sales headquarters decided to reduce the original quotas in some of the drouth stricken counties which were hit hardest. Among the different counties Lampasas county quota was reduced to \$4,000.00 and Mills county quota to \$3,000.00.

The thing that we are proudest of is that nearly every family in our county took part in the campaign so willingly and patriotically as will be seen on the Honor Roll to be published next week. The reasons we find it impossible to have the Honor Roll published this week are as follows: First, we want to treat everybody as we would want them to treat us as far as it is reasonable, therefore, we want all the names of the contributors published on the Honor Roll in the same issue of the paper; Second, the campaign being extended till Wednesday midnight, it becomes impossible for all different school communities to get a completed list of their contributors to the County Chairman in time to have the names printed this week.

Right here we wish to state that Editor Thompson has stood fairly and squarely behind this campaign, that he has already started to work on the Honor Roll and that he feels sure he will have it completed and printed in the next issue of the Eagle.

In conclusion we wish to thank the noble people of Mills county who have contributed to the success of the United War Work campaign for the betterment of our brave soldiers boys, spiritually, physically and educationally. These men now face the gravest test of victory—demobilization and readjustment—and urgently require the wisest and worthiest spiritual guidance. Less than our best is unworthy of our soldiers, of our country, of our opportunity and of our God who has saved civilization.

Yours truly,

W. E. MILLER,

County Chairman.

George Bohannon is among those reported "missing in action" in France. He was one of the brave Mills county boys in the mighty struggle against wrong and it is sincerely hoped that he will be found alive and restored to his home folks and friends.

Death's Visit.

Miss Myrtle Fretz died of influenza Monday afternoon in Dallas and her remains reached this city on Wednesday morning's train for interment in the cemetery here, which sad service was held at 10 o'clock that morning and was attended by a large congregation of the sympathizing friends of the bereaved family. The young lady was reared here where she had a multitude of friends. She had been employed in the telephone office in the city of Dallas for some time and it was indeed a sad message that reached the family here telling of her serious illness. Her mother and sister hurried to her bedside and reached there a short time before her death occurred.

The grief-stricken family can be sure of the sympathy of many friends.

Aubrey Evans Dead.

Mr. James E. Evans and family have received the sad news of the death of his son Aubrey in France. The message came from the war department, which leaves but little ground for hope that there is a mistake about it. Aubrey left Goldthwaite with the first list of young men who went into military training and had been with the forces in France some time. He was a popular young man and had many friends who sympathize sincerely with his bereaved parents and other relatives.

Chamberlain's Cough Remedy.

Do not imagine that because other cough medicines failed to give you relief that it will be the same with Chamberlain's Cough Remedy. THE WAR'S RECOMPENSE

The original of this verse was found on an American soldier who bravely fought and as nobly died. The man is yet unknown.

Ye who have faith to look with fearless eyes
Beyond the tragedy of a world at strife,
And know that out of death and night shall rise
The dawn of ampler life.

Rejoice, whatever anguish rend the heart,
That God has given you a priceless dower,
To live in these great times and have your part
In freedom's crowning hour.

That ye may tell your sons who see the light
High in the heavens—their heritage to take—
"I saw the powers of darkness put to flight,
I saw the morning break."

THANKSGIVING DAY

Just as our Pilgrim Fathers gave thanks for the land of liberty, we offer thanksgiving, joyous gratitude for the preservation of that same liberty.

America has been born again by our President's unyielding determination to fight to the finish for a final, unqualified peace—for freedom from unjust, compelling, tyrant hands—for liberty to follow our chosen pursuits in our own way, the immeasurable value of which we never knew until its stability was threatened.

Liberty is America's inheritance.

One thing more than anything else that has brought home to us the worth of this precious liberty is the eager willingness of our boys to make the supreme sacrifice in its cause.

To them and for them let us give thanks.

This should be for you and us one of the greatest days of Thanksgiving—we have more to be thankful for than ever before.

Our store will be closed on Thanksgiving Day from 9:30 in the morning, unless some sufferer needs medicine. If so, you can get us or our prescription clerk over the phone and we will accommodate you.

Respectfully,
L. F. MILLER & SON,
Druggists and Jewelers.

R. G. Blackburn has been notified that his son Roy has been missing since one of the fierce battles in France and the fear is that he was killed. However, it is not certain that he was not either taken prisoner by the Germans or wounded and carried to a hospital. Ray, a twin brother of Roy, was also reported wounded, tho not seriously. The family has the sincere sympathy of everybody.

After living here several years Mr. A. Sharp rented his farm to Ed and Walter Brown and moved back to Bell county, where he owns valuable property. He and his family leave many friends in this county who wish for them the best of fortune.

Lewis Hudson and wife were called to Brownwood on account of the death from heart failure of Mrs. Hudson's oldest brother, Mr. T. C. Puckett, in that city Wednesday night. Mr. Puckett is kindly remembered by many friends in this city, where he has frequently visited and all deeply sympathize with Mrs. Hudson in this her second bereavement in the past few days, her youngest brother having died in Arizona the early part of the month.

New R. C. Christmas Parcel Rulings

After Nov. 21st, parents or relatives of men in the American expeditionary forces, who have no Christmas label from overseas, may send a Christmas parcel till Nov. 30 by making application for coupons to the Red Cross. Application blanks and coupons may be had at the Trent State Bank, Goldthwaite, or at Star or Mullin.

The Red Cross rooms at Goldthwaite will be open every evening of next week to pack, inspect and mail boxes. Mullin and Star will also be open at hours they may set.

Nov. 30 is the last day any parcel will be taken.

MRS. J. C. STREET,
Chairman.

CARD OF THANKS

Mrs. F. A. Cozort and children and Mr. and Mrs. P. K. Caraway desire to express their sincere thanks to the good people of Goldthwaite and the surrounding country for the great kindness and sympathy shown them in their recent bereavement, when Elmer Cozort died and his remains were brought to Goldthwaite cemetery for interment. They are deeply grateful for every kind word and deed as well as the many expressions of sympathy. Among those they desire mentioned especially are Mrs. N. E. Knight and her daughter, Miss Vona.

John Watson Dead.

Mr. Gid Watson and family of Payne this week received the distressing information that his son John died in France of pneumonia Nov. 2. The young man was a member of the American forces and the family did not know of his illness until informed of his death. He was a young man of high character and pleasant disposition and all who knew him liked him. The announcement of his death was received with universal sorrow and great sympathy is felt for the bereaved family.

November and December Allotment Cut to 12,500,000 Pounds a Month in Texas—Substitutes Provided.

The November and December allotment of sugar for Texas does not provide for the further carrying of ice cream manufacture as essential. The allotment of ice cream makers for November and December will be 25 per cent per month of the average monthly consumption during July, August and September of 1917. The allotment of sugar to Texas by the Food Administration for November and December respectively is 12,500,000 pounds.

The allotment for Texas during July was 18,000,000 pounds, August 12,350,000 pounds, September 14,000,000 with the addition of 2,000,000 extra for preserving needs).

Soft drink manufacturers, which include bottlers, soda fountains, etc., are only allowed 25 per cent per month of the average monthly use during July, August and September of 1917.

Candy Men Cut.

Candy manufacturers are allowed 50 per cent of their average monthly use for July to December, inclusive, of 1916, and for July to December, 1917, inclusive.

In numerous instances patriotic house holders can not understand why they are requested to cut their consumption of sugar to two pounds per person per month when apparently bottlers, candy manufacturers and soda fountains are obtaining sugar in what seem unlimited quantities. The Food Administration wishes it thoroughly understood that all manufacturers of non-essentials are controlled by the Food Administration and in the case of the bottlers, soda fountains and ice cream manufacturers they are only allowed 25 per cent of the amount of sugar they consumed during the period set forth above.

On account of the great use of various sweetening substitutes practically all manufacturers have been able to keep up their output, supplying all demands made upon them for non-essentials. The consumer, however, who patronizes the various soda fountains can rest assured that the non-essential drinks where continued will contain at least 75 per cent sugar substitutes. By this the Food Administration does not wish to imply that the substitutes used are unwholesome. They are not. Bottlers have been able to obtain various corn syrups, honey, maple sugar and other substitutes.

Ice Cream vs. Milk.

With reference to ice cream manufacturers the Food Administration announces that while heretofore they were allowed sufficient sugar to take care of their requirements, the reason for a change in allotment is due to a change in the program of the conservation of dairy products. At the time almost full measure of sugar was allowed to the ice cream manufacturers, the Food Administration was endeavoring to protect the dairy interests in order to bring about an increased production of milk and to care for the surplus which was difficult of marketing during the spring and summer.

On account of cooler weather and the lessening milk supply the Food Administration has been compelled to reverse its program in reference to ice cream manufacturers, believing that it is more necessary to get the milk to the household in liquid rather than ice cream, and also because it has a greater nutritive value in the liquid form.

It has been brought to the attention of the Sugar Division that some representatives of jobbers have been informing the trade that they could sell sugar in larger quantities than the two and five-pound packages. This is in error and the two and five-pound package rule must remain in force until such order is changed by Administrator Fedak.

R. M. THOMPSON, Editor

It is announced the soldiers will be released at the rate of thirty thousand a day after this month.

The death of Judge B. H. Rice of the court of civil appeals of Austin occurred in that city the first of the week and Governor Hobby appointed John Brady, an Austin attorney, to fill the unexpired term.

The trouble with the Russians has not yet been settled and it is stated that the United States and other nations interested in restoring a government to that nation will not withdraw troops now on duty in Russia or in that vicinity.

The government officials are said to doubt the sincerity of the claim Germany is making that her people are starving and need outside help. Of course the matter will be investigated, but until the investigation is made there will be mighty little food or other supplies given them.

The ex-kaiser is believed to have a criminal knowledge of the revolution and acts of outlawry in Germany. He doubtless expects to force or at least procure better terms from the allies because of the turmoil and then the revolutionists, who are inspired to their acts by him, will again proclaim him ruler.

It is now believed certain that President Wilson will agree to attend the Peace Conference in Europe and act as president of the body. The nations of the world respect him as a great and good man who has the foresight to plan and the ability to execute such plans in the spirit of justice and right.

Secretary Houstons suggests giving and mending on public roads to all returning soldiers who desire such work and his idea is a good one. Many who had good positions before they entered the army will have to form new alignments after their release from the service and it is well to prepare for supplying employment to as many as possible.

Billy Sunday is to begin a six weeks meeting in Fort Worth Sunday. His advance agent has been in that city several weeks making arrangements and when the notorious evangelist arrives he can go to work without waiting to "warm up" the town. Many people do not approve of the aforesaid Billy's plans of work or his method of preaching, but it must be admitted that he gets results.

Hon. R. L. Henry is one of the patriotic statesmen who has announced opposition to the movement to amend or abolish the Texas homestead law and will take the stump in defense of the measure as it stands and should stand. If the people are properly informed on the subject there is no danger that they will ever vote for an amendment to the constitution which will give the right to take away the homestead for debt or allow it to be jeopardized in speculation and Mr. Henry is the man to take the information to them.

Next Thursday will be Thanksgiving day and it certainly should be celebrated heartily this year, for the people of the nation as a whole and as individuals have many causes to be thankful. The ending of war with its attendant sorrow, horrors and hardships of course comes first, but there are many other blessings for which we should be profoundly thankful. The plentiful rains, the fine crop prospects, the universal prosperity of the country, the good wages commanded by labor, the great demand for labor in all lines are some of the blessings for which we should be thankful and celebrate the Thanksgiving occasion with sincerity.

Increased Demand For Cotton

Attention is called to the following statement made by Mr. Charles J. Brand, chairman of the Committee on Cotton Distribution and chief of the Bureau of Markets of the Department of Agriculture, on November 14, announcing the committee's action requiring the suspension of speculative "short" selling of cotton on the exchanges. It will be noted that the Cotton Committee, reflecting the views of the Department of Agriculture as well as of the cotton experts constituting the committee, confidently expect an increase in volume of exports and consumption of cotton.

"The signing of the armistice brings us suddenly to the threshold of the reconstruction era. Pending developments are of the utmost importance to the entire cotton world.

"The consequences of unfounded rumors that tend to promote vicious speculative activity and cause unjustified demoralization must be avoided as far as possible. In order that harmful violent price fluctuations may be checked, the Committee on Cotton Distribution has ordered all speculative short selling on the New York and New Orleans cotton exchanges stopped, and, to make this order thoroughly effective, has required that no selling orders except in liquidation of long contracts be executed from any foreign country.

"The stoppage of sinkings by U-boats, the monthly increase in new ship tonnage and the releasing of ships now engaged in supplying the fleets of the allies, together with the freeing of space previously used in sending munitions to Europe, will mean a large increase in available tonnage for cotton exports.

"The world's requirements of cotton to meet its increasing demand for clothing will henceforth be on a continuously ascending scale. Based on reports to this committee from various foreign countries, we estimate their requirements and probable exports of cotton under present conditions to be over two million bales in excess of last season's taking.

"Europe is almost denuded of cotton and cotton goods. The potential buying power of the world which will be aided and hastened by the establishment of the necessary credits will quickly assert itself."

Announcement is made by ex-President Roosevelt that he does not want the remains of his son brought back to this country from France, but desires that the remains be left where they were interred by the Germans after the young man fell in the aeroplane battle. SUGAR REGULATIONS

District and County Administrators:

On account of the improved sugar situation, caused by the signing of the Armistice, the Administration is now in a position to increase the sugar allotment to State and A manufacturers.

We shall issue, within the next few days, certificates to State and A manufacturers for their December allotment, and the amount will be same as November, plus 50 per cent of their average monthly consumption as shown by Ite's Nos. 17, 18 and 19 now on file with this office.

As the hog killing season is now at hand, farmers will make application to the local administrators for additional sugar to cure their meats, and when this office is advised as to the amount of sugar permitted for this purpose, we shall gladly issue additional certificates to cover.

Beginning December 1st, sugar allotment to the consumer will be increased to four pounds per person per month. This will also apply to public eating places.

Yours very truly,
E. A. PEDEN,

Federal Food Administrator for Texas.

STEADIER HOG MARKETS PLANNED

In accordance with the policy of the Food Administration since its foundation to consult representative men in the agricultural industry on occasions of importance to special branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing pork purchases.

The conclusions of the conference were as follows:

The entire marketing situation has so changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current peace talk has alarmed the holders of corn, and there has been a price decline of from 25 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders. This decline has spread fear among swine growers that a similar reduction in the prices of hogs would naturally follow. Moreover, the lower range of corn prices would, if incorporated in a 13-to-1 ratio, obviously result in a continuously falling price for live hogs. In view of these changed conditions many swine producers anticipated lower prices and as a result rushed their hogs to market in large numbers, and this overshipment has added to and aggravated the decline.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 8 per cent., while the highest unofficial estimate does not exceed 15 per cent. increased production over last year. On the other hand, the arrival of hogs during the last three weeks in the seven great markets has been 27 per cent. more than last year, during the corresponding period, demonstrating the unusually heavy marketing of the available supply. In the face of the excessive receipts some packers have not maintained the price agreed last month. On the other hand, many of the packers have paid over the price offered to them in an endeavor to maintain the agreed price. The result in any event has been a failure to maintain the October price basis determined upon at the September conference and undertaken by the packers. Another factor contributing to the break in prices during the month has been the influenza epidemic; it has sharply curtailed consumption of pork products and temporarily decreased the labor staff of the packers about 25 per cent.

The exports of 130,000,000 pounds of pork products for October compared with about 52,000,000 pounds in October a year ago, and the export orders placeable by the Food Administration for November, amount to 170,000,000 pounds as contrasted with the lesser exports of 68,000,000 for November, 1917. The increased demands of the allies are continuing, and are in themselves proof of the necessity for the large production for which the Food Administration asked. The increase in export demands appears to be amply sufficient to take up the increase in hog production, but unfavorable market conditions existing in October afford no fair index of the aggregate supply and demand.

It must be evident that the enormous shortage in fats in the Central Empire and neutral countries would immediately upon peace result in additional demands for pork products which, on top of the heavy shipments to the Allies, would tend materially to increase the American exports, inasmuch as no considerable reservoir of supplies exists outside of the United States. It seems probable that the present prospective supplies would be inadequate to meet this world demand with the return to peace. So far as it is possible to interpret this fact, it appears that there should be even a stronger demand for pork products after the war, and therefore any alarm of hog producers as to the effect of peace is unwarranted by the outlook.

In the light of these circumstances it is the conclusion of the conference that attempts to hold the price of hogs to the price of corn may work out to the disadvantage of pork producers. It is the conclusion that any interpretation of the formula should be a broad gauged policy applied over a long period. It is the opinion of the conference that in substitution of the previous plans of stabilization the Live Stock Subcommittee of the Agricultural Advisory Board, together with the specially invited swine representatives, should accept the invitation of the Food Administration to join with the Administration and the packers in determining the prices at which controlled export orders are to be placed. This will be regularly done. The influence of these orders will be directed to the maintenance of the common object—namely, the stabilization of the price of live hogs so as to secure as far as it is possible fair returns to the

producer and the insurance of an adequate future supply.

These foreign orders are placed upon the basis of cost of hogs to the packers.

As the result of long negotiations between this body and the Packers' Committee, representing the 45 to 50 packers participating in foreign orders, together with the Allied buyers, all under the Chairmanship of the Food Administration, the following undertaking has been given by the packers:

In view of the undertakings on the part of the Food Administration with regard to the co-ordinated purchases of pork products, covered in the attached, it is agreed that the packers participating in these orders will undertake not to purchase hogs for less than the following agreed minimums for the month of November, that is a daily minimum of \$17.50 per hundred pounds on average of packers' droves, excluding throw-outs. "Throw-outs" to be defined as pigs under 130 pounds, stags, boars, thin sows and skips. Further that no hogs of any kind shall be bought, except throw-outs, at less than \$16.50 per hundred pounds. The average of packers' droves to be construed as the average of the total sales in the market of all hogs for a given day. All the above to be based on Chicago.

We agree that a committee shall be appointed by the Food Administration to check the daily operations in the various markets with a view to supervision and demonstration of the carrying out of the above.

The ability of the packers to carry out this arrangement will depend on there being a normal marketing of hogs based upon the proportionate increase over the receipts of last year. The increase in production appears to be a maximum of about 15 per cent. and we can handle such an increase.

If the producers of hogs should, as they have in the past few weeks, prematurely market hogs in such increasing numbers over the above it is entirely beyond the ability of the packers to maintain these minimums, and therefore we must have the co-operation of the producer himself to maintain these results. It is a physical impossibility for the capacity of the packing houses to handle a similar over-flood of hogs and to find a market for the output. The packers are anxious to co-operate with the producers in maintaining a stabilization of price and to see that producers receive a fair price for their products.

(Signed) THOS. E. WILSON, Chairman Packers' Committee.

The plan embodied above was adopted by the conference.

The Food Administrator has appointed a committee, comprising Mr. Thomas E. Wilson, chairman of the Packers' Committee, Mr. Everett Brown, president of the Chicago Livestock Exchange; Major Roy of the Food Administration, Mr. Louis D. Hall of the Bureau of Markets, to undertake the supervision of the execution of the plan in the various markets. Commission men are asked to co-operate in carrying out the plan embodied in the packers' agreement. It must be evident that offers by commission men to sell hogs below the minimum established above is not fair, either to the producer or the participating packers. Mr. Brown has undertaken on behalf of the commission men in the United States that they will loyally support the plan.

It is believed by the conference that this new plan, based as it is upon a positive minimum basis, will bring better results to the producer than average prices for the month. It does not limit top prices and should narrow the margins necessary to country buyers in more variable markets. It is believed that the plan should work out close to \$18 average.

Swine producers of the country will contribute to their own interest by not flooding the market, for it must be evident that if an excessive over percentage of hogs is marketed in any one month price stabilization and control cannot succeed, and it is certain that producers themselves can contribute materially to the efforts of the conference if they will do their marketing in as normal a way as possible.

The whole situation as existing at present demands a frank and explicit assurance from the conferees represented—namely, that every possible effort will be made to maintain a live hog price commensurate with swine production costs and reasonable selling values in execution of the declared policy of the Food Administration to use every agency in its control to secure justice to the farmer.

The stabilization methods adopted for November represent the best efforts of the conference, concurred in by the Food Administration and the

Livestock Subcommittee of the Agricultural Advisory Board, together with special swine members and the representatives of the packers, to improve the present unsatisfactory situation, which has unfortunately resulted because of the injection of uncontrollable factors.

We ask the producer to co-operate with us in a most difficult task.

The members of the Conference were:

Don't Prod Your Liver to Action

NR Overcomes Biliousness, Constipation, Sick Headache, Quickly. No Griping or Pain. Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—are closely allied, and the proper action of any of these organs is largely dependent upon the correct functioning of all the others.

"Whipping" your liver into action with calomel or forcing your bowels with irritating laxatives or strong cathartics is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (NR Tablets), which not only brings immediate relief, but genuine and lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliousness, corrects constipation and quickly relieves sick headache. Get your system thoroughly cleansed and purified for easier stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one NR Tablet occasionally to keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well. Get a 25c box and try it with the understanding that it must give you greater relief and benefit than any bowel or liver medicine you ever used or no pay. CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

FEED AND SEED.

I have up to date issued freight certificates on eleven cars of feed and have in transit now one car of alfalfa hay, two cars of feed oats, one car of feed barley and several cars of cotton seed products, all of which will take the half freight rates when delivered.

Owing to the fact that I did not reach the county until a large per cent of the seed for winter sowing was already arranged for we have not been able to buy our seed in car lots. The farmers have suffered a great loss by not being in position to take care of the seed situation. However, according to the best information that I have been able to gather, most of the farmers have managed to secure necessary seed to sow an increased acreage over last year. Not including the saving the people have made in ordering their feed direct, the freight certificates alone amount to a net saving of \$934.

CLUB ACTIVITIES.

I have mailed out 37 letters to club members requesting that they make their annual report. Of course we all realize that there has been very little accomplished in that line the past year, but it was due to an inevitable cause. The drouth conditions have been such that the boys and girls have not been able to show material advancement, but we believe that since the conditions have changed and with the coming of good seasons and the co-operation of all the forces we will be able to show up some real development.

FIELD DEMONSTRATIONS.

Owing to the influenza epidemic and the splendid rains we have had during the past month my activities in the country have been very limited. However, it is my intention to spend the major part of my time in the rural communities.

I have had several requests from farmers for terracing demonstrations. This is a part of the demonstration work that should have special attention in this county. The farmers are suffering a loss of thousands of dollars each year by allowing the surface water to escape, not only losing the benefits of the water, but allowing the very best of their soil to pass away to the various water courses, thereby impoverishing their farm.

GENERAL ACTIVITIES.

My time has been very largely spent in getting acquainted with the citizens. However, I have not been able to make a complete tour of the county so far.

I have been made a member of the Executive Committee for the

United War Work campaign that is on now and am endeavoring to serve in that capacity and at the same time assist the farmers in making up their orders for feed. In connection with the United War Work campaign, I made a trip to the South Bennett community and delivered an address in behalf of the campaign.

My work in the county, so far, has been very pleasant and I wish to take this method of expressing my appreciation to the court and the many private citizens for the splendid co-operation I have received from them.

Turkeys are on the go at St. Have shipped a large number—something over a thousand.

Could not understand what the full moon had to do with so many visitors Monday night. It was Masonic meeting.

Miss Vada Roe returned home October and we just found it out. What do you think of that?

Rev. G. A. Henderson of Goldthwaite filled his regular appointment for the Presbyterian Church Sunday and was greeted by an appreciated audience.

With an abundance of grain

crops grazing stock for keeping down in demand, and our dairy herds are beginning to show their feed.

J. S. Livingston, a Goldthwaite suburbanite, spent several days with "Ye Olden Day" friend, Come again, J. S.

The J. F. Pollard home was discovered to be on fire Tuesday morning about breakfast time and did not seem to cause Martin Barnes much worry, as he proceeded to extinguish it without any vocal ceremonies. However the quorum discovered the fact and Fulton Henry won the morning's printing honors. Effective fire damage about \$500 hole in roof.

R. C. Campbell is now the owner of the J. P. Webb home garage and will move it for personal use at his home.

We certainly have one thing to be thankful for this coming Thursday, with no special program for Star excepting our individual family arrangements.

Our merchants are burning midnight oil pondering over what to order for Christmas. Why not have a union patriotic entertainment with a nice comedy play.

Grandma Roe has returned home more than satisfied with Star.

T. E. Hamilton and Henry Morris were on the river ducking last week. Don't know what kind of ducks they got.

Fred Baker and Arthur Keith have been absent about a week or so in the coast country. Yes they have returned.

Prof. Neighbors has decided that the girls must qualify for a basketball team by efficiency in studies with at least an average of 85 and the team consists of Marie Ruth Hunt as a player, she having made the required average. Our congratulations, Mamie Ruth. We knew you were a splendid B. B. player—now we know you are a good student.

Rev. J. W. Kelley of Goldthwaite, our new Methodist pastor, will fill his pulpit here Sunday morning and night. Everybody invited to attend the services.

Henry Peck returned yesterday from Houston, where he has been at the bedside of his brother Joe for some days. Joe says he has had all the ills and can't have any more. He will be all right soon.

Greatly Benefited by Chamberlain's Tablets

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. H. P. Howard, Auburn, N. Y.—For sale by L. E. POMPEY CREEK

Editor Eagle:

After an absence of some time, we shall again try to "write up" some of the happenings of the lauding community in Mills county.

The closing of the great war, together with the splendid rains we've had of late has put everyone in a more pleasant frame of mind and everybody has gone to work with renewed energy and courage.

The school board having been fortunate in securing two of Mill county's best teachers, Misses Kate and Addye Hays, vie with one another in teaching, and we are having a very successful school.

Our Sunday school is not in progress at present, but we are eagerly awaiting the return of Mr. John L. Gunter from a cotton picking expedition to Ellis county, to open up the Sunday school, for our young people long ago learned to depend on him for leadership in the Sunday school, and he rarely disappoints them.

Mrs. John Nicholes returned recently from Carlsbad where she had been to place her daughter, Miss Cora in the sanatorium. She reports Cora doing nicely.

Our community was saddened Monday by the departure of Mrs. Royal Ethridge. Mrs. Ethridge leaves a husband and a number of children, besides a host of other relatives and friends to mourn her death. The remains were interred in the Duren cemetery.

The report has reached us that "Sollie" Smith, one of our soldier boys, was killed in battle.

Rev. Medford of Prairie preached here Sunday, but because of the high wind, the audience was very small.

Mr. Pitman, who has been ill with the "flu" so long, is convalescing. JOAN OF ARC.

There is a movement throughout the United States at this time to breed rabbits for the purpose both of increasing the meat supply, which is daily growing less, and to help the production of furs, which is also on the decrease.

It is remarkable how much a man may do with rabbits in his own back yard and with comparatively very little trouble. Of course, if he wishes to succeed in raising rabbits, or anything else, he must first equip himself with the knowledge of what to do; but the knowledge necessary to be successful does not require much time to acquire. He must know how to feed them, how to see that their boxes are kept clean and sanitary; but when these few details are attended to, the rabbits do the rest. As to feeding, they may be fed in the morning and in the evening, so that they really require absolutely no care in the day time.

C. P. Gilmore, who went to California to get well, took up rabbit raising on a small scale as a pastime. His neighbors laughed when he finally declared that he would make a business of it. Now he has one of the finest farms in California, has won many prizes for his New Zealand Reds, and has made a competency out of the business.

There is no doubt that this country faces the necessity of producing more meat. Not only have the war drains been severe, but the exceptional winter has made great inroads in our herds of cattle. We face the necessity of doing something, and rabbits furnish a large quantity of meat and a kind of meat that most people like better than chicken. There is much more meat on a rabbit than on a chicken, and the rabbit, properly attended to, eats only clean food. Who knows but what the rabbit may save the country as the geese saved Rome. It is the part of wisdom as well as of patriotism to encourage the raising of rabbits.

Rabbits are one of the most profitable sources from which such increase may come. It is also the source which, above all others, can be expanded most rapidly. The rabbit yields meat that contains more than 80 per cent digestible nutriment, and that is higher in food value than any other meat.

Rabbits are easy to raise, because the mother doe nurses the young and takes care of them until you wean the litter. The litter may be weaned when from four to six weeks old, and all that is necessary is to take them away and place them in a separate hutch, and feed them on oats, bran and any kind of hay.

Rabbits will eat almost any kind of scraps from the kitchen table, including parings from vegetables, stale bread and other waste; therefore from six to thirty rabbits may be raised from the refuse of the kitchen, which now goes into the garbage can.

To those who do not care to eat rabbits there is a market at a fair price for every pound, and by speeding up during the year 1918 thousands of pounds of beef, mutton and pork could be saved during the year.

With an outlay of \$15 one can start a very respectable rabbit farm which will, in the end, beat the meat trust at its own game, supplying the owner with a delicious table delicacy and in addition give the opportunity of wearing good furs in winter, for the rabbit as a fur-producing animal is now recognized and many of the furs now seen on the streets are produced from the humble rabbit.

A good buck and three or four healthy brood does should be procured, and if properly fed and managed they should be made to produce three or four litters per year, which would result in at least 36 youngsters at the end of the year. At the end of the first seven months at least six out of the first litter may be bred, and again on the tenth month, yielding the considerable number of 40 additional youngsters. In terms of pounds, this would mean 500 pounds of delicious meat produced from the original stock purchased. (adv)

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It purges and attacks your bones. It makes you feel weak, sick and tired. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling better. No more biliousness, constipation, dizziness, headache, coated tongue, sour stomach. Your druggist says you don't find Dodson's Liver Tone acts better than calomel. Your money is waiting for you.

FLOUR SUBSTITUTE

District and County Administrators:

At the conference of the State Food Administrators now being held at Washington, it has been decided to annul immediately the eighty-twenty flour and substitute rule, therefore, from now on it will not be necessary for the merchants to sell, or the consumer to purchase substitutes when selling or purchasing flour. This means that a consumer may now eat pure wheat flour bread without restrictions. This also applies to bakers, who are now permitted to bake pure wheat bread.

The above situation was brought about by the present political situation in Europe, and on account of there being more ships available for transporting foods, the enormous surplus of wheat, held for the past three years in Australia, Argentine Republic and India, now becomes available for supplying the needs of Europe.

While the restrictions on the consumption of wheat have been removed, it does not necessarily mean that the consumer should be lax in conservation of other foods, for the people of this country will undoubtedly be called upon to voluntarily make sacrifices of other food commodities, in order to help feed the population of the countries recently freed from German domination. Yours very truly, E. A. PEDEN, Federal Food Administrator for Texas.
