PLEASANT AFTERNOON

The Central Embroidery Club was delightfully entertained at the hospitable home of Mrs. W. B. Jackson Friday afternoon, with Mesdames Jim Coekrum, G. N. Atkinson, Robert Littlepage, F. P. Bowman, Jim Faulkner and W. B. Jackson as hostesses, this being section No. 1. Though the clouds hung heavy and the cold and gloom prevailed outside yet the scene within presented the beauty of spring. Decorations of cut flowers and ferns were attractively arranged throughout the room. Soon the merry conversations filled the parlor.

Tables were conveniently arranged for the fascinating game of "42." After several very interesting games Mrs. Fred Martin was found to hold high score and received for her successful effort a dainty box of chocolates tied in the club colors. The consolation prize was awarded to Miss Mitchell—a stick of Hershey tied with yellow ribbon.

Music rendered by Mrs. Fred Martin added its charms to the afternoon's pleasure. Another interesting feature was the delicious nut cream and cake.

It is needless to say that all present enjoyed themselves to the utmost.

After expressing thanks for the most enjoyable evening, we left, voting these ladies most charming hostesses.

Guests other than club members were Mesdames Hugh McCullough, G. W. McClellan, Fred Martin, Mollie Lowrie, Marvin Rudd, Mrs. J. E. Morgan of Ranger, Misses Mitchell and Crawford. X. X.

Miss Edith Ford visited in Brownwood the early part of the week.

J. H. Randolph and wife spent a part of the week seeing the sights at the Dallas fair.

W. W. Condon and family were among those who saw the sights at the Dallas fair.

Will H. Trent and wife were among the visitors to the Dallas fair this week. They also visited relatives at Temple.

Floyd Mullan, J. W. Weathers and Perry Lawrence were in San Angelo the first of the week serving as jurors in the federal court.

Rev. W. G. Callihan, pastor of the Methodist church, left Tuesday night for Austin to attend the annual conference and receive an appointment for his work another year.

R. E. Lee, one of the prosperous young farmer friends of the Eagle, called the first of the week to renew his own subscription and order the paper sent to his brother at Yuma, Arizona.

Wood for fuel has become quite an item in Goldthwaite, since the cotton commenced to open and wood hauling had to be abandoned by some who made a good and profitable business in that line. A wood yard has always been profitable here and the indications are that it will pay exceptionally well this winter.

Subscribers are urged and requested to watch their dates and renew promptly, as the rule is to stop-when-out and it can not be varied. We sincerely appreciate the patronage of the good people who have made the paper's success possible and we use every effort to publish a paper worthy of their patronage and creditable to the county, but we can not send it on and on after the subscription date has expired.

Cotton Factors--Houston, Texas

On account of new and improved facilities for handling cotton and more efficient methods devised by us for expediting deliveries, we conscientiously promise shippers real SERVICE for 1919-20 and confidently expect to mail out Account Sales this season in LESS than ten days; but, under no circumstances will we charge a shipper with either Storage or Insurance in excess of charges incurred for those items, up to ten days from date of sale. The interest charges on advances WILL POSITIVELY STOP on or before expiration of ten days after date of sale.

Song, "My Flower of Italy"—Mildred Stephens and Lilla Harvey.

TEXAS COTTON PALACE

The Eagle editor has received a season pass to the Texas Cotton Palace at Waco for himself and wife, together with a personal letter from the management urging attendance, especially on Press Day, which will be Oct. 25—the opening day. It has long been our desire to see this great exposition and we still hope to be able to visit it some time during the period between Oct. 25 and Nov. 9. Many Mills county people have visited the Cotton Palace in other years and have always brought back reports which made those who did not attend realize they had missed seeing a wonderful aggregation of expositions.

W. C. Dew made a business visit to Mullin Tuesday.

H. G. Bodkin was among those who saw the sights at the fair at Dallas this week.

S. R. McBurney and family of Zephyr visited E. P. Thompson and family in this city Sunday.

W. E. Egger returned Tuesday night from Dallas, where he spent a few days at the fair.

C. L. Stephens made a trip to Temple Tuesday to have an x-ray examination of his arm to see if the bone was knitting.

R. L. Armstrong and family of the Chadwick community visited Dr. Wilson's family in this city the early part of the week.

Mrs. M. A. Bridgforth left Monday morning for Forrest City, Arkansas, to visit her son, Major D. O. Bridgforth, who has just returned from France.

Mrs. Wilson of Winslow, Arizona, and her daughter, Mrs. Robb of Prescott, Arizona, left for their homes Tuesday night, after a visit to Mr. and Mrs. J. H. Mullins.

Earl Parker, who is connected with an oil lease company with headquarters in Dallas, has been here this week visiting his mother and meeting with his friends. We are all glad to know he is prospering in his business.

Ellis Head and wife and Barton Head and wife all of Center City returned Tuesday from a visit to the Dallas fair.

Mrs. John Hudson and Mrs. F. M. House came in from House, N. M., the first of the week and are visiting relatives here and at Center City.

Albert Smith of the Payne community was one of the good men who called yesterday and ordered his name enrolled on the Eagle's list of readers.

At a meeting of the Woodmen lodge Monday night Dr. Em. Wilson and Lewis Hudson were elected delegates to a convention to be held in Waco Oct. 31 for the purpose of protesting against the great increase in rates effective under the resolution adopted at the last meeting of the head camp.

The friends of Mr. W. P. Summy of Mullin are indeed glad to know he has so far recovered from the effects of an accident in which his hip was injured some months ago that he is able to leave the sanitarium and was expected home last night. His injury was so serious that at one time his recovery was very doubtful.

SALVATION ARMY CAMPAIGN

Although the campaign was closed last week, still there were a few names not handed to me until after the paper went to press. We appreciate them, however, and want to give due credit in this issue of the paper. We also wish to thank the Goldthwaite Eagle for its extra kindness and courtesy throughout the campaign. Again thanking every person who has helped in this worthy cause, I am,

Yours truly,
W. E. MILLER, County Ch'm'n.

A NEW LAW

Among the new laws passed by the special session of the legislature, which go into effect next Tuesday, is the one requiring that index boards be placed at forks of all public roads and crossroads by overseers and providing a penalty for failure to do so.

It seems to us that this is a very good law and that if it is complied with and enforced will result in a great convenience to the traveling public. The difficulty, of course, about such laws is that frequently they are only partially enforced and in consequence their value is greatly reduced. For that reason in this case the officials whose duty it will be to comply with it and those who will be called upon to enforce it should consider this matter immediately and take more thought of the public benefit which will follow its enforcement rather than the additional trouble which will be required to comply with its provisions.—Chronicle.

THE COUNTRY'S STRENGTH

Serbia was the hardest hit of any of the nations, and the Serbians have done less audible grumbling. There is bound to be something basically beautiful and imperishable in such national character as the people of Serbia have exhibited to the world. Before the war they were an industrious, prosperous farming people, far from showy and far from the sort of urbanity which was sometimes mistaken by tourists of Europe as an European characteristic. Most Americans before the war were familiar only with the European capitals. They imagined the soul of Europe was visible in the avenues and boulevards. But it was rural Europe, peasant Europe, which was then and remains the backbone of Europe. It was the former class that saved Germany from Bolshevism, also Hungary, perhaps Italy, maybe France. It is the farming class which is compelling the Russian autocrats to give up their lunatic plans for making urban workmen the idle beneficiaries of peasant labor. Lenin has ruled his rotten cities with bayonets, but he discovered even in the first weeks of his reign that he could not compel a farm to produce bread by sowing the furrows with dragons' teeth. It is so in every country. The cities conceive themselves as all-important, but it is the farmer who finally dictates the Nation's policies and names its rulers. England to day is suffering for want of farmers. It has systematically neglected agriculture for trade and manufacture, with the result that industrial feudalism threatens the nation's solvency and the Empire's supremacy. Our own country should learn a lesson here. Too much legislation for factory and too little for farm will some time prove costly.—Dallas News.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. Home Service.

One of the finest constructive activities of the American Red Cross in the war was Home Service in the United States, the friendly connecting link between the soldier far from home and his loved ones. This branch of the work which under the peace program of the Red Cross will be expanded to benefit all who need the assistance it can provide, is directed by scientifically trained social workers. Since instituted Home Service has assisted 800,000 soldiers' and sailors' families. This photograph shows one of the innumerable Home Service information bureaus where service men and their families could bring their problems for solution.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. At Saloniki.

The veritable mountains of relief supplies turned out by the millions of chapter workers during the war made the American Red Cross one of the biggest "manufacturing concerns" in the world, with great warehouse space at scores of strategic points all around the globe.

One of the biggest distribution centers was at Saloniki, Greece, and in this picture Bulgarian prisoners of war are seen there unloading a Red Cross cargo of 2,300 boxes from a French transport. At the right is seen one of the American Red Cross camions, fleets of which were used in rushing relief to points where the suffering was greatest.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. On German Soil.

In the City Square of Treves, Germany, headquarters of the allied military forces, an ancient cross surmounted monument marks the city's center of traffic. For this reason American Red Cross officials converted it, as shown by this picture, into a directory of all Red Cross activities in the city.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Roumania.

Soon after the entrance of the United States in the war the successes of the Central Powers in Roumania had reduced that country to a most tragic condition and in the summer of 1917, the American Red Cross despatched its first Roumanian relief contingent. Two hospitals were at once taken over and operated by the Red Cross, a canteen for the starving refugees established and food and clothing distributed over a large area.

Transportation was one of the toughest problems with which the Red Cross workers in Roumania had to deal. Here is seen an oxcart used by the Red Cross to carry its relief supplies up into the mountains.

LONE STAR TRAIL

Party Coming To Goldthwaite Outlining The Route

The official party of the Lone Star Trail association will arrive in Goldthwaite Monday, October 20th, on their way eastward over the route of the Trail. The party is expected to arrive about noon and hold a meeting of the citizens, the subject being "Good Roads Everywhere." President Val-Res notified the Eagle that he had been notified by their director of Adams county, Miss., that the Trail will have a bridge built at Nachez, costing over one million dollars and will be the only bridge across that river in the South. Several other towns are now bidding against each other for this transcontinental national highway, as they realize that to be located on it will mean a big boom in every way, but we have been assured that if Goldthwaite shows the progressive spirit as the other towns westward have shown we are to be on the Trail. The publicity crew will post the town Monday morning notifying the time and place of the meeting and it is urged that a good attendance be there to be sure we get on the Trail.

MARRIED IN DALLAS

Mr. L. B. Burnham of the Rye Valley community and Mrs. Bickham of Dallas were married at the last named place the first of this week and arrived in this city Thursday morning en route to their home in the southern portion of this county. Mr. Burnham is one of the county's leading men and stands high with everybody. His bride is a stranger to most of the Mills county people, but she has a hearty welcome.

The Eagle joins in extending congratulations and good wishes to Mr. and Mrs. Burnham.

CONSTIPATION

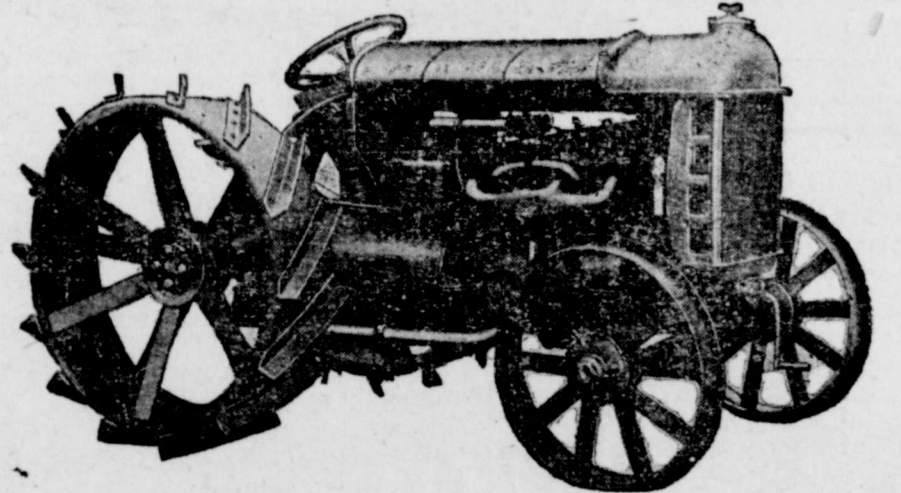

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise. Sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. Items of Interest Culled From The Local Papers LOMETA

Mrs. Will G. Allen went to Lampasas yesterday to attend the meeting of the county organizers of the Baptist \$75,000,000 campaign.

News was received by relatives and friends in Lometa this week of the wedding of Miss Vera Jones, formerly of this city, and Mr. Frank Owens, whose home is in Louisville, Ky., but who is now employed by an oil company in Ranger. Mrs. Owens is a daughter of Mr. and Mrs. D. L. Jones of Lometa and went to Ranger several months ago to accept employment in a bank.

North Longfield and Miss Mary Nuckles were married at the residence of the bride's parents, Mr. and Mrs. W. A. Nuckles, in Lampasas Tuesday morning at 9:15. Rev. Nat B. LAMPASAS

Mr. and Mrs. Carl Francis of Marble Falls spent Friday night here in the home of Dr. and Mrs. W. D. Francis while en route home from Belton, where they had been to attend the funeral of their son, David Francis.

Mrs. Ed Hocker left Sunday morning for Kansas City Mo., where she will remain several weeks in the interest of her health. Mr. Hocker went as far as Temple with her, returning Sunday evening.

Young Perry Bowen had the misfortune to get his right arm broken Sunday by a kick from a Ford car. He had proper medical attention, but it will be several days before he will be able to use the broken member.

Edgar V. Traweck and Miss Flora Everett, from near Lake Victor, were married Saturday evening at 7:45 on the public square, Rev. H. H. Packer performing the ceremony. There was a large number of witnesses present, though the ceremony was brief and the happy couple went on their way rejoicing.

What might have been a serious automobile accident was averted Wednesday about noon when R. B. Young, with presence of mind and clearheadedness, drove his car on to the sidewalk to keep from running down little Walton Dickason, son of Dr. and Mrs. H. F. Dickason, and he escaped with just a slight scratch on his leg and a bad scare. Walton and a little playmate of his were chasing each other and Walton was running backwards and ran in front of the car without seeing it.—Leader.

SAN SABA

Mrs. H. H. Taylor spent the week end with her daughter, Miss Daisylee, who is attending Howard Payne college at Brownwood.

Knight Rector, jr., and family have moved to Menard. Mr. Rector will put in an abstract plant at Menard to meet the great demand that the oil game has created.

Mrs. J. E. Odiorne went to Brownwood Friday to spend the week end with her daughter, Miss Arlene, who is attending Howard Payne college.

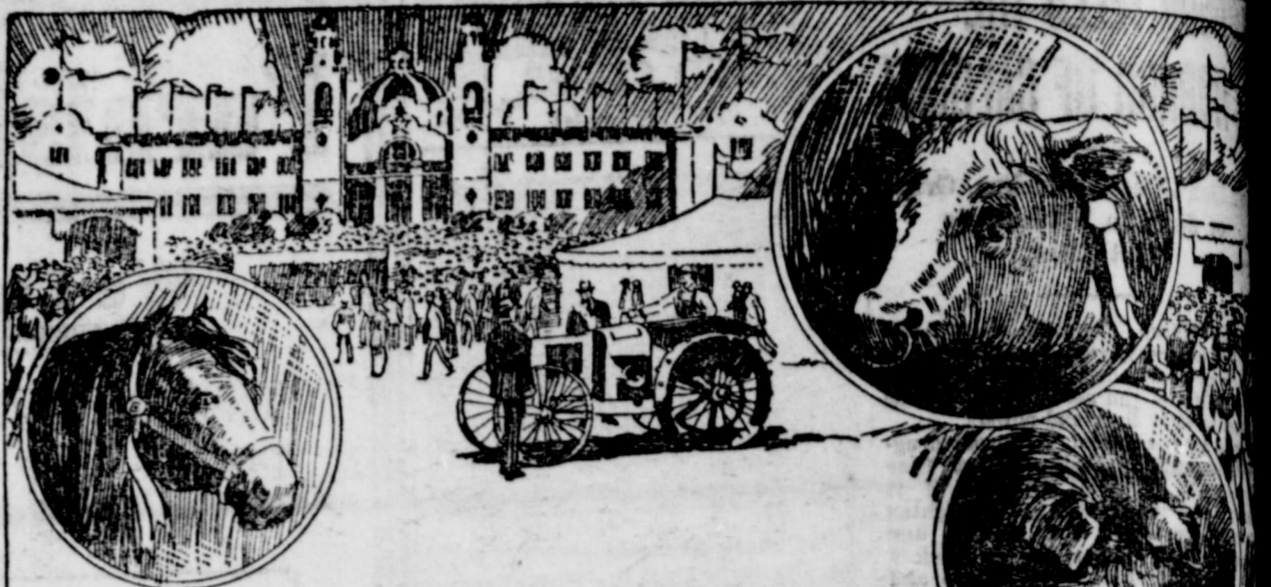

Tom Moore, who is a student of the Missouri State University, was selected as a member of the team to judge livestock at the Des Moines, Iowa, state fair. Out of five teams, consisting of 25 students, Tom was second in the score on efficiency.—Star.

HAMILTON

Charles E. McMordie and family left Tuesday for Stephenville, where they go to reside in the future.

Mrs. H. Lee Taylor, who is recuperating in Glen Rose, writes her family that she is rapidly improving in health and will soon be at home again.

M. M. Morris, who for the past two years has been employed as chief electrician for the Hamilton Light & Power Co., resigned his position October 1, and with Mrs. Morris and their little daughter Blanche left this week for Lovinton, New Mexico, to reside.

The many friends of Eld. A. P. Koen are pleased to learn of his continued improvement in health at the King's Daughters' hospital in Temple, where he is under the care of specialists for nervous troubles. He was called home last week to conduct the funeral services of Miss Della Stevens, whose remains were buried at Lamkin last Friday afternoon.—Record.

COMANCHE

Mrs. A. B. Queen and little daughter, Jeffie B. have returned from a visit in Arlington.

The community was shocked early Wednesday morning to learn that Mrs. Davis, wife of City Treasurer W. H. Davis, had died very suddenly the evening before at her home while sitting in her chair with her husband awaiting the arrival of other members of the family for the closing repast of the day. She was supposed to be in ordinary health for one of her age and the end came without warning.

Last Tuesday morning, Oct. 7, at the Humble Oil Company's tank farm at Comyn, Comanche county, Mr. Bream, superintendent of the Tank farm, was assaulted by John Hoover, one of the workmen, and during the difficulty Hoover struck Bream with a stick injuring him and from the effects of which he died Wednesday, while en route to a sanitarium at Waco. The defendant was arrested and brought to Comanche Thursday afternoon, where he waived examining trial and he made bond to the amount of \$10,000 and awaits the action of the grand jury. Hoover is the 19 year old son of Mr. and Mrs. N. H. Hoover of the Roach School House community, one of the prominent families of that section of Comanche county. Mr. Bream came to that section recently from Oklahoma and was in the employ of the Humble Oil Co., as superintendent of the Tank farm at Comyn.—Enterprise.

"The ideals for which men died
are apparently gone stale and
dead for the governments which
professed them are grabbing at
shadows of empires." Who said
it? Not a German, nor a bol-
shevik, but the editor of the Sat-
urday Evening Post. He continues,
"Half the world has been sulking
and slacking and the other
half has been slacking and jaz-
zing. Labor has been on a new
strike every morning. The
road brotherhoods have been
raising their wages and incident-
ally the carpenters' and brick-
layers' cost of living. The car-

raising their own pay and incident-
ally the brotherhoods' rent. The
hospital has been tacking the
cost on to prices and some-
times a trifle more for luck. Boot-

ART AND CIVIC CLUB

The last two meetings of the
Art and Civic club have been so-
cial meetings. The first, Oct. 1,
was with Mrs. Harry Allen.

The ever popular "42" game
was played and thoroughly en-
joyed by all. Mrs. Roy Con-
roy had such bad luck the hostess
gave her a pretty box of station-
ery to console her.

The living room was tastefully
decorated with vases of beau-
tiful yellow and white roses. The
pleasure of the afternoon was
heightened by having as guests
Mesdames Callihan, Thornal, J. B.
Lowrie, Mollie Lowrie and John
Sealy.

A refreshment plate of ice
cream and a lemon cake, whose
memory lingers, received high
score.

The next meeting was with Mrs.
F. E. Martin. Her pretty home
was made beautiful with vases
of red dahlias on piano and table
and a cut glass basket of sweet
peas on the buffet.

After six games of "42" Mrs.
Thompson of the club members
and Mrs. W. B. Jackson of the
guests were found to hold high
score and each received a box
of pretty crepe de chine handker-
chiefs. We were indebted to
Mrs. D. L. Lanford for several
selections of music. Mrs. Lan-
ford's talent makes her a welcome
guest everywhere. Other guests
for the afternoon were Mesdames
Omar Weatherby, D. Albert
Trent, Hugh McCullough, E. J.
Weatherby, R. E. Clements, Nor-
man Weatherby, G. N. Atkinson,
J. E. Morgan of Ranger, I. O.
Harvey, Floyd Ligon, R. V. Lit-
tlepage, Henry Martin, C. L.
Stephens and Miss Lillie Martin.

The hostess served ice cream
with pecan cake and marquerites.
We were all glad of the accident
which caused us to have two
social meetings in one month.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of
the war, the Red Cross sent to Serbia
a sanitary commission that effectively
checked the scourge of typhus, but
after the United States entered the
conflict, the Red Cross was able, in
August, 1917, to send a full commis-
sion that carried on extensive relief
operations among the suffering refu-
gees of the tortured nation. Hospi-
tals were established, the refugees fed,
clothed and given medical attention,
the army supplied with much needed
dental treatment, farm machinery, and
seeds provided to help the Serbs re-
deem their land to productivity, and,
not least, measures undertaken for the
succor of the children. The terrible
condition into which these helpless
victims of the war had fallen is well
portrayed by this photograph of a
little Serbian girl wearing the rags
and expression of hopeless dismay
that were all she possessed when the
Red Cross came.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of
the war, the Red Cross sent to Serbia
a sanitary commission that effective-
ly checked the scourge of typhus, but
after the United States entered the
conflict, the Red Cross was able, in
August, 1917, to send a full commis-
sion that carried on extensive relief
operations among the suffering refu-
gees of the tortured nation. Hospi-
tals were established, the refugees fed,
clothed and given medical attention,
the army supplied with much needed
dental treatment, farm machinery, and
seeds provided to help the Serbs re-
deem their land to productivity, and,
not least, measures undertaken for the
succor of the children. The terrible
condition into which these helpless vic-
tims of the war had fallen is well
portrayed by this photograph of a
little Serbian girl wearing the rags
and expression of hopeless dismay
that were all she possessed when the
Red Cross came.

The inter-denominational Sunday school association is to open its campaign on October 20 for \$800,000 in this state to be used for Sunday school work and advancement.

The federal government is entering upon a renewed campaign against profiteers in food and other necessities of life. About the greatest penalty that can be inflicted upon those guilty of profiteering is to bring them before the bar of public condemnation. Most people are willing that all men and workers receive full pay for every service rendered, but none are willing to be robbed or to see extortion practiced on the public.

The sugar shortage is and has been tolerably general over the United States and in some places it has from time to time become acute and the struggle by housewives to secure their desired supply of sweetening has been great. One grocer, however, in Dayton, Ohio, has been taught a rather expensive lesson in the struggle. A lady customer appealed to him for a supply of sugar and he, in an attempt to be jocular, told her he would give her a sackful of sugar if she would carry it home and she promptly shouldered it and walked out.

The October 18 issue of the Literary Digest presents quite a novel appearance, being a photographic reproduction of the type-written pages, which completely eliminates typesetting. The effect was brought about by the strike of printers and may result in a great reduction in the demand for printers for magazine work. The trial issue has the appearance of typewritten pages, but with the development of the art of photography and changing of the style of type-writer type, there is but a short step to the reproduction of any style of type faces for magazine work.

The Musical Courier of Sept. 15 gives considerable space to a write up of a banquet by Prof. Theophilus Fitz to the music loving people in Los Angeles and among other things the Courier says: Tuesday evening of this week thirty representative musicians and educators gathered at the Alexandria Hotel, in response to the invitation of Theophilus Fitz, to be his guests at a banquet and later to hear an explanation of his theories of voice measurement. In his endeavor to prove the correctness of his ideas, Mr. Fitz has taken infinite pains; he has examined hundreds of skulls in museums, measured thousands of school children's heads and tested and proven the possibilities of his achievements and he succeeded in convincing his auditors with the sincerity of his beliefs.

The president of the Cotton Belt railroad filed a protest with the federal railroad administration because of what he termed the "shameful neglect" of that railroad system under government control. Administrator Hines has written a letter to the Texas railroad commission denying in toto the allegations of the Cotton Belt official and showing the large amount expended by the government on that road. The trouble seems to be that the federal administrator can not or does not get full value for the large expenditures he makes, or at least he does not attain the same results as those reached under private ownership. There used to be a considerable hankering after government control of railroads, but since Mr. McAdoo and Mr. Hines have given the government control a "try out" a man who would advocate the system would be looked upon as a freak.

THE CONFEDERATE REUNION

Although requested last August to write something about the reunion held at Goldthwaite last summer, I did not do so as it was so ably written up by others. I am impelled to say a few words now on a phase of the meeting not stressed by the other writers. It is as to the general and lasting good that comes to Mills county from the speeches for the occasion.

While I was living in Mills county and was connected officially with the public schools and the Sunday schools of the county, I recognized the value of inducing able men in these fields of endeavor from the outside to come and help us by giving us their best thought and plans in public addresses. During those years I personally paid the full expenses of scores of such men and I never regretted one cent I paid for this purpose. I am now more thoroughly convinced than ever before that those visits were very valuable.

The annual reunion is the best opportunity that comes to Mills county for all her people to get the best thought from representative men and women in the various fields of useful activity throughout the country. Having been selected by the Camp to secure speakers I made an effort to get only the best. It is not an easy matter to get the best—not that they are unwilling to go, but such men are always busy and cannot easily adjust their work to go at a particular time on short notice. While I failed in many instances to get the men and women invited I always had a sympathetic hearing and a hearty regret expressed where it was not possible to go.

Dr. George W. Truett of Dallas, one of the greatest preachers living and the busiest man I ever saw, tried to get rid of an engagement he had in New York City to come to our reunion. He had read in the state papers the educational work we were doing in Mills county six or seven years ago and said he had a peculiar longing to go to see such people. But he, as well as others of marked ability, had to yield his desire to go to us in favor of engagements already made. Of those we had, Dr. Hardy has no superior as a Christian college man; Dr. Groseelose stands at the forefront among the ablest preachers of the South. In constructive statesmanship and jurisprudence Judge Blair will be heard from in the near future. Col. P. L. Downs, while one of Texas' leading bankers, has the enviable reputation of being the "livest wire" in all lines of intelligent agriculture in the state. Prof. Caldwell is a leading public school teacher in the Dallas city schools. I have attended many expensive chautauqua courses that did not give the people half the real thought and helpfulness that these gentlemen gave to Mills county in variety and in ability.

One of the growing benefits is the fact that when these people go home they say good things about Mills county and her people because they find them good. They almost invariably express themselves as being surprised to find so good a country and so hospitable a people. These reports abroad help because they are men of influence among the best people. It was my pleasure today to hear one of the speakers above referred to telling a large crowd in glowing terms of praise about the good people of Mills county. He concluded by saying that one of the most beautiful expressions of hospitality he ever saw was that when Mr. and Mrs. W. E. Miller entertained all the speakers and this writer and wife at a sumptuous supper with a hospitality that so truly reflected the glory of the old south that it was a most fitting climax to the exercises held in honor of the heroes of the old south. Short vision sees in such courtesies only a meal; the right view sees a visiting people made happier and a whole county of citizens placed on a higher plane in the outside world's esteem. I am not far enough removed from Mills county in distance or spirit not to feel deeply appreciative of such

MR. PROGRESSIVE FARMER

April, 1883, I started Farm and Ranch. I believed then, although their number in Texas was not very numerous, that the progressive farmers and livestock breeders would patronize a real farm and livestock paper, serving faithfully their interests at all times. I was not disappointed in my conclusions.

Many who became subscribers with that first issue have continued to read Farm and Ranch without missing a number. I value very highly their continued loyalty and faith in Farm and Ranch and leave it to them, and to the many who have since become patrons and friends, to say if I have kept faithfully my promise to make the paper a powerful, consistent supporter of the best interests of the people whose patronage I have asked for and received.

Farm and Ranch was, at first, published only once a month, later twice a month. Now it is a big illustrated weekly. It has been at all times clean, interesting, instructive and reliable. In these I know I have not at any time failed.

Now, after thirty-seven years, always personally on the job, it is my ambition to have every man in Texas, who has faith in farming in its different branches, become a subscriber to Farm and Ranch.

Send me your subscription and if, after reading Farm and Ranch each week for three full months you are not satisfied that you are getting even more than full value for the subscription price, write me and I will return the full amount immediately.

You who do not know Farm and Ranch, I refer to your neighbor who is already a subscriber.

On my proposition—your money's worth or every cent of your money returned—I ask your subscription.

The subscription price of Farm and Ranch is two (\$2) dollars for three years—156 copies. No subscription is taken for less amount and time.

Please send your subscriptions directly to Yours faithfully, FRANK P. HOLLAND, Publisher, Dallas, Texas.

P. S.—I want a responsible, active representative in every locality. Write me for my special proposition.

SUCCESS ASSURED

Preliminary reports from the Chapters of the Southwestern Division indicate great activity in the Third Roll Call. Men and women who were active during the war are assuring the chairmen of the Chapter Roll Call that they want to act as volunteers during the Roll Call and interest is increased each day.

It is quite evident that the American people desire to re-enlist in the American Red Cross as members and to form the habit of joining the Red Cross each year. They recognize in that act an opportunity for expressing thankfulness for the winning of the war and showing their appreciation of the work of the Red Cross in helping to win the war.

It is remarkable how many Chapter chairmen are catching the cardinal point in this campaign and are organizing thoroughly and systematically. The campaign will be a great success if each individual Roll Call chairman will thoroughly organize to cover every foot of territory within his jurisdiction and give every citizen of his county an opportunity to join the Red Cross.

The supplies for the campaign are being rapidly shipped and will arrive at every Chapter in ample time. Respective state meetings of Roll Call chairmen have been announced and will shortly be held.

There is every reason to believe that this Third Roll Call—which in my judgment is the most important of any of the Roll Calls that we will ever hold—will be a success and that the Southwestern Division will measure up to its opportunity in this respect. ALFRED FAIRBANK, Manager.

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mills county, a copy of the following notice: The State of Texas

To all persons interested in the welfare of Henry Wade Ivy, a minor: T. R. Ivy has filed in the county court of Mills county, an application for Letters of Guardianship upon the person and estate of said minor, which said application will be heard at the next term of said court, commencing on the first Monday in December, A. D. 1919, the same being the 1st day of December, A. D. 1919, at the court house thereof, in Goldthwaite, Texas, at which time all persons interested in the welfare of said minor may appear and contest said application, if they see proper to do so.

Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Goldthwaite, this the 6th day of October, A. D. 1919. (Seal) C. D. LANE, Clerk, County Court, Mills county, Texas.

OIL WELLS

Drilling Continues And Good Reports Are Coming Constantly

No especially new developments have been reported from the oil fields this week, because of the bad weather which interfered materially with the work.

Several rigs are at work, however, and the reports coming from them are encouraging. No wells have been brought in yet, but this condition will not continue, if all reports are true.

It will not be surprising for some new rigs to be put to work soon, especially if the good indications in the wells now drilling are borne out by results.

CUTS BOTH WAYS

If arbitration is to become a permanent factor of industrial peace, it must be accepted by both sides as a give and take proposition. Unless it can be made the basis of every adjustment, it will not be looked upon as a safe basis for any adjustment. If it is to be repudiated by those in an advantageous position, it will amount to no more than a hypocritical pretense. Arbitration can never become successful unless it includes a fair hearing and the prospect of justice for the weak as well as the strong. Those who would repudiate because they find themselves in an advantageous position strike at the basic idea. That, and that alone, is the significant phase of the attitude of the employers group in the industrial conference at Washington. This group is balking at arbitration with reference to the steel strike because it feels that the strike can be beaten. If such a viewpoint is to prevail, we can expect nothing but a contest of strength and a continuous battle for control of industry by force. The public group believes, and rightly so, that no progress can be made toward the establishment of permanent methods for adjusting industrial controversies by a conference which willfully and deliberately ignores such an important one as is now going on in the steel mills. Samuel Gompers, leader of the labor group, has submitted a very liberal plan for intervention, and while modifications of this plan might be desirable, its unqualified rejection is unthinkable. Such rejection could only deal a vital blow at the possibility of general arbitration and the temporary victory of the steel corporations is hardly worth such a price.—Chronicle.

The strike of the steel workers is still on, but has not had the depressing effect on the country that was expected by the public and hoped by the strikers. The managers of the big mills claim that the men are fast deserting their leaders and their union and returning to work. This claim is denied by the leaders, but the fact remains that the mills are being operated and if the output has been curtailed the country has not felt the loss. The workers were never united in the determination to strike and if there had been a referendum vote on the question there would have been no strike, or at least many of the well informed believe that way.

“THE ONE-PRICE STORE”

According to Dr. Smith Williams, writing in Motor, automobilism is beneficial physically. “The motorist,” he says, “has, in the first place, been out in the fresh air, inhaling vast quantities of oxygen to meet the increased needs of the accelerated currents of blood corpuscles.” And in this way digestion and assimilation are aided. As far as exercise is concerned, Dr. Williams says, “It is the muscles of the arms together with those of the chest and the abdomen, that pre-eminently and habitually suffer. When you drive a car forty or fifty miles over average American roads, or a fraction of that distance in the city, you give your arms a course of purposeful calisthenics that redounds directly to the benefit of your muscles and arteries and heart and, indirectly but no less significantly, to the benefit of your digestive apparatus and organs of elimination as well as the nervous system.” In short, automobile driving is in itself an all-round good exercise. Those who hire a chauffeur are the only ones who are apt to be deprived of the proper amount of physical exertion necessary to the body's well-being.—Exchange.

Prohibition is said to be responsible for the sugar shortage throughout the country and doubtless there are good grounds for the claim. Since prohibition became effective the cold drinks fountains have been doing a rushing business and most of the drinks dispensed require sugar. This, however, is not the main cause of the shortage doubtless, but the real cause is the fact that thousands and thousands of families now have more food and the housewives are provided with more funds with which to supply their family tables. To be sure, there is an additional cause in that the children in many homes are now provided with money to buy candy when these funds formerly went, in many cases, for strong drink. BREAKS A COLD

IN A FEW HOURS

"Pape's Cold Compound" instantly relieves stuffiness and distress

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

THE WEARY WAY

Daily Becoming Less Wearisome - To Many In Goldthwaite

With a back that aches all day. With rest disturbed at night. Annoying urinary disorders. 'Tis a weary way indeed.

Doan's Kidney Pills are especially for kidney trouble.

Are endorsed by Goldthwaite citizens.

Mrs. H. E. Moreland, S. Parker st., says: "A good many years ago I was troubled with my kidneys and bladder. At times I could hardly rest, as the pains across my back were so severe. I was also troubled with headaches and had such spells of nervousness that I couldn't rest at night. The action of my kidneys was irregular and mornings I had a tired, languid feeling and hardly felt like doing anything. I heard of Doan's Kidney Pills and got some at Clements' drug store. I can highly recommend Doan's, for they took all the hurting out of my back and regulated my kidneys. I am glad to say I haven't had the least return of the trouble."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moreland had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (ad)

A YELLOW LESSON IN THRIFT

M. Sing Fat One Lung is a prominent San Francisco citizen worth a million and he obtained it through saying nothing, saving wood and minding his own business, an example not unworthy of emulation. He came to San Francisco fifty years ago and when Dennis Kearney emitted hot air in large chunks about the Chinese having to go it was his cable-slot smile which Brete Hart immortalized as "child-like and bland". He did not go, but smiled his smile and sang his nasal solo twenty hours a day as he chased a shirt up and down a washboard and spit Asiatic microbes over it as he ironed out its wrinkles. Thus he was in time enabled to purchase several of those same sand lots and now has an Oriental bazaar on them stocked with the artistic products of his country men, which he sells to tourists for 'steen prices. That Mr. Sing Fat One Lung got two-bits for spraying saliva over a shirt which a white woman was paid but eighty cents for making did not disturb his philosophy upon the ethics of distribution of profits.— Selected.

Mrs. J. M. Arnold spent a part of the week in Sweetwater selecting a residence to which the family will move in a few days, Mr. Arnold having been transferred to that station as agent for the Santa Fe.

Louis Etman has arrived from Sealy and opened a dry goods store in the Everly building, next door to the postoffice. He is a nephew of Joe Cherkas of Sealy, who came here a few weeks ago prospecting for a location for his nephew. Goldthwaite is attractive to visitors and the longer they stay the better they like the country, the town and the people. Mr. Etman is a pleasant gentleman and is well pleased with the outlook for business at this place.

We are glad to allow our customers to see their cream tested.—McCulley & Clardy.

I represent the Texas Co. and will appreciate orders for gasoline, kerosene and lubricating oils. Prompt delivery assured.—E. J. Weatherby.

L. W. Hill of long Cove had business in this city Wednesday and made the Eagle an appreciated call. He reported that some of the farmers in his section had not yet gotten their grain threshed.

Mrs. J. H. Staton returned Thursday morning from Temple, where she had been with her sister from eastern Texas, who went to the sanitarium to have treatment for a finger which she accidentally cut and was giving her trouble.

A. T. Langford writes the Eagle he has located at Comanche and wants his paper forwarded to that place. The people of Mills county and especially of Center City community regret the removal of this good family and hope for their early return.

Prof. M. L. Garrett and children came in Wednesday evening from Temple, where Mrs. Garrett has been in the sanitarium for several days, having undergone an operation. She is getting along nicely and it is hoped she will be able to return home in a few days.

Irrigated Farm For Sale

The John W. Hill irrigated farm at Ratler, Jones Valley, is for sale at \$42 per acre, half cash, balance terms. Title perfect and approved by Federal Farm Loan Bank. There are 530 acres in the tract, 165 in cultivation, 90 under irrigation, 40 or 50 more can be irrigated easily. Steam irrigation plant in good condition. Five sets of houses on the place. Land all fenced and cross-fenced. About 350 cords of wood will go in the deal free. For full particulars, terms, etc., see or write me at Goldthwaite.

J. F. GILES

MULLIN

Mr. President, Judges, Ladies and Gentlemen:

I rise to a point of order and in defense of my old clothes and the Sabbath, while the storm was raging in Corpus Christi. As usual, when people are called to pass through the deep waters the wondering faculties of others take on very inquisitive proportions. In this case the wonder reaches out after my attitude in the storm on Sunday morning with my fishing clothes on.

In the first place, Mr. President, ladies and gentlemen, I am informed that it is nothing unusual for people in Corpus Christi to be seen on Sunday morning with either their fishing or bathing suits on and not having been there long enough to get people to tumble to my ways I thought it nothing amiss as I was in Rome to do as Rome did.

In the second place, before time to dike out in my new Sunday suit, the already downpour of rain had convinced me that my way to Sunday school and church was hedged up and the fury of the waves and the spray from them were not conducive to the up-keep of a new suit of clothes, hence the fishing suit stood between my new suit and the deep blue sea and for this kind act it still survives, while the new one went down beneath the surging waves.

If this is not satisfactory, I am at home again and will endeavor to the best of my ability to right all wrong impressions if the anxious ones will give me a chance.

J. T. Weems and his son J. D. left Tuesday night for Austin to attend the annual conference.

Some property changing hands in and around Mullin: Thomas Crockett bought J. B. F. Wigley's residence. One Mr. White bought a place from E. Kemp. Mr. Ince, who moved away from here last year and went to Oklahoma, has moved back and has located at Mullin.

Thos. Mosier, half-brother to D. J. Lockett, died somewhere in east Texas and his remains arrived Wednesday morning and were buried at 3:30 o'clock that eve, Rev. Mr. Bradley and the Woodmen officiated.

T. D. Johnson, one of our best citizens, will leave in a few days for McGregor, where he will reside in future. We regret having to give up such a good citizen.

Cotton picking is going on, notwithstanding its condition from rain and dew, the gin is

running day and night.

Mrs. Templin has gone to live with her son George and J. B. F. Wigley, we understand, will occupy her residence.

Mr. Harvey from the Trigger Mountain community has rented Mr. Taylor's residence. Mr. Taylor and family will move to Brady.

John L. Bolan and family are visitors to the Dallas fair this week.

We have a number of cotton buyers in Mullin and the prices being paid are close up to the Galveston and Houston markets.

Mr. Haynes from the Ebony community brought 7 bales of cotton to Mullin the early part of the week, for which he received 34 cents per pound.

Mrs. J. H. Wilson has gone to Stephenville to see her mother, who is very sick.

Several of our people are at the big fair this week. H. C. COBB.

TOO MANY FADS

So many fads and new fangled ideas are springing up on every hand every day that a person of normal mind cannot keep track of all of them, or digest half of them. It is a day and age of fads and fancies, not to mention hallucinations and pipe dreams. Between Socialistic and Bolshevik schemes, uplift dreams, sex hygienics, progressives, militant suffragettes, I.W.W.'s single taxers, commission forms, town managers, long haired men and short haired women with more wheels in their heads than a Waterbury watch, tariff tinkering, new banking systems, trust-busting, moving pictures displacing the church, tangoing, slit skirts, apple day, orange day, mothers day, and fathers, and all of them more or less lemon days; and with the press of the country running wild with red ink over sensationalism, William Randolph Hearst running morally and intellectually naked through the public brush and Orientals raising one kind of hell and all Europe another, a plain old-fashioned scribe like this one don't hardly know where he is at or whether he will have to dodge into an incubator with the chicks tomorrow or eat baled hay ground up in a patent cereal coffee machine and delivered in an aeroplane next day, or just naturally have to crawl into a hole and pull the hole in after him.—Selected.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

HOME WEDDING
At the home of the bride's parents, Rev. and Mrs. J. W. Kelley, on Tuesday evening at 8:30 o'clock, Miss Mamie Kelley and Mr. Joseph A. Palmer were united in marriage, Rev. W. G. Callihan, pastor of the Methodist church, reading the beautiful ring ceremony.

The living room was artistically decorated with ferns and baskets of pink roses, while on the table stood a dainty kewpie in full bridal array.

Preceding the ceremony Miss Lawrence Thompson, cousin of the bride, sang the beautiful wedding song, "Because I Love You Truly." Miss Thompson was gowned in pink georgette, in harmony with the bride's chosen color scheme for the wedding. The sweet strains of Mendelssohn's Wedding March, played by the bride's aunt, Mrs. J. M. Hicks, announced the approach of the bridal couple, who entered together and took their places in the center of the room under a large suspended pink rose which concealed an electric light.

The bride wore an elaborately embroidered coat suit of the new reindeer shade, with shoes, gloves, beaded blouse and plumed hat in tone. She carried an exquisite shower bouquet and her only ornament was a diamond bar pin, a gift of the groom.

Only closest relatives of the couple were present at the ceremony with the exception of the groom's special friend, Mr. Chas. Kimball, of Ranger.

Mr. and Mrs. Palmer left immediately via Santa Fe for New Orleans to spend their honeymoon and they will visit other cities on the return trip.

They will be at home in Ranger after Nov. 1, where the groom has extensive oil interests.

Miss Kelley has lived in Goldthwaite for a number of years and has been engaged in school work here and in Fort Worth and has taken an active part in social circles in both places.

The groom, who was reared here, has high standing and is a business man of strong ability.

Both parties have numbers of friends here and elsewhere who wish for them a pleasant and happy voyage on the sea of matrimony. A FRIEND.

SPECIAL PROGRAM
The 11 o'clock service in the Methodist church Sunday morning will be in charge of the Wesley Bible class and the following program has been arranged for the occasion. The public has a cordial invitation to be present:

AROUND THE WORLD WITH THE AMERICAN RED CROSS.
Junior Red Cross.

Early in the participation of the United States in the world war, the American Red Cross perceived the value of mobilizing the school children of the country and the Junior Red Cross was organized. Before the war ended nine million children were enrolled and helped in the war fund and membership campaigns, in chapter production of relief supplies and manufacturing furniture for the refugees whose homes and household goods were destroyed.

Children everywhere in the United States responded to the call to service sounded by President Wilson as head of the American Red Cross. This photograph is that of an enthusiastic young Japanese member of the Junior Red Cross of Spokane, Wash., starting out on the ambitious undertaking of collecting "a mile of pennies" for war relief. A comprehensive peace program is now being worked out for the Junior Red Cross, which is being held intact.

ONE FACTOR IN MAKING BETTER CROPS

"The necessity for better crops upon every cultivated acre was never greater than at present," says D. N. Barrow of the Texas Industrial Congress. The high prices of everything of the present day have even reached to the land, and farm lands have more than doubled in value during the past few years. With the increase in value of farm lands the necessity of greater production increases unless the man who is cultivating them is willing to have his wages reduced. How to increase production in proportion to the increased value of his lands is a question that should concern every farmer. Of course, fertility and better cultural methods are the final answer, but both of these take time and emphasize another fact—one that is so often overlooked, that the quality of the seed must also be improved. The grower of livestock recognizes that the foundation of any success is improved blood and yet it is not uncommon to find a man who will pay a fancy price for a well bred bull or boar and who froths at the mouth at the bare mention of scrub stock, who complacently plants scrub seed. Improvement in any livestock is the result of years of careful selection and breeding, and yet the plants upon which to feed that livestock can be improved both as to quality and to yield with much less expense of money and of time. For permanent results in livestock both breeding and selection must go hand in hand while immediate and very marked results at improvement of quality and yield can be made by simply practicing selection for one year with plants.

The time to select seed for next year's planting is right now when the crops are maturing. The selection should be made in the field before any of the crop is harvested. Do not select these seed from individual plants that have had exceptional advantages in growth, but select as the mother plants of your next year's crop, the exceptionally good plants that have grown and produced under average conditions. After determining the best plants then select from these the ones that are producing the best quality. To make these selections one must fix in his mind first what constitutes an ideal plant and then what really determines quality. Cotton and corn are both wonderfully amenable to improvement by selection—corn perhaps more so than any other farm crop. In this day of big wages the biggest wages any farmer can make will result from one day spent in selecting seed corn and cotton for next year. It is safe to say that this day will mean an increase of not less than 25 per cent the first year in the corn yield to say nothing of the increased value due to better quality.

In the Louisiana rice fields the Manufacturers' Record states that in seven years rice growers have increased their wealth from between two thousand and five thousand to thirty thousand and eighty thousand dollars simply by the use of improved seed; what has been done with rice can be done with even greater certainty and less labor and time with most any other crop.—Industrial Congress.

AN AGREEABLE SURPRISE

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy. Sold by L. E. Miller & Son. (adv)

As a result of the strikes of workmen in all lines of industry the food shortage in New York City and other population centers has become alarming and distressing.

The estimate of the cotton crop must be revised since the rains of the past few weeks, which have caused overflowing of streams and much loss in the fields from rotting.

Physicians and specialists attending President Wilson announce that it will be necessary for him to remain in bed for some time and to have absolute rest and relief from care and worry.

The resignation of Mr. E. A. Peden as federal food director for this state is announced. Mr. Peden did faithful and very beneficial work during the war and his services should be appreciated by the people of the entire nation, much less those of this state.

President Wannamaker of the Southern Cotton Growers association issued a statement at Atlanta, Ga., this week in which he predicts cotton will sell at 50 cents per pound, middling basis, before the next year's crop is marketed. He supplies statistics and other figures to support his position and says the government's estimate is much too high. His statement is at least encouraging and his prediction may come true. Who knows?

An unbelievable story comes from New York relative to the price charged by a manufacturing firm for a pair of shoes. The principal in the case is the wife of a school teacher and she contracted with the manufacturers to make for her a pair of shoes, to cost \$900, to be paid for on installments. After paying several hundred dollars she has defaulted in the payment and when the company brought suit she entered a counter claim for the return of her money, claiming the company misrepresented the facts to her and thereby secured her contract. She says the president of the company told her that they had made shoes for \$10,000 per pair.

The Story of a Turret Captain
Promotion in the Navy comes quickly to those who qualify for higher ratings. In March 1899 A. P. Nilsson enlisted in the Navy as an Apprentice Seaman, 3rd class. In April 1907 he was rated Chief Turret Captain. His pay today is \$165.75 per month.

A man's life — among men!

Reel them off—"Rio", Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.

If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and

afloat that will make you a welcome man in any company. Work?—sure, and a man's work it is, among men. Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away. And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your Postmaster. He knows.
