Ernest Queen is visiting his  
brother A. B. Queen here this  
week.—Comanche Enterprise.

Mrs. Mary Mauldin has re-  
turned to this city, after spend-  
ing some time with relatives in  
McCulloch county.

Miss Emma Kemper returned  
to her studies in Howard Payne  
college Monday, after a short  
visit to home folks.

Mrs. R. E. Thornal returned  
Monday from a visit to her  
husband, who is engaged in  
railroad work in Louisiana.

Mrs. J. T. Weems of Mullin  
visited in this city the early  
part of the week and was an  
appreciated caller at the Eagle  
office.

A. L. Burk writes from Cole-  
man to renew his subscription  
and says he and Mrs. Burk both  
enjoy hearing from their Mills  
county friends thru the Eagle.

Mrs. G. A. Jarrett returned  
Monday from Oklahoma, where  
she was called last week on ac-  
count of the illness of her son  
Fillmore, who was much im-  
proved when she left him.

C. C. Ellis and family have  
moved back to their home in  
North Bennett community after  
spending four years in the plains  
country. Their many friends  
are glad to welcome them home.

Mrs. E. L. Shults and daugh-  
ter, Miss Wilma, left Sunday  
night for their home in Okla-  
homa, after spending some time  
here with relatives. Mr. Shults  
expects to join them as soon as  
he can wind up his business  
affairs at this place.

The Eagle is on the stop-  
-when-out basis and the rule  
will be strictly enforced. Most  
people like the plan and those  
who do not like it will get used  
to it and then like it better. In  
any event, the Eagle will never  
again be conducted on the hope-  
-so plan.

### BARBOUR-FORD

On Sunday evening, Feb. 15,  
at 6:30 o'clock, Miss Edith Rose  
Ford, youngest daughter of Mr.  
and Mrs. C. H. Ford and Mr.  
Ivan E. Barbour of Brownwood  
were married at the Methodist  
parsonage in this city, Rev. M.  
F. Daniel officiating. They were  
accompanied by the bride's  
brother and his wife, Mr. and  
Mrs. Clem Ford.

The bride wore a handsome  
traveling suit of navy blue tri-  
-cotone, with hat, gloves and  
oxfords in shades of reindeer.  
The groom's gift to the bride  
was a beautiful ring.

The happy young couple left  
on the evening train for Brown-  
-wood, where they will make  
their home.

The wedding was not entirely  
a surprise to the friends of the  
couple, although the exact date  
was known to only a few  
of their most intimate friends.

Miss Ford grew to woman-  
-hood in this city and was quite  
popular with a large circle of  
admiring friends.

Mr. Barbour has spent most of  
the past year in Goldthwaite  
where he has been interested in  
the oil development of this  
county and has made many  
friends who wish for him and his  
bride the greatest happiness and  
prosperity.

Mrs. Wm. Malone and her  
daughter, Mrs. Thaxton, left  
Wednesday for Houston to visit  
relatives. They expected to be  
joined at Temple by Mr. Malone,  
who had been in the sanitarium  
there for several days.

Mrs. T. L. Rahl returned Sun-  
-day night from Kansas City,  
where she had been to look  
after some of her financial  
affairs.

Keep your eye on the an-  
-nouncement column for there is  
nothing when some new names  
will appear.

G. A. Swaim returned to Ris-  
-ing Star Tuesday, after a visit  
to relatives in this city.

Mrs. C. H. Ford was called to  
Abilene the first of the week on  
account of illness in the family  
of her son Phil.

Miss Shellye Mayberry of  
Goldthwaite is the guest of her  
aunt, Mrs. McCulloch this week.  
—Comanche Enterprise.

George Gartman and wife  
came in Tuesday morning from  
Temple, where she had been in  
the sanitarium for treatment.

Clem Ford and his wife and  
little daughter left for southern  
Texas the first of the week for  
a visit before returning to their  
home in Iowa.

### SELLING THEIR PRODUCTS

There is no better evidence of  
progress among farmers in the  
Southwest than the fact that  
they are producing something  
to sell for cash at this season  
of the year. Farmers in the  
Southwest are rapidly becom-  
-ing independent of the credit  
system. They are producing  
crops and animals for which  
there is a demand and are as a  
rule able to finance their crops.

Incidentally, farmers who are  
marketing their products as  
mentioned are building the  
cities and towns for they are  
converting these products into  
cash economically and using the  
cash for necessities and com-  
-forts, thus directing the cash  
into the channels of trade.—  
Farm and Ranch.

### WOODMEN BANQUET

A large delegation of Modern  
Woodmen went over to San Saba  
Tuesday afternoon to attend a  
district meeting of the order and  
attend a banquet that night.  
There were 42 in the crowd and  
they enjoyed the trip immensely  
and were treated royally by the  
San Saba camp.

### MUST PRODUCE MORE

City people who are complain-  
-ing at the high cost of living  
and looking to government offi-  
-cials for relief should remember  
that "Charity begins at home."  
Underproduction seems to be  
largely responsible. Strikes  
have stopped production of ne-  
-cessities. Lack of labor on  
farms has decreased food crops  
and animal production with a  
result that the speculators have  
not had many difficulties in  
getting the limited supply.

Strikes have cost the innocent  
consumer heavily. One pair of  
shoes will not protect the feet  
of more than one person; it  
takes a suit of clothes for each  
person; one meal is required  
for each month each time. If  
these things are not produced in  
sufficient quantity to supply im-  
-mediate needs then prices rise  
as the demand increases.

Even salaried men and labor-  
-ers in cities and towns must  
produce more. Union labor  
must go to work and stay at  
work till the country has a  
chance to gain in production.

The time has come for self-  
-ishness to be put aside. Labor  
must think of their employers'  
interests and the innocent con-  
-sumer who creates a demand for  
their labor.

More must be produced and  
the expense of doing busi-  
-ness must be reduced if city  
consumers are to get relief.—  
Farm and Ranch.

### APPRECIATED MEMORIAL

Mr. and Mrs. B. S. Leonard  
have received a memorial from  
France in honor of their son,  
John R. Leonard, who gave his  
life in the cause of liberty and  
justice. These good people and  
their friends are indeed proud of  
the honor that has been done  
the memory of their son in  
America and in the allied coun-  
-tries.

BREAKS A COLD

IN A FEW HOURS

"Pape's Cold Compound" instantly relieves stuffiness and distress

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, most relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

SEALS NECESSARY.

Many automobile owners do not seem to realize that it is necessary to have the 1920 seal displayed on their car as it is the tax. In fact, a person is liable to a fine for failure to have the seal on their car as they would be had the tax not been paid. Some people have these seals in their cars or about the place and think this is all that is necessary. Our local officers do not want to cause trouble to those who have paid the tax, but a campaign will be started soon to enforce the law relative to properly displaying the seal of the current year. This warning should be sufficient to secure an observance of the law.

The remains of the little 3-year-old son of Mr. and Mrs. John Leverett were brought in from Houston Sunday night and interred in the Mount Olive cemetery Tuesday. The bereaved parents and other relatives have the sympathy of their Mills county friends. A more extended notice, written by a friend, appears in this paper.

Watch for the appearance of "Pierrette."

Friends here of Mrs. Frank Geeslin and little daughter learn with regret that they have suffered with influenza since their return to their home in Hempstead, after a visit to relatives and friends in this city.

N. 52 E. 128 vrs. N. 63 1/2 E. 100 vrs. S. 23 E. 9 vrs. and N. 69 1/2 E. 486 vrs. middle of Brownwood road; thence with said road as follows: N. 45 W. 270 vrs. cor. line 288 vrs. and N. 39 1/2 W. 926 vrs. N. E. cor; thence S. 89 W. 432 vrs. and S. 88 W. 680 vrs. N. W. cor; thence S. 1716 vrs. cor. line 2536 vrs. to the beginning.

Second.—A part of the Dorecy W. Biggs sur. in Lampasas County, Texas, beginning at the N. W. cor. of said Biggs sur; thence E. with N. line 2720 vrs a stake; thence S. 655 vrs. N. E. cor. of 341 acres belonging to August Anderson; thence W. with corrected division line 2720 vrs. to rock on bank of river; thence up said river to the place of beginning, containing 313 acres of land.

Plaintiff alleging that the names of the unknown heirs are unknown to him and that the places of residences of each of said defendants are unknown to him.

Plaintiff alleging that he and those under whom he claims have had five years possession of said land paying taxes thereon and claiming same under deed duly recorded.

Plaintiff further pleads the ten years Statute of limitation. Plaintiff represents that the claims of defendants cast a cloud on his said title, and prays for citation to issue and that on hearing he have judgment quieting his title to said land, removing said cloud and for costs.

Herein Fail Not, but have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness Annie Browning, Clerk of the District Court of Lampasas County, Texas.

Given under my hand and seal of said Court at office in Lampasas this the 12th day of February, 1920.

**FARMERS AFRAID OF POPPIES**

Movement Started to Plant the Flower Extensively in Canada Has Met With Little Favor.

A fine bit of sentiment, which proposed that a Canadian war memorial, to "those who sleep where poppies grow in Flanders fields," should be masses of those self-same poppies, has been killed by hard-headed farmers.

Patriotic committees inspired by the late Colonel McCrae's appealing verses, proposed to import thousands of packets of Flanders poppy seed, and ask every home to cultivate and perpetuate a poppy bed "in memoriam." Farmers were to be asked to border their roads and lanes with them, and everybody was to join in making the poppy the national flower.

But the farmers were cautious. The minister of agriculture appealed to, asked his best college experts for a report. They have reported in guarded language. But the plain deduction is that the Flanders poppy, immortalized by a poet and heroes, is but a weed, and might prove quite as dangerous to farmers as wild mustard. In fresh environment the beauty of the Flanders landscape might prove in Canada to be a superprolific pest.

The present disposition is to be warned by the examples of the English sparrow, and the German carp and leave the Flanders poppy in its original habitat.

—And thus dies another beautiful thought.

**TYPEWRITERS HARD AT WORK**

Busier Now Than at Any Time Since the American Forces Went to France.

The machine guns have quit, but the typewriters are still busy. Up and down the length and breadth of the army they go battering their way on through service records, "from-to" subjects, pay rolls, requisitions, transfers, court-martial data, travel orders, clothing slips, passes, and—yes—orders home.

The army typewriters—male, female and inanimate—never were busier than they are right now. Company clerks and sergeants major are more regal than they have ever been, not to say more pressed for time. But there is always the blessed thought that the way home lies along a path of carbon paper.

The army typewriter—inanimate—has had to stand for a lot of abuse during these latter months. It is conceivable that it might take, perhaps actually has taken, two or three complete batteries of typewriters to get a single mess kit moved from one barracks to the next. But a general could not send an army into action unless some other general ordered him to—usually by means of a typewriter.—Stars and Stripes.

**GARLIC GUM A NOVELTY.**

The Weltmarkt directs attention to new uses of some gum products. In Holland a useful gum or paste is being made from garlic. The bulbs are pressed and the juice or fluid matter so obtained is thickened by inspissation. A good substitute for cork is obtained from certain fungi, which are dried and ground, mixed with cement and consolidated by pressure. In Norway a process has been patented to enable carbide to be used for driving motors. In Denmark a company has been floated to make briquettes from heather. These have a higher heat value than peat. Experiments are being made to use chalk marl, especially that which comes from the Limburg mines, as a manure.

R. M. THOMPSON - Editor.

The number of candidates for governor has increased by at least two in the last few days.

Not much political interest has been aroused here so far, but when the proper time comes we can depend upon the voters taking interest in public affairs and casting their ballots for the candidate of their choice.

The announcement of H. C. Cornelius of McGirk appears in the Hamilton papers as a candidate for commissioner of his precinct. He has lots of friends in Mills county who are for him against all comers and we sincerely believe the good people of that precinct will do themselves credit if they elect him.

The paper market is daily becoming more uncertain and the situation is indeed grave for all lines of the printing and publishing business. Many papers have been forced to suspend for the want of paper and competent workmen. Manufacturers of paper promise no relief and some of them will not take orders for delivery under eight months.

The rumor that Senator Culberson would resign brought forth the announcement from him that he not only did not intend to resign, but would be a candidate to succeed himself. This last announcement was equally as unwelcome to his opponents as the former, for they have learned by sad experience that he is invincible in his political ambitions. Notwithstanding all manner of rumors and reports detrimental to him were circulated in the last senatorial campaign he was elected by a good majority and the Eagle's prediction is that he will be elected in the next campaign for the office.

Samuel Gompers hopes to enlist the farmers of the country in co-operation with the Federation-of-Labor party to increase wages and fight the candidates for congress who oppose turning the government over to the tender mercies (?) of the railroad employes. But the farmers are not going to be led into pulling chestnuts out of the fire for the Federation monkey. The farmer is a capitalist, and an employer of labor. He runs the greatest industrial business in the world. He not only knows how to make butter, but knows which side of his bread to spread it on.—Comanche Enterprise.

At the present time the cotton states of the United States are declared by Senator Joseph E. Randell of Louisiana to be in a better position than ever before in their history to tide over any period of slack demands for cotton, such as might result if English buyers dropped out of the market temporarily, as it is indicated in cable dispatches from London that they may do. What they will do, according to the Louisiana senator, will be to store their cotton and go along until the manufacturers in England have disposed of stocks on hand. Then the southern cotton growers will be ready to supply the English manufacturers. If it helps the latter to stop importing for a while Senator Randell says they are probably wise in doing so, but it will not hurt the South and there will be no excitement because of such action. Southern cotton growers, according to the senator, have realized \$7,000,000,000 from this crop in the last five years. In addition they have diversified their crops so that their products other than cotton will enable them to finance their operations while holding their cotton.—Fort Worth Record.

# The World's Largest Tire Factory

## Building 30x3, 30x3½ and 31x4-inch Tires

Owners of small cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30x3-, 30x3½-, and 31x4-inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a road casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$3.90 proof bag.

### DOLLARS AND CENTS

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. Sold by L. E. Miller & Son. (adv)

My office is located over Clements' Drug Store, where I am always glad to pay the top prices for everything in my line in the way of produce. ### FOR THE CHILDREN.

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. Sold by L. E. Miller & Son. (adv)

## Makes Motor Farming a Success on 50 Acres or Less

Here is the Tractor that makes motor farming a success on any size farm—the AVERY 5-10 H. P. Model B Tractor. We also sell the larger sizes.

"It's one of the handiest things I have on my farm," said one Avery owner, and he went on to say, "for it takes the place of a couple of my teams and does the work quicker, cheaper and better."

Sells at a very low price—in fact is the lowest priced Tractor built. Though low in price it's high in quality. Just the little Tractor you need for doing the plowing, discing, harrowing, etc., on a small farm of 50 acres or less or the lighter work on large farms. Equipped with a first-class belt pulley at a slight additional expense, it will drive a small silo, feed grinder, pump, saw mill, etc.

Come in and let us show you this sturdy little Avery that makes power farming a success even on the smallest farm. Ask for circular on the Avery 5-10 H. P. Model B Tractor.

### DIED IN HOUSTON

Jim Leverett, son of Mr. and Mrs. John Leverett, died at Houston Feb. 14, and was buried at the Mount Olive cemetery Tuesday morning.

Little Jim was three years, nine months and fifteen days old. He had been afflicted all of his life, but he was a bright little boy. His sunny disposition won him many friends among the old as well as the children. Everyone always had a kind word for little Jim.

It is sad to have to give up this little child, but Jesus needs such in Heaven. Heaven would not be so attractive if it was not for these sweet children that have gone there.

Dear bereaved ones, look to our Heavenly Father for comfort. He pitieth them that fear him as a father pitieth his child. A FRIEND.

### CHURCH ANNOUNCEMENT

## Mills County People Should Diversify Their Moneymaking

"The main business of every citizen in Mills county should be to look so well and so carefully after his own business that there is nothing left short of every effort to make it go, make it pay and make it succeed. Stock farming is the great business in this country and every man should have some stock, especially female stock. Raising stock, together with other crops and plenty of feed is almost a sure hit here."

"But there are other ways to make money that should get the interest and attention of our people. It took the people of the North and East many years to learn it, but today they are enjoying an income from another kind of stock as well as their live stock, and that is shares in legitimate and properly managed industrial industries, viz. Automobile Companies and Rubber Companies. Automobile and rubber companies have always paid big dividends and the people who went into the first organization of them—bought the first issue of stock—have made fortunes. People in the states of Ohio,

Indiana, Illinois and Michigan depend upon the dividends from their rubber and auto stock to pay their debts the same as the people of Texas do their cotton, corn, oats and wheat and it is sorer, because there is no crop failure in rubber dividends, the business does not depend on local conditions."

"There is a proposition being offered the people now by H. A. Armstrong, special representative of the Coraja Rubber Manufacturing Company at Dallas, Texas, a company that is just in its infancy, that is paying 24 per cent—2 per cent per month—that will, I believe, make hardly believable profits for all who go into it. They are following the Henry Ford idea of putting their products on the market, running their factory on the co-operative plan and their products are taking the world. The opportunity is offered in their page ad in this issue to fill out the coupon and take advantage of it.—Will you be one of the lucky ones who get stock or will you wait too long? It's up to you."

A STOCKHOLDER.

### ANNOUNCEMENTS

Matters political have been quiet this week, but a couple of new candidates have appeared, which adds somewhat to the interest of the campaign.

Hon. J. C. Darroch announces as a candidate for re-election as representative from this district, composed of Hamilton and Mills counties. Mr. Darroch is serving his first term in the office and his record is one in which he and his friends take pride. It is not likely he will have an opponent.

Davis W. Huckabee announces as a candidate for county treasurer. He is a well known citizen of Caradan community and his family is one of the oldest in the county in time of residence. He has been engaged in school teaching for eight years and is at present teaching the Mount Olive school.

Mr. and Mrs. John Leverett and Relatives.

### MYOPIA'S CAUSE AND RESULT

May Be Brought On in Many Ways and Should Have Sufferer's Immediate Attention.

Myopia, or near-sightedness, results from elongation of the eyeball produced in some way not clearly understood. The view that close attention to near work produces this change has not been satisfactory and Dr. F. W. Elridge Green has now suggested that it is excessive muscular work instead that sets up the processes of deformation. In the Lancet he claims that the primary or immediate cause is an obstruction of the lymph that should empty into the lymph space of the optic nerve from that between the retina and choroid. The accumulation of fluid distends the choroid coat at its weak posterior part and thus gives the eye an altered shape. Severe muscular effort may produce the obstruction. Lifting heavy weights produces a feeling of tension in the eyes and may even make them seem to be starting from their sockets. Among porters and others doing much lifting or excessive work, this is the usual cause of myopia. In persons of sedentary occupations, the wrestling, rowing or other form of violent exercise, may be the inciting cause, and even severe coughing may be responsible. It is advised that, with the appearance of myopic symptoms, anything likely to increase eye tension be avoided; reading need not be dropped.

W. C. Dew attended the bankers convention at Ballinger this week.

Lewis Little went to Rising Star this week to see about the oil situation.

J. C. Darroch has gone to Fredericksburg to look after business matters.

Neal Dickerson has been confined to his home with rheumatism this week.

Mrs. Kelly Saylor and little son expect to go to San Antonio today to visit relatives.

Mrs. A. C. Weatherby has returned from Eastland, accompanied by her daughter, Mrs. Austin Taylor, and little daughter, Laraine.

Mrs. J. H. Randolph returned the first of the week from Belton where she was called on the sad mission of attending the funeral of her niece, Miss Vick.

The enforced resignation of Secretary of State Lansing has been the political sensation of the week. Many feel that an injustice was done Mr. Lansing by President Wilson, while others side with Mr. Wilson.

The announcement of Joe Bailey as a candidate for governor, opens the campaign on a red hot basis. Mr. Bailey has many friends and many opponents, but all must realize that he is a man of strength and his influence will be felt in the campaign.

## MOUNT OLIVE

Editor Eagle:

Mount Olive school is once more in that progressive state of existence that shows co-operation, harmony, and system, notwithstanding the fact the school as a whole has been working under some difficulties such as: bad weather and illfated victims of cold, influenza, etc.

We wish to call the attention of the teachers of Mills county in regard to raising money for the benefit of your schools, such as: equipment, minor expenses and incidental fees.

We are boasting of the fact that we gave a "Box Supper" for the purpose of raising some of the much needed dimes and quarters and really there were thirty young, energetic and ambitious American girls that brought large, beautiful boxes filled with dainties and we are glad to say the boys showed that their respect for American girls labor is not always just expressed in words, but let money talk. The entire proceeds of the "Box Supper" was \$122.85. There were four boxes that went over \$10.00 and one young man made a mistake, as he thought he was buying both girl and box, and paid \$27.50 for his.

We are going to give an entertainment on the first Saturday night of March. All are invited to attend, for you are always welcome at Mt. Olive.

## IN MEMORY

Cornelius Sherman, oldest son of Mr. Marion Sherman, died at Gorman Wednesday and his remains were brought here on Thursday night's train and carried to Pleasant Grove cemetery for burial yesterday. He was a young man about 20 years of age and spent his early childhood here, where the family is well known and have many sympathizing friends.

Funeral services were held yesterday morning at the home of Mr. and Mrs. G. R. Moxley in the eastern part of town and were attended by a number of the sympathizing friends of the family and a number accompanied the bereaved family to Pleasant Grove and attended the burial service.

## A BIG PAPER.

This issue of the Eagle is the largest paper ever published in Mills county. It is not a special edition, but is necessary to accommodate the extra demand for advertising space. The management is indeed grateful for the liberal patronage given the business and will continue to put forth every effort to publish a paper creditable to Mills county and at the same time prove his appreciation of the patronage of the splendid citizenship, both as advertisers and subscribers. Truly, Mills county is the best part of the world and Eagle readers are the best people on earth.

## DEATH'S VISIT

Messengers came in yesterday from Rock Springs community for a coffin for Mr. Chas. Stark's daughter, who died at the family home after a continued illness with influenza.

The bereaved family can be sure of the sympathy of all their friends.

## Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added *dollars* to the cost of the necessities of life, while freight charges have added only *cents*.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars.

The freight on it has increased only 5½ cents.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5¾ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

*This advertisement is published by the Association of Railway Executives*

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York.

## Why Brunswick Tires Win Preference

There are two main reasons—one, the name itself, which certifies superfine value—the other, that time tells the same story.

Thus reputation and performance unite in giving you all you expect—and more.

Yet Brunswicks cost no more than like-type tires. Many motorists would pay more readily, but the Brunswick idea is to GIVE the utmost, rather than to GET the utmost. And this has been true since 1845. You can appreciate what Brunswick Standards mean by trying ONE Brunswick Tire. It will be a revelation. You'll agree that you could not buy a better, regardless of price.

And, like other motorists, you'll decide to have ALL Brunswicks. Then you'll know supreme satisfaction from your tires—longer life, minimum trouble, lower cost.

## SELF-GOVERNMENT IN RUSSIA

People Have Had It, in a More or Less Effective Form, for Many Hundreds of Years.

Russia had self-government many hundred years ago, writes Count Ilya Tolstoy, in Collier's Weekly. In the eleventh and twelfth centuries two of the largest northern provinces, Novgorod and Pskoff, were governed by a parliamentary body called "veche," consisting of the oldest citizens, elected by the people. At the present time all of the peasantry are united in communities, called "mir," that elect their own representatives. Russia also has the "zemstvo," a representative body for each district, who elect commissioners to superintend the administration of public affairs, such as schools, hospitals, roads, etc. Under the czar's government these "zemstvos" were not truly democratic, because the classes were not justly represented, the law giving the landowners and nobles a majority. After the abdication of the czar this iniquity was properly corrected. Not only the country but also the towns had self-government. Under the rule of Kerensky all of these towns held elections of new local dumas, by universal suffrage. And so the soviets in Russia are absolutely unnecessary. Consequently the power the soviets now hold is at the expense and destruction of true democracy, says Count Tolstoy.

## CHINA WILL HAVE TO WAIT

Many Reasons Why Development of Great Natural Resources Cannot Be Undertaken Just Now.

The Herald of Asia of Tokyo argues that under the principle of international democracy China's undeveloped resources alone entitled her to a respectable place among the great powers of the world and her rights should be held as sacred as those of any other nation. The editor says: "Such a general view regarding our continental neighbor is now universally accepted among us Japanese, its acceptance being one of the blessings of the accursed world war which is uniting mankind in a common cause. As to our practical application of that principle to Chinese affairs, the Tokyo Asahi has suggested the wisdom of Japan's assistance in the Chinese effort to recover the autonomy over Outer Mongolia. By a triple agreement between the Peking, Petrograd and Kulun governments, it may be remembered, Outer Mongolia became semi-independent under the Russian protectorate. Owing to political troubles, however, the promised funds were not forthcoming from Russia, while the depreciation in the price of rubies has been involving the Kulun government in financial difficulties."

Y. W. C. A. WORK.

There are now 30 cities in the United States in which the Young Woman's Christian association has opened international institutes, and among the large cities are New York, St. Louis, Buffalo, Cleveland, Syracuse, St. Paul, with three centers in San Francisco and two in Los Angeles. There are 262 workers, all specialists in immigration and students in sociology and Americanization. The work is for the foreign-born women, a part of the work to demonstrate to them sanitary living and to develop in them the desire to attain American standards. At present they are aiding the United States free employment bureau by acting as interpreters for foreign-born soldiers who are seeking work since being discharged from the army.

## NO CHANGE.

# The TEXAN

## TEXANS Now in Service Are Delivering the Goods

The TEXAN is not an experiment. It is a recognized leader among the medium-priced, four-cylinder cars.

The TEXAN engineers, seeing the growing demand for such a car began the most exhaustive tests which have since resulted in the success of the TEXAN.

By buying absolutely proven standard parts, in open market—as practically all northern and eastern manufacturers do, shipping them direct to Fort Worth in economical knocked-down form, assembling them under trained and expert engineers, it is possible to produce a car in our own market of unusual value and at quite a saving.

The Texas Motor Car Association was organized in 1917 and began production in the latter part of 1918. Despite the war-time scarcity of materials and labor, 705 cars were turned out before December 31, 1919. The factory plans to build between 3,000 and 4,000 automobiles during 1920.

All of these cars could be disposed of on the foreign markets, but the company prefers to sell them at home.

The TEXAN is a Southern product and is built to meet the general specific requirements of Southern roads.

The TEXAN looks good and is good. It is priced right.

The TEXAN offers the most interesting sales proposition ever presented to Texas dealers. There are only a few counties in Texas for which the agency has not been let.

THIS COUNTY IS OPEN

"The Rubber business has paid more profit per dollar invested than any business on record."

**Here is what J. H. Burnett says:**

"I have looked well into the Coraja Manufacturing Company and I have come to the conclusion that it is a clean business proposition, backed and run by men who understand their business and who can be relied upon. The products are good and there is no reason, that I can see, but what it will prove a good paying investment. **Here is what Ethel Weatherby, proprietor of the Ford Garage, says:**

"We have been using Coraja products for some time in our shop and have found them the best we have ever used. Coraja Cold Patches will never come off and they give better satisfaction than anything we have ever used. We expect to keep our customers well supplied with Coraja and we never hesitate to recommend it as "the Best in the World." We own stock in the Company and believe it is a good investment."  
(Signed) FORD GARAGE, by ETHEL WEATHERBY.

**Here is what H. A. Armstrong, Special Representative of the Coraja Co., says:**

"I am glad to sell the people of Mills County this stock, because I know I will make a good friend out of every person I sell and I know I can look them straight in the face in years to come. There is no better opportunity open to the people of this section to make money."

Special arrangements have been made for Mills County people to have representation on the Board of the Coraja Rubber Manufacturing Co. Those who get the opportunity to take some of this \$10,000 worth of stock may count themselves fortunate indeed. Don't wait—it might be too late. Send or bring your subscriptions to the Ford Garage or to H. A. ARMSTRONG at the Saylor Hotel, Goldthwaite, Texas.

### HARRISON-BERRY

D. H. Harrison and Miss Sue Nora Berry were married at the Baptist parsonage in this city last Saturday night at 8 o'clock, Rev. M. A. Darby officiating and a few of their relatives and most intimate friends being present to witness the ceremony.

These young people completely surprised their friends, not as to the event, but as to the time and place. They are among the most highly esteemed young people of the city and county and they have the hearty good wishes and congratulations of everybody.

Mr. Harrison is cashier of the Goldthwaite National Bank and prior to assuming that responsible position he was assistant postmaster for a number of years. He is one of the city's most progressive and substantial young business men and has the confidence and esteem of everybody. Mrs. Harrison is a daughter of Mr. J. D. D. Berry and grew to womanhood here, surrounded by a large circle of loving and admiring friends. She is at present teaching the Kelly school, a few miles east of the city, and in that position as in her social relations she has attracted the friendship and admiration of all with whom she is associated.

The Eagle has never had the pleasure of announcing the marriage of a more popular couple and certainly there are none who have more friends or a brighter future.

### MR. BARRINGTON DEAD.

Mr. J. E. Barrington died at Caradan Sunday, after a short illness with influenza. He was one of the foremost citizens of that community and had many friends in that and other parts of the county. He was a good man and will be sadly missed by his family and friends.

The bereaved family have the sympathy of all who know of their sorrow.

### A FEAST

Last Friday afternoon the Seniors entertained the faculty and visitor of schools with a "feast" in memory of a similar occasion just a year ago from the date.

The "lab" room was decorated in the class colors, pink and lavender, and the tables were loaded with sandwiches, pies, cakes, fruit and everything that goes to make them taste even better.

We were received at the door by two members of the class who presented each with a comic valentine. After much merriment had been made over these, and the verses had been read, a toast was given by the vice-president of the class, the president not being able to be with us. Then we were told to "fall to" and help ourselves. No second invitation was needed and soon all were busy eating, talking and in general having a jolly time.

During the social chat the visitor of schools made us a talk after which he and the teachers, too, thanked us for remembering them on such an occasion. Soon after we bid each other adieu and went home with this happy event to store away with many others to "recall in days to come, the "good old times" we have had in Goldthwaite High. REPORTER.

### BUSINESS CHANGE

I have sold my interest in the Grocery business to Messrs. Baker & Wells and retired from the firm. This change was necessary on my part on account of the condition of my health. I appreciate the liberal patronage given the firm while I was a member and request a continuation of it for the firm of Baker & Wells, who are upright and honorable gentlemen, well worthy of the public patronage.

## A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quick-silver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

## CAPTURING OF HUN COLONEL

Yankees Poked Fun at Indignant Officer They Brought into Camp, Also Bayonets.

As the troopships have come into the port of New York in recent months, I could not help but remember, while watching the soldiers on board make game of the pompous municipal officials and other formal greeters on the Patrol, the words of a solemn English army officer as he described these same American boys in the thick of war.

"'Straordinary!' drawled the Englishman. 'I mean to say, your American soldiers do not take even war and death seriously. Now, when one of our Tommies arrives back of the lines with prisoners he may have a bit of a grin on his face. The Poilu is a very solemn-looking chap as he escorts his German prisoners rearward. But your American boys—my word! I've seen them come into a French village walking just behind a most furious Hun colonel—a colonel, mark you—and laughing uproariously as they prod the colonel, harmlessly and playfully, with the tip of a bayonet. And while this Hun colonel chap protested vigorously the American boys continued to spoof their prisoner while prodding him along. 'Make it snappy, kid!' 'Step lively—plenty of room in the forward part of the car!' 'Officer, he's in again!' 'Hey, Jimmy! Lookout this perfectly good colonel the cat dragged in!'—all that sort of tommy-rot."—"When the Troopships Come In," in Red Cross Magazine.

## A Word to Farmers!

Much depends upon a right beginning—and in nothing is this fact more apparent than in FARMING. If the year's work is commenced with poor implements, requiring extra labor by the teams and workmen and performing the work in an unsatisfactory way, the result can not be all that could be desired. But, on the other hand, if the best implements are employed, if

## CLUB MEETING

The Art and Civic Club met at the home of the newly elected president, Mrs. L. E. Miller, on Wednesday afternoon, Feb. 18. Eight members were present.

During the business session a committee of five was appointed to confer with committees of the other clubs of the town in regard to a City Federation of Clubs. Mrs. Walter Fairman reported having received a letter from Mrs. Noble of San Angelo, president of the 6th district, asking her to serve as chairman of Library Extension. Mrs. Leech was elected to membership in the club. After the business session was over the guests for the afternoon came in and a very pleasant time was passed in playing forty-two. Mrs. J. A. Gillespie won high score, which was rewarded by a handsome bottle of Mary Garden powder.

The hostess served delicious baked apples stuffed with pecans embellished with whipped cream and marshmallows with fruit and white cake.

The guests with the club members were Mesdames Trent, Leech, Gillespie and Scott.

### Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

After taking about two bottles I began going around and when I took three bottles I could do all my work." E-30

### FUDGE PARTIES FOR FIGHTERS

Bit of Real Americanism Introduced Among the Soldiers Who Are Stationed in Germany.

Fudge parties on the Rhine promise to outrival the festivities of the Florida coast resorts this winter, for they are proving unusually popular with officers and men alike. They are now a regular feature of the Young Men's Christian association hospitality dispensed by canteen girls at huts established in German towns where American troops are billeted.

The boys help make the candy, and woe to the one who allows it to burn or "turn to sugar." Some have become so proficient in the art that their services are in constant demand, for fudge is now the piece de resistance of the ration for the army of occupation.

Miss Gertrude Ely, New York, Young Men's Christian association worker with the Twenty-sixth infantry, introduced the idea of fudge parties during the holidays, when something had to be done to inject a little real American gaiety into the celebration. The "Y" had a large stock of chocolate, condensed milk and sugar and the army commissary had vanilla extract, so it did not take long to experiment with a big platter of fudge. Success crowned the first effort. But there wasn't enough to go 'round; so Miss Ely had to enlist the aid of a few kitchen police. Now when fudge is made it is made in wholesale lots, and nobody goes away without his sweet tooth satisfied.—Springfield (Mass.) Republican.

### TURKS ARE STILL SAVAGES

No Ideals of Civilization Have Taken Hold of the Sultan's Government at Any Time.

One fact stands out clearly. Turkish rule over populations of a different faith must cease forever to exist. Turkish government has been the very worst which has afflicted humanity during the last 15 centuries. The Turks have always been what a distinguished European historian of the last generation called them—"nothing better than a band of robbers encamped in territories which they had conquered and devastated." They have never become civilized, they have never imbibed or tried to apply any of the principles on which civilized government must be conducted.

So far from progressing with the progress of the years, they have gone from bad to worse. Savages they were when they descended into western Asia from the plains of Turkestan, savages they were when Edmund Burke so described them 130 years ago, and their government still retains its savage and merciless character.—Viscount James Bryce, in the New Armenia.

### CHINESE SLAVES OF FASHION.

The Chinese women of Papeete have, with one accord, discarded their national dress of oilcloth pantaloon and tunic and adopted the semi-European dress of the Tahitian belles of the town. This includes high-heeled shoes.

The result has been the infliction of much torture, which the women are enduring with the greatest fortitude. For centuries they have trod the bosom of mother earth barefooted, but today they parade the length of the beach road, proud in their new acquisition. As soon as they are out of the public eye, off come the shoes and they return to their dwelling, after the fashion of their ancestors—carrying their shoes.

Mrs. E. P. Thompson received the sad information of the death of her uncle, Mr. Wm. Ramsey, at his home at Zephyr yesterday morning, after a continued illness. He was known to many Goldthwaite people, all of whom deeply sympathize with the bereaved family.

Mrs. Eugene Phelps was expected to arrive from Fort Worth yesterday to attend upon her mother, who is very sick at her home near Star.

## Now All You Good Fellows, Come Fill Up Your Pipes

15c

The Velvet tin is twice as big as shown here

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,  
Yo' mouth with friendly smoke—  
An' let the old world wag."

### ARE YOU NERVOUS?

Maybe There Is a Cause For It  
That You Can Correct.

Many who suffer from back-  
ache and weak kidneys are un-  
naturally irritable, fretful and  
nervous. Not only does constant  
backache "get on the nerves,"  
but bad kidneys fail to eliminate  
all the uric acid from the  
system, and uric acid irritates  
the nerves, keeping one "on  
edge," and causing rheumatic,  
neuralgic pains. When suffer-  
ing so, try Doan's Kidney Pills,  
the medicine so well-recom-  
mended by Goldthwaite people.  
Read this Goldthwaite resident's  
statement:

Mrs. N. E. Knight, Gold-  
thwaite, says: "I have been  
using Doan's Kidney Pills for a  
good many years when troubled  
with my kidneys. Sometimes  
the pains in my back were un-  
bearable and I had a drawing  
down feeling. I also had head-  
aches and was very nervous at  
times. I was bothered with the  
too free action of my kidneys,  
too. Since I have become a  
user of Doan's Kidney Pills, I  
have been relieved of all that  
trouble. Occasionally, I take a  
few doses to tone up my system,  
and I always get good results."

### SHERIFF'S NOTICE OF ELECTION

The State of Texas—County of  
Mills.

Notice is hereby given that an  
election will be held on the 24th  
day of February, 1920, at Mid-  
way School House in Common  
School District No. 51 of this  
county as established by order of  
the commissioners court of date  
the 3rd day of April, 1913, which  
is recorded in book 4, pages 151  
and 152, of the minutes of said  
court, to determine whether a  
majority of the legally qualified  
property taxpaying voters of  
that district desire to tax them-  
selves for the purpose of supple-  
menting the State School Fund  
apportioned to said district and  
to determine whether the commis-  
sioners court of this county shall  
be authorized to levy, assess and  
collect annually a tax of and at  
the rate of 50 cents on the \$100  
valuation of taxable property in  
said district for said purpose.

J. E. Doggett has been appoint-  
ed presiding officer for said elec-  
tion and he shall select two  
judges and two clerks to assist  
him in holding the same, and he  
shall within five days after said  
election has been held make due  
return thereof to the commis-  
sioners court of this county as is  
required by law for holding a  
general election.

All persons who are legally  
qualified voters of this state and  
county and who are resident  
property tax payers in said dis-  
trict shall be entitled to vote at  
said election and all voters who  
favor taxation for school pur-  
poses shall have written or print-  
ed on their ballots the words:  
"For School Tax." And those  
opposed to such taxation shall  
have written or printed on their  
ballots the words: "Against  
School Tax."

Said election was ordered by  
the county judge of this county  
by order made on the 19th day  
of January, 1920, and this notice  
is given in pursuance of said  
order.

Dated the 19th day of January,  
1920. J. EVERETT EVANS,  
Sheriff Mills County, Texas.

## DR. WM. MEASE LONG STANDING AND CHRONIC DISEASES

I have come to your city to be one of your good, law-abiding citizens and treat every man absolutely on the square. I will diagnose your case without asking a question. This alone should convince you that I know my business. Not a death in 12 years is my record. I want every sick man and woman to come to me and to be examined absolutely free of charge. I don't want to talk to any curiosity seekers, so unless you need medical attention, and mean business, please don't bother me. If your home doctor is treating you, don't come to me. I only want cases that have tried other doctors and failed to be benefited. All you pay for is the medicine used in your case. Keep your doctor bill in your pocket until you are satisfied you are well. Free consultation and examination for 30 days; after 30 days I will charge \$2.00 to \$5.00. DO NOT VISIT ME AFTER 30 DAYS without you write and arrange a date. Do not visit my office on Sunday without first making a date. I tell you your trouble—you don't have to tell me. Poor people Treated Free.

NO CHILDREN UNDER 12 YEARS TREATED.

MY BEST REFERENCE—SATISFIED PATIENTS.

No Venereal or Contagious Diseases Treated.

LISTEN, MY FRIENDS; I used to believe in the knife, but after seeing precious lives sent to an untimely grave, I decided to quit the knife for life. Many years ago some of the best Surgeons of the South said that I would have to undergo a serious operation or die; I refused, and by careful scientific medical treatment I was restored to perfect health; I am sound and well today, and am here to tell you the truth from one who has been through the toils of almost death itself and came out victorious. The only reason I have for advertising here now is because I cannot sit here for years and not let the sick and suffering know what I can do for them. It is a pleasure for me to cure the sick, not a task. I have been in the dear old State of Texas for 12 years; I have treated hundreds and hundreds of the old long-standing hard cases, without a single failure to restore good health or give entire satisfaction to my patients. I do not accept incurable cases; I don't want any blood money. Come to my office and I will give the best examination that you ever had in your life; I will find every diseased spot, every ache and pain on or in your body. I will then count up the cost of a thorough course of medicine which I get for you direct from the factory, fresh, pure and dependable; I will turn this course of medicine over to you at a reasonable cost; you take it home and use according to directions; visit me as often as you like free of charge, and when you are sound and well you can pay me my fee for treating you and not before. If you have any doubt as to being thoroughly cured you can wait a reasonable length of time to see that your old trouble does not return. Friends, I don't want a cent of your money for my work unless I benefit you. Isn't this a fair proposition? When the public commenced to talk about automobiles, flying machines, wireless telegraphy and many other late inventions and discoveries, the people said no, never, impossible—but you see it is true. When the best doctors said that CATARRH, ASTHMA, PELLAGRA, RHEUMATISM and many other so-called incurable diseases could be cured, you said no; but, my friends, it is different with the advanced medical skill of today. Some wonderful things are being done these days, and if you have some old chronic long-standing disease that has baffled the skill of your good home doctor, I ask you to come to see me. Very few good home doctors have the time to spare to properly look after these chronic cases and the result is they go away to some spring or health resort or City Specialist for treatment. I am here to save you the big expense of going away, as my experience in health resorts enables me to give you a home treatment that will satisfy you, or no charges for my services. If God placed a mineral or herb on earth to cure one disease, He, God, placed something here to cure every disease. So, if you have a disease that has cost you much suffering and hard-earned money, I ask you to come at once to my office; if I cannot benefit you, I will tell you so. Positively no incurable cases accepted. Mental worry is a great barrier to happiness, health and prosperity. Let me show you how to stop this mental anguish. I reserve the right to accept or reject any cases coming to me for treatment.

I repent that I am here to save you the big expense, time and trouble of going away to be treated. Come now and get the best examination you ever had in your life and talk to a Doctor who will tell you the plain, unvarnished truth. You are under no obligations to take treatment, after a thorough examination; and my experience in some of the best hospitals and health resorts is absolutely free. I have come here to be one of your good, law-abiding citizens, and to treat every man on the square. I am not boasting, but have done many things that have not been accomplished by others, and that seemed impossible, so don't give up, friends, until you have seen and talked with me. I am just as ethical as any other Doctor, except that I advertise what I do, and do what I advertise. I want suffering humanity to know what I can do at the earliest possible moment. Contractors, Ministers, Bankers, Merchants and every other profession advertise, why should not a Doctor advertise, if he tells the truth and delivers the goods? Man and woman, it is your health you want, and not promises. So if your Good Home Doctor's service is satisfactory, don't quit him. I am not here to fight the good, competent home Doctors—a thousand times no—but am here to treat such cases as have not been benefited by home treatment and anticipating a trip to some City Specialist or health resort. Remember that drugs must be pure and fresh in order to get good results; that is why I prefer to order your treatment direct from the kettle to you, without a drop of water or any other adulteration added.

I treat successfully all diseases of the skin and blood, rheumatism and uric acid poisoning. Don't take 606 or 914 for your blood; it is arsenic and dangerous, and often fatal results, as blindness, paralysis and sometimes death, follow its use. Don't take mercury and potash, as it will ruin your digestive organs, kidneys, etc. Take my purely vegetable remedy, which never fails to remove every atom of bad blood from your system, and leaves no bad results. I treat Dropsy, Gall Stones, Cancers, Winds, Goitre, Asthma, Bronchitis, Catarrh, Head Noises, Eczema, Ring Worm, Letter, Salt Rheum, Urticaria, Epi'sy, St. Vitus Dance, Piles Blind Bleeding or Itching, Pruritis, Backache, Stiff and Swollen Joints, Lumbago, Gout, Bladder and Prostatic Diseases, Female Diseases, Appendicitis and Cancer without knife or detention from work, and many other diseases not mentioned here. I want especially the cases that other Doctors have failed to cure.

One hundred dollars in gold for any case of Catarrh that I fail to cure. When you need a Doctor, get one in whom you have the greatest confidence and one who keeps your secrets as silent as the grave. If you want to have a good heart-to-heart talk, come to see me, and whether you take treatment or not, you will be greatly benefitted by your visit and you will return home feeling better, having had your case correctly diagnosed, and your doubts as to your condition removed.

### REMEMBER, FREE EXAMINATION FOR 30 DAYS.

Don't be a Has-Been or a Grunter—be a man for the future. Health and strength are necessary for success. You are in the way when you are sick, you are a stumbling block—begin right now to shake off the handicap of the past. Recently contracted or old chronic ailments are barriers to your success. You feel worried. Your sleep does you no good; you feel as though you are carrying an extra burden at all times. You awaken after a restless night, tired, loss of energy and ambition; the joys of the past have turned into one continual nightmare; you are despondent, you want to be left alone. See me, I will start you on the road to health, strength and happiness. I will purify your blood, electrify your nerves, increase your appetite, restore your vitality, strengthen your muscles, clear your mind, stop your worry and despondent condition, and energize your whole system. If I fail to do all I claim for you, I don't want a dollar for my services. I used to be one of the "down and outs," but, thank God, I found the way back to health and strength, and now, at the age of fifty-one years, I feel as young as I did when I left my father's farm at the age of 21. A visit to my office will prove to you how I can help you.

Remember, I furnish you with a course of medicine I get fresh from the factory; you take it, and after you are WELL, pay me for my services. Keep my doctor bill in your pocket until you are satisfied that you are permanently cured. You don't have to sign any note or obligation—I trust you. My home has been in San Antonio for years, and I can furnish you with the best of references as to my reliability.

I am not boasting, but have made a life study of the old, long-standing, hard cases that have puzzled many good Doctors. I want in particular, cases other Doctors have failed to cure. I have come to your very door to save you the big expense of going away to be treated. If your case is an operative case, I will tell you so; but friends, don't be operated upon until you allow me to examine you—thousands of cases, so-called operative, can be cured without the cruel, dangerous knife. Remember this: Don't submit to an operation until you have tried the latest treatment. The knife is all right in some cases, but they are few and far between. I have cured numbers of cases of appendicitis and piles without the knife. If I fail to cure you I will pay for your operation in the best hospital and by the best surgeons in the state of Texas. Is this a fair proposition?—decide yourself. Make up your mind today, for a week may be too late. I examine you, order your treatment, you take it home, or I will send it to you, visit me as often as you wish free of charge—when you are well pay me, and not before, for my services.

### TO WHOM IT MAY CONCERN

Gonzales, Texas, February 24, 1916.  
In the Spring of 1913, my boy, 5 years old, was

taken very sick; in fact, could not walk a step for five months. I had the best Doctors I could get waiting on him, but they never could tell me what the trouble was or do him any good. They finally said they would have to operate, and I was afraid to have this done, so I decided to take him to San Antonio; I carried him up there in my arms and on arriving there inquired for a good Specialist, and was advised to go to Dr. Mease, which I did. The Doctor gave my boy a thorough examination and said to me: "I can cure your boy," which made me very happy. The Doctor gave me the full course of medicine and said "Go home, give this to your boy according to directions. No use to stay here on expense." I did as he told me and in two weeks my boy was walking and in five weeks was sound and well and has never been sick a day since. I had given up all hopes of my boy ever getting well. I know a great many people in Gonzales that Dr. Mease has cured after they had been given up to die. I cheerfully recommend the Doctor to anyone suffering and believe that he will cure you if you can be cured. Gratefully,  
LEE TREVING.

Now, in conclusion, my friends, I want to tell you that a brilliant mind in a half sick body can accomplish nothing. Do you want to be free from disease, with a clear mind, a cheerful disposition, strong and steady nerves, good appetite and restful sleep, or do you prefer to drag along until death relieves you of your miserable condition. Come to me today—I don't care how many doctors or patent medicines you have used—I am going to cure you or not a dollar for my work. If you live further than 50 miles, I will deduct your railroad fare from your course of treatment. Remember that you only pay for medicine until you are sound and well, and then, not before, you pay my fee for treating you, which is always reasonable.

Now, my good man and woman, I want these last lines to be your watchword. Don't be operated upon until you consult me. Until you have tried the latest discoveries in good, pure, fresh medicine right from the kettle. Life is too precious to be operated on before you have tried the latest and surely God has given us a remedy to cure every disease. Come to see me and talk to a Doctor who will give you the best examination you ever had in your life, and tell you the naked truth, and whether you take treatment, or not, I will guarantee that you will leave me feeling better than when you came.

Don't make any difference how many doctors you have had or how much medicine you have used—come to me.

Office hours from 8 a. m. to 5 p. m. Sundays, by appointment. You will always find me in my office. I positively do not make any calls. You will have to see me at my office. No cases diagnosed or treated by mail. No cases treated on Sundays except by appointment.

**LETTER FROM MR. COBB.**

Having just finished reading the week's Eagle and being a little indisposed, will give you a very short account of my experiences at present and my travels since my last report. I left Temple Monday morning, Feb. 2, for Houston. Went through in daylight and was interested in the sights along the route. Arrived there in time for supper and a good night's rest. Spent the day Wednesday sight seeing, which Houston can boast of as well as any city in Texas. It is remarkable how much improving is going on there. It is certainly a great city. The train on which my distinguished kinsman was traveling was several hours late, delivering him to the ladies club who had engaged him, just a few minutes before the time announced for his lecture and he took the train immediately after the lecture, so I had to work my wits to get to speak to him at all, which was accomplished through the kindness of a lady, named Love. Most of you know what love can do if properly adjusted so as to adapt itself to all concerned. On this occasion I put on a bold front, went into the auditorium in advance of the speaker, approached some ladies in a little office and asked them to please tell me who was managing the speaking, and one of them informed me that it was a Mrs. Love. The name caught me and I asked if I could meet Mrs. Love. The lady informed me that she was very busy and it would be difficult to get the introduction. I informed her that busy people were the kind I loved to meet and I was sure Mrs. Love would not object to the introduction, so the lady started out to find Mrs. Love, leaving me at a certain place where she would come with the lady if she could be induced to spare the time to see me. In a few minutes I saw the lady returning with a very small, but interesting looking lady and I began calling on all my presentable powers to arouse themselves for the very best get off possible. The lady approached me and said "This is Mrs. Love." I lifted my hat, trying to do like I had seen big folks do, and by this time she was extending her hand just as I said, "My name is Cobb, a cousin of the distinguished gentleman who is to entertain you tonight and whom I have never met. So I have come to ask you to please help me to meet him before the lecture."

She said, "You shall have that pleasure, for I shall be delighted to accommodate you." She told me to stay right there and as soon as he came she would call for me. While I was waiting another lady who heard our conversation introduced herself and entertained me until a third lady came for me, saying Mrs. Love had asked her to escort me to where she and Irvin S. were waiting and by the time I got in six feet of him he said, "Hello! cousin Henry. What are you doing here?" Thus, you see, my prepared speech was knocked to pieces, for by the time our hands clasped he informed me he met me about 25 years ago in my little home town back in Kentucky and would have recognized me any where. I had forgotten this meeting and in fact have not yet been able to call it to mind. We had only about three minutes together and when he and Mrs. Love started into the auditorium another lady, No. 4, to whom Mrs. Love had introduced me, said, "Mr. Cobb, my husband and myself will be delighted to give you a seat in our box with us. I informed her I had a ticket, but that didn't spell anything, for I was ushered into the auditorium by this lady, who introduced me to

several others and finally landed me among the bon tons, where I sat through the two hours lecture trying to look as wise as an owl. I presume I did, for they kept talking to me and when I went to leave they told me goodbye and said they were glad to have met me. If this is not getting there some, for a Mills county fellow what would you call it? I arrived in Corpus Wednesday evening and found the city putting on a decided improvement over what she wore when I left in October. I am meeting with people from many states. I am nicely located in a good comfortable room. Have a meal ticket for 21 meals at a place where they know how to feed. Have spent a good part of two days in my room, but able to get out to my meals, which have consisted of a little toast and soups, as my desire for something to eat has not been very commanding or demanding, so I am trying to yield my inner self to the best there is. Success to all. H. C. COBB.

CITATION.

The State of Texas.

To the Sheriff or Any Constable of Mills County—Greeting: Oath having been made as required by law, you are hereby commanded to summon Mrs. Emma Townsley to appear at the next regular term of the District Court of Mills county, Texas, to be held at the court house thereof, in the city of Goldthwaite on the 9th Monday after the first Monday in March, the same being the 3rd day of May, A. D. 1920, in a cause numbered No. 1900, wherein W. C. Townsley is plaintiff and Mrs. Emma Townsley is defendant.

Plaintiff is and has been a bona fide inhabitant of the state of Texas for a period of more than twelve months preceding the filing of this suit and has resided in Mills county, Texas, for more than six months prior hereto, and the defendant is a non-resident of the state of Texas.

That plaintiff was married to the defendant, then Miss Emma R. Ross, on the 3rd day of July, 1913, in Lampasas county, Texas, and they lived together as husband and wife until October 13, 1916, when the defendant, without the consent or procurement of plaintiff and over his objections, left and abandoned him, with the intention of never living with him again as his wife, and since said time has never resided with him as his wife, but has resided in the state of New York.

That no children were born to the plaintiff and the defendant.

That there is no community property belonging to the plaintiff and the defendant, nor is the plaintiff aware of any separate property of the defendant, but says all the property, real, personal or mixed now in the possession of the plaintiff is his separate property, including the A. A. Boulter 160 acre survey lying and being situated in Mills county, Texas, patented to him by Patent No. 12, Vol. 13, dated May 10, 1892, conveyed to W. C. Townsley by Mrs. M. J. Boulter et al. by deed dated Jan. 14, 1917, recorded in Vol. 43 page 193 of the deed records of Mills County, to which deed and the record thereof reference is here made for more particular description of said land. That the defendant has no right, title or interest in the said land or any of the personal property now in the possession of the plaintiff whatever.

Premises considered plaintiff prays for judgment dissolving the bonds of matrimony heretofore existing between the plaintiff and the defendant and for judgment for the title and possession of the land and premises above described, and for all of said personal property, and divesting the defendant out of any right, title or interest therein, and vesting the same in the plaintiff, etc.

You are further commanded to serve this citation by publishing the same once in each week for four successive weeks previous to the return day hereof, in a newspaper published in your county, but if no newspaper is published in said county in the nearest county where a newspaper is published.

Herein Fail Not, but have you before said court, on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same. Witness, Etta Keel, Clerk of the District Court of Mills County.

Given under my hand and seal of said Court in the city of Goldthwaite, this the 21st day of January A. D. 1920. ETTA KEEL, Clerk of the District Court in and for Mills County, Texas.

CHRONIC CONSTIPATION

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. Sold by E. P. Thompson & Son. (adv)
