HONOR AND NEAR-HONOR ROLL OF THE GOLDTHWAITE CITY SCHOOLS

The near-honor pupil has a question mark before his name which means that he has made some time during this year a three in some study or a four in his department, but still has a high average. The names are given in each grade consecutively beginning with the highest average, department being included:

- 11th Grade: Eric Williamson, Zaleme Williamson, Muriel Lingenhoger.
- 10th Grade: Florence Stark, Stella Brinson.
- 9th Grade: Howell Cobb, Guthrie Keel.
- 8th Grade: Leta Simpson, Wendolen Williamson, Laura Featherston, Hazel Fulton.
- 7th Grade: Earl Priddy, William Lane, Mildred Stephens, Vivian Campbell, Alva McGowan, Dora Bratton.
- 6th Grade: Nora Verden, Mary Florence McCullough, Beulah Baker, Robert Johnston.
- 5th Grade: Walter Hester, Rena Featherston, Welton Summay, James Dixon, Oleta Daniel.
- 4th Grade: Maggie Leonard, Stella Cobb, Juanita Mayberry, Bernice Littlepage, Boyd Morris, Hareta Little, Pleasant Hicks.
- 3rd Grade: Lena Mae Casbeer, George McClellan, Annie Langitz, Frances Louise Geeslin, Georgia Wilcox.
- 2nd Grade: Leta Simpson, Vida May Bynum, Herman Ross, Ray Hill, Beatrice Hendry, Aileen Cunningham.
- 1st Grade: James Newton Mulhan, Irene Cortis, Adele Atkinson, Callie Rae Jackson, Alta Scrivner.

School is growing better all the time, yet several pupils in the high school are destined to fail wholly, or in one or more subjects, unless parents at home or some one can stimulate them to better work. The standard of the school can not, must not, be lowered to accommodate the inattentive ones who cannot, or will not concentrate their minds properly on their studies and give enough time to secure satisfactory results.

Does the grade card your son or daughter brought you last Tuesday night for your signature indicate the result you desire on May 20, 1921? If not, try to help us remedy it; no time is to be lost. Two-thirds of the year has passed. This is my advice to those behind:

Are you in earnest? Seize this very minute; What you can do, or dream you can, begin it."

or,

If from the dead-alive town no good you would keep far away, just do your duty through good or ill; make this for your motto, I can, I will, and live up to it each day."

Many of you pupils are "pure gold" and are improving daily.

MILLS COUNTY WOOL AND MOHAIR GROWERS HAD MEETING HERE SATURDAY

The members of the Mills County Wool and Mohair Growers Association met at the court house in this city last Saturday at 2:30.

All the members needing wool sacks and twine put in an order for same.

The Texas Wool and Mohair Growers' contract for pooling wool and mohair in order to obtain better marketing facilities was explained to the members by County Agent W. P. Weaver and was unanimously endorsed. This contract provides for grading, warehousing and selling of all wool of the members of the Texas association under a law recently passed by the Texas Legislature. The warehouse for Texas has been located at Houston. The association is strictly co-operative.

The secretary of the Mills county association, D. D. Kemper, was instructed to have the contract printed and distributed to the members and wool and mohair growers of the county, in order that the members may carefully study them before they are asked to sign. These contracts will be sent out in a few days.

Six new members were enrolled in the Mills County association at the meeting Saturday. Another meeting will be held in the near future.

The successful organization of the Mills County Wool and Mohair Growers Association is a forward movement and will no doubt be of benefit to sheepmen of this section.

B. F. HURDLE RECENTLY FINISHED MOST BEAUTIFUL MODERN RESIDENCE

B. F. Hurdle has recently finished his new and modern bungalow in the southern part of the city. Mr. Hurdle was the instigator of the building which has started and soon will start in different portions of the city. His new residence, the plans and arrangements of which he and Mrs. Hurdle studied out, is in the opinion of a reporter of this paper the most tastefully arranged and appropriately finished home, as regards positions of rooms and utility of floor space, with which he is conversant. There are a number of built-in features, including a bookcase, china closet, pantry, closets, etc. The entire effect is one of neatness and good taste. Mr. Hurdle intends in the near future to run sidewalks around his lot, thus completing an almost perfect picture.

MAYOR'S PROCLAMATION.

According to the usual custom of annual clean-ups, I, W. L. Jones, as Mayor of the City of Goldthwaite, do hereby designate the week beginning Tuesday, March 3, and ending Tuesday, March 10, as Clean-Up Week for this city. During this week it will be the duty of each resident of the city to see that his or her premises and the streets and alleys adjacent to same shall be thoroughly cleaned of all rubbish, dead vegetation, etc., and that everything reasonable for beautifying shall be observed.

The active work of the direction of this clean-up campaign shall be under the management of the Civic League of this city. They have divided it into four sections under appointed supervisors. Report to your supervisor any premise which needs cleaning and concerning which no effort has been made. Let's all help make Goldthwaite a model city for cleanliness and beauty. And to really get results, let's do more this week than ever before.

Respectfully yours, W. L. JONES, Mayor.

E. B. Anderson and L. N. Little went to Waco Thursday and drove back a brand new Dodge Sedan which the local Dodge agents, Little and Porter, had sold to Mr. Anderson. Mr. Anderson made a present of this car to his daughter, Miss Emily.

DOLLAR DAY LAST SATURDAY WAS GREAT SUCCESS

The Dollar Day instigated by the merchants of this city for last Saturday far exceeded the expectations of the merchants in the amount of business done and the public in the great bargains offered. The merchants report that Saturday was the best business day they have had since the Christmas holidays. The stores were crowded with bargain hunters from early in the forenoon till late in the afternoon.

Most of the business transacted during the day was on the 'dollar' basis. Everything was sold in dollar units.

On account of the satisfaction accorded both the merchants and the shoppers, it has been decided to have a "dollar day" once each month.

Announcement of the date will be made by this paper as soon as it has been set.

Mrs. G. W. Baker of Dallas, who has been visiting her daughter, Mrs. Russell Mullan, for some time, left Saturday for a visit to another daughter, Mrs. F. E. Lawrence, at Kerrville, before returning to her home.

TEXAS PRODUCTION COMPANY'S NEW LOCATION 7 MILES OF GOLDTHWAITE

The Texas Production Company has made a new location for another well on their lease about seven miles west of Goldthwaite. This well will be spadded in as soon as the casing and machinery can be transferred from the old well they are abandoning.

The eyes of the entire citizenship of this county as well as many oil men in other sections have been on the Sinclair well No. 2, which the Texas Production Company has been drilling just across the Bayou. The chances for the well to become a producer looked mighty well to many here and a jolt was received in the oil game when this well came in with water under great pressure. It was the general opinion that the management would abandon the well and it would be many years before another attempt to develop the oil industry here was undertaken. But the Texas Production Company, under the management of Mr. Malone, made heroic and persistent efforts extending through several months to cut off the water and complete the well. Now, however, they are forced to abandon it.

Everybody familiar with the oil history of Mills county will remember the Sinclair well No. 1, which was the first oil struck in this county and at the time was reported as a 200-barrel well without being "shot." This well was lost in changing casing and the company decided to try across the bayou, with the result mentioned.

Now, according to information furnished the Eagle by him, Mr. Malone has located the next well 300 feet directly northeast from the old well. The faith of the people in this section is pinned on this old well and everybody seems confident now that oil in paying quantities will be struck.

Leasing activities are increasing and it looks as if regular old-fashioned oil boom is destined for this county. People in the north are keeping their eyes on Mills county and plenty of money for development is ready when proof of a pool is supplied.

Let's talk a little oil and think a little oil and not forget to thank Mr. Malone for his untiring effort in trying to prove this territory. It takes real grit and determination and a strong hunch that his efforts will be crowned with success for a man to make three attempts, the total cost of which will run into hundreds of thousands of dollars to prove a field. And should he strike oil, every man, woman and child in Mills county will be benefited.

Rev. L. L. Hays of the Trigger Mountain community visited the city Friday.

MILLS COUNTY HAVING SERIES OF RABBIT DRIVES

The citizens of this section of the county have declared open war against the rabbits. Almost every day a drive or so in this section is staged. Probably the greatest one yet was pulled off yesterday when all the business men of the city closed their places of business from one o'clock to four and with clubs in hand made a drive in the Trent pasture a few miles northwest of the city.

A drive, in which many people from town took part, was staged in the Big Valley community, Wednesday, with good results.

... Mills County Schools ...

BY W. P. WEAVER.

In our drive for club membership last week, we visited a number of the larger schools of the county. Rev. R. W. Bynum accompanied me and at many places made talks on moral, ethical and educational lines. Both of us were greatly impressed with the class of work being done in the schools, and we believe that readers of the Eagle will be interested to know about it.

Lake Merritt, Center City, Midway.

Lake Merritt, under the supervision of Miss Barbara Cryer and Mrs. Marvin Rudd; Center City with Miss Petsick and Mrs. Eacott as supervisors, and Midway, in charge of Misses Ruth F. Murray and Linnie Sparkman, are strikingly similar in so many ways that they may be treated in the same paragraph. All are two-teacher schools. All are in charge of women and are doing the highest class of work. The buildings and equipment are modern and show every evidence of care. The rooms also displayed an unusual amount of taste in pictures and description. The attitude of the pupils toward the teachers and toward visitors is indeed commendable, and the excellent school spirit shown in games and athletics is very gratifying. Each community places a high estimate on the work being done by its efficient teachers. Any one having a case of the blues will be completely cured by a visit to one of these schools.

Priddy.

At Priddy we were cordially welcomed by Prof. and Mrs. W. J. Harris and Miss Ella Palmer, who assembled the entire school in the auditorium to hear our explanation of the club work. They entered and retired in an orderly manner, reflecting much credit on the teachers for their careful training. The pupils displayed the utmost respect for the teachers. During the noon hour we mingled with the larger boys on the playground and talked with many who desire to take up club work. Priddy has one of the best school buildings in the county.

Washboard.

At Washboard the school entertained us with two songs. Our talk was well received and Prof. Swindall responded with a strong plea to the pupils to earnestly consider club work. His argument in behalf of the work was more convincing than my own. This school shows every evidence of splendid management by Prof. Swindle and Miss McKemney.

Mt. Olive.

The unusually large number of older students at Mt. Olive reflects much credit on the teachers and on the community. We observed a strong school spirit and a keen interest in athletics.

SALT!
SALT!
SALT!

J. H. BORDEN

Prof. Porter and Miss Kemper are to be commended for the very efficient management of this large body of pupils.

Merrill Creek.

Brother Bynum was at best at this school. He conducted tests in spelling, grammar and arithmetic to the great amusement of the student body. Then he waxed eloquent as he urged the pupils to "chase gloom" by enlisting in the sunshine club. Then he celebrated Washington's birthday by eulogizing the character and extolling the virtues of our national hero. Prof. and Mrs. Stewarth. It seems to me, have pleasant work with these good-natured boys and girls. Mr. Stewart says that the soil in this section is adapted to sweet potato growing and he is interested in building a co-operative drying plant for this community. When a rural community has a teacher so intensely interested in its progress, it will surely go forward.

North Bennett.

We arrived here at the closing hour and just as the norther struck. In fact, it seemed the norther blew us in. Prof. Huckabee generously permitted us to speak to the pupils and although it was after closing time they gave close attention. In this one teacher school is to be found a greater number of older students than are to be found in many of the consolidated schools. This is highly creditable to Prof. Huckabee and the North Bennett community.

Liberty.

At Liberty we found the boys ready to enroll for club work. Bro. Bynum spoke to the school along the same lines as at other places. I was impressed by the cordial relations existing between Miss Virden and her pupils.

Star.

The interest manifested in club work at Star was second only to that at Pompey Creek. It is the intention of the Star boys to make theirs the leading club of Mills county. Star has the largest pig club yet organized. I confidently expect these boys to take high rank in the work. Prof. Sawyers, Miss Quarles and Miss McKenzie courteously gave us all the time necessary for our work. Bro. Bynum was gratified by the response to his talk in Miss McKenzie's room. A glimpse into the primary department showed the little ones doing splendidly under the direction of Miss Coleman.

Pompey Creek.

Bro. Bynum made an excellent talk here. We enrolled the greatest number of club members at Pompey Creek. We also heard much of the Pompey Creek Parent-Teachers' Association, which meets monthly in the home of some patron to discuss problems affecting the welfare of the community. This school has beautified the grounds by planting trees and shrubbery. The teachers and pupils cannot be too highly commended for this step. It has been said that "he who plants a tree plants Hope." Then let us hope that other schools will follow this worthy example to the end that in the years to come the school grounds will be the most beautiful and inviting spot in the community. At recess Prof. Franklin led the boys to the playground, where they engaged in a swift game of basketball. The deportment of the student body was indeed commendable. The community may well be proud of the splendid work being done by Prof. Franklin, Miss Covington and Miss Smith.

Mullin.

We visited the superintendent's room and observed the work. Prof. Stockberger is a forceful instructor and the pupils showed thorough preparation. We spoke to the entire school in the splendid auditorium and had the respectful attention of all. The pupils entered and retired from the assembly room in a systematic manner deserving special mention. All rooms visited were overflowing. Those who planned this beautiful building had the foresight to arrange so additions could be built

He'll Put You On the Map

A few miles from a large and thriving city is a little town that can't even be reached by the steam railroads. Yet on a single day last summer enthusiastic buyers from almost every state in the Union sought it out and paid it a visit. What's more, on that single day they spent, in that little hamlet, one hundred and fifty thousand dollars!

What's the answer? Pure-breds. That town is famous as a pure-bred center—to cattle men it's one of the most important spots on the map,

Pure-breds can do as much for your community. They offer the easiest, quickest and most profitable program for building up a community—a program which has pulled whole counties out of the rut, put towns on the map and brought financial independence to thousands of farmers. It is becoming clearer every day that the future of cattle raising as a profitable industry depends upon an economical operation possible only with pure blood. The beef growers who survive in the face of high feed

costs, high freight rates, scarce labor and tight credit will be the pure-bred farmers. And the communities that are ready to supply the breeding stock are sure of a lasting prosperity. Yours can be one.

when needed without destroying the symmetry and beauty. Already the people have found out that Mullin has a good school and will continue to come here to educate their children. Citizens of Mullin, it is now time to add the other rooms.

Goldthwaite.

Goldthwaite is to be especially complimented for her school. The pictures drawn by the students for the different rooms show an unusually great interest in the work, and as it is the largest school, it is hoped that it may boast of the largest club membership in the county. The Grammar school is no less to be complimented than the high school. The boys and girls are unmistakably the sort of which a community may be proud, and the teachers are the kind who make schools count.

Center Point.

This is one of the most modern and best equipped rural schools in Mills county. I stopped at the superintendent's desk while the folding partitions were pushed back, and presto! I was standing at the apex of the angle formed by three rooms—the pupils in their proper seats and facing the speaker. The prevailing good order and the general atmosphere of the school is highly creditable to Prof. Watterman, Miss Guthrie and Miss French. We found Mr. Pearson and Mr. Spiux two trustees, placing window shades. Thus we witnessed three elements—teachers, trustees and pupils—working harmoniously together. We came away highly gratified with our visit to this successful school.

ODES OF HORACE.

Translation From the Latin of the 16th Ode, Book Two, by Horace.

By PROF. I. H. HUGHES.

The sailor implores the gods for peace,
Storm-tossed on the rough Aegean tide,
When'er the dark cloud doth the moon enshroud,
Nor safe-gleaming stars him serve as a guide.

For peace asks the Thracian raging in war;
Peace too seeks the Mede with quiver supplied,
Which Grosphus, though sought, is ne'er to be bought
With gems, purple garments, nor gold beside.

For neither wealth nor power great
The raging storms of the soul alay,
Nor banish the care that flits in air
Around paneled ceilings by night and by day.

He liveth full well on little store,
At whose humble board gleams bright and fair
One easter come down of ancestral renown,
Nor fears nor base longings his slumbers impair.

Why boldly project we in life's brief span
Exploits so countless? Why native stead
Give we in exchange for regions strange?
What exile from home himself too hath fled?

On brass-bound ships morbid care embarks,
Nor fails to keep pace with equestrian crowds,
More swift than the stag, no more does it lag,
Than fast-flying Eurus when chasing the clouds.

The mind for the present content disdains
For the future to care, and with quiet smile
Makes the bitter sweet, and knows 'tis meet,
That nothing is wholly blest any while.

Death speedy removed Achilles far-famed,
While lingering old age Tithonus did end;

And perchance, any hour may give ME power
Which to YOU it cannot or will not extend.

Around YOU low herds of Sicilian kine,
The chariot-racing steed so true
Gives you greetings clear with neigh sincere,
Robes twice dipt in Afric dyes clothe you;

ME faith observant of truth hath given
Only slight possessions on earth below,
But a soul ablaze with Grecian lays,
And contempt for the rabble who envy know.

Horace was Rome's best exponent of the true philosophy of life. His "carpe diem," enjoy the passing moment, is oft repeated.

He argues that peace and happiness must be within us, and are not due to the external and material. He lived 65 to 8 B. C., a contemporary of Cicero, Caesar, Vergil, and Augustus.

REDS TO CRUSH ALL OF EUROPE, IS WARNING ISSUED BY TOLSTOI

Paris, Feb. 23.—From today on the world is menaced by a new war which will be far more terrible than the last.

Thus declared Count Leon Tolstoi, son of Leo Tolstoi, the great Russian author.

"I am able to give positively the following information regarding the Soviet forces and their objects," he said. "On the front between Petrograd and Moscow are from forty to fifty divisions while at Moscow fifteen new divisions are being formed.

"The total troops concentrated on the western Russian front are more than 700,000, all well armed and equipped. In the Caucasus the red army which is menacing Persia numbers 70,000 while the soviets are masters of Turkestan, Bourkhara and Pamir.

"At Cabul the Russian military mission is openly intriguing. The majority of the western army, or about 400,000 troops are menacing Poland and the remainder are equipped on the borders of Lettonia, Esthonia and Rumania.

"In addition to this the soviets have recently mobilized their young classes, carrying effectives of more than 500,000. No doubt remains that the soviets are preparing for a tremendous offensive in the spring against Poland and probably also against Rumania.

"They are assisted in the matter of arms and supplies by Germany and will probably be victorious. In that case the world will be faced by an alliance of Russia with Germany and probably Jugo-Slavia.

"Unless France, Italy and England are prepared to put a gigantic army into the field this summer all Europe will be red by next winter."

SOCIETY AND CLUBS

SENIOR HEART PARTY.

Miss Blythe Weaver was hostess to the "seventeen more or less dignified Seniors" Friday evening, February the nineteenth.

The house was beautifully decorated in red hearts. They were on the draperies, hanging from the lights, and in fact everywhere. As the guests entered they were greeted by the hostess and her father. Each guest was given a red heart. The men's hearts had the names of professions on them, while the girls' had a personal name on them.

After a few minutes' social chat we were called into the hall. There was a large red heart hanging from the ceiling. We were given a tiny bow and arrow and told to try our luck. If the arrow went through the heart the first time we would marry this year. If the second time the arrow went thru the heart we would next year. If the heart was pierced the third time we would marry in 1923. In case the arrow did not go through the heart in three shots we were assured of our future as an old maid or bachelor.

When all had tried their luck, we again assembled in the living room, where "42" was enjoyed.

The charming hostess again appeared and ushered us into the hall. There we saw a long and white string stretched from one wall to the other. On this were two red hearts, one at each end. There was a boy and a girl at each end. They were told to blow the heart and see which reached the center first. This looked very easy, but we found it to be very difficult.

The hostess then appeared and gave each of us a piece of a heart and told us to find the other half, and "patch up broken hearts." When this had been done, in a satisfactory manner, questions were passed which had to do with the classification of hearts. Practically everyone agreed as to the

"heart we all liked best."

We were then told to take the hearts given us when we came in and find our partners. This was done by having the men find the girl having the name matching their profession, as doctor and Patience.

Then the Seniors and their escorts were seated in a ring. When the music began the men marched around when suddenly the music ceased they ran for a chair. This was quite interesting because of the ones who were not able to find chairs.

When this game grew tiresome we were again seated in a circle. A string was stretched around in front of us with a ring on it. We were told to see how many times the ring could be passed without detection by the person in the center.

Then a refreshment plate was passed consisting of delicious ice cream, topped with a cherry and a heart-shaped cake iced in white.

The invited guests were "The Seniors," Misses Ada B. Weathers, Ruth Cohen, Messrs. Nelson, Rudd, Webb, Hughes, Beck, Hurdle, Brim, Frizzell and Clements.

The party was highly enjoyed by all and it is hoped that Miss Weaver will again entertain us in her delightful home.

A BIRTHDAY RECEPTION.

Sunday, Feb. 27, the home of Mr. and Mrs. L. T. Moreland of the Pleasant Grove community was thrown open to his children and friends, in honor of his 70th birthday, and the hours grew near for lunch. Mrs. Moreland had prepared a bountiful dinner for the occasion of everything to compose a dinner, nothing left out. Needless to say, the bountiful dinner proved she knew how to prepare a dinner for the old and young.

The time came too soon to go home. Each one leaving wished Mr. and Mrs. Moreland a prosperous year and wishing for another invitation like that. Refreshments of ambrosia and banana cake were served.

All children were present except three. Mr. and Mrs. E. G. Featherstone and family, Mr. and Mrs. C. A. Faulkner and family, Mr. and Mrs. H. E. Moreland and family, Mr. and Mrs. W. T. Moreland, Mr. and Mrs. Nat McGirk, Master Carl Moreland, Mrs. G. W. Simpson and family, Mr. and Mrs. Roy Simpson and family and Mr. and Mrs. Henry Simpson. There were 48 in number.

A GUEST.

FIDELIS MEET.

The Fidelis Class of the Baptist Sunday School met in a business and social session at the pastor's home Friday evening, February 25, 1921.

At the appointed hour, twenty-four members of the class and several visitors assembled at the meeting place and the president put before the body the business of the evening.

After business came candy making, music and readings, with every one at liberty to choose what pleased her best. Naturally, the best candy makers drifted to the kitchen, the music lovers to the piano, others—as entertainers—to the floor, while still others made up an appreciative audience.

All was going well when several Bereans joined the company in time to eat candy and have a share in the fun.

As the class and others said good-bye to the Darbys, their merry faces spoke better than the words they said, the happy time they had with them during the evening.

AN ENJOYABLE SURPRISE.

Last Sunday I visited the Center City Methodist Sunday school, and to all who were not there will say you missed a real treat. Immediately after the Sunday school lesson, Mrs. P. A. Quaker Minister I Grateful to Ta

Rev. Parker Moon

Nearly everybody in Southwest Missouri either knows or has heard of the Rev. Parker Moon, who for a full half century has devoted his life and talents to Sunday school and organization work for the Society of Friends or Quakers.

"Uncle Parker," as he is more familiarly known, came from fine old rugged Quaker stock, and there is not a better known or more highly respected citizen in that part of the state. In referring to his remarkable restoration to health by Tanlac, he said:

"About five years ago I suffered a general breakdown. My principal trouble was nervous indigestion. My appetite was very poor and my food seldom agreed with me, and I had to live on a very restricted diet. I suffered a great deal from headaches and dizzy spells; I had severe pains across the small of my back and was badly constipated most of the time. In fact, I was so weak and run down I was not able to attend to my duties.

"This condition made me very nervous and I could not sleep at night. Frequently I would lie awake most all night and was in that condition more or less for five years. My physician said he could not do anything for me and

suggested a change then moved to Texas back and forth there did not get the relief. Finally, I got so bad able to get around free of comfort. I had heart trouble.

"I had read about as it had been very mended to me, I decided I got a bottle and had a few doses until I marked improvement. I noticed especially that I was not troubled any more stomach after was a great relief.

"I kept on taking I fully regained my appetite is splendid meals and I do not feel any sary now to take any medicines of any kind. I sleep much better and am nearly so nervous. For a short time I take great pleasure in mending Tanlac to a friend who needs a good system of health who suffers with indigestion. I have recommended it to a great many of my friends and am pleased to reach out to any one who is in need of it."

managing those little tots I ever saw. Almost every member of the class rendered a well selected and well earned recitation, even down to the smallest little fellow, who, I don't think, could have been over two years old. Besides these they rendered songs, readings and so on.

Then the Sunday school roll was called and every member of Mrs. Burks' class responded to their name with a quotation of scripture. It certainly made one feel like he was on holy ground to hear those innocent little children repeating from memory a verse of scripture.

Mrs. Burks is surely doing a noble work. I am sure the stars in her crown will be many, and her influence for good felt and expressed in the lives and works of those little ones whom she is so faithfully training. A VISITOR.

SELF CULTURE CLUB.

The club meeting of February 24 was held in the club room with the president in the chair. The chairman of the memorial committee reported that the donations for our memorial fund had reached proportions where we could now order a bronze tablet in memory of our World War veterans. This tablet has been selected and we hope to soon celebrate in a fitting way the placing of it in the court house.
Since our last meeting the club accepted an invitation from the Seventh grade to visit the school. Most of our members went and were cordially welcomed and enjoyed a splendid program rendered by these pupils. They are all doing excellent work and we feel justly proud of them.
In the near future we are to offer a treat to our town in the way of a Fine Arts Exhibition. We want every one to see these beautiful pictures.
The club was glad to have as a guest Mrs. McMeans of Iowa.
The next meeting is to be held by special invitation with Mrs. Brown. The following is the program:

GO TO THE RESCUE

Don't Wait Till It's Too Late— Follow the Example of a Goldthwaite Citizen.
Rescue the aching back. If it keeps on aching, trouble may come. Often it indicates kidney weakness. If you neglect the kidney's warning. Look out for urinary disorders. This Goldthwaite citizen will show you how to go to the rescue. Mrs. W. A. Richards, Goldthwaite, says: "I was troubled with a sore and lame back feeling across the small of my back about two years ago. When I would stoop over, it would be hard for me to straighten up, as my back was very weak. I had headaches and nervousness, and the action of my kidneys was irregular. I just fell tired out in the morning, so, I got a box of Dean's Kidney Pills at Clements' Drug Store and I am glad to say they cured me of that sore and lame back and strengthened my kidneys. I can highly recommend Dean's to sufferers of kidney trouble."

W. O. W. IN THE LIMELIGHT.

As some of our exchanges have made statements regarding the standing of their W. O. W. camps, that they are loyal and ever have been to the present administration and that all or part of the members of their camps have taken one or other of the options—we have decided to air the other side a little.

In the first place the rates of 1915-17 were high enough according to every principle of computing insurance. As a trial take a member joining at 18 years. Rate \$9.60, less one dollar per year expenses of running the society; expectancy 50.3 years, at 4 per cent compound interest (this is the way all insurance companies compute their yearly premiums) equals \$1,279.70 for \$1,100.00 insurance, or \$179.70 too much. Age 30, same expenses and interest, \$1,363.50 for \$1,100.00 insurance, or \$263.50 too much. Age 40, same expense and interest, equals \$1,116.43 for \$1,100.00 insurance, \$16.43 too much.

If the 1915-17 rates yielded in nearly every instance too much revenue, then why the raise? The men who re-rated either have taken the Sovereign Camp's word for everything or were led into the trap by their camp clerks, who got two dollars per member in many instances for re-rating them. If a man will figure for ten minutes he will find that to re-rate is one of the worst business acts he ever did. The Sovereign Camp must have known that it was not business for the members to re-rate or they would not have promised \$2 to the clerks for doing so. Now, the writer happened to see a letter to a clerk that read about this way: "Every little bit added to what you are getting makes a little more; and Christmas will soon be here and your children will need some toys, etc. Am offering this small sum as part compensation for your services in re-rating your members." Several letters of this kind were produced at the insurgent meeting at Waco. We do not remember hearing any of the clerks loyal to the administration telling their members that they were getting \$2 for re-rating them. The fact of the business is, it has been a custom of Woodmen to depend upon their clerks too much for their information. Members should use their own heads and study the questions.

Some figures taken from the Woodmen Voice on a man sixty years old. "A man 60 years old under the new rate will pay \$73.68 yearly for one thousand dollars' insurance and a \$100 monument. That same man who joined the society in 1897 pays \$15.04 yearly for the same amount of insurance. Say that that man elects to accept the lien on his policy and pays his old rate and 4 per cent interest on the amount of the lien \$220.00, which would be \$8.80, making him pay \$23.84 for \$780.00 insurance per annum. Now how do you account for the fact that \$320 costs this man \$49.84 and \$780.00 worth of insurance costs some other man or this man if he elects to take the option, \$23.84—is this not a discrimination?"

Now, if every member who has re-rated will take the trouble to figure for himself he will find that his additional insurance bought by re-rating costs him about twice as much as the amount left if he pays his old rate and 4 per cent interest on the lien charged. If the members who boast of their loyalty to the present administration will use their heads a little they will see where they stand.

Texas Physician Says Cancer is Curable

Dr. J. M. Gilbert of Randolph Declares Dr. O. A. Johnson Has Proved His Mastery of Dread Disease.

Physicians know that cancer will not yield to ordinary treatment. Therefore, when a bad cancer appeared on his face Dr. J. M. Gilbert of Randolph, Tex., lost no time in consulting Dr. O. A. Johnson, eminent cancer specialist, of Kansas City, Mo. Declaring that he is entirely cured, Dr. Gilbert writes: "I recommend that every cancer sufferer consult immediately with the man that I, as a doctor, regard foremost in his line. Dr. Johnson has proved to the world that cancer can be cured." Dr. Johnson has published a remarkable book called "Cancer Truths," a statement of his theories and experiences in treating cancer without the use of the knife. Purely medicinal measures only are employed; that is, external applications to destroy the cancer and internal medication to purify the blood. This book will be sent free to any cancer sufferer. Or, if you have a friend suffering from cancer, write Dr. O. A. Johnson, Suite 560, 1324 Main Street, Kansas City, Mo.—Adv.

FEDERAL INTERNATIONAL BANKING COMPANY IS FINANCING 15,000 BALE COTTON SHIPMENT

The following letter has been sent from the office of the assistant secretary of the Federal International Banking Company at New Orleans to the stockholders of the company.

New Orleans, Feb. 18.—The Federal International Banking Company is now handling its first big financial transaction, which consists of the financing of the shipment of 15,000 bales of cotton to Europe. This cotton is exported by a cotton exporting company in the South and upon its receipt in Europe it is to be manufactured into cloth and yarn for the account of the shippers. The European mills will retain a part of the cotton in payment for their services.

The funds for financing this shipment are provided by means of acceptances created by the Federal International Banking Company. The payment of the acceptances will be secured by the cotton itself, also by the finished products as these are manufactured, as well as by the responsibility of the trading company and of the individual owners of the cotton.

This transaction, involving approximately a quarter of a million dollars, is typical of the character of assistance which the Federal International Banking Company is designed to afford to producers of the South.

The Federal International Banking Company has under consideration a large number of other propositions of similar benefit to the South. The above transaction is only one of many to follow in the very near future.

Don't Wait Till It's Too Late—Follow the Example of a Goldthwaite Citizen.

Rescue the aching back. If it keeps on aching, trouble may come. Often it indicates kidney weakness. If you neglect the kidney's warning, Look out for urinary disorders. This Goldthwaite citizen will show you how to go to the rescue. Mrs. W. A. Richards, Goldthwaite, says: "I was troubled with a sore and lame feeling across the small of my back about two years ago. When I would stoop over, it would be hard for me to straighten up, as my back was very weak. I had headaches and nervousness, and the action of my kidneys was irregular. I just felt tired out in the morning, too. I got a box of Doan's Kidney Pills at Clements' Drug Store and I am glad to say they cured me of that sore and lame back and strengthened my kidneys. I can highly recommend Doan's to sufferers of kidney trouble."

THE NATIONAL BANK

The Strong Bank of Mills W. E. MILLER, Pres.

W. O. W. IN THE LIMELIGHT.

As some of our exchanges have made statements regarding the standing of their W. O. W. camps, that they are loyal and ever have been to the present administration and that all or part of the members of their camps have taken one or other of the options—we have decided to air the other side a little.

In the first place the rates of 1915-17 were high enough according to every principle of computing insurance. As a trial take a member joining at 18 years. Rate \$9.60, less one dollar per year expenses of running the society; expectancy 50.3 years, at 4 per cent compound interest (this is the way all insurance companies compute their yearly premiums) equals \$1,279.70 for \$1,100.00 insurance, or \$179.70 too much. Age 30, same expenses and interest, \$1,363.50 for \$1,100.00 insurance, or \$263.50 too much. Age 40, same expense and interest, equals \$1,116.43 for \$1,100.00 insurance, \$16.43 too much.

If the 1915-17 rates yielded in nearly every instance too much revenue, then why the raise? The men who re-rated either have taken the Sovereign Camp's word for everything or were led into the trap by their camp clerks, who got two dollars per member in many instances for re-rating them. If a man will figure for ten minutes he will find that to re-rate is one of the worst business acts he ever did. The Sovereign Camp must have known that it was not business for the members to re-rate or they would not have promised \$2 to the clerks for doing so. Now, the writer happened to see a letter to a clerk that read about this way: "Every little bit added to what you are getting makes a little more; and Christmas will soon be here and your children will need some toys, etc. Am offering this small sum as part compensation for your services in re-rating your members." Several letters of this kind were produced at the insurgent meeting at Waco. We do not remember hearing any of the clerks loyal to the administration telling their members that they were getting \$2 for re-rating them. The fact of the business is, it has been a custom of Woodmen to depend upon their clerks too much for their information. Members should use their own heads and study the questions.

Some figures taken from the Woodmen Voice on a man sixty years old. "A man 60 years old under the new rate will pay \$73.68 yearly for one thousand dollars insurance and a \$100 monument. That same man who joined the society in 1897 pays \$15.04 yearly for the same amount of insurance. Say that that man elects to accept the lien on his policy and pays his old rate and 4 per cent interest on the amount of the lien \$220.00, which would be \$8.80, making him pay \$23.84 for \$780.00 insurance per annum. Now how do you account for the fact that \$320 costs this man \$49.84 and \$780.00 worth of insurance costs some other man or this man if he elects to take the option, \$23.84—is this not a discrimination?"

Now, if every member who has re-rated will take the trouble to figure for himself he will find that his additional insurance bought by re-rating costs him about twice as much as the amount left if he pays his old rate and 4 per cent interest on the lien charged. If the members who boast of their loyalty to the present administration will use their heads a little they will see where they stand.

Rio Grande Valley Is Calling You

Do you want to get away
From the grind of every day—
From the drudgery of things you have to do?
Do you want to settle down
Near a lively, busy town,
Where the joy of living will appeal to you?
Do you want to scent the breeze
Coming through the citrus trees?
Do you want to hear the birds call—loud and clear?
Are you seeking perfect health
That's combined with certain wealth
And an income from a citrus grove each year?

Do you want a piece of land
That will grow to beat the band
All the different garden crops that you enjoy?
Do you want to make a "Nest"
And a permanent bequest
For the future welfare of each girl and boy?
Do you want a sunny climate
Where there's fishing all the time?
Where there's ducks and deer and quail and other game?
Where the summer climate is cool
And, where in the calm gulf surf
And the beautiful Arroyo Colorado,
You can swim in January, just the same?

You really want to own some acreage all ready for planting, in this wonderful irrigated section where you can grow more and better vegetables, berries, cotton, corn, hogs, broom corn, Egyptian wheat, kafir corn, milo maize, Rhodes grass, alfalfa, sorghum cane, and sugar cane. Delicious citrus and tropical fruits, such as grapefruit, oranges, lemons, limes, tangerines, dates, etc. Every day in the year is a planting as well as a harvesting day. The fine, rich, alluvial soil is kept, perpetually, in the highest state of fertility, by the fertilizing elements carried in the waters of the Rio Grande with which the land is irrigated. The cost of irrigation is the least and production of crops the greatest. The climate conditions and social surroundings are the most ideal. A few acres set out in citrus fruits will make you independent. **THEN COME ALONG WITH US** on our next excursion, leaving Goldthwaite, Texas, March 13, 1921, at 9 o'clock a. m. \$33.30 covers all your expenses, including railroad fare, eating and sleeping accommodations, and two days' auto sight-seeing drive in the Valley. Make your reservations from **G. W. McCLELLAN**, Goldthwaite, Texas, representing San Antonio Office, 409 Brady Building, San Antonio, Texas.
