VOLUME THIRTY-THREE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, MARCH 18, 1927.

NUMBER TWENTY-EIGHT.

DRILLING TO BE STARTED THIS AFTERNOON ON THE ROBERTSON NO. 1 WELL

According to information furnished by Roy Hicks, field representative of Smith Interests of Fort Worth, who are having the well drilled, the bit will start towards China again this afternoon. A few hours drilling is expected to uncover the pay showing, according to Mr. Hicks, if the well has not caved too badly.

Mr. Hicks states that it is the intention of the Smith Interests to drill the well to a depth of 1900 feet if they are able to secure an extension of their leases. However they will drill to 1800 feet anyway and at this depth the showing of oil should be encountered.

TO THE TEACHERS OF MILLS COUNTY

All League schools must send in entry blanks. These blanks have been sent to all schools that have paid the required fee. Do not overlook this matter.

D. A. NEWTON, Director General.

THE UNIVERSITY OF TEXAS Division of Extension

Office of The Interscholastic League Bureau

To County Directors General, University Interscholastic League:

We wish to direct your attention to the revised entry blank which we are distributing to all member-schools direct from the State Office. It will be well to insist that all entries be made on those forms, and make the announcement in your county papers. An entry blank has been mailed to each school. We could not, however, send them under two-cent stamp, and we fear that many teachers will throw the envelope away without opening it. Please caution your school principals in this matter.

You will note this blank requires your certification that the school has paid its fee. We have furnished you with a complete list of schools that have paid fees in your county. In some cases our records are not quite clear with regard to county in which a school is located. Often a teacher gets his mail in one county and teaches in another, and we thus get the school located in the wrong county. If a school claims to have paid its fee and is still not on the list furnished you, advise the principal to take the matter up with the office of the Interscholastic League at once and if the name of a school is not included in your list please notify us at once. It is the business of the Director General to see to it that no school participates in the county meet that has not paid its fee for the current term.

We are hoping that thorough preparations will be made for the county meet in your county, that competent and unbiased judges will be procured by your directors for the various events, and the rural schools especially be well-taken-care of and benefited by participation in the contests.

Yours truly,

ROY BEDIKHEK, Chief, Interscholastic League, Division of Extension.

SCHOOL FIELD DAY TO BE OBSERVED

On Tuesday, March 22nd the Parent Teachers Association will observe field day at the school grounds. All patrons of this school are requested to bring wagons and teams, hoes, rakes or other tools and help clean off the school grounds.

EXTENSION DAIRY SPECIALIST HERE

Mr. J. L. Thomas, Extension Dairy Husbandman, A & M. College, spent Wednesday and Thursday of this week and lectured to the farmers at Center Point Wednesday night and at Star Thursday night.

The interest in the litter dairy cattle is very intense and the visit of Mr. Thomas is timely. The low price of cotton and the abundance of home grown feed has put dairying to the forefront.

Mr. Thomas insists on improvement of dairy cattle by the formation of Bull Circles. Good cows are now available and if found the price is prohibitory. Again cows of poor quality are on the market. He told of a South Texas man who went away for a car load of dairy cows. He arranged some trades to furnish him the cows for \$20.00 each. The traders bought them from the farmers at \$9.00 each and then shipped them back home and sold them for \$60.00 each. Of course they proved to be unprofitable.

Mr. Thomas stressed the importance of proper feeding. He gave the following formula for a balanced ration of our common home grown feeds:

100 pounds of cotton seed meal.
100 pounds ground oats
100 pounds ground corn, grain, sorghums, or barley.

100 pounds wheat bran.
Give three pounds of this feed for each gallon of milk produced by the cow.

Methods of handling cream and making butter were discussed and the questions asked from the audience were fully answered.

CHURCH OF CHRIST

Elder Cecil E. Hill of Ranger will preach at the Church of Christ next Sunday morning at 11:00 and Sunday night.

CLEAN-UP TIME IS COMING APRIL 3-9.

Spring is coming and that means time to clean up. The busy housekeeper always has a Spring cleaning. Do not let this stop with the inside of the house, but let's clean the yards and alleys too--have everything around us clean.

The State Health Officer has designated the week of April 3-9 as State "Clean-Up Week", so let's get busy and see to it that our town is made one of the neatest in the State. The Mayor of Goldthwaite has officially called for Goldthwaite to observe this special time of cleaning up and arrangements will be made to have wagons haul away the rocks, trash, etc.

Let every citizen of Goldthwaite loyally observe this week--and "clean up."

NEXT MONDAY NIGHT REGULAR MEETING OF MILLS COUNTY C OF C

Next Monday night is the regular meeting of the Mills County Chamber of Commerce and we invite every business man to be present at this meeting. Besides outlining a program for the ensuing year, we also will elect a new board of directors from the membership and you are requested to be present and give your cooperation in selecting a strong board for the next year.

From this board of directors which you will elect, will be selected the officers of the organization president, vice president, treasurer and secretary. This organization merits the support of every business man and farmer in this section of the county. We have accomplished great things in the past and this work is only retarded because of the lack of interest and failure of members in attending the regular meetings of the third Monday night in each month. We invite you all to attend the meeting Monday night, March 21, at eight o'clock.

We had an awful lot of bad weather this winter to be glad about who'd appreciate the sunshine, if it wasn't for the shadows.
We should be glad for the hard times we've been growling about, glad to be in debt, for we would never know the joy of getting out if we never got in. Work hard, pay up, and get gladder.
A good many of the people of this community enjoyed the preaching Saturday and Sunday at North Bennett. Brother Hays did the preaching. We were so glad to have Bro. Hays.
There are a few people still picking up pecans. A. J. Cline's pecan crop this year has amounted to 3,500 pounds and he still has some to pick up.
Mr. and Mrs. Vaughn have been visiting Mrs. Vaughn's mother, Mrs. Leverett, this last week end.
Homer Denman came home Sunday to visit home folks. Mr. Denman has been working in the oil fields in Oklahoma.
James Blackburn returned to her home in Brownwood, after visiting her mother, Mrs. M. G. Cline and family.
William Cline's store, including post office, grocery, and dry goods, burned three weeks ago, the fire destroying everything. He has his new store almost ready for business. The new store certainly helps the looks of Caradon.
Mr. Petsiek and family of near Brownwood visited his brother, J. M. Petsiek, Sunday.

NASH
Leads the World in Motor Car Value

Steering
is never tiring
—when you drive a Nash

A cheerful willingness to answer your hand on the wheel is one of the very first things you notice, when you drive a Nash.

In many ways, Nash has provided for the ease and comfort of the arms that steer the car. In getting into or out of a tight place at the curb you will particularly notice the slight effort needed.

When you turn a corner, you'll welcome the shorter wind-up of the steering wheel.

In an emergency, this short turn of the wheel means quick responsiveness—and an accident averted. Nash

steering is easier—faster—less tiring on the arms and wrists—ininitely safer in dense traffic.

Nothing has been spared to build a more delightful car to drive. This steering mechanism is, beyond question, the most expensive type built today for cars in the Nash price field.

Like the steering, every detail in the car reflects the Nash determination to lead the world in motor car value.

Another instance of the outstanding excellence in Nash design is the 7-bearing motor—without a doubt the smoothest type in all the world.

FARM FACTS AND FANCIES

By County Agent, W. P. Weaver

Suggests a Program

Burnet County, Texas.
Farm and Ranch:

I have been reading the interesting letters from the many good writers in Farm and Ranch. Many are writing about hard times. I know of many farmers who are talking hard times; the most who did not raise, or even try to raise, a family garden. I had sixty acres in cotton in 1926. We had about four acres in garden, truck and orchard. We kept 12 hens, eight milk cows, and believe me or not, our garden, orchard, hens and cows made us more than twice as much money than did the whole sixty acres of cotton, besides, we had all the fresh vegetables and fruits, eggs and fryers, milk and butter that our family of eight could use, and earned a good supply for winter use, which if bought would cost more than \$500. It is the little thing on the farm that counts.

Here's hoping that all good Southern farmers will reduce their cotton acreage this year and give more attention to gardens, chickens, hogs, cows and bigger feed crops, and prosperity will smile on all that will reduce cotton production and increase production of feed and food.

Plant a Pecan

San Saba County, Texas.
Farm and Ranch:

I appreciate very much the reference the Rambling Longhorn made in his story of his recent visit to this county.

The press of the State is filled with cotton reduction talk, but the accompanying photograph shows D. F. Moore and myself discussing a far more important subject—the elimination of pecan tree growing in his yard. Of the best varieties, five or ten nuts satisfy the ordinary appetite, and everybody likes pecans. Cut down the hackberry and replace it with a pecan.—W. J. MILLICAN, The One-Gallus Farmer, In Farm and Ranch.

Some Difference

A smart alec attempted to kid an extension dairyman. "Can you tell me," he asked, "what is the difference between a scrub dam and a dam scrub?" "Yes," the extension man replied. "A scrub dam is a dairy cow that doesn't give enough milk to pay for her feed, and a dam scrub is the fellow who milks her."

Honors Memory of L. E. Stockard

Austin, Texas.
Farm and Ranch:

I consider L. E. Stockard's passing a great personal loss since he was a friend valued most highly, the vacancy that his going left among the leadership of rural school teachers is by far the greater. He was their outstanding spokesman. He enjoyed their utmost confidence and most ardent admiration. They regarded him as the most capable and practical exponent of rural life in the State. I wish you could arrange to make it possible for every rural school to place his photograph on its walls. Why not dignify the great of rural life as well as those esteemed great in other strata of

our country's life? And surely he deserves such consideration. He gave his life to the rural schools. I was with him in Mills County when he contracted the cold that at last brought about his death. He braved bitter weather over rough roads to meet the country people in their own communities and bring to them his message of inspiration.

Peace to his ashes and honor to his memory.—JOHN LEE SMITH
In Farm and Ranch.

Farm and Ranch Will Carry On

Just prior to the death of L. E. Stockard, field editor of Farm and Ranch in charge of rural schools and community work, he expressed the wish that should he not survive his illness, that Farm and Ranch continue the work he had started. Following the death of Mr Stockard, numerous letters have been coming to Farm and Ranch urging us to continue with the Four-Square rural school plan. Farm and Ranch will carry on. G. L. Huekaby, of San Saba, has taken up the work where Mr. Stockard left it. Mr. Huekaby is a man thoroughly in sympathy with rural school work and rural people. Born and reared in the country, he has devoted many years to teaching rural schools and for two years was county superintendent of San Saba county. Farm and Ranch asks for him the same hearty co-operation as was given Mr. Stockard.

Motion Pictures of Lips Aid the Deaf to Speak

By means of motion pictures of the lips of a person speaking, the deaf, children with defective speech, and foreigners are

greatly assisted in their efforts to talk correctly and to interpret sounds by lip-reading. A specially devised camera takes a series of "close-ups," the "model" pronouncing the words, taking great care to move his lips in the precise positions for forming the sounds. The pictures are shown with the words and symbols to accompany them, supplying a graphic "pattern" for the pupils to follow.

Concrete Railway Ties Have Wooden Plugs for Spikes

Concrete railway ties, used on a section of a right of way in northwestern India, have proved to resist wear and weather equally as well as wooden ones, according to a report. It is believed their employment will result in great savings of lumber and labor, since they will not require replacing as frequently as the timber. The cement beam consists of two blocks tied together with steel straps. The rails are fastened on by means of spikes driven into treated-wood plugs set in the concrete.

Tobacco Smoke Not Harmful According to Mine Test

To test the effect of tobacco fumes, men were confined in a closed chamber where the air was so smoky that it was impossible to see across the room. The atmosphere was so irritating to the eyes that it was necessary to wear goggles.

After an hour and a half, samples of the air and the blood of the smokers were taken for analysis. The experiment was made by the bureau of mines, and, as a result, it was decided that the harm from smoking indoors, or in mines, is negligible.

Pulling Car Out of Mud

When stuck in mud the lone autoist need not despair as long as he has a pair of good chains with him, for, with their help, the car can usually be run out of the mud, providing, of course, it is not too deep. One end of a chain is fastened around the tire and to the spokes of a rear wheel, while a short, stout iron bar is pushed through the links at the other end of the chain and a tow rope tied to this bar. If no iron bar is handy or it is too large to be pushed through the links, the tow rope is tied to the last cross chain. The other end of the tow rope is securely tied to a tree located in front of the car, slightly toward the side. By applying power to the wheel, it will run along the chain for a foot or more. The operation is repeated until the wheel is out of the mud.

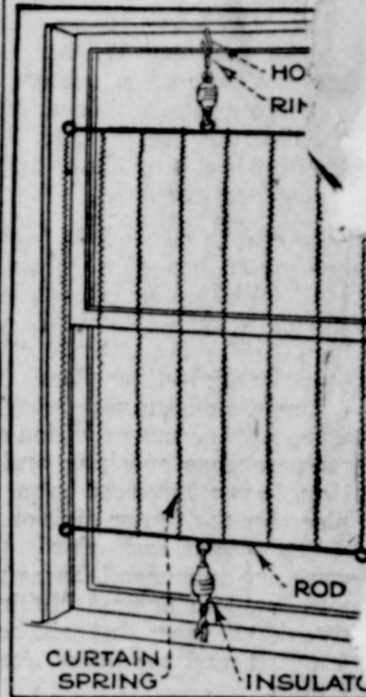

Cleaning White Woolens and Furs

Garments are often dry cleaned at home, but the result obtained in the case of white woolens or furs is not always satisfactory. However, the simple trick described below can be employed by anyone, and the results will prove a pleasant surprise.

After the woolen or fur has been washed and rinsed in gasoline, it should be wrung or shaken out thoroughly and placed in a deep pan. A pound or two of white flour should then be sifted over and rubbed into the article. After allowing the article to dry on the line, the flour is whipped out, leaving the garment in a cleaner and whiter condition than usual after cleaning. This is due to the fact that the flour sifts into the fur or fabric and absorbs the dirt with the gasoline that cannot be wrung or shaken out. When whipped out, the dry flour naturally carries the dirt with it.

Curtain Springs Make Window Aerial

Various kinds of indoor aerated windows are advocated for buildings where type is impossible; one of the most effective is shown in the illustration. Spreaders of heavy iron wire or light rod, a little shorter than the width of the window, are bent with an eye at each end and one in the center. The two spreaders are connected with a number of the

curtain springs that are widely used instead of curtain rods. The efficient the aerial depends to a great extent the number of springs used. The spreaders are suspended between the top and bottom of the window casing, insulators being used as shown. The springs are drawn up tightly so that they will touch each other, and the aerial will swing.

"MAKE FARMING A PLEASURE INSTEAD OF A DRUDGERY"

There is a word of ten letters which holds the secret of farming success. It means the doing of whatever is to be done by the quickest, easiest and most economical method consistent with quality. It means **IMPLEMENTS** which make the most of the human intelligence used in their operation.

Sing a song of base-hits,
Umpire full of prunes,
Foul-balls and three-baggers
Sing out different tunes;

Thickly come the errors,
Hook-slide spraddle wrong;
Walks are drawn in plenty—
Innings drag out long;

Managers chase wildly,
Coach is full of zest;
Spring presents King Baseball
Baseball does the rest.
—Daily Texan.

We know by the warm weather
and spring showers that spring
has really come, and with it comes
baseball. Every one has the fever.
The boys began practice last
week.

Last week, in a meeting of all
the high school boys, Mr. Newton
consented to divide each week
from now until April 1st between
track and baseball. We are to
have the first three days of the
week devoted to track and field
practice, leaving Thursday and
Friday for baseball practice. This
will enable the boys to get "in
shape for the games which will
start immediately after the track
meet.

Friday of last week, Coach
Barnhill called a meeting of all
men who intended playing base-
ball. Fifteen men attended and
plans were made to begin prac-
tice Thursday, March 10.

This year Hunt is gone, but
Linkenhoger, the Eagle's only
portsider, will be back for his
third season with lots of steam.
Last year he made the unusual
record of retiring the opposing
team in the order of "three up-

three down" for three consecu-
tive innings. Another moundsman
who will be out for a second
season is Evans. He is expected to
have some real stuff on the ball
this year.

The majority of the battery
men, however, are catchers. There
are five men bidding for the job
of catcher, Morris, Patterson,
Beck, Harper, and Leverett.

The infield will have Hester
and Page on first and third re-
spectively. Wheeler, last year's
second sacker, is gone, but Lock-
lear is a strong bidder for that
position and may have some com-
petition. Johnson is back at short,
but he will have some strong com-
petition in Gray, Cave and Ritchie
are back in the field but they will
need some reinforcements at cen-
ter field. Probably some of the
catchers will migrate towards the
field.

Preparations are being made to
play at Fair Park this year. Every
man will have his own bat. With
all these bats, we will need a
couple of bat shaggers to keep
them straight.

Change In Football Rules For 1927

Ernest or Leakage, or whoever
gets the job of booting next fall,
will have to have a better educa-
ted toe than Hester had in '26.

In '27 the goals will be 120
yards apart, that is, the goals will
be ten yards behind each end of
the playing field. This change was
made to decrease the advantage
of a team who had a good booter.
It also lessens the danger of col-
liding with the posts on rushes
for a touchdown.

The huddle system will not be
popular next fall as a team will
be penalized five yards for con-
suming more than 15 seconds in
giving signals.

Another major change states
that fumbled punts shall be dead
at the point of recovery.

CHAPEL

Brother Dosier visited school
Friday morning of last week and
gave a short talk on "Talents."
He told us that "Talents" is a
subject which every one should
study since everybody has one or
more. A talent is a gift. It is God-
given. Brother Dosier urged us to
put talent to use so it will be a
blessing to this world. The danger
comes when you let your talent
lie idle year in and year out. Your
talent is necessary in every phase
of life—in the business world, the
social world, and the spiritual
world. That is why God gave it to
you; make use of it.

If you think you can't, you
won't. If you expect to lose,
you're licked. If you want to rise
or win a prize don't forget the
plan of thinking you can and re-
member to think—I will.

Success is more a mental atti-
tude than a material struggle.

"Can" is a weak word.
"Can't" does not exist. The word
is "Will."

The man who says "I can't"
is a quitter. He who says "I will"
is more than half over the hill.

Tackle a task this way: First,
weigh carefully what it will be
necessary to do; second create a
method or plan of doing it; then,
with a singleness of purpose and
stubborn will, stick to the job
until you get it done. This is the
philosophy of action and the prac-
tice of achievement.

VOLLEY BALL BEING PRACTICED IN EARNEST

Miss Muriel Linkenhoger, coach
of the volley ball girls, called a
meeting for the purpose of elect-
ing a captain of the team. Seven-
teen girls met. O'Leta Daniel was
elected captain. Volley ball counts
fifteen points toward getting the
"Loving Cup" and we girls are
confident in winning the addition-
al fifteen.

These seventeen girls will prac-
tice every day until the captain
and coach choose the best ones to
be on the first team and enter at
the meet.

Those that met with Miss Link-
enhoger were: O'Leta Daniels,
Wilma Wheeler, Elidabeth Nick-
ols, Estelle Shotwell, Adiel Wil-
son, Mary Alice Weathers, Ruth
Hill, Pearl Armstrong, Flora Dis-
kell, Mary Leigh Lane, Maadia
Wilson, Mae McNut, Bonnie Mae

Faulty Elimination

Should Be Corrected—Good Elimination Is Essential to Good Health.

If you would be well, see to your elimination. Faulty kidney action permits toxic material to remain in the blood and upset the whole system. Then, one is apt to have a tired, languid feeling and, sometimes, a toxic backache or headache, and often some irregularity of secretions, such as scanty or burning passages. Bad Color (liver trouble)

"OCCASIONALLY I am troubled with spells of constipation and inactive liver," says Mrs. John L. Pence, Broadway, Va. "I always use Theford's Black-Draught when I feel a spell of this kind coming on, for it saves me a bad headache. My color gets sallow at times. I get real yellow, showing that the trouble comes from the liver. "I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught and make a tea out of it, and take it, along in small doses for several days. I have never found anything that served me so well. "Since I have known about Black-Draught, I have not suffered nearly so much with headache, caused from indigestion. If I find my tongue is coated, and I wake up with a bad taste in my mouth, I know I have been eating indiscreetly, and I immediately resort to Black-Draught to straighten me out."

TREASURER'S REPORT

In the matter of County Finances in the hands of Mrs. Bina Oquin, Treasurer of Mills County, Texas:

Commissioners Court Mills County, Texas, in Regular Quarterly Session:

We, the Undersigned, as County Commissioners within and for said Mills County, and the Hon. L. E. Patterson, County Judge of said Mills County, constituting the entire Commissioners' Court of said county, and each one of us, do hereby certify that on this, the 14th day of February, A. D. 1927, at a regular quarterly term of our said Court we have compared and examined the quarterly report of Mrs. Bina Oquin, Treasurer of Mills County, Texas, for the quarter beginning on the 1st day of November, A. D. 1926, and ending on the 31st day of January, A. D. 1927, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of Mills County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of January, A. D. 1927, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Article 868, Chapter One, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty fifth Legislature of Texas, at its regular session, approved March 20, 1927.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of said Treasurer belonging to Mills County at the close of the examination of said Treasurer's Report, on this the 14th day of February, A. FORD CAR TODAY'S

Before you buy any make of Automobile let us show you Today's Ford Car.

You may consider that you know the Ford Car. You may have been a Ford Owner for years and think you are familiar with the splendid satisfaction which the Ford gives, and yet unless you have made it a point to examine the Ford Car as it is built Today—to drive it and not its improved engine performance—relax in it over rough roads, and experience the increased comfort which it affords, and to learn of the many recent improvements, you do not know the Ford Car as it is built today.

Many of the new Ford Car features are obvious—balloon tire equipment—wire wheels—pyroxylin finish—a choice of colors—improved upholstery, etc., but the big satisfaction to you as the owner of Today's Ford Car is to be found in the way in which it will fulfill your expectations of what a modern motor car should be. You will be amazed at the increased power resulting from the new Vaporizer, the smoother engine operation, the increased gasoline mileage, the improved riding qualities, and above all in the way in which this car handles and performs in traffic and on the open road.

In short, you must drive a new Ford Car to be a fair judge of present-day motor car values.

We invite your inspection of Today's Ford Cars.

The KEY to INDEPENDENCE

How is the life's goal of every man — financial independence — attained? Surely not through a sheaf of rent receipts, but rather through the thrift necessitated in acquiring a home.

Even a meager wage earner or farmer can sue this Key to Independence—by a small down payment and the remainder to pay it. We have choice plans and will be glad to go into the matter with you.

LIVE OAK
 Those that are on the sick list are: Mr. Tom Wilcox, Mrs. Gerald, Ben Johnson and Izeta Featherston with a broken leg. We hope they shall all soon be well.

Most of the farmers are planting corn. Maybe it won't be killed.

Several people from here attended the Singing Convention at Zephyr. All report some good singing.

Lorraine Simpson spent Saturday night with her uncle and aunt Mr. and Mrs. Earl Hale of Goldthwaite.

Live Oak school will be out on the 22nd of next month (April). They are planning for a good program. Everybody come and laugh, it will do you good.

Uncle John and Aunt Rena Doggett visited Ira Doggett and family Sunday morning. In the afternoon they all visited Ben Johnson and family.

Clarence Heath and wife spent the week end with his father, Will Heath.

Mrs. J. C. Nickols went visiting Sunday afternoon and found no one home.

Charlie Batchelor has a new Star touring car. Be careful folks, "swell head" may be catching.

Mrs. A. J. Cline taught school one day last week as Miss Arna was sick.

Oscar Simpson thrashed maize in this community Thursday and Friday.

Ray and Benton Altrage spent Saturday night with Virgil Doggett.

William Wilcox and sons are staying with his father, Mr. Tom Wilcox.

J. A. Doggett and wife called on Floyd Platt and wife Sunday evening.

Slick Wilke's barn burned down Monday night. Mr. Wilke was gone, but neighbors came. It was too late to save the feed.

Herbert Simpson has been shearing goats for his grandfather, Charlie Stark, of Rock Springs.

As news is very scarce, I'll ring off.—**BLUE EYED GIRL.**

EBONY NEWS

We have been having some beautiful weather.

The farmers have been planting corn, some of them having already finished.

PROMISES MOTORISTS NEW MEASURE OF MILES FROM MODERN BALLOONS

"Tire manufacturers can give the public a new measure of miles in balloon tires, if they will first forget their ideas of tire building gained from the old high pressure tire," says Mr. Fairman, local Goodrich Dealer.

"By the adoption of new principles of design in the Goodrich Silvertown Balloon, we find that it is surpassing the mileage records of the finest Silvertowns of high pressure design.

"The first step in building balloon tires, is to recognize that low pressure is almost exactly opposite high pressure. That is, the tires which are inflated to 60 to 80 pounds pressure, were so hard that they rode on a comparably narrow strip of tread, in the center of the tire. But the balloon tire flattens out—and instead of putting the load on the center of the tread, it puts the weight on what tire men call the "shoulder" or two sides of the tread.

"Meeting this problem of tread design, will stop the waste of millions of dollars worth of tire mileage for motorists. When the heavy tread design, which has been so common in many balloon tires, is eliminated from the center of the tire it keeps the whole tread from being distorted under load—and prevents the destructive "cupping" action and rapid uneven tread wear—one of the greatest causes of short life in balloon tires.

"This discovery is an important reason for the exceptional mileage records made by Silvertown Balloons which have been in use by the public, with this new design, for almost two years."

Some interesting facts regarding the growth of balloon tires are given by Mr. Fairman, who points out the following facts regarding tire production in 1925 and 1926.

In 1925 there were 30,065,000 high pressure casings produced. In 1926 the production of high pressure casings dropped to a little over 24,000,000. However, in 1925, the number of balloon cas-

ings produced ran to 15,572,000 whereas in 1926 there were 21,824,000 balloon tires produced. Many conclusions can be drawn from these figures. For instance, there were 4,464,000 passenger cars produced in 1926. If all these cars had been equipped with balloons, only 17,856,000 of the 21,824,000 balloons would have been accounted for at four tires per car. As a matter of fact all cars produced were not equipped with balloons, but the majority of them were. The balance of these balloons, according to Mr. Fairman, must have gone as new equipment on cars in use. At any rate the manufacture would surely indicate that before long one will find the high pressure cord a rarity and the balloon standard equipment for all cars new and old.

CENTER POINT

Editor Eagle:

We are having beautiful spring weather at this writing. The farmers are busy planting and preparing their crops.

Henry and Raymond Hale sheared goats for J. W. Edlin and E. T. Davis last week.

Mrs. Ray Davis and children spent the week-end in Goldthwaite, guests of Mrs. Fred Davis. Miss Malta Shelton was on the "Fla" list last week and was absent from school.

Quite a bunch of young people of this community went to the pie supper at Mullin Saturday night. They report a splendid time, also pies galore.

Felton Waddell and Miss Mary Fallon and Faye French enjoyed the junior play at Mullin last Friday night.

Alton Runnels is working at Brownwood.

Center Point community was surely represented at the District Singing Convention at Zephyr last Sunday.

Verne French and Floyd Runnels went to a party at Pat Henry's of Duren recently.

Mary Spinks seems to be happy this week. If the readers could have seen her last Sunday they wouldn't wonder—?

The Community Club will meet Friday night. Everybody come and enjoy the program and speaking.

Sunday will be Rev. J. C. Gibbon's regular appointment. The League meets at 2:30. Come, a welcome to all.—HAPPY FLAPPER.
