REVIVAL MEETING AT THE NAZARENE CHURCH CONTINUES NEXT WEEK

REV. RALPH C. GRAY

The revival meeting being conducted by the Church of the Nazarene will continue through the next week at the Christian tabernacle. Services daily at 10 A. M. and at 8:15 P. M.

Rev. Ralph C. Gray is doing the preaching. His sermons are inspiring to the soul and convincing to all lovers of the old boob—the Bible.

The crowds are increasing with every service. Our prayer to God is that this may be a time when many souls will find peace with their creator. Let every Christian feel like this is your meeting, and that you are to do your best to bring about a revival that will mean much to our town. If there was ever a time when we as God's children should come together for an out pouring of God's grace, it should be in these days when sin is all around us that tends to wreck and blight the character of our young people, and hinder them from being able to carry the work of righteousness on when the older ones have passed away. If there is any one in whom I am especially interested, it is the young people of our day who will have to be the grown-ups of tomorrow. So if you are interested in their protection come and help pray the conviction of God on their lives that they may repent and be saved. Perhaps some mother or father may read these lines who have not set the right examples before their children and have never considered that if their souls should be lost the parents would be largely to blame. So folks it is high time you were awake to save the young as well as the old.

I have but one mission in this town and that is to flag the train loaded with enemies weapons and save some precious ones. Do not forget the revival all through next week.

G. R. DOSIER, Pastor.

BOTH OIL WELLS STILL HUNTING THE PAY SAND

Both the Shadwick and the Robertson No. 1 wells are still drilling, the Chadwick well is around 1700 feet deep and has been in the Elmburger lime since around the 1100 feet level. The owners of this well are expected in today. It is probable that this well will be drilled to 2000 feet—possibly deeper or until the granite or oil is struck.

The Robertson well is a little over 2500 feet and still in gray lime formation. In this well the black lime was not found at the 1800 feet level, as it was in the other wells drilled in that section and the fact that it is considerable deeper may mean that the oil is there.

OLD SOLDIERS REUNION

Last year the old soldiers were greatly pleased with the hospitality extended them by the Fair Association and the entertainment given for them by local talent. They passed resolutions of thanks which should have appeared in the columns of this paper but for the fact that the secretary of the Fair Association was called out of the state for several weeks immediately after the close of the Fair.

The old soldiers, together with the Church of God, will erect a dining room near the Confederate tabernacle in a few days. This dining room will be securely screened against flies and mosquitoes and will add to the comfort of the Old Soldiers during their reunions and the church people during their annual encampment.

John Burnett and Phil Morris have charge of the erection of this dining room which we are informed will go up at once.

Arrangements have been made for home talent entertainment for the Old Soldiers and Old Settlers each night of the Fair. Everybody will be pleased to know that unusual excellent entertainments will be given by local talent each night of the Fair.

A good time is waiting for the Old Veterans and Pioneers and all anticipate an enjoyable association with them.

Resolutions Jeff Davis Camp No. 177 U. C. V.

The following resolutions were passed by the Old Veterans at the close of last year's reunion.

"In behalf of the Jeff Davis Camp of United Confederate Veterans, I wish to express our thanks and sincere appreciation to the Mills County Fair Association for the accommodations they have furnished us during this fair. We have been well taken care of from every standpoint. Our entertainment has been of the best, the food furnished to us was plentiful and as good as could be desired, and we have been accorded every consideration and courtesy.

We thank all of our friends, but especially we wish to express our appreciation of the care extended to us by Mrs. F. N. Irwin, Mrs. P. G. Palmer and Mrs. W. E. Pardue. Also we thank Mr. Alvis McGowan for the excellent cooking he did for us.

We had with us in Camp during the fair, some visitors from other Confederate Camps. I also wish to express their thanks for the courtesies extended to them, and will state that they were delighted with the treatment they received from you people.

We enjoyed the Fair, are thankful for health and strength to attend it, and hope for it a successful, prosperous future.

We retain the present committee, W. P. Weaver and Earl Clements, for 1927."

PECAN WELLS

Dear Old Eagle and Friends: Brother Jack Sparkman filled his regular appointment here Saturday night and Sunday but a big rain prevented services Sunday night.

Hoing corn between the showers is the source of amusement out here now. The fleas and hoppers have not bothered us at all, but some are reporting weevils. Personally we don't think these mountains are ever entirely free of them.

The cayotes are holding their first reunion at Pottsville.

Grandma Kemp is visiting her son, Bl Kemp, at Plainview, Texas. We hope she will have a good time.

Mrs. Margaret Merrell from Mc Girk came up the other day and got her dog and her fine full blood holstein heifer that her parents gave her.

The thresher will be in here in a few days. The grain is very light this year.

Corn in our community is exceedingly good, as these rains have completely ruined all the bunnies, turning them into full-grown ears.

Olen Kemp came home while it was muddy. He is with a thresher out on the prairie on the other side of Pottsville.

Foster Kemp was at church Sunday when it rained and said he thought he was going to get a much needed rest, but when he got home it had only showered just a little, so he can go ahead with his plowing.

Canning time is here so let us save all we can for next year for we may not have it to can.—BETTIE LOU.

Mr. and Mrs. J. C. Bramblett and Mr. and Mrs. Frank Pare visited with Mr. and Mrs. Aaron Kelly Saturday evening. They found amusement and pleasure in a few games of 42.

A few from here attended the party Saturday night at Walter Reynolds, all reporting a very good time.

Mrs. Conway left last Friday morning for San Angelo for a weeks visit.

Chester Miller spent Saturday night with Ofan Conway.

Mr. and Mrs. Denver Akenis spent Saturday in Chappel Hill community.

There was church at Mr. Almer Neals' Saturday night.

Mr. and Mrs. Jess Stanley and family visited in the Bess Conway home Sunday.

All of the farmers are complaining about having lots of boll weavils and fleas, so I guess they are going to eat up our ten cent cotton.

Well I will have to air out and pull a few weeds—SKEEZIX.

MOUNT OLIVE

Well I will drop a few crumbs. We are living high now as we are eating roasting ears.

We had another big rain Tuesday morning so I guess the farmers will be busy plowing their cotton as soon as it gets dry enough. My! the weeds and grass are getting taller than the cotton.

Mrs. Winnie Mae Stanley and children are visiting her sister, Mrs. Orville Harris.

Both the young and old folks enjoyed the ice cream supper at the school house Friday night and My! the cream and cakes were certainly good.

METHODIST CHURCH ANNOUNCEMENTS

Rev. W. L. Barr, our Presiding Elder, will preach next Sunday morning. Let us have the church well represented. The pastor will preach Sunday evening on "The High Cost of Gossiping."

General Evangelist, Dr. Frank M. Neal, will be here to begin the revival at the tabernacle Sunday morning, July 3. He will bring a choir director and we want the co-operation of all the singers in town. The following is a clipping from "The Marietta Monitor, a newspaper of Marietta, Oklahoma, where the evangelist is now in a revival:

Methodist Revival Is Growing
Revival services which began Sunday at the Methodist church here have been well attended and interest in the meeting is growing steadily.

The meeting is being conducted by Dr. Frank M. Neal, one of the best known evangelists in Southern Methodism.

Dr. Neal is not only a forceful pulpit orator, but is also a humorous, a chautauqua lecturer and a good story teller. He moves his audiences from laughter to tears at each service and holds intense interest throughout. He does not mince words and does not fail to tell his hearers of their shortcomings, but at the same time he preaches straight from the Bible and his knowledge of the Scriptures is thorough and concise. Despite the somewhat inclement weather, the attendance has been good, even at the 9 o'clock services.—Marietta Monitor.

NOTICE TO SINGERS

There will be singing Sunday afternoon at 2:30 P. M. at the Pleasant Grove church house. All are invited. Come and bring your books. There will be singers from Goldthwaite, Center City, and Lampasas.

E. B. Buffington has returned from a weeks visit to Rogers, Texas, where business matters took him.

GRAPHIC EXAMPLE OF "IT" IN BOW MOVIE

Elinor Glyn's Theory of Sex Magnetism Seen in Clara Bow's Latest

There are three kinds of people in this world of ours. Those who wish they had, those who haven't, and those who have—IT. Betty Lou, sales girl in the Waltham Department Store, belonged in the Category Three and she knew it. Men spotted her as they entered the door and she was able to sell cars muffs in the summer and ice bags in the winter, and a good line all the year long. Betty Lou wasn't known as a "bad girl" but, when she knew what she wanted, she "got her man!"

For instance, there was the case of young Cyrus Waltham. He'd walked in one day and absolutely disregarded her. The other girls laughed when she said that it was only a matter of time before he'd be eating out of her hands. So, Betty set out to accomplish the seemingly impossible. He was rich and influential in society; she was poor and a clerk in his big store. But—Betty Lou was one girl in a million and she—!

That's the way Clara Bow's first Paramount starring vehicle opens. "It" was written by Elinor Glyn especially for Miss Bow and in "It" she illustrates exactly what is meant when one says, "He has IT." Clarence Badger directed. The film arrives at the Dixie Theatre Monday the 27th of June, where it will show Monday and Tuesday nights. The fact that Antonio Moreno is featured along with Clara Bow makes the film even more attractive.

IT PAYS TO POISON

Believing that the Mills County Farmers should know more about the increased profits in Dollars and Cents from poisoning insects, we are taking the liberty of setting forth a few facts regarding the cost and additional profits secured by the systematic use of Calcium Arsenate and other arsenical poisons against the boll weevil, leaf worm and other cotton destroying insects.

In one of his recent bulletins, Dr. P. B. Coad states that when Calcium Arsenate is used systematically against the boll weevil, the increased production is 500 or 600 pounds of seed cotton per acre. There have been some cases where the increase was as high as 1000 pounds per acre.

Taking the low average of 500 pounds, it means an increase of 167 pounds of lint per acre, or an increase of \$25.05 per acre on the basis of 15c cotton. This does not include the seed.

The cost, including depreciation of machine used, is about \$2.85 per acre. Poisoning should begin when 10 per cent to 15 per cent of the squares have been punctured using 5 to 7 pounds. Three applications are sufficient.

There is but one answer to increase in production in dollars and cents —IT PAYS TO POISON.

We will be glad to furnish full information which lack of space prevents giving here.

(The Mullan Enterprise)
There will be a basket picnic at Vaughn Park on Mullan Creek on the Fourth of July. Effort is being made to secure speakers for the occasion.

Circulars will be out in a few days giving the program.

Everybody is invited to come and bring well filled baskets and enjoy a real Fourth of July picnic.

BUSY OR IDLE

It is the devil that meets us when we are idle. The angel of the Lord appeared to the shepherds while they were keeping watch over their flock by night. Matthew was called at the receipt of custom. Peter and Andrew, his brother, were fishing. James, the son of Zebedee, and John, his brother, were mending their nets when called by the Savior. When the Lord called David he was out tending his father's sheep, while a herd of his brother's was lounging around the house. If you want something done always call on a busy man, the ones who sit around town and whittle on boxes are "busy."

WHY WIDOWS ARE THE SPECIAL PREY OF CONFIDENCE MEN

By W. R. MOREHOUSE

Public Relations Commission, American Bankers Association

WOMEN are often easy victims for the high-pressure promoter. Widows are especially sought out by the confidence men. Even before their deceased husbands, protectors and counselors are buried the widows of high finance are waiting outside their doors. They know the defenseless widows will be easy prey. Many a woman today is penniless as a result of making poor investments. "Getting rich quick" for the widow without investment experience is in reality getting poor quick. Once a sharp promoter gets the confidence of a rich widow he has a "Bonanza" as he calls it. Eventually he gets the estate and the widow gets the experience. Widows with estates should be on guard every minute. They are marked persons, with promotion crooks hot on their trail. The best thing that every woman investor can do is to consult her banker before investing.

W. R. MOREHOUSE

Properly cut and set, crystals sparkle in realistic imitation of diamonds. The same is true in the field of finance. There is that which is fraudulent parading as the genuine. Don't buy investments simply because they sparkle. In the realm of wild-cat financing, fictitious credentials, testimonials, and refer-

ences are employed to give setting and genuine appearance. Some are such rank imitations that they are easily recognized, but others defy detection except on the closest investigation by an expert. The only safe procedure is to investigate under competent advice. Literally millions of dollars are lost to American savers annually as the outcome of buying into something—a fraudulent farm promotion, a business or a job that is nothing more or less than a set-up to catch suckers.

Often the savings of a lifetime are lost by buying unimproved farm lands with the understanding that the seller, or a service company promoted by him, will plant the farm to trees or vines, care for them, market the crop and turn the profits, which, it is promised, will be big, over to the owner. But this dream never comes true. The so-called guaranteed big profits are never realized. If people would only stop long enough to consider all angles of an offer like that before investing they would see the folly of plunging blindly into such a proposition. Let them ask themselves only this one question: "If it is true that such big profits are to be made, why

is the seller so eager to part with his property, even to the extent of making it easy for a new owner to farm it?" The answer is that the land is not worth the selling price, nor will the profits derived from it be anywhere near as large as promised.

Buying into the fox business, the poultry business, the dairy business, or any kind of business is risky unless you deal with reliable persons or firms whose word is as good as gold. Watch the seller who is insistent in forcing a sale upon you. Look at his proposition from every angle. Just because he makes glowing promises is no assurance that he is not the world's champion exaggerator. Extravagant and exaggerated claims are the earmarks of the fake investment. If you want to go into farming or buy into a business, investigate before you invest. Write to the National Better Business Bureau, New York, or consult your local banker. If they are without information on your proposed investment, wait until they can get the facts and report to you. They have no interest at stake except to forestall crooked games.

MODERN FACILITIES MAKE PROPERTY VALUES

Land values, are almost wholly measured by their position with reference to essential public services—such as transportation, communication, power and light, water and fuel.

No man now-a-days builds his home where these facilities do not exist.

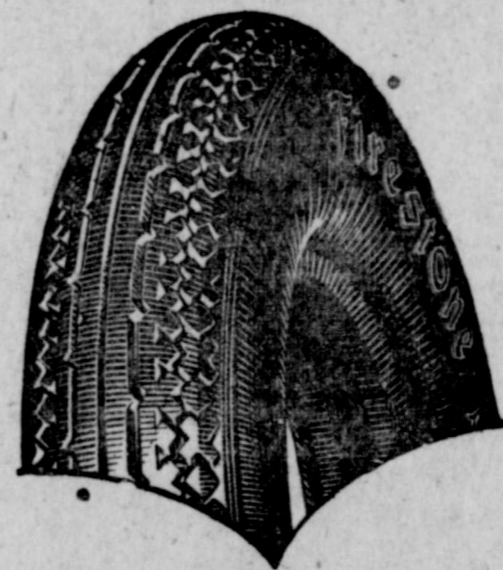

So the presence of telephone service, for instance, is a determining factor in the value of a homesite and in the value of a home. The superiority of such service is an additional measure of value and desirability.

A demand for this service generally brings the service. This very demand for it proves the interest of the people in it.

A good community with good homes and substantial industries is always a result of co-operation between the people and the essential public services that are known as public utilities.

DEAD CHURCH MEMBERS

A pastor a short time ago made a very serious mistake at a funeral occasion. The remains of the departed one were lying in the casket before the pulpit, and in the course of his funeral sermon, said, "This corpse has been a member of my church for ten years... He made something of a mistake about that man, but it could be said about a good many members of a good many churches, and not make any mistake at all. "I know thy works that thou hast a name to live but art dead," Rev.

HAPPY CHILDREN ENJOY BUTTERFLY LAWN PARTY

Lawrence Morrison Stokes was four years old on Friday and his mother, Mrs. M. Y. Stokes, Jr., arranged a delightful outdoor frolic for him in honor of the occasion. Edward Eugene Palmer his cousin who is here for the summer while his mother is attending the University Summer school and who was four years old on Saturday, shared the honors and had a birthday cake, all his own, in token thereof. Pink roses and butterflies were intermingled in an effective decoration for the occasion and the tiny tots in the white and rainbow colored garb, looked not unlike human butterflies as they flitted joyously from one pleasure to another.

The butterfly motif was prominent in the games arranged for the afternoon one of which was pinning the butterfly on the rose, for which a huge pink rose was arranged on a sheet and the little folk blindfolded, attempted to pin butterflies near the heart. Those who succeeded were given whistles as favors.

Teasing the butterfly was another favorite pastime. For this butterflies were suspended by thread from a line, and the youngsters given balls with which to hit them.

An animal hunt in which bears, lions and other dangerous animal crackers lurked in leafy covers about the lawn, afforded many a thrill and marching games in which all the children took part, filled in the intervals, while bright colored balloons given as favors, delighted the marchers. Pink and white ice cream was served and the two birthday cakes which were embossed with roses and butterflies in pink and white, were cut.

Assisting Mrs. Stokes in entertaining the children were: Mesdames: Albert Moore, Louis Goldberg, J. Rosegrin, George Rowley, N. J. Alexander, J. W. Kelley, J. A. Palmer, Leonard Doughty, Martin Anderson, R. L. Burdette, W. R. Davis, W. A. Dyer, Tom Hayden, A. M. Scott, D. M. Bartlett, L. L. Stevenson — Austin American-Statesman.

OBITUARY

Monroe Henry was born March 6, 1905, died June 11th 1927, making his stay on earth 22 years, in which time he was an honor to his parents and a blessing to his community. He was loved and respected by a host of friends and he was a friend to the whole of humanity. This young man who was a gentleman in every respect, has been for some years a central figure in athletics in the Star High School, always composed, on the alert and a clean sportsman, and so accepted and respected by his adversaries.

He was working at the thresher for J. Y. Hamilton when taken with a serious intestinal trouble that the surgeons could not relieve, and died in the Hamilton Sanitarium.

The funeral service was held at 2:00 o'clock Sunday afternoon at the Hurst Cemetery and was conducted by W. M. Roberts.

There was every expression and manifestation from the great congregation that pointed to a noble life that had been lived aright.

The Harlin Brothers and Sisters from Evant rendered some beautiful songs.

The bereaved are his father, J. J. Henry, grandmother, Mrs. M. C. Henry, his uncle A. A. Henry, cousin, Noble Henry, and his only brother, Connie, who was in New Mexico and arrived Tuesday. His mother died when he was small. There are other relatives of the deceased that mourn his loss, but the ones named compose the

home. We cannot say or ask why God has done so, we can only say that he knoweth best and be submissive to His will, and rejoice in our hearts that the life claimed from this world of sin and sorrow was prepared to meet God.

Monroe professed religion about two years ago, and has always proved his faith by his works, being courteous, quiet and christian-

ly in his daily conduct. The entire community and surrounding communities mourn his loss and express deepest regard and sympathy, especially to "Father," "Brother," and "Dear Old Grandmother."

Sam, Old Accordion Man Is Hero of New Song

WALTER DONALDSON
He just plays chords—that make you feel grand.— They call him Sam, the old accordion man.

Walter Donaldson Immortalizes Pioneer Negro Musician

New York City.—Sam, the old accordion man of the New Orleans levees has been immortalized in melody by Walter Donaldson in the song called "Sam, the Old Accordion Man."

The hero of Tin Pan Alley's newest favorite is known to thousands of lovers of tradition in the Southern city, and Mr. Donaldson claims that he is entitled to a niche in history because he did his part to create the structure of modern American music.

"Old Sam is a melodic portrait of an actual old-time darkey who still plays his accordion in romantic New Orleans," the song writer says.

"I found him during a recent southern tour that I made to seek out the old forms of mod-

ern American music. I wanted to view the Dixie bands at home, especially the colored ones, and learn their secrets.

"The accordion man and the banjo player were the chief figures in the beginnings of American music. The banjo has come into its own for no modern orchestra is without it, but the accordion, its mission accomplished, has met the fate of many pioneers—it remains unhonored and unsung.

"Yet old Sam, I'll be bound, had as much to do with the foundations of Tin Pan Alley as any man living today. He played for me some pieces of his own composition and it was quite easy to detect jazz beginnings in them.

"He has promised that, when he dies, his accordion shall be sold to me and I intend to keep it always among my musical treasures as a curiosity and relic."

DEAD CHURCH

We read of a vessel discovered among the icebergs of the Arctic ocean, with the captain frozen as he was making his last entry in the log-book. The crew were discovered, some in their hammocks and some in the cabin, all frozen to death. The last date in the log-book showed that the vessel had been moving for thirteen years among the ice burgs. "A drifting sepulchre, manned by a frozen crew." Are there not churches in the same condition? Chilled by

THE HUMAN TOUCH

An old potter who was shaping the clay into the desired shape by hand was asked by a visitor: Why don't you have machinery to do that?" The old man replied, "We

have tried all kind of machinery and failed, somehow it has to have the human touch." It seems that many of our churches have installed machinery until both the human and the Divine touch has been lost. God has work that cannot be done by machinery, only the human touch can be used of the Lord for much of His work.

**IN MEMORY OF
MONROE HENRY**

Oh, what an awful gloom was thrown over our entire community on Saturday night, June 11, 1927, when God saw fit to take from our midst our dear friend and playmate, Monroe Henry. He is gone from us it is true, and can not come back to us, but by the grace of God we can go to him.

We can't see why he had to go, for we loved him so, and Oh! how we will miss him and the dear, sweet smile he had for everyone. He was a real sport in every way. When he lost a game of any kind, Monroe showed his sportsmanship so manly.

A place is vacant in our games which can never be filled, but God takes the best first, and we love to think of Monroe as being one of the rarest and most beautiful flowers in God's bouquet, for he was indeed a flower just blossoming into manhood. Oh! we are so broken up without him.

His dear old grandmother, father, brother and uncle certainly have our heart felt sympathy, for they will miss his dear voice and sweet smile, but try to think of that blessed reunion where we will all be reunited, never to part again; where there will be no more sorrow and no more tears shed. While we miss him, Oh so much, we love to think of him being safe from all sorrow and care and bye and bye we shall go and there we hope to be with Monroe forever, and ever.

**LOCATING THE FINANCIAL LEAKS THAT
TAKE THE PROFITS OUT OF FARMING**

By DAN H. OTIS

Director, Agricultural Commission, American Bankers Association

INDUSTRIAL lines suffer because of inefficient farms, whose officers cling to old methods and place goods on the market even at a loss, to compete with the more efficient institutions.

Agriculture, too, has this problem to face. We find farmers who fight new methods. They retard the prosperity of other farmers by throwing on the market poor quality products, frequently produced at a loss.

The nature of the banker's business places him in a position to help this type of farmer as well as the more progressive farmer. At the same time the banker can assure himself of good loans based on the farm as a going concern.

A study of the investments, sources of income and expenses of the successful farmers in his community will give the banker a measuring stick by which to gauge the hazard entailed in furnishing loans to other farmers. This study is readily accomplished through the use of summaries of farm records. In the absence of good records, survey blanks which can be obtained from the agricultural colleges, may be used for collecting the information.

A banker in a dairy district would use data similar to Farmer A's summary in the following table as a measuring stick to judge the condition of Farmer B:

	Farmer A	Farmer B
Farm receipts	\$5,465	\$2,214
Farm expenses	2,122	1,672
Receipts above expenses	\$3,343	\$1,542
Interest on total investment @ 5 per cent.	1,070	889
Net income after deducting interest	\$2,273	\$653
Acres	127	120
Total investment	\$21,400	\$19,775
Operating capital (machinery, live stock, equipment)	5,862	4,473
Number of cows	18	11
Investment in cows	\$2,302	\$1,205

The total investment of Farmer A is moderate with a large percentage (27 per cent) of operating or working capital. Farmer B is low in operating capital. The number of cows is also low, which is reflected in the farm receipts, these being \$3,251 less than those of Farmer A. The expenses of Farmer B, although about one-half of those of Farmer A, are, nevertheless, high in the ratio to receipts.

The only way to safeguard a loan to Farmer B is to consider assets and not income. Before any loan should be considered at all the banker and the farmer should go over the situation, uncover the leaks and outline a definite program of improvement.

Diversity of Business Good Sign

	Farmer A	Farmer B
Income from crops	\$1,476	\$851
From dairy products	2,343	752
Sale of livestock (including increased inventory)	1,656	280
Miscellaneous income	327	151

A good diversity of income serves to protect the farmer against years of over-production of any one farm product. Farmer A has a good diversity of income. Notice that the leading source of income, dairy products, constitutes less than one-half of the total income. The various enterprises that make up Farmer B's diversity of business all show marked decreased income.

Quality of Business Shows Leaks

	Farmer A	Farmer B
Receipts per cow	\$199	\$68
Receipts per livestock unit other than cows	94	32

Under the heading, "Quality of Business," Farmer B shows that his cows are bringing in \$62 less per year than Farmer A's. The \$88 a year which they are producing is undoubtedly below the cost of feed and keep. The income per live-stock unit is still worse, and while this farm needs more cows to increase its volume of business, it would be financial suicide to invest in the same type of cow. This poor farmer must weed out his poor cows and feed the balance properly to get results before money is loaned to him to increase his herd with good stock.

An analysis of the farmer's records will bring out many other leaks which the farmer may not have noticed. He may be paying high prices for feed when less money spent for fertilizers and lime may enable him to raise the right kind of feed on his own farm and stop this drain on his pocket-book.

Barring temporary emergencies, farm loans handled on the basis of income, indicating a going concern, would hasten tremendously the day of a permanent and prosperous agriculture.

SHERIFF SALE

The State of Texas
County of Mills.

Notice is hereby given that by virtue of a certain Order of Sale issued by the District Clerk of Mills County, Texas, on the 7th day of June, 1927, on a judgment rendered in said District Court, cause No. 2193, and styled A. T. Pribble vs Henry Morris, Grover L. Dixon, T. C. Head and R. M. Sparkman, the said A. T. Pribble recovered a judgment against Henry Morris, Grover L. Dixon, T. C. Head, and R. M. Sparkman, for one thousand, one hundred and fifty dollars and all costs of suit, with foreclosure of Vendor's Lien, on 88 acres of land out of the F. M. Whitten survey in Mills County, Texas, and placed in my hands for service, I. C. D. Bledsoe, as Sheriff of Mills County, Texas, on the 8th day of June, A. D. 1927, levy on said real estate 88 acres of land out of F. M. Whitten survey No. 1, Abstract No. 987, located about 8 miles north east of Goldthwaite, in Mills County, Texas, and levied upon said land of the defendants Henry Morris, Grover L. Dixon, T. C. Head and R. M. Sparkman, and on the first Tuesday in July, A. D. 1927, the same being the 5th day of said month at the court house door of Mills County, Texas, in the town of Goldthwaite, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash to the highest bidder all right and title and interest of the above defendants, Henry Morris, Grover L. Dixon, T. C. Head and R. M. Sparkman, in and to said land. And in compliance with the law I give this notice by publication, in the English language once a week for three consecutive weeks immediately preceding said day of sale, in the Goldthwaite Eagle, a newspaper published in Mills County.

Witness my hand this 8th day of June, A. D. 1927.

Was In Misery All Over

"I was in a dreadfully run-down condition," says Mrs. Chas. L. Lacroix, of Montgomery, La. "I suffered a great deal of pain. I was in misery all over. I could not sit up and I could not lie down. I couldn't sleep and at times I would have dreadful vomiting spells. The aches and pains seemed to cover my whole body.

"One night my husband brought me home six bottles of Cardui and I began to take it. I could tell that I was improving from the first bottle, but I kept on taking the medicine, for I knew that I needed a tonic that would build me up and strengthen me, where I was weak and run-down. That is exactly what Cardui did for me. After I had finished the six bottles I felt fine.

"I feel truly thankful for what Cardui has done for me, for I could not have gone on living in the desperate condition I was in."

For sale by all druggists.

J. J. COCKRELL HAS FINE PEACHES AND PLUMS

Our good friend, J. J. Cockrell, of the Big Valley community, owner of the Riverside Fruit Farm, gave us a basket of fine Improved Mamie Ross peaches the first of

this week. These peaches were of exceptional flavor and exactly "hit the spot."

Mr. Cockrell is a consistent user of the classified section of the Eagle and states that he gets wonderful results. For example; he advertised beets for sale recently and sold all his and all his neighbors as a result of the little advertisement. Mr. Cockrell has applied business principles to farming and has made the most outstanding success of it of any man in this county.
