

THE GOLDTHWAITE EAGLE.

VOLUME THIRTY-FIVE.

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, MARCH 15, 1929.

NUMBER TWENTY-EIGHT.

A NEW GRAMMAR SCHOOL BUILDING

CONTRACT TO BE AWARDED NEXT MONDAY

The Goldthwaite School Board is preparing to contract next Monday for the erection of a new Grammar School Building, authorized by the taxpayers in a recent election when bonds were voted to pay for the building. A number of contractors have the plans in hand and are prepared to make their estimates for the erection of the structure, which is to be one story and have a floor space of possibly 14,000 square feet. It will contain nine class rooms, an auditorium and library connected and an office. The auditorium will be the largest in the city and will be of vast benefit to the school and the community.

The building will be located north of the present high school building and will face south. The old grammar school building will be razed and the timbers and other materials in the house will be used in the new building, while the rock in the walls will be crushed for mixing with the cement. The new building will be brick veneer, with reinforced concrete and will be practically fire proof.

As soon as the contract is made with the erectors and full particulars as to plans can be secured, the Eagle hopes to be able to give full details as to the arrangements and will possibly secure a photo of the building as planned.

COOKING SCHOOL VERY INTERESTING

One of the most interesting entertainments that could have been planned for the ladies of this city and section was the cooking school under the direction of the Texas-Louisiana Power Co. this week.

Miss Merzman, economist from the Hotpoint Range Co. was secured for the demonstration and Mr. Kirbo, range specialist, has been present to assist in giving information and instruction to the ladies interested in the electric cooking system. Large audiences have assembled at the company's office each day and Mr. W. C. Barnett, local manager, assisted by his office force, has provided every facility for the ladies to secure all the benefits of the cooking school and be well entertained at the same time. The school closed yesterday, but many housewives will long remember the courtesies and benefits they received from the Texas-Louisiana Power company, its officers and employes.

A FINE BAKING PLANT

Goldthwaite can boast of one of the most modern and complete baking plants in Texas, and certainly no town the size of this can boast of a better plant, since there are none better. Frank Taylor, proprietor of the Blue Ribbon Bakery, has just finished installing a Meek Reel oven with a capacity of 184 loaves of bread every 20 minutes, as well as other machinery calculated to prepare and do the best quality of baking and expediate the business as well. Being an experienced baker, Mr. Taylor knows just what a first class bake shop requires and has installed the latest and best equipment for facilitating the work as well as maintain it not in reality improving the quality of the products of his bakery. An inspection of this bakery is really interesting and will prove that no housewife's kitchen is more sanitary in every way than this place. Mr. and Mrs. Taylor are to be congratulated upon their enterprise in making the investment required for these improvements.

Real Estate Active Throughout County

SOME BIG DEALS

The improvement and progress are not confined to Goldthwaite, as the real estate transfers and other transactions throughout the county will prove. Real estate activities and values are safe indications of the conditions in the country and the faith and confidence of the citizens in the future as well as the present standard of values.

Among the real estate deals recorded in the recent past in the county are included the purchase by Barnes & McCullough of 1232 acres of land out of the Laird estate, in the Mount Olive community.

W. P. Weaver purchased 855 acres 11 miles north of Goldthwaite on the Pecan Belt highway, from J. K. Lancaster.

F. M. Head bought 400 acres of the McKnight property.

Chas. Cornelius bought 500 acres from the Forsythe estate in Ridge community.

L. B. Porter purchased 300 acres of the A. J. Thwait land in Mount Olive community.

C. C. Bledsoe bought 60 acres from Luther Rudd.

George Tieman purchased 244 acres from Chas. Tieman out of the McDermott land in Friddy community.

Mrs. McCoy bought the D. J. Reynolds homestead on Mullin creek, two miles south of Mullin.

Johnston and Rudd bought 300 acres in Miller Grove community from Mrs. J. N. Weatherby and Judge E. B. Anderson.

D. J. Crawford bought 1100 acres out of the Kelso estate in Ridge community.

J. A. Curtis, Jr., bought 1884 acres in Ridge community from the Curtis heirs.

J. J. Stanley and J. O. Byrum bought 111 acres of the Anderson estate in Mount Olive community.

AN IMPORTANT MATTER

It is important to the Goldthwaite schools and to the parents and other patrons of the schools that every child within the school age should be enumerated before April 1, in order that the public free school funds may be apportioned for all. The Board has secured the services of Mr. W. M. Johnston to take the school census and every patron of the school or guardian of children is requested and urged to have their children enrolled by Mr. Johnston before April 1. He will call at the homes, but in case he does not secure the enlistment of the children, the information should be phoned to the Chamber of Commerce office, or a personal call at that place will receive prompt and courteous attention.

Don't neglect this very important matter.

Goldthwaite School Board.

TEACHERS MEETING

The Sunday School teachers of the First Baptist church met in the home of Mrs. Robert Littlepage Tuesday evening at 8 o'clock with our Superintendent, Mr. Toland, presiding. After a general discussion of our Sunday School work, Mrs. Littlepage and Mrs. Floyd Jackson were named as a committee to arrange a program for our monthly meetings, which will be on the first Monday night in each month.

A dainty refreshment of cake and hot chocolate was passed, after which the meeting adjourned to meet with Mr. and Mrs. E. B. Anderson on the next regular meeting night.

NECESSARY DELAY

Several communications, some local items and a number of advertisements appear in this issue that should have appeared in the last issue, but it was impossible for the Eagle's force to handle them, without a delay in issuing the paper, or leaving out other advertisements and articles that could not wait. Everything was lovely for the edition Thursday, when at eleven o'clock there was a call for a full page advertisement that was not expected and could not wait until this week. Plans had been made to take care of the business and there was not time to prepare an extra run of two or four pages. The work of reconstructing the last four pages of the run had progressed to a point where the forms were about ready, when a telegram from Detroit called for about one-fourth page that could not be delayed. All of these special calls made it absolutely imperative to take care of the business and there was nothing left for the Eagle workers to do but leave out part of the matter prepared that could be carried over. The management, sincerely regrets the carrying over of the community letters, which appear in this issue, but it could not be helped and an effort will be made to provide against such contingency in the future.

METHODIST CHURCH

Many expressions of appreciation of our service last Sunday have been heard: "I enjoyed that sermon Sunday night," "I enjoyed that morning service," "Good music" and "A wonderful communion service" were among the comments heard. Part of these may be true. We are happy that we tried to make all these comments true. We bear all the blame of any degree of falling short, and would praise God for every degree of success. The unmistakable fact underlying each and all comments and unexpressed opinions is the response of the heart of genuine participation in the worship. "Blessed are they that hunger for they shall be filled, they that seek shall find, to him that knocketh it shall be opened." A service is inspirational only as there are hearts ready to be inspired. The most sumptuously filled table is not a feast—not even a meal—until there are present those with a relish or a need to be filled. Heaven's bounty is useless to those who turn it away. Go to church next Sunday; go seeking for a higher appreciation of God and goodness; go knocking at the door for a more inward and immediate fellowship with God; go hungering for a more complete infilling of His grace. Bring some one with you. A cordial welcome and warm fellowship awaits you at any church in our good town. We specialize in helpfulness.

Sunday, March 24, and each night following until and including Easter, we will have services at the Methodist church. All Methodists are expected to co-operate. All others cordially invited. Services only at night.

S. D. LAMBERT, Pastor.

TEACHERS ELECTED

The Goldthwaite school board has already elected Prof. D. A. Newton, superintendent of schools, and Mrs. Joe A. Palmer, principal of the grammar school for another term and will elect the other teachers in the coming session.

ADVANTAGES RECOGNIZED

Some of the advantages and progress of Mills county has been noted by the Santa Fe railroad's magazine, The Earth.

In the last issue that paper says under the heading of "Mills County Prospects":

Mills County is facing prospects for a prosperous year. The county is in better condition than ever before because of the continued tendency toward diversification. Plans are under way for more extensive dairying since the cheese factory has been built at Goldthwaite, which will give ready sale for sweet milk the year round. A large power plant and ice factory is being built at Goldthwaite by the Texas-Louisiana Power Company and an oil line is being completed across the county. A contract has been let for a large gas line from Brownwood to Waco serving Goldthwaite and intermediate points.

A BAD BURN

Frank Taylor, proprietor of the Blue Ribbon Bakery was badly burned Saturday evening, while engaged in moving the oven in his bakery. In some manner the steam blew out in his face and he was painfully burned and scalded about the face, chest and throat. Fortunately, his eyes were not injured by the burn, but the burn was very painful and it will be some time before he fully recovers, although it is not thought here will be any permanent signs on his face or body.

NOTICE

There will be a mass meeting of all those interested in the education of the children of Mills County at the court house at Goldthwaite, Texas, on Saturday, March 16, at 2:00 o'clock. There will be skilled school people there to discuss school finance and answer any questions you may want to ask.

The matter of creating the office of county superintendent will be discussed. There are several reasons why you should be there.

First—The present is a critical time in the history of rural education in Mills county. The rural schools are facing a crisis. The next five years will see many changes made. Will these changes be for or against the rural school?

Second—The following questions are of vital importance to you. The manner in which you answer these questions may perhaps determine the future of your own child, as well as the future of rural children in the county.

Question 1. Do the children of rural districts now have adequate high school facilities in reach of them?

Question 2. Is it possible in this county for the rural children to have these high school facilities?

Question 3. Can you without a county school superintendent ever hope to get rural high schools in your communities?

Question 4. Do you see any indications of improvement in the rural schools under the present system of county school supervision?

Question 5. How many schools in the county teach above the eighth grade?

Question 6. Do you know how many children above the eighth grade have to leave home to get a high school education?

Question 7. Do you know how many children above the eighth grade will be entirely without further training if no improvement in the school system of the county is made?

Question 8. Can you, as parents, afford to send your children above the eighth grade, away from home influence and the exercise of parental control in order for them to secure this high school training?

Question 9. Can you, as parents, afford to pay the bills for this education that your child gets away from home when you might have a high school nearer home?

Question 10. Which is the cheaper for you: to send your child away from home, pay board and other expenses incident to his education, or to help pay for a county school superintendent out of your available funds to help to build up schools in reach of your children?

Question 11. Are you going to regard this question of a county school superintendent from a common sense viewpoint or are you going to be influenced by sentimentality?

Question 12. Are you willing to help to smother out THIS, the first real movement for better rural schools in the county?

Question 13. Can you afford to sign a petition against this movement without giving the matter careful consideration?

Question 14. Did the opponents of this movement give you any good reason why you should leave the situation like it now is—with the rural schools drifting toward dis-

COMMISSIONERS COURT

The Commissioners court has been in session a part of this week and will convene Saturday, to complete the business of the term.

At this time routine matters of the county were given attention and some official reports were checked. The highway license funds collected since last report were checked over and divided to the different precincts. Precinct No. 1 received \$214.35; No. 2 received \$98.53; No. 3 received \$142.49; No. 4 received \$78.71.

GINNERS REPORT

W. H. Oglesby, reporter for the department of agriculture for this county, has made his final report on the cotton crop for the past season, which shows 8460 bales ginned in this county for the season of 1928-29.

CENTER CITY

We certainly welcome the old editor home and hope, with others, that he will continue his good work for many, many years yet.

A fine rain fell here Tuesday morning and soon the clouds passed away leaving an ideal spring afternoon. Every one seemed proud and anxious to enjoy the sunshine so the school held their contests to decide winners for the county meet. Many visitors were present and much interest was shown. Now we hope our boys and girls will be winners again.

Boyd Yeager visited his mother last Sunday. She is very ill in a sanitarium at Hamilton. He reported her condition improving.

Mr. and Mrs. Sherwood Owens are the proud parents of a new girl.

We regret to learn that the little son of Mr. and Mrs. Tom Booker is quite ill at this writing, and hope he will soon be improving.

Delma McCasland of New Mexico is here visiting relatives and friends.

Herbert Coffman visited in Hamilton in the B. M. Muse home last week-end. Elmo Muse accompanied him home for a few days visit.

O. C. Langford and family are here visiting relatives.

Mr. Paul Jones of the Plainview community was a business visitor in Center City last Tuesday.

J. M. Oglesby and family visited in Big Valley Sunday afternoon.

Byron Reeves is suffering with a broken leg. Last week a team hitched to a plow ran away, causing the accident.

Mrs. Ira Hutchings and two sons of the Center Point community spent Friday with her sister, Mrs. J. M. Oglesby.

Our best wishes to the Eagle and its readers.

X.

Question 15. Does not the contentment and prosperity of Mills county depend, in a large measure, upon the condition of the schools in the county?

Question 16. Will a good school near you increase the value of your property?

Question 17. Would an experienced school person working for your interests all of the time be of any value to you?

Consider these questions seriously and come to the mass meeting prepared to express yourself.

ANNIE LAURIE PETSICK, Chairman of Movement.

ROCK SPRINGS

I hope these crumbs will be able to jump the waste basket, for I guess last weeks' items fell in. I failed to see them in print.

Mr. Abijah Stark and family visited R. C. Webb and wife Sunday afternoon.

E. E. McKnight and family from Brown County visited J. F. and Joe Davis Saturday night and Sunday.

Marion Robertson and family and Adran Long and wife of Big Valley spent Sunday afternoon in the Traylor home.

Engene McNutt has been ill recently, but is improving at this writing.

Glenn Nickols and Fred Sullivan sheared John Edlin's goats at Center Point last Tuesday.

Mrs. W. W. Fowler of Dallas visited her sister, Mrs. Jno. W. Roberts.

Glenn Nickols and Fred Sullivan are busy shearing goats this week.

Arthur Smith visited J. C. Stark and family and his wife last week-end.

Abijah Stark and family sat until bed time with Jesse Lowe and wife Sunday night.

J. O. McClary and wife and Mrs. Sam Self and Eula Nickols, visited Ashley Weathers and George Bohannon Sunday afternoon.

Sam Self spent Sunday afternoon in the Webb home.

Mrs. Hillard Dyeche and boys from Breckenridge visited her parents, J. T. Robertson and wife, last week.

Joe Davis and wife visited in the J. C. Stark home last Friday.

Several from here attended the tent show in the city last week.

Rudolph Cook missed some school last week as he was feeling badly.

Philip Nickols planted his mother's corn crop last week.

Dan Weston and wife from San Angelo, Texas, visited in the Cooke and McNutt homes last week-end.

Mrs. Dan Westerman and Mrs. Joe Huffman and children visited in the McNutt home Saturday.

Julius Brooks from Bulls Creek spent Saturday night with Jack Robertson.

Miss O'Leta Daniels spent Saturday night with Jack Dennard's in the city.

Grandmother Graham spent Sunday in the Traylor home.

Mrs. W. A. Daniel and Billie Ruth visited Jack Dennard Sunday.

Jno. W. Roberts and wife and Mrs. W. W. Fowler went to Brady Sunday to see Ernest Strickland and family.

Miss Johnnie Belle visited home last week-end.

Miss Florence Stark spent Friday night with the Ellis family, who live on the river.

Mrs. Sam Self visited Mrs. J. M. Traylor and Mrs. J. T. Robertson last week.

Mrs. Woody Traylor and Greta Marie visited in the Robertson home Friday.

Oscar Gatlin has had quite a bit of work done on his car.

Miss Faye Ellis spent last Saturday night and Sunday with Miss Florence Stark.

James Nickols spent Tuesday night with J. A. Stark.

Mrs. Homer Doggett spent Tuesday with her mother, Mrs. Nickols.

Mrs. Eula Nickols spent last Tuesday with Mrs. John Edlin at Center Point.

Tuesday night a few friends surprised Mrs. Jno. W. Roberts with a surprise birthday party. All had a nice time.

Ernest Tyson put a bunch of sheep on the Faulkner ranch this week.

The rain Monday morning was fine. The grass and weeds will grow now and the stock will begin to fatten.

BUSY BEE.

District Clerk Chesser spent Friday in Brownwood.

Mr. and Mrs. R. L. Armstrong are the proud parents of a fine girl, born Saturday night.

M. G. Cline of Caradan community, formerly a prosperous merchant of this city, looked after business here Monday.

Judge and Mrs. J. C. Darroch came over from Brownwood Friday and remained until Sunday with relative, while he looked after some professional matters.

Mr. and Mrs. Goza and son have returned to their home in Anson, Jones county, after spending several days with their friends and neighbors in the South Bennett section.

Dr. and Mrs. Em. Wilson returned Saturday afternoon from an automobile trip to San Angelo, where they visited their children and Dr. Wilson looked after business matters.

Representative Homer DeWolf came over from Austin Friday to look after business matters, returning to Austin Sunday. He reports a very busy session of the lawmakers.

G. W. Smith is considerably improved now, but for several days he suffered severely with an infection in his foot, caused it is thought by the sting of an insect. For several days he was forced to go on crutches.

It is impossible to change the address on anybody's paper unless we are informed of the old as well as the new address. Just to say "Hereafter send my paper to me at Suchaplace," means nothing unless the old address is given.

L. W. Hill of the Lometa section was one of the good men who had business in the city Saturday and called at the Eagle office. He is a friend of long standing of the Eagle man and it was indeed a pleasure to meet with him.

Friends in Mills county were grieved Friday when they learned of the death of J. W. Lumpkin at his home in Miles, after a long illness. Mr. Lumpkin was a merchant in Mullin in the early days and moved from that place to the west, where he continued to make his home until the time of his death.

In the announcement of the new store of Stone & Co. in Brownwood, the Bulletin gives the pleasing information that Richard Slaek is the assistant manager of the business. He is a son of Mr. J. R. Slaek and is a Mills county boy, whose advancement in the business world is very gratifying to his friends. He has been associated with another business firm of Brownwood for a number of years.

D. S. Smith of the North Brown community was in to see the Eagle the early part of the week. He is arranging to move to Waco, altho he has not sold his farm, but will rent it. He has been a long time citizen of Mills county and he and his family have many friends hereabouts. His son is employed in the railroad service and the move is made that the family may be together, the son's children having made their home with Mr. and Mrs. Smith since the death of their mother.

PUBLIC SCHOOL MATTERS

To Superintendents:

We are sending out this week a payment of \$3.50 on the per capita apportionment. There remains \$5.50 yet to be paid. You may expect to receive the major portion of this in April.

Teachers' Contracts—I wish to again call your attention to the fact that the Legislature has not passed the rural aid law for 1929-1931. This will be enacted in the Special Session. No contracts affecting rural aid schools should be made until the terms of the law have been fixed by the Legislature and the State Board of Education. This will prevent much confusion and misunderstanding on the part of teachers and trustees.

Six Year Olds.—No change will be made in the status of the six year olds for the session of 1929-1930. They will not be enumerated until March, 1930, and consequently, will not become the beneficiaries of the free schools until September 1930.

Scholastic Census. The census is being taken this month. Great care should be exercised by school officials to exclude all duplicates. The law is very definite that children shall be enrolled in the district in which they live. There has been some complaint to the effect that local trustees have failed to enroll children who habitually transfer to other districts. Such negligence is a violation of the statute.

County Superintendent's Study.—The State Department has been requested to secure information for a study of conditions affecting county supervision in the state. The Department will have the benefit of the results of this study, and you are requested to fill out the questionnaire and return to this office at your earliest convenience.

Extension of Certificates.—The Legislature has amended the certificate law so that only three college courses are required in summer schools instead of four, and certificates may be extended from year to year by summer school attendance.

S. M. N. MARRS, State Supt.

WHAT DID IT

GET IT

Relief is attained and health regained, even when others refrain. Like the proverb 'Fools walk where angels feared to tread, but they communicated with their God.' Chiropractic can and does affect a cure. There'll be no regrets.

NEED GLASSES?

Dr. Jones, the eye man, will be in Dr. Campbell's office on Saturday, March 16th. See him about your eyes, headaches and glasses.

REMOVE THE CAUSE

Have stomach healthy. Chiropractic will do it. Why suffer? There'll be no regrets.

MARBLE AND GRANITE MEMORIALS

We are now ordering a new car of the Famous Georgia Marble and would appreciate a chance to figure on any you may need. We are in a position to save you money on your needs and at the same to give you strictly first class work both in materials and workmanship.

We will also put in a small stock of granite within the next few weeks. We have one of the best workmen in the South and can give you work in a workman like manner. No job too large or too small to receive our personal attention and best efforts.

33 years in business here and we thank our people for the business given us. I solicit your patronage in the future.

STAR NEWS

(Intended for last week)

The Star High School is progressing nicely. All the pupils are studying hard, trying to make their grades. Four girls will graduate this year—Faye Hill, Choella Soules, Emma Collier, Stella Mae Hurst. We are hoping them great success in the future.

The Glee Club program last Thursday was the following:

1. Reading "The Inventor's Wife" by Jaunita Kieth.
2. Song, "Carry Me Back To Old Virginia" by Rubye Knight, Faye Hill, Mildred and Emma Collier.
3. Jokes by Choella Soules.
4. Piano Solo by Margaret Emdy.

5. Talk on "The Most Famous Comedian" by Ovella Adams.
6. Talk on "Texas" by Audrey Teague.
7. Talk on "Yankee Doodle Airplane" by James Soules.

We hope to have many more interesting programs.

The Star basketball team was defeated Saturday, but we enjoyed the day. Mullin treated us very nice. We enjoyed the game with the Goldthwaite girls.

The Star girls have organized a baseball team. It is as follows: Pitcher, Ruby Knight; back stop, Lora Perkins; first base, Jaunita Keith; second base, Choella Soules; third base, Melba Gent; left short stop, Ovella Adams; right short stop, Ruth Roberts; left back field, Cassie Knight; right back field, Clara Wall. We are working the team out this week.

Several of the young people from Star attended the singing convention at Liberty last Sunday.

There will be singing at the Methodist church house Friday night. Four singers from Hamilton are coming to help us out. Every one is invited. Come out and let us hear your voice in the choir.

Brother Leach of Brownwood will preach at the Star Baptist church Saturday night, Sunday and Sunday night. Come and hear him.—LADY BLUE.

TRIGGER MOUNTAIN

(Intended for last week)

Church was well attended Saturday night, Sunday and Sunday night. Bro. Leach filled his regular appointment.

Mrs. J. M. Baker and Mrs. Greene visited Mrs. T. B. Graves one day last week.

Mrs. Jess Tullos and Irene visited in the J. K. Davis home last Tuesday.

Tom Clark Graves of State University, spent the past week end at home with his parents.

Paul Guthrie spent Sunday with J. B. Lewis.—BLUE BIRD.

RESOLUTIONS OF RESPECT

To the worshipful Master, Wardens and Brethren of Center City Lodge No. 558, A. F. & A. M., Center City, Texas:

We have again been called to bow in humble submission to Him who doeth all things well. We, your committee, with our hearts full of sorrow, are pained to report that another member of our lodge has answered the last Roll Call.

On Saturday, February 23, 1929, death claimed the mortal form of our beloved brother, Ben H. Johnson, who was raised to the Sublime Degree of Master Mason at Center City July 11, 1914. He was born in Johnson County, Texas, June 19, 1885.

As it is the Heavenly Father's will, in His infinite wisdom to remove Brother Johnson from our midst; therefore, be it resolved:

1. That we bow in humble submission to our Father's will.

2. That we cherish the memory of Brother Johnson.

3. That we tender our sympathy to the bereaved family and that we pray the Lord may guide and bless them.

4. That these Resolutions be spread on the Record Books of Center City Lodge No. 558, A. F. & A. M.; that a copy be sent to his family, also a copy sent to the Goldthwaite Eagle for publication.

Respectfully submitted,

Wm. BIDDLE

THE COMPLICATIONS AND AFTER EFFECTS OF THE INFLUENZA

The most common complications of Influenza are pneumonia, empyema and pleurisy. The most common after-effects of Influenza and its complications are bronchitis, neuritis and gall bladder trouble. A persistent bronchial cough hanging on for weeks or months following influenza should be given attention. Persistent pains in the shoulders

and thorax are of equal importance. Digestive derangements should also be given careful attention.

In all of these conditions, Chiropractic is most effective. The record of results obtained through Chiropractic adjustments in cases of influenza has not been equalled by any other school of healing, and if one suffers from these after effects, they should seek the Chiropractor as the logical means of obtaining permanent relief.

There'll be no regrets.

Keep Them Up in Condition

IT'S ONE THING to start the season with mules in good condition. But it's another thing to keep them that way.

It takes good feed—a feed that will hold them till they toughen up.

Purina Omolene will do it. Omolene is more nutritious than corn or oats. It is highly digestible. And it is balanced.

You can't work 'em down if they're Omolene fed. Ask the Checkerboard feed dealer about it.

Fuel system of the new Ford has been designed for reliability and long service

THE practical value of Ford simplicity of design is especially apparent in the fuel system.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel, tinned plated to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford is only 18 inches long and is easily accessible all the way.

The gasoline passes from the tank to the carburetor through a filter or sediment bulb mounted on the steel dash which separates the gasoline tank from the engine.

The carburetor is specially designed and has been built to deliver many thousands of miles of good service.

Since all adjustments are fixed except the needle valve and idler, there is practically nothing to get out of order.

The choke rod on the dash acts as a primer and also as a regulator of your gasoline mixture. The new hot spot manifold insures complete vaporization of the gasoline before it enters the combustion chamber of the engine.

As a matter of fact, the fuel system of the new Ford is so simple in design and so carefully made that it requires very little service attention.

The filter or sediment bulb should be cleaned at regular intervals and the carburetor screen removed and washed in gasoline. Occasionally the drain plug at the bottom of the carburetor should be removed and the carburetor drained for a few seconds.

Have your Ford dealer look after these important little details for you when you have the car oiled and greased. A thorough, periodic checking-up costs little, but it has a great deal to do with long life and continuously good performance.

LEGISLATIVE ACTS

Austin, Texas, March 13 — (UP)—The 41st Legislature which ends this week will go down in political history as one of the most hectic since reconstruction days.

No single measure or incident will make it remarkable like the impeachment session of former Governor James E. Ferguson, but a half dozen incidents and measures of major interest will keep it long alive in memory.

Most spectacular of its events was the advance of Hidalgo county's motor caravan in a 300 mile drive to knock at the door of the house and demand recognition of the ancient "right of petition."

To West Texans the outstanding measure of the session is the river beds title bill. Almost as large a delegation as that from the Rio Grande Valley besieged the Legislature in its behalf. Final passage over the Governor's veto rewarded their diligence.

Politically the most important action was the passage of the Wirtz-Negley bill to discipline Hoovercrats. The power it gives to bar from the Democratic primaries in 1930 all who voted against Alfred E. Smith probably never will be exercised. That the state Democratic Executive committee will bar as candidates any who led the "Hoovercrats" is likely. It is more than a year until the State Executive Committee meets and by that time much of the feeling engendered by the presidential campaign will have subsided.

Attempts to repeal the Search and Seizure law caused a fight almost as stubborn as that over the Negley-Wirtz bill. Backed by the W. C. T. U. and the Anti-Saloon League, the demand for repeal of this act was carried on with vehemence. The act penalizes officers for illegal search. Governor Moody is to be asked to submit its repeal at the special session of the Legislature to be held in April.

An agreement was reached between the Senate and the House by which disposition of University oil and gas leases will be participated in by both regents of the University and the state land commissioner. The compromise provides joint handling by two regents and the land commissioner with further provision that the leases shall be executed by the land commissioner, thus giving him an opportunity to contest any lease the regents might favor.

State road bonds and state prison reclamation which loomed as the major issues at the opening of the session, dwindled in importance as the session progressed and they were whittled down to little resemblance of their original form.

The prison bill went back practically to the form which the anti-Administration forces agreed two years ago. That authorized the prison board to make plans for relocation or centralization but retained the right to the legislature to have a final say.

The road bond issue dwindled from a \$350,000,000 proposal, backed by the state real estate, to one of \$175,000,000 with provision that only \$100,000,000 of that should be for new construction. The proposition was also altered so that the bonds could not have an ad valorem tax back of them but only gasoline tax or other special tax.

Two measures backed direct-

ly by Governor Moody got prompt rejection. One was the proposed establishment of a state civil service which, the governor says, he will submit again in April.

The other was his suggestion that the State Comptroller, State Treasurer and Commissioner of the Land Office be appointed by the Governor. Now they are elected at the same time as the Governor.

Senator W. E. Thomason's bill which would practically bar Fraternities at the University of Texas, was sidetracked so it had no chance to get final passage. "Like Truth" it will rise again, said Thomason.

The anti-evolution bill and the bill to legalize horse racing and contribution betting both went down to defeat in the House without reaching the Senate.

Acts of the session will probably be longest remembered are the marriage license bill and the Sunday movie bill.

The marriage license bill requires three days' notice before a marriage license is issued. The man must present a physician's certificate. This bill, like others that were passed with emergency clauses, becomes effective on June 12. The Sunday movie bill legalizes the Sunday movies which have been operating in the face of the "blue law" of 1871. Municipal governments can still bar Sunday movies if they desire.

People still have to vote on many of the changes proposed by the session. It will take a popular vote to raise the salary of the Governor from the present \$4,000 to \$10,000. The people must vote, too, before the legislatures can get \$10 a day instead of \$5. Other important matters in which the legislature's part was only to determine if they should be passed on to the people included the state road bond proposal; permitting West Texas counties to tax University land and enlarging the list of securities in which University funds may be invested.

Four investigations were under way concurrently with the legislative session. Twenty-two charges against the conduct of the highway department and board of control were withdrawn after a committee had gone into them and both departments given a clean bill of health.

The State Banking Department also came out of an investigation with praise instead of censure.

Investigation of the state land affairs and text book bids continued up to the final week.

SCHOOLS GAIN MONEY FROM COURT DECISION

The public school fund of the State of Texas may be increased by several million dollars as the result of a decision in the case of the State vs. J. H. Tippet, seeking to secure for the state half the money received by Mr. Tippet as bonus monies for the leasing of 480 acres of mineral classified school lands in Pecos county. The state was given the decision by the 53rd district court in Travis county.

It is estimated that the sum of \$5,000,000 in bonus money has been received already by owners of mineral classified school lands and if the Tippet decision is upheld by the final courts it will mean that every owner of mineral classified school land must pay half of his bonus money to the state.

The oil business in West Texas has just begun and the possibilities are yet untouched. One 235 acre tract in Crane county sold by the state recently as scrap land has returned to the state the sum of \$200,000 in the form of royalty, though the land only brought the state \$3 an acre when sold.

At the land office in Austin, it was said that many of the owners of mineral classified school land are paying half of their bonus monies to the state, and some few oil companies are remitting half of the bonus money to the state. Whether any attempt will be made to collect the bonus monies from many years past is unknown, and at the land office no one seemed to know. In the meantime the state school fund is being increased monthly by royalties of about \$75,000 and all school lands now sold reserve the mineral rights.

Farm and Ranch. Governor Moody's veto of the river bed title bill was one of the high lights of the session. Though it was passed over his veto with little effort, proponents of the bill decided to play safe and offer a constitutional amendment for the same purpose. The Governor's veto was based on a ruling of the Attorney General that the validation could not be accomplished by a mere legislative act.

Another veto cut off appropriations of rural school aid and for summer schools at various institutions. The veto had to be general as the Governor had no power to change the amounts. After conference with him the amounts were sealed down and offered in new bills.

Early in the session he vetoed bills that would have increased fees paid to sheriffs and amended the inheritance tax bill.

Several of our people were out of town Sunday attending a funeral of one of their relatives at Lampasas. We extend to them our deepest sympathy, and pray that God will comfort their bereaved hearts.

Dr. Marion E. Hudson, pastor of the First Baptist church of McKinney, Texas, has been secured as preacher for our annual revival. He is one of our best preachers.

Splendid congregations at both services Sunday, yet we can take care of a few more. More young people were in the services Sunday night than usual. It is a fine thing for the young people to go to church, and we are happy to have them worship with us. Sometimes this writer thinks the young people are somewhat neglected. I believe if our churches would make some preparation to look after our young folk it would not be long until we would have them tied on to our churches. Certainly there are exceptions to all rules. Some will never be tied to anything but the "jazz" way of living and those are to be pitied rather than censured. Just remember that we were young once, and people said we were going to the devil, but we haven't gone yet. I believe that the average boy and girl today is as good as the average boy or girl of yesterday, and if the older people were as interested in the young of today, as they were in the young of yesterday, many of our problems with our young people would be solved.

The B. Y. P. U. meets Sunday afternoon at 5:30. We are anxious that all of our young people come. The B. Y. P. U. is the training school of our church. Every boy and girl should be in the "sunbeam" band or the B. Y. P. U. Miss Vann is our Sunbeam leader, while Mrs. Jackson, Mrs. Bledsoe and Mrs. Ross are our B. Y. P. U. leaders. All are interested in our boys and girls and are efficient leaders. Why not all of us lend to them every atom of our influence to help them make this part of our work a success?

BEMUDDLED TAXATION

In Texas it is possible for property to be in five different taxing municipalities all at the same time to be assessed a different rate and at different valuation in each of them, and have to pay taxes at as many different places. All the while this property, which is real, tangible, and visible, is bearing this multiple burden, thousands of citizens pay little or no tax to the support of the Government, because the property is intangible, because they own little or no property, and their incomes from personal services are not taxed.

Here is a sample case of muddled taxation on a home in a small Texas city.

Its valuation, according to county assessor, is \$2,500. By the city authorities, \$3,500. By the independent school district, \$4,750. The total State and county rate is \$1.56 per \$100, amounting to \$39. The city rate is \$1.50, total \$52.50. (Of this \$46.66 is for bonds and \$5.84 for maintenance.) The school rate is \$1, of \$47.50. Total tax on a modest family home, \$139 a year, or a little more than 38 cents per day. When the street on which the home is located is paved there will be another tax—heaven help the home-owner.

Now besides the county, the city, and the school district, various kinds of improvement districts may be and in some cases are set up as independent taxing corporations. A drainage district and a water improvement district may encompass the same property. Non-resident property owners scarcely ever know when all their taxes have been paid; even residents must run from pillar to post and keep informed on due dates, penalties, etc., which also vary with different taxing corporations.

tial to provide a single assessing and collecting agency to serve all the various taxing bodies, and that it will work for uniform taxation, less delinquency, and a great deal less cost for the services. The Legislature would win eternal laurels if it would face this problem and provide a solution. There is no more sense in having three or four different men keeping as many sets of books, on the same piece of property than in having the same number of sheriffs in the county.—Farm and Ranch.

FINE RAINS

Several beneficial rains have fallen here during the past week, and reports say they have been fairly general over the country. The ground is in good condition and as soon as it warms sufficiently to bring up vegetation, everything will grow off rapidly and the outlook is indeed encouraging. True, many farmers have not yet planted corn, but cold weather of the past week would have been injurious to the corn had it been up, while if it was in the ground it would not germinate during the cold, so the country is no worse off for the corn not being planted. As soon as the ground dries sufficiently for plowing, there will be a rush of work by the farmers and in another month the whole country will take on an entirely different aspect.

World's Easiest Driving Control

NO OTHER CAR in all the world controls quite so easily—with such complete lack of effort—as the new Nash "400".

Nash engineers have developed a new steering mechanism to achieve this result. An ingenious arrangement of roller bearings and a roller-tooth traveling in a worm gear, reduces friction to a minimum hitherto thought impossible.

Women drivers find new help and gain new confidence in parking. Little effort is needed to bring the "400" up to, or away from, the curb.

Gear shifting is just as easy. The "400" clutch pedal depresses at a touch, scarcely resisting the weight of your foot. The conveniently placed shifting lever moves smoothly, easily, from one speed to another.

If you ever find that driving a car tires you, try driving a Nash "400". It will give you an entirely new conception of how effortless, how pleasurable, motoring can be!

Badly Run-Down

"Six years ago, I was very much run-down," says Mrs. Olympia Knight of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health."

"I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while."

"It was astonishing how much I picked up. I slept better; my appetite improved, and that awful dragging-down feeling left me. I was so much better that I continued taking Cardui until I felt perfectly well."

Cardui has been used by women for over 50 years. For sale by all druggists.

T. P. P. BERRY DIED SATURDAY

The friends here of J. D. D. Berry and family deeply sympathize with them in the death of his brother, Mr. T. P. P. Berry, which occurred at his home near Lampasas last Saturday and his burial Sunday was at the cemetery at that place.

Mr. Berry was born May 30, 1853, and had lived on the same farm in Lampasas county since his marriage. He was a member of the Baptist church and lived true to the faith since he became a member at the age of 24. He was universally recognized by all who knew him as a man of worth and integrity and he was highly esteemed by everybody.

A large number of relatives from this county attended the funeral, among them being Mr. and Mrs. J. D. D. Berry, Mr. and Mrs. John Berry, Mr. and Mrs. D. H. Harrison, Lester Berry, Messdames Luther Rudd and Frank Taylor.

Mr. and Mrs. Sammie Russell, Sam Weaver of the Panhandle and Mr. Dan Weaver of Munday, spent the past week here visiting their brother, W. P. Weaver.

Mr. and Mrs. Jim Rudd, Mrs. W. D. Rudd, Mrs. Guy Rudd and Mrs. Luther Rudd spent last Saturday with relatives in Energy.

Misses Anna Lee and Clarice Ashley spent last week with Mrs. D. C. Ashley in Fort Worth and visited the Pat Stock show.

Mrs. D. A. Weems, who has been living in Ballinger the past six years, moved back to Goldthwaite last week.

Mrs. A. D. Karnes and Miss Clara and Mr. and Mrs. J. B. Karnes visited in Lometa last Saturday.

Mr. and Mrs. Grover Dalton and family visited in the Gus Meyer's home Sunday.

Miss Lula Davis spent the week-end with relatives in Comanche.

Mrs. Ola Howard and daughter Lula visited in Brownwood Sunday.

Lester Lee Moreland has been quite sick this week.

BUILDING CAMP HOUSES

Lacy Thompson and family have moved here from Brownwood and are at home in the residence he recently purchased on Fisher street, just South of the J. H. Randolph home. He intends to erect several camp cottages on his lot and will make preparation for the entertainment of tourists during the summer. He will place a filling station on the property for the convenience of his patrons.

BOY MAKING GOOD

It is with pleasure the friends here of Wm. Ledbetter of Dallas learn of the success he is having in athletics in his school work. He was one of the team contesting for the entertainment of the visitors to the fat stock show at Fort Worth this week. He also made a fine record as member of the cadet battalion of Oak Cliff High. He spent a good portion of his boyhood here and was a student in Goldthwaite public school several terms.

He'll Be Happy ...if he gets a Brownie

EVEN among the more expensive Christmas gifts for children, the low-priced, Eastman-made Brownie camera stands out as the most desirable of all.

There's a fascination attached to picture-taking that makes a youngster yearn for a camera of his own—makes him happy beyond words when he gets it. And it would be difficult to find a more interesting, educational and wholesome pastime for him than taking pictures.

Make your boy's Christmas a happy one with a Brownie from this store. Prices as low as \$2.

Volume Number 1, Thursday, March 15, 1929. Number 14.

Published in the interest of the people of Mills County by Barnes and McCullough.

PAUL McCULLOUGH, Editor

Goldthwaite is coming to the front. So is Spring.

The Mills County Cheese & Butter Factory, under the direction of Mr. W. C. Dew, is constructing a storage room 20x40 feet.

It used to be "your town" and "our country", now it's "our community."

Our cheese factory as well as our town is steadily growing. The growth of our community is natural in character and not a boom type of growth.

Man is like a tack, useful if he has a head on him and pointed in the right direction—but even though he is driven he can go only as far as his head will let him.

Goldthwaite is getting to be one of the busiest little towns

in this section. I went down town yesterday and I could hardly find a parking space.

All nature takes on a different appearance when viewed from the porch of your own home.

Mr. Monroe Fletcher has recently built a new goat shed. Spring seems to be here but a goat gets cold when you take the hair off him.

Another nice thing about having a home is that it gives you a place to wish you were away from.

We have all kinds of poultry wire and garden wire that a person can think of. Yard fencing? Well we have all heights, all sizes and all meshes.

Lady: "Some DeWitts Early Risers, please."

Mrs. W. W. Fowler returned to her home in Dallas Wednesday, after a visit to her sister, Mrs. John W. Roberts, and family in the Rock Springs community and meeting with many of her friends in this city. While here she made the Eagle office an appreciated call and told us that her daughter, Miss Mabel Frances, will secure her A. B. degree from S. M. U. in June. The young lady lived in Goldthwaite a part of her childhood and she and her parents have a host of friends here who extend congratulations to her.

NOWADAYS, the ancient windmill is no more than a quaint reminder of bygone times. The huge sails of these machines are still creaking slowly in many out-of-the-way spots of the earth, but modern man sees the windmill as one of the crude efforts of his ancestors to harness the forces of nature to his use. And how much more efficiently is that done now! Electricity tamed by man can do in a few hours what the old time windmill would take weeks to accomplish.

Don't be an ancestor! Use electrical appliances wherever possible in your home to save labor, time and energy. Electric current is a cheap and reliable servant.

TEXAS

Instinctively

.. they demand the best

Their chauffeurs are the smartest, their motors the finest. Experience . . . the world they live in . . . has taught them to demand the best . . . instinctively.

It is significant that at almost every favored resort there has developed an overwhelming preference for Texaco Motor Oil.

But this tendency, however marked, is not surprising. It merely serves to indicate a growing realization that no engine, regardless of price, is ever superior to its motor oil; that no motor oil is really fine unless it can insure constant, trouble-free service. *And this golden Texaco can, and does.*

Whatever car you drive . . . whatever its type of engine . . . there is a grade of Texaco Golden Motor Oil authorized for it, at the Texaco Red Star with the Green T.

BIG VALLEY

(Intended for last week)
Big Valley is moving to the tune of the pruning hook, the tractor and seed planting, not to mention the angler's rods and the marble games. Come to Big Valley folks, and get busy.

A number of our folks attended the singing convention Sunday at Liberty. There was much good singing; for a report of the dinner ask Howard Weaver and Melvin Doak.

Mr. and Mrs. George Robertson entertained the high school of Big Valley March 4 with the inaugural ceremonies by radio. After hearing the President's address, the class was served to light refreshments by the hostess.

Mrs. Ollie Sykes has returned to Ballinger after a visit to her parents, Mr. and Mrs. T. P. Reed.

G. A. Buchanan was back in the community on business last week.

There was singing at the Big Valley church Sunday night.

Our community was made sad Friday by the sudden death of Mrs. Charlie Kirby. She was buried at the Big Valley church yard at ten o'clock Saturday morning. The funeral services were conducted by Bro. Ivins of Goldthwaite.

Mrs. Bill Griffin continues sick.

Mrs. Walter Nelson is reported better.

Miss Flora Weaver made a visit to Mount Olive Sunday.

Mrs. T. P. Reed has returned from Temple where she has been with her daughter, who was a patient in the Temple sanitarium. FARMER.

MOUNT OLIVE

(Intended for last week)
The birds are singing as if they were trying to tear their throats open and that means hat spring isn't far away.

Mr. and Mrs. Tully Lee are the proud parents of a new boy and son are doing nicely.

Friday afternoon, Mount Olive played midway in the basketball games. The Midway girls and the Mount Olive boys were winners.

Mr. and Mrs. Ball and Miss Gladys spent Tuesday evening with Mr. and Mrs. Orville Harris.

Last Monday night Mr. Jeff Cody and Mr. Hodge ran together. No one was hurt. Miss Alpha and Minnie Cody were with Jeff. The girls were shaken up, and the car was damaged.

Mr. and Mrs. Paul Lee made business trip Monday to Kerr county.

Mr. and Mrs. Aaron Kelley spent Monday evening with Mr. and Mrs. Orville Harris.

Mr. Ball and Orville Harris made a business trip to Hamilton Saturday.

Mr. and Mrs. Harry Couch at until bed time with Lonnie McCarty Friday night.

Mrs. Coga Couch spent Saturday night with Mr. and Mrs. Larry Couch. A PUZZLE.

WHAT OTHERS HAVE ATTAINED
You can if you'll not refrain. Chiropractic will put your liver and digestive system in working order. There'll be no regrets.

A LOCAL DUTY

It is the duty, and should be considered an appreciated privilege by the people of Goldthwaite to care for the cemetery. There is a Cemetery Association formed to keep the grounds and surroundings properly, but they must have finances to have the work done. Some of the Goldthwaite people pay to this most worthy cause gladly and liberally, but the number is too small to meet the needs. Every citizen, whether personally interested in the cemetery or not, should be willing to pay something toward the upkeep and beautification of the cemetery. Doubtless many would do so if they could vision the needs. The association received letter and contribution this week from Mrs. Mayfield in Poughkeepsie, N. Y. Surely if people that far away will help, the local people will be willing to have a part in the work. Those who are willing to pay something and have not done so should send their contributions to Mrs. E. B. Anderson, president, or to Mrs. Eli Fairman, treasurer.

TENANTS AND LIVESTOCK

The common type of tenantry in the cotton belt discourages the production of livestock and poultry. In the Middle West the common type encourages the use of livestock by tenants. The difference is seen in the higher returns and the higher average of good farming in that section.

The commonest type of tenantry provides for and multiplies the hopeless, therefore shiftless, year-by-year tenant in the cotton belt. Prevented or discouraged from ownership of livestock, his possessions are reduced to such as may be loaded upon a wagon or two and moved with little trouble. With a small herd of cows or a large flock of poultry, on a farm equipped to care for them, the moving urge is given a severe setback by the difficulty of moving and of finding another farm where he can take his cows and his poultry.

The shiftless and unsatisfactory class of tenants will be perpetuated and multiplied until they are given some incentive to own and care for livestock, which multiply and grow while the owner sleeps. "Livestock farming is two-story farming," said Dr. J. W. Spillman, nationally known farm authority, recently. "The first story is represented by crops; the second story is represented by the farm animals. In most regions where stock farming prevails it is possible to make changes in either story without materially modifying the other."

How different in the great cotton patches in the South. We have a one-story farming structure, and to benefit by livestock we must add the other story. This cannot be done over night, but those who had the foresight to begin building this other story a few years ago are now cashing in.

Until the add the other story to Southwestern agriculture, especially in the one-crop regions, there will be few of the more intelligent, ambitious, and efficient type of tenants.—Farm and Ranch.

SHOW BOOSTS GOLDTHWAITE

The Ray Howell players, who completed a full week's engagement at this place last Saturday night and left for Coleman, to spend the present week, gave Goldthwaite a mighty fine recommendation the last night of the performance here, when Mr. Howell announced that he was so well pleased with this city he intended to bring his show here to spend the winter months.

While here he opened a bank account and is formulating plans to make this city his headquarters. In his talk to the audience he took occasion to compliment the several of the citizens of the town, including the Eagle and its editor, and we are all indeed appreciative of his good opinion and the kind expressions relative to the town. He has a troupe of nice, refined people who put on a good, clean show and Goldthwaite is proud of their friendship and good will.

Take Chiropractic first. There'll be no regrets.

Give these energetic seeds a chance in your garden

ENERGETIC seeds take no more digging, or raking, or caring for in a garden, than seeds that are not so full of the spirit to live. But think of the difference at harvest time! The energetic seeds withstand disease better — grow better and stronger — produce more vigorously and more abundantly.

The Ferry's Seeds that you can buy today at the "store around the corner" are surprisingly energetic. What is more, they are fresh. What is most important, they are pure-bred! These Ferry's Seeds came from plants that measured up to the Ferry standard in size, color, flavor, productivity — plants that have handed their inheritance on.

They are pedigreed seeds!—in the strict sense you mean when you say a race-horse is pedigreed. Their parents, grandparents, great grandparents — all were of fine true stock, without an inferior strain.

Doesn't this mean something to your garden? Send for the Ferry's Seed Annual to plan what you want. Remember that Ferry makes thousands of tests a year to determine the trueness of every seed you now can spill into your hand from a bright Ferry packet. Garden facts in the Annual make it far more than a catalog. Address D. M. Ferry & Co., Dept. H, Detroit, Michigan.

WHAT chicks get in their feed will have a lot to do with keeping them alive and growing. More than 2,500 hatcheries say, "Feed Purina's Chick Starters." There's a reason.
Every ingredient that goes into Starters is carefully chosen and tested. Starters is rich in life-giving and growth-producing vitamins, proteins and minerals. Every ingredient in Starters has its job to do. Every ingredient does its part in keeping chicks alive and growing.
Start your chicks on Purina... keep them on Purina... you'll get more grown-up chicks and have more money left after all chick raising costs are paid. Tell us how many bags of Starters you need right now.

A Message to our Employees.

Our first obligation is to satisfy the service needs of our customers and the filling of that obligation should and must take preference over any other activity of this organization. The customer has a right to expect courteous, smiling service at all times and it is up to each one of you to give it to him for the mutual benefit of all concerned.

If a situation arises which any one of you are not in a position to handle, you are not to evade or slight the issue, but are to pass it on immediately to the next higher official who has the equipment at his disposal to meet the customer's wants.

You who are in daily contact with the customer, you who have the directing of the energies of others of our employees, every individual connected with this organization, have one common objective—to see that the customer's reasonable wants and desires are satisfied at a minimum of time and trouble to him. To that end all the facilities of this company are at your beck and call whenever the needs of those we are in business to serve, demand them.
