## COUNTY MEET TO BEGIN HERE TODAY

### Contestants Expected Both Days

The county meet to be held heretoday and tomorrow is expected to attract a good many entries and contestants, if the disagreeable weather abates. Many of the schools of the county have held their preliminary contests and will be represented, in all probability. The attendance of these representatives was certain, had it not been for the freakish weather that may deter some of those who expected to be in attendance.

Director Stringer and his helpers have everything in readiness for a successful and interesting meet. It is sincerely hoped they will not be disappointed in the attendance.

### LIONS CLUB SHOW

The Lions club entertainment at the school auditorium was not on when the Eagle went to press, but the well known talent of those taking part in the play and those in charge of the management and direction makes it certain the audience was well pleased. The disagreeable weather doubtless prevented many from attending, but the members of the cast and those who sponsored and managed the entertainment can be sure everybody, especially the members of the Lions club, appreciates their efforts and are grateful for their unselfish work in helping to create a fund for providing play ground equipment for the school. This was but a beginning, yet it proves that the cause is recognized as one worthy of the best efforts of all citizens. The Lions club will doubtless evolve other plans and methods of raising funds until the equipment is provided.

### TEACHERS ELECTED

The School Board met last Friday night and completed the selection of teachers for the next term of school, with one exception. An additional member of the faculty must be provided and that member has not yet been selected. Prof. Henry did not apply for reelection and Miss Myrna Miller was elected in his stead. The board had already elected the superintendent and principal of the Grammar school and the full faculty is now composed of the following named teachers: E. D. Stringer, superintendent; Mrs. Joe A. Palmer, principal of Grammar school; Robert Mayfield, Misses Virginia Kerfoot, Ella Pearl Harrell, Love Gatlin, Vivian Campbell, Myrna Miller, Ellen Archer, Vera Berry, Louella Patterson, Erma Harrison, Mesdames E. D. Stringer, Sparks Bigham, C. C. Saylor. Assignments will be made at a later date, yet it is supposed the teachers re-elected will be returned to the grades heretofore assigned to them.

## MAYOR PROCLAIMS A CLEANUP WEEK

### Benefits All Citizens And Premises

The proclamation of Mayor Bodkin, on another page in this paper, should be of interest to every citizen of the town and all should give hearty co-operation in the campaign to make of this one of the cleanest and most healthful towns in Texas. We have the natural advantages and by united effort the work can be accomplished. Besides this, an opportunity is afforded for everybody to have their trash hauled off free of charge. All that will be necessary is for the householder or occupant of premises to place trash in containers at a convenient place on the street any time during next week. The city wagons will haul much of the trash during the next week, but the following week will be haul away week and those who have their trash at the proper place on Monday of the following week need have no fear of it being overlooked.

### PLEASING RECITAL

A recital by the pupils of Mrs. John Berry's music class assisted by those of Mrs. Lester Berry's expression class, was an attractive entertainment at the school auditorium Tuesday night. The house was crowded to standing room and fully one-third of the audience stood thru the entire program, rather than fail to see and hear the recital. Every number was exceedingly good and interesting, showing the results of careful training coupled with ability and talent on the part of the pupils. Most of the pupils deserve special mention for the nice manner in which they carried the program thru and rendered their assignments and it certainly true that the Mesdames Berry fully sustained their reputation as instructors and trainers of the young people.

### MR. AND MRS. L. E. MILLER ENTERTAIN

On Monday evening at 7:45 o'clock Mr. and Mrs. L. E. Miller threw open the doors of their charming home on Fisher street to a few of their many friends.

The spring motif was very pleasingly developed in the decorations and game appointments. Potted plants, rose-buds and lilies cast the atmosphere of spring about the game room. In '42' the high score favors went to Mrs. Neal Dickerson and Mr. M. H. Fletcher.

A delicious salad course was served to the following: Messrs and Mesdames J. H. Randolph, O. H. Yarborough, I. O. Harvey, D. A. Newton, M. H. Fletcher, Neal Dickerson, J. A. Hester, L. E. Miller and Mesdames Annie Little and W. H. Trent. A GUEST.

### METHODIST CHURCH

Sunday was a day of marked advance for the Methodist church at Goldthwaite. The Sunday school was not as well attended as it should have been but the Philathea class reported to have more than for about six months and the men's Bible class, more than for about four years and the Wesley workers, which embraces all ages from high school up, and which is doing a marvelous work as it is attracting the outside world and is working on them as it is those who are already members of our Sunday school. I hope the workers in this class are prayerful (of this I am quite sure) for it takes no less than a miracle to get anywhere with such great mixture of ages, conditions and sexes.

A committee meeting Monday night, which was a delightful affair, thanks to the courtesy of Sister Mullan, disclosed the fact that a great many of our Methodist homes are not represented in our Sunday school attendance at all, should arouse us to action. We have lots of 100 per cent families enrolled. Really most of our Methodist homes are so enrolled. If these will make it an equally good attendance we will be getting somewhere. And why not do so. We, the superintendent and pastor and teachers, have a right to count on you and the Lord is so accounting of you and looking over the attendance of last Sunday gives the impression that you are going to make good.

Our League anniversary service Sunday night was well attended and the Leaguers taking part were inspiring, tho the noticeable absence of many Leaguers and especially boys and young men is little less than lamentable. Mrs. Sullivan is by no means losing her energy, thought and prayers invested in this great work, but you Leaguers do not fully appreciate your opportunity. Twelve books have been given to those attending three months consecutively and thanks are due to Mrs. Sullivan and Mrs. Eli Fairman. We are counting on sending a Leaguer or two to Kerrville Assembly of those who are most loyal to the League and their church. This is a great opportunity, and we trust there will be a great pull for it.

Next Sunday we are looking for great crowds at all the services. "Common Honesty" will be the subject for Sunday morning. The pictures of the Life of Christ will be given Sunday night and we are looking for a crowded house. It is to be wished that every person in the town could see this. It will be worth much. No admission is charged, but each person is requested to bring an offering to aid in the incidentals for this and all church worship. Remember, this town's best citizens support the churches. Do you? Worship is airing the soul Blessings upon all who see these lines.

I will preach at Lake Merritt school house Sunday at 3 p. m. Yours in His service, S. D. LAMBERT.

### IS FRUIT SAFE

Some people still contend that the fruit crop in this section has not been entirely destroyed. We sincerely hope they are correct.

### CHURCH OF CHRIST

Last Sunday was a very busy day with us. Four well attended services here in Goldthwaite and a splendid service at Midway in the afternoon. More than twenty members of the Goldthwaite congregation attended the Midway service. With such hearty co-operation we ought to do much good in these afternoon services. We had the largest crowd at Bible study Sunday morning we have had since I have been with the church here. The morning and evening services were extra well attended. Thirty-two of the young people were present at the class Sunday evening. Though Wednesday night was very unfavorable, we had 26 at prayer meetings. To me this was very encouraging. The Ladies Bible class was well attended last Wednesday afternoon. The Lord willing, this writer will preach at Star next Sunday morning and afternoon and will be here in Goldthwaite Sunday night. The Subject Sunday night will be Paul's missionary journeys. We have a large map to assist in this study. Bring a friend with you and let's have a record crowd Sunday night. The young people's class will meet at 6:50 instead of 6:30 p. m. Don't forget to be with us. We will try to do the good. E. S. FITZGERALD.

### MIDWAY

THE GOLDTHWAITE EAGLE

The president of the New York Automobile club gives out the information that one person was killed in an automobile accident every 17 minutes during 1929.

All but \$18 of the more than \$8,000 taken from the Bank at Ringgold, La., last Monday by two bandits, was found Saturday concealed in a stump in the woods about 10 miles from Ringgold.

Officers in searching for concealed weapons, those who entered the Bowie county court house at New Boston, found a pint bottle of liquor in a man's shoe and promptly charged him with "bootlegging."

Since 1926 the United States has maintained a force of marines in Nicaragua. An order has been issued withdrawing 850 of the men, which is approximately one half of the force in that republic.

Smithsonian Institution archeologists have discovered an ancient canal system near Phoenix, Arizona, by aerial photography. The lost system is said by Dr. Neil M. Judd, head of the expedition, to rival modern diversion methods.

While a score of customers looked on, a lone bandit held the cashier of an A. & P. store in Beaumont Saturday night and escaped with \$50 taken from the cash register. The bandit entered the store, walked over to the register where the cashier was standing and stuck a pistol to the manager's body. He then went into the cash register and took the money.

Announcement is made by Bob Henry of Houston, a former congressman and one time candidate for senator, that he will be a candidate for the United States senate, in opposition to Senator Shepherd. The main issue upon which he predicated his campaign is the Volstead act, which he thinks should be amended or repealed. It is pretty safe to bet that he will not make much headway in Texas politics.

Pensions of Confederate veterans will be paid monthly instead of by quarters after the next 90 days. A conflicting provision with respect to the time of payment of pensions crept into the bill and it was taken to the attorney general for interpretation. The bill gives each Confederate veteran who has lived with his wife continuously since 1900, \$50 per month, and single veterans and widows, \$25 per month.

Announcement was made in Austin Friday that State Senator Woodward of this district had resigned, in order for his father, Judge J. O. Woodward to be confirmed as member of the board of pardons and paroles, without violating the anti-nepotism statute, since the senate would have to confirm the appointee; hence, the senator would be a member of the body confirming his father. It was stated that Senator Woodward would be a candidate to succeed himself, but would not take the oath of office until after the confirmation of his father.

HAPPY TO TELL ALL THE WORLD ABOUT KONJOLA

St. Louis Citizen Found New Medicine To Be Only One That Made Good

MR. THOMAS J. BIRGE

After all is said and done, every medicine must meet this test: Does It Make Good? Konjola has made good in so many cases when all else tried has failed that it is the most talked of medicine in America today. Take the case of Mr. Thomas J. Birge, 2632 Chateau St. St. Louis, for instance. Read what he says about this master medicine:

"I am sixty years old, and most of my life—at least as long as I can remember—I had stomach trouble, and nothing helped me until I found Konjola. Imagine my astonishment when the very first bottle of this wonderful remedy started me on the road to complete recovery. Today I can eat whatever I like, no matter how rich and heavy the food, without the least discomfort. In fact, I feel like a new man, and many of my friends to whom I recommended Konjola are as enthusiastic about it as I am."

Konjola is sold in Goldthwaite at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

ABOUT THE SAME

Is it true that the old-time parents were stern disciplinarians in their own households? It is to be doubted. Indeed, there are some evidences that they were rather lax. They had rural toughs and bucolic hoodlums in plenty when our country was young. There was no scarcity of drunken rowdies when liquor was cheap and easily accessible. In fact, the Saturday fights at the country groceries were dramas which gave texts for conversation all week. In the cities and large towns of the former period there were frequent riots, gang wars and unlawful assemblies. The police always had enough to do. But family discipline was better in some homes in the old days than in some homes of the present. The family fireside has dissolved in large part. The yard with a fence around it has given place to open spaces, and control of the smaller children thereby loosened. The home circle is not as entertaining as it was, because entertainment has been moved outside. Parents and children are not so much together. Diverse tastes have developed diverse interests. Sorry parents are still influential for good, while good parents possibly are less influential for good than formerly. The school is given more responsibility than they were thought entitled to in other days. The church is somewhat less authoritative, possibly because it is less dramatic, or less vigorous, than when it was more zealous. It all comes back to one place—the child's future depends upon itself more than upon anything else. If the young one gets a bad start, it has a handicap to overcome. A good start gives it a push toward successful living. Parents still have responsibilities, and some of them continue to shirk it.—State Press in Dallas News.

PREACHING AT PRIDDY

Bro. Jack Sparkman has asked me to announce that he will preach at Priddy Baptist church, Priddy, Texas, on the first Sunday in April at 4 p. m. So I will thank you to make this announcement for him.

Yours truly,  
J. W. STRIPLING.

THE RIGHT ROAD

For the past fifteen years we have noticed at this time of the year the farmers lining up at the bank president's office each in turn to make his "arrangements" for the current year.

It is the same this year, and many of them are the same ones we have seen every year. One thing we have noticed is that not one of these "first of the year arrangers" is noted for selling eggs, cream, hogs or potatoes.

Another thing we have noted is that some of those whom we have seen in this line in previous years are no longer seen there, and those who are missing we invariably find are men who have gone to raising poultry, cows, hogs, fruit or truck on their farms. These by-products have put them on a cash basis and they no longer have to "arrange." It seems to us that this should be demonstration enough that the road to economic independence is not through the cotton patch.—Mabank Banner.

What's the matter with Texas just now has little or no relation to the State Government, to taxes, or anything else of that sort. Fifteen cent cotton and sixty cent oil, with low price levels prevailing for most of the other major products of Texas, have curtailed our income to a considerable degree and we are experiencing the usual consequences of such a situation. In the case of cotton, which is usually the chief determining factor of general economic conditions in Texas, the world demand has been declining for more than two years. American exports of raw cotton were 1,132,000 bales less in 1929 than those of 1928, and 1928 exports were 659,000 bales less than those of 1927. Even if conditions in the domestic market had been ideal, this situation would have affected the cotton farmer's condition adversely, especially in Texas. The major part of the Texas crop is always sold outside the United States, and in consequence we have no control over our market. Conditions in Europe always affect us vitally because of the dominant place cotton occupies in our economy. In the case of petroleum, an apparently uncontrollable over-production has demoralized prices and conditions in the industry generally. Similar economic causes will be found at the base of

conditions in the market for all other products where price levels are depressed. There is nothing we can do in a hurry that will affect this general situation. Meantime, we feel the consequences of a considerably reduced income. — Texas Weekly.

A request has been made of congress that an appropriation of more than three millions be made to supplement the prohibition enforcement act. It really looks like there is going to be trouble for those who persist in defying the enforcement of prohibition.

Research to discover the germ responsible for psittacosis, or parrot's fever, abandoned at the United States hygienic laboratory after eleven attendants were stricken with the disease, will be transferred to an isolated island or quarantine station and carried to completion. The decision to continue the struggle with the strange malady in a spot where it could not infect others, followed an intensive study of the rapid spread of the disease through the personnel of the hygienic laboratory in Washington. Many of those taken sick at the laboratory had not been within thirty feet of the psittacosis experiments with dead parrots.

SMASHING A SALES RECORD

THE new Conoco Germ-Processed Motor Oil is not only the fastest selling oil in Conoco history... it is establishing a new high mark in public acceptance... By a wholly new characteristic, Penetrative Lubricity, this motor oil is attracting motorists from other brands with a quickness unprecedented in the oil world... this would not be possible if this oil were not the finest and safest motor lubricant yet introduced.

It is the Germ Process which gives Conoco the essential points of superiority that make possible these things: 76% less motor wear; reduced carbon formation; lowered operating temperatures; greater gasoline mileage; resistance to dilution; and instant lubrication at the first touch of the starter.

The Germ Process adds to a supremely fine paraffin base oil, a precious oily essence lacking in all other oils. This makes possible the metal-penetrating safety factor that we call "Penetrative Lubricity." Try this new oil today... at the sign of the Red Triangle.

Stage Career Most Satisfactory for Girls

MARGARET MERLE

Tell me why you're getting into the opera... Many girls do this and love you.

So Says Opera Singer, Who Has Found It So

New York City.—The stage is the most moral career the modern girl can follow. In fact, it is the most all-around satisfactory job a girl having to earn her way in the world can take.

This is the opinion of Margaret Merle, opera star who has been through all the departments of show business.

"It has always amazed me greatly to hear people in small communities who are unfamiliar with the ways of the stage, belittle it," says Miss Merle. "They only do it because the theatre comes to them from afar and they shroud it in a certain mystery."

and meeting interesting people are theirs for the asking.

"The theatrical business is hard work, but one has more leisure hours than in any other profession. I have known instances of college girls preparing Ph.D. theses between shows. I studied voice daily while I played in vaudeville.

"The modern stage is attracting and demanding women of greater intelligence each year. It is not just a case of coming out and doing one's dance or one's song. One has actually to act.

"Coquette" "I am very fond of one of my new foxtrot songs called 'Coquette,' written by a Harvard man. It tells in simple lyric the time old story. To interpret this properly I studied it as I would an operatic role and rehearsed it daily for three weeks before I sang it in public."

**A CARD SYSTEM**

The Eagle management has adopted the plan of notifying subscribers by a card system at time their subscriptions will or have expired. This plan was made necessary by some of our friends objecting to having their names dropped from the Eagle subscription list without notice. Under the new plan, two weeks will be given between the mailing of the card and dropping the name. The card asks if the paper is wanted and it would seem reasonable that a subscriber ignoring the notice does not want the paper. It is sincerely hoped that every one receiving a card notice will at once renew their subscription. Incidentally, there is only a few more days of the special offer of the Eagle and Semi-Weekly News for \$1.75.

**DONT BORROW**

A man who was too stingy to subscribe for his home paper sent his little boy to borrow the copy taken by a neighbor. In his haste the boy ran over a \$4 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice the barb wire fence, ran into that, cutting a hole into his anatomy, ruining a \$5 pair of trousers. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing a racket, the wife ran out, upset a four gallon churn of cream into a basket of little chickens, drowning the entire hatch. In her haste she dropped a \$35 set of false teeth. The baby, having been left alone, crawled thru the milk into the parlor, ruining a brand-new \$25 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven setting hens and the calves got out and chewed the tails off of four fine shirts on the clothes line.—Sebree (Ky.) Banner.

J. D. Walton of Center City had business in the big town Tuesday.

Frank McCasland of Grady, New Mexico, who was visiting relatives in Center City community, made the Eagle an appreciated visit Monday. He located in New Mexico twenty-three years ago and has prospered. He and his family expect to visit the Texas coast country and then come back for a short stay with his mother and other relatives before returning home. He has a valuable farm and ranch in New Mexico and does most of his farm work with tractors.

Mr. and Mrs. John W. Roberts of Rock Springs returned home the first of the week from a visit to Dallas, where they visited Dr. Fowler and family. They brought the regrettable news to the friends here of the family that Mrs. Fowler has been in the sanitarium for several weeks, suffering from leakage of the heart. She was able to return to her home, however, before they left her, but her condition is not encouraging.

Those who expect to raise chickens on the commons and in their neighbors' gardens and flower beds, need not be surprised that said neighbors object, especially since there is a premium on flower beds and boxes and well kept yards. It is only fair that those who desire to grow gardens and flowers be protected by law from the damages of marauding fowls when the owners of said fowls refuse or neglect to confine them on their own premises.

**"Things I Ate Hurt Me"**

"I HAD a severe case of indigestion," says Mrs. Bell Buckheister, 7 River St., Piedmont, S. C. "So many things that I ate hurt me, I almost quit eating."

"I would burn in my chest. I had severe headache, and such a tight, smothering feeling. I would be obliged to eat a little, then it would hurt me."

"A friend said to me: 'Why don't you take Black-Draught?'"

"I was just too weak then to do my work. I began taking small doses after meals, and in just a few weeks I could eat anything I wanted to, then take my small dose of Black-Draught and feel fine. I soon regained my health and strength."

Costs only 1 cent a dose.

NATHANIEL SHILKRET

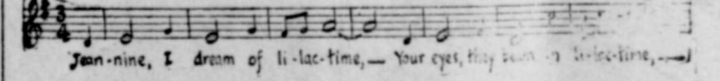

**Nathaniel Shilkret Makes Famous Musical Score**

New York City.—Jazz, the step-child of the arts, is at last to find a place in the hall of musical fame, not heaven, the concert hall, but the cinema palaces.

Motion pictures, according to Nathaniel Shilkret the country's most famous musical director, have taken jazz under their wing and have given it the opportunity to be accepted as serious music. Heretofore our modern American music has been confined principally to dance orchestras and a few concert pieces. Now it is being used to tell a complete story.

When Mr. Shilkret wrote the score for "Lilac Time," a Colleen Moore picture, he didn't at first realize that he was opening a door for jazz to climb the heights. His work revealed for the first time the possibilities of a score in modern rhythm. The story is told by music and by camera at the same time.

"Jeannine I Dream of Lilac Time," the theme song for the picture, is remarkably developed

Jeannine, I dream of lilac-time, — Your eyes they beam in lilac-time, —

**PROGRESSIVE METHODS**

When a farmer needs money for his operations, and hasn't it, he must borrow it, like any other business man. A farmer or a merchant, who has sufficient capital of his own to finance his business doesn't have to line up at the bank to file his application for a loan. Some merchants are in that happy situation, and strange as it may sound, some farmers also are equally fortunate. The merchant who hustles his resources is in exactly the same case as the farmer who does the same thing—both must sell their goods and get the money for them if they continue to prosper. Certainly no storekeeper who sold goods only in the fall would be able to pay house rent and all the incidental expenses contingent upon a year's living. By the same sign we may judge that no farmer who sells crops only in the fall will be able to finance himself throughout the other nine months. We read a great deal about agricultural depression. It is a condition that obtains. No doubt about it. But the depression is spotted. In every neighborhood there are a few farmers who are not depressed, who have a surplus of goods and money. No bank ever fails by reason of lending money to thrifty farmers, but many fail by reason of lending to unthrifty landlords and inefficient merchants. Farming methods, like mercantile methods, change from decade to decade. The farmer who tries to carry on as his father did thirty years ago is no better credit risk than the merchant who tries to keep his store as stores were kept thirty years back.—State Press in Dallas News.

**A CARD SYSTEM**

The Eagle management has  
adopted the plan of notifying  
subscribers by a card system at  
time their subscriptions will or  
have expired. This plan was  
made necessary by some of our  
friends objecting to having their  
names dropped from the Eagle  
subscription list without  
notice. Under the new plan,  
two weeks will be given be-  
tween the mailing of the card  
and dropping the name. The  
card asks if the paper is want-  
ed and it would seem reason-  
able that a subscriber ignoring  
the notice does not want the  
paper. It is sincerely hoped  
that every one receiving a  
card notice will at once renew  
their subscription. Incidental-  
ly, there is only a few more  
days of the special offer of the  
Eagle and Semi-Weekly News  
for \$1.75.

**GOLDTHWAITE HOLDS  
VACCINATION RECORD**

Some weeks ago a form of  
eruption appeared in this city  
and while few, if any, suffered  
or were seriously inconveni-  
enced by it, a great majority of  
the citizens became alarmed  
and more than 900 of them  
were vaccinated. This is believ-  
ed to be a record for vaccina-  
tion, where practically one-half  
of the citizens were vaccinated  
at one time. The vaccination  
was not confined to any age,  
but big, little, old and young  
alike carried their arms (or  
some other portion of their an-  
atomies) in bandages. One doc-  
tor vaccinated more than 500,  
unaided.

**PHIL PORTER DEAD**

mother, Mrs. L. B. Porter, who  
stated the remains would be  
shipped to this city for burial  
and would arrive here Friday  
night. Mrs. Porter and her fam-  
ily are kindly remembered by  
many friends here of the early  
days of the town and sincere  
sympathy is extended to the  
bereaved mother over the death

Porter will come, but friends  
here expect her.

the serious illness of her sister,  
Mrs. M. A. Bridgeforth, who is  
well known and has many  
friends in Goldthwaite. The  
friends here of the family sin-  
cerely hope her condition may  
soon be improved and she be  
fully restored to health.

The Eagle readers note with  
regret the absence of the Rock  
Springs letter and sincerely  
hope, as does the editor, that  
the esteemed correspondent  
may be able to resume her writ-  
ing next week. She has been  
prevented from writing on ac-  
count of the serious illness of  
her daughter. The Rock Springs  
writer is one of the best in the  
county, or any other county

was carried to the sanitarium  
in Brownwood last week, is re-  
ported to be doing nicely and  
it is hoped she will be able to  
return home in the very near  
future.

Two very important elections  
are to be held in Goldthwaite  
next week. On Tuesday the  
city will elect a majority of  
the officers to serve the next  
two years. Then on Saturday of  
next week school trustees are  
to be elected in every school  
district in the county, both in-  
dependent and common school  
districts. These are matters  
that should attract the atten-  
tion of all citizens, especially  
all tax payers.

Census enumeration will be-  
gin in earnest next Wednesday  
and will be continued two  
weeks. Some of the questions  
asked by the enumerators may  
seem impertinent, but really  
they are deemed necessary and  
citizens are required to make  
answer. Those questioned by  
the enumerators should realize  
that the questions are laid  
down by the census department  
and are not asked by the enu-  
merators thru idle curiosity.

Gaze at Goddess and

New York City.—As soon as  
visitors arriving on the big  
steamers finish up their comments  
on the Goddess of Liberty and the  
New York sky line, they begin to  
tell how American jazz has cap-  
tured their country.

"Every single one of them,"  
says Harry Acton, best known  
columnist in the country who  
meets every ship that enters the  
port, "hastens to bring up jazz.  
Jazz seems to be the one all-  
American product. It is the same  
in every language—Austrian,  
Spanish, Italian, French and  
Czecho-Slovakian. Sometimes they  
hum a few bars of 'Calling Me  
Home,' or the like, to show me  
that they really know what they  
are talking about. They seem to  
beard it—or rather their knowl-  
edge of it—as a sort of open  
 sesame into the country.

"Strangely enough, I seldom  
get any serious complaints from  
them about it. Americans are  
more inclined to call jazz down  
than are the visitors. These  
merely see in it a gayety, a live-  
liness and a vividness that please  
them. They invariably ask me  
where they can go to hear it on  
its native heath for they admit  
that it is not usually very well  
played outside of this country."

Acton syndicates a column on  
the doings and sayings of incom-  
ing and outgoing celebrities which  
is widely copied abroad. When he  
goes to Europe in the summer, he  
finds friends at every capitol for  
the people he has interviewed al-  
ways remember and welcome him.  
He does not write all that they  
tell him. Sometimes he finds that  
they are inclined to let them-  
selves go and unconsciously give  
away secrets which they do not  
intend to let slip. That is the  
time Mr. Acton wins their friend-  
ship for he steers them on to less  
dangerous ground.

## A. G. Weston's Ranch Home Razed By Fire

Late Tuesday afternoon the Weston ranch home, three miles south of town was burned. Mrs. Weston and daughters were at home and heard a noise overhead. They ran out side and discovered the roof was on fire. A boy was plowing nearby and they made a desperate effort to save the house, but before help from other farms or town could arrive, the wind had increased the flames and house and contents were lost. The house was partially covered by insurance.

## CHAIN OF STOLEN CARS IN TEXAS

The three men who are accused of wrecking a stolen car on Brown's creek two weeks ago, then stealing B. F. Romans' Chevrolet car and proceeding on their escape from officers have been arrested at Middletown, Ohio. They robbed the railroad station in that town and drove away. They became confused in roads and directions and drove right back into the town they had a few hours before robbed.

The officers arrested them and they are now back in the jail at Waco, where they escaped two weeks ago, facing much heavier charges than before.

## FUNERAL HELD FOR WOMAN AT LUFKIN

Lufkin, Tex., March 21, 1930. —Funeral services were held Wednesday for Mrs. Louise Emily Crooms, wife of A. S. Crooms, prominent truck grower, who died Tuesday. Rev. C. A. Long, Rev. R. L. Cole and Rev. H. D. Burson officiated at the First Methodist church. Mrs. Crooms had been a resident of Lufkin 18 years. She is survived by her husband, two sons, Blalock of Houston and A. J. of Lufkin; two daughters, Mrs. Minnie Powell of Homer and Louise of Lufkin; two brothers, J. B. and J. L. Blalock; and two sisters, Mesdames H. A. Andrews and Rose Kirkland, of Whiteville, Tenn.

The above clipping from the Houston Chronicle will be of interest to Mullin people, as Mr. and Mrs. Croom moved from here to Lufkin 18 years ago. They lived in the house now occupied by J. R. Massey. Mrs. Croom was a niece of J. T. Coleman and Mrs. Henry Montgomery.

## RAIN VISITS MULLIN

Friday evening this section of the state was the recipient of a fine rain. About one inch fell at Mullin. The good farmers here have their soil well prepared to conserve the moisture and many have already planted corn.

This rain has been a great help and we hope another good rain will come at a nearly date to secure the moisture necessary for good crops, pastures and gardens.

## Mrs. G. M. Fletcher Hostess To Friends

A day that shall ever be a sweet memory to all was spent at Mrs. George Fletcher's last Wednesday. About 9 o'clock cars filled with ladies drove out to this lovely home, where Mrs. Fletcher gave us a welcome, that made each glad to have the opportunity to spend a day with her.

All were soon busy on a lovely quilt that was hanging in her beautiful dining room.

At 12 o'clock dinner was announced and everything from chicken with all to make it pleasing to sight and taste was on the table, a dinner fit for a king, and each did justice to the well prepared feast.

In the afternoon delicious cake and lemonade was served. Late in afternoon the quilt was finished and all bade our hostess good-bye, trusting this would happen again.

Those enjoying the day were: Mesdames Chas. Hays, M. E. Casey, S. M. Casey, C. L. Summy, W. C. Preston, F. E. Lieneweber, Virgil Priddy and H. R. McDonald. A QUILTER.

## CLEAN-UP CAMPAIGN IS GOING STRONG

The citizens of this fair city have responded fine to the clean-up campaign. A drive over the town will convince a doubting Thomas that the majority of lawns, side walks and alleys have been thoroughly cleaned.

There are a few who have not yet responded to the mayor's appeal, but we feel sure they will yet get busy and take pride in making the town a more healthful and beautiful place.

## METHODIST CHURCH

This morning we were delighted with an organ recital coming over K. S. A. T., Fort Worth. This recital was given by one of the churches of the city. The music was so restful and inspiring. It helps one to start the day right. How different this music is from much we get over the air. What made the difference. The church, "Ye are the salt of the earth" said Jesus. How true the statement is. Yet how lightly some folk regard their church, or Christian relationship. The safety of ones deposits in hte bank depends on the moral support of the laws in a community. More than on the combination locks of the vault. The churches aid law enforcement. They create moral sentiment. More real protection comes from the church than people think. The church of God is the group of people through whom Christ works. The church is "His body." It comes in importance, ahead of all other organizations. Therefore lend the church your support. Let us attend upon it's ordinances and support it's institutions.

Let us put new life in our church here at Mullin. Join me in praying for a great revival this year.

Sincerely yours,  
THOS. M. MITCHELL.

Vernon Toliver of Stephenville came over Friday and visited Mr. and Mrs. S. H. Davis until Sunday. Then they returned home with him and enjoyed the day with Mr. and Mrs. I. D. Toliver.

BAPTIST CHURCH

The preachers' council meets Monday at the Baptist church at 10 a. m. Every preacher in town, regardless of church affiliation, or as to where your work may be, is urged to attend. Also we invite ministers from other communities to be with us.

Dr. M. E. Hudson, who conducted our meeting for us last May, passed on to his reward last Sunday from McKinney, Texas, where he had been pastor of First Baptist church for the past six years. Dr. Hudson was one of the best men as well as one of the best preachers in our denomination. This preacher has lost one of his best friends. Won't it be a blessed experience when man reaches that heavenly country, and can sit down and talk to his relatives and friends who have preceded him. How can a man live in this world and not prepare to go to the heavenly country? Some will read these lines who will not be privileged to enjoy the fellowship of those who have gone and those who will go, unless they change their way of living. It is so much better for a man to live right, than to live wrong.

Herman Rudd, who is attending Howard Payne College, was a welcome visitor last Sunday night at our regular service. He added much to our music by bringing his instrument along and playing for us.

The pastor and his wife have been very fortunate the last two Sundays. Last Sunday we were entertained in the Owen Priddy home for dinner. We did not have a 'course' dinner, but an old fashioned chicken dinner. It was none of our business to inquire of Mr. Priddy as to where he got the chicken.

A man asked me this question this week. "Has Proc McCullough started to prayer meeting?" "Was Dr. Campbell at church Sunday night?" I answered in the affirmative, and ask why such questions, to which he replied. "They generally do this just before the convening of each 'Grand Jury.'" Anyway, we were glad to have them at our services. We want them to come back and the rest of you fellows that don't go to prayer meeting and church, we want you to try it out. It will help you.

At this writing (Monday) the 'home coming' for our Sunday school is going fine. Every loyal member of our Sunday school is at work. Every loyal teacher is at work and our Superintendent is more than at work. Everything is pointing toward the three hundred mark. We just lacked seventy-nine having that many last Sunday. Now listen folk, if you never went to Sunday school in your life, you want to go to Baptist Sunday school Sunday. Parents we are counting on you not sending your children but bringing them. Every member of our church ought to be present if they are not providentially hindered. Those of you who are not members of any Sunday school, we want you to come. We have a place for you. Listen: Those who are not able to walk to Sunday school, we have conveyances for you. Cars with good drivers will be sent for you Sunday morning. The committee will call on you, get your names and give them to the pastor and he will order the cars sent for you. Numbers will use their cars, and if you are not ill you will have no excuse. If the committee happens to overlook anyone, and anyone else who know of such people, call the pastor. He will have a way provided. Just remember, get up Sunday morning early with your face toward the Baptist church. Let's get there by 10 o'clock. Come on boys. Come on girls. Bring daddy and mother to Sunday school Sunday.

Visitors and strangers in our town are urged to workshop with us at all of our services. If you are a stranger in our town, you will not be a stranger any longer, if you will come to our church. G. C. IVINS, Pastor.

A Proclamation

In conformity with the directions of the State Health Department and in obedience to the request of the Lions Club, and other interested parties I hereby proclaim the week beginning Monday, March 30, as Clean-Up Week in the city of Goldthwaite. The co-operation of all citizens is requested in this movement, in order that our city may be beautified and made strictly sanitary. Rocks that are placed in piles free from dirt and trash will also be hauled, but scrapings from stables, cow lots and fowl houses must be moved at the expense of the owner or occupant of the premises.

I sincerely trust every citizen will assist in this movement. H. G. BODKIN, Mayor of Goldthwaite.

REV. HUDSON DEAD

Universal sorrow was expressed in Goldthwaite Monday, when the announcement was received that Rev. M. E. Hudson had died in McKinney Sunday. Rev. Hudson conducted a revival in the Baptist church here last summer and proved himself to be one of the strongest preachers ever heard here and one of the best informed men on the scriptures and their application to be found anywhere. He had been pastor of the McKinney Baptist church for six years and prior to that time was president of Marshall College. His remains were carried to Marshall for burial Monday.

I did not have strength to do anything. My back ached nearly all the time. I was just in misery. My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui." CARDUI Helps Women to Health. Take Theford's Black-Draught for Constipation, Indigestion, and Bloatingness, etc.

Patterson and Grover Humphries were injured Saturday night about 12:30 when the Ford truck in which they were riding hit the railing of a bridge across Burleson Creek at the lower end of West Third Street. Word has been received here that Mr. and Mrs. B. W. Seale and three small daughters were hit by an automobile Wednesday night near their home in Santa Anna and one of the little girls, Maurice, is in a very critical condition at this time. Miss Annie Browning and Miss Florence Harper returned to Lampasas Sunday from Georgetown, where they spent two days in the hospital on account of injuries sustained in an automobile accident Friday near Round Rock. Judge W. H. Browning and Miss Annie were returning home from San Antonio where they had been to attend the funeral of a relative and Miss Harper had joined them at San Marcos. Miss Annie was driving the car, an Essex sedan, when it overturned on a gradual down grade, into the ditch on account of the slippery road, made so by rain. —Leader.

HAMILTON

A good man quit the walks of earth life when Richard H. Pierce, of Star, died on Tuesday, March 18.

Rev. R. W. Bynum, accompanied by his daughter, Mrs. George Grimshaw and baby son, arrived last Tuesday evening from Elida, New Mexico, where he had been engaged in a revival meeting, and was a guest in the home of Mr. and Mrs. Grimshaw.

The Baptist and Methodist Sunday schools of Hamilton entered recently into an attendance contest, which, ended on Sunday, March 9, when the Methodist attendance was 281 and the Baptist 234. The losing Sunday school was to give a banquet in honor of the winners. In consequence of the above contest the entire town of Hamilton was invited to a fish fry, chicken roast and basket picnic at the American Legion Park last Thursday evening. There were some six hundred people enjoyed the occasion, one of the most pleasant and and the big picnic proved to be profitable get-together affairs in Hamilton in many months.

Fire of unknown origin destroyed the residence of Garland Adeock near the high school building at Gustine Sunday evening at 8 o'clock, the dwelling and household goods being a complete loss.

I. B. Brown, citizen of Comanche for 55 years, died at the home of his daughter, Mrs. John Gage, Friday night, March 14, following an illness of several months. Funeral services were held at the First Baptist church of Comanche Sunday afternoon at 3:30 by Rev. Barrett.—Chief.

ing a target, which was supposed, of course, to have been unloaded. Young Mr. Holmes had examined the gun for shells before starting his work but failed to discover the load. As he worked, Mr. Standifer was seated opposite him, engaged in conversation. When Mr. Holmes completed his work he raised the gun slightly to try out a new spring and the gun was discharged, the shot entering the right side of Mr. Standifer's face near the nose, ploughing through the flesh of his left cheek, lodged in his neck just below the left ear. The wounded man is reported to be satisfactorily recovering. —Record.

HUGH McLEOD DEAD

The remains of Hugh McLeod were brought here last Friday from Sheridan, Wyoming, and interred in the North Brown cemetery, where his parents, Mr. and Mrs. J. A. McLeod, are buried. He died on March 16, and at the time of his death he was 53 years and six months of age. The McLeod family lived in the North Brown community in the early days of the county, having moved here from Erath county, where Hugh was born. They were universally esteemed as being some of the county's best citizens and they are kindly remembered by the early settlers in this county. Hugh was one of four brothers and six sisters and the other sons and daughters of Mr. and Mrs. McLeod survive him. He left a record of a good citizen and the family has the consolation of knowing he was converted to the Christian religion several years ago. A large number of former neighbors and old time friends attended the funeral Friday.

SOVIET PARADISE

An editorial in the San Francisco Chronicle gives a vivid picture of economic conditions in Russia, the "Soviet Paradise." The Chronicle says a large part of the peasant population, contrary to Soviet decree, is trekking to adjoining lands in search of food and sustenance. These refugees are of the class that would normally be prosperous, industrious and the mainstay of the country. But the policy of the government which confiscates all surplus products of labor under the "co-operative plan" is driving them from their homes. The Russian government has, for some years, been conducting "drives" on the Kulaks, or so-called wealthy farmers. A Kulak is anyone who, by dint of hard work and industry, manages to get possession of a cow or two or achieves a comparative degree of prosperity. The Soviet has branded him a menace to the state. Of course, the startling part of all this is that Russia is the fair land where all were to be free and happy, with everyone working for the commonweal. As a writer in an American radical magazine recently expressed it, Russia's aim has been to do away with the economic "lie" on which other nations are built—private property. It would seem, however, from the reports, that the "lie" is on the part of Communism.

A Modern Richard Wagner Needed in American Music World

JACK ALBIN

Jack Albin Predicts Great Future for New Musician

New York City—Somewhere in America there is a musical genius of the new school who will emerge to rival Wagner in the arrangement of harmonious orchestration. This is the prediction of Jack Albin, musical director.

"Development of the art of arranging is the next step in the evolution of modern popular music," says Mr. Albin. "At this moment, the creative growth of popular music is at a stand-still. We have come to the point where America must develop a new musical art—the art of arranging. A few pioneer arrangers have ventured into this new field. The financial returns they are receiving will attract more talent to this specialized field.

"Whether the Wagnerian genius will arise from one of these, or whether he will spring up from the unknowns, I cannot say. But he will come—and soon." Mr. Albin points out that arrangers of jazz are not being recognized, but that the music is being recognized with its own name.

ing prototypes to check their talent. Many of the orchestrations made by American jazz arrangers, he says, are now being used in European universities to teach harmony.

"It Goes Like This That Funny Melody," a foxtrot song is an instance of an interesting arrangement," he illustrates. "After all, Johannes Brahms and Franz Liszt were only arrangers of the folk tunes of Austria and Hungary. They made elaborate arrangements of these folk dances which have lived on and on. Somewhere an American arranger will come forward who will do the same with our folk tunes. The arrangement of 'It Goes Like This That Funny Melody,' while not yet in the class of Brahms or Liszt, is a great step forward. It has many new ideas.

"A specially interesting one: notes political speeches of the day in figures characteristic of each instrument. Curtis is expressed in the clarinet; Robinson, a trumpet with bold tones; Walker, saxophone jazz; Dawes, blustering trombone and Coolidge four bars of silence."

Mr. Albin has studied mechanical engineering, and his genius for complex and intricate feeling for the human mind is shown in his musical arrangements.

**UMBRELLA FLYER**

How long will it be before one may strap a five-horsepower motor on his back, open a reinforced umbrella over his head and proceed to his office via the air route? Recent airplane developments appear to forecast something of this character. Only a parasol type all-metal monoplane propelled by a Wasp forty-five horsepower engine flew from Seattle to Omaha at an average speed of 157 miles an hour.

Lighter and cheaper airplanes are inevitable, but the ultimate type of family vehicle must remain in the realm of speculation until present possibilities have proceeded much farther toward realization. Furthermore, there will be no tremendous advance until the trend toward use of the air for transportation purposes has become more definite than it is now.

The driver of a one-horse shay had his visions of a vehicle that sped swiftly through the streets with no visible means of propulsion, but his wildest dreams could never have pictured the beautiful and silent automobiles that glide over the highways of the civilized world. And so one may be privileged to say that the airplane of today is a somewhat crude affair, to be superseded by a vastly more efficient and less cumbersome vehicle capable of storage in no larger space than is now taken by an automobile. It will not need a ten acre lot for a get away and will be handled with all the ease and facility exemplified by the early bird in alighting gently beside the home of its prospective breakfast.—Christian Science Monitor.

**Broadcaster of Fox Trot Discovered on Broadway**

**Al Friedman, Musical Director, Introduced Fox Trot to Country in 1913**

New York City—Years ago when the waltz was at the height of its popularity some one wrote a song called, "I'm Looking for the Man Who Wrote 'The Merry Widow Waltz'." Today folks are looking for, and wondering about the man who first introduced the fox-trot. The fox-trot, like a good book that finds a place in the literary world, occupies a permanent niche of fame in the dance world. The man who first introduced the fox-trot, back in 1913, Al Friedman, is right on Broadway and 47th Street in the hub of theatrical activity. The story of how the fox-trot swept the country is the story of Al Friedman's ability to recognize a good dance step, and his originality and perseverance in promoting his find. Al Friedman first saw the step in an uptown New York dance hall, and was struck by its simplicity. It had an air of sophistication, and yet was simple and catchy enough to be easily learned. Friedman's enthusiasm for the new dance made a com-

binated dancing man, a director out of a band on the radio, and announced there to teach the dance. Supplying his own teaching the dance, New York director of whole country fox-trotting teachers joined and young Friedman of fox-trot disciples as he moved from Seattle to Center. Changed a little, Friedman, "it is the same as when I was young. Young people dance to sentimental the song which they personal is still music they ask for most. Sally," which is now, is just the same, have been popular. It tells the old story who leaves his city goes to the city—and if she still craves the old story is just way. Many orchestras that the music mus.: and but do better. The story may, but the greatest part of their music.
