## THE VALUE OF SOUND DESIGN

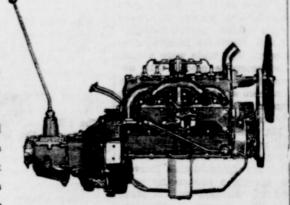

New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy

THE good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.

the new...longer-lasting

## EXACO

MOTOR

qualities to be found in any one single oil.

Because the new Texaco Motor Oil is crack-proof it does not break down under the high pressures and temperatures of the modern engine so as to form hard carbon. And because it is longer-lasting you get the benefit of increased mileage in every quart. The new Texaco is manufactured in five grades: C, D, E, F, and G, corresponding in body to S. A. E. (Society of Automotive Engineers) viscosity ratings. The price is 30c a quart (35c for Grade G). The right grade for your car is ready for you now. Drive to today.

#### Twenty-Sixth Annual Fair and MOVING OUT OF THE MUD

In the opinion of Timeon Co vert, of the Department of the Interior, there are many rural communities which do not realize the value and necessity o good roads. To bringing the need before them, educational campaigns are necessary.

Mr. Covert gives as an illustration a community which wished to consolidate its small schools into one strong, cen-Privileges will be sold subject tralized institution. But it was

powerful motor buses transport roads to the central school in that community. The farmers have moved out of the mud, so to speak. It was found in the school project that - most of the money spent for road improvement would remain in the community; that transportation over good roads would bring 12-grade school within reach of every boy and girl; that farm produce could be marketed over surfaced roads on any day of the year; and that all these improvements, which no one out, could be brought about at reasnable outlay of funds."

THAT'S ALL Goldthwaite, Texas

To the Sheriff or any Constable in the traffic situation is the of Mills County, Greeting:

Oath having been made as required by law, you are hereby commanded to summon Maggie Lawson by making publication or trade.-W. L. Eddy, Route week for four successive weeks of this citation once in each previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Mills county to be holden at the court house thereof, in Goldthwaite, Texas, on the 4th Monday in September, A. D. 1930, the same being the 22nd. day of September, A. D. 1930, then and there to answer a petition filed in said court on the 16th day of June, A. D. 1930, in a suit, numbered on the docket of said court No. 2312, wherein C. F. Lawson is plaintiff day of June, A. D. 1930. and Maggie Lawson is defendant, said petition alleging. Now comes C. F. Lawson, who resides in Mills county, Texas, hereinafter called the plaintiff, complaining of Maggie Lawson, whose place of residence is unknown, hereinafter called the defendant, and for cause of action the plaintiff represents to the court that he is an actual bona fide inhabitant of the State of Texas for a period of time Deeds, Mortgages, Examination of more than 12 months before the filing of this petition and LIFE AND FIRE INSURANCE has resided in said Mills coun-

Office over Yarborough's Store. ty, Texas, six months next preceding the filing of this suit. The plaintiff alleges that he was legally married to the defendant on or about the 16th, day of August, A. D. 1925, in Wayne County, Tenn., and lived Bank at Houston, loaning on together as husband and wife until on or about the 9th day of February, A. D. 1927, when the defendant voluntarily, without cause or provocation, left the plaintiffs bed and board for a space of time of three years and has ever since that time lived apart from him. Plaintiff prays the court that the defendant be cited to appear and answer this petition and that he have judgment against the defendant. that said marriage be dissolved and held null and void and for any relief he may be justly en-

titled in law or equity. Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the

# TEXACO MOTOR OIL

## LONGER-LASTING, "CRACK-PROOF"

THE Texas Company again demonstrates its leadership in the petroleum field with the introduction of a vastly superior, new product-a motor oil that . lasts longer-that is crack-proof-a motor oil that meets exactly every requirement of the high speed automobile engine of today! This new oil revolutionizes lubrication values as completely as the new and better Texaco Gasoline, the original "dry" gas, revolutionized motor fuels in the Spring of 1926.

#### An Oil Without Precedent

There have been oils that gave remarkable mileage. There have been oils that flowed freely at zero. There have been oils that kept your engine completely free of wax and carbon troubles. But-never until now have all these advantages been

combined in any one single lubricant. That motor oil is ready for you today. It is the new Texaco-longer-lasting and crackproof. Road tests-laboratory tests have proved it.

#### Available in all our 48 States

Fill your crankcase with this new crackproof motor oil today. It will more than pay you, not only in greater value for your lubrication dollar but for your car dollar as well. It is manufactured in five grades: C, D, E, F, and G, corresponding in body to Society of Automotive Engineers (S. A. E.) viscosity ratings. 30¢ a quart everywhere (35¢ for grade G).

THE TEXAS COMPANY

Refiners of a complete line of Texaco Petroleum Products Including Gasoline, Motor Oil, Industrial Lubricants, Rail-road and Marine Lubricants, Farm Lubricants, Road Asphalto and Asphalt Roofing.
