GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, SEPTEMBER 5, 1930.

NUMBER FORTY-THREE

READY FOR SCHOOL OPENING MONDAY

Lions Clubs Hold Meeting In Goldthwaite

Stage Great Occasion Here Wednesday

The Group meeting of Lions clubs for this district was held at Lake Merritt club house Wednesday afternoon. There was a very satisfactory attendance.

All but three of the clubs in the district were represented and some of them sent large delegations. The club delegates from Junction had the record for coming the longest distance. It requiring 143 miles travel for those delegates to reach the convention.

District Governor W. L. Dugger of San Antonio and Group President C. L. South of Coleman were both present and both made excellent and interesting addresses. President South conducted the business session in the Club room Wednesday afternoon, at which time reports were received as to the activities of the various clubs and the plans they had for future work were also discussed.

At the conclusion of the business session the visitors, including many ladies, were invited to the Lake to enjoy a swim or to watch swimming contests, take boat rides and participate in a program of general entertainment; else they were given the alternative of playing table games in the club room or on the cool verandas. All appeared to be pleased with the arrangements and an hour or more was spent in a social way, with the Goldthwaite Lions and the ladies of the club uniting their efforts to make the time pleasant for their guests.

Dinner

About 7 o'clock dinner was announced and the visitors expressed surprise and delight with the provisions made for this part of the entertainment. A long table built in horseshoe design was decorated with flowers and potplants, while seats had been placed on the outside of the circle, leaving the inner circle for the waiters and serving tables. Plates containing a half chicken barbecued, bread, pickles, olives, salad and potato chips were placed for 150 at the table. Pies cut into proper divisions were placed at convenient distances between the plates, and waiters worked rapidly supplying iced tea, ice water and other portions of the menu.

The dinner was prepared well and served well, which is to the credit of the committee having in charge this feature of the entertainment. All the members and the ladies were helpful in serving the guests and all should share in the thanks of the local club and the citizens of the town for making the occasion creditable to Goldthwaite. One of the visitors in his speech made reference to the excellent preparation of the dinner by the ladies and the members of the club were glad for them to get the credit for the delightfully barbecued chicken and other parts of the menu. The members of the committee who prepared the food were also glad to have the credit go to the ladies, for they felt confident the barbecuing, baking and preparing could have been done equally well by them.

Program

During the progress of the meal the company was entertained by the Four Racketeers orchestra, as well as by a song by Miss Myrna Miller, a piano solo by Miss Mary Ellen Trent and a dance by little Miss Con-

SEVERAL WELL WRITTEN COMMUNICATIONS

CENTER CITY

We are having warm days and cool nights. It is dry again. The showers did not last long and we are needing rain badly.

Brother Brown and Brother Mitchell closed their meeting Sunday night with several conversions. Brother Brown did the preaching and delivered interesting sermons. He is an earnest and sincere old-time Methodist and we wonder why so many refused to change for the better life. He left Monday morning for his home in East Texas. Brother Mitchell began his meeting at Bethel Monday night.

Wm. Biddle, Jr., returned from Temple Tuesday, where he had been at the bedside of his mother. She underwent an operation last Saturday and we are all glad she is doing nicely and will probably return home the last of this week. Her niece, Miss Pearl Casbeer, is still with her.

Miss Gladys Casbeer, who recently had her tonsils removed, is not doing very well and is quite ill at this writing.

Prof. Patterson, principal of our school, moved into our midst this week. We extend to him and his wife and little daughter, Patsey Ann, a hearty welcome.

W. H. Oglesby is ill at the home of his son. He is able to be up now and hopes to be fully recovered soon.

Rev. Joe Benningfield and Hugh Moreland accompanied by his wife and sons attended church here Sunday night.

A number of visitors from surrounding communities attended services here Sunday and we were glad to have them with us. Come again.

Jas. Head and family of Lometa were in our midst Sunday. Mr. and Mrs. Robt. E. Lee entertained relatives and friends in a family reunion Sunday.

R. H. Oglesby and family of Big Valley visited his brother, J. M., and family Sunday.

Alfred Garrett and family left Saturday morning for California. Mr. and Mrs. Oscar Hill are moving to the place where they lived, known as the Hamilton farm. XX

MIDWAY

The young people enjoyed a party Saturday night at Will Hill's.

J. F. Petsick and family of Winchell visited relatives over the week end.

Mrs. W. W. Reynolds and family returned from Dallas and reports that Herman is slightly improved.

Jesse Harwell of Dallas spent Saturday night in Walter Reynolds' home. Jimmie Mae Reynolds came with them over the week end, but returned Monday to Dallas, where she will enter North Dallas High School on the fifteenth. We are sorry that she will be gone during the winter, but wish her very much success in her school work.

Mrs. W. W. Reynolds received a telegram from California informing her of the marriage of her son, Oran, on Aug. 24. Oran was reared in Mills county and has a host of friends who wish him much success in his life. No one here has met his wife, but feel sure that he has chosen wisely.

Eugene Gray is visiting his aunt, Mrs. Anderson, this week. Some of the young people went to the League Union meeting at Goldthwaite Sunday afternoon and report a large crowd, good

SOUTH BENNETT

We only had a few present at Sunday school Sunday morning, as so many of our members are in New Mexico. We elected Dixie Webb for our new superintendent; Will Horton, assistant superintendent. Our old superintendent, Less Simpson, is moving to New Mexico. We certainly will miss these good folks, but wish them happiness and success in their new home.

Mrs. J. L. Huffman and children and Mrs. Elton Horton visited B. R. Casbeer and family Thursday.

Mohler Simpson and wife will move on Less Simpson's place. Mr. and Mrs. Clyde Featherston, Mr. and Mrs. J. M. Casbeer and family and Mr. and Mrs. Wayne Featherston ate ice cream with Elton Horton and wife Saturday night.

Mr. and Mrs. Ira Lee and children of Arizona and Mrs. Walter Jones visited in the B. R. Casbeer home Friday.

Mr. and Mrs. Dan Covington visited in Lampasas Saturday. Misses Essie and Ruth Griffin spent Saturday night in the Travis Griffin home.

Mrs. D. O. Simpson and Leota and Robert Earl visited B. R. Casbeer and family Wednesday. Less Simpson and family visited relatives in Caradan Sunday.

Some went to the party at Travis Griffin's Saturday night. Mr. and Mrs. Elton Horton and will spent Sunday with Clyde Featherston and wife.

Mr. and Mrs. Dan Covington visited Mrs. Emma Casbeer at Center City Sunday.

J. M. Casbeer and family spent Sunday with his mother, Mrs. B. R. Casbeer.

Dixie Webb sheared goats last week. ROSE BUD

BIG VALLEY

Harry Oglesby and family visited at Center City Sunday.

Jack Dennard, Robt. Doak are at Briggs picking cotton.

Mrs. Robt. Long gave a shower in her home for Pattie Cockrell. The little bride received a number of nice gifts.

Mary Cockrell is home from San Marcos.

Hugh Dennard's Sunday school class enjoyed a picnic supper at Oglesby's shoal, last week.

Cleota Swim is visiting her aunt in San Saba county.

Picking cotton and preparations for school, that will soon begin, is the order of the day in the valley. FARMER.

SINGING CONVENTION

The Mills County Singing convention will be held with the Center Point class Saturday night and Sunday. A large attendance is expected. All come and bring well filled baskets on Sunday and spend the day.

L. B. FORBES, Pres. speaking and a good time in general.

The Methodist meeting is going on at Bethel this week. Every one is invited to attend these services.

We were all glad to have Jesse and Charles Roberts at B. Y. P. U. Sunday night and especially enjoyed Jesse's talk on Missions.

J. M. Petsick visited Charlie Anderson and family Sunday. Mrs. Nolan Horton from Wichita Falls visited her parents, Mr. and Mrs. C. G. Featherston, over the week end. REPORTER.

METHODIST CHURCH

Last Sunday was a great day at our church. The great audience made us wish for more room. The music was all that could be wished and the preachers who gave the messages had the message that was for us and did not get them mixed up either.

Brother Boone preached a wonderful sermon at the morning hour in the interest of the young people. Brother Witherston gave us a real gospel message at the night service. I trust we may not lose the messages of that day as they were of lasting import. The young ladies and men in charge and on the program for the afternoon were gratefully good.

The directed recreation Saturday night revealed to us what a good time we can have together at play as well as worship. Lots of fun for all. The singing of the Sociability Songs was worth the while to all of us.

The Sunday school attendance was great and it seemed that we were able to get somewhere with all of our work.

Thanks to those who furnished the good lunch (dinner) for us at the tabernacle. They wrought well and made a wonderful contribution to a great event.

Next Sunday will be a great day and we are counting on the usual large crowd. Our services will be preparatory to the opening of our public schools and the message will be helpful to us all as we are all interested in this great work if not directly connected with it.

Conference is soon coming and it behooves each of us to use diligence in our work if we are going to make what will be a creditable showing for Goldthwaite, which means conversions and accessions and out in full with all assessments. These are trying times, but don't say it can't be done until each member of our great church has done his best. Do not be content that others are going to fail. Not all places have the great work at heart as much as Goldthwaite. The more they fail the greater will be our need. Just do what your appreciation of the Christ leads you to do and keep sweet and you will be happy. Your earnest prayers are needed in behalf of our work. Pray for me. Thank you for your love and interest which supports me in my work. Yours in His service, S. D. LAMBERT.

REUNION AT CENTER CITY

The children, grandchildren and other relatives of J. R. Lee (Uncle John) met at the home of his son, Robt. E. Lee, last Sunday in a family reunion for the first time in a number of years.

This meeting was given also in honor of Ira Lee and family, who are visitors from Arizona. They have been absent from Center City for some ten years and are welcome visitors to their old home.

A bountiful feast was prepared in the homes of the children and spread on a long table especially prepared for this occasion. It was served in picnic style to 65 members.

The children present were: I. M. Lee and family of Arizona, Worth Lee of Pottsville, M. M. Lee and family of Star, Riley Lee and family of Goldthwaite, Mrs. Lee Geslin and family and Mrs. Ewell Venable and family of near Evant, Mrs. Newell Poe and family of Moline and Robt. E. Lee and family of this place.

Four children, Alex Lee of Indian Gap, Bradley Lee of Perton, Luther Lee of Arizona and Mrs. Anna Mitchell of Oklahoma were absent.

Elmer Poe and family, Joe Cox and family, Vernon Perkins and family, Mr. and Mrs. Tom Elliot, Mr. and Mrs. Walter Jones, Mr. and Mrs. W. E. Reid and Paul Jones joined Uncle John and his children at the table and were indeed pleased to be with the happy group.

In the afternoon amid pleasant conversation they were joined by Ed Wilcox and family, Willis Horton and family, T. W. Atchinson and family, Mr. and Mrs. J. P. Booker, Mr. and Mrs. Tom Booker and baby, Raymond Reid, J. R. Carter, Jr. and family, Walter Doggett and family, Ira Nabors and family, Mr. and Mrs. Lawton McBeth and son, T. L. S. P. McCasland and family, T. H. House and family, Forest Venable, Otha Geslin and Misses Gladys Casbeer and Audry Hudson.

Uncle John Lee has twelve children, 110 grandchildren and 12 great grandchildren to bless his declining years.

In the late afternoon these families left for their homes, wishing happiness to each other and hoping that all the children will soon be gathered together in a greater reunion with Grandfather Lee. X

LOOK, MR. BAPTIST

We have our Associational minutes ready. I have them at my house and will be glad to give each church their copies if some one will stop and call for them. We owe about \$10. Let every church send fifty cents or a dollar to Mr. Frank Hines, Scallorn, so that we can pay all bills, and when we do this we will not owe one penny as far as our associations is concerned. Now listen! Read these minutes. Read the reports. Notice what every church is doing. That is why we have minutes printed, and it won't cost you a penny more to read them.

G. C. IVINS, Moderator.

The modern front on O. H. Yarborough's dry goods store has about been completed and adds greatly to the appearance of the building and to that part of the street. REPORTER.

BAPTIST CHURCH

The pastor will preach from this subject next Sunday morning: "The Neglected Youth and Their Opportunities." On Sunday night: "The Man With One Talent."

Sunday morning we want every boy and girl of our Sunday school, that is, those that are large enough and old enough to go to public school to remain for the preaching services. We are requesting that they occupy the middle tier of seats. This means every boy and girl that expects to attend school anywhere. We urge that the parents come and also extend an invitation to every teacher in this town to worship with us. Our public school begins Monday and a frank discussion of the youth of our land will be in keeping with the trend of the times, and we hope to be able to say something that will not only encourage the boys and girls that are going to school, but we want also to encourage those that have the responsibility of making our school what it ought to be.

Some people think that a school is just what the boys and girls make it. Not so. A school is just what we older people make it. Parents, teachers and other citizens of the town make the school just what it is. And just remember it doesn't make any difference how well qualified your teachers are, and how interested they are in the boys and girls, if the citizenship does not give them their co-operation the school can not be what it ought to be.

Now don't any one think that I am advising the teacher how to teach, or the parent how to rear their boys and girls, for I am not. My job is to try to get people to live right, keeping at the Baptists in a good humor and getting them to come right on to church every Sunday, and if we can do this it will go a long ways in helping to have a good school. Let's all get behind our teachers this year and make our school the best.

We motored over to Gatesville last Sunday afternoon and we shipped with the boys at the training school in their regular Sunday afternoon service. We made note of several things of which we will speak Sunday morning, and all boys of school age are urged to attend this service.

We had 249 last Sunday in our Sunday school and four additional to our church, and a splendid congregation at both preaching hours. Now listen folk, those of you who have come back from vacations, remember that most of us have been here at the time carrying things on, and now you are back and we are counting on you getting right where you left off and helping. The pastor maintains that we are going to have the biggest Sunday school and the largest congregation our church has ever had. And why? Because the pastor believes that 96% of the membership of the church is working to that end. Let's make it a 100% and put the biggest program over in the history of our church for the honor and glory of God. If not providentially hindered, be present Sunday and let's make it a round hundred per cent. G. C. IVINS, Pastor.

McCONNELL—COCKRELL. Griff McConnell and Miss Pattie Cockrell were married Aug. 28, at the home of the bride in Big Valley. They left after the ceremony for O'Donnell, in West Texas. Only the immediate family were present. Brother Renfro performed the ceremony. The bride and groom have lived in Big Valley since childhood and have many friends who wish for them a goodly share of life's blessings. REPORTER.

THE GOLDTHWAITE EAGLE

Under sentences totaling 223 years' imprisonment, two alleged participants in the crime wave that swept Dallas several months ago have been sent to the State penitentiary from the Dallas county jail, Saturday.

A tree sitter at Houston observed a house on fire and gave the alarm, but refused to leave his perch. Firemen responded to the alarm and rescued an aged woman from the burning building, proving that the tree sitters can be of some use anyway.

A would-be robber entered a bank in Houston Friday and passed a note through the window telling the man on the inside to hand out all currency and be quick about it. The recipient of the note dodged behind the counter and gave the alarm and the robber fled.

There are lots of ways to get along in the world without passing the hat or calling on the government for aid. A Runnels county farmer did not give up hope when the rain failed to come, but carried water in buckets and kept his watermelon vines alive. He is now gathering a fine crop and selling the melons at a handsome price.

The Texas & Pacific Railway Company through its president announced plans for a 333 mile extension of its lines in West Texas to link the South Plains and the Panhandle country with its transcontinental system. Upon approval by the Interstate Commerce Commission, the company is ready to proceed immediately with this new construction at a total estimated cost of more than \$13,000,000.

A remarkable case is reported from Vernon, where a lady was taken from her home without disturbing the other occupants of the house and left by the roadside unconscious, some miles away. The only harm done her was a bruise on the back of her head. The family knew nothing of her disappearance until she was returned in an ambulance and she remembers nothing of the occurrence.

The Commissioners Court of Childress county at a special meeting last week asked the state highway commission to begin highway construction work in the county at once. To permit this to be done the court notified the highway commissioners the county would place approximately \$200,000 in escrow for that purpose, the county to be reimbursed at a future date after other highway work was to be done.

Chairman Legge of the Federal Farm Board has been soundly denounced for advocating a reduction in acreage of crops that show a surplus and a consequent decrease in price. Yet Legge is offering the only possible solution. There isn't another business in the world but agriculture that is not conducted in this way. Not a factory in the United States but curtails its output when overproduction is met with. Mr. Ford tells the farmer to plant every acre possible, but he hasn't run the automobile business that way. - Marshall News.

Mechanism of the delicate infernal machine or tiny vial of explosive with which A. D. Payne took his own life in the Potter county jail early Saturday has proved as mystifying to investigators as the similar contraption he devised and placed in the rear of the family car to kill his wife last June 27. Officers were ready to admit that they could not solve the method Payne used to "cheat the electric chair." They looked upon it as another product of his fantastic and uncanonically yet coldly calculating and deliberate mind.

Tenth tract—100 acres of land out of Michael Short League and Labor survey, and out of and being a part of a 1023 acre tract in said League conveyed by H. L. Griffin to Lucinda Page by deed dated June 23, 1891, and recorded in Vol. 7, Page 23 of

the Deed Records of Mills county, Texas, said 100 acres are described by metes and bounds as follows: Beginning at the southeast corner of the Andrew McStea survey and in the southwest boundary line of the Michael Short League, same being out of west corner of the 100 acre tract sold out of said M. Short League by R. L. Harrell to H. L. Griffin; thence north 45 deg. east to Little Rock Creek, a tributary of the Colorado river; thence in a southeasterly direction to Big Rock Creek; thence in a southerly direction down Big Rock Creek to the southwest line of the Michael Short League; thence north 45 deg. west with said southwest boundary line to the place of beginning, and being the same 100 acres conveyed by J. P. Page and Lucinda Page to H. G. Ratliff by deed dated December 20, 1898, and recorded in Vol. 15, Page 508, Mills county Deed Records.

Eleventh tract—Beginning at a stone pile in the southwest line of the M. Short survey made for east corner of said Andrew McStea survey and east corner of this tract, from which a P. O. brs. south 45 1-2 deg. E. 21 vrs. do south 79 east 20 1-2 vrs; thence north 45 west with said Short line 307 varas to stone md. from which an elm brs. south 25 1-2 west 2 3-4 vrs a mesquite south 52 1-2 east 10 varas; thence S. 25 west 241 varas to a stone md. on the south bdy line of said Andrew McStea from which a P. O. brs. south 33 1-2 east 6 1-2 varas do south 33 3-4 west 25 1-3 varas; thence south 87 3-4 east 318 varas to the point of beginning, containing 6 1-0 acres, brg. mxd. X.

Twelfth tract—Beginning at a stone md. the south corner of Mrs. L. C. Pease two-thirds of said Michael Short survey; thence north 45 east 540 varas to stone md. from which a P. O. brs. south 42 east 61-2 varas; thence north 471 varas to stone md. from which a P. O. brs. north 30 1-2 east 4 1-2 varas; thence S. 45 W. 540 varas to a stone md. on the southwest line of the said Michael Short survey; thence south 45 east 471 varas, to the beginning, being the same tract conveyed by Mrs. L. C. Pease to Dudley Page by deed dated October 2, 1897, and containing 45 acres of land, more or less.

That on said last mentioned date, the defendants wrongfully entered upon said lands and premises and ejected the plaintiff therefrom, and ever since said date have withheld from plaintiff the possession thereof to plaintiff's damage in the sum of ten thousand dollars.

That on the 1st day of May, A. D. 1930, the plaintiff had, and now has, title to the above described tracts and parcels of land, not only by a regular and consecutive chain of deeds and transfers from the sovereignty of the soil to himself, but also by virtue of the statute of limitation of three, five, ten and twenty-five years; that plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of three years in this: That he and those whose estate he has have had and held under title and color of title from and under the State of Texas, actual peaceable, continuous, exclusive and adverse possession of said land above described for a period of more than three years before the commencement of this suit.

That plaintiff then had, and now has and asserts title to said tracts and parcels of land by virtue of the statute of limitation of five years in this: That he and those whose estate he has claiming the same under a deed duly registered, have had actual peaceable, continuous, exclusive, and adverse possession of the tracts and parcels of land, using and enjoying the same, and paying all taxes due thereon, for a period of more than five years next before the commencement of this suit.

That plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of ten years in this: That he and those whose estate he has, claiming to have good and perfect right and title to said tracts and parcels of land, have had and held actual, peaceable, continuous, exclusive and adverse possession of said land above described, cultivating, and using and enjoying the same, and having the same enclosed under substantial fence, for a period of more than ten years next before the commencement of this suit.

That plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of twenty-five years in this: That he and those whose estate he has, under claim of right and title to said land in good faith and under deeds duly recorded in Mills County, Texas, purporting to convey the same, have had and held actual, peaceable, continuous, exclusive and adverse possession of said land above described, using, cultivating and enjoying the same and having the same under substantial fence, for a period of more than twenty-five years next before the commencement of this suit.

Plaintiff further alleges that the nature of the defendants' claims to said tracts and parcels of land is to the plaintiff unknown, but that defendants

PREFERENTIAL BALLOT

Primary elections are expensive to the tax payers and the candidates, fruitful of much discord and strife, regularly plunge the electorate into a double-barrel biennial battle, and do not always result in getting a true expression of the voters.

It is inevitable that something will be done about changing the present system. It is indicated on the ground of efficiency, of political peace, and of that grand old democratic doctrine, majority rule.

Already there is being discussed a plan to install the preferential primary system in Texas. The preferential ballot is simplicity itself. Its main feature is that it does away with the necessity of a run-off or second primary. In a preferential primary the voter indicates a first and second choice. The candidate who has the most first and second choices combined wins the nomination. Thus if Candidate Smith receives 1500 first choices and 1000 second choices, he is credited with 2,500 votes. Candidate Smith would be victorious even though his opponent, Candidate Jones, received 1,600 first and 800 second choices. No candidate could be first and second choice of any one voter, of course.

It may not meet with the approval of a majority of the voters, and it has its complications and clumsiness, but it is not as bad as the present vestibule-train system of the double primary. The preferential primary, or the short-ballot system, would cost less and eliminate at least fifty percent of the hullabaloo and warfare of the existing plan.

At any rate the legislature ought to look into it as the earliest possible moment.—Abilene Reporter.

are asserting some kind of title to interest in or claims against said land, the exact character and extent of which plaintiff is unable to state; that defendants have no title, no valid interest in and no claims against said land, or any part thereof, and have no right to possession thereof, but are naked trespassers.

Plaintiff prays for the title to and possession of said tracts and parcels of land, and for writ of possession of the same, that all clouds cast upon his title to said lands by reason of defendants' claims thereto be removed, and that he be established, confirmed and quieted in his claim to the same, and for general relief.

THE AUTOMOBILE IS RESPONSIBLE

In spite of the fact that 31,000 people were killed last year by automobiles, the general accident situation affords grounds for optimism.

Accidents among children of school age have increased less than one-tenth of one per cent in the last seven years. Less than 100 passengers were killed while traveling on all the American railroads in 1929. Hundreds of our large industrial concerns have made remarkable records in reducing their accident rates—both in frequency and severity. A multitude of smaller plants are establishing one, two and even five-year "no-accident" records. Had it not been for the tragic increase of deaths and injuries due to the automobile the national accident rate would now be 30 per cent lower than it was 17 years ago.

The crux of the entire matter is that we have made good progress in preventing all kinds of accidents except those for which motor cars are responsible. Safety work and instruction in schools and industries, fostered and encouraged by casualty insurance companies, has been the means of saving thousands of lives in the last decade. This work is being carried on with increasing intensity and vast progress will be recorded in the future.

The automobile accident record will not be reduced until we take decisive means to keep the reckless, the irresponsible, and both the mentally and physically incompetent from the public highways, where they menace the lives and property of all other motorists.

Thin, Pale, Weak

"I HAD BEEN through a bad spell of sickness which left me very weak," says Mrs. Virginia Spruce, of Stapleton, Va. "I was pale and felt lifeless, and my strength did not return. I spent most of my time on the bed. I was very nervous, and the least thing upset me. I did not have strength enough to lift a broom. At times I would have had headaches, which would hurt me until I could hardly see. Someone asked me why I did not try Cardui. I had read of it, so I thought I would see what it would do for me. It was really remarkable how I came out. My strength returned, and my health was better than it had been in years. I gained in weight about ten pounds. My color was good, and I ceased to suffer from headaches. I have told my friends about Cardui because I was benefited after taking it."

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Mills County, Greeting:

You are hereby commanded to summon Ralph McKee by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Mills county, to be held at the Court House thereof, in Goldthwaite, Texas, on the 4th Monday in September, A. D. 1930, the same being the 22nd day of September, A. D. 1930, then and there to answer a petition filed in said court on the 14th day of August, A. D. 1930, in a suit numbered on the docket of said court No. 2317, wherein Maggie McKee is plaintiff, and Ralph McKee is defendant, and said petition alleging:

Plaintiff and defendant are husband and wife, were married August 14, 1927, resided together until May 25, 1929, when defendant left and his whereabouts are unknown. Plaintiff was true to defendant, would have kept his home in a prudent and economical manner, had he given her opportunity, but regardless of his marital obligations, defendant began and kept up a course of unkind, thoughtless, heartless and cruel treatment, which finally rendered their living together as husband and wife insupportable. Defendant violated the law and was constantly fleeing from and evading the officers. When reproached by plaintiff, he swore and cursed and used to and about her the most vile and opprobrious epithets, and became violently angry. He left her for great lengths of time and associated in unlawful manner with other women, and finally left her without money in Dallas, Texas. Plaintiff says she is of a nervous disposition, and the constant struggle to keep track of her husband and keep him out of jail, have made her a nervous

wreck and permanently injured her health. Such action of defendant, plaintiff alleges, constitutes such cruel and inhuman treatment, as renders their further living together as husband and wife insupportable.

Plaintiff says they have one son, James Ralph McKee, two years old. That defendant is not a proper person to have his care and custody, but that plaintiff is the proper person to have the care and custody of said son. She therefore prays that she be awarded the care and custody of said child.

Plaintiff alleges she is a bona fide inhabitant of Texas, and has resided in Mills county for six months preceding the filing of this suit.

Wherefore, plaintiff prays that Citation be issued, that she be granted a divorce, and the care and custody of James Ralph McKee, and for such other and further relief as she may be entitled to, including all costs and reasonable attorney's fees.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Goldthwaite, Texas, this the 19th day of August, A. D. 1930.

JOHN S. CHESSER,
Clerk Dist. Court, Mills Co.

C. F. Redlich, Minneapolis, Minn., nationally famous Rupture Appliance Expert, will demonstrate without charge his unequalled method as Goldthwaite Thursday, Sept. 18, at the Saylor hotel from 10 a. m. to 4 p. m.

Mr. C. F. Redlich says: "The 'perfect Retention Shield' holds the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time. The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable."

"IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH." Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75% cures with this system.

New York Has Welcome For Unique Personality

JACK SMITH,

THE WHISPERING BARITONE WITH PERSONALITY

This Is Opinion of Jack Smith, Singer, Who Won There

New York City—"Don't be afraid to come to New York if you have personality!" This is the advice of Jack Smith, internationally known singer. Mr. Smith gives this advice to young people without capital. He thinks that personality is adequate capital for all the difficulties that must be met here. His own experience has proved this to be true. He makes half a million dollars a year out of his own personality. "Youngsters are scared to death by all the wild stories that come out of New York about starving penniless in attics," he explains. "This is both. Broadway wants personalities. It has dozens of places for the young man or woman who is different, who can register himself or herself as something unique. "It may be a dance—it may be a smile—it may be a musical trick. It does not really matter what the gift of personality is, so long as you have something. Perhaps you have the flare for song writing. Maybe you can write a song that is as different as the famous 'If You See Sally,' which bids fair to make a lot of money for its composer. Whatever it is, bring your gift to New York. She will receive you with open arms." Jack Smith is probably the greatest American popular singer of the times. His success in London, Paris and many of the capitals of Europe has been instantaneous.

It is likely the state Democratic convention in Galveston next week will be a pretty lively race, because of some platform resolutions to be offered.

A Spanish language newspaper published in Havana, at 5 p. m. Wednesday reported receiving authentic information that Santo Domingo City was devastated by a hurricane which struck here late in the day.

An early fall and hard winter predicted by old-timers as wild fowl already have been reported winging their flight southward three weeks earlier than last year. Reports of wild geese going over have been received from several sections.

A call for the members of the Texas Woman's Democratic Association to meet in Galveston in the afternoon of Sept. 8 on the eve of the main session of the State Democratic convention was issued Wednesday by Mrs. Edward Hodges of Houston, first vice president and chairman of membership.

The "buy a bale" movement, as proposed by Governor Moody and endorsed by many good citizens, is not destined to accomplish much good for the cotton market. If a good many million bales could be taken from the market and held indefinitely it might be beneficial, but to take a few thousand or even a few million bales and hold them for some indefinite period will get us nowhere.

If the Interstate Commerce Commission approves the application of the Southern Pacific to purchase the Gulf & West Texas, authorized to build from Fredericksburg to San Angelo, the construction of the property should be in accordance with the standards of the Southern Pacific. This is suggested to the commission in a petition filed by the Gulf to extend the date for beginning construction until the commission acts on the Southern Pacific's application.

Former Ambassador James W. Gerard, represented this country in Germany before the war, has come out with the statement that fifty-nine men actually rule the United States. Being called upon to name the men, he did so. Included in the number, we find several heads of great steel companies, movie magnates, newspaper publishers, automobile manufacturers and others prominent in industrial life. There is not the name of a single member of Congress or the Senate, and the name of the President of the United States is significantly absent. Mr. Gerard explains these omissions by stating practically all politicians are ruled by the "powers behind the throne," and that they are always shorn of power as soon as they leave the White House or Congress.—Greenville Banner.

The Highway Department has just finished the work of taking its third annual traffic census. Standing eight-hour shifts, about 2,000 men, stationed at 972 points along the 160 odd roads which comprise the state system of highways, counted the cars that passed them for four days without break of a minute. In two of the eighteen engineer divisions of the system the count was made in June; in the sixteen others, in July, beginning at 6 o'clock on the morning of the 5th and ending at that hour on the morning of the 9th. When the counters had got through their tally sheets showing an aggregate of about 2,600,860 marks, of which 2,581,716 stood for motor vehicles and 19,144 for horse drawn vehicles, a ratio which affords a cogent commentary on the passing of the horse as a means of travel. Those figures divided by four are an index of the daily volume of highway traffic. So divided, they come to 645,425 for the motor vehicles and 4,786 for the horse drawn.

LIONS CLUB CONVENTION

de Trent, accompanied on the piano by Mrs. S. P. Sullivan. All of these numbers were enthusiastically encored and heartily enjoyed and appreciated by the some folk as well as by the visitors. The Four Racketeers orchestra, composed of Bill Yarborough, Herman Rudd, Julian Evans and Paul McCullough also furnished music for the business session of the convention.

Thanks Are Due
The Brownwood club rendered a most amusing and interesting "stunt," under direction of O. B. Cannon, assisted by other members of the club, and it was one of the most unique features of the entertainment. The Goldthwaite club thanks them for their co-operation in entertaining the visitors.

L. J. Gartman, owner of Gartman's Music House, furnished one of his splendid pianos—one with a delightful tone—for use in the business session and for the program at the dinner hour. He can be sure that every member of the club and every citizen interested in the proper representation of Goldthwaite appreciates his kindness and liberality. He not only loaned the piano, but placed it at the club house, which was an additional kindness.

Those who took part in the program: The Four Racketeers, Miss Myrna Miller, Miss Mary Ellen Trent, little Miss Connie Trent and Mrs. S. P. Sullivan all have the grateful thanks of the Lions club for their assistance with the program.

The various committees of the club worked faithfully and well to make the event one of credit to the club and the town and in their endeavors they surpassed all that could have been expected or asked of them. The arrangements committee, the menu committee, the program committee, the reception committee, the decorations committee, the table committee, the waiters and everybody connected with the planning and carrying out of the program is entitled to praise and commendation. Nothing was left undone to procure of the guests and everybody should feel a sense of pleasure for a duty well performed.

CARD OF THANKS

We are indeed thankful to all those who helped so faithfully at the time of the fire in our home. Not only did the firemen work heroically, but many citizens worked hard to give assistance. We are also grateful for the assistance given us in a material way by the good people of Goldthwaite and other communities. It was wonderful kindness and helped us at a time we were sorely in need. We want everybody to know of our sincere thanks.

M. C. COLLIER and WIFE, MRS. A. P. McWHORTER, (Miss) BERNICE PERRY.

A LIGHT RAIN

A light rain fell here yesterday afternoon and it doubtless extended to several communities in the county, but there was not enough of it to do any good, further than cool the atmosphere and lay the dust for a short time.

The ladies of the club did their full part and more in the preparations and the entertainment and the members of the club feel an additional appreciation and admiration for them.

BABY NOWELL

The two year old son of Mr. and Mrs. H. A. Nowell died in the family home at Scallorn at an early hour last Saturday morning, after a few days of illness with stomach disorder. He was the only child in the home and the grief stricken family can be sure of the sincere sympathy of all who know of their over-shadowing sorrow. The heart-broken parents had every plan of their lives wrapped up in the baby and his going seems almost unbearable. A large congregation of sorrowing friends attended the funeral at Star Saturday afternoon, when Rev. G. C. Ivins of this city conducted the funeral service.

CASH BASIS

All of us who are living beyond our means would pugnaciously resent any law which should deprive us of the right to have our gasoline charged and buy our tires on credit. We read daily from some financial authority that land is the basis of all wealth. But is it? Land, more truly, is the source of our sustenance, but there is a difference between sustenance and wealth. Wealth implies a surplus of sustenance. When we come down to cold realities we discover that the modern world's basis of wealth is credit. Every bond, every share of corporation stock, every mortgage note, even the currency of the United States Government, is a token of credit. Credit can be abused. It is abused every day. So is land. Those who obtain credit beyond their capacity to employ it with profit come down to bankruptcy sooner or later. Ditto, those who own more land than they can cultivate properly eventually come to the same place. Certainly a landlord, in town or country, may rent his property advantageously and realize wealth from the income, but that income is based on credit, not on the land—the credit of the renter who promises to pay his rent. Now we come back to the first proposition, the shutting off of credit from those of us who can't pay when called. Reduce us to the cash basis and it will make us feel poor. And it is the consciousness of poverty rather than poverty itself that pinches most.

A PUSH

They say these times are hard and uncertain; that business is threatened with stagnation. So far as my personal testimony is concerned, it is all so and the end is not yet. Seems to me that the people generally are taking a case of blues. I am suggesting a rule of help—a rule to help now and from here on. We have a large class of debtors. That means we have a class of creditors. The rule of help is to do our best, even to the last penny in caring for creditors. To look out only for number one was always a poor, hurtful business. If there ever was a good time to get away from selfishness, we have come to that time. A good plain understanding will clear up expectations and that will avoid serious disappointment. The question mainly isn't so much "how to get by," but the question is how can those I owe get by? The proper fellow-felling will manifest itself somewhere and somehow to advantage.

You talk about robbing Peter to pay Paul. This is the time to do the thing and Paul will enjoy it, provided you do something to settle with him before he expires.

I guess some will conclude that Sam Say has turned pessimist. The latest definition of pessimist says, "A pessimist is one who has to associate with a fool optimist." We have had some of the latter as political leaders, some of them as church leaders and some of them who can't lead, so it's a good time to observe a check in things.

I wanted to say something in

OBLIGATION TO AGRICULTURE

The lack of year-round, weather-proof, surfaced highways is a tremendous burden to the farmer.

He is forced to move his produce during the few weeks of the year when his dirt roads are firm and hard, thus causing glutted marketing conditions. Poor roads prevent adequate rural fire protection, increase the cost of medical attention and are a barrier to the development of modern school systems. They retard the motorization of farm equipment and keep business stagnant during many months of the year in small towns and villages.

Good farm-to-market roads would benefit not only the farmer, but local merchants of all kinds. They would be an attraction to tourists and would help relieve the traffic congestion of main highways. In short, they would pay tangible dividends far in excess of their low cost.

Long-wearing, low-cost surfaces have been developed which make it possible to build many miles of farm-to-market roads without incurring heavy indebtedness. Every state owes agriculture an adequate highway system.

This special construction absorbs road shocks — protects against punctures and blowouts — provides the foundation for the thick, tough tread with deeper grooves—giving longer non-skid wear.

OTHER makes of tires have only a single breaker of old-fashioned square woven fabric which Firestone discarded when they developed the balloon tire. Some makes do not have any breaker at all. The Firestone Tire is set apart as an "All Cord Tire".

Royal Road to Wealth In Dance Orchestra

Lou Raderman

Just a little bit of sympathy and it'll change the blues from gray to blue.

College Graduates Are Winning Fame and Money New Way

New York City.—The boy or girl with musical training and ambition is choosing the dance orchestra as a royal road to success and fame these days rather than a symphony orchestra or the concert stage, a recent poll among musical students indicates. "The reason is not far to seek," maintains Lou Raderman, known to flappers as the handsomest orchestra leader in New York City and nicknamed by his associates the sheik of melody lane. "Any ambitious person has two main objects in life. He wants to reach the greatest number of people and he wants to get the very best financial return he can. The dance orchestra will satisfy both of these ambitions. Moreover, it is a great mistake to suppose that the modern dance leader does not need to know as much about music as the symphony conductor or the concert artist. "As a matter of fact, he really needs to know more. He has to have originality and leadership in a marked degree and he must be familiar with the intricacies and possibilities of all the instruments used in his orchestra. He must be a judge of men—tactful, democratic and yet authoritative—a good showman too. "It is well known now to college graduates that jazz is a lucrative profession. Players get as much as \$150 and sometimes more. Jazz has made fortunes and bought motor cars, country houses and fur coats for many a player, composer and publisher. I believe it is the big profession of the future." Mr. Raderman was an infant prodigy, although he tries to conceal the fact now. He gave a recital at the age of six. At seventeen, he was playing in a Russian symphony. He is now 23 and the youngest conductor in the city, known from one end of Manhattan Island to the other for his playing of "Sympathy Waltz."

S. C. Littlepage and wife of Dublin were visitors to this city the first of the week. They lived here some years ago and have a great many friends who are always glad to meet with them.

ROCK SPRINGS

As usual we had our Sunday school and B. Y. P. U. at the correct time.

I am afraid my letter won't be so newsy this week, as I haven't found out very much news so far.

I am sorry I have failed to get the names of our new neighbor, little Miss Traylor, who has come to make her home with her parents, Mr. and Mrs. Woody Traylor.

Some from this church attended the Christian meeting in town last week.

Mr. and Mrs. Charles Grant had business in the city early Monday morning.

Marion Robertson was visiting in the Traylor home Monday.

Philip Nickols and Jack Robertson worked for Monday for E. D. Robertson.

Charles Grant and wife dined in J. C. Stark's home Sunday and in the afternoon Mrs. Eula Nickols and Austin Cooke joined them.

Miss Nell Strickland from Temple, visited her uncle, Austin Cooke, and children Saturday night and Sunday.

James Nickols has another shearing job this week. He is helping Otis Hutchings at Center Point. These two boys really do good work.

Mesdames J. F. and Joe Davis and baby and Mrs. J. C. Stark and Miss Florence Stark spent the day last Friday with Mrs. Ray Davis in Big Valley.

Philip Nickols took dinner and supper with Walton Daniel Sunday. In the afternoon Mrs. Daniel and Misses Oleta and Billie Ruth and Walton and Philip visited in Bob Robertson's in Big Valley. They also went swimming.

Mrs. Joe Davis and son spent the day Saturday with J. C. Stark and family.

Craig Wesson from Center Point came over Monday to see if the rest of his crop on the Faulkner farm had burned up.

Chad Chadwick and family from Brownwood visited E. D. Robertson and family last week.

J. T. Robertson and wife spent the day with Mr. and Mrs. Lasley Sunday. Messrs. Robertson and Lasley went to the Christian meeting.

A. F. McGowan and wife went to Coleman one day last week and took Miss Flora Evelyn Gatlin home and Haskell Gatlin and Clark Davis came home with them for a few days visit before school opens.

Mrs. C. H. Ford from town and Sarah Dell Scott from Abilene and Mrs. Ivan Barber and children spent last Thursday in the Nickols home.

There was a thief in our community Saturday night. Two spare tires were taken.

Joe Roberts and family from town spent last Thursday night with Mrs. Nickols and boys. Mrs. Roberts and children spent the day Friday, while Mr. Roberts went with his mother, Mrs. Jno. W. Roberts, to Copperas Cove to see Mrs. Roberts, brother, who isn't well.

Hardy and Ethel McClary took Miss Waltrip to DeLeon last Friday and Miss Ethel stayed for a visit in the Waltrip home and later she will go to Crum to visit her sister.

Mrs. Lula Gatlin and Miss Leve from town spent last Friday in the Nickols home.

Miss Norma Lee Robertson from Big Valley visited with Miss Oleta Daniel Sunday morning early.

Mrs. E. W. McNutt visited Mrs. Nickols last Friday afternoon.

Johnnie Carroll from town has been crushing feed for E. D. Robertson this week.

Ashley Weathers and family were at B. Y. P. U. Sunday night.

Ford brothers from Scallorn have done quite a bit of shearing in this community lately.

Two of our big cattle men surprised their families with a nice new Chevrolet car lately. These gentlemen are J. M. Traylor and L. O. Ellis. Believe me our old Ford sure gives them the road when we meet them. Our Fords don't like that Chevrolet "squeek."

Mrs. Mary Faulkner and grandchildren visited Mrs. Nickols Monday afternoon.

Johnnie Belle Circle spent Saturday night and Sunday

TAX VALUES

The Mills county tax rolls are being compiled and the total result of the assessments is indeed encouraging, showing a very small decrease in values from last year and a corresponding reduction in taxes. The figures as furnished the Eagle by D. D. Kemper are as follows:

Property values, 1929	\$5,675,890
Property values, 1930	5,613,930
Decrease in values	\$61,960
Total state tax, 1929	\$43,068.54
Total state tax, 1930	43,234.34
Increase state tax	\$165.80
Total county tax, 1929	\$34,055.34
Total county tax, 1930	33,683.58
Decrease county tax	\$371.76
Total reduction in all taxes	\$205.96

STATE APPORTIONMENT

The scholastic apportionment from the state is to be \$17.50 for the coming scholastic year, which will bring \$25,452.50 to Mills county, on the basis of the scholastic census reported. The total number of children in the school age is 1455 and of this number there are 463 in Goldthwaite and 255 in Mullin. There are some changes made as a rule, but this may raise or lower the total amount of money the county is to receive from the state for school purposes.

REASON FOR OIL WASTE

The overproduction crisis in the petroleum industry results from the fact that in one important particular the industry differs from others.

An oil field is jointly owned by a number of operators. However, there is no such division of ownership in the oil pool underground. A single producer, owning but a small share of the land, could, if the others curtailed production, entirely drain the field, depriving others of their property.

Therefore, when one producer drills, all who have an interest in the field must likewise drill, regardless of the law of supply and demand. A single irresponsible producer, representing only a small minority interest in a field, can thus make in-operative all the efforts of the major producers to achieve conservation.

But one workable solution to the problem of competitive drilling drainage has been found, in the opinion of many experts—the unit system of operation. Under this system, control of a field is vested in a committee representing all the interests. The committee produces only as much oil as is needed to supply the market, keeping the balance underground in natural storage until called for by public demand.

Our petroleum resources, no matter how large, are irreplaceable. They must be intelligently used. To allow waste is economic folly and the public will take the consequences unless it is stopped.

with Miss Estel Doggett in the city.

Homer Doggett and wife visited in the Nickols home late Sunday afternoon.

Henry Simpson and family and Misses Ollie and Ivy Henry from San Angelo visited in the Davis home Sunday afternoon.

Miss Oleta Daniel went on a picnic down on the river in Big Valley Tuesday afternoon.

Mrs. Clyde Bates and daughter from Amarillo are visiting her parents, Mr. and Mrs. McNutt, this week.

R. C. Webb and wife sat until bed time with Mrs. Nickols and boys Monday night.

Wesley Stark and family, who have been here for some time, left for their home in California this week.

A. F. McGowan helped R. C. Webb fix more goat sheds this week.

It will soon be time to fix lunches for school again. There will be several go from here to town this term. **BUSY BEE**

FORD'S GOLDEN RULE

In an issue of "System" Mr. Ford outlined the business creed under which he operates and to which he attributes most of his marvelous success. Here it is:

1—An absence of unreasonable fear of the future. One who fears the future fears failure and limits his activities.

2—A disregard of competition. Whoever can do a thing best ought to be the one to do it.

3—The putting of service before profit. Profit cannot be the basis—it must be the result of service.

4—Successful manufacturing is not a matter of buying low and selling high. It is the process of buying materials fairly and with the smallest possible addition of cost, transforming those materials into a consumable product.

Mr. Ford says: "I hold that these principles are universal and the practice of them must lead to a better and wider life for all of us. If I did not think so I would not keep working—for the money I make is inconsequential. Money is useful only as it serves. Unless everybody benefits by the existence of a business, then that business should not exist." — Florida Realty Journal.

TROUBLESOME CHANGES

Women quit wearing corsets and thousands of people engaged in making them lost their jobs; they went to wearing silk hosiery; wrecked the cotton hose industry, and threw tens of thousands out of work; they bobbed their hair, and ruined the hairpin manufacturers; they cut short their dresses and their bathing suits abbreviated.

Live stock in more than two-thirds of the 253 counties in Texas will be free of the tick and scabies menace by the first of the year if the plans of the Live Stock Sanitary Commission of Texas are carried to completion.

The sunken wreck of the steamer Egypt, which went down after a collision in 1922, has been located definitely by Italian divers, the Egypt carried a treasure of \$8,000,000 in gold. The steamship Egypt, a passenger liner, was sent to the bottom May 20, 1922, by collision with a French ship in a heavy fog on the coast of Spain near Finisterre, with the loss of about 100 passengers and crew and nearly 250 passengers saved by the crew of the Seine, the other ship in the crash.

Free government can survive only as long as the people have a concern for political issues, examine with intelligence policies of government, scrutinize the records of political parties and officials and hold to strict accountability parties and individuals who fail to redeem their pledges." Senator Tom Connally of Texas asserted Monday night in delivering an address over the National Broadcasting company radio station from its Chicago studio. Senator Connally was speaking in behalf of the Democratic national committee.

—but what's the use? Pretty soon there will be nothing left and we can all quit work. Not to lay it all on them, enough young men quit wearing hats until the other day 40,000 laborers were put out of work on their account.—Edina Sentinel.

MORE FOR A DOLLAR

Various surveys, conducted in different parts of the nation, show that the purchasing power of the dollars is steadily increasing.

Last year commodity prices ranged from 15 to 40 per cent higher than today's level. As a consequence, the average income, from the standpoint of what it will buy, is appreciably greater than it was a year ago, but if the trend toward rising taxes of all kinds continues, the tax collector, not the public, will be the principal beneficiary of declining price levels.

Jazz Band Business Gets Pick of University Men

COLLEGE ENTRANCE EXAMS OF THE FUTURE

There's a foot-man on the Vol-ga, And he's drifting to the sea.

Other Professions Must Raise Their Bids or Lose, Says Leader

New York City.—Unless other professions increase the financial inducements offered to college graduates, the jazz band industry is soon going to be overcrowded, declares Jack Denny, orchestra leader.

Mr. Denny is a graduate of DePaul University. Every man in his orchestra is a college graduate.

"The best bet for the boy who comes out of college these days is the jazz band, so far as salary is concerned," Mr. Denny said. "Last summer, three hundred American undergraduates jazzed their way through Europe. This fall, several thousand boys got jobs with bands to help pay their way through college. Many of them quickly earned from one hundred dollars to two hundred dollars a week in this way."

Unfortunately, the lure of the money is sometimes so strong that some of them forsake their colleges before they graduate, to become jazz musicians. Ten years ago there were no college men in professional dance orchestras. Now, it is safe to say that ninety per cent of jazz musicians are men with one, two, and sometimes three degrees.

"NO MEDICINE EVER HELPED AS DID KONJOLA"

Stubborn And Painful Stomach Ailment Readily Yields To Power of Famed Compound

MRS. EDNA BARNETT

"Each day for a year I was in misery," said Mrs. Edna Barnett, 713, North Pearl street, Dallas. "My system had become weak and run down from indigestion. Food failed of digestion and I had a constant burning sensation in my throat and stomach. Gas formed and I often belched violently. My nerves were upset and little things upset me terribly. I did not sleep well at night.

"The number of local people getting results attracted my attention to Konjola. I noticed a change for the better in my condition after I had taken the first bottle. I have taken four bottles to date and my health is again normal. I eat what I wish without a trace of indigestion or bloating. My nervous condition is much relieved and I sleep well at night. No medicine ever helped me as did Konjola."

The files of Konjola contain thousands of such statements. It is recommended, however, that this medicine be given a thorough trial, in the average case over a six to eight week period.

Konjola is sold in Goldthwaite, Texas, at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

OUR EDUCATIONAL SYSTEM

It is a long road from the little red schoolhouse to the present-day school equipment. It is traveled frequently in memory. Much as conditions have necessarily changed in schooling as in other important matters in life, it is as difficult to secure adequate instruction for the present school generation now as in the days of fewer school houses and smaller school expenditure. The kind of teaching was no less important then than now. The realization was no less keen on the part of those charged with the hiring authority. The difficulty today as then lies in the fact that the demand far exceeds the supply. Not in the number of teachers. As Elbert Hubbard once said of the \$5,000 men, there are plenty of those. The increasing output of teachers' colleges academic curriculums and plain high schools of graduates anxious to supplement their earning power by engaging in instruction so far assures a supply for instructional purposes that the unemployed teacher must be added to the roll of the jobless. There is seldom any lack of labor in any calling, but the skilled technician is all too scarce. That is true of teaching, too. Incidentally, when the true teacher is once secured, the employing board need worry no longer as to what kind of a teacher he or she is. For in the born instructor there is a character which dedicates him to the task. His knowledge is but the fuel required to supply the inward flame of leadership. Stone walls may not a prison make, but they supply a much better imitation of the real article than an ornamental sheepskin can make a teacher. Growing youth is fortunate when its educational path is directed by one of the few to whom teaching is an occupation instead of a calling, schoolhousing and equipment pale into nothingness. There is knowledge in books, but only for those who are taught properly how to open them. -State Press in Dallas News.

NO DANGER OF OIL SHORTAGE

For many years estimating the amount of our available petroleum resources has been a favored diversion of statisticians. However, every estimate has been proven wrong in the light of later discoveries.

Now it is said that the discovery of new fields and of deeper sands in old fields make it necessary to again revise our ideas regarding the supply of oil we have in underground storage. There is no danger of a shortage, and those who forecast depletion of our supply by 1930 or 1935 will have to guess again.

This is encouraging news. Oil is vital, not only to industrial and social progress, but to our existence. And the United States of tomorrow will unquestionably find new uses for great quantities of petroleum products we know nothing of today.

But, no matter how large our resources may be, there is no excuse for wasting them. Whether we have fifty billion barrels of oil or five, the supply is definitely limited. It can not be replaced. It must be used sanely and economically.

The major oil producers, aided by the Federal Oil Conservation Board and other public and private agencies, have been waging an intensive fight against the menace of overproduction. Now, with the inauguration in several important fields of the unit system of production, by which supply and demand are equalized and waste outlawed, it begins to look as if success was in sight. An invaluable national resource must be conserved.

TEXANS ARE BUILDERS

Texas lacks a lot of being finished. Always there is more and more to be done. It is one of the things that keep life zestful, the constant need of betterments and the continual realization of objectives. Fancy a city wholly complete—heaven excepted—with all the desirable achieved, all the growth concluded, all the ambitions brought to fruition. What a tiresome place it would be! Same with a farm. Consider a farm that could not be improved—the fences strong, the turn rows trimmed, the doorway abloom, the gate firmly set on three hinges, the kitchen and bath room piped for water, the barn aglow with new paint, the bins full of oats and the goslings on the pond—consider a farm where there was nothing to be done toward making it a kinder place to live. What incentive would be left except the sowing and reaping, which are not enough for all-year stimulation. As with the perfect farm, a perfect state—heaven again excepted—could be nothing less than a bore after a week of exultation. Growth, extension, increase—these exalt us and employ us and fructify our spirit. Even heaven, which we have twice excepted from our propositions, may not be a stationary abode of absolute sublimity. We may have to fetch and carry there, as here. We may have to build new mansions in the skies, raze the habitations of Adam and Noah and their contemporaries, which were good enough for antediluvians, but would not be good enough for us. We do not know. Who does? -State Press in Dallas News.

OUR IMPORTANT CROP

No matter how successful we are with our store or our factory or our ranch, if we fail our boys and girls we have not made a success. If it is necessary to develop our natural resources, to settle up the wide expanse of fertile soil in West Texas as modern farms and ranches, we certainly must develop the highest type of manhood and womanhood to carry on the work.

It would be difficult to find anywhere in the world a finer type of boys or girls than we have in West Texas. A large percentage of them come from the farms and ranches. Those who come from the towns and cities are the type who live largely out of doors and thus from a physical standpoint are practically perfect.

Of recent years colleges from every part of the state and out of the state have made a strong bid for our West Texas students. They have established for themselves in every college where they attend a reputation for the best there is in material. You will find records held by

On Aug. 1 a tornado struck the Houston airport late in the afternoon, causing in the wall of one hangar and damaging five planes to the extent of \$50,000.

Broadway Limited, a son of Man O'War, for which W. T. Waggoner of Fort Worth, paid \$65,000 as a yearling, fell dead while racing in the second event at Lincoln Fields, Chicago, Friday. His rider escaped with a few bruises. Broadway Limited was making his second start since the running of the Derby. He was running next to last when he suddenly collapsed as he was turning into the stretch for home. The cause of his death, veterinarians said, was a heart attack and he probably was dead before he crashed heavily to the ground.

Believes Women Err In Leaving Home for Career

RUTH ETTING

Wistful and Blue, in spite of all I can do, I keep on thinking of you, - The joy of

"Wistful and Blue" Is Feminine Song Writer's Sermon to Sex

New York City.—Recently, a good many people—men, especially—are wondering about women and careers. In spite of their frequent success, are business and professional women really happy? One of them, Ruth Etting, singer and song writer, says they aren't.

"Before they had tried it, women were able to do little more than speculate about their chances for contentment through careers," she explains.

"But now they know whereof they speak for they have gone into business and professions by the thousands.

"Some of them have felt it necessary to give up all thought of husbands and homes at the same time. I think myself that husbands and careers are a bad mixture, but I am not at all sure that we haven't chosen the worst part when we turn to the career.

"I feel so strongly on the subject, in fact, that I have written a song called 'Wistful and Blue' which tells the story of the modern girl. After all it is not money, success or station that a woman wants but protection and affection. And these are stifled in business activities.

"Perhaps my song will show some of my sisters the truth before it is too late. I hope so."

JONES FAMILY HONORED

Honoring Mr. and Mrs. W. L. Jones and son, Thomas Lee, and Mr. and Mrs. John Jones, the members of the Brady Presbyterian church Friday evening at Richards Park entertained with a picnic supper. The honorees are to leave soon for Lometa, where they will make their future home on a ranch in that community.

More than a hundred friends and members of the church attended the celebration, which was featured by a spread supper, which consisted of fried chicken galore, and all other necessary eats that go to make up a good meal while out in the open. — Brady Standard.

TEACHERS INSTITUTE

The Mills County Teachers Institute convened in Junior High school building in this city yesterday morning and will continue thru today. Dr. I. I. Nelson of the State University is the conductor, but Supt. Stringer of the Goldthwaite schools, Supt. Jno. M. Scott of the Mullin schools and other teachers of the city and county are taking an active part and the discussions are good and timely. The program yesterday was decidedly interesting and the teachers are more enthused over their work than they were before the opening of the institute.

CARD OF THANKS

We are so grateful to the good friends in our home community and elsewhere for their kindness and sympathy at the time of the death of our baby, we want to express to them our heartfelt thanks and to let them know that every act and deed was appreciated. We are also appreciative to the fullest extent for the kindness and sympathy of the people of Star at the time of the funeral. We sincerely thank them all.

Especially do we appreciate the beautiful flowers supplied for the bier and the grave. We are indeed thankful for the thoughtfulness and kindness of those who supplied them.
