> It is barely possible that too few churches feel the pinch of poverty. It may be that the Holy Ghost flees out the back door when too much money enters at the front.

Jesus Christ preached His sermons from the mountain tops or in the lowly placesit seemed to matter little.. His gospel of love and faith, and hope and charity: not a gospel of bigger, better church building. The Church of Jesus Christ was founded upon sacrifice, perpetuated through sacrifice. Unquestionably, sacrifice is of the essence of Christianity and the passport into His kingdom.

In an age when thousands of His children are hungry, imagine He who founded the Chuch would be better pleased with modest church buildings, from which are distributed food and clothing, than with magnificent structures wherein the congregations sing praises to God in luxury and ease, whilst the destitute shiver outside in the cold. -Editorial

THE NEW CHEVROLET SIX

Strikingly beautiful, fleet and smart sterpiece of Fisher styling

Never has the superiority of Body by Fisher been more strikingly exemplified than in the

Bigger and Better Chevrolet Six! With the added advantage of a lengthened wheelbase, Fisher designers have achieved in the new Chevrolet an impressive degree of smartness, comfort and luxury.

Inside and out, scores of refinements stamp this car as a masterpiece of modern coachwork. Radiator, headlamps and tie-bar form an unusually attractive and distinctive ensemble. Mouldings sweep back in an unbroken line to blend with the smart new body contours. And new color combinations lend a new individuality. Interiors, too, are exceptional. The new mohair and broadcloth upholstery is smartly tailored. Seats are wider and more luxuriously cushioned. A deeper windshield and wider windows give better vision. And beautiful new modern fittings lend a final note of charm.

Many mechanical improvements are also evident in this Bigger and Better Six. Among these are a stronger frame; easier steering; a more durable clutch; a quieter, smoother transmission; and important engine refinements.
