VOLUME THIRTY-NINE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JULY 28, 1933.

NUMBER FORTY-EIGHT

Mills County Co-operating

Mills county farmers are busily engaged in plowing up the cotton they agreed to destroy and in a very short time the county's full quota will have been destroyed. The certificate blanks have not yet been received by County Agent Weaver, but that is a mere matter of detail. The blanks will come and Mr. Weaver will fill them in and everything will be regular. The farmers who have proved their willingness to co-operate with the president's plan and have demonstrated their faith in the government need have no fear of the result. The checks will be forwarded to the farmers direct as soon as the information is officially given to Washington that the cotton has really and truly been destroyed.

Mills county farmers, like Mills county business men, are giving full co-operation in bringing the country back to normalcy and it is this good spirit of loyalty that has characterized Mills county and made of it one of the best counties in Texas.

BIRTHDAY DINNER

Sunday, July 23, 1933, the children of Mr. and Mrs. Joe Spinks of Center Point community surprised their parents with a birthday dinner, it being in honor of both their birthdays. Both being born in the month of July.

There were nine of the twelve children present.

We realize there has been a depression over the country for the past three years, but the tables were well loaded with all kinds of good eats.

Those present were Mr. and Mrs. Joe Spinks, Mr. and Mrs. Marvin Spinks of Rock Springs, Mr. and Mrs. Will Harmon and daughters, Annie Gene and Norma Lee, Mr. and Mrs. Anderson of North Bennett, Miss Inez Spinks of San Antonio, Misses Alva and Adeline Spinks, L. D. Spinks, Lindy, Howard and little Maxine Spinks, Mrs. Josie Palmer and daughter of Austin, Mr. and Mrs. Ivna Spinks of Abilene and Carl Spinks, being away singing for a revival meeting, were unable to be present.

After everyone had eaten to their heart's content, we all enjoyed a nice swim in Brown's creek. At about 5 p. m. we said goodbye till next year, when we expect to celebrate with another big dinner.

ONE OF THOSE PRESENT

Reports come that the revival being conducted at Pleasant Grove by Rev. S. O. Hammond, pastor of the Methodist church of Goldthwaite and of that place, is interesting and productive of great good. Pleasant Grove is one of the best communities in the county and the people over there are loyal to every movement for the betterment of their community. Rev. Hammond will either fill his pulpit here Sunday or have it done in an acceptable way.

PICNIC AT PRIDDY

W. J. and A. O. Marwitz of Priddy were here Wednesday and authorized the Eagle to extend an invitation to everybody to attend a picnic at the old picnic ground at Priddy next Friday and Saturday, August 4 and 5. A good time is promised all who attend and various kinds of entertainment will be presented and a dance each night.

Methodist Notes

The pastor of the Methodist church is engaged in a very promising meeting at Pleasant Grove church. This Scribe preached for the people of that community last Sunday morning. There were present about as fine a bunch of young people as one can well find any place. Bro. Hammond preached to his own congregation at the morning hour, but dismissed the evening service that the people might attend the revival service in progress at the Baptist church.

The meeting at the Baptist church will continue during the week and over Sunday. These good people are having a fine meeting with most satisfactory results. The congregations are as large as we have seen in any meeting in Goldthwaite lately. There have been additions and still more are expected before the meeting closes. The people of all denominations rightfully rejoice in the success of any meeting that builds up the spiritual life of any church. We should not be like the old Methodist lady of whom we have heard. She lamented the fact that the Methodist meeting closes without additions to the church and then added, "Thank God, the Baptists did not have any additions in their meeting either." As a matter of fact, it was never intended that any one denomination should perform all the deeds of righteousness in any one community. When all have done what each can do there will still be people going to the devil across lots. So let each do his best in his own way to build up the cause of righteousness, and still there will be much to do.

We are once more called upon to remember that life is rather a fleeting thing. Mr. Sam Carson, an old Mills county citizen, passed away at Sweetwater and his body was consigned to the dust at his old home church, at Pleasant Grove, last Sunday afternoon.

Then Monday evening death invaded Goldthwaite and carried away as a trophy Mrs. W.M. Johnson, the wife of one of our business men. Mrs. Johnson had been a great sufferer for years, and death came as a welcome release. She leaves a husband and six children and many relatives and friends to mourn her departure. She leaves them and our town a noble heritage in a life well spent for her family, her relatives and the church of which she had been a member since early childhood. The departure of Mrs. Johnson strikes a very tender chord in the heart of this writer. She was a faithful member of his church at San Saba and a leading worker among the young people, while he was pastor of the Methodist church there, almost a quarter of a century ago. There he performed the ceremony that united the fortunes of her and W. M. Johnson. At that place he performed the last sad rites at the funeral of Mr. Johnson's father, and now is called upon to perform the service at the grave of his old departed friend, really a sad, sweet pleasure, knowing as he does the life of faithfulness of this departed saint.

"Friend after friend departs, Who hath not lost a friend?"

LOWER VALLEY MEETING

Bro. Clem W. Hoover conducted a successful meeting at the Church of Christ beginning July 14 and closing July 25. Bro. J. G. Dooley of Austin directed the song service during most of the meeting. Great interest was manifest and excellent attention was given. Many hearts were made glad by hearing the splendid gospel sermons and twenty-two individuals obeyed the gospel and were baptized and three were reclaimed. Bro. Hoover is a gospel preacher of rare ability and is held in high esteem by the people.

GOLDTHWAITE PAYS QUOTA IN FULL

Visitors to the Century of Progress exposition in Chicago will not have to suffer much longer the embarrassment of seeing the Texas space vacant. The Texas newspapers have undertaken to raise the money necessary to provide the exhibition. The newspaper association outlined the campaign for the money on a basis of one cent per capita for the population of each town wherein a newspaper is published.

On the basis of the quota, Goldthwaite was required to raise \$13.24 and the campaign was inaugurated by the Eagle several weeks ago. After the plan had been thoroughly outlined William Glenn Yarborough and James Marberry circulated a subscription list in the town and assisted the Eagle editor in securing the money.

Not all the citizens were given an opportunity to subscribe, but those who did have the opportunity subscribed readily and the amount was soon raised. Had the list been presented to all the citizens, or even all of the business men, the amount would have been largely oversubscribed and the last man approached was asked for the balance of 24 cents.

DOUBLE BIRTHDAY PARTY

On Tuesday of last week Mary Lou and Junior Harris were entertained in their home with a birthday party, given in honor of Mary Lou's seventh and Junior's eighth birthdays.

Several children came to enjoy the occasion, each one entering with happy faces and neatly wrapped packages, which made Mary Lou and Junior very happy.

Several games were played and enjoyed by all, after which delicious ice cream and cookies were served to the following: Ruth and Mary Ann Rowntree, Vera Stewart, Mary Ann Keese, James Harold Lindsey, Wanda and Leslie Faulkner, Floyd Cortis, Sonny Gilliam, Delphia Reese Blackburn and the two honorees.

Each one reported a grand time.
A FRIEND.

Plans for Races Go Forward

Much interest has been manifested by the people in all parts of the county in the decision of the fair association officials to arrange for a jubilee and race meet here August 16, 17, 18.

The committees are at work and all plans will be matured by the date for the opening. The Roy Gray carnival gives assurance of being here for the event and the date seems to suit everybody interested.

President Toland has outlined the work to his committees and has placed men in charge who will do the work assigned to them wholeheartedly and those who are planning to come to Goldthwaite for the jubilee and races will find excellent entertainment, and some of the best races they have ever witnessed. Arrangements have also been made to have some of the best ball players here for the three games on the dates set forth.

No Developments In Road Work

There have been no developments in the road work in the county this week. The highway department is doubtless awaiting the receipt of the necessary finances before letting the contracts for hard surfacing the highways already designed, but there is no doubt the contract will be let and the work commenced as soon as the money is in hand. Mills county commissioners court has co-operated fully in the plan for road improvement and will have everything in readiness when the department announces the time for letting the contracts.

A BIG RAID

The sheriff's department has found at least one man who really believes the eighteenth amendment will be defeated. Sheriff Bledsoe and his deputies made a raid last Saturday night that netted them 285 bottles of beer, which he has stored in his office.

MEETING HELD TO ORGANIZE BAND

A meeting for the purpose of organizing a band was held on Tuesday evening in the court house with the following players present: Mr. Doas Richardson and six of his band folk, together with Gaylord Mullan, William Glen Yarborough, Miss Hartal Langford and R. F. McDermott. A number of former band people had been notified to meet with us, but failed to be present. We invite all those interested in a first class band for Goldthwaite to be with us next Tuesday evening on the court house lawn, where we will have a band concert by the members of the Indian Gap band and such of us as are in position to play with them, also at this time we will announce our plans for conducting the band.

HARTAL LANGFORD, Sec.

Thos. L. Blanton Visits Goldthwaite

Hon. Thos. L. Blanton, representative in congress from this district, was a visitor in this city a short while Saturday, accompanied by his son, William. They had been to Burnet, where Mr. Blanton delivered an address at a barbecue and were en route to their home in Abilene. Mr. Blanton will continue as our representative in congress until after the next election and the people here sincerely regret that the change in the boundary of the district will prevent him again representing us, as his home county will be attached to counties further west and we will be forced to select another congressman. Mr. Blanton is one of the most faithful and influential men in congress and his services have been worth millions to the nation. The people will continue to elect him to congress as long as he will accept the office, no matter in what district he may be placed.

Mills county and Mills county people have his friendship and we can always depend upon his help in every matter that interests us, as long as he is in congress.

Baptist Reminder

We are very happy to report that at the close of the services Wednesday night, we are able to say that we have had 40 additions to our church since the revival started. We are looking for more to come yet.

The people have been co-operating fine. We especially appreciate the assistance of the different singers of other churches of the town. I have never had better music in a revival meeting. Bro. Harrison is certainly doing fine work, and I think Mrs. Martin has no superior, when it comes to playing the piano.

Our goal for Sunday in Sunday school is 335. Our workers are determined to have that number. Will you help them?
FRANKLIN E. SWANNER.

Baptist Revival Now In Progress

The revival at the Baptist church has continued through the week with unabated interest. The congregations are large at both the morning and evening services and the song service is especially interesting at night.

Rev. Franklin E. Swanner, pastor of the church, is doing the preaching and the results of the meeting up to yesterday morning was an even forty additions to the church, while the total for the two and a half months of Rev. Swanner's pastorate reaches fifty-one. Rev. Luther A. Harrison of Fort Worth is leading the choir and has a special talent in securing the co-operation of the singers.

The meeting will continue through Sunday and it is expected that Sunday night's service will be the last of this series.

BAPTIST CIRCLE

Mrs. Franklin E. Swanner was hostess to Circle No. 1 last Monday afternoon. There were seven members present. We studied the book of Jeremiah. As this is a large book we decided to study it again next Monday.

Mrs. Swanner served ice cream for refreshments. REPORTER.

Goldthwaite Wins 2 Games

Goldthwaite went to Brownwood July 16 and took revenge on their Dr. Pepper baseball team for the defeat handed them a few weeks ago. Goldthwaite came away victorious, but it took everything they had to stave off defeat. The masterful pitching of Beryl Turner was the deciding factor of the contest and he was given great support by his team mates in the field. Only one error was charged against Goldthwaite and that happened when Nickols, the first baseman, dropped a thrown ball allowing a man to reach first.

Even the score of 3 to 2 does not tell just how tight the ball game was played, each side just getting five hits. Brownwood used three pitchers—Coon Page who received credit for defeating Goldthwaite in their first game, was their starting pitcher, but was taken out in the fifth inning in favor of Harris and he in turn was removed for B. Page in the seventh. Of the three, the local boys agreed that B. Page was the hardest man to hit.

While Dr. Pepper was using three hurlers Goldthwaite kept Turner in the box all the way and he more than justified their belief in his ability. He was just as good at the finish as he was at any time during the game. Statistics show he walked three men, struck out four and allowed five hits. He had the opposition "topping" the ball, resulting in slow spinning rollers to his infield. Aside from his pitching he fielded his position well and got one of his teams' five hits.

Fuzzy Heath gave Turner noble assistance in winning his ball game by catching his best game of the year. Twice he helped his pitcher out of a hole by catching a foul fly. His run and catch behind the screen in the seventh inning was probably the turning point in the game. Heath got one hit and scored two of his team's three runs. Goldthwaite players getting hits were Turner, Littlepage, Heath and Hamilton. Hamilton getting two for extra bases.

The Brownwood star for the day was their second baseman, Worley, who some fans will recall as a football star in the backfield at Howard Payne. Worley fielded sensationally and cut down many drives that were labelled hits by his inspired play.

Up to game time the Brownwood team was a heavy favorite to win from Goldthwaite. The local club's determination for victory brought them success.

Second Game

The Bend base ball team came to town last Sunday, July 23, for a return engagement with the local baseball team and went away with the short end of a 5 to 4 score. This made two victories for Goldthwaite over the Bend crew and extended their season's record to 12 wins out of 13 starts. Bend got away to a one run lead in the first inning and Goldthwaite tied it up in their half. The score was tied several times during the game and Bend was leading until the seventh, when Lamar McLean, pinch-hitting for Bradley, socked a double to right center, that was the deciding blow of the ball game.

V. D. Adams was the starting pitcher for Goldthwaite and gave a good account of himself. Considering the fact that he recently broke a finger on his pitching hand and hasn't been pitching in recent weeks, he pitched a very good game. When the opposition began taking a liking to his offerings at the first of the eighth, he signalled for a relief pitcher. His action is to be admired for taking himself out of the box, as he alone, knew his condition and thought Goldthwaite would have a better chance to win with a fresh man to hold them for the last two innings. Adams just gave up six hits and struck out five men in the seven innings he pitched. Hamilton, who relieved him was (Continued on page 8)

MRS. A. H. SMITH LUNCHEON HONOREE

Travel Theme Is the Feature of the Clever Affair.

Texas bluebells in profusion combined with potted ferns gave the floral adornment to the lovely home of Mr. and Mrs. J. M. Skaggs Saturday when Mrs. Skaggs was the gracious hostess at luncheon, the first of a series of social affairs to compliment Mrs. A. H. Smith, who is leaving soon to make her home in Goldthwaite.

At the entrance of the living room an attractive display of different species of rock and various other souvenirs from the states through which the hostess traveled on a recent visit to a Century of Progress at Chicago and Washington, D. C., suggested the travel theme for the luncheon.

Places were found at the table in a clever manner, with the hostess informing the guests that Mrs. Smith was traveling to Goldthwaite to make her home and as they were making the trip with her, lunch would be served on the diner. Tickets were secured from Mr. Skaggs, as the conductor, for the twelve stations en route from Winters to Goldthwaite. Miniature suitcases held mints and marked places for the guests matching stations.

In the dining room, where the four course luncheon was served, the table laid with lovely lace cloth was centered by masses of Texas bluebells and three-tiered candles in silver candlesticks. Mrs. Charlie Chapman gave a toast to Mrs. Smith from her station, Goldthwaite, and Mrs. Smith, from Winters, very sweetly responded.

Games of bridge preceded the luncheon hour with high score prize, a Dresden China cake plate and server, awarded to Mrs. W. A. Pace. Guest prize was a hand-drawn linen luncheon set.

The guest list included Mesdames Autrey Smith, W. A. Pace, Roy Mack, R. B. Mack, Lyle Deffenbach, F. J. Brophy, Miss Gladys Oliver and the honoree.

Luncheon hour guests were Mesdames T. V. Jennings, Har-

ris Mullin, L. W. Seymour and Charlie Chapman.—Winters Enterprise.

Beef—Texas Style

Cut cold roast in thin, uniform slices and reheat in a sauce made as follows: 1 onion, 1 tablespoon butter, 2 green peppers, 1 cup canned tomatoes, 1 tablespoon Worcestershire sauce, 3 drops tabasco, 1 teaspoon sugar. Salt and pepper.

Slice onion and fry in butter until soft and yellow. Add finely chopped pepper and tomatoes. Simmer until thick. Add seasonings and meat. Cook until meat is hot. Serve garnished with small triangles of thin buttered toast.

DIZZINESS

relieved by Black-Draught

"I decided to take Thedford's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. It is hard to tell how I feel, but I do not feel good. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling."

Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

IN ANSWER TO A LADY'S LETTER

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?

By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy.

As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent.

As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

RUNAWAY PRODUCTION OR RUNAWAY PRICES?

President Roosevelt and his aides are complaining that production is running away from demand and outstripping re-employment. General Johnson goes so far as to warn the public that the country may experience a second collapse if we have too much production in advance of an increase in purchasing power. The real trouble is that people are credulous and have become so convinced that the recovery program will succeed that speculative price increases have outrun the rise that might have occurred in the normal course of events. Since business is carried on for the sake of profit, it follows that when business men are persuaded that prices can be made to rise and can be forced to stay up, they proceed to produce for the expected profitable markets of the future. As a matter of fact, these same business men, now branded as rash and overoptimistic, have been harshly denounced in the past for refusing to take chances and produce for a nonexistent demand. It begins to look as if the hardest problem connected with the control of inflation would be that presented by the overenthusiasm of the converts to the new faith. If industrialists could have been aroused by slow degrees to enlarge the scale of their operations the administration would have had a much easier task of timing and adjusting its price schedule. As it is, the optimism of the farmers is menacing the carrying out of the agricultural adjustment plan of crop control, and the rise in prices is causing trades and industries to fold back from presentation of codes of fair practice, thereby causing a vast deal of worry in official quarters. If human impulses were as amenable to control as material elements the difficulties of price fixing would be greatly diminished. — New York Journal of Commerce.

SHERIFF'S SALE

Notice is hereby given that by virtue of a certain order of sale issued by the Clerk of the District Court of Mills County, Texas, on the 3rd day of July, A. D. 1933, in a certain cause wherein The City National Bank of San Saba, Texas, is plaintiff and Mrs. Mary Griffay and husband, N. J. Griffay, Mrs. Nancy Elizabeth Northcutt and husband, A. J. Northcutt, Jr., The Star National Farm Loan Association of Mills County, Texas, G. A. Churchwell, W. A. Churchwell, J. H. Churchwell, Mrs. Etta Williams and husband, S. P. Williams, J. A. Churchwell and J. W. Churchwell are defendants, numbered No. 2391 on the docket of said court, in which cause a judgment was rendered on the 2nd day of May, A. D. 1933, in favor of the said plaintiff, The City National Bank of San Saba, Texas, and against said defendants hereinabove named, for the sum of one hundred and twenty-two and 10-100 (\$122.10) Dollars, with interest thereon at the rate of 8 per cent per annum from the date of judgment, together with all costs of suit, I did on the 5th day of July, A. D. 1933, at 9 o'clock A. M., levy upon the following described tract and parcel of land situated in the County of Mills, and State of Texas, and belonging to said above named defendants, to-wit: 640 acres of land lying and being in Mills County, Texas, located about 22 miles southwest from the town of Goldthwaite, and being out of Sur. No. 11, B. B. & C. Ry. Co., Original Grantee, Wm. R. Smith, Patentee, and known as the J. M. Churchwell Place. And also 32 shares of stock in the Star National Farm Loan Association of Mills County, Texas, of the par value of \$5.00 per share and standing in the name of J. M. Churchwell and Susan Churchwell. And on the 1st Tuesday in August, A. D. 1933, the same being the 1st day of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the court house door of said county in the town of Goldthwaite, Texas, I will offer for sale and will sell, at public auction, for cash, to the highest bidder, all of the right, title, and interest of the said Mrs. Mary Griffay and husband, N. J. Griffay, Mrs. Nancy Elizabeth Northcutt and husband, A. J. Northcutt, Jr., The Star National Farm Loan Association of Mills County, Texas, G. A. Churchwell, W. A. Churchwell, J. H. Churchwell, Mrs. Etta Williams and husband, S. P. Williams, J. A. Churchwell and J. W. Churchwell, in and to the above described property. The said land to be sold subject to the undivided one-half interest of The City National Bank of San Saba, Texas, in and to 440 acres thereof, and further, the said land and the said 32 shares of stock to be sold together and not separately, and to be sold subject and subordinate to the lien held by the Federal Land Bank of Houston, securing the unpaid portion of a note executed by J. M. Churchwell and wife, Susan Churchwell, in favor of said Federal Land Bank, dated January 4, 1923, payable to the order of said Federal Land Bank at Houston, Texas, for the principal sum of \$3,200, with interest at the rate of 5 1-2 per cent per annum, payable semi-annually, conditioned for the payment of said sum and interest on the amortization plan in 69 semi-annual installments, due and payable on the 1st day of July and January of each year, providing for 8 per cent interest from and after maturity of each installment, as is more fully shown in a deed of trust executed by J. M. Churchwell and wife, Susan Churchwell, dated January 4, 1923, as the same appears of record in the deed of trust records of Mills County, Texas, in Vol. 13, page 356, to which record reference is here made for description, and subject to the rights and equities of The Star National Farm Loan Association of Mills County, Texas, and of the Federal Land Bank of Houston, Texas, as is prescribed by the provisions of the Federal Farm Loan Act. Dated at Goldthwaite, Texas, this 5th day of July, A. D. 1933. C. D. BLEDSOE, Sheriff, Mills Co., Texas

CITY ORDINANCE

Chapter 74
An ordinance to be a part of the code of ordinances of the city of Goldthwaite, Texas, levying taxes for the said city of Goldthwaite, Texas, upon all real and personal property situated in said city, and for certain occupations, for the year 1933, providing for the collection of the same and assessing a penalty.
Be it ordained by the City Council of the City of Goldthwaite, Texas:
Article 1.
Section 1. That there shall be and there is hereby levied a city tax for the year 1933, on all real estate situated, lying and being in the said city of Goldthwaite, Texas, and on all personal property that was in said city on the first day of January, A. D. 1933, not exempt from taxation by the laws and constitution of the State of Texas, for the purpose hereinafter provided.
1st. For General Revenue Purposes, to be known as the General fund, fifty cents (\$.50) on the one hundred dollars valuation, the proceeds of which shall be set aside and used for General Municipal purposes.
2nd. For a Road, Street and Bridge Fund, fifteen cents (\$.15) on the one hundred dollars valuation, same to be used for street purposes.
3rd. To provide interest and to create a Sinking Fund for outstanding Water Works Bonds, twenty-five cents (\$.25) on the one hundred dollars valuation.
4th. For taking up indebtedness due, paying time warrants on the Fire Truck, paying time warrant to the Trent Bank for money used in buying material and for supervision of laying curbing on Fisher street, and other permanent improvements, twenty-five cents (\$.25) on the one hundred dollars valuation.
5th. It is further ordained and ordered, and there is hereby levied an occupation tax on all such occupations as are set out and taxed by the provisions of Article 7047, and all the 39 sections thereunder, of the revised statutes of the State of Texas. The tax hereby levied being the same as that allowed and provided for the counties of the State of Texas.
Any person or persons, firm or corporation, pursuing any of said occupations within the corporate limits of the city of Goldthwaite, Texas, without first having applied for and obtained a license from the City Secretary, shall be deemed guilty of a misdemeanor, and on conviction, shall be fined in any sum not less than the amount of the occupation tax assessed, and not more than double the same, provided no fine greater than two hundred dollars shall be assessed in any event.
Section 2. All such taxes so levied, except the occupation tax, shall be due and payable on the first day of October, A. D. 1933, and on and after that date, the City Tax Collector is hereby authorized and empowered to collect and receipt for the same before and until the first day of February, A. D. 1934, and if said taxes are not paid before such date, there shall be taxed against the owners of said real and personal property, and all property taxed, a penalty, the same being in the amount and in conformity with the penalty charged on delinquent taxes due to the State and County, provided in the law passed by the 43rd legislature of the State of Texas, and all penalties and interest charged shall be in conformity with the Requirement of the Revised Statutes of the State of Texas.
All taxes not paid on or before the 31st day of January, A. D. 1934, shall be deemed delinquent, and the same when collected, shall be apportioned among the several different funds, and the penalty and interest thereon shall be placed in the General Fund. Such delinquent taxes bearing interest in conformity with the laws of the State of Texas, as set out in the Revised Statutes and Amendments thereto of the State of Texas.
After said taxes have become delinquent, the City Tax Collector, by virtue of his office, assisted by the City Attorney, shall levy upon, seize and sell said property, real and personal, for payment of said delinquent taxes, as provided by law.
The fact that no ordinance has been passed, levying taxes for the year 1933, and that as-

SLOW DOWN

The traffic engineer of the national bureau of casualty and surety underwriters, says the best way to eliminate confusion in traffic is for all cars to slow down when approaching intersections. "In this way drivers will be able to gauge each other's distance and obey the law with greater convenience. "The driver of a car approaching from the right has no justification to suppose that all traffic must stop to permit him to cross. This attitude has produced a high toll of accidents. More than twice as many accidents occur at intersections as between intersections. Last year, 2430 persons were killed and 184,750 injured in 146,500 accidents resulting from misunderstandings over the right-of-way." State laws should be clarified in order to coincide with common sense and the free flow of traffic. If this is done, another bad hazard will be eliminated. Meanwhile motorists, slow down at intersections.
Assessments have been made, and that the tax roll should be made, creates a public necessity, and renders it imperative and necessary that the rule requiring ordinances to be read at three several meetings be suspended, and the same is by unanimous consent suspended, and this ordinance is passed to its third and last reading, and passed by unanimous vote of the City Council of Goldthwaite, Texas, on this the 10th day of July, A. D. 1933.
H. G. BODKIN, Mayor of Goldthwaite, Texas.
Attest: F. P. BOWMAN, City Secretary.

EXCEPTION

Corporations that issue securities for sale to the public hereafter must fill out a 37-page registration form and file it in triplicate with the federal trade commission. On this form must be set down every fact about the issuing company which the federal trade commission thinks has a bearing on the soundness of the issue. The idea is to furnish to the investing public true information, so that if a man buys bad securities he will at least not buy them because information about the company was concealed.
There can be no doubt that true and comprehensive information about the values behind any security offered for sale to the public is highly desirable. Unfortunately, though, this law does not apply to the greatest issuers of securities in the country. Business men must tell all about their business before they sell their bonds to the public. But jobholders are under no such compulsion. State, county, municipal and national bond issues will go out, as heretofore, with no sort of guarantee of their soundness, and frequently with inadequate information as to the financial condition of the authority issuing them.
But to expect jobholders to make their laws apply to themselves is doubtless too much to expect.—Baltimore Evening Sun.

STEEL ALONE IS NOT ENOUGH!
—neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like **CHEVROLET**
Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: **STEEL ALONE IS NOT ENOUGH!**
The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rattle and rattle. BUT—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. CHEVROLET MOTOR CO., DETROIT, MICH.

R. M. Haynes was busy the first part of the week notifying farmers that they could begin at once to plow up their cotton in accordance with the government plan.

Forty-four attended Bible classes and communion services here Sunday. The men agreed to meet Wednesday to work on the tabernacle. They hoped to have enough present to get the roof raised.

Our trustees, W. M. Clements, Mrs. Effie Egger and Mrs. P. R. Reid, were in Goldthwaite Friday looking after the interests of our school.

Ben Egger, Jim Wilmett and Josh Philen made a business trip to Goldthwaite Friday.

Bradley Guthrie of Mullin is spending the week at the Reeves' home. He is helping erect the new residence for Mr. and Mrs. W. H. Reeves.

Francis Jones of Denton, who spent last week with the Wilmett boys, returned home Saturday highly pleased with his visit. He reported he and the boys caught 24 fish, killed 22 squirrels and shot so many rabbits he did not keep account of them.

Miss Myrtle McBrume of Brownwood visited friends and attended church here Sunday.

Mr. and Mrs. J. R. Wilmett, Lucille Wilmett, Grace Briley and Mrs. J. R. Briley attended the meeting of the West Texas Pecan Growers' association in Brownwood Thursday.

Evelyn and Jake McMullen, children of Mr. and Mrs. Hubert McMullen of San Angelo, who have been visiting their grandparents, Mr. and Mrs. S. L. Singleton, for some time, visited their aunt, Mrs. Alvin Hanna, of Oakland part of last week.

Mr. and Mrs. J. Austin Cawyer, Edna Beth and Mrs. E. O. Dwyer attended church at Valley Springs Sunday. Claude McClung was holding the summer meeting for the Church of Christ there. They report large crowds. Mr. Cawyer is principal of the Valley Springs school.

Mr. and Mrs. W. M. Clements and family ate dinner with Mr. and Mrs. Charlie Roberts after church Sunday.

Gene Day of San Antonio and Perry Day of Brownwood visited their parents, Mr. and Mrs. Earl Day, and attended church here Sunday.

Miss Helen Beard of Fort Worth, who spent the week at the Wilmett ranch, returned home Sunday afternoon.

Mr. Chambers and Mr. Miller of the Brownwood Lumber Co. were hunting squirrels and prospecting for probable home builders in our community Monday.

Miss Bernice Wilmett has received an appointment to enter the John Sealy college of nursing at Galveston. She will begin her course there in October.

CENTER CITY

The Methodist meeting, conducted by the pastor, Bro. Leon Brown, closed last Sunday night. Large crowds attended. The singing each service was fine and the messages were some of the best we ever heard, yet there were no conversions. We are hoping all were strengthened in their Christian faith and our community a better place in which to live.

Prof. Wm. Huggins of Zephyr began a ten days singing school here Tuesday. Fifty-two pupils are attending and you will not be disappointed when you hear them sing.

Mr. and Mrs. Albert Mason and little daughter of Fairview, Hamilton county, visited her parents, Mr. and Mrs. C. M. Head, and family Sunday.

Miss Eula Bell Chappell is visiting Jimmie Head and family in Lometa.

C. M. Head expects to go to Center Point to begin the meeting for Bro. Sparkman, who is in another meeting.

A. L. Denson and family arrived here last week from Arizona. They expect to make their home here. We welcome them again to our midst, hoping they will continue to live in the best place yet.

We are glad to report James Day improving fast in Lampasas. For some time little hope was held for his recovery. He has gained about 18 pounds and with proper diet, all think he will be strong and well.

We were delighted to have Walters Hester and Miss Lois Keesee of Goldthwaite attend church Saturday night. Also other visitors.

Miss Geneva Sparkman of Center Point is attending singing school.

Tom Booker of Bell county is visiting his brother, J. P. Booker, and other relatives.

Mrs. D. R. Mauldin and little son of Weslaco and W. H. Oglesby, Jr., of Roscoe spent last week end with their brother, J. M. Oglesby. T. B. Oglesby and family of Breckenridge made a short visit with his brother Monday.

Wm. and Joe Langford were called to Brownwood Sunday, where Clarence Langford was operated on for appendicitis. Reports are his condition is quite serious.

O. E. Reeves was operated on for appendicitis at Santa Anna the first of the week. We have not heard a late report of his condition.

Mr. and Mrs. J. M. Geeslin and William Langford went to Brownwood Tuesday to see Clarence Langford.

Bro. Mitchell arrived Wednesday from Harwood for Sister Mitchell and little son, who have been here visiting for some time. The young man has entertained a good case of whooping cough while here.

L. Booker of Dallas visited his father, J. P. Booker, and family one night last week.

Miss Mabel Lee Blackburn of Sterling City is visiting Mrs. Biddle and William, also Mrs. Casbeer and children.

Pete Knight, brother of Will Knight of this place, was injured in an accident near Paducah Tuesday. He was working on a highway when struck by a car. Reports are that one of his lower limbs was badly crushed. Mr. Knight left immediately to be with his brother. His many friends here hope the accident proves not to be so serious and a recovery soon.

SOUTH BENNETT

Our revival has been going since Sunday before last with Rev. Cochran of Brownwood doing the preaching. Five reconsecrations have been made and some mighty good sermons preached. Sunday afternoon we enjoyed hearing an excellent sermon preached by another pastor of Brownwood. We are enjoying having Rev. and Mrs. Cochran among us.

Last week Gus Obenhaus started a singing class in this community for ten days. On account of the meeting we have postponed the remaining five days until next week, which will start Monday afternoon again.

Miss Evelyn Covington visited her sister, Mrs. Clyde Featherston, Friday.

Dixie Webb's daughter, Norma Lee, of Big Valley was operated on last week. We are all glad to know she is getting along alright and hope she continues to do so.

Mrs. Frank Hill and children of Sterling City are visiting Mrs. Anna Jones and children.

Rev. and Mrs. Cochran have been guests in the J. M. Stacy, Dixie Webb, Willis Hill, Doc Laughlin, M. L. Casbeer, Cicero Warren, Walter Simpson and possibly other homes that I failed to learn of the past week.

John Hill is visiting Willis Hill and family and also Mrs. Anna Jones and children and meeting with his friends.

Mr. and Mrs. Mell Booker and children spent Saturday night with B. R. Casbeer and family. They returned home Sunday, taking Mr. and Mrs. Casbeer home with them for a visit.

Mr. and Mrs. Dan Covington and Aaron with several others, all of whom I didn't learn, left last week for a visit with relatives in Arkansas.

Mr. and Mrs. Frank Byrd of Goldthwaite are attending to Mr. and Mrs. Covington's things while they are gone.

Mrs. Austin Whitt is cooking on a new stove from the fire sale.

Dorman Westerman and family spent Sunday with Mrs. Westerman's parents, Mr. and Mrs. Tom Brown, of Center Point. CROSSEYES

Rupture

H. L. Hoffman, Expert, former associate of C. F. Redlich, Minneapolis, Minn., will demonstrate without charge his "Perfect Retention Shields" in Lampasas Wachen Hotel, Thursday, August 3, and in Brownwood, Southern Hotel, Friday, August 4, from 10 a. m. to 4 p. m. Please call early.

Any rupture allowed to protrude is dangerous, weakens the whole system. It often causes stomach trouble, gas and backpains.

My "Perfect Retention Shield" will hold rupture under any condition and contract the opening in a short time.

Do not submit to avoidable operations and wear trusses that will enlarge the opening. Most satisfied clients in this community. No mail order.

ANTISEPTIC ICE

Antiseptic ice, said to be able to kill dangerous germs in any drink in which it is placed, although no chemical germicide is present, has been put on the market in Germany, based on the sterilization process using colloidal silver for the water from which the ice is made. This process, sometimes called the katadyn process, has been used for some time to sterilize water, the germ-killing effect being ascribed to very tiny particles of silver set free into the water from silver plates or silver plated sand with which the water is brought in contact. Not long ago it was reported that water thus treated by contact with silver itself acquires germ-killing powers; so that such water can be used, for example, to kill germs on lettuce or other uncooked foods. The step now taken is to freeze this water into ice, said to retain indefinitely the germicidal power of the original water. Possibly this is due, experts conjecture, to the fact that freezing does not destroy the tiny, invisible particles of colloidal silver imagined to have the germ-killing power. It is known that cold helps to preserve such colloidal solutions while heat often makes the tiny particles of metal clump together and settle out. Another theory imagines that water from the antiseptic ice may contain unusual relative amounts of the three kinds of water, one-molecule water, two-molecule water, and three-molecule water, studied by Pro. H. T. Barnes of McGill University. It is known that different kinds of water may have either stimulating or harmful effects on small living creatures.

HEARTENING RESPONSE TO ROOSEVELT APPEAL

The faith and optimism of President Roosevelt must have been strengthened by the many thousands of letters that poured in upon him Tuesday, pledging the hearty co-operation of business and industry in conforming to the blanket code designed to promote and insure national recovery. The avalanche of responses to the earnest radio appeal came from all sections of the nation, and as such was too representative and significant to leave any doubt that the new deal is to be given the test which the executive urges.

Yet it will be too much for the most sanguine to expect that all business and industry will readily fall in line, just as it would be too much to expect all to do the patriotic thing. Some critical observers can still be heard saying that the plan will not work. It can be made to work. It should, and it will, if public opinion backs up the administration.

There will be laggards, as the president says, but these can be forced into line. And the law itself is shaped to deal with any who attempt to obstruct or defeat the program. — Dallas Journal.

NATURE'S LAWS

Old Mother Nature moves in a mysterious way her wonders to perform. Despite centuries of application, man has not yet fathomed more than a minute fraction of the whys and wherefores that govern the production of crops and the distribution of minerals.

Our economic system has been sick unto death because of our blind adherence to a rigid gold standard which failed to take into account the facts of declining gold production and increasing diversion of gold into the arts and industry, with the net result that while gold itself was becoming dearer and dearer, prices of other commodities were becoming intolerably cheap.

A similar unpredictable adjustment in crop surpluses seems now to be taking place. Twelve of the eighteen principal farm crops (exclusive of cotton) included in the Department of Agriculture's July forecast, show declines of from one to nearly 44 per cent, and this without enforced reduction of acreage or other artificial restriction.

Beans are at a standstill, and apples, peaches, sugar beets, tobacco and hops, none of them commercial crops in this section of Texas, are the only important crops for which an increase is predicted.

The drought, which is now menacing the greater part of the farm area of the nation, may reduce these expectancies still more. If it does, we may find our unwieldy surpluses replaced by shortages so acute as to cause actual distress. It has been frequently pointed out that all of our principal surpluses are due to diminished consumption rather than too great production.

The present artificial restriction of cotton production has the most favorable opportunity for success, but before such measures are applied to wheat and other food crops, it is highly important that all the complex factors of the situation be most carefully considered.

Such a system of orderly storage might prove more beneficial to the people than the present plans of drastic reduction in planted crops. Nature is still mysterious, and the plan that takes her powerful, though unpredictable, laws into account is the one that is most likely to succeed.

THE AUTO PAYS

Taxes have been placed on every conceivable article and occupation, but in the United States it is the automobile to which the tax gatherers turn most often with fond expectations of bountiful returns.

Criticism is frequently heard against the extensive and oftentimes extravagant programs of road building which the federal and state governments have sponsored, yet vast as these expenditures have been, they have not been sufficient to account for the varied taxes which the motorist must pay.

This burden of taxation was once felt by the railroads, and one of the reasons for the rapid increase in the trucking business was the relatively lower rate of taxation on trucks as compared with rail. Eventually the tax load will become too heavy, and a new form of transportation will be evolved to fill the economic need.

At any rate, the pyramiding of taxes upon the shoulders of the motorists must either be stopped, or the diminishing returns from such taxation will provide an effective brake on such legislation. Reasonable taxation of automobiles, automobile accessories, fuel and lubricants has no opponents, but to make motoring an out and out luxury is no more fair than it would be to place a tax on coal and wood and make a luxury of heat.

BUT HE IS DEAD

A strange tale comes out of the hills of Oklahoma. Pat Ryan, who lived near Holdenville, is dead at the age of 110. He had never lost his teeth or his eyesight. He was raised on Kentucky whisky, but never cared to drink it, and he always made by hand everything he needed and so was independent of price fluctuations and the like.

But that is not Pat Ryan's greatest claim to distinction. He was a Union soldier in the Civil War, and though he lived for 68 long years after the last gun was fired, he never applied for a pension.

He was proud of his ability to make his own living without a subsidy from Uncle Sam, and to the day of his death he depended upon his hands and his mind to provide the things he needed. What a pity that his unique claim for distinction did not become generally known until he had died. With so many able bodied veterans of more recent wars clamoring for federal funds, it is refreshing to find one really old soldier who only asked for the chance to pay his own way. It would be fitting for the harassed taxpayers of the nation to raise a monument to honor Pat Ryan's memory. On it might be chiseled this epitaph:

"Here Rests a Man Who Lived To the Ripe, Old Age of 110 Without Asking for a Pension."

Pat Ryan made a wonderful record. He was one of a million. And he is dead.

THE NEW DEAL

President Roosevelt's business recovery plan is receiving the hearty co-operation of the people everywhere. It is a most gigantic undertaking, but the country has full confidence in the president, knowing full well that every plan so far proposed by him has been sound and beneficial. Already there is a feeling of confidence that prosperity will be permanent this time.

WAIT TILL HE HITS THIS ONE!

See Editorial:—"The Auto Pays."

KEEPING UP WITH TEXAS

Texas Quarries.

Development of a considerable industry devoted to building materials and other ornamental and monumental stones is in prospect for central Texas, according to a preliminary survey of the area of older rocks in central Texas, which has been completed recently by the bureau of economic geology and engineering research of the University of Texas.

The investigation apparently has demonstrated that this area possesses a diversity of stone resources not known to be excellent anywhere on earth. No two of the 150 stones sampled are exactly alike, and there is no doubt that many other commercial stones can be found within the territory.

One advantage possessed by central Texas is its mild winters and small amount of rainfall, which permit quarrying operations throughout the year. An abundance of cheap Mexican and negro labor is always available.

THE REALM OF SCIENCE

A person's blood pressure is 20 points higher when awake than when asleep.

John Mulcahy of Chicago was the first patient treated for cancer with a new giant X-ray, that uses a 14-foot tube to develop 800,000 volts.

Harvard University has an apparatus that can press water in five different solid forms, and has squeezed air into a substance as dense as water.

Placer miners separate gold from the quicksilver used to trap it by evaporating the mercury over a fire, condensing the fumes by holding a potato over the heating vessel, usually a frying pan.

Ashtrays are taboo with a certain tester for the bureau of standards, who tosses lighted cigarettes among various inflammable materials to test their effects on ignition with a view to cutting the fire hazard.

The geographic situation is very favorable, the district being in the heart of a very large area, averaging about 250 miles from a deep water harbor on the Gulf of Mexico and enjoying the advantage of part water transportation into the heart of the Mississippi basin.

HEALTH HINTS

Cancer

Cancer ranks fourth as a cause of death in Texas, being exceeded only by heart disease, tuberculosis and pneumonia, in the order named. One of the reasons so many people die of cancer is because the disease usually exists some time before it is recognized and treated. It has then progressed from a local and small cancer to a large and dangerous one, says the Texas department of health.

In the beginning cancer is not painful. If it were many would go to their doctor immediately and receive treatment. Any lump, especially in the breast, which comes and remains without any satisfactory explanation, should be looked upon with suspicion. Other suspicious symptoms are any sore that does not heal about the tongue, mouth or lips; sores caused by broken teeth or ill fitting dental plates should receive attention; irregular bleeding or discharge from any of the orifices of the body is a danger signal; persistent indigestion with loss of weight is a

symptom of cancer of the stomach, which is so frequent as to make its early detection possible. With any of these signs one should go immediately to a doctor. In many cases the suspicion of cancer will have been unfounded, but it is better to be safe.

It is desirable to treat all diseases in their early stages, but in no affection is it more important than in cancer. The danger is like that of a fire. At first there is but a spark, which can be easily extinguished, but if let go unchecked it soon becomes unmanageable. Many cases of cancer can be cured and many more prevented if the public will give their full co-operation to the medical profession. Periodic physical examinations made with cancer in mind affords the best protection against this disease.

Surgery, X-ray and radium are the main weapons which are used to combat cancer. They are employed as preventives when they remove pre-cancerous conditions and as a cure when they remove the cancer itself.

EDITORIAL COMMENT

Views of the Nation's Press on Topics of Interest and Importance

FREIGHT PICKS UP

Motorists are having to wait longer these days when they are stopped at grade crossings. Freight trains are growing and there are more of them; similarly with the passenger trains. For the last two weeks more limiteds to and from Chicago have run in multiple sections than at any time in the last two years, say railroad men, who at last, are finding something to be cheerful about. A few days ago an east-bound freight train on a northern Ohio line was noticed in which a score of empty Pullmans were hooked in between the refrigerator cars forward and the poultry cars aft. They were part of several hundred sleepers which have been yanked from the sidings and dusted off to help carry the crowds to Chicago. The world's fair of course, is the big traffic magnet. Yet passenger traffic in other directions is also picking up, while the freight business continues to increase like a snowball. Carloadings have been ahead of last year's figures for six weeks now, and the report due at the end of this week is expected to show an even greater gain, to judge from the returns already in from a number of individual roads. The better railroad business is showing in the earning reports. Of first 52 roads to report their May earnings to the I. C. C. 39 made a gain in their net operating income. Compared with May, 1932, this advance was 157 per cent. Gross income was almost exactly the same as the figure for a year ago, showing the degree by which adversity has forced the roads to economical operation. Thirty roads, however, reported substantial gains in gross. A few months ago a leading railroad executive said that a gain of 15 per cent in business would put most of the railroads out of the red. That has been attained, and more is in sight. — Cleveland Plain Dealer.

CRIME NEVER PAYS

Youths who see only the dramatic in the activities of "Pretty Boy" Floyd, notorious Oklahoma bandit, should keep in mind the line the Denver Post places across every crime story. The line is: "Crime Never Pays." Although we will not say whether Jewell and Harrey E. Rutherford, the two young men recently killed in Fort Worth, were innocent or guilty we do believe they had been associated with the wrong kind of persons. As far as we know Luke and the late Starkweather Trammell had no plans to actually harm anyone. But we do know that Starkweather Trammell is in a grave and Luke Trammell faces possible death sentence for a series of robberies, and that crime failed to pay them. "Pretty Boy" Floyd has been dramatic. He has been able to elude state officers. But his capture is inevitable. For federal officers are on his trail now and federal officers usually get their man, even though it might cost the government thousands of dollars. — Coleman Democrat-Voice.

FAMILY TIES MORE BINDING

Family ties are becoming more binding in Scurry county. Federal figures for 1932, released this week, reveal that divorces showed a marked decrease, while marriages showed a decided rise. "What means this new trend in family affairs? It is extremely doubtful that husbands and wives are more congenial than they were two or three years ago, when divorces were at a shamefully high peak. It is probable that the depression may be blamed for the change in divorce records. It takes money, or credit, to get a divorce. If the depression can make family ties more binding, and if it can convince men and women that the greatest God-given privilege on earth is marriage, then its financial aspects will have been considerably minimized. The home is yet the foundation of the nation. If divorces do not continue to decrease, we will continue to have a depression on morals and the high ideals of youth. — Scurry County Times.

ON THE WAY OUT

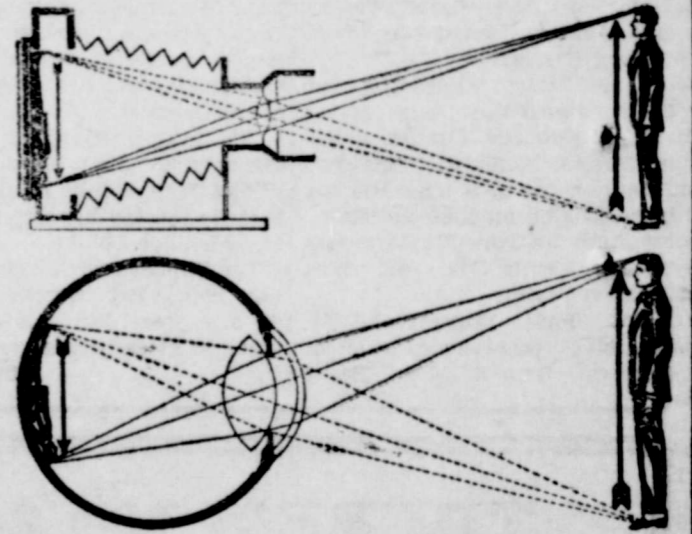

Persons interested in social justice have long dreamed of the day when child labor would be eliminated from industry, perhaps by action of the states, perhaps by ratification of the child labor amendment or by congressional vote. Few could have been so imaginative as to vision the day when it would be done by agreement among the employers themselves. Yet this is about to happen in the cotton textile industry, long a vicious field of exploitation, and the portents are good for similar action in other lines. It is the industrial recovery act that has made this possible. Secretary Perkins made the suggestion, and Administrator Johnson presented it for acceptance by the textile men as part of their governing code. After some skirmishing, a majority of them agreed to it. Industry's self-discipline is preferable to legislative enactment in the matter. Strict adherence to the code will make statutory action unnecessary, save for those fields of industry that cannot be reached under the recovery act. Since about 4 per cent of the workers in the Southern cotton mills are children under 16, with about half that percentage in the north, the effect of eliminating these young workers should be speedily felt. Educational and health standards will improve, and more work will be provided for adults. Other industries that use child labor—mining, canning and several branches of manufacturing—have not yet presented their codes, but the child-labor provision should appear in all of them. With the initial step taken, and with the prospect of better conditions likely to result, it is no exaggeration to say that child labor is on its way out. — St. Louis Post Dispatch.

THEY SAY

The awful truth is that if all the wickedness of human hearts should suddenly be uncovered, the whole world would be in chaos. The confidence of a corrupt community would be utterly destroyed. We are forced to admit that very largely, such public confidence and social order as does prevail in this corrupt world, is founded upon deception. — Dr. W. D. Lyerle, pastor of Eastwood Baptist church in Houston.

Your Eye Is Like A Camera

THE camera is patterned after the human eye. Both have a lens and a sensitive receiving area, a film in the case of the camera and the retina in the case of the eye. Both have a diaphragm to "stop down" the amount of light which enters, for the iris of the eye can expand and contract like a diaphragm, making larger or smaller the little hole which in a camera is called the aperture and in the eye, the pupil and both have a dark chamber behind the lens.

An image of anything is made up of rays of light of varying sorts reflected by the object. When the camera is pointed at a man, for example, the reflected light rays from the man pass through the lens of the camera. If this lens were plain glass, the rays would need a film the size of the man in order to take his picture. But when they pass through the curved surfaces of the lens, they are bent or "refracted" in such a way that small images of the man is made up side down on the film. The image is up side down because the lens bends the light rays so that they cross before they reach the film.

With the camera, if the image of the person whose picture we are taking is not clear and sharp

(that is, if it is out of focus), we can move the lens nearer or farther away from the film until it is just right. This cannot be done in the human eye, for the lens is at a fixed distance from the retina.

But the lens of the eye is far more wonderful, for it can adjust the focus by changing its own thickness. It can become thick to focus on objects near at hand, or thin to focus on distant objects, and it does so thousands of times a day. The time required for the human lens to adjust its focus is on the average two-hundredths of a second.

One other great difference between the eye and the camera is that the film of the camera can take but one picture, while the retina of the eye can receive hundreds of thousands of pictures an hour and pass them on to the brain and be ready for more. But the retina as well as the lens of the eye must be rested by sleep, and if they are imperfect they must not be expected to strain themselves long without the aid of correction lenses to see their work. This perhaps is the fundamental difference between the eye and the camera, for the eye is a living mechanism and demands periodic care and protection.

Brownwood

Thomas E. Miller, 84, father of District Judge E. J. Miller and Mrs. L. J. Allen, of Brownwood died at the home of Mrs. Allen, 1301 Melwood avenue, Wednesday afternoon, July 18.

Petitions seeking to call a county-wide local option election in Brown county August 26, the date voters will ballot on various constitutional amendments, were being circulated in Brownwood this week. The petitions are directed to the commissioners court.

Henry A. Newby, 75, wellknown pioneer resident of Brownwood died at his home, 1608 Austin Avenue, Sunday, July 16, following a short illness. Mr. Newby had been in ill health for a number of years, but had been seriously ill for only a few days, and his death came unexpectedly.

Resolutions requesting the West Texas Chamber of Commerce to assist in raising funds for a pecan exhibit at the Century of Progress, Chicago, were adopted Thursday morning at the annual summer meeting of the West Texas Pecan Growers' association, in session in the district court room at Brownwood. The convention was attended by more than 100 growers from throughout this section.

All employees of the postoffice in Brownwood were placed on notice this week by means of an executive order from Washington that their present 15 per cent salary reduction will apply not just to September 1, as had been previously announced, but through next December 31. The order affects all other postoffices as well as Brownwood. In addition to the 15 per cent reduction, rural mail carriers suffer a further reduction in mileage allowance from 4c per mile to 1c. The notice referred only casually to the nine-day furlough plan from July 1 to October 1, which makes the total local postal reduction 25 per cent.

It was indicated, however, that this plan will last only until September 1, when a further announcement will be made to abolish or extend this cut. —Banner-Bulletin.

Hamilton

Mrs. Bill Page and little children, Billy Jim and John Paul, are at home from Goldthwaite, where they had been for a visit with her parents, Mr. and Mrs. Jim Faulkner. Mrs. Page is a lovely and highly accomplished young matron and is greatly missed when she is out of town.

A matter of distinct interest to everybody in Hamilton and this territory concerned the visit to Hamilton this week of H. W. McCool, of San Antonio, chief railway mail clerk for this district. Mr. McCool met with a representative number of business and professional men in response to a petition variously signed, asking for earlier morning truck star route mail service from Dublin.

Mr. and Mrs. Oran Cole, blind singers, and their little daughter, are here visiting his parents, Mr. and Mrs. J. H. Cole. They were appreciated visitors in the Herald-Record office on Wednesday morning and exhibited a collection of ancient and rare coins that had been gathered by them in their pilgrimages from Canada to Old Mexico. One of the rarest coins in the collection is a crudely fashioned piece of silver and copper, stamped with the head of Alexander the Great.

A notable event of the week was the annual reunion of the Lynch Brothers, which was held at Round Mountain on Friday and Saturday, July 14 and 15. This reunion is an occasion which is always looked forward to with much anticipated joy by the four brothers. The reunion brings together a great company of relatives and friends each year. The gathering is held in a natural grove of beautiful trees. The foliage makes a dense shade on the ground and the scenic beauty of the spot is wonderful.

Capt. M. Y. Stokes, jr., publicity director of the United States Conservation Camp Corps of the Fort Sam Houston Division, was in Hamilton Monday to inspect Park Camp, SP 6, Capt. Stokes

Comanche

Hunter Russell, one of five charged recently at Comanche in connection with the robbery of the Proctor State Bank July 3, is a paroled convict under sentences totaling 110 years from Taylor county and more than 60 years from seven other west Texas counties.

Petitions are being circulated among voters of Comanche county asking for a local option election to be held August 26 in connection with the special election on that date. The petition asks for the right to determine whether or not 3.2 per cent beer may be sold in the county, provided the state votes for the return of beer on the same date.

Two inmates of the Comanche county jail joined a number of prisoners from Brownwood Friday and were taken in the state prison truck by Transfer Agent Small to Huntsville to the penitentiary. They were Ralph Hamner of Houston, given four years at the last term of court at Comanche for car theft, and Bob Cheek given two years at Comanche at the October term of court for cattle theft. Cheek, home is at Albany.

A storm with the fury of a small cyclone struck in the vicinity of the Huff farm, six miles south of Comanche Friday afternoon at six o'clock, damaging property and uprooting trees. The Otis Harris residence on the Huff farm was blown off the foundation. A windmill belonging to Claude Harris was wrecked and the roof of a barn on the Gore place was blown off and fifteen acres of cotton belonging to Gore was stripped of its leaves and branches.

Dan Killian, U. S. mail custodian, who carries the mail between the depots and the post office at Comanche, suffered painful, but not serious injuries at about 1:20 Saturday morning when he was clubbed about the head and face by a would-be bandit, who climbed into Killian's auto and took the carrier's gun from him to use as a weapon. Killian refused to stick his hands up when ordered to do so by the man and headed into a stone building when told to drive straight ahead, the bandit escaping in the wreck that followed.—Chief.

San Saba

A new heat record was set in San Saba last Wednesday when thermometers over town soared as high as 111 degrees. The intense heat is causing much damage.

H. R. Morell of Brady, the new game warden for San Saba county, is here this week. Mr. Morell was recently given this county and is on the job to see that the game and fish laws are not violated.

At the close of time for signing contracts for plowing up cotton as proposed by the federal government as a means of ridding the world of surplus, last Wednesday night, it was found that 13,689 acres had been signed and approved.

Archie B. Lindsey, local express man, left the first of the week for Temple, where he will be with the Santa Fe railroad. For the past several years Mr. Lindsey has been with the American Railway Express Co.—News.

CALL BURCH

When you want a suit, dress or single garment cleaned or pressed, Call Burch and he will please you.

found living conditions in the camp here very good, found the boys in the main were satisfied and generally healthy. They are being well fed and kindly treated. Some irresponsible parties had disturbed the negroes in the camp twice recently, but that trouble is not likely to occur again, and was not of a serious nature. Capt. Stokes was well pleased with the situation generally as he found it in the Hamilton camp. Capt. Stokes has 24 camps in his division. With Capt. Stokes were Mrs. Stokes and their two little sons, Lawrence Morrison and Melmoth Young, III.—Herald-Record.

Lampasas

R. N. Marley, pioneer resident of Lometa, died Saturday afternoon.

Miss Nell Berry of Plainview is spending her vacation here in the home of her mother, Mrs. J. H. H. Berry.

Judge and Mrs. J. Tom Higgins and children left Wednesday morning for Long Beach, Calif., where they will be located for the next few weeks.

Two unidentified men stole Emmett Shank's car from in front of his home between 9:30 and 10 o'clock Saturday night and wrecked it 12 miles out on the Austin road at North Rocky Creek.

John H. Olney, Burnet merchant, who was critically injured Friday afternoon, July 7, when he jumped from a diving board on the Colorado river and hit his head against the bottom, died at 2 o'clock Friday afternoon.

Lampasas friends will be interested in knowing that Captain Ray H. Skaggs has been transferred from Walter Reid hospital at Washington, D. C., to Randolph Field in San Antonio. The transfer will be some time this month.

Eight local boys reported Friday morning to Camp Miriam, where they will be engaged in work on the Lampasas state park, which is being built. The local committee had instructions several days ago to accept eleven men and assign them to the local camp.

According to figures compiled by Truman D. Craddock, emergency relief agent here, Lampasas county farmers will receive \$65,797.52 as their share of the money to be distributed by the Federal government to the farmers who reduce their cotton acreage.

A dog was killed Friday morning at the fruit stand on West Third and every indication showed that the animal was affected by rabies. H. T. Liles, operator of the fruit stand, shot the dog three times with a pistol and he was then shot with a 30-30 Winchester and knocked in the head before he was killed.—Leader.

Lometa

Grady Godwin left Saturday for College Station.

Miss Ruth Thompson Kirby of Waco is visiting in the Mont Swain home.

Henry Morris and K. A. Childress of Goldthwaite visited in the Reporter office last Saturday.

B. B. (Bill) Thompson and Ruth Britton surprised their many friends by driving to Bro. K. M. Anderson's home Saturday night about 10:30 o'clock and getting married.

The apportionment for this district was only 5000 acres, of which quota was exceeded by 2009 acres. The committee met with very favorable co-operation in their obtaining of this acreage.—Reporter.

NEWS BRIEFS

Regardless of drouth conditions, cattle in Texas have held up well during the summer months, according to the current reporting services of the United States department of agriculture at Austin.

Increased cotton acreage in Texas this year resulted in decreased acreages in other crops, according to the United States department of agriculture's crop reporting service at Austin. The increase in cotton acreage, said the report, was 16 per cent.

Federal economies will not affect national guard activities in Texas to a great extent during the next year, Adjutant Gen. Henry Hitchins said on his return from a trip to Washington. Army drills will be cut from 48 to 36, but the annual national guard encampments will be held as usual.

A paint pony owned by a girl in Roswell, N. M., is a "watchdog" as well as a saddle horse. The pony recently awoke members of the household about day break. The first alarm went unheeded, but the horse continued his snorting and pawing. Finally the family investigated and saw a man running away from a parked car near the residence. A wheel, tire and tube were missing.

Frank Norfleet, the famous rancher-detective of Hale county, Texas, who for 13 years employed every known method of disguise and trickery to trap criminals, has a new set of whiskers. They're real this time. Beginning his career as a sleuth at the age of 34, in order that he might take up the trail of four men who swindled him of \$45,000, Norfleet arrested 89 criminals, most of them bunco men, and all of whom were sentenced to the penitentiary or to the electric chair. Most of them are still serving terms. Some of those he sought found Norfleet too close to their heels and committed suicide.

It is to every citizen's interest to patronize the home dealer in his community, for they help pay taxes to support the schools and government, as well as give assistance to those who need any sort of help.

BULLS CREEK

(Too late for last week.)

We had a nice shower Sunday afternoon, which will be a great help to everything and I believe it made everybody feel better.

Lore Renfro spent a few days last week with Marguerite Jones at Lampasas.

Mr. and Mrs. Elmer Poe and children and Wilburn Arrowood visited in Frank Insalls home Monday and Tuesday.

Mrs. J. T. Amrick and baby spent last week with her brother, Charlie Boswell, and family. Mrs. Gracie Boswell returned home with her.

Mr. and Mrs. Trafton Arnold and children spent the day Sunday with Frank Insall and family. Adolf Hefner visited there too. In the afternoon they were joined by Mr. and Mrs. Charlie Boswell, Sonny Boy and J. D. later.

W. M. McConal attended church in the Lower Valley Sunday.

Tommie Insall spent the past week with his brother Frank Insall, and family. He lives at Clyde, and reported it pretty dry and hot there.

Mr. and Mrs. Cecil Owen and baby spent Sunday with Mrs. Owen's sister, Mrs. Charlie Boswell.

Mr. and Mrs. Ben McConal set until bedtime with Fred Nowell and wife one night last week. Frank Insall and J. S. Elliott enjoyed a domino game at Mr. McConal's Saturday night.

Helped By Cardui

Here's the true story of how Cardui helped Mrs. H. E. Donaway, of McComb, Miss., as written by herself:

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition.

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."

MRS. MARSH JOHNSON PASSED AWAY

Mrs. W. M. Johnson died at the family home in this city Monday evening, after a long illness. Her condition had been serious for several months and her death was not a surprise, although it caused universal sorrow among the people who knew her. Her remains were laid to rest in the cemetery at this place Tuesday afternoon and a large congregation of the friends of the family attended the sad service, many being present from San Saba and other places, as well as a large number from this city. In fact, the funeral procession was one of the longest seen here in recent times.

Mrs. Johnson was a faithful Christian and in former years was an active worker in the church, taking especial delight in working with young people. But in recent years her health prevented taking a leading part in the service. She spent some time in the sanitarium in Carlsbad a few years ago and was apparently benefited, but no permanent improvement was made. The last several months she was confined to her bed and during all of that time she had the tender care of her family and their neighbors and other friends were glad to render such assistance and comfort as was in their power.

Mrs. Johnson leaves her husband, three daughters, three sons and a large number of other relatives, all of whom have the sincere sympathy of a host of friends in their bereavement.

MRS. EVERLY DEAD

A message was received in this city last Saturday from the Everly family in Seattle, Washington, telling of the death of Mrs. I. C. Everly at the family home in that city.

The Everly family lived in Goldthwaite a long time and left here about twenty years ago for Seattle, where they owned valuable property. They still own their property here and have kept in touch with affairs in this city through the Eagle and private correspondence.

Mrs. Everly was a most admirable lady and had the friendship and esteem of all who knew her here. When the announcement of her death was received messages of sympathy were sent to the family from friends at this place.

Her funeral was held in Seattle Saturday afternoon.

SAM CARSON DEAD

Mr. Sam Carson died last Friday, July 21, at the home of his son, Arch, in Jones county, and his remains were brought to Goldthwaite Saturday night and taken to the home of Mr. and Mrs. Chester Frazier, from which place the funeral was held Sunday.

Mr. Carson was born in Alabama in 1858, moved to Texas in 1874. He was converted and joined the Methodist church when a young man. He was married January 2, 1885, and to him and his good wife, fourteen children were born, nine of whom are still living. His wife passed on to wait for his coming January 3, 1926.

Mr. Carson was 74 years, nine months and 29 days of age. He lived most of his life in Mills county, and his body was laid to rest in Pleasant Grove cemetery Sunday afternoon. Rev. H. E. Moreland, a former pastor of the family, assisted by Rev. S. O. Hammond, pastor of Goldthwaite Methodist church, conducted the funeral services. XX

GOLDTHWAITE WINS TWO GAMES

(Continued from page 1)
touched for one single in his two innings and struck out two men.

Bend also used two pitchers—their two aces—Baxter and Templeton, worked in order and both pitched some very good ball as is witnessed by the fact they held Goldthwaite to 7 hits and walked only one man. Hitting Goldthwaite players with pitched balls was a feature of the ball game. Elmo Littlepage got his three times and Earl Tate once. Two of these figured in the scoring.

A fair crowd was in attendance—the grandstand being about half filled and a number of people were on the sidelines. The Bend team was accompanied by a good many fans and they boosted their team till the last man was out.

A San Saba team comes to Goldthwaite next Sunday, July 30, for a game.

CARD OF THANKS

Our hearts go out in gratitude to our many dear friends of Goldthwaite and elsewhere for their continued kindness to us and their thoughtful attention to our dear wife, sister and mother, Mrs. W. M. Johnson, during her long illness. Her hours of suffering were made more bearable by the knowledge that her friends loved her and were ever anxious to minister to her comfort in every way in their power. After her passing the same true friends and others came with their sympathy for the family and offers of help. We are grateful beyond all expression for all of the kindness, as well as for the beautiful flowers brought for the home and the funeral. We can never forget the good people who stood by us during this time of overshadowing sorrow.

W. M. JOHNSON and Family

O. C. Shultze of Zephyr transacted business in the city the early part of the week.

Arch Carson of New Mexico is visiting relatives in this county. He moved away from Mills county thirty years ago.

NEWS OF THE WEEK

Farmers in the Mexican Rio Grande Valley of Texas, have received to date about \$1,300,000 for their cotton crop, according to estimates. About 18,000 bales out of an expected 30,000 bale crop have been ginned to date.

Lieut. Gov. Edgar Witt, Wednesday, said he understood Gov. M. A. Ferguson was ready to call a special session of the Legislature to repeal anti-trust laws in conflict with the national recovery plan, "as soon as the president requests it."

The worst grasshopper plague in 17 years is being experienced by Imperial Valley, California, producer of much of the nation's winter vegetables. Desperate in their efforts to destroy the pest, farmers plan to import pheasants in the hope that the birds will eat the hoppers before the second crop sprouts wings. Grape fruit have been devoured by the thousands.

A rare specimen of bullet, lead molded over a rock center, has been added to the collection of old relics owned by E. A. Feuge of Fredericksburg. It was found last Sunday on a farm about four miles northwest of Fredericksburg. It is about three-fourths of an inch in diameter and rifle markings of the gun from which it was shot are clearly visible.

Failure to get prompt service at a restaurant in Fort Worth, caused a hungry man to try to make a meal of the waiter's leg. A waiter told police the man, about 50, entered the restaurant and demanded something to eat "right away." The food not coming fast enough, the man leaped across the counter, threw the waiter down and began biting his leg. Police arrested the customer.

The cost of a deluge of rain that has drenched scattered sections of Louisiana and Texas was placed at estimated millions in damage to crops, one dead and one injured. In Shreveport, precipitation for the three days totaled up 19 inches, breaking a 28-year-old record. Many of the residential streets were under from two to six inches of water and similar conditions prevailed in other north and central Louisiana cities.

Unless ballots for the August 26 prohibition election are understandable to the voter, mandamus proceedings may be instituted both by the wet and dry factions, it was indicated this week. A sample ballot which has been sent out from Austin carries the text of the twenty-first amendment repealing the eighteenth, and below it are printed the names of delegates in two columns, one set for repeal and the other against. A vote for ratification of the twenty-first amendment means a vote to repeal the eighteenth, but both sides are fearful that the ballot will be misunderstood. They have asked in some counties to print the words "for repeal" and "against repeal" on the ballot.

SELL MANY FAIR MEMBERSHIPS

Many sustaining membership certificates to the State Fair of Texas have been sold, and during the month of September, which will be the final month of the campaign, added efforts to sell these certificates will be put forth, it has been announced by Otto Herold, president of the institution. The certificates are being sold for ten dollars each, and carry pass privileges for one person and one car for a period of five years.

Funds derived from the sale of the certificates will be used in making permanent improvements on the grounds, the first of which will be a boys and girls dormitory, which is now badly needed. The second building to be erected from the certificate sales will be an agricultural building, which is also needed. The sale of the sustaining membership certificates has been extended to all parts of the state, Mr. Herold has announced.

CONCESSIONS FOR FAIR

All unsold concessions for the Mills County Jubilee and Races will be sold Saturday afternoon at the court house, either at public or private sale, by J. H. Burnett.

TAKE A TIP

New adjustments of wages, shorter hours, and Process Taxes all over the nation—will mean higher prices of all manufactured goods.

We are at a loss to even predict prices in the future, as they are all subject to all the new adjustments in labor and Process Taxes. In other words, we don't know how high prices are going, but we can promise you that everything is going up and we do not know how long it will be before they go up. We can't even quote prices on some things, and we don't know how long we can maintain our present low prices.

IT'S YOUR TIME TO BUY

It's our opinion that every penny you spend before the new adjustments will save you another penny just like it.

We do not know when the Process Tax on Cotton Goods will be collected from us, but it is not on us yet.

WE DO NOT MEAN TO SAY that we will not KEEP Low Prices. This store ALWAYS has the Lowest Prices, and we will KEEP the present Low Prices as long as possible, but we don't know how long that will be.

Let us suggest that you buy your Blankets, Outings, Sheetings, Duck, Overalls, and all heavy goods now, because they are going to be taxed according to weight.

We will be glad to explain all we know about the new taxes and adjustments to you, because if you know about the particulars you will see more clearly that we are going to save you money if you buy from us—RIGHT NOW!

To Our Customers and Friends

As we all know, the government is going to change some of our methods of business and our working hours, so for that reason we are discontinuing advertising specials until things are more settled, and possibly we will be forced to quit this practice.

We are anxious to co-operate in every way possible with the code that will be adopted and still take care of our customers.

Remember, you have only a short time in which to buy your flour, as we will have to pay the tax.
