CITY COUNCIL PROMISES SIDEWALKS TO SCHOOL

Meeting of the Lions club Tuesday evening, President H. Smith announced that the city council at its meeting had agreed to a WPA project for Parker street sidewalks, curbs and gutters leading to the south end of school property.

It is generally recognized that the most necessary improvements facing the city. At the children are forced through mud, part of the street, to reach the danger of a fatal accident has long been recognized. The action of the city will remove this hazard but a distinct improvement in the city.

IS NAMED FOR NEW LIBRARY

With the untiring efforts of civic and literary organizations of the city, Goldthwaite at last has a public library. This institution will be governed by a governing board known as a library board, members of which are Judge E. Miller, delegate at large; Mayor E. Miller, delegate at large; Mrs. John Scholter, delegate from the Art and Civic Club; Mrs. McCullough, delegate from the Tuesday Study Club.

Library board held its meeting Wednesday, November 4, in the office of Judge E. Miller. Rules and regulations were formulated. Next week the mayor has proclaimed the library. You are invited to give at least one book to the library at the meeting to be held Saturday, November 7, in the library room on the third floor of the court house. Children's books are needed as books for adults. During the next two weeks Children's Book Week, a book drive will be launching the entire community build a public library for the community. XXX

CLUB SPONSORS SHOW AT MELBA SOON

Tuesday night, November 9, Goldthwaite Garden club, at the courtesy of Miss Hester, will sponsor the movie "Dormitory," appearing at the Melba theatre. In conjunction with the show, the Garden club is also promising a country with the two well known comedians, Messrs. Julian and Raymond Little in "You can't afford to miss this fantastic entertainment." X

TUESDAY STUDY CLUB

Tuesday Study club met in the home of Mrs. Dickerson. Mrs. Delton was our hostess. Book, "Vein of Iron," by Glasgow was reviewed by Miss Hester. Mrs. Robert Hester introduced the minor speakers and gave an interesting description of the setting.

In the conclusion of the delicious refreshments were given to club members and Miss Hester, Miss Love Gatlin, C. C. Hatchett, Mrs. W. E. Hester, Mrs. Fannie Brim, G. Barnett and little Miss Steen who were guests. REPORTER.

ALL OF US AMERICANS

This is a solemn as well as a happy day for America. Into the hands of one man, Franklin Delano Roosevelt, the free electorate of the United States has placed full authority to continue his efforts for a better and happier nation. Not since the first administration of George Washington has such an overwhelming vote of confidence been given an American president.

The huge proportions of President Roosevelt's majority—probably nine millions—show conclusively that the nation as a whole is with him. Of course the selfish munitions manufacturers, the international bankers and the smaller fry who imitate them are not satisfied. They see their well hatched, liberally financed plans to gain once more a stranglehold on American government and industry swept aside.

But the loyal Americans who voted the Republican ticket will join whole-heartedly with Landon and Knox in pledging their loyalty to the president. And President Roosevelt has assured them that "all of us Americans will now pull together for the common good."

With recovery practically here and with an even greater Democratic majority in congress than in the administration just closing, the future of America under her chosen leader is bright for all who are real Americans pulling, not for selfish interests, but for the common good.

Baptist Reminder

Our crowds were unusually large at both services Sunday. The church was literally packed. We had 167 in Sunday school which was also a good attendance.

Next Sunday, November 8, I have been asked to supply the pulpit of the First Baptist church of Navasota. In my absence Rev. J. P. King of Brownwood will preach at both services. You will hear him gladly, I am sure.

Next week our state convention meets in Mineral Wells. This will probably be one of the greatest conventions we have had in recent years. A great program has been arranged by Dr. Tidwell, our beloved president. I will be leaving Monday or Tuesday for the convention. I will return from the convention in time to preach at both hours November 15. The ordinance by Baptism will not be administered Sunday. We will probably have it on November 15. FRANKLIN E. SWANNER.

New Taxes Levied On All Prizes

Bank night prizes and prizes given by merchants will be taxed 20 per cent of their value effective November 1, according to information received by County Attorney Ed Gilliam. A report has to be filed on the 25th of each month with a remittance attached. The tax applies to all prizes, either of money or anything of value, given by an amusement house or business enterprise to one or more patrons of such place or enterprise when the same is not given to all patrons thereof who pay the same charge for such service, commodity or entertainment.

Another tax law passed by the special session of the legislature levies a tax of 10c per hundred dollars over the first \$200 on all notes and obligations secured by chattel mortgages, deed of trust and similar instruments filed in the office of the county clerk.

Franchise For Gas Goes To J. W. Moore

Natural gas within twelve months is assured Goldthwaite by a franchise let Monday to J. W. Moore and sons. They agree to begin work within 90 days and to have the system completed within a year. Prices as regulated by the franchise are 75c for the first thousand and lower prices down to a minimum of 50c on larger quantities.

It is the purpose of the contractors to build a line from the Brownwood gas field through Goldthwaite to Lampasas and San Saba. Several similar projects have been initiated, but the council after investigation, believes that this time gas for the city is assured.

Faster Mail Service For Goldthwaite

A letter mailed in Goldthwaite by three o'clock any afternoon now will be delivered in New York or San Francisco the next morning, if it carries six cents postage enabling it to go by airmail. As every important center in the United States is served by airmail lines, this brings most of the country within 24 hours of Goldthwaite by mail. An airmail letter mailed in New York before 7 p. m. will reach Goldthwaite at 12:40 noon the next day.

The faster service is the result of a new schedule established this week by the Creamer stage line which has the contract for carrying the bus mail between Goldthwaite and Comanche. Incoming mail now arrives here at 12:40 noon instead of 1:30 p. m. and the outgoing mail leaves at 3:30 instead of 1:30 permitting letters mailed up to 3 p. m. to be dispatched at this time.

Ordinary mail is also advanced by mailing before 3 p. m. Mail for Fort Worth, Dallas and Houston will go out on an earlier city carrier delivery if mailed before 3 o'clock, and mail for St. Louis and Chicago arrives a whole business day earlier than if sent at night.

SIXTH DISTRICT FEDERATION MUSIC MEETING

The high school Choral club, accompanied by Mrs. Sullivan, attended the sixth district music meet on Saturday of last week. The meeting was held at Brownwood in the First Baptist church.

The district president, Mrs. Johnson, presided over the all-day meeting. During the morning session musical numbers by Brownwood artists entertained the delegates.

Luncheon was served in the recreational hall of the First Presbyterian church, after which all returned to the Baptist church where each club in the district had a part on the program. The Goldthwaite club sang two numbers, "Brahms Lullaby," and "Rain."

The state president, Miss Inez Rudy, gave a splendid talk. The day was greatly enjoyed by all who attended.

MARIPOSA CLUB

The Mariposa club was entertained Friday, October 31, at the home of Mrs. Gilford Scott. A hallow'en theme was carried out in the decorations. Mrs. E. B. Gilliam, jr., and Mrs. Rufus McKinney received awards in the games.

A salad refreshment plate was served to the following members and guests: Mmes. Robert Steen, jr., Rufus McKinney, S. E. Cloninger, E. B. Gilliam, jr., Raymond Little, Paul McCullough, Walters Hester and Marvin Hodges. REPORTER.

Mills County Voters Endorse Roosevelt

Incomplete returns from Mills county show that President Roosevelt, as was expected, received a handsome majority in the election Tuesday. Of the six constitutional amendments voted upon, one, the pardon amendment, carried, one the limitation of representatives from large population centers, is so close that the result is in doubt, and the remaining four, liquor control, teachers' pensions, workmen's compensation and salary increases, were decisively voted down. County totals, with the three boxes of Star, Payne and Pompey unreported, have been compiled by Hon. John W. Roberts as follows:

Church Of Christ

Services indicate an enthusiasm which is characteristic of Christianity lately. Services are being well attended. Interest in the Bible is mounting higher, Bibles are being used more. Sleepy eyes are opening. Well, why not praise the Lord?

There is a class for every person in the church work. None are slighted. You are invited to attend each service of the church. A hearty, friendly, Christian welcome will be given you. Remember the services are as follows:

Sunday: Bible study at 10 a. m.; preaching and worship at 11 a. m.; young people's Bible study at 6 p. m.; preaching at 7 p. m. Wednesday: Ladies Bible study at 3 p. m.; general Bible study at 7 p. m. Come and enjoy the services. E. W. STOVALL, Minister.

Members of Congress And State Governors Are Mostly Democrats

Rock ribbed Maine and little Vermont, just as genial Jim Farley, Democratic chairman, had predicted, were the only two of the 48 states in the union to be carried by the Republicans in the national election Tuesday.

Despite the efforts of such prominent ex-Democrats as Al Smith and John W. Davis and the aid of a huge campaign fund totaling nearly ten million dollars with uncounted millions individually spent, the Republican organization met with its greatest disaster since Taft lost to Woodrow Wilson. The old saying, often disproved, that "As Maine goes, so goes the nation," has been revised to read, "As Maine goes, so goes Vermont."

Figures, still incomplete, show President Roosevelt received 25,347,591 votes compared with Governor Landon's 15,795,236, a majority of nearly ten million votes. This was already more votes than Roosevelt received in 1932 when his total was 22,821,857 and Hoover's 15,761,841. Additional returns appear to be swelling the president's majority. The Democrats captured Pennsylvania with its 36 electoral votes for the first time in 50 years. They carried Kansas and even Landon's home county, Montgomery.

The new governor of Kansas will also be a Democrat as will the new governor of 23 other states compared with only two for the Republicans. Democrats were leading for governor in 10 other states while Republicans were leading in three in the returns are not yet complete. In congress there will be Democratic senators out of a total of 96, while in the representatives 300 Democrats were elected to 81 Republicans.

Terracing Assistant Appointed for County

Tip Eaton, terracing specialist, has been appointed to assist the county agent in laying out terrace lines. Mr. Eaton has been laying out terraces in Mills county for many years and his work has proved to be satisfactory. He is informed concerning government requirements for soil building benefits as well as the engineering technique involved in proper terracing.

His services are free to farmers and will be available until December 1 and probably longer. If you desire Mr. Eaton's services, file your request with the county agent at once. Producers who wish to qualify for a soil building benefit still have limited time to do so. Mr. Eaton will serve them first. File application at once. W. P. WEAVER, County Agent.

The 1936 Red Cross Poster

American Red Cross

This year's American Red Cross poster emphasizes the theme that the Red Cross is "of, by and for the people." Four million men and women are members of the Red Cross and through their membership they support its activities. Only in time of major disaster when needs for relief reach great proportions does the Red Cross ask the public for disaster relief funds. The membership funds represent the financial support of the

Red Cross, and in turn this money is used to carry the Red Cross work of mercy to distressed citizens. Membership is open to all, without regard to race, color or creed, and the Red Cross services are given to all, without restriction. The annual Roll Call for members is held Armistice Day to Thanksgiving Day, November 11-23. The poster for 1936 is by Walter W. Seston, noted illustrator and painter of movie and radio stars.

MARRIAGE BANS

In Montana, the voting public is to be called upon to say yes or no on a law requiring physical examinations of persons intending to marry. The law, passed by the state legislature last year, would make it mandatory for the husband and wife to be to obtain health certificates not less than three days nor more than seven days before applying for a marriage license.

The statute is designed to protect public health by preventing marriages between insane persons and persons who have such

transmissible diseases as infectious tuberculosis or the venereal taint. The outcome of the state's referendum will be of interest because the law under question would put teeth in a type of legislation that has been ineffective in many states.

A good number of states prohibits matrimonial ties between imbeciles, congenital criminals, the insane, the venereally diseased epileptics and others physically or mentally handicapped, but very few have statutes insuring effective enforcement.

If the Montana electorate says yes to the law, the total of states requiring actual physical examinations before marriage will be seven. As shown in a nationwide survey last week, the states where the requirement is now in effect are Delaware, Louisiana, Connecticut, Wyoming, North Dakota and Wisconsin.

Of these states, Connecticut this year showed the most striking example of how effective a genuine marriage health law can be. Last December, it put in operation its famous "blood test" statute under which all marriage candidates must pass an actual examination of their blood. No marriage license is granted anybody falling in the test. As one result, Greenwich, one of the best known Gretna Greens in the country, almost overnight lost its big marrying business. People from other states stopped coming in for hasty weddings. From January to June, 1936, only 1,813 marriages were performed in the entire state as against 3,468 in the corresponding period of 1935.

This example explains in part why rigid legislation is opposed in many other states. The reason: county officials, who make a considerable income on marriage fees, do not like to see the business driven away to places where no strict laws apply.—Pathfinder.

TEXAS ROAD PROGRAM APPROVED BY U. S. BUREAU

Texas' federally aided road program calling for \$15,542,634 in 1937 has been approved by the United States bureau of public roads, the state highway department was notified last Saturday.

The program was formally adopted by a resolution of the state highway commission at its meeting in Austin last week.

Contracts under the program will be let as soon as sufficient plans and specifications have been approved by Washington to warrant a letting, the department announced.

The program will be principally one to fill unpaved gaps in important state highways. By closing these gaps the state will earn the right to place approximately 1,800 miles of state projects on

spent Monday night with their aunt, Mrs. Holley, in the Nickols home.

Those who held the election Tuesday were W. A. Daniel and wife, Mmes. Traylor and Nickols.

Mrs. Virgil Mahan and children spent Sunday with B. F. Mahan and wife at Center Point.

I hope you will read lots of news from this burg next week, as I will be in Santa Anna at the hospital with my son who has gone for an operation.

BUSY BEE.

WATER SOFTENER

In many sections of the country housewives have to do with hard water which is best for washing clothes, and so forth. Some soap softens hard water by combining with the calcium and magnesium compounds to form a scum which may be skimmed off. This, well as an expensive one.

The use of washing soda more effective and less expensive method of softening water. For moderately hard water make a solution of one pound of washing soda to each quart of water. Then use two tablespoons of the solution for each gallon of water to be treated. When the soda has time to act strain off the particles formed in the water. The soda.—Pathfinder.

Contracts will be made as soon as plans receive approval, and this is glorious news to people on highway No. 7 on the unpaved gap between Brown county line and Goldthwaite. The road is badly in need of paving. The dust was awful all through the summer and citizens here will be glad when this gap has been paved.

It's centennial year. Let's all help to make Goldthwaite and Mills county attractive to the visitors.

It is important to read advertisements in the Eagle. All carry a profitable message.

ORCHESTRA

Last week the orchestra played two series of two numbers each at the Mills County Teachers meeting. The members of the orchestra enjoy playing and wish to thank the teachers for their attention.

The orchestra has received some new popular music and hope to present some novelty numbers soon.

CHATTER COLUMN

With our usual disregard for custom, we change the form of the dirt this week.

We particularly like: The way Zelds Kelso rose to a difficult situation and drove a bus to school Monday morning.

grand response to the Bingo booth at the hallowe'en carnival.

We are looking forward to: Seeing the Eagles beat Richland Springs... seeing whom Butter Berry will finally select as his lady fair: will she be freshman, sophomore or senior? ... Thank-giving holidays.

We were amused by: Mr. Stephens' going to sleep in the coach's office last week... some of the seniors' favorite quotations from "Macbeth" ... Miss Gatlin's wrath at the students of her history classes because they did not recognize a ballot.

Mrs. Marshall's remark in sophomore English about the lights of Goldthwaite as seen from Miller hill... the poem submitted by Katharine Crook. Too bad we couldn't print it.

We particularly dislike: pop tests... having the San Saba game postponed... people who get mad about the things we say about them. We think they should feel flattered... the idea of Fire Prevention themes.

GRAMMAR SCHOOL GOSSIP

Last Wednesday October 28, a very enjoyable chapel program was presented by the first grade. Two songs were sung by the entire class this was followed by some nursery poems which were read by the rather shy pupils. "The Old Woman and Her Pig" was dramatized and, on the whole, proved to be a very enjoyable program.

Grammar school is very proud to be able now to hold out its chest and say, "Our queen won at the carnival, and goodness, are we proud!" This proved to be that case and we give our thanks to Aggie Forehand, our queen, for having the ability and popularity to win. In the parade the first grade won the attendance prize, and the fourth grade won the prize, one dollar, for being the most unique. There were a number of booths at the carnival where everyone enjoyed themselves very much. Though there were a number of "mornings after" stomachs, because of eating so many tamales, we felt perfectly content and fully repaid.

SCHOLASTIC STATUS

Report cards issued in high school for the first six week re-

port period indicate the following: 952 grades were given, distributed as follows—159 A's, 298 B's, 371 C's, 111 D's, and 18 E's. D and E are both falling grades. D is considered unsatisfactory but with good prospect of the unsatisfactory condition being removed. 86 per cent of the grades were passing grades with 14 per cent failing. The greatest per cent of failures is found in the freshman class.

FOOTBALL

As is already well known, the game scheduled to have been played with San Saba last Friday night was postponed.

The school hereby expresses thanks to the Eagle for the publicity given the game, and also expresses regret that the information of the postponement of the game was not gotten to the Eagle in time that due notice could have been given to same.

The game was postponed on account of the serious illness of Mr. Hopkins, the assistant coach at San Saba. We have since been informed that Mr. Hopkins died early Sunday morning. The San Saba game will be played at a later date this year, announcement of which will be made in due time.

EAGLES VS. RICHLAND SPRINGS

This (Friday) afternoon the Eagles will meet the Richland Springs team at Richland Springs. Coach Cloninger has given his charges a stiff workout all the week in preparation for this game. It is known that Richland Springs has a strong team and so far as the record on the two teams to date is concerned this afternoon's game is about a toss up. The Eagles are playing at a disadvantage on account of having gone for three weeks without a game, also the inclement weather during much of that time has made systematic workouts almost impossible.

HALLOWEEN CARNIVAL

The Hallowe'en carnival sponsored by the Parent-Teachers' association, and held in the court house corridors, was a success from every point of view. Several hours of fun and amusement were supplied for both young and old alike.

At two p. m. the pupils from the grammar school assembled in front of the Baptist church and formed a line of parade to the court house. From the time of their entry to the hour of crowning the queen of hallowe'en at 9 p. m., fun and frolic prevailed.

In the parade the prize for the best per cent of pupils participating went to the second grade sponsored by Miss Ely, while the prize for the most original stunt in the parade went the fourth grade under the leadership of Miss Stanley.

Varied concessions providing amusement were maintained by the Parent-Teachers' association. The very popular Bingo stand was maintained by the senior class. In the queens election booth, Agnes Forehand from the grammar school was the winner.

The profits accruing to the Parent-Teachers' association amounted to more than one hundred dollars, all of which will be invested in some worthy school enterprise.

CRASH KILLS MAN NEAR COMANCHE SUNDAY A. M.

An automobile-truck collision on highway 16 about 12 miles east of Comanche early Sunday morning cost the life of a young Comanche county farmer and injured two others.

Killed instantly was C. B. Harris, 20, of the Duster community near DeLeon. He died of a fractured skull. One of his two companions, Danny Morris, 22, who lives between DeLeon and Deadmonia, lost his left arm. Third occupant of the car, Billy Winkles, 18, also residing at Duster, escaped with minor hurts.

PECAN LEGEND OF TEXAS IS TOLD

The origin and discovery of the pecan, of which Texas produces half the world crop, have never been determined by agronomists, but there exists legends about it.

One unauthenticated story has it that a "prince" of the territory that is now Mexico, found the original tree and reported it to the "king of America," in 477 B. C. Where the date came from, no one seems to know, but it is related that the king ordered

the prince to plant the nuts from the tree on the banks of every stream in the southwest.

To this is attributed the productive growth of the trees in the river bottoms of the state.

The first authenticated record of the existence of pecans is that of the Spanish explorer, Cabeza de Vaca, who in 1520 mentioned Texas walnuts in a letter to his king. He said he had found the nut on all rivers, that the meat was delicious and they were "so thin-shelled they could be cracked with the teeth."

FARMER IN WAGON IS BOBBED OF \$77 SATURDAY

Two men, who used their automobile to force the team and wagon of A. B. Laminax to a halt, robbed him of \$77 about 6 p. m. Saturday near the Comanche-Fresh county line. The Proctor farmer told sheriff John Reese that one of the men threatened him with an automatic pistol and took his money while the other sat in the automobile. Laminax was returning home after a trip to a cotton gin at Dublin.

MONEY

For New Home Building Is Readily Obtainable In This Community . . . USE IT!

See Us For Complete, Free Information

Many people who have wanted their own homes in the past have refrained from building because of the amount of cash required at the start — the "down-payment," so to speak.

Under the Federal Housing Mortgage plan you now need just 20% of the appraised value of the proposed home — if your lot is paid for and worth 20% of the total value of your property you may borrow enough on easy terms to erect your home.

Let us explain the new home loan plan in detail. You will be obligated in no way — we are headquarters for all home construction information — financing — plans — construction. CALL TODAY.

EYESTRAIN EASE

The new Light Meter measures light as accurately as a thermometer measures temperature.

Adequate lighting sharpens the contrast between paper and type, making reading easy for this man.

The Light Meter Tells Why!

BOTH of these men have normal eyesight. The seeing task is the same. The difference is the amount of light falling upon the papers. The Light Meter shows that the man at the left is straining his eyes under less than five footcandles of light . . . while the man at the right enjoys comfortable reading with better than 30 footcandles.

Now, thanks to the world's largest research laboratories, the lighting in your home can be measured as accurately as a thermometer measures temperature! Held under your reading lamp, the scientific new Light Meter tells instantly how much light you are getting and how much light you need for seeing without eyestrain.

We'll be glad to make a Light Meter check-up of the lighting in your home without cost or obligation to you. Just phone for an appointment today.

L. E. S. Better Sight Lamp

This is the lamp that millions now use for glare-free light-seeing light. Goes several times more light than the ordinary lamp using same amount of current.

STAR

Mud slinging has been the order of the day of late—a double dose it seems since we got little relief over the radio. But the sun is shining and the election over.

Mrs. V. D. Adams and Mrs. Lant Adams were shopping in Goldthwaite one day last week.

Miss Arthula Manning, who is teaching at Pleasant Grove, spent the week-end visiting Mrs. Otto Clary and Mrs. Jeff Childre.

Marion Karnes of San Antonio spent Sunday with his brother Louie Karnes, of Star.

Mrs. Howard Petre of Fort Worth is visiting with her mother, Mrs. John Waddell.

Superintendent Armstrong and his associate teachers, Professor Cook, Professor Geeslin, Miss Williamson, Miss McEver, and Mrs. Hill attended the teachers meeting in Goldthwaite Thursday night.

Louie Karnes is installing a light plant and by the time this goes to press we hope to be all lighted up and celebrate with a big carnival.

T. L. Adams, Jr., spent the week-end with his aunt, Mrs. Austin Wright, at Dallas. He had a good time looking over the exposition with his aunt.

The Methodist church steps are mostly done, and when a good rock under-pinning is put in the church will look like it is really tied to the earth as it should be.

Mrs. B. P. Goode was visiting in Goldthwaite Saturday. She was accompanied by her two sons, Charles and Robert.

Mrs. L. J. Teague has returned home from Temple where she was taken for treatment. She is reported doing very well.

Mrs. Henry Soules is visiting in Waco with her mother who has been very ill.

Mr. and Mrs. Jake Long of Goldthwaite spent Sunday with Mrs. Lizzie Garrett.

Miss Florence Soules, who underwent an appendicitis operation recently was brought home Saturday from Denton where she has been attending school. Miss Florence has not regained her strength as readily as expected so her parents decided it best to bring her home. We wish for her a speedy recovery while resting down home at Valleyview farm.

Miss Annie May McEver made a flying business trip to Brownwood Saturday.

Mr. and Mrs. Frank Shaves of the Cottonwood community spent Sunday with Mrs. Lizzie Garrett.

Miss Williams spent the week-end at home in Brownwood with her folks.

Mrs. Homer McCasland of Center City community spent a few days last week with her mother, Mrs. Van McGilvary.

W. Karnes of Oklahoma visited with his brother Louie Karnes, one day last week.

REPORTER.

Mrs. Lindsey Ashley returned home Saturday after a few days visit with her daughter, Mrs. J. T. Sanders, and family.

SOUTH BENNETT

Most of the folks from here attended the parade and hallowe'en carnival Saturday. Some of the children who live in this section, and who attend school in town were in the parade.

Mr. and Mrs. B. R. Casbeer spent a few days last week visiting with relatives and friends in this community. They returned to town Sunday morning.

Miss Nelmarie Perry spent Saturday with Mae Dell and Faye Griffin.

Julius Miles spent a few days last week visiting with relatives and friends in the Pleasant Grove community.

Mr. and Mrs. Virgel Casbeer and Dorothy Louise spent Friday with Mr. and Mrs. Bedford Kuykendall.

Brother Bowles' weekly letters are certainly going to be missed as he always wrote such interesting and helpful pieces. And he and his family will be greatly missed from the town and church. We hope they will like their new location fine.

Aaron Stacey and J. M. Stacey, Jr., helped attend to Clyde Featherston's things during their absence and drove the milk truck during the time they were gone.

Mrs. M. L. Casbeer and Sybil and Billie Jean spent a short while visiting Mrs. J. T. Morris Thursday.

Mrs. Willis Hill gathered up the chickens, meat and other donations in this section for the P.-T. A. carnival Friday.

Doward Simpson spent Saturday night with Edgar Simpson, Aaron Stacey and J. M. Stacey, and Edgar Simpson homes.

As I close my letter, winter seems to be here in earnest, as icicles can be seen and the north wind is blowing very hard.

ROSE BUD.

CRAWFORD MILLS (Ratler)

There was a large crowd at the hallowe'en party at the school house and everyone seemed to have had a very nice time.

CLASSICAL MUSIC IN MOVIES

About the biggest news in amusement circles has been the warm reception by motion picture audiences of a symphony orchestra playing Bach.

In an utterly unorthodox fashion, this ultra-highbrow music has been offered by Leopold Stokowski and his Philadelphia Symphony in a picture which also featured a swing band and such clowns of screen and radio and Gracie Allen, Bob Burns and Jack Benny. And odd-

ly enough, reviewers of Fort Worth and Dallas have reported Bach a prime favorite "groundlings."

The point is a significant whatever may be its explanation. The lesson would seem to those patrons of fine music is the past have assumed above the rank and file.

At any rate, the expels more good music moviegoer. "The Big Band of 1937" with its Bach explodes the fallacy of what the public will appreciate.—Fort Worth Telegram.

Mr. and Mrs. John Skipton and Mrs. Brent Davidson at Bend last Sunday.

Mrs. R. D. Price was in Hamilton to see her grand who was seriously ill Sunday.

CENTER CITY

We are certainly getting our share of weather. Plenty of rain and warmth until Tuesday when ice covered everything in a few minutes. The sudden change was not only disagreeable to people, but very hard on stock and poultry.

C. M. Head is slowly improving from his severe illness.

Mr. and Mrs. C. A. Head visited their son, Barton, and family in Brownwood and Elbes and family in Eastland last week.

Quite a bit of interest was shown in the election Tuesday. Many could not come on account of severe weather and bad roads. Ira Alldredge's parents of Bangs spent several days last week visiting in his home. His brother came Sunday for a visit and the father and mother returned home with him.

Mrs. Elbes Reid was real sick the first of the week. Glad to report her condition improving.

A little daughter arrived in the home of Mr. and Mrs. Sam Head Tuesday morning.

Mr. Tepera and family are preparing to move to Milam county. Hollis Hendry has bought the place from Mr. Tepera and will move to it soon.

Avery Lee and Billie Johnson expect to enter a business college in Abilene next week.

Mr. and Mrs. Bill Lucas and daughters visited in the Oglesby home Sunday.

Howard Blackwell and Molene McCasland of Abilene visited home folks Sunday.

Bro. Wade preached two good sermons Sunday. The B. T. S. rendered an interesting program Sunday night before church. We are expecting to hear good programs each Sunday night from them and here is hoping everyone interested in the young people to be present and encourage the good work all we can.

Mr. and Mrs. J. H. Frizzell visited her sister and other relatives at Zephyr and Bangs Friday of last week.

Mr. and Mrs. Grover Dalton visited Henry Kemper in Abilene Sunday.

Mrs. Chester Head and sons

visited her mother, Mrs. Emma Casbeer, Sunday. Glad to hear Mrs. Casbeer improving from her operation.

The young son of Mr. and Mrs. Luther Arnold is slowly improving from heart trouble. He has been confined to his bed for 4 months and is still very weak.

Luther Booker and son of Goldthwaite began painting the Methodist church Monday. This is a needed improvement and we will be very proud when it is finished.

Brother Liles left Wednesday for Houston where he attends conference.

Webb and Marion Karnes visited their mother, Mrs. Frank Karnes, the first of the week.

A number from here attended trades day in Hamilton Monday.

Prof. and Mrs. Wm. Huggins are teaching a singing school in Milam county this week.

Hollis Blackwell was elected director of Athletics at the teachers meeting in Goldthwaite last week.

W. L. Eddy sold his place to Williams brothers and left for Fort Worth and Dallas for a visit and will probably locate near one of those places. REPORTER

Miss Beattie Hutchings attended the funeral of Mrs. Fuller at Elkiner last Wednesday.

The L. W. W. club met with Misses Harvey and Warren Wilson Thursday. Seven members and one visitor were present. The ladies were invited in to quilt on a lovely quilt. After quilting for a while the ladies were then invited into a darkened room where a weird old witch told their fortunes. After each one had their fortune told they were invited into the dining room which was decorated with black cats and owls. There a delightful refreshment plate of cake and omeat was served. Miss Beattie Hutchings then read a letter to the club from Mrs. Lloyd Allen of Houston thanking each member for the gifts she received from them to start home keeping with. The ladies spent the remainder of the afternoon eating popcorn and talking. They

SIMONE SIMON MAKES DEBUT IN 20TH CENTURY-FOX FILM

One of the most important cinema events in years will take place Saturday matinee, Sunday and Monday at the Melba theatre when an exciting new personality, Simone Simon (pronounced See-MOAN See-MOAN), makes her debut in the 20th Century-Fox production, "Girls Dormitory."

Warm, young, refreshing and vital with distinct magnetic appeal and rare, strange beauty, Miss Simone is being acclaimed the most important discovery in recent screen history. Herbert Marshall and Ruth Chatterton are starred with her, in an exceptional cast that features Constance Collier, J. Edward Bromberg, Dixie Dunbar, John Qualen and Shirley Deane.

The film opens in an exclusive boarding school. Herbert Marshall is the director of the school, Ruth Chatterton, Constance Collier, J. Edward Bromberg, are important members of the faculty.

The students are all young girls in their late teens, and all are daughters of wealthy families, sent to the school to complete their education.

Beyond the walls barred to men, the girls are taught and schooled in everything except what the rules forbid—life and love.

It is but a short time before graduation. Simone, a remarkably beautiful girl, is about to leave the surroundings she has known for years—and the man she has youthfully loved almost as long, Herbert Marshall.

On a dare, Simone asks Marshall to dance with her at a school social event. He refuses the girl and, ashamed of the rebuff, she runs off to return just as a searching party is setting out to look for her.

Ruth Chatterton is also in love with Marshall, but she conceals her affection behind an appearance of friendly co-operation.

One of the teachers discovers a romantic love note, evidently written by one of the girls. She brings the note to Marshall, demanding that the girl be reprimanded at once. Behind the words of the letter, Marshall sees that the girl was evidently creating a fictitious character in her mind.

Simone is discovered to be the

ONLY ONE MORE WEEK OF FORT WORTH SHOW

I. R. Lines of the Fort Worth chamber of commerce was in Goldthwaite yesterday in the interest of the Frontier Centennial and Arlington Downs. Gula Manatta, the great show of the Fort Worth Centennial, has many new acts and may be seen until the closing night, Saturday, November 14. Visitors may also take in the races at Arlington Downs which are now being held.

Mrs. A. H. Smith and Mrs. M. Y. Stokes, Jr., attended the district federation of music clubs which met in Brownwood last Friday.

Mrs. Ella Nichols and son, Shirley, and daughter, Mrs. Clara Holley, passed through Goldthwaite Thursday morning on their way to Santa Anna, where Shirley will be operated on for appendicitis.

Mr. and Mrs. Will Crowder and Curtis of Ridge, Mr. and Mrs. Leonard Willis of Santa Anna, and Audrey Crowder of the U. S. Army stationed at Fort Sam Houston, San Antonio spent Friday night with Mr. and Mrs. Frank Crowder at Oakland, then spent Saturday with Mr. and Mrs. J. R. Ivy at Ebony.

author of the note. Haled before the faculty, she admits writing it, but denies that the contents of the note are true.

Ruth Chatterton takes her side, and Simone reveals that she wrote the note in a girl's mood, to Marshall, and that she is in love with the teacher.

When Marshall is informed of Simone's statement, he realizes that he, too, loves the young girl. In their romance, they find temporary happiness, but Simone overhears a conversation that makes her believe Marshall is really in love with Miss Chatterton.

From this foundation, the film moves swiftly, strongly, to its climax, replete with drama and suspense.

"Girls Dormitory" was especially chosen for Simone's first Hollywood picture. Irving Cummings directed the production, with Raymond Griffith associate

LOOK NOW—DON'T WAIT

An ounce of prevention is worth a pound of cure—and one thorough inspection of your property may prevent a disastrous fire.

The cold season will soon envelop much of the United States. Furnaces and other heating devices will be taxed to their utmost. More lights will be used and will be in operation for more hours of the day. Fireplaces will be in service.

To enter the winter season without checking such equipment, is to give a hostage to fortune. Many a heating plant has developed an inconspicuous flaw—and fire has resulted. Chimneys are always a potential source of trouble, as are flues and fireplaces. An ancient electric cord may have "worked all right last year" yet be in condition to cause a serious fire today.

If you were wise, you took advantage of Fire Prevention Week, which was observed early last month. You listened to talks, read pamphlets and learned of the more common hazards, how to search for them, and how to eliminate them. Apply that knowledge now. If you aren't sure that you can properly inspect your property, any insurance agent will be glad to help. So will fire marshals and fire departments. And there is a wealth of printed material which is obtainable for nothing.

In communities where it is possible, have the inspections made by a fireman or a member of the fire marshal's department. He'll know what to look for.

So—don't wait until the snow is on the ground and the temperature is below zero to wonder whether you are safe from fire. Find out now—and if repairs are necessary, have them done immediately by qualified experts.

WE NEED A LIBRARY

Eighty-six years ago a fifteen-year-old messenger boy named Andrew Carnegie was given, along with other boys, free access to a private library on Saturday afternoons. Then and there he vowed that some day he would establish free libraries so that other boys and girls—and adults, too—might enjoy the same privilege of reading.

Andrew Carnegie lived to found hundreds of public libraries all over the world, but he is dead, and no other philanthropist has taken his place. Today it is recognized that the fair way to secure and maintain public libraries is through government support. For the money invested, there is probably no greater return than that received from public libraries.

Goldthwaite is already too large and too progressive to be without a public library. Now is the time to start one. Judge Gerald and his committee should receive every encouragement in their timely efforts.

THE SHOUTING DIES

The voters of America are probably as glad as the candidates that the election is over. America's most expensive campaign has also been one of its bitterest. Those who claim it the most bitter presidential campaign in American history are simply unacquainted with the past.

But it has been bitter and too many hard things have been said. Too many untrue charges have been hurled. The rancor it has engendered will not immediately die down.

It is unfortunate that such a condition should exist, but it is part of the price of democracy, which like other good things has bound up with it others not so good.

ARE WE CIVILIZED?

Now and then some sanctimonious lecturer comes out with the assertion that the world is still a long way from being civilized because war is still tolerated as a means of settling international disputes.

Probably there is no such thing as civilized war, but modern warfare, terrible and vicious as it is with its terrifying array of mechanical and chemical instruments, is not what it was in the dawn of civilization when every captive was slain or mutilated and enslaved.

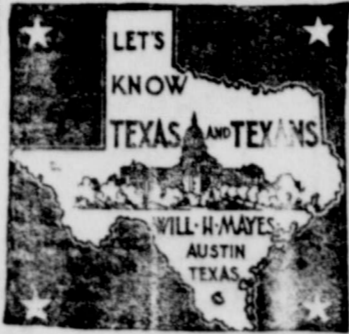

But a still greater question arises. Are we civilized in our every day lives? One issue of any daily paper will produce a tremendous amount of evidence that would compel a neutral observer to shake his head. Take the mounting toll of automobile accidents, a half-dozen of which have occurred right here in Mills county. If we were really civilized would we drive with the reckless abandon that we see every day on every highway? Or would we permit this recklessness to continue on the part of others? Thirty years ago if a man should have galloped his team of horses down Fisher street in Goldthwaite, he would have been arrested for disturbing the peace. Now a child or giddy youth may drive 90 horses twice as fast as the fastest team can gallop, and no one even takes the trouble to report him.

Look at our tolerance of Hallowe'en destructiveness. If we were civilized, would we permit our children or other's children to invade the property of others, destroy and damage property far beyond their ability to make amends for? This is a condition that is growing worse here each year. Where will it end?

Then there is plain stealing. When this county was first settled, as any old-timer can tell you, there wasn't a lock in the county. The few horses and cattle thieves received summary punishment. How about it today? Ask any turkey or chicken raiser. Sheep, goats, even cattle are no longer safe in the pasture. Automobiles are drained of gasoline if they are left unprotected over night and too often are stripped of tires and accessories; food is stolen by people actuated, not by hunger, but by avarice.

This is not an indictment of our local peace officers. But it is an indictment of you and of me. If we were truly civilized, if we made up our minds that the crooks and petty thieves, the bad boys and deadly drivers would have to reform or leave, this county could be changed over night. The trouble is that we will not protest, we will not aid our officers, we would rather stand our losses than to make a fuss about it, and so we endure these more or less petty annoyances just as the sufferers from city racketeers must do.

When it gets right down to common sense, there is more civilization left in an army fighting with poison gas for a principle it believes to be right, than there is in ordinary folks who allow themselves to be imposed upon daily in a thousand shameless ways.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the state and its people. Address inquiries to Will H. Mayes, Austin, Texas

Q. When was Texas without either civil or military government? G. S.

A. In May, June and July, 1855, between the time that Governor Pendleton Murrah fled to Mexico and Andrew J. Hamilton became provisional governor, July 25.

Q. When did Noah Smithwick come to Texas and from where? K. G.

A. In 1827, when 19 years of age, from Hopkinsville, Ky., landing at the mouth of the Lavaca river.

Q. What bid did the consultation of November 3, 1865, make for further colonization of Texas? T. R. D.

A. It boldly proclaimed that lands and citizenship awaited all who would come to Texas and assist in the struggle against tyranny.

Q. Where can the latest highway map of Texas be obtained? N. C.

A. From the state highway department, Austin.

Q. How did the Cee Vee post office in Cottle county get its name? L. B.

A. From the C. V. ranch, on which it was located, the initials being spelled out.

Q. Where, when and for what purpose was Fort Saint Louis built? H. B.

A. It was built by La Salle, as a temporary settlement near the head of the Lavaca Bay about 1685-86 and consisted of five or six mud-plastered huts within an equally crude palisade.

Q. What university in Texas first adopted the policy of teaching both sexes in the same classes and when? B. F.

A. Waco university, consolidated with Baylor university in 1882, which began co-educational instruction under Dr. Rufus C. Burleson in 1865.

TEACHING CHILDREN CENTENNIAL SONGS

Texas children, and grown folk as well, should learn the popular Texas songs. "The Texas Centennial Song Book," compiled by the Public School Division of the Texas Department of Publicity for Centennial Celebrations, with introduction by John A. Lomax, noted compiler of Texas Folk Lore and Music, contains 29 best known Texas songs with both words and music. "Knowing the songs of the homeland is as important as knowing its history." Mailed postpaid for only 25c.

SANTA FE INCREASES

The Atchison, Topeka & Santa Fe shows a net gain, an increase of 10 per cent over September, 1935. Santa Fe's net railway operating income was an 8 per cent increase.

Clean System Clear Skin

You must be free from constipation to have a good, clear complexion. If not eliminated, the wastes of digestion produce poisons and the skin must do more than its share in helping to get rid of them.

So for a clear, healthy skin, remember the importance of bowel regularity. At the first sign of constipation, take Black-Draught—the purely vegetable laxative. It brings such refreshing relief, and tends to leave the bowels acting regularly until some future disturbance interferes.

LIFE OF CROSS TIES GREATLY INCREASED

In four cities along the Santa Fe system lines, experts are at work at a job that is little known to general public, but which is, none the less, highly important to the development of the railroad industry.

It is tie treating, an important phase of railroading that has escaped the public's sharp eye. For more than a third of century, the State Fe has been at work studying ties, in order to obtain a maximum of economy. Its work in this connection is one of outstanding examples of scientific research, and qualifies the railroad as a pioneer in the field.

On the far flung railroad system like the Santa Fe an unbelievable quantity of ties is necessary. There are sixty million ties in the railroads twenty-one thousand miles of track, and the investment involved exceeds \$120,000,000. American railroads spend sums annually on ties exceeded only, as a single commodity, by locomotive fuel.

The Santa Fe maintains four tie treating plants, at Somerville, Texas; National City, Calif.; Albuquerque, N. M., and Wellington, Kansas.

Wood decays, and ties, naturally, are no exception, so the Santa Fe went to work to experiment as how to best stave off decay. In 1900, for instance, the average life of a tie was 9 years. Experts set out to improve on the lifetime of a tie. Their efforts were rewarded. The average life of a track tie now is about 22 years, 13 years greater than in 1900. And some test groups aver-

age better than a 25-year life span. In the five year period ending in 1909, the average number of ties replaced annually per mile was 266; for the 5 years period ending in 1934, this figure has been reduced to 104.

The Santa Fe in its search for woods for cross tie purposes, tried several foreign hardwoods. Tests were made of Japanese oak, Australian eucalyptis and Ohio wood from Hawaii. For to use foreign hardwoods. None of these woods proved satisfactory, however, so any effort on a broad scale, were abandoned.

Various methods have been used in treating ties, to give them longer life. Forty years ago, zinc chloride was the accepted method, insofar as creosote was expensive, and, if used in quantities believed sufficient, would have commanded too great a price.

A process, however, which necessitated a lesser amount of creosote was termed feasible, and for about 20 years, or until 1923, was the standard.

The system was supplanted by a process which embodied the application of a creosote-petroleum mixture. This mixture works toward destruction of organisms producing decay and prevents splitting of the ties.

THE DIZZY RACE FOR WEALTH

Just beyond the pot of gold for the high-pressure business man lurks Grandfather Death, warned Dr. R. C. Buerki, superintendent of the Wisconsin general hospital and past president of the American Hospital association, in an address recently before the American College of Surgeons in Philadelphia.

Dr. Buerki declared the best means for the prevention of high blood pressure lay in "abolishing the prevalent American idea of the desirability of making a large amount of money in a short time." Gaining fortune at 50, the business man must spend the few remaining years and most of his money seeking lost health, he said.

But if the victim loses in years,

Lampasas

Miss Wilma Palmer and Everett Grellie were married Tuesday night at the Baptist parsonage with the Rev. R. H. Mathison officiating. The impressive ring ceremony was used. They were attended by Miss Mattie Belle and Hoffman Palmer, sister and brother of the bride. Rev. A. V. Field, pastor of the Lake Victor church, died Sunday night in a Temple hospital after an emergency operation. Mr. Field had been sick only a few days and it was a shock to his many friends to learn of his death. Saturday night at 8 o'clock at the home of Mr. and Mrs. Ernest Leonard, Miss Sylvia Wolf became the bride of Joe Hodge Fox, with the Rev. R. H. Mathison officiating. The bride is the attractive daughter of Mr. and Mrs. Ben Wolf. Mr. Fox is the son of Bill Fox of Goldthwaite. Immediately following the ceremony the young couple left for a short wedding trip to Goldthwaite. They will make their home in Lampasas where he is employed at the Lampasas Steam Laundry. This popular young couple have the congratulations and best wishes of their many friends in Lampasas. Dr. and Mrs. Joe B. Townsen of Goldthwaite are here on account of the illness of their aunt, Mrs. Maggie Alexander.—Leader

San Saba

Work is expected to start within the next few days on the improvements at the W. H. Gibbons high school in Richland Springs where some \$8,390 will be spent in remodeling. Four additional rooms will be built and \$4,396 used in the heating and plumbing system improvements. H. H. Myers of San Angelo has the contract for the building and Walter R. Stewart of Waco for the heating and plumbing. James Kuykendall and Miss Zudora Whit, both of Cherokee, were happily married Wednesday night of last week, October 21. After a short honeymoon they have returned and are at home on the Kuykendall ranch nine miles west of Cherokee. On account of the steady and heavy rains and muddy roads the Horse and Mule Show has been postponed to November 13. The tentative program will be held until that date.—News. Mrs. Jennie May Burleson, wife of Colonel Richard C. Burleson, has filed suit in the district court for damages of \$25,000 in a libel suit against the San Angelo Morning Times as a result of a story appearing in that newspaper regarding her divorce suit pending in district court here. The West Texas Pecan association will hold its fall meeting and pecan show at San Angelo on Thursday, November 5, beginning at 10 a. m. Headquarters will be at the Cactus hotel.—Star

Hamilton

J. W. Wren was found unconscious Wednesday morning in his store and service station in north Hamilton. He had received a severe blow above the left eye, the gash laying open a wound to his skull. It is thought that the wound was received some time during Tuesday night. Mr. Wren states that he accidentally fell, but his condition is such that he has not given details as yet. The new office building of the Gulf States Telephone company has been completed and the officials of the company are expected in Hamilton this week-end to accept it. The Hamilton Volunteer Fire department answered a call Monday afternoon at 1:30 o'clock, when fire was discovered in the home of Chas. Vollintine, located in the southwest corner of Horton Pioneer Park. The damage was confined to inside walls, roof, and the paper in the nine rooms of the building. The Seaboard Oil corporation

Health-Wrecking Functional PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines! Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods. Try Cardul. Of course if it doesn't help you, see your doctor.

Comanche

N. A. Palmer, 67, Comanche insurance man and county chairman of the Democratic executive committee, died at a Brownwood hospital Sunday afternoon following an illness since September 19 when he was admitted to the hospital. Part of the time, however, was spent in the Brownwood home of his daughter, Mrs. E. P. Woodruff. Knob-knockers entered the Clark Motor company building here Wednesday night by breaking a glass, but failed to get the company safe open after the knob had been broken off. The same night burglars entered the Comanche high school building by prying open a door, and a check is being taken to see if anything is missing. Thirty indictments were returned here by the grand jury early Thursday morning when a recess was taken by the body, which will meet later in the term before making the final report. Mrs. F. E. Whitesides, 87, pioneer settler and highly respected citizen of the Sipe Springs community, died at her home at that place October 18th following an illness. Interment was made the same day in the Sipe Springs cemetery with Rev. Whitesides of Brownwood officiating. Mrs. J. E. Smith, age 89, passed away October 24, at 4:30 a. m. at the home of her daughter, Mrs. J. F. McCullough, near Comanche after a lingering illness of eight months. John Jefferson Davis, 80, for many years a citizen of the Zephyr neighborhood, died at the home of his son, George Davis, near Democrat October 26 following an illness. Interment was made in the Democrat cemetery Tuesday afternoon with Elder Cahill officiating.—Chief

THE GOLDTHWAITE EAGLE

Mr. and Mrs. Walker Berry and Mr. and Mrs. Bertram Leverett spent last week in Dallas seeing the wonderful sights at the centennial.

B. F. Mahan sent the Eagle editor a highly prized sack of the most edible mustard and turnip greens on last Saturday that it has been our good luck to receive. We sincerely thank him.

Mr. and Mrs. J. A. Allen visited their children in San Angelo Sunday. They were much impressed by the damage done by the September flood, the results of which are still in evidence.

Miss Aileen Martin, Miss Virginia Bowman and Miss Clara Bowman, students in Mary Hardin-Baylor at Belton, visited the homes of their parents over the week-end.

Miss Bobbie Littlepage of Baylor university, Waco, was a guest of her parents, Mr. and Mrs. R. V. Littlepage the past week-end.

Miss Daphne Evans, Miss Ila Fay Featherston and Glenn Featherston of Austin visited relatives in this city over the week-end.

The following John Tarleton students brought cheer and joy with their visit over the week-end to their parents: Juanita Rudd, Mary Margaret Bigham, Florine Woody, Virginia Womack, Lillian Summy, Wallace Johnson and Earl Harvey. The home town always welcomes the happy young college students on their trips home.

Mrs. Henry Morris returned the first of the week from a delightful ten-day visit to Fort Worth, where she attended the Casa Manana and other attractions. Then she went to Mineral Wells as a delegate to the Eastern Star convention, after which she went to Wichita Falls for a visit with her son, Howard, and family.

S. E. Q. CLUB

The club met with Mrs. Bert Wright with nine present. They quilted on a worsted quilt. The club will meet next with Mrs. Ben Davis. Mrs. Wright served chocolate and cake which everyone enjoyed. The ladies got quite a bit quilted, but the afternoons are getting so short you can't get much done. XXX

Mrs. Eva Ligon has moved to San Antonio to place her daughters in school in that city. Old friends will miss them very much here.

Mr. and Mrs. Hulon Fletcher, and Mr. and Mrs. Walters Hester went to Brownwood and enjoyed a football game.

Mrs. W. C. Dew left Monday afternoon for Temple where she visited until Wednesday when she joined Mr. Dew on his way to Houston where they will attend the Methodist conference.

EX-MUSTANG PROMOTED

WILLIAM LEDBETTER

Wm. (Red) Ledbetter, Admonson high school graduate, who was a star athlete at Southern Methodist university and now is coaching football and teaching mathematics at Milford high school at Milford, Texas, has been elected principal of his school.

Bill, as he is known to his friends in Goldthwaite, finished grammar school here and had one year in high school, leaving here in 1927. He entered Oak Cliff high school in Dallas, where he first became known as an athlete and starred in track and football, finishing high school work and entering S.M.U. He readily took his place among the famous athletes of the university, receiving his B. A. degree from S. M. U. and taught in Oklahoma half a term, going to Milford as head coach and was elected principal of the school last Monday. He will leave in June, 1937, for the University of Southern California where he will get his M. S. degree. He is the son of Mr. and Mrs. Marvin Atnip of Dallas.

MRS. MAGGIE L. ALEXANDER Mrs. Maggie L. Alexander of Lampasas, mother of Mrs. Joe Townsend and grandmother of Mrs. Dow Hudson, passed away after a long illness on last Friday, October 30 and the funeral was held Saturday afternoon at the Central Christian church in Lampasas, and interment at the Alexander burial ground on Mesquite creek. Mrs. Townsend and Mrs. Hudson have the sympathy of all their friends here.

BOOK WEEK PROCLAIMED Judge R. J. Gerald and Mayor H. G. Bodkin have proclaimed a book week for Mills county and Goldthwaite from Sunday, November 8 to Saturday, November 14.

To start off the library, a book tea will be held on the third floor of the court house in the library room tomorrow (Saturday) afternoon. Everyone is invited to attend and to bring books in good condition by standard authors as a donation to the new library.

Dr. Fred R. Baker, the eyesight specialist, believes in patronizing a town that patronizes him. He says he has spent more than two thousand dollars in Goldthwaite in the last few years, with the merchants, among them was the purchase of a Chevrolet car from the Saylor Motor company, a Ford V-8 from the Weatherby Motor company. The local newspaper and hotels have come in for their share besides several other business houses and "Doc" says, "You can't be optimistic, if you have misty optics," so "see Baker and see better." 11-6

Anniversary Special

Celebrating twenty-five years service to local people, Dr. Fred R. Baker, popular west Texas eyesight specialist, will present each patron with a \$1.50 gold-plated bound spectacle case free. He will be at the Saylor hotel Friday, November 13 only. The doctor has the latest eye-testing equipment and the largest stock of optical merchandise in the southwest. All the latest styles in rimless glasses and frames. Everybody in this section knows "Doc" and his square dealings. He guarantees his work and refits free anytime within a year. The customer must be satisfied. There are several hundred satisfied wearers of Baker's glasses in this county. 11-6

SAN ANTONIO BOOSTERS VISIT GOLDTHWAITE

Several busses of San Antonio chamber of commerce good will trippers paid Goldthwaite a thirty minute visit yesterday morning. Representatives of several San Antonio wholesale houses doing business with local merchants, took occasion to get better acquainted with their customers.

POST OFFICE INSPECTORS EXPOSE FAKE EYE GLASS SPECIALISTS IN BIG DRIVE

An estimate has been put out by the post office department that the public has been swindled during the past few years out of almost a half million dollars through fake eye specialists and sellers of fake spectacles. The inspectors working over the country have broken this ring, they hope and general information has been sent out to the papers of the country in order that all might know of this nefarious practice. The statement issued that the scheme has been held almost exclusively to the aged, where fake peddlers who pose as opticians have sold glasses almost worthless for as high as \$100 claiming they would enable the victim to read again.

This racket is known to the under world as the "glimmer racket" and had grown to such a huge extent the post office department placed some of their best men on the trail and have kept them there for years until convictions have been secured and this racket made known to all from one end of the country to the other.—DeLeon Free Press.

MRS. FRIZZELL LEAVES

Mrs. Chas. Frizzell left Sunday afternoon for Kerrville with Mr. Frizzell who came for her, and she will assist him in their newly established business there.

She has a six months leave of absence from the Southwestern States Telephone office here, where she has been local business manager for several years, and has been very popular and successful with the public.

Miss Hazel Fulton has been promoted to the place made vacant and will be gladly welcomed by the public, as she also is a very popular operator.

Mrs. J. D. Byers, Coleman is visiting with her niece, Mrs. W. P. Weaver, for a few days.

Harper has plenty of wood, call 212.
