## Grains As Soil Cover Crop

In this county all small grains are classified as soil-covers, provided, however, county committee may use the use of small grains in any area of the farm as cover crop, and provided that the small grains are plowed under thereafter by a soil cover or practice. This will take the class of such soil conserving practice. Small grain to be used must be designated and approved by county committee before failure to make such by April 15 all small grains on the farm must be plowed under. Weaver.

## Methodist Church

To express my sincere love to the pastors and of the other churches celebrated in such a beautiful in the three-hour Good Friday, and the Easter service. These were a great inspiration, that shall continue many days to come. There are many more of Christian fellowship also want the business to know that their on Good Friday is celebrated. That which better moral and spiritual in any community makes for better business. Moral and spiritual never get in the way of business.

## Nazarene Remarks

The recent services of passion week and of the resurrection have been means of stirring our hearts to a deeper appreciation of the living Christ whom we serve. To have that living Christ within, stirs us to action for Him. Truly, our hearts are made to burn within us, while He talks with us by the way. While He declares Himself to be alive for evermore, let us pledge ourselves to Him to be more alive to the cause we represent.

## Texas Educational Opportunities Good

Denton. — Texans can justly boast of the size of their state and the hospitality of the people. They can speak with pride of their industries—of oil, cotton and cattle. And they could—though seldom do—do a little exulting over the higher educational facilities which reach into every corner of the state's vast area.

## Mills County Books Receiving Audit

The annual audit of Mills county's financial records is under way this week with W. F. Turner of Waco and Marlin directing the work. Mr. Turner is assisted by Mrs. Maud Waites of Stephenville. Mr. Turner is thoroughly at home here, having audited the books for the past several years. He also audits the books of 20 other Texas counties in this section. As he was county clerk of Falls county for 12 years and county auditor after that, he is thoroughly conversant with the practical side of the county's business.

## Will Rogers' Humorous Story

THE big day for a lot of men is when they can get up and tell the boy scouts what a hard time they had getting started. The poor kids must be scared to death from all the hard tales they hear these well-fed guys telling them about how the successful men all started sweeping chimneys or sorting garbage. Well, there was one rich fellow that always used to tell every meeting that he spoke to all about his hard luck at the start.

Will Rogers' Humorous Story

By WILL ROGERS

THE big day for a lot of men is when they can get up and tell the boy scouts what a hard time they had getting started. The poor kids must be scared to death from all the hard tales they hear these well-fed guys telling them about how the successful men all started sweeping chimneys or sorting garbage. Well, there was one rich fellow that always used to tell every meeting that he spoke to all about his hard luck at the start.

"When I landed in this here town," he says, "I had only three dollars to my name." He got away with this tale for twenty years, and one day a fellow of his own age happened to hear it.

"Yes," says this wise gentler to the one that sat next to him, "that's the truth, all right. And you know how he spent his three bucks? For two of them he got drunk, and the third he used to wire home for a thousand dollars."

THE CAVALCADE OF DEATH

When in the boom year of 1929 the traffic death toll reached a new and awful high of 30,000, the nation was shocked—but not sufficiently. Now, with business indices rising steadily, we seem to be embarking on a new boom year in accidents. And there is a danger that traffic deaths in 1937 will reach the 40,000 mark.

Where will this cavalcade of death halt? When will we turn it back? Surely the American people are adequate to cope with this social emergency. Here we have the automobile, endowing us with the manifold blessings of a motor age. Why don't we control it, and retain the blessings, rather than dissipate them in death, injury and destruction?

The great irony is that while some people shrug their shoulders, or shudder and say, "Nothing can be done about it," others are doing something about it, and doing it very well. It is a matter of record that the cities and towns which are pursuing positive, planned and permanent policies of routing out the fundamental causes of their traffic accident problems, are reducing accidents and chopping away congestion. It is a matter of record that despite the unprecedented number of deaths in 1936, nineteen states reduced the traffic fatality records on an average of 7 per cent. All but two of these states carried out positive traffic control programs. Yes, it can be done!

Traffic control is not yet an exact science. But authorities agree that far more is known about it than is being applied by the average community. We need not kill 40,000 men, women and children this year if we determine not to, and if we put the goal of halting the cavalcade of death on the list of things to be done NOW.

Manufacturer Dies

F. L. MAYTAG

Frederick L. Maytag of Newton, Iowa, died at Beverly Hills, Calif., on Friday, March 26, at the age of 79 years. The most notable figure in the washing machine industry, Mr. Maytag was until recently active in the business which bears his name.

While Mr. Maytag made many generous gifts during his lifetime to institutions in his home city of Newton, Iowa, and elsewhere, his greatest contribution to humanity was his washing machine, because of the service it has rendered in lightening the burdens of millions of housewives throughout the country. At the age of 9, F. L. Maytag journeyed from Illinois to Iowa, trudging barefooted most of the way beside a prairie schooner. At that time Newton had but 1,500 population. Today it is known as the washer center of the world and has a population of more than 12,000.

In addition to the extensive Maytag factory which employs approximately 2,000 people, the city of Newton enjoys many improvements which were made possible largely through the gifts of Mr. Maytag.

G. Barrett, Mrs. J. E. Jones, and Frank Dill, and all the heirs, legatees, devisees, assigns and legal representatives of the above named parties and of K. Jones, are Defendants, and said Petition alleging:

That about Jan. 1st, 1937, plaintiffs were lawfully seized and possessed of 699 3/10 acres of land out of the William Duncan one-third League survey in Mills County, Texas, being the same land sold and conveyed to them by W. L. Eddy and wife, Eva Eddy, October 19, 1936, by deed recorded in Volume 79, page 316, of the deed records of Mills County, Texas, and being the same land heretofore conveyed to W. L. Eddy in several tracts, viz: 140 acres of land by deed recorded in Volume 40, page 91, 20 acres and 76 1/3 acres of land by deed recorded in Volume 40, page 92, 295 acres of land by deed recorded in Volume 40, page 93, and 224 acres of land by deed recorded in Volume 57, page 102, of the Deed Records of Mills County, Texas to all of which reference is made.

That on said date said defendants entered upon said premises and ejected plaintiffs therefrom and are claiming and asserting some title thereto the nature of which is to plaintiffs unknown, and thus unlawfully withhold from plaintiffs the possession thereof to their damage in the sum of \$8500.00; and the reasonable rental value of said property is \$600.00 per year. Plaintiffs further allege that they and those under whom they hold have had and held posses-

A VANISHING ART

THE totem pole, symbol of achievement among families of the West Coast Indians of North America, is disappearing. The art of carving and painting, with native dyes, these picturesque monuments to valor and legend, now is known to so few of the older members of Pacific Coast tribes that both the United States and Canadian Governments have taken steps to preserve all authentic totem poles in their respective territories.

Except for some museum pieces, totem poles are unknown to people who live east of the Rockies, but they are items of intense interest to tourists and travelers to Alaska. The shaded portions of the map (inset) show where the best examples are now to be found. The layout illustrates two excellent examples of this vanishing Indian art. Right is a splendid totem pole at Sitka, Alaska, and below is a strange animal designed by an ancient native of Kitwanga, B. C., to guard his village against intrusion by evil spirits.

tion of said premises in such manner and under such conditions, as give them title thereto under the Statute of Limitation for 3 years, Article 5507 Revised Statutes of Texas; for 5 years Article 5509, Revised Statutes of Texas; for 10 years, Article 5510 Revised Statutes of Texas; and for 25 years, Article 5519, Revised Statutes of Texas.

Plaintiffs pray that defendants be cited to appear and answer their petition and on a final hearing, that they recover of defendants, title and possession of the above described lands, that writ of possession issue and for their rents and damages and all costs of suit.

This action is brought as well to try title as for damages. Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same.

Given under my hand and the Seal of said Court at Office in Goldthwaite, Texas, this 27th day of March, A. D. 1937.

B. J. Keese, Clerk of the District Court of Mills County, Texas.

HEALTH

Austin.—Word has just been received by the State Department of Health that Mr. and Mrs. Mosquito and Mr. and Mrs. Fly, with their kindfoks, are on their way to Texas for the summer season. They state that, although many had died since last summer, they would soon have large families. Mrs. Mosquito raises from 50 to 300 children at one time and only takes around two weeks to have full grown children. Mrs. Fly admitted she and her husband could be ancestors to a million flies in one season.

Dr. Geo. W. Cox, state health officer, stated that Texas hospitality could be refused the Fly and Mosquito families if Annual Clean-up Week from April 4 to April 11 is used to begin a thorough campaign to eliminate the breedings pots of these pests.

## JUST A PUSH

It is a serious handicap that I get so far behind with my reading, I mean the reading that's high, noble and inspiring. Not long since I noticed a writer stated that Michael Faraday's biography had been written a dozen times. I decided that a life creating so many unusual impressions and that had attracted to itself loftiest honors should be looked into. So I drifted over the years to hear the occult voice of time.

"A crowded gathering of distinguished scientists had been listening spellbound to the masterly expositions of Michael Faraday. He had brought his lecture to a close with an experiment so novel, so triumphant, that for some time after he resumed his seat, the house rocked with enthusiastic applause. And then the Prince of Wales rose to propose a motion of congratulation. The motion was carried with renewed thunders of applause. The uproar was succeeded by a strange silence. The assembly waited for Faraday's reply but the lecturer had vanished. What had become of him? Only two or three friends were in the secret. He was a member of a little church that never boasted of many members. The hour at which Faraday closed his lecture was the hour of the week-night prayer meeting. A meeting he never neglected. Under cover of the cheering and applause he had slipped out of the crowded hall to join a few at the meetinghouse where they received fellowship with God."

Indeed one of the most beautiful and scholarly characters of the century. No wonder that more than a half score writers hastened to produce biographies of his life in which all the subtleties and simplicities met. Did not people of the past take more time for thought and real character building than the present generation? To make or create a life is the chief of our being. Making a living as important as that is only incidental to making a life! Our civilization as it moves up or down is an interpretation of the average life. One thing is real sure—we can never reclaim and fortify our civilization until the Sabbath Day is redeemed and lifted to its rightful place in our thinking and conduct. The observance of a Holy Day has always been fundamental to the security of informed people. When results are all in, the world will be much wiser, but there may be no chance to reform.—Sam Say.

## Farm Cash Income From Milk Makes New Five-Year High

FARMERS' cash income from the nation's milk production totaled \$1,417,000,000 for 1936, an increase of \$128,000,000, or 9.9 per cent over the 1935 total, according to the Milk Industry Foundation.

Farm milk income has increased nearly 50 per cent since the depression low. Cash milk income for December 1936 of \$113,000,000 was 91.5 per cent of the 1924-29 average compared with the 78.5 index figure for agriculture as a whole.

Since milk production in 1936 is estimated to have increased by 2 per cent to 3 per cent over 1935, the past year's larger cash payments to farmers are chiefly due to higher unit prices paid for milk.

Increasing consumption of milk in fluid form, for which farmers receive their highest prices per quart, also helped to increase dairy farmers' milk checks.

While supply and demand are in fair adjustment for the nation as a whole, there has been an unusually high production of milk in some sections of the country.

Farmers are evidently feeding their herds well despite high feed prices. This, together with the high percentage of cows being milked, has caused a substantial increase in milk production in most markets.

To aid farm income this increase in production can best be marketed through stimulating consumption of milk in fluid form, as milk used for butter and other products brings the dairy farmer lower prices.

**HERE AND THERE**  
 Austin, Texas.—The house of representatives passed and sent the Senate a bill by Representative Ross K. Prescott of Santa Anna to appropriate \$6,000 to the Central Colorado River Authority.

Prescott said the money would be used to build additional low water dams on the Colorado River tributaries in Coleman county.

The vote on final passage was 95 to 27, five less than the majority required to make the appropriation effective immediately.

## Clean-up Time of Winter's Debris

Austin.—The accumulation of winter's debris represents a distinct menace to the health of adults and particularly to little children, according to Dr. Geo. W. Cox, state health officer, who urges everyone to clean up their houses and yards at this time. It is not only good housekeeping but ordinary sanitary principles indicate the necessity of prompt removal of all waste matter in and around the neighborhood of yards of homes, but the definite lessening of the spread of diseases, especially those affecting children, is vitally connected in this procedure.

Flies help spread typhoid fever, dysentery, diarrhea, tuberculosis, anthrax and cholera. They breed, live and feed in filth. To avoid their increase, all refuse should be disposed of at once, garbage kept in covered containers, privies made sanitary and houses screened. Every neighborhood raises its own flies so that their number is an index to the sanitary conditions.

Mosquitoes are responsible for the spread of malaria, dengue and yellow fever. Malaria is spread by the bite of the Anopheles or malaria mosquito. Dengue fever and yellow fever are transmitted by the Aedes Egyptian or Tiger mosquito. They breed in standing water, therefore one should drain, ditch or fill such places, spray oil on water each week, or stock the water with surface minnows as they will eat the wigglertails. Houses should be well screened to protect against these insects. After the spring cleaning is finished, it should be kept in this condition at all times.

**Your Home In The Years to Come**

Planning the home and selecting the materials that are to go into it are the two most important points in home-building. It is aggravating to find, in a few years, that on account of cheap materials and poor construction it is necessary to make numerous repairs—that the floors sag—windows work hard—doors won't close—too many repairs necessary. It is not necessary, nor advisable, for your home to be built of inferior materials. We will furnish the best lumber and other dependable materials that will make your home something to be proud of in the years to come—and at economical cost.

Call on us for information on the F. H. A. program. It is so easy to own your own home, or repair your present buildings through this easy plan.

## ROCK SPRINGS

There was a nice crowd out at church Sunday morning and at night. Bro. J. C. Wade preached two good sermons.

Easter Sunday I had all of my family, except one son, and in-laws and grandchildren at home. Besides my children my brother, Earl and wife, and Miss Claudia Carroll from town ate dinner with us. In the afternoon Ira Hutchings and boys and Claud and Douglas Collier and Otis Hutchings from Center Point and Duke Clements and daughter of town joined the crowd. All of the men and boys played baseball. There was not enough men so Mmes. Glenn Nickols and Homer Doggett played. Earl and Otis did not play, they helped with the hollering. I made two mistakes in last week's Eagle. It was Mrs. Orby Woody instead of Mrs. Woody Traylor who visited in my home.

Another was Miss Bernice Traylor, who took the school children to the track meet instead of Miss Waldine.

J. T. Robertson is still having to sit around. He decided last week it was safer as he felt but he was lucky, didn't hurt him much.

The rain, sleet and snow was very light, but the cold wasn't so light. It is time we were gardening again.—Busy Bee.

## EBONY

Paul McClung of Abilene preached two excellent sermons for us over the week-end. His sermon Saturday night was "The Gospel," making plain to the listeners that which constitutes the gospel of Christ. His subject Sunday morning was "The Human Body," bringing it into subjection to the will of Christ.

Mrs. Bob Egger, who has been sick three weeks from pneumonia, is much better. We hope she will continue to improve until she will soon be up again. All three of her children have done everything they could for her in her sickness, but her daughter, Mrs. Dewey Smith, is staying with her and nursing her and looking after everything in general.

Mr. and Mrs. Loyt Roberts, Mrs. Charlie Roberts and Wayne Roberts attended church here Sunday. After church, Mr. and Mrs. Loyt Roberts and Mrs. Charlie Roberts were guests of Mr. and Mrs. Edward Egger.

Mr. and Mrs. Ross White of Oakland spent Sunday with Mr. and Mrs. Edgar Bolinger.

Miss Lucille Wilmeth of Abilene Christian College spent the week-end with homefolks.

Little Clint Whittenburg, accompanied by his parents, Mr. and Mrs. Charm Whittenburg, came out to church and Sunday school for his first time Sunday and won the hearts of all who saw him.

Mr. and Mrs. S. H. Reeves spent the week-end in San Antonio visiting their daughter and grandson, Mrs. Mildred R. Roberts, and Charles Stanley Roberts.

Mr. and Mrs. Blue Thompson and children took Mr. and Mrs. Roscoe Jones and Baby Frances to San Saba Sunday afternoon to visit Mrs. Jones' brother Pleas McNurlen. Mrs. Jones and the baby remained for a week's visit.

Mrs. Homer Egger and children, Rudolph, J. C. and Billie, spent the week-end in Brownwood visiting her mother, Mrs. Goins.

Mrs. Jack Cloud finds herself improving since she came home. Her brother, Henry Glover, of Lubbock spent last week with her, and Wednesday they went to see her son, George Smith, near Indian Creek.

Mr. and Mrs. Ralph Wilmeth of the Spring Creek school, San Saba county, spent the week-end with homefolks.

Mr. and Mrs. J. W. Roberts took dinner with Mr. and Mrs. J. R. Reid Sunday after church.

Mr. and Mrs. S. L. Singleton visited at the Bob Egger home Sunday afternoon.

Mr. and Mrs. Austin Cawyer and Edna Beth of Pasche visited at the Dwyer home and attended church here Sunday.

Mr. and Mrs. W. H. Reeves were guests at the Wilmeth home Sunday after church.

Miss Florene Griffith, who has been staying with Mr. and Mrs. Roscoe Jones for several weeks, returned to her home at Crawford Mills Monday morning.

Another million pounds of wool is history. J. M. Lea, San Angelo wool buyer for Draper & Boston, this week wrote 1,000,000 pounds of wool at prices ranging from 35c to 38c top. This removes another million pounds from the open market. Firms that have not been contracting will find the available tonnage open to buy when the wool clip comes off, less and less as the weeks roll on towards shearing time. It is developing into a kind of mother Hubbard case, the cupboard won't exactly be bare, but it will give a very scant appearance.—Temple Telegram.

The Eagle is prepared to do job printing of every kind and always appreciates an opportunity to quote prices on anything in the printing line.

## CENTER POINT

A small crowd attended Sunday school Sunday morning, but a large crowd attended singing Sunday night.

The I. I. club met with Mrs. J. N. and Ida Smith last Thursday evening. The ladies spent the afternoon quilting. The new place for the meeting has not been decided.

George Hammonds and family, also Mrs. Gari Perry and two children visited in Comanche Sunday.

C. O. Stark and family spent Sunday in the Charley Stark home at Rock Springs.

Mr. and Mrs. John Higgins of Bull's Creek spent Sunday in the J. D. Fallon home.

Mrs. Ray Davis has been on the sick list the past week.

Mrs. J. D. Fallon called on Mrs. Vernon Tyson Saturday evening. Amos Shelton and family visited in the G. T. Perry home Sunday.

Mrs. R. A. Martin and Florence Davis visited Sunday evening in the Henry Simpson home.

Mrs. Calvert Halford spent last Thursday with Mrs. J. N. Smith. Ozelle Robinson spent Saturday night in the George Hammond home.

Mrs. Julia Taylor called on Miss Beatie Hutching Friday afternoon.

Mrs. Charles Bryant was a visitor of Mrs. John Edlin one day last week.

Marlene and Oran Stark, also the Fallon boys, visited in the Carl Kirby home Saturday night.

Perney Chaney returned home Saturday after visiting for several months with his grandparents at Comanche.

Duren community will present the play entitled "The Ranch on the Sunset Trail" Friday night (tonight). There will be a pie supper following. No admission, everyone come.—Blue Birds.

## CHAPPEL HILL

Since Easter has gone we hope that spring is here.

Orville Evans has been called to the Santa Anna hospital, where his uncle is seriously ill.

The school children enjoyed a nice Easter egg hunt last Friday.

Mrs. Liss Walker who has been suffering from a severe attack of rheumatism, is somewhat improved at this writing. We are also glad to know that Marvin Eakin is improving.

Orville Evans, Catherine Crook, John Cunningham and Miss Leone Riley enjoyed playing forty-two in the Reynolds home in the Trigger Mountain community one night last week.

A number from our community enjoyed a party in the Bud Oden home at Lake Merritt Saturday night.

Henry Long of Lake Merritt and Miss Leone Riley attended singing at Center Point Sunday night and reported good singing and a very enjoyable time.

After having taught a very successful school term in our community we regret very much to say that Miss Leone Riley is leaving Saturday for her home at Pottsville.—Ditto.

## LONG COVE

Bro. Scott of Brownwood filled his appointment here this week-end. There was dinner on the grounds Sunday and in the afternoon the little folks enjoyed an Easter egg hunt.

We enjoyed having Mr. and Mrs. W. E. Stevenson, Mr. and Mrs. McNutt and Jim Hunt with us for the services Sunday morning and invite them to come again.

Mr. and Mrs. W. R. Dooley and son of Naruna visited Mr. and Mrs. Barton Hodge Sunday and attended the Easter egg and the church in the afternoon.

We are rather proud of our school at their second place in junior spelling at the county meet held in Lampasas Friday and Saturday. Even though they did not win first, that does not

## Twice A Day Boston Talks By Wireless to Fishermen

SPECIAL "fishermen's broadcasts" from a Boston radio station now keep the men of the North Atlantic fishing fleets, many of whom are at sea for months at a time, informed of market conditions ashore and in touch with their families and friends. These broadcasts, given twice daily, report the amount of fish brought in by every vessel and the day's prices at the market. Interpersed between items of trade and weather news are such personal messages as this: "To George L. Swayne, mate on the schooner Gertrude C. Mullins: Your six-year old daughter was taken to Malden Hospital with pneumonia on Friday night. She has passed the crisis and is improving." Another recent message, addressed to the engineer of the Gloucesterman Thomas B. Robbins, fishing for halibut out on Middle Ground, said: "Wife seriously ill. Will keep you advised of her condition.—Jim." Fishermen on schooners and dory boats from the coast to Sable Island tune in these broadcasts regularly—within their limit, the fishermen's programs are probably the most popular radio broadcasts in the world. The use of radio for such purposes is a new development since the perfecting of the battery storage unsatisfactory because they are so bulky and as they provide faster action. The air cell radio has uniform power in hours of actual use. A few skips of radio telephony and call their attention to this but this is a joy by only the air cell radio has been brought

**DOCTORS TO MEET IN BROWNWOOD, APRIL 5-6**

Brownwood.—Second meeting for physicians in the Fourth Medical District of the State Medical Association, mothers and others interested in maternal and infancy problems, will be held in Brownwood, April 5 and 6, according to word just received from Dr. Geo. W. Cox, state health officer.

and adjuncts should be periodically inspected and overhauled. Continuous care should be taken in handling and storing inflammable liquids. Waste of all kind such as papers and rags, should be disposed of or stored in metal containers. The wiring of electric appliances should be checked occasionally—a frayed or twisted wire can cause short circuits followed by fire.

Every minute a fire breaks out in America. Two-thirds of all those fires occur in homes. Will your home be on that list this year, and will you and your family be subjected to a menace that may take life, due primarily to your own carelessness?

**Dero D. Cowley Is Named Secretary To Gov. Allred**

Visitors to Governor James V. Allred's office under the dome at Austin this week were greeted by modest, smiling Dero D. Cowley, 27-year-old former member of the legislature from Hillsboro, who is the new first secretary to the governor.

Cowley, a lank six-footer, succeeded stocky Pat D. Moreland, genial poet-preacher in presiding over the governor's front office on St. Patrick's Day, Cowley's birthday and the day Governor Allred's third son, Sam Houston Allred, was born in the Executive Mansion.

As a legislator, Cowley made a reputation for getting things done with no ballyhoo, and few speeches and fewer bitter fights. He supported the Allred program and the present speaker, Bob Calvert, also from Hillsboro.

The son of a reared Hillsboro merchant, Cowley worked his way through the local high school and two years of the University of Texas, and as a hardware clerk made many friends, who twice elected him representative. He declined to seek a third term. His warm personality and friendship with old colleagues in the legislature slate him to be a popular secretary.

Serving with Cowley are Geo. Clarke and Alma Mullins; Albert as second and third secretaries. Governor Allred appointed Moreland to the Unemployment Compensation Commission.—Brownwood Banner.

**OFFICERS OF GARDEN CLUB HONORED BY LUNCHEON**

Executive board of the Heart of Texas Garden Club were the guests of Mrs. John G. Berry when she entertained with a four course luncheon at her home on Fisher Street Wednesday noon.

The house was beautifully decorated in red bud bouquets and bright colored flowers.

After the luncheon a business meeting was held to complete plans for the year's work.

Those enjoying Mrs. Berry's hospitality were: Mmes. J. W. White, Jr., Mason; Marjorie B. Molloy, San Saba; W. W. Gober, Coleman; J. A. B. Miller, Coleman; D. L. Connally, Brownwood; Earl T. Fairman, Goldthwaite; D. Albert Trent, Goldthwaite; Mildred N. Baze, Mason; S. W. Hughes, Brady; L. D. Bratton, Hamilton; Mack H. Yates, San Saba; Geo. M. Fletcher, Mullin; Joe A. Palmer, Goldthwaite, and Miss Adeline Little, Goldthwaite.

Alliance, Ohio.—Mrs. W. H. Shaw of Alliance reported that her cousin, Roy Koontz of Bloomington, Ind., bought a used car in Cleveland for \$150.

When he cleaned the antique, he found a dime dated 1821 under a seat cushion.

A coin expert offered him \$450 for the dime.

Washington.—Lord Tweedsmuir, the Governor General of Canada, and Lady Tweedsmuir arrived here Tuesday for a visit at the White House.

They were greeted at Union Station by Secretary and Mrs. Hull and a score of high officials of the State, War and Navy Departments.

The visiting dignitaries walked from their special train through lines of marines and sailors as the army band played the Canadian and American national anthems.

Hardice, and the unknown heirs, legal representatives and devisees of each and all of the above named persons, all alleged to be deceased, by making publication of this Citation once in each week, for four successive weeks, previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Mills County, Texas, to be held at the Court House thereof, in Goldthwaite, Texas, on the first Monday in May, A.D. 1937, the same being the 3rd day of May, A.D. 1937, then and there to answer a Petition filed in said Court on the 1st day of April, A.D. 1937, in a suit numbered on the Docket of said Court No. 2515, wherein W. E. Fairman is Plaintiff, and the above named parties, and the unknown heirs, legal representatives and devisees of each and all of the above named persons, all alleged to be deceased, are defendants; said petition alleging substantially as follows:

This suit is brought as well to try title as for damages, plaintiffs alleging that heretofore, to-wit: on the 1st day of April, 1937, he was lawfully seized and possessed of the following described lands and premises, lying and being situated in Mills County, Texas, holding and claiming the same in fee simple, to-wit:

(A) The Henry Millard 320 acre survey, patented to the heirs of Henry Millard, by Patent Number 144, volume Three, dated November 6th, 1886, recorded in volume Three, page 194, of the Patent Records of Mills County, Texas, Abstract Number 474; and,

(B) The Britton Dawson 829.324 square vara survey patented to H. R. Hearne and Charles Lewis, assignees, by Patent Number 341, volume 23, survey Number One, dated Oct. 7th, 1880, recorded in Volume 2, page 182, of the Patent Records of Mills County, Texas, Abstract Number 179, and,

(C) The Thomas S. Pinckney 320 acre survey, patented to the said Thomas S. Pinckney by Patent No. 248, volume 45, dated August 22nd, 1881, recorded in volume One, page 61, of the Patent Records of Mills County, Texas, Abstract No. 534, and,

(D) 1830.4 acres of land, more or less, out of the South and East part of the Willaba Boatright survey patented to him by Patent Number 357, volume 16, dated Feb. 23th, 1861, Number 255, Abstract Number 15, all of which land is more fully described in Plaintiff's Original Petition, on file in this cause, and to which reference is here made for more particular description of the said lands.

That on the day and year last aforesaid, the defendants entered upon the said premises and ejected the Plaintiff therefrom, and unlawfully withheld from him the possession thereof to his damage in the sum of Ten Thousand (\$10,000.00) Dollars.

Plaintiff further alleges title to the said land under and by virtue of the statute of five and ten years limitation, as is more
