GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, OCTOBER 1, 1937

NUMBER SIX

## GOLDTHWAITE EAGLES WILL PLAY MASON HERE TODAY

### Highway Worker Loses Eye in Freak Explosion

#### Jones Drills Into Live Dynamite

##### Accident Many Years Ago at Hannah Co.

25 of Waco, Jack Jones, who was the contractor for the Hannah Co. is under a Brownwood hospital here as a result of a freak accident here.

Drilling powder holes in the hill in the east square. After the last day had been fired, Jones drilled one more hole with a pneumatic jack.

A sudden explosion occurred on the side of a hill, through one of his eyes.

His face and hand were badly injured. He was brought to a Brownwood hospital here.

The program presented was as follows: Bible study, Mrs. F. J. Brucks. Song, What a Friend.

The Lord's Prayer, in unison. Story: Peace in Prison, Mrs. Brucks.

Song: Into My Heart. Benediction. A program somewhat like this will be presented every week.

Everyone will be welcome.—Reporter.

The marriage on Sunday evening of Wyatt Berry of this city and Miss Mitchell Karnes of San Saba came as a surprise to most of the friends of the young couple.

Only the immediate families and a few of their most intimate friends had been informed of the approaching event.

The marriage ceremony was performed by Elder Hulien L. Jackson, minister of the Church of Christ of San Saba in the presence of a few close friends and relatives.

Mr. Berry is the only son of Mr. and Mrs. J. J. Berry of Goldthwaite and is a very popular young man of highest standing in the community and has been a valued member of the Eagle force for the past 12 years.

#### District Court Will Convene Monday Morning

No report was made by the grand jury last week. George Fletcher of Mullin was named foreman and after a short session the grand jury adjourned until Monday, Oct. 4.

The following civil cases were disposed of this week: Several civil suits were disposed of and one divorce was granted.

The case of Priddy school District vs. Chappel Hill School District was decided in favor of the plaintiff, and this case appealed.

Petit jurors who have been summoned to appear next week are:

G. E. Fox	W. Horton
L. S. Karnes	O. G. McNeil
Roy Duren	O. H. Pafford
Emil Schuster	A. Schuman
I. A. Hollis	Tom McArthur

#### THE JUNIOR LEAGUE

The Junior League of the Methodist church met and organized on Sunday afternoon, Sept. 26, at the Methodist church. Officers of the League were elected as follows: president, Evelyn Burns; secretary-treasurer, Mary Ann Miller; pianist, Mary Nell Eperon; reporter, Melmoth Stokes III.

The program presented was as follows: Bible study, Mrs. F. J. Brucks. Song, What a Friend.

The Lord's Prayer, in unison. Story: Peace in Prison, Mrs. Brucks.

Song: Into My Heart. Benediction. A program somewhat like this will be presented every week.

Everyone will be welcome.—Reporter.

#### P. O. To Close Saturdays at 4

Beginning tomorrow, Oct. 2, the Goldthwaite post office will close at 4 p.m. each Saturday and remain closed until 8 o'clock the following Monday morning. The early closing is an economy measure and is in effect in most first and second class post offices throughout the country.

Instead of closing at 1 p.m. as most of them, Postmaster M. Y. Stokes, Jr., has arranged to keep open until 4 o'clock for the convenience particularly of the rural patrons of the office who are in town on Saturdays.

Mail will be dispatched on the bus and the night train just the same on Saturdays as on other days, but the money order, stamp and mail windows will not be open after 4 p.m.

#### MAN IN HOSPITAL AFTER CUTTING SCRAPE

C. H. Black is in a Brownwood hospital suffering from knife wounds in his abdomen, and Grady Tullos is under \$500 bond as a result of an affray in a Goldthwaite filling station Saturday night. The affair started from an argument while the men were pitching quarters, according to witnesses.

#### ARROWOOD REUNION

The children and grandchildren of W. D. Arrowood of Moline, a long time resident of Lampasas county, met at the State Park at Lampasas Sunday, Sept. 26, and had a delightful time together. A bountiful dinner was spread and a good time for all. All the children were present except one son, Dee Arrowood, wife and little son, William Eugene, of Fort Worth.

Those present were Happ Arrowood and wife and four daughters, Willa Mae, Mary Alice, Tommie Lee and Ruby D. of Live Oak; Wilburn Arrowood and daughter, Wilba Dean, of Moline; Mr. and Mrs. Walter Baker and children, Dorothy Alice, Doris Eva, Edna Eloise, Walter Baker, Jr. and Glen Bailey Baker, all of Lampasas; Mr. and Mrs. Frank Insall and three sons, Billie Joe, Darrell and Dayle, of Center City; Mr. and Mrs. Elmer Poe and children of Moline; Bobbie, Raymond D., Joyce, Donald and Baby Laura May. Others present were Mr. and Mrs. Maynard Roberts and three children, Arnold, Monetta, and Alice Doyle of Live Oak; Martha Pearl, Jewel and Lula Wilkey of Pleasant Grove; Mrs. Mary Dumas and two boys, Billie and Edd, of Clay Rock.

All left for their homes hoping to be together again next year and all be present for another jolly time.—One Present.

#### W. M. S. CIRCLE NO. 2

The Methodist Women's Missionary Society Circle No. 2 met with Mrs. Fred Brucks on Monday, Sept. 27. All were enthusiastic over plans for the birthday dinner and play to be given on the evening of October 14.

Our new Missionary study—"What Is This Moslem World," promises to be very interesting. Mrs. Raymond Little is our study leader.

Plans are being made for quite a large number to attend the Missionary zone meeting at Lometa Oct. 12. We extend an invitation to all the ladies of the Methodist church who do not attend any other Missionary circle to come and work with us.—Reporter.

#### PROCLAMATION

Know all Men, Women and Children by these presents: That, whereas the health, happiness, life and safety and general welfare of each citizen are dependent upon existing living conditions, and

Whereas, the lives and property of our people are endangered by fire caused by rubbish accumulations in homes, offices, stores, factories, alleys and streets, and

Whereas, a city is judged largely by its general appearance of cleanliness, freshness and beauty and

Whereas, fire to a very large degree is preventable by the proper application of education in fire prevention and fire protection;

NOW, THEREFORE, I, H. G. BODKIN, Mayor of the City of Goldthwaite, do hereby proclaim the week of October 3 to 9 as Fire Prevention Week, during which week I most respectfully urge our civic and commercial organizations, our school officials and teachers, and our citizenship as a whole, to cooperate and work with the fire chief, fire marshal, and city officials in an effort to control this useless loss of life and property by fire.

Every home, office and place of business should be inspected carefully and all fire hazards removed. In testimony whereof, I hereunto sign my name and affix my seal of office on this the 27th day of September, A. D. 1937. (Seal) H. G. BODKIN, Mayor.

#### VISIT APPLE ROOM

A visit to the apple house of J. J. Cockrell on last Sunday afternoon was a great pleasure to Mrs. W. E. Miller, J. H. Randolph, Miss Lillie Martin and the Eagle editor.

Mr. Cockrell has a large room with double-thick walls, a cooling apparatus installed that keeps the room at certain temperature which insures the preservation of not only apples, but the many different kinds of fruit that he raises throughout the year and there is but one other such apparatus in the United States.

He has also patented a fruit orchard plow of special make, one that can be used with a tractor and one with horses.

Several fruit farmers from Parker county have visited him lately to get his method of saving his fruit, apples especially, and to examine his plows for their use, as S. D. McConnell of Millsap has 200 acres in apples and A. L. Murrell of Weatherford has already gathered 5000 bushels of apples from his orchards.

W. C. Langley of Garner, near Weatherford, another apple grower, was with them.

#### Star P.-T.A. Host to Lions

Preparations are being made for a banquet at Star on the evening of Friday, Oct. 8, when the Star Parent-Teachers Association will entertain members of the Goldthwaite Lions Club, their wives and friends for the benefit of the Star fund.

All Goldthwaite citizens who would like to attend what promises to be a most delightful evening are invited to get in touch with some member of the Lions.

#### EVANS SCHOOL IS CONSOLIDATED

Saturday the 25th the Evans school voted for the school to be consolidated with Mullin and Ratler, 11 pupils came to Mullin and three went to Ratler and into the Goldthwaite district.

The children of Mr. and Mrs. J. F. Wigley, Mr. and Mrs. T. J. Copeland and Mr. and Mrs. Paul Shipman are attending the Mullin school.

For a time it seemed that this consolidation would not be perfected but all is well that ends well. The patrons of the Evans school put forth a great effort and influence as well as the superintendent, Mr. Tolbert Patterson, to get the results finally achieved.—Mullin Enterprise.

#### GLEE CLUB

The sixth and seventh grades of the Goldthwaite grammar school have organized a Glee club and we hope everyone will enjoy it.

It was decided for the girls to wear white blouses and black skirts, the boys white shirts and black trousers.

There are four boys and 35 girls. The club will be open for about a month for new members from the sixth and seventh grades.

Evelyn Burns is the president and Velma Fox is the secretary treasurer.

#### INTERMEDIATE LEAGUE

The Leagues are anxious to have 20 in their meeting next Sunday, Oct. 3. New officers will be elected. Everyone come so that we will have a fair chance to elect our officers. Mothers, if you have a boy or girl, find which group they belong in. Their presence will be great help to us and we will try to help them. Let's be 100 per cent Sunday.

#### COTTON GINNING REPORT

Census report shows that 354 bales of cotton were ginned in Mills county from the crop of 1937 prior to Sept. 16, as compared with 403 bales for the crop of 1936.

#### AMATEUR CONTEST DANCING, SINGING, MUSIC AND COMEDY

## First Home Game To Be Played On Temporary Field

#### Highway Finish Is Delayed By Rock

Completion of the paving on State Highway 7 towards Brownwood has been delayed a week because the contractor's supply of number 3 crushed rock was exhausted. As the big rock crusher at Mullin had been dismantled and shipped to Hillsboro, it was necessary to order a carload of stone from Chico, Texas. It arrived yesterday, so the completion of the job is again in sight, and its "sale" to the state highway department for \$156,000 will close the transaction.

Some of the truck drivers who had been employed on this job were arrested in Hill county last week by state highway patrolmen and charged with having larger trucks than their licenses permitted. Several of them took out corrected licenses in Mills county in order to comply with the law.

#### Baptist Reminder

Our time of meeting is: Sunday school, 10; church services, 11; BTU, 5:30; church services, 7:30. You are always welcome at the Baptist church. We try to make everyone feel at home.—Franklin E. Swanner.

#### RE-ASSEMBLY BREAKFAST

The lovely home of Mr. and Mrs. Joe A. Palmer was opened to the members of the Self Culture Club and a few guests for a Re-Assembly Breakfast Saturday morning at 8:30 o'clock.

The guests were met at the door by the gracious hostess and ushered into the living room where Mrs. J. A. Hester pinned a lovely corsage of asters on each guest.

The delicious breakfast was served buffet style from a table resplendent in green damask and gleaming silver with a center piece of pink asters. Mrs. Walters Hester charmingly presided at the coffee urn and was assisted by Misses Catherine Fairman, Norma Sue Tippen and Robert Elizabeth Littlepage.

Following the breakfast Mrs. J. A. Hester in her ever versatile manner led the program. Roll call, My Favorite Magazine and Why.

President's Address, Mrs. Joe A. Palmer. Piano Solo (a) Romance in F Minor, Tschaikowsky (b) Mazurka Chopin, Robert Elizabeth Littlepage.

Reading (a) The Party at Crograms', Florence J. Boyce. (b) Fruth in Parenthesis, Thos. Hood, Norma Sue Tippen. Vocal Solo (a) Beautiful Dreamer, Stephen Foster, (b) Song of India, Catherine Fairman.

History of Self Culture Club, Mrs. W. E. Miller. At the close of the program, there was a short business session presided over by the incoming president, Mrs. Palmer, who outlined the work for the club year, which is to be "Keeping up with the world through magazines."

Mrs. Carlos Patterson was welcomed as a new member. The Self Culture Club has before it the promise of one of the best years in the 32 years of its existence.

#### Football Fans Are Expecting A Fast Game

The Goldthwaite Eagles will play their second conference football game in Goldthwaite this afternoon at 3:30 p.m. The Eagles' first conference game with Lometa last Friday turned in favor of the Goldthwaite team by the narrow margin of 7 to 6. The Mason eleven, although defeated by San Saba last week, promise a good game for the Eagles.

The Eagles have a lighter team than Mason, but as they are fast and hard-fighting and are playing their first home game of the year, they want to show the citizens of Goldthwaite that they are a football team to be rightfully proud of.

The number of home games in the future will largely be determined by the attendance at today's contest, so let the people of this city turn out and so bring home the future games.

The game will commence at 3:30 on the temporary field near the city water reservoir.

#### WILD GAME MEETING

W. P. Weaver and G. R. Goosby returned Saturday night from Kerrville, where they attended the Wild Game Conservation meeting. 75 county agents and district game wardens and members of the Game, Fish and Oyster Commission were there.

The game wardens conducted an 80 mile tour through the Schriener game preserve. The trip was made to observe the differences in the amount of game on closely grazed, moderately grazed and ungrazed pastures. The deer showed strong preference for moderately grazed pastures. Game wardens estimate the number of game on one 72,000-acre ranch as 6,000 deer and 7,500 turkeys, besides other game.

#### LETTER FROM JUDGE GERALD

Judge Gerald writes the Eagle and asks that we express through our columns his and Mrs. Gerald's appreciation for the many cards, letters, telegrams and flowers that have been sent them at the hospital from Mills and other counties.

He says "They have been too numerous for me to answer individually, so I take this method of thanking my friends, and also to tell them I am improving nicely and hope to be back in my office soon.—R. J. Gerald."

### SOUTH BENNETT

(Crowded out last week)

Mr. and Mrs. J. T. Hart and children visited in the Ed Dennis home several days last week. Forest Hill returned to Austin one day last week, where he will attend school again this winter. He had visited with his parents, Mr. and Mrs. Willis Hill, for about two weeks.

Mr. and Mrs. J. H. English of Fort Worth spent Friday night with their daughter, Mrs. M. L. Casbeer, and family. They spent Saturday visiting in the Clyde Featherston home, where Mr. English enjoyed the sport of shooting doves. They returned home Saturday night.

The little son that arrived in the Jack Montgomery home a couple of weeks ago is doing fine. A number of relatives and friends have visited in the home.

Aaron Stacy returned last week after having spent three weeks visiting his uncle, Henry Blackburn and family at Sterling City.

Charles Wilbur Hill was taken to Santa Anna last week where his arm was set, he having broken it during football practice. We are glad he is getting along all right.

Mr. and Mrs. B. R. Casbeer of own spent several days last week visiting relatives and their friends in this community. While they were in the community they visited with their son, M. L. and family, also another son, Matt, and family, and visited in the Davis Griffen home. On returning home they stopped for a visit with Mrs. Morgan Stacy but failed to find anyone at home. They went home Monday.

Elton Horton and family visited Clyde Featherston and family Tuesday.

Mrs. M. L. Casbeer visited Mrs. Willis Hill one afternoon recently.

Claude Smith and wife took a bale of cotton to town the early part of the week.

Mrs. Will Rahl has been sick but we are glad to report her

### PROPERTY LIEN WOULD CUT PENSION ROLLS

If Texas wants to cut the roll of old age pensioners in Texas, it may be necessary to require a lien on property held by the pensioners as a prerequisite to receiving a pension.

This opinion was informally expressed to the senate committee investigating ways and means to cut down the cost of government, by Orville S. Carpenter, former administrator of pension payments in this state.

Carpenter originally thought there would be 85,000 pensioners as a maximum. Today the maximum has been upped to 120,000. Carpenter recalled that at one session of the legislature he had proposed an amendment under which before any person owning property could get on the pension rolls, that person would be required to give the state a lien on the property, effective at the death of the beneficiary.

While not willing to estimate what sort of reduction such a program would make in the rolls, Carpenter thought it would be considerable. He believed "maybe some children who claim they can't care for their parents will find a way."—State Observer.

much better.

Mrs. M. L. Casbeer and children spent Thursday with Mrs. Clyde Featherston.

Rev. Brucks of town made visits in the Will Rahl, Morgan Stacy and M. L. Casbeer homes Monday afternoon.

Elton Horton and family were guests of Marvin Casbeer and family Sunday. In the afternoon they all called in the Matt Casbeer home for a visit.

Mrs. Jones had the misfortune of falling last week and breaking her arm. We hope she will get along all right.—Rose Bud.

### EBONY

(Crowded out last week) Our school, which is at Indian Creek this year, began Monday. Both teachers, Albert McCristy and Bernice Wilmeth, employed for the Ebony school, are teaching there. Meredith Chesser is driving the bus.

Miss Edith Thompson left the latter part of last week for Stephenville where she will enter her second year in John Tarleton college.

Lillard Wilmeth left Saturday for his final year in A. and M. college.

Mr. and Mrs. Cecil Crowder's baby, Betty Lou, was sick all of last week, and had to be taken to Brownwood for treatment but she is very much improved now.

Mrs. F. L. Crowder and F. L., Jr., visited at San Angelo last week.

W. M. Clements has gone to Gladewater to see his brother who was hurt in a car accident recently.

Mr. and Mrs. P. R. Reid visited Mr. and Mrs. Richard Mayfield at Brownwood Sunday.

Mr. and Mrs. J. W. Roberts visited Mr. and Mrs. John Tippen Sunday afternoon.

Grandmother Wilmeth returned Friday from a three weeks' visit to Fort Worth. While there she visited relatives at Dallas and McKinney. She was accompanied home by her daughter, Mrs. J. F. Bateman, and sons, Joe and John Robert, and her daughter-in-law Mrs. J. O. Wilmeth all of Fort Worth.

While here, Mrs. Jo Wilmeth was the guest of her sister-in-law, Mrs. Nellie Malone.

Saturday at dinner at the Briley home there was a little reunion of the Wilmeth family, including Mrs. Clara Wilmeth and her four children, Mrs. J. R. Briley, J. R. Wilmeth, Mrs. E. O. Dwyer, and Mrs. J. F. Bateman, her step-daughter, Mrs. Nellie Malone, her daughters-in-law, Mrs. Jo Wilmeth and Mrs. J. R. Wilmeth, and her son-in-law, J. R. Briley. Soon after dinner the Fort Worth guests left for home.

Mr. and Mrs. Wood Roberts, Miss Odene Russell, Mr. and Mrs. P. R. Reid and Mr. and Mrs. Edward Egger enjoyed ice cream at the home of Mr. and Mrs. Charm Whittenburg Saturday night.

Mrs. W. M. Clements spent Monday with Mrs. R. M. Haynes. Mrs. Alvin Hanna and Erva June visited at San Angelo last week while Mr. Hanna made another prospective tour through the country around Eldorado. If they keep this up, we are afraid they will finally leave us, and we sure would hate to give them up.

Miss Orene Willis was critically injured in an auto accident Friday morning between Cisco and Brownwood. She is at the Central Texas hospital, hardly expected to live.

Mr. and Mrs. Charm Whittenburg and Baby Clint called on Mr. and Mrs. J. W. Roberts Sunday night.

Mrs. Frank Crowder has received word that her mother, Mrs. S. N. Kelly, who has been expected home for some time, is sick at the home of her brother in Dallas county.

Roscoe Jones underwent an appendicitis operation at the Medical Arts hospital in Brownwood Monday afternoon. He is reported to be doing well.

### NEW STAMPS

Washington.—While postal officials and stamp fanciers looked on, officials of the bureau of engraving and printing threw the switch Friday that started first printing of the new 3-cent stamp commemorating the one hundred fiftieth anniversary of the signing of the constitution.

The initial order called for 75,000,000 of the new stamps, which will be placed on first day sale at Philadelphia scene of the signing of the historic document, next Friday.

The new stamp features a replica of the painting, "Signing of the Constitution," by Junius Brutus Stearns, which is now in a private collection in New York City.

Ten thousand of the new stamps will be placed on sale at the Goldthwaite post office.

An enemy may give better advice than a friend.

## The SNAPSHOT GUILD

### ANIMAL AND PET PICTURES

The very fact that animals and pets don't pose makes them ideal photographic subjects.

FROM household pets to giants of the jungles—animals are ideal subjects for photographers. They don't pose; they don't act. You can snap them in natural, undirected action and that is just the reason their pictures create so much interest.

To get good pictures of any animal the first essential is patience. It is quite possible that the family dog will stand up obligingly for you on command, but in picturing all other animals you'll find it necessary to wait for the picture you want.

And this brings us to the question—what do you want in an animal picture? You may prefer to snap a kitten as it plays with a string or a dog wrestling with a stick.

Domestic animals, of course, offer few real camera difficulties, for you can get them to come where the light is right. Open shade, on a bright day, will be found best. As for shutter speed (if your camera

has variable speeds), you'll need 1/25th of a second or faster, to catch fleeting poses and expressions. Unless the light is exceptional, better work with the lens wide open.

To snap less controllable animals—squirrels, birds, and such—you'll need greater patience and cunning. Much depends on background and on your distance from the subject. At more than ten feet, for example, a squirrel becomes almost invisible UNLESS it is sharply revealed on a branch, with the sky for background. Obviously, you'll need to use a fast shutter; squirrels move too swiftly for slow snaps.

The zoo can be a happy hunting ground, too. In many cases, you'll be able to shoot through or over the bars of cages, obtaining clear, unobstructed snaps.

Use a modern, color sensitive film. You'll need all the detail you can get and the utmost in color value rendering.

### EBONY

Mr. and Mrs. J. W. Roberts, Miss Odene Russell and Mr. and Mrs. P. R. Reid spent Sunday with Mr. and Mrs. Billie McNurten. Mr. and Mrs. Richard Mayfield and baby, Elinor June, of Brownwood also joined them in the afternoon.

Noah Egger of Dora, accompanied by his son, Owen, spent a short while with his mother, Grandmother Egger, Sunday. They left on route to Austin on a business trip.

Roscoe Jones, who is convalescing from an appendicitis operation at the Central Texas hospital at Brownwood is expected to be able to be brought home early this week.

Mrs. Houston Curtis and children, and Mrs. Will Crowder and children of Ridge attended church here Sunday. Their husbands are out West on a cotton picking trip, but they brought the children and came to church. We admire their spirit.

Miss Orene Willis, who was seriously injured in a car wreck over a week ago is still at Central Texas hospital at Brownwood in a critical condition, but is some better. Her foster mother, Mrs. Jess Egger, has been with her every day since she was hurt.

Mrs. Brownie White, who has been here for a few months looking after her place, left Wednesday for her home in Los Angeles. Grandma Egger is very poorly these days. Her daughter, Mrs. Wood Roberts, visited her Friday.

Another daughter, Mrs. R. M. Haynes, spent Saturday and Sunday with her.

Grace Briley, who is attending Daniel Baker college, Clayton Egger of Howard Payne college and Gene Wilmeth of the Brownwood high school, spent the week end with home folks.

Mr. and Mrs. Austin Cawyer and Elma Beth of Pasche, Grandmother Wilmeth, Mr. and Mrs. J. R. Wilmeth, Mrs. Nellie Malone, Mr. and Mrs. J. R. Briley, Mr. and Mrs. Ralph Wilmeth, Gene Wilmeth and Misses Grace Briley and Bernice Wilmeth were guests of Mr. and Mrs. E. O. Dwyer for a surprise birthday dinner, honoring Mrs. Dwyer's brother, J. R. Wilmeth, Sunday after church.

Mrs. Albert Harlin left Saturday to join her husband who is working near Big Springs.

Mr. and Mrs. Cecil Crowder and Betty Lou left Saturday for the West Texas cotton fields.

Mr. and Mrs. Billie McNurten have bought the Tippen place and Mr. and Mrs. John Tippen, Mr. and Mrs. McNurten will likely not move into their new home until the first of the year.

Mrs. Hubert Reeves began her school at Ridge Monday morning.

Mr. and Mrs. Ralph Wilmeth left this week for San Saba county, where they will again teach the Spring Creek school.

Mr. and Mrs. Manning and daughter, Miss Nadine, of Brownwood visited at the Dwyer home Sunday afternoon.

### SCHOOL SPIRIT

There is an indefinable element of school life that, though intangible, is of vital necessity. That something is known as "school spirit." The pep squad is the center of that spirit within the school, and as an organization, accomplishes a great deal toward generating enthusiasm in the student body. It is no easy task for the girls to scream themselves hoarse at football games, have pep rallies preceding the games, and back the team whether winning or losing. But they are willing to make sacrifices for their school if you, the citizens of Goldthwaite, will support them. It is to his end that we extend an open invitation to all to attend the pep rallies held on the court house lawn previous to games. Show your school spirit by coming to them.

### THE SPOTLIGHT

The first name that appears on the senior roll book is that of the youngest member of the class. She is five feet, four inches tall and weighs 105 pounds. This young lady is typically blond, being blessed with golden hair, blue eyes and a fair complexion. Nature endowed her with a friendly smile, which she freely bestows upon everyone with whom she comes in contact. If you have not already guessed this senior's identity, she is Ruby D. Berry. Ruby D. was born in the Pleasant Grove community on Sept. 26, 1922, and has lived there all the 15 years of her life. She started to school there and was a pupil of the Pleasant Grove school for the first eight years of her nearly-completed public school career. In 1935 Ruby D. enrolled in the Goldthwaite high school as a sophomore, and she is now beginning her third year as a student in this school. During her attendance here she has upheld a high scholastic standing and has taken part in various extra-curricular activities, such as pep squad and girls' athletics. Ruby D. plans to graduate from Goldthwaite high school next spring. Here is a hearty wish for a successful year for this senior who is now in the Spotlight.

### GLEE CLUB

Organization of the High School Glee Club has been under way for the past two weeks with Miss Marie Hill as director. The number enrolled is 32. At the first meeting officers were elected as follows: President, Joyce Johnson; secretary treasurer, Jean Goosby; reporter, Jeanette Martin. The last three meetings have been spent in testing voices. Interest among the girls is keen and hopes are high for a winning club this year.

### SURPRISE FOR DISTRICT 22-B

By Lawrence Morrison Stokes  
 Perhaps the biggest surprise the Goldthwaite Eagles and District 27-B ever had was on Friday, Sept. 24, when the Eagles, one of the four strongest teams in this section, barely edged out a 7-6 victory over the Lometa Hornets. The Goldthwaite team has always accepted in a matter of fact way that they would defeat the Hornets, as has nearly every other team in this district, but after Friday they are all keeping their eyes open and are expecting practically anything to happen.

In the first quarter of the game both teams seemed to be feeling the other out. But the second period showed a different kind of play. The Eagles cut loose with a series of line smash-es and made four successive first downs, only to lose the ball to the Hornets, who promptly, as if turn about was fair play, lost the ball to Goldthwaite. The Eagles carried the ball over the 10 yard line, and with a short pass from Davis to Shaw, scored the touchdown. Then Davis ran the ball over from the 2 yard line for the point which later won the game.

The third period saw both the Eagles and the Hornets, now realizing what they were up against, launch strong offensive attacks, which lasted during the remainder of the game. In the final quarter Lometa scored but failed in the attempt for extra point. The Hornets when they received the ball after the Eagles had possession of it for a while, showed that they are strong offensive players, and the Eagles' defense started to weaken. During this drive Kirby of Lometa showed that he could run in an open or a closed field, for he did both for large gains. Davis, Eagle quarterback, was the reason that the Hornets did not hang up another counter, although McCasland, Goldthwaite tackle, spoiled most of the Hornets' first offensive plays.

Both teams played a commendable game, and the close score showed the truth, Lometa has a strong football machine which clicks at all speeds. Next Friday, Oct. 1 the Mason team which unsuccessfully tried to invade the San Saba Armadillos' home last Friday night and were defeated 53-0, will try to enter the Eagles' nest but let's see how the Masonites play before making any predictions for the next game.

### PEP SQUAD

The Pep Squadders are happy because we won over Lometa on last Friday. The entire team played pretty well, especially in the first half, and there are two or three boys who played outstandingly well. We are proud of them. However, we believe that Lometa would not have made their touchdown had the Pep Squad been there rooting with all the pep and enthusiasm which we will show throughout the Mason game today. We are sorry that this game cannot be played on the new field, but we are sure that a number of townspeople will be present. Now, football boys and pep squadders, if we can get a large number of the businessmen and town citizens out there Friday and show them just how good we are, I believe they will want to attend all the games and will offer more interest and encouragement. Come on, Eagles, let's go!

### P-T. A. SHOW

Come one, come all to the school auditorium Friday night to see the show sponsored by the Parent - Teachers Association. See the beauties of Goldthwaite on parade. Watch those tiny tots compete for the title of "Miss Shirley Temple." See and hear your favorite amateurs as they display their talents. There will be songs, dances, music, and all kinds of entertainment. This is a show that will be interesting to all ages. And remember that it is for the benefit of the school. We'll be seeing you tonight at the P-T. A. show!

 Improves and Increases Yields

You do just one thing—treat your seed with **New Improved CERESAN**—and this effective dust disinfectant does four! Checks seed rotting, reduces seedling blight, controls stinking smut, and improves and often increases your wheat yield—at a cost of less than 3¢ an acre!

The U. S. Dept. of Agriculture, along with many Experiment Station authorities, recommends this treatment. It is a protection against seed-borne stinking smut—a way to better yields. Even on clean seed the average increase has been 1.13 bushels an acre.

Easier to apply. One-half ounce per bushel—costs only 2 cents. No drill damage. Controls covered smut and stripe of BARLEY, and smuts of OATS—often increasing stands and yields of both grains.

Mr. and Mrs. J. T. Hart and children visited in the Ed Dennis home several days last week.

Forest Hill returned to Austin one day last week, where he will attend school again this winter. He had visited with his parents, Mr. and Mrs. Willis Hill, for about two weeks.

Mr. and Mrs. J. H. English of Fort Worth spent Friday night with their daughter, Mrs. M. L. Casbeer, and family. They spent Saturday visiting in the Clyde Featherston home, where Mr. English enjoyed the sport of shooting doves. They returned home Saturday night.

The little son that arrived in the Jack Montgomery home a couple of weeks ago is doing fine. A number of relatives and friends have visited in the home.

Aaron Stacy returned last week after having spent three weeks visiting his uncle, Henry Blackburn and family at Sterling City.

Charles Wilbur Hill was taken to Santa Anna last week where his arm was set, he having broken it during football practice. We are glad he is getting along all right.

Mr. and Mrs. B. R. Casbeer of town spent several days last week visiting relatives and their friends in this community. While they were in the community they visited with their son, M. L. and family, also another son, Matt, and family, and visited in the Davis Griffin home. On returning home they stopped for a visit with Mrs. Morgan Stacy but failed to find anyone at home. They went home Monday.

Elton Horton and family visited Clyde Featherston and family Tuesday.

Mrs. M. L. Casbeer visited Mrs. Willis Hill one afternoon recently.

Claude Smith and wife took a bale of cotton to town the early part of the week.

Mrs. Will Rahl has been sick but we are glad to report her

### PROPERTY LIEN WOULD CUT PENSION ROLLS

If Texas wants to cut the roll of old age pensioners in Texas, it may be necessary to require a lien on property held by the pensioners as a prerequisite to receiving a pension.

This opinion was informally expressed to the senate committee investigating ways and means to cut down the cost of government, by Orville S. Carpenter, former administrator of pension payments in this state.

Carpenter originally thought there would be 85,000 pensioners as a maximum. Today the maximum has been upped to 120,000. Carpenter recalled that at one session of the legislature he had proposed an amendment under which before any person owning property could get on the pension rolls, that person would be required to give the state a lien on the property, effective at the death of the beneficiary.

While not willing to estimate what sort of reduction such a program would make in the rolls, Carpenter thought it would be considerable. He believed "maybe some children who claim they can't care for their parents will find a way."—State Observer.

### EBONY

(Crowded out last week) Our school, which is at Indian Creek this year, began Monday. Both teachers, Albert McCristy and Bernice Wilmeth, employed for the Ebony school, are teaching there. Meredith Chesser is driving the bus.

Miss Edith Thompson left the latter part of last week for Stephenville where she will enter her second year in John Tarleton college.

Lillard Wilmeth left Saturday for his final year in A. and M. college.

Mr. and Mrs. Cecil Crowder's baby, Betty Lou, was sick all of last week, and had to be taken to Brownwood for treatment but she is very much improved now.

Mrs. F. L. Crowder and F. L. Jr., visited at San Angelo last week.

W. M. Clements has gone to Gladewater to see his brother who was hurt in a car accident recently.

Mr. and Mrs. P. R. Reid visited Mr. and Mrs. Richard Mayfield at Brownwood Sunday.

Mr. and Mrs. J. W. Roberts visited Mr. and Mrs. John Tippen Sunday afternoon.

Grandmother Wilmeth returned Friday from a three weeks' visit to Fort Worth. While there she visited relatives at Dallas and McKinney. She was accompanied home by her daughter, Mrs. J. F. Bateman, and sons, Joe and John Robert, and her daughter-in-law Mrs. J. O. Wilmeth all of Fort Worth.

While here, Mrs. Jo Wilmeth was the guest of her sister-in-law, Mrs. Nellie Malone.

Saturday at dinner at the briley home there was a little reunion of the Wilmeth family, including Mrs. Clara Wilmeth and her four children, Mrs. J. E. O. Briley, J. R. Wilmeth, Mrs. E. O. Dwyer, and Mrs. J. F. Bateman, her step-daughter, Mrs. Nellie Malone, her daughters-in-law, Mrs. Jo Wilmeth and Mrs. J. R. Wilmeth, and her son-in-law, J. R. Briley. Soon after dinner the Fort Worth guests left for home.

Mr. and Mrs. Wood Roberts, Miss Odene Russell, Mr. and Mrs. P. R. Reid and Mr. and Mrs. Edward Egger enjoyed ice cream at the home of Mr. and Mrs. Charm Whittenburg Saturday night.

Mrs. W. M. Clements spent Monday with Mrs. R. M. Haynes. Mrs. Alvin Hanna and Erva June visited at San Angelo last week while Mr. Hanna made an other prospective tour through the country around Eldorado. If they keep this up, we are afraid they will finally leave us, and we sure would hate to give them up.

Miss Orene Willis was critically injured in an auto accident Friday morning between Cisco and Brownwood. She is at the Central Texas hospital, hardly expected to live.

Mr. and Mrs. Charm Whittenburg and Baby Clint called on Mr. and Mrs. J. W. Roberts Sunday night.

Mrs. Frank Crowder has received word that her mother, Mrs. S. N. Kelly, who has been expected home for some time, is sick at the home of her brother in Dallas county.

Roscoe Jones underwent an appendicitis operation at the Medical Arts hospital in Brownwood Monday afternoon. He is reported to be doing well.

### NEW STAMPS

Washington.—While postal officials and stamp fanciers looked on, officials of the bureau of engraving and printing threw the switch Friday that started first printing of the new 3-cent stamp commemorating the one hundred fiftieth anniversary of the signing of the constitution.

The initial order called for 75,000,000 of the new stamps, which will be placed on first day sale at Philadelphia scene of the signing of the historic document, next Friday.

The new stamp features a replica of the painting, "Signing of the Constitution," by Junius Brutus Stearns, which is now in a private collection in New York City.

Ten thousand of the new stamps will be placed on sale at the Goldthwaite post office.

## The SNAPSHOT GUILD

ANIMAL AND PET PICTURES

The very fact that animals and pets don't pose makes them ideal photographic subjects.

FROM household pets to giants of the jungles—animals are ideal subjects for photographers. They don't pose; they don't act. You can snap them in natural, undirected action and that is just the reason their pictures create so much interest.

To get good pictures of any animal the first essential is patience. It is quite possible that the family dog will stand up obligingly for you on command, but in picturing all other animals you'll find it necessary to wait for the picture you want.

And this brings us to the question—what do you want in an animal picture? You may prefer to snap a kitten as it plays with a string or a dog wrestling with a stick.

Domestic animals, of course, offer few real camera difficulties, for you can get them to come where the light is right. Open shade, on a bright day, will be found best. As for shutter speed (if your camera

has variable speeds), you'll need 1/25th of a second or faster, to catch fleeting poses and expressions. Unless the light is exceptional, better work with the lens wide open.

To snap less controllable animals—squirrels, birds, and such—you'll need greater patience and cunning. Much depends on background and on your distance from the subject. At more than ten feet, for example, a squirrel becomes almost invisible UNLESS it is sharply revealed on a branch, with the sky for background. Obviously, you'll need to use a fast shutter; squirrels move too swiftly for slow snaps.

The zoo can be a happy hunting ground, too. In many cases, you'll be able to shoot through or over the bars of cages, obtaining clear, unobstructed snaps.

Use a modern, color sensitive film. You'll need all the detail you can get and the utmost in color value rendering.

John van Gulder

### EBONY

Mr. and Mrs. J. W. Roberts, Miss Odene Russell and Mr. and Mrs. P. R. Reid spent Sunday with Mr. and Mrs. Billie McNurten, Mr. and Mrs. Richard Mayfield and baby, Elinor June, of Brownwood also joined them in the afternoon.

Noah Egger of Dora, accompanied by his son, Owen, spent a short while with his mother, Grandmother Egger, Sunday. They were en route to Austin on a business trip.

Roscoe Jones, who is convalescing from an appendicitis operation at the Central Texas hospital at Brownwood is expected to be able to be brought home early this week.

Mrs. Houston Curtis and children, and Mrs. Will Crowder and children of Ridge attended church here Sunday. Their husbands are out West on a cotton picking trip, but they brought the children and beams to church. We admire their spirit.

Miss Orene Willis, who was seriously injured in a car wreck over a week ago is still at Central Texas hospital at Brownwood in a critical condition, but is some better. Her foster mother, Mrs. Jess Egger, has been with her every day since she was hurt.

Mrs. Brownie White, who has been here for a few months looking after her place, left Wednesday for her home in Los Angeles. Grandmother Egger is very poorly these days. Her daughter, Mrs. Wood Roberts, visited her Friday.

Another daughter, Mrs. R. M. Haynes, spent Saturday and Sunday with her.

Grace Briley, who is attending Daniel Baker college, Clayton Egger of Howard Payne college and Gene Wilmeth of the Brownwood high school, spent the week end with home folk.

## SCHOOL SPIRIT

There is an indefinable element of school life that, though intangible, is of vital necessity. That something is known as "school spirit." The pep squad is the center of that spirit within the school, and as an organization, accomplishes a great deal toward generating enthusiasm in the student body. It is no easy task for the girls to scream themselves hoarse at football games, have pep rallies preceding the games, and back the team whether winning or losing. But they are willing to make sacrifices for their school if you, the citizens of Goldthwaite, will support them. It is to his end that we extend an open invitation to all to attend the pep rallies held on the court house lawn previous to games. Show your school spirit by coming to them.

## SURPRISE FOR DISTRICT 22-B

By Lawrence Morrison Stokes  
 Perhaps the biggest surprise the Goldthwaite Eagles and District 27-B ever had was on Friday, Sept. 24, when the Eagles, one of the four strongest teams in this section, barely edged out a 7-6 victory over the Lometa Hornets. The Goldthwaite team has always accepted in a matter of fact way that they would defeat the Hornets, as has nearly every other team in this district, but after Friday they are all keeping their eyes open and are expecting practically anything to happen.

In the first quarter of the game both teams seemed to be feeling the other out. But the second period showed a different kind of play. The Eagles took loose with a series of line smash-ups and made four successive first downs, only to lose the ball to the Hornets, who promptly, as if turn about was fair play, lost the ball to Goldthwaite. The Eagles carried the ball over the 10 yard line, and with a short pass from Davis to Shaw, scored the touchdown. Then Davis ran the ball over from the 2 yard line for the point which later won the game.

The third period saw both the Eagles and the Hornets, now realizing what they were up against, launch strong offensive attacks, which lasted during the remainder of the game. In the final quarter Lometa scored but failed in the attempt for extra point. The Hornets when they received the ball after the Eagles had possession of it for a while, showed that they are strong offensive players, and the Eagles' defense started to weaken. During this drive Kirby of Lometa showed that he could run in an open or a closed field, for he did both for large gains. Davis, Eagle quarterback, was the reason that the Hornets did not hang up another counter, although McCasland, Goldthwaite tackle, spoiled most of the Hornets' first offensive plays.

Both teams played a commendable game, and the close score showed the truth, Lometa has a strong football machine which clicks at all speeds.

Next Friday, Oct. 1 the Mason team which unsuccessfully tried to invade the San Saba Armadillos' home last Friday night and were defeated 53-0, will try to enter the Eagles' nest but let's see how the Masonites play before making any predictions for the next game.

## PEP SQUAD

The Pep Squadders are happy because we won over Lometa on last Friday. The entire team played pretty well, especially in the first half, and there are two or three boys who played outstandingly well. We are proud of them. However, we believe that Lometa would not have made their touchdown had the Pep Squad been there rooting with all the pep and enthusiasm which we will show throughout the Mason game today.

We are sorry that this game cannot be played on the new field, but we are sure that a number of townspeople will be present. Now, football boys and pep squadders, if we can get a large number of the businessmen and town citizens out there Friday and show them just how good we are, I believe they will want to attend all the games and will offer more interest and encouragement. Come on, Eagles, let's go!!

## P.-T. A. SHOW

Come one, come all to the school auditorium Friday night to see the show sponsored by the Parent - Teachers Association. See the beauties of Goldthwaite on parade. Watch those tiny tots compete for the title of "Miss Shirley Temple." See and hear your favorite amateurs as they display their talents. There will be songs, dances, music, and all kinds of entertainment. This is a show that will be interesting to all ages. And remember that it is for the benefit of the school. We'll be seeing you tonight at the P.-T. A. show!

Texas Planning Board engineers have discovered that Texas cedar sawdust, when properly treated and moulded, makes perfect board panels and is an excellent sounding board for musical instruments.

 Improves and Increases Yields

You do just one thing—treat your seed with *New Improved CERESAN*—and this effective dust disinfectant does four! Checks seed rotting, reduces seedling blight, controls stinking smut, and improves and often increases your wheat yield—at a cost of less than 3¢ an acre!

The U. S. Dept. of Agriculture, along with many Experiment Station authorities, recommends this treatment. It is a protection against seed-borne stinking smut—a way to better yields. Even on *clean* seed the average increase has been 1.13 bushels an acre.

Easier to apply. One-half ounce per bushel—costs only 2 cents. No drill damage. Controls covered smut and stripe of BARLEY, and smuts of OATS—often increasing stands and yields of both grains.

## Three Queens and a Joker

By IRVIN S. COBB

ACCORDING to a much-traveled friend of mine, there used to be an Irishman who functioned as chief barker for a sight-seeing coach in Chicago. One of the places included in the itinerary of the tours was a famous cemetery.

On a certain morning as the rubber-neck wagon, heavily laden with tourists turned in between the gates of the cemetery, the orator, facing the passengers, proceeded, through his megaphone, to chant his customary explanation:

"To the right you see a shaft erected in memory of our Heroic World War Dead. To the left is a beautiful shaft erected by the rich Mr. Casey in memory of his wife.

"This shaft is 100 feet high, and at the top 'tis ornamented with four female figures."

A woman visitor spoke up: "What do the four figures represent?" she asked.

This was the first time the barker had been asked this question and he hesitated a minute before answering. Then inspiration came to him: "Them? Why them, Ma'am, are Faith, Hope and Charity—and—"

### THE FACULTY

We have three new teachers this year, Mr. Womack, Mr. Harris and Miss Manning. The other teacher, Mrs. Long, is not new to the students in Big Valley because she taught here last year. We students welcome these teachers into our school and we are going to try to help them in every way possible, so that this will be one of the happiest and best school years in our lives.

### DID YOU KNOW THAT—

Lacy can read palms?

Morris still likes Helen?

Roberta has changed her mind about Lack?

Veseva and Marybeth surely do like chewing gum?

L. E. doesn't know how to study?

Miss Manning is not interested in boys?

Woodrow Long can teach?

Shirley does not like to go to parties without Tommy?

Donald can not sit still!

### HOME ECONOMICS

There are six girls in home economics, who are Roberta Robertson, Billye Daniels, Greta Traylor, Johnnie Mullins, Marybeth and Shirley Mullins. The teacher, Miss Manning, is giving a party for them in the high school room and we are expecting a big time up there.

### LOCAL NEWS

We heard some of the freshmen went visiting Sunday.

We are very proud of our new merry-go-round and the set of Encyclopedias, and the big dictionary. We notice the merry-go-round hasn't been put up yet out it is here.

### TEACHERS ANNOUNCEMENT

San Marcos.—J. R. Buckner, chairman of the extension department of the Southwest Texas Teachers College here, announced that extension centers would be located in a number of Central Texas towns, enabling teachers and others unable to attend college to take courses for college credit at home. Mullin has been named tentatively for the establishment of one of these centers.

Any course, beginning freshman courses included, will be offered if there is a demand for them. Two courses toward a master's degree may be completed at extension centers.

Requests for information from those interested are desired immediately. Buckner said, in order that courses which are in demand may be offered. Centers will be established at any place where the demand is sufficient.

## Gypsy Smith Revival Plan Is Outlined

The Ministerial Association of Brownwood met Monday to work out details in preparation for the Gypsy Smith revival which is to be held in Brownwood on November 28 to December 12.

Rev. A. W. Anderson, pastor of the First Christian church and president of the association, has been selected as general chairman of arrangements. Rev. J. T. McClure, president of the Brownwood District, Methodist church, is assistant to the general chairman.

Rev. Harold G. Scoggins, pastor of First Methodist church, has been named director of publicity. He is employing every means possible to get information to the neighboring communities and cities inviting the people to come in and attend the meeting.

This is an unusual opportunity which is offered to this section of Texas, the pastors declare. Gypsy Smith is perhaps the most noted evangelist in the world at this time, and it is the first time he has ever been in this immediate section of the state and in all likelihood it will be the last time he will be able to come.

The Gypsy has held meetings all round the world and his fame and reputation is such that people often travel hundreds of miles to hear him one time, it is stated.—Brownwood Bulletin.

### BENNINGFIELD-KOEN

Mr. Elmer Koen and Miss Norma Lee Benningfield were united in marriage about 7:00 o'clock Saturday evening, Sept. 25, 1937, at Mullin. Rev. Charlie Hanks officiated.

The lovely bride is the daughter of Mr. and Mrs. J. E. Benningfield of Indian Gap, and was attired in a lovely navy blue taffeta suit with matching accessories and a beautiful corsage of blue and pink forget-me-nots.

The groom is the son of Mr. and Mrs. S. O. Koen of Caradan and was dressed in an oxford gray business suit with accessories to match.

Both the bride and groom were reared to respectable man and womanhood in Mills county.

Those who attended the ceremony were Mr. and Mrs. Sterling Benningfield, brother and Waunita Benningfield, sister of sister-in-law of the bride; Miss the bride; Miss Eva Koen, sister of the groom, and Mrs. Charlie Hanks.

We wish for the young couple lots of happiness and the best of luck.

Those who enjoyed the beautiful and delicious wedding dinner in the home of the bride's parents Sunday were Mr. and Mrs. Joe Benningfield of Pleasant Grove, also a recent bride and groom; Mr. and Mrs. J. D. Benningfield of Mt. Olive; Mr. and Mrs. John Lovelace; Mr. and Mrs. Otto Lovelace and son, Owen; Miss Margaret MacMenn; S. O. Koen and children, James and Eva; Mr. and Mrs. Sterling Benningfield; Deloyd, Glendon and Waunita Benningfield; Mr. and Mrs. J. E. Benningfield and the honor guests.—A Guest.

# Fire Prevention

Fire prevention week is Oct. 3 to 9. What are you going to do about it in your city?

The State Firemen's and Fire Marshals' Association urgently requests that every city governing body, its fire marshal and fire department prepare some sort of a publicity campaign, and if at all possible, a program of some sort, at a given hour, which will interest its citizens in the very important matter of fire prevention.

Now is the time to call to the attention of the citizens of your city the fact that chimneys, flues and fire places should be inspected for any defects prior to their coming into use in the cold weather. Gas explosions due to defective appliances and piping must be forestalled and will be if you will have an inspection made of the piping and appliances in the houses in your city.

A great work can be done and a great assistance extended to all of the citizens of Texas with the efforts of you people who are in this position of accountability to the public if you will insist on and plan an active campaign of publicity particularly for Fire Prevention Week, Oct. 3 to 9, and more especially if it would be kept up at about two or three month intervals during the entire year.

Remember that fire losses in your city have a direct bearing upon the fire insurance premiums to be collected in your city and just in the ratio that there is an active, wide awake interest taken by the authorities responsible for such things in the prevention of fires through reminding the public that it should keep its premises cleaned up of all rubbish and litter, that it should have inspection made of its piping and heating appliances, and in proportion to the interest that is taken to educate the public and keep them "Fire Prevention conscious," just in that ratio will your entire citizenship profit in dollars and cents by reason of enjoying the best rate on fire insurance that will be allowed under the schedules. This has no relation whatever to the greatest good that will come to your citizenship, and that is, through the removal of every possible hazard to the loss of life through fire. This is the most important activity to which our Association and your city can dedicate itself; and while the matter of saving in dollars and cents is an appreciable and substantial factor in the lives of all of us, yet the preservation of human life by far outdistances all of the money that could be saved to any human being.

LET'S MAKE FIRE PREVENTION A REALITY IN TEXAS!

### JOLLY CHATTER CLUB

The Jolly Chatter Club met with Mrs. George Denman last Thursday afternoon. The afternoon was spent in quilting and piecing on a lovely quilt. There were 14 present. After we had quilted awhile the club was called in a business session by our president, Mrs. Solomon, assisted by the secretary, Mrs. Joe Anderson, after which delicious refreshments consisting of cake and feed chocolate were served to all present.

The next meeting will be with Mrs. Homer Denman.—Reporter.

**Fascinating Facts From Home Almanac**

A sultry, lazy afternoon, nothing to do... worse still, nothing to write about. Not a thing in sight except the glare from the sun on the glass and shiny bodies of the parked automobiles... we grow drowsy... we wish we lived in Mexico where it is said even the peons can take a siesta after the noon meal... we drift into a coma and have visions of long summer afternoons, swinging in a hammock under the leafy trees, we drift further and see the old swimmin' hole, the one back of the shop used to be pretty good before we went modern with the new pool...

We are on the verge of taking a refreshing dip in the river, maybe a long swing-out on the rope that used to be on the big cypress tree before the flood, now that was news, wasn't it? We are definitely brought back to life when the boss asks about copy—oh, yes, copy for the paper... Desperately we turn and look about for an inspiration and find before us an almanac "A Home Almanac and Facts Book." Inspiration at last... I shall take a thumb tour through this valuable and scientific treatise...

Did you ever know what the signs of the Zodiac are for? I could never quite figure them out myself... On page seven we find that the chart of the light and dark of the moon is shown. Also that there will be three eclipses during 1937—one of the moon and two of the sun... But only one will be visible in the United States. My goodness, and the thing is printed in English—How will the Russians or the Japanese know what to look for if they depend on the almanac? A very interesting eclipse of the sun was prophesied for June 8, which was to have lasted seven minutes and six seconds.

On page 12 we find that the annual rainfall for Texas in 1936 was 31.08 inches, the highest being 55.31 at Bon Weir in Newton county; the average mean temperature is 65 degrees; the highest mean annual temperature being at Hidalgo with 74 degrees and the lowest in Dalhart with 54.2. On page 15 we find that Texas undoubtedly ranks highest among the states in the variety, profusion and beauty of its wild flowers, with about 4000 different varieties thriving on its area and varying climates and soils. Also we find that grasses constitute one of the most valuable for the natural resources, yielding indirectly about \$100,000,000 to \$150,000,000 through direct sales for hay and pastureage.

Some of the prophecies recorded in this "one book library" are that Nostradamus, a French seer in 1550, and again, William Lilly, an Englishman, in 1648, foretold in great detail the burning of London which came to pass as they predicted in 1666. Lilly had foretold of the "Black Death" which had swept London in 1665. And many more.

Other things about Texas of interest to us, we find that on Jan. 1, 1937, there were on Texas farms and ranches a total of 22,634,000 livestock, having a total value of \$365,867,000, an increase of 7.7 per cent over the year before. The total income for livestock in 1936 was \$235,390,000.

**Ready to Dock**

SHIPS in port are beehives of industry. Repairs are made; stores replenished; cargo unloaded and loaded. Derrick winches work twenty-four hours a day. As the "Santa Lucia" nears New York, the ship's carpenter greases the winches of the luxurious Grace Line ship.

Of this mohair yield \$8,220,000 from 13,700,000 pounds. The spicy story of pepper is told that at one time the Peppers Guild was one of the most important in London, and that the pungent and penetrating seeds were used as money. Soldiers of fortune and canny Portuguese returning with bage of this booty from Malabar Coast in India would swagger through the streets, creating envy among the less prosperous.

Let's see the weather for the last week in August as given by the little flag signals: 19-22, stormy; 23-25, hot; 26-29, cooler, and 30-31, windy. The only trouble is that there are no specific places for this brand of weather to be. Also that the days are 13:15 long in New York and 12 hours 57 minutes long in Charleston. The last quarter of the moon will be August 28.

What is the word "Almanac" anyway? It is unknown but supposed to be the Arabic words "al" (the) and "men" (month) combined. The oldest fixed date in the world history is 4241 B.C. In that year the Egyptian astronomers introduced the "year" of 365 days, the one we have today. —Exch.

**McDONALD OBSERVATORY**

Austin.—The McDonald Observatory, situated on top of Mount Locke in the Davis Mountains, is already in operation, several observers having begun activities some months ago. The observatory, built by the University of Texas with a \$1,900,000 bequest from the late W. J. McDonald of Paris, Texas, is staffed by the University of Chicago, under the direction of Dr. Otto Struve who is also director of the latter institution's Yerkes Observatory.

During the summer, as one of the first steps toward making the reception and consulting room in the observatory a memorial to Mr. McDonald, an inscription containing an excerpt from his will was painted on its circular wall by Paul Pressler, architect from the Brownwood State park. Mr. Pressler is a graduate of the university department of architecture. The illuminated manuscript inscription, painted on the slate gray wall in tones of light blue, darker blue and terra cotta, reads: "Excerpt from the will of the late William J. McDonald of Paris, Texas, making provision for this astronomical observatory. \* \* \* All the rest, residue and remainder of my estate, I give, devise and bequeath to the Reg-

ents of the University of Texas, in trust, to be used and devoted by said Regents for the purpose of aiding in erecting and equipping an astronomical observatory to be kept and used in connection with and as a part of the University of Texas for the study and promotion of the study of astronomical science. The bequest is to be known as the W. J. McDonald Observatory Fund. The Regents shall have full power and authority to handle, use and appropriate this bequest, the only limitation on their authority and power being that the bequest is intended solely for the use and benefit of an astronomical observatory. In handling the notes due my estate the Regents are requested to use the utmost liberality and leniency."

It is proposed that an oil portrait of Mr. McDonald shall graze one wall of this room, and that a display case shall contain some of his books.

**MORAL: SUBSCRIBE TO THE EAGLE; DON'T BORROW IT FROM YOUR NEIGHBOR**

We agree with the Cross Plains Review editor who maintains that every family should take the county newspaper. He quotes the following to prove his contention:

"We once knew a man who was too stingy to take the newspaper in his home town and always sent over to borrow his neighbor's paper. "One evening he sent his son over to borrow the paper, and while his son was on his way he ran into a swarm of bees and in a few minutes his face looked like a summer squash. "Hearing the agonized cries of his son, the father ran to his assistance, and in doing so ran into a barbed wire fence, cutting a handful of flesh from his anatomy and ruining a \$4 pair of pants. "The old cow took advantage of the hole in the fence, got into the corn field and killed herself eating green corn. Hearing the racket, the farmer's wife ran out of the house, upsetting a 4-

RETARDING PROGRESS

Notice to every man, woman and child in the United States: The Senate has passed a bill to limit the length of trains.

It should be called a bill to make railroads run unnecessary trains. It would increase the death and accident hazard at railroad grade crossings. It would create wasteful employment for which the consuming and traveling public would have to pay in increased prices. It would reduce efficiency and create tremendous waste by making unnecessary, modern locomotives developed to handle American railroad traffic rapidly and efficiently.

An attempt was made to force this piece of "retard progress" legislation through the House without committee hearings or real consideration. The effort failed and the whole matter went over for deliberation in January, according to the Industrial News Review.

Consider the logic, or rather lack of logic, in this type of cost-raising legislation. Take a grocery store, a meat market or a newspaper which has installed modern motor equipment to deliver its goods to the public at a minimum of expense and with the least delay. Would it be logical to force them to use two trucks instead of one to make the same deliveries, for the primary reason of employing more truck drivers? Who would pay for such a wasteful procedure? The housewife and consumer, of course.

You can't add to the cost of doing business without adding to prices paid by consumers, unless you want the business to go broke or have the government operate it, and pay the deficit from tax funds collected from all the people.

Forcing railroads to run two short trains instead of one long train, is no whit different in effect from the standpoint of waste than would be similar legislation to force every employer now running one large truck, to replace it with two smaller trucks. In fact, the latter law would be far more effective in creating employment.

MILLS COUNTY APPLES

This year a banner crop of apples is being grown in Mills county. It is no exaggeration to say that no finer apples anywhere are being raised today. A trip through the storerooms and orchards of J. J. Cockrell or George Robertson is well worth taking just to see the quantity as well as quality of the apples that are being grown in Big Valley.

Not so many years ago raising apples was considered impossible in this country. Then it was said that if they could be raised, they could not be marketed in good condition. This objection has also been overcome through enterprise and ingenuity so that apple growers from distant points have traveled here to learn the method Mr. Cockrell employs.

It is true that apple raising requires much work and careful attention, practically throughout the year, but so does everything else that pays.

If other fruit growers will plant apples and give them the same attention and keep the quality up, Mills county will soon gain a widespread reputation for fine apples. And the income they produce will help replace the waning income from cotton and other staple crops.

SECURITY AND FREEDOM

"If you look out on the world today, you will find that we really have a large measure of freedom. There is a place or two on this earth where economic security is more general and is government-guaranteed—but in those countries, there is no freedom. We want both security and freedom. But we want them both as the product of our own achieving.

"We want security as a product of our own work. We want freedom as the result of our own vigilance. We want neither as a gift."—George E. Sokolsky.

There are five tests of the evidence of education—correctness and precision in the use of the mother tongue; refined and gentle manners, the result of fixed habits of thought and action; sound standards of appreciation of beauty and of worth, and a character based on those standards; power and habit of reflection; efficiency or the power to do.—Nicholas Murray Butler.

The WEEKLY CONSTITUTIONAL

by MAX BERNIS

Courts and Umpires

On what basis does the Supreme Court declare a statute void?

The Supreme Court does not pass laws or statutes or determine whether they are good or bad any more than an umpire makes the rules or declares whether they are good or bad. The Court's only job, like the umpire's, is to make decisions in accordance with the rules.

A baseball rule may seem to be good when written but turn out bad in practice. Experience often provides the real test. So also with a statute passed by Congress. It may appear satisfactory when written but develop unconstitutional phases when administered.

And the Supreme Court never passes upon a statute unless challenged in Court by litigants. The Court then has before it not only the statute as passed by Congress but also as administered in actual cases. Before passing judgment, it reads and hears arguments from both sides—(a) to sustain the statute and (b) to show how, in actual cases, it conflicts with the Constitution. The Court then lays the statute as

administered in practice alongside the people's law—the Constitution. If it finds the two agree, the statute is valid. If they conflict the Court necessarily declares that the info-

rrior law or statute must give way to the superior law—the Constitution. With a written Constitution defined as "the supreme law of the land," no other course is open. Any ordinary statute in conflict with the Supreme law necessarily is void. Copyright 1937 by Max Bernis

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the state and its people. Address inquiries to Will H. Mayes, Austin, Texas

Q. From the proceeds of what pine forest land is a student loan fund provided at Texas A. and M. College?

A. In 1929 John Henry Kirby of Houston gave the state 600 acres of longleaf pine timber land near Hyatt, Tyler county, to be administered by the Texas Forest Service and applied to an A. and M. student loan fund.

Q. In what state has the Texas Centennial Commission of Control erected a monument to memorialize the parents of Thomas J. Rusk?

A. Such a monument has been erected at Pendleton, S. C., in honor of John and Mary Rusk, Irish immigrants and parents of Thomas J. Rusk, who was born near Pendleton in 1803.

Q. For what rapidly increasing use is the Texas Magnolia tree especially adapted?

A. Research experts are recommending the magnolia as well suitable to the manufacture of slats for Venetian blinds, most of the timber now used for that purpose being Oregon cedar.

Q. What Texas governor had personal command of Texans serving in Mexico in the United States-Mexican war?

A. Gov. James Pinckney Henderson, who served under a bill passed by the Texas Legislature. Only two regiments of Texans entered Mexico, the other two that had been requisitioned remaining on garrison duty on the Rio Grande.

Q. What Spanish adventurer invaded Mexico about the time that Alonzo Alvarez de Pineda

discovered the Texas coast? A. Hernan Cortez arrived in Yucatan from Cuba with an invading force the same year, 1519, formally planted the Spanish flag and began his campaign for the conquest of Mexico.

Q. What became of Alvarez de Pineda after his exploration of the Texas Gulf coast?

A. After following and mapping the coast line as far south as Tampico, he returned along the coast to Cuba, finding the mouth of the Mississippi on the return trip and sailing some distance up that stream.

Q. How long after the Pineda exploration was it before another Spanish expedition was sent to the Texas coast?

A. Panfilo de Narvaez commanded a Spanish fleet sent in 1527 to follow up Pineda's explorations. This fleet was lost in the Gulf of Mexico, but Cabeza de Vaca and a few companions were cast on the Texas shore. After much hardship, de Vaca and three others, including Estavanico (Stephen) the black Moor, made their way about 8 years to the Pacific coast of Mexico.

PINNING HOPES ON NEW USES OF COTTON

Economists and farmers alike realize the necessity for regaining America's lost foreign cotton markets. The latest estimate of this year's crop is more than 16 million bales—the fifth largest in history.

A few years ago that would have been cause for rejoicing; now, under a National Administration that practices the economics of scarcity—it arouses grave concern. Fearing low prices, growers appeal for government aid through crop control and price pegging—measures which provide merely temporary relief and leave the industry in worse condition than before when the stimulation wears off. Sixteen million bales would not be too much cotton had not the United States, thru ill advised economic policies, lost most of its customers abroad.

The reasons for that loss have been explained repeatedly. Crop restrictions, decline in quality, the development of other sources by former buyers and their ability to trade their own products for cotton in several countries while America demanded cash, are contributing factors.

According to present indications, America will be able to sell some five and a half million bales of this year's crop abroad—about a million bales less than last year. Some argument arises as to whether undeclared wars and great armament programs are helping or hurting the market. Financial straits are cutting down imports by actual belligerents, although Japan has decided to buy a half-million bales as soon as possible to supply domestic spinners. That will not cover the reported Japanese shortage by any means and further purchases may be expected later.

By contrast, Great Britain and other nations are buying heavily for munitions manufacture.

Hope for recovering foreign markets must not be abandoned. Efforts are under way to produce better grade cotton and improve exchange conditions. Within 5 years the United States Maritime Commission will have placed in service a new, efficient merchant fleet to compete with other nations for world trade. Crop failure in rival cotton countries would compel buyers to deal with the United States again. Once the customers came back, America should be in position to keep them.

Until that time, however, this nation must contend with crop surpluses. Instead of curtailing production and depending upon luck, the thing to do is to work out new uses for the staple. If cotton as such cannot be sold abroad, why not turn it into manufactured products which are in demand?

Science already has developed many ways to consume cotton usefully. New fabrics continually are being perfected for various specialized purposes. Rayon—which substitutes for silk in many instances—was unknown a few years ago. That is just an example; the field is practically unlimited. The latest achievement, which should put considerable staple to work is using cot-

HOWEVER, IT'S SLICED

In a recent syndicated article William F. McDermott of the Cleveland Plain Dealer attempted to make a contrast between Russia as he saw it on several visits in the past and Russia as it was when he went there a few weeks ago. Mr. McDermott found as wide a disparity between wages and living costs as was reported by the Manchester Guardian correspondent whose article appeared on the page opposite yesterday. Taking the average wage for all workers as published by the Gosplan at 2,770 rubles a year, or, at the official rate of exchange, about \$52, Mr. McDermott notes that in Moscow coffee costs about \$5 a pound, butter \$2 a pound and beef \$1.30 a pound. An ordinary suit for a man costs about \$110 and a pair of shoes from \$35 to \$48.

If workers earning an average of \$46 a month are expected to pay such prices as these, it is not remarkable that the discontent is reported from Russia, nor that some observers attribute the executions and purges now bewildering the rest of the world to that disparity of income and prices. Mr. McDermott observed that the situation is bringing about a new emphasis on the inequality between those on the lower wages and the highly paid officials and managers who spend large sums on dress, luxury restaurants and champagne. There must be a good many Russians with money to spend, however, for Mr. McDermott reports that "there are now dozens of restaurants in Moscow and even the theaters provide floors for the fox trotters."

Many of the prices mentioned by Mr. McDermott are far higher than those for similar articles cited by Sir Walter Citrine in his book describing a visit to Russia in 1935, but he did find bacon at 20 rubles a pound and a bar of chocolate at 11 rubles, and his figures for Russian wages are not very different from Mr. McDermott's, although Sir Walter makes no effort to work out an average. Regardless of discrepancies, which are doubtless explained in part by the fact that the "official rate" is misleading in computing the ruble's value, it would appear that, whatever the nature of economy, it is difficult to distribute goods among the population at a greater rate than they are produced. It is a point which might well be considered oftener by our adherents of the "total mass income" theory.—Baltimore Sun.

## WOMEN WHO HOLD THEIR MEN NEVER LET THEM KNOW

No matter how much your back aches and your nerves scream, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month.

Too often the honeymoon experience is wrecked by the nagging tongue of a three-quarter wife. The wise woman never lets her husband know by outward sign that she is a victim of periodic pain.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

## THE MUSSOLINI-HITLER MEET

Says Mussi to Hitler:  
Let's you and I be pals  
With our forces combined  
We could lick the other Al's.  
I'd control the Mediterranean  
Then we'd twist the lion's tail  
And tend to France by air.  
The Chino-Jap confusion?  
Let them fight it to a draw.  
Then we'd take possession  
By ritual, that's "nine points in law."  
The Pan-American countries?  
Sure, they'd naturally come to us.  
For that Uncle Sammie feller  
They really can't give a cus.  
For the last mentioned brother  
we'll put on an embargo strong  
He can not last so very long.  
With our job thus completed  
Upon my word "believe it or not"  
We'll then be in position  
To demand a settlement "Mitt Got."

Brother Vernon, a minister of the Church of Christ of Camp San Antonio, will be at Lower Big Valley in a week end meeting, beginning Saturday night and closing Sunday night. Everybody invited to attend.

Miss Ruth Warlick of Big Valley made the Eagle a pleasant call Tuesday afternoon.

## ANNUAL SOCIAL

The Baptist Womens Missionary Society will have their annual social at the Educational building next Monday afternoon from 3 to 5 o'clock. All of the women of the church are invited.

## BIRTHDAY CELEBRATED

Mr. and Mrs. W. H. Linkenhoger were invited to spend Sunday with their son, W. W. Linkenhoger, and family in Hamilton. When they arrived they found a lovely dinner prepared in honor of Mrs. Linkenhoger's birthday, with a beautifully decorated cake. They enjoyed the day immensely with their son and his wife and grandbaby.

## S. E. Q. CLUB

The club met with Mrs. A. L. Cole Tuesday afternoon. Some quilts on a wedding ring quilt and others quilted on an ocean wave quilt. There were nine present. Mrs. Garfield Ball visited with the ladies. We meet with Mrs. Tas Renfro next Tuesday. Mrs. Cole served iced tea and sandwiches, which all enjoyed. We are hoping to have a picnic before long.—XXX

## CENTRAL TEXAS WOMEN STORE CANNED PRODUCTS IN VENTILATED PANTRIES

Ventilated pantries which allow the cool air from under the house to be drawn up through the pantry and thus are cooler than ordinary storage places are being used by Central Texas home demonstration club women for storing canned products, according to reports from county home demonstration agents in that region.

A ventilated pantry built by Extension Service specifications has just been completed by Mrs. Edd Cain of Collin county. A screened opening in the floor of the pantry and one in the ceiling permit circulation of air. The hot air passes into the attic and the ventilated gable ends of the house create a draft which keeps it moving. The pantry is located in the center of the house, the shelves are constructed with one inch space between each board to allow free circulation between and through the shelves.

"My ventilated pantry is six or eight degrees cooler than the room in which it is located," says Mrs. Shirley E. Lynn of Lee county. "It is a very desirable place in which to store eggs, butter, or cream, as well as fruits and vegetables."

Mrs. Lynn has filled her pantry with 301 pints of meats, vegetables, fruits, fruit juices, jellies, jams, pickles and relishes and 400 pounds of dried vegetables. "Canned fruit juices stored at 90 degrees tastes flat while that stored at 70 degrees retains its natural flavor. In order to retain the flavor of my canned products I'm planning a ventilated pantry," says Mrs. Henry Lucksinger of Burnet county. She has already canned 810 containers of 43 different varieties of products.
