### PLEASANT PECAN VALLEY

The drilling of the oil well on the Westbrook land has been postponed until their test of their tools arrive. It shows very favorable indications of oil.

Mrs. Nellie Knight, who has been working for Mrs. C. J. Crawford the past 13 months, left Sunday morning for Denton, where she will remain until the first of November.

Mrs. C. J. Crawford and Miss Johnnie Weathers went to San Saba early Friday morning after Miss A. Richmond to keep house for Mrs. Crawford while Mrs. Knight is away. Miss Richmond became very ill and could

not work, so early Saturday Mrs. Crawford and Johnnie left for Owens to get Miss Vera King. At last Mrs. Crawford has a good housekeeper.

Friends of Mr. and Mrs. W. B. Wilcox whom they had not seen in 25 years, visited them Tuesday. They were Rev Raymond Robinson and wife and baby of Oklahoma.

Mrs. L. J. Gartman and Leona Riley of Goldthwaite and Mrs. Dollie Langford and daughter of Ratler called in the Crawford home Sunday evening.

Mr. and Mrs. Earl Hale had company from Goldthwaite on Sunday night.

Will Kelso is improving rapidly. We hope he will soon be able to drive the bus, although we are all very much pleased with our former driver, Archer Ketchum.

Mr. and Mrs. A. J. Weathers and Franklin Dew called on Mr. and Mrs. Jack Harris Sunday night.

The Bayou has been up, therefore I know nothing about what the people across the Bayou have been doing.

Ed Barner of Wylie, Collins county, spent one day last week with Mr. and Mrs. W. B. Wilcox.

Mr. and Mrs. Charlie Ashton are furnishing drinking water for the Weathers family.

Miss Johnnie Weathers attended the football game at Goldthwaite Friday evening, which was Mason vs. Goldthwaite. The score was 13-0 in favor of Goldthwaite.

Miss Vera King of Owens, who is staying with Mrs. Crawford, spent Sunday evening with Miss Johnnie Weathers.

Those who were visitors in the W. B. Wilcox home Sunday were Mr. and Mrs. Barney Keating, the Brooks family and Arthur Wilcox and family of Ratler, and Mrs. Earl Hale and daughter of this community.

I hope we have a good rain before my next letter is printed. —Dry Catfish.

### ROCK SPRINGS

There weren't very many at Sunday school Sunday morning. Sunday will be church day. There wasn't any Bible study Saturday night as the teacher couldn't be there. The teacher is Rev. B. F. Renfro and he was back for Sunday night. He had a nice crowd present.

We wish to extend our deepest sympathy to the Kauhs and Long children in the loss of their dear mothers, who have gone to live in that happy home above. They will be missed by all of you children, but they are at rest where there will be no more suffering. May God's richest blessings rest on each family. It is your loss but heaven's gain.

Most all the farmers have their cotton picked and their corn gathered. It is too dry to break land.

No news to tell about the oil well. I hope I can tell lots about it next week.

R. E. Collier and wife and W. A. Cooke were Sunday visitors in the Nickols home.

Rev B. F. Renfro preached at Neal in San Saba county Sunday.

Henry Ezzell from town and Hugh Dennard from Big Valley are cutting cedar on W. A. Daniel's farm. Mrs. Dennard visited with Mrs. Daniel a day or two.

Woody Traylor has some Mexicans picking cotton for him this week.

Shirley Nickols from town and Miss Bernice Traylor and Mrs. Eula Nickols visited with Marlon Robertson and family Tuesday night.

Sam Self and wife from Center Point attended Sunday school Sunday.

Mrs. Glenn Nickols from town spent Saturday night, Sunday and Sunday night and Monday with her mother-in-law.

Joe Davis and family visited in the Stark home Sunday night. Mrs. Landy Ellis and Miss Athula Manning went to Brownwood Saturday.

Mrs. Homer Doggett and daughter spent Saturday night and Sunday with her mother, Mrs. Nickols, and other relatives.

J. O. McClary and wife and R. E. Collier were Sunday guests in the John Roberts home.

Horace Cooke visited his father Friday night and Saturday. He also visited in the Nickols home Saturday morning.

Philip Nickols and Otis Hutchings of Center Point went to Brownwood Monday on business for James Nickols.

Rodney Kauhs from Bull's Creek spent the week end with his grandparents, Mr. and Mrs. McClary.

Mrs. B. F. Renfro visited in the Roberts and Circle homes one afternoon. Mrs. Roberts went with her to Mrs. Circle's.

Mmes. Glenn and Dwight Nickols from town helped Mrs. Nickols quilt Friday afternoon. Mrs. Eula Nickols spent Saturday night with the Kauhs children.

W. A. Cooke visited in the Stark home Saturday night.

Rev. Raymond Collier and sons of Hobert, Okla., C. M. Collier and wife from Brownwood visited in R. E. Collier's home last week.

Glenn and James Nickols and wives from town were dinner guests with their mother Sunday.

Arlie Davis and family from Brown county spent Sunday with his father and mother. After supper they all visited in the Stark home.

Elton Garrett from town visited with the Renfro boys Sunday.

J. T. Roberson and wife spent

### Health-Wrecking Functional PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

### A TRIP TO THE LONG AGO

In the year of about 1871 T. J. Priddy and wife (now deceased) settled in the southwest corner of Bell county on the Lam-two-room house of elm logs and pasas river and there erected a reared a family of six boys and one girl, a second girl dying in infancy.

On last Sunday the children and grandchildren gathered from different parts of the neighboring counties, taking their lunches and paid perhaps a last visit and tribute to the old home.

Within this old log house (now converted into a barn) history was written, within its walls the youngest boy and girl were born, within its walls Geo. Tankersley, soldier of fortune under Andrew Jackson at the Battle of New Orleans, and father of Mrs. T. J. Priddy, breathed his last and lies sleeping about one mile away, near the bank of the Lampasas river, and within those walls protection was afforded against the Indians in their last raid, when many horses were taken.

As we viewed the old house many pictures were made, some were made with the children standing in front of the house

Sunday with their son, Douglas, and family at Lake Merritt. On Monday they visited their son Marion and family in Big Valley.

Mr. Roberson also went to see his mother in the afternoon. James Nickols and wife from town and Dorothy Nell Tyson of Center Point visited in the Nickols home Monday night.

James Nickols had to move his stock from the Roberts farm to his mother's farm Sunday. The water in the Roberts tank was all gone.

Miss Bernice Traylor joined Miss Johnnie Belle Circle, Ed Miller and sister, Shirley Nickols, Tom Fleming Ford Saturday night. They enjoyed a weiner roast, then they went to the midnight show. I hope I have this correct as it was real late when Shirley saw Miss Bernice home.

John Roberts and wife and J. O. McClary and wife attended Mrs. Kauhs funeral Monday morning.

Duey Bohanon and wife visited with his brother, George, and family in town Sunday.

Dan Holland and family from Richland Springs and Paulshipman from Evans spent the day Sunday in the Circle home. — Busy Bee.

### NEW SERIES OF ADS TO APPEAR FOR CREOMULSION

The Eagle is again on the select list of weeklies picked by the Creomulsion Co., Atlanta, Ga. to run a series of advertisements on their product, Creomulsion, a prescription for coughs and bron-

chial irritations due to Creomulsion, recommended by thousands of doctors and druggists, is sold by all druggists. All druggists are authorized to refund the purchase price to a customer if not satisfied with the results from the bottle.

On one of the elm logs, J. F. Priddy (now deceased) had carved his initials—JFP—with his pocket knife and with the consent of the owner of the building, his sons, Hobert, Wright and Ray Priddy, sawed out the block that contained the initials and carried it home as a souvenir and in loving memory of their father.

We then repaired to the old rock corral erected 55 years ago and a mountain cedar post in the center, which yet stands erect and like a living sentinel, guarding its enclosed possessions without even a trace of decay.

We then visited the river and the old swimming hole and as we gazed into its placid waters it seemed to say, "Take one more plunge as it may be your last chance."

Those attending were: Mrs. S. E. Yoes, the oldest living child, now past 80 years, and her son, Oille, her daughter and her husband and son; Mr. and Mrs. Clyde Robbins, of Tuscola; T. R. Priddy, Lee Priddy, wife and son, Hobert Priddy, wife and son, Mrs. J. F. Priddy and sons, Wright and Ray, all of Priddy; Alvin Priddy and wife of Valley Mills; Mrs. Virgil Priddy and two daughters of Pendleton; Tom Hoover and wife of Killen; J. D. and E. O. Priddy and their wives from Goldthwaite, and a few neighboring friends.—E. O. Priddy.

Mrs. Yoes is 80 years of age, made the 200 mile trip and returned the same day, which was wonderful for a person her age.

Ellis Smith was in the Valley last week.

George Robertson and Roy Burns made a business trip to Fort Worth last week.

We were deeply grieved Monday when the message came from Goldthwaite that Grandmother Long was dead. She lived in the Valley a number of years, where she was loved by all. Grandmother was almost 97 years old. We sympathize with the loved ones; also our hearts go out in sympathy for the Kauhs children in the loss of their mother.

Mrs. W. H. Nelson called in the Senia Ezzell home Sunday.

J. J. Cockrell, Hoyt Cockrell and Melvin Doak spent the week end looking over the old home place in Missouri and other places of interest in other states.

Mrs. Roy Burns made calls in the Harve Hale and Liva Weaver homes last week.

Dan Long and son, Roy, from Midland were in the Valley Sunday.

Mrs. Floyd Sykes, Mrs. Ben

Misses LoraineC Alloway, Mildred Tyson, Lee Ruth Graves and Lucille Daniels went to the Centennial this week end, also T. B. Graves.

Loyd Garner spent the week end with home folks.

Loyd Comer of Luling spent the week end with his father and mother.

Mrs. McNutt was a guest of Mrs. Garner last Tuesday.—A. Writer.

## CENTER POINT

There were 32 present at Sunday school Sunday morning. There was also a good crowd at church and baptizing Sunday afternoon. We had singing as usual Sunday night. We failed to learn why Big Valley did not come and bring a BTU program as they had promised, however, those who failed to come missed a treat as we had a fine quartet.

Calvert Halford happened to a very painful accident Monday. He was preparing to irrigate the orchard and started to unload an engine which proved to be too heavy for him. He hurt his side and stomach very seriously and was rushed to the Central Texas hospital at Brownwood, where he still is. At last report he was a little better. We hope for him a speedy recovery.

J. D. Fallon and family visited Mr. and Mrs. John Higgins at Nabor's Creek Sunday.

Mr. and Mrs. Ivan Spinks came in Sunday morning for a short visit with his parents, Mr. and Mrs. Joe Spinks, and boys.

Mrs. Norma Lee Harmon spent Saturday night and Sunday with Zeta Lawson.

Doc Shelton and Curtis Taylor who have been in the OCC camp came home last week. We were very glad to have these boys back again as they both had been gone quite a while.

J. N. Smith and family, Mrs. Ida Smith, also Amy and Verna Joy Halford visited Calvert Halford at Brownwood Sunday. On their way home they called on Mr. and Mrs. Johnnie Taylor at Mullin.

Miss Mildred Tyson called on Merlene Stark Sunday morning.

Mrs. Julia Taylor called on Mrs. Craig Wesson Friday.

Mr. and Mrs. Gene Shelton and baby visited in the Ray Hammond home Saturday. J. C. and Ovella Wesson returned home with them.

Richard Shelton returned Sunday after a week's visit with his cousins, Billie and Wayne Hammond, at South Bennett.—Sunflower.

S. E. Q. CLUB

The club met with Mrs. Tas Renfro at 2 o'clock with eleven present. There were two visitors, Mrs. Howard Duey and Mrs. H. H. Lauglitz. Mrs. O. C. Knowles joined the club and we welcome her. We were glad to have the two visitors, Mrs. Renfro served cake and punch. We meet with Mrs. A. W. Fesmire next Tuesday. Some quilts on burr quilt and others set a string quilt together.—XXX.

## STAR

'Tis autumn now, and in the peaceful country

The paths are strewn with leaves of red and gold."

A full harvest moon has just vanished, whiffs of blue smoke curl from long unusual chimneys, a haze is in the air, plenty of snap these mornings, with a kind of colder days. Autumn has come and summer has gone. Shorter days and longer nights. Busier working hours and more restful ones for the evenings at home. How many days until Christmas? The rush is on. Time has been so short between the last blue iris and the flaming goldenrod.

All through the long hot days of summer Mrs. Ed Hamilton's roomy and homey front porch has been a joy to her family and friends. Many pleasant hours are spent there in the open of God's great out-of-doors.

Trees may be a nuisance some times, and all out of harmony with ambitious flowers. The lady of the house may threaten to annihilate them, but more often they grow on unmolested and so have Mrs. Lant Adam' umbrella chinas—lovely in their deep cool greens, shielding her home from the slithering sun and wrangling winds.

We hope our community will at once develop a gripping case of civic fever. We need the cows pastured privately. We need a shady lane of trees leading from the new highway down town. It's the greatest joy in the world for a tourist to run into a long shady lane. Our churches and business buildings need foundation plantings. We need bells in the churches, too. There's nothing more beautiful than the call of the Sabbath bell on a quiet Sunday morning.

Our school has eight teachers. We have a large auditorium with an indoor ball court. Out on the grounds are a tennis court, base and soft ball field, and a football field.

If the school grounds were only landscaped and planted it would be the beauty spot of Star.

Other homes have lovely porches. Mrs. Milford Lee's is all draped in fragrant honeysuckle and trumpet vines, which display their scarlet trumpets in striking advantage. No more delightful place is to be found to pass a summer afternoon.

The civic fever has struck D. A. Thompson has recently installed two front gate posts. Mr. Thompson spent much time and pains in designing and finishing these posts, vying in craftsmanship with Vance McGilvray.

Mr. and Mrs. L. J. Teague's new home looks like the work of five years instead of one, with its wealth of flowers, vines, fruit trees and garden. That goes to show what a lot of imagination, foresight, energy, water and work can do.

Mr. and Mrs. Austin Jones have gorgeous flowers in their front yard and seedling pecans to the rear which are now bearing.

Mrs. Mary Soules' yard is an all-time stand by for spring gaiety with a large Burbank cactus standing guard at the front gate.

The writer's canna's have multiplied so extravagantly that we will have enough to divide with the P.-T. A. for school plantings.

Kenneth Witty and children have been visiting home folks and Miss Lee McGilvray, who is teaching at Buffalo, made a flying trip home recently, also Miss Florence Soules, who is studying in Waco.

Joe Hubbard, who spent the hot summer at his mountain lodge in Colorado, has returned to "Happy Acres" to spend the winter with his sister, Mrs. Bettie Clary.

I haven't forgotten the civic fever. T. H. Peck only recently built a flagstone garage with an oval cement roof to insure against drips, decorated the front top with interesting figures, making it all look real city like.

Van McGilvray has a new rock garage too. It's just a plain garage.

I must close now, hoping every body will soon be through picking cotton.—Super Snooper.

**JUST A PUSH**

Most of my life I have been  
 under the impression that the  
 state of Texas is so large that  
 one can't find its boundary.  
 That is a delusion. One can find  
 its edge by staying on the hunt  
 long enough. That is one can  
 find its western limit if he has  
 good luck.

Some folk boast of having trav-  
 eled over this great world and  
 of having seen wonderful things,  
 but my boast is being that kind  
 who stay about home, seeing my  
 home own, my kind of neighbors  
 and hearing my own dog bark.  
 You know, some of us see too  
 much and hear too much. This  
 thought should be taken quite  
 seriously by those who like to  
 visit the race track and Sunday  
 games.

Anyhow, recently I had the joy  
 of traveling out over the far-  
 flung Texas Plains and on out  
 into New Mexico, where we read  
 about in the recent past of dust  
 storms and furious sand storms.  
 I could contrast agriculture in  
 those parts with that of Mills  
 county, but everyone knows  
 about that.

The recent rains had cleared  
 the air and washed the dust off  
 until most towns and buildings  
 were looking clear and new.

The Tech school at Lubbock  
 is becoming one of the leading  
 schools of the south. Why not?  
 We talk wise about science and  
 that is where science is applied.

A friend incidently conducted  
 me through the livestock hus-  
 bandry of the school. Lovers of  
 blooded stock and fat stock can  
 get all they are looking for out  
 there where the state money is  
 behind the institution. In the  
 midst of my admiration I had  
 a funny thought—my mind  
 picked up the old proverb "Mo-

**LET'S TALK ABOUT CLOTHES**

"Sunday go to meetin'" dresses  
 this fall rival formal evening  
 gowns in the number of smart  
 touches and flattering new lines  
 they employ. A much sleeker sil-  
 houette is favored than the  
 flounces of last year would al-  
 low, but skirts are still full e-  
 nough for easy walking.

Typical of the dresses which  
 will be worn for dates, picture  
 shows, informal parties and the  
 like is a little black silk crepe  
 with the skirt fitting like snake  
 skin save for a bit of shirred  
 fullness in front. Long, clinging  
 sleeves are tucked slightly at the  
 shoulder, and the simple V-neck-  
 line is fashionably low.

Although Lady Style has turn-  
 ed her most approving smile up-  
 on black as high color this sea-  
 son, girls at Texas State College  
 for Women with experimental  
 ideas find that varied colors and  
 materials can still be used ad-  
 vantageously. For instance, heli-  
 otrope blue satin crepe forms a  
 smart looking draped number  
 with the shapely new corset fit-  
 ting look around the waist.

Powdery blue velveteen is used  
 for another dress in the modern  
 mode, with a shirred ring ex-  
 tending from the waist to the  
 hipline, thus holding the fullness  
 of the skirt into straight lines.

Daring color combinations carry  
 on the fight with conserva-  
 tism that they started several  
 years ago, and one sees rust and  
 lavender, rust and turquoise, blue  
 and fuchsia, blue and brown and  
 gray and beige. Pink so long  
 in disfavor, is being reclaimed  
 and put with certain tones of  
 browns and grays.

As for materials, luxurious is  
 the word. Those leading so far  
 in Paris and other style centers  
 are velveteen, satin-back crepe,  
 sheer wool, moire and the easily  
 drapable jersey.

**HEALTH**

During the past year 786 per-  
 sons died of appendicitis in Tex-  
 as, according to vital statistics  
 compiled by the State Depart-  
 ment of Health. Many of these  
 deaths might have been prevent-  
 ed had the patient been more  
 aware of the disease and its  
 symptoms.

There are two forms of appen-  
 dicitis acute and chronic. The  
 form that appears suddenly with  
 great pain and sickness is acute.  
 Chronic appendicitis may extend  
 over a long period of time and  
 consists of slight attacks at in-  
 tervals but at some time here will  
 usually occur an attack worse  
 than any before and the disease  
 may then become serious.

In the presence of abdominal  
 pain, give nothing by mouth.  
 never give laxatives. Apply an  
 ice pack. Call your family phys-  
 ician. Abdominal pain which  
 persists over a period of six hours  
 is usually serious.

Hospital records show that the  
 above advice has reduced appen-  
 dicitis deaths 75 per cent. When  
 otherwise healthy people are op-  
 erated on soon after the begin-  
 ning of the "pain in the stom-  
 ach" caused by appendicitis, lit-  
 tle danger is experienced, but  
 the surgeon's work is made more  
 difficult and the patient's chance  
 of recovery considerably lessen-  
 ed when there is a long delay in  
 seeking medical help, and espe-  
 cially if a cathartic has been given.

How to prevent appendicitis?  
 Keep the body in perfect health  
 as long as possible. Watch your  
 teeth, your tonsils, any place  
 where an infection may occur.  
 Get plenty of good food, plenty  
 of sleep, plenty of exercise. Have  
 a thorough medical examination  
 at least once every six months.  
 This kind of watchfulness will  
 not only help you to avoid appen-  
 dicitis, it will help you avoid  
 many other illnesses as well.

**IN MEMORY OF MRS. KAUHS**

Mrs. Augusta Sievert Kauhs  
 was born June 28, 1860, in Posen,  
 Germany. At the age of 14 she  
 became a member of the Luther-  
 an church, of which she was a  
 consistent member until her  
 death.

She was married to Julius  
 Kauhs Feb. 5, 1882. They came to  
 America the same year and set-  
 tled in Blanco county. In 1897  
 they came to Mills county and  
 bought a farm on Bull's Creek,  
 where she lived until her death,  
 which occurred Oct. 2, 1937.

Mrs. Kauhs was the mother  
 of ten children, who are all liv-  
 ing and were present at her fu-  
 neral, namely: Mrs. Paul Wei-  
 derbush of Indian Gap; Miss  
 Vangie Kauhs of Borger; Mrs.  
 O. H. Shaw, Miss Eula Gertrude,  
 Ernest, Fritz, Julius, August and  
 Carl Kauhs, all of Goldthwaite.

Mrs. Kauhs was preceded in  
 death by her husband about five  
 years.

She was a good devoted wife,  
 a kind and affectionate mother,  
 and was held in high esteem by  
 her neighbors.

Mrs. Kauhs could not speak  
 English very well but her kind  
 smile and affectionate greeting  
 always made you feel welcome in  
 her home.

I was glad to have her and

her good husband as friends and  
 join with her children in sor-  
 rowing at her going, but we sor-  
 row not as those who have no  
 hope but believe "in the sweet  
 bye and bye." We shall meet  
 again.

For the comfort of the child-  
 ren and friends, I quote a verse  
 from one of Edgar A. Guest's  
 poems, to wit:

When sorrow comes, as come  
 it must,  
 In God a man must put his  
 trust.  
 With all the wealth that he  
 may own,  
 He cannot meet the test alone.  
 And only he can stand serene  
 Who has a faith on which to  
 Lean.

**THE MOST VALUABLE 'CROP'**

While adult farmers are struggling with the problems of production and marketing, a splendid new "crop" of farmers of the future is growing up. More than a million farm boys and girls are now enrolled in the 4-H clubs. Here they are learning practical lessons in successful agriculture. On a not distant tomorrow, they will be operating the nation's farms, organizing and running the nation's farm marketing cooperatives and working out the problems of the day.

The fact that organization of farm youth has now reached its highest point in history, augurs well for the agricultural future. The training and information these young farmers receive in their 4-H clubs and elsewhere will prove invaluable.

**HIGHWAYS OF TOMORROW**

Compared to the roads of a generation ago, modern highways are marvels of excellence. Yet, in spite of this phenomenal development, today's system is woefully inadequate, as Frank T. Sheets points out in an article in Public Safety.

"Progressive strides have been taken and must continue to be taken in driver education and in providing safety regulation for vehicles," says Mr. Sheets, "but the ultimate in traffic convenience and safety will not be reached until we actually provide adequate highways and build safety into them."

Today's engineers have designed tomorrow's highways. These magnificent roads will include terminal facilities in cities where traffic will move to various points with a minimum of congestion; main super highways of many lanes, with divisions in the center to prevent head-on collisions, will carry cross-country traffic, avoiding congested areas en route; intermediate highways will serve local traffic needs; even the lowest grade, little-used roads will be given some form of cheap all-weather surface; arterial urban streets will carry into and through cities and towns the part of rural main trunk traffic which has business in the metropolitan area.

This seems a far off ideal, but not long ago the automobile, the radio, the airplane, the telephone seemed so, too. The cost of developing highways and streets of maximum safety on a national scale, will be tremendous—but it will be spent over a long period of time and no form of expenditure by government can better serve the people. Better highways are not a cure-all for the accident problem—but when we develop our roads to the point where the chance of accidents is reduced to a minimum, a long step toward lowering our ghastly annual toll of deaths will be taken.

**FIRE PREVENTION WEEK**

Fire Prevention Week is here. What are you going to do about it? If you are short-sighted, you will do nothing. If you have any interest in protecting your property and your family's lives you will use Fire Prevention Week as an occasion for taking the simple, essential measures that usually suffice to make homes and places of business safe from the most common and dangerous fire hazards.

Fire Prevention Week is not designed to sell anything. It is designed to serve—to conserve—to protect. During the week insurance companies, civic bodies, fire experts and public officials will use the radio, newspapers, displays and printed literature in an effort to make you think and to make you act.

In the average home grave hazards exist of which the owner knows nothing. Ignorance, as well as carelessness, is a prolific source of destructive fires.

The simplest and most easily corrected causes are responsible for the great bulk of fires in dwellings. A slight fault in a heating plant may devastate a home. Accumulations of paper, clothes, furniture and other odds and ends require only a spark to burst into flame. Improperly stored fluids such as gasoline, benzine and kerosene are a constant menace. Amateur repairs of electric appliances and light cords cause millions of dollars' loss annually. Paint or oil soaked rags are often the cause of spontaneous combustion. An improperly protected hot electric iron or cigarette ashes invite fires.

It costs you nothing to eliminate these hazards, and takes little time. That small effort may save you thousands of dollars—and infinitely more important, save a life. Fire Prevention Week was inaugurated to serve you. Make the most of it.

**Powers of Government**

Why does our Constitution limit the powers it grants to our government?

The age-old theory of government was that it and not the people was all-powerful; that the people possessed only such rights as the government saw fit to grant. From this sprang the idea that "the king can do no wrong" and "the divine right of kings."

It took four centuries for the English to force their kings to sign the great liberating charters—Magna Charta in 1215, the Petition of Rights in 1628, the Bill of Rights in 1689.

The American Colonists suffered similarly. In the Declaration of Independence they complained about the king for a long train of abuses and usurpations, for making judges dependent on his will alone, for combining with others to subject us to a jurisdiction unacknowledged by our laws, for declaring the right to legislate for us in all cases, for altering fundamentally the forms of our government, and other "repeated injuries and usurpations."

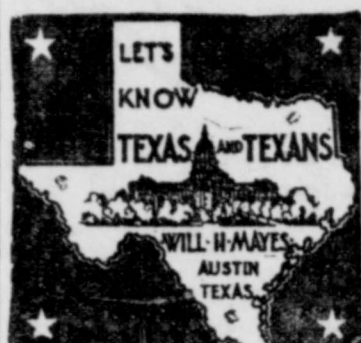

Profiting by these lessons, our

Constitution reverses the age-old idea of an all-powerful government and instead makes ours a government of limited powers—a govern-

ment in which the people are supreme. Then to further assure keeping the government within the scope of power given it, the Tenth Amendment declares that "the powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people."

**Q. How many insurance companies of all kinds operated in Texas?**

A. In 1936 there were 368 Texas companies and 487 out of state companies.

**Q. When did Texas reach its peak in number of charters granted?**

A. In 1929, when 2,630 charters were issued to corporations with capitalization of \$285,612,000. In 1928, 2,488 charters were filed and capitalization reached \$390,388,000.

**Q. When was the Hidalgo Treaty between the United States and Mexico consummated?**

A. It was signed at Guadalupe Hidalgo, Feb. 2, 1848, and after ratification by both countries, was proclaimed July 4, 1848.

**Q. What early missions in the Lower Rio Grande Valley have been memorialized by the Centennial Commission of Control?**

A. Markers have been erected on the Lower Rio Grande for three missions in Mexico and one in this country as follows: Mission Joaquin del Norte, at Hidalgo and opposite Reynosa; Mission San Augustin de Laredo west of Rio Grande City and opposite Camrargo; Mission Mier, west of Roma and opposite Mier; Mission Dolores, north of Zapata on approximately the original Texas site.

**Q. How much land was included in a "caballeria," a "labor" and a "sitio" under the Spanish land grants in Texas?**

A. A caballeria was 125 acres a labor was 177.1 acres and a sitio was one square league of 4,428 acres.

**Q. What is a "league" in Spanish and Mexican length measurements used in Texas.**

A. The Spanish league used in Mexico and Texas land measurements was 2.63 miles.

**Q. What Europeans made the first attempt to explore the lower part of the Rio Grande river and when?**

A. Tradition credits Alonso de Pineda with having spent some 40 days on the river in 1519 and with having ascended it by boat for several miles. Pineda was a lieutenant of Francisco Garay, governor of Jamaica, the latter having accompanied Columbus on his second voyage to America. Garay planned to secure a grant and establish a fort near the mouth of the Rio Grande, but decided that the territory was unsuited for development.

**EDITORIAL COMMENT**

VIEW OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

**A NATIONAL FIGHT AGAINST INFANTILE PARALYSIS**

Franklin D. Roosevelt has the strongest personal reasons for being "gravely concerned" over the infantile paralysis outbreaks in widely scattered communities which threaten to reach epidemic proportions.

The story of Mr. Roosevelt's brave, determined fight against the crippling after effects of the malady—a fight crowned with success, thanks to the efficacy of Warm Springs' healing waters with such aid as surgery could render—is known to every informed citizen.

That battle back to health inspired the president's Birthday Ball on every January 30, which has raised about a million dollars annually in the past four years, to be applied upon the country wide campaign against poliomyelitis. However, the participating communities have retained 70 cents of each dollar collected, leaving but 30 cents for the Warm Springs Foundation. Thus, the accumulated endowment, though substantial, is not nearly equal to the need.

That statement holds notwithstanding the fact that other generously endowed agencies—such as the Rockefeller Institute and the Mayo Foundation—are pushing research in the field. More money is needed to help the "polio" victims fight back to health as Mr. Roosevelt fought, or if crippled permanently, to become self supporting, anyway. Funds are required for continuous preventive (including educational) campaigns.

Though the victims may be counted in hundreds—rather than by thousands, as in former years—the current outbreaks call those needs forcefully to public attention. Accordingly, President has announced plans for a national foundation which will "lead direct and unify the fight on every phase of this sickness."

Such a co-ordinating body can be greatly helpful. It may eliminate duplicated effort and thus assure maximum public benefits from the limited resources now in hand. What is more important, the president's foundation should serve as a continuous year round stimulus to private philanthropy—particularly many small gifts—as the Birthday Ball serves every January 30.

As Texas citizens actively interested in this human movement must realize, such an incentive is needed. The popular response to the Gonzales Warm Springs Foundation enterprise leaves much to be desired.

The president announces that "representative and outstanding citizens" have expressed willingness to initiate and carry on the new foundation's work. The Texas enterprise deserves and should command like support. The circumstance that Texas also has suffered from the 1937 outbreak emphasizes that need.—San Antonio Express.

Texas clays are used in everything from pottery making to road building. Commercial refractory clays are sold for the manufacture of fibre brick, terra cotta, floor tiles and art pottery.

**POSTAGE RATES**

Postmaster general Farley has proposed an increase in postage rates on newspapers and magazines. In criticizing the so called "preferential rates to newspapers and periodicals," Mr. Farley said that the "below-cost" services in handling second class mail—the classification which includes newspapers and magazines—caused a postal deficit of \$90,000,000 for the fiscal year 1936. That is to say, the cost of handling this class of mail exceeded the department's revenue from it by that amount, according to Mr. Farley's figures.

The postmaster general, therefore, proposes to increase the postage rates in order to eliminate the deficit, or at least to enlarge his department's revenues.

In this Mr. Farley is entertaining a fallacy which has been so often exploded that it is surprising to find him raising the question again.

In the first place, the post office department as a whole has never been expected to pay its own way entirely. Throughout our history the department has usually operated at a deficit. Because of its peculiar character as a public service, the department's annual deficits have never been a cause of serious concern. If the people of the United States are to enjoy a full and convenient use of the mails the postage rates on all classes of matter must be kept relatively low.

If the department attempted to make all classes of mail pay their own way, the postage rates would necessarily be so high that many people would be deprived of the use of the mails, or be forced to curtail their use very greatly. The practice, therefore, has always been to keep postage rates within reach of everyone, and make up the postal deficit out of general treasury funds.

In the second place, the rates on newspapers and periodicals in particular have been kept relatively low in order to permit a wide dissemination of information. Public enlightenment is essential to a democracy, and from the beginning Congress has sought to encourage dissemination of information through low rates on newspapers and magazines. The spread of public enlightenment is one of the proper and traditional functions of our democratic form of government.

It is partly because postage rates on such matter are comparatively low that people are privileged to obtain newspapers and magazines at subscription rates which are not exorbitant. If these rates are increased, as Mr. Farley recommends, one result would be a tendency to make subscription rates on newspapers and periodicals prohibitive to many people.

That, however, is not all that is to be said against the proposal. No less important from the post office department's standpoint is the fact that such an increase would not serve to raise the postal revenues, but on the contrary would reduce them. If the rates are made higher, the inevitable result would be to diminish the volume of that class of

**TRAFFIC AT**

There is one bright spot in the black picture of Houston's terrible traffic toll.

It is the fact that in the two school years not a child has lost his or her life in a traffic accident in the immediate vicinity of a school during school hours.

That's a record to be proud of in this city, where traffic fatalities are mounting steadily. It has taken a lot of work on the part of the police to set the record, and it is going to take lots of work in the future to preserve it.

New schools have opened there will be more children looking out for when the school year begins the fall term. Thousands of children will be crossing streets, getting on and off buses and getting out of cars almost all hours of the day.

The police have worked new methods in handling traffic at schools this year, and want, and deserve the cooperation of every driver in Houston. You as a driver owe these children their safety, and there second but lesser duty is to do it to the police, who so hard to protect the youngsters.

A commendable idea part of the police is signs that will be placed at center of streets where cross to schools. Those whose car strikes on signs will be charged, destroying city property, careless driving.

No motorists will be excused nor to stop his junior patrolman nor the youngsters will be cane poles with flags of them, which they will across the street. They will be long enough to stand well up on rather than in the street did last year.

Sergt. L. D. Pyle has conscientiously on the patrol idea, and it has effective. He is on track, as his record shows the public as well as officials should take cognizance.—Houston Chronicle

First in size and sweetness—that's Texas since it ranks second in the States in the production. In the section Uvalde from one to two pounds of honey are marketed annually.

mail. Probably almost vanishing point. The finishing returns must into account in consideration. If higher rates in a smaller volume, how could the department fit from a rate increase.

It is the public, the newspapers and magazines primarily benefits from rates. Any unwise with the rates would affect the public, which has heard this discussed before, know is the public which will suffer from an increase in rates, since newspapers and magazines would be driven the use of express service truck delivery. Congress, therefore, is hardly likely Mr. Farley's recommendation. Birmingham News.

## San Saba

At the invitation of the Game, Fish and Oyster Commission, some 75 to 100 of the citizens of the counties touching the Colorado river under the Colorado River Authority met at Buchanan Dam last Sunday and exchanged ideas concerning the regulations to be adopted by the legislature and the department for the development of the fishing and hunting resources in these counties.

Elder Clem Wesley Hoover who was for five years minister of the Church of Christ here passed through San Saba Monday afternoon en route to Brady, where he has been called as minister of the Brady Church of Christ and where he had Mrs. Hoover will make their home for the next two years or longer.

Robert Edmondson and Miss Madeline Harkey were united in marriage at the home of Rev. V. L. Sherman, pastor of the First Methodist church Saturday afternoon and are making their home in Llano.

Mr. Ted Hall and Miss Ruth Hayes were happily married in the parlor of the parsonage of the First Methodist church at 7:30 Sunday morning, the pastor, Rev. V. L. Sherman, performing the marriage rites.

At 8:30 Sunday morning Rev. V. L. Sherman solemnized the marriage ceremony which united Mr. Jack Fry and Miss Lorene Bowers in the holy bonds of matrimony.

Miss Mitchell Karnes of San Saba and Wyatt Berry of Goldthwaite were married in San Saba Sunday evening. Hulen L. Jackson, minister of the Church of Christ, officiated. Miss Karnes is the daughter of Mr. and Mrs. Cleve Karnes. Fort the past few years she has taken part in the business life of San Saba, where she was a former student in high school. Mr. Berry is the only son of Mr. and Mrs. John J. Berry of Goldthwaite. He is a member of the staff of the Goldthwaite Eagle, where he has worked for the past ten years. Mr. Berry is well known here and the many friends of the young couple wish for them a happy married life. They will make their home in Goldthwaite where the groom has property interests.

Mr. and Mrs. Worth Doran and daughter, Miss Maxine, and Mrs. H. H. Doran visited in Brown-

## BIG RUSSELL BROS. CIRCUS TO BE IN THIS SECTION SOON

There will be a general exodus of circus admirers from this city and vicinity when Russell Bros. Big 3-Ring Circus and menagerie gives two performances in Comanche on Saturday, Oct. 9, and in Lampasas on Tuesday, Oct. 12. When you have seen one circus you have seen them all, was a remark frequently heard in the past, but nowadays such does not hold true. The Russell Bros. circus has a reputation for presenting more actual novel and surprising acts than any other show and because of this it claims the motto, "the highest class circus in the world." This is a big show usually exhibiting in cities ranging from ten thousand to half a million or more in population, since a capacity crowd for one performance only will not meet

the gigantic daily expense involved. Daring exploits in the air by the Five Fearless Flyers, the Rebras Duo from France, Miss Aerialta, the Willis Sisters and a score of lovely aerial ballerinas; spectacular acrobatic feats by such troupes as the Six Le-lands, the Conner Trio and the Ballentena Brothers; incredible animal intelligence exemplified by trained sea lions, bears, elephants, horses, ponies, monkeys, and a chimpanzee that is all but human—these are a few of the many attractive features presented to the stirring strains of circus band music and interspersed by the antics of those indispensable funny fellows, the clowns.

## Comanche

What promises to be two of the most amusing events ever scheduled for Comanche will take place at the Comanche softball park next Wednesday and Thursday nights when two donkey baseball games will be played. The games are being sponsored by the Comanche Lions Club.

W. P. Graham, 43, Comanche highway worker, died a few minutes after being struck by a car on the Dublin highway just this side of the Erath county line about 1:30 o'clock Friday afternoon, while being carried to Dublin in an automobile for treatment. Graham had stepped from a highway truck driven by Arthur Phifer, and had started across the road when a car coming towards Comanche struck him, badly mangleing his body.

Willie Dean Faulkner, 15 year old Comanche high school sophomore, suffered fatal injuries here Friday night about 10 o'clock when an automobile on the fender of which she was riding ran into a truck on highway 10 near the county jail. She died at a Gorman hospital at 9 a.m. Monday, where she had been carried Sunday night.

Irvin Steele, 20, Comanche youth, died at 1 a.m. Sunday from burns he suffered early Friday morning when a gasoline cook stove exploded at a farm house 12 miles from Stamford.

wood Wednesday with Mrs Lucy Doran, who is in a hospital there. They were accompanied by Mrs. Eula Urquhart, who stopped in Goldthwaite for a visit with relatives.

J. B. Bryant of San Saba died in a Brownwood hospital Monday afternoon, following an operation from which he never recovered.—News.

## HOW LONG CAN A THREE-QUARTER WIFE HOLD HER HUSBAND?

YOU have to work at marriage to make a success of it. Men may be selfish, unsympathetic, but that's the way they're made and you might as well realize it. When your back aches and your nerves scream, don't take it out on your husband. He can't possibly know how you feel. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system; thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age." Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and GO "Smiling Through."

## MEDICAL LIBRARY TO KEEP IRON LUNG

Although the office is usually closed at 6 p.m. each day there is some probability that the iron lung purchased for San Antonio by Porter Loring may be placed in the rooms of the Bexar County Medical Association library, it was hinted Thursday.

After donating the mechanical respirator, Loring asked for a vote of the city's doctors as to the best place for placing the machine. He said that after it was placed, he wanted to drop out of the picture with the only stipulation that the machine be used without cost to anyone, regardless of race or creed.

So far the Robert B. Green Memorial hospital has led in the poll, but officials of the institution intimated it was short on both room and finances, pointing out that it would cost approximately \$500 per month to operate the iron lung when in use.

Many of the city's leading physicians have favored its headquarters at the Medical Association rooms with the understanding that the device could be moved to any place needed. It would entail an additional expense to keep this office open at all hours.

No private hospital had volunteered Thursday to take care of the mechanical life preserver.

At the present time the expensive gift, intended to save the life of anyone suffering with paralysis of the respiratory organs, is on display in the show window of a clothing store on Alamo-Plaza.—San Antonio Express.

Young Steele left Comanche Tuesday of last week for Jones county to pull bolls and had worked one day when the accident occurred.

Richard Shelton, prominent Comanche citizen and former gin man here, well known thru-out the county, died of gunshot wounds at 4:30 o'clock Friday afternoon received while out hunting doves just north of Comanche. The first shot is believed to have occurred as Shelton crawled through a wire fence.—Chief.

## BLINDNESS NO OBSTACLE

El Paso.—Blindness has proved no insurmountable obstacle to 17 year old Howell Palmer, Jr., of Dallas, who has enrolled this year as a freshman pre-law student at the College of Mines and Metallurgy here, a branch of the University of Texas. Palmer, blind since he was one-half year old, is the son of Mr. and Mrs. H. S. Palmer of Dallas. He was born in El Paso.

Palmer possesses about 10 per cent vision and his left arm is paralyzed, the result of a brain tumor several years ago. He takes class notes in Braille and later composes themes and other written material on the typewriter.

Fond of government and church organization, Palmer plans to become a lawyer. He plans to receive his degree from the University of Texas school of law.

He was graduated from Dallas Technical high school with an average of 93.53 and was fourth honor student among 213 graduates. He completed the four-year high school course in three one-half years.

## PLEASANT GROVE

Everybody surely was proud to see the rain Saturday.  
Mr. and Mrs. Allan Williams who have been working for Mr. Lambert the past six months moved Thursday.  
Novaleen Berry who is attending school at John Tarleton visited her parents last week end. We were deeply grieved Friday morning when the message came that Mr. Will Dew had passed away Thursday night.  
O. Z. Berry and family, Melvin Crawford and son spent Sunday in the Will Berry home.  
Lorene Covington spent Sunday night with Valeria Stacy of South Bennett.  
Mr. and Mrs. Harvey Jeffery and family of Goldthwaite visited her parents, Mr. and Mrs. Will Berry Sunday.  
Mr. and Mrs. Tom Collier and family and Jack Virden of Goldthwaite spent Sunday in the W. F. Virden home. Mr. Virden remained for a short stay in that home.  
Mr. and Mrs. C. N. Berry took dinner in the Ray Berry home Sunday.  
Mr. and Mrs. Lewis Covington and Mr. and Mrs. Morgan Stacy visited in the Verser home Sunday evening.  
Morgan Stacy and family of South Bennett visited in the Lewis Covington home Sunday.  
Mr. and Mrs. Levi Berry are the proud parents of an eight and three-fourths pound girl, Peggy, arrived Monday morning, Oct. 4.  
Those who visited in the Levi Berry home Sunday were: Mr. and Mrs. T. A. Berry of Goldthwaite, Mr. and Mrs. Melvin Crawford and Otho Loyd, Mr. and Mrs. Ray Berry and family and Mr. and Mrs. Will Moreland—Sarah and Sally.

## EBONY

Mrs. Bob Egger, who has been visiting friends and relatives in New Mexico for a month or more, arrived home Saturday.  
J. R. Reeves and his mother, Mrs. Irene Reeves, have moved to the Edgar Bolinger place.  
Mr. and Mrs. Blue Thompson spent Sunday afternoon with Mrs. Nellie Malone and Ernest.  
Grandmother Egger is considerably better this week. She has had company all the week. Her great nephew and niece, Mr. and Mrs. John Egger of San Marcos, spent from Monday to Thursday with her. Her nephew and wife Mr. and Mrs. Sam Riggs of Brownwood spent from Thursday to Sunday with her. Her son and wife, Mr. and Mrs. Noah Egger and son, Marvin, of Dora spent Saturday night with her. Mrs. Riggs is a nurse, and she helped Grandma wonderfully with her expert care.

Mrs. Nellie Malone spent Tuesday night and Wednesday with Mrs. Sara Ann Reeves and Miss Dolly Reynolds at the Reeves home.  
Mr. and Mrs. Billie McNurlen and Norvece visited Mr. and Mrs. Roscoe Jones Sunday afternoon.  
Mr. and Mrs. J. W. Roberts spent Sunday with Mr. and Mrs. E. O. Dwyer.  
Mr. and Mrs. J. R. Briley had dinner at the Wilmett home on Sunday after church.  
Ernest Russell and family picked cotton for Roscoe Jones Friday.  
Mr. and Mrs. J. W. Roberts, Mr. and Mrs. P. R. Reid, Mr. and Mrs. Mose Smith, Mrs. Meredith Chesser and Miss Pauline Haynes attended the Star-Indian Creek football game at Indian Creek Friday. Indian Creek was victorious.

Homer Reeves, J. R. Briley, J. R. Wilmett, S. H. Reeves, W. H. Reeves, Edward Egger, Taylor Wallace and Charles Roberts attended the pasture meet and picnic in the Day pasture Wednesday. County agent of Mills county, W. P. Weaver, was present, and men from all over the county were there. Three men from A. and M. college spoke on range improvement and the care of livestock. The men declared that Mr. Day is really doing some improvement. Dinner was served in the pasture. All said it was fine. Mr. Day is noted for his barbecued kid.

The people of this community were shocked and grieved to hear of the tragic and untimely death of Mr. Dew. We realize that in his death, Mills county has lost its foremost and most unique citizen.

## CENTER CITY

As my letter became misplaced and did not reach the office last week, will include some of the news which should have been printed then.

Fine rains fell Saturday, closing a long dry spell. It was especially appreciated by those who live near the highway who received the continued dust from the trucks used on the new road. We all feel mighty proud so much work is being done and feel we will soon travel into Goldthwaite on the west and Waco to the east.

Mr. and Mrs. Emory Adams are the proud parents of a fine boy who arrived the first of last week.

Little Marjorie Irene is well contented after a two weeks stay with her parents, Mr. and Mrs. Luther Mason, and will make that her permanent home.

Billie Johnson, Albert Hudson and Howard Blackwell of Abilene were visitors with homefolk and friends.

Miss Nora B. House entered a business college in Abilene last week and writes that she is well pleased with her studies.

**True Economy In Feeds**

Buying a feed because of its low cost is NOT true economy. IN FACT, it is just the opposite. A cheap feed produces fewer eggs, injures the hen's health and is consumed much faster than a high grade feed. TRUE ECONOMY is to get the most eggs for the feed dollar and at the same time to protect the health of the hen. MID-TEX MASH contains the proper elements to produce more and keep up your flock's health. Buy MID-TEX and see true economy in feeds.

Bring us your Poultry, Eggs, and Cream. We will pay top market prices. We also carry a complete line of Stock and Dairy Feeds.
