A Fishy Story

Herbert Meyer has discovered a new way to catch fish, but it isn't particularly comfortable in cool weather. While fishing near the mouth of the San Saba River this week with a pole cut from a sapling, he lost his balance and toppled in.

He swam out, staked out his line, and started a fire to dry off by. Just then a fellow fisherman noticed that Meyer's pole and line were being towed down stream. He cast his own line over it and reeled in pole and line and a 15-lb. yellow catfish.

The supposition is that when Meyer fell in and thrashed about in the water, he disturbed the catfish who took revenge by striking at the baited hook.

He did not put the theory to the test of falling in a second time, however.

Bryan Bradbury Eyeing Congress

A potential candidate for congress is Representative J. Bryan Bradbury of Abilene, young quarterback for the house "moral element," he admits he is thinking seriously of opposing Congressman Clyde Garrett for reelection. He doesn't think Tom Blanton, the leather-junged "treasury watchdog" Garrett defeated, will run again.

Probably the most optimistic of all the prospective congressional aspirants in the legislature is Dewitt Hale of Farmersville, a young law student. He threatens to challenge the great Sam Rayburn of Bonham, Democratic majority leader in the national house of representatives.—Houston Post.

Birthday Dinner

On March 5, at the home of Mr. and Mrs. Clyde Featherston in the Edgar Simpson home in the South Bennett community, the children, grandchildren, great-grandchildren, relatives and friends gathered Sunday to honor "Uncle Wayne" as he is affectionately called by his friends, on his 85th birthday.

Everyone brought a covered dish which made the noon hour a very happy one as everything anyone could ask for in the style of pies, cakes, salads, chicken and dressing, hot coffee etc., was there.

The day was spent in ball games, games of bingo, music and conversation.

His entire family of children and grandchildren was present except one daughter, Mrs. Jack Allered of Columbus, Ohio, who expects to visit her father in the spring.

Mr. Featherston enjoyed the day greatly for a man of his age. He being able yet to read and walk around the farm and enter himself.

In the afternoon a beautiful cake which was baked by Mrs. Clyde Featherston was cut and served to 75 friends and relatives.

Merry Wives Club

Mrs. Kelly Saylor entertained the Merry Wives Club Tuesday with a delightful St. Patrick party.

The living room looked like spring with plum and peach blossoms arranged attractively in vases and bowls. St. Patrick's green and white color scheme was carried out in the lime ice and white cake. Spring violet corsages were used as favors.

At the close of the games Mrs. Paul McCullough scored high for club members and Mrs. Maston Pribble high for guests.—Reporter.

Hillbilly Concert For Band Benefit

As the opening move to finance a town band for this summer, a Hill Billy Concert will be given at the school auditorium two weeks from tonight, March 31. The program will be announced later.

The following article showing the need for a town band this summer has been contributed:

Does Goldthwaite want a band this summer? Do we want band concerts once or twice weekly? These and similar questions are constantly being asked and pondered by an interested few.

When occasion arises for the use of a band now it is easy to call on the high school band. But what about it during school vacation?

With the work that is being done by one of the ladies clubs on the band stand it surely should be put to use.

We think the answer to the question is that the people of Goldthwaite want a summer band and regular concerts.

Yet this is going to cost some body some time, effort, and a little money. Who will sponsor the move? We say it should be a town-wide affair. Well and good for any organization that will attempt the job, but the more organizations the better.

Farm Security Making New Loans

The Farm Security Administration is now making loans to some of the most able farmers in the county and is not limited, as it once was, to the farmer who has been on relief, it was made known today by W. Roy Tisdale, FSA's County Supervisor.

"Let me say right here that Farm Security Administration loans are made only to those who are unable to obtain adequate financing from any other source," the supervisor said. "The borrower who can get the financing which he needs from a bank or from any other private financial institution is not eligible for an FSA loan. But there are some types of loan which even fairly large farmers and ranchmen can obtain only from FSA."

Pleasant Grove H. D. Club

Our Home Demonstration Club met in the home of Mrs. L. O. Berry, Tuesday evening, March 7.

The minutes of the last club meeting were read and the roll called by the secretary. The roll call was answered with "My greatest fitting problem." There were eleven members, one new member, Mrs. S. S. Benningfield, and one visitor, Miss Ona Newton.

A very interesting program on what different types of people should wear was enjoyed and was very beneficial.

Our next meeting will be with Mrs. C. H. Hall Tuesday evening, March 21.

Betty Jo Whittaker In Stunt Night

DENTON, March 14.—Tapping feet and scrambles for rehearsal space indicate to students at Texas State College for Women that the time for All-College Stunts, in which Miss Betty Jo Whittaker of Goldthwaite has a major role, is near at hand. Miss Whittaker is participating in the sophomore part of the Stunt Night Program. This musical comedy extravaganza is put on annually by the four classes at the college to raise funds for dances, parties, and other activities. Each class competes for the loving cup awarded by President L. H. Hubbard.

Local Garden Club Begins Work on Worthy Project

The Goldthwaite Garden Club, as their project this year, have undertaken the task of beautifying the county courthouse lawn. The club has started their work with the redecoration of the band stand. Shrubs are to be planted in an effort to improve the lawn.

Old wells on the location are being opened and the water tested. Should the water prove sufficient, electric pumps will be installed to supply water for the flowers and lawn.

Senator Metcalfe Offers Catfish Bill

The Senate this week passed a bill by Senator Roberts to consolidate the office of the State Reclamation Engineer with the General Land Office as an economy measure. The author said this would save the state \$25,690 a year. Both the Reclamation Engineer and the General Land Office approved the consolidation.

Walter Woodward of Coleman, who served our district in the Senate for ten years, was confirmed for the position of Life Insurance Commissioner.

The House killed a bill to raise the truck load limit to 20,000 pounds. A compromise bill calling for an increase to 10,000 pounds was still in the Senate Committee.

At the request of some of my constituents, I introduced a bill making it unlawful to keep sun perch and bream less than five inches in length, and catfish less than fourteen inches in length. Whether the bill passes or not depends upon the wishes of my constituents, and I would be pleased to have the opinion of my constituents who might be interested in such a measure.

I introduced and the Senate passed a resolution congratulating the Governor on his forty-ninth birthday.

PENROSE B. METCALFE,
25th Senatorial District.

Al Langford Elected To Post at JTAC

Al Langford of Goldthwaite, who is attending John Tarleton College at Stephenville, was recently elected community chairman in the Junior Class organization.

Miss May Jones, professor of mathematics, who is sponsor of the class stated that this is the first time in the history of the school that the class has been organized according to sections of the state. Each division of the state has a leader. Under him are county chairmen, and under the county chairmen are community representatives.

Local H. D. Club

Tuesday was a red letter day for the Goldthwaite H. D. Club for Miss Emma Scott presented Miss Nora Ellen Elliot, Food Preparation Specialist of the A&M Extension Service, who gave an illustrated lecture of the important place of vegetables in the human diet. Then she gave a demonstration of vegetable cookery, preparing fresh spinach, cabbage, au gratin, and buttered carrots. Next she made a salad of raw spinach, stressing the art of garnishing, showing what could be done with such everyday things as onion rings, grated carrots, or tomato quarters.

This demonstration took place in the home of Mrs. Joe Long whose well equipped kitchen made an ideal setting.

Members who were absent missed a treat.

Mrs. Fred Reynolds, president, extended a hearty welcome to the visitors who were present.—Reporter.

Farmer's Share Is Smallest

COLLEGE STA.—The typical workingman paid \$321 for food his family consumed in 1938, and of this the farmer received \$130 for his part in raising the products. The rest, \$191, went to transportation agencies, processors, and distributors.

The farmer's share of the consumer's food dollar in 1938—40 cents—was the smallest in four years, according to C. E. Bowles, specialist in cooperative marketing of the Texas A&M College Extension Service. The figures were compiled by the USDA Bureau of Agricultural Economics.

The calculation was based on a list of 58 foods consumed annually by a typical workingman's family. The 40 cents received by the farmer in 1938 compares unfavorably with 45 cents in 1937. The lowest mark in 26 years was in 1932 when the farmer received only 33 cents of the consumer's food dollar. The highest mark was reached in 1917 when producers received 60 cents of the consumers' food dollar and only 40 cents went for process and distribution costs.

Bowles said the long time trend showed that the farmer was getting a smaller and smaller part of the consumer's dollar. The average share in the years 1913-20 was 55 cents, the 1921-29 average was 46 cents, and the 1930-36 figure 39 cents.

Methodist Church

As we draw nearer the Easter season, our thoughts turn more and more to the Christ, who walked and talked with men and pointed them to the highest and best. And to those who believed on Him he gave the power to become the children of God. And the Risen Christ is still leading us upward and calling us to follow Him. May our remembrance of His life and sufferings and sacrifice arouse a deeper devotion on our part. Let us make the most of this Pre-Easter time and attend all the services of the church.

Our Pre-Easter meeting will begin on April 2, and will close on Easter Day. Let us keep this time in mind and pray for a special season of spiritual refreshing.

Total Payments Expected to Reach Over 125 Thousand

Pension Checks Late This Month

Due to the state having to borrow nearly a million dollars this month to pay its pensions to the aged, the checks have been late in arriving this month. A few were received at the Goldthwaite post office yesterday, and the remainder are expected today and tomorrow.

According to the report filed with County Clerk L. B. Porter, there were 199 checks issued last month to Mills county aged, and the total was \$2,906.00.

A slight increase is expected this month.

What To Do If You Get the Flu

AUSTIN.—The first week of March showed 1000 cases of influenza in Texas. The state health officer has issued the following statement on the disease.

"In its present form the symptoms may range from a common cold to high fever, back ache and prostration. However, pneumonia as a complication represents a real hazard and it is well known pneumonia is an exceedingly dangerous disease. The remedy is to go to bed upon the first appearance of the cold and remain there until advised by a physician before one can safely get out of it."

Auto Licenses Sell Slowly

With half the time for purchasing 1939 auto license plates already gone, yesterday Sheriff J. H. Harris had only succeeded in disposing of 167 passenger car and 10 truck licenses, and only 23 farm licenses.

It is necessary to bring 1938 registration receipts to the tax collector's office, and weight certificates must be presented for farm and ranch trucks.

Self Culture Club

The Self Culture Club met on Thursday, March 9, at the home of Mrs. W. E. Fairman with Mrs. Kate Marshall as hostess.

The spacious living room was lovely with a beautiful arrangement of sweet peas and gladioli in lovely containers.

Mrs. R. E. Clements was leader of the interesting subject, "Consumer Relations." This is of vital interest to all women everywhere and we learned much from papers and talks given by Mrs. Randolph, Mrs. Campbell and Mrs. C. C. Saylor.

Mrs. Fairman and Mrs. Marshall served tea dainties at the conclusion of the program.

Those present included the regular members of the club and Mrs. O. H. Yarborough and Mrs. John G. Berry, associate members.

Mills county farmers began receiving crop adjustment checks this week, and a total of \$41,000 has already been disbursed, according to G. R. Goosby, local administrator.

The checks so far have ranged from less than one dollar to over \$400 depending upon the acreage in cultivation.

Mills county will receive a total in farm and range conservation payments of over \$125,000 this year.

There will be a total of approximately 600 farm checks amounting to \$90,000 and 300 range checks for \$35,000.

The \$41,000 received so far has gone to about 400 co-operators.

The money, coming between seasons, is doubly welcome, and is passing rapidly into circulation.

Walter Woodward of Coleman, who served our district in the Senate for ten years, was confirmed for the position of Life Insurance Commissioner.

Local Boy Is Member Of Parade Committee

AUSTIN, Texas, March 16.—The South's biggest spring cleaning—the process of dusting off the welcome mat for Texas Round-up, when University of Texas alumni come back to their campus for three days, March 31—demands the labor of about 5000 students and ex-students, alumni officials declared here today.

Round-Up student and alumni committees, revealed here today, name about 1,000 students and exes to work on a dozen different fronts in preparation for homecoming. Volunteer workers who do everything from manufacturing some 2,000,000 paper flowers for parade floats to serving as campus guides during Round-Up, swell the total several thousands.

J. N. Bayley, of Goldthwaite, is a member of the parade committee for the Round-Up. He is serving in the dormitories and rooming houses division of the parade committee.

The Home Is Half The Farm

By T. C. RICHARDSON, Secretary Breeder-Feeder Association

"Last call for breakfast in the dining car" sings the porter as he gongs the belated passengers into activity. They have only to weave their way to the tables and pay the price, to regale themselves on the fat of the land gathered from far and near and served by others—and what a price! Only farm folk can breakfast, dine and sup on the delectables of a daily menu without paying the pyramided cost of production, transportation, processing, preparation and service which compel the higher prices on hotel and dining car bills of fare.

Do we need a gong to arouse us to our opportunities of high living at a low cost? Then let's "play like" (as children say) the gong is ringing for the last call—not only for breakfast, but for dinner and supper as well! It's that-time of year when the good eats of summer, fall and winter are assured by planning and planting; or else are left to the uncertainties of accident and "cash income" from salable farm commodities. Too often we do without the best things of life on the mistaken idea that "we can buy them cheaper than we can produce" them.

All the elements of a first-class diet are farm-grown, and most of them are ready to use without going to town for processing. Here's what every member of the family needs for a year's wholesome and satisfying diet. Multiply these figures by the number in the family and you have the requirements for which planning and planting must be done early in the year:

Milk, 91 gallons; eggs, 30 doz.; meat, 175 pounds (including fat for cooking); potatoes, 200 lbs.; green and yellow vegetables, 200 pounds; other vegetables, 200 pounds; citrus or tomatoes, 100 pounds; other fruits, 200 pounds; grain products (flour, meal, cereals) 170 pounds; butter, 20 pounds; sweets (sugar, syrup, preserves, etc.) 70 pounds; dried peas and beans, 15 pounds.

There is not a farm in the Southwest which cannot produce every item in this list except the sugar and grain products. Fresh meat (chicken, turkey, beef, veal, lamb or mutton, fresh pork) should be served at least once a day for a wholesome, healthful and strength-giving diet, and dry beans or peas three times a week. They grow on the farm and go to the table without paying tribute to handler and processors.

The United States as a whole eats nearly 70 pounds of beef, veal, lamb and mutton per capita, per year. Ironically enough the people who have to buy it eat more than those who grow it. Texas is a producer of great surpluses of all fresh meats, yet her people consume only 15.5 pounds per capita or less than one-fifth the average for the whole United States. Arkansas farm people consume only about 8 pounds of beef per capita, though every pound of beef must grow on some farm or ranch, and there is enough waste on the average farm to produce all the meat the family can eat. It is no longer necessary to eat fresh meat only at killing time, for either canning or freezing (or both) is within the reach of every family, making possible the daily meat service throughout the year.

There is no reason why we should buy navy beans from Mi-

chigan, limas and black-eyed peas from California, pinto beans from Colorado, when a few rows of each will provide a variety of these nourishing foods. The recommended menu calls for them three times a week, but a little forethought in planting will prevent the necessity of eating the same kind all the time.

To say nothing of the fact that garden vegetables are best when they go from garden direct to table, the money saved by producing and preserving the home supply of foods will buy something else which can't be raised on the farm—say a refrigerator, a washing machine, a radio, and a thousand other manufactures.

By Mrs. J. M. Oglesby

Spring, with its varied weather, is here and many are busy with different kinds of work at this time of year. At least we are very glad to welcome warmer days that we have been having.

Shadows of death have been cast over our community since my last writing. Uncle Andy Soloman died suddenly at his home in Hamilton county. He was well known here in the Masonic circles and our deepest sympathy is extended to all his loved ones and to his granddaughter, Mrs. Joe Green, and her family of this place. Friday, about 4:30 telephone calls for help by Mrs. E. M. Page as Mr. Page was found dead near his work a distance from their home. He had complained earlier in the day of rheumatism in the right shoulder, but was not considered serious. He, also, was an outstanding Mason of this lodge and will be missed by friends and loved ones. His wife and children have our deepest sympathy in their dark hour.

Friday morning, W. E. Reid received a telegram announcing the death of his brother-in-law, Mr. Chas. Wafford of Lockney. He and Mrs. Reid left immediately by bus and attended the funeral services Saturday afternoon. They are visiting their daughter, Mrs. Hugh Carroll and other relatives before returning home. May God's blessings sustain those in grief.

Mrs. J. K. Browning who has been sick for months is dangerously ill and her children were called to her bedside Tuesday.

Mrs. Lee Berry is very sick at her home this week.

Lee Walton and family visited in the Wilbur Waggoner home

A number from this community enjoyed a fine birthday dinner and social hours with Mr. and Mrs. J. C. Dalton Sunday. Mr. Dalton celebrated his 81st birthday. May he and Mrs. Dalton live to enjoy many more celebrations.

Early Sunday night found many wide-awake pupils trying to go to sleep with anticipation of arising at 3:00 a. m. to leave for the Fat Stock Show in Fort Worth. They spent the day enjoying all the sights to be seen and returned about midnight, tired and happy.

Al Truman Langford and Fayne Coffman spent last week end with homefolks.

The H. D. Club met with Miss Alice Williams Monday afternoon. Miss Scott discussed bargains in materials which was quite interesting to the ladies who select wearing apparel. BETTER BUDGETS BY NEW PLAN

COLLEGE STA.—Families who have tried to keep a budget, and failed, may be encouraged by the stand taken by Louise Bryant, home management specialist of the Texas A&M College Extension Service, who thinks the budget should be made to work for the family rather than the family working for the budget.

Birthday Celebration
Sunday, March 12, about 60 friends and relatives of Mr. and Mrs. J. C. Dalton gathered at their home north of Center City to celebrate Mr. Dalton's 81st birthday.

At an early hour cars began to arrive, bringing gifts and dishes to add to the already prepared feast. The younger folks played games while older ones enjoyed pleasant conversation, as the tables were prepared.

True to an old custom, Mr. Dalton smoked his highly prized pipe, given him in 1882 by Tom Smith, a Confederate Veteran. This pipe came from Germany and cost \$26, as stated by uncle Jimmie. He also amused the visitors by showing them his collection of horns and pictures of history. He has many relics of interest to students of Texas history.

The special cake was sent from Arizona by Mmes. Abitha Stephan and Ida Robertson, their daughters, who did not get to attend.

We bade these good people good-bye and wish for each many more happy celebrations as this.—One Present.
