### PASTURES IN HOT MONTHS

By T. C. RICHARDSON, Secretary  
Breeder-Feeder Association

Some months in spring and summer native pastures in Texas usually grow luxuriant and livestock thrive accordingly. As the heat of summer approaches, often intensified by irregular and heavy rainfall, native pasture grasses and sometimes dry up, and animals quickly show signs of changing from lush to scant dry feed. This is especially bad for dairy cows, as the weekly cream or milk drops with discouraging rapidity. A dairy cow should be kept in good condition, especially in hot weather, by a good milk flow. If she spends four or five months in a "dull" or the sunbaked hot before she has a "fill" she hasn't much to manufacture milk. The milk she puts out in the hot months is not so rich as the milk she puts out in the cooler months. In the hot months, the milk is not so rich as the milk she puts out in the cooler months. In the hot months, the milk is not so rich as the milk she puts out in the cooler months.

### Good Time to Bud Pecan Trees

COLLEGE STA.—April and early May is a good time to work over pecan trees, for with the rise of the sap and the slipping of the bark, trees are then ready to be budded to improved varieties.

The earlier the buds can be placed and forced out, the greater will be the resulting bud growth this season, J. F. Rosborough, horticulturist of the Texas A&M College Extension Service, points out.

During this period, bud wood may be cut directly from the trees of proven varieties, he says. The wood can be used at once, or packed in damp sawdust or shavings and held for several weeks if kept at a temperature of 40 degrees.

Bud wood cut during the winter season while the trees were dormant must be placed in a warm place for four to six days to get the buds to peel readily from the bud sticks. A temperature of from 80 to 85 degrees is ideal for seasoning.

As soon as the buds will slip freely, they may be used, or if it is desired to keep the bud sticks for future use, they should be placed in cold storage at a temperature of from 45 to 50 degrees, where they may be held for several weeks, ready for budding without further seasoning.

### Sales in Stores Yield \$178,308 In Hidden Taxes

Families of Mills county pay \$178,308 in hidden taxes annually on their retail purchases along, a survey by the National Consumers Tax Commission showed today.

This burden, the report stated, is paid as a concealed part of the price of food, clothing, fuel, medicine and other daily purchases.

The commission is a non-political organization of women combating through local study groups "unnecessary taxes that penalize consumers by increasing the cost of living." Groups are active in more than 400 communities in the Texas drive, led by Mrs. Kenneth C. Frazier, of Dallas, NCTC president, and Mrs. Volney W. Taylor, of Brownsville, national committee member.

"Everyday shoppers, whether they know it or not, carry a major share of the local, state and national tax burden," Mrs. Frazier said in the report. "Hidden taxes, increasing the cost of even the necessities of life, produce 63 per cent of all tax revenues. The taxes are levied first against producer, manufacturer, shipper and distributor and then passed on to consumers."

The report, which said NCTC study groups in 3,900 communities have added their forces to

## How the *plus* of OIL-PLATING brings you more than an oil-change

YOU KNOW right off that the fresh oil needed in your crankcase today, isn't to lubricate the crankcase. Either your oil is in the bearings and up to the cylinder head every turn of your engine, or your lubrication isn't 100%.

Now what's the chance for any of the general run of oils to stay up while you've parked the car, for instance? Just about as much chance as there is for a geyser to stay up all by itself! Then every time you start, don't pistons get up to the top before oil gets up from the crankcase? You kill that risk by changing now to OIL-PLATING.

The "magnetic action" of Conoco Germ Processed oil—patented—makes OIL-PLATING stay on inner engine surfaces throughout all your stops, starts and runs this Summer. Your Germ Processed oil keeps a steady hold on the "Full" mark, too, as you'll see—by changing today to Your Mileage Merchant. Continental Oil Company

**CHURCHES**

**Llano District Conference**

The Goldthwaite Methodist Church was well represented at the District Conference that met at Mason last week on Wednesday and Thursday.

An optimistic and deep spirit of sincerity and earnestness prevailed. The reports from the various churches were indeed encouraging. Several churches reported large numbers received into the church. Definite plans for a revival in every church were discussed. Dr. H. G. Cooke, the Presiding Elder, presided in a masterful way and his leadership was inspiring.

M. Y. Stokes, Jr., was elected to serve as a District Trustee.

Next year the District Conference will be held at Kerrville. At that conference, the three uniting branches of Methodism with in our District, will participate in the first District Conference of the United Church.

She was reared at San Saba, her family name being Breazelle. Her display of curios kept people busy looking at them until almost midnight, so keen was the interest in them and the speaker.

The Baptist Women's Missionary Society, Circle No. 1, had a very interesting meeting Monday afternoon, April 17th.

**Some Day We'll Understand**

(These beautiful verses are shared with all those of our readers whose hearts are heavy and whose lives have been saddened by the loss of dear ones.—THE EDITOR)

We know not why the days are dark,  
Nor why the stormclouds rise,  
We know not why life's sorrows come,  
And tears bedim our eyes,  
We know not why the shadows fall  
On paths in every land,  
We know not now; perhaps some day,  
We'll clearly understand.

We know not why temptations, sore,  
Beset us every day,  
To vex our very inmost souls,  
And turn us from our way,  
We know not why we're called to meet  
A foe on every hand,  
Perhaps we should not know it now—  
Some day we'll understand.

We know not why our hearts should break,  
So filled with constant care;  
Why we should walk the weary road,  
In brief and black despair,  
The answer is not ours to know,  
While on this earthly strand;  
We only know that God is just—  
Some day we'll understand.

We know not why our dearest friends,  
From our embrace are torn,  
To leave us in distress and grief,  
With broken hearts to mourn,  
Some day the mist will clear away,  
Rolled back by God's own hand,  
Some day all things will be made clear—  
Some day we'll understand.

The chairman of this committee gave notice that next week he will call up for consideration one or more of the major appropriations bills.

In the past two weeks the two Houses have passed some 200 bills, the majority of which were local in their nature, but some were general bills of potential value.

Other interesting and lengthy discussions of slips were given by members of the club, including information on modern methods of cutting whereby less material is used.

Delicious candy was served to seven members and one new member. In the absence of both the president and vice-president, our Council Delegate had charge of the meeting.

The next meeting will be held with Mrs. Marvin Laughlin on Thursday, April 27. Miss Scott will be with us then.

Mr. and Mrs. Dwight Nickols have moved into their new home, located on south Reynolds St.

Cement for the I. Z. Woodard home home on College Hill Avenue was poured this week. He will soon have an attractive, new home on the site of the Cobb house which was burned several months ago.

**Self Culture Club**

Mrs. J. H. Saylor and Mrs. A. H. Smith were hostesses to the Self Culture Club Thursday at the Smith home on Fisher street.

Cut flowers were placed at vantage points throughout the house.

In the absence of the president Mrs. Joe A. Palmer presided over the business meeting. Mrs. J. A. Hester gave a detailed report on the public library and what has been accomplished since its establishment.

Plans for our next year's work were discussed.

Following the business meeting Mrs. A. H. Smith led the program on "Interior Decoration."

Mrs. J. J. Stephen talked about "Pictures in the Home" and Mrs. Baker from the Home Economics Department was guest speaker. She gave us an insight into what our high school is doing along those lines.

A social hour followed during which time delicious refreshments were served.

**Mt. Olive 4-H Club**

On March 31, Mr. O'Neal and Olan Kemp took the Mt. Olive 4-H Club boys fishing at the Red Bluff bridge. They caught a number of fish. Everyone had a very nice time. They stayed from Friday afternoon to Sunday afternoon.

On April 5, the Mt. Olive 4-H Club had a meeting. The projects were discussed and all of them seemed to be getting along very well. After all business was over games were played.

**BOY SCOUT NEWS**

The largest Court of Honor that has ever been held for the Scout District of the Council, which is composed of Mills, Saba, Saba, and Lampasas counties, will be held in Richland Springs at the high school grounds, May 4, at 7:30 p. m. The program will start with the Court of Honor under the leadership of Rev. George Steinman, Court of Honor Chairman. Following this part of the program the Rally will be held.

Much interest is being shown by all citizens of Goldthwaite in the work and progress of members of Troop 45 there. The troop is growing, new members being registered every week. Many of these boys are purchasing all or part of their Scout uniforms. Indications are that in the near future this will be a full troop of 32 boys and a 100 percent uniformed troop. Elder Edgar Furr is Scoutmaster.

**Mt. Olive 4-H Club**

Our 4-H Club was called to order by our president, Miss Irene Poer. Miss Scott met with us. She advised us on many interesting things about transplanting tomato plants.

We also elected our club sponsors, Mrs. O. L. Harris and Mrs. J. R. Wilcox.

Our last meeting this school term will be April 11.

### New FSA Woman Worker Named In Central Texas

DALLAS, April 20.—Miss Willie Mae Dunham, Denton, has been appointed district home management supervisor for the Farm Security Administration over Mills and 14 other Central Texas counties, it was announced today by Regional Director C. M. Evans.

Miss Dunham was formerly FSA home management supervisor in Bell County. Holder of a degree in home economics from North Texas Teachers College, she taught for five years in vocational home economics departments of state public schools.

She has direction of county home supervisors of the 15 counties, who seek to rehabilitate low income farm families, in cooperation with the men workers, by guiding and educating the women in improved home methods. Her position is a new one, created by increasing demands for FSA assistance. Her headquarters are at Dallas.

### C. of C. For Central Texas to be Organized

WACO, April 20.—Representatives of cities and towns in about 30 Central Texas counties will meet at 10 a. m., Friday, April 21, at the Raleigh Hotel in Waco, to consider the formation of a Central Texas Chamber of Commerce, it was announced by W. D. McDermott, of Waco.

McDermott, who is chairman of a committee of the Waco Chamber that was named to assist in sounding out sentiment of the region on the matter, said 42 cities and towns have announced they will send delegations to the meeting and that many others also are expected to be represented. Attendance of about 400 business men is anticipated.

The movement was initiated by business men in a group of Central Texas towns and cities who asked Waco to join in determining the views of the region as a whole, McDermott said. A survey revealed so much interest that it was deemed advisable to hold the meeting without further delay, he said. Waco was chosen as the place for the meeting, at the suggestion of the other towns and cities of the region, McDermott announced.

### Cotton Wins War Over Rayon for Tires

Cotton interests have been greatly disturbed recently by reports that the use of rayon would cut heavily into the 300,000,000 pound market previously supplied by cotton for use in the manufacture of tires. This figure represents roughly 10 per cent of domestic consumption.

The new Bibb heat-resistant method of processing cotton has been given extensive actual service tests in Macon, Ga., over a period of more than three years. Reports of these tests by prominent tire manufacturers are that the cord has outlasted any rubber tread the tire makers have been able to produce.

The new process is described as not depending entirely upon twist to give strength to cord, as has been the case since the beginning of time, but bonds together the cotton fibers by first softening the waxes inherent in all cotton fiber and finishing the cord while these waxes are soft, meanwhile compressing them and permitting them to harden, resulting in a cord of revolutionary characteristics.

It is claimed that the lower cost and better performance will protect cotton from the possibility which previously existed that rayon might take away the important tire cord market.

Mr. and Mrs. Floyd Frazier and little daughter, Barbara June spent last week end here. Mrs. Frazier helped to care for her mother, Mrs. Bob Huffman who has been real sick with the flu.

### Mrs. S. A. Pass

Mrs. S. A. Pass, 86, passed away about midnight Sunday, April 16, in the home of her son, E. L. Pass, in Rock Springs community.

Mrs. Pass had made her home with her son for a number of years.

She was laid to rest in the Nolan Cemetery in Nolan county Sunday, 4 p. m.

She is survived by her four children, Mrs. J. W. Hendrix, Sweetwater; Mrs. Ada Nickols, Copperas Cove; Mrs. J. L. Cary, Ontario, California and E. L. Pass, and nine grandchildren.

The Eagle extends sympathy to the family and friends of this dear old lady.

### CARD OF THANKS

Words are, indeed, inadequate to express our deep appreciation to our neighbors and friends for their many kind considerations expressed by words, deeds and flowers in the death of our mother and grandmother, Mrs. S. A. Pass.

Your helpfulness and sympathy at a time when they were so greatly needed were appreciated more than words can express. May God's richest blessings rest upon each of you.

HER CHILDREN and Grandchildren.
