### THE FOOTBALL SPE- Hesitant Horse Causes Wreck

Balmorhea, Texas. Oct. 26-A hesitant horse which had meandered onto the First Cavalry Division airfield at Saragosa, Texas, at 9:30 Thursday morning caused the complete "wash-out" of one of the latest types of Army observation planes, and only the sturdy construction of the plane saved its entire crew from

The ship, piloted by Lieutenant W. W. Holmes, with Lieutenant F. B. Gimble as observer. was returning to Saragosa Field for refueling after completing an observation mission in the maneuvers. Just as the wheels touched the ground at 80 miles an hour, a stray horse appeared from nowhere and cut across the line of flight of the plane, stopped, and started forward again. hwaite Band and Lieutenant Holmes, striving desperately at his controls, sought to prevent a collision with the from the station animal, but his brakes locked so ng field which is a hard that the ship performed a complete ground-loop and then hurtled over on its back. None of occupying the rear the crew was injured and crawled out of the wreckage in a daze The plane is, to all intents and purposes, a complete wreck.

As to the horse, when the crew of the plane had gotten to their feet, he or she looked them over have known are as follows: casually and continued to munch F. J. Brucks, Trinity Church, San grass, little, if any, perturbed by the crash.

# WHAT ARE YOU

We are, again, urging you to build NOW while prices are low and labor is cheap.

Now is the time! If you are planning to build, repair or remodel within the next few years, do it NOW!

We cite the following reasons for building this Fall: 1. If the war continues through the coming Winter in

Europe, raw materials are sure to advance in price. 2. With the advance in prices of all materials, low

interest money will be hard to find and building loans will be hard to secure.

3. Rising prices will force labor to get more for its time and skill.

#### FROM THE SIDELINES

Friday, October 20, the Goldthwaite Eagles played their second conference game against Rochelle and defeated them 7-0 in a hard fought skirmish.

The Eagles received the ball on the kick off and were downed on their own 40 yard line. After a series of plays, the Eagles had advanced to the Hornet 8 yard line, when the first quarter it had been stolen. ended. In the first play of the second quarter the Eagles fumbled on the Hornet 20 yard line starting the bad luck streak which kept Goldthwaite from scoring in the second quarter. they were unable to score, and

The Eagles came into the secto win and played one of their heart felt about it. best games, with good defensive Misses Hill and Freeland saw playing and nice blocking on the Texas-Arkansas football the offense. Charley McLean, left come in handy. If you get up Nettie Ruth Brucks is moving resulting from a fake kick play, top, and no one will know the and fifteen yards more were difference. On Monday Billy Wayne Davee gained on a penalty against Rofrom Odessa, Texas, entered the chelle, placing the ball on the one out while Poer makes his one yard line, from where full- border line for physics. Here's a believe it or not! Miss back Denson carried it over for Kingsbury and Mr. Onstatt will the Eagles. "I hope that the United States will keep out of this war. I believe that it will. And I give you assurances that every effort of your Government will be directed toward that end. As long as it remains within my power to prevent, there will be no blackout of peace in the United States.'

> -President Roosevelt. (Address to the Nation, Sept. 3, 1939)

#### SCHOOL SAFETY WEEK

Widespread observance of School Safety Week, October 30th-November 4th, was assured today as a score of state organizations threw their full support behind the program.

A coordinated program, inaugurated by the Texas Safety Association in a concerted effort to reduce traffic accidents among the public school and college age group, met with instant response from every community in the state.

"The fact that in the past eight months 283 were killed and 2819 seriously injured in the school-college age group is conclusive evidence that in Texas the bumper is more and equipment should be installdeadly than the bayonet and that every ef- ed in accordance with the Nafort must be made to prevent this needless sacrifice of the flower of young man and womanhood of the state," George Clarke, executive secretary of the Association, stated.

Among the state organizations participating in the program are the State Police, work, for the outdoors and and helped relieve Texas agricul-State Department of Education, Highway Division, Texas Congress of Parents and terials destroys untold millions Teachers, American Legion, Junior Cham- of dollars worth of property ber of Commerce, and other civic groups, including over a half hundred safety councils. were small fires to start with tion of the AAA, on steps taken

### Inspiration From A Stonecutter

TO BE SUCCESSFUL one of the first things a salesman must do is to dispel gloom. He must be able to keep himself plugging ahead, rough or smooth, like a ship at sea. The man who makes a continuous effort has the law of averages working on his side.

Each salesman should do what Jacob A. Riis did when he became discouraged. "When nothing seems to help," said Riis, "I go and look at a stonecutter hammering away at his rock, perhaps a hundred times without as much as a crack showing in it. Yet, at the hundred and first blow it will split in two, and I know it was not that blow that did it. but all that had gone before."

Great battles have been won by following the philosophy of the stonecutter. At the battle of Waterloo, the Duke of Wellington exclaimed: "Hard pounding, gentlemen, but we will see who can pound the longest." Persistent pounding defeated even the genius of Napoleon!

Keep pounding away and the breaks will come!

- The Silver Lining 

### THE POCKETBOOK of KNOWLEDGE TOPPS

### Seven Rules For Safety

The outstanding fire prevention authority of the nation has issued a set of seven fire prevention rules which, intelligently observed, would go a long way toward keeping the fire demon under control.

1. Use electricity safely. That means that all electric wiring tional Electrical code, and that repairing and installations should be done by an expert workman. Amateur electric work is one of fire's best friends

2. Smoke in safe places only. office, the factory in which you everywhere else. Carelessness tural markets from an overwith matches and smoking ma- strain

3. Remember that great fires here by the Division of Informa-Proper

more important, human lives .--Exchange.

Total agricultural conservation payments in Texas for 1938 will. when completed, amount to more than twice as much as those of ts nearest competitor, Iowa.

More than 8 acres of space are equired to house the volumilion patents.

### 5000 Carloads Of Food Given To Needy

College Station, October 26th -A locomotive would have to hump its back and do the impossible stunt of pulling 5,000 cars, to move the amount of food that has been distributed to underprivileged families of Texas by the Federal Surplus Commodities Corporation since 1933.

A train of that length could leave two cars full at every town in the state with a post office. Furthermore, the FSCC has

used more than 26 million dollars to buy surplus commodities in Texas since 1933. These pro-That goes for your home, your ducts went to undernourished people in this and other states

Lesson for October 29

BEVERAGE ALCOHOL AND SOCIAL PROGRESS

GOLDEN TEXT—Know ye not that he unrighteous shall not inherit the ingdom of God?—I Corinthians 6:9.

"International Temperance Sunday-October 29, 1939." Let us join with people the world over in making our protest against the sale and use of intoxicating liquors. If every Christian would declare himself on this matter now, there would be a tremendous impact made on this universal problem and notice would be served on the liquor industry, on politicians, and on unbelieving mankind that Christianity intends to do something about it. We are far too docile and quiet on such matters, when we ought to speak up for God and for our country.

The lesson portions may seem little unrelated, but study of them yields three important truths regarding the use of wine and strong

I. Lovers of Wine and Strong Drink Destroy Their Nation (Mic. 2:9-11)

That statement may surprise some of our self-styled patriots who like to wave the flag and speak swelling words of devotion to our country and who at the same time love their intoxicating drinks. Micah rightly points out that his people had come to the place where they chose men to be prophets because they encouraged the people in the use of wine and strong drinks (v. 11). They must therefore expect the result which follows, namely, the destruction of the home and of the nation (vv. 9, 10).

We are all familiar with the claim that prohibition retarded the advancement of our nation and that its repeal would bring a return to higher moral standards, reduce crime, bring in prosperity, etc. The facts reveal that none of these have come true. Crime has increased by leaps and bounds under repeal. a situation so well known as to have gone rapidly downward with the free use of liquor. If you don't believe that, ask a policeman what goes on in our taverns, or just keep your eyes half open and you can see for yourself.

Just now much is being made of to have been created by the liquor Christian Herald tells us. "A million that jobs making the stuff that destroys other jobs, are not worth havto destroy his nation.

II. Christians Do Not Drink, Be cause They Look for Christ's Return (Luke 21:29-31, 34-36).

If we are not "looking for that blessed hope and the glorious appearing of the great God and our Saviour Jesus Christ" (Titus 2:13). we should consider whether any of the things mentioned in these verses have gained control in our lives: the cares of this life, surfeiting, or drunkenness. But why speak Christians about that? Surely they do not use intoxicants. enough, some do. Taking advantage temperance rather than of abstinence, they seek to justify an indulgence in these things, which they (and their neighbors) know is dishonoring to God and destructive of their testimony and usefulness in the community.

Christian, Jesus is coming again! tree (vv. 29, 30), which is the nation Israel, has loag been shooting forth new branches and bearing green leaves. The indications are that Christ is coming soon. Are you ready to meet Him?

III. Drunkards and Other Sinners

Need to be Saved (I Cor. 6:9-11). Being drunk is not a joke, even though thoughtless people laugh and cartoonists and writers of jokes use such unfortunates as their stock in trade. Drunkenness is a foul and sinful thing, classed by the apostle Paul with the lowest of human vices. Review the list as it is given in verses 9 and 10 (and by the way, notice that covetousness is mentioned there too) and place drunkenness in its proper classification. Call it what it really is—sin, and then call on the One who can save from sin and then you will be washed from your sin, sanctified, and justified in the name of the Lord Jesus (v. 11). In Christ there is hope for the drunkard. A spiritual revival is the real answer to the liquor problem. Let us seek to promote it even as we at the same time give ourselves to an intelligent and constructive battle against this destructive force in the life of our

#### Here Next Week BRUNK'S COMEDIANS

Announce Goldthwaite Engagement to Start Nex Monday Night.

The fascinating dancer pictured is Maxine Mertens, a highlight performer with Henry L an engagement here next week for the first time in a period of four years. The show will open on Monday night, October 30 under a big canvas on the Mc-Girk wagon yard. The players will remain through Saturday night with a different program every night.

"She Knew What She Wanted" will be the play for the opening night according to bills advertising the famous favorite players of the South. Henry L Brunk announces on the cast such other feature players as Mercedes Ray, leading lady: Herbert Clark, leading man; and Joyce Lee Brunk, singer and dancer. A varied type of vaudeville numbers are promised between acts.

American business, earning only a fraction of its income of 10 years ago, is now paying nearly twice as large a total of taxes. a subscription to The Eagle

fun - You'll come in and get your kiddies

Six Texas counties have been added to the quarantined area in Texas because of recent discovery of pink bollworm infestations in okra by the United States Department of Agriculture. This section, most of which lies along the Mexican border, has been enlarged to include Duval. Jim Hogg, LaSalle, Maverick, Zapata, and Webb counties. Okra from the quarantined area must now be certified under the regulations.

### Safety First

HALLOWEEN HAPPINESS! Serve them the fitting foods for this dramatic

Spuds, No. 1, 10 pounds 15c

Accidental deaths are more frequent on the farm than elsewhere, according to accident studies of farms and other occupational groups made recently by the United States Department of Agriculture. According to M. R. Bentley, agricultural engineer for the A. and M. College Extension Service, factors conducive to farm accidents are the need for haste in rush seasons, which often means working after dark or with makeshift repairs; and occasional attempts to use "home made" electric wiring.
