NUMBER FORTY-SEVEN

U. S. ARMY UNIT RECEIVES GREAT WELCOME

WASHINGTON, D. C. NAZIS IN SOUTH AMERICA

WASHINGTON.—How vigorously Nazi Germany is trying to undermine the United States in Latin America is illustrated by a secret arms offer Hitler has just made to sell \$60,000,000 worth of the latest military weapons to Brazil.

This would include tanks, artillery, flame throwers, bombing planes and other modern devices with which Germany prostrated France—all transported to a hemisphere where Pan-American nations have been relatively at peace for half a century.

Furthermore, Germany guarantees to deliver the goods almost immediately—via Italian ships.

It now looks very much as if Brazil would accept the offer.

State department officials, together with Gen. George Marshall, dynamic U. S. chief of staff, are pulling every possible wire to prevent the purchase, but they are having a hard time. They are offering to sell American military equipment instead. However, the Brazilians point out that because of cheap Nazi wages it would take \$200,000,000 to buy the same material here where costs are much higher. Furthermore, Hitler is willing to accept coffee and other Brazilian surplus products in a barter deal. No real cash is involved.

Finally, the Brazilians say they bought some artillery from the United States recently, but it was World War stuff, and they had to spend \$8,000 for repairs on each gun. The German munitions, on the other hand, are virtually new.

General Marshall made a special flight to Brazil last year to get acquainted with the Brazilian army, and later piloted General Goes Monteiro, Brazilian chief of staff, all over the United States. However, all this goodwill doesn't seem to count today. At least 40 per cent of the Brazilian army is reported to be pro-Nazi.

Note—Meanwhile the state department moves with tragic slowness to counteract Nazi activity in South America. Three years ago it set up a Cultural Relations bureau to cultivate Latin America, but its activity to date is minus zero.

Mining Panama Waters.

The navy may not admit it, but the secret reason for suddenly mining the waters around the Panama canal was the sighting of two submarines off the Pacific side of the canal.

They were sighted by an army aviator, who was not able to distinguish their nationality. Since no U. S. submarines were in that vicinity, the army and navy both were convinced they must be Japanese. Obviously it would be difficult for

Building Notes

Considerable building and remodeling has been done in and around Goldthwaite during the past week, indicating that prosperity is on the way.

Charley Wilson is building a new home on a site in north Goldthwaite, near the residence of Arthur Cline.

Floyd Burkett is having constructed a modern type filling station a mile out on the Brown-wood highway.

Duren is the scene of modern home construction activity. Corinne Henry is building a wooden frame structure; and E. E. Ethridge is a rock veneer dwelling.

Doc Laughlin is remodeling and rock veneering his home on the Moline road.

Sample Ballot

On page three of this week's EAGLE is printed a copy of the ballot which will confront the voters in Mills county at the Democratic primary election on July 27.

Voters will have the opportunity to study it carefully and thus avoid making any mistakes when they vote.

73 Mills County Boys Receive V A Training

Austin.—Seventy-three boys in two Mills county schools are receiving training in vocational agriculture, according to L. A. Woods, state superintendent of schools.

Classroom work or organized instruction is made available for 60,324 persons in 200 Texas counties. The Texas Association of Future Farmers of America, an organization of farm boys studying vocational agriculture in the public high school, was ranked first in the nation last year because of high percentage accomplishment of objectives in supervised practice, cooperation, community service, leadership, earnings and saving, conduct of meetings, scholarship and recreation.

Training in vocational agriculture is offered in Mills county at the following schools: Goldthwaite, 52 students; Priddy, 21 students.

Licenses Issued to Four Couples

Marriage licenses issued the past week were:

Jesse A. Faught and Oma Lee Cook.

W. C. Dellis, Jr. and Katherine Ryan.

A. R. Townsen and Nadine Hodges.

Herbert Pax and Hertha Tiemann.

Farm Loan Ass'ns To Hold Meeting

10:00 A. M.—Business meeting of Goldthwaite NFLA. Reports of officers and election of directors.

11:00 A. M.—Business meeting of Star NFLA. Reports of officers and election of directors.

11:30 A. M.—Joint program of both associations. Remarks by representatives of F. S. A., P. C. A., Home Demonstration Agent and County Agent.

Picture show, with sound pictures of patriotic and agricultural interest.

12:30—Lunch for members.

All persons interested are cordially invited to attend. Registration at the door, the only requirement for admission.

F. P. BOWMAN, Sec.-Treas.

HONOR ROLL

Lieut. Garland Crawford is on active duty with the U. S. Army at Camp Bullis.

Curtis Leroy Arnold has been a member of Troop A 8th Cavalry Fort Bliss, since January 15.

Roy Hunt has rejoined the U. S. Navy and has been assigned to the USS Panola at San Pedro, Calif. at a nice increase in pay.

SIZZLING HOT

The long spell of unusually cool weather which this section has enjoyed has made the over-ninety degree heat of this week appear even hotter than it is. Weather reports forecast thunder showers will bring relief. At any rate they always have.

LAND USE PLANNING BODY REQUESTS THAT COUNTY BUY MOVIE EQUIPMENT

The Mills County Land Use Planning Committee, which is composed of 20 leading farm men and women of Mills county and a representative of each of the governmental Agricultural Agencies operating in Mills county, held a meeting in the court house Tuesday afternoon, June 25, according to County Agent Sam von Rosenberg, secretary of the committee. John Burnett, chairman of this committee, directed the activities and business of the committee.

This committee operates as an important co-ordinated planning committee on agricultural problems in the county. In other words, Mr. Burnett says, "This committee is an organization through which Mills county farmers and ranchers can study their problems and present them to the governmental agencies and then the farmers on the committee and the government specialists on the committee can work out ways together to solve the problems.

Plans were made at this meeting whereby this committee will hold four regular meetings each year. Three of these meetings will be business meetings and one of them will be a recreational meeting for the members of the committee.

As a means of aiding the county agent and home demonstration agent in carrying out educational work in all phases of agricultural improvement, the Land Use Planning Committee decided to sponsor the securing of motion picture equipment for use in the county. A motion was made by John Burnett that the

School Allotment Is Increased

Austin.—Mills county will receive \$1,006.00 more from the state this year to operate its schools than it did last year. State Supt. L. A. Woods estimated today. This is based on the assumption that the county will have the same number of students next year as it had last year.

Per capita allotment has been raised from \$22 to \$22.50.

Military Course Draws Business Men

Camp Bullis.—Citizens' Military Training Camp Monday was prepared to register in the contingent of some 200 Texas, Oklahoma, New Mexico and Arizona business and professional men who have requested a rigorous 30-day refresher course in the fundamentals of military training. They will arrive Tuesday.

With the exception of modifications owing to their age and the elimination of the Americanization feature, trainees attending the course will receive the same training as the regular CMTC enrollees, some 1500 additional of which are also to be registered Tuesday.

Each enrollee in the business and professional men's contingent has agreed to pay his own expenses and his transportation to and from Camp Bullis. Numerous applications were necessarily rejected, because of insufficient facilities, but the roster of remaining business men included some of the best known business figures in Texas.

From Goldthwaite George Barton Smith was enrolled.

The refresher course for the older trainees was the result of widespread requests to the War Department for military training for individuals outside the normally prescribed ages. Each of the business and professional men's group will pay his own expenses in camp and transportation thereto.

Highway Wreck Kills Hamilton Man

Lynn Lewis of Spur is dead and a man from Hamilton who was driving the car in which they were riding is in the Mills county jail charged with drunk driving and driving without a driver's license as a result of a wreck on the Goldthwaite-San Saba highway Tuesday night.

The car in which the men were riding ran into a truck driven by Ernest Barton of Goldthwaite, and he received painful lacerations about the knee from the crash.

An ambulance ride of more than 100 miles followed the wreck. Lewis was given first aid by Dr. J. M. Campbell and then was taken to Hamilton, his home. Relatives there were unable to arrange for him to enter a hospital and county officials refused to accept him, so the ambulance was forced to turn around and start to the Legion hospital at Kerrville, but the patient was dead when they reached Marble Falls.

Lewis had formerly lived in Mills county where he was well known to the older residents. He was buried in Goldthwaite Thursday.

Mr. Lewis is survived by his wife, Mrs. Minnie Lewis of Spur, and his three sons, Clark, wife and four children, and Jack of Spur, Richard and wife of Slaton.

Llano Layman Will Speak Sunday At Methodist Church

Wilburn Oatman, Jr., prominent attorney of Llano, will be the speaker at the morning church service at the Goldthwaite Methodist Church Sunday.

The service will be in observance of Layman's Day, and officials of the church are gratified at being able to present such a capable and interesting speaker for the occasion.

MILLS COUNTY CITIZENS TURN OUT IN FORCE TO SEE SOLDIERS AND EQUIPMENT

"This place sure is strong for the Army," one bronzed doughboy from the Second Division Army Demonstration Unit proudly exclaimed Tuesday, and that just about sums up the reception that was accorded the men in uniform here.

Goldthwaite people appreciated the distinction of being selected as a demonstration point by this military unit and showed it. A huge crowd milled about the Army display all day, and despite the hottest weather of the year, gave keen attention to the speakers on the patriotic program.

The demonstration unit arrived from Waco Tuesday morning well ahead of schedule. Preceded by a State Police car, the column entered Goldthwaite at the north end of Fisher street and proceeded to the square where they circled the court house before de-trucking at the site provided them on the block just north of the Barton Smith service station on the highway.

With the precision of a well-oiled machine, the big four-wheel drive trucks were lined up and unloaded. A number of wet tents which they carried were spread out to dry, and a wall tent for the Red Cross and the kitchen fly for the band were erected.

Three Groups of Soldiers.

The unit was composed of three groups of soldiers from the Second Division at Fort Sam Houston and was commanded by Lieut. J. R. Reeves of the 15th Field Artillery.

From the 9th Infantry were 30 bandmen and a number of doughboys who demonstrated the new 37 mm anti-tank gun, three of the wonderful, new semi-automatic Garand rifles, and a shelter tent and an infantryman's pack unrolled to display his equipment.

A gun-section from the 15th Field Artillery included a modernized 75-mm gun and related equipment. A gasoline-burning field range which can cook meals while being transported 40 miles an hour also drew much attention.

The nine trucks in the column included cargo-carriers, troop-carriers, a command and reconnaissance car and the prime movers for the guns. Although all of them had been through the grind of the East Texas-Louisiana maneuvers last spring, they looked and ran like new.

Accompanying the unit was the attractive white Recruiting Truck 5 from the Dallas Recruiting District office. Here Lieut. Bristol and his capable assistants, Sgt. Booth and Pfc. Dunahoo, distributed literature and answered questions of the young men who crowded around seeking information about enlisting.

Barbecue Dinner.

Promptly at 12 noon the 70-odd soldiers marched up Fisher street to Fairman Company's implement lot where a memorable barbecue dinner was served. Earl Fairman's capable direction of this affair rivalled the Army's own efficiency. Officers and men alike praised the quality of the food and the comfortable conditions under which it was served.

The guests were comfortably seated at tables in the shade under the cooling breezes of numerous electric fans, and the barbecued meat, roasting ears and numerous trimmings were served by a group of Goldthwaite's most charming young women.

In addition to the officers and men, representatives of the city and county governments, the Mills County Volunteer Recruiting Committee and representatives of the American Legion, Lions Club and Army Reserve Officers enjoyed the dinner which was financed by contributions from more than 50 representative citizens. The soldiers were also provided free cold

drinks throughout the day and iced watermelons in the afternoon.

Patriotic Program.

At 1 p. m. the program began with several band numbers led by Warrant Officer Joe Garcia. The band continued to furnish music all afternoon and gave a fine performance in every way.

Mayor H. G. Bodkin welcomed the soldiers to Goldthwaite in a brief but sincere talk. M. Y. Stokes, Jr. then introduced the Hon. Herman Jones of Austin, former member of the State Legislature and instructor in the University of Texas Law School and now an associate in the law firm of former Governor Dan Moody.

Mr. Jones made one of the finest patriotic addresses ever heard in this section of the state. He stirred his hearers with an eloquent description of the rights inherent in American democracy and brought cheers when he proclaimed that his generation, the young men of Texas, though fervently for peace, would not surrender their democratic heritage without a fight to the finish.

The sincerity and eloquence of this talented speaker made a deep impression on the assembly and hundreds pressed around him to grasp his hand and congratulate him at the conclusion of the program.

Col. Moss Speaks.

The next speaker introduced was Col. J. A. Moss of Dallas, Army recruiting officer for North Texas who had arranged for the Army unit to stop in Goldthwaite. Col. Moss who has filled many distinguished posts in the Army and on the Army General Staff, is a native Texan who enlisted in the Army as a buck private and worked his way to the top through sheer merit. He voiced the appreciation of the men for their reception in Goldthwaite and then explained the purpose of the Army's present drive for recruits. He stressed the fact that the Army is for peace and that the best way to maintain peace was to build and equip an Army strong enough to win the respect of all possible enemies. He was warmly applauded.

Col. Moss introduced Lt. J. R. Reeves, commander of the unit from Fort Sam Houston, who briefly described the display and the purpose of the 1500 mile trip on which they had started.

Although the sun blazed fiercely down all afternoon, the spectators were extremely attentive during the speaking, and crowds remained around each of the displays until 3 p. m. when the trucks were packed for their departure. When they were ready to leave, a truck load of iced watermelons was distributed to the men who carried them to Lake Merritt where they had been invited for a swim by the Mills County Hunting and Fishing Club.

It was hard to tell which the men appreciated most, the cool water or the cold melons, but they did full justice to both. "We'll never forget Goldthwaite," was said time and again as they said good-bye and departed for Brownwood.

Mills County Boy.

Private First Class Daniel B. White, a truck driver with this unit, was the proudest man in the outfit. For days he had been

Rev. Rives preached at the Primitive Baptist church Saturday and Sunday mornings. Dinner was served and singing enjoyed Sunday afternoon.

Mrs. Charles Roberts attended church Saturday and visited with Mrs. Miles Calder in the afternoon.

H. C. Griffin of Houston spent the week end with his parents, Mr. and Mrs. H. L. Egger.

Mr. and Mrs. Andy Rowlett spent the Fourth of July with her sister and family, Mr. and Mrs. "Shortie" Roundtree of Thrifty. They all enjoyed a fish dinner.

The Roberts family celebrated the Fourth with Mrs. Chas. Roberts, visiting her mother, Mrs. Perkins near Brownwood. Mrs. Loyt Roberts and sons spent the day with her mother, Mrs. Mae Mack of Brownwood. Charles, Wayne and Loyt attended the rodeo at Comanche. We hope another year's growth will give

Wayne first place in the roping contest.

Mr. and Mrs. Ben Egger and daughter, Wade Ann were Thursday night guests of Mr. and Mrs. Bruce Moore.

Little Ross Rowlett, son of Mr. and Mrs. Andy Rowlett, fell from his tricycle recently and a tooth cut a gash through his lower lip. Only a few whimpers were made and he was gone again. His mother and dad went about their work and within a short time this young man of 13 months was found on top of the family car.

Charles, Wayne and Loyt Roberts were business visitors in Goldthwaite Saturday.

Hulon and R. D. Egger were transacting business in Brownwood Saturday.

Mr. and Mrs. Charles Roberts and Mr. and Mrs. Loyt Roberts and children attended church at Regency Sunday.

Mr. and Mrs. Bruce Moore had as their guests, Mr. and Mrs. Loyt Roberts and children, Sunday afternoon.

CATTLE QUEENS

Cattle Queens in every sense of the words, are these prize winners from the beef cattle show of the 1939 State Fair of Texas.

At the top are, Countess Gipsy Maid, Jr., Champion Shorthorn Female, owned by A. P. George, Richmond, Texas, and Revermere's Pride 8th, Jr., Grand Champion Angus Female, owned by Texas A. & M. College.

Center picture, Bertha Domino, Champion Female Hereford, owned by Black and Largent, Granbury, Texas.

Bottom picture, Medford Lassie, Jr., Champion Red Polled Female, owned by Fetzer Brothers of Medford, Wisconsin.

These champions competed for first honors among some of the toughest opposition ranchers had ever been against at the State Fair of Texas. The first three classes of livestock shown at the State Fair of Texas are open to the world, and annually these classifications draw some of the best known show cattle in the entire nation. After the first three classifications, entries are limited to those from Texas, New Mexico, Oklahoma, Arkansas and Louisiana.

Woodmen Will Present Expert On Tuberculosis and Picture

A lecture on tuberculosis, and a moving picture showing the treatment of same and operation of the World War Memorial Hospital at San Antonio, will be features of Woodmen of the World Day, Monday, Oct. 7th, at the State Fair of Texas, it has been announced here by Claude R. Hamilton, general chairman of the Woodmen celebration.

The lecture will be given by Dr. C. J. Koerth, superintendent of the Memorial Hospital which was established for the treatment of tuberculosis.

The moving picture will depict the methods of diagnosing an early case of tuberculosis, and various stages of treatment from time of admission to the hospital until the patient is discharged.

Invitations will be sent to all physicians to attend the lecture and the showing of the picture.

Woodmen Day is being arranged by various tents of the Woodmen of the World, the thirty Log Roller Associations in Texas, and the Woodmen Circle. One of the other features of the day will be a uniformed teams drill contest. Many teams from Texas, several

from Oklahoma, and one from Clovis, New Mexico, have entered for the competition.

Appreciation

So many memories rushed into my heart and mind while in your city. Words fail me to tell of impressions that came to me. The few folks I met, greatly refreshed me as did the sight of your lovely town. The air was more bracing than down lower in the state and the hills reminded me that our God is a God of beauty. The royal entertainment accorded us in the lovely home of Mr. and Mrs. (Nora) Berry and the greetings to friends so enriched our visit there. Of course those who so loyally stood by me while I was there and who have entered into their reward were in a sense speaking to me.

The Eagle office told of visits and fellowship there in the things of God and homes where others once resided spoke to me. The wonderful edifice of worship so outstanding, brought to me the impression that God really meant something to those who made it possible to continue the praise of one who blessed their lives. This is the ideal way of continuing service and praise to the goodness, greatness and glories of God.

The wonderful pipe organ and amplified chimes is a fitting reminder of one who served his church and town so quietly and unassumingly. W. C. Dew was a Godsend and men of hearts like his live on in influence and power.

Your outstanding church preaches in a wonderful way to those who otherwise will not hear. From the lips of Bro. Dew I learned the depth and height of his faith in God. My good friend Brother Burton appreciates the richness of his field of labor and is doing a fine work there. I was happy to be in his home and to meet his fine family. Your rich scenery, fine preacher and outstanding edifice of worship to mean most to you must bring forth from you the best in service and devotion to Him who is the giver of every good gift. This attitude will enrich the life, a lesser one will impoverish.

I am selfish enough to be anxious to come back into Texas but have too much religion and sense to bid for Goldthwaite. I say this to refute any idea that I was there with any such motive and do not wish to be so understood. Mrs. Lambert sends love. Yours in his service, S. D. LAMBERT.

Texas has five state forests, the total of which is 6,400 acres, and four national forests with a gross area of 1,714,000 acres.

Mr. Seth Moore
 Comanche, Texas

Dear Sir:

After reading your announcement in the Chief today, I took new courage. I wondered if it could be possible, that we elect a man who means what he says and will or can do something, and some one who can see to it that folks are treated fair.

I will do all I can for you, as long as I can think you are the man we need.

Sincerely,
 MRS. EFFIE BROCK.

Goldthwaite, Texas
 June 29th, 1940.

Mr. Seth Moore:

This is to say that in the year 1895, I moved with my parents to San Saba county, Texas.

One of the first settlers that we got acquainted with was Seth Moore, who was, at that time, County Surveyor of San Saba county. He surveyed land for us and became a very warm friend of the family and a person whom you could always rely on for every kind of accomoda-

Sunday is preaching day. E. L. Green of Brownwood will preach. Everybody cordially invited to be present. Perhaps we should bear in mind, too, that it is only three weeks till our meeting begins.

Mr. and Mrs. Paul McClung of Justin, their infant daughter, Martha Nell, and Miss Bernice Wilmeth arrived at the Wilmeth home Friday. Mr. McClung had to leave immediately to begin a revival at Desdemona that night. Mrs. McClung and the baby will visit with her parents, Mr. and Mrs. J. R. Wilmeth, for a few weeks.

Mr. and Mrs. Dewey Smith spent the Fourth visiting their new niece, Cieta Faye, daughter of Mr. and Mrs. Herman Glenn Egger, at Ridge. They say she is a wonderful baby.

A number of guests have visited at the Day ranch within the past few days. First arrival was Mrs. Day's sister, Mrs. M. L. Vivrett, of Waco. She was accompanied by her daughter and husband, Mr. and Mrs. Ivan Collier of Navasota. After their departure, Mrs. Day's brother and wife Mr. and Mrs. Sam Green of Waco came. They were accompanied by their daughter and husband, Mr. and Mrs. Aaron Patton and children, and Mr. Patton's brother, Howard Patton, all of Waco. Gene Day of Shreveport, La. also spent several days with his parents the past week. Their daughter, Mrs. Earl McCaleb, drove in Friday from Anson and spent until Saturday afternoon with them, and Miss Earlene Day of ACC spent the week end with them.

Miss Erma Egger and Norman Chesser of Brownwood attended singing at the home of Mr. and Mrs. Edward Egger Saturday night.

Mr. and Mrs. Pleas McNurlen of San Saba visited Mr. and Mrs. Billie McNurlen Sunday.

Austin Cawyer went to San Angelo Wednesday where he will assist in a summer sale at Hemphill-Well's. He was accompanied by Mrs. Nellie Malone, who will visit her sister, Mrs. Clara Miller, there.

Mr. and Mrs. Orvel Egger and baby went to church at Regency Sunday and had dinner with Mr. and Mrs. Henry Egger.

Mrs. E. O. Dwyer, Mrs. Austin Cawyer, and Ednabeth Cawyer had dinner at the Briley home Sunday after church.

The H. D. Club will meet Friday, July 19, with Mrs. Wallace Perkins.

W. C. Dellis and Miss Katherine Ryan came to the Hays home Saturday, July 6, at nine o'clock, and were joyfully made husband and wife. W. C. is the son of Mr. and Mrs. Wm. Dellis and Miss Katherine is the daughter of Mr. and Mrs. Robert Ryan.

Both families have had their residence in Trigger Mt. community for years, and the newly married couple have had the best opportunity to know and love each other. The people of the community join in wishing for them the best that can come to thoughtful, sincere lives; and may both families represented in the union be enriched because of the marriage of these esteemed youngsters.

Another thing should be said. These young people went directly from their wedding to church, and that's the best honeymoon one knows of.

The SNAPSHOT GUILD

OFF-GUARD PICTURES

Provide something for the subject to do, to draw his attention away from the camera—and you'll get more natural pictures.

THE best pictures, as a rule, appear unposed. They seem to have been taken without the subject's knowledge—and the result, of course, is that the subject appears more natural, without any camera-consciousness.

Some subjects are free of camera-consciousness—they can pose quite easily and comfortably for any picture. Others stiffen up and try to "look their best"—or insist on watching the camera—and such subjects must be caught "off guard" if you want a really effective picture.

That doesn't mean that the subject must be wholly unaware of the camera. It simply means that his attention must be drawn elsewhere—focused on some other thing—at the moment of exposure.

One simple solution is to give the subject something to do—something to absorb his attention completely, so he has none left over for the camera. For example, consider the picture above. The small girl is too busy to watch the camera—she must watch Daddy, who is going to catch her. Therefore, while the picture has obviously been arranged, there is no stiffness. It is a genuine "off-guard" shot.

Another good trick is to place the camera on a firm support, pointing at the subject, and keep your hand on the shutter release while you engage in conversation. For example, suppose you want some shots of Johnny blowing soap bubbles. Place the camera on a lawn table or chair, sit beside it, admire a bubble as it grows, and trip the shutter casually when everything is as you like it. You'll find it easier—and the subject will be more at ease than if you were peering at him through the viewfinder.

If your camera has a fairly rapid shutter, that's an advantage. Use a shutter speed of 1/100 or 1/150 second, and you won't have to caution the subject to hold still.

Now, load up your camera, pick a subject that has proved "difficult" in the past, and try these "off-guard" methods. My guess is that you'll get more natural, pleasing pictures.

"America's ideal and objective is still peace — peace at home and peace abroad. Our security is not a matter of weapons alone. The arm that wields them must be strong, the eye that guides them clear, the will that directs them indomitable."

PRESIDENT ROOSEVELT

In his defense speech to Congress May 16, 1940.

WE CANNOT AFFORD

EDITOR'S NOTE: The following article written by Charles Michelson, the able Director of Publicity, Democratic National Committee, expresses so well the idea that the EAGLE has been hammering on...

If there is anything on which the American people are united it is on the necessity of our preparing adequately to resist and repel attack on this country.

Where there still exists some uncertainty is on the question of what constitutes preparedness.

It is not enough to appropriate vast sums of money to build battleships, a myriad of airplanes, defenses for our outlying possessions, tanks, and all the other paraphernalia that modern war compels.

Pursuit planes will not chase hostile bombers by themselves; skilled personnel has to direct them; expert gunners have to be found to fire the machine-guns effectively.

Once upon a time the embattled farmers were good enough to meet and defeat the army that beset us at Lexington, but that type of combat lives only in history.

Soldiering is no longer a pursuit that anybody can take up overnight. It needs no alarmist to point out what a dire thing it would be to send even the biggest army of raw recruits to meet an onslaught by an army and navy with every equipment which science has been able to produce.

It seems rather obvious that the regulars have to be kept in readiness to garrison the Panama Canal, perhaps Puerto Rico, and if the assault we must guard against comes in Latin-America, we may have to take care of that situation as well.

Perhaps that situation may never arise. It is certain that it is less likely to arise if we are prepared for it, than if we are not.

Then comes the matter of training camps for officers and soldiers, and the problem is to get the best material to teach and train. A good many of our people shy at the idea of conscription, and there are a lot of plans germinating to handle this question.

Somehow the resistance to mustering in the man strength of this country is coupled with the declaration that we must not send our men to fight Europe's battles.

I have been around the United States a great deal and I have yet to meet anybody of importance who had the remotest idea of transporting an army across the Atlantic.

What we are aiming at is to keep the war from getting over here, via South America or Canada, or by any other way station. We would not be very comfortable with Herr Hitler's forces as near-neighbors, even if our Monroe doctrine did not pledge us to prevent the shifting of colonies in the Western Hemisphere from one foreign nation to another.

It goes without saying that we must be prepared to get along without—for the present at least—the British fleet in maintaining our creed of America for the Americans.

Fortunately or unfortunately, we have a Presidential election in progress while we are getting ready to defend ourselves. Consequently there is bound to be a lot of politics involved in the discussions of how we are to do the job.

THE POCKETBOOK OF KNOWLEDGE

Illustrated article about soybeans and manufacturing. Includes text like 'ONE MANUFACTURING COMPANY ALONE HAS SPENT MORE THAN \$3,000,000 FINDING NEW USES FOR SOYBEANS.' and 'A RECENT SURVEY INDICATES THAT 7 MILLION JOBS IN INDUSTRY WOULD BE ENHANCED BY BASIC CHANGES IN THE U.S. PATENT SYSTEM.'

State and the minority party's candidate for Vice President at the last election.

Defense Comes First.

He did not pick near-Republicans, or men likely to change their political faith, but outstanding fellows. These two men are to direct the Army and the Navy—but the fault-finders are trying to make the country believe that even this was some sort of maneuvering for partisan advantage.

This sort of fussing is not going to make any difference in the long run. If it comes to the big test, our citizens are patriots first and Republicans or Democrats second.

As to the quarrels over the matter of how to get a suitable army, we should keep in mind that if the worst eventuates, we need the finest, best-trained army we can put together.

Views from Other Newspapers on 'Fifth Columns'

There is an increasing amount of highly inflammatory talk about a so-called "Fifth Column" in the United States. Seemingly the phrase refers to anybody and everybody who does not automatically regard the Nazi movement as a creation of the devil.

It would be well to get this picture in perspective. For there is certainly no indication of national strength, but only of hysteria, fright and weakness, in much of the present emotional outburst.

Undoubtedly there are foreign agents in this country, working actively for alien governments, who should be—and are being—closely watched by FBI and secret service operatives.

There are, on the other hand, many sober, reputable and wholly patriotic citizens who have not forgotten that we are at peace with Germany, who are not convinced that Germany's recent successes constitute valid reason for altering that relationship.

The prophets of doom may well be correct in their analysis. But that is not the point. The point is that if an American sincerely believes otherwise, and does not regard the fate of his country as completely contingent on the outcome of the fighting in Europe, he has every right to hold, proclaim and maintain this opinion.

opinion coincides with the belief of the president, his military advisers, newspaper editors, columnists and taxicab drivers is a secondary matter. The important factor is the unassailable right of the American citizen to his own viewpoint, popular or unpopular, rational or irrational, so long as his country remains at peace.

FERGUSONS PREDICT THAT O'DANIEL WILL LOSE

Austin.—The prediction that W. Lee O'Daniel has lost so much of his former support that he may not even get into the runoff primary, was made by former Governor James E. Ferguson in opening the final drive for votes in the interest of his wife, Miriam A. Ferguson, candidate for governor.

Supporting his conclusions that Governor O'Daniel may be eliminated in the first primary, the former governor pointed out that the "banjo-picking, bull fiddling statesman" has alienated the support of 125,000 dissatisfied pensioners, 40,000 school teachers, 35,000 members of organized labor and 125,000 tenant farmers who supported him two years ago.

For the fourth consecutive summer forty boys and forty girls on National Youth Administration Projects throughout the State will be given training in recreational leadership through an NYA Resident Center sponsored by the Southwest Texas State Teachers College in San Marcos July 1, through August 24, according to J. C. Kellam, State NYA Administrator.

A mounting demand for yellow tomato juice set plant breeders to work on an improved yellow tomato and the result is the Mingold. It is large, juicy, and in all respects excels older yellow varieties. Seed will be available in commercial amounts in 1941.

JOB'S STRUGGLE TO FAITH IN LIFE AFTER DEATH

LESSON TEXT—Job 14:13-17; 17:13-16; 19:23-29. GOLDEN TEXT—For I know that my redeemer liveth.—Job 19:25.

If life ends at the grave, it has comparatively little meaning and its struggles and sorrows are hardly worth bearing. Job, living in all probability about 1,500 years before Christ, did not have our knowledge of the resurrection of Christ and the assurance that He is but the "first fruits of them that slept" and that we too shall rise (see I Cor. 15:22, 23).

"Eliphaz: But who ever perished being innocent (4:7)? Be glad that you are being corrected (4:17). Job: Answer my questions and I will keep still. Show me where I am wrong. What does your 'proof' prove (6:24, 25)?

"Bildad: Do you think God perverts justice (8:3)? Ask the wise men of the ages. Consider what our fathers taught (8:8). Job: It is all the same; God destroys the righteous with the wicked (9:22).

"Zophar: Do you expect to understand God? Put evil away (11:7, 14). Job: I know as much as you do (13:2). Your burning remarks are cold ashes (13:12). I would like to reason it out with God (13:3). I have stated my case; I am righteous (13:8).

"The three friends have not helped him, but Job struggles on alone with the problem."—Dr. Carl S. Knopf. I. Uncertainty—"If a man die, shall he live again?" (14:13-17).

Job, while maintaining that he was righteous, felt that his sufferings must indicate that God was displeased with him. He thought he might best seek refuge in Sheol (R. V. in place of "grave" in v. 13), the abode of the dead. But suddenly he turned again to the hope which was dear to his heart, namely, that somehow there must be a blessed future life with God.

He asked the question, "If a man die, shall he live again?" The fact that he quickly lapsed into despair indicates that he was not certain that the answer was "Yes."

III. Faith—"I know that my redeemer liveth" (Job 19:23-29). What blessed vision and what glorious faith! Job lived in the time of Moses or before. He had no New Testament—no Old Testament—but he did have God, and by faith he believed that God would make Himself known to man here on earth as a living Redeemer.

III. Faith—"I know that my redeemer liveth" (Job 19:23-29). We say that we know because we have the record of His coming; of the Son of God incarnate; of His bearing our sins on Calvary; of His death and resurrection again; of His ascension to be with the Father, and His coming again in glory and power.

A Blessed Inheritance Blessed be the God and Father of our Lord Jesus Christ, which according to his abundant mercy hath begotten us again unto a lively hope to an inheritance incorruptible, and undefiled, and that fadeth not away, reserved in heaven for you.—I Peter: 1, 3, 4.

Kathleen Norris Says:

Good Medicine for Foreign-Born Isms

(Bell Syndicate—WNU Service.)

Lively arguments will trail themselves right out of the dining room and continue over the dishpan, but that's exactly what you want. Drill them all in Americanism.

By KATHLEEN NORRIS

PERHAPS you are one of the mothers—the many, many mothers!—who are vaguely worried today for fear that a "fifth column" is forming, or is already formed, in America, and that Nazism and Fascism and Communism are about to break out in our midst. "Fifth column," you know, is one of the phrases coined in the late Spanish war. It means those enemies within our own ranks, those quiet forces that operate underground, winning converts and gaining strength that is someday to be used against America.

How strong these elements are, in our country, I don't know, and I don't suppose anyone else does. When I was young it was the Socialists who were appealing to the restless and rising generation. But they never put a candidate into office; they never formed anything like a formidable party. And so much more violent, radical and unnatural are the isms of today that much that the Socialists advocate has come to seem to us quite practicable.

America Has Progressed. For although we never adopted a socialist platform, our ideals have changed. Working hours and wage scales and living conditions have all undergone changes. Time doesn't bring about ALL that the reformers want, but it does much, and to read Henry George's great land value classic "Progress and Poverty" today is to realize that the world really HAS grown better—at least in America, since 1878.

If fear for Americanism, our institutions and ideals, our Constitution and our Bill of Rights, really haunts you, there is a simple thing that you can do to check, combat and eventually destroy the last shred of anti-American activity in our midst.

For these foreign doctrines, brought here by the disaffected from other lands, reach our rising generation first. In other words they reach your children and mine. And those children, like the children of every generation, are looking about the world critically, wondering why so many things are stupidly done, wrongly done; why there is so much preventable poverty and idleness and suffering and sin. When strange papers are presented to them they accept them gladly, neither able nor anxious to criticize them too keenly.

The cure for this situation, which is actually worrying America very much, was suggested to me a few days ago by a fine old American woman who has raised sons, taken an active part in the hundred civic and social activities, and who served America as one of California's representatives in congress for many years. I see no reason to conceal her name: Florence Kahn.

Study the Constitution. Mrs. Kahn and I were talking about the recent awakening—or beginning of awakening—of American women to a sense of civic responsibility and civic power, and I told her that many of our groups in the National League of the Mothers of America were taking their first interest in the Constitution, and had formed clubs to study it.

"I wish," she said, "that they'd go a little deeper than that. I wish they'd take the matter right into their homes, read the Constitution aloud at the dinner table, discuss it, get the children to discuss it, and keep it up—keep it up—keep it up! Until," she finished, "every growing American girl and boy would realize the simple truth, that there is no reform, no desirable change, to benefit humanity and right wrongs, to control privilege and extend opportunity, that they can't accomplish right here in their own country, under their own flag."

If our worrying parents, alarmed at the half-baked red doctrine that so many of our college students seem to be imbibing today, would take this simple suggestion to heart, we should soon see not only the decline of anti-American influence, but the healthy growth of new American movements that might bring our country back once more to the standards of the great Fathers of the Constitution.

Revive Dinnertime Discussions. It has often occurred to me that it is a pity that the old fashion of good talk at dinner-time has gone out. Judging from old American books and biography and letters it was a pretty usual custom a hundred years ago. It may do the whole family good to have you revive it.

The father or man of the household may greet this idea with a groan. "Darling, I'm dead tonight. Do we have to have politics at the table?" he may plead. But persist anyway. The best system is quietly to produce the book that is to be read; handing it from one to another, and keeping steadily to a 10-minute program, night after night. Of course it will presently run to far more than 10 minutes, and lively arguments will trail themselves right out of the dining room and continue over the dishpan, but that's exactly what you want. Drill them all in Americanism until there remains no question as to the potentialities of their own Constitution that they need leave unanswered. Don't warn anyone of what you are doing, for both husband and children have a deep-rooted objection to being educated, but make your dinner-table a little political forum for a few months, and you'll find that they want to keep it up longer than you do.

It is a great tragedy that with a governmental system as flexible and as inspired as ours; with a beginning only 165 years ago that startled the whole world with its ideals of universal suffrage, equality and humanity, we should let our children grow up with the idea that we are just about as reactionary, as filled with class distinctions and social injustices as are the old nations of Europe. It is surely no fault of America's founders that we know so little of our own country's ideals, and use so imperfectly those that we do know.

History's Greatest Experiment. Truly, injustices and suffering have long had a foothold here. We have slums, we have unemployment, we have crime. But we also have, as an excuse, the largest international population that the world has ever seen; we are making history's greatest experiment in the amalgamation of races, and incidentally succeeding at it.

It is inevitable that to the top of our great melting-pot scum shall arise. The laws of all the European countries are far from being the same; it is for us to reconcile them.

America must teach us the lesson that Europe never has learned, that all these may live together in peace. Meanwhile, if that hot-headed revolutionary boy of yours can be made to read the Declaration of Independence, the Constitution, the Bill of Rights, and if you ask him temperately and sympathetically what he and his new red friends want from their country that is not obtainable under these franchises, you will be taking a great step to reduce all our little scattered disease spots of foreign isms to our one great ism: Americanism.

Center City

Summer weather is with us after much rain. Farmers are busy finishing combining and threshing grain.

The Methodist revival closed Sunday night with nine additions to the church. We appreciate the fine work Bro. Burton of Goldthwaite and our pastor, Bro. Cooke, are doing in our community.

Dr. Cooke and family of Llano spent the Fourth here with his son.

Rena V. Chappell is in San Antonio taking a beauty course.

Mrs. Walter Simpson and girls spent last Sunday visiting in the Oglesby home.

Miss Clara Blackwell entertained a number of girls Sunday. They report a most enjoyable time.

Mrs. Jeff Dean of Balmville, Ga., and Mrs. R. C. Johnson of Goldthwaite spent Thursday in the John Walton home. Mrs. Dean is a sister of R. C. Johnson, and is making an extended visit with her brother and wife.

Mr. and Mrs. Quigley and Mrs. Green of Goose Creek visited last week in the T. C. Dempsey home.

Mr. and Mrs. Bill Stuck brought Zeda Lee Timms Wednesday for a visit in the Oglesby home.

Miss Shirley Lucas spent Monday night with Virginia Oglesby. They visited Clea Geslin and Syble Miller in the Hubert Geslin home, Tuesday after church.

Mr. and Mrs. Stacy McCasland took their son, Denver, to Abilene Tuesday, where he entered a business school. Miss Joyce Johnson accompanied them back to Goldthwaite for a visit with home folks.

Wayne Coffman of the U. S. Navy called home from Los Angeles the Fourth. His voice came clear and distinct over the lines, speaking to his mother and brother in their home.

Mrs. Emma Johnson came in Sunday for a visit with relatives here.

Miss Laverne Day spent last week with Mrs. Archie Collier and family.

Cool Meals For Hot Days

By Katharine Fisher

Director, Good Housekeeping Institute

No matter to what heights the mercury soars, your family has to eat. You can do much to keep them in the mood for food and to make the dog days more bearable both for them and for you, if you have summery, simple meals.

KATHARINE FISHER
Director of
Good Housekeeping
Institute

Even the most heat-worn appetite picks up at the sight of refreshing food daintily served, so humor your family a bit! Serve fruit frequently, too; as a colorful salad served after the main course or instead of a dessert, or in fruit-juice drinks. Tempt listless appetites with vegetables—vegetables simply cooked, but artfully seasoned; vegetables crisp and cool in salads.

Then there are soups. It is always well for good digestion's sake to include at least one hot dish in an otherwise cold summer meal. An easy way for you to take care of this is to serve one of the savory canned soups as a first course. Or if you have a hot main dish and crave something deliciously cool for the first course, why not serve a jellied consommé? You don't have to make it yourself, you know, for it comes in cans and has only to be thoroughly chilled before serving.

Serve some of your meals outdoors, if you can, or in the cool of the porch. It will be a welcome change from routine. Here are some recipes to help you.

Sliced Tongue

Horse-Radish Sauce

Scalloped Macaroni and Cheese

Sliced Tomatoes and Cucumbers

Butterscotch-Chiffon Pie

Iced Tea

Horse-Radish Sauce

(Tested by Good Housekeeping Institute)

Use Institute-approved measuring cups and spoons. Measure level.
1/2 c. heavy cream
2 tbs. bottled horse-radish, drained
1 tbs. mayonnaise
1 tbs. prepared mustard
1 tsp. tarragon or
elder vinegar
1/2 sp. salt
Dash cayenne

Whip the cream until fairly thick, then fold in the mayon. also. Stir in the vinegar very slowly, then add the drained horse-radish, mustard, salt and cayenne. Chill well and serve as a meat accompaniment. Or turn into the freezing tray of an automatic refrigerator with temperature control at normal setting, and chill until firm. Then cut into squares and serve as a bed of lettuce leaves. Serves 6. This is delicious with cold sliced meats of any kind.

Butterscotch-Chiffon Pie

(Tested by Good Housekeeping Institute)

Use Institute-approved measuring cups and spoons. Measure level.
1 8-inch baked pie shell
1 envelope plain, unflavored
gelatin (1 1/2 tbs.)
1/2 c. cold water
3 eggs, separated
1 c. brown sugar, firmly packed
1 c. scalded milk
2 tbs. butter
1/4 tsp. salt
1/2 tsp. vanilla
3/4 c. granulated sugar

Soak gelatin in cold water 5 min. Beat egg yolks; gradually beat in brown sugar, then add milk gradually, while beating. Add butter and salt, then cook in double boiler, stirring until custard-like, about 6 min. Add gelatin, stir until dissolved. Cool; add vanilla. Fold in stiffly beaten egg whites into which granulated sugar has been beaten. Pour into pie shell and chill. Chill any extra pie filling for luncheon dessert.

Tomato Juice

Seafood Casserole in Potato Frame

Buttered Green Beans Rye Bread

Cantaloupe

Iced Tea

Seafood Casserole in Potato Frame

(Tested by Good Housekeeping Institute)

Use Institute-approved measuring cups and spoons. Measure level.
1 1/2 lbs. raw potatoes
1 egg
2 tbs. salt
1/2 tsp. pepper
1 lb. fresh codfish
1 7-oz. can tuna fish
or 1 c. canned lobster
1 3/4-oz. can shrimp (1 c.)
5 tbs. butter or margarine
5 tbs. flour
1 bouillon cube
1/2 c. milk
1/4 c. sherry (optional)

Wash, pare, and boil the potatoes until tender. Drain, mash, then add the egg and 1/2 tsp. of the salt and half of the pepper; beat until fluffy. Simmer the codfish, covered, in boiling water to cover for 15 min. Drain, remove skin and bones, and arrange codfish, tuna broken in large pieces, and shrimp (from which black vein has been removed) in a 1 1/2-qt. casserole. Meanwhile, melt the butter in top of double boiler, add the flour and mix well. Then add the bouillon cube, which has been dissolved in the boiling water, the milk, and remaining salt and pepper, and stir until thickened. Remove from heat and add sherry. Pour over the fish. With a tablespoon arrange the mashed potatoes around the inside edge of the casserole, heating them up to make a frame. Bake in a hot oven of 450° F. for 10 min., then place under the broiler for 3-5 min. or until the potatoes are golden brown. Serves 4 to 5.

TIMELY TIPS

ON THE CARE OF YOUR ELECTRIC REFRIGERATOR

from your electric service man

Follow the suggestions below and you will enjoy even more economical and efficient service from your always dependable and inexpensive-to-operate electric refrigerator.

DEFROST REGULARLY. When frost becomes thick on the freezing unit, it acts as an insulator, preventing efficient cooling and also resulting in extra running of the motor. Frequency of defrosting depends upon atmospheric humidity and moisture content of foods stored. A good rule is to defrost whenever the frost on the freezing unit becomes three-eighths of an inch thick.

KEEP CONDENSER CLEAN. The condenser looks like a finned radiator. In some models it is housed with the motor and compressor; in others, it is behind a removable shield on the back of the refrigerator. Use a long bristle brush or the suction hose from your vacuum cleaner to

clean off all dirt and lint. This will permit quicker condensation of the refrigerant and result in more economical operation.

OIL PER INSTRUCTIONS. If your refrigerator has an open type unit, it should be oiled regularly in accordance with manufacturer's instructions. If it has a sealed unit, it does not require oiling. In case you do not know how to oil your refrigerator, consult the dealer from whom you purchased it.

DO NOT CROWD STORAGE SPACE. Since free circulation of air inside the food cabinet is necessary to maintain proper temperatures economically, dishes and other containers should not be crowded too closely together on the shelves.

WATCH TEMPERATURE SETTING. To keep down operating cost do not set control for colder than necessary. Food compartment temperatures should not go below 38 degrees or above 48 degrees.

SPECIAL NOTE TO VACATIONISTS

Before you leave on your trip, be sure to turn your temperature control to the vacation setting, or if no vacation setting, to the lowest setting. This will protect any food left in the refrigerator and keep operating cost at a minimum. Excessive heat and lack of air circulation in a tightly closed house will cause an unused refrigerator to run as much or more than it would in normal use, so leaving it on a high setting wastes electricity.

If you plan to be gone for a considerable length of time and wish to disconnect your refrigerator, be sure to consult your dealer for instructions on proper adjustments to be made. Otherwise the refrigerating cycle may be thrown out of balance. This applies only to open unit models. No adjustments are necessary on sealed units.

German submarines to get into Pacific waters.

Another factor which has our navy command worried was that last week, while part of the Japanese fleet left for French Indo-China, another part left for an unnamed destination off into the Pacific.

It is suspected that the Japanese may be paying a visit to Chile, perhaps stopping en route at the Galapagos islands, which the United States is now trying to lease for a naval base to protect the Panama canal.

Another reason is the fear that Hitler, having secured part of the French fleet, might pool forces with the Italians (after the end of the British campaign) and make a foray into American Atlantic waters. With part of the Japanese fleet simultaneously in Chilean waters, the problem of defense would be difficult.

Mechanical Sleuths.

Uniformed guards make nightly inspection rounds in the big government buildings, but the real sleuths of the multi-million dollar structures are electrical machines. Elaborate automatic signal systems, equipped with buzzers, bells and lights instantly detect trouble and flash the alarm.

Most modern of the automatic watchdogs is the system in the stately Greco-Roman Federal Reserve building on Constitution avenue. Its electrical controls make a written record of everything that goes on, with a special feature known as the "operator's delinquent system."

If the operator falls asleep or meets with an accident, red lights flash all over the building. The device also tattles on guards who fail to punch patrol boxes on time.

Note—All the guards and elevator operators in the Federal Reserve building are college students. They are the handsomest crew in Washington.

Political Chaff.

Latest aspirant to enter the congressional arena is squat Louis B. Ward, editor of Father Coughlin's Social Justice. This is Ward's second try. In 1936 he ran for a Democratic senatorial nomination without success.

When pretty Janelle Johnson, five-year-old daughter of Rep. Jed Johnson of Oklahoma, was told that little brother Jed Jr. had sat on the President's knee, she shrugged her shoulders and replied airily, "Him, that's nothing. I kissed him."

U. S. ARMY UNIT—

bragging about how Mills county would welcome the soldiers, but he admitted that their treatment was even finer than he had expected. He is the son of Lige White, former Mullin resident.

Another Texas boy who attracted attention was Pfc Alton Calhoun, a member of the band. He was a graduate of the Methodist Orphanage in Waco, which is warmly supported by Goldthwaite Methodists, and for that reason felt a personal interest in the people here.

Red Cross Display.
Misses Mary Margaret Bigham and Alline Sumner, dressed in Red Cross uniforms, proved attractive and successful workers for Red Cross memberships and volunteers for the Red Cross sewing room here. An Army tent was set up especially for use as Red Cross headquarters during the day.

A Community Project.
One of the finest things about the welcome and entertainment provided the soldiers was the hearty and unanimous cooperation given by everyone called on to assist in any way. It was truly a demonstration of community spirit, and it would be impossible to single out any group or individual for special commendation. The only complaints voiced were from those who had not been called upon to help.

The soldiers made an equally fine impression upon the citizens. They were clean, intelligent, attractive young Americans with whom it was a pleasure to associate. Goldthwaite and Mills county will be happy to have them come back again.

POLITICAL RALLY

Center Point is extending an invitation to the candidates of Mills county to speak at our school house Monday night, July 15. We ask all to be present.

Two string bands, from Star and Goldthwaite will provide the musical entertainment.

NOTICE

I will be in Goldthwaite and will speak to you on my candidacy for representative of the 104th district at 3:00 o'clock Saturday afternoon, and will have plenty of music.

SETH MOORE.
—Paid Pol. Adv.

Wake Up, Mills County

Mills county needs only 54 people to reach the 8,000 population that is necessary to retain a

District Clerk's office. If you have not been counted in the Federal Census, report your name to Mrs. Cora Keese at the court house in Goldthwaite, immediately.

FOR STATE SCHOOL SUPT.

Mr. Woods was born in Newton County, Texas, reared in San Augustine county, taught school in these and adjoining counties prior to moving to McLennan county where he taught and served as County Superintendent. From this office the people elevated him to his present position. His services in the rural schools, and as high school teacher, high school principal, superintendent of schools, instructor in college, and as State Superintendent, reflect credit to himself and to those who have labored with him. He holds the degree of Bachelor of Arts, Master of Arts, and Doctor of Laws from Baylor University. He is an untiring worker.

E. E. DAWSON, Pastor

All regular services will be held next Sunday. Sunday school at 10:00 a. m. Worship service at 11:00 a. m. Baptism at the morning worship hour and observance of the Lord's Supper.

B. T. U. meets in all departments at 7:15 p. m., except the Senior Union, which meets immediately following the evening worship hour. Evening worship at 8:15.

Cordial invitation to everybody.

We are sincerely grateful to all who have attended the revival and who have given a hand of help in any manner whatsoever.

Baptist Revival Closes.
The revival at the First Baptist Church came to a close Thursday night, pronounced successful in every regard. The Rev. C. B. Jackson, First Church, Greenville, was the evangelist and pleased all hearers with his straightforward messages and his great earnestness. The Rev. Oliver D. Riley led the music efficiently and directed the work among the young people. A pleasing phase of the revival was the work of the Juniors, an average of 50 of them reporting each evening for the special work. There were many additions to the church membership and a general strengthening of all the workers.

CHAPTER 85.

AN ORDINANCE TO BE A PART OF THE CODE OF ORDINANCES OF THE CITY OF GOLDTHWAITE, TEXAS, REGULATING THE USE OF BUTANE AND OTHER LIQUIFIED PETROLEUM GASSES IN THE CITY OF GOLDTHWAITE, TEXAS, PROVIDING FOR AND REQUIRING THE INSTALLATION OF STANDARD FIXTURES, DEFINING STANDARD GRADE, REQUIRING INSPECTION AND APPROVAL BY THE CITY ENGINEER, REGULATING TRUCKS AND TRUCK TRAILERS IN THE CITY, PROVIDING FOR INSPECTION, DESIGNATING THE FIRE LIMITS, REQUIRING THE TREATMENT OF GAS WITH A MALODORANT, PROVIDING AND ASSESSING A PENALTY, AND DECLARING AN EMERGENCY.
BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GOLDTHWAITE, TEXAS:

Article I.

Section 1. Any person, firm or corporation, hereafter installing any equipment for the use of Butane or other liquified petroleum gas, in any house or building of any kind or character, within the city limits of the City of Goldthwaite, Texas, shall use and install only standard equipment, approved by the Underwriters Laboratories. No Butane or liquified petroleum gas shall be kept in any containers in the City of Goldthwaite, Texas, either above ground or underground, except in a standard tank or container, approved by the Underwriters Laboratories, and bearing their label, properly installed underground, according to the regulation of the National Board of Fire Underwriters.

Section 2. Standard Grade means that any article used for the above purposes, shall be such as complies with all fire regulations of the State Fire Insurance Commission, and is accepted by all dealers, as first class equipment.

Section 3. Any such equipment so installed or repaired, shall be done in a workmanlike manner, complying with all the laws and regulations of the City of Goldthwaite, Texas, and shall not be used until approved by the City Engineer of the City of Goldthwaite, Texas. Any person so using such equipment without approval, and any person furnishing fuel to be used therein, shall be deemed guilty of violation of this ordinance. An inspection fee of \$1.00 shall be charged the person or firm installing the equipment which shall be paid to the Engineer for his certificate of approval.

Section 4. All tank trucks and tank trailers used for the transportation of Butane or other liquified petroleum gasses in the City of Goldthwaite, shall be standard equipment, and so constructed and operated as to comply with the regulations of the National Board of Fire Underwriters, and National Fire Protection Association. Should any defect appear in such equipment, the said equipment shall be immediately removed from off the streets of the City of Goldthwaite, and not used thereon again, until such defect is remedied. No tank truck or trailer for transporting or containing such gasses shall be kept, repaired or parked with in the fire limits of the City of Goldthwaite, Texas.

Section 5. The Fire Limits of the City of Goldthwaite, Texas, are here defined as follows:
BEGINNING at the intersection of sixth and west front street;
THENCE north 17 west with the center of west front street to the intersection of west front street with second street;
THENCE south 73 west with the south line of second street to the alley in the north line of Block 7;
THENCE south 17 east with alley, through Blocks 7, 11, 16 and 21 to the center of Block No. 21;
THENCE north 73 east crossing Block 20 and Block 19 to the center of west front street;

THENCE north 17 west with the center of front street to the place of beginning.
Section 6. All liquified Petroleum gas sold within the City of Goldthwaite, Texas, shall be treated with a malodrant in such quantities as regulated by the State law, to create an odor

easily detected in case of leaks in piping or equipment.

Section 7. Any person, firm or corporation, violating any portion or provision of this ordinance, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be fined in any sum not to exceed One Hundred Dollars. Each day of the use or operation of such equipment in violation hereof, or without securing a certificate of approval from the City Engineer, shall constitute a separate offense.

Section 8. In the event that any portion of this ordinance is held invalid, the remainder and valid part shall, nevertheless, be enforceable, regardless of such holding.

The fact that no law or ordinance now exists, regulating the handling and use of Butane or other liquified petroleum gasses, in the city of Goldthwaite, creates an emergency and imperative necessity for the immediate preservation of the public welfare and safety. This ordinance having been read at a previous regular meeting of the City Council, any other or further time was waived, and it was passed to its third and last reading, and on vote of the council, unanimously passed. This ordinance shall be effective from and after its passage and approval by the mayor and publication in the Goldthwaite Eagle as provided by ordinance.

Passed by the City Council of the City of Goldthwaite, Texas, on July 1st, 1940.

Approved by the Mayor of Goldthwaite, Texas, July 8th, 1940.

H. G. BODKIN,
Mayor of Goldthwaite, Texas

Attest:
F. P. BOWMAN,
City Secretary.

Reduction in Interest Rate for Mills County Farmers

Members of the Goldthwaite and Star National Farm Loan Associations and those who have Commissioner Loans serviced through these associations, will benefit greatly by the bill just passed by Congress, retaining the interest rate of 3½ per cent on Government loans. It is estimated that the saving in this county will be approximately \$18,000.00 per year.

The temporary rate of 3½ will continue on both classes of loans for a period of two years, ending on June 30, 1942. All commissioner loans were written at the contract rate of 5 per cent, while the average rate on Federal Land Bank Loans was 5 per cent.

At present in Mills county, 486 farmers have land bank and commissioner loans, aggregating \$1,209,279.00.

A. G. Black, Governor of the Farm Credit Administration in Washington, said that the savings to farmers through reduced interest will have the same effect as increasing the farmer's net income. I quote the following from his statement.

"The ultimate purpose of the reduced interest rate on Land Bank and Commissioner loans is to help farmers keep down their fixed charges, and thus leave more income for the retirement of debt principal, or to meet necessary operating or living expenses. Money saved on interest charges will thus be reflected in increased purchasing power, benefitting both industry and agriculture, and also will help in a measure to raise farm living standards, and safeguard farm ownership."

Be sure and read the program for the Annual Stockholder's meeting appearing in the next issue of this paper. The meeting will be held on July 20, in the District Court room.

F. P. BOWMAN,
Secretary-Treasurer.

JULY FOURTH HOUSE PARTY
