The Eagle Editor Says Good-Bye

Elsewhere in this issue of THE GOLDTHWAITE EAGLE there appears the announcement of the sale of this newspaper and The Eagle Publishing Company to Mr. and Mrs. Charlie T. Wilson effective April 1, 1943. The decision to sell the EAGLE was hard to make. It was nearly half a century ago that Mr. Thompson and I and our baby daughter moved to Goldthwaite. He soon purchased the Eagle and published it continuously until 1920, when he sold it to the late Dr. Em. Wilson who, assisted by his capable sons, published it until 1929 when it was re-purchased by Mr. Thompson and the late W. C. Dew. In 1931 our son-in-law, M. Y. Stokes, Jr., joined the firm.

In 1936 Mr. Thompson passed away, and my daughter, Mrs. Stokes, and I bought Mr. Dew's interest. Two years later my daughter was called away to join her father, and I was left to manage the business alone except for the occasional assistance my son-in-law, whose time was fully occupied as Postmaster, could give me. Two years ago Captain (now Lieutenant Colonel) Stokes was called to the Army. A few months later Mr. and Mrs. Wilson returned to Goldthwaite and to the Eagle. Turning the business over to them now is much easier for me than it would be to sell it to strangers, and I feel sure our subscribers and advertisers will be glad that their Mills County paper is to continue under the Wilson's competent, friendly ownership.

With this issue the EAGLE belongs to them, and I am now just one of its family of readers. But before I say good-bye as Editor, I wish to say thank you to our subscribers, many of whom have not missed a copy of the EAGLE for more than 40 years. I will miss the friendly visits to my office of so many of you who live on farms and ranches all over Mills County. I want also to thank especially the loyal group of community correspondents, who, without recompense or reward, have so faithfully chronicled in their letters to the EAGLE the happenings in their communities and have recounted the life histories of their neighbors, some, literally from the cradle to the grave.

I wish to thank too those subscribers from distant places whose memories of Goldthwaite and Mills County were kept alive by the EAGLE's weekly visits. To those who have written words of praise and of encouragement or of sympathy, I owe a still deeper debt of gratitude which I gladly acknowledge though I cannot repay in full.

To our advertisers who week after week have published their messages on our pages, my thanks are again publicly expressed. They are making this a better town and county in which to live, one which those who leave it are always glad to turn back to.

I know that you will give the Wilsons a hearty welcome as the EAGLE's new owners, and I know that they will repay your confidence with a paper you will continue to enjoy. They also will be striving to make this a better community for you and for your children.

And so the time has come, as Editor, to say good-bye. As editor only, I am glad to say, for as your neighbor and friend I hope to remain one of you for the years to come. While I have sold the EAGLE, its assets and good will, I still possess and shall always cherish the priceless memories that were nurtured by the paper but are now entwined about my heart.

To all of you, then, as editor, I say good-bye, and may God bless you everyone.

MRS. R. M. THOMPSON.

GOLDTHWAITE EAGLE BOUGHT BY WILSONS

With this issue of the Goldthwaite Eagle, the publication is under the ownership and management of Mr. and Mrs. Charlie T. Wilson, they having bought the Eagle Publishing Company business on April 1 from the

former owners, Mrs. R. M. Thompson and Lt.-Col. M. Y. Stokes, Jr.

On April 1, 1920—exactly 23 years ago—the Wilsons first bought the business from Mr. Thompson, who established it in 1894, the Wilsons running it until 1929, when it was sold back to him.

A more extended outline of the new owners' plans will appear next week.

H-D Club Members Planning For Food Production

Sec. Wickard Says Food Will Win War, Write The Peace

Secretary Wickard has said, "Food will win the war and write the peace."

The Home Demonstration women of Mills County have pledged themselves 100 per cent strong to help produce the food not only to feed Mills County and the Mills County boys in the armed forces, but to help supply food for the Allies, the United Nations. The farm women realize they must have a good supply of food to be healthy, to work, and to be able to contribute their share to the war effort.

One hundred and 32 Mills County Home Demonstration Club members met in 11 different club meetings with Home Demonstration Agent, Mrs. Geraldene McCullough during January and discussed and planned for the 1943 production, conservation, and intelligent use of home food supplies. Each of these 1943 club members renewed the Victory Demonstration Pledge in that they pledged to have a 10 per cent increase in poultry production, to conserve and preserve more food than they did in 1942, to buy wisely those things they absolutely have to have, and to take care of all household equipment and furnishings.

In the Home Food Supply Demonstration, Poultry, Gardens and the Dairy phases will be carried out. For the month of January, the clubs planned for the demonstrations after which the agent gave a demonstration on meats. The following is an outline used:

1. Why "Share the Meat?"
2. How will this affect the families in Mills County?
3. Use of Variety Meats. (Actually prepared one variety meat).
4. Meat Stretching. Gave out pamphlet "99 Ways to Share the Meat." Discussed the use of protein foods in diet and had barbecued lima beans prepared and served that to the members present.
5. Curing of Pork.

As a result of this demonstration, the following results were reported by the council delegates in the March meeting: 15,500 pounds of meat have been cured; 20 women have put the meat down in oil; 5 have used the yellow wash method; 25 who were unable to get the oil used ashes to put the meat down; 1,000 quarts of meat have been canned (the raw method of canning was shown at several of the clubs); 86 women had used meat substitute recipes; 75 women had made lye soap from old meat scraps.

Mrs. Mac Horton, Home Food Supply Demonstrator, built a new garage, and included a ventilated room to hang the pork she has cured. Two women are going to cure a beef by using the same methods as they do pork. There will be around 50 women who will butcher and can beef during 1943. One woman butchered a goat and canned around 50 No. 2 1-2 cans of chili.

Many people in Mills County will butcher a sheep and have their own lamb chops this year.

Red Cross Knitters

All Red Cross knitters are asked to please bring their knitted garments, finished or unfinished, to Mrs. Burks' office by Saturday, April 10.

A report is to be made on the progress of the knitting, and it will be necessary to have an inspection of all garments.—Mrs. L. E. Miller, Red Cross Knitting Chairman.

By GERALDENE SUMMERS McCULLOUGH Mills County Home Demonstration Agent

HOME FOOD SUPPLY AND PRODUCTION

Mrs. Lee Conway, of the Midway Club said after the club meeting in February: "This is the most beneficial meeting we have ever had in Home Demonstration work."

From the following, one will get an idea of what 16 Home Demonstration Clubs, 2 unorganized communities, the people who attended an FSA meeting, and the people who attended an AAA meeting, and the women (more than 30) who attended a Garden Club meeting received in February and March:

After presenting to the group a 12-months' supply (33 pounds) of all foods to be bought under point rationing, the group was more eager than ever to talk about Victory Gardens. A box of Victory Garden Seed was shown the groups.

Then at the Home Demonstration Club meetings we had what we called a VICTORY TOUR which included looking over the garden space and frame gardens. The old saying that the most valuable acre on the farm is the one planted to the garden packs more truth this year than ever before.

Every Home Demonstration woman in the county will have a garden this year; 48 had fresh vegetables from their frame gardens during January. Mrs. M. C. Smith of the Prairie Club said, "For our Christmas dinner we had carrots, beets, onions, potatoes, greens from our garden."

Mrs. George Shady of the

Pleasant Grove H. D. Club has a large 3x15 feet frame garden in her back yard. Right now she is using lettuce from it.

Mrs. Roy Simpson, president of the Live Oak Club, demonstrated the making of a frame garden in the February meeting. She is having a sub-irrigation system to use for it.

Approximately 150 women in the county are raising their own tomato and cabbage plants this year.

Continuing the Victory Tour, we went to the chicken and brooder house at which time the agent gave pointers on the care of baby chicks and showed the group a home-made lamp brooder. As a result of the home-made lamp brooder demonstration, around 30 women are using this for the first time this year.

There is certainly a profit in poultry and eggs now if handled correctly, but in order to realize a clear profit one must be prepared to raise chickens. Mr. and Mrs. Floyd Sykes, of the Big Valley Community, kept a complete record on their flock of 150 layers during 1942.

Monthly Egg Receipts: Jan., \$57.34; Feb., \$69.32; March, \$75.95; April, \$67.25; May, \$70.70; June, \$64.64; July, \$50.25; Aug., \$37.14; Sept., \$31.97; Oct., \$19.65; Nov., \$27.76; Dec., \$33.05. Total, \$604.96. Total expense, \$352.71; profit, \$252.25.

Mr. and Mrs. Sykes are proud of the progress they have made. Says Mrs. Sykes: "Poultry raising really requires a lot of work, and that is every day of the year. However, if one is equipped there is a profit in chickens. We have enjoyed keeping a day-by-day account of our chickens for we can see just exactly where every penny goes."

Along the orchard line—we see five women Victory Orchard Demonstrators who are working diligently with the pruning and spraying. Again the Home Food Supply demonstration gave ideas on how each person living on the farm could have an orchard plot, and improve the orchard. The bulletin "Orchard Management" was distributed to over 250 people. At seven of the meetings the home demonstration agent gave a demonstration on the proper methods to use in pruning the fruit trees.

4-H CLUB GIRLS TO RAISE POULTRY

The 4-H Club girls have indicated that they will raise around 17,230 chickens in 1943. Patricia Lockridge, Victory Poultry Demonstrator, from the Midway 4-H Club is helping her father build a 32x18-foot poultry house, which will be made from rocks. The roost will be separated from the laying and feeding room.

Anna Bell Wasserman, from Duren 4-H Club, has already bought five \$25 bonds from the eggs she has sold from 96 last May pullets. She won grand champion on the White Leghorn trio at the Livestock Show.

Along the garden line—we see every 4-H Club girl in the county has pledged to help with a Victory Garden this year.

VICTORY DEMONSTRATORS' MEETING

Twenty-seven Victory Demonstrators met Saturday, March 27, in the office of Mrs. Geraldene McCullough, Mills County Home Demonstration Agent, for the purpose of planning their 1943 program. Women and girls who have enrolled as Special Victory Demonstrators from 12 different club were represented.

Garden, Poultry, Orchard, Kitchen Improvement, and Home Improvement demonstrations are being carried out throughout the county this year. Mrs. Harvey Hale, Jones Valley Victory Demonstrator, told of how she and her husband built a new home for less than \$350.00. Mrs. F. W. Chadwick, Scallorn Home Demonstration Club president, has just finished remodeling her kitchen. She stated her egg and milk checks paid for her new kitchen.

Frances White, president of the Mullin 4-H Club, told what the 4-H Victory Demonstrators of the 4-H Club were doing to help win the war. They have started a Waste-Fat drive and will work intensively on this for two weeks. If it proves to be a success, a certain day will be designated as Waste-Fat Day at which time all of the 4-H Club Kiddoes as well as every child in school will bring waste fat and turn it over to the 4-H committee. Not only is this an energetic group in collecting scrap fat, but also in other things. When the Homemaking teacher told the president of the 4-H Club that the Future Homemakers were through with the frame garden this spring, the 4-H group immediately converted the frame garden into a hot bed and planted tomato seed so that they could sell the plants. Many of the girls are going to raise tomatoes as their victory demonstration.

Rose Martinez, a Mexican 4-H Club girl who is out of school, told how she was going to dry squash, corn, okra, and other vegetables this year. Said Rose: "We do not like canned squash, so we will try out the drying system of preservation."

After the meeting adjourned, several pictures of the group were made.

SPRING CONDITIONING URGED BY CHEVROLET

Declaring that the arrival of Spring this year brings with it a critical stage in the preservation of the nation's automotive transportation system, Ed Hedner, national director of service for Chevrolet, urges the individual car and truck owners of America to accept as their patriotic duty the responsibility of making sure their vehicles are thoroughly and properly "Spring conditioned."

"There are many reasons why it is tremendously important for owners to accept such responsibility this year," he said. "Sub-normal driving at low speed, plus the attendant inclination of many owners to neglect proper service, and the rigors of severe winter conditions in many sections of the country have exacted heavy toll of the nation's cars and trucks.

"Whether or not our motor vehicles will continue to function effectively in getting war workers to and from their jobs, and in transporting an increasing volume of war materials depends, to a large extent, on how well the individual owners respond right now to appeals from the government as well as the industry to put their equipment in the best possible operating condition."

Vital statistics of the nation's car and truck "population" were offered to point up the urgency of the situation and to impress upon owners their responsibility in maintaining transportation vital to the war effort. The statistics show that prior to Pearl Harbor, more than 5,000 passenger cars and 1,500 trucks, consigned to the scrap heap, left

Today with the birth rate "zero" as the result of the cessation of production of cars and trucks for civilian use, it is pointedly plain, according to Chevrolet's national director of service, that we must take good care of every vehicle now in operation, to assure its enduring usefulness in helping to win the war.

ELECTRIC POWER IS AMERICA'S NO. 1 WAR WORKER YOU DON'T NEED A RATION CARD TO USE YOUR ELECTRIC SERVICE

ELECTRIC POWER is the only essential of war production that is available without restrictions. Electricity is an essential ingredient of all war materials. It enters into the manufacture of Tanks... Planes... Guns... Ships... Bombs... Bullets. Power is a part of arms the soldier carries, the uniform he wears, the food he eats. Since the war began the demand for electricity in war production has multiplied enormously, but despite that fact it is still available in unrestricted quantity not only for war plants and military establishments—but for civilian use as well.

We are also proud that it has been our good fortune to serve the good people of Goldthwaite and Mills county all these many years. Self Culture Club

One of the most interesting meetings of the club year was held at the Home Economics Cottage on Thursday with Mrs. J. H. Saylor, Miss Dera Humphries and the F.H.T. girls acting as hostesses.

The subject for the day was "Food For Freedom" and Mrs. J. M. Campbell was program leader. The opening number was a vocal selection "To A Wild Irish Rose," sung by Mrs. Marsh Pohnson, accompanied by James Smith on the clarinet.

Mrs. Bruce Campbell then introduced three of her pupils who gave most instructive and interesting talks. Miss Bobbie Obenhaus talked on minerals and why we need vitamins in our food, Barbara Carter on vitamins and their importance in our diet, while Miss Macalee Long discussed proteins. These talks were most helpful, especially since rationing.

Mrs. J. H. Saylor explained how correct diet plays an important part in making the Anzac soldiers so husky.

Delicious punch and cookies prepared by the F.H.T. club girls, were served by Mrs. Bruce Campbell and Misses Macalee Long, Bobbie Obenhaus, Barbara Carter, La Nelle Morris, Patsy Shaw, and Gladys Evans.

SUCCESSFUL AUCTION FOR RED CROSS FUND

The horse donated by Bud Oden and the mutton donated by Talmage Chapman were sold at auction last Saturday afternoon. The horse was bought by Key Johnson for \$50, and the mutton sold 15 times and was bought by the following men:

Jot Tucker and P. S. Jernigan, \$10; G. T. Feazle, \$10; Will Rose, \$10; Malcom Jernigan, \$7; E. D. Kelly, \$10; J. D. Calaway, \$11.50; C. Locklear, \$12.50; Luther Rudd, \$10; Delton Barnett, \$14; C. B. Allison, Jr., \$10; Luther Rudd, \$10; E. J. Word, \$10; Fred Johnson, \$16; Geo. Fletcher and C. O. Norton, \$15; D. G. Barnett, \$5.50.

The following did not get to bid on the mutton, but made the following donations: Frank Lampman, \$5; Clyde Cooksey, \$5; Friend of Red Cross, 50c; P. A. Burkes, Jr., \$3. Total \$175.00.

The sale was conducted by Malcom Jernigan, assisted by Delton Barnett. We wish to thank all the men who helped to make this sale a success. Mills County is well over the top but the more money the Red Cross receives the more they can do for the men in service. If you have not donated to the War Fund and want to have a part in this great work, you can still make a donation.

The \$225.00 from the sale of the livestock was credited to the following communities: Goldthwaite, \$108.50; Mullin, \$86.50; Big Valley, \$14.00; Prairie, \$16.00.

BRIAN SMITH, Chairman.

THE FAIRMAN TEST HITS ELLENBURGER

The oil test well being drilled on the E. T. Fairman land west of Goldthwaite reached the top of the Ellenburger lime of Ordovician age at 2,495 feet. This means a second proof of the structurally high position of this well. The elevation of the well has been judged from the USGS topographic map as being 1,510 feet. The Robertson well drilled three miles NW of the Fairman test encountered the Ellenburger lime taken from available sources at 2,664 feet with a surface elevation of 1,400 feet, the Lane Spinks well 5 3-4 miles NNW of the Fairman would have encountered the Ellenburger at 2,625 feet with a surface elevation of 1,251 feet, and the Burdett well drilled by Emil Ott and associates 13 miles north of the Fairman well encountered the Ellenburger lime at 2,915 feet with a surface elevation of 1,650 feet. The Ware-Haywood-Ware well 7 miles SSE of the Fairman well would have found the Ellenburger top at an estimated depth of 2,773 feet with a surface elevation of 1,248 feet.

This means that the Fairman test is running structurally from 289 feet (in comparison with the Robertson well) to 540 feet (in comparison with the Ware well) higher than the surrounding tests, which have been drilled for oil in this area since 1918.

Operations at the well have been resumed again after a shut-down of two days, while new drilling line was being brought to the location.

THIS WAR DOES THINGS FOR US

By I. S. BOWLES

It may be wishful thinking, but the signs of the times indicate to me, at least, that this war is going to have good effect upon our people religiously.

At the close of the American Revolution the religious state was chaotic. There was a reign of irreligion, and infidelity was rampant throughout the country.

The same situation was apparent throughout our country at the close of the War Between the States.

But this is a different kind of war. Never in all the world's history has there been anything comparable to it.

At other times it has been a fight between people; a fight of flesh and blood. This made it in a sense a personal matter between combatants.

PETER AND JOHN BECOME DISCIPLES OF JESUS

LESSON TEXT--John 1:29-42; Mark 1:16-20. GOLDEN TEXT--And Jesus said unto them, Come ye after me, and I will make you to become fishers of men.--Mark 1:17.

Personal faith in Christ is the heart of Christian experience. Since persons are won by other persons it was vitally important that the Lord choose the right disciples at the very beginning of the Church.

Sugar--Coupon No. 12 good for 5 lbs. Must last through May 31. Coffee--Stamp No. 26 (11b.) expires April 25.

NO RESTRICTIONS ON FOOD IN LOCKERS

Food in frozen food lockers may be used by farmers and other consumers without rationing restrictions. The total amount of perishable food stored in lockers in private homes, on farms, and in commercial plants is considered too small to justify the inconvenience it would cause all consumers either to have this food declared, or to place any legal restrictions on its use.

SOLDIERS BACK TO FARMS

The War Department has announced procedures by which soldiers, as individuals, may obtain discharges from the Army to return to their farms.

Soldiers on active duty in the continental U. S., who are 38 years of age and over, may be discharged upon favorable consideration of written applications submitted prior to May 1, 1943.

These requests must be accompanied by a letter or statement from local farm agents to the effect that the soldiers will be employed in essential agricultural activities if discharged from the Army. Such requests are made by the soldier to his immediate commanding officer. A soldier meeting these requirements will be discharged promptly unless his release will seriously affect the efficiency of his unit.

DRIVE AGAINST BLACK MARKETS

A total of 783 court actions against 1,025 individual defendants have been begun in the first two months of OPA's intensive drive to stamp out black markets in meat. Of the total, 149 were criminal actions against 246 defendants, and 634 were civil actions against 779 defendants.

They charge wholesalers, packers and retailers with delivering meat for civilian use in excess of permitted quotas or selling it at higher than ceiling prices or both.

FARM MACHINERY

The Government freeze on the last item of farm machinery need for food crop production has now been lifted. Distribution directives for all haying and harvesting machinery are expected to be issued to manufacturers before April 15.

Approximately 75 percent of all types of rationed farm machinery, which was frozen November 1, 1942, has now been freed for distribution and local rationing through county war boards.

MORE FROZEN FOODS FOR '43

Expanded facilities for producing quick-frozen foods are expected to bring total frozen vegetable production to over 200 million pounds in 1943. The increase in output will be primarily to meet expanding requirements of the armed forces.

Approximately 39 percent of the will be available to civilian consumers, and will give them a total of about 180 million pounds--about 20 per cent more than in 1942.

RESTRICTIONS ON SEED POTATOES

Seed potatoes cannot be sold by retail stores for any purpose other than planting, OPA has announced. OPA has ruled that seed potatoes must be tagged as such in sales at retail and can not be sold by retailers in quantities of less than 50 pounds.

Similar steps were taken by OPA March 18, 1943, at the country shipper and other distributor levels. The amendment became effective March 25 and is expected to help curb the potato black

AMERICA Free Enterprise

These words from a recent advertisement are worth reading twice: "A drum, a little red wagon, a picture book; these are gifts that bring joy to a boy's heart. But you can give him a far greater gift. You can give him the right to live as a free American."

It took Germany nine years to build enough plants and equipment to fight this war; it took Japan 25 years, Russia 20 years. American industry, under free enterprise, has done it in two years.

Dr. Cox urged that all Texans cooperate in making Health and Clean-Up Week a complete success since its worthwhile objective is to lessen needless losses by fire and help maintain the highest possible health level in this State.

State Department Health Notes

Governor Coke R. Stevenson has named April 4 to 10 Health and Clean-Up Week by official proclamation, and expressing his appreciation for this act, Dr. Geo. W. Cox, State Health Officer, declared today, "The old adage that 'cleanliness is next to Godliness' from the practical standpoint is well worth emphasizing."

Cities and towns in Texas will observe this week by conducting clean-up programs of far-reaching range. Scheduled to be included in their activities are cleaning, draining, graveling streets and alleys, cleaning parks and playgrounds and clearing off vacant lots.

"Destruction of mosquito breeding places and fire hazards, and the proper disposal of garbage and trash will be encouraged," Dr. Cox said, "as well as a thorough spring house-cleaning for cities and homes. Good house-keeping and ordinary sanitary measures demand the prompt removal of all waste matter in and around yards and homes in order to keep the premises clean. This will eliminate fire hazards and help to prevent the spread of many diseases, and no doubt, much scrap material will be collected which will aid in our war effort."

Dr. Cox urged that all Texans cooperate in making Health and Clean-Up Week a complete success since its worthwhile objective is to lessen needless losses by fire and help maintain the highest possible health level in this State.

GET SLAUGHTER PERMITS IMMEDIATELY

Deadline date for obtaining slaughter permits is April 1, A. A. Downey, chairman, Mills county USDA war board, reminded county slaughterers and butchers this week.

Announced by Secretary of Agriculture Wickard, the new meat management program contains three orders: (1) All livestock slaughterers who sell meat including farmers and local butchers, will operate under a slaughter permit system. As an aid to enforcement, each slaughterer must stamp his permit number at least once on each wholesale cut.

(2) All livestock dealers must obtain permits to buy and sell livestock and keep complete records of their operations. Farmers will not have to obtain dealer permits, but they are asked to keep records of their purchases and sales.

(3) All slaughterers who operate under federal inspection will set aside for war use designated percentages of their production. The new orders are designed to provide closer control over the slaughter of livestock and sale of meat so that black market operations can be stamped out and all meat brought into legitimate channels of trade where it will be available for war needs and for rationing among the civilian population.

Summing up the program for county farmers, A. A. Downey explained it as follows: (1) All persons who slaughter and sell meat must have permits by April 1; (2) All wholesale cuts of meat sold must be stamped with the permit number; (3) All livestock dealers must have permits to buy and sell livestock and keep complete records; (4) Farmers who slaughter for home use only do not need permits; however, permits will be necessary if any of the meat is delivered to others.

A list of all permits issued by the county USDA war board will be forwarded to the Washington office through the state war board, A. A. Downey said.

DAIRY COWS

To stop the slaughter of essential dairy cows and to keep a maximum of these animals in production, the Farm Security Administration has launched a vigorous nation-wide conservation program, Millard E. Williams, FSA Committeeman for Mills County, said this week.

There has been a big increase recently in the sale of dairy cows heifers and calves for beef, attributed in many areas to labor shortages and feed prices. In the face of increasing demands for milk and milk products to fill army, civilian and lend-lease needs, Food Administrator Claude Wickard has directed Commodity Credit Corporation to make funds available and FSA to furnish administrative personnel to cope with this situation.

"FSA supervisors in each county will buy outright good cows if necessary to keep them from going to slaughter," Mr. Williams explained. "These animals then will be resold, preferably to farmers who will keep them in production in the same county."

If FSA cannot dispose of these animals to keep them in production within the same vicinity, they will be sent to other parts of the state, or outside the state, where farmers have placed orders for milk cows with FSA. In some cases it will be desirable to redistribute the cows, where a surplus exists in one county and a shortage in another.

Already the plan is in operation in Dallas, Rusk and Bexar Counties, Texas, where the situation demanded immediate action to curtail depletion of herds, and soon will be extended to every other county, E. Lee Ozbin, FSA Regional Director at Dallas, said. The nation faces a serious milk shortage if productive cows, dry cows and calves for increasing herds and making replacements are not saved from slaughter, Mr. Ozbin warned.

Oil Development Activities Now Covers All Texas

April 1 - With every county in Texas now under development for oil and gas production, State and local taxes paid by this one industry in 1942 reached a new peak of more than 94 million dollars out of 236 million dollars levied in all business and property taxes, according to a survey just released by the Texas Mid-Continent Oil and Gas Association.

Facts About Texas Oil", just released by the Association, shows that 168 counties of the State are now producing oil and gas while leasing and exploring for new oil and gas fields are being carried on in all of the remaining 86 counties. Thus, for the first time it may truly be said that all of Texas is "in the oil business."

Analysis of State tax revenue, contained in the Association's new booklet, shows that the Texas petroleum industry now pays over 52 per cent of all business and property taxes. Including all local tax levies, this industry now pays 40 per cent of all taxes levied and collected from all taxpayers, exclusive of poll taxes and inheritances taxes. In many Texas counties, properties of the petroleum industry are the main source of tax revenue, comprising in some instances as much as 95 per cent of all local tax revenue.

Warning To Hitler And Hirohito!

"More to come." This was the warning to Hitler and Hirohito that employees of the Dallas Division of North American Aviation, Inc. painted on the first B-24 Liberator bomber which rolled this week from the assembly lines of the company's second plant at Dallas. The term was borrowed from the jargon of newspaper men who use it at the bottom of a page of copy when a story is unfinished. Lucille Kelly is holding the paint jar in the picture and C. H. Williams is putting the finishing touches on the sign. North American has been manufacturing TEXAN combat trainers in its initial plant at Dallas for nearly two years. It is also in the preliminary stages of turning out the famous P-51 Mustang fighter. The company is included in the B-24 program along with Consolidated, designer of the ship: Ford and Douglas.

The ten thousandth of North American Aviation's training Planes, known as "Texans," now is in service, J. H. Kindelberger, president of the aircraft firm, announced this week.

Production of more than 10,000 planes of one series; all evolving from and perpetuating the same basic design, is believed to be a world's record for aircraft output. The total includes both complete airplanes and equivalent airplanes produced as spare parts. Mr. Kindelberger explained. The planes are used by the air forces of 27 United Nations.

Since September 1, 1941, the Texans have been produced exclusively by North American's Dallas Division, which delivered its first three planes of the trainer series on April 7, 1941. Before the Dallas plant was opened, the trainer was built at North American's California plant at Inglewood.

"Completion of that ten thousandth plane was a significant milestone in the American Aviation industry," Mr. Kindelberger said. "When ten thousand

airplanes of one basic type can be built in such a short span of time, there is reason for sound optimism that American's aircraft industry can do the unbelievable job expected of it to assure the United Nations of armadas of the size, speed and striking power necessary to clear the skies of Axis planes throughout the world."

Prototype for the "Texan" series was the NA-16, the first plane designed and built by North American, which was put into service in 1934. Designing and building of the first NA-16 was accomplished in less than nine weeks' time.

A two-place, low-wing trainer, the NA-16 won an Army Air Corps competition and subsequently became the pattern for standard combat training equipment in many of the world's major air forces.

Other famous planes which have stemmed from this basic design include North American's BT-9, BT-14, BC-1, and AT-6's, as they have been designed by the Army Air Forces. Naval air

service designations for the same planes have been the NJ-1, SNJ-2, and SNJ-4. Planes of the same series produced for the British Empire have been known as the Harvard. On January 4, 1943, the U. S. War and Navy departments adopted the name "Texan" for the North American combat trainer.

Dear Mr. and Mrs. Pearl Shipman and Vida and Stone:
Received your letter yesterday and it was greatly welcome and heartily read. Sure was glad to hear you all are doing good. I am fine and doing better. Dee, I guess is doing good from his address he is rating good also. From the way the family writes the farming is all under control. I guess there is a good shortage in labor though. I sure was glad to hear about Ralph P., but it still sounds bad.

Sure do thank you for sending me Dee's address. I had lost contact with him, but maybe he does not have as much trouble in getting his mail as I do. Life here is better than it was at first, but still not so very good.

I think my time here is just about up, but of course can't
