NOTICE TO PATRONS GOLDTHWAITE P. O.

Under date of May 1, 1943, the Postal Department instructed all postmasters to insist that in the addressing of all mails that patrons include in each and every address the Rural Route number or city box number, the street number, and in case of service men's mail include the complete address as furnished by the service man. If you do not have a complete address, secure the same.

If each complete address is used on each piece of mail, the mail can be delivered more efficiently, and save time and trouble to patrons as well as employees.

L. B. PORTER, Acting Postmaster.

NEW RULES FOR FLEET TRUCK OPERATORS

A plan by which operators of fleets of commercial and non-highway vehicles, who frequently need many tires at a time, can file single applications for rationing certificates covering their aggregate needs was announced today by Bruce Burnett, Chairman of the Mills County War Price and Rationing Board.

This change from the previous requirement of a separate application for each vehicle is being put into effect for the convenience of the fleet operator and the War Price and Rationing Board receiving the application.

An application for a group of vehicles may be filed only when all the vehicles for which tires are being sought are:

1. Owned and operated by the same person and used for the same purpose; and
2. Principally garaged or stationed at the same place.

Vehicles covered by the application must be identified by license number, state of registration, year, model, make and body type. The information is to be set forth in an attachment to the application form.

The group application privilege cannot be extended to passenger car fleets, Mr. Burnett said, because in this case the mileage each car travels determines the type of tire for which it is eligible. Since the mileage varies between the cars in a fleet, eligibility classifications also would vary and group applications would not be feasible. Mileage is not a governing factor in commercial car eligibility since such eligibility is determined by the importance of the use to which the vehicle is put.

Effective date for the group applications is June 9.

9:45—The Church TEACHING.
 10:55—The Church Worshiping.
 7:45—The Church TRAINING
 8:45—The Church EVANGELIZING.

You will be interested to know that more than 40 people professed faith in Christ and another dozen or more joined the First Baptist Church, Dublin Texas, where the pastor helped in a meeting which closed last Sunday.

New Classes of Intermediate Girls

A new class of girls, ages 14 to 16, was organized last Sunday morning and Mrs. Ed Gilliam was elected the teacher. Ed Gilliam has been elected teacher of the boys' class of this age group. Mrs. R. V. Littlepage is the Superintendent of the Intermediate Department. These, together with Mrs. J. M. Hicks who teaches the 13-year-old girls, are planning and expecting bigger things in this department. If you are 13, 14, 15, 16 years of age you are invited to attend this department next Sunday morning. The meeting will be in the auditorium of the church.

The Vacation Bible School

The V. B. S. had a grand beginning last Monday with more than 80 enrolled in the school the first day. The school will continue through next week meeting each morning Monday through Friday at 8:45 and closing at 11:15. It is not too late to enroll now. Come today and every day next week.

The WMU will meet at four o'clock next Monday afternoon for a Mission Study Program directed by Mrs. Goldman. All women are invited to attend.

Mrs. Ernest Wilson and daughter, Mrs. Earl Armstrong, and baby Ronnie Earl spent several days this week with relatives in Ranger.

IN FOREIGN SERVICE

PFC. TROY N. BERRY

Mr. and Mrs. C. N. Berry have just received a letter from their son, Pfc. Troy N. Berry, who has been in foreign service since November 8. Young Berry stated he was feeling fine and the climate was agreeing with him. He was in the convoy that landed for foreign service on November 8, and he has been in active duty ever since.

ARE YOU SUPERSTITIOUS?

By W. P. WEAVER

When I took a test carried in a recent number of a popular magazine, I found I had always been superstitious. While I never believed in "hants," I whistled when passing a graveyard and felt spooky if a black cat crossed the road, and trustingly dipped my hands in stump water to take off warts. (Ask L. B. Porter about warts.) I never was exactly scared when a dog howled but felt better if he pointed his nose away from me.

Yet I boasted that I was not superstitious. But I made only four correct answers on the 15 questions. How superstitious are you?

Here are the correct statements:

1. A wild animal is more likely to attack you if you are afraid of it.
2. Only the female mosquito bites you.
3. Moss does not grow thickest on north side of trees.
4. Snow is not frozen rain.
5. A cameleon does not take the color of the object on which it rests.
6. An adder like all other snakes is deaf.
7. The sun is nearer the earth in winter.
8. A beaver does not use its tail as a trowel.
9. Venomous snakes are immune to their own poison.
10. Horned toads squirt blood out of their eyes.
11. The earthworm's "head" end will grow a new tail and survive but the tail end will perish.
12. A shark does not have to turn belly-up to bite.
13. An elephant is old at 50.
14. A humming bird can fly backward.
15. Squirrels frequently forget where they hide nuts.

You have heard this one "A century plant blooms at 100 years, then dies." Well, I have one in my yard now in full bloom that bloomed 3 years ago.

And this one "Lightning never strikes twice in the same place." But the Church of Christ steeple has been struck twice recently. However, I never met anyone who was struck twice by lightning.

In view of all this I'll never plant potatoes in the moon again nor observe Groundhog day.

Mr. and Mrs. Ollie S. White and son, James Ervin, and daughter, Mary Sue, of Temple spent a part of this week here with Mrs. White's sisters, Misses Abbie and Ruth Ervin.

A FARM WOMAN'S LETTER MAY WIN ALL-EXPENSE TRIP

The best letter telling a woman's story of wartime use of electricity on the farm will win for the writer on all-expense paid trip to a shipyard to christen a Liberty Ship to be launched about the middle of July, Mrs. Thomas League, Acting Superintendent of the Hamilton County Electric Cooperative Association, Hamilton, Texas, announced today. Mrs. League invited women on farms obtaining electric service from the REA-financed system to submit letters telling what they have done to increase food production for the war.

The Liberty Ship christening ceremony will be sponsored by the Rural Electrification Administration, in cooperation with the U. S. Maritime Commission and other agencies of the Government. REA Administrator Harry Slattery and other high dignitaries will be on the program, which will have food production and food transportation as its major theme, with special emphasis on the farm woman's part in the war.

Electricity in food production and public power in munitions production will also be featured. The ship is to be named the SS J. D. Ross, in honor of the late Pacific Northwest public power leader who was the first administrator of the Bonneville Power Administration.

Mrs. League said: "The christening of this ship by a farm woman will epitomize the splendid role that public power is playing in the production of food. Agricultural workers are using power to produce fighting tools.

"Every woman who has found a way to contribute to increased food production on her family's farm may have, in her own experiences, material for the kind of letter that can be used to dramatize the farm woman's part in the war.

"I know that dozens of women on farms served by the Hamilton County Electric Cooperative have had experiences from which others could profit. The woman who has learned to organize her household tasks for greater efficiency, through use of electrical equipment, so that she has had more time to devote to raising chickens, tending a victory garden, canning fruits or vegetables, or working with a dairy herd, should tell her story in a letter. Literary style is not important; the kind of story the woman has to tell about her own wartime work is all important. Every woman who can report on increased production despite the loss of a worker on the farm—and there are many on the lines of the Hamilton County Electric Cooperative Association should tell how it was done."

All letters submitted by farm women of this section should be addressed to Hamilton County Electric Cooperative Association and the best will be forwarded to the committee which will select the woman who will have the honor of christening the SS J. D. Ross.

AN APPEAL TO THE WOMEN OF MILLS COUNTY

With our husbands, brothers, sons, wives, sisters and daughters in the armed forces of the United States, the cost of equipping and maintaining them with everything they need is mounting daily. The government is asking us to keep investing more and more in War Bonds and Stamps.

Mills County is lagging behind—after so gloriously exceeding its quota in the Second War Loan Drive. The women of Mills County can find a few more dollars each to invest this safe and patriotic way.

So, I am calling on each of you to please see if you cannot make a special-effort buy, and get another bond.

MRS. JACOB SAYLOR, Chairman Mills County Women's Committee War Bonds & Stamps

OLD FOLKS AND OLD SETTLERS REUNION

The First Baptist Church of Goldthwaite will sponsor an old folks and old settlers' "Old Fashion Basket Dinner" and service on the Fourth of July. The Fourth comes on Sunday this year, therefore the old folks and old settlers are invited to attend the Sunday School and Preaching service of your own church and then bring dishes and silverware to the old fair grounds (the shade trees near the livestock auction yards) where the dinner will be served. Bar-B-Q, drinks and bread will be furnished. Graham Wall Superintendent of the Sunday School at the Baptist Church at Star, will furnish the beef and W. W. Fox, Goldthwaite, will prepare the drinks and the bread.

Old folks and old settlers from every community and from every church, and those of no church connections at all and from every walk of life are invited and urged to attend the dinner and service.

McKENZIE GIRL DIES FROM GAS EXPLOSION BURNS

Miss Greta McKenzie, 11-year-old daughter of Mr. and Mrs. Dutch McKenzie of Arlington, who was seriously burned at her home there Tuesday night, died Thursday morning at 10:30 o'clock.

The Fairman Company Funeral Coach left immediately to bring the body to Goldthwaite for burial some time today. Funeral arrangements were not complete at the time the Eagle went to press.

Mrs. M. F. Wallace of Mullin visited with her grandson, Arvil Johnson, who is very ill.

CAPT T. H. M'ARTHUR LEAVES OUTSTANDING MILITARY RECORD

On June 3, Mr. and Mrs. Tom McArthur of Caradan was notified by the War Department that their son, Captain T. H. McArthur, died on May 3 due to injuries received in an airplane accident. He crashed somewhere over the North African area in a G-10-L.O. on returning from a skip-bombing mission.

Captain McArthur leaves an outstanding aviation record. He was commissioned as Second Lieutenant October 31, 1941, in July, 1942, he was promoted to First Lieutenant, on October 22, 1942, to the rank of Captain, and on April 1, 1943, he became squadron commander. He has an official record of 501 flying hours and an additional 150 hours of combat flying.

Captain McArthur had been stationed in Iceland and North Africa since October 5, 1942. On June 12 his father received the official flight record from the War Department, crediting Captain McArthur with the destruction of five enemy planes, which classified him as a Flying Ace. He also bombed and sank one boat.

America Salutes Food Producers

NO inspiring bands and no glamour of uniforms and decorations cheer these unsung heroes of World War II. With patriotic determination dairymen toil long hours under serious handicaps of labor and material shortages to produce food so vital to the winning of the war.

Dairy foods are of front-rank importance in keeping fighters and workers fit, says the National Dairy Council. Food production is the nation's most critical problem. Fighters on the farm are as essential to the war effort as those in munition plants or on the firing line.

**NEW SOIL CONSERVATION
AREA TO BE FORMED**

With a determination to solve the Soil and Water Conservation problems on their farm and ranch land, a group of farm owners and operators in Fairman Ranch Community just west of Goldthwaite, held a meeting at the E. T. Fairman place last Monday evening, June 14, in order to find out how the Brown-Mills County Soil Conservation District might aid them with their problems. After finishing a meal of old fashioned barbecue and baked beans, with all the trimmings the group gathered around Mr. John Landers, Range Examiner for the district, to hear him explain the workings of the Soil and Water Conservation District. After listening to Mr. Landers explain the services that are available to all farmers in the district and how they could be obtained, the group was so impressed that a petition was drawn up to be presented to the supervisors of the district for aid in obtaining a well planned soil and water program for the area as a whole and on each individual farm or ranch within the area. All the land-owners present signed the petition.

Land owners and operators who attended the meeting were E. T. Fairman, Bob Cockrum, John Jackson, B. D. Tippen, Roy Wilkins, Harry Palmer, J. T. Stark, and H. J. Cockrum. Other land owners in the community who were not present at the meeting are expected to sign the petition. Others who attended the meeting were A. T. Ray, Engineer, and C. B. Allison, Assistant Engineer for the Brown-Mills County Soil Conservation District; Hugh and Ralph Nowell, and County Agent Joe Glover.

Farmers and ranchers, who want further information or are interested in obtaining aid through the Soil Conservation District, should contact John R. Stough, work unit leader, at his office in Goldthwaite or the supervisors. The supervisors are Luther R. Jernigan, R. M. Haynes, Hobert Priddy, W. H. Simmons and G. C. Goss.

POULTRY TROUBLES

Poultry producers are to be commended for their efforts in Poultry Conservation Program. So far the mortality in young stock has been much lower than was expected under the conditions. After the generalized showers over the state, lots of things can happen. Right now we are confronted with getting the birds out of the crowded huts, houses, barns, bathrooms and brooders, thus giving them the needed room, green feed and sunshine, eliminating the possibilities of cannibalism, starvation, and rapid spread of diseases—especially coccidiosis.

For coccidiosis, there are all kinds of recommendations to cure—all of them a little different—but, if we follow a few simple rules of nutrition and sanitation, the disease will usually run its course in 7 to 10 days or sooner. This means, move the birds to a clean place if possible, or dry clean the house they are in daily or add 1 or 2 inches of clean dirt (if dirt floor) or clean litter if it is being used. Try to keep them consuming feed. Damp mash (water or sour milk) or milk products added dry to mash or sour milk free choice several times daily for 30 minutes to one hour will be beneficial; then remove the containers, clean and dry in the sunshine. Remove dead and those that will be unprofitable and burn or bury. If you want to use antiseptic in the water, use the bluestone and vinegar. Sulphur can also be used if it is available. Remember that where sulphur is used, birds must have sunshine daily. Cod liver oil will not prevent sulphur rickets.

Cannibalism is due to overcrowding, lack of minerals, vitamins, sunshine, green feed and fiber, and feeder space. To correct this, give the birds more

room by dividing them; feed whole oats free choice if birds are over 4 or 5 weeks of age and be sure they have grit. Turn them out where they can get sunshine and green feed. One teaspoon salt to each gallon of water for two or three days is often beneficial. Painting the affected birds with pine tar usually eliminates further picking and pecking of those.

Now is the time to start thinking about vaccination for Fowl Pox, if you have not already started. It helps to prevent colds to a certain extent. Feather follicle method on thigh is preferred. Turkeys vaccinated with Fowl Pox vaccine that are to be kept for breeders probably should be vaccinated before they come into production.

Let's do something about the louse situation. Lots of chickens are picking themselves, molting, or going out of production due to the lice. Use Sodium Fluoride as an individual dust, or in dust box, or in a dip (two tablespoons to each gallon of water.) Do not put in nest. Sulphur can be put in the nests and in the litter, or dusted on the birds. One part of rotenone to 10 parts of sulphur makes a good mixture to dust birds with.

The worm situation is increasing in leaps and bounds in its effort toward sabotage. Use nicotine sulphur products, individually or in the mash. Some phenothiazine (1 1-2 ounces to 100 birds in mash) for one or two days does more than just rid the birds of worms. It is an appetizer, stimulant and laxative. There are several ways to mix it with feed. The feed can either be damp or dry—for large flock medication mix one pound of phenothiazine in 60 pounds of mash and give each 100 birds 6 pounds of the mixture. Leave this out until consumed. For smaller flocks use two normal tablespoons (not level) to 100 birds in the amount of mash they will clean up in 1 or 2 days. Good results have been obtained when 1 tablespoonful of the powder is given to young birds (4 to 8 weeks of age) showing signs of drowsiness, feverish symptoms, and going off feed they usually respond quickly. Put in the amount of mash the birds will consume in 1 or 2 days.

Old birds that had colds, roup, or bronchitis (not nutritional) are still carriers of the disease and young birds coming in contact with them have a good chance of becoming infected. In case of respiratory disturbances (in general) flushing out with epsom salts often gives good results. (One poung to 100 mature birds; cut dosage according to age.) Baking soda at the rate of 1-2 pound to 100 birds for one day may be of some benefit. Spray with some commercial spray recommended for colds. Sulfathiazole is beneficial in infectious colds. Give sulfathiazole as follows: Two 7 1-2 grain tablets daily, one in the morning and one in the evening for 3 days—or one 7 1-2 grain tablet in the morning for three to five days. Check up on the ventilation, green feed, and other predisposing factors.

CITY ORDINANCE

CHAPTER NO. 91

An Ordinance to be a part of the
Code of Ordinances of the City
of Goldthwaite, Texas, levying
taxes for the said City of Gold-
thwaite, Texas, upon all real
and personal property situated
in said City of Goldthwaite,
Texas, on January 1st, 1943;
and on certain occupations for
the years 1943 and 1944; pro-
viding for the collection of
such taxes, and assessing a
penalty for violation of the
Occupation Tax Ordinances,
Laws and Statutes.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GOLDTHWAITE, TEXAS:

ARTICLE 1.

Section 1.
There shall be and hereby is
levied a City tax for the year
1943 on all real estate situated
in the City of Goldthwaite, Tex-
as, and on all personal property
that was in said City on the 1st
day of January, 1943, not exempt
from taxation by the laws of
Texas, for the purposes herein
stated.

1st. For GENERAL REVENUE
purposes, and for the purpose of
paying time warrants heretofore
issued, to be known as the Gen-
eral Fund, the sum of Ninety
(\$90) cents on the \$100.00 val-
uation, the proceeds of which
are to be used for General Pur-
poses and purposes herein
named.

2nd. For a ROAD, STREET
AND BRIDGE Fund, Fifteen
(\$15) cents on the \$100.00 val-
uation, to be used for Street
purposes.

3rd. To PROVIDE INTEREST
AND CREATE A SINKING FUND
to pay Water Works Bonds and
interest thereon, Ten (\$10) cents
on the \$100.00 valuation.

4th. To PROVIDE INTEREST
AND CREATE A SINKING
FUND to pay Time Warrants is-
sued to the Trent State Bank to
supplement Construction Fund
for the light system, known as
Special Improvement Fund,
Twenty-five (\$25) cents on the
\$100.00 valuation.

5th. To PROVIDE INTER-
EST AND CREATE A SINKING
FUND to pay Sewer General Ob-
ligation Bonds, the sum of Ten
(\$10) cents on the \$100.00 val-
uation.

Section 2.
There shall be and hereby is
levied an occupation tax on
such occupations as are set out
and taxed by the provisions of
Article 7047, and sections there-
under, of Revised Statutes of
Texas, and all other provisions
of said Statutes, providing for
the levy and collection of an oc-
cupation tax. The tax hereby
levied being the same as that
provided for counties of the
State of Texas by said revised
statutes.

Section 3.
Sections 3, 4, and 5 of Chapter
81 of City Ordinances of Gold-
thwaite, Texas, as the same ap-
pear on pages 231, 232, and 233
of the Code of Ordinances of the
City of Goldthwaite, are not
here repealed, but remain in
full force and effect.

Section 4.
Any person or persons, firm or
corporation, pursuing any of
taxable occupations set out in
the Revised Statutes of the
State of Texas, and as further
designated in the ordinance, and
said Chapter 81, within the cor-
porate limits of the City of
Goldthwaite, without having
first applied for and obtained a
license from the City Secretary
of the City of Goldthwaite, shall
be deemed guilty of a misde-
meanor, and on conviction shall
be fined in any sum not less
than the amount of occupation
tax and not more than double
the same; provided that no
greater fine than \$200.00 shall
be assessed in any event.

Section 5.
All taxes hereby levied and as-
sessed, except occupation taxes
shall be due and payable on the
first day of October, 1943, and
after such date the City Collec-
tor is authorized and empowered
to collect and receipt for same
until the first day of February,
1944, without penalty; and if
said taxes are not paid by Feb-
ruary 1st, 1944, there shall be

taxed against the owners of said
real and personal property, and
the same shall be a lien on the
property so taxed, a penalty,
which shall be the same as that
provided by the Statutes of the
State of Texas, for delinquent
State and County taxes, and to
conform in all respects with said
statutes, this Ordinance hereby
assessing such penalty and in-
terest as the Civil Statutes pro-
vide for delinquent State and
County taxes.

All taxes not paid on or before
January 31, 1944, shall be deem-
ed delinquent, and same when
collected, shall be apportioned
among the several different
funds, and penalty and interest
thereon shall be placed in the
General Fund.

After said taxes have become
delinquent, the City Tax Collec-
tor shall by virtue of his office,
levy upon, seize and sell said
property, real and-or personal,
for the payment of delinquent
taxes as provided by the laws of
the State of Texas.

The fact that no ordinance has
been passed, levying taxes for
the year 1943, and that assess-
ments have been made and that
the tax roll should be made, cre-
ates an emergency and a public
necessity exists and renders it
imperative and necessary that
the rule requiring ordinances to
be read at three several meet-
ings be suspended, and the same
is by unanimous consent sus-
pended, and this Ordinance is
passed to its third and last read-
ing, and adopted by unanimous
vote of the City Council of the
City of Goldthwaite, Texas, on
this the 14th day of June, A. D.
1943.

(Signed) H. G. BODKIN,
Mayor of the City of Gold-
thwaite, Texas.
Attest: :
(Signed) F. P. BOWMAN,
City Secretary, Goldthwaite,
Texas.

NEIGHBORING NEWS

Comanche

The scholastic census enumeration for the coming school year shows a sharp decline of 273 below last year's roll. In the past, the rural districts showed a decline, almost continuously. This year the town districts also have a decline of scholastics. It seems that those towns which have defense work gained heavily in the enumeration.

The Comanche Girl Scouts, working under the direction of their leader, Bertie Jo Luper, raised more than \$75 here First Monday for the American Legion Smoke Fund, which will be used to purchase cigarettes to be sent to United States armed forces who are serving overseas.

The recent Dublin fire loss was placed at \$50,000, partially covered by insurance according to The Dublin Progress.

The fugitives from the Texas Penitentiary who were captured Saturday afternoon in Dallas at the end of a two mile long race with detectives, were identified as the men who robbed three business houses of \$500 in cash, narcotics, and merchandise in De Leon last week.

The first of the Red Cross Nursing Classes under the direction of Mrs. Tabor, Red Cross Nurse of St. Louis, Missouri, will start on June 21, and will be free to every home in Comanche County.

Among the ninety-four students receiving bachelor's and master's degrees at the spring commencement exercises at Southwest Texas State Teachers College was Maxine Nichols, B. S. of Proctor. —Chief.

Lometa

Nineteen Texans were among officers and enlisted men of the North African Air Force to be decorated for meritorious aerial performance in the Tunisian campaign, The War Department announced in Washington Tuesday.

Among the award of one oak cluster to air medals was listed Lt. James Sargent, of Bend, son of Mr. and Mrs. Ode Sargent.

James (alias Belfry) is another of our Lometa boys to whom we extend the hand of congratulation. We're proud of the boys.

Bill Pybas, the veteran cafe man and cook and his son, Cpl. Wallace have bought the Dorothy Coffee Shop, and will operate same from now on.

A crowd met at Mr. and Mrs. John Shelton's last Tuesday and spent a very enjoyable and profitable day. All brought a covered dish and when these dishes were uncovered at the lunch hour, was the enjoyable part of the day and when they canned beans and peas for the orphan home of the Church of Christ.

Last Thursday night about ten o'clock the R. H. Smith family was awakened by a door slamming and when they got up it was discovered that the kitchen and dining room of the home was in flames and the ceiling was already falling in. Reporter

Hamilton

Cunningham Post No. 222, American Legion met in regular monthly session on Saturday night, June 5, at which time several important matters were discussed, with the result that it was definitely decided to hold the annual Post Picnic and Rodeo in Hamilton on July 2 and 3.

On account of the invalidism of Mrs. Taylor, H. Lee Taylor has retired from active service in connection with the Williams and Riley firm of undertakers and funeral directors, and will devote his time to caring for his wife, and looking after his personal affairs.

A youth of great promise has been lost to this nation, to his adoring parents, relatives and friends through death. Leon Benjamin Walker, son and only child of Mr. and Mrs. Ben L. Walker, of Hamilton, passed away at the family home in this city, in the afternoon of Monday, June 7, at 5:10 o'clock.

Pvt. D. A. Solomon is, in so far as the writer has been able to learn, the first hero from this county to receive the Purple Heart decoration. He has also been awarded two medals in expert gun marksmanship. He was

wounded in battle in New Guinea last December 30, and was in a hospital in an Australian town for four months. But, true to his race, he is now back on duty, determined to sweep the country clear of Axis foes, and with an especial grudge against the Japs. Herald-News

San Saba

Almost unprecedented rains last Friday night up the river, and along feeder creeks, sent the San Saba River here out of its banks and blocked several highways coming in to San Saba Saturday, with an estimated rise of some 28 feet here. The Colorado was also up quite high, it is reported.

Late news regarding the condition of Judge W. V. Dean and J. C. Campbell, who have been seriously ill at the Scott and White Hospital, is good. They are both gradually improving which is happy news to their home community.

Lt. W. V. Dean, Jr. and Mrs. Dean of Maryland, Mrs. Doyle Letbetter and children of Manhattan, Kansas, and Mrs. Fred Bryson and son of Bryan, are with their mother and father.

For a number of months San Saba Junior Chamber of Commerce has been making it a practice to pass out a package of cigarettes to all selectees leaving San Saba for the army when they depart.

Now the Jaycees are also sponsoring a drive to provide cigarettes for the men from here in service "overseas." Milk bottles have been placed at various stores around town and for each nickle placed in the bottles the Jaycees will send a package of smokes to some soldier.

Sad news comes of the death of Curtis Deeds, killed by the Japs on Attu Island. He is the youngest son of Mr. and Mrs. Mat. Deeds, formerly of this place. He was 22 years old, May 19, and was killed the 20th. His mother is very ill in a Brownwood hospital.

Contract is being let this week for double asphalt topping for U. S. Highway from San Saba to Richland Springs and work is to begin in about 30 days, it was revealed here Monday by C. A. Bradshaw, general foreman from the Brownwood office of the Highway Department.

A long, useful devout life, delightfully happy in association with family and friends ended when death claimed Frederick Riewe at the age of 85 years, on Thursday, June 3, at 3:30 o'clock in the afternoon. —News

GATHERED HOME

West of Goldthwaite about five miles on the Rock Springs Road on the left hand side at the top of the rise, amid trees you will find the beautiful, attractively kept and hospitable home of Mrs. Eula Nickols.

Last Sunday June 13, 1943—Earline, Mary, Glenn, Dwight, Elizabeth, Philip, James and Sherley all came bringing their loved ones with them from over our state and nation, to their childhood home of yester-years for a family reunion, as at this time Glenn was at home on furlough from the army.

Mrs. Nickols children, grandchildren (except one grandson who is in Africa) in-laws (except one) were present.

For these children, Otis and Bessie Hutchings, Mrs. Ruth Ford Dyess and Mr. and Mrs. Claude Eacott a bountiful feast was served in her spacious dining room.

The table so laden with golden browned fried chicken heaped high on platters, rare country ham, salads, pickles pies, cakes and everything nice and good to eat and the manner in which it was served added to this delightful spread.

In the afternoon more than fifty relatives and friends came to visit with them and if the walls of this dear home could have had ears, they could have heard a remarkable medley of joyous greetings under its roof and round about it. Lesser reunions within the big one were taking place throughout the entire day and the day was not long enough.

Seeing these children made you appreciate even more their dear mother, who with her unflinching efforts down through the years have been helping them to write their own testament as only such families can. They have never pretended to be journalists but their words pour from the heart and will go down through time to be read by their children's children.—And each individual much like the other and yet different because of the locality and reaction of his or her own life. Each character so expressive, so individual, so colorful that each life is a picture in itself of a noble man and a noble woman.

Having lived in this home for a time and have had six of these children as pupils they are very near and dear to me! and enjoyed this occasion very much, and to them I am quoting these beautiful lines of Edgar Guest's:

You are the folks that my thoughts agree with;
You are the folks that I like to be with;
Whatever life sends me of weal or woe,
You are the folks that I am glad to know.
And my old hearts blithely pens this line,
God bless you! Glorious friends of mine!

MRS. C. A. EACOTT.

W.S.C.S.

The Woman's Society of Christian Service met on Monday at the parsonage.

The spacious living room was beautiful with cut flowers and the lovely new slip-covers for the furniture, which were a gift to our parsonage from our pastor's wife, Mrs. B. A. Myers.

As the guests arrived, each placed a small gift for the parsonage in a basket by the door. A short business session came first, after which Mrs. R. M. Patterson led the devotional in a most impressive manner.

During the social hour sherbet and cookies were served by Mrs. Myers assisted by Mrs. Mary Winsor and Mrs. Jim Weatherby.

Our next meeting will be Monday, June 21, at the church. This is the regular Educational program and all ladies are urged to be present.

SERVICE LEAGUE

OVEN CANNING

WITH YOUR

Electric Stove

Before You Begin . . . Know Each Step

All fruits and tomatoes, and tomato mixtures containing at least 50 per cent tomatoes, may be processed by the oven method.

However, experts do not recommend this method unless THE HEAT OF THE OVEN CAN BE ACCURATELY CONTROLLED AND MAINTAINED, because a constant, even temperature is most important. In oven canning, follow these steps:

1. Be sure that the oven heat can be accurately controlled.
2. Preheat and maintain oven temperature at 250 degrees, making sure that temperature does not drop up during the processing time.
3. Use only tempered jars and check them to see that none are cracked or nicked around the rim.
4. Count processing time from the time oven door is closed. In filling jar, have at least one-half inch headroom at top.
5. In removing from the oven, be careful that air does not strike the hot jars. Place them on several thicknesses of towel out of drafts until they have cooled to prevent breakage.
6. Complete seal immediately upon removing jars from oven if necessary.

Lower Meat Prices

June 21, meat prices will be lowered from 3 cents a pound by order of the War Relocation Authority. New prices for cured ham will go into effect July 5. Reductions in prices are smaller on cheaper cuts and larger on the more expensive. As in the case of the other prices on butter, the price of meat will not be affected by the farm production program which began June 1. The price paid to anyone who raises 4,900 of meat or more will be lowered.

To Men in Iceland

Canadian soldiers in Iceland are getting nearly enough from home said Chaplain Cullom, who recently returned to the U. S. after two years of duty with Icelandic forces. "In spite of the fact that the Army delivers the mail promptly and regularly, the men in Iceland, who are not taking full advantage of this service," Cullom said.

Farm Machinery

Of 300,000 tons of carloads with other materials, the War Relocation Authority has allocated the farm machinery program for the quarter beginning October 1, 1943, to July 1, 1944. The third quarter of the program, special emphasis will be placed on the manufacturer of farm machinery for this program. The whole farm machinery program has been approved.

Price Box Prices

Price ceilings on new ice cream have been established by the War Relocation Authority. Prescriptions will be lowered in three sets of retail prices. The companies and their prices ranging from \$26.75 to \$18.95 to \$9.95; (3) all other items at retail—\$30.75 to \$10.00.

Prosecutes Violators

Four months ended April 30, the courts handed down 1,495 civil and criminal convictions involving 1,676 defendants accused of violating rationing regulations according to OPA. Of the 1,495 cases involving 1,613 defendants, 58 cases involving 64 defendants, or less than 4 percent of the total, were dismissed.

Coffee By Mail

Consumers who order coffee by mail may now purchase by attaching ration stamps to the order rather than the ration book. OPA has announced that consumers are to be allowed to forward their ration book to the retailer for removal of stamps.

Gardens destroyed by rains should be replanted immediately, says the U. S. Department of Agriculture in a circular to replant with

CHILDREN UNDER 18 GETTING SS NUMBERS

Parents of children who are going into employment covered by the Social Security Act were urged by David S. Pruitt, manager of the Austin Social Security Board office, to caution them against the loss or misplacement of their account number cards because it has become an increasing problem to secure duplicate account numbers as quickly as was possible before the scarcity of paper and clerical help became so acute.

A substantial number of account numbers now being issued are to children under the age of 18 years. "It is only natural that children of this age do not realize the importance of the social security card as much as their parents," Pruitt said; "we are, therefore, appealing to the mothers and fathers to cooperate with the Social Security Board in the saving of time and money to the government. Last but not least, the young worker should be taught the value of his social security account number, because the amount of wages credited to his social security account number will determine the amount of insurance benefits to be paid when the worker or his survivors qualify."

Social security account numbers may be secured from any field office of the Board. They are not needed unless the applicant has a job or has been promised one. A duplicate number may also be secured in case the original is lost, "but what we want to impress upon everyone is—don't lose it—keep it—it may be hard to replace—it is your evidence that you are participating in the government's program for old-age and survivors insurance," Pruitt stated.

It's okay with Mr. Ikes if the country's ardent fishermen continue their sport but he says, "We still think it's a good idea for them to fish when they can and where they can without extra gasoline." Gasoline for fishing trips won't be available, no matter how productive of food the sport may be.

Don't Write "Round Robins"

Writing soldiers "round robins," or news letters, and inviting composite replies by the group is inadvisable, the War Department has warned. Replies tend to become anthologies of military information, and a custom that arose from innocent motives become security hazard.
Throughout the nation, 479 automatic counters on rural roads in 38 states recorded traffic in April as 56 percent of pre-war normal. Motor-fuel tax collections in 28 states in April totaled \$38,209,000 and were three-fourths of pre-war normal, according to reports from state motor vehicle administrators.
Lumber Production Good
Lumber production in the United States for the first quarter of 1943 is estimated at 7,141,109,000 board feet. This is close to the first-quarter goal needed to meet military and essential civilian requirements of 32 billion board feet for 1943.
Sales of wheat for feed have been discontinued by the Commodity Credit Corporation. However, farmers may still obtain some feed wheat through dealers and county AAA committees to whom shipments have already been made. Additional orders will not be accepted by the Corporation unless the state U. S. Department of Agriculture War Board determined that the wheat is needed to feed livestock during June.

THE WAR IS DOING THINGS TO US

By J. S. BOWLES

A FEW DAYS SINCE, while dining with a company of fine people, a remark was made by a cultured lady that very clearly exemplifies an almost universal state of mind.

I can very well understand this state of mind, especially among those of us who have seen our sons go away to the battlefield, many of them never to return.

In the first place, to indulge our hatreds will in no sense render any service to the cause that we so much desire to aid. Let the boys at the front fight the battles, since we can do nothing to aid them in hating people; let us turn the job entirely over to them so far as the fighting is concerned.

The important thing for use to remember is that hating people, giving way to inordinate tempers, is a detriment to ourselves and will most certainly reap for us a mighty harvest in the next generation.

Within my own experience I have seen people indulge in the—to them—luxury of a bad temper, and finally end their days in a violent fit of temper, or spend the remainder of their lives in a hospital for the hopelessly insane.

It is rather difficult, as we all know, to love our enemies, to be kindly disposed toward those who spitefully use us, to render good for evil. But still it remains that we can, with some degree of self-discipline avoid hating our enemies when we once become aware of the fact that we are only doing ourselves a serious damage.

PAY DEBTS OR WAR BONDS?

SHOULD I PAY my debts or invest in War Bonds? If you're like most farmers, you've probably been asking yourself this question, and it's a GOOD question, too. The paying of debts is definitely a part of a good wartime plan for farm people.

COTTON CROP INSURANCE

MORE THAN 56,000 Texas cotton farms are covered by federal all-risk insurance this year.

State AAA records indicate that 56,619 farms are carrying insurance compared to 54,252 during 1942 when Texas led the nation in applications signed.

Of the total farms insured, approximately 47,000 are covered by 75 per cent insurance while the remaining 9,000 are covered by 50 per cent insurance.

Leading counties in the state according to applications signed in proportion to cotton farms are Loving, Reeves and Ward Counties which show 100 per cent, 92 per cent and 91 per cent coverage respectively.

Offered for the second year, cotton crop insurance protects the cotton from all unavoidable hazards, which include drouth, insects, rain, hail and wind.

Premiums which vary by farms, are due in the fall at about cotton picking time and may be paid by signing a commodity note which calls for payment either in cotton or the cash equivalent, in deductions from loss payments, or from the first check issued under the farm program.

In addition to the 56,619 upland cotton farms covered by insurance contracts, 356 producers of American-Egyptian cotton also have kept their crops insured, according to Donald L. Cottrill, state crop insurance supervisor.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

(From Eagle files of June 15, 1918)

Misses Lucile Street, Joyce Harrison, Velma and Nita Cockrum have returned home from Austin where they attended the session of the University just closed.

Geo. Clements has returned from Austin, where he attended the University. He is one of Goldthwaite's popular young men.

W. F. Sims and wife are visiting their son, Monroe, and family at Sweetwater.

Robert Littlepage and wife are the proud parents of a fine girl who arrived at their home Wednesday night.

Hugh Moreland, of this city, took Elam Berry and family, of Pleasant Grove, to Brownwood Thursday. Mr. Berry will have his eyes treated.

Ira Harvey's children have been visiting relatives at Hico this week.

Mrs. Floyd Jackson and children left Thursday for Kopperl to visit her mother a few days before going to their new home in San Antonio, where her husband is in the railroad service.

J. C. Darroch, J. A. Gillespie, J. A. Allen and Lee Jones visited Hamilton the early part of the week to look after business and political matters.

Mrs. Webb went to Dallas Friday night to accompany her daughter, Mrs. Steel, home and spend some time there visiting.

Miss Grace Denson of this city spent part of last week visiting relatives at Antelope Gap.

L. E. Miller and wife and their guest Miss Fannie J. Baldwin of Beaumont, made a visit to Brownwood the first of the week.

Hugh Stark and wife left Monday for their new home at Douglas, Arizona.

Dr. J. E. Brooking of Star left Monday for Chicago to attend the meeting of the American Medical Society.

Health Notes

The general opinion prevails in America that home is about the safest place there is. However, the facts prove that far from being the safest, it is often quite the opposite.

In commenting on the urgent need for the protection of life and limb in the American home, Dr. Geo. W. Cox, State Health Officer, today declared that accidents in the home are the cause of more deaths than diphtheria, scarlet fever, whooping cough, and measles combined; of more than appendicitis; of nearly as many as diabetes; of over two-thirds as many as automobile accidents; and of over a third as many deaths as tuberculosis.

"Slippery floor surfaces, lack of handrails on cellar steps, absence of protective gates at the top of stairs in homes where there are small children toys left on stairs, unanchored small rugs on polished floors, poisons in medicine cabinets, accessible to children, and the careless storage of sharp tools and firearms are some of the more prominent hazards resulting in home accidents, Dr. Cox said.

"However," he added, "in the last analysis, the problem boils down to one of reasonable individual caution. We cannot view complacently the more than 30,000 deaths annually due to home accidents. These deaths, chargeable to remediable carelessness, can and should be reduced."

Dr. Cox declared that such a needless and profitable loss of life should be deplored at any time, but to permit such a condition to persist in 1943, in view of our national crisis, is a neglect that cannot be condoned, and one which can seriously cripple our war effort.

The rationing is intended to conserve limited supplies for infant feeding, special diets, and for persons unable to obtain adequate supplies of fresh milk.

SUNDAY SCHOOL LESSON

By AROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for June 20

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JOHN DESCRIBES TRUE CHRISTIANS

LESSON TEXT—I John 2:1-6; 3:13-18; 4:15-17.
GOLDEN TEXT—But if we walk in the light, as he is in the light, we have fellowship one with another, and the blood of Jesus Christ his Son cleanseth us from all sin.—I John 1:7.

Religion and life go together. To hold the tenets of Christian truth in one's head and not to have them move the heart is to deny the very faith one professes. Yet this is the danger which faces the believer—a temptation before which many have fallen. The result is that much of "what passes for Christianity in these days is very thin stuff, very remote from the original" (Shoemaker).

John was not content with such a weak imitation, and in his writings he set up the true standard of a forgiven and transformed life, living itself out in love and sacrificial service. If we have forgotten what God meant us to be in Christ, or are members of a church which has strayed from the true and living way, this lesson affords an opportunity for penitence and works meet thereunto.

The true Christian life must have I. Sin Forgiven and Life Transformed (I John 2:1-6).

Not only at the beginning of the Christian life is sin dealt with and put away, but day by day—yes, moment by moment—we have the cleansing power of the blood of our Divine Advocate. This is of the utmost importance, for God can only use clean channels for the outgiving of His power and grace to the world. We know our own weakness and the defiling presence of the world. But unlike the unregenerate man, we do not submit and go down; we turn to Christ for forgiveness and cleansing.

The transformation of life which thus comes to the believer is shown in obedience to the commandments of God. In the early church there were those who said that if they only believed in Christ as Saviour it made no difference how they lived—and they have their followers in our day. Be sure of this, the essential thing in Christian profession is not how you talk about Christ, but how you walk in obedience to His commandments.

II. Hated by the World and Loved by the Brethren (I John 3:13-18).

The world, that is, unregenerate mankind, hates a genuine Christian no matter how kind and loving he may be. Why? "Because the Christian believer gives the non-believer an uncomfortable sense of inferiority. The presence of high Christian ideals in marked contrast to his own selfish policies arouses his anger and resentment" (Douglass).

The presence of a clean, godly life in a community makes every sinner look that much blacker, and the world, the flesh, and the devil will do everything possible to break down and destroy such a testimony. We, as Christians, should not be surprised that the world hates us. In fact, we should be troubled if it does not hate us, for if our Christianity really means anything, it is distasteful to a God-hating world. Beware if sinners find nothing in your life which distresses them and convicts them of sin.

III. Indwelt by God and Unafraid in the World (I John 4:15-17).

A sincere confession of Christ as Saviour brings a man into that close relationship to God which is expressed in the words, "God abideth in him, and he in God" (v. 15). The full depth of meaning of these words is obviously beyond our limited understanding, but we accept the fact by faith and rejoice in it. We recognize that it means that we are brought by our faith in Christ, into the very center of God's love. Christ, the well-beloved Son, who stands in that blessed place, draws us into the circle and there we stand in Him.

God's love showed itself in the giving of His Son as the Redeemer of the world. It was and is unselfish and sacrificial devotion to the eternal welfare of those who merit only judgment. We do not love until we reflect that quality in our lives.

Such love casts out fear. Fellowship is impossible in an atmosphere of fear, but love rules it out. In Christ we realize that God first loved us, and then our hearts go out in warm devotion to him. Not only does the Christian no longer fear the day of judgment, but he is unafraid in the present evil world. This is not because of his own strength or ability, but because through faith in Christ he is "in God," and "as He is, so are we in this world" (v. 17). No more perfect or blessed ground of assurance could possibly be provided. Let us recognize our position in Him, and be strong and unafraid.

Bureau Change May Tax Livestock Owner Unfairly

No ranchman or farmer that I know wants to avoid paying his just share of taxes. But income tax-paying livestock owners are facing an unfair charge right now as a result of a change in the Bureau of Internal Revenue policy on figuring income. If the policy change is applied generally, the percentage of stockmen affected will be high, because income tax brackets have been lowered to take in nearly everyone.

In the past, stock owners had been allowed to place fair values on their stock and to set up different bases which would show the true income realized from sale of animals, wool, etc., but which would not class as income or loss of income the year-to-year changes in the value of breeding animals. Breeding animals were part of his capital, as was his land. He kept land and breeding animals and sold their increase, and paid tax on that increase.

Now instructions are out to the agents to collect additional income taxes for 1941 and 1942 on the difference between the stockman's inventory values and the average values estimated by the Department of Agriculture. Thus the owner might be assessed an additional tax on the difference between the \$40 per head he set on his cows and the \$55 which a bureau calculated was an average value then for Texas cows of that type.

Tax Should Be Paid On Realized Income

I have protested to the Commissioner of Internal Revenue because this policy, arbitrarily applied, obviously can be discriminatory and bring about many injustices.

The livestock owner may have to pay taxes on an income he didn't realize. And the basic principle of the whole income tax law is founded on the proposition that tax is not applied upon income until income actually is realized.

To hold otherwise would be as if an owner of a city business building was called on to pay taxes upon the increase in the value of that building, in addition to paying tax on his rental income on the building.

All the stockmen and farmers ask is that their income taxes be based on realized income, and that they not be penalized for a theoretical increase in paper value of their breeding, dairy and work stock—which they didn't sell or even consider selling.

Wool Given New Break Over Synthetic Textiles

The WPB last week eased up its restrictions on the use of wool. It doubled the allotment of wool going into civilian uses, indicating that the "wool shortage" bugaboo—which was giving all the breaks to the synthetic Hereafter, mill facilities and mill manpower will be the factors controlling the consumption of wool.

Until now, despite the billion pounds of domestic and imported wools in this country, manufacturers were forced to use heavy proportions of reprocessed wools and synthetic fibers. This scarcity theory and practice created buying runs. Rationing was threatened.

With military needs assured, and this surplus accumulating in American and Allied stockpiles, the home front should get more wool.

It didn't make sense to order a manufacturer to make a suit half wool and half rayon when we had more than enough wool to permit him to turn out all the 100 per cent wool suits he could make.

Adjust AAA Crop Payments
Farmers who fail to plant 90 percent of their war crop goals will not suffer the regular agricultural conservation deductions if the weather has interfered with their crop plans. The War Food Administration has relaxed the provisions in all areas where hay and pasture goals have been established. The action is designed to offset the effect of recent unfavorable weather conditions.

Flooded Cotton Lands
Cotton acreage allotment provisions have been modified to relieve cotton planters whose seedlings have been destroyed by flood. All or any part of the acreage allotments for the flooded farms may be apportioned by the county agricultural conservation committee to other farms. Lands that cannot be re-seeded to cotton, should be planted with soybeans, peanuts, corn and other war crops.

NEWS from
YOUR COUNTY HOME DEMONSTRATION AGENT
 TEXAS EXTENSION SERVICE

By BERDELLE HARRIS
 Mills County Home Demonstration Agent.

Human Chain Is Year Old

On its first anniversary, the "human chain system of communication" which the A. and M. College Extension Service set up to receive and transmit wartime information was serving 372,000 rural families in Texas. The links in the chain are 8,700 community and 37,000 neighborhood victory leaders who serve voluntarily, Bess Edwards, assistant state home demonstration agent, said in a net-work broadcast one year after the neighborhood leader system was established.

Miss Edwards says there is plenty of evidence that the human chain has served the cause of victory. Community leaders in Carson County ordered the varieties of tomato seed recommended by the Southern Great Plains Experiment Station and are raising plants for use in neighbor's Victory gardens. Neighborhood leaders have worked diligently in helping collect Red Cross funds. In Austin County, leaders recently obtained about \$1,900 for the Red Cross and \$44,000 in war bond pledges.

One Nolan County Leader, Mrs. Herman Heine made 16 visits in one afternoon, receiving donations from each person she visited. The amounts varied from \$1 to \$50.

Information flows both ways through the human chain. Recently leaders in Haskell County notified their county Extension Service agents that large numbers of laying hens were being lost because of typhoid and fowl cholera. Both agents and leaders then went to work to notify all families of the necessary control measures for these diseases.

The method for transmitting and receiving information varies with the leader. Marvin Ashley, aged 11, recently served his country by riding horseback to distribute material to 100 Latin American families at Espasa Mission.

Electricity for Dehydration

Electricity offers certain definite advantages as a source of heat for home drying of fruits and vegetables, says Berdelle Harris, County Home Demonstration Agent.

She explains that electricity is clean and does not give off objectionable fumes. When this method is followed, the products are dried inside a cabinet where they are protected from dust, flies, and other contamination. An electrical dehydrator is convenient, requiring a minimum labor and attention and does not heat up a room appreciably.

Use of an electric drier leaves the kitchen stove free for the normal preparation of food, the home demonstration agent adds. It is easily portable and can be used at any time, regardless of the weather.

There are two general types of small electric dehydrators now in use, the forced air type and the type which depends on "gravity" for the natural circulation of the air. A small fan is necessary for operation of the first type, speeding up circulation of the air. The second type depends upon the rise of heated air through the cabinet for the drying process.

Material of the construction and operation of electric fruit and vegetable dehydrators for the home use has been prepared by P. T. Monfort, research associate of the A. and M. department of agricultural engineering M. R. Bentley, Extension agricultural engineer, and Miss Jones. This information and a leaflet on "Home Drying of Fruits and Vegetables" are available from county home demonstration agents.

Some Gardening Problems

Many victory gardeners are inquiring why tomato plants are shedding blossoms and developing blossom-end rot. And housewives are asking why pinto beans do not always cook soft.

Berdelle Harris, County Home Demonstration Agent, has the answers and the remedies.

In areas where hot, dry weather prevailed at blossoming time, incomplete pollination resulted in shedding of tomato blooms. Later blooms no doubt will result in setting fruit on healthy plants. Blossom-end rot usually is detected when the fruit is about the size of a marble. The fruit should be removed from the vine. As spraying does little, if any, good the most practical remedy is to keep the soil well supplied with moisture for the remainder of the fruiting season. This disease usually develops under hot-and-dry-today-rainy-tomorrow weather conditions. Gardeners, shouldn't give way to discouragement under these troubles, but should help the plants by providing uniform moisture for the remainder of the growing season.

Now the beans: It has been discovered that the way pinto beans are handled in the field is responsible for the way they cook. If left on the plants until the plants mature and die they will be tough and hard to cook. The beans should be left on the plants until the pods begin to turn brown, but with the plant foliage still green. Plants then should be pulled and placed in small stacks for three or four days to dry. The beans then can be picked off or run through a thresher. After shelling they may be placed in 50-pound cans or tight paper bags to prevent weevil damage.

Save Vegetable Seed

Seed may be saved from vegetables harvested during June for planting this fall or next spring. Berdelle Harris, County Home Demonstration Agent, says that plants from which seed are saved should be unusually healthy and vigorous. And the seed selected only from choice, well-matured fruits. Such plants may be specially marked by staking off or tying with string or piece of cloth and allowed to remain until fully matured for seed.

All vegetables do not yield seed but tomatoes, beans, peas, cantaloupes and watermelons can be saved by the average home gardener. If there is a special type of squash, cucumber, cantaloupe or tomato which you think is outstanding, try and save the seed. Be careful not to mix varieties. For example, only the type of squash seed which has the same blooming period should be planted.

In saving beans, both bush and pole varieties, allow the seed to mature thoroughly on the plant, then pull up the entire plant in the early morning and place in the shade to dry. This will prevent the pods from splitting. English peas may be left on plants until thoroughly matured, then pick when the pods turn brown and placed in storage. For tomato seed, place the jelly-like material containing the seed

in a wire screener and wash it until only the seed remains. Another method is to scrape the seed on a piece of paper and placed in the sun to dry.

Vegetable seed may be placed in paper containers, but it is important that all seed must be thoroughly dry. Generally, high temperature and humidity shorten the time vegetable seed can be kept. Extension Service publication MS-509 gives full information on seed saving, storing and testing, and may be obtained free by writing to the Extension Service, College Station.

Farm Labor Job Assigned

Texas' 236 county agricultural agents have been assigned the responsibility of administering the farm labor program within their counties, H. H. Williamson, director of the A. and M. College Extension Service has announced.

Recruiting, training, and placement of all farm labor within the county, and of directing labor centers and the few camps for migratory workers in the state, will be among the responsibilities of the county agricultural agent. If and when war prisoners are available for farm labor in Texas this additional phase of the program also will be under the jurisdiction of the agents.

Quoting Lt. Colonel Jay L. Taylor, Panhandle rancher and business man who is the deputy administrator of the War Food Administrator in charge for the labor programs, Director Williamson said that "99 per cent of the program will be carried on in the State of Texas and the counties, and one per cent in Washington. He emphasized, "There'll be no cotton chopped, pigs slopped or berries picked in Washington or College Station. The problem and the job belong to the county."

The National Farm Labor Act assigned the administration of the farm labor program to the Extension Services of the land grant colleges in the 48 states, President T. O. Walton of the A. and M. College, chairman of the executive committee of the Land Grant College Association, recently pointed out that the Extension groups had not sought the program but would accept the responsibility "like good soldiers."

While farmers will not be able to obtain the type of labor to which he is accustomed, the Extension Service will help labor to which they are accustomed, the Extension Service will help them obtain and make best use of available workers.

Mrs. J. D. Berry's children visited her Sunday afternoon. Mr. and Mrs. Haynes Harrison of Brownwood, and Mr. and Mrs. Frank Taylor and daughter Frank Sue, of Hamilton.

Misses Mary Nell Epperson Virginia Ruth and Dorothy Nell Rudd, who are students at TSCW at Denton, spent last week-end in Goldthwaite with homefolks.

Mr. and Mrs. Walter and baby daughter of Waco are here visiting her parents, Mr. and Mrs. Walter Little. Little Miss Rita saw her appearance several months ago.

WHAT EVERY WIFE SHOULD KNOW ABOUT GOOD FOOD!

Every woman should know—and usually does know—the important roll food plays in the art of keeping a certain heart happy. This is the reason that more and more couples eat a meal or two or three each week at our Cafe. Our chefs "rake their brains" preparing tempting and appetizing dishes during this food shortage, and the steady flow of customers testify to the thoroughness and skill with which they combine the items procurable to offer a well-balanced, vitamin sufficient meal.

TRIBUTE TO MOTHER "BRAVEST BATTLE"

Best battle that was ever fought, tell you where and when? Maps of the world you find it not thought by the mothers of

with cannon nor battle-

word, or noble pen;

with eloquent words of

mouths of wonderful men.

marshalling troops, no biv-

ousers to gleam and wave—

these battles, they last

long—

childhood to the grave.

ful still as a bridge of

rights in her walled-up

ans and on in her endless

ment, unseen goes down.

with banners and bat-

not

siders to shout and

the kingliest victories

in these silent ways.

less woman, in a world

end and silent scorn,

to God as pure as you

gentlest warrior born.

dedicated to Mother.

James Ural Lawson

Sgt. Raymond L. Atchison, who is overseas writes his grand parents, Mr. and Mrs. W. E. Reid thus:

Dearest Grandparents: I guess you will be surprised to get a letter from me after so long a time. I just haven't had time to write.

We had a nice boat ride coming over. It was something new for most of us. But after a few days it began to be tiresome.

I was really surprised when we landed. I never thought it would be like it is. Its very beautiful. The only thing I can find wrong is the people. They are about a hundred years behind us. There are several different types of people. In a way some of them are a nuisance. Sure have seen and learned lots since I've been here. But I still like the States a hundred percent better.

How is every thing around Mills County? Guess most of the boys are in the service by now. Sure would like to see everyone once more. A man can travel the world over, but he still likes the place where he grew up better than any place.

All the boys from Center City are doing fine. I see them most every day. Glen and Delmer Don Geeslin are real close by. We get together pretty often for a session.

I have to stop and get ready for to-morrow. Be real good and take care of yourselves.

Your grandson,

R. L.

From Fort Knox, Ky. comes this letter for Mr. and Mrs. Sam Koen from their son Sgt. James:

Dearest Papa and Mama:

Your letter came one day last week but I just got back to read it this morning, but sure was glad to get it any way.

I left here and went to Camp Annaberry, Indiana, from there to Pine Camp, N. Y. and came back by Detroit, Michigan and picked up 40 peeps and a 175 at the Ford plant but didn't see much of the plant. I stayed there on the corner of the lot for about three hours checking the stuff. It was all in crates and will be assembled here.

Well when I came in the boys had our room fixed up till it looks like a furnished apartment. They bought me a nice desk lamp with my name on it in gold letters and it is really nice to it. I came in and went into the office and I couldn't find the switch to turn the light on, at least it wasn't in the same place as the old one that was there. They had took the old one and put it in the orderly room. In the room where we sleep now we have three nice reading lamps and one on the desk here.

I got a letter from Dub Hardcastle today and he was making it o. k. said he couldn't get but 5 days to come home and go back on so he said he would have about one day at home so he didn't think he would come.

No, I haven't heard from Aunt Bertie or Houston either since I came back, in fact I was about to think everyone had forgot how to write but I guess it just takes a little time for them to go around. Well I am just about out of news so I had better close for now.

Love,

James.

The Eagle received the following request from a Mills County boy which it is glad to grant:

Dear Editor:

Thanks for keeping the "Eagle" coming to us service men. I really enjoy reading the news from home and the letters from the boys.

We had a letter from a friend this week to whom we sent the "Eagle" last autumn. I should like for you to publish his letter, as he has so many friends in Mills and San Saba counties.

Yours truly,

Woodrow W. Long.

Somewhere in Alaska

Dear Woodie and Neppie:

How are my old pals? I am fine.

Got your letter today. Sure was glad to hear from you.

Well, Woodie, how do you like the service? I wish you were up here so we could talk over old times.

I get the "Eagle" up here about once a month. Sure do enjoy hearing the news from home.

I guess all the boys are in the army now. Do you hear from Maurice? Tell him to write to me.

Woodie, I will send you some pictures of me in my artie uniform. I guess it is warm there. I wish I were there to go swimming.

Sure is a good place to go fishing up here. There sure are some big ones up here.

Woodie, I don't know any news as usual, so write me all the news back home.

I guess you are glad Neppie can be with you.

When this war is over, we will all meet back in Texas. So be good from your old pal,

Cpl. Joe O'Dell.

A SOLDIERS LIFE

As I awoke this morning, my mind began to roam, Back to old Texas, just a little town of Goldthwaite

If I were just a fairy and could Make a wish come true, I'd wish this "dony thing" was over and

I was back there with you,

But I am not a fairy, go far from it by gee,

I'm just a teen age soldier caught by the infantry.

I often pitied the farmer, who worked from sun till sun, But here in this man's army, our work is never done.

We're out at four in the morning, and get our house work done,

At five we report for chow, and

grab our packs and run.

We spend long hours marching, and drill with all makes of guns.

The weather doesn't matter, whether its rain or blistering sun.

To give you a little idea of what our work is like, After a hard days work, we make a 15 mile hike.

As I said when I awoke this morning, My thoughts were of home and you

Yet we haven't finished the job, of protecting The old red white and blue.

So I polish up my rifle, grab my pack and go.

For I must have a little more training Before we march to Tokeyo.

Pvt. James V. Lawson, Pvt. Lloyd N. Hillier.

From Fort Myer P.f.c. Paul H. Tischler sends the following letter to his mother and dad:

Dearest Ma and Dad:

Just writing a few lines to you and all my friends back home. Hoping it will reach you some day.

Well I have now been in the service for thirteen months. I spent twenty-one days in Fort Bliss, Texas, three months in Fort Riley, Kans. and the rest of it out here in Fort Myer, Va. and Washington D. C. Fort Myer is located west of Washington on the out banks of the Potomac River. Its really a beautiful camp. The barracks are built out of brick and just covered with tall trees.

My duties are directing traffic and parking cars around the new War Department that is called the Pentagon Bldg. We park around six and seven thousand cars every morning in the South parking lot and at night it is lit up with electric lights.

All the buses and cabs load and unload in the inside. The people never have to get out in the rain. Talking about rain, we get plenty of it out here nearly every other day.

We have inspection every morning before we go on duty. The reason for this is there are so many high ranking officers working in the War Department I see Mr. Stimson, secretary of War every day and also Gen.G. Marshall, chief of staff.

You may not believe me but we have thirteen generals on our post. I met a few of the congress men and saw the President twice since I've been out here.

If you want to go out for sports, they really have them here in Washington D. C. around the parks. You can play soft ball, tennis, or any other kind of game.

I wish all of you could see the Washington Monument, Jefferson Memorial and Lincoln Memorial. The gallery of Art is a very interesting thing to see all kinds of rare collections of drawings by great French artists.

I am wishing all of you good luck.

Hope some of these days it will be all over with and we can go back to our homes.

Love to all—and I'll write again at the next opportunity.

P.f.c. Paul H. Tischler.

FUNERAL SERVICES FOR J. L. WILLIAMSON HELD IN COLEMAN

Funeral services for Flight Officer James Lee Williamson, husband of the former Miss Mary Allene Ross of this city, were conducted at the J. E. Stevens Funeral Home in Coleman last Sunday afternoon at 3:00 o'clock by the Rev. John I. Muller, pastor of the Coleman Presbyterian Church, and interment was made in Coleman Cemetery.

Mr. Williamson, son of Mr. and Mrs. J. T. Williamson, was

born in Pleasanton, Atascosa County, Texas, December 2, 1919. He moved to Coleman with his parents in 1924, where he entered school, graduating from the Coleman High School in 1939. During his high school days he starred on the football team. After graduation he was employed by the Bowen Drug Store in Coleman, where he remained until he volunteered his service to his country—the country for which he gave his life—joining the Air Corps January 6, 1941. He received his wings as a glider pilot at Lubbock in February, 1943.

He was married to Miss Allene Ross, daughter of Mr. and Mrs. J. A. Ross of Goldthwaite, December 26, 1942; and she accompanied him to every assignment, and was with him in Fayetteville, N. C., when he was killed in a transport crash at 4 o'clock the morning of June 7, 1943, ten miles northeast of Manton, N. C., in the performance of a flying mission.

At the services at the cemetery, Flight Officer Peters, who accompanied the body to Coleman, in an impressive few words presented Mrs. Williamson with the flag that draped the casket as "a token of appreciation for the service her husband had rendered his country."

Mr. Williamson is survived by the young widow, his father and mother, two sisters, Misses Grace and Martha Williamson of Coleman, and a brother, Captain John T. Williamson, Jr., of Fort Sam Houston, San Antonio.

The profuse floral offering during the week and at the grave gave evidence of the esteem in which the young couple, just starting life, was held by their friends everywhere. Flowers came from North Carolina from the squadron with which Mr. Williamson served; from officers with which Captain Williamson served, and from the Service of Supply of the 8th Service Command in Dallas, as well as from Sunday School classes and individuals at Goldthwaite, Pleasanton, Coleman and many other parts of Texas.

JOHN A. ALLEN

John A. (Pumper) Allen, 84 years and 10 months old, and a resident of Goldthwaite for the past 51 years, died Monday afternoon of this week at the home of his son, Jack Allen, 4127 southwestern, Houston, where he had been visiting for two weeks.

The body was brought to Goldthwaite Monday night and funeral services were held at the First Baptist Church here Tuesday afternoon at 5 o'clock, Dr. D. A. Bryant, pastor, conducting the services. The Masonic Lodge of Goldthwaite officiated at the lodge's burial ritual at the graveside.

Mr. Allen was born in Kentucky August 23, 1858, and moved to Goldthwaite in 1892. He was a retired engineer for the Santa Fe Lines, united with the local Baptist Church at the age of 45. He was a member of the Goldthwaite Masonic Lodge.

He is survived by his wife, six children, Harry Allen, Goldthwaite; Ernest Allen, Blanket; Jack Allen, Houston; Mrs. Lois Calvert, Houston; Mrs. Hardy Blue, Santa Anna, and Mrs. E. A. Kerby, Tuscola; and nine grandchildren and one great-grandchild.

Pallbearers, all brother Masons of the deceased, were: O. H. Yarborough, Judge Robert Weaver, Omar Weatherby, Walter Simpson, Sam Henry Rahl, W. C. Womack, and Charlie Wilson.

Among out-of-town relatives and friends who attended the funeral of John A. Allen Tuesday afternoon were: Mr. and Mrs. Ernest Allen of Blanket, Mrs. Lois Calvert of Houston, Mr. and Mrs. Hardy Blue and son John Hardy of Santa Anna, Mr. and Mrs. Elmon Kerby and daughter, Miss Helen Sue, of Tuscola, Mr. and Mrs. Jack Allen of Houston, Mr. and Mrs. Vernon Halford and son Harry Vernon of Dallas, Sergeant and Mrs. Allen Bailey and Miss Ellen Allen of Houston, Mr. and Mrs. Walter J. Taylor of Coleman, Doyle Taylor and O. E. Blackwood of Tuscola, Mr. and Mrs. T. A. Mills, Mrs. J. D. Henderson, and Misses May and Betty Blue and Jim Robin of Santa Anna.

MILLS CO. POULTRY MEN ARE ASKED TO RAISE PRODUCTION

Mills County poultrymen are asked by the government to produce approximately 1,330,000 dozen eggs this year, 12 per cent more than in 1942, as their share in the Food for Victory program, the National Poultry Defense Committee estimated today.

This goal, which is based on the percentage increase suggested for Texas by the U. S. Department of Agriculture, can be reached if adequate supplies of labor and feed are available, declared Committee Chairman Hobart Creighton.

"Poultry farmers are now working harder than ever in all-out war production," Creighton said, "continuing the fine job they did in this country last year by producing approximately 1,188,000 dozen eggs to help supply civilian, military and lend-lease needs. Also, two developments during last year have resulted in larger laying flocks on most farms today:

"First, egg prices as shown by purchases of the A and P Tea Company, one of the larger buyers which paid \$800,900 in Texas last year for 2,522,040 dozen, were so favorable that farmers saved an unusually large proportion of potential layers. Second, conditions in 1942 were good for raising pullets, as Fall weather was generally mild and the average hatching date was early.

"Those factors point to increased egg production," Creighton explained, "if an improvement can be made in the farm skilled labor situation and if farmers can get enough protein feeds. There are critical shortages of protein ingredients because imports have been cut so drastically. Even soybean oil meal is not being processed fast enough to meet demands. These are major problems facing the industry."

Texas poultrymen, who produced a total of 233,916,000 dozen eggs in 1942, are asked for 262,671,000 dozen this year as their share of the national egg goal of 4,780,000,000 dozen.

Yep, right up to my horns. A couple of Uncle Sam's soldiers are depending on me for most this year, and I'm not going to let them down. Over 30 million and a half of us are pledged to meet beef needs here and abroad in '43.

Put every dollar above the necessities of life into War Bonds. Payroll Savings is the best means of doing your best in helping your sons and friends on the fighting fronts. Figure it out yourself.
