VOLUME FIFTY-THREE GOLDTHWAITE, MILLS COUNTY, TEXAS - FRIDAY, JUNE 13, 1947 NUMBER FORTY

OLD MAN 100

THE BOSS IS NOT RESPONSIBLE FOR WHAT OLD MAN 100 SAYS IN THIS COLUMN - NEITHER IS THE OLD MAN IF YOU GET MAD, COUNT AT LEAST A THOUSAND BEFORE YOU TRY TO BEAT HIM UP - THE BOSS!

SAVINGS

There's some Safety Sayings Old Man wants to pass on to his many readers: Better be Sure than Sure Dead. Also the pedestrian may be wrong, but he doesn't deserve a death sentence.

FRIDAY WALKER

The Old Man just got a long letter from Friday Walker, who is a pioneer here but made a big mistake and moved to Austin. Friday says he has a job for the Old Man figured out that will pay more than the 11 dollars the Boss pays him - it is, Mistake Eraser, which is needed both in Washington and Austin to erase the mistakes our legislators have been making. Friday says that all the candidates just before the last election were for the old age pensions, but that after the election (as usual, he says) the school teachers stole the show and the legislators all went bankrupt more than common and made a two million dollar mistake in their appropriations for the school teachers. The Old Man don't think he's capable of being a Mistake Eraser. Anyway, Liss says he's coming up on a visit soon.

DONKEY TAIL PULLING

About the funniest thing the Old Man has seen here in a long time was the Donkey Baseball game at Eagle Field Monday night. But, there was one serious error made along late in the game when that fielder caught Doc Graves' high fly and the Doc couldn't ride the donkey to first base. Everybody wanted to see Doc ride "Gonzales" around them bases - and Doc might've done it, too, as dentists have a certain "pull" which Doc might have used to advantage on old "Gonzales". Seems like James Nickols is the best donkey buster in these parts - and the Old Man figures he's been riding lots of calves.

FROM PARSON PAUL

Popular Parson Paul Weiss has moved away and gone to San Antonio to keep the congregation of Trinity Methodist Church there in the straight and narrow. He writes back to the Old Man this week: "We certainly do like the place here; have a most beautiful church and parsonage - a great opportunity for service. Yet sweet memories of Goldthwaite will long linger in our minds..." Thanks, Parson, for the picture of the church, and this punk paper the Boss prints each week will come your way.

PAT ON THE BACK

Old Man 100 was sure tickled to get this letter from E. A. Martin, News Editor of the Coleman Democrat-Voice, and it will tickle the Boss some, too, but not enough for the Old Man to get that duller raise: Dear Hunnert: Just thought I'd drop a line to you and let you know that I really enjoy your 'Eagle's Eye' column. We get the Eagle every week on the exchange list, and I think it's a nice job, both in editorial and advertisement presentation. Incidentally I think you run some of the best editorials of any weekly paper in this part of Texas. I'm slowly trying to dress up the D-V with a few 'different' features... don't know if you've noticed, but since I took over here on the editorial side a couple of months ago, we have added several new regular features. The pat-on-the-back one - "Let's All Get Acquainted With..." is going over big. Cordially, E. A. MARTIN, News Editor.

BEING POLITE

"Go ask father," the maiden said; And she knew that I knew That her father was dead; And she knew that I knew What a life he had led; And she knew that I knew What she meant when she said, "Go ask father."

Once when the Old Man was a young man and was selling things from door to door, he knocked on one door and when a beautiful red-head stuck her head out he asked to see the buyer for the household. The red-head told him her husband was out of town and wouldn't be back for two or three days. "O. K., I'll wait," the Old Man tells her. "Wanta get rich? Here's three ways to do it: Work, inherit, or win it in a radio contest."

SAN SABA RODEO CHAIRMAN

His facial foliage is an entry in the beard derby held in connection with the rodeo. Earl and Jack Sellers of Del Rio are producers of the show, one of the leading in rodeos of Central Texas.

NEW GAME WARDEN FOR SAN SABA, MILLS COUNTIES

V. G. Grady, new game warden recently assigned to San Saba and Mills Counties, has moved his wife and baby to San Saba, failing to find a place to live in Goldthwaite. His office will be in the San Saba Sheriff's office. Mr. Grady has been game warden in the Dalhart area for the last year.

GRASSHOPPERS AND MORE GRASSHOPPERS

An army of grasshoppers has invaded the Big Valley community and is likely to advance into other communities if the farmers don't try to control them. On effective poison put out by the Extension Service, Texas A. and M. College is now available for these parts. Inquire at your County Agent's Office as to how to go about obtaining it.

DARLUS B. McCOMBS, County Agri. Agent.

FAREWELL GREETINGS FROM THE WEISS'

A Minister of the Gospel, as he ministers to people in many cities, towns and countryside, learns to know more people and love them, than possibly any other person. So we have come to the day in our association with you in Goldthwaite and Mills County, to say "Farewell"; for a little while at least. You have been gracious to us. You have made it possible for us to serve man-kind in hours of sorrow and joy. This, we, and the Christ appreciate most kindly.

May we say, that your fair city and county can be proud of the things you have accomplished in the past, your opportunities for the present and future are indeed great and we do feel that you will make use of the opportunity.

We have been assigned to the Trinity Methodist Church, San Antonio. A beautiful church in the heart of the nice residential section of the city. We find that the needs of the people everywhere are the same, struggling to live better and more noble lives.

Our prayers and best wishes go out for Goldthwaite and Mills County. We do not wish to say, "Good-bye" but "Till we Meet Again". May you continue to build a better and more noble city and county, out of which will come forth greater and more noble characters than have ever come before.

May His Blessings be yours, REV. & MRS. PAUL A. WEISS.

AUTO WRECK

VICTIM RECEIVES MILITARY FUNERAL

Elmo Simpson, 21 year-old ex-sailor, who died in a Brownwood hospital June 5 following an automobile wreck near San Saba, received a military funeral at Mullin June 4. The firing squad, composed of local ex-servicemen included Harold Yarborough, T. M. Glass, Alfred Carter, Garth B. Carter, James H. Bird, Vernon Halford, Tas Renfro, and C. L. Brown. L. B. Porter was acting Chaplain and presented the flag to the parents. The buglers were Terry Blake, Jerry Long and Jack Earl Long; pallbearers were Gordon Jones, L. V. Benningfield, Henry Long, O. R. Kendall, L. D. Hollingshead, Kyle Smith and James Lawson. Simpson is survived by his parents, three sisters and two brothers. Randolph and Company had charge of funeral arrangements and burial was at Oak View Cemetery.

Two companions, Johnnie Ray Price and Marvin Lawson of Mullin were seriously injured in the wreck. Price suffered head injuries and Lawson received an abdomen injury. The wreck occurred Wednesday afternoon, June 4, when their car went out of control and overturned on the San Saba-Goldthwaite highway about three-fourths of a mile south of the Colorado River bridge. A combine crew near the wreck were first to reach the scene of the wrecked 1936 Ford. Price and Simpson were rushed to a Brownwood hospital and Lawson was carried to San Saba for treatment. Simpson died the following morning and at the present time, Price's condition is reported as being much better. Lawson was able to leave the hospital in a few hours.

Tracks at the scene of the accident indicated that the automobile pulled off the pavement on the left, then swerved back across the road into the bar ditch, pulled back toward the highway and rolled over 3 times, coming to rest on its right side. All three of the Mullin boys were thrown clear of the automobile, Simpson about 30 feet. Simpson and Lawson were most likely thrown through the fabric top of the car and Price probably went out the door. The car was not badly damaged considering the fact it rolled three times.

Mr. and Mrs. Trenton Smith of Austin spent Tuesday night with his aunt, Mrs. J. H. Randolph.

Mr. and Mrs. Walter Reed of Lometa visited her mother, Mrs. F. D. Webb Sunday.

Locations Of 14 Permanent American Military Cemeteries And Four National Cemeteries

Locations of 14 permanent American Military Cemeteries and four National Cemeteries which the War Department plans to establish as final resting places overseas for the members of the Armed Forces who died during the war outside the continental limits of the United States if next-of-kin request burial to be made overseas, was announced today by the War Department. The locations were agreed to jointly by The Quartermaster General and the American Battle Monuments Commission.

Temporary U. S. Military Cemeteries laid out during World War II but which will become Permanent Cemeteries are:

- U. S. Military Cemetery at Cambridge, England (50 miles from London).
- U. S. Military Cemetery at Margraten, Holland (10 miles west of Aachen, Germany).
- U. S. Military Cemetery at Hamm Luxembourg (2½ miles east of the city of Luxembourg).

The four National Cemeteries are to be established under the plans at Honolulu, Hawaiian Islands, Guam in the Marianas, San Juan, Puerto Rico and at Juneau, Alaska. These National Cemeteries will provide final resting places for any Armed Forces Personnel or honorably discharged veterans who may wish to be buried in Hawaii, Guam or Puerto Rico in addition to those who died during World War II.

America's dead of World War II rest today in more than 150 temporary United States Military Cemeteries overseas. Next-of-kin of the deceased are now being asked by the War Department to state where they desire their loved ones buried. Options open to the next-of-kin provide for burial of the individual deceased member of the Armed Forces in a Private Cemetery in the United States, in a National Cemetery in the United States, in a Permanent American Military Cemetery overseas or in a Cemetery in a Foreign Country which is the homeland of the deceased or of the next-of-kin.

Action by Congress will be required before the Permanent Military Cemeteries or the new National Cemeteries may be established. Once the Permanent Military Cemeteries are established they will be cared for by the American Battle Monuments Commission. The Office of the Quartermaster General has supervision only over all National Cemeteries in the United States and abroad.

Land for the new cemeteries may be purchased if Congress so directs, or may be acquired by outright gift from the country concerned.

Following World War I, 8 Permanent American Military Cemeteries were established in France, Belgium and England. A total of 30,907 World War I Dead rest in these Cemeteries.

Swing Of Southwest Farm Markets

(By U. S. D. A.)
Active demand at firm to higher prices ruled the majority of southwest farm markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. Wheat, cows, calves, shorn lambs, and hens were the losers.

Liberal offerings of new crop wheat broke the market early last week, and prices fell fifty cents per bushel after the long holiday weakened. Later rallies recovered only a little of the loss, and Friday closed \$2.45 for No. 1 hard at Fort Worth and Galveston. New crop oats and barley dropped some too, but corn and sorghums gained.

Spot cotton prices climbed steadily last week to score total advances of around \$4.50 per bale.

Eggs and most poultry maintained steady to firm prices last week. Hens showed slight weakness, and sold mainly at 22 to 26 cents per pound. Most areas bought eggs at 36 to 38 cents per dozen; but South Texas and Louisiana centers paid 40 to 50 cents.

Hog prices fluctuated some last week but netted mostly gains of 25 to 75 cents. Closing

bulk of good and choice butcher hogs brought \$24.75 at Fort Worth and Denver.

Spring lambs gained mostly 50 cents to \$1.00 at southwest terminals last week, but aged sheep and low grade shorn lambs dropped almost as much lower. Good and choice spring lambs brought \$23.50 to \$25 at Fort Worth.

Generally steady to slightly weaker prices prevailed at Denver last week for steers, heifers, and cows, while low grade cows and calves moved generally lower at other southwest markets. Canner and cutter cows sold at \$8.50 to \$10.50 at Houston.

FOR VICTORY

By EMAGENE HAENISCH DDT AGAINST POTATO INSECTS

Since DDT is poisonous to both man and animals, you don't want to use it in your garden on leafy vegetables that you eat. However, it is very effective on potatoes.

It works very well against the Colorado potato beetle, that common yellow and black striped potato bug that does a lot of damage to potatoes. It also gets these little black jumpers, known as flea beetles, that eat little holes in the leaves of potato plants, and those little green wedge-shaped leafhoppers

that make the tips and sides of leaves turn brown and curl up.

You can use either a rust mixture that contains three percent DDT, or the wettable powders that mix well with water for spraying. Since the commercial wettable powders vary in the amount of DDT they contain, use them according to the manufacturers directions on the package. Remember that it's not wise to use DDT in oils or emulsions.

If you've got lice on your potatoes, you can mix rotenone with the DDT, so that the dust mixture contains three percent DDT and 5 percent rotenone.

HILLSIDE MISSION

—By LIDA BYRNE

Speaking of our Lord, Jesus St. Matthew chapter 13, verses 31 and 32:

"Another parable put he forth unto them, saying, the kingdom of Heaven is like to a grain of mustard seed, which a man

Which indeed is the least of all that took and sowed in his field; seeds; but when it is grown, it is the greatest among herbs, and it beareth a tree, so that the birds of the air come and lodge in the branches thereof."

When I began to study the Bible and came to the above two verses, I did not understand them. The herb which we now call mustard in this country has seed larger than some other seeds, we all know however it may not have been known as mustard during our Lord's time here on earth. In recent years I had occasion to see a mustard plant which is said to be commonly known around Jerusalem. It was a small tree, perhaps five or six feet high, and many birds of the air could

have lodged in its branches. The seeds looked very much like gray dirt or dust.

Rural people make up 60 percent of the country's population.

E. J. HOWELL, DEAN
A. J. Spangler, Director of Division of Agriculture

MEMBER OF THE COUNCIL OF AMERICAN OFFICIAL EGG LAYING TESTS

The Test winner was selected entirely on the number of eggs laid by the birds by the close of the Test.

Duration of the Test—January 1, 1947 to May 31, 1947. There were six pens entered, each pen consisted of ten young hens and one tom. This year all breeds were Broad Breasted Bronze.

Lee & Smith Turkey Farm, Midlothian, Texas, won high pen with 869 eggs, an average of 86.9 eggs per hen for the five month period. The high pen for the five month period was entered by Janes Bar Nothing Ranch, Austin, Texas, with 134 eggs.

The fifteen hens that laid 100 eggs or more may remain here to be trapped for the next seven months in order to establish a full year of production. There were eighteen hens to qualify for R. O. P.

A total of 4499 eggs were received from the sixty hens during the five month test period. This is an average production of 74.98 eggs per hen and an average per-cent production of 49.65.

'PERFECT MARRIAGE' PERFECT FILM FARE

"The Perfect Marriage" is the title of Hal Wallis' latest production for Paramount, and it is also a very apt description of the sparkling romantic comedy which shows Tuesday and Wednesday at the Melba Theatre. For this Loretta Young-David Niven starrer is a perfect marriage of light-hearted, sophisticated comedy and moving, tender romance, produced, directed and acted by a perfect combination of film talent.

The beautiful Loretta Young and handsome Britisher David Niven make an admirable team, each complementing the other in good looks and individual comedy style. They, as a couple ideally wedded for ten years, are the focal point around which the hilarious and romantic martial mix-up revolves.

The story begins, and the marriage almost ends, as the blissful pair are celebrating their tenth anniversary. At this joyful moment, a silly argument begins, enlarging with time and anger, until each confesses that love has died, and life as husband and wife has become very boring indeed. They become spiteful, suspicious and jealous, and the divorce court rears its ugly head. However, it is the fond remembrances of things past, the very things they found so hateful in each other, that save their wounds and prepare them for the celebration of many, many more anniversaries to come.

RECORD-BREAKING PLAY IS NOW FILM COMEDY

"Abie's Irish Rose", the new hit film by Bing Crosby Producers, Inc., is slated for the Melba Theatre on Saturday Prevue, Sunday and Monday Matinee and Nights thru United Artists release.

This delightful comedy from the talented pen of Anne Nichols has been seen and heard by millions via stage and radio. As a stage-play, its record run of more than 2000 performances on Broadway has been surpassed only by "Tobacco Road." Now, as a screenplay, "Abie's Irish Rose" has been streamlined by the author into a sparkling comedy of two young lovers with a bad case of parent trouble.

Producer-director A. Edward Sutherland has brought together two newcomers for the leading parts—Richard Norris, and Joanne Dru. Beateous Joanne—Mrs. Dick Haymes in real life—plays the role of Rosemary Murphy, an Irish charmer who has trouble taming her hot-headed father, Patrick, (J. M. Kerrigan). Richard Norris as Abie Levy, her husband, has equal difficulty with his father who is enraged over his marriage to an Irish lass.

Mr. and Mrs. Stoddard Gerald left Sunday morning for their home at College Station after a few days visit with her parents Mr. and Mrs. F. E. Burkett.

requirements for maintaining a fairly strong military program during the next year, and the over-all cut from estimates was under 10 per cent.

Defying what old timers around the capitol said the most active pressure lobby in modern history against its enactment, the House passed by a vote of 320-to-79 the revised labor bill.

The new measure, which is now before President Truman, is a much weaker and much milder bill than the one originally passed by the House. Its enforcement provisions are very inadequate. But it seems to be the best we can hope to get at this session of Congress.

Here are a few of its principal provisions and objectives:

1. It prohibits the closed shop but permits the union shop where agreed to by a majority of employees in a plant. The bill yields to the States jurisdiction to legislate on the subject.
2. It attempts to ban jurisdictional strikes and boycotts.
3. It undertakes to restore freedom of speech to employers, which has been virtually prohibited by the Wagner Act.
4. It bans featherbedding,

such as Petrillo engages in.

5. It outlaws strikes against the Government.

6. It prohibits political contributions by unions as well as by banks and corporations, and requires unions to make annual financial reports.

7. It attempts to prohibit Communists from holding office in labor unions operating under the Act. (There are now at least 9 big CIO unions that are Communist-dominated.)

8. It prohibits a check-off of money from a worker's wages for union dues unless the worker gives his consent in writing.

9. It gives the President authority to seek through the Attorney General an injunction to prevent a strike affecting the national health and safety of the people. The injunction would expire after 75 days. The President may then report the situation to the Congress with a request for additional legislation to meet the crisis.

10. It defines unfair labor practices by unions as well as by employers. Heretofore unions could not, under the Wagner Act, do anything that would constitute an unfair practice and were not even required to bargain in good faith.

11. It permits suits for damages against either side to a labor-management contract for breaches of contract.

12. Employers are no longer required to bargain collectively with foremen, and any welfare funds provided by contract must be administered jointly by the employer and union.

13. It attempts to regulate picketing and to prohibit violence to employees going to and from work during a strike.

Unfortunately for the laboring people and for the general public, the new bill does not attempt to curb monopoly over human labor as now practiced by certain labor leaders. Therefore, the new law will have but little effect upon the present concentration of economic power in the hands of a few men.

Industry-wide bargaining, which is the key to the power of John L. Lewis and some others, was banned in the original House bill, but is permitted in the new version.

The new law will not apply to

railway employees who come under the provisions of the Railway Labor Act.

The new labor bill was enacted over bitter opposition from those who believe labor unions should be above the law and not subject to the same laws that other organizations and other people are. It is a bi-partisan measure, having received the overwhelming support of both Democrats and Republicans. It was passed by a margin of four-to-one.

Texas Members in Congress were almost solid for the new law. Of the 21 Texans in Congress, only three voted against the labor bill. They were Sam Rayburn of Bonham, J. M. Combs of Beaumont, and Albert Thomas of Houston. Practically all opposition to the bill came from those who don't want any labor legislation of any kind and who are afraid of political reprisal by the labor unions in their districts when the next elections occur. The union bosses are now raising money and have made many political threats.

A large supply of copies of the model landlord-tenant agreement is en route to this office, we learn. If you want one, free write. It's a good pattern upon which to base your own written agreement with your landlord or renter, though no two deals ever are exactly alike. The advantages of having rental deals and understandings written down and signed by both parties are being proved every year.

The value of dipping hogs in DDT for lice, flies, etc., is beginning to be apparent on the Hired Hand's Mule Ranch in Wise County. Swine dipped in the solution a month ago still have no lice, no flies—their hair looks brighter and better, and they've gained weight faster. The owner, Harold Hough, also built a concrete hog wallow, in which he changes the water every few days. The hogs stay fairly clean, and seem to like it better than mud. Mr. Hough believes the concrete wallow will pay for itself in extra pork. The hogs go for an alfalfa patch in a big way, too.

Word from U. S. officials in Mexico reports excellent cooperation there in the joint effort to eradicate foot and mouth disease.

The churches of the nation are taking up the fight to preserve our God-given, life-giving soil. With the third annual Soils and Soul Sunday in Texas coming up June 29, and ministers the country over preaching frequently on our responsibility to this greatest heritage, there has developed a realization of the strong link between Christianity and the conservation!

BOYS CAMP AT LAKE BROWNWOOD

The Baptist of Mills County are to have a boys camp on the Baptist Brotherhood property at Lake Brownwood, June 23rd to June 27th inclusive. All boys that are between the ages of 9 to 17 are cordially invited whether they be Baptist, some other church or no church affiliation at all. It is especially urged that every Baptist Church in the county see that the boys of their community be present. The three days will be taken up with swimming, games, and instruction in worthwhile things. Well trained and competent men will be in charge of every phase of the program. Bro. Leslie Sparkman will be camp director and pastor; another Mills county pastor will teach a Bible study course; a competent life guard will be

in the water during each of the two daily swimming periods. There will be ball games and some interesting Indian games that all boys will enjoy.

There are only two things a boy can do—the right thing and the wrong thing. It is our ambition to show the boys that the right thing is the one that brings him the most fun, joy and happiness in life.

There will be a charge of \$3.00 per boy. This will pay for his eats and other incidental expenses. Each boy is requested to take with him a small roll of bedding, bathing suit, and a Bible.

Remember, every boy in Mills County of the ages 9 years to 17 years is invited. If there are any who do not have a way to get there, come to the Goldthwaite Baptist Church early Monday afternoon, June 23rd, and a car will take you there and bring you back, free of transportation charge.

Methodist Young People Have Picnic

On Thursday, June 5, the young people of the Methodist church enjoyed a weiner roast at the lake. We played games and ate until we couldn't eat anymore and no wonder—we had baked beans, weiners, buns, potato salad, cold drinks and cookies.

We enjoyed it very much and we wish to thank everyone who helped make it a success. —Reporter.

THE WAR AGAINST FIRE INTENSIFIES

In a recent address, W. E. Mallalieu, general manager of the National Board of Fire Underwriters, observed that the war against fire has made great progress. Thousands of lives and enormous sums in property values have been saved by organized prevention work. But this is not enough. Fire waste is inexorably high.

There are now more than 800,000 fires each year in this country. Our dollar fire loss is at an all-time record level. If the present rate of increase is maintained, this loss will reach the shocking figure of \$1,000,000,000 a year by 1950.

Mr. Mallalieu spoke of what has been accomplished in dealing with other menaces to human life and welfare. Diphtheria took a toll of 125 lives for each 100,000 of the population in 1885—in 1945 it took but 1.2. In 1885 typhoid accounted for 50 deaths per 100,000 Americans—now it has been practically wiped out. So it goes, down a long list. Comparable progress can be made in controlling the menace of fire—if only we attack it with determination.

The recently-concluded President's Conference on Fire Prevention, in Washington, D. C., was a milestone in the battle against fire. Some 3,000 delegates representing every state, attended, and they will bring to their regions an all-inclusive program for dealing with every phase of the fire problem. But they cannot do the job alone. Success will depend upon the active, informed public at large.

SAVINGS BOND CAMPAIGN

"Where you fork... where you bank... buy U. S. Savings Bonds" will be the theme of the U. S. Treasury's June-July promotion of the sale of U. S. Savings Bonds.

The promotion will introduce nationally the Bond-a-Month Plan for bank depositors with banks throughout Texas participating in the plan. Under the plan, which is intended to reach farmers, ranchers, professional men and women, self-employed persons, small business men and others, the depositor authorizes the bank to issue bonds to him monthly. The purchase price is charged against the depositor's checking account and the bonds are delivered by the bank each month.

"Too much emphasis cannot be placed on the value of U. S. Savings Bonds as an investment," according to an announcement on the June-July promotion by Nathan Adams, Dallas, State Chairman of the Texas Advisory Committee on Savings Bonds. "These securities are backed by the full credit of our nation, the return is stipulated and guaranteed without risk of market fluctuations. The widespread ownership of Savings Bonds creates financial reserves at a time when our national income is the highest in our history, thus building a backlog of purchasing power when the buyers market has returned in full.

THE FORCES OF FREEDOM

It is estimated that there are more men under arms now than shortly before the Second World War. Save in the Western Hemisphere, there is no real peace anywhere on earth. Violence, disorder, oppression—these are the symbols of the postwar world. And, as inevitably occurs in an age of suspicion and unrest, the liberties of peoples everywhere are being limited and destroyed.

The position of the United States in this dark and dangerous time is clear. We, with a handful of allies, none of whom are economically or militarily powerful, are the last citadel of individual freedom. With few exceptions, the English speaking world alone still maintains and respects the basic rights of man—and even in that world there are minus signs of weakening. The American government, in its dealing with the other powers, is the leader of the forces of freedom against the forces of darkness and the total state.

The duty of the United States is equally clear. To put it in a phrase, this duty is to maintain our strength. And Strength can be divided into two different and distinct classifications. There is military strength—the strength of force. Much as Americans hate war and thought of war, we must maintain this, in the interest of self-preservation.

Second and still more vital, there is the kind of inner strength which only a free people can possess. This is the heart and soul of a nation and its institutions. It is a nation's greatest resource in time of trial. And it rests upon the proposition that the rights of the individual are inviolate. So long as we have this, we shall be ready to meet whatever the coming years bring.

JUDAH'S APPROACHING DOOM

LESSON TEXT—Jeremiah 36:2, 3, 20-31; II Kings 24:14. MEMORY SELECTION—The fear of the Lord prolongeth days; but the years of the wicked shall be shortened.—Proverbs 10:27.

The decline of a nation from strength and glory to weakness and shame is always a sad thing to contemplate. Still worse is the evident cause of such decay in the sinfulness of the people and their stubborn rejection of God's mercy and grace.

The religious reforms in Judah under Josiah were only temporary in their effect on the people; partly because of their own insincerity, and partly because Josiah was soon killed in battle. Yet God did not leave his wandering people without good counsel, for it was in those days that the great prophet Jeremiah ministered. He had been the helper of Josiah in his good purposes; now he continued to plead with Judah to submit themselves to God and to his will.

His efforts proved to be fruitless as far as Judah was concerned, for we see that

I. Judah Would Not Respond to God's Mercy (Jer. 36:2, 3).

God commanded his prophet to write down his words in order that the people might not only know the inevitable impending judgment, but especially be reminded of God's desire that they should turn from their evil ways and be forgiven.

One would have thought that they would have responded to such mercy with an immediate and grateful return to the Lord, but they did not.

Jeremiah, a unique man of great ability, was so tenderhearted that he has often been called the weeping prophet. Do not infer that he was a weak, emotional character, for he was strong in the face of rejection and persecution. He urged upon Judah the necessity of submitting to Babylon, to whom God had given power, and above all to the Lord, for a spiritual cleansing and revival.

Our second section brings before us the further sin of King Jehoiakim, who led his nation on to destruction. We see that

II. Judah Would Not Receive God's Word (Jer. 36:28-31).

At God's command Jeremiah and his scribe Baruch had prepared the scroll with God's Word upon it. One of the nation's leaders was moved by it, and through his urging, the scroll was brought to the attention of the king.

Jehoiakim, sitting before the fire, heard only part of it, and then in defiance of God he took a penknife and cut it up and burned it.

One cannot help but think of those in our day who call themselves modern thinkers, or liberals, who have also used their penknives on God's Word. They cut out of the Bible everything they do not like, and offer the hungry people the stone of their own philosophies in place of the Bread of life. Think what their judgment will be!

God's Word is not so easily gotten out of the way! The prophet was commanded to rewrite the scroll, and in it to declare the awful judgment of God upon the one who mutilated his Word.

To try to destroy God's truth by fire and violence is as fruitless as to try to tear the stars from the heavens or to keep the sun from shining. The wicked leaders of a great nation have tried that once more in recent years, and they now lie dead for their sins, with the nation a subject people, broken and all but destroyed.

One wonders why those who profess to serve the Lord will engage in such activity, even as one wonders at Judah, a favored people of God, refusing to receive his Word.

God is not willing to give up, and now tries chastisement. But we see that

III. Judah Would Not Recognize God's Providences (II Kings 24:1-4).

Jehoiakim had become the vassal of Babylon, but after three years he decided to try to throw off the yoke of his oppressor, Nebuchadnezzar. He was not able at the time to deal with the situation, and so he incited marauding bands from various other nations to harass Judah.

We see, however, that this came about at the commandment of God (vv. 2, 3). Evidently he was now using the distressing experiences of life to turn Judah back to him; but once again it proved to be in vain.

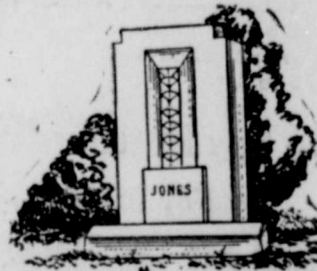

God does deal with men through what we call his providences, and these may include not only his mercies, but his chastisement. Trouble and sorrow may be God's means of leading us to the place of repentance and blessing.

What folly it is to disregard the hand of God in our daily lives, or to become embittered at the circumstances which are intended to bring us to God's place of blessing. Happy is the man or woman who, being reproved in this way, profits by the Lord's admonition (Heb. 12:11).

COUNTY AGENT NEWS --

DARLUS B. McCOMBS County Agent, Mills BUY SUGAR NOW

The estimated record wheat crop coming up it due to affect the distribution of sugar to Texas store shelves.

The U.S. Department of Agriculture has urged the nation's homemakers to cash in their sugar stamps—numbers 11 and 12—as soon as possible. While the total year's supply of sugar for the nation, estimated earlier at about 6,800,000 tons, remains unchanged, the distribution of the supply is another question, USDA says. The large wheat crop is expected to create a difficult transportation problem. In another month, there will not be enough box cars to carry both wheat and sugar.

Due to that situation, the No. 12 stamp in housewives' ration books was made good in advance. Grocers can accept both Stamp 11 and 12 and will continue doing so until October 31.

Miss Gwendolyn Jones, food preservation specialist of the Texas A and M College Extension Service, reminds Texas homemakers that no sugar will be allowed them especially for canning, and that any canning sugar used must come from their regular allotment.

USDA says that many consumers are apparently postponing the use of their stamps.

Housewives making last-minute runs on stores to ease sugar stamps are likely to find local shortages, since the wheat crop is due to tie up rail transportation.

MORT LEGUME SEED NEEDED

Texas farmers this year expect to have about 200 thousand acres of hairy vetch. . . and over half of that acreage will be harvested for seed, according to B. F. Vance, state director of the Production and Marketing Administration.

This would indicate that Texas is falling in line with the general trend in the South to produce more cover crop seed. Hairy vetch is one of the oldest of the legumes used for cover crops. . . probably because it will stand up well under tough growing conditions in the winter, says Mr. Vance. When the crop comes through and produces a good tonnage of organic matter to turn under. . . that's when you see the real value of it.

Still, hairy vetch as a seed crop is one of the trickiest. It will come through the winter in fine shape, produce a good seed crop. . . and then sometimes on a hot drying day it will shatter the seed crop all over the ground. So West Cross Timbers farmers, who are growing most of our hairy vetch, have a real job on their hands. These seed growers say that they would like

to keep all the present crop in the state for seed. . . and it's needed, too. . . and then some. Actually, says Mr. Vance, we need just about four pounds of legume seed for every pound that we now produce.

SAN SABA RODEO STARTS THURSDAY

The 9th Annual Rodeo, San Saba Junior Chamber of Commerce's contribution to the revival of the old west, will break out in all its colorful grandeur on Thursday afternoon, June 9, and continue through Saturday, June 21.

A parade, in which the majority of the business houses and civic organizations of the city will enter colorfully decorated floats, will begin at 3:30 o'clock Thursday afternoon.

Rodeo events will be held nightly at Rogan Field with top-flight professional cowboys from Texas and other states entered in a full program of rodeo activities. New specialty acts and clowns promise a brand new show.

San Saba Jaycees are participating in a beard derby and for two months have been carefully trimming their whiskers into styles of yesteryears. Cash prizes will be offered for the best beards. During rodeo week local business men and citizens don western regalia from boots and spurs to ten-gallon hats as the community takes on its festive atmosphere of pioneer days.

EBONY NEWS—

By Clementine Wilmeth Briley
Mr. and Mrs. O. P. Mitchell and children, Marilyn, Carol Jean, and Robert, of Beaumont arrived Saturday afternoon to spend a week's vacation with Mrs. Mitchell's parents, Mr. and Mrs. J. R. Briley.

Reports from Grandmother Reeves, who has been dangerously ill at Texhoma, are that she is much better.

Ednabeth Caywer of Orange has arrived to spend the summer with her grandmother, Mrs. Edna Dwyer. Her parents, Mr. and Mrs. Austin Caywer, are at Nacogdoches where Mrs. Caywer is in school doing work on her master's degree in the Stephen F. Austin State College there. Also she and Mr. Caywer have been invited to do research work on a health unit in that school. Mr. Caywer received his master's degree from the State University at Austin this month.

Mrs. Nellie Malone's friend, Mrs. Breeding, of Ysleta, Mrs. Breeding's grandson, Bennie

Clayton, and Mrs. Jay Malone, who is granddaughter-in-law to both Mrs. Malone and Mrs. Breeding, arrived at the Malone home Monday for an extended visit.

Sunday after church Mrs. Edna Dwyer had dinner with Mr. and Mrs. Starley Reeves, and Mr. and Mrs. O. R. Mitchell had dinner with Mr. and Mrs. Hubert Reeves.

Mr. and Mrs. J. R. Wilmeth of Brownwood attended church here Sunday. They had dinner at the Briley home and spent the night with Mrs. Edna Dwyer.

Mr. and Mrs. Bob Egger, who have been at Brownwood for the past few weeks on account of Mr. Egger's illness, are back at home, and Mr. Egger is up. But he says he is sending his cattle to market this week, and he thinks he will sell out as soon as he can move to town where he can be close to a doctor.

Taylor Duncan on the Wilmeth place has just harvest 500 bushels of oats from a patch which he had decided to turn over to his sheen until his neighbors advised him to keep the sheep off of it and see what it would do.

Charlie Griffin's rye and vetch in his orchard is just about ready for harvesting.

Continued dry, windy weather is making the hearts of the farmer folk rather ill at ease in this section of the country, but the men are going bravely on planting their peanuts.

In spite of all things, a few improvements come our way. Gene Egger and Charlie Griffin have each added windmills to their estates. To me, from a child, a windmill has always spelled prosperity.

Our commissioner, Mr. Davis has just had Mr. Hinesley put in a concrete slab at the Crowder Branch.

Eugene Meek and his mother, Mrs. Lucy Meek, of Brownwood, oldtime friends to many of us of this community, visited at the Bob Egger home last week. Mrs. Nellie Malone celebrated her 84th birthday Tuesday, June 10.

Mrs. Homer Doggett and Janice left Sunday for Pampa after a visit with her mother, Mrs. Eula Nickols.

Mrs. A. J. Cline of South Gate, Calif., visiting here, called by the Eagle Office last Thursday and renewed her subscription to the paper. She also purchased a Mills County World War 2 Service Book for her husband while here.

UNDER GOES OPERATION

Her many friends will be glad to know she is doing nicely.

Mr. and Mrs. Wayne Lockler and son, Tommie of Fort Worth, Mr. and Mrs. Merlin Lemons and son, Jerald, of Brady spent last week-end here with their parents, Mr. and Mrs. C. S. Horton.

AUTO WRECK AT PADUCAH

Mrs. Hugh McKenzie, Goldthwaite, revealed information Thursday concerning an automobile wreck in which her nephew, Chester Ellis of Paducah, was seriously injured, and his two sons, Robby and Larry, age 7 and 3 respectively, were killed. Ellis, unable to attend funeral services for his sons, stated that he was unable to determine the direct cause of the wreck, but that the car went out of control near a bridge.
