CENTY BACK-ENDS—

The Old Man read this: Two
ends met on the street, and
said to the other: "What
you been doing?" "Oh, I've
been working in the Atomic
bomb plant," said the second
end. "1st F." "But you didn't
know what you were doing, did
you?" "2nd F." "No, we thought
we were making the front end
of a horse to be sent to Washing-
ton for assembly."

ADVICE TO YOUNG—

None of these young
people who just started to school
today—yet—but the Old Man has
got no better sense than to
sometimes give free advice even
without being asked for it.
Here's what he wanted to say:
The young people of today seem
to think that grandpa and
grandma were all wet in figur-
atively. You should build your own
character by way of perspiration
and self-denial—today people
seem sorter to look to the Govt.
to see that they get a living.
The Old Man don't blame
the youngsters; it's the papas
and mamas who are to blame
for not staying home nights and
teaching their off-shoots the
rules on how not to grow up
a green goosin'.

GOOD GUESSER—

Teaching an intensified
course, an instructor began to
realize his pupils were begin-
ning to show strain, so he sought
to ease the situation with a
rather pointless question: "If a
chair has four legs, is painted
white, and rolls on castors, how
old am I?" That dumfounded
the students, except the most
backward boy who answered:
"44." Then the instructor was
amazed. "That's right," he said.
"But how did you know?" And
the dumb student said: "My
brother is 22, and he's only
half crazy."

MOM'S A MESS—

A pretty young chick, named
Carol
Played strip poker for apparel;
Her boy friend's straight
Flush
Made sweet Carol blush,
And so she went home in a
Barrel!

PURELY PUNY PONES—

A little moonlight
Now and then
Will marry off
The best of men.
—WORSER YET—
He swallowed half a dollar
And it lodged below his collar,
And by a stroke of scientific
skill
The coin was excavated
When the surgeon operated
And the man coughed up a
Twenty dollar bill.

And when the Goldthwaite
her asked young Johnnie
what he wanted to take his
cod liver oil with today, he re-
plied: "With a fork."

Also, once the professor in
medical school asked a student
what he would do in the case of
a person eating poisonous mush-
rooms, and the student answer-
ed: "Recommend a change of
diet."

Here's what the 7th told the
Old Man this morning: A
woman flees from temptation,
but a man just crawls away
from it in hopes it may over-
take him. Mebbe so—but the
Old Man ain't so fleety as he
uster be.

FISHER URGES VETS NOT TO CASH TERMINAL LEAVE BONDS

While in Goldthwaite this
week, Congressman O. C. Fisher
urged war veterans to postpone
cashing their "terminal leave
bonds if they possibly can."
"I voted for the bill to per-
mit veterans to cash those bonds
if they want to," said Fisher,
"but I earnestly hope not many
veterans will find it necessary
to do so."
Mr. Fisher pointed out that
because of inflationary prices,
the bonds will likely have much
more buying power and there
will likely be more need for the
money in the future than at
present. "Those bonds bear
2 1-2 per cent interest," Fisher
continued, "and they are nice
nest eggs for veterans to hold
on to."

REV. E. P. NEAL IN METHODIST REVIVAL HERE SEPT. 21-28

The Rev. E. P. Neal, Pastor of
the First Methodist Church in
Brady, Texas, will preach in the
Methodist Church of Goldth-
waite starting Sunday, Septem-
ber 21. Bro. Neal is well-known
throughout Texas Methodism as
a wonderful and fearless evan-
gelistic preacher. He preaches
for the glory of God and the
salvation of human souls. If
we follow his suggestions the
entire church will be revived
and many will be strengthened
for the kingdom of God in
Goldthwaite.

Bro. Neal is well known in
Goldthwaite by many of the
older people as he was Pastor of
the Methodist Church here
many years ago. We are looking
forward to our special worship
and preaching services together
with the anticipation of great
success, and we will be praying
that the Holy Spirit will direct
us in all our efforts for the ed-
ification of all believers and for
the saving of souls from the
hell of this world and the next.
Make plans now to participate
in this season of spiritual re-
freshing.

WILL DRY ICE MAKE IT RAIN?

During these dry times with every passing cloud being
watched longly, the rainmakers are having a field day. With
the dry ice advocates claiming everything from cloudbursts
to morning dews, more and more converts are taking sides.
Even Congress is being asked to do something about it.
One Congressman says he'll introduce a bill to provide funds
for more experiments. Our own Congressman Fisher revealed
while here this week that The United States Weather Bureau
acting jointly with the Army is now engaged in research and
experiments with the use of dry ice in attempts to coax un-
willing clouds to behave themselves.
These experiments are continuing, and while the Govern-
ment has not yet rec... the dry ice as a rainmaker, who
knows but what one G... rainmaking flyers will be
able to cast an eye up... and say without being accused of
insanity: "That's rain in them that clouds!"

96 PRESENT TUESDAY NIGHT TO HEAR CONG. O. C. FISHER SPEAK

A total of 96 Lions, their
Ladies and invited guests par-
took of a chicken dinner and
heard Congressman O. C. Fisher
of San Angelo, representing the
Texas 21st District in the Na-
tional Congress, make an excel-
lent speech before the Goldth-
waite Lions Club special ladies'
night meeting Tuesday night at
The Hangar. This is the Con-
gressman's second time to be
guest speaker before a ladies'
night meeting of the club here.

The speaker was introduced
by D. D. Tate, and told of some
of his humorous experiences
while serving in the Congress.
He said America is the only
place where Democracy has
worked permanently—for 160
years continuously. Other na-
tions have borrowed our Con-
stitution almost word for word
and used it for a few decades,
only to have their Democracy
go under by revolting or other-
wise—proving that it is the
spirit of the people that makes
Democracy work.

Congressman Fisher outlined
some of the important laws
passed by the recent Congress—
a most eventful one. He said
the so-called Truman Doctrine
which has put up a united front
against Dictator Stalin of Rus-
sia and Communism now, in his
opinion was a step toward peace
instead of war. He said the
U. S. Government for the first
time in recent history had taken
in during the last fiscal
year more than it has
paid out, has balanced
the budget and paid some on
the huge national debt.

After talking briefly on the
Taft-Hartley labor bill, the
Congressman told about the
wool support extension bill
which was passed. He said the
Texas 21st Congressional Dis-
trict of 27 counties, which Mr.
Fisher represents in the Na-
tional Congress, produced more
wool than any other congress-
ional district in America, that
the government now has a
stockpile of six or eight hun-
dred million pounds of wool
which it bought from pro-
ducers during and since the war,
and some concern was being
felt on the proposed reduction
in the wool tariff. He said that
every person in his district
directly or indirectly depended
upon the price of wool, and
that the number of sheep in
the United States had decreased
from 49,000,000 head in 1941
to 31,000,000 head today.
Mr. Fisher said he had fought
and would continue to fight
the proposed bill in Congress
which would break down our
present immigration laws and
allow 400 thousand additional
foreigners now in displaced per-
sons camps to enter the U. S.
at the rate of 100 thousand per
year. He said 154,000 carefully
screened persons could now be
admitted each year under the
present quota law which was
passed in 1925. Outside of most
of these displaced persons be-
ing of a character that we
would not want here, the speak-
er said a great many of them
from Eastern Europe, which is
Communist-dominated, had in-
filtrated into the camps after
the war had ended so as to
get in line to come to the U.
S. to preach ideologies that a
great majority of the people
here would not want.

Cong. Fisher said there was
a black spot on the horizon of
world peace—that of Russia
and Dictator Stalin extending
Communism in every direction
throughout the world. He said
the iron curtain surrounding
the Communist nations had
become more impenetrable dur-

CLARK FISHER

ing recent months, and that
Russia, which formerly occupi-
ed one-seventh of the world's
land surface, since the war had
already by her conquest added
260,000 square miles of territory
and 23 million additional peo-
ple to her empire.

The speaker expressed a fer-
vent hope that ways could be
found to work out the differ-
ences that now divide a war-
weary world into two camps,
advocated a strong army, navy
and air force, and emphasized
he thought the Truman Doc-
trine of stopping Communism
right now was a great step to-
ward peace instead of war.

farmers sold less freely, as prices declined \$4.00 to \$6.50 per bale for the week.

Spring lambs sold firm to \$1.00 or more higher last week, and aged sheep gained up to 50 cents.

Texas hog markets closed the week about even with a week earlier, while other southwest terminals gained mostly 50 cents to \$1.00 or more. Top butchers closed at \$27.75 at Fort Worth. Sows brought mostly \$20 to \$25 and pigs \$20 to \$26.

Slaughter and stocker calves dropped sharply at most southwest markets last week, and cows lost at some places. Common to medium slaughter cows ranged largely from \$12 to \$19. Most good calves sold at \$19.50 to \$22. Common to medium stocker calves brought mostly \$16 to \$18.50.

'DADDY RINGTAIL'

Wesley Davis, author of WFAA's newest kid show, watches Bobby Ringtail emerge from his typewriter to join his parents, Mother and Daddy Ringtail, for one of the most unusual fantasies on the air.

The Ringtail family, which has another monkey boy, Sammy, is patterned on Davis' own household. In fact, the former S. M. U. economics professor, who gave up teaching for radio writing, calls his wife and two sons, Mother, Bobby and Sammy Ringtail.

A program for the youngsters of the family, "Daddy Ringtail" and his friends of the Great Forest can be heard over WFAA-570 at 6:00 p. m. Mondays through Fridays beginning September 15th.

Mrs. Emma Oltrogge was brought home from Temple one day last week. She was at the Scott and White Hospital for an appendectomy. At last report she was doing nicely.

Miss Helen Hodges Shower Fetes

Miss Helen Hodges, bride-elect of Paul Myer of Waco, was honored Tuesday afternoon with a miscellaneous shower, given by Mesdames Greathouse, Burkett Blake and Miss Ruth Ervin in the home of Mrs. F. E. Burkett.

Seventy-nine guests called between the appointed hours. Miss Shirley Kline was at the guest book. Mrs. Stoddard Gerald of College Station presided at the punch bowl which was on an all white refreshment table. Miss Polly Stubblefield helped with the serving.

Miss Hodges and Mr. Myer will be married at the Church of Christ building September 9th at 4 o'clock.

They will make their home in Post City. He is minister of the Church of Christ there.

THE GOLDTHWAITE GARDEN CLUB

The thirteenth Year Book for the Goldthwaite Garden Club went to press this week.

The Club has much constructive work to do this year under the direction of the capable leadership of Mrs. Jim Weatherby, President. Mrs. Weatherby served in this capacity from 1939 until 1942. She has been District Secretary the last two years.

The Club is continuing with the project of the "Court House lawn planting and up-keep," "The Trading Post" and Cemetery Memorial Gateway, and the planting of the Gateway.

Mrs. John G. Berry is chairman of this project, and we will soon have the gateway dedication ceremonies under her direction.

The State Club awarded a blue ribbon to this club for the memorial project, as outstanding. The garden club here has also been outstanding in the district. Mrs. Berry, as the first president began this work.

Mrs. M. F. Horton and W. E. Fairman were appointed district chairman of committees for this two year term. The officers and committee chairman for this club year of 1947-48 are as follows: Mrs. Jim Weatherby, president; Mrs. Hollis Blackwell, first vice president; Miss Ruth Ervin, second vice president; Mrs. O. H. Yarborough, third vice president; Mrs. Warren Duran, recording secretary; Mrs. E. T. Fairman, corresponding secretary; Mrs. W. M. Johnson, treasurer; Miss Abbie Ervin, reporter; Mrs. C. T. Wilson, assistant reporter; Mrs. Mary Winsor, parliamentarian; Mrs. Malcolm Jernigan, year book chairman; Mrs. Mary Winsor, courthouse grounds; Mrs. John Berry, cemetery gateway; Mrs. M. F. Horton, public relation chairman; Mrs. E. T. Fairman, moving picture; Mrs. W. E. Fairman, awards; Mrs. O. H. Yarborough, pilgrimage; Mrs. Jim Brim, telephone; Mrs. E. D. Robison, roadside development chairman; Mrs. O. C. Weatherby, horticulture; Mrs. George White, conservation; Mrs. Marsh Johnson, music; Mrs. H. E. Patton, church gardens.

Three of our members have moved away this year; Mrs. Wood, Mrs. Weiss and Mrs. D. A. Bryant. We were sorry to lose them.

TELEPHONE OPERATORS

An examination for filling Telephone Operator positions at basic annual salaries of \$1,954 and \$2,169 was announced today by the U. S. Civil Service Commission. Vacancies are in Washington, D. C., and nearby Virginia and Maryland.

The Civil Service Commission announces examinations for Construction Examiner, Mortgage Credit Examiner, and Valuator, to close September 30, 1947. Salaries range from \$3397.20 to \$4149.60 per year, for employment in the Fort Worth area.

SANTA FE CARLOADINGS

Santa Fe system carloadings for the week ending August 30, 1947 were 29,186 compared with 26,899 for the same week in 1946. Cars received from connections totaled 11,311 compared with 12,149 for the same week in 1946. Total cars moved were 40,497 compared with 39,048 for the same week in 1946. Santa Fe handled a total of 39,835 cars in the preceding week of this year.

Swing Of Southwest Farm Markets

South farm products sold generally firm to higher last week, with cotton and some cattle classes the major exceptions, U. S. Department of Agriculture's Products and Marketing Administration reports.

Demand for all grains continued good last week. Wheat and sorghum prices reached new peaks, while oats and barley advanced sharply, and corn held firm. At Fort Worth and Galveston, bulk carlots of No. 1 hard wheat closed Friday at \$2.71 to \$2.72 per bushel.

Good demand and light offerings kept egg prices firm last week, all classes of poultry found strength at some markets. Top quality white candled eggs sold generally around 50 to 55 cents per dozen, and grade "A" mixed eggs 45 to 50. Heavy hens ranged largely from 22 to 32 cents per pound, and fryers from 32 to 39.

Spot cotton marketings increased last week, as picking and ginning moved farther north. Strict Low Middling and above found good demand, but

'HER ADVENTUROUS NIGHT' HILARIOUSLY SUSPENSEFUL

When a killer abducts a pretty girl going to her wedding and with her, a glib bachelor, not her bridegroom, the complications promise to be funny as well as exciting.

"Her Adventurous Night," new feature film at the Melba Theatre Saturday night only, lives up to these potentialities in every respect. Starring Dennis O'Keefe and Helen Walker, this Universal picture emerges as breezy, sparkling comedy entertainment.

In a novel but effective transposition of events, the story opens with Miss Walker as a sedate married couple, blessed with an over-imaginative son played by Scotty Becker.

Through the eyes of Beckett, the tale goes back to the initial meeting of his parents on a country road outside the fictional town of Midvale, Calif.

Miss Walker, as the altarpiece motorist, drives her car into a muddy shoulder to avoid hitting O'Keefe's telephone repair truck. Unable to pry the car loose from its moorings, the gallant trouble-shooter gives Helen a lift in his truck.

When the pair are overtaken by the armed, murderous bank robber, the fun and action really start. And this fast tempo continues throughout, until the story's surprising denouement, when the hitherto unidentified bank bandit is brought to justice.

VARIETY GIRL

Paramount throws the book at you in this one. It has gathered together practically every star and feature player on its lot, crowded them into one show, and then topped this offering by showing off a couple of its newcomers to good advantage.

Dedicated to, and to be sponsored by Variety Clubs International, "Variety Girl" is an imaginative biography of the baby girl which was found abandoned in a theatre and adopted by a group of theatre men—this group later spread across the U.S. in Variety Tents.

Because of its Variety Clubs angle and because the picture has Crosby, Hope, Cooper, Milland, Ladd, Stanwyck, etc., etc., "Variety Girl" is practically pre-sold. Regional Variety groups will publicize the picture and an audience hasn't been found yet that can resist an allstar omnibus production.

The plot of the picture is a rather slapstick affair with a hammy Amber La Vonne (Olga San Juan) being mistaken for Katherine Brown (Mary Hatcher), the Variety Girl, when both come to Hollywood to carry out careers. Katherine would have gone ahead fast because of her powerful friends, but with Amber, a pushy, self-centered snob, posing as the Variety Girl, Katherine's chances are nil.

Late in the show the identities are straightened out and, when she gets a chance to play straight, Mary Hatcher shows genuine talent.

Mrs. Albert Schuman, Mr. and Mrs. Willie Struempfer and children of Priddy, Miss Gladys Struempfer of Dallas, Mr. and Mrs. Walter Wulstinger of Potts-ville, and Mr. and Mrs. Walter Schuman of Shive attended the funeral of Mrs. Fritz Helms of near Gatesville Friday. TEXAS METHODIST CARRY RELIGION TO STATE SCHOOLS

Starting Sunday, September 14th a united campaign throughout Texas Methodism is being launched to raise \$440,000 to provide student centers or religious activity buildings on thirteen state school campuses. Because the State cannot itself teach religion a burning issue has arisen. Shall education and religion become more and more divorced, or shall they be bound together as the churches follow their students to state schools and keep religion a genuinely vital factor in Texas education? Twenty eight per cent of all students in Texas State Colleges are Methodists. 14,000 boys and girls annually leave Methodist homes to enter state colleges or take care of her own in providing for their religious instruction. Far too little has been thus far to safeguard and develop the religious lives of this vast number of Methodist youth, who are exposed to the well-known dangers of college life on

state campuses. Less than 10 per cent of the young people of the church go to college, but out of this number it is estimated that 90 per cent of country's leadership comes. As four out of five of all Methodist students go to state and independent schools, the Methodist Church must follow these or lose much of its future leadership. It has been found that the Methodist Movement on state school campuses through Wesley Foundations has been able to reach and hold thousands of students to the church, but this Movement has been disastrously handicapped in Texas because, in most instances, it has had no student center or buildings in which its program of counseling Christian friendship, Bible instruction, Training and Recreation, could be carried on. It is imperative that this need be met. In this purpose Texas Methodism is not alone. The Roman Catholics are planning to spend \$500,000 at the University of Texas and A. and M. College alone. The Baptist, at their recent state convention announced their purpose during the coming year, to build such centers

all over the state. The success of this campaign depends upon every local Methodist Church in Texas securing its quota. The accepted quota for the Goldthwaite Methodist Church is \$500, which will gladly be paid because "Education Must Not Go Godless." We are interested to know that the Wesley Foundation in the Methodist Student Movement on State campuses are:

1. To win students to Christ.
2. To support and strengthen students in their Christian faith and moral ideals.
3. To enlist and train students for lay and professional leadership in the church.
4. To help create a religious atmosphere on state school campuses and to project religion into the life of the nation.

Miss Gladys Struempfer of Dallas visited relatives at Pridmore over the week-end.

SUMMER HOMEMAKING PROGRAM COMPLETED

Twenty-seven girls satisfactorily completed the summer homemaking program of Goldthwaite High School. Each girl was required to spend at least 90 hours on work in her home, practicing on phases of work studied during the past year. Most of them spent more than the required 90 hours to complete their goals. The greatest amount of time spent by one girl was 482 hours, with the average per student being 139 hours. Each girl also attended at least one group meeting, where she practised good citizenship by making improvements in the homemaking department. The faded curtains were mended, washed, bleached, and re-died; the sewing machine covers were dyed to match the curtains; and cardboard boxes were covered with wall paper and labeled for filing our numerous reference bulletins. One group meeting was devoted

to preparing food and packing equipment for the annual camping trip. Each girl taking summer work was invited to this encampment.

A summary of the girls' work shows 714 quarts of fruit canned, 480 quarts of vegetables canned, 109 quarts of pickles, 24 quarts of meat canned, 102 pints of jelly and preserves, 84 quarts of food frozen, 61-2 bushels dried vegetables and fruits, 195 meals prepared, 48 garments made, 3 garments made over, 12 pieces furniture refinished, 11 pieces furniture made, 2 floors refinished, 6 kitchens improved, 3 bedrooms improved, 6 yards and 6 gardens worked in, 8 took care of small children, 8 helped with family laundry and ironing, 8 made household linens, 4 helped with buying and money management, 2 helped care for sick in the home, 2 supplied flower arrangements for the home, 2 filled hope chests, 1 helped with poultry, and one helped with family recreation. All this was done by 27 teenage girls during summer vacation.

Girls completing summer work and therefore receiving an additional one-half credit were: Delpha Rese Blackburn, Pearl Cook, Joyce Denman, Betty Featherston, Lola Jean Flatt, Elisa Flores, Jessie Lou Geeslin, Ruth Groth, Ellen Henkes, Rose Mary Humphries, Neida Jones, Beatrice Knight, Neida Koen, Anita Lappe, Modene Leabetter, Thelma Long, Melva Gene Nowell, Mary Palmer, Barbara Porter, Sybil Ann Reid, Jimmie Rita Simpson, Addie Jane Smith, Dorris Smith, Jane Ann Steen, Scottie Vaughn, Mildred Weiss, and Nell Carman Wilkins.

TWO MASTERS, SAME FAMILY, SAME TIME

R. B. Braswell and Mrs. Braswell, formerly Irene French, both received a master degree from West Texas State Teachers College this summer. At the present time they are teaching in the Science and Mathematics department of the Paducah, Texas, High School.

Williams Family Reunion

Relatives and friends of Mrs. J. B. Williams, affectionately known to all who know her, as "Ma" or Aunt Liza, met at the Mahomet tabernacle located in Burnett County, Aug. 31st, for an all day gathering. Many pleasant memories were recalled, as friends and relatives talked of passed and gone.

"Ma" who is past 85 years of age, reared her family of four girls in this community. Many of those who attended this reunion spent part of their school days in ole' Mahomet school house which has now been discarded as such and consolidated with other schools.

This occasion also marked the 40th wedding anniversary of Mr. and Mrs. H. H. Williams. All of their children and grandchildren were present except Mrs. Cecil Williams and children Don Wayne and Francis who was greatly missed by the group.

A delicious dinner was spread at the noon hour and an enjoyable afternoon was spent, singing songs, taking pictures and talking over old times.

Those attending were; Mrs. J. B. Williams, Florence, Mr. and Mrs. H. H. Williams, Bertram, Mr. and Mrs. J. H. Stewart and Mr. and Mrs. J. R. Burch, Austin, Mr. and Mrs. S. F. Howell, Geraldine and Natibe, Florance, Mrs. Laura Hollon, Corpus Christi, Mrs. P. H. Barron, San Antonio, Mr. and Mrs. J. E. A Gift Of Love

Christian Goode, World War I Veteran, of Star has been crippled for 25 years, an injured spine the cause. His faithful mother has pushed him many a mile in a buggy with her own right arm; to town or to a neighbors.

An old school mate B. Slaughter of Dallas, with a heart of gold, presented Christian with a motor buggy. He is overjoyed over the thrill of his new motor buggy and rides back and forth to Star to the Post Office.

Neighbors and friends are rejoicing with Christian and his gracious mother over this splendid gift from B. Slaughter.

SAN ANTONIO BOOSTERS TO BE HERE SEPT. 25

SAN ANTONIO, Texas.—Seventy-five San Antonio goodwill ambassadors will board an eight-car special train here Tuesday, September 23 for a four-day whirlwind tour of 20 central and west Texas communities in the interests of this city's importance as a primary wholesale market.

Sponsored by the Chamber's trade extension department, the 1,000-mile rail tour will strengthen long-established ties of friendship which underlie the relationship between San Antonio and the territory to be visited, T. H. Beazley, chairman of the trade trips committee, declared.

"The tour is regarded by those making it as an opportunity to see first-hand the progress of two great regions, their potentialities and fine people," Beazley said.

"Both central and west Texas and San Antonio can take justifiable pride in their good neighborliness which has prevailed through both good and bad

years and is symbolized in the present mission of San Antonio business men," he added.

The touring Chamber members will leave San Antonio over the Southern Pacific with the first stop scheduled to be made at Hondo. Other first-day stops will be made at Sabin, Uvalde, Del Rio, Sanderson and Alpine, where the party will remain overnight in their Pullman sleepers.

Leaving Alpine the next day, stops will be made at Fort Stockton, McCamey, Coleman, Brownwood, Goldthwaite, Lampasas and Temple, final night layover on the four-day journey.

H. P. WEBB LIKES PEOPLE HERE, EAGLE

You certainly put out a clean, newsy weekly paper, and you are to be complimented. Your little city is to be complimented, too, for its clean, friendly appearance. Offer Sept. 1 my address will be 2104 Elizabeth Dr., Brownwood.

34 MILLION TURKEYS

College Station, Sept. 11 --U. S. farmers now have 34 million turkeys on the farm, and although that sounds like a lot of meat, it's 16 percent less than last year's production.

About 3,681,000 of those birds are in Texas, which is being ranked out of first place by California, where almost 4 million turkeys are being raised.

Texas turkey raisers have 13 percent less birds than in 1946, when at this time of year there were better than 4,231,000 turkeys in this state.

On Thursday morning Mr. and Mrs. Jim Kelly left for Houston for a few days visit with their daughter, Mrs. Leon Boeker and V. O. Tolle and their families.

STAR NEWS —

By MRS. A. B. SOULES

It's still hot and dry. People are beginning to get ready to pick cotton.

Mrs. Austin Jones visited her daughter, Ruth Lee, at Center City the other day.

Mrs. Neal Soules celebrated her 74th birthday Saturday, the 6th, with a nice dinner.

We all wish Mr. Merle Hamilton and charming bride a long and happy married life and success.

Mr. and Mrs. Pat Patterson and children of Moline spent the week-end in the home of her parents, Mr. and Mrs. Will Jent.

Granny Hamilton has returned home after spending several days in Evant.

The School started Monday with over 200 scholars.

Little Miss Lula Mae Hurst, charming daughter of Mr. and Mrs. Slim Hurst, celebrated her 5th birthday Sunday in the home of her parents. Those present were Mrs. Ed Hamilton and Miss Billie Gail Soules and Miss Corene Karnes. Every one wished little Miss Lula Mae Hurst many more happy birthdays.

Mr. and Mrs. Norris Cathey, Mr. and Mrs. Robert Cestal, and Mrs. Pearl Harper, all from Durant, Oklahoma, visited in the home of Mr. and Mrs. Jim Witty over the week-end.

Mr. and Mrs. Woodson Clary went to Dallas after Grandmother Clary Saturday.

Mr. and Mrs. Norris Witty and children visited last Friday in McGregor.

Sunday School Picnic

The young people of the First Baptist Church met at Lake Merritt Tuesday night, Sept. 9 at seven o'clock for a picnic supper. The menu consisted of hot dogs, potato chips, pickles, cookies, apple pie, cake ice cream and lemon-ade.

Forty-two games and table tennis was enjoyed.

Those who attended were: Misses Janie Simpson, Francis White, Henriette Simmann, Dixie Faith Patricia Nickols, Messrs. Terry Pribble, Douglas Collier, R. C. McCallum, Velon Reese, Bill and Ted McGraw and Walter Summy; Messrs. and Mmes. J. H. DuBose, Walter Fairman, J. N. Faith, A. M. Pribble, Dave Straley, Shirley Nickols, Jake Long and C. D. Griffin.

WHAT'S THIS

The situation is: Gwin the Cleaner received a bundle of clothes from the state of Washington to be cleaned and pressed. Now, that's a long distance for Goldthwaite business to expand. Since the sending party is from Goldthwaite, we are puzzled as to whether it is the results of Old Man 100's BAH (Buy at Home) club, or the high cost of living in other sections of the country.

SILVER ANNIVERSARY

Climaxing the Weaver family reunion was the outstanding social event of the summer when Mr. and Mrs. Robert Weaver celebrated their 25th Wedding Anniversary by inviting their relatives and friends to their fine log lodge in the live oak grove adjoining their orchards, a perfect setting for the beautiful ceremony, which took place at 3 p. m. in front of the spacious fireplace in the large livingroom decorated with silver bells and beautiful cut flowers.

Mrs. Rosagene Peebles Lewis sang "Because" accompanied by Mrs. John Berry who furnished music all the afternoon, playing on the antique bellows organ.

The Rev. Guy Newman of Waco told in story form the romance and its consummation, their generous friendship, hospitality and service to others, then asking them to join hands with each other and he forming a circle prayed for their continued happiness, health and prosperity for another 25 years. All accompanied by soft music.

Mrs. Weaver was attired in aqua-marine gown with a pink orchid corsage. Surely she could not have looked lovelier on August 30, 1922. Mr. Weaver's suit was of a cut and color to set the style for the young men of the party. His boutonniere was a white carnation.

On a beautifully appointed table was a three tiered cake decorated with garlands and topped with a miniature bride and groom. Nieces of the couple took turns serving the cake, punch and at the registry table, where they were ably assisted by a nephew, Sam Parker Peebles.

Many tokens of esteem were on the gift table. Quite a few additions were made to their sterling service in the Damask Rose pattern.

Mrs. Weaver's parents, Mr. and Mrs. W. M. Johnston of Lexington were present for the happy occasion as were both her sisters, Mrs. Sam Peebles, and Mrs. Harry Seawell, also Mr. Peebles and her nieces and nephews, Mr. and Mrs. Lewis and little daughter, Mr. and Mrs. Woodard, and little daughter, Sam Parker Peebles, E. M. Peebles and Harry David Seawell.

Among Mr. Weavers relatives were his aunt, Mrs. Susie West McGregor, an uncle, Frank Weaver and wife of Rock Springs, Ga., and the following sisters and their families: Mr. and Mrs. Jim Burdett and children, San Saba; Mrs. Annie Long and children, Midland; Mr. and Mrs. A. F. Bledsoe and children, Westbrook; and Mrs. Jimmie Griffin and children, Goldthwaite, and a host of friends from Mills county also Waco, Winters, Lometa, and San Saba.

The Rev. and Mrs. Guy Newman and daughter are close friends of the Weaver family and were special guests. All were loathe to leave this happy atmosphere. Groups formed and reformed in the lodge, on the

porch and under the big pavillion in the grove of trees where there were cold drinks for everyone. Photographers made pictures to hold over the joys of this day and everyone expressed good wishes for this beloved couple, Robert and Rosa Weaver. May joy and peace be theirs.

Airplanes are coming more and more into the lives of farmers and ranchmen. A group of Grayson County farmers took to the air to look at the erosion damage on their farms during a soil conservation field day last week. About the same time, the delegation of 4-H club boys and girls and their adult leader in Midland County flew to the annual 4-H roundup at College Station.

Two big events take place on opposite sides of Texas the first week in October, plus one which starts more in the middle of the state.

The West Texas Cotton, Chemurgic and Ceramics carnival takes place in Memphis, October 3 and 4, to bring manufacturer and producer together to discuss each others problems and review the potentialities of the region. Hundreds of manufacturers will have products on display.

Dr. Jim Adrian, 1940 graduate of Texas A. and M's veterinary school, is the new veterinarian, appointed by the state livestock sanitary commission. His predecessor, Dr. T. O. Boothe, resigned to devote more time to his farm. Meanwhile, the eastern type of sleeping sickness in horses is creeping into the south east Texas, after sweeping Louisiana. Vaccination is recommended as a preventive.

The association is staging the first championship all Palomino show in Fort Worth September 17 to 21.

Even though the U. S. has 16 percent fewer turkeys on farms now than a year ago, we still have 34 million. That sounds like a lot of meat, and a lot of noise. About 3,600,000 are in Texas. California is edging back into first place in turkey production now after lagging at third in 1946. Texas production is down 13 percent.

UNITED STRENGTH

Combination main dishes for a two-way economy, especially important for low cost meals when food costs are high according to Louis Mason, Specialist in Food Preparation of Extension Service of the A. S. College.

Such combinations, as macaroni and cheese, spaghetti and meat sauce, rice and meat or creamed eggs on toast are familiar examples.

The economy in such dishes that the inexpensive cereals "stretch" the meat, eggs or other ingredients is more important economy, however, is the other way around, the meat, eggs, milk, or other stretch or build up the nutritive value of the cereal foods.

The protein in grains and cereals is not complete. To be fully useful for growth and repair, grain protein can be reinforced with animal protein. Therefore, if cereal foods, such as bread, flour and rice are used to the best advantage in the diet, thrifty housewives combine them with at least a little milk, cheese, meat, or eggs. In the union there is added strength and added flavor.

Dried skim milk at current prices is the cheapest food one of the best for building cereal protein.

GOLDEN WEDDING CELEBRATION

Last Saturday brothers and sisters and other relatives began arriving at the home of Mr. and Mrs. W. F. Hiller near Hamilton to arrange for the Hiller's Golden Anniversary.

Sunday morning, September 7th, the happy couple were greeted through the radio with a song in their honor by the Stamps Quartet.

That afternoon their names were mentioned over the "Golden Chain" Radio Program.

Under a beautiful grove of live oak trees near the home, a long table and benches had been erected, soon the table was loaded with a bountiful feast. Turkey and all the trimmings were served.

Then the table was cleared, another table was spread with a white damask, a large flower arrangement of marigolds were placed at one end of the table, in the center a number of prettily tied packages and at the other end a beautiful three-tiered wedding cake, adorned with a miniature bride and groom. The cake was made by their daughter-in-law, Mrs. C. E. Hiller of Dallas.

Promptly at 3 p. m. a low hum of "Here Comes the Bride," who wore a white lace dress and halo headpiece was made of natural white flowers.

A hush came over the crowd as little Miss Joyce Hiller, their only granddaughter, as ring bearer, and the bride and groom came slowly from the house.

Rev. Elmer Kuhlman read the 23rd Psalm in a simple ceremony. The ring was returned to Mrs. Hiller as a symbol of love to bind their hearts more closely than ever.

Congratulations were extended to the couple, wishing them many more happy years.

Mrs. C. E. Hiller assisted the bride and groom in cutting the cake, which was served with coffee.

Those who enjoyed this happy occasion were: their only son, Mr. and Mrs. C. Ernest Hiller Sr. their daughter Joyce, and sons C. E. Jr., and Mr. and Mrs. LeRoy Hiller, all of Dallas; Mr. and Mrs. Alfred Schwiening and daughter Mrs. Hut Moore of Sonora; Mrs. Otto Thiers of Roosevelt; Mrs. Otto Brockman, Mr. and Mrs. Fred Schwiening

and daughter Mrs. George Riley and Charlie Wemeyer, all of Fredericksburg; Mrs. T. A. Lange of San Antonio; Mrs. George Schwiening of Antlers, Oklahoma; Mrs. Henry Martin, (sister of Mrs. W. F. Hiller), and Miss Lillie A. Martin of Goldthwaite; Rev. TAKE IT EASY, MR. PEDESTRIAN

Every two minutes an American pedestrian is injured by an automobile. Thirty-three times a day someone is run over and killed.

It is human nature to wish to set the blame when tragedy occurs. Rarely, however, can an accident be adequately described in terms of only one casual factor.

However, certain facts cannot be denied. And those facts place a strong inditement squarely on the shoulders of the man or woman on foot. The record shows that two out of every three pedestrians killed in motor vehicle accidents were either violating a traffic law or committing an unsafe act.

Other violations of traffic regulations or the common sense rules of safety in which men, women and children lost their lives included such foolish acts as crossing intersections against the signal, crossing intersections diagonally, walking in the roadway, playing in the roadway.

All of these violations could have been avoided. And if they had, thousand of lives -- 12,200 last year, to be exact -- could have been saved.

So to you, Mr. Pedestrian, we say "Take It Easy." Yours is the responsibility of saving your own life, a matter which should give you understandable concern.

GET READY FOR WINTER

Summer and early fall are the times for preparing homes for winter--with especial attention paid to the elimination of fire hazards.

One of the major causes of home fires is defective heating units, ranging all the way from oil stoves to central heating systems. Even the best of appliances become worn. Flues and chimneys become filled with soot.

Faulty electric wiring is still a major destroyer of homes. Important repairs should be made by a qualified electrician. Frayed cords should be replaced.

Lastly, during the pleasant weather, homeowners should carry on a rigorous campaign to rid their property of junk. Thousands of fires have originated in attics and cellars and closets filled with old clothes, furniture, magazines, etc.

BACK TO SCHOOL SAFETY

With the back-to-school movement of more than a million Texas boys and girls, George Clarke, managing director of the Texas Safety Association, today urged the motoring public to "regard every child pedestrian as a human caution sign to prevent a repetition of last year's shameful child accident record."

Automobiles last year caused the death of 470 children in Texas. The greatest number of victims were teen-agers, while the next greatest number were youngsters five to nine years old.

By WILLIAM CULBERTSON, D. D. Of The Moody Bible Institute, Chicago.

IT IS true that the Christian life gives offense on occasion. When a controversy exists between men and God, the Christian has no other course of action than to align himself on God's side.

The Bible nowhere commends a critical spirit or a perverse attitude. It rather emphasizes the necessity of firmness in the course of right, a firmness that loses nothing of its intensity through being tempered in the fires of love.

The Christian beyond all others should give himself to a life manifesting sympathy, kindness and charitableness. Thus he will open avenues of opportunity, of witness, and of service in which the Lord may be greatly glorified.

I. Contributing Factors to the Making of Good Will (Prov. 3:30, 31; 22:24, 25; 25:18; 26:20, 21).

VARIANCE and strife mar good will (Prov. 3:30, 31). Notice that this strife is unoccasional.

When we strive with men to no purpose; when men have not harmed us, and with bitterness of spirit we turn upon them, we, of course forfeit every opportunity to influence them for good.

The man of variance similarly should be passed by. We are not to emulate him; we are not to envy him; we are to choose none of his ways.

A wrathful spirit also mars good will (Prov. 22:24, 25). A man of anger is not to be followed by the child of God. This passage enjoins us to have no friendship with such individuals, for there is danger that we shall learn their ways and their ways will then be a snare to our souls.

Another way in which we mar good will is to be the purveyors of untruth (Prov. 25:18). The false witness is characterized as a large hammer or a sword or a sharp arrow, for he wounds his neighbor, often grievously.

The man or the woman who in gossip has maliciously wounded another loses all opportunity to influence him for God. The cultivation of good will involves the speaking of truth.

Let us with all diligence, with the help of God, banish from our hearts and minds all of these attitudes which hurt and mar.

II. Contributing Factors to the Making of Good Will.

IN THE first place, the soft answer of the controlled spirit will establish good will (Prov. 15:1, 18). The soft answer does turn away wrath. The man who is slow to anger appeases strife.

Let us not confuse a soft answer with an unconvincing one, or with that mealy-mouthed procedure that we commonly call double talk. Happy is that man who knows how to present the truth convincingly, who can make men, despite his opposing standards, understand that he has their good at heart. Of course, there is one absolute requisite to such a testimony, and that is a life wholly lived for God.

Another factor in making good will is the act of kindness (Prov. 25:21, 22). This passage, you will remember, is quoted in Romans 12. Here is the opportunity for us, in all matters of personal injury, to place our case in the hands of God rather than to seek revenge. By such acts of kindness, as we trust God, we shall be obeying the Lord; and who knows but that our enemies may thus be turned to him.

A third contributing factor in making good will is that of making peace (Matt. 5:9). So often this business of attempting to make peace is a thankless task, but that thanklessness is only from human sources. So far as God is concerned, he has placed his seal of approval upon every child of his who seeks to lead men into peace with God and to make peace between men.

God speaks of them as being "called" sons of God. It is one thing to be a son of God; it is another thing to be acknowledged as a son of God.

III. The Source of Good Will (James 3:17).

THAT wisdom will be characterized by purity, peaceableness, gentleness, approachableness, mercy, and will be without partiality and without hypocrisy. This wisdom which is from above is guaranteed to those who know him who has been made into wisdom (1 Cor. 1:30).

The U. S. Department of Agriculture forecasts that the final count on the nation's wheat crop will be 1.4 billion bushels, the largest crop on record. That record would be 61 percent above average production, and 24 percent above last year's production.

The volume of production of all U. S. crops this year is expected to be a little over last year's high record, well above the 10 year average, and slightly above the average for farmers' best years, 1942-43. A bumper rice crop of a million bushels is expected. U. S. rice growers this year's crop would exceed their record crop by 400,000 bushels.

According to law, a cooperative marketing or buying organization may be formed by or more persons engaged in production of agricultural products.

A. Your only pension relief is through the law which gives you the right to a pension of \$60 per month, provided you are permanently and totally disabled and unable to follow a substantially gainful occupation. This pension is not payable if your income exceeds \$1,000 if single, or \$2,500 if married or with minor children.

Health Notes

From a health standpoint, life after forty generally begins to be more complicated for the average individual, than it was in his earlier years. According to Dr. Geo. W. Cox, State Health Officer, the principal health foes confronting people in middle life are heart disease, cancer, kidney disease, high blood pressure, hardening of the

arteries, apoplexy, diabetes, and arthritis.

Middle aged people of today are healthier than were those of preceding generations, and the present generation, when they reach middle age, should enjoy even better health than their parents of today.

"Medical care in middle life has two important phases," Dr. Cox asserts. "The first is going to the doctor at regular intervals for a complete checkup, whether or not there have been symptoms that suggest the need for medical attention. The second is prompt attention to any illness, since this may mean the difference between complete recovery and prolonged invalidism. It is difficult to say which of these phases is the more important."

It has been found that men and women who faithfully pursue the habit of regular health examinations and who follow their physician's advice arising from them, tend to live longer.

more satisfactory, and freer from disease than those who simply take a chance and go to the doctor only when pain or disability forces them to give up their normal activities.

It is also a fact according to the State Health Officer, that many diseases of middle age respond to treatment in early stages whereas if neglected until later, they often cause chronic invalidism or even death.

FOR CLEAN

Some dope you may hear, especially if you've been wondering about the best way to clean out your stock tanks, reservoirs or ponds that are clogged up with green slime. Chemists and Extension Service have a look into this trouble, and they say that for troughs and all reservoirs, your best bet is to apply to a cover or roof the water to keep out sunlight.

But there's also a chemical you can use to kill green scum, a copper sulphate which you probably know by the old family name—bluestone. You have to be careful with bluestone, however, since it is harmful to stock, fish and humans if you put too much in the water. Safe bluestone dosage is one level teaspoonful for 1500 gallons of wa-

ter—or one ounce for 3,000 gallons—eight pounds for a million gallons, if you want to treat that much water.

Now...about mixing the bluestone. Dissolve the right amount of the chemical in a wooden, stoneware or enamel ware container...not just a plain bucket. Then stir it into the water to be treated. You can splash the bluestone water on trough walls to kill any scum that has formed there.

For treating larger bodies of water, the bluestone can be put in a sack and dragged through the water from a boat until it is all dissolved.

Veterans' News

(A series of questions and answers in regards to veterans benefits from the Revised GI Bill of Rights is being furnished the Eagle by Veterans Administration Contact unit, 200 East Baker Street, Brownwood, and will appear weekly for several weeks. John H. Quick, Contact Representative in charge of the Brownwood office, will be in the County Judge's Office morning of each week to answer questions.)

Q. I am a World War II veteran taking a school course that requires three hours per week. Am I entitled to receive subsistence allowance under the C. I. Bill?

A. If you are taking an undergraduate course at a college or university, you are eligible for one-quarter of the full subsistence allowance, but if it is a high school or vocational school course of less than 6 hours per week, you are not eligible for any subsistence allowance.

Q. I am a veteran-amputee. Am I entitled to a service card and what is the limit on repair service costs allowed?

A. Yes, if you are a veteran wearing an artificial limb, you are entitled to repairs at government expense and may obtain a Prosthetic Service Card. This card enables the veteran to get immediate repair service up to \$35 without prior approval from the Veterans Administration.

Q. I am a disabled veteran and have completed my on-the-job training course, but have not been able to get a job. Am I entitled to receive unemployment compensation under the G. I. Bill?

A. Yes. The Servicemen's Readjustment Act (G. I. Bill) provides that you can draw adjusted unemployment compensation up to a maximum of 52 weeks, provided that you are able and available for work at the time. The number of weeks of readjustment allowance payable to you is determined by the length of your service. The service must have been 90 days or more between September 16, 1940 and the end of World War II.

Big engines... long trains

mean lower cost to you!

But union leaders want "half-trains"—double crews!

Big locomotives are built to do a big job in the big country which is America—a big job in peacetime as in wartime. They are built to pull long trains.

Long freight trains can handle more goods at less cost—to you—than short trains.

Long trains mean fewer trains—fewer chances for accidents—fewer interruptions to traffic.

But a few railroad union leaders oppose long trains—among their current 44 demands for changes in rules is one limiting the length of freight trains to 57 average cars. Why do they demand this?

For "safety," they say. But is it? Government figures show definitely that long trains mean greater safety to railroad employes and public alike.

Then, if safety is not the real reason—what is the reason behind this demand? It is to make more jobs which are not needed—to get more pay! This "made work" would be sheer waste. Think of big, modern locomotives using only half their power.

For this waste, you—the public—would have to pay. Higher costs mean a lower standard of living for everybody. Nobody wants that!

Here's the record...

In the quarter century... 1921-1946...

Average length of freight trains has gone up.....	39%
Average speed of freight trains has gone up..	39%
The rate of injuries to railroad employes has gone down.....	60%
Average wages paid railroad workers have gone up.....	84%
Price of railroad materials and supplies has gone up.....	58%
Railroad taxes have gone up.....	76%
But the average charge by railroads for hauling a ton of freight one mile has gone down.....	23%

Communism Is Menace In West Coast Shipping, Says Congressman Fisher

The principal worry on the West Coast in labor circles at present is along the waterfront, according to Congressman Clark Fisher, who recently returned from hearings conducted there by a House sub-committee on labor.

"Communism is very strong in the maritime unions", Mr. Fisher commented. With Harry Bridges in control of the longshoremen, he can follow the party line from Moscow when the occasion demands. That, the Congressman pointed out, has happened in several instances where strikes have occurred in the loading of ships bound for ports contrary to the wishes of the Soviets.

"Bridges is ruthless", Fisher stated, "and his control over shipping may become of grave importance in the future where our programs may be contrary to the wishes of the Kremlin." At present practically all ports in Alaska are shut down by Harry Bridges union because of a jurisdictional strike. That is causing great concern in Alaska where much of the food

is imported from the States, and where exports of salmon and the like are involved.

The sub-committee of which Mr. Fisher is a member will continue its investigation into needed corrections and improvements in existing laws that pertain to labor relations.

MOTHERS' AND DADS' PROGRAM

The Parent-Teacher Association will meet Friday, September 12 at 8:00 p. m. in the School Lunchroom, for a social hour, followed by assembly singing, short talks and two good movies.

Both Fathers and Mothers of each child in school are urged to attend this informal get-acquainted program. With the cooperation of both parents and teachers we should have a very successful school term for the coming year.

TAILOR SHOP SELLS; ANOTHER EXPANDS

This week marked a considerable change in the dry cleaning business in Goldthwaite. The Stephen's Tailor Shop west of the Post Office was sold to Alva and Larry Dalton and at about the same time Gwin's dry cleaning establishment was expanded to increase its floor space by about 900 square feet.

Larry Dalton, who will be in active charge of the cleaning shop, received his first experience in the dry cleaning business while serving with the Army Air Forces at which time he worked in the post tailor shop. Later he was employed by Carroll and Wilkie for three months, with Stephen's Tailor Shop for nine months and recently he was connected with Gwin's before taking over his present location.

F. M. Stephens spent a total of thirty-two years in the cleaning industry. In January of 1916, Stephens started his business in Horton's barber shop. Since that time, according to Stephens, his locations have been "two many to enumerate." He built the present building in 1938 and has operated there since that time.

Mrs. Alva Dalton, who is indirectly connected with the new business, manages the Economy Store on Fisher Street.

The official date for the change of management was September 8.

900 Expected To Enroll At Howard Payne College

Three Ph.D.'s and a librarian are joining the staff of Howard Payne College with the opening of the fall semester.

They are Dr. Earl Sanders of Santa Ana, Calif., who will serve with the Department of Biology; Dr. John C. Dawson from the University of Alabama, to be in the Department of Languages; Dr. Clyde William Taylor of Phoenix, Ariz., in the Department of Education; and Miss Francis Burrage of McKinney, who will be head librarian.

Other provisions for an increase in enrollment include the new Department of Art and expanded courses in speech, music, and journalism.

Over 900 students are expected to enroll at Howard Payne this week, continuing a series of record semesters starting last fall. The formal opening of school will be the chapel exercises on Friday, the first day of classes.

Mr. and Mrs. Bill E. Hightower and Barbara Gale left Monday for Austin where Mr. Hightower will resume his studies at the University. They spent the summer in Goldthwaite with their parents, Mr. and Mrs. Bill Hightower and Mr. and Mrs. Oscar Burns.

OLD MAN 100

(Continued from page 1)
ing: "Good morning, the electric company stand there's something house that won't work." 7th said: "Yes, he's up." And when a friend went out a great friend replied: "No, we're in all the time in order full value of our money." When the 7th told Man "Here is an interesting tale on 'What a Woman Weigh,' the Old Man said: "Does it, by any chance?"

The Old Man's always kinds of boosters—care none for price boost. A cute little dog was a fire plug. There was a rest is a military secret. When the Old Man said: "7th he was dining with per set tonight, she said steak may be tough; better your lowers, too."

"What are you doing that carpenter's planer friend asked the Old Man fixing some of my wife's ers." "You mean I made out of wood?"

And when the Judge Rastus if he was the defendant. I've got a lawyer to defendin'. I've the man stole de chickens."

"Well, what excuse for coming home this night?" "Well, my was playing golf with friends and . . . What 2 a. m.?" "Sure. We were the night clubs."

Professor—Take this let. Let the cow be taken out lot. What mood? Fresh. The cow.

She—I read that Apollo chasing a nymph and she into a tree. He—Apollo lucky. Those I chase turn into a night club of taurant."

Friend—I saw your town today with a black over her eye. What happened Old Man—"Nothing; that's new hat."

The Old Man's new red secretary don't like him because she says he thinks words can only be spelled away.

A little lad here was going Sunday School for the first time last Sunday and his mother gave him a dime to put in the collection plate. When he came home, however, he still had the coin, and explained: "The minister met me at the door and let me in free."

The Old Man has learned to think twice and don't speak at all. He got in bad once in Dallas by saying the wrong thing at the right time. He got up to give a woman his seat in a street car and she thanked him and said that was very kind of you. Old Man—"Not at all, ma'am. I know some me don't give up their seats to me, but pretty girls, but looks don't make any difference to me."

A doctor who was superintendent of the Sunday School asked one of the boys: "Willie, what must we do in order to get to heaven?" "We must die," said Willie. "Very true," replied the doctor, "but what must we do before we die?" And Willie said: "We must get sick and send for you."

The teacher this week told Bobbie: "Your composition is the worst in the class, Bobbie. I'm going to send your father a note." And Bobbie said: "You'll just make him sore. He wrote it." Love is the thing that is blind—but marriage sure is an eye-opener.
