REA Gets Loan To Build 101 Miles OF New Lines In Mills County

Reburial

GEORGE A. ROBERTS

George A. Roberts, son of Mr. and Mrs. J. H. Roberts of Caradon, was reburied in San Antonio, July 9, at 3 p. m. in the Fort Sam Houston National Cemetery.

He was inducted into the Army Air Corps on April 8, 1942, and left for the Pacific on May 2, 1943. He flew several missions over New Guinea and spent three months overseas before he was killed on August 7, 1943, in the Southwest Pacific.

Those who attended the funeral services were his father, H. Roberts, a sister, Mr. and Mrs. Otis Alldridge and family, his brothers, Mr. and Mrs. Marion Roberts, and June of Marfa; and Mr. and Mrs. Sam Roberts and family of Lubbock; Alphas Roberts of Cisco; Mann Roberts of Caradon; Mrs. C. K. Jones of Kingsville; and Mr. and Mrs. A. E. Johnson and Jean and Miss Beth Miller of Goldthwaite.

NEW ARRIVAL

Mr. and Mrs. Arnold Kelly are the proud parents of an eight-pound boy. The young man made his arrival July 21 at the Felps and Farley Hospital in San Saba. He has been named Kenneth Dale.

Arnold is an employee of the Eagle Office.

UNDERGOES OPERATION

Miss Lottie Carter, daughter of Mr. and Mrs. John R. Carter, returned home yesterday from Medical Arts Hospital in Brownwood, where she underwent an appendectomy last Thursday.

Miss Carter is getting along nicely.

Goldthwaite Red Sox Selected For Semi-Pro Baseball Game

Goldthwaite is honored by having its baseball team, the Goldthwaite Red Sox, selected by Commissioner Kirtsey to play on the first semi-pro baseball tournament to be held at Katy Park in Waco Saturday evening at 6:30. They will play the Angelo Stars of Houston, a team composed of the cream of the semi-pro talent of the Bayou City.

The Goldthwaite Red Sox will go in the game with four good hurlers and the best team that can be selected from this section of the state. Goldthwaite was in the meet last year.

At 8:30 Saturday night the Center Lions will play the Austin team. Tickets purchased at

A telegram received by the Eagle Monday morning from Congressman O. C. Fisher of San Angelo brings the following good news to Mills County rural residents:

"REA has just informed me that the Hamilton Cooperative has been granted a loan in the amount of \$830,000 for expansion projects. This will include money to build 101 miles of new lines in Mills County. I am sure this will be good news for the people down there who are looking forward to this service.—O. C. FISHER."

BARBECUE AT M. E. CHURCH HERE NEXT WEDNESDAY AT 7:30

A barbecue for the entire church membership will be given next Wednesday evening, July 28, beginning at 7:30 o'clock behind the Goldthwaite Methodist Church. All members are invited to attend.

New members who have been received into the church since January 1 will be honor guests.

MASONIC LODGE INSTALLS OFFICERS

At a stated meeting of the Goldthwaite Lodge No. 694 A.F. & A.M., held last Thursday night, the following officers were installed.

M. A. Campbell—Worshipful Master.

R. H. Frazier—Senior Warden.

F. H. Forehand—Junior Warden.

Tomorrow evening, Saturday, July 24, first Primary Election Day, a bulletin board will be placed at the band stand on the court house lawn here, and results will be posted as soon as possible after counting is completed.

Polls in the 20 voting boxes in the county will open at 8 and close at 7. Election Judges are requested to phone the results as early as possible after the count has been completed to Mills County Chairman Joe A. Palmer at the office of County Clerk Earl Summy.

Although Mills County could vote around 2,600 ballots tomorrow, it is unlikely that the total will be above the 2,218 votes counted in the first primary in Mills County two years ago.

Following are precinct chairmen and number of poll taxes and exemptions paid this year for the 20 voting precincts in Mills County:

- No. 1, Goldthwaite—Mrs. Joe A. Palmer, precinct chairman; poll taxes paid, 423; exemptions 10.
- No. 2, Nabors Creek—Lewis Burdett; 8 poll taxes.

GOLD LIONS CLUB SPONSORING CLEAN UP CAMPAIGN HERE

At the regular Tuesday noon meeting of the Goldthwaite Lions Club held at the Hangar, Lion Mayor Loy Long brought up the matter of a clean-up and fogging with DDT campaign in the prevention of the spread of polio, which has reached epidemic stages in many parts of Texas. The club voted to sponsor the clean-up and spraying of Goldthwaite, and Lion President Joe B. Karnes appointed a committee to be in charge: Lions Leonard Archer, D. D. Tate, Loy Long, and Luther Piper. This committee has been working out details of the campaign this week, and the entire town will be closed next Tuesday morning for a city-wide clean-up campaign.

Twenty-six members and five guests were present. Guests introduced included: Harvey E. Behrendt of Seguin, Mrs. Jameson, Mrs. Kirby, Rev. Lawrence Stokes, and Dr. C. M. Smith.

CAKE, SANDWICH SALE BY H-D COUNCIL AT ELECTION PARTY

Let's all remember that Saturday night, July 24, each club lady is asked to bring a cake or sandwich to sell in the Home Demonstration Council Booth on the court house lawn. Also see Miss Hintz if you can work in this booth.

The next club meeting will be July 27, at 2:30, with Mrs. Hawley Jernigan. Everyone be present and bring a visitor—Secretary.

DAUGHTER BORN TO LOWRYS

Rev. and Mrs. M. Dick Lowry announce the arrival of a daughter, Ruth Ann, at the Scott and White Hospital in Temple, July 20. The young lady weighed 8 pounds and 5 ounces. Mother and baby are doing nicely and expect to come home soon.

Much Interest, Good Crowds At Second Half Softball League Games

Increased interest is being shown in the Second Half of the Mills County Soft Ball League. Larger crowds for last Friday night and Tuesday night and more money dropped into the jar indicate this interest.

Last Friday night Frazier Brothers, who was a strong team in the First Half nosed out Mills County Vocational School by a close score of 4 to 3. This was a battle from the beginning to the end and included the umpire.

Also on Friday night Mullin took Big Valley to a cleaning of 9 to 0. Hook, who hurled for Mullin, pitched balls through with no whiskers attached.

Tuesday night of this week, Pleasant Grove decided to have all players make from one to two scores and this almost happened, when they pushed Big Valley out by a score of 20 to 8. Hill, Hunt and Adams

of Pleasant Grove all hit the ball for a home run.

In the second game Tuesday night, Frazier Bros. proved to be the best again, when they romped over Western Auto 11 to 8. Langford led the batting average with three hits out of four times at the bat. Y. B. Johnson, first baseman for Frazier Bros. walloped a hard one against the fence for a home run. Hollingshear and Wesson each did an excellent job of itching in this game. Also Bill Millam, a player on the Pleasant Grove team, did a jam up good job as Ump behind the bat.

Tonight (Friday)—First game at 8 o'clock, Mullin vs. Priddy. Second game at 9:15, Mills Co. Voc. School vs. Star.

Next Tuesday night—First game, Mullin vs. Western Auto. Second game, Frazier Bros. vs. Pleasant Grove.

In an effort to forestall an epidemic of polio or any other disease, the citizens are cooperating in a City - Wide Clean-Up Campaign. The business houses have been asked to close their doors on next Tuesday morning (July 27), and all personnel concentrate on removing all trash, weeds, garbage and refuse of any kind.

The Clean-Up will be followed on Wednesday, Thursday or Friday with DDT fogging. The City has secured use of the fogging machine owned by the City of Brownwood for this purpose.

All persons who have a truck or pick-up and will volunteer use of it, please call City Office (186).

This is an all-out effort to prevent disease and removal of unsightly rubbish. It can only be successful if every one cooperates.

You are urged, not only to clean your own premises but help your neighbor as well.

City employees will spend full time on this program, starting now. If you have refuse already concentrated please call us that we may dispose of that beforehand.

The City Council, committee from the Lions Club and interested merchants are working at this diligently.

Let's all turn out and turn in a good job, starting at seven a. m. good job, starting at seven a. m. Tuesday.

City officials explained that the fogging machine to spray the DDT would be in operation either Wednesday, Thursday or Friday, depending on the wind. A high wind would blow the spray away, and the first calm day will be selected. The spraying of the DDT will not affect business or any other activities while it is being put on. The spray is not dangerous to children, livestock or pets in any way.

It is up to every resident of the city to cooperate in a complete clean-up here Tuesday morning, in order that a 100 per cent job can be done in eliminating breeding places of dangerous diseases that are now taking great toll in many places in Texas. Goldthwaite should act—and act now—to head off a disease epidemic before it strikes here.

FIRE GREATEST ACCIDENTAL CAUSE OF CHILD'S DEATH

Parents can do much to save their children from burning to death, says Marvin Hall, State Fire Insurance Commissioner. Fire is the greatest cause of accidental death of children in the home, he stated, and parents largely can eliminate dangers and make their homes fire-safe for their children. Of the 109 Texas fire deaths reported for the first five months of this year, including only the first part of May, 38 of the deaths have been children under 15 years old. Stating that gasoline has been responsible for the greatest number of child deaths by a large margin, Hall urged that parents never allow gasoline on their premises. Of the 38 fire deaths, 11 have been caused by gasoline.

Five fire deaths were caused from kerosene, 3 from electricity and 3 from gas stoves. The Commissioner suggested that these things, as well as others, be watched closely so that they will not become fire hazardous. Hall recommended that kerosene be kept well out of the reach of children and that they never be allowed to handle it. He said the same holds true for matches, hot liquids and lighted candles, etc. He also urged that kerosene never be used to start a fire and that fires for marshmallow toasting and popcorn roasts be held in fireplaces only and always under adult supervision. As for gas stoves, Hall said, "The greatest danger for children is getting too close to heaters and catching their clothes on fire—a not so prevalent hazard this time of year." With the electrical hazard, the main thing for parents to remember is to keep appliances in good repair. In two tragic cases children

were burned to death when adults carelessly disposed of cigarettes around their beds. Two more children were burned to death in automobile accidents and one died from burns after falling in a tub of boiling water. Two children met their deaths when hot grease and a wood stove set fire to their respective houses. The last child died of burns after his clothing ignited while he was playing with matches. Hall also cautioned parents never to leave their children at home alone, and to be sure that sitters are mature and responsible enough to take care of young children, especially in case of fire. Check to see that they know how to call the fire department, he advised. Commissioner Hall cautioned parents not to dress children in highly inflammable clothing, such as fluffy net dresses, brushed cotton or rayon suits. Napoleon was born in Corsica in 1789.

International Trade in Fats and Oils Retarded by War Ruin

"In 1940, Far Eastern nations provided approximately 65 percent of our imports of fats and oils; in 1945, they supplied less than 25 percent," says Charles E. Lund, Chief of Fats, Oils and Rice Division, in the 1947 annual review of the U. S. fats and oils industry report. While these nations are recovering from the devastation of war, little import of international trade is anticipated. America is urged to help out during the current world-wide shortage of fats and oils. By saving used cooking fats and selling them to their meat dealers, women can help ease the fats and oils shortage.

'ALBUQUERQUE' IS EXCITING ACTION THRILLER IN COLOR

Rip-roaring outdoor film action hits a new high Saturday night pre-view, Sunday and Monday at the Melba Theatre when Paramount's "Albuquerque"—Cinecolor thriller—takes over the screen. The excellent cast, headed by co-stars Randolph Scott, Barbara Britton, George "Gabby" Hayes and Lon Chaney, brings to life an exciting story set in the New Mexico town around the year 1878. The stars are supported by Russell Hayden, Catherine Craig and George Cleveland.

Based on a novel by Luke Short, well-known author of Western stories, "Albuquerque," tells of the arrival in town of Scott, a Texan, who has come to manage his uncle's freight business. He finds that the uncle, played by George Cleveland, is a scoundrel who has the town by the throat. The sheriff is in his pay, as is a gang of law-breakers headed by Lon Chaney. Cleveland is determined that he shall monopolize the lucrative freighting business and to that end he will stop at nothing, including murder.

Scott breaks with him when he learns his tactics, and joins forces with Russell Hayden and Catherine Craig, in the roles of brother and sister, who have started a freight business, despite the obstacles thrown in their way by Cleveland. The latter has, among other nefarious things, planted a spy in their office, in the lovely person of Barbara Britton.

The love affairs of Barbara and Hayden, Scott and Catherine progress against a background of violence and exciting action occasioned by the tug-of-war between the rival freighting companies. Barbara's eventual renunciation of Cleveland and the final showdown battle between the two factions are highspots in a picture packed with thrills.

LANCASTER TERRIFIC IN 'I WALK ALONE'

Burt Lancaster and his very special brand of he-man activity storms into the Melba Theatre Tuesday and Wednesday in a new Hal Wallis film, and gives audiences exactly what they expect of him—high-powered excitement and thrills galore. The picture, which co-stars him with Elizabeth Scott, is Paramount's "I Walk Alone."

"I Walk Alone" tells the story of an embittered man who has taken the rap for his friend in the tune of fourteen years in prison for a prohibition era shooting. Lancaster plays the man, who upon his release, finds his friend has built up their old speakeasy into a highly prosperous swank night club. The friend is magnificently portrayed by Kirk Douglas as the treacherous double-crosser, who stops at nothing, including murder, to cheat Lancaster out of his half of the business.

Farm Leader Cites Reduced Accident Rate In Endorsing National Farm Safety Week, July 25-31

Use your head before you use your hands. Don't take chances to save a few seconds.

These are the best safety rules in using farm machinery, J. H. Oppenheim, president of the Farm Equipment Institute, declared in endorsing National Farm Safety Week, July 25-31. Without head work, he said, the best mechanical safety devices cannot be completely effective.

Mr. Oppenheim points out that, like their city neighbors, more farm people are injured within the home than anywhere else. And although some 4,300 farm workers were killed and 300,000 injured during 1947, this represented 200 fewer work deaths and 20,000 fewer injuries than the year before.

"The rules of safety are familiar to most users of mechanical equipment," Mr. Oppenheim says, "but this knowledge always can be defeated by carelessness."

"One of the most important things to remember is this—shut off the power before you start tinkering with any mechanism. In oiling, repairing, adjusting, or cleaning the moving parts of a machine, a slip of the hand or foot can involve serious injury. The few seconds required to stop or start an engine or motor is time well spent."

As vice-president and general manager of the New Idea Farm Equipment Division, Avco Manufacturing Corporation, Mr. Oppenheim is one of the hundreds of manufacturers who constantly strive to make farm machinery more accident-proof.

The Farm Equipment Institute, in cooperation with the National Safety Council and other safety and engineering organizations, has worked for years toward this end. As a result, new safety developments are not commercialized, but made available to the entire industry. Such devices as shields for power-take-off shafts are now standardized while numerous engineering improvements have reduced mechanical failures and accidents almost to the vanishing point.

GOOD DOG PHOTOS BEING SOUGHT FOR NATION-WIDE CONTEST

That favorite picture of your pet—here is an opportunity to find out how good it really is. The Gains Dog Research Center, New York City, has advised The Goldthwaite Eagle that it is offering \$1,125 in prizes for good, interesting dog pictures in a contest sponsored a part of the approaching observance of National Dog Week this fall.

In order that all interested in photography may have a fair chance for the prize money, entries will be accepted in three distinct classifications, (1) Amateurs; (2) Members of camera club; and (3) Professional photographers. In each of the first two groups there is a first prize of \$250, a second of \$75, and a third of \$25, while in the professional photographer class there is but a single prize of \$350. In the Camera Club classification, an additional \$25 prize will go to each of the three clubs which the winners of first, second, and third prizes will have named as their membership affiliation. All winning entries will become the property of the contest sponsor, who also holds the privilege of purchasing any other photographs entered in the contest at prevailing prices.

Mrs. Bill Butler and daughter, Janice, of Fort Worth are visiting her parents, Mr. and Mrs. Charles Stephan.

Mr. and Mrs. John Yarrington of San Marcos were weekend guests of Prof. and Mrs. H. E. Patton. Mrs. Yarrington and Mrs. Patton are sisters. They took Mrs. Patton to Austin for a visit with their mother, Mrs. T. A. Andrews. She returned home Monday evening.

Rev. and Mrs. Larry Stokes and little Bobbie spent several days the first of the week with his father and grandmother, Col. and Mrs. M. Y. Stokes, and Mrs. R. M. Thompson. They left for their home at Giddings Wednesday morning.

Jean Randolph Pulliam of Austin arrived Friday for a visit with her aunt, Mrs. J. H. Randolph.

Recent guests in the home of Mr. and Mrs. Grover Dalton were Rev. and Mrs. H. J. Starnes and family of Weatherford and Mr. and Mrs. Wayne Cornelius and children of Fort Worth. The Cornelius' also visited his parents, Mr. and Mrs. C. F. Cornelius.

Mr. and Mrs. L. J. Kincanon of Mineral Wells spent Sunday with Mr. and Mrs. Lee Priddy. Those who called in the afternoon were Z. B. Coffey and granddaughter, Connie Alcorn, of Zephyr, Mr. and Mrs. Chas. Gardner of Fremont, Mr. and Mrs. Tom Frank Priddy and daughter, Maritka, and Zolzie Grayson of Priddy, and Rev. Green and Floyd Partin of Priddy.

Mrs. Orlean Wombie and her mother visited with Mrs. Luther Roach one day this week.

Homer Roach, Mrs. Fred Guley from Shreveport, Louisiana, and a friend from Maine are visiting Luther Roach and family.

Horse vs. Machine

OIL-POWERED mechanization of the farm, illustrated by increased use of tractors and the decline of the horse and mule population, has made it possible for the farmer to produce more food than ever before. Since 1933, when the big rise in oil-powered mechanization began, the farmer has increased food production to a point 40 percent above any peak year prior to this era of mechanization.

A wall that can "take it"!

Colorful, longwearing CONGOWALL

Here's the ideal wall covering for dining nooks, pantries, stairways, back halls—wherever a wall gets plenty of "wear and tear"! Made of lustrous baked enamel in a handsome raised tile-like pattern, Congowall is scratch and grease resistant, wipes clean with just a swish of a damp cloth. A permanent wall covering, it stays new-look-

ing for years, never needs refinishing. Come in and see the lovely Congowall colors. Congowall comes in a convenient 34-inch wainscot height and costs amazingly little!

BUILT-IN SAFETY

College Station, July 21—Safety can be built right into the home to help reduce accidents. New homes can—and should—be made far safer than houses built in the past because better materials and more advanced ideas are always being developed for greater home safety.

This built-in safety business is really two angles in one, says W. S. Allen, extension agricultural buildings engineer of Texas A. & M. College. It deals with the dangers of fire as well as the personal injury angle.

Builders and architects are giving quite a bit of thought to ways and means of getting rid of home accident causes in both the new and old structures.

Safety studies show that most accidents in the home occur on the stairs, so the architects are recommending a certain step height, width and steepness that will still be safe. Handrails should be provided every place there are more than two steps. Also lights at the top and bottom steps are recommended.

Basements are often dangerous places when there are overhead water pipes, air ducts and low hanging objects. Where it is not possible to remove them, they should be painted brightly so they will be easily seen. Win-

dows are new on the market which can be cleaned from the inside of the house. More and more of this kind are being built into the new homes.

Toys, tools, brooms and mops make dangerous enemies if left lying around. Keep them in a special place so they won't be tripped over. Kitchen hazards are reduced by sliding cabinet doors or the narrow hinged type which do not swing far out into the room. Rounded corners on kitchen equipment along with more built-in facilities also lower your chances of being injured in your own home.

Flat bottomed tubs and grab bars assist in getting in and out of the tub match nicely with any bathroom design. Non-slip flooring is not only available, but a little healthier too. And there is the old story of bathtub electrocutions. Keep light switches and radio controls—if you have a radio in the bathroom—out of tub or shower reach.

None of these safety measures are costly. In fact, many times it has proved to be more costly not to have them. If the homeowner gives as much attention to safety in his home as he does to some of the

other things, advises Allen, his chances of becoming a hospital patient will be much less.

WAGES ACTIVE CAM-
PAIGN FOR GOVERNOR**

Austin, July 21—Heading into the home stretch in the Governor's race, Roger Q. Evans, the veteran Denison Legislator, who is actively opposing the incumbent regime, has issued a statement in which he forecast his nomination in the first primary. The statement, issued from the Evans State Headquarters in Austin was based on polls, surveys, and straw votes taken in every section of the state, he said.

Evans, who entered the race after receiving petitions bearing thousands of names, has long been the champion of the rights of Texas veterans and teachers, old age groups and farming interests. These groups, according to the statement, are unified to a high degree in their support of the anti-Jester candidate. "I am proud that my record in the Legislature during the last eight years warranted the support of these groups of Texas citizens," Evans was quoted in the statement.

TO THE PEOPLE OF MILLS COUNTY:

May I thank all of you for your unfailing courtesy and kindness? In my campaign for the office of County Judge I have contacted everyone that I could. The duties of office have made it impossible for me to see all of you. In case I have called in your home, I wish to thank you for your courtesy. If I have not been able to call, please accept this as my personal request for your support in the July 24 Primary.

DEMOCRATIC CHALLENGE

Truman, Barkley Head Ticket

By WALTER A. SHEAD
WNU Washington Correspondent
PHILADELPHIA, Pa. — In a
thrill-packed convention, probably
the most dramatic in modern political
history, President Harry S. Truman
was nominated for a full term for the
presidency and the veteran Senator,
Alben W. Barkley, of Kentucky, was
named his running mate to head the
Democratic ticket for the 1948 campaign.

And to feed the flames of a bedlam-
rocked convention hall, the President
broke all precedents and threw down
the gauntlet to the Republicans by
literally daring them to carry out their
pledges at a special session of the
Congress which he said he would
call July 26.

While sweltering delegates who
had battled each other throughout
a day in which irate southerners
had staged an open revolt against
the civil rights plank of the platform,
cheered themselves hoarse, the
President openly challenged his
Republican opponents in a ringing
declaration of war:

Let's see if their platform means
anything. If it does then we can
get some action in 15 days.

The President's spirited and
bristling speech of acceptance
topped and threw into the back-
ground events which at any other
convention would have been top
news... the walk-out of the Mis-
sissippi delegation... the threat of
a rump southern convention at
Birmingham... the spanking of
the southerners who were given a
sound drubbing when they sought
to challenge the report of the plat-
form committee and the delegates
by overwhelming vote adopted a
more drastic civil rights plank...

Checking off the promises of the
GOP platform on domestic issues,
the President, in a fighting mood
which swept the delegates and gal-
leries in rafter-rocking applause,
declared he had time after time
asked the Republican-controlled
80th Congress for action on the
very pledges made in their plat-
form. But they won't get away
with promises, he told the packed
convention hall.

He said that he would demand
that the special session of the con-
gress take action to halt high
prices, to aid education, a national
health law, civil rights, increase in

SEN. ALBEN W. BARKLEY
minimum wages, extension of so-
cial security, funds for public power
and cheap electricity, an adequate
displaced persons' law to substitute
for "the anti-semitic and the anti-
catholic law they provided" in the
80th Congress.

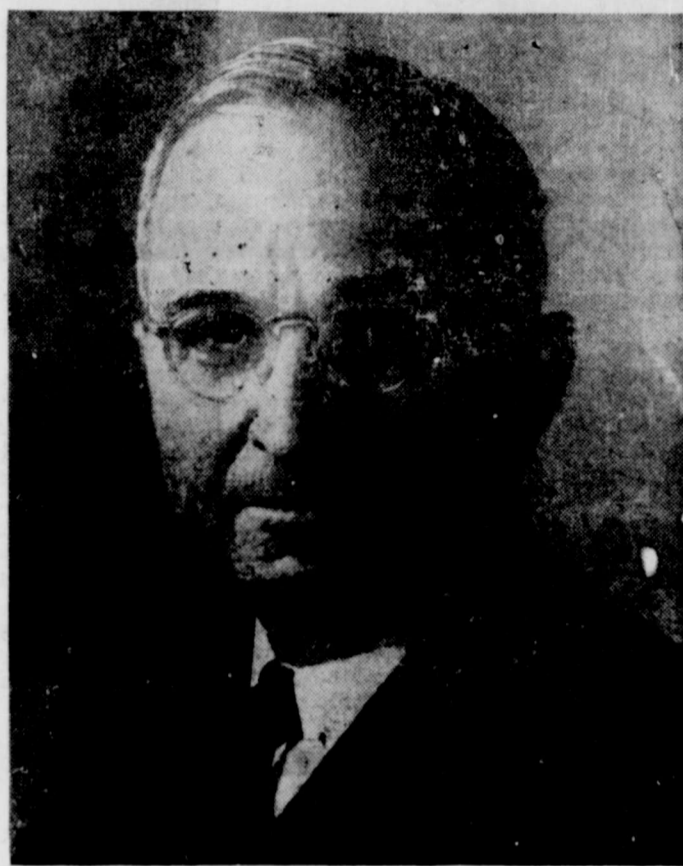

The dramatic climax of the con-
vention overshadowed the fight for
the presidential nomination which
became a rout when the south-
erners switched from Governor Ben
Laney, of Arkansas, their an-
nounced candidate, to Senator
Richard B. Russell, of Georgia. The
only ballot vote was 263 for Russell
and 947 1/2 for Mr. Truman.

One highlight of the convention
was the platform fight on the floor
over the civil rights program. Southern
delegates led by Gov. Dan Moody,
of Texas, offered a minority report
to the platform committee report
containing a states rights program
to supplement the civil rights
plank adopted by the committee.
Not only did the convention
snow under this southern states
offering by a vote of 925 to 309, but
the convention then immediately
adopted a minority report offered

Convention Briefs

PUMMELING HOME HER
charge that Republicans were
responsible for high prices, Mrs.
India Edwards, director of the
Democrats Women's Division of the
National committee, waved a juicy,
raw T-bone steak above her head
as she addressed the delegates. She
said the steak cost her \$1.10 a
pound at a Philadelphia butcher
shop. Other women speakers high-
lighted the high cost of housekeep-
ing because of inflated prices.

Fighting Words Weld Party

PRESIDENT HARRY S. TRUMAN

by the California, Wisconsin and
Minnesota delegations spearheaded
by Mayor Hubert J. Humphrey, of
Minneapolis.

This plank paid high tribute to
President Truman for his civil
rights stand and called upon the
congress to support the President in
(1) the right to full and equal
political participation; (2) right to
equal opportunity of employment;
(3) the right of security of person
and (4) the right of equal treat-
ment in the service and defense of
our nation. The resolution was
adopted by a vote of 651 1/2 to
582 1/2. The vote does not indicate
relative strength of the opposing
forces since many states voted
against the resolution merely to
uphold the resolution committee
which had adopted a compromise
plank on civil rights.

The platform differs from the
Republican platform in some es-
sentials—it demands repeal of the
Republican Taft-Hartley labor act
and declares it has proven a failure;
it demands repeal of the
discriminatory taxes on oleomargarine;
it pledges to oppose any re-
vision of federal laws "designed to
curtail the most effective function-
ing of farm cooperatives." This is
interpreted to mean the party goes
on record against change of the
tax-exempt status of farm cooper-
atives. As a matter of fact the
platform supports all forms of co-
operatives and "other democratic
associations for the purpose of
carrying out any proper business
operations free from any arbitrary
and discriminatory restrictions."

The foreign policy plank pledged
continued support of the Truman
doctrine, the Marshall plan, the
United Nations, the Good Neighbor
Policy with respect to South
America; and, taking a slap at the
Republicans, pledged sufficient ap-
propriations to carry out the will
of the congress on its foreign com-
mitments.

Truman's Opposition Lacked Leadership

In the hectic days prior to the roll
call of states, the revolt against the
nomination of President Truman,
followed much the same pattern
that was evident in the Republican
convention held in the same hall
only a few short weeks before...
the opponents of the President
could settle on no single leader to
make the race.

So it was in the GOP convention
... opponents of Governor Dewey
could settle on no concentrated op-
position. So the President ran away
with the nomination on the first
ballot as Dewey did on the third.

While many of the faces of by-
gone glory were at Philadelphia
and the ghost of Franklin D.
Roosevelt still hovered over the
conglomeration of factions which
always has made up the Demo-
cratic party, there was no single
leader able to cement these fac-
tions into unity as Roosevelt and
his brain-trusters did through
four national conventions, one of
them here at Philadelphia in 1936.

While some sources sought to in-
terpret this factionalism in the
convention as a "wake" or a
"breaking up" of the party, the po-
litical history indicates there has
always been such factionalism in
Democratic conventions. This fac-

THERE WAS DANCING in the
streets of Philadelphia during the
Democratic convention. But it
wasn't Democratic delegates. The
traditional Mummers parade was
staged for free for the benefit of
the delegates. During the Repub-
lican convention three weeks before
the Mummers show was staged in
Philadelphia stadium at \$2 a head,
attracting some 30,000 people. Per-
haps the convention committee less
prosperous than their Republican
cousins.

FARM AND RANCH CHATTER

WITH LAYNE BEATY WBAP
6:30 AM Week Days—10:15 AM Sundays

The annual Cotton Research
Congress is under way in Dallas
this week-end. Many of the na-
tion's top cotton prognosticators,
researchers, planners, and hand-
lers are there. Our new secre-
tary of agriculture, Charles F.
Brannan, who hails from Colo-
rado, is to be the chief speaker.
Saturday, an attraction will be
the farm implement clinic for
cotton farmers with many types
of cotton planting, cultivating,
weeding, and harvesting machi-
nery on display with discus-
sions of their advantages and
limitations. Farmers are entit-
led to know what they can ex-
pect from anything which takes
such a big investment as the
average farm machine.

Over 100 million head of live-
stock have been through the
Fort Worth stockyards since
1902, according to W. L. (Bill)
Pier, Manager. This represented
two and a quarter billion dol-
lars which changed hands over
them.

Aside from the short corn
crop last year, one reason for
high meat prices now is the de-
clining number of cattle in pro-
portion to population. Sixty
years ago the U. S. had 100
cattle for every 100 persons.

Looks like we're either going
to have more cattle, or learn to
get more meat off the critters.
We still like ours inspected,
properly killed, and cooked.

Fearful of some future scarci-
ty of coal and petroleum, a
team of British Scientists are
trying to manufacture methane
from India-grown water-hyacin-
th. Methane is a high-energy
hydrocarbon gas which burns
clean and can be converted in-
to many forms of fuel.

Why doesn't someone discover
such a use for mesquite, post-
oak and cedar?

One of the things that kill and
maim our population is the idea
that it's weak, effemination or
sissy not to take chances. Some
people hold that safety is in-
consistent with the spirit of our
forefathers who took great
risks to establish our country.
Another is that accidents are
the natural price paid for pro-
gress. And still another is that
accidental death or injury is
due to the law of averages.

None of that makes sense
when you think about it.

44 OF EVERY 100 FEDERAL EMPLOYEES ARE VETERANS

A recent report on employ-
ment in the Federal service re-
veals that in March 1948, for
the eighth consecutive month,
about 44 out of every 100 Fed-
eral employees had seen mili-
tary service or were entitled to
veteran preference, according
to Thomas W. Saling, Regional
Veterans' Federal Employment
Representative, Fourteenth U.
S. Civil Service Region, Dallas,
Texas. Other interesting facts
included in this report are:

Veterans and persons entitled
to preference numbered 789,243
out of 1,794,106 Federal em-
ployees in the continental Uni-
ted States. A year ago, in March
1947, persons with veteran
status accounted for 42 out of
every 100 Federal employees; in
March 1946, 31 out of every 100
employees had veteran status.
The number of persons in the
Federal service with veteran
preference increased to 836,485
in July 1946, then decreased in
the following year to 770,028 in
September 1947. Recent months
have shown increases, rising the
number of veterans to 789,243,
in March 1948.

Most of the employees with
veteran status in Federal em-
ployment are men (95 per cent).
Among the 37,798 women with
veteran preference in March
1948, 22,331, or 59 per cent, were
formerly members of the Waves,
WAC, and other women's mili-
tary service organizations dur-
ing World War II, while 15,467
were wives of disabled veterans
or widows of veterans.

Among the Federal men em-
ployees, more than half (55
per cent) in March 1948, had

as only 9 per cent of the women
in Federal agencies had veteran
preference. Except for one small
agency in which all the men
had veteran status, the Veterans
Administration out-ranked any
other agency in the proportion
of men veterans on its pay roll
(88 per cent). This agency also
showed the highest proportion
of women entitled to preference
(17 per cent) among the larger
agencies as well as the largest
number (12,932).

Ex-service persons with dis-
ability preference continue to
increase in number each month.
They reached the total of 99-
123 in March 1948, or 13 per cent
of Federal employees with vet-
eran preference.
While total Federal employ-
ment has declined substantially
since VJ Day, Mr. Saling said,
the number and proportion of
veterans in the Federal service
has increased and will continue
to do so under the provisions of
the Veterans' Preference Act of
1944, which requires that veter-
ans be given preferential con-
sideration for employment in
the Federal service.

UNLIMITED QUOTA FOR MARINES

Master Sergeant M. D. Free
of the local Marine Corps Re-
cruiting Station announced
that the quota for voluntary
enlistment in the U. S. Marine
Corps for the month of July
will be unlimited.

Sergeant Free explained that
the new peace-time Marine
Corps is training men through
the many trade schools, such
as aviation, diesel engines, ra-
dio, telephony, telegraphy, ra-
dar and electronics, aviation
engineering, mechanics and
many others which are useful
to him in civilian life as well
for duties in the Marine Corps.

Twenty-five per cent of each
platoon that completes their
recruit training at the Marine
Corps Base, San Diego, Cali-
fornia is assigned to aviation
duty. Marine aviation is both
carrier and land-based. Air
crews are assigned to fighter
and torpedo squadrons aboard
big Navy flat-tops. They work
with the new night fighters and
fast jets. Technical personnel
fly with the transport planes
as mechanics and radio men.

GEORGE PEDDY WINDS UP HIS SENATE CAMPAIGN

Houston, July 22—The whirlwind campaign of George Peddy CA-F JKK KKK mtlfr o?FJH for the U. S. Senate comes to a fighting finish this week with the Houston candidate predicting that he will definitely be in the runoff.

Peddy's gain in the past two weeks, especially among the farmers, small town and independent voters, have been remarkable. A rugged campaigner, Peddy has traveled over 50,000 miles and personally visited 180 counties during the past 90 days. He is drawing large crowds wherever he speaks.

Last week his speaking campaign took a sharp upturn, as veterans, lawyers, and businessmen from all over the state rallied to his cause with public speeches and radio addresses. Veterans supporting George Peddy placed ads in over 600 Texas newspapers.

In this final week of campaigning Peddy is visiting Fort Worth, Austin, San Antonio, DeLeon, and other towns through the center of the state. He is principal speaker at the DeLeon Peach and Melon Festival, July 22.

No old-line politician, Peddy has surprised political observers with his sharp rise to popularity. He is one of the state's leading attorneys and a veteran of both world wars. Born on a small farm in East Texas, Peddy's life story is an Horatio Alger biography in the best tradition.

Evidence of his outstanding record as one of the state's leading citizens is the 100 per cent support given his candidacy by his home county—County.

L. H. Soules and F. P. Bowman went to College Station on business last week-end and spent the night in the home of J. T. Soules, who is qualifying himself for the position of County Agent.

ATTEND PEACE OFFICERS MEETING AT SAN ANGELO

Mills County Sheriff W. L. Mahan and Charlie Wilson of the Eagle were among the 125 law enforcement officers, newspaper men and special guests to attend the dedication of a State Department of Public Safety short wave broadcast station at San Angelo Tuesday.

After inspection of the transmitter two miles out on the Balinger highway, guests went to the Will Hale stock farm 10 miles north of San Angelo where a ranch-style barbecue was served. Col. Homer Garrison, Jr. of Austin, director of the State Department of Public Safety, was principal speaker. He complimented State Senator Dorsey B. Hardeman and others for their help in securing the station, and invited sheriffs and peace officers in the vicinity to take advantage of the new station. Capt. Ray Butler of San Angelo District 8 twenty counties introduced the speaker.

To the Citizens of Mills County:

I wish to take this method of thanking you for your splendid help and cooperation during my initial term as Sheriff and Tax Assessor and Collector. I am confident that I have served you to the very best of my ability, and trust that your friendly and helpful attitude in the past will continue.

As you know, I do not have an opponent in the current election, but I earnestly solicit your vote and confidence. Again, I say thanks and we will continue to serve you with courtesy.

RANGE FIELD DAY AT OWENS' RANCH

The Owens Brothers Pigfoot Ranch was the scene of an all day field study of ranch management and pasture improvement by Soil Conservation Service technicians from Brownwood, Rising Star, De Leon, Dublin, San Saba and Goldthwaite. W. R. Heizer, District Conservationist from Dublin, who arranged for this training program, outlined the progress of the Soil Conservation Districts and how the Soil Conservation Service assists District Cooperators.

Carey Owens gave a brief history of the Pigfoot Ranch and described in detail the recent ranching operations of the ranch. He recalled that when the place was overstocked with cattle his calf crop was about 60 per cent and the calves weighed around 350 pounds. Since the pastures have improved by proper management, and with about one cow to ten acres of range the calf crop sold is near 100 per cent with a finished weight of around 500 pounds. This range is producing the same total pounds of beef per year with less investment and no winter or summer feeding. Mr. Owens says, "A rancher should look at his profits rather than volume of business."

John Landers, Work Unit Conservationist at San Saba, described the Range Conservation Plan that was developed by Mr. Owens in 1944. Mr. Landers could see considerable progress that has been made in the range condition and was interested in the increased vigor and growth of the desirable grasses.

B. R. Day, Work Unit Conservationist of Goldthwaite explained the observation plot that was set up on Mr. Owens and J. J. Witty's ranches to study the runoff on pastures and the production of grass forage. Mr. Day gave the process by which grass grows and said that the desirable range grass such as little bluestem, Indian grass and Side Oats Grama, have been killed out because the leaf surfaces have been continuously clipped until the plants died. On the properly grazed pasture 93 per cent of the total rainfall this year (17.05 inches) penetrated the soil. On the overgrazed range only 68 per cent of the rainfall soaked in. To get the production of each pasture a 25 foot square plot was clipped and weighed. The good pasture yielded 1083 lbs. of good forage while the overgrazed pasture produced 544 lbs. of forage. With an air temperature of 92 degrees, the soil temperature under the good grass was 84 degrees and on the poor pasture across the fence the temperature rose to 110 degrees, a difference of 26 degrees.

Paul Koshi, Range Conservationist of Goldthwaite gave some experimental data that proved conclusively that proper range management pays with very little outlay cash. Lunch was served on the ranch by the personnel of the Goldthwaite Work Unit. After lunch Henry Turney, Range Conservationist from Dublin, held an open discussion on range management and pasture improvement. He explained the futility of the mechanical treatment of rangeland without any regard to the grass cover. "It takes high producing palatable grass to produce

beef," Mr. Turney said. Mr. Owens stated that he has actually made more money on the tall grasses than on the short grass pastures. On a drive through the Pigfoot Ranch, the following grasses were identified in abundance: little blue stem, Indian Grass, buffalo grass, hairy grama, side oats grama, drop-seed, Scribner's Panicum, Golden Aster, and scattered clumps of Queen's Delight. The party hiked to the top of a mountain on the ranch where brush had been pushed in August 1944. They were surprised to see Indian Grass little blue stem, King Ranch Bluestem, and Big Bluestem growing almost solid among the dead brush. Some of the grass was knee high and it was obvious that the brush was being replaced with the grasses. Mr. Owens removed his goats this week from this pasture in order to allow the desirable grasses to seed this fall. The Owens Brothers' Pigfoot Ranch is positive proof that desirable grasses can be maintained in a pasture by proper management, that a good cover of grass provides excellent soil and water conservation, that livestock do well on a well managed range, and that it pays to have a good pasture in greater profits and a more stable ranch program.

E. O. THOMPSON TOP OIL CONSERVATIONIST
Ernest O. Thompson became a member of the railroad commission in 1932, appointed by Governor Sterling to fill the place made vacant by Governor Pat M. Neff, when he resigned from the railroad com-

mission to accept the presidency of Baylor University. Before that Colonel Thompson had served in World War I in Europe and in the army of occupation and had practiced law in Amarillo and had served as mayor of Amarillo. He promised the people of Amarillo that as mayor he would reduce the rate on taxes, lights, water and gas. He performed every promise to his people and today Amarillo enjoys low taxes and extremely low taxes on lights, water and gas. As railroad commissioner, he went aggressively to work to reduce gas utility rates over the state and some 500 cities and towns now enjoy lower gas rates.

GOLDTHWAITE H. D. CLUB
The Club will meet in Mrs. Leonard Cole's home the twenty-seventh at two thirty, with Mrs. Cole, hostess and Mrs. Galloway, co-hostess. This will be our first meeting with our new agent, Miss Hintz. Let's do our best to be present and help Miss Hintz in every way we can to keep our club going. If we don't put anything in the club work we won't get anything out of it, so do your best to be present and on time.

Week-end guests of Miss Dera Humphries were her sister, Mrs. W. F. McCall, and Mr. and Mrs. William Coleman and son. Mr. Coleman returned to his home in Abilene, and Mrs. Coleman and son accompanied her mother, Mrs. McCall, to Waco Monday morning for a visit. They also visited with Mrs. E. B. Anderson and the E. B. Gilliam family.

Mr. and Mrs. G. W. Barrington and three children, Geo. J. Beatrice and Lola Mae, and a nephew, Seaborn Barrington, all of Waco, visited in the home of Mrs. R. A. Stevens and Lola in Goldthwaite Sunday. It's a Treat for the eyes in **Georgene Natural Color—"The Return of Rin Tin Tin"—Saturday Matinee and night, Melba Theatre.** Rev. JOHN A. RAWLINS FOR ASSO. JUSTICE TEXAS SUPREME COURT

Dallas, July 20—Judge John A. Rawlins of Dallas, candidate for Associate Justice of the Supreme Court of Texas, has a life history like an Horatio Alger story. He was born 53 years ago on a farm near Lancaster. His father was the son of a Christian minister.

Judge Rawlins was named for his two grandfathers, John Rawlins and Allen Holloman. His grandfather, John M. Rawlins, was a cousin of Gen. John A. Rawlins, who was chief of staff for Gen. U. S. Grant, and later became secretary of war. Which accounts for the fact that one of Uncle Sam's battleships bears the name John A. Rawlins.

Judge Rawlins was salutatorian of his Lancaster High School graduating class, went to TCU on a scholarship, earned a B. A. Degree. Two years later, he entered the Texas University, where he worked his way through law school. While at the University he was president of the glee club, manager of the band, and sang in Chattanooga, a choral group.

Before his degree was conferred, Judge Rawlins went overseas as a private in the 37th Combat Infantry, and was in Belgium when the first

World War ended. He returned to Texas and entered law practice in 1919, his degree having been conferred "en absentia."

Judge Rawlins first entered politics in 1924, when he was elected florial representative in the State Legislature from Dallas, Rockwall and Kaufman counties. During his second term in the legislature, he was chairman of the judiciary committee of the House.

In 1928, Judge Rawlins was appointed judge of County Court at Law No. 2, and served for over seven years. He was then elected to the 116th District Court, a post he has held for 14 years.

Active in civic affairs, Judge Rawlins has been president of the District and Appellate Judges Association, and chairman of the Board of Directors of the State Bar. He declined re-election as president of the Ex-Students' Association of TCU to become a candidate for the Supreme Court Bench.

Judge Rawlins has three children, John, Jr., 20, Billy 15, and Mary Jane 12. His wife is the former Miss Virginia Holt of Waco.

COKE STEVENSON ENDS EXTENSIVE PRIMARY CAMPAIGN

Coke Stevenson this week is ending his first primary campaign for the United States Senate on the same note he struck when he announced his candidacy on January 1.

The former Governor said, in announcing that he would of-

fer no political platform because of his belief that "political promises are not worth much of anything." He has campaigned in a light automobile, which does not even bear so much as a windshield sticker or placard. He has made no stump speeches.

"I've made a great many talks before organizations which extended me an invitation," Stevenson said. "Besides the people I've addressed at such meetings, I estimate that I have talked personally with

250,000 Texas men and women since I announced for the Senate."

Stevenson has a theory that a candidate for office can learn more by listening to the people than by lecturing them or trying to tell them what they ought to think or do.

His campaign methods apparently have been effective. Three successive statewide polls of public opinion have shown Stevenson for in the lead in the United States Senate race. He predicts that he will get a majority of the votes on Saturday and that no runoff will be necessary.

SCHOOL LAND SALE SWELLS STATE FUNDS BY EIGHTY MILLIONS

Austin, July 20—Bascom Giles, Commissioner of the General Land Office, said today that the proceeds from the July School Land Sale helped swell the permanent education funds to \$50,000,000 for the fiscal year.

This tremendous flood of money into these funds exceeds by five times the largest amount heretofore received for a similar period of operation by any former commissioner, Giles said.

The higher education fund and the public school permanent fund have now reached a total of \$215, 000,000.

The Land Office added an additional \$1,144,184 resulting from the sale of 210,000 acres located in 88 counties. Only 30 tracts totaling 15,000 acre located in Presidio, Reeves and El Paso Counties failed to receive bids. The amount bid per acre doubled that for any previous sale.

Commissioner Giles pointed out, by way of contrast, that when Texas made its bid to enter the Union, it unsuccessfully offered its entire public domain to the Federal Government for \$13,000,000. Now a small

fraction of those same lands annually from oil and gas royalties are bringing in over \$14,000,000 aites alone for public education. —Eagle Want Ads Get

**JOHNSON THINKS
HE'LL BE NEXT
TEXAS U. S. SENATOR**

Austin, July 22—Congressman Lyndon Johnson whirled into the final days of the senatorial campaign this week with a warning to Texas voters that the next six years may be the most crucial period in all the history of mankind.

Pleading for a united front on American foreign policy as a means of helping to prevent foreign aggression, Johnson said: "Your vote in the senatorial race may be the most significant you will ever cast. You have the grave responsibility of deciding, on one day, how you would vote for six years to come."

"Johnson emphasized that the voters must make a choice Saturday 'between a government of stagnation or a government of progress.'"

As tension grew in the Berlin crisis, Johnson hammered repeatedly on the need for preparedness in a hurry. "We can't sit this one out," he said. "If we ever back up an inch, the Communists will take over Berlin and wreck our foreign policy in Europe."

The congressman pointed to his experience in Congress as a qualification for promotion to the senate. He is a member of the Joint Committee on Atomic Energy and of the House Armed Service Committee, which are regarded as two of the most important groups in the troubled world today.

In addition to his 12-year apprenticeship in the House of Representatives, Johnson stressed that "ability to get a job done" is an important consideration in the selection of a senator. Without boasting he said, "I refer you in all sincerity to the people of the Tenth Congressional District who approved my record in

1946 by giving me seven out of ten votes, with a clear majority in every one of the ten counties in the district."

As a third qualification Johnson stressed his youth and vigor. He is 39 years old. "I am no criticizing any man who has passed the crest of his productive years," Johnson said. "But I am fortunate in being able to look forward to my most productive years."

FOR LYNDON JOHNSON

(Sherman Democrat)
When you set out to hire a man to do a job, you want someone who is experienced, able, and willing to do the job the way you want it done.

That is true when the people set out to hire a public official, whether it be constable, or United States Senator.

In looking over the field of aspirants for United States Senator, we are convinced that Congressman Lyndon Johnson is best fitted to represent Texas in the United States Senate and be junior colleague of the great Tom Connally.

Johnson has proven himself to be the type of man most Texans can approve.

He is a man of long vision and broad outlook needed in these troubled times of world crisis.

At the same time, he is a Texan from the ground up, born and bred in Texas tradition, aware of Texas' special problems. He has proven himself to be a sound leader for Texas causes in his service in the lower house.

That Lyndon Johnson is in touch with the grim reality of his times was proven by his espousal of a strong air force, the draft, aid to Europe, other legislation to bulwark America's position in a world beset by dangers to the Democratic way of life.

That he is in touch with the ordinary problems of the citizen at home is proven by his support of legislation which would give Texas better roads, save Texas

soil, store up rich Texas resources by building conservation and power dams on Texas rivers.

Johnson has proven he stands for peace by insisting that America be strong, provide herself with the implements of defense, which would discourage attack by an aggressor.

His service on vital committees of the House, including the atomic energy and armed services committee, has given him a voice in military affairs. He has served well on these committees.

In short, Johnson possesses the know-how of government, the outlook to cope with big problems.

Naming him to the Senate would give veteran Tom Connally a strong assistance—something he has not had for several years.

His reputation for getting things done—whether on the world scale or the state scale—qualify him as the type of Senator we can wholeheartedly endorse.

Johnson Best Choice For Senate Post

**Johnson For
SENATOR**

**SEND A YOUNG AND
AGGRESSIVE MAN TO THE
U. S. SENATE**

**Johnson For
SENATOR**

(Editorial in The Lufkin Daily News June 27, 1948)
Lufkin and East Texans have had ample opportunity the past week to closely observe Congressman Lyndon Johnson, and size him up as a possibility for the United States Senate seat being vacated by W. Lee O'Daniel. The reaction to this observance has been most favorable, and Johnson has won many recruits to his campaign.

Insofar as The Lufkin Daily News is concerned, it does not hesitate to give Johnson its unqualified endorsement for the post, and to urge its readers to give him their most serious consideration when they go to the polls on July 24.

Johnson has that rare combination of youth, ability and vigor and should he be elected to represent this greatest of all states in the upper branch of congress there is no doubt but that he will make Texas one of its best Senators in a long line of distinguished statesmen.

Lyndon Johnson is typically Texan. He comes of a long line of Texans, with both grandfathers soldiers in the Confederate army. He is a Texas farm boy who saw beyond the confines of his fathers ranchlands, and went forward to serve his state and his nation.

He is a comparatively young man, only 39 years of age, but during those 39 years he has devoted 12 years to outstanding service in the national House of Representatives, with only time off to don the uniform of his country in World War II.

He knows war and he wants peace; but he wants

CONG. LYNDON JOHNSON

a just peace that comes through international well-being. He realizes the full threat of Communism and advocates a strong United States that international bullies will be afraid to attack.

He knows the ins and outs of congress and his tenure in the House has been marked by an ability to "get things done." Few congressmen have been as energetic in pushing legislation for the well-being of their district, state and nation; and few have had as courageous a record of voting on matters of labor, farm prices, and public progress.

Johnson has been attacked by some labor leaders because he has refused to take their dictation. His answer is that no group—whether it be business, industry or labor—is big enough to dictate to this nation and its people. The mass of laboring men and women will remember his work in their behalf in the past and give him their support.

Johnson has been a particular friend of Lufkin and Angelina County and single-handedly aided E. L. Kurth and associates in securing war-time priorities for paper mill expansion when it was vitally needed, but was being blocked by selfish interests in the north and east. This assistance to the mill, and to the citizens of Angelina county alone would deserve our support even if he were not otherwise qualified for the job.

The voters of Texas can make no mistake in going to the polls on July 24 and voting for Lyndon Johnson, a young Texan who knows how to get things done.

**VOTE FOR
W.E. HEATLY
FOR STATE REPRESENTATIVE
DISTRICT 104**

Follow the Democratic custom of Mills County and Re-elect W. E. HEATLY to the House of Representatives; whose record verifies the fact that he has served the people of this County constantly and with great success.

He is not endorsed by any private interest and owes no obligation to anyone but the voters of Comanche and Mills Counties.

The thinking and substantial citizens of Mills and Comanche Counties are earnestly solicited for their support and influence to continue good government in behalf of this District Number 104 in the House of Representatives.

He advocated and promoted the purchase of bus and bus supplies for the schools of Texas through the Board of Control. This made a great saving to the people of the State.

Every department in Austin has the utmost respect for Mr. Heatly and his sincerity of purpose; as well as for his efficiency and capability.

If returned to the House of Representatives, he is in a position as a second term to be chairman of the most powerful committees on the House floor.

There has not been a week passed since the 50th Legislature adjourned that Mr. Heatly has not handled business in Austin for and in behalf of the people of Mills and Comanche Counties at his own expense.

(Pol. Ad. inserted by Friends)

Well, that's a viewpoint. A good healthy fear is the beginning of wisdom. The isolationists prior to both world wars were telling us we had nothing to fear. Hitler didn't mean us any harm. Japan couldn't hurt a fly. Why, our Navy would wipe Japan off the map in three weeks. We Americans are tough. We Texans are tougher. Who's afraid?

We awakened to the facts of life at Pearl Harbor, with more than half our capital ships on the bottom of the sea. They said it couldn't happen. Now they're saying it won't happen again.

Mr. Stevenson says he is the same as he always was, that he "never will be blown this way and that by shifting political winds."

He still hasn't answered Lyndon Johnson's question of how he stands on a number of issues. Lyndon Johnson, who may like the majority of us have a little bit of healthy fear of what might happen to this country unless we build up our defenses, has a record in Congress of supporting every step of preparedness before and after Pearl Harbor. We don't have to guess his attitude toward adequate national defense. We know he's for it come what may.

No political winds are trying to scare us. The facts in the situation are scary enough.

John Paton Seabourn

John Paton Seabourn was born October 29, 1889 in Mills County, Texas. He was the son of John and Frances Seabourn, who preceded him in death several years ago. He passed

away in the General Hospital in Wichita Falls, Texas, after several years of poor health, on July 17, 1948, at the age of fifty-nine years, seven months, and eighteen days.

He was laid to rest by the side of his wife Monday, July 19, at 4 o'clock, in the Goldthwaite Memorial Cemetery. Rev. Dick Lowrey, pastor of the First Methodist Church, conducted the last rites.

He married Hattie Bell Johnson November 8, 1909, who preceded him in death January 8, 1924. To this union were born seven children, two boys and five girls, all living. They are: Mrs. Willie Fulmer, Big Spring; Mrs. Vivian Worley, Graham; Mrs. Velma Culbertson, Wichita Falls; Mrs. Frances Sands, Madera, Calif.; Mrs. Oleta Hindman, Marion, Illinois; Barney Seabourn, Phoenix, Arizona, and Donald Seabourn, Crane, Texas. Ten grandchildren, three boys and seven girls, survived. Two children, Barney and Frances, were unable to be here.

Three sisters and one brother are living. Mrs. Marinda Davis, Mrs. Stella Kuykendall, Mrs. Maymie Roberts, and Walter Seabourn. There are also a host of friends who grieve his going.

He united with the Baptist Church at the age of seventeen. His early life was spent in Mills County.

Pall bearers were Ernest Benningfield, Fred Davis, Houston Kuykendall, J. D. Benningfield, Marvin Spinks, and Neal Rose.

★ It is recorded May 9, 1945, in 188 S.W. Reporter 2d series, page 100, James P. Hart, opponent of Judge Rawlins, was one of the unions in their unsuccessful and ill-advised attempt to enjoin the State of Texas enforcing the Texas law regulating labor unions, which was passed for the purpose of protecting public interest.

★ The Appellate Court, in upholding the law forbidding the unions to work permit fees from non-union employees, reorganized the policy of the legislature in the preamble to the Act: "The right to work is the right to work for the State of Texas."

★ Judge John Rawlins is under no obligation to either labor or non-labor. He is a World War veteran, and a church worker. FACTS ARE SCARY

(Editorial in San Angelo Standard, July 11, 1945.)
WHETHER WE SHOULD OR should not be afraid of what the future holds has become an issue in the U. S. senatorial race in Texas. The outright demagogues of both Lyndon B. Johnson and George Peddy for

these measures brought criticism from Coke Stevenson, also a candidate, that his opponents whom he did not name) were trying on a campaign of fear. In a radio address from Abilene Thursday Mr. Stevenson refused a question he had posed indignantly: "Why do some men say we have to be afraid in the face of the world situation?"

Then he answered his own question: "They preach us a gospel of fear. What is their purpose? We are Texans and Americans. We do not have to be afraid." He added that he was not saying we should be complacent. We should be realistic without becoming hysterical, he declared.

TATE FAMILY REUNION

Mr. and Mrs. Dennis Tate and Mr. and Mrs. Milton Tate attended a three-day reunion of the Tate family which was concluded Sunday evening at the family ranch home on the Concho River, 16 miles northwest of San Angelo.

In attendance from Brownwood were the families of Earl Tate and T. L. Tate, George Laswell, Paul Medley and Lewis Medley.

Members of the immediate family present were Mrs. B. S. Tate, mother, of Del Rio; one daughter, Mrs. E. J. McMahan of San Angelo, and nine sons, J. W., Del Rio; O. P., Snyder; T. L., Brownwood; Luther, Water Valley; Dennis, Goldthwaite; Roy, San Angelo; Earl, Brownwood; Erton, Wichita Falls, and Ernest, Abilene. Odie Tate of El Centro, Calif., a son, was the only member of the immediate family unable to attend.

More than 300 persons, including other relatives and friends, attended the three-day event, which included a singing led by the Laswell quartet of Fort Worth, barbecue and other recreational activities.

Mrs. B. S. Tate, the honored guest, has 11 living children, 23 grandchildren, 27 great-grandchildren and four great-great-grandchildren. She is 79 years of age and a former resident of Brown County. She and her husband, the late Rev. B. S. Tate, moved from Brown County to their Concho River ranch in 1906. Mr. Tate died in February, 1939.

TEN RED ANT HILLS

College Station, July 21—Ants are not very big individually, and maybe one ant hill doesn't mean much to you. But ten red ant hills is something else.

C. O. Lawson, dairyman of Mexia, was "raising" ten red ant hills to the acre, but decided to do something about them. "The ants in ten red harvester ant hills eat as much grass as one cow," Lawson told M. H. Brown, Jr., county agent of Limestone.

Mr. Lawson had a demonstration in one of his pastures to remedy the ant situation. In April a representative from a commercial chemical company applied a chlordane solution to 30 large ant colonies.

By June, Mr. Lawson found he had completely killed three-fourths of the red ants, and weakened the remainder of the colonies to such an extent that it will take only a teaspoonful of the chlordane solution to finish off the ants completely.

"I'm going to cover my whole pasture. The treatment is so easy and so cheap to have ants eating up my grass," Lawson told County Agent Brown.

FARM LIVING STANDARD
WILL CONTINUE TO ADVANCE

American farmers are living more like "city folks" than at any time since pioneer days, says J. H. Oppenheim, president of the Farm Equipment Institute. And barring war or economic catastrophe, he predicts that the living standard of rural families—measured in goods, services and opportunities—will continue to advance toward a new high level in the next decade. Mr. Oppenheim, who is also vice president and general manager of New Idea Farm Equipment Division of Avo Manufacturing Corporation, cites figures to show that the average farmer's wartime prosperity is based on a solid foundation. "Farm income has almost tripled since the beginning of the war," he says. "Part of these earnings have been translated into more comfort and less work. That extra money has meant better houses, modern kitchens, electricity for more homes. It has meant more machinery to plow and prepare the land, to plant, cultivate, harvest and store crops. It has helped 2,500,000 fewer farmers to harvest 20,000,000 more acres today than before the war. "But perhaps it is more important that, while farm income has trebled, farm savings are more than four times what they were in 1940, and that the national farm mortgage debt has been reduced by 20 per cent in the same period."

DIMINISHING MARGIN

The retail stores of the United States are constantly operating more efficiently—and are constantly fighting the expense problem in order to hold down prices to encourage trade. And their unit sales profits have been decreasing. That is the gist of a report by Professor Malcolm McNair, of the Harvard Graduate School of Business. He analyzed the expenses and profits of 328 like firms for the years 1947 and 1946, and found that their net profits before Federal income taxes dropped 2.4 per cent. Furthermore, his report said, in recent years all stores reporting to Harvard had shown a net profit—but in 1947 a number of stores earned no profit at all. The financial reports of typical retail organizations, including chain systems, department stores, and others, bear this out. Generally speaking, the trend has been toward a declining net profit per dollar of sales. The significance of this to the consumer is obvious. It just makes no sense to blame retailing for price inflation. Such ridiculous performances as the picketing of stores by people carrying placards demanding that prices be sharply cut at once represent an incredible misconception of the facts. No group in this country has done more or is continuing to do more to fight price increases than the retailers. No group better understands the depressing effect on business of pricing consumers out of the market. Instead of being the scapegoats of consumer anger, retailers should be given the great credit they deserve. Without their work, prices of all kinds would be far higher than they are now.

DON'T TAKE A CHANCE
The National Board of Fire Underwriters has issued a timely warning concerning fire hazards that are especially great during summer and early fall. The fire rate in vacation cottages and resort hotels runs high—due almost entirely to simple carelessness. Many summer homes are far from fire departments, and once a fire gets going, a total loss often results. The only defense is constant watchfulness. Don't overload electric circuits with extra appliances. Don't use refrigerators and similar equipment which have been out of service for months without oiling them. And—above all—see that stoves and pipes are all protected from woodwork, and that fireplaces are screened. The best part of a vacation is getting out of doors. But, in time, there won't be any enticing out of doors to visit if we fail to control fire. Watch your smoking materials. And never leave a campfire until it has been thoroughly smothered with water and damp earth. In short, don't take a chance. Then you'll have a happy, healthful vacation—and so will everyone else.

Jonathan, Loyal Friend

Lesson for July 25, 1948

WELL might we term this a lesson on the facets of friendship. Rarely will one come upon such a splendid example of friendship in all literature. Coleridge put it well when he wrote, "Friendship is a sheltering tree." Diogenes Laertius, writing on Aristotle, says, "He was once asked what a friend is, and his answer was, 'One soul abiding in two bodies.'" Such was the friendship of Jonathan and David—a sheltering tree—one soul abiding in two bodies. Although Jonathan's father attempted, at least ten times to kill David, Jonathan was drawn the closer to David, with whose soul his was knit. The record of this friendship is found in our scripture and devotional readings for the lesson, with the golden text from Proverbs 17:17, "A friend loveth at all times."

JONATHAN STANDS UP FOR HIS FRIEND

WHEN Saul openly plotted the death of David, Jonathan begged his father to reconsider his course and spare the life of the man who had killed Goliath and had proved himself the valiant friend of Saul. This was the final test of Jonathan's sacrificial love for David. He might have remained silent, thus aiding in the death of the one man who stood between him and the throne. But Jonathan was made of the stout texture which counts no sacrifice too dear for a friend. He was willing to stand up and be counted when it meant that he would not become king. Thus we see that true friendship is not always easy. It usually is very costly, but it pays big dividends in the coin of eternal wealth.

FRIENDSHIP THAT COSTS

AND like as Jonathan stood up and witnessed his lasting friendship for David, at a very great cost, so are we today summoned to this ennobling type of friendship for Christ. "Ye are my friends if ye do whatsoever I command you," he once said. Young people find it rather costly to be loyal friends of Christ today. There are many siren voices that invite young people to take the low road—social drinking, gambling devices of one sort and another, satisfaction of sensual desires. But the true friend of Christ will withstand these voices, choosing rather the high road of Christian gentlemen.

SACRIFICIAL FRIENDSHIP

"FRIENDSHIP is the loveliest flower in the garden of humanity," according to my cherished friend, Dr. Hight C. Moore. I would add this thought—true friendship flowers in the garden of humanity, but it finds its life in the Garden of God's Perfect Eden. I have not known one single friendship that has impressed me that did not stem from above. "How can two walk together except they be agreed?" And the only cement that will hold human hearts together—one soul in two bodies—is the grace of God. "Friendship is as God, who gives and asks no payment," said Richard Hovey, and not until the human will is yielded to the will of God, even as was the will of Jonathan, can sacrificial friendship come to flower and to harvest.

Magic Ministry

A club of ministers who use magic to illustrate religious lessons has been formed under the name of "Magi-Ministers." Most of the members practice amateur magic. One of their favorite tricks is the passing of a handkerchief through a tube marked "Church" which changes its color from black to white, illustrating how a blackened soul may be cleansed of sin.

Lesson for July 25, 1948

Dr. Newton

Such was the friendship of Jonathan and David—a sheltering tree—one soul abiding in two bodies. Although Jonathan's father attempted, at least ten times to kill David, Jonathan was drawn the closer to David, with whose soul his was knit.

The record of this friendship is found in our scripture and devotional readings for the lesson, with the golden text from Proverbs 17:17, "A friend loveth at all times."

A PRINCE SHARES WITH A SHEPHERD

JONATHAN was the crown prince apparent. David was a shepherd boy. Saul expected to place Jonathan on the throne. God had selected David.

Jonathan would, no doubt, have made a better king than Saul, his father but he had no desire to be king when he discovered the kingly qualities in his friend, David. Not once did Jonathan ever indicate any disappointment in not becoming king.

JONATHAN STANDS UP FOR HIS FRIEND

WHEN Saul openly plotted the death of David, Jonathan begged his father to reconsider his course and spare the life of the man who had killed Goliath and had proved himself the valiant friend of Saul. This was the final test of Jonathan's sacrificial love for David. He might have remained silent, thus aiding in the death of the one man who stood between him and the throne. voters, or persons who said they were voters, were counted. Each person was asked to write his preference on a card, and to drop the card in a sealed box. When 100 voters had dropped cards in the box the box was wrapped and mailed to Evans' Austin headquarters. These boxes were opened and the results tabulated. "These polls were taken periodically for our own information," Evans continued, "and gave a true picture of the situation week by week."

Evans said his estimate of his total vote on Saturday is based on the result of these polls. The checking has revealed a steady increase in Evans' preference as expressed by voters, he said.

Evans has conducted a campaign with a platform advocating increased teacher salaries, veterans bonus, increased and permanent old age pensions, an immediate farm road construction program, a severance tax on Texas natural resources sent from the state, and other public service measures, all of which he has advocated as a member of the House of Representatives for the last 8 years.

ED MARSHALL

Ed Marshall of Yoakum, brother of Will Marshall of Goldthwaite, died at his home there on Thursday of last week. His body was brought to Goldthwaite, where funeral services were conducted by the Rev. Joseph L. Emery, pastor of the Goldthwaite Baptist Church and Rev. Dick Lowrie of the Methodist Church, at 3 p. m. last Saturday in the home of Mr. and Mrs. W. D. Marshall. Interment was in Goldthwaite Memorial cemetery.

Mr. Marshall was 78 years old, having been born in Thomastown, Miss., on November 18, 1869. He moved to Yoakum, Texas, in 1905, where he resided until death.

He was a member of the Locomotive Firemen and the Odd Fellows Lodge, and was retired from the M. K. T. Railroad.

Mr. Marshall is survived by the widow Mrs. Della Marshall; one brother, Will Marshall, of this city; two cousins and two sisters-in-law.

PIONEER PASSES

Mrs. J. M. Boler passed away at 9:00 o'clock Thursday morning, July 13, 1948, at Memorial Hospital in Brownwood.

Funeral services were held at the Indian Gap Baptist Church, 2:30 Friday afternoon. Under a bank of beautiful flowers this pioneer mother was gently laid to rest beside her husband, the late J. M. Boler, who preceded her in death ten years ago, and where many other loved ones and dear friends rest in the "Garden of Memories" on the sloping hillside near the little village of Indian Gap.

Dr. H. H. Hargrove, pastor of Coggin Avenue Baptist Church, Brownwood, spoke in tender words of the beautiful life of a loving and devoted mother. Special music was rendered by the Brooks Quartette of Bangs. Mrs. Boler would have been ninety years of age on September 9. She and her husband

were among the early pioneer families of Hamilton and Mills counties. Mrs. Boler had been a resident of Brownwood for the last twenty-nine years. Although she was born in Union, Mississippi.

She had been affiliated with the Baptist faith for seventy-five years. She was the mother of ten children, five boys and five girls. The seven surviving ones include J. Mark Boler, B. O. Boler, Alvin W. Boler of Pharr; J. B. Boler of Richland Springs; Mrs. Maude Swindle and Mrs. J. Oscar Swindle of Brownwood. Also surviving is one sister, Miss Emma Germany of Brownwood; 22 grandchildren, 32 great grandchildren, and one great grandchild. Grandsons acting as pallbearers were: Howard Hamilton, John S. Boler, Carl Boler, Edd Boler, Boler R. Swindle, and Ferrel Warren. London-Burton Funeral Home of Brownwood was in charge of the arrangements.

BYPASS THE MOISTURE THROUGH THE TOP SOIL

THE REVOLUTIONARY PLOW TO SAVE SOIL!
GRAHAM-HOEME PLOW

Works with nature in keeping vegetation and "Trash" on top to shade the land and enrich the soil from the top as nature does. Agitates and cracks the hard pan in the bottom of the furrow to permit the by-passing of moisture through the top-soil. No Side draught—nothing to grease—all lengths now available. Ask any of these GRAHAM HOEME PLOW Owners.
