One of the significant dates of the Christian year, and one that sincere Christians observe with self-searching, spiritual helpfulness, is Good Friday. Gromatzky of Priddy, Mills County, representative from the 104th representative district, are both for the soil conservation bills soon to come up, Senate Bill 18 and House Bill 97, which would appropriate ten million dollars to be used by Soil Conservation Districts over the state in purchasing machinery to rent at a low cost to individual soil conservationists.

They have both written The Eagle to this effect this week, thanking this paper for publicity given the bill.

Mr. Roach has 7,700 acres leased in the northern and northeastern part of Mills County. He has also taken around 15,000 acres leases in the eastern part of Mills County, between the Center City and Caradon communities at \$1 per acre bonus. This is the first cash bonus to ever be paid by oil operators for Mills County oil leases.

## City Council Orders Bond Election To Increase Water Supply Here

At a recent meeting of the City Council it was unanimously decided to submit a proposal to the voters of Goldthwaite whereby the council will be given the power to issue bonds to cover the costs of developing additional water supply and make other improvements to water system, such as reservoir repair, main extension, mechanical chlorination and purchase additional pumps if necessary.

Present water supply is adequate for winter but, we are always faced with shortage in summer. Use of water in Goldthwaite has increased three hundred percent since 1940 and the experience of some other towns in this vicinity serves as warning that it does not pay to wait too long on future development.

From test hole experience of three years ago it was proven that additional wells must be drilled outside the city limits and will be north and east of town. It is planned that in event wells are developed that they be located one half mile northeast of present city well on highway 84.

Many improvements are needed and funds are not available for all of them. Your City Council thinks that ample water supply is most important. Your decision at the polls will govern their action.

The election is to be held next Tuesday, April 12.

## PEG TOWN

Mills County was created and organized in 1887 from parts of Brown, Comanche, Hamilton, and Lampasas counties with the Colorado River for the Western and South-western boundary. Named in honor of Judge John T. Mills, lawyer who was a District Judge during the Republic. The next job was to select a County Seat, for which a special election was called. There were three contestants for the place: Goldthwaite, Mullin and a new town site called Peg Town. Peg Town was located about one mile west of the Brown's Creek (Bozar) crossing south of the Mullin road. The Gulf, Colorado and Santa Fe Railroad forming the northern boundary. In order to promote the selection of Peg Town for the County Seat, the people of the community put on a big county-wide barbecue. The day was ideal and men, women and children came from all parts of the county in hacks, buggies, wagons, horseback and some even walked. The barbecue was a perfect success with speeches and all the trimmings—no fights. As a climax, about breaking up time, a train stopped for passengers to Goldthwaite. It looked like every kid as well as lots of grown-ups got aboard. Quite a treat. The election came off as ordered—Goldthwaite leading by a good majority, Mullin second, and Peg Town third. So, Peg Town died a-borning, to the great disappointment of its promoters. —ROG.

### McCULLOUGH SOWS GRASS SEEDS

W. P. McCullough has scattered 690 pounds of Bluestem mixture seed over 100 acres of bulldozed brush land on his ranch 8 miles north of Goldthwaite. Mr. McCullough is removing the dead wood from the ten-acre seed plot and has seeded 3 more acres of Sideoats grama and 1 acre of Indian grass. He has 3 acres of King Ranch Bluestem and 1 acre of Sideoats grama already established and is making plans to harvest the seed from these plots this summer.

On this ranch Mr. McCullough has conducted trial plantings of various grasses under the supervision of the Soil Conservation Service. The first planting was made in 1943 and other plantings were made in 1944 and 1945. Two grasses have been outstanding—Sideoats grama and King Ranch Bluestem. Both grasses have spread from seeds and each one has

maintained a fair stand under heavy grazing. Mr. McCullough plans to harvest the Sideoats and K. R. Bluestem twice each year and will reseed the remainder of his ranch.

Mr. McCullough is trying a stalk cutter and a drag on small brush to see if the brush can be controlled while the grass is getting started. The stalk cutter will also aid in getting the grass seeds in contact with the soil. Mr. McCullough will defer the pasture where the grass seed was scattered in order to permit the young grass plants to gain in vigor and make seed.

On the seed plots, Mr. McCullough has demonstrated what can be done on a brush pasture. The grass seed was scattered in the brush soon after it was bulldozed. By heavy grazing during short periods, the brush was controlled and the grass was allowed to grow and seed. Now, the grass is well established and will furnish considerable grazing.

The young ladies spoke on various phases concerning "What Would Make Our Town a Better Town to Live In?" With Miss Williford as panel leader. Miss Geeslin spoke first on a Community Health Center. Miss Steen gave her findings on a Youth Community Center. Miss Wilkins spoke on Street Cleaning and a Recreation Park.

Miss Elma Fouse gave "Mother, I've Got A Job" followed by Mrs. Jack Reid who spoke on "Conserve Our Life to Conserve

Our Nation," and "The Home. The Practical Laboratory." Mrs. Oran Carothers closed the program with "Just For Fun."

The club was called to order again with the motion being carried out to start a movement to secure a Youth Community Center.

The Saint Patrick theme was carried out in a delicious refreshment plate, which was served to club members and the following guests, Mmes. Hubert Geeslin, Glenn Geeslin, Ercher McCasland, Walter Doggett and Mrs. Brown.

## CLYDE WEATHERBY OUTSTANDING CITIZEN OF HAMILTON

The Hamilton Herald-News is printing a writeup each week of its leading citizens. They are being written by Frankie Golightly under the heading "Personalities." Last week's issue carried the following writeup of Clyde Weatherby, formerly of Goldthwaite but now of Hamilton. He is the son of Mr. and Mrs. Walter Weatherby of Goldthwaite, and Mrs. Clyde Weatherby is the former Greta Little, daughter of the late Mr. and Mrs. Jon Little. Both are graduates of the Goldthwaite High School and of the University of Texas.

Miss Golightly's article reads: Clyde Weatherby is one of the most useful men in Hamilton. The reason he is so useful is because he is so generous. The two go together.

If there is ever a movement which requires money, the committeemen first call on Clyde, because they know he will head the list with his money if the cause be worthy or something for the betterment of his town and community. It was Publius Mimus who said, "He gives twice who gives quickly."

Being one of the most loyal supporters of his church, he has always believed that he will be blessed if he gives the most that he has. He has also done many acts of kindness for his pastors, many of which were to further their work in the Great Cause.

One of Clyde's most admirable traits is his generosity toward his family. His greatest joy is to supply for their wants and their comforts. At Christmas time is when he gets his biggest thrill when he purchases his gifts and the tree is surrounded with big and little packages which go to make a perfect setting for a perfect Christmas.

Clyde is a person who is always doing things. He gets restless when things are lagging. He likes progressiveness in his town, and spends a lot of time in figuring out something to

make it a better place in which to live.

His ideas are positive ones, and he knows at all times what he wants to do and does it. He recalls one time when he thinks he should have discussed his plans before actually doing them. It was when he was a student of the State University at Austin. Airplanes were very few and a passenger was considered daring if he took a ride in one, and the price of a ticket to any point was an immense sum. Clyde was young and Clyde was daring and he decided he wanted to see a football game in the Eastern part of the United States, so he chartered a plane, took the trip, saw the game and back to school. When his father learned of the bold adventure, a threat came that he

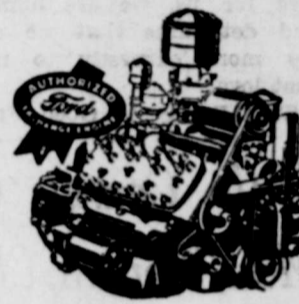

would be taken out of an act of this kind was again attempted. This was forgotten and other permitted, which furthered him to carry out some of his ideas and plans. I could name many other traits of character that to Clyde, but one of the for my liking him is his friendly manner, his kindness, and his loyalty love for his family and —Hamilton Herald News

### STORY OF BOYS RANCH BRINGS THRILLING ACTION

Soberingly realistic in its impact, "Bad Boy," which opens at the Melba Theatre Saturday night pre-vee, Sunday and Monday, brings to the screen one of the most dramatic stories ever told by the cinema.

Brash and bold in its storyline, the Paul Short production for Allied Artists gets off to a thrilling start and maintains its breath-taking pace throughout the production.

A star-studded cast has much to do with the picture's excellence. Starring Lloyd Nolan, Jane Wyatt, Audie Murphy, James Gleason, Martha Vickers and Stanley Clements, "Bad Boy" is the true story of incidents at the Boys' Ranch at Copperas Cove, Texas, maintained by Varsity Clubs, International. This ranch, the only one of its kind, takes young criminals (not orphans or underprivileged youths) remanded to it by the courts of Texas, and tries to reconstruct their lives.

"Bad Boy" is the story of one of these criminals who nearly destroyed the ranch and its moral before Lloyd Nolan (as ranch superintendent) could discover the cause of his warped life.

### GIRL SCOUTS REGIONAL MEETING

The annual meeting of "Heart of Texas Area" in Girl Scouting, which met in Brownwood Hotel March 31, was well attended.

There are 24 towns in this new area and 19 were represented last Thursday night. In the afternoon there were 75 registered delegates. Mr. Charley Wilson of Coleman was elected its new president. He has been working diligently in Scouting for the past two years, helping in this new area and everyone believes he understands our area problems and will make an excellent president. Over one hundred attended the banquet in the Gold Room that night.

Troop 7 of Girl Scouts in Brownwood presented a program and Mr. Jim Ferguson, the outgoing president, made an excellent talk on the influence of Scouting in a community.

A picture was shown in color of our established Girl Scout Camp—Camp Rotary at Mineral Wells. Every delegate was encouraged to start talking "Camping" for this summer. The Flyers will be out in May about our camp and will be sent to every parent.

In Mr. Ferguson's talk, he stressed the importance of the local council, including one from all clubs, P-T. A. and Church organizations on the council. He said Scouting is for your community at large and not for a few.

Miss Bobbie Wash, our Area Executive, gave some most encouraging reports from our area for the past year.

Our Heart of Texas Area had advanced to the position of 2nd place in our Region, which is Region IX, and covers a vast territory, and Region IX holds 3rd place in the national organization. These with many other gratifying reports, gave proof that Scouting is going forward with or without your effort but may I say to EVERY ONE, especially leaders in our local council and community who have helped, many many thanks! to you for your efforts. You have helped to make our 4,000 Girl Scouts in our Heart of Texas area have a good time.

We hope to show the film of last Summer's Camp here soon. Our aim is for more than 4 adults to attend our next annual meeting of Heart of Texas Area and a better Scouting year for every one—or at least more youths and adults in Scouting.

MRS. FRED REYNOLDS,  
Council President.

### GIRL SCOUT COUNCIL

The Council met in regular monthly meeting at the Little House April 4 at 5 o'clock.

Mrs. Reynolds, president, presented the new charter and gave a report on the area meeting held in Brownwood March 30. She stated that Charles R. Wilson of Coleman had been elected as Area President. Area IX is 2nd in the nation in Scouting membership with over 4,000 registered Girl Scouts.

There will be a training school on Camping Leadership in Mineral Wells May 6 and 7, led by Miss Alice Nelson.

The Council is to present a film to the children of the town in the near future. It shows the Girl Scout Camp at Mineral Wells in color and some of our Scouts are shown in this picture.

Mr. and Mrs. Fulbright Mays donated \$10.00 to the Scouts to pay on the stove which is to be purchased soon.

Members of the Council for 1949-1950 are to be elected next month. Mrs. Reynolds has done a fine work with the scouts this year.

### GIRL SCOUTS— TROOP NO 5

Troop No. 5 of the Girl Scouts made a very interesting visit and inspection tour of the Goldthwaite Eagle office Tuesday afternoon. Mrs. C. M. Smith and Mrs. Hally Jernigan were co-leaders and Mrs. E. W. Shelton and Mrs. M. C. Yeager, Troop Mothers. Twila Sue Lucas was hostess for the afternoon.

**Our  
WASHINGTON  
Letter**

Oleomargarine and cherry blossoms combined to make food and fragrance top news on the Potomac last week.

Oleo was stripped of all Federal taxes by a thumping vote of 287-to-89 in the House.

It's good news for consumers who, since 1886 when President Cleveland signed the first anti-margarine measure, have paid dearly for the privilege of buying and serving this derivative of cottonseed and soybean. Twenty percent of margarine is milk.

The oleo taxes are punitive—deliberately imposed for the avowed purpose of discouraging its use. What are these taxes?

To begin with, there is a 1/4-cent tax on the uncolored oleo. There is the tax upon the manufacturer of \$600 per year. There is a tax on the wholesaler of \$480 if he handles colored oleo. There is a tax of \$200 on the wholesaler if he handles only the uncolored. The retailer pays a tax of \$48 if he handles colored oleo or \$6 if he handles only the uncolored product. In addition, there is a wide variety of State taxes.

If you operate a hospital, there is no way that you can serve colored oleo without putting yourself in the class of a manufacturer and paying a \$600 tax.

Under the bill authorized by Rep. Bob Poage of Waco, all these Federal taxes are repealed, but where oleo is served in restaurants it must be in triangles so as to distinguish it from butter.

Actually, oleo is naturally yellow because of the natural color of the ingredients. To reduce the tax burden, manufacturers have been obliged to go to the extra expense of bleaching it into a white color. But if the Poage bill becomes law, that won't be necessary any more.

The American consumers and our hard-pressed cotton growers will be winners in this long and hard-fought battle if the Poage bill becomes law. It's up to the Senate now.

**CHERRY BLOSSOM TIME**

Every year at about this time the Japanese cherry trees which form a ring around the reflecting Tidal Basin, adjacent to the Potomac explode into a myriad of blossoms almost overnight.

Due to the early Spring, it happened a week early this year—that is, a week earlier than planned by those who plan the annual Cherry Blossom festival.

This caused no little concern to the planners who ballyhooed the festival into a Nation-wide attraction, what with charming princesses from every State in the union vying for that coveted honor of being the Queen of the Cherry Blossoms. Texas was well represented by Miss Marian Sue Wilson, daughter of Congressman and Mrs. Frank Wilson, of Dallas. But a spin of a huge wheel picked the Queen, and in this game of chance Montana's Judy Queen was the lucky girl.

The festival was held on April 1, 2 and 3. Nature played a perverse trick in bringing on the blossoms ahead of man-made schedule. But they stay in bloom for less than a week; hence the concern of the planners.

Not to be outdone by Nature, the planners called in the scientists, and sure enough, out came two long-haired chemists with a spray called naphthaleneacetic acid. The expected result of this application was a blossom life of five days beyond the normal six or seven. And they claim the experiment helped.

Anyhow, an estimated half a million people viewed the short-lived glory of the cherry blossoms. They were really something to behold.

A. E. Housman, the poet, wrote his tribute to the beauty of cherry blossoms, including these lines:

**BIG VALLEY  
H. D. CLUB**

At the beginning of the year, we, as a club, resolved to try to bring some cheer into the lives of those about us, who are not so fortunate as we in getting about to do the things most women like to do. Since there are several elderly ladies living in our community, who are not able to get out and be as active as they once were, we felt we had the opportunity to do so.

On previous occasions we have given a hankie shower to Mrs. Taylor and a card shower to Mrs. Patty Cockrell who was ill, and on March 31, we honored Mrs. F. L. Hartman with a flower shower.

There were only four club members present, but there were six, who do not attend the club meetings, who came and brought gifts of flowers or shrubs and assisted in putting them out.

Their help and presence was appreciated by the club and we invite them to attend any or all of our meetings.

A rose bush, flowering jasmine, cannas, chrysanthemums, and several potted plants were put out for Mrs. Hartman. Some of the club members who were away from home, or hindered in some other way from attending sent their gift of some sort of flower.

Mrs. Hartman's daughter and granddaughter, Mrs. Dan Long and Mary Lou, happened out to visit and were present also.

Mrs. Harry Oglesby, a daughter, and Mrs. D. Hartman, a daughter-in-law, served coffee, and cake to those present.

Mrs. Hartman seemed pleased that her friends had remembered her in this way.

**Weekly Swing of Southwest Farm Markets**

Most southwest farm products brought steady to strong prices for the week despite lower trends on hogs, cattle and some feeds, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Most grains advanced during the week, although barley sold lower. Corn went up the most as No. 2 yellow sold around 3 1-2 cents higher at \$1.65 to

\$1.68 1/2 a bushel, and No. 2 white \$1.73 1/2 to \$1.77. Wheat closed Monday at \$2.41-3/4 to \$2.47-3/4 in bulk carlots at Texas common points. Sorghums brought \$2.60 to \$2.65.

Southwest egg and poultry markets showed little change for the week. Liberal supplies of eggs found fair to good demand in the southwest. Hens remained scarce at Dallas, while all poultry were in light supply at New Orleans. Demand was good for poultry in Dallas, but trading ruled slow in New Orleans.

Cotton sold 75 cents to \$1 a

bale higher for the week. Sheep and lambs sold fully steady to spoils higher for the week at southwest and midwest terminals. Receipts increased at southwest yards, but declined in the midwest. Fort Worth turned good woolled slaughter ewes at \$15, while most ewes sold from \$11 to \$12 at Oklahoma City.

Steady to weaker trends prevailed at southwest and midwest cattle markets for the week despite lighter offerings. Odd head of good cows returned \$18.50 to \$19.50 at Fort Worth, \$19 at Denver, and to

\$20 at San Antonio. Oklahoma City cleared good beef cows upward to \$18.50.

Hogs and sows suffered losses of \$1 to \$1.50 at southwest and midwest markets as offerings increased over the previous week.

Good and choice medium weight butcher hogs cleared Monday at \$19.50 at San Antonio, mostly from \$19.50 to \$20 at Fort Worth and Oklahoma City, and from \$21 to \$21.25 at Denver. Sows ranged from \$14.50 to \$16.50 in the southwest.

**TAKE YOUR FAMILY TO SUNDAY SCHOOL**

What doth it profit a parent if he accumulate vast wealth — wield great power and exercise much influence, yet lives to see a son or daughter become an economic failure or a prodigal in character?

A dear friend of mine once said to me: "I have guaranteed the security of every child I have forever. None of them can ever suffer want or poverty." He was sincere. He thought he had achieved unbounded success. He thought no storm could ever damage — nor danger threaten any child of his.

How foolish he was! He does not have a child able to manage what has been given to him. Not a single one could earn his or her own living. Each of the four drinks to excess — one is a definite alcoholic — another is on the verge of becoming one.

Today in his old age the parent, humiliated and shamed, knows that he is not a success — but a failure. Today he would do differently. Now he would teach them to know and honor God instead of creating trust funds. If he had another chance, he would show them the truths of the Bible and encourage them to worship their Saviour rather than depend alone on material wealth.

He now knows the anguish that wrenched old Isaac's heart and caused him to cry out his misery. "When a man is bereaved of his children, he is bereaved."

There is a sure way to avoid this tragedy. There is a certain way to success in the happy rearing of worth-while youth. Teach them to know and honor God. Show them the way to salvation through a resurrected Christ.

This can be done in the home and the Sunday school. Every child is proud to go to Sunday school if the parent takes him.

Every child is eager to learn of the power and glory and grace of his parents' God.

If properly taught, our children will learn to breathe with reverence the name of their "Father's God."

There is nothing more dear to any of us than our children. There is no finer thing that we can do for them than to take them to Sunday school and teach them God's Word. Therein is our finest opportunity. Thereby is their greatest happiness and blessing.

**Jester Signs Cancer Control Month Declaration**

Urging all Texans to support "the mighty effort now being made by the American Cancer Society" to defeat cancer, Governor Beauford Jester has declared April as Cancer Control Month in Texas. "A battle has been established against this formidable enemy of all humans," Jester said. "However, the tide of cancer continues to mount relentlessly throughout this state and nation. All Texans must become aware of the cancer menace, and all Texans must be reached by the cancer control methods being sponsored by the American Cancer Society." With the Governor are, from left to right, Dr. William C. Gandy, Dr. W. E. Ashburn, Mr. Fagan Dickson, Dr. W. E. Bohls, all leaders of the Texas division, American Cancer Society.

SCRIPTURE: Mark 10.  
DEVOTIONAL READING: Mark 9:33-37.

**Range of Religion**

Lesson for April 10, 1949

ONCE THERE WAS a farmer who owned a large farm. His wide acreage was divided into pastures and fields and a garden and orchards and hoglots and chickenyards and so on. But whenever any one would ask the farmer about some particular part of the farm, he would answer, "That's not my business—that's only the orchard, it isn't the farm," or "That's not the farm, that's a flock of sheep," or a rye field or whatever it might be. Of course such a farmer never lived, or if he did, he should have his head examined.

**What Does Religion Cover?**

YET THAT FARMER is not a bit more idiotic than a Christian who, when asked about this or that activity or aspect of life, answers, "That's not religion. I have no interest in it." Religion isn't a little fenced-off pasture for lambs, a tiny garden plot behind thick hedges.

Religion covers the whole farm, every bit of life from end to end. Jesus knew this very well. He never once refused to discuss anything on the ground that it was not religious.

He cast light on everything that touched him. He called his followers the "light of the world." Not flashlights, shining in one narrow beam! Not flashlights, but lamps, set on a lampstand and "giving light to all who are in the house."

**The Light Of God**

A GOOD cross-section of Jesus' methods and ideas can be seen in Mark 10, into which one chapter Mark packs his whole account of a number of weeks which Jesus spent in the region called Perea. Observe the variety of situations which confronted Jesus. First there was a question about divorce. When they brought that question up to Jesus, he did not dodge it. He did not call it a personal matter in which he, as a teacher of religion, had no interest. He did not say it was strictly a matter for the civil courts. You may read what he did say in Mark 10. You will note that first of all he brings God into his answer.

**Religion And Little Children**

THIS CHAPTER includes the famous story of the little children who were brought to Jesus—evidently quite small children, for Jesus lifted them into his arms. We do not hear Jesus saying, "Children are too small for me to take any interest in them. Wait till they are older. What good can religion do these tiny tots?" On the contrary, Jesus not only blessed them, but held them up as models for older people.

Is your church following Jesus here? Is your church interested in the little children as much as it is in the "paying" members?

Or are the little ones shoved off into some damp corner of the church basement? In your state or province, do the Christian people take an interest in the children? Do children in your section get as good attention as pure-bred cattle do?

**As Wide As Life**

THEN THERE WAS a question about eternal life. Of course Jesus answered that one, it was obviously a religious question. (Except that he gave it what some people even today would consider a not very religious answer!) Jesus went on to talk about money and the effect it has on a man's prospect of eternal life. Jesus would be the very last person to imagine that a man's bank account has nothing to do with religion. Some people to this day don't like to hear a preacher mention money in his sermons. Well, such people might have been offended by Jesus, for he often preached about money and property.

Then there was the question of ambition, the audacious request that James and John made of him. He had some strong remarks to make about that.

And finally at Jericho, not long before Palm Sunday, there was the blind beggar Bartimaeus. Jesus did not say to him, "Health is not affair of mine. I cure souls, not bodies."

**TAKE YOUR FAMILY TO SUNDAY SCHOOL**

What doth it profit a parent if he accumulate vast wealth — wield great power and exercise much influence, yet lives to see a son or daughter become an economic failure or a prodigal in character?

A dear friend of mine once said to me: "I have guaranteed the security of every child I have forever. None of them can ever suffer want or poverty." He was sincere. He thought he had achieved unbounded success. He thought no storm could ever damage — nor danger threaten any child of his.

How foolish he was! He does not have a child able to manage what has been given to him. Not a single one could earn his or her own living. Each of the four drinks to excess — one is a definite alcoholic — another is on the verge of becoming one.

Today in his old age the parent, humiliated and shamed, knows that he is not a success — but a failure. Today he would do differently. Now he would teach them to know and honor God instead of creating trust funds. If he had another chance, he would show them the truths of the Bible and encourage them to worship their Saviour rather than depend alone on material wealth.

He now knows the anguish that wrenched old Isaac's heart and caused him to cry out his misery, "When a man is bereaved of his children, he is bereaved."

There is a sure way to avoid this tragedy. There is a certain way to success in the happy rearing of worth-while youth. Teach them to know and honor God. Show them the way to salvation through a resurrected Christ.

This can be done in the home and the Sunday school. Every child is proud to go to Sunday school if the parent takes him.

Every child is eager to learn of the power and glory and grace of his parents' God.

If properly taught, our children will learn to breathe with reverence the name of their "Father's God."

There is nothing more dear to any of us than our children. There is no finer thing that we can do for them than to take them to Sunday school and teach them God's Word. Therein is our finest opportunity. Thereby is their greatest happiness and blessing.

Or are the little ones shoved off into some damp corner of the church basement? In your state or province, do the Christian people take an interest in the children? Do children in your section get as good attention as pure-bred cattle do?

**As Wide As Life**

THEN THERE WAS a question about eternal life. Of course Jesus answered that one, it was obviously a religious question. (Except that he gave it what some people even today would consider a not very religious answer!) Jesus went on to talk about money and the effect it has on a man's prospect of eternal life. Jesus would be the very last person to imagine that a man's bank account has nothing to do with religion. Some people to this day don't like to hear a preacher mention money in his sermons. Well, such people might have been offended by Jesus, for he often preached about money and property.

Then there was the question of ambition, the audacious request that James and John made of him. He had some strong remarks to make about that.

And finally at Jericho, not long before Palm Sunday, there was the blind beggar Bartimaeus. Jesus did not say to him, "Health is no affair of mine. I cure souls, not bodies."

### GOLDTHWAITE H. D. CLUB

The club met last Friday afternoon with Mrs. Leonard Cole, with twelve present and one visitor, Mrs. Ola Howell of Star, Mrs. Cole's sister.

Miss Hintz gave good suggestions on Dressing Up A Bedroom.

The business was well planned. Each one answered to roll call with "Why We Liked the Month of March." The months have been worse but we did have some real dusty windy days and nights. We meet the twelfth of this month with Mrs. Floyd Sansom, at 2:30 o'clock. Be on time. —REPORTER.

Mrs. J. M. Campbell underwent a goiter operation at the Scott and White Hospital in Temple the first of last week. She is doing nicely and is expected to come home this week.

While John Schooler was out of town on business last week Mrs. Schooler visited with relatives at Ballinger and Winters.

**FAIREST OF ALL TSCW**—Miss Joan Moore, of Robstown, senior at Texas State College for Women, was crowned Saturday, March 26, as Queen of the Redbud Court, in the final program of a week-long festival at the college.

### HILLSIDE MISSION

By LIDA BYRNE

Reports were that the coldest weather ever known to be in some sections of the United States occurred this last winter. California was a part of the country affected by the cold, and a scientist said it drifted this way from Siberia, which is one of the coldest places of the world.

Out of the south cometh the whirlwind; and cold out of the north. By the breath of God frost is given and the breadth of the waters is straitened. Also by watering he wearieth, the thick cloud. And it is turned around about by his counsels: that they may do whatsoever he commandeth them upon the face of the world in the earth. Job. 37:9, 10, 11, 12.

Are there any among the vanities of the Gentiles that can cause rain? or can the heavens give showers? Art not thou he, O Lord our God? Therefore we will wait upon thee: for thou hast made all these things, Jeremiah 14:22.

### ROSALYN CLIFTON CELEBRATES BIRTHDAY

Little Miss Rosalyn Clifton celebrated her second birthday with a party at the home of her parents, Mr. and Mrs. June Clifton on Saturday, March 26th. After playing together in their own way, individual birthday cakes and punch were served to the following children: Jimmy and

Wanda Soules, Norman Lee, Sheryl Dean Casbeer, Gary Lee Boykin, Graham Henry Wall, Sandra Joe Moore, Beverly Sue Kelso and the honoree.

Favors were little Easter baskets and the children hunted eggs to carry home in their baskets. Wanda Soules received the prize for finding the most eggs.

Rosalyn received many nice gifts and really got a thrill from opening each package.

Mothers present were: Mrs. Hugh Soules, Herman Lee, Carl Casbeer, Boots Boykin, Garth Wall, Howard Moore, and Paul Kelso. Mrs. Rex Clifton, Mrs. Walker Wigley and Mrs. Glyn Dale Shave were also present.

### STUDENTS INVITED TO HARDIN-SIMMONS

Abilene—Senior students of Goldthwaite High School are among more than 3,000 students of Texas which have been invited to the 26th annual senior day program to be held April 30 on the Hardin-Simmons University campus. The senior day is the 26th annual one. Schools within a radius of 200 miles of 200 miles of Abilene are expected to send their seniors for the day of entertainment and education.

Mr. and Mrs. Edward Eugene Palmer and Tommie Joe of Austin visited in the home of his parents, Mr. and Mrs. Joe Palmer. Mr. and Mrs. J. C. Darroch of Brownwood met them here Sunday for a visit.

### CHRISTIAN SCIENCE SERVICES

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 10.

The Golden Text is: "Bless the Lord, O my soul, and forget

not all his benefits; who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction" (Psalms 103:2-4).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Touching the Almighty, we cannot find him out; he is excellent in power, and in judg-

he will not afflict" (Job 37:23). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The jurisdiction of the world is in Mind controlling every effect and recognizing all causation as vested in divine Mind" (page 379).

**OLD MAN 100**

(Continued from front page)

**FROM JOHN B.—**  
Now, friend John Boland writes O. H. from Bay City and sends in two plunks on the Boss' music machine, that C. registers the Boss loves to play so well, and says: "Dear Old Man 100: While you are loafing in the office as usual, I wish you would figure the weight of an ear of corn for me, as I am busy and do not have the time: Last fall a man here raised an ear of corn that was so big it could not be weighed, but its shadow weighed 40 pounds. Now, from that start, figure it out and let me know at your earliest convenience." As O. H. can't figure much without his specks, which the 7th has hid, he's letting his readers figure this for John B. (O. H.'s shack out at the edge of town don't have any conveniences, anyway, and he'd like to buy that corn cob.)

**LOST DULLER—**  
O. H. has been reading about them two Scotchmen who jest come over here and started hunting for that duller that G. Washington threw across the Potomac River a long time ago and has never been found. A duller went further them days than now, otherwise when G. W. let it go it wouldn't have gotten ten feet away. Anyway, O. H. himself has been hunting for a lost duller for a long time, hasn't found it yet, and will now give it to the first of his many readers that finds it. Here's how it was lost: Old H. and two other men went in a hotel and paid \$10 each—\$30—for a single room with 3 beds in it. The clerk soon figured he had over-charged us, \$25 being the price, and gave the bellboy \$5 to take up to us.

The bellhop put two dullers in his pocket, and paid us each \$1 back. That made the room cost us \$9 apiece, or \$27 total; the bell hop's 2 dullers made \$29. Where'd the other duller go? This has been printed once here—but the Boss said if none of O. H.'s readers couldn't figure this out, then he didn't number any of the smart ones as his readers. Send in the answer and get that duller—then save your money and let nature take its course.

**FROM FRIDAY—**  
Friday (Liss) Walker writes Old Hunnert from Austin this week and says nearly everybody has got their salaries raised some but me and him, and says: "But listen, O. H., there's going to be another election and we must start to filibustering at once so that we can elect our crowd next time and then we can raise our salaries and just not have to live on that 11 dullers per week. But we must be careful that we don't get tricked like the little boy that needed 20 dollars. So he decided to write to the Lord and he wrote and asked the Lord to send the money. When the postmaster noticed the letter being somewhat out of order, he opened and read it and mailed it to Pres. Truman, thinking he might want to make the little fellow happy. So the president sent the little boy five dollars. When the little boy got the money, he wrote the Lord another letter and told him not to send any more of his mail through Washington, for they were taking out too much for taxes."

**BIG PERADES—**  
Now, everybuddy already knows about what a big flop Old Hunnert's well advertised jack-ash parade was here—they

jest wasn't enough j-ashes left around here. Well, a young business man told O. H. about another big parade that flopped, too: Another New York City advertised the biggest parade in its history. Many stores and office buildings had closed and thousands of people lined the streets for the parade of parades. It was a parade of all the virgins in New York City, but it was a big flop—one of the virgins was sick and the other didn't care to parade alone.

Here's some advice O. H. read that sounds good: Try to be nice to everyone until you have made your first million. After that they'll be nice to you.

And once, a fat lady hanging to a strap in a crowded bus stepped on Old Hunnert's foot while he was trying to read a newspaper. Old Hunnert—"Madam, will you please get off my foot?" Fat Lady—"Put your foot where it belongs." Old Hunnert—"Don't tempt me, madam. Don't tempt me."

Also, the 7th has her dog house-broken and her husband spouse-broken.

Along about this time of the year us taxpayers are longing for the good old days when all the gov't. gave away was seeds.

A young business man friend of O. H.'s told him this week he knows this happened here: Goldthwaite Student—"Teacher asked me today if I had any brothers and sisters." Mother—"What did you say?" Student—"That I was an only child." Mother—"What did she say?" Student—"Thank heaven!"

Rev.—"And how did you enjoy the service, my little man?" Small Boy—"The music was swell, reverend, but if you don't mind my saying so, I thought your commercial was a little too long."

**THEM DUELS—**  
Now, times has changed some since O. H. was a young sprout. Nowadays all a youngster has to do to be popular is to have a bunch of silly girl friends. It used to be us youngsters had to show some tough qualities to rate at all with them early-day femmes. Jest to show you youngsters how tough O. H. uster be he prints this: A long time ago when Goldthwaite had them five saloons and O. H. was very small, very short, and he thought very tough, along come a big fat man that insulted O. H. in one of 'em. As the bar-keeps in them days had a iron-clad rule that they didn't want to wash blood off their floors, O. H. asked the big fat man to come out on a vacant lot in back and meet him with pistols. Jest before the duel began, the fat man protested: "I offer a lot bigger target than he does." Whereupon, Old Hunnert, allus on the square, whispered to his second. The second, producing a piece of chalk, drew two lines down the fat man's front, and announced: "If he hits you outside those lines it don't count."

And when O. H. told the youngster: "I'll never forget when I killed my first Indian," the boy asked: "Did you shoot him?" O. H.—"No." "Did you kill him with your knife in hand-to-hand fight?" O. H.—"No, sonny, I ran him to death—yep, ran him to death, with me in front."

Old Hunnert notices he's being slowed down some here lately by the 7th, although she says it's old age. Uster be, 6, 7 year ago, O. H. was so quick-witted and agile that when his specks slipped off his nose here in the Eagle Office he'd jest reach down and scoop 'em up before they hit the concrete floor. As stated, he's slowed down some now.
