## Water Shortage Here To Continue Until New Well Is Completed

The water shortage that surprised most of the citizenship last week is expected to continue throughout the summer unless we refrain from watering gardens and lawns, at least to some degree. The water system is in good condition and no shut downs have occurred. We are pumping 185,000 gallons each day, which is not enough to supply the recent demand. Every effort will be made to keep your supply continuous and your cooperation toward this end will be greatly appreciated by your neighbors, especially those on the high places whose service is affected most.

The situation is not critical and with a little discretion we will get through the summer. We hope to have a new well with added capacity for you by the middle of August. Until that time we will do our best for you. We appreciate your courteous inquiries into the situation and solicit your usual co-operation.

Sincerely,  
W. C. BARNETT,  
City Utilities.

CITY WATER WELL CONSTRUCTION UNDERWAY  
Drilling started last week on a new water well for city supply. The contractors (Layne Texas Co. of Dallas and Hous-

ton) have all casing and material on the site to complete the job. This new well is located one half mile northeast of the present well on Highway 84 north of town, on the R. L. Mills farm. Drilling is expected to be completed in about ten days. The well will be acidized, cleaned and tested by contractors. Even though all speed is being made the well is not expected to be connected to the system in time to relieve the shortage this summer.

## MRS. FLO WILKE ELECTED TO NAT'L. ANGUS ASSOCIATION

Mrs. Flo Wilke of the Wilke Shady Oak Ranch of Goldthwaite, Texas, has been elected to membership in the American Aberdeen-Angus Breeders' Association at Chicago, announces Secretary Frank Richards. Mrs. Wilke was one of ten purebred Aberdeen-Angus breeders from Texas elected during the past month to membership in the organization.

Beryl Roberts of San Antonio made a short visit Sunday afternoon with his grandmother, Mrs. Eula Nickols.

## FORMER LOCAL BOY GETS APPOINTMENT

NOLAN HORTON, JR.  
Above is a picture of Nolan Horton Jr. who graduated from the Ponca City, Oklahoma high school on the second of June, and has made good in all his undertakings.

Nolan Jr. has received an appointment to serve in the army at Fort Sill (Lawton), Oklahoma as he joined the reserve corp, with that understanding and received his orders this week, but plans to enter Oklahoma Junior College at Tonkawa at the fall term.

His parents are well known at Goldthwaite, both Nolan Horton Sr. and wife, who was Laura Featherstone, graduated from Goldthwaite high on the 9th of June, 1924.

We wish for Nolan Jr. the very best in life and know that he will climb to the high places.

## City Trucks To Haul Refuse, Trash All Next Week In City-Wide Cleanup

### MAYOR PROCLAIMS CLEAN-UP WEEK HERE

WHEREAS, Goldthwaite has always been known as one of the prettiest, cleanest and healthiest little cities in this section of Texas; and

WHEREAS, outbreaks of disease in epidemic form have occurred and are occurring in cities and towns in this vicinity, as well as other sections of the State; and,

WHEREAS, an intensive clean-up and fight against disease-bearing insects is now being waged in towns and cities all over Texas;

THEREFORE, I, Loy Long, Mayor of the City of Goldthwaite, Texas, hereby proclaim

next week—June 13 to 18—as Clean-Up Week for this City, and ask all the citizens to join in the fight to keep Goldthwaite the cleanest and healthiest little city in Texas.

LOY LONG, Mayor, City of Goldthwaite.

## SPECIAL FATHERS' SERVICE SUNDAY AT CHURCH OF NAZARENE

At the Church of the Nazarene there will be a Special Service in Honor of our Fathers Sunday morning. Special Songs and readings will be given by the Young People, and the Pastor will speak from the subject, "Our Fathers, the Foundation of America." All fathers are invited to come and be with us.

## VACATION BIBLE SCHOOL AT BAPTIST CHURCH JUNE 13-17

The pastor and members of the local Baptist church extend to each and every boy and girl of Mullin and surrounding communities a cordial invitation to attend the Vacation Bible School sponsored by their church from June 13th through the 17th.

This school is in its attitude interdenominational and will seek primarily to instill in our boys and girls reverence and love for God, and His Son, our Saviour, through study of the Bible, memorizing of the scriptures, music, and prayer. A highlight of the school will be the way the children are taught handwork. Recreation and refreshments will be an added feature of this school. The teachers are all consecrated Christians who have volunteered their services for these days. At the conclusion of the school on Friday night, June 17, there will be a commencement exercise at which time the pupils will receive an attractive diploma.

Parents are urged to encourage this school by sending their children who are between the ages of 4 and 16 that they may derive the benefit therefrom. The hours are from 8:30 A. M. until 11:30 A. M.

Mr. and Mrs. O. H. Yarborough and Mrs. J. C. Mullin left for Van Wert, Ohio, Tuesday morning for a visit with relatives and friends.

## The City of Goldthwaite is sponsoring a City-Wide Clean-Up Campaign to begin next Monday and last all through the next week.

City trucks will begin Monday hauling trash, cans, garbage and any other refuse from citizen's property. You are urged to clean up your premises and place refuse in alleys and streets where city trucks can pick it up.

Due to the large increase in polio incidence in this section this summer, it is imperative that Goldthwaite people clean up their premises in order to kill out insects that carry disease before an epidemic hits the city. This rainy spring was ideal for breeding of flies, mosquitoes and gnats which carry disease.

The Goldthwaite Lions Club and the Junior Chamber of Commerce are behind the Clean-Up Campaign, and are working out plans now with the City Council to have the city sprayed after the clean-up.

City-County Health Officer Dr. Ruel Slaughter advised owners of open toilets to either spray with 10-per cent DDT or use lime—at least twice a month. This is more important than any other part of the Clean-Up drive, he says.

## GIRLS SOFTBALL TEAM PLAYS MULLIN

The Goldthwaite Girls' Softball team was scheduled to play the Mullin girls' team at Mullin last night. Manager R. C. McCullum said yesterday. On Thursday night week, June 16, the Mullin team will play a return engagement at the Municipal Ball Park here.

Mullin is said to have a fast team, having been a Brownwood girls' team recently. The Goldthwaite girls have played the Lometa team two games, the first at Lometa resulting in a score of 18 to 14 in favor of Goldthwaite, and the second game played here last Thursday night resulting in a 11-to-11 tie.

## MAN FINED \$500 AND COSTS, GIVEN 30 DAYS ON LIQUOR CHARGE

Cotton Humphries was picked up about 11 o'clock Wednesday night just this side of the Colorado River bridge on the San-Saba Highway by Mills County Sheriff Wiley L. Mahan, who confiscated eight cases of whiskey and two cases of gin, and filed charges against him in County Court Thursday morning for illegal transportation of intoxicating liquors.

He pled guilty in County Court Thursday morning before County Judge Lewis Porter and was fined \$500 and costs and given 30 days sentence in the Mills County jail.

The ten cases, valued at about \$500, will be turned over to the Texas Liquor Control Board for disposal in the usual manner after the case here is finally disposed of.

Sheriff Mahan said he and his son, Ellis Mahan, who is with the State Highway Patrol stationed at New Braunfels and who was visiting his parents here, were riding around Wednesday night when they made the discovery of the liquor.

Tom Brannon pled guilty in County Court on Friday of last week to an illegal possession count and was fined \$100 and costs.

# Rep. Chambers Of May Wants Texas Gas 'Dedication' Stopped

**HCR-18 By Chambers**  
 In the newspapers of Thursday, May 19th, there appeared a story stating that the Coastal Pipeline Company was going to file an application before the Federal Power Commission to build a 30-inch pipeline 1,000 miles long from Texas to Virginia. The same story mentioned the Piedmont Pipeline Company that also is applying for a certificate to build a big-inch pipeline to North Carolina.

Texas may be sure that both of them will be built, as the Texas Railroad Commission never opposes these applications. A few weeks earlier I noticed that the Gulf Coast Northern Pipeline Company was going to build the biggest big-inch, a 34-inch line to Chicago. Last month the Federal Power Commission granted permits to the Texas Gas Transmission Company to build a 26-inch pipeline to the North-East, and another to the Truckline Gas Company to build a line of the same size to Iowa.

The Tennessee Gas Transmission Company is going to double its capacity and increase its take to more than a billion feet a day, and so is the Texas Eastern Gas Transmission Company and the El Paso Natural Gas Company.

The Transcontinental, not yet complete, is planning to increase its capacity by a couple of hundred million feet per day. The total capacity of these new lines and of the increase in existing systems will be nearly our billion feet a day. The gas that goes to the new pipelines will come from wells and fields 'dedicated' to them by contract, and they 'dedicate' enough gas to last the pipeline for at least 20 years. There is great significance to Texas in the dedication of our state's gas reserves. Recently, in the Supreme Court, in the oral argument of the Federal Power

Commission Vs. Panhandle Eastern Pipeline Co., the question came up as to who would get gas, which in this case was Kansas gas, when there wasn't enough for both Kansas and the out-of-state users. The answer was that the gas 'dedicated' to the interstate pipeline, being in interstate commerce, would get preference. This caused Mr. Justice Jackson to observe that the gas producing state might be worse off than the state which gets its gas from a distant state whose reserves are dedicated to the interstate pipelines.

Many may ponder the soundness of the law and the wisdom of the authors of the Tenth Amendment. There is little doubt as to who will get the last gas from Texas. It will be the pipelines that we permitted to secure the dedication while we sat idly by.

Texas industries will be burning wood while people in Philadelphia and Detroit are frying eggs or warming their feet with Texas gas.

The problem is serious, but it can be solved. The Senate of the State of Texas has before it a resolution, HCR-18, that I introduced, directing the Texas Railroad Commission to appear before the Federal Power Commission and oppose the granting of these permits. If this resolution is passed, we can expect to see these permits denied instead of approved, and we can look forward to Texas future with less fear of dying cities and decaying industries.

If this Resolution is not adopted this session, we may expect Texas to become an industrial wilderness. For when we have to buy our gas from the coal produced gas of Pennsylvania, we won't be able to compete with industry in the coal-rich states of the North-East.

If enough people will write asking their Senators to support the House Concurrent Resolu-

### OLD MAN 100

(Continued from Front Page)

would show. It was plenty—but the fust time O. H. ever heard it called Burles-q. The 7th come in hunting him jest then.—The End.

**WHY EDITORS LEAVE TOWN—**  
 Now, friend J. F. A. Manuel of Caradan brought in to Old Hunnert this week a news item that he clipped out of the Galveston Semi-Weekly News about 50 years ago—and said this jest about fit O. H. Here's the piece: Somebody sent the editor of the Poketown Gazette a few bottles of home brew. The same day he received for publication a wedding announcement and notice of an auction sale. In them days editors set most of their own type, and here's how the piece come out: "Wm. Smith and Miss Lucy Anderson were disposed of at public auction at my farm one mile east of a beautiful cluster of roses on her breast and two white calves, before a background of farm implements too numerous to mention in the presence of about seventy guests, including two milch cows, six mules and one sled. Rev. Jackson tied the nuptial knot with 20 feet of hay rope and the bridal couple left on one good gang plow for an extended trip with terms to suit purchasers. They will be at home to their friends with one good baby buggy and a few kitchen utensils after ten months from date of sale to respectable parties and some 50 chickens."

**MADE WRONG—**  
 As afore writ, Old Hunnert can't see where Mother Nature did sech a hot job on his anatomy—if she'd made him right he would be as sleepy when it is time to go to bed as he is when it is time to get up. Also, she should have put some kinda cog in his brain (maybe brains) so's he could remember where he parked his car the last time.

Onct, between the 3rd and 4th, or 4th and 5th, summers, Old Hunnert got matrimonally inclined agin. So he did what every smart man should do—put an ad in the paper. His'n read: "Farmer, age 74, wishes to meet girl around 30 years old who owns tractor. Please enclose picture of tractor." And, by gum, she worked.

Once here when a Jew store burned up, the Boss told o. h. to get the story. He asked the owner what caused the fire, and the owner said "Friction." The mortgage rubbed too hard against the insurance policy.

Fan Mail—A man writes in to o. h. as per follows: "Dear O. S. (he should'a made it o. h.), I am 69 1/2, have \$100,000 and plan to marry a girl of 18. Do you think she can really care for me?" Answer—Certainly; there are 100,000 reasons why she can care.

Nowadays it's easier to find a better half than better quarters. And, in the good old days a man could be down to his last

buck and still know where his last three meals were coming from.

"Mother, who is my nearest relative?" "I am, dear—and your father is the closest."

And jest this week when O. H. was getting his hair cut for 1949, he remarked to the barber: "Your dog seems very fond of watching you cut hair." Barber: "It ain't that. I sometimes snip off a bit of the customer's ear."

Old Hun—"Doc, I snore so loud that I wake myself up." Doc—"In that case I would advise sleeping in another room."

Then there was the absent-minded professor who sat down at the breakfast table, poured milk on his head and scratched his cornflakes.

**NEW INVENTIONS—**  
 Old Hunnert has been working on two new inventions that when perfected oughter make him friends and make it easier for him to influence people. Here's what happened: Some of his husband friends jest before spring, knowing their wives would ask them to help with spring housecleaning, wanted o. h. to invent something to make the day-by-day spring housecleaning easier—especially for them husbands. O. H. thought all spring without any results, and now that summer's here and if them husbands can remember this to next year, here something that'll help them: To make spring day-by-day housecleaning easier, jest put it off until tomorrow, day-by-day. Here's another new invention,

that oughter make o. h. some: More about this ain't working good yet.

Now the bathing business, O. H. has been figuring and believes that making in a skimpy bathing suit n't show good judgment almost everything that a gal doesn't want her heart to a guy—doesn't want him to be for it.

Onct the 7th got to be her sleep—so Old Hunnert her home to mutter.

Jest because the 7th ing all the time, it do she's an angel.

A good way to widen straight'n narrow pants more people to walk on Floridian (picking up on)—"Is this the largest you can grow in your California?"—"Stop at that grape."

If you need a lasting your car, a good way to try to beat a train is running.

Here's a repeat: Don't mess without advertising winking at a girl in you know what you're doing no one else does.

A rancher was here this week that that the undercover lists in these USeS don't country ain't true and they loved it jest Spot loves rabbits. June is the month a groom loses his doma.

LOY LONG, Mayor,  
City of Goldthwaite.

### The City of Goldthwaite is sponsoring a City-Wide Clean-Up Campaign to begin next Monday and last all through the next week.

City trucks will begin Monday hauling trash, cans, garbage and any other refuse from citizen's property. You are urged to clean up your premises and place refuse in alleys and streets where city trucks can pick it up.

Due to the large increase in polio incidence in this section this summer, it is imperative that Goldthwaite people clean up their premises in order to kill out insects that carry disease before an epidemic hits the city. This rainy spring was ideal for breeding of flies, mosquitoes and gnats which carry disease.

The Goldthwaite Lions Club and the Junior Chamber of Commerce are behind the Clean-Up Campaign, and are working out plans now with the City Council to have the city sprayed after the clean-up.

City-County Health Officer Dr. Ruel Slaughter advised owners of open toilets to either spray with 10-per cent DDT or use lime—at least twice a month. This is more important than any other part of the Clean-Up drive, he says.

## VACATION BIBLE SCHOOL AT BAPTIST CHURCH JUNE 13-17

The pastor and members of the local Baptist church extend to each and every boy and girl of Mullin and surrounding communities a cordial invitation to attend the Vacation Bible School sponsored by their church from June 13th through the 17th.

This school is in its attitude interdenominational and will seek primarily to instill in our boys and girls reverence and love for God, and His Son, our Saviour, through study of the Bible, memorizing of the scriptures, music, and prayer. A highlight of the school will be the way the children are taught handwork. Recreation and refreshments will be an added feature of this school. The teachers are all consecrated Christians who have volunteered their services for these days. At the conclusion of the school on Friday night, June 17, there will be a commencement exercise at which time the pupils will receive an attractive diploma.

Parents are urged to encourage this school by sending their children who are between the ages of 4 and 16 that they may derive the benefit therefrom. The hours are from 8:30 A. M. until 11:30 A. M.

## GIRLS SOFTBALL TEAM PLAYS MULLIN

The Goldthwaite Girls' Softball team was scheduled to play the Mullin girls' team at Mullin last night. Manager R. C. McCullum said yesterday. On Thursday night week, June 16, the Mullin team will play a return engagement at the Municipal Ball Park here.

Mullin is said to have a fast team, having been a Brownwood girls' team recently.

The Goldthwaite girls have played the Lometa team two games, the first at Lometa resulting in a score of 18 to 14 in favor of Goldthwaite, and the second game played here last Thursday night resulting in a 11-to-11 tie.

## MAN FINED \$500 AND COSTS, GIVEN 30 DAYS ON LIQUOR CHARGE

Cotton Humphries was picked up about 11 o'clock Wednesday night just this side of the Colorado River bridge on the San-Saba Highway by Mills County Sheriff Wiley L. Mahan, who confiscated eight cases of whiskey and two cases of gin, and filed charges against him in County Court Thursday morning for illegal transportation of intoxicating liquors.

He pled guilty in County Court Thursday morning before County Judge Lewis Porter and was fined \$500 and costs and given 30 days sentence in the Mill: County jail.

The ten cases, valued at about \$500, will be turned over to the Texas Liquor Control Board for disposal in the usual manner after the case here is finally disposed of.

Sheriff Mahan said he and his son, Ellis Mahan, who is with the State Highway Patrol stationed at New Braunfels and who was visiting his parents here, were riding around Wednesday night when they made the discovery of the liquor.

Tom Brannon pled guilty in County Court on Friday of last week to an illegal possession count and was fined \$100 and costs.

Mr. and Mrs. O. H. Yarborough and Mrs. J. C. Mullin left for Van Wert, Ohio, Tuesday morning for a visit with relatives and friends.

By LIDA BYRNE  
A preacher said there were two brothers; one an unscrupulous lawyer and the other a preacher. The lawyer was making what was called a financial success. The preacher was not putting things over with his congregation and in his work in general. The preacher said to his

brother, the lawyer: "Why is it that you have made a success and I haven't? The lawyer said: "I can take a lie and make it sound like the truth. You take the truth and tell it like it was a lie."

## Annual Session For Texas Legislature Needed - With No Pay Raise

By JOE BELDEN  
Director, The Texas Poll  
Austin, June 7.—A large majority of Texas voters believes the Legislature should hold annual sessions, according to the latest statewide survey by The Texas Poll.

The poll shows, however, that almost half of the voters think the lawmakers now have a regular session every year. Only two out of every ten realize that regular sessions come once every two years.

Qualified voters, as a group, are only slightly better informed than the general adult public.

These findings are based on a survey in which the following questions were put to a cross section of the adult population:

"Do you happen to know whether the Texas Legislature meets in regular session every year, every two years, every three years, or how often?"

	Qualified Voters	All Adults
Every year	49%	43%
Every two years	22	20
Other answers	2	2
Don't know	27	35

"Do you think the Texas Legislature should meet in regular session every year, or is that too often?"

	Qualified Voters	All Adults
Should meet every year	81%	73%
Every year too often	8	7
No opinion	11	20

Sixty-nine percent of those who knew that regular sessions are now held every other year said they favored annual sessions for the Legislature.

Texas will vote September 24 on a proposed constitutional amendment requiring the Legislature to meet every year. The amendment also raises the pay of lawmakers to \$3,600 a year.

While voters favor annual sessions, they are inclined to oppose a pay raise for legislators. In a special election four years ago, a pay-raise amendment was defeated three to one. The latest survey by the Texas Poll discloses that only two out of every ten voters believe members of the Legislature are underpaid. A large majority admitted, however, they did not know how much a legislator is paid.

Recent visitors in the home of Mr. and Mrs. Luther Roach were: Mrs. Emmet Cornealus and baby; Mrs. O. B. Coleman, Donalou and Bonney Fay of Lometa, Etoile Watson, husband and baby of Albuquerque, New Mexico, Mr. and Mrs. Mark Trotter, and Mr. and Mrs. Joe Bayless. Little Gloria Roach went home with the Watsons for a visit.

WITH LAYNE BEATY

WBAP FORT WORTH

Well the annual squeeze is on. Texas has seen its wheat piled on the grounds too many times lately. This year there is considerable difference of opinion as to why much of the terminal facilities are filled with old crop grain sorghum and small grain. The grain trade blames the government. Some farmers, including the Texas Farm Bureau Federation have said that the grain trade is holding back storage in order to keep grain farmers from putting their crop into government loan storage at the loan rate, which is more than the current market price.

Farmers who can get storage, or who have storage on their own farms, are the most fortunate. We have suggested more farm storage facilities for such emergencies as this. When such shelter isn't needed to store crops, it could protect farm machinery from the weather, and that's a good idea, too.

Meanwhile, a lot of our small grain crop is going to be put on the ground this summer, looks like.

You can pronounce "Madrid" clover any way you want to. That's your privilege. But the seed was brought to this country in 1903 from the botanical gardens at Madrid, Spain, thus getting its name from the Spanish capital.

Incidentally, legume acreage in the United States ranks like this: first, alfalfa; second, red clover; third, sweet clover.

George McCamey, near Frisco, is just one of thousands of cotton farmers who have lost valuable seed, time and crops this year because of excess dampness. "Damping off" is one of the impediments to cotton growing, but if you see it coming in time, you may be able to cultivate it out. Otherwise, replanting is the only known remedy.

The state seed certification forces have been handed such a job to do that they now must use airplanes to check on the detassling of seed hybrid corn being produced in a number of counties in Texas. One inspector on the ground and another in an airplane can check a lot of

### Simpson-Knight Vows Solemnized

Mr. and Mrs. Walter Simpson have announced the marriage of their daughter, Earline, to Maurice Knight, son of Mr. and Mrs. Will Knight of Brownwood, at the home of Rev. and Mrs. Joseph L. Emery at 5:00 o'clock p. m., Wednesday, June 1st, with Rev. Emery, pastor of the First Baptist Church of Goldthwaite, performing the beautiful double-ring ceremony.

The bride was lovely in a dress of gun metal grey faille, with black accessories. Her corsage was of pink camellias. Miss Robbie Gene Simpson, sister of the bride, was maid of honor. She wore an orchid em-

broided eyelet pique dress with white accessories and a corsage of mauve camellias. Wade Knight of Jal, New Mexico, brother of the groom, served as best man.

Immediately following the ceremony the couple left for Little Rock, Arkansas, on their honeymoon. They will make their home in Goldthwaite.

The bride and groom are both graduates of Goldthwaite High School, the groom, also having served in the Merchant Marines and the U. S. Army. The bride is co-owner of the House of Beauty in Goldthwaite.

### Artistic Arrangements Featured At Garden Club Flower Show Here

One of the best flower shows ever staged at Goldthwaite was presented to the public last Saturday, June 4 in the San Saba Production Credit Association Building. "Symphony In Song From the Garden," was depicted throughout the show.

Many and varied arrangements carried out the theme to perfection.

Some two hundred guests viewed the show, which consisted of more than one hundred arrangements. Mmes Felts and Hamrick of San Saba, State accredited judges, judged the show.

### Skinner-McCutcheon Vows Solemnized

In a lovely double ring ceremony solemnized Saturday evening, June 4th, at 6:00 o'clock, in the home of Rev. and Mrs. Joseph L. Emery, Miss Bonnie Jean Skinner became the bride of R. E. McCutcheon. Both young people are from Bartlett, Texas.

Preceding the ceremony, which was performed by Rev. Emery, Miss Janet Soules, a friend of the bride, sang "Because". She was accompanied on the piano by Mrs. Emery, who also softly played wedding music during the ceremony.

The bride was charming in a white linen dress with navy blue trim and white accessories. Her corsage was of white carnations.

The couple's only attendants were Mr. and Mrs. Fred Soules of Hamilton. Mrs. Soules is a sister of the bride.

After the ceremony, a delicious supper at The Hangar was enjoyed by members of the wedding party.

The bride is the daughter of Mr. and Mrs. Dallas Skinner of Bartlett, and the groom is the son of Mr. and Mrs. R. H. McCutcheon, also of Bartlett.

At present the groom is employed by the Texas Power and Light Engineering Department.

Mr. and Mrs. Sumter Gerald and Janell left Friday to attend the graduation exercises at A & M College where Stoddard Gerald received his degree in Civil Engineering. From there they will go to Houston to visit Mr. and Mrs. R. J. Gerald.

Sam Saylor spent the weekend with his parents, Mr. and Mrs. Claude Saylor.

## GARDEN CLUB

The Goldthwaite Garden Club met Wednesday morning, June 1, 1949 at 9:00 o'clock, in the Baptist Educational building with Mmes. Glass, E. T. Fairman, Mr. T. Burnham, Cockrell M. A. Childress, Joe Lankford and Smith as co-hostesses.

The president, Mrs. Jim Weatherby, directed a flower arranging clinic in preparation for the flower show.

Mrs. Malcolm Jernigan spoke on Color in the Arrangement. Dainty open face sandwiches, cookies and punch were served by the hostesses to the members and following guests: Mmes Ed Gilliam, Joseph Emery and her mother, Mrs. Snider.

## Sealorn H. D. Club

On the afternoon of May 25th the Sealorn Home Demonstration Club met at the home of Mrs. Fate Eckert. The meeting was opened with piano selections presented by those among us who were fortunate indeed to possess that special talent—the other members joined in with songs.

Miss Greta Sue Hines gave a very interesting report on the council meeting in which all charter members were recognized. It was a very impressive ceremony.

After all other business was transacted, we engaged in a discussion of what we as a club would like to do in the coming year. Mrs. Johnnie Crawford and Mrs. Ora Black, who make up our year book committee, had many suggestions—it was rather difficult to choose, but after much thought on which would be more beneficial to us as homemakers, we were able to choose three projects. The meeting then adjourned. The 13 members and little Sandra Jordan were served a delicious and appetizing refreshment plate by the hostess assisted by Mrs. Ora Black and Mrs. P. R. Jordan.

Miss Ella Hintz was unable to be with us again this month due to a special meeting. Her presence was missed by all; we look forward to her meeting with us and presenting one of her interesting programs. Perhaps she will be able to meet with us the next time.

Our program for our next meeting which is to be held at the home of Mrs. Frank Hines on June 22nd, sounds very prom-

### 'EVERY GIRL SHOULD BE MARRIED'

Big Star Cast

The Melba, Saturday Night Prevue, Sunday and Monday

Cary Grant, Franchot Drake, Diana Lynn and the new Betsy Drake, in the steller Don Hartman's production, "Every Girl Should Be Married," for RKO Radio, offers a highly entertaining comedy-dance to theatregoers.

Drake plays the heroine, modern maiden with a conviction that the conventional system under which a girl is supposed to sit around meekly until a man asks her to marry is utterly unfair. According to her, she'll pick out the man she wants and go after him and she does.

Victim is a prominent doctor and she plans a careful campaign of enticement, including a scheme to arouse his jealousy. The various steps get mixed and the outcome is a comically hilarious funfest.

### 'KEY LARGO'

bursting with stellar features Warner Bros.' dramatic drama, "Key Largo", playing at the Melba Theatre. Humphrey Bogart, Edward Robinson, Lauren Bacall, and Barrymore and Claire play the top roles. "Key Largo" has been directed by Huston, the ace director made film history with "The Treasure of Sierra Madre", and Bogart smash.

Wald produced "Key Largo" under the Warner Bros. banner. It is an action drama, showing the reactions of a disoriented World War II veteran, having helped win the war, and inclined to help win the war. Bogart plays this role, Robertson heading a band of desperado cohorts.

### 'THE BEST YEARS OF OUR LIVES'

A star-studded cast offers a brilliant interpretation of Samuel Goldwyn's new dramatic production for RKO Radio Release. "The Best Years of Our Lives" develops in highly vivid form the emotional experiences encountered, each with its own basis, by three men and women they love. Top-billed in the picture are Myrna Loy, Fredrick March, Dana Andrews, Teresa Wright, Virginia Mayo, and Cathy O'Donnell, new Goldwyn discovery.

**CHIEF SPEAKER AT  
MEETING OF LAKE  
VICTOR BROTHERHOOD**

**R. G. LeTOURNEAU**  
R. G. LeTourneau, manufacturer and preacher, is to be guest speaker on Tuesday night, June 18, at the Brotherhood Meeting at the Lake Victor Baptist Church. The program is to start at 8 o'clock, and everybody in this entire section is invited to hear this outstanding speaker.

Lake Victor is three miles east of Highway 281, midway between Burnet and Lampasas. A man who has risen from obscurity and comparative poverty to become a leading industrialist, who designs and manufactures the biggest earthmoving equipment in use today, who has given his personal fortune for the promotion of Christian work, and who spends his weekends flying from city to city preaching the Gospel, is something of a phenomenon even in these United States.

This is the record of Robert Gilmour LeTourneau. Born in Vermont, he spent his boyhood in Minnesota, and the years of his early manhood in California, where he laid the foundations of his amazing career in a small automobile repair business. World War I lost him that business, and threw him upon the world with a debt of \$5000 and only his own two hands to earn the money for his creditors; but while looking around for a job he got into land-leveling, and by applying the mechanical knowledge already acquired he soon had orders rolling for the revolutionary machines which he designed and built.

As a young man, Mr. LeTourneau had a very real spiritual experience, as the result of

which he dedicated his life to be "God's businessman." In 1935 he and Mrs. LeTourneau set aside 98 per cent of their personal wealth to establish the LeTourneau Foundation "to teach, promulgate and disseminate the Gospel of Jesus Christ throughout the world. In May, 1947, the Foundation was valued at seven million dollars. Since it was formed it has contributed to other organizations engaged in Gospel work over two-and-a-half million dollars, and has spent a similar sum in carrying out its own program of Christian testimony.

In addition to giving his money, Mr. LeTourneau also devotes his time to Evangelistic work, spending every weekend in preaching the Gospel. He uses his own private planes for plant-to-plant journeys and for this weekend ministry, logging a total of approximately 200,000 miles a year. His famous address "Up From Bankruptcy," in which he tells the story of his own life, has been given in every State of the Union, and continues to draw large audiences wherever it is announced.

**4-H YOUTH BUILDING  
NATION'S FUTURE  
DAIRY HERDS**

Production of milk for human consumption is one of the oldest farm enterprises. Yet today—because of modern scientific research and invention—it is one of the newest and biggest of all agricultural activities. There are some 27 million dairy cows in the nation. One of the objectives of the National 4-H Dairy Production program is the building of a successful dairy herd from an original investment in a 4-H Club calf.

Guided by county agents and local 4-H Club leaders, more than 1,899 boys and girls are participating in this "learn by doing" 1949 project. They acquire know-how to grow fine pastures, build healthy herds and produce good, clean, wholesome milk. Not content to stop there, these future dairymen pass along their knowledge to the community by demonstrating at clubs and meetings procedures such as "Dairy Problems on the Farm," "Dairy Cattle Management," and "Care and Handling of Milk."

To further encourage 4-Hers in this endeavor, the Kraft Foods company for well over a decade has donated awards for outstanding records. This year there will be a gold-filled medal for first place county winner, and a sterling silver medal for second place. Eight \$25 U. S. savings bonds will be presented to state winners, while all-expense trips to the National 4-H Club Congress in Chicago will be arranged for 10 sectional champions. From this sectional group, six will be chosen to receive a \$300 national agricultural college scholarship.

State winners in 1948 were: Doyle Davis, Hart; Billy Popham, More; Billy Fowler, Lakeview.

Miss Tommie Ann Booker of N. T. S. T. C. at Denton arrived home Thursday of last week for a few days visit with her parents, Mr. and Mrs. Tom Booker. She left Sunday to re-enter college for the summer term.

### SCOUTS OF TROOP 45 ATTENDS CAMP-O-RAL

The Scout Camp-O-Ral for Scouts of the Comanche Trail Council in the South District was held at Lometa Lake Friday and Saturday of last week. Goldthwaite Scouts who made the trip gave a good account of themselves in the various events. Three counties were represented and Scouts were there from Lometa, Adamsville, Lampasas, Richland Springs, San Saba, and Goldthwaite.

Results of the events were as follows:

String Burning: 1st—Tejas Patrol, Troop 45, Max Booker and Jimmy Bryant; 2nd—Wolf Patrol, Troop 71; 3rd—Bob White Patrol, Troop 26.

Water Boiling: 1st—Eagle Patrol, Troop 26; 2nd—Wolf Patrol, Troop 71; 3rd—Tejas Patrol, Troop 45, Max Booker and Jimmy Bryant.

Knot Tying: 1st—Merlin McNelly, Troop 25; 2nd—Johnny Clark, Troop 26; 3rd—Travis Herring, Troop 26.

Artificial Respiration: 1st—Max Booker, Troop 45; 2nd—Andy Hart, Troop 71; 3rd—Merlin McNelly, Troop 26.

Flag Folding: 1st—Travis Herring and Johnny Clark, Troop 26; 2nd—Jimmy Bryant and Walter Henry, Troop 45; 3rd—Wayne Henry and Max Hendrich, Troop 26.

First Aid: 1st—Max Booker, Troop 45; 2nd—Johnny Clark, Troop 26; 3rd—Joe Hammond, Troop 45.

Due to so many of the Scouts working only 7 from Goldthwaite made the trip. Those were Max Booker, Jimmy Bryant, David Bryant, Joe Hammond, Jack Earl Long, Walter Henry and Roger Booker. Scoutmaster Charles Conradt was well pleased with the way the boys conducted themselves and the fine showing they made in each event.—REPORTER.

A daughter was born to Mr. and Mrs. Samuel Dee Land, of Route No. 3, on Saturday, May 21, at the Smith-Childress Clinic. She has been named Gail Mae and weighed 8 1/2 pounds at birth. Gail Mae was born at 6:10 P. M. She has a little sister, Patricia. Mrs. Land and Gail Mae are now at home and are doing very well.

Mr. and Mrs. Jerry Walker and Mr. and Mrs. Walter Doggett spent Sunday in Mexia with Mrs. Doggett's brother, Charles Evans.

### DISCONTINUENCE OF ITINERANT TRAVEL BY VET. ADMN.

John H. Quick, Contact Representative of Veterans Administration Office located at 200 East Baker St., Brownwood, who has been coming to Goldthwaite each week to assist veterans or their dependents in securing various benefits to which they may be entitled, will discontinue these trips after this week, due to curtailment of this feature of Veterans Administration work.

Mr. Quick states that the cooperation given him by all Veterans Organizations, County and City Officials and Mr. Brian Smith, Service Officer, and all other citizens with whom he has come in contact, has been very pleasant and asks that anyone needing assistance that he may be able to give as the local representative of the Veterans Administration can contact the Office of Veterans Administration in Brownwood, 200 East Baker Street, phone 22600, as he will still be in charge of that office.

Mr. Quick has been making weekly visits to Goldthwaite and other towns surrounding Brownwood for three years, and has helped many veterans and their dependents in filing their claims against the government, and in explaining veterans' rights to ones interested. He has made many friends here.

He has been named Earnest David. Mr. and Mrs. Horton also have a little daughter, Linda Belle. Mrs. Horton and Earnest David are at home and are doing fine.

### FIRST SUNDAY SINGING A SUCCESS

Dear Eagle: May I drop a little crumb in your craw this morning? Just seems like I ought to thank you for announcing our singing for us at Center City the first Sunday evening. It was a grand success.

Boy, here comes Huggins and Ethel from Brownwood. You know when Huger gets that little swirl in the upper lip that singing comes out. There comes Mr. Tom Dennis and his wife and three girls. Man, it was worth all your trip to see and hear those girls sing. Here comes Mr. Will and Ethel Taylor from Hamilton with their

usual smile. It is worth all your while to meet with long time friends like Will and Ethel.

There was Tom Booker and wife, Mel Booker, Lee Kindell and wife, Otto Kindell and wife and others from Goldthwaite and others to numerous to mention now.

The new Methodist pastor for this place was at Center City Monday morning shaking hands and getting acquainted with the folks. He said we could sing at his church. He is a lover of good Gospel singing and a booster. Come, Bro. Pastor and bring some good singers from Star. You have them.

We organized a class and I, the writer, was made President. The time set to meet is the first Sunday in each month.

Please make your plans to be with us on the first Sunday evening in July. We thank every one for their co-operation. We invite every one to sing and have fellowship with us.—C. M. Head.

### F.H.A. GIRLS

**J. H. PRIDDY, Mullin. G. G. GOSS, Chairman, Rt. 1, Comprising all Farms and Ranches in Brown and Mills Counties—Approximately 1,057,280 Acres.**  
**CHARLIE BYNUM, Rt. 1, Zephyr.**

Native grasses planted by the cooperators of the Brown-Mills Soil Conservation District have come up to a good stand. A mixture of native grasses harvested in Oklahoma was planted by 17 farmers and ranchers on 240 acres in the Middle Colorado River watershed. The mixture of native grasses consisted chiefly of Little Bluestem, Indian grass, Big bluestem, upland switchgrass and dropseed.

The grass was planted this spring with the grass seed drill designed by the Soil Conservation Service and loaned to the District. Planting rate was 12 lbs. per acre in 12 inch rows. The land planted to this grass will be retired from cultivation. These fields are fenced and will not be grazed for two years or more until a good stand is established.

M. C. Kirkpatrick of Mullin, planted a 25 acre field of Johnson grass to the mixture of native grasses on February 18, 1949. He mowed the field to control the weeds. When he bailed the Johnson grass for hay, it was found that the grass was up to a good stand and was almost as tall as the stubble.

Warren Duren has an excellent stand of grass on 12 acres of land on his farm in the Duran community. J. N. Faith and J. D. Walton of the Center Point Conservation Group have good stands of the native grass they have planted on retired cultivated land.

With favorable moisture this summer and sufficient mowing to control weeds, reasonable success from these grass seedlings can be expected.

Mr. and Mrs. Jesse Saegert and children went to Seguin Saturday for a few days visit with their parents, Mr. and Mrs. J. F. Saegert and Mr. and Mrs. E. E. Benhrendt.

ACCIDENTS—THE BIG KILLER

Accidents are the greatest killer of young people in the United States, far outranking any of the more generally feared childhood disease.

According to the 1948 edition of "Accident Facts," statistical yearbook of the National Safety Council, accidents claimed five times as many lives in the 5-to-14 year age group in 1946 as heart disease, the second cause of death. And accidents killed six times as many children in that age group as pneumonia, the third place child-killer.

In fact, the yearbook points out that deaths from accidents numbered more than deaths from heart disease and pneumonia combined.

TAKE YOUR FAMILY TO SUNDAY SCHOOL

It is a treat to take your family to Sunday school. Yes, a treat that will be the cause of rejoicing in your household. And, with this joy will come the moral strength and the soul-satisfying experience that only religious worship can give.

From the good Book we learn, "Train up a child in the way he should go; and when he is old he will not depart from it."

The spiritual guidance of Sunday school is more important than ever before in world history, for "righteousness exalteth a nation; but sin is a reproach to any people."

Peace throughout the world can only be founded on the firm rock of religion. Religion is the very heart of our being—our most precious asset. It is our strongest bulwark for peace. If it touches us in childhood, it will remain the rod and staff of our adult life.

By placing a high value upon church and Sunday school attendance, regardless of creed, we deepen the faith of our children and make a lasting spiritual contribution to their growth.

We fathers and mothers of America must "take" not "send" our boys and girls to Sunday school, for religion is likewise the strongest link in the chain in family unity. And united families, with firm spiritual faith, not only spell happy, wholesome childhood, but furnish one of the surest and best ways for the preservation of democracy.

Sunday school attendance makes for the well-balanced life! So, fellow Americans, let's take the family to Sunday school, and give them a heavenly endowed fellowship in the greatest educational institution on earth.

TOM C. CLARK,  
Attorney General of the United States.

Why Jesus Died

Lesson for June 12, 1949

THE FACTS of Jesus' death were simple. They are told in the four Gospels without dramatics and without tears. Yet the drama is there, stark and terrible; and only the hard of heart can read it without tears.

There is a deeper question than what happened. Why did it happen? The first Christians were forced to think about the crucifixion. They all knew it was no legend. It was so. But they were haunted, as we are, with the question, Why? Here was a person whose teaching was truth, whose touch was health, whose life was love. You would have thought the world would welcome such a man, and give him the highest honors in its power. But instead, all it had for him were nails and thorns and a cross. Why? If God, who sees all things, knew that even his Son would come to no better end than a death of shame, why did God allow Jesus to be born, much less send him into the world, the world where the cross was waiting?

No Other End

THERE WAS, of course, "historical reasons" why Jesus was killed. If we used the words "murdered" or "lynched" it would be nearer the truth. Jesus' death, from one point of view, was both a tragedy and a crime, and the Gospel stories show this. Jesus died because Pilate was a spineless man.

Jesus died because the priests of Jerusalem saw that if this man won, they would lose, and they would commit murder rather than be defeated. Jesus died because the Pharisees had closed minds and would not listen to truth if they did not think of it first.

He died because Judas was a traitor, because his friends were cowards and even the best of them dared to show their faces only after he was dead. He died because the Jewish people had their minds set on one sort of Messiah, and when Jesus turned out to be quite another sort, they would have none of him. Being altogether the sort of person he was, in that kind of world, at that particular time and place, you could say, as Jesus himself did, that the Son of Man "had to" die. (Luke 24:25.) No other end was possible. There was no help for it . . . except to turn coward and hide; and if he had been capable of that, he would not have been the Christ we know at all.

The Plan of God

WHEN WAS Jesus simply a victim of circumstances? Was he no better than a fly caught in fate's dark web? Far from it. The Christian church has always believed, even before these stories of the crucifixion were ever written, that the death of Christ was in the plan of God. In fact, it is at the heart of God's plan for mankind.

It is by the death of Christ that God reconciles man and brings men back to himself. The Christian church believes and teaches that Christ died for us, that is, for you and for me. We believe that this was not simply Jesus' own idea, something God had not thought of till Jesus suggested it.

We believe that this was the intention of God "from before the foundation of the world." The God who is over all, works through all things, even very evil things, to make his love known.

"That The World . . . Might Be Saved"

MEN had long thought of God as living in far-off heaven, seated on a throne, high and lifted up. A just and mighty God, one who cannot be touched with any human weakness, a holy and infinite Lord of the universe,—such a God men knew. But on earth there walks and suffers a race of men who are slaves of sin, slaves to evil. How can such a God help such men? Not by staying on his throne and hurling down more curses. Only by doing what men would never have guessed God would dare to do—come into this world, himself as a man, translating himself into the life of man; putting his shoulder under the human load, even bearing "our sins in his own body on the tree" (I Peter 2:24).

**LAMPASAS CLUBS TO PRESENT DESIGNER GREGORY CONWAY**

The combined Garden Clubs of Lampasas and the Hancock Park management are presenting J. Gregory Conway, foremost flower arranger from the West, noted author and lecturer, in a special series of classes, lectures, and demonstrations at the Hostess House, Hancock Park, June 13, 14, 15, and 16.

This is Mr. Conway's first tour in the United States since 1940. A native of Montana, he is now connected with the University of Hawaii in Honolulu. He is recognized as one of America's outstanding floral designers and has written two books on the subject. They are "Flowers: East-West" and "Flowers: Their Arrangement."

Mr. Conway is also noted for his adaptation of eastern technique to native flowers and modern containers.

A graduate of the University of California at Los Angeles, he continued his study at Japan's Ohara school for the Moribana and Nagiere styles of flower arrangement.

He is the only occidental to hold a diploma from this school. During his three years in Japan, he lectured at the Imperial palace and the Imperial University at Tokyo.

He later joined the staff of the University of Southern California which was the first and only college in the United States to give accredited art courses in flower arrangement.

Mr. Conway is also the only floral artist that is listed in Who's Who.

The Chamber of Commerce and the Junior Chamber of Commerce are helping the Garden Clubs with the seating arrangements and the publicity necessary for bringing Mr. Conway here. These classes are being presented as a benefit for all who would like to attend the lecture and classes.

Only a limited number of reservations will be available. Make reservations with Mrs. Glynn C. Perkins, Box 468, Lampasas, Texas.—Reporter.

**CHRISTIAN RURAL OVERSEAS PROGRAM**

College Station, — Dr. Dan Russell, State Chairman of Christian Rural Overseas Program (CROP), today called upon all Texans to live up to their reputation of generosity and philanthropy by supporting the CROP program with gifts in kind to feed the starving men, women, and children of the war-ravaged countries of Europe and Asia.

Dr. Russell pointed out that CROP gives the complete answer to many of our social, economic and political problems. It is the nationwide project through which farm commodities are contributed by American farmers to the needy overseas, the destitute, the homeless, orphans, the aged, and the ill—people with no money, no food to speak of, few clothes, no future and no hope.

Government relief, such as the Marshall plan, is intended

### ANOTHER DP BILL

A year ago the Congress passed a bill allowing 200,000 immigrants, classified as "displaced persons" to enter this country from Europe. Under that law, they are now coming in at the rate of 10,000 a month.

But some people decided the law was not liberal enough, and last week another bill was pushed through the House authorizing 329,000 to enter with far less regard for the quality of those who are admitted.

I voted and spoke against these measures because I am afraid many subversives and undesirables will enter. And when they once get in it is almost impossible to deport them. Harry Bridges is a good example.

Under this DP bill only those actually in camps can be classified as "displaced persons". And there has been a lot of finagling going on by those who have managed to get themselves admitted to the DP camps in order to get into this country at Uncle Sam's expense, and who would otherwise be inadmissible.

As an example of how undesirables come under this law, I was in Charleston, West Virginia recently and former Senator Revercomb told me of a case in point. A local citizen a year ago urged him to assist in having a certain person brought in from Europe. The man was admitted and a few months later the Senator met his friend on the street and the latter said: "Senator, can't you do something to help get this man deported. From talking with him, I'm convinced he is a Communist and undesirable."

This is a good example, too, of how unreliable our screening system is. And now, if the new bill is also passed by the Senate, a bigger influx than ever will be admitted and that means even less regard will be given in

the future to proper screening and refusal to admit undesirables.

Rep. Ed Gossett of Wichita Falls led the fight against the new bill. He pointed out that there are now 14 million people in our occupied zones, who were uprooted in Poland, Czechoslovakia, the Baltic States, etc. and after the war dumped into Germany. Much of this was done under the Potsdam agreement. Those people are of German-ethnic origin and the vast majority of them were farmers. Yet none of them are admissible under the DP law.

There are now about 500,000 people in the DP camps in Europe. It has been pointed out that Australia and South American countries want desirable immigrants. But the trouble is most of the people in camps don't want to go to any place except the United States.

This new influx of poorly screened immigrants will aggravate our housing problems and contribute to unemployment and while many of them are probably good people, we have good reason to believe many of the others will be of the trouble maker type.

Adding to this problem is our rapidly expanding population. The Census Bureau reported the other day that since the last census in 1940 the total has jumped up 20,000,000! And they are estimating that by the year 2,000 the United States will have 200 million people.

If those who are clamoring for a break-down of our immigration restrictions based upon the quota system, continue to be successful, this number will be correspondingly higher.

It's high time the American people open their eyes to what's going on and insist upon preserving the integrity of our traditional immigration policy based upon the quota system.

### INSULATION FOR COOLER SUMMERS

College Station—You may not be able to do much about the temperature this summer, but you can do something about your house to keep a little cooler.

Inside house temperatures may be from 10 to 15 degrees cooler with insulation than without it, provided the house has enough ventilation, says W. S. Allen, extension agricultural buildings engineer of Texas A. & M. College.

The insulation itself won't cool the house, but it will keep the heat outside during the day. Along with night ventilation, shading of the windows, awnings and shade trees near the house, insulation helps provide better cooling. The difference will be enough to make any house more comfortable when the mercury climbs high, Allen says.

Any home exposed to high temperatures in the summer time needs insulation, and the higher or lower the temperature, the greater the need for it. Here in Texas it's most beneficial in the summer. Reflective insulation, which comes in metal foil

cr sheets, helps keep the sun's heat out of the house during the day, and allows for rapid cooling at night. So it is well adapted to the South, says Allen.

Your house may be made cooler this summer by proper use of insulation. And don't forget that the fuel bills will be less next winter, too.

Case March of Waco has resigned his position as professor of law at Baylor University to make his third consecutive race for Governor of Texas. The Waco lawyer has announced that he will open his campaign headquarters in Waco and his campaign trail in early June and stay on the road until the election, 1950. March's platform calls for the redistribution of the tax burden in Texas from the small home owner and farmer to certain natural resources; \$50 a month old age pensions, rural roads, aid to institutions for the mentally sick, veterans bonus, assumption by the State of the local bond indebtedness of school districts and the preservation of local self government in Texas.

### ORC OFFICERS CAN NOW GIVE OATHS OF ENLISTMENTS

Austin, June 7—For the first time Organized Reserve Corps officers not on active duty have been given the authority to administer the oath of enlistment for the Enlisted Reserve Corps, Colonel Oscar B. Abbott, Executive for the Texas Military District, announced here this week.

Under this new Army ruling, certain select Reserve officers may serve as Recruiting officers although they are not on active duty. This measure is primarily for the benefit of Reserve commanders, but it also eliminates a great administrative obstacle in the enlistment drive. Many reservists have had to travel over 100 miles to be reenlisted; now they may be reenlisted in his home town by a home town Reserve Officer.

This authority together with the authority recently granted to civilian physicians to make the required physical examination of Enlisted Reserve applicants, when it is impracticable to have this examination accomplished at a Federal medical institution, will greatly facilitate enlistments and reenlistments of personnel in the Enlisted Reserve Corps, especially in outlying communities.

Lt. Colonel Jesse J. Saegert is the Recruiting Officer for Goldthwaite.

### OLD MAN 100

(Continued from Front Page)

O. H. is against lynching because one Congressman said it deprived the lynchee of constitutional rights. It also interferes some with his plans for the future. Jest hang them criminals—don't lynch 'em.

Old Hunnert jest happened to notice two sisters buying sweaters in a store here. One bought a sweater to keep her warm, but O. H. noticed the other had two better reasons.

### THREE NOUGHTS—

Only trouble with our government spending US taxpayers' money. Old Hunnert has jest figured out after much thought, is that on every bill they pass that calls for money they jest add three noughts (it oughter be oughts) to the last end of it. Now, them gov't fellers must think that them O's mean nothing, whicht they teach in school—but when you place three 000's at the back end of every bill they pass, instead of it being jest a few milling dullers us TP-ers must dig up fer some crackpot idea some beaurecrat (donkey) think up, it sends us tax-payers up to the billing class. Old Hunnert can remember when Congress onct upon a time passed bills that jest called fer a few hunnert thousing—nobody of the present generation gov't bureaus ever find out what comes after a milling, us tax-payers will soon be trilling around like butterflies but they won't have to build any more bughouses fer us, fer we'll all be in the same boat—dead broke.

Them meat packers nowadays use all the hog, even the tail. They now are hunting some way to use the squeal.

Here's some typographical errors that appeared in papers where O. H. was editor—that's why he had to leave them other towns: "The bride is to be re-surfaced with brick." Also, "Mrs. X complained that her husband started amusing her

three days before marriage." A man here asked Old Hunnert what the word Moron meant. O. H. had to think some and then said: That which, in the wintertime, women wouldn't have so many colds if they put.

And when a business man here told O. H. that his wife doesn't know what she wants, O. H. told him right back: "Man, you're lucky! Mine does!"

Another man told O. H. he got good pay for loafing—which highed o' h: some thinking he might get on, too. But, the man does all his loafing in a bakery, so o. h. ain't interested.

From what Old Hunnert has read in the papers lately, school teachers are born, not paid.

### FOUNDING FATHERS—

Them Founding Fathers of ours back in 1775 wrote the greatest Constitution and Bill of Rights the world has ever seen for the rule of the USes in the then future. We have the best form of government in the world—trouble is them Founding Fathers were honest and figured US future voters would be smart enough to vote into high office only honest men. Well—we ain't. They said the gov't was to be by, of, and for the people. Now them politicians today are running it by, of, and FOR themselves—and to hellow and be durned to the sucker taxpayer. If them Founding Fathers could've looked into the caliber of our present "statesmen" they've had added one more paragraph and we'd be all right today. It could've been: "The president shall go over to the Treasury every morning and count all the duller bills therein and shall never ask Congress to appropriate any more money than is found therein. Neither shall the Congress spend more money than is in the Treasury. Also, the US (us sucker) tax-payers shall have the right to vote on how much and how many taxes they pay into the treasury each year. At no time is the cost of collecting said taxes to be over half of same, with

what's left to be used the USes fust and the try that complains of its feet, puny, or ailing. She's too late now, though. Caliber of them Founding ers was 12-gauge double while that of our present seems to be jest 22-short.

Now that we've had all over here and the big way to County was conceived, get dry some. One day a six month's dry, Old nert asked his neighbor, "Think it'll ever rain, Zeke took a long look beccer, rubbed his whiskers spell while thinking it over at last said: "Allus has

When Old Hunnert was ing a big blonde in a las restaurant onct and to impress her with what some tax menu and said: "Bring orders of guiseppe waiter. Waitress—"I'm sorry, that is the proprietor."
