

# The Goldthwaite Eagle

VOLUME FIFTY-FIVE GOLDTHWAITE, MILLS COUNTY, TEXAS—FRIDAY, JULY 8, 1949 NUMBER FORTY-SEVEN

## Mills County 4-H Club Boys To Camp At Kemp Lake Next Thursday Night

Mills County Agricultural Agent George G. Reese has sent the following invitation to all Mills County 4-H Club boys: Dear 4-H Club Member: Vacation time is here, so make your plans to attend the 4-H Boys Camp at Kemp Lake on the afternoon of Thursday, July 14, and morning of July 15. Bring your swimming suit, fishing tackle and bait, baseball gloves, knife, fork and spoon, and bedding for one night. We will have lots of good eats and lots of fun. The three meals will cost you about 75 cents. We will be looking for you at camp.

## ROBERT H. DEWOLFE INJURED IN ACCIDENT

Robert Hill DeWolfe of Austin spent Sunday and the 4th with his grandmother, Mrs. John Keese. He left Monday afternoon for Austin. A few miles of Lampasas, he was in a head-on collision involving three cars. Five persons were injured and one killed. The injured were taken to the Lampasas hospital. Robert Hill received a fractured knee. He was able to be taken to Austin Tuesday. The car was demolished.

## NORTH BENNETT BAPTIST CHURCH

There will be church Sunday morning at eleven and Sunday night at eight o'clock. Singing at two-thirty in the afternoon. Please come and help with these services.

## CHURCH OF CHRIST

VERNON L. SIMPSON, Local Evangelist ALLEN W. HARDGRAVE, Song Director. LORD'S DAY 10:00 a. m.—Bible Study for all ages. 10:50 a. m.—Song Service and Sermon. 11:45 a. m.—The Lord's Supper. 7:45 p. m.—Evening Worship. TUESDAY 3:00 p. m.—Ladies' Bible Class (In the Preacher's Home). WEDNESDAY 7:45 p. m.—Mid-Week Worship THURSDAY 7:00 p. m.—Young People's Training Class. A warm welcome is extended to all.

## REVIVAL AT PRIDDY BAPTIST CHURCH

A revival at the Priddy Baptist Church begins Friday night, July 15th and ends July 24th. Holding the revival will be T. H. Harmonson and Thurmon Lee will lead the singing. Vacation Bible School will be each morning from 8:30 until 11:30.

## BUS DRIVER HAS NARROW ESCAPE HERE TUESDAY

Nick Parson, driver of an Arrow Coach Lines bus, had a very narrow escape when his bus crashed into the back of a watermelon truck about eight miles south on the Lometa highway about four o'clock Tuesday morning.

Mr. Parson had taken a load of people to Austin and was on the road back to Arrow headquarters at Brownwood empty. The front of the bus was caved in, pinning the driver in his seat. It took over 30 minutes to get him out of the seat. He suffered only minor bruises about the legs, he said. He came to Goldthwaite and called Brownwood headquarters for help. The big bus, when it was released from the back of the loaded watermelon truck, rolled backward off the highway through a fence and stopped a hundred yards in a pasture.

## Congressman O. Clark Fisher Makes Fourth Of July Address At Brady

Cong. O. Clark Fisher of the Texas 21st District made the principal address before a Brady Fourth of July celebration Monday. On Sunday he was in Fredericksburg, where he crowned one peach queen, Miss Anne Marie Lindig, in a Sunday night celebration.

## REVIVAL AT METHODIST CHURCH HERE JULY 29 TO AUG. 7

Ed H. Lovelace, pastor of the Methodist Church, announces that the date of July 29 to August 7th inclusive has been set for the Methodist Revival. Dr. George C. Baker, Jr. Chaplain of Southern Methodist University and the Director of all Campus Religious Activities, will be the evangelist. Until his assignment to this position in June, Dr. Baker had served for the past three years as pastor of Laurel Heights Methodist Church in San Antonio and prior to that was pastor of First Methodist Church in San Angelo. Mrs. Baker, who has her Masters Degree in Religious Education and is also a talented musician, will be with Dr. Baker and will assist in the evangelistic endeavor.

## PUBLIC RELATIONS MEN FROM LONE STAR GAS HERE TUESDAY

James M. Floyd, advertising director, and Bruce Cunningham, publicity supervisor of the Lone Star Gas Company, both from Dallas, were in Goldthwaite Tuesday afternoon making arrangements with The Eagle for advertising and publicity for Lone Star Gas Company when they start business here this fall.

## THE FIRST METHODIST CHURCH

ED. H. LOVELACE, Pastor 9:45 a. m.—Sunday School. 10:50 a. m.—Morning Worship. 6:30 p. m.—Youth Fellowship. 7:00 p. m.—Youth Fellowship Supper. 7:00 p. m.—Adult Choir Practice. 8:00 p. m.—Evening Worship. WEDNESDAY NIGHT: 8:00 p. m.—Youth Recreation.

## METHODIST CHURCH RECREATIONAL CLINIC

The Methodist Church is in the midst of a Recreational Clinic being directed by Miss Jane Adams of Brownwood. The sessions are held each evening this week, Wednesday through Saturday, from 8:00 to 9:30.

## SINGING AT NORTH BENNETT CHURCH

There will be a singing at North Bennett Church, at 2:30, Sunday, July 10th. Everyone come and enjoy the singing.

## Boris G. Petroff, Jail Escapee, Taken To Huntsville Pen. Tuesday

Mills County Sheriff Wiley L. Mahan Tuesday of this week turned Boris G. Petroff, who first came here from Miami, Fla., over to state penitentiary authorities at Huntsville, where he is to serve out a sentence of two years given him here in District Court on his plea of guilty to forgery.

## ANOTHER ESCAPE TRY

The first time Petroff was in jail here he stayed one week before digging out. When he was placed in jail the second time last Sunday night, he stayed. However, it is thought he was making another try to escape by knocking Jailer Williford in the head. Monday the jailer's wife heard a soft pounding noise upstairs in the jail and called Sheriff Mahan to investigate. The Sheriff found a hard-rolled ball of tinfoil in the prisoner's possession which he probably had in mind to use to knock the jailer in the head. He had smuggled the tinfoil in the jail in some letters.

## Goldthwaite Red Sox To Play Llano Colored Team Here Tues. Nite

Goldthwaite Red Sox, who beat the Brownwood Browns here Tuesday night by a score of 5 to 1, will play the Llano colored team at Municipal Ball Park next Tuesday night, beginning at 8.

## JAYCEES GIRLS TEAM BEATS COMANCHE

The Jaycee Goldthwaite Girls team took on a fast team of girls from Comanche here at Municipal Ball Park Wednesday night, beating them by a score of 21 to 9.

## LEAVES FOR NEW YORK TO ATTEND LIONS CONVENTION

W. E. Cantrell of Lometa, who taught in the Eden High School for the past two years and is immediate past president of the Eden Lions Club, left this week for New York City, where he will attend the 1949 Lions International Convention and plans to attend some of the sessions of the National Education Association which meets in Boston. Lion Cantrell represented the Lometa Lions Club in San Francisco at the 1947 Convention.

## VICE PRESIDENT OF STAFF DOCTORS

Doctor C. M. Smith of Goldthwaite was elected Vice-President of the Staff Doctors of Memorial Hospital in Brownwood last Tuesday night. Dr. Braswell Locker, of Brownwood, was elected President of the group, and Hospital Superintendent Harry Miller was elected Secretary.

## RAINFALL FOR FIRST SIX MONTHS IN COUNTY MORE THAN TOTAL FOR 1948

1941	35.10
1942	35.62
1943	29.94
1944	37.45
1945	31.78
1946	23.52
1947	21.44
1948	18.65

HEAVY AT DUREN—A. A. Downey, who lives in the Duren Community about four miles northeast of Mullin, has a gauge on his place, and has furnished The Eagle the following rain report by months:

January	2.6 inches
February	2.7
March	2.4
April	6.1
May	2.5
June	5.2

Total first six Months 21.5 inches July 4 rainfall 2.

**U. S. ARMY TO OPERATE UNDER NEW PAY SYSTEM**

Austin, July 1—Beginning today officers and enlisted personnel for the Army will operate under a new pay system. Colonel Oscar B. Abbott, Executive for the Texas Military District, announced today.

The Army Finance Department prepares the payroll vouchers. These reach the companies and detachments about the 22nd of the month. When the soldier sees them they have his name on them, the money he has accumulated from Army pay, and a blank column for him to direct how much he shall be paid. He is paid in even dollars. Money above what he draws accumulates to his account.

On pay days he is paid and signs the rolls.

The new plan is an off-shoot of war experience. During World War II the Finance Department recognized the necessity for facilitating payments, consolidation of records and eliminating signed pay vouchers. The new setup is geared to wartime speed. It facilitates payments, eliminates pay vouchers, withholds income tax payments, re-

duces paper work for disbursing officers and keeps records and equipment more compact and mobile.

Officers are paid in the same manner. Only Organized Reserve taking abbreviated reserve training are paid in the old manner.

**SAVINGS BONDS QUOTA TIME IS EXTENDED TO JULY 16**

Dallas, July 1—Purchases of Series E Savings Bonds through Saturday, July 16, will be credited to county and state quotas in the Opportunity Drive.

This announcement was made in Dallas by Nathan Adams, Chairman of the Treasury Department's Advisory Committee for Texas, who explained that although the promotional phase of the drive ended June 30, the accounting period continues on through July 16.

Adams said that Texas would substantially exceed its drive quota of \$36,950,000 if the sales continue at their present rate. He said that sales as of Saturday, June 25, were \$32,637,000, or 88.3 per cent of the quota. He also reported that 79 counties already had exceeded their individual quotas and that the others were expected to do so by the end of the accounting period.

**DELAINE SHEEP RAISERS' SHOW AND SALE AT LAMPASAS**

On July 8 and 9 at the Lampasas Fair Grounds the Delaine Merino sheep breeders of Texas will have on exhibit one of the best groups of fine wool sheep ever assembled in this section.

Inquiries from breeders over the state indicate that well above the 150 entries first expected will be here for the show and sale.

Naturally the purpose of this show and sale is to induce the farmers and ranchmen to see the need for a beginning in the betterment of their sheep and then do something about it by buying some of these good breeding animals to replace inferior kinds.

An invitation from the Chamber of Commerce plus a \$250 purse was the main reason for holding the show in Lampasas.

**Blue Bonnet Club**

The Priddy Bluebonnet Club met Friday, July 1 at Jimmie Ed and Peggy Samples' home in which they are staying.

Ice cream, chewing gum and cold drinks were served. Then

we embroidered. We all had a wonderful time.

The President took the floor. The minutes were read and the roll call was called.

We were very sorry to hear that one of our members, Melbadean Hohertz was ill. We're hoping she'll be able to attend the next meeting.

We were very happy that we gained a new member, Odell Seilheimer.

The meeting was adjourned.

**Hunt Family Reunion**

Mr. and Mrs. A. M. Hunt Sr. recently had a family reunion. All their children were present except Clifford Hunt, who is with the merchant marine now in Japan.

Those attending were: Mr. and Mrs. Carson Edmondson and children of San Saba, Mr. and Mrs. Preston Watson of Archer City, Mr. and Mrs. Earl Hunt of San Antonio, Jesse Hunt and family of Houston, Texas, Mrs. Clifford Hunt of Galveston, Mr. and Mrs. Albert Hunt Jr. and children of McAllister, Oklahoma, Mr. and Mrs. Boyd Hunt of Brownwood, Chief Warrant Officer, Roy Hunt and wife of Long Beach, California. This was their first visit home in 7 years. Roy has had 15 years of sea duty on the west coast and is now being transferred to Memphis, Tenn. for two years of short duty.

**FUND RAISING COMMITTEE NAMED**

San Angelo, July 5—The drive for \$10,000 from mohair producers and others is now on in earnest, Sayers Farmer, President of the Texas Sheep and Goat Raisers' Association, said here last week as he announced the names of twenty-four men who will be in charge of the fund raising. The \$10,000 raised will be the mohair producers' part of a \$30,000 cooperative mohair market research project between the Association and the United States Department of Agriculture. The cooperative agreement and the contract were signed in Washington, July 1.

"The men selected for this important job are very busy men and I urge each individual mohair producer to contact the man in his area and make a contribution which in reality is an investment," Farmer said.

The warehouse and non-warehouse men and their counties include: L. M. Stephens and Weldon Cloud, Lampasas; Coryell, Burnet and Williamson; Frank Roddie, McCullough and San Saba; Hollis Blackwell, Mills, Hamilton and Brown. The Uvalde and Real County quota has already been exceeded and the funds are in the Association office, Farmer said.

## New Motor Oil Cleans With Detergent Action

Company scientists have applied the principles used in the making of fine detergent washing powders to the manufacture of the new Humble Esso Extra Motor Oil. Adding specially manufactured detergent to the oil enables it to break up, break up and hold in suspension soot, dirt, sludge and varnish which damage automobile engines. New Humble Esso Extra Motor Oil, say scientists, keeps an engine clean as a hound's tooth. Humble station salesmen are urging customers to drain dirty, diluted oil and refill with new Esso Extra Motor Oil for extra protection. Adv.

Kathleen Uttaro and little daughter, Rose, of Rochester, New York, is here visiting her mother, Mrs. Jesse Cockrum, and other relatives.

Mr. and Mrs. Joe J. Johnson of Fort Worth, and Mr. and Mrs. Jim Campbell of Corpus Christi were guests of Mrs. W. J. Weather's this week-end. Mrs. Weather accompanied the Campbell's to Corpus Christi Sunday, where she will visit for several days.

Mr. and Mrs. Tom Womack of Sonora spent the week-end with their parents, Mr. and Mrs. C. A. Womack and Mr. and Mrs. C. F. Stubblefield.

Misses Ruth and Valena Davis of Boyd, Texas, are visiting their sister, Mrs. Vernon L. Simpson and family.

## Weekly Swing of Southwest Farm Markets

Although some southwest farm products brought higher prices this week than last, the majority sold at unchanged to sharply lower levels, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Fed steers and heifers brought strong to 50 cents higher prices at Texas markets and steady to strong rates at Oklahoma City and Denver. Cows lost 50 cents to \$1.50 or more at most markets, but sold fully 50 cents higher at Fort Worth and steady to 50 cents lower at San Antonio. Calves and weaners sold mostly \$2 lower at Denver, 50 cents to \$1 lower at Oklahoma City, and \$1 to \$1.50 down at Houston. Calves held steady at San Antonio and gained up to 50 cents at Fort Worth.

Spring lambs held steady at San Antonio and Oklahoma City, lost 50 cents at Fort Worth, and gained 50 cents at Denver. Ewes sold steady to 50 cents higher. Goats ruled steady to strong at San Antonio, on larger receipts.

A good volume of mohair sold in Texas this week at 38 to 39 cents a pound for adult and 58 for kid. Wool prices held firm but little trading took place.

Butcher hogs and sows sold mostly \$1 lower than a week ago at San Antonio and steady to 50 cents lower at Oklahoma City. Sows lost \$1 to \$2 elsewhere. Butchers lost 50 to 75 cents at Fort Worth and 50 cents to \$1.50 at Denver.

Dressed beef, veal and mutton sold unchanged to \$1 lower for the week at Chicago. Pork ranged from \$1 to \$5 lower. Lamb varied from \$1 higher to \$2 lower.

All classes of livestock arrived in moderately greater numbers this week than last at both southwest and midwest markets. More cattle came to midwest markets than a year ago, but all markets received far less sheep than last year.

White corn advanced 7 to 12 cents a bushel for the week, barley 2 to 3, and wheat one. Oats lost 5 cents a bushel, yellow corn one-half cent, and milo 10 cents a hundred pounds. Wheat closed Friday at \$2.07 1/2 to \$2.15 1/2 in Texas.

Fewer eggs came to market this week as summer weather got under way, but lighter weights and heat damage resulted in slightly lower per dozen prices. Fryer prices declined a cent or two per pound, and hens eased a little at some markets.

Cotton lost 50 cents to \$2.25 a bale. Middling 15/16 closed Friday at 31.55 cents a pound at Dallas.

Mrs. Allen Hardgrave and children, Charles Allen and Donna, attended the re-burial services of Mrs. Hardgrave's nephew at Abernathy, Texas, Sunday.

Mr. and Mrs. W. E. Rhodes visited in Comanche over the week-end, guests of Mr. and Mrs. Henry Bowden and the Tom Ashley's.

## FARM AND RANCH CHATTER

WITH LAYNE BEATY WBPAP FORT WORTH 6:30 AM Week Days—10:15 AM Sundays

It didn't take long for about a dozen cotton farmers in the blackland west of Frisco to take action when they saw the boll weevils and flea hoppers had had moved in like a pack of hungry relatives.

Faced with the loss of between two and three thousand acres of cotton that normally yields nearly a bale to the acre, they procured the services of an airplane sprayer to give their crop a dosing of 3-5-40 at a cost of \$2.00 and less per acre. Normally a dusting operation, this airplane spraying will be watched for results.

John Santerre has 140 acres in fruit north of Arlington and never wears a hat. Maybe he moves too fast for the sun to hit his sparsely vegetated pate very hard, for he is one of the outstanding fruit men of this section, marketing mostly in Dallas.

In his packing and sorting shed he works dozens of Arlington highschool boys on vacation, and each August, after the work slacks off, he takes a bus load of boys on a trip. One year they went to the Rockies. This year they head east to the Great Smokies, the TVA, and other points.

We saw our first English pug bulldogs the other day at Doss Harden's place near Smithfield. They're creamy white in color except for black marking around the face. Doss is as proud of them as he would be a \$50,000 bull.

Farming by the book can be a help if you temper it with experience and practical horse sense. It helps, too, if the book was written by a competent person. The other day we met a hard working young couple who moved to the farm in February after leaving their jobs as chemists with an oil company. They are depending on books and the suggestions of county agents, soil conservation service experts, and word from the experiment station to guide them through their first years.

Disappointed by their first crop yields, they did what they should have done before they bought the place—had the soil analyzed to see what it could be expected to do. If they don't run out of enthusiasm and money within 3 years, chances are they'll make a go of it.

County farm bureau organizations are picking their queens now to compete in the state contest at the Texas Farm Bureau Federation this fall. We have been invited to take part in these events and after checking with the Redhead, have been able to accept some of them. It's a device, and a mighty good one, to generate more interest among the ladies in farm bureau work. Actually, it is generating interest among the men, too. The queens are judged on more than physical appearance: person-

## MOHAIR PROJECT AGREEMENT SIGNED

Sonora, Tex.—A cooperative agreement between the Texas Sheep and Goat Raisers' Association and the United States Department of Agriculture to carry out a Mohair Market research project has been signed, Sayers Farmer, TS & GRA President told directors and other members at a quarterly meeting here last week.

"We have taken a very important step and now we need the financial backing of every mohair grower in raising our \$10,000 quota. This is the first of several attempts made by the Association to alleviate the mohair situation in which the grower can take an active part. I believe this project will do a great deal to stimulate the mohair market," Farmer added.

The directors recommended to Farmer that he appoint a committee of 20 or more warehousemen and non-warehousemen whose responsibility would be to raise the \$10,000. Farmer stated that he had already talked to a number of growers who had expressed a willingness to donate one-half cent per pound on all of the mohair now in the warehouses. These donations should be turned over to warehousemen, he added, and if all growers took this action the quota would be quickly raised.

Mr. F. L. Thomsen, Director, Marketing Research Branch of the Production and Marketing Administration, U. S. D. A., wrote the Association that the mohair problem would be approached from identically the same view point, and with the same techniques, as would a single firm having a new textile raw material to develop and merchandise. He also inferred that this project would be handled in the same manner as others costing from \$75,000 to \$100,000 and should obtain the same results.

Mr. Brannan says he is staking his political future on his proposed farm plan. Well, a lot of people never thought he'd be Secretary of Agriculture long enough to propose one.

## OUTBREAKS OF ANTHRAX HAVE BEEN REPORTED

(By WILBUR TOMLIN In Lampasas Dispatch.)

Anthrax, recognized as one of the oldest and most destructive diseases known, has broken out in adjoining counties. It is caused by a micro-organism and practically all animals, including humans, are susceptible. The disease usually appears in the acute form that kills an animal in a few hours but may linger on for several days. It is highly infectious and the germ causing the disease is very resistant to heat, cold, drying and exposure to disinfectants. The spores of the organism may live in the soil for years and still produce the disease when a susceptible animal comes into contact with them.

Anthrax usually breaks out in the summer and most often occurs in animals on pasture since the vegetative spores of the germ are native to the soil and are picked up by the animal in the process of grazing. Drinking water which has washed over anthrax infested soil is also a potent source of infection. Infection may also take place when the spores are inhaled into the respiratory tract setting up a fatal form of pneumonia. Wounds and broken places in the skin offer a entering place for germs, and the germ may penetrate the unbroken skin. Dogs, birds, insects, or anything else that is usually attracted by sick or dead animals are potential spreaders of the disease.

It is often impossible to tell when an animal has anthrax without the aid of a laboratory examination because of the short time the animal lives after it becomes sick and because of the similarity of the symptoms with those of other diseases. In areas where anthrax has occurred before, any similar disease that breaks out should be reported to a veterinarian.

Where anthrax appears more or less regular each year, vaccination affords the best means of keeping the losses down. For best results, animals should be vaccinated before the anthrax season or at least before the di-

## CAR CONSERVATION TIPS YOU MAKE BIG ONES OUT OF LITTLE ONES . . . DELAYING CAR REPAIRS

80. Have inspections made regularly to keep minor car disorders from becoming major ones . . . little repair bills from becoming big ones! We have repair parts to keep your car running efficiently—if you see to it that none are wasted through repairs made necessary by carelessness and delay. Observe this rule and let Reid and Walker handle the inspection job. . . we can keep your car in tip-top shape with expert service and work.

**COLEMAN RODEO  
 OPENS GATES NEXT  
 WEDNESDAY NIGHT**

This city in Central West Texas plays host to one of the year's top Rodeo Crowds when the 12th annual Coleman Rodeo opens its gates Wednesday night July 13th for a four day show. The show this year will feature the same rodeo stock as did the show last year which was furnished by the Triangle Bell Ranch. Last year's show caused lots of favorable comment from rodeo fans from all over the state.

For four nights, July 13th, 14th, 15th and 16th, the \$65,000 Coleman Rodeo Association Arena will be packed with an audience of thrill hungry rodeo fans who are assured of a top flight show. Five big rodeo events, the colorful Girls flag race which was originated in Coleman many years ago, specialty acts and a special match-roped roping between two top ropers will make up the program for this show and which will be unsurpassed in the entire Southwest.

Rex Beck of Talpa, Texas, and the roping champion of the Coleman Rodeo will rope against Sonny Edwards of Big Springs, in the matched calf roping contest which should bring roping fans from all over this section of the state. The program this year will open Wednesday afternoon with the traditional Rodeo parade at 5:30 lead by Sam Cobb, Rodeo president. This parade each year is truly a spectacle to behold as it is always about two miles long and features West Texas Cowboys, Cowgirls and children by the score on their favorite mounts. This parade each afternoon with all of its color puts the crowd in the proper spirit to enjoy this rodeo in the evenings.

**CAMP BILLY GIBBONS  
 DEDICATED WITH  
 CEREMONIES SUNDAY**

Decoration With Ceremonies 24 Sunday, July 3rd, was Memorial Day at the new Camp Billy Gibbons, Comanche Trail Council's Boy Scout summer camp in San Saba County. A wreath was placed on the flag base and memorial for "Uncle Billy" Gibbons, who gave the original site of Camp Billy Gibbons, by E. J. Howell, Stephenville, President of the Comanche Trail Council and President of Tarleton State College. Members of the Executive Board of the Council, visitors from all eight counties of the council and some 150 Boy Scouts—a total of more than 300 persons—took part in the dedication.

Scout Oren Newman of Brownwood blew "Taps." A wire recording of the program was made by Calvin Gilliam, who furnished public address facilities. Ray Corder and Lloyd Corder were presented Eagle Scout badges by Council Commissioner Rio Cox of Brownwood. Mrs. J. A. Henry, mother of the Corder brothers, was presented an Eagle Scout miniature pin by her two sons.

The Executive Board, at a meeting, complimented Scout Executive Guy N. Quirl for the many improvements of the new camp. These included a graded road to the camp which was completed recently. Gordon Griffin, Brownwood, conducted the sunrise Sunday school lesson. A bronze plaque, with the names of those who contributed to the construction of the new camp was unveiled. The ceremony was conducted by President Howell.

Color films of the dedication, memorial services and unveiling were made by O. E. Winebrenner and Elmo Letbetter of Brownwood. Fruits and vegetables may be seriously damaged if left in the hot sun after they are harvested. The first newspaper straw poll was conducted in Harrisburg, Pa., in 1824, according to the Encyclopaedia Britannica.

**DON'T DRIVE WITH  
 HEAD TUCKED  
 UNDER DASHBOARD**

AUSTIN—Would you drive with your head tucked under the dashboard of your car?

It's as sensible to do that, State Highway Engineer D. C. Greer said today, as to ignore warning signs along the streets and highways. "Either one represents a case of flying blind," Greer said, "and cars aren't equipped for blind flying."

The Texas Highway Department is cooperating this month with the Texas Safety Association in an effort to impress the importance of traffic markers on motorists and pedestrians alike. "Traffic signs and signals and pavement markings cover almost every situation that can be anticipated, yet the regularity with which they are ignored is appalling," Greer said. "A conscientious observance of traffic signs would help greatly to reduce traffic accidents."

Greer pointed out that traffic signs are easily recognized by their distinctive shapes, even at a distance that makes their lettering illegible. And he urged drivers to increase their own traffic protection by learning what these shapes are. "Round markers are used to indicate approaches to railroad crossings," he said. "The familiar 'crossback' marks the crossing itself. Oblong signs indicate speed limits or other regulatory instructions. Diamond shaped signs warn of danger ahead. Eight-sided signs are used only for stop signs."

**THE COMING  
 COTTON CROP**

College Station—Things, look good right now for the cotton farmer. Texas has better than a fair-sized cotton crop coming up. Fact is, it may be a record year, since the acreage is up quite a bit over last year.

It'll take top-notch care all the way from planting to harvest to beat the 1937 crop, says C. H. Bates, extension farm management specialist of Texas A. & M. College. That year, the nation produced 18.9 million bales. Texas' share of that was 3.1 million bales—about 28 percent of the total. But a big crop doesn't necessarily mean big profits for cotton growers, he adds. How big the profits are will depend on a couple of things. First, how much the cotton grower will get for his crop, and second, what it cost him to produce and harvest it.

The government is working toward a stabilization of price through loans, but it's up to the farmers to look after the cost items. They know it takes big per acre yields to keep the costs down. Tractors, machinery, labor and seed for the necessary replanting are still on the high-priced list, Bates says.

The entomologists say that, on the average, about 15 percent more cotton can be harvested in fields where a good job of insect control has been practiced. For a farm producing 200 pounds of lint per acre, insect control means an extra 30 pounds. Speaking in dollars and cents, that's \$8.50. On more productive land, the increase will be larger still.

Cotton growers need to control the bugs this year as never before for profit sake, Bates says. If a dollar invested in control measures will protect the crop investment and return \$1.50, insect control is a paying-off proposition.

Better yields will keep the profits higher, he concludes, but it all goes back to the business of insect control. Cotton and cottonseed last year brought in about one-third of the South's total cash income. Lint brought in 1-1/2 billion dollars, and cottonseed another quarter billion.

Mrs. Lizzie Barnett has been with her sister, Mrs. R. H. Patterson a' Mullin for the past month. She left Thursday for her home in Holly Springs, Miss. Mrs. Patterson, who has been seriously ill is improving.

During the 4th of July Holiday, guests in the homes of Mrs. J. D. Sims and Mr. and Mrs. R. V. Littlepage were: Mr. and Mrs. V. F. Wallace of Ft. Stockton, Mr. and Mrs. John Gary of Tyler, Mr. and Mrs. Kyle G. Sims and family of Brownwood and I. Y. Sims of Gatesville.

**Family Dog' Pictures For National Contest**

Think your pup's picture is better than the others? Here's your chance to find out! The Goldthwaite Eagle has a word of the second photo contest being held by the Gaines Dog Club, New York, as part of the 1949 observance of the Week this coming. The theme of this year's "Your Family Dog" contest is "Family Dog Pictures." Totaling \$875 are prizes for photographs of family pets or activities in which the family dog could well

participate. This year will be accepted in two classifications: 1. Amateur and 2. Work of a camera club. In each group there is a prize of \$250, a second of \$100, and a third of \$50. In the amateur classification, how- ever, an additional \$25 is given to each of the three winners and \$10 to each of their members.

Entries in this contest are to be done by the use of photographic prints and the winners will be announced during National Dog Week, September 18-24, or as soon after as is practicable. For a request to the contest, contact the Research Center, 250 Park Avenue, New York 17, N. Y., will bring a copy of the official contest rules. Here we can only say that interesting, appealing pictures are desired, with no limit on the number submitted by a contestant. Only unmounted, unretouched black-and-white photographs, irrespective of size, will be considered. Original negatives from winners will be required later, and each contestant must be prepared to furnish, on request, the written consent of the person or persons who may appear in the picture or pictures and from the owner of dog or dogs appearing therein. Prior publication of an entry, save that used in a paid advertisement, will not bar it from the contest, and the sponsor reserves the privilege of purchasing any non-winning photograph entered in the contest at prevailing market prices.

Fourth of July guests in the home of Mr. and Mrs. Marshall Miller, Sr. were their children, Mr. and Mrs. Marshall Miller, Jr., and family of Stephenville and Mr. and Mrs. Sam Smith of College Station. The Smiths also visited his parents, Mr. and Mrs. Joy Fessler.

Mr. and Mrs. J. A. Taylor of Nevada and son, James Albert Taylor, of Oklahoma City, Okla., spent Saturday and Sunday with Walter Fairman.

of Texas have been escaping any series of typhus fever. The total number of cases so far being 133, a steady decrease in the number of this disease. At the same time, it is well known that only continued control measures will prevent this disease in the future. For safety, the health officer, Dr. Geo. Cox, has advised that typhus is one of the most debilitating of all diseases. The long drawn out nature of this factor is usually more expensive to the farmer than his doctor and his medicine. Typhus fever is caused by the rat. The control of typhus depends entirely upon the control of rats. No garbage should be left exposed in any place, as a source of infection, and feed houses should be rat-proofed so that rats are starved out. All rat harborage such as trash piles, piles of old lumber, accessible quarters in the walls and foundations of buildings and other suitable living quarters should be denied them. Houses and business buildings can be effectively rat-proofed at a comparatively low cost, and the expense is always much less than the damage that can be done by rats, and the sickness they can spread.

should be rat-proofed so that rats are starved out. All rat harborage such as trash piles, piles of old lumber, accessible quarters in the walls and foundations of buildings and other suitable living quarters should be denied them. Houses and business buildings can be effectively rat-proofed at a comparatively low cost, and the expense is always much less than the damage that can be done by rats, and the sickness they can spread.

"When the rat is gone, typhus fever will go also", Dr. Cox said. "Keep building out, starving out, and killing all rats, and typhus fever will no longer menace the health of our people."

Farmers can save money if they will buy the water pump best suited for their needs. Three types of water pumps on the market give the farmer a choice, depending on the depth of his well.

Ocean waves reach a height of 50 or 60 feet off the Cape of Good Hope.

**Rivalry Between Fort Worth And Dallas Aired By Texas Poll Today**

**FORT WORTH TO CELEBRATE ITS 100TH BIRTHDAY**

Fort Worth—Preparations for "Fiesta-cade" were in high gear this week on a city-wide basis as reserved seat sales began for the immense outdoor spectacle July 16-23 which will celebrate Fort Worth's first century of existence.

Indian raids, cattle trail episodes, the coming of the first train and other dramatic events in Fort Worth's past are being rehearsed daily by some 2,000 Fort Worthians who have parts in the spectacle. The 300-foot stage which will run the entire length of Farrington Field where "Fiesta-cade" will be given, is being prepared.

The City Council, recognizing that something like this comes only once every 100 years, has amended an anti-fireworks ordinance so that a spectacular fireworks display may be given each night to conclude "Fiesta-cade."

The reserved seats are on sale at the Central Ticket Agency, Hotel Texas, and mail orders accompanied by check may be sent there. Seat prices are general reserved, \$1.80; central reserved sections, \$2.40, and box seats, \$3.60, tax included.

Eleven Texas cities and towns have already announced they will have a special day at "Fiesta-cade" and will send large delegations and an official queen. The visiting queens will be presented at the spectacle. Latest to announce plans are Brownwood and Olney.

**MEDICAL MEN NEEDED**

The U. S. Civil Service Commission has announced an examination for Medical Bacteriologists for filling positions in various Federal agencies in Washington, D. C., and vicinity. Positions in the U. S. Public Health Service throughout the country will also be filled. The salaries for bacteriologists range from \$3,727 to \$5,232 a year. The optional fields of work include: General medical bacteriology, antibiotics, immunology, viruses, and veterinary bacteriology.

Complete information concerning the above examination as well as application forms may be obtained from the Commission's local secretary, Lucille Fairman, located at Post Office.

The "ma-sacs" of cuttlefish yield a pigment used by artists, according to the Encyclopaedia Britannica.

By **JOE BELDEN**  
Director, The Texas Poll

AUSTIN—The long-standing rivalry between Fort Worth and Dallas is illustrated by an anecdote they tell about Amon Carter, well-known publisher of the Fort Worth Star-Telegram.

Carter, so the story goes, was in an airplane over Dallas. He looked down and saw the giant flying red horse on the Magnolia building. Turning to a companion, he exclaimed: "Everybody knows Dallas is a one-horse town; I can't see why they have to advertise it."

This must be a slight exaggeration.

For, in a statewide survey conducted by The Texas Poll, more people said they would rather live in Dallas than Fort Worth. And not a single one mentioned anything about a horse.

Mind you this was an accurate poll. It included correct proportions of men and women of all walks of life, rich and poor, of all ages, farm and city folks, whites and Negroes, living in all parts of Texas.

Seven out of every ten adults questioned took one side or the other, with the result coming out about four to three in favor of Dallas. Eighteen per cent would express no opinion. Seven per cent said both places were about the same. And five per cent labeled both cities by saying neither was fit to live in.

This was the question:

"As between Dallas and Fort Worth, which do you think is the better place to live?"

Dallas	42%
Fort Worth	28
Both same	7
Neither good	5
No opinion	18

Now you shouldn't jump to the conclusion, after looking at the above figures, that most people are getting ready to move to Dallas and Fort Worth.

The fact is most Texans say the place where they are now living is the best in the whole wide state. This is disclosed from their answers to the following questions:

"Of all the towns and cities in Texas, which one do you think is the best to live in?"

"Which would you say is next best?"

Named own community	59%	12%
Named larger community	27	43
Named some other place	8	22

**CHAIRMAN BAYLOR STADIUM CAMPAIGN**

Waco—Appointment of Walter G. Lacy, Jr., president of the Citizens National Bank, as general state chairman of the forthcoming \$1,500,000 Baylor University Stadium Campaign was announced recently by Dr. W. R. White, president of the school.

Lacy's responsibility as general state chairman will be to engineer the drive to finance Baylor's new 40,000 seat football plant. The state-wide campaign will reach into every city, town, and hamlet of Texas as it gets underway in late summer, Lacy promised.

At the same time, Dr. White also revealed that A. Grady Yates, president of the Baylor Ex-Students Association, has accepted the chairmanship of the campaign. Arthur L. Mitchell was announced as chairman of the Waco steering committee for the Baylor Stadium Campaign.

Dr. White expressed confidence that Waco would lead off with a Baylor Stadium Campaign that would inspire great results on the part of other communities in Texas.

**OLDEST TSCW DORM BEING TORN DOWN**

(Special to Goldthwaite Eagle.) Denton—The oldest dormitory on the Texas State College for Women campus, Smith-Carroll Hall, is now being torn down to make way for a new upper-classman dormitory.

Hundreds of TSCW exes lived in the dormitory during its 42 years. It was opened in 1907.

National Farm Safety Week is July 24-30.

No opinion 6 23

Even though most people tell you their town or community is best, the figures above also indicate great appeal of the big cities.

**QUARTERLY DIVIDEND**

The Board of Directors of the Atchison, Topeka and Santa Fe Railway Company declared its usual quarterly dividend of one dollar and fifty cents (\$1.50) per share being dividend No. 146 on the common capital

stock of the company, according to an announcement released by Fred G. Gurley, president, Tuesday. It is payable Sept. 1, 1949, to stockholders of record at the close of business July 28, 1949.

**O. C. FISHER**

(Continued from page one)  
war. That is the only language the Kremlin understands.

"But arms alone will not suffice in this great struggle for peace on earth and for the essential preservation of the American free enterprise system."

"We must be and remain a solvent nation. It has been very correctly said that our first line of defense is a sound, solvent American economy. In that respect we must face the fact that we are NOT making progress. We are spending more than we are taking in. And the demands for more and more Federal spending is terrific. Only recently former Secretary of State Byrnes warned of the welfare state in this country, and he voiced the fear, shared by many of us, that this country may be going down the road to statism."

"In that direction, only last week the Congress passed a public housing bill, which has its good points, to be sure, but which permits payments out of the depleted Federal treasury of up to \$400 million a year for 30 to 40 years to apply on the rent bills each month of nearly a million Americans in low income brackets. The total cost of this project alone may go up to as much as \$15 to \$20 billion. And this is being done at a time when the national income is tapering off and tax receipts are definitely on the decline from the post-war peak."

"Never before has there been a more urgent need for simple, old-fashioned government economy—such as you practice in your own household—than now. And the only way to economize is to economize. If we are to avoid financial disaster, the pruning knife must be applied to those expenditures which are not really essential to the proper functioning of our government; the public payroll should be reduced, and streamlining and elimination of duplication and waste such as is recommended in the Hoover Commission Report put into

effect. Already positive steps have been taken in that direction. Mr. Hoover himself has estimated the resulting savings may approximate \$4 billion annually.

"To accomplish these things requires an aroused expression from the people who pay the taxes, and a more realistic approach to the problem on the part of our leadership in Government, and, of course, on the part of the Congress itself where primary responsibility rests."

"And, so while maintaining a Nation of progress, and doing these things that are essential to a strong economy, we need today to draw more and more upon the pioneer-minded spirit of our people who know that two and two still make four and that a strong and progressive people must produce through hard work, perseverance and that this modern-day 'something-for-nothing' philosophy over the long pull simply will not work."

"And so today when we may be inclined to become fascinated with all the painted beauty, ease and glamor of the welfare state, we would do well to remember that under our own system of private free enterprise, our people are the most fortunate in the whole world. With only 7% of the world's population and about 8% of its landed area, we have under our private enterprise system achieved the highest standard of living of any nation in the world. Here is free enterprise America. We have more automobiles than there are in all the rest of the world combined; more telephones, more radios, more electricity, more food, better schools, hospitals and churches; better medical service, and far more programs on the scientific front."

"Our great progress in this country has resulted from hard work, freedom of opportunity, a free, competitive economy, and a patriotic devotion to the faith and enterprise of our forefathers to whom we pay tribute today. Yet, today, we find many

people clamoring for a change of methods and practices that typify the system of other Nations whose standards are much lower than our own.

"To be sure, we must not stand still. We must move forward and progress as our economy becomes more complex. But that forward movement must be based upon solid foundations. Let us constantly remember that our democracy, our free society system, can not be taken for granted. Our system is not self-perpetuating. It will continue only through the cooperation of the people who by use of eternal vigilance are determined that Communism and other foreignisms shall not succeed in free America."

Nut grass, or coco grass, can be choked out by growing plants that will smother it. Cowpeas and sudan grass will do the job in the summertime, and in the winter, wheat, oats, barley, rye or ryegrass can be planted to control this yard pest.

**Uncle Sam Says**

That old saw about opportunity must be revised. The new version is—Opportunity Knocks but Once—a Week. Every payday you have the opportunity to do something about those things you want in the future. All it takes is a little slice of that paycheck invested regularly in U. S. Savings Bonds. There are two ways to make that future secure—the Payroll Savings Plan where you work or, if self-employed, the Bond-a-Month Plan where you bank. In ten years, every \$3 invested brings back \$4. U. S. Treasury Department

**OLD MAN 100**

(Continued from Front Page)

It Sunday. At one time Sunday morning, over 4,000 would have saved burial expenses if she'd of cared in—whicht she didn't.

Old Humber's a little late with this—but June was the month for gals with a lot of bride ideas. Also, here's another brite saying: One of the greatest labor-saving inventions of today is tomorrow.

Here's a good thing to allus remember: The fly that buzzes the loudest gets swatted the fustest.

When Old 100rt was turning 50 he went to the Doc for a check-up and asked him: "Doc, I don't smoke, drink or chase around with the women. Will I live to be a hummer?" Doc— "No. But it will seem like it."

"Nosy Neighbor—"How do you get money out of your husband? 7th—"Oh, I say I'm going back to mother, and he immediately hands me the fare."

Like to play games? Have a friend think of any number under 10. Tell him without revealing the number to multiply it by 3. Then to add 1. Next multiply it again by 3. Finally add the number through of. Now ask the friend to tell you the resultant number. You immediately tell him the number he first thought of. It will always be the left-hand digit in that resultant number.

Also, when you hear somebody speak of the "status quo," it's Latin for the mess we're in.

Onct Old 100rt was living on a farm and looked up in a big tree to see a parachutist dangling forlornly. He said to O. H., "I was trying to make a record."

O. H.—"Reckon you did it, stranger. You're the first man in these parts to climb down a tree without climbing up first."

This here happened here in town: Visitor—"And what will you do, little girl, when you get as big as your mother?" Little Girl—"Diet."

Onct Old 100rt was in the army, when the sergeant asked: "Did you shave this morning?" 100rt—"Yes, sir." Sergeant—"Well, next time stand closer to the razor."

Newspapers say they is a craze

among the gals to knit their own bathing suits. All that is necessary in the way of yarn is to unravel one old sock.

**THOUGHT FOR THE DAY—**

A little flattery now and then Makes husbands out of single men.

Librarian—"I trust you found the novel interesting." Patron—"Oh, the book wasn't so much, but that letter some one left in it for a bookmark was a lulu!"

Old 100rt figures not to go on a vacation this year. Last year he sent back a telegram to the 7th and they got it mixed up some: "The scenery is here—wish you were beautiful."

Lee—"Where are you going on your honeymoon?" Sue—"To France. John told me last night as soon as we were married he'd show me where he was wounded during the war."

Onct there was a couple who got married and lived happily even after. (Copied from Aesop's Fables).

Also, many an office peach has been canned by the Boss' wife.

And, if she can hold a cigarette and a safety pin in her mouth at the same time, you can be pretty sure she's a modern mother.

A paradox could be two physician.

Onct, about the 4th, when she was going through Old 100rt's pockets one night, she found a card on which was written, "Lucy, No. 25." She asked o. h. how come and he told her it was the name and number of a race horse. A few nights later, the 4th woke o. h. up from a sound sleep and told him, "Your horse wants you on the phone."

**HELL LEARN—**

No man is born A woman-hater; If he marries, That comes later. —American Legion Mag.

**FREE ADVICE—**

Now, people are allus stopping Old 100rt on the street and asking him if he thinks he's so smart, are we in the begin-

ing of, middle of, or at the end of a Republican Recession or a Democratic Depression. After being in the weather profiting business here for three years, O. H. has learnt to keep his mouth shut tight when anybody asks him about: 1) the weather, 2) style changes in women's clothes, and 3) how much money, if any, he'll have in 3 months. Now, if everybody in Mills County had lived up to o. h.'s famous slogan—"save your dullers and let nature take its course"—when he fust thought it up two, 3 years ago, our citizens would now have plenty of dullers and we'd also have plenty more citizens. That was good advice o. h. was giving free then—and o. h. wishes now he'd taken it his ownself. Only trouble is, the people that are smart enough to take free advice, don't need it, and the one's that need it ain't smart enough to take it.

**HEAVY THINKERS—**  
Old 100rt thinks we have the best gov't in the world—but too durned much of it. A third of our seleries, if any, are now goes for taxes as part of this is to pay for fancy thoughts for the ways we can improve. These surplus 700 million US payers 3 billion extra, and o. h. makes a vor of keeping them while every time they something they want away more billing the Atlantic that some taxpayers. When Old gits elected Pres. in going to pass a rat bill is to be no thinking about by any one that is with the gov't.

Reporter—"Do you see early marriage?"  
"Certainly, I always been early in the days. Nowadays when a man tent with his lot he has a house on it."
