Face-Lifting Of Bayou Bridges Proceeds Apace

Unless you are Mrs. Delton "Unavee" Barnett, to whom a bridge is a mere luxury, you will find that crossing the Pecan Bayou will be something of an adventure for a little while unless you are equipped with a submarine.

(Mrs. Barnett gets into this story because she does not give a fig for bridges; she just drives right through the turbid stream—as she did during the past week when she was of a mind to progress from Rattler (Jones Valley) to Goldthwaite. See Mrs. Lois Hudson for a Certificate of Achievement for Mrs. Barnett.)

Getting down to cases, this story has to do with the fact that while Walter Summy of the Texas Highway Department was hard at work on the Pecan Bayou or "Slack" bridge on the Hannah Valley Road, the Mills County Commissioners Court decided to repair the bridge over Jackson's Crossing on the Mullin-to-Ebony road.

Last Monday, the members of the Commissioners Court inspected the bridge at Jackson's Crossing—north of Mr. Summy's activity—and decided to reconstruct it, under the supervision of Commissioner K. B. Henry of Precinct number 3. About one-third of the Jackson's Crossing bridge is to be torn off on the Mullin side of the Pecan Bayou. A new approach, of rock and earth, is being built above the high-water mark. The remainder of the bridge is being repaired by adding new runners and new flooring, where needed, according to County Judge Lewis B. Porter. Work has been in progress for several days.

Judge Porter said that the Jackson's Crossing bridge has steel and concrete pillars and "T" beams that were replaced by the United States Army. The Army's beams are in perfect condition and the bridge is further supported by cables that are set in concrete and steel.

Judge Porter said that since Jackson's Crossing is a County bridge, all four of the Commissioners are furnishing machinery and men for the repair job, which is expected to be completed within two weeks. Work will be finished before the re-opening of the schools on September 4. Meanwhile, the low-water bridge at Jackson's Crossing that was built by the Army is in use, and will continue to be in use since no high-water is in sight.

So far as the Pecan Bayou bridge on Hannah Valley or farm-to-market road number 574 is concerned Mr. Summy said this week that repair and painting work should be completed very soon—probably within the next couple of weeks.

So long as there is no high-water, the U. S. Mail is crossing the Pecan Bayou daily and by the time the schools re-open, the buses will be able to cross just as though there never had been any repair work.

Vacation Trip

County Treasurer Bertha Weathers, accompanied by her son, Franklin Dew Weathers, and Mr. and Mrs. Aaron Vines, plan to leave Sunday for a vacation in Hobbs, and other places in New Mexico.

Undaunted by an interruption in his studies when he was severely burned in a chemistry laboratory accident last June 14, James T. Soules, son of Mr. and

JAMES T. SOULES

Mrs. Luther H. Soules of Goldthwaite, received his Master's degree in Agronomy at Texas A. and M. College on August 10. Mr. Soules, who was bed-ridden for seven weeks following the June accident, has received a government appointment to Costa Rica. It becomes effective September 1. He will arrive in Goldthwaite during the coming weekend to visit his parents, relatives and friends.

A veteran of four years of Military service during the last war, Mr. Soules was graduated from the Goldthwaite High School in 1939. He served in the Army Air Force and was discharged as a second lieutenant.

Sgt. A. J. Dankers Writes From Korea

Two letters from Korea have been received in Goldthwaite by Mrs. A. J. Dankers, daughter of Judge and Mrs. Lewis B. Porter. Her husband, Sgt. A. J. Dankers of the Headquarters Company, Second Division, arrived in Korea on August 4 from Fort Lewis, Washington. He added that when he arrived, part of his Division already had established contact with the Korean Reds. Sgt. Dankers forecast that it would require some time to drive the invading Korean Communists back to the 38th parallel.

Ben Day Urges Local Lions Club To Aid In Boosting Soil Production

The urgent need for more soil-building cover crops in Mills County and the constructive suggestion that this year's Mills County crop of 22,000 pounds of Madrid clover seed be planted right here at home were emphasized by Ben R. Day of the Soil Conservation Service in an address before the Goldthwaite Lions Club at the Hangar last Tuesday noon.

Mr. Day, of the Goldthwaite Work Unit of the Soil Conservation Service, called upon the members of the Lions Club to assume leadership in an effective campaign to see to it that more ranchers and farmers engage in the planting of cover crops for the purpose of increasing the production of the County's most valuable asset—the land.

"We can increase our soil productivity only by the use of soil-building crops," Mr. Day said. "Legume crops—vetch, peas and clover—can double the yield of our land."

Mr. Day pointed out that some 70,000 acres are planted to

Fire Protection In County Areas Is Planned Soon

Fire protection for County areas outside the City of Goldthwaite will be available soon as the result of an agreement between the City and the County.

At the last meeting of the Goldthwaite Municipal Council an arrangement was accepted under which the County will share in the costs of the Goldthwaite Volunteer Fire Department. Such an arrangement can be effective only when new equipment, now being prepared, is in operation.

The County's share of the Fire Department's operating costs is to be \$4,000, but since the principal beneficiary of the impending arrangement will be Precinct 1, represented by Commissioner Jess Y. Tullos, half of the County's responsibility will be assessed against Precinct 1.

Under existing conditions, it is not possible for the fire truck to leave the City of Goldthwaite. However, with new equipment and by retaining the present truck, Goldthwaite firemen in the future will be able to go to the assistance of county neighbors who suffer from fires.

A two-ton Chevrolet truck chassis already has been purchased for the Fire Department. It will become operational after a tank and pump have been mounted on it.

Discussions regarding city-county cooperation in fire fighting have been in progress for some time but no conclusion could be reached until the availability of new and additional equipment for the Goldthwaite Volunteer Fire Department became assured.

Red Sox Travel

The Goldthwaite Red Sox, who qualified as competent circus performers in the ninth inning of the game against Llano last Saturday night, will play Fredericksburg tomorrow night, Saturday at Fredericksburg. Last Friday night the Red Sox walloped Llano by a score of 15 to 3. Any arguments by fans who tottered up a different score are referred to Manager Howard Hoover. He said the score was 15 to 3 against Llano.

Earl Summy Issues Ballots For Absentee Voters In The Runoff

County Clerk Earl Summy announced this week that so far 40 Mills County citizens have applied for absentee ballots so that they may record their choices in the August 26 runoff or second Democratic primary election.

Mr. Summy said that he will continue to issue absentee ballots to applicants until the deadline, which is Wednesday of next week.

A sample ballot of the sort that will be used by the voters when they go to the polls again on August 26 is printed elsewhere in this week's Eagle so that the citizens may study it before they go to the election booth.

In Mills County, chief interest appears to center in the race for Lieutenant Governor, which finds Ben Ramsey opposing Pierce Brooks; in the campaign for Sheriff, in which C. F. "Stub" Stubblefield opposes W. W. "Bill" Fox; and in Precinct 3, where Albert Schuman of Priddy is challenging K. B. Henry, the incumbent County Commissioner.

This reporter went searching for candidates as the Eagle went to press this week just in case they might have some-

thing to say. At the Court House he encountered Justice of the Peace E. A. Obenhaus, who took a look around the Square and then said:

"I guess you'll have to go to the woods to find the candidates."

Stub Stubblefield—before he went back to the woods, if that is where he went—said he was conducting a clean campaign and hoping for the best. Stub has some new election wrinkles. One is a packet of matches with his photograph thereon. Another is a card, also with photograph, that Stub hangs on door-knobs. The idea is to avoid calling citizens to the front doors of their homes but it serves as reminder that Mr. Stubblefield will be looking for votes, right through August 26.

No statement was forthcoming from Bill Fox because Mr. Fox was nowhere in sight. The last heard from him was that he knew nothing about politics anyway.

Elsewhere in this week's Eagle there is a statement by Albert Schuman in his own advertisement in which he offers Precinct 3 voters an opportunity for a "change." Mr. Henry, of course, does not advocate a change.

Strenuous Knox Fixes Up The Gym

If you think it is too hot for football, then cool off by thinking of the good basketball games ahead. With not a hair out of place and with no sweat (perspiration) in evidence, Coach Carl Knox wandered into the Eagle office this week to announce that the floor at the school gymnasium has been refinished, that it has been marked anew and that all is set for strenuous times ahead. It must be wonderful to be athletic. (It should be obvious that this reporter's idea of exercise is reclining in a siesta chair.) The football field at the School also is green and velvety.

Mark Fairman Home

Texas State Highway Patrolman Mark Fairman, whose headquarters have been at Pecos for the past six months, visited his mother, Acting Postmaster Lucile Fairman this week. Patrolman Fairman stopped off in Goldthwaite to visit his mother and friends while en route between Pecos and Austin on official business. He made some hearts go pitty-pat.

Weather Report

Goldthwaite needs rain. Except for a shower early this week, that was measured at 40 of an inch on Harry Allen's gauge, there has been no rain in Goldthwaite for more than two weeks. At various points in the County there has been some precipitation that has varied from sprinkles to showers but everybody agrees that a nice soaking rain would be very welcome, indeed.

Lovelaces Return

The Rev. and Mrs. Ed H. Lovelace returned to Goldthwaite Wednesday night from a vacation trip that took them through southern Colorado, to Salt Lake City, to Yellowstone National Park, the Grand Tetons, Colorado Rocky Mountain National Park and Colorado Springs, including Pike's Peak.

Brother Lovelace will occupy his pulpit as usual at both morning and evening services of worship next Sunday at the First Methodist Church in Goldthwaite.

Mr. and Mrs. Joe Dennis of Ranger were Sunday guests of her brother, Mr. and Mrs. J. H. Long, and his father, J. F. Dennis.

Football Squad Is Working Hard But Needs More Heft

Coach Carl Knox and Assistant Coach Jack Locklear, who have been working since last Monday with the Goldthwaite High School football players,

sent out a call this week for more material with the assurance to all eligible pigskin artists that it is not too late to report for training.

In fact, if the Goldthwaite Eagles are to have a top team, there must be more players out for practice, Coach Knox said.

The Eagles' first game will be on September 8 at Hamilton. Last year Hamilton defeated Goldthwaite 36-0. The remainder of the 1950 schedule is printed in an adjoining column. It shows the first home game to be against Burnet on October 13.

Since last Monday, Coaches Knox and Locklear have been working hard with the material that has reported so far. On Monday there were shoe-sizes and physical examinations by Dr. M. A. Childress.

Then, starting last Tuesday, the football squad has worked out every morning at the Ball Park from 7:00 o'clock to 9:00 o'clock. Every afternoon there has been skull practice at 2:30 o'clock at the High School and, from 4:00 o'clock to 6:00 o'clock, the players have worked out again at the Ball Park, with Jack Locklear concentrating on the line.

Next Sunday afternoon, selected players will go to training camp at Wrinkle's Place on the Colorado river with Coaches Knox and Locklear and a couple of cooks.

Accountant Sets County Surplus From Roads Fund

The precincts of Mills County and the respective Commissioners thereof have some \$18,441.93 to spend around as this County's share of the surplus in the County road and district highway fund.

It takes some arithmetic to figure it out but, according to a report to the Commissioners Court last Monday, Chief Assistant Joe Nelson certified that Mills County is entitled to \$20,061.93 as the County's share of the surplus mentioned above.

The fly in the ointment is that Mills County owes to the fund \$1,620.00. By a process of deducts, which already may have taken place, that leaves a balance due of \$18,441.93. It will be apportioned equally among the four precincts that are represented on the Commissioners Court.

The session of the Commissioners Court that received and approved the report by Chief Accountant Nelson was attended by County Judge Lewis B. Porter, Commissioners Fred Wall, K. B. Henry, J. Y. Tullos and J. Frank Davis, and by Sheriff Wiley L. Mahan and County Clerk Earl Summy.

The Court also voted to approve Sheriff Mahan's supplemental assessment rolls and his delinquent and insolvent tax rolls.

GROWING SUPPORT FOR BEN RAMSEY

The conviction of the top editorial writers in the State that Ben Ramsey is the man for Lieutenant Governor of Texas was emphasized again last Sunday when again, the Houston Chronicle and the Fort Worth Star-Telegram devoted their leading editorials to cogent reasons as to why Mr. Ramsey ought to be elected. We hope that Mills County voters who did not cast their ballots for Mr. Ramsey in the first primary will reconsider and give him their support in the August 26 runoff. His experience in public life, his program, his contributions to the greater welfare of his fellow-citizens and the dignity and fairness with which he has conducted his campaign should, it seems to us, commend him to the voters. We have known many politicians and many men who aspired to high positions in political life. On the basis of personal acquaintance with him, our belief deepens with every passing week that the voters will be doing very well for themselves if they put Ben Ramsey back into public office. We have rarely met a man so qualified for the office he seeks as Ben Ramsey is qualified. Further, we have rarely met a candidate who could give to the voters the pride they can be sure to have if Mr. Ramsey wins in the runoff.

WATCH RED CHINA!

We have been listening to some news commentators on the radio; they have been peddling some wishful thinking to the American people about China. Such bosh can be both dangerous and disillusioning. Any idea that Russia is in trouble with China is so far-fetched that, as an Old China Hand of many years standing, we raise a howl of protest. The way some of our newspapers and the way some of the radio commentators go on about it, all we have to do in Asia is chase the Red Koreans up to the 38th parallel, dust off our hands and ask, "What Next?" It would be just dandy, if things would work out that way, and if Mao Tze-tung, the leader of the Chinese communists, would pull a Tito against the Kremlin. But he won't. Except for the Red Regime in the Kremlin, the oldest Communist government in the world is in China. After the Bolshevik revolution in Russia, the Communists turned first to China, where there has been a Communist regime ever since 1927. Generalissimo Chiang Kai-shek chased the Chinese Reds all over the map, but he never was able to lick them, thanks to the Japanese and the American Department of State. Moscow has trained more Chinese in Russia than persons of any other nationality, and any notion that the Red Chinese are likely to upset the Communist applecart can be only misleading to us. If anything, the Chinese Communists may be considered as quite ready to help to fight us in Korea; probably they will before it is all over. Conditions are bad in China, but there is nothing new about that. Famine, pestilence and poverty always are with the Chinese but they never have kept the Chinese from fighting as their masters have ordered them to fight. The Kremlin can decide to fight to the last Chinese and Mao Tze-tung will happily tell his people to follow Moscow's orders. He is just as much an instrument of the Kremlin as if he were a member of the Politburo; anything you may be told to the contrary can lead only to disappointment if you believe it.

The indoctrination of the Chinese by Russia against the United States has been one of the most complete propaganda jobs ever accomplished anywhere.

A REALLY INSTRUCTED DEMOCRAT

Mills County Attorney A. M. Pribble came to the Eagle office the other day to enter an exception to a recent page one news story that said our delegates to the State Democratic Convention at Mineral Wells on September 12 would be uninstructed — that they would improvise their strategy at the Convention. Mr. Pribble said that one of the local delegates to the Mineral Wells Convention already is thoroughly instructed and that his strategy has been planned for him in advance. That delegate was identified as Mr. Pribble. He said he has his instructions — from Mrs. Pribble. Exception noted, Mr. Pribble. We feel certain that you have been well instructed; we doubt that your instructions can be changed by your fellow-delegates — Joe A. Palmer, Allen Campbell and George Fletcher. Also, we noted that you did not disclose the nature of your instructions from Mrs. Pribble.

The first bale of cotton brought to this market for the season of 1900, was marketed here yesterday morning, August 17, by Mr. Jui Kauhs, an industrious farmer, who lives a few miles south of town. By a vote of 283 to 12, the House last week passed and sent to the Senate the expanded bill, giving the President sweeping powers to control the nation's economy. The measure includes permission to impose wage and price controls and rationing. The use of these powers would be discretionary with the President. There is no mandatory requirement that wage and price controls be imposed at the same time.

This failure to tie wage and price controls together was, in the minds of many of us, a mistake. Repeated attempts were made to amend the bill so as to make it mandatory that the President control wages if he should control prices. We know from past experience that if prices are controlled but wages left free to go up, the result is increased cost of production and a scramble to the black markets.

The bill goes further to empower the President to require acceptance and priority fulfillment of all national defense contracts, and authorizes him to requisition any materials or facilities he considers necessary to the defense effort.

The President could set up a system of priorities and allocations to insure a supply of critical materials for defense plants. He could also either make or guarantee loans for defense purposes up to a total of \$2 billion.

The measure also includes authority to control consumer credit, but restricts the control of real estate credit to new construction or extensive renovation. And it would be a criminal offense to board food, clothing or other "necessaries".

In addition to credit controls in an effort to curb the trend toward inflation, new taxes are believed essential. A new wartime tax measure is now in the making, and we can all expect our income tax bill to be upped during the life of this emergency.

The question of whether price and wage controls and rationing will be resorted to by the President will probably depend upon the success of the other controls to stem the tide of inflation and will also depend upon the people themselves. Hoarding and excessive buying means shortages and that in turn means higher prices. Enough of this, including the abuse of credit, can, of course, cause high-price spirals which, when applied to necessities can have a serious impact upon the average family and upon the nation's economy.

ECONOMY?

At a time when the war effort is changing the entire picture of American business life, D. D. Tate came into the Eagle office with some clippings that emphasized the imperative necessity of reducing the awful waste of Government. Some of the items from Mr. Tate's exhibit showed that:

A government agency in Washington has a supply of fluorescent light tubes to last 63 years — packages of ruled paper enough for 168 years — loose leaf binders enough for 247 years at the present rate of use — a supply of tracing cloth sufficient for nine years.

Many, many other examples of sheer waste and hoarding can be cited against the Government, which should put its own house in order if it is to have the citizens respect its pleas against hoarding.

The County Clerk issued marriage licenses last Saturday to Seth Price and Miss Fannie Hillard, and on Thursday he issued license to T. C. Grigg and Miss Mary A. Doggett.

The Eagle's Ae
By The Editor

Once again, this country finds itself caught up in a great controversy over Universal Military Training. The Department of National Defense is for it. So is the White House. On a national level, compulsory military service, or conscription of our young men, has been endorsed by the American Legion. On the other hand, there is bound to be much opposition, partly by religious groups and because, in principle, conscription is repugnant to Americans.

In years past many persons came to this country, became Americans and contributed a great deal to making our country great because they were fed up with Europe's wars and wanted to escape compulsory military service. Their objections to conscription have been passed on. Other nations that had a history of militarism made conscription the basis of it and Americans, with no aggressive intent anywhere in the world, have a deep-seated aversion to what is known officially here as Universal Military Training.

The problem we face, however, is not our intentions. Our problem is the aggressive, imperialistic program of Red Russia. Our problem is self-preservation. Already there is grave doubt that we have sufficient time in which to prepare adequately to meet the challenge. We have been forced into the expedients that always come with war and the realistic question we have to ask ourselves is whether, by opposing conscription, we are willing to have the best of our young men go into combat ill-prepared to defend themselves.

In the last war, we sent many young men into battle without enough training. Many of them died. Many others were maimed for life and they are living out their lives not as whole men. In Korea, we have sent inadequately trained men into combat and we ought to face-up to the fact that Communist successes in the curtain-raiser to World War III during the past two months have been due to our own unpreparedness and to the preparedness of the enemy.

As we wrestle with our souls on the issue of Universal Military Training it is to be remembered that Russia has it, that there is conscription in all of the satellite States, under the control of the Red Army, and that wherever the Reds are in control throughout the vast reaches of Asia, men of all ages — and women, too — are pressed into military service without regard for age or physical condition. Where the enemy is in control, human beings are considered expendable. We are tremendously out-numbered by an enemy who has a mighty reservoir of manpower and who does not hesitate to use it as cannon-fodder.

In the situation in which we find ourselves, it is to be remembered, also, that our self-preservation depends upon ourselves. In theory, the war in Korea is a United Nations war — but the men who are fighting and who are being wounded and who are dying are American G.I.'s. Other members of the United Nations have given lip-service to the cause against Red Imperialism, but when it comes to sending troops into action, the troops are Americans; it will continue to be that way as the war spreads, and as more and more persons come to realize how bitter a struggle for survival

Garden Club Looks Forward To Fall

The first authentic sign of
the impending end of summer
came this week when Mrs. T. M.
Glass, Chairman of the Flower
Show Committee of the Goldth-
waite Garden Club, issued a re-
minder to all members and other
interested persons that now
is the time to "plant your
flowers for the Fall Flower
Show."

Mrs. Glass said that definite
plans for a Fall Flower Show
will await the first autumn
meeting of the Goldthwaite
Garden Club next month. If
plans for the Show materialize,
it is probable that it will be held
some time in November. Accord-
ingly, Mrs. Glass issued her re-
minder about planting time.

Entries by flower-lovers other
than Garden Club members will
be welcomed by the Club, so the
reminder by Mrs. Glass applied

Lindsey Family Has Big Reunion At Weston Place

The children of the late C. W.
Lindsey and their families, in
accordance with a custom of the
past decade—except for the
war years—held their reunion
on the first Saturday and Sun-
day in August in the A. G.
Weston pasture on Brown's
Creek.

At this year's reunion, there
were 155 persons present, all of
them related by blood or mar-
riage. They came from Hous-
ton, Dallas, Fort Worth, Lamesa
and from many points on the
South Plains.

Among the heads of families
who were present were W. G.
and S. J. Lindsey of San Saba,
M. C. Lindsey of Andrews, A. G.
Weston of Mullin, who was the
host; Clay Lindsey of Fort
Worth, Adam L. Lindsey of
Brownwood, Ward Lindsey of
Springtown, Joe Wheeler Lin-
dsey of Stamford, S. T. Cox of
Albany and Walter Williams of
Lamesa.

In reporting on the reunion,
W. G. Lindsey, who formerly
taught school in Mills County,
said:

"We had a wonderful time,
eating barbecued goat, all kinds
of cakes and pies, and some
high-powered beef steak. We
sang songs and told jokes—in
fact, we had just a good, old-
fashioned picnic."

Twelve of the Lindsey child-
ren still are living, while Her-
schel, Dora and Lansing are de-
ceased. All but one of the
children Johnnie, were present,
and his family was in atten-

5 and 6.

The Lindsey family hopes to
have another reunion on the
first Saturday and Sunday in
August of 1951.

Christian Science Services

"Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 20.
 The Golden Text is: "Blessed be the name of God for ever and ever; for wisdom and might are his: . . . he giveth wisdom unto the wise, and knowledge to them that know understanding" (Daniel 2:29, 21).
 Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let this mind be in you, which was also in Christ Jesus" (Philippians 2:5).
 The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "When we fully understand our relation to the Divine, we can have no other Mind but His,—no other Love, wisdom, or Truth, no other sense of Life, and no consciousness of the existence of matter or error" (page 205).

Star News

By DORA GOODE

A little green car stopped at our front gate one afternoon last week and Herbert Waddell and son and daughter, Charles Edgar and Dessie, came in. Edgar has been at home for a visit after some army schooling at Cheyenne, Wyoming. After a little visit with us, Edgar said, "I'm off for Japan in the morning, Christian. Taking mother and Barbara, Dessie and dad with me, clear to the water's edge when the gang plank comes down, and then it's goodbye." Christian hesitated a moment for a last word and said, "May God be with you Edgar, old boy." And another bright life goes into the meshes of war.

Rex Goode came in home last week from California and expects to stay in Texas.

Floyd Rickle, who is working near Fort Worth, was at home Sunday.

The Church of Christ meeting closed Sunday night.

Mr. and Mrs. Charlie Rickle visited over the week-end in Kermit with their daughter and family, Mr. and Mrs. David Beard. Mrs. Rickle is staying for a longer visit.

Herman Lee has been quite sick for several days, and was taken to the doctor, Monday.

Tuesday afternoon of last week Lee and Imzie Goode rushed out the front door with, "It's Mommie, Mommie!" And sure enough it was their mother who slipped in on us for a visit. They returned with her to Oklahoma City for a visit, but will be back home again some time this week.

Mr. and Mrs. DuPuy have returned home after a week's stay in the Center City community.

Charlie Hunter, and his sister, Mrs. Snodgrass, of Hamilton are visiting relatives in Arkansas and Mississippi.

Mr. and Mrs. J. C. Witty are building a new home south of Star up Paradise Hill.

Mr. and Mrs. Winfred Sheldon are also remodeling their home north of Star to make it modern

Our Miss Nix, Tongue In Cheek, Tries But Fails, To Josh Boss

Miss Earlene Nix, whose vacation from her duties and pleasures at the Eagle will end this week (thank goodness), has

been touring Oklahoma, Colorado and Kansas.

Soon after her vacation was supposed to have started officially, there was some doubt that it actually had started inasmuch as she was seen by an Eagle spy at Hudson Drug, which is on the advertising beat assigned to Miss Nix. Subsequently, however, a postcard sent by Miss Nix from Canyon, Texas, was received by the editor.

The postcard was mailed on Thursday, August 10. That was a publication day. The postcard was postmarked 4:30 p. m.

"Have you gone to press yet?" Miss Nix asked. Yes, Miss Nix, the Eagle was in the Post Office before 1:30 p. m., on August 10.

"Having a wonderful time," Miss Nix went on to say. That portion of her missive was accepted at its face value.

Tommy Ann Booker To Teach At Star

Miss Tommy Ann Booker, daughter of Mr. and Mrs. Thomas G. Booker, will teach home economics in the Star schools during the coming academic year.

Last week, Miss Booker attended a special home economics refresher course at Rice Institute in Houston in preparation for her forthcoming work at Star.

Miss Booker, who was graduated from Goldthwaite High School in 1946, subsequently studied at Tarleton State College and at the North Texas State Teachers College. She has won high honors in her college work.

Mrs. C. A. Simpson May Return Home

The mail this week brought a good letter to the Eagle from Mrs. C. A. Simpson, who has lived in Grand Prairie for the past two years but who is so homesick for Mills County that she may move back to Goldthwaite before too long.

"I can't keep house without my home-town newspaper, which I do enjoy reading very much," Mrs. Simpson wrote.

Mrs. Simpson's daughter was married recently and Mrs. Simpson is anxious to return to Mills County, where she was born and where she spent most of her life.

Mrs. Earls Opens Cafe; Welcomes All

That empty space just south of Harry Allen's tin shop on Fisher Street happened a couple of weeks ago when the structure that was the Red and White Cafe was jacked up and trucked away on orders by Mrs. Lincoln Earls. The building now is on the San Saba road, just south of Goldthwaite, where Mrs. Earls has opened the Hi-Way Cafe, specializing in excellent food and especially roasts - chicken and beef - for Sunday dinners. Mrs. Earls says that she does the cooking herself at the Hi-Way Cafe, and she is most anxious to have her friends visit her there.

Mr. and Mrs. R. E. Worley attended the Texas Poultry Men's Association Convention at Fort Worth last week. Mrs. Worley also visited with Mrs. Floyd Fox.

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948:

"Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Mo.
"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerably. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble."

Football Squad

(Continued From First Page.)
The squad now, the positions for which the boys are working, and their weights shapes up as follows:

James Partridge, tackle, 185; Bobby Letbetter, guard, 148; Tom Earls, back, 134; John D. Stark, back, 125; Jimmy Hayes, end, 150; Hobson Miller, back, 116; Gene Saies, back, 131; Wayne Long, tackle, 170; Dizzy Clifton, back, 155; Bobby Wilcox, center, 133; Joe Hammond, end, 130; Alvidoye Roberts, back, 175; Billy Anderson, back, 170; Jimmy Elliott, guard, 145; Bill Sebolt, guard, 115; John Gilliam, guard, 136; Harvey Parker, tackle, 200; Wayne Wicker, center, 145; and Kenneth Hanson, end, 145.

Players from the eighth grade have not yet been named for the roster. Also, Coach Knox said, additional members of the squad, especially boys from farms and ranches out in the country, are expected to report after school starts on September 4. They will bring some more heft and material to the squad.

"We are hard at work but we are making no predictions," Coach Knox said. "Both the picture and the prospects will be clearer after September 4."

Ten of the boys now in training have had no previous football experience and Coach Knox's first squad in Goldthwaite is obviously on the light side. But enthusiasm is high.

Last year the Eagles came out fourth in interscholastic competition in District 22-A. Last year the "T" formation was the standby of the Eagles but this year Coach Knox, a protege of Dutch Meyers, plans to use the split "T" and the TCU spread.

Coach Knox was graduated from TCU in 1948. He made a big reputation for himself as tall back. He has had coaching experience at Midland High School and last year he coached the frosh players at TCU.

Assistant Coach Locklear also will serve as Principal of the Goldthwaite High School.

Eagle's Eye

(Continued From First Page.)
From their seething that they leaned much more toward Moscow and the evil. Collective mind of the Kremlin than toward Thomas Jefferson. How an enemy of the United States and the principles for which America stands could find refuge in Texas is beyond me—but I think it is time that people in Goldthwaite and readers of the Eagle beyond Mills County understand that Communism and Party-Line followers are not just scum remote from us and in Union Square in New York City, but are right here on our own doorstep.

There will be a glad day for every loyal American when America awakens to the peril within our own gates. The task of dealing with traitors is not hypothetical; it is with us in our daily lives—as all of you would understand if you could have seen some of the letters that I have tossed into my trash-basket recently with the utter contempt that they deserved when they were written without the benefit of an honorable man's signature.

If a newspaper such as this, with a circulation of 2,100, attracts the interest of the enemies of the United States, then perhaps you can understand how alert are the Reds, while so many persons remain apathetic to the basic struggle in the world—the fight for the control of the minds of men.

That is the basic struggle—the fight for the control of the minds of men. Free speech, a free press, freedom of assembly and freedom to earn a living independently of the State—along with freedom to worship God—are principles that drive the Communies and the fellow-travelers into a frenzy of even cowardly writing of anonymous letters. They know that so long as there is any freedom anywhere in the world, their system of slavery and tyranny is in danger. Brothers and sisters, they sure need to catch up on some of the facts of life in a free world when they try to scare or threaten an American newspaperman. To such tactics he reacts only one way—with disgust and contempt; with a new resolve to fight for freedom.

This little newspaper, published in a rapidly shrinking island of freedom, will continue to speak its mind and to strike against any challenge to freedom anywhere. While doing so, it will be contemptuous of cowards in full realization that those who resort to tactics that are repugnant to Americans are plain, downright yellow.
