Traffic Safety Campaign Reduces Offenses After Warnings, Charges

Glen Nickols And Carl W. Senger Plead DWI Guilt

Two cases involving charges of driving while intoxicated were disposed of during the past week in County Judge Lewis B. Porter's Court.

Last Tuesday Carl William Senger pleaded guilty to a DWI charge that had been filed against him by Texas Highway Patrolman Billie R. McElroy. He was fined \$50.00 and costs and his license to operate a motor vehicle was revoked for six months.

Also on Tuesday of this week Glen Nickols pleaded guilty to a DWI charge. He also was fined \$50.00 and costs by Judge Porter and was placed in the custody of Sheriff C. F. Stubblefield pending payment of the penalty. Loss of license to operate a motor vehicle also was automatic.

Settlement of the Glen Nickols case last Tuesday represented reversal of an earlier plea of not guilty that had been made by the defendant in Judge Porter's Court some time ago after he had been arrested on Hanna Valley Road by Sheriff Stubblefield and Deputy Sheriff Clyde Cockrum.

O'Bannon Hurt

Vernon "Pete" O'Bannon, who is employed on the Shady Oaks Ranch south of Goldthwaite, suffered severe injuries last Saturday night when a car driven by a man from Brownwood crashed into his pickup near the County line on the Lometa highway. Sheriff C. F. Stubblefield said that Mr. O'Bannon, who received emergency treatment at the San Saba Memorial Hospital, later was removed to the Scott and White Memorial Hospital in Temple. Deputy Sheriff Clyde Cockrum, who investigated, said that no charges were filed as a result of the accident.

Mills County Minors Caught In Act Of Stealing Sheep From Field

Two Mills County young men—both of them minors—whose escapades frequently bring them to the unfavorable attention of the public—are to be dealt with as juvenile delinquents in the Lampasas County Court after having been caught red-handed in the act of stealing sheep from the ranch of Ernest O'Neal.

Sheriff C. F. Stubblefield said that on a recent night Mr. O'Neal noticed a light in one of his pastures. Law enforcement officers were summoned to make an investigation with Mr. O'Neal.

The investigation disclosed, Sheriff Stubblefield said, that the two Mills County minors were going about the business of stealing Mr. O'Neal's sheep in very systematic fashion. They were equipped both with a passenger car and a

Red Sox Pay Off

City Utilities Manager W. C. Barnett, who has to worry about such matters among his many other duties, announced this week that as result of a highly successful 1951 baseball season for the Goldthwaite Red Sox, the indebtedness on the Goldthwaite Municipal Ball Park was reduced in the amount of \$380.00.

Climaxing a campaign for safe driving in Goldthwaite and Mills County that has been conducted over a period of eight months by Sheriff C. F. Stubblefield, persistent offenders who have been warned repeatedly now may expect to have charges filed against them, the Sheriff said this week.

In his campaign for traffic

safety the Sheriff has been aided by Texas Highway Patrolmen Billie R. McElroy and Jess R. Askey and by Deputy Sheriff Clyde Cockrum.

"As Sheriff I am grateful for the cooperation that we have had from the Highway Patrol in both education and law enforcement," Sheriff Stubblefield said. "We have had also gratifying cooperation from the public with the result that reports of traffic violations in Goldthwaite and Mills County have diminished considerably."

News of the traffic safety campaign coincided with the opening of schools, thereby adding considerably to the peace of mind of parents who had been concerned about their children as they went to and from school.

Effects of the safety campaign by Sheriff Stubblefield, Deputy Sheriff Cockrum and Highway Patrolmen Askey and McElroy were evident on the

Pentagon Pledges Consideration Of County Situation

Assurance that consideration will be given to the effect on Mills County's economic situation of any military plans for land acquisition in this area was given this week by Congressman O. C. Fisher to the Steering Committee of which Hollis Blackwell is Chairman and which is devoting itself to preserving the economic security of the County.

E. B. Gilliam, Jr., Advisor to the Steering Committee, has been advised that Congressman Fisher and Warren Woodward, Administrative Assistant to U. S. Senator Lyndon B. Johnson of Texas, have conferred with the Pentagon in Washington regarding reported plans of the Department of National Defense to use upwards of 80,000 acres in Mills County for military purposes.

Both Congressman Fisher and Senator Johnson have acknowledged receipt of facts and figures regarding the Mills County situation, together with petitions signed by hundreds of citizens urging that Mills County be preserved as an economic entity.

In a letter addressed to Mr. Gilliam, Congressman Fisher wrote as follows from Washington under date of August 31:

"Dear Ed: "Following our telephone conversation, I received the copy of a resolution by the Mills County citizens concerning the possible taking by the government of some 80,000 acres of land in Mills County for use in the Camp Bowie maneuver

Weather News Is Hot And Dry But Winter Is Closer

The weather, continued hot and continued dry, is the cause of a great deal of news.

During the past week Mills County, along with several other Counties in Central Texas, was declared a "disaster area" by the U. S. Department of Agriculture in Washington because of drought conditions. That means that farmers in need of cash and who may not be able to obtain loans from other sources may apply to George Dorman of the Farmers Home Administration for funds for operating expenses.

In Goldthwaite, City Utilities Manager W. C. Barnett said that while the water situation is by no means critical, the city has asked all residents to discontinue the watering of lawns and to use water sparingly for shrubs that might die unless they have some water.

"Our water supply continues to be judged by the State Fire Insurance Commission as adequate for a town the size of Goldthwaite," Mr. Barnett said. "However, in order to be certain of always having enough water for business and household needs and to guarantee protection against fire we have had to discontinue the watering of lawns. The extreme summer heat and dryness, coupled with the fact that the 'excursion summer rate' for water greatly increased consumption, meant that for a time the consumers were using more water than we could pump."

"Our reservoirs are full and we can keep them full with the cooperation of the public. But there is no prospect that we

G. H. S. EAGLES PLAY HAMILTON BULLDOGS HERE FRIDAY NIGHT WITH SPIRIT, FIGHT COMPENSATING FOR A FEATHERWEIGHT LINE

with a team making up in spirit and fight what it lacks in weight, Coach Carl Knox tonight, Friday, will open the 1951 football season when he sends the Goldthwaite High School Eagles against the Hamilton Bulldogs at Eagle Field in Goldthwaite. Game time will be eight o'clock.

This year the Eagles line will average 138 pounds in weight, Coach Knox said. But since the start of last week, the Eagles have been working out from 6:00 a. m., to 8:00 a. m., daily. They have had skull practice from 2:30 until 4:00 o'clock every afternoon and they have worked out again from 4:00 p. m. until 6:00 p. m. Sometimes they have worked out at night. They are set for the 1951 season in which, for the first time, they will play in District 23-A. Coach Knox, who is assisted by High School Principal Jack Locklear, announced the following Eagles starting lineup for Friday night's game against the much heavier Hamilton Bulldogs:

Billy Anderson	RHB
Dick Lindsay	LHB
Vernon Whitley	FB
John Gilliam	QB
Joe Hammond	RE
John Stark	LE
James Partridge	RT
Jimmy Elliott	LT
Gary Head	RG
Bobby Letbetter	LG
Wayne Wicker	C

Of the 1951 Eagles squad, the only lettermen from last year are Billy Anderson, John Gilliam, Joe Hammond, Bobby Letbetter, John Stark, Vernon Whitley and Wayne Wicker. The Eagles have been helped, however, by the fact that James Partridge, who was not in school last year and who did not play football anywhere last year, has returned to both school and the gridiron. On the other hand Charles Miles, who was a big help to the Eagles last year, is not in school this year.

Members of last year's squad who were not lettermen but who are on the Eagles team this year are Bobby Carr, guard; Jimmy Elliott and Gary Head;

and Johnny Henkes and Hobson Miller, both ends.

Freshmen who are working out with the varsity squad for the first time this year are Penn Barnett, fullback; J. D.

CARL KNOX

Cook, halfback; Bobby Elliott, end; Johnny Eubanks, center; James Gilliam, tackle; Alvis Hammond, halfback; Bobby Horton, tackle; Ray Campbell Hudson, center; Lathon Jernigan, tackle; Wayne Roberts, end; Lowell Shelton, end; Bobby Tullios, guard; H. T. Vaughn, halfback; Ray Robinson, guard; and Campbell Koen, tackle.

"When we come right down to it the Eagles have four reserves after the starting lineup," Coach Knox said this week. "Our team knows that every man on it has to be ready to go in there and play his heart out for 48 minutes. The boys have been showing splendid spirit since fall training began a week ago last Monday and they will give all they have against Hamilton Friday night."

With the team working hard, a complete organization for the 1951 season has been set up. School Board Chairman Gerald C. Head and School Superintendent H. E. Patton will be the ticket committee for the east gate with Grammer School Principal Hope D. Schulz as the west gate keeper. M. F. Hines and Lowell Burkes will supervise the south fence and Harmon Frazier will

be time keeper.

Y. B. Johnson Jr., will be the announcer for all of the home games at Eagle Field this year with V. A. Hudson and W. C. Barnett in charge of the committee that will see to it that Mr. Johnson has loudspeakers over which to broadcast.

E. B. Gilliam, Jr., President of the Quarterback Club, will take motion pictures of all games so that they may be displayed and studied at Quarterback Club post mortems.

Ticket sellers at the window will be Ray Duren, a member of the School Board; and Glynn Collier. General admission tickets will be 75 cents for adults and 25 cents for children, including federal tax. Reserved season tickets for all home games will be on sale at Goldthwaite business houses right up until noon of Friday of this week. Season tickets for adults for home games are priced at \$3.75 and at \$1.25 for children. Their advance sale has been sponsored by the Quarterback Club. Since some season tickets for children have been sold for \$1.50 instead of \$1.25, E. E. Madding, Chairman of the Quarterback Club's season ticket committee, will be at the gate Friday night to return 25 cents to each child who holds a season ticket and who already has paid for it.

The Board of Trustees of the Goldthwaite Independent School District, which has set up the organization for the 1951 football games announced this week that the press box at Eagle Field will be reserved exclusively for Announcer Johnson, local and visiting newspapermen, and a representative of the visiting team.

Now about that parking space at the west end of the north bleachers. This year it will be sold and reserved for the cars of financial boosters of the Goldthwaite Eagles. You can have reserved parking space on the west end of the north bleachers for the entire season simply by going to Glynn Collier at the Trent State Bank on Friday morning of this week and laying your money on the line.

School Board Chairman Head and Secretary Ray Duren said this week that space for four cars will be sold at \$8.00 each, for three cars at \$6.00 each, and for another three cars at \$4.00 each. If you buy these reserved parking spaces from Mr. Collier on Friday morning at the Trent State Bank, starting at 9:00 o'clock, you will be helping the hometown football team and you will be making it easier for you to get to your car after games on those cold nights later in the season when northers will be due.

After taking on the Hamilton Bulldogs on Friday night of this week, the Eagles will play San Saba at San Saba on the night of September 14. The next home game will be on the night of

Willie Washington Berry, One Of Oldest Pioneers, Died On Monday

Willie Washington Berry, who had lived in the Pleasant Grove community of Mills County for nearly 78 years, died at his home last Monday after a long illness. He would have been 85 next October 4.

Funeral services for Mr. Berry were conducted on Tuesday morning of this week with the Rev. B. F. Renfro of Goldthwaite officiating. He was assisted by the Rev. C. A. Cake Day Saturday

Ladies, remember that Brian Smith will be at the Fire House all of tomorrow afternoon, Saturday, waiting to receive those cakes that on Sunday will be taken to hospitalized war veterans in Waco by representatives of the Mills County Chapter of the American Red Cross and the Goldthwaite Lions Club. Mr. Smith needs at least 15 cakes and he will be waiting for them all of Saturday afternoon.

WHAT COULD HAPPEN TO MILLS COUNTY

It is, of course, not yet known whether any portion of Mills County is to be used by the national military establishment if, as and when Camp Bowie might be expanded and reactivated. It has been reported, however, that there is a possibility that the Department of the Army will want not only the Mills County land that was used for Camp Bowie during World War II, but also an additional 40,000 acres along the Pecan Bayou and the Colorado river.

The reports of possible plans by the national military authorities were taken so seriously by those who are concerned with the economic future of Mills County—indeed, its very existence—that at a meeting of citizens at the Court House on the night of August 17 a Steering Committee to "do something" effective and constructive was organized with Hollis Blackwell as Chairman and with E. B. Gilliam, Jr., as Advisor.

Since the Steering Committee was set up, a number of events have occurred. They have been reported in the news columns of the Eagle. They have included enlisting the interest of Congressman O. C. Fisher and they have included the gathering of pertinent information by such persons as County Clerk Earl Summy, Mrs. Delton Barnett, County Surveyor J. C. Long, and M. L. Jernigan. We believe that the information that has been gathered for the Steering Committee for the consideration of our representatives in Congress and the Army presents a picture of such interest to everybody that we will try to depict it here even if, as a rule, statistics are dull and uninteresting. It could be that in this case, with the statistics dealing with our own futures, they may not seem quite so dull as usual. In fact, they might make enough persons sit up and take notice as to give the Steering Committee unanimous public support in the job that, after all, it has only started to do.

Assuming that the worst fears of the Steering Committee should be justified and that the Department of the Army might want 80,000 acres of Mills County, including the land that was used in World War II and 40,000 acres more as well, here is what would happen—on the basis of the facts and figures that have been gathered for the Steering Committee: Mills County would lose 18 per cent of its area, which totals only 734 square miles anyway.

A total of at least 80 homes would be lost to the County—13 of them in the area that was used for Camp Bowie during World War II, and 67 of them in the areas that have been newly appraised by government agents during recent months. Those areas are west of Regency and in the Bayou Valley area.

The number of people who would be dispossessed would include at least 320—assuming that the worst might happen and that the Army would want 80,000 acres of Mills County.

It is estimated that 6,400 head of cattle and other livestock are running in the area about which the Steering Committee is worried.

It is estimated, further, that the loss of area now in the Mullin Independent School District would total 44.4 per cent of that District and that the Goldthwaite Independent School District would lose five per cent of its area.

The taxable value of the area that could be lost to Mills County on the basis of present tax rolls is \$787,500.00. That is a considerable chunk, especially when it is understood that the present total taxable values of all Mills County add up to \$5,250,000.00.

If Mills County should lose the land about which the Steering Committee is concerning itself there would be, on the basis of the present tax structure, an annual deficit of several thousands of dollars that would have to be made up by the taxpayers who would remain after the 80,000 acres under discussion were to be lost. A sum of say, \$15,000.00, to be made up by the rest of us after we lost 80 homes, 320 people, 80,000 acres and several thousand head of livestock would be a matter of more importance than some of our citizens seem to realize.

We do not like cries of "wolf" or false alarms. It may be that the Army will not want 80,000 acres of Mills County or any acres at all. But the fact is that nobody knows for sure. So long as the danger exists, we are all for the Steering Committee—which should continue to exert its utmost effort in behalf of the continued existence of Mills County. If you have any doubt in your mind about the need for a Steering Committee, then read again the statistics that are contained in this editorial.

**GUEST
EDITORIAL**

(Editor's Note: As the international situation grows worse and the danger and build toward the Japanese peace treaty conference in San Francisco, the following article by Bascom N. Timmons, a Texan, takes on added importance. We reprint the following article in the belief that the time is coming very rapidly when not a single one of us can be oblivious to the plans of our enemies to strike at the climax.)

By BASCOM N. TIMMONS

There are tight lipped officials around the State Department nowadays, for things are not going well and the policy makers don't know how to make them go better.

Apprehension over the course of developments at the San Francisco assembly to sign the Jap peace treaty has been added to existing worries—the Korean impasse and the continued imprisonment of William Oatis by Czechoslovakia.

The Oatis case illustrates how any Communist nation may defy the United States without fear of reprisal in kind. An Associated Press reporter apparently will remain in jail indefinitely because this country has no way of freeing him, short of sending a heavily armed patrol to Prague, which nobody seriously considers.

Both houses of congress are asking President Truman by resolution to cut off all trade with Czechoslovakia — \$26,485,000 in imports and \$10,119,000 in exports last year—but that probably would not free Oatis and would thus merely inconvenience the users of the materials which we buy from the Czechs. These are brewers—the Czechs produce some of the world's finer hops for beer—jewelers and users of several types of fabrics, products of wool and jute. Some of them have already stopped buying from the Czechs. Exports to them have dropped from 50 to 10 million dollars since the Communists seized control, and are constantly declining.

The one retaliation which has been seriously discussed by both government officials and newspaper reporters here would be against the representatives of the Communist press agencies here, but there are no Czechs among them. The Tass Soviet agency has four people attending press conferences and performing the regular duties of a correspondent, of whom three are American citizens. All four have the same privileges as correspondents for American newspapers, attend the press conferences of President Truman and other officials and have access to all the information given the American press, military and otherwise.

The majority of the newspapermen and women in Washington would like to see that continue because it serves as a constant reminder to the whole world that the press of the United States is free and wishes to extend its freedom from restrictions to the foreign press as well.

Two of the Tass reporters are women, Miss Jean Montgomery and Miss Euphemia K. Virden. One of the men, Lawrence Todd, has been a Washington correspondent for almost 40 years. The head of the bureau is Mikhail Pagarov, a young Russian who used to be an aeronautical engineer in Moscow. He is presumed to be a Communist. Whether his American aides are cannot be said because nobody has ever officially asked them.

There are also two representatives of the New York Daily Worker, the Communist newspaper, who work in close conjunction with the Tass people. It is evident that if any governmental spokesman wants to bypass the Communist-controlled agencies in giving out news he must deal with correspondents individually, which is very difficult because of their number, or use some other stratagem.

So far talk of retaliation has not lead to anything decisive

office in Dr. Barton's drug store and is receiving a good practice.

Will Kirby and family of Robert Lee arrived in the city, Tuesday night to visit his parents, Mr. and Mrs. W. C. Kirby.

G. S. Trowbridge was in from Big Valley Thursday. He recently returned from a visit to Oklahoma and the Territory and we are all glad to know he will remain here for some time to come. He reports his brother Sam, who has been in Oklahoma this year, will probably return as he cannot stay away from the Twin Sisters.

The Eagle's Aery

By The Editor

Usually after a man has been put on the shelf even temporarily he is forgotten after a matter of weeks. That has not happened in the case of the brief interruption in the editor's getting around and so this week, for the third week in a row, he wants to tell everybody who reads this column that acts of neighborliness by the people of and from Mills County are facts and not merely gestures to be bragged about.

Since The Eagle's Aery appeared last week the editor has received a wonderful and considerate letter from the Rev. Ed H. Lovelace, Pastor of the First Methodist Church in Goldthwaite. You did more than you can know for the patient by taking out time to write your letter, Brother Lovelace, and here is a written expression of gratitude until such time as one can be made personally—which, incidentally, is likely to be a matter of another three weeks, according to the latest edict from Dr. F. W. Farley.

All sorts of "goodies" have been coming to the editor and he wants to tell about them—again with gratitude. Mr. and Mrs. Harold Willis sent down a whole quart of frozen custard from their Dairy King establishment on the southwest corner of Fifth and Fisher Streets. That frozen custard on a hot day surely was good, Mr. and Mrs. Willis, Mr. and Mrs. H. E. Patton sent over a miniature mountain of a snow-white confection that contained a tantalizing sprinkling of pecans. Pattons, Mrs. Editor went for your grand confection in such a big way that the editor, despite his decrepit condition, had to mount guard over your thoughtful and delicious gift.

One afternoon late last week when the thermometer was up around 100 degrees Mrs. Edwin H. Hapgood drove in from Rancho Nueces in Big Valley with a fat, tender chicken—all dressed and plucked and ready for the oven's roasting pan. You made the editor feel a bit like a preacher, Mrs. Hapgood. He had supposed that chickens like the one you brought were reserved for preachers. Miss Elizabeth Ann "Liza" Hapgood, home from Texas Technological College at Lubbock until September 16, arrived with the chicken from Rancho Nueces and she brought the latest, revised edition of "Texas Brags," which helped no end to while away the time.

For comfort while so many persons were sweltering and cussing the heat the editor owes a deep debt of gratitude to Postmaster Lucile Fairman. When Mrs. Fairman broke her leg a few weeks ago her son, Mark, and her daughters, Wizie and Bobbie, presented her with

and there is not much likelihood that it will. United States press associations and some papers have been closely supervised and any action against the Tass bureau correspondents in Moscow whose movements are highly restricted here would probably be met with counter action there.

That is the situation in which the state Department finds itself in the Oatis case. It doesn't offer much hope of bringing Mr. Oatis home by Christmas or in the foreseeable future.

Nothing more can be done. August 13 than a gift of "Mac" Glass. The "Mac" Glass is a bit of a description so the editor nurse for a ruler. Mr. Glass showed that the gift Glass was nine inches four inches broad inches wide. In the difficulty of describing from Mr. Glass more suffice it to say that never will forget your Mac.

Late last Saturday Adams put the editor a year and a half a year officially designated E. Nix as the coconut cream pie.

Celia Ann Simpson Becomes Bride Of John Alex Miller Last Saturday

Miss Celia Ann Simpson, daughter of Mrs. Otto Simpson of Goldthwaite, became the bride of Pfc. John Alex Miller of Randolph Field at San Antonio, Saturday evening, September 1, at 7:30 o'clock in the pastor's study of the First Baptist Church of Goldthwaite. The Rev. J. T. Ayers, Pastor, officiated at the single-ring, candlelit ceremony. The groom is the son of Mr. and Mrs. Hobson Miller of Goldthwaite.

The study was decorated with stands of candelabra, containing fourteen tapers, placed on either side of the fireplace, and an arrangement of white gladioli on the mantle. Mrs. C. W. Lawson played soft organ music during the ceremony.

For her wedding, the bride chose a powder blue gabardine dressmaker suit with black accessories. Her corsage was of white carnations.

Miss Virginia Auldredge of Brownwood attended the bride

as maid of honor. She wore a navy blue sheer dress with black accessories and a corsage of white carnations.

Alex Shaw of Goldthwaite was best man.

The bride's mother was attired in a dress of cocoa salina cloth with self embroidery. Her accessories were brown, and she wore a white carnation corsage.

For her son's wedding, Mrs. Miller wore a navy sheer dress with black accessories and a corsage of pink gladioli.

Immediately following the ceremony, the couple left on a trip to the Carlsbad Caverns in New Mexico. They will make their home in New Braunfels.

Pfc. Miller and Mrs. Miller are both graduates of Goldthwaite High School. The bride attended the Brownwood College of Business, and at the time of her marriage was employed by the Healer Motor Company of Brownwood.

Miss Simpson Is Feted At Shower Before Marriage

Mrs. Fred Reynolds, Mrs. Truman Vaughan, and Mrs. Mohler Simpson were hostesses for a bridal shower honoring Miss Celia Ann Simpson, bride-elect of John Alex Miller, Wednesday, August 29, from 2:30 until 7:00 o'clock, in the chapel of the First Baptist Church of Goldthwaite.

The bride's chosen colors of blue and white were carried out in the decorations. The bride's table was laid with a white lace cloth over blue. Blue napkins bearing the names, Celia Ann and John Alex, in gold lettering were used. White Euphorbia flowers centered the table and piano, and other green plants, tied in blue, decorated the chapel.

Refreshments of fruit punch and white cake squares, decorated in blue, were served from the bride's table by Misses Jimmie Rita and Monette Simpson, cousins of the bride, and Miss Scottie Vaughan.

Those who presided at the bride's book were Misses Mylene Reynolds and Barbara Vaughan. About 75 guests registered in the beautiful white and blue book.

The bride, her mother, Mrs. Otto Simpson, and Mrs. Hobson Miller, mother of the groom, greeted the guests. Miss Sybil Ann Reid, classmate of Miss Simpson, played soft music from the piano throughout the afternoon.

Coffee Urn For Library Needed And You Can Aid

Now the ladies are going to see to it that the Jennie Trent Dew Library's kitchen is to be equipped with a contraption that will make 48 cups of coffee at a time and they are going to have their way even if you and everybody else have to buy Duncan's Admiration coffee.

A while back the ladies were pushing Mrs. Tucker's Meadlake margarine for the Jennie Trent Dew Library. Now they want 800 coupons for a "48 cup electric dripulator" and they are going to get them from you by having you buy Duncan's Admiration coffee at your grocery store. You may keep the coffee but you must turn the coupons over to Mrs. Jim Weatherby or Mrs. V. A. Hudson.

"We need this coffee urn desperately at the Jennie Trent Dew Library," Mrs. Weatherby and Mrs. Hudson said in a joint S-O-S this week. "Please buy a pound of Admiration coffee and give your coupon for a good cause."

Take a tip, everybody—buy that Admiration coffee, give the coupons to Mrs. Hudson and Mrs. Weatherby, and then you can have some hope of peace.

Mr. and Mrs. M. B. Schorn and son, of Fort Worth visited over the weekend with her parents, Mr. and Mrs. H. P. Harris.

Mrs. Florence Bunden of Weatherford is visiting her sister, Mrs. Will Kelso and family.

Dorothy Louise Geeslin Marries Frank Parks In Double Ring Rite

Double-ring wedding vows for Miss Dorothy Louise Geeslin of Stephenville and Mr. Frank Parks of Ennis were read in the First Methodist Church of Stephenville, August 18. Miss Geeslin is the daughter of Mr. and Mrs. Mark Geeslin, former residents of Goldthwaite, and Mr. and Mrs. L. C. Parks are parents of the groom.

Baskets of white gladioli and white tapers were used to decorate the chapel. Rev. W. N. Dunson read the marriage vows.

Incidental organ music, consisting of "Liebestraum" and "If" was played by Miss Janice Alsop, who accompanied Mrs. Jerry Watkins, vocalist. Mrs. Watkins sang "Because."

The bride, escorted to the altar by her father, wore a ballerina-length gown of white chintilly lace with matching Juliet cap, from which cascaded a brief veil. She wore long lace mitts. For something new, she chose a strand of pearls, a gift of the groom, and her something borrowed and old was a garter which Mrs. Ben B. McCollum of Stephenville wore on her wedding day. Forget-me-nots on white streamers from the orchid-topped Bible carried by the bride were the something blue. The orchid was embedded in white organthus.

Miss Thelma Geeslin was her

sister's maid of honor. She was dressed in yellow organdy with matching mitts. Her bandeaux was of yellow baby mums.

Candles were lighted by Miss Ethel Lynn Geeslin, sister of the bride, and by Miss Ruby Faye Jones of Dallas. They wore mint green organdy gowns of ballerina length with matching mitts and halos of yellow baby mums.

The traditional wedding marches were used for the processional and recessional.

Mr. L. C. Parks was his brother's best man. Ushers were Mr. Harris McCollum and Mr. Wayne Geeslin of Phillipsburg, Kansas.

Following the ceremony a reception was held in the church annex. Guests were greeted by the parents of the bride and groom, the wedding couple, and members of the wedding party.

Cake was served by Mrs. Elton Geeslin of Dallas, and Mrs. M. A. Geeslin of Graham presided at the punch bowl. The bride's table was centered with a group of Dresden dolls depicting a wedding scene. The arrangement was before a white chintilly lace fan on which the names "Dot and Frank" were inscribed. Miss Pat Wilson, Dallas, was in charge of the bride's book.

KNOWLEDGE OF PHARMACY

The most expensive ingredient in every prescription

. Your physician gives you a prescription—just a little slip of paper—but to compound it correctly, our pharmacists may have to draw upon the world's resources. It is not uncommon for a prescription to require drugs and chemicals gathered from a score of countries purified, blended and compounded as only skilled pharmacists know how, to make the medicine that exactly fits your needs. We take pride in having ample stocks to make this possible.

HUDSON DRUG

"What You Want—When You Want It."

The couple left for a honeymoon in the mountains of New Mexico. For her trip the bride wore a white linen suit with green and white accessories. Her corsage was the orchid from her Bible.

The bride is a graduate of Stephenville High School and was a music student at Tarleton State College. She has been employed in Dallas. She attended Goldthwaite Grammar School four years. Mr. Parks, who was recently discharged from the Air Force, is a graduate of Baylor University. The couple will be at home in Ennis.

Mrs. J. D. McKenzie, the bride's grandmother, Mr. and Mrs. John Patterson, and Mr. and Mrs. Tom Collier, all of Goldthwaite, were among the out-of-town guests.

Rock Springs Club

The Rock Springs Community Club will meet on Thursday of next week with Mrs. Robert Long as the hostess. Mrs. Marvin Spinks will give a demonstration of making flowers from discarded nylon hose. The last meeting of the Club on August 29 had Mrs. Horace Brooks as the hostess. Then, last Saturday night, the Club had an ice cream supper and canasta party at the school house. Mrs. Floyd Manuel, Reporter, said the function was well attended.

FHA Slumber Party

The annual "slumber party" of the Future Homemakers of America of the Goldthwaite High School was held on Tuesday night of last week at the FHA building at the school with incoming freshmen as guests and with Miss Elna Fouse, Sponsor, present—along with 22 girls. Textile painting on towels and pillow cases whiled away the time before a midnight supper. Wanda Lou Wesson, Reporter, said that after preparing breakfast the FHA girls completed the party by washing the dishes and doing their household chores.

of Bandera, Publicity Chairman for the event, reminds that entries must be in not later than September 15.

With the synthetics on the march these days, here's another chance to promote and dramatize the quality and looks that only the natural fibers can provide. To be able to enter the contest a girl must cut and sew and fit her own dress without actual help from anyone else. Entries should be sent to Mrs. W. B. Wilson, 1510 West Ave. J., in San Angelo.

Visiting in Washington last week was Mr. Clyde Wood, Senior Clerk in Charge at the Brownwood postoffice. While here he visited with his daughter and son-in-law, Mr. and Mrs. Ellis W. Evans and family. The latter has been with the Federal Power Commission for 10 years and now holds a very responsible position with that agency.

Other recent visitors have included Clyde Northington and John B. Langford of Lampasas; Captain Robert C. Lee, Captain Clark Farar, Mr. and Mrs. Merton West and daughters, Ann and Sue, all of San Angelo; W. Lee Watson of Brownwood, and Scott Boyer and County Judge Galloway of Coleman.

"Hold your confederate money, the South will rise again!" In that spirit, the Confederate flags are seen a lot in Washington and environs these days. Even the House Page boys, who

live in a house across the street from my office window, have a large Confederate flag on display. Everybody seemed to enjoy the fun except one Louis A. Salmon of Lynn, Mass., who protested the display of the Southern banner at the VFW convention at New York last week. "The Confederate flag," he said, "went out of existence at the end of the Civil War. This fad is dangerous!"

But the State Commander from Alabama retorted: "If you try to drive the Confederate flag from this organization, you're driving the South out. We of the South are proud of our flag. 'Yankee Doodle' is played and we never objected."

Novelty shops in Washington say the publicity has increased business for them. The craze seems to be nation-wide. A student in Troy, N. Y., wanted two of the banners so badly he sent a local novelty store a check for \$2.50. Actually the small flags sell for 59 cents each.

A man in South Dakota sent a check for two large banners. A woman in Elkhorn, Wis., wrote that she obtained the store's address from Senator Byrd.

One Washington distributor reports "they're selling like hot cakes." One store here sold 10,000 of them the past year. Another Washington dealer reports: "I've sold more in the last nine months than in the last 15 years."

There's a difference of opinion about where the fad started, but it got a lot of attention when the Dixiecrats marched out of the 1948 Democratic Convention, waving the Confederate banners. Then when Charlie Justice came to play football for the Washington Redskins the Tar Heel supporters bought more than 400 flags to wave at the games where he played.

And so it goes.

One Southern writer reasons that it's all a spontaneous outburst of an ideal, not confined to the South. "It stands for local self-government," he maintains. "It stands for a cause—and that cause is the right of the individual to carve out his own destiny and not have it planned for him by a central bureaucracy; that cause is the right of the local government to de-

Cockrell Pecans Being Atomized

Mills County will learn soon what happens to pecan trees after they have been exposed to radioactivity. That will come about because Cockrell's Riverside Nursery has shipped some pecan trees to the Brookhaven Laboratory of the U. S. Atomic Energy Commission in New York.

Exposure to radioactivity has increased the growth and resistance to disease of many plants. What it will do to pecan trees will be known after the Brookhaven Laboratory has completed its experiment on those that were shipped by Cockrell's Riverside Nursery and after they have been returned to Mills County to resume growth in the Colorado river bottom lands. Obviously there will have to be more about this story after the Cockrell pecans come home all full of radioactivity.

Kaiser-Frazer Dealer
Allamore, Nebraska

"Every car that leaves my showroom is lubricated with Conoco Super Motor Oil," reports Mr. Dobson. "A man can get top performance with Conoco Super."

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

TRAIL BLAZER - with plenty on the ball

How long since you lifted the hood of a car, and took a good look at what's beneath? We like to have folks do that with a Buick.

You'll find that broad bonnet isn't put there for show. It's packed with horsepower—high, wide and handsome—more horsepower than normal drivers will ever use in full. And—if you're up to date on modern features—you'll find that this bonnet is packed with these too.

Do you know, for example, that every new engine introduced or previewed in recent years is built on the valve-in-head principle? Score one for Buick. No Buick engine has ever been built in any other way.

Do you know what it takes to make full use of high compression? A valve-in-head engine!

Score two: Buick has been stepping up compression ratios for years. But Buick has blazed one trail which other engines still haven't followed—don't ask us why.

Every Buick has a Fireball Engine which, as we've said before, is like having a string of comets by the tail. Fact is, in every flame-packed cylinder there is a comet—rolled into a swirling ball by a special turbo-top piston—touched off by a flashing spark every 5 inches you travel in a Buick.

That's why we're proud to show folks that Buicks have a Fireball Engine—and prouder still to have them take one of these thrilling performers out on the road.

Want to try it? Come in and see us soon.

Equipment, accessories, trim and models are subject to change without notice.

"Smart Buy's Buick"

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Bluebonnet Buick, Inc.

1005 N. Fisk Street - BROWNWOOD, TEXAS

The secret of Fireball Power is in the use of dome-and-dip design of the piston shown above.

Here's the piston inside the cylinder. As it moves down, the fuel charge rushes in—sets up a swirl when it hits the piston top.

The piston moves up—compresses the swirling fuel into the comet shape shown here. "Compression ratios" are simply a measure of how much the fuel is compressed.

The ball of fuel is compressed around the spark plug—lets loose its pent-up charge when the spark is fired—delivering a higher percentage of power from each charge of fuel.

Prolonged Dry Spell, Heat Fail To Discourage Farmers Hereabouts

By ROGER POWELL

It has been said that when the roosters start crowing on the farms of the United States, they start in motion one of the greatest industries in the world—that of farming. The steel industry, the oil companies and the railroads do not compare in size with the great farm factory.

It also has been said that all the gold and silver mined since Columbus discovered America would not buy all the farms in this country. One worker in five is a farmer and there is more money invested in agriculture than in all other industries combined.

The farming and ranching industry in Mills County has taken a terrific beating the past two years because of the very limited rainfall. Low crop yields, dry grasses on ranges and short feed harvests have resulted in financial loss to some, and a source of discouragement to others; but it has failed to break the spirit of all. As you talk to farmers and ranchers of the different communities of Mills County, you will find that they are accepting their losses and making plans for another year with hopes that it will be a "wet" one.

An increasing number of farmers and ranchers will plant legumes this fall because they have seen higher yields of field crops following legumes. They know that a crop that will increase yields during dry weather is one that they can use.

Ernest Kohler was well pleased with corn yields on land that was planted to vetch last year. Mr. Kohler says that stalks stayed green longer, allowing more time for the corn to mature. Most of the corn had two fairly good ears to the stalk. Some stalks had three ears.

Cecil Partin noticed a big difference in maize yields following clover and in maize yield where there was no treatment. He says that he wishes he had planted all of his maize on land that had grown legumes in previous years.

Si Holcomb has taken advantage of the dry weather to construct terraces on all of his cultivated fields. Under normal conditions, some field crops would have interfered with construction. P. O. Harper and Carylton Wall have also taken advantage of the weather to complete terrace systems on their farms.

Ranchers have used ranges

that they planned to defer this year. They have had to over utilize their native grasses, knowing that it will take from one to several years to get them back to good production again. Even so, they are sticking to the soil and are ready to try again.

A common topic of conversation among farmers and ranchers in Mills County is, "Where can I find some good vetch seed and rye seed?" or, "How is the fertilizer situation this year?" or, "I think I'll try winter peas to turn under ahead of my corn next year." Would you say that is the conversation of a man ready to quit? No. Because they refuse to accept defeat, is one reason they will remain the largest industry in the world.

Gospel Hall Will Have New Services

E. W. Dickson. Brother Dickson announced also that regular nightly services on Saturday, Sunday, Monday and Tuesday nights will be resumed at the Gospel Hall, effective immediately. Our Roy Lee Hill Just Won't Talk

Last Sunday was the anniversary of the birthday of Roy Lee Hill, the Eagle's mechanical superintendent. Before his birthday and since, he has maintained firmly that he was two (2) last Sunday. If he wants to be that way, then let him be that way. When he was interviewed, Mr. Hill said that nothing happened on his birthday—no cake, no celebration, "no nothing." Why his sister, Mrs. Ola Howell, and his brother, Truman Hill, apparently ignored Roy Lee's birthday anniversary is something about which there is being maintained "a tight-lipped silence," as the radio commentators love to say. Anyway, Roy, many, many happy returns of the day.

Hillside Mission

By LIDA BYRNE
 That conference in San Francisco is called "The Peace Treaty Conference." The Bible tells us that "there is no peace." The Holy Word also tells us in Hosea, chapter 4, verse 6: "My people are destroyed for lack of knowledge." In Proverbs, chapter 1, verses 27, 28 and 29 we get the following reproof: "When your fear cometh as desolation, and your destruction cometh as a whirlwind; when distress and anguish cometh upon you. Then shall they call upon me, but I will not answer, they shall seek me early but they shall not find me: for that they hated knowledge, and did not choose the fear of the Lord."

of Mills County. Well, late last Saturday, E. B. "Sir Eric" Adams arrived at the Ekins home with a luscious coconut cream pie that had been baked by Lady Adams. After having eaten the pie with the greatest of pleasure and satisfaction, the editor made up his mind to crown Mrs. Adams the coconut cream pie champion of Mills County. Then he thought of Mrs. Nix. The answer to what had appeared momentarily as a problem is that both Mrs. Adams and Mrs. Nix are the coconut cream pie champions, not just of Mills County, but of all of Texas. That ought to be honor enough for any two women.

Some fine boosts to morale and that have done more good than all of the medicine put up by Dow Hudson have come in the form of messages from Mrs. Edith McWhorter and from Mr. and Mrs. Joe Sellers of Big Spring. It was good, too, to have some cheery and encouraging messages from Mrs. A. M. Hunt and her son, Roy. The editor was sorry, indeed, that he was not able to have a chat with Roy before he left for his new duty in North Africa. It was good, also, to hear through Mrs. Editor from Mrs. Sparks Bigham, who this year is Harvey Ekins' home room teacher. Good luck, Mrs. Bigham.

Sheriff Stubblefield said that in the cases of many violators of traffic regulations it has been necessary for the law enforcement officers to issue only warnings and that in such cases the offenses have not been repeated—thereby demonstrating the beneficial results of the program of education that Sheriff Stubblefield and the other law enforcement officers have undertaken.

On many occasions constant patrols have been maintained by the Sheriff, Deputy Sheriff Cockrum and the Texas Highway Patrolman. Such patrols will be continued, Sheriff Stubblefield said, in hope that traffic violations will continue to diminish and that the streets and highways may be made safe for everybody.

Joe Dennis Merges Eastland Papers

Sale of the Eastland County Record of Eastland to Joe Dennis, formerly of Goldthwaite, and his partner, O. H. Dick, was announced last week. Mr. Dennis and Mr. Dick plan to consolidate the Record with the Eastland Telegram, which they already own. They also are the owners of the Ranger Times. In the final issue of the Eastland County Record Henry G. Vermillion, who sold to Mr. Dennis and Mr. Dick, expressed opinion that Eastland could not support two newspapers. Mr. Vermillion said that the consideration involved in the sale was "substantial," and that he was retaining the Record's machinery to be moved or disposed of later.

 area, together with data on the effect this would have upon the economy of the County.
 "The concern of the citizens there seems to me to be entirely justified, particularly in view of the size of the County and the terrific impact upon the County from the withdrawal of so much land from the tax rolls.
 "I went personally to the Pentagon and discussed this matter with officials there. It was pointed out that such surveys are often made in order that data may be available for study in determining the extent and location of areas that may be considered by the Army when a detailed program of reactivation is undertaken. Then the costs, effect on local economies, other possible alternatives, and perhaps revision of plans, are studied before anything definite is recommended.
 "This survey data is being done by the Army Engineers. Army officials here know nothing about the plans and will not until a later date when a detailed proposal for the maneuver area is submitted through channels for approval on a higher level. I was assured, however, that a report would be immediately requested from Texas concerning any preliminary or tentative planning for land acquisition in Mills County. When I get this we will know more about how to proceed.
 "I am anxious to work with you and the committee of citizens there in protesting any attempt that may be made to acquire such a large acreage in Mills County.
 "With my personal regards, I am
 Sincerely yours,
 (Signed) O. C. Fisher."
 Another letter to Mr. Gilliam from Senator Johnson's Administrative Assistant supported the letter from Congressman Fisher. It added that both of them had urged officials in the Department of National Defense to give careful consideration to the situation of Mills County before making any definite commitments.
 Further reports from Washington are expected by Mr. Gilliam and Chairman Blackwell of the Steering Committee.

 Our little wagon, which we use for many things, had a terrible squeak. I tried to oil it, but there was a squeak I never could get out. Friday morning while we were hurrying to get off to town, Ernest Malone came. He usually comes to go to town, or to send letters, or to get eggs, but this time he did not put out what he came for. Pretty soon he was gone. I saw him pick up a long-spouted oil can as he left the yard. I was puzzled. Home again I was hauling the clothes to the clothes line when I discovered that the wagon was rolling along as nice as you please without a squeak. I remembered Ernest and the oil can. It must have been bothering him clear
