#### MORE IMPROVEMENTS FOR CEMETERY

Beginning March 1 and continuing throughout the month, the local Garden Club Cemetery Committee is conducting its campaign of improving the Goldthwaite Memorial Cemetery.

In order to raise funds to further this project, they are undertaking a program of providing Scotch Lite Tape to be placed on bumpers on Mills County cars.

According to an announcement this promotion is to get underway on March 6 and 7th; with members of the American Legion and the Lions Club furnishing the labor to do the taping.

The Club is making a small charge of \$1.00 per car, which will prove a worthwhile safety measure along with providing funds for the Club's treasury for this Cemetery improvement project.

We think this is a worthwhile project and would certainly encourage folks to support it.

#### THE RED CROSS DRIVE FOR FUNDS

The annual Mills County Red Cross Drive for Funds will get under way next week. In announcing plans for this year's fund raising campaign, local officials are pointing out apparent need for an increase in quota because of the increased activities and special undertakings of the Red Cross program this year.

Details of the campaign and the need for local support appear on other pages of this issue.

Some people go years without much attention to health. Others may need the Doctor on hand to start the dayevery day. Between these two extremes are great numbers of thinking people caring for their health in an orderly manner.

They see their Doctor at regular intervals for guidance. They take the medicine he prescribes according to direction. They report unusual symptoms promptly. All these are common sense precautions and intelligent steps in health care, as is the practice of bringing your Doctor's prescriptions to this fine pharmacy.

## W. M. Dennard **Rites Are Held** Last Wednesday

Funeral services were held last Wednesday afternoon, February 18 for Mr. W. M. Dennard. Mr. Dennard was born on April 3, 1867 in Louisiana and passed away on February 17, 1953 at the home of his daughter, Mrs. Bill Daniels, with whom he had lived for the past eleven years. He was married to Virginia Curtis in 1887, who preceded him in death on November 11, 1908. To this union there were born six children, all of whom survive. They are: Mrs. Bill Daniels, Jack Dennard and Hugh Dennard of Goldthwaite, Mrs. Sam Frizzelle and Mrs. Ralph Wolper of Los Angeles California. He is also survived by one brother, Louis Dennard of Henderson, twenty grandchildren and 17 great-grandchildren. Mr. Dennard was married to Mamie Weaver in 1911. She preceded him in death in 1942

Mr. Dennard joined the Big Valley Baptist Church in 1896, was a member of the Church for more than fifty years and a deacon for approximately forty-five years.

Pallbearers were grandsons and grand-sons-in-law; James W. Frizzelle, Charles Dennard, Ed Dennard, Billy Dennard. David Straley and Paul Nieman. Services were conducted at the Big Valley Cemetery by Revs. J. T. Ayers, L. L. Hays, and C. Lancaster. Funeral arrangements were under the direction of Roy Wilkins Funeral Home

Relatives from out of town who attended the W. M. Dennard funeral services were: Mr. and Mrs. David Straley, Grand Prairie: Mr. and Mrs. Charles Dennard, Fort Worth; Billy Dennard, Arlington; Mr. and Mrs. Paul Nieman, Priddy; Mr. and Mrs. Kenneth Crowder, Kermit; Mr. and Mrs. W. A. Gunn, San Angelo; Mr. and Mrs. Lon Dennard, San Angelo; and Mr. and Mrs. Ed Dennard of Jal, New Mexico.

# The Dark Can Kill You

America's millionth traffic victim has been dead a year. Yet auto wrecks go right on changing our country crossroads into killer corners.

Where's the villain?

Some say "more cars on the road these days." Some point to "reckless youths" . . . "lax laws" . . . "drunken driving" . . . "speeding."

But something else may be more to blame for auto accidents than any of these. Darkness. Plain old darkness.

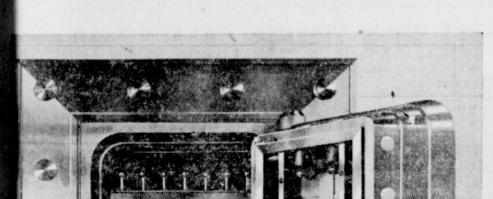

Look at one case. In a Connecticut area 182 pedestrians were killed at night in two years-179 on poorly lighted streets.

Busy traffic centers are waking up fast, lighting their deathtrap streets. Salt Lake City cut night deaths 92% in one area, Grand Rapids 78%, Bridgeport 93%.

Some small communities have been first to pick up the newest in lighting equipment. Oakwood, Ohio, has the largest installation of fluorescent street lamps in the country. And there's a broad-daylight look in Lyndonville, Vermont, even late at night. Fluorescent lighting as developed by General Electric has now been extended to street lighting.

Good street lighting has been a pet project of ours for years. General Electric engineers work with local officials on other community problems, too-traffic control, water shortage, waste disposal, farm and home modernization-wherever electricity can help progress. For progress is our most important product. General Electric Company, Department 2-123, Schenectady, N.Y.

will quilt.

This year's goal is an increase of \$8,000,000.-00 over last year and is the largest and most vital Red Cross Goal since World War II.

The Increase is due largely to expand Red Cross defense blood collections for the production of Gamma Globulin which prevents paralysis from Poliomyelitis.

**Tornado Victim** 

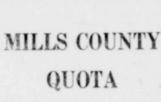

A Red Cross nurse tends a 2-year-old victim of the tornado that swept through Bald Knob, Ark., last year. Both of the youngster's legs were fractured. To help her and some 236,400 other victims of disaster in 1951-52, the Red Cross spent \$21,100,445.

News from Home

Funds also were added to provide a Red Cross recreation program for ablebodied service. men abroad.

RED CROSS calls upon the generosity of the good people of Mills County to increase their contributions this year to meet the cost of Red Cross' new responsibilities.

ER IN CHIEF. . . . We of the armed forces are both grateful beneficiaries and warm supporters of the American Red Cross. Especially here in the Far East, where the Korean conflict has multiplied our needs, we daily recognize how heavily we have come to depend on it for easing the pain and hardships of our wounded and ill, collecting blood donations and performing many other vital and humanitarian services.

To us, the Red Cross is the medium through which our American people bestow upon us something of their personal and neighborly interest.

That is why members of the Army, Air Forces, Navy and Marine Corp always are liberal contributors in the annual Red Cross campaign. This is our way of showing appreciation of what it does so magnificently for us and helping it to serve the many others who similarly look to it.

This year, as in other years, I shall consider it a great personal privilege to give to the Red Cross. I am confident that all Americans share this feeling and will contribute generously and with a sense of rightness.

Fabrics keep new appearance longer, last longer, and FEEL better when dried in an automatic GAS clothes dryer. No sun-fading, no wind-whipping, no clothes-pins pulling and tugging with a GAS dryer.

Clothes from a GAS dryer have that "outdoor" freshness that is so desirable. Ozone is continuously circulated through the clothes during drying. They come out of the GAS dryer with a clean, crisp, fresh fragrance. You enjoy all the advantages of line-drying without the costly disadvantages.

# GMG covers all bases ... 19 new light truck models offer Hydra-Matic shifting

GMC advances spread right across the light truck field! Throughout the 1/2-, 3/4- and 1-toncapacity range, GMC presents no less than 19 pickup, stake, panel and package delivery chassis models that offer Hydra-Matic Drive\*-

as well as the highest-compression gasoline truck engines ever designed, to power a grand total of 22 light truck choices!

Dual-Range Hydra-Matic Drive has one setting for flashing footwork in traffic - another for gas-saving open going. From joltless starts to unlabored climbing, Hydra-Matic takes over all gearshifting effort AND judgment.

Two ultramodern new engines power this great group-bringing the tremendous lift of compression ratios at 7.5-1 and 8.0-1 with regular gasoline. And with even more power delivered to the wheels, there's more mileage squeezed from the gas!

There's a new electrical system to make high compression pay off at all speeds-new safety from greater stopping power - new stamina from heavier construction.

Come look over these all modern GMC's. See for yourself how they're "built like the big ones' - those brawny GMC's of 26,000 GVW and up that are leading all heavy-duty trucks in sales.
