Local Polio Chapter Receives National Funds

A check for \$1,150.00 to help pay for care for local polio patients has been received by the Mills County Chapter of the National Foundation for Infantile Paralysis, it was announced today by E. T. Fairman, Chapter Chairman.

When March of Dimes funds are raised, Mr. Fairman explained, half stays here with the local Chapter and half goes to national headquarters for research, professional education and emergency aid to chapters whose own funds have been exhausted by the demands of patient care. The check just received comes from this pooling of chapter funds at national headquarters.

Mr. Fairman said that record-breaking polio incidence in recent years had exhausted the treasuries of many of chapters and that, in many cases, new March of Dimes funds had been committed to the payment of old bills before this year's first case had been reported.

While the pool trustees are planning no solicitation campaign for funds for that purpose at this time, it was pointed out that the need for additional improvements exists and folks are invited to make contributions.

It was also announced that the bridge across the drainage channel has been constructed during the past few days and as soon as fill is completed folks will be able to use the East entrance from Lampasas highway to get into the park.

Junior Legion Team Plays Brownwood Teenagers, Benefit Game Wednesday

The Goldthwaite Junior Legion Baseball team will play the Brownwood Teenagers in a special scheduled game next week Wednesday night.

Game time is scheduled for 8:00 o'clock in Goldthwaite Municipal Ball Park, according to announcement by LeRoy Stacy.

In a sense this can be termed a play-off game since the two teams played two games this season with each team winning one and losing one.

Akins Attends Coaching School; Plans For Big Season Opening

Coach Ray R. Akins, who secured his Masters Degree in Physical Education and Coaching at San Marcos in July, is furthering his interest in school work by attending the Annual Coaching School in Houston, Texas this week. Plans had been made for Superintendent Jones to accompany him but the new building matters kept him from attending.

There will be some fifteen hundred coaches and their assistants in attendance in the school with top notch doctors, football instructors, baseball instructors, basketball experts and track mentors directing the thoughts and plans for the session. Any one attending will be encouraged to develop our youth in morals, social aspects, health and sportsmanship as well as physical. Ideas of fair play is highly advocated and required of all coaches and officials of the organization.

Football prospects are good this season; in fact our team should be its best in several years. Our opening game is on our own field against Baird on September 12 and our second home game comes only a week later when we play Blanket here.

If you have not seen our green football field, folks are urged to take a look at one field that is actually green.

Coach Akins is anxious that we have our largest crowd ever to attend a home game present on September 12 to see the boys in action on the season opener and see the many improvements that are in store for them.

Band Master Assumes Duties

Miss Anna Gene Hale has assumed her duties as Band Director of the Goldthwaite Public Schools. With the assistance of our Band Mothers Organization uniforms have been cleaned, repaired and additional uniforms are being secured.

The girls report that their daily schedule opens at 6:30 a. m., and runs until 7:00 p. m., with only one hour rest period in the entire day. Swimming, picture show or home rest is their elective from 8:00 until 10:30 each evening.

Financial Aid To Drouth Stricken Farmers-Ranchers Promised At Once

Financial aid to drouth stricken farmers and ranchers of Texas was promised immediately by State Director L. J. Cappelman of the Farmers Home Administration from his office in Dallas upon being informed by Secretary of Agriculture Ezra Taft Benson that details of Public Law 38, Section Two, the new special livestock loan are complete and that lending procedure had been announced.

Funds are available from a revolving fund containing up to \$150,000,000; and the purpose for which loan funds may be used include a long list of essential ranch operating purposes such as feed, grazing lease charges, crop land rentals for production of feed, purchase, hire and repair of farm machinery, building or repair of fences, transportation of cattle to and from grazing lands; payment of one year's operating interest on debts secured by liens on chattels or real estate, payment of one year's taxes on real and personal property, purchase of livestock for replacement or restocking, but not expansion of normal operations; for water supplies, living expenses, normal maintenance of farm and ranch buildings and other operating expenses, but not to refinance secured or unsecured debts nor to establish a man in livestock operations.

Interest rate on Special Livestock Loans for ranchmen is 5 per cent and repayment must be scheduled within three years, because of the difference in the type of loan. Present FHA County Committees will certify Special Livestock Loans until such time as the Secretary of Agriculture may set up Special Committees.

Cappelman in his statement referred to the crop Disaster Loans administered by the Farmers Home Administration that are being made at the rate of more than \$1,000,000 a month now, \$12,000,000 of these Disaster Loans have been disbursed in the last twelve months. These loans, made under Public Law 38, Section one, are available in all areas suffering from the effects of production losses caused by reasons beyond the control of the farmer. The Texas disaster area was proclaimed two years ago when lack of rain and other natural causes placed farmers in serious plight because of the losses sustained.

Any farmer who has suffered a production loss and needs more credit than is available through his local bank or other lending agencies is eligible to apply for the FHA crop disaster loans.

Mr. Cappelman has instructed county FHA supervisors to give priority to Crop Disaster and Special Livestock Loans and to call into session county loan committees as often as necessary to pass on the applications and expedite the loan making procedure. He emphasized that money is available for the purpose of obtaining seed and other necessary supplies to start a new crop and to carry farmers and ranchers through this emergency, and take care of their normal needs.

The Farmers Home Administration is ready to receive applications and process loans immediately. The entire state is already a designated disaster area and loans can be processed without delay to purchase feed and to meet crop production needs in any county.

George M. Dorman, whose office is located at 201 N. Fisk Street, Brownwood, Texas, is the Supervisor for all types of FHA loans in both Brown and Mills Counties. His regular office day in Brownwood is Monday, and his regular office day in Mills County is Tuesday morning of each week at Goldthwaite.

MONEY MAKER FOR GOVERNMENT

By anybody's yardstick, General Motors is big business with a capital B. Its 1952 sales amounted to \$7,549,154,419. The story of what happened to this money gives a cross section view of America's social and economic life. It demonstrates the malicious in-accuracy of the common charge that big business is necessarily bad.

In the first place, the company provided jobs for 458,680 workers to whom it paid \$2,020,536,713 in salaries and wages. Government took a huge chunk of GM income — a total of \$1,107,000,000 in taxes, which was over half the amount paid to employees.

Thousands of large and small companies supplying materials of all kinds received 48 1-2 cents of each GM dollar. With 487,624 stockholder-owners General Motors is in the truest sense a publicly owned enterprise. In return for the use of their savings, which made the business possible, these stockholders received 4 3-4 cents of each income dollar, or a total of \$361,969,352; one third of the government's tax profit.

It would be a sad day for the American people and the United States treasury if such companies as this were ever forced from the roles of free competitive enterprise.

"A lot of youngsters have been raised in the past twenty years with the idea that government support is a normal thing for farmers to expect at all times. That kind of thinking can lead to Socialism. We've got to get back to depending on ourselves in normal times. — Ezra Taft Benson.

New Russian Ambassadors And New Foreign Policy? Recall of Leading Envoys Has Washington Pondering

WASHINGTON—There are increasing signs Russia will replace her ambassadors to the United States and Great Britain, and the big question is: Is it a routine rotation or does it represent a shift in Soviet foreign policy?

Several weeks ago the Kremlin summoned home its ambassadors from Washington, London and Paris. There was no explanation. But the coincidence of the withdrawal of the Red diplomats from the western big three aroused wide speculation of some obscure Russian maneuver. Now, Moscow has announced that its ambassador to France has been replaced by Sergei A. Vinogradov, the Soviet's World War II ambassador to Turkey. Diplomatic circles have become convinced this foreshadows new ambassadors to Washington and London as well. But the significance of the shift still remains a mystery. Most educated guessing centers around the belief that the move has some connection with the spreading revolt against Communism in the European satellites.

Some sources go so far as to speculate any new Soviet envoys will bring to their posts a changed diplomatic "line" designed to ease East-West tensions, liberalize life in the iron curtain countries and slow down mounting free world pressures against Communism—all moves to quell anti-Communist riots that have made headlines.

GIANT "WHIRLYBIRD"—The civil aviation world is waiting expectantly for the flight of the first commercially feasible passenger helicopter, expected to hop into the air at the Piasecki factory in the fall.

The giant 41-passenger "whirlybird" is being readied now for its first flight tests. Late this summer it will undergo static ground tests.

Designed the XH-16 for the Air Force, for whom it will be produced, the rotary-winged craft is equal in size to a DC-4 and is expected to be used primarily as a troop carrier.

However, civil aviation experts predict that when it comes up for civilian use it will find a great market in replacing regular airplanes on flights of less than 300 miles. Such a craft could cut actual flying times between comparatively close metropolitan areas by at least one-third.

FOOD WEAPON—It may prove futile, but the administration intends to plump hard for President Eisenhower's request that he be given sweeping authority to send surplus food overseas when famine threatens.

The humanitarian aspects of the request are obvious. The administration will stress the political factors involved.

The idea is more cold war strategy than anything else. Mr. Eisenhower would like to have a free hand in rushing food wherever necessary, not only to feed hungry people but to keep them from turning Communist.

WHITE HOUSE TIMING—Veteran politicians are puzzled at the timing of the recent White House demand for extension of the excess profits tax by a maneuver to by-pass the tax-writing House ways and means committee.

The move, originating in a bill in the rules committee, later was withdrawn. But it left political scars on Capitol Hill which may prove malignant.

The big puzzle is: Why didn't the administration wait until the deficit—far larger than expected—was revealed?

Had the size been released earlier from July 1, most of the steam would have been taken from the tax-cutting advocates, led by Rep. Daniel Reed (R), New York, chairman of the ways and means committee.

Instead, the administration tried to shove the excess profits tax through without revealing the nature of the problem. Now the extension probably will go through, but at the expense of making an enemy of Reed.

WHEN THE OLD BIRD WAS YOUNGER

10 YEARS AGO—

(Taken from Eagle Files of August 6, 1943.) The celebrating of the Golden Wedding Anniversary Sunday, August 1, 1943, of Mr. and Mrs. J. D. Priddy of Goldthwaite, took place at their home on South Parker Street. On August 2, Dr. and Mrs. J. B. Townsend received congratulations and good wishes on their Golden Wedding Anniversary.

Last Monday while clearing brush and rocks from in front of the maintainer of a grader which was leveling up the lot just west of the Conro Building, Rev. Bedford Renfro stepped back into the maintainer and his leg was broken before the operator could stop. It was thought at first that Mr. Renfro was hurt more seriously and he was rushed to a Brownwood hospital. Word was received from there Thursday stating that Mr. Renfro's leg had been placed in a cast and that he was resting well.

Mrs. Meadla Herndon returned to her home in Oden, after spending several days visiting relatives here. Mrs. G. L. Bates, her sister, returned to her home in San Angelo Monday, after spending a week here with Mrs. Annie Armstrong and other relatives.

Mrs. Julia Taylor returned home Wednesday from Dallas where she had been visiting her granddaughter, who arrived in the home of Mr. and Mrs. Alvin Gandy on July 5. The little lady has been named Judy.

47 YEARS AGO—

(Taken from Eagle Files of July 28, 1906.) Yesterday afternoon P. M. Morris' little son, J. T., fell from a little burro he was riding and broke his left arm at the wrist. Bennett Wood, one of the old settlers of the Mullin country,

has sold his farm there to W. H. Bureson of Plainview.

Theodore Hoy and little sister, Cathlene, who spent several days here visiting L. E. Miller and family, have gone to Lometa to visit the Longfield family.

Messrs. Ed Garlick and Shelby Strange of Temple and L. R. Conro, J. B. Ferguson, J. H. Saylor and A. J. Weathers of this city are arranging to go to the Brady the latter part of next week to spend a short time fishing.

L. E. Miller has on display in his store some curiosities in the form of Mexican or Indian earrings that were found on Robert Robertson's farm in Big Valley.

Miss Mary Anderson, who spent several days here visiting her brother, E. B. Anderson, and his family, left Tuesday evening for Brady to visit relatives.

Mrs. S. A. Lowrey, daughter of Mr. B. R. Brown of this city, died at her home in Taipa at an early hour Monday morning and the news of her death brought sadness to the hearts of all who knew her in this city.

Messrs. Fairman and Son have made some improvements in their gin and have overhauled their machinery, getting ready for the fall run.

In last week's paper we carried an item about the Hale family reunion. We were quite impressed with the fact that all thirteen children of the family were present. Seems a hard job for families to get them all out for a reunion, and it is always a great day when members of a large family can get together.

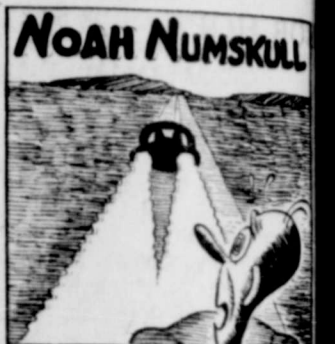

After the paper was out we found out that one member of the family, Mrs. Boyd Knowles, "Dora Dean" was not listed among those present. That was disappointing to her and everyone else. In checking back it was discovered that when the list was made up for the paper Dora Dean was accidentally overlooked, although she was present. We make mention of this so that it can be taken as a matter of record—since it may be a long time for all of them to get together again.

Europe, but, after she started getting cards and letters they apparently kept coming on schedule. She reports receiving two cards and two letters in one day so that made up for some of the days when they failed to hear from him. His correspondence is mailed from a good many sections along the route of their tour. One card of recent date was mailed from Portugal. Lathon informed his family that they were to have dinner at the King's palace and be served by the King's servants. Now how do you like that for an experience? This is only one of the many wonderful experiences that the young man is having on this trip through a dozen European countries, which is an education to say the least.

It has been several weeks now since Jerry Collier started wearing a cast on his right arm after suffering a fracture. The first two weeks it was a pretty rough proposition for the young printer's helper at the Eagle who kept right on the job doing what he could. As the weeks went by he was able to do more and more of his regular chores and now he is looking forward to the time when he can go over to the doctor and have the cast removed — or at least have a smaller one put on. He feels that with a little less weight he will be in better position to maneuver even more freely. The first week or so he thought it wouldn't be long before doctor would change it. It was interesting to hear his re-

port after visiting the doctor's office one day last week, a good four-weeks later. He came back to work and when the doctor questioned him about his arm and asked if he got a new cast he informed them that the doctor said since this one was so ready comfortable it would be a good idea to keep it on for another two weeks. He is pretty proud of one thing though, he got a new coat of whitewash on it.

Angelist Oral Roberts said word "incurable" has been made, that the word "incurable" is not in the Bible! He said: "Since God had not it, you should not use it. It is the final authority." He

TODAY'S Menu

Hash That'll Please the Men

By ALICE DENHOFF

WHY should hash be treated like a poor relation?

A friend of ours recently dined at an exclusive men's club. He told us that there was hash on the menu—not just one kind, but three—and that, sneaking a look at other tables, he noted that it was a best-seller. And smart restaurants, especially those catering to an expensive lunchtime clientele, often feature hash.

Perfect Hash

To please a man, learn how to make perfect hash—juicy meat slivers, fork-tender potato—the whole enclosed in pan-browned perfection. You're likely to be rated a great woman as well as a fine cook!

Try some new ideas as well as old favorites for a good hash repertoire. A Syrian friend has worked over a lamb hash recipe from her homeland, and offers an amended version, the recipe for 4.

Combine 2 c. chopped, cooked lamb, 2½ c. diced, cooked carrots, 2 tsp. minced onion, ¼ tsp. salt, dash of paprika and ½ c. condensed tomato soup, mixing thoroughly. Heat 2 tsp. olive oil in a skillet, spread hash evenly in pan and cook slowly until well browned. Slide onto hot plate and serve with hot French salad dressing.

East Indian Hash next, the recipe for 4.

Combine 2 c. chopped, cooked beef, 2 c. cold cooked rice, tsp. salt, dash cayenne, 2 tsp. curry powder and ½ c. light cream; mix thoroughly. Heat 3 tsp. fat or drippings in pan and cook hash slowly until bottom is

browned, being careful not to burn hash.

For a good hash quickie, cut one pound luncheon loaf into one-inch cubes. Melt 2 tsp. butter in skillet. Add 2 tsp. minced onion and 2 tsp. chopped green pepper. Sauté until soft. Add luncheon loaf cubes and 2 c. whole kernel corn, cooked or canned. Sauté slowly for 20 minutes, or until lightly browned, stirring occasionally. Serves 4.

For Roast Beef Hash to serve 4, combine 2 c. chopped cooked roast beef, 2 c. chopped, cold cooked potatoes and ¼ c. finely chopped onion. Add ½ tsp. salt, dash pepper and ¼ c. light cream. Heat 2 tsp. fat or drippings in a skillet, spread hash evenly in pan and cook without stirring until well browned on bottom. Fold omelet-fashion and turn onto hot platter. Serve with spicy tomato sauce or relish.

For a variation, spread hash in a greased pie pan. Bake at 350° F. for about 15 minutes. Then make 4 dents in the hash with the back of a spoon, and break an egg into each dent. Return hash to oven, baking until eggs are firm. Serve at once.

And for a good appetizer trick, prepare half the recipe for Roast Beef Hash as given, but omit the cream. Instead, add one slightly beaten egg, 2 tsp. chili sauce, tsp. horseradish and 2 tsp. chopped parsley. Mix well; shape into tiny balls.

Roll balls in beaten egg, then in dry bread crumbs. Fry in shallow fat (375° F.) for half a minute, until browned. Serve each hot hash ball on a toothpick. Makes about three dozen.

chapter 9, verses 20, 21, 22: "And behold, a woman, which was diseased with an issue of blood twelve years, came behind him, and touched the hem of his garment: For she said within herself, If I may but touch the hem of his garment, I shall be whole. But Jesus turned him about, and when he saw her, he said, "Daughter, be of good comfort; thy faith hath made thee whole. And the woman was made whole from that hour."

Forerunner For Fall

By VERA WINSTON

COTTON, firm of weave, and in a rich, dark red, makes a dress that is a forerunner for fall, and is just right for the coolish days that come in late summer. Actually it is a tiny check of black and red, but gives a red effect. The binding is black grosgrain, a nice touch for the perky stand-up collar bow and front closing to the waist. Black belt. Skirt is gathered, is cut on the bias, and has grosgrain-bound pockets slashed into the side seams.

Christ Above All

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

Scripture—Colossians 1:1—2:7.

Paul, anxious for the church which he had founded in the Greek city of Colossae, wrote that he never ceased to pray for them, "that ye might walk worthy of the Lord unto all pleasing, being fruitful in every good work, and increasing in the knowledge of God."

Christ, "who is the image of the invisible God, the firstborn of all creation; for in Him were all things created, in the heavens and upon the earth, things invisible, whether thrones or dominions or principalities or powers; all things have been created through Him, and unto Him."

"And He (Christ) is the head of the body, the church; who is the beginning, the firstborn from the dead; that in all things He might have the preeminence. And through Him to reconcile all things unto Himself, having made peace through the blood of the cross."

He is with them in spirit, Paul writes: "As ye have therefore received Christ Jesus the Lord, so walk ye in Him; rooted and built up in Him, and established in the faith, as ye have been taught, abounding therein with thanksgiving"

News Of The Ebony Community

By CLEMLTINE WILMETH BRILEY

The little community has quite crowded with events in the past week. We were shocked to hear that Joe Reeves was in the hospital, a victim of a heart attack. But the case is very mild, and he is likely home again by the end of the week.

Mr. and Mrs. Arthur Tippen of Houston were the guests of Mrs. Effie Egger, Mrs. W. C. Whittenburg, and Mrs. W. C. Whittenburg, who were in the city for a reunion at the home of Mrs. Effie Egger.

A delightful social event was held at the home of Mrs. Effie Egger, honoring Mrs. Henry Griffin — at the home of Mrs. Effie Egger. The refreshments consisted of cake, nuts, and mints.

Present were Mrs. Effie Egger, Mrs. Blue Thompson, Mrs. Edna Dwyer, Mrs. Charm Whittenburg, Mrs. Homer Turner, Mrs. Hulon Egger, Mrs. R. D. Egger, Mrs. Melvin Pafford, Mrs. Warren Freeman, Mrs. R. D. McCarty, and Mrs. Flatt Hollis who was visiting from Alpine; Misses Wade Ann Harbor, Shirley Rowlett, Peggy Pafford, and Nancy Reeves; children, Marianna Egger, Jerry Egger, Annette Duncan, Billy Belich, Johnny Belich, Delbert Turner, Woodie Dean Egger, and Katherine Egger.

ger, Mrs. Blue Thompson, Mrs. Charlie Griffin, Mrs. Stanley Reeves, Mrs. Charles Henry Griffin, Mrs. John Briley, Mrs. Bill Belich, Mrs. Edward Egger, Mrs. Cecil Egger, Mrs. Johnny Humphries, Mrs. Edna Dwyer, Mrs. Taylor Duncan, Mrs. Charm Whittenburg, Mrs. Homer Turner, Mrs. Hulon Egger, Mrs. R. D. Egger, Mrs. Melvin Pafford, Mrs. Warren Freeman, Mrs. R. D. McCarty, and Mrs. Flatt Hollis who was visiting from Alpine; Misses Wade Ann Harbor, Shirley Rowlett, Peggy Pafford, and Nancy Reeves; children, Marianna Egger, Jerry Egger, Annette Duncan, Billy Belich, Johnny Belich, Delbert Turner, Woodie Dean Egger, and Katherine Egger.

Mr. and Mrs. Austin Cawyer of Orange arrived at the Dwyer home Wednesday for a ten days visit. They brought with them from Beaumont five of the Mitchell family — Mrs. Mitchell, Carol Jean, Robert, Jill and Jan.

O. R. Mitchell arrived at the Briley home Friday night. He brought with him for the Dwyer home John Robert Bateman, who is a medical student at Galveston, and Ednabeth Caw-

yer, student in the State College at Huntsville.

Dr. Marie Wilmeth of Abilene arrived at the Dwyer home Friday night. And Mr. and Mrs. John Bateman and Joe of Fort Worth arrived there Saturday evening. The Brileys, Mitchells, and Beliches joined hands with Mrs. Dwyer and her guests to enjoy a supper together on the Dwyer lawn Saturday evening.

We had to rush around Sunday to get off in time for church in Brownwood, and thence to the reunion at Coggin Park. In spite of the fact that among the guests there were two Fords, a Pontiac, and a Cadillac, Billy and Robert both cried to ride in the pickup.

Present at Church and at Coggin Park were Mr. and Mrs. John Briley and Mrs. Edna

Dwyer of Ebony; Mr. and Mrs. Jim Wilmeth of Brownwood; Mr. and Mrs. John Bateman of Fort Worth; Mr. and Mrs. O. R. Mitchell, Carol Jean, Robert, Jill, and Jan of Beaumont; Mrs. Grace Belich, Billy and Johnny of El Paso; Miss Marie Wilmeth of Abilene; Mr. and Mrs. Ralph Wilmeth, Lucy Gale, Nancy, and Joe of Mozelle; Mrs. Paul McClung, Martha, Larry, and Willy of Wichita Falls; Mr. and Mrs. Austin Cawyer and Ednabeth of Orange; Joe and John Robert Bateman of Fort Worth; Mrs. Nell Millar Norman and daughter, Nancy, of San Angelo; George Weddell of Camp Hood; and Mrs. Mary Blagg of Brownwood.

Mr. Pat Ewing of Corpus Christi, daughter of the late Charles Wilmeth, surprised the

relatives by showing up at church Sunday morning. She had heard of the reunion by chance, had ridden the bus, and had stayed at the hotel Saturday night.

Visitors were Misses Geneva Welch and Jane Echols, students from Abilene; Mr. and Mrs. Joe Horton and Barbara from Bangs; Mrs. Ranza Boyd, Mr. and Mrs. Jenks Martin and Mr. and Mrs. Edward Egger and Jerry of Brownwood; and Mr. and Mrs. Reed and Jeanette of Comanche.

Mr. and Mrs. Austin Cawyer, Ednabeth Cawyer, and Carol Jean Mitchell went to Abilene Tuesday to be the guests of Marie Wilmeth in her new home. The trip was of special interest to Ednabeth and Carol Jean since Ednabeth, a senior

in A. C. C., will make that her home during the coming school year, and Carol Jean, who will finish high school next spring, expects to make her home during her four years of college.

Just this week I have received from The Progressive Farmer my Sunray plaque granted to me as an award in the Star Scribes Contest of last year.

Mr. and Mrs. Doyle Duncan and Vaneta Kay of Lampasas and Mr. and Mrs. Billy Ray Hammond and Susan of Midland visited their parents, Mr. and Mrs. Ray Hammond for the weekend; they also visited with their brother, A/1c Jesse Wayne Hammond who was spending a 15 day leave with his parents and other relatives.

Mr. and Mrs. A. L. Cole and son David visited their parents, Mr. and Mrs. M. J. Cole in Brownwood last Sunday.

Mr. and Mrs. Lloyd Reynolds and children, Noel, Marie, Charlie, Jackie and Earl Wayne visited Melvin Reynolds and family and Miss Leatha Reynolds at Monahans last Sunday.

Mr. and Mrs. Ulric Martin and sons, Bobby and Billy, and Marjorie Whitt and Freda Nowell returned last week from a vacation spent in Colorado.

120,009 turkeys on Purina Plan average

4 POUNDS FEED

POUND GAIN!

Just about every turkey grower feeding the Purina Way last year reported better-than-ever result. Fifty-three of these growers sent their records to Purina. These records show 120,009 turkeys averaged 3.99 pounds of feed per pound of turkey... that's feed conversion that would have seemed almost impossible a few years back.

May Succeed Tobey

REPORTS from New Hampshire indicate that Gov. Hugh Gregg (above), 35, may succeed the late Sen. Charles W. Tobey, who died of a heart attack. This could be done by Gregg's resigning as Governor and being succeeded by New Hampshire Senate President Lane Dwinell, who then would name Gregg to the Senate post.

PREVENTING INSECT DAMAGE THROUGH RESEARCH

Killing insects is a lot like a marriage proposal. A little thought beforehand may prevent a pack of grief afterwards.

A fellow rarely has the chance to repeat his pre-marital mistakes. But fortunately, we can profit from our previous errors in insect control. And Texas Department of Agriculture entomologists are under pressure now for some quick answers to our pest problems.

Biological control is very promising. Milky disease has reduced the ravages of the Japanese beetle in the U. S. but we are always looking for ways to breed and distribute more natural enemies of destructive insects. Such research involves a world-wide search for insect predators, parasites and diseases of the pests we want to control.

The more we know about the causes of the rise and fall in numbers of an insect, the better we can forecast and prevent these epidemics and the resultant damage. It is essential that our techniques of survey and identification be rapid, sure, and inexpensive.

Timber losses caused by insects surpass those due to fire in many parts of Texas. Some years, our national loss from the cotton boll weevil exceeds 500 million dollars. Other insects that have caused losses exceeding 100 million dollars in a single year include grasshoppers, cattle grubs, corn earworms, greenbugs, bollworms and European corn borers.

In the past 10 years, more than a score of new organic-type insecticides have been tested and marketed. There are

hundreds more awaiting further study. Results, thus far, of entomological research have been a big factor in increasing crop yields, yet the above losses demonstrate the need to discover even better control procedures.

Results of research, when applied on farm, ranch, forest, and in the home, will prevent waste and suffering by controlling more than 600 major destructive insects as well as the pests that transmit diseases of plants, livestock and man.

We need research — and plenty of it.

Wilbur L. Heath Receives Commission At Camp Gordon

Camp Gordon, Georgia—Wilbur L. Heath, son of Mr. and Mrs. C. H. Heath, was one of 142 cadets awarded his reserve commission as a Signal Corps second lieutenant here July 31. He has just completed six weeks intensive training with the Signal Corps Reserve Officers Training Corps Summer Camp.

Major General James D. O'Connell, Deputy Chief Signal Officer of the Army, officiated at the encampment's closing ceremony. While praising the 1,100 cadets on their excellent showing during field operations here, Gen. O'Connell reminded the group that they were entering on a responsible road as representatives of America's armed forces.

In presenting commissions to 142 members of the ROTC group — eligible since they completed their college academic work this year — Gen. O'Connell expressed the conviction these men would be a credit to the nation, to the Army, and to themselves.

Lt. Heath received training in all types of communications equipment at the Signal Corps ROTC camp. He has demonstrated his ability in installing, operating, and commanding wire and radio networks adequate for an infantry division.

Outstanding cadets were honored with special awards at the final ceremony. All cadets were commended for the enthusiasm and initiative they displayed during the encampment by Colonel Robert O. Waller, Deputy camp commander.

Mrs. Carl Letbetter was called to Dallas Tuesday of last week to the bedside of her sister, who is seriously ill.

Mr. and Mrs. Wayne Locklear of Weatherford were Sunday guests of their parents, Mr. and Mrs. C. Locklear.

Beckham Sends Final Report On Boy Scout Jamboree With Side Trips

By BILL BECKHAM
After breaking camp at the Jamboree on Friday, July 24, we boarded our train at Puente, California and began our trip to San Francisco.
Next day we arrived in Oakland at 8:00 a. m. and took a ferry to San Francisco. There we were taken on a tour of the Golden Gate Bridges and then to Muir Woods Park where we ate lunch and saw some of the beautiful California Redwood trees. After this wonderful experience we again boarded our train for a tour of Chinatown and other interesting sights in San Francisco. At 7:00 p. m., we rode the ferry back to Oakland where we boarded our train once more.
We rode the train all night and all day Sunday. We had church services on the train.
At 7:00 p. m. we arrived in Salt Lake City, Utah. We boarded the waiting bus at the railroad station and went to the Great Salt Lake where we took a swim. The water was certainly salty and sure enough you can't sink!
After our swim we took a bus tour of the city. We saw many interesting sights, including the

Utah State Capitol and the beautiful "Mormon" Temple.
At 10:30 we returned to our train and soon after we were headed for home.
Monday we passed through the state of Colorado and saw the beautiful Rocky Mountains. That afternoon we stopped for about ten minutes at the Royal Gorge. About 5:30 p. m. we stopped in Pueblo, Colorado, for a short time and invaded the depot for magazines and cold drinks.
Tuesday morning we awoke to find ourselves once more in the great state of Texas and about 8:00 we arrived in Amarillo.
After travelling all day in our own state of Texas, we arrived in Fort Worth at 6:30 p. m. We ate supper in Fort Worth and then boarded our train, headed for Brownwood.
Following several restless hours, we arrived home at last!
By the way, ask Tom Cody Graves if he has any candy to sell.
