Learn To Swim Program To Start Next Monday Morning At Local Pool

The Swimming Pool board of trustees has announced that a "Learn To Swim Program" for school age children will get underway at Goldthwaite Municipal Pool on Monday morning of next week. The program is being sponsored by the American Red Cross with John Carothers as instructor. It is open to boys and girls of school age.
According to the announcement all boys and girls interested are to meet at the pool at 8:30 Monday morning with lessons, or instructions, to get underway at nine o'clock.
Time for classes and number of courses with the number of days for the course will be determined after the Monday morning meeting and will be depending on the demand and number of pupils interested.
Registration cards will be available at the pool starting Thursday (today) at 2:00 o'clock in the afternoon. Cards must be filled out and carry the signature of parent and doctor.
Dr. M. A. Childress has volunteered his services to meet with the group Monday morning and give the boys and girls the necessary check-up that is required by the Red Cross in connection with the "Learn To Swim Program."
The course of instruction is free to pupils, there is no charge for the swimming lessons. Only charge is the regular admission to the pool.

GRASS ROOTS OPINION

Oxford, N. Y., Review Times: "The public will get tax reduction if it is willing to forego extravagance in city, county, state and national affairs."

New Orleans, La., Herald: "Being an American and aware of our American privileges we don't like the way some of the witnesses have been treated when appearing before Congressional investigating committees. Our system of law says a man is innocent until proven guilty. On several occasions the attitude of the investigating committees has been quite opposite."

Saugerties, N. Y., Catskill Mountain Star: "The economizers, trying to trim 'Big Government,' find it hard going. It's easy to start a Federal project or bureau, but hard to get rid of it. For instance, the NRA — found unconstitutional in 1935 — still appears in the Federal budget. The time has come to get rid of unneeded bureaus and be chary of starting any new ones."

Rutherfordton, N. C., News: "How much longer the American people will stand for millions to be spent on TVA, which is a Socialistic movement, we do not know. The best thing would be for Uncle Sam to sell out TVA to private power companies. The latter would develop and carry on without spending millions of the taxpayers money yearly."

Inside WASHINGTON MARCH OF EVENTS

President, Veep Abroad — Big Three Meet, Tour Same Time in Autumn? — By Nixon May Coincide

WASHINGTON—The nation's "Big Two"—President Eisenhower and Vice President Richard M. Nixon—may both be out of the country at the same time this autumn, breaking an informal arrangement against just such an occurrence.

Nixon will be on his good-will tour of the Far East and Southeast Asia in October and November, and Mr. Eisenhower may be off attending the Big Three conference during that period.

When and where the Big Three parley is held depends, of course, on the physical condition of British Prime Minister Sir Winston Churchill. It is very possible that Churchill will not be ready to confer with the President and the premier of France until October or November.

Should both the chief executive and the vice president be absent from the United States at the same time, the reins of government would be in the hands of Secretary of State John Foster Dulles. However, communications being as speedy as they are these days, it will not be difficult for Mr. Eisenhower to continue running his administration no matter where he is.

Slowness of communications in the old days resulted in an informal arrangement under which either the President or the vice president would be in the country at any one time. Presidents Roosevelt and Truman continued operating under this procedure, but now, President Eisenhower may cast tradition aside.

RESHUFFLE—Look for a brisk reshuffle at Democratic national headquarters, in preparation for the party's all-out drive to recapture control of Congress next year.

Washington insiders expect Michael Di Salle, former price boss and popular ex-mayor of Toledo, O., to become Democratic national chairman, replacing the amiable but non-dynamic Stephen Mitchell.

Politicos believe that Di Salle will bring with him a headquarters crew chosen with the advice of ex-President Harry S. Truman, whose recent visit to Washington was primarily for the purpose of plotting 1954 campaign strategy.

The party's titular head, Adlai E. Stevenson, is said to have sent word that Di Salle is perfectly acceptable to him as national chairman.

The Democrats' first big barrage of the year will be fired at a gigantic rally in Chicago this September. Di Salle's selection for the chairmanship may be announced then.

Stevenson and all other possibilities for the 1956 presidential nomination will address the Chicago parley. They include Senators Stuart Symington of Missouri, Estes Kefauver of Tennessee and Richard Russell of Georgia, and former Mutual Security Administrator W. Averell Harriman.

NEW CHIEFS—Despite President Eisenhower's success in fighting off attacks on his \$5 billion Air Force budget cut, airmen still believe they may get a larger share of the defense dollar.

They are pinning their hopes on a re-survey of the nation's military needs which Mr. Eisenhower has ordered his new Joint Chiefs of Staff to make.

The re-survey could very conceivably result in a decision that the Air Force after all does need more money. It will then be a relatively simple matter for funds appropriated by Congress to be shuffled from one service to another.

The chances that the Air Force will get more money hinge particularly on Gen. Nathan F. Twining, new air chief. If anyone can convince the other members of the JCS that more should be spent on the nation's air might, Twining is the man.

Insiders say he's far more persuasive than his predecessor, Gen. Hoyt S. Vandenberg, and that he's far more likely to win others to his point of view.

VIC'S SOLILOQUY

Beginning in this issue our readers will find a new item of interest in the form of Diary Report from Grady Carothers and his son Jack and John Thomas who accompanied them on their trip to Alaska, in quest for more reindeer. His first report covers a week's travel from Dawson Creek, Canada, to Fairbanks, Alaska, from July 25 to August 1. That's as far as they go with trailer and pick-up. In checking over the report we find it most interesting and we hope our readers will enjoy it with us. It sets forth many happenings on their trip and in the weeks to come it will keep us informed on their activities while spending some weeks in the North land. The party left Goldthwaite on July 17, and the first installment of their diary report starts after they were out a full week. We invite our readers to see release number one in this issue and to look for further reports as they arrive.

day that he was there. Their paths crossed on the same day and they didn't know it.

John Jackson reports that he has had a number of inquiries about the possibilities of him building a golf course on some of his property near The Hangar. He reported the matter to the Lions Club and it was discussed some last week Tuesday night. There seems to be keen interest in the project by a good many folks in Goldthwaite and surrounding territory who would like to have a golf course. In addition to local folks it has been pointed out that a number of inquiries have been coming to Jackson from folks in the San Saba area. It may be that sufficient interest will be forthcoming to make such a move possible. At any rate, it would be well for everyone who is, or may be, interested in having a golf course constructed in or near Goldthwaite to get in touch with John Jackson and let him know about it. The matter is being given further study by the board of directors of the Lions Club and will be brought up again soon for more discussion. Jackson has the land available and is interested in the move. It has been stated that with putting in some wells there is a possibility of building a course with grass greens, too.

Speaking of golf, it is only natural to make mention of some of our local players and how they are getting along with their game. A few days ago a foursome, composed of Allen and Reva Mae Moreland and Marvin and Gloria Childress, took off

on Saturday evening to play round or so. After they played nine holes it seems that Gloria was sorta ribbing her. Don's husband about her beating him on one hole. She felt pretty good about her score, all in all even though Marvin did beat her in the overall play. Reva Mae didn't get that close to mastering the game that afternoon to give Allen any trouble with a close score, but she did have a last word to say about the game and some of the reports the males had brought home at some time or other. She gave the matter a little thought and then commented as follows: "I would like to see some of those good scores played sometime when we are down here with you guys — seems the good score reports always come when you are down here by yourselves."

NEWS NOTES FROM OUR READERS: from here and there. F. Nix writes from Plainville as follows: "Please find enclosed check for renewal of subscription which has expired. Also please change our address to our new home at 705 South Date Street." "Enclosed is check for another year's subscription — we look forward to the Eagle each week" comes from Warren, Wilson of Route 5, Abilene. L. Hicks E. Read stopped in the office one day the past week to change his address from Turner AFB in Atlanta to Lowry AFB at Denver, Colorado. E. Read said: "You just don't know what it means to get the paper each week — we certainly enjoy it." Don Elder, son of Mr. and Mrs. Clarence Elder, commented as follows: "I sure get a kick out of some of the cartoons you have in the Eagle — especially Sally's Stilles in the last issue." J. Livergood writes from Fresno, California as follows: "Please find enclosed subscription renewal for another year as the wife and I have received the Eagle for so many years and always on Monday, so do not want any blue Monday now, after receiving the paper for 40 some years."

Stuff Nature's "Casseroles"

By ALICE DENHOFF

"CASSEROLES" that grow on vines and bushes are tomatoes, green peppers, cucumbers and summer squash. Hollow out these natural "casseroles," fill them with a savory meat stuffing, and there you are with Nature's baking dishes!

For Stuffed Tomatoes

Basic meat stuffing is given first for tomatoes.

Wash 6 large ripe tomatoes and remove stem end. Carefully insert teaspoon and hollow out center. Mix tomato pulp, 1 lb. ground beef, 1/2 c. soft bread crumbs, 3/4 c. tomato juice and 1 slightly beaten egg. With a fork lightly stir in 2 tsp. minced onion, 1 tsp. chopped parsley, 1/2 tsp. salt, 1/2 tsp. pepper and 1/4 tsp. dry mustard. Pile stuffing in tomatoes. Place on shallow pan and bake at 375° F. for 45 minutes.

Peppers and Squash

To stuff green peppers, wash 6 medium green peppers. Cut thin slice from stem end and remove seeds; parboil peppers 5 to 10 minutes. Dice green pepper tops and add to basic meat stuffing. Proceed as with stuffed tomatoes.

To stuff summer squash, wash 2 medium yellow squash. Parboil

15 minutes. Cut lengthwise slice from side of squash. Scoop out pulp with teaspoon, leaving shell 1/4-in. thick. Dice pulp and add to basic meat stuffing, then proceed as in stuffed tomato recipe. For 3 servings, slice each squash in thirds.

To stuff 3 medium cucumbers, parboil 10 minutes. Cut lengthwise slice from side of cucumber. Scoop out pulp with teaspoon, leaving shell 1/4-in. thick. Dice pulp, add to meat stuffing, proceed as for tomato recipe.

Shrimp-Cabbage Salad

In the same vein but on a different plane is a Shrimp-Cabbage Salad that uses a hollowed-out raw cabbage.

Remove outer leaves from 1 medium cabbage; wash cabbage well. Cut slice from top. Hollow out cabbage by cutting with a sharp knife around cabbage 1/2 in. from edge. Cut inside section in wedges, remove core and chop. Combine with 2 (5-oz.) cans shrimp, drained and coarsely broken, 2 tsp. each salad oil and lemon juice, 1 tsp. cider vinegar and 4 tsp. mayonnaise. Place in cabbage shell. Chill several hours so filling will be firm enough to slice. To serve, cut in crescent-shaped pieces. Makes 6 servings.

To Be Honored On Fiftieth Anniversary

The children of Mr. and Mrs. C. F. Cornelius will honor their parents on their 50th Wedding Anniversary, Sunday, August 16. Open house will be at the home of their son, Col. and Mrs. V. Z. Cornelius, 2010 Fisher Street from 2:30 until 6:00 o'clock in the afternoon.

Hostesses for the occasion are the children, Col. V. Z. Cornelius, Mrs. J. V. Brown, Mrs. Clarence Anderson, Mrs. Carlos Patterson, Wayne Cornelius and Mrs. Fairman Marshall.

The many friends of Mr. and Mrs. Cornelius and their children are most cordially invited to call during the appointed hours.

Dainty Dress

By VERA WINSTON

PURE silk, light as a feather and cool is used for a beautiful daytime dress, the color scheme light sand color background with a neat blue print. The neckline is not the least of the attractions, scooped out as it is, with cartilage pleating in front and a shoestring bow also in front. The skirt is full with an inverted pleat in front and there is a crinoline underneath.

TO WED

Miss Patricia Lockridge will become the bride of Mr. John Shannon Saturday, August 15 at 8:00 p. m., at the First Baptist Church of Goldthwaite. The couple extends an invitation to all their friends to attend the ceremony and reception afterwards in the church chapel.

Betty Jean Wilcox Marries Frank Don Kidd, On June 25

Miss Betty Jean Wilcox, daughter of Mr. and Mrs. R. R. Wilcox of Seminole became the bride of Frank Don Kidd, at an impressive ceremony Saturday, June 25, at 8:00 p. m., in the Sanctuary of the South Seminole Baptist Church. Rev. George Rickles, pastor of the Church, read the single ring ceremony.

Miss Laphane Wilcox was her sister's maid of honor. She wore a green nylon dress with white accessories. Her corsage was of yellow roses.

James Guy of Seminole served as best man.

Pre-nuptial organ music was by Mrs. Sam Malone.

The bride chose a chocolate cream crepe dress, trimmed with white. Her accessories were brown and white and her corsage was of white carnations.

Mrs. Kidd is the granddaughter of Mr. and Mrs. J. R. Wilcox of Caradan.

The groom is the son of Mr. and Mrs. B. V. Kidd of Seminole.

After a short trip the couple returned to Seminole where they will make their home.

THE NEW KELVINATOR

AUTOMATIC WASHER!
Gets Dirty Clothes REALLY CLEAN

Yet is safe for your Finest Underthings!

Here is a completely automatic washer that gets the dirtiest of work clothes and children's play clothes really clean. Yet the washing is so gentle that you can safely trust your finest underthings to its care.

This new Kelvinator has a special... and different... washing action - "Shampoo Washing"... "shampooing" action that really loosens dirt in the grime of clothes. Overflow rinsing. Drip-free spin-drying. See it demonstrated!

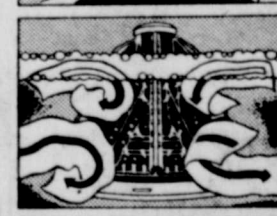

Shampoo Washing...

This special Kelvinator washing action leaves white clothes really white, because they are shampooed in a concentrated washing solution... washing away the most stubborn dirt and grime.

X-Centric Agitation...

"X-Centric" action of Kelvinator's rubber-finned agitator imitates the hand washing of clothes... gently flexing them to loosen ground-in dirt and rinse it away.

Overflow Rinsing...

By adding water so the tub overflows, soap suds and dirt are floated over the top of the tub... away from the clothes... not through them.

News Of Ridge

By Mrs. Sallie McCarty

Mr. and Mrs. E. K. Wood are enjoying their new new International Harvester cooling system very much these dreadfully hot days. They have ice in the living room at night.

Mrs. Jess Rasco and son, Luther, and grandson, Ralph, enjoyed their family reunion at Lake Brownwood recently.

Mr. and Mrs. I. A. Hollis of Alpine visited us last week on their vacation. They went from here to Memphis, Tennessee, to see their son, Elvis Hollis and wife and son, Kenneth Zane. Elvis Hollis has served about ten years in the Navy.

Mr. and Mrs. Ollie Murphy from Lamesa, Mr. and Mrs. Tip Roberts and son of Mullin called on the McCarty's and Claud Hollis Sunday afternoon. We are sorry to hear that Robert Roberts' small child, Linda, was found drowned in a small puddle of water. She was buried at McCamey.

Mrs. B. F. Renfro of Goldthwaite spent the weekend with her brother and wife, Mr. and Mrs. R. D. McCarty.

Rex McCarty, Mrs. Flossie Mills and Mrs. Kate Neepfer of San Saba visited their father, R. D. McCarty and wife last Friday.

Mrs. E. K. Wood spent the day with Mrs. Sallie McCarty while E. K. Wood and R. D. McCarty made a trip to Mullin and Brownwood.

Mr. and Mrs. W. H. Freeman Jr., and Kay spent a few days in San Angelo with Mrs. Freeman's father and mother and other relatives. Mr. and Mrs. Warren Freeman kept the boys, Bennie and Ronnie, for them.

Rex McCarty and wife and son, Jimmie, spent the day with the McCarty's recently.

Bobby Joe Wood called on the McCarty's. He is a busy boy, as he runs the combine for his Dad.

Mr. and Mrs. D. V. Westerman spent Sunday in Lometa, guests of Mr. and Mrs. John Shelton.

Boy Scout Jack Klug, 13, believed to be first recipient of merit badge in railroading, Scouting's newest merit award, was congratulated at National Jamboree in California by Fred G. Gurley of Chicago, president of Santa Fe Railway. The youth's father, J. A. Klug is manager of Santa Fe's Harvey House at Barstow, Calif., and his two grandfathers—John Klug and O. B. Boulton, both of La Junta, Colo.—are veteran conductors on Santa Fe's La Junta-Dodge City (Kan.) run.

News Of The Ebony Community

By CLEMENTINE WILMETH BRILEY

A change in the location of Central has been a deciding factor in bringing the new Central Texas Rural Phone line to Ebony. Almost all in the community have now agreed to have phones installed. But the Brileys will be among the few who will have to wait for better times to make installation possible.

Mr. and Mrs. Charm Whittenburg attended a goat sale at Fredericksburg Saturday.

Hubert Reeves hauled the last of the peaches from the Griffin orchard to San Antonio last week.

Ernest Malone said he was overcome by the heat and was knocked out for about an hour while he was in town Thursday.

Mr. and Mrs. Blue Thompson went to Big Spring last week to visit their daughter, Mrs. George Russell. While there Son-in-law George, who has a garage, was to check-over the pickup.

Mrs. Hubert Reeves, Nancy, and John called at the Briley home Thursday night to visit with the Mitchells and the Beliches. Mrs. Reeves said Joe has fully recovered from his polio.

After ten days at the Dwyer home, Mr. and Mrs. Austin Cawyer left early Friday morning for their home at Orange. They were to go by the State College at Huntsville to take Ednabeth home for the weekend.

After a three weeks visit with her parents, Mr. and Mrs. John Briley, Mrs. Wm. A. Belich and children, Billy and Johnny, left on the Friday afternoon bus for their home in El Paso. They were to spend the night with Dr. Marie Wilmeth at Abilene.

We took our dinner to church Sunday that the Mitchells might get an early afternoon start for their home in Beaumont. The Dwyer-Briley trio then wended their way home through the terrible heat, lonely and forlorn, to a house, empty and quiet, bereft of the merry crowd that had made a happy occasion for more than a week. A few forgotten scattered toys made our hearts ache. We took the extra leaf out of the long table in the living room, let down the drop sides and pushed it to its small

space against the wall. It would be a long time before we needed it for the family again.

Billy called Carol Jean "Beautiful." On one side of the table sat Carol Jean, 16, Robert, 8, Billy, 6, then Johnny and his mamma. Billy said, "Robert, would you mind sitting over here by my brother and let me sit over there by Beautiful? I'm going to marry her." Later Robert's mother overheard the boys in the bath room. Robert said, "Billy, you can't marry Carol Jean for two reasons. First, she is your cousin. And second, she's too big for you." "Yes, I know," said Billy, "but I wish I could."

All that kept the cows from being turned into the field near the house was a patch of maize that needed heading. Son-in-law O. R. helped John saw off the tongue to our old wagon. They hitcher it to the tractor, and they and the boys were off to the maize gathering. Billy had to leave Friday. Saturday at noon here came the men riding in the wagon, and Robert at the wheel driving the tractor. How his face beamed! He called his mother outside to see him. He said he drove the tractor in the field while the men threw in the heads. Billy will have to have his chance when he comes again.

Jill, a charming little miss of two, gave us one of her rare performances, a program of Sunday School songs with cute baby gestures. While Johnny, 1, cried when the hot sand burned his bare feet, Jan, 1, the little Stoic, walked through with poker face. Johnny tried to monopolize his Grandad. Every time he saw him he would say, "Hi Dad," and up would go his little arms to be carried to the chicken house, the cow lot, and the pickup. He would play alone in the pickup for a long time, always at the wheel. He would sit glued to the tractor wheel

Revival Speaker

REV. J. LESTER MCGEE

Progress On New Building Is Slow; Men Needed For Equalization Board

By J. T. JONES

In our case, as is usually true in most bond issues, many of the people are anxious to get construction under way. Our progress has been slow due to waiting for a new building site.

At present time about three sites are under consideration for a good possibility of buying any one of the three. The desirable site remains the Berry property just across the street from Elementary school building but Mr. and Mrs. Berry have not agreed to

client to operate the school in an efficient way but a distribution that will place more money in our interest and sinking fund account is necessary. It is hoped that other men will volunteer to assist Luther Jernigan and some other good men in making our equalization board complete and efficient. Any one having time for this work is asked to contact the school board or school superintendent.

Those who visited in the home of Mrs. Addie C. Davis and her mother, Aunt Maria Stark, during the recent illness of Mrs. Stark were: Mr. and Mrs. Ray Stark and family of Bryan; Mrs. Gergoe Hammett of Munday; Mr. and Mrs. A. D. Smith of Mission; Mrs. Dial Rainey and children of Ranger; Mr. and Mrs. Edd Shive of Fort Worth; Mrs. Ann Northington of Weatherford and Mr. and Mrs. Tili Warburton of Yoakum. At the last report Aunt Maria is up and doing fine.

Mrs. Macalee Merchison of Fort Worth spent the weekend with her grandfather, Henry Ezzell. Mrs. Ezzell and other relatives.

Mr. and Mrs. Ed Gilliam and sons, John and James, returned home last weekend from a two weeks trip to San Francisco and other points of interest.

Farmers To Vote Friday, August 14 On Wheat Marketing Quota For 1954

Tomorrow, (Friday) August 14, is the day set by the Secretary of Agriculture for wheat farmers over the nation to decide whether or not they want Marketing Quotas on the 1954 crop of wheat. The referendum in Mills County will be held in the District Court Room, Goldthwaite, Texas. The polls open at 8:00 a. m., and close at 7:00 p. m. Those eligible to vote are producers who share in the wheat on a farm with an allotment of more than 15 acres, and those who intend to seed and harvest more than 15 acres regardless of size of allotment. Eligible producers' wives may vote, also.

For Wheat Marketing Quotas to be in effect, there must be two-thirds of the wheat farmers in the nation vote for quotas. If quotas are voted in, the government will support the price of wheat at 90% of parity for all cooperators or all who plant within their allotments. Any producer is allowed to seed 15 acres of wheat without a penalty. The penalty will be 45% of parity or approximately \$1.20 per bushel based on present parity. This penalty will be owed on excess wheat acreage, and excess wheat acreage is the acreage seeded to wheat in excess of 15 acres or the wheat allotment, whichever is the greater.

If quotas do not pass, there will be no restrictions on plant-

ing of wheat, no penalties, and also no support price of 90% of parity. There will be a support price of 50% of parity to those who plant within their allotments. Those of you who are eligible to vote— vote for or against whichever you favor.

Diary Report Of Grady Carothers' Trip To Alaska For More Reindeer

(Continued from Page 1.)

After a good rubbing with a bar of soap, we decided to try to make Dawson Creek. About 20 miles further on we hit a rough place and pulled the spare tire off the pick-up (just happened to see it in the rear-view mirror). When we got to town and stopped to get our tank fixed we learned that this was nothing unusual — the garage man had fixed quite a few that week. We got a cabin and spent the night.

SUNDAY, JULY 26— We made it to the half-way mark on the Alaska Highway, it is 1,523 miles to Fairbanks. This is mile 0, each mile has a numbered post from here on. This is the site of one of the most popular gold rush towns, not so much in the gold country, but a main stop over on the way to the Klondike. After a grease job on the pick-up, we left Dawson Creek and headed out over this long stretch of gravel road.

Just out of town we overtook a very colorful old prospector traveling by foot, but not carrying all of his pack. He had two pack dogs, they were carrying approximately their own weight and following right behind him, one dog had an axe tied on top of his pack and the other one had a rifle. The old fellow told us he lived off the country. He said his name was Yukon Joe. We ate a watermelon in order to get a picture of him, and his dogs. He then asked us for a ride, we had room in the trailer so we loaded them in, and hauled them most of the day. Stayed at Fort Nelson that night. We left three bales of hay (bedding for the deer) that we had brought from O. O. Smith's barn, to be used on our way back. We also left two sacks of oat-meal.

MONDAY, JULY 27— The road is gravel, but fairly good. We notice the Spruce is getting

much smaller, the country is covered solid with timber, it is unfenced and the farming has played out. We saw a wolf across the road ahead of us, but he was in the timber too quick for us to get a shot at him. We spent the night at Mucko Lake, high in the mountains.

TUESDAY, JULY 28— The dark part of the night here is very short, 11:00 p. m. to 4:00 a. m. We were up about 7:00 a. m., traveled a short distance and stopped for gas. The operator was a white man and his wife an Indian. Gas is getting higher here and so are our watermelons. It is a long ways between stations and not towns of any size.

The country is more mountainous than I had expected. There are lots of very sharp turns and the steepest hills I have ever seen. We have to take compound low gear on many of them. Our trailer and pick-up draws a lot of attention, I don't know why but we are asked about it at almost every stop. It would make Carl and Brooks feel good to hear some of the things that are said about it. Contrary to what some people thought it is holding together in this strain.

WEDNESDAY, JULY 29— After a good night's rest and a good breakfast cooked by Jack, we had driven about 50 miles, starting at five o'clock by our time. We stopped at the first station to get gas, but could not get anyone out, although it was after sun-up. We found out why at the next station, we had passed our two hour zone and it was three instead of five o'clock, when we started. We saw two bears but did not get pictures of them. We had two flats during the day, when we had them fixed at a station it was \$2.00 each. However, we sold them a 20 pound watermelon for 20 cents per pound.

Later in the day we stopped at a Mountie Station for information, and they told us about some Indians fishing for salmon about 40 miles from there but not on our road. We found a small tribe of very poor Indians trying hard to put in a winter's supply of food. With their permission we spent the night there. John Thomas was up at 3:00 a. m., fishing with the Indians. They grab the fish with a big gaff hook on a long pole. They also use two traps, which completely block the fish off from going up the river where they spawn. However, the law requires them to leave the stream open one day a week, so on Sunday they take their traps out. They had caught one that would weigh as much as 40 pounds, and one man told me he caught 35 pounds in about an hour. These people let us take pictures of all this including some of the salmon caught in the traps, after we gave the Chief a watermelon and cut several for the people; and the men and boys came out to eat them, the women and girls stayed out of sight. It was the first watermelons several of them had ever seen.

Back to the highway and 507 miles from Fairbanks, beautiful scenery and more snow on the mountains than we have seen before. The temperature reaches about 80 in the heat of the day. HOPE it is that way at home.

Spent the night about 20 miles below the Alaska border, at mile 1205.

FRIDAY, JULY 31— Up at 6:00 a. m. the sun looked to be about three hours high. John Thomas has cooked breakfast and Jack is washing dishes. I am sitting on my bunk in the pick-up trying to write and fighting mosquitoes. They are worse than any place we have been. The pick-up cover is mosquito-proof, but there is a flock comes in every time we open the door. I can see about 50 or 60 flying around the screen outside the window. As to size—Jack has been talking about using them for fish bait. If

some of those Texans had them they would sell them for turkey poults.

FAIRBANKS, ALASKA—

SATURDAY, AUGUST 1— Arrived here 10:00 a. m. We sold our watermelons to the first place we tried. The Northern Commercial Company bought them. I know some of the men there. However, the first thing we did on arrival was to get our

mail. We had several news from home in over a Jack has been to the shop for a hair cut (\$2.50) I have seen several people know.

The pastor of the First Baptist Church here (Rev. Carey) has asked John Thomas to preach for him tomorrow which he graciously accepted.

WASH DRY IRON

the clothes

All on a Monday Morning

Grandmother used a boiling pot, lots of homemade lye soap, an old-fashioned washboard, and all the energy she could muster up for the back-breaking task. It's no wonder she didn't feel like singing on washday.

Today— what a difference! The modern housewife leaves all her washday chores to her electrical servants. With an automatic washer, an electric clothes dryer, and an iron in her home, she saves both time and energy doing the family wash the easy, efficient, economical ELECTRIC way, without even leaving the house!

Would you like to be free from the cares of washday? Your appliance dealer will be happy to show you how easily you can, with today's beautiful new appliances. See them right away.

PARENT PROBLEMS

Once a Youngster's Punished, Don't Keep Him in Disgrace

By GARRY CLEVELAND MYERS, Ph.D.

SUPPOSE you have had occasion to punish your five or six-year-old child just before mealtime. Suppose as the family assembles for dinner, all are funnery quiet for several minutes around the table. It's clear to all that the punished child feels he is in disgrace.

It seems a year to him since anybody has smiled or spoken cheerfully. He ventures to look up at his mother, but she's looking down. He wants so much to see a smile on his father's face or hear him speak a tender word, but he doesn't. Even the dog senses that all is not well. At last the baby sister says, "Bad boy." This is the human way in such a situation, but, oh, so very cruel.

Reminded of Misdeeds

Suppose your daughter, ten, knowing she should be home from the neighbor's at seven o'clock, doesn't arrive till nearly eight. You announce a penalty—denial of her favorite TV or radio program that evening at eight. At her bedtime at eight-thirty you remind her of a number of her earlier misdeeds and shortcomings, even adding a few more of them as you kiss her good night.

Had she known beforehand she would forfeit the program on the air if she came home late, she might have felt the punishment just, if only it had ended with the announced penalty. Perhaps this little girl cried herself to sleep

while wondering whether her mother would bring the matter up again the next morning or the following evening. We hope she didn't.

Many parents believe that after they punish a child, they should explain in great detail why they did, and then force the child to say he's sorry and promise never to repeat the offense. Sometimes the parent then will add warnings and go into long and boring exhortations.

Make Reason Clear

Unless you are very sure the reason he's being punished is clear to the child, why punish him in the first place? Choose for punishment only those instances very obvious to the child. This is especially important with the youngster under three or four, when he sometimes should be punished on the first offense without warning. With the older child, a safe way, as a rule, is to define clearly the particular offense and its seriousness and announce the penalty should it be repeated, making sure to keep your word.

You may say this is a threat. It is, but if wisely made and faithfully carried out, it may keep him from choosing to repeat the offense and keep him out of further trouble. Besides, it will seem fair to him.

Anyway, try to stick to the rule that after the specific punishment is completed, end the matter then.

The Christian's Prayer Life

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

Scripture—Matthew 6:7-13; I Timothy 2:1-8; Romans 8:26-28.

Jesus said, "When ye pray, use not vain repetitions, as the heathen do, for they think that they shall be heard for their much speaking."

Jesus' prayer: "Our Father which art in heaven. Hallowed be Thy name. Thy kingdom come. Thy will be done, in earth, as it is in heaven."

To Timothy Paul wrote asking that supplications, prayers, intercessions and giving of thanks be made for all men; for Kings, and all that are in authority."

"I will therefore that men pray everywhere, lifting up holy hands, without wrath and doubting." St. Paul wrote. MEMORY VERSE—Matthew 6:9

LONE STAR Agriculture
Released by The Texas Department of Agriculture

By John C. White, Commissioner

THE FIFTH PLATE

The present birth rate in the United States indicates that one extra person will be sitting at every American table for four by 1975. People are now asking: "Where is the food coming from to fill this fifth plate?"

If population forecasters are right, our agricultural production will have to increase 20 per cent to feed the next generation as well as we are eating now. This means a big demand for additional food.

In the past, such demands have led to drastic changes in

the lives of many people. When the Irish potato crop failed in 1845, hundreds of thousands left their native country to find homes in the United States. As the population increased in the eastern states, people moved west, opening new land and advancing the frontier.

In World War I, American farmers expanded their production by putting vast acreages of land into cash crops. And you all know the years of distress that followed when the war-time market collapsed in the 20's.

When a second World War again demanded the utmost of farmers, they increased production by nearly one-third. This was about the limit of our production capacity at that time.

Today, each farmer now raises enough to feed himself and about 15 others. And there are 7,000 new babies to be fed in the United States every morning of the year. New farmers and new farms can't be created fast enough to keep the ratio balanced.

If we have to raise our sights to feed a permanently expanding population, where shall we turn this time? There are no new frontiers of first-rate land to be opened. Only a little more than one-fifth of our land area is now being used for crops, so millions more acres could be put into cultivation—but the investment for irrigation alone would be staggering.

The problem is not a new one. About 150 years ago, Thomas Malthus, a brilliant but rather short-sighted English economist forecast starvation for the human race because the world population, he said, was outstripping agricultural production. But Malthus was wrong. He underestimated the farmer's ingenuity in constantly improving his crop raising methods.

The answer, then, lies in a greater application of science to agriculture. We must find new ways to apply research to agricultural production and teach approximately the present number of farmers to use new scientific knowledge on approximately the present area of cropland.

We have nothing to fear from the "fifth plate" as long as the farmer continues to increase his per-acre yields, improve his soil conservation practices and work for better plant and animal breeding.

Farmers And Ranchers To Determine Committeemen, Delegates This Week

Mills County farmers and ranchers will determine this week who are to be their Community Committeemen and delegates to the County Convention for the coming year beginning September 1. Delegates elected to the County Convention will meet and select the County Committee that will serve the coming year beginning also on September 1.

Ballots have been mailed to producers and they are requested to mark the ballots the way they want to vote and return them in the self-addressed envelope requiring three-cent postage. Ballots will be received in the PMA office by mail until Friday, August 21. Then all ballots will be opened and counted

in these responsible places by three eligible Mills County producers who are not on the present County Committee or are not a member of any of the present Community Committees.

Producers may vote in person in the County PMA office during the week August 17 to 20 and in the District Court Room on Friday, August 21, if they so desire.

Your Community and County Committees are the group that administers the ACP Program, loan programs, Drouth Emergency program and all other programs that the PMA may be directed to handle, so it is wise to vote and put good men in

School Board Approves District Employees

In the regular meeting of the school board on Monday night of last week, on recommendation of Superintendent J. T. Jones, Elton Horton was re-elected as bus foreman and driver of No. 9; Jim Harris, No. 2; James Bowman, No. 3 or No. 6; James Ball, No. 4; Cruz Corona, No. 5; and Martin Heath, No. 7. A seventh driver is yet to be named and will be made from applicants that file with Mr. Jones.

The above listings are the new numbers within the county and do not have anything to do with the number of the bus the drivers use.

In a previous meeting, Mrs. Luther Teague was selected as principal of the lunchroom with the following helpers: Mrs. Elor, Mrs. Lola Huffman, Mrs.

Grady Tullos, Mrs. C. W. Batch-Truman Vaughan and Mrs. Carl Woods.

The lunch room has been repaired some and it is hoped that they may be able to have a wash room added to the building. Lunches will again be served to students for 20 cents and teachers for 25 cents. "Town people cannot be regularly fed in the lunch room but every patron is urged to eat with us once each semester," the Superintendent announced. They plan to continue to buy beef on foot and serve meat daily.
