George Wesley Ethridge Dies At 101; Funeral Services Are Held Sunday

George Wesley Ethridge was enroute to Texas from Tennessee, and passed away May 28, 1954 at his home. His family first settled in Williamson County and later moved to Lampasas County. He came to this section of the country in 1880, settling near Brushy Gap and later lived near Pompey Creek. He operated a hotel and grocery business in Mullin for a number of years. He possessed a keen memory and delighted his many friends by his experiences in the early days of Texas.

He was preceded in death by his wife and seven children.

Survivors are three sons, Dan Ethridge of Kopperl, Fred Ethridge of Mullin and Robert G. Ethridge of Palacios. Two daughters, Mrs. Ella Gist of Temple, Arizona and Mrs. Rachel Forsythe of Woodlake, California.

Funeral arrangements were under the direction of the Roy Wilkins Funeral Home with interment in the Duren Cemetery.

Red Sox Defeat Camp Stanley 3-2; Maintain Second Place In League

By CHARLES CONRADT

The Godthwaite Red Sox took a hard played ball game from Camp Stanley, 3 to 2, Sunday on the local diamond. This was the first game this season that has had to go to extra innings. The score was all tied up at the end of the 9th at 2 all. The Red Sox scored a run in the 10th after 2 were out and two strikes on the last batter.

Westerfield was the top hitter for the Red Sox, collecting two hits, McLean, McCasland, Carroll and Winners collected one hit each.

Mistovich, Red Sox left hander, started the game on the mound and gave up only 1 run and two hits in the six innings he worked. Spoons, who pitched the 7th and 8th innings, gave up 1 run and 2 hits. Y. B. Johnson took the mound in the 9th with the bases full and no outs and retired Camp Stanley in order. The run that scored in the 9th was charged to Spoons. Y. B. allowed no runs and 1 hit in the 2 innings he pitched.

Camp Stanley collected a total of 5 hits. Three of these hits by the manager, Dug Patton.

Westerfield is again at the top of the Red Sox hitters with a .387.

Baseball fans who saw the game Sunday say it was a good one and the Red Sox manager and players certainly appreciate

the support given them Sunday by the local fans, and in all games this season.

Wheat Producers Marketing Cards Now Available

Those wheat producers in Mills County who were fortunate enough to make some wheat may come by the ASC office to pick up their marketing card. These cards are ready and available for those producers who will need them.

The support price on wheat produced in 1954 is \$2.23 per bushel for No. 1 wheat stored in Brown County which is the likely place for Mills County Producers to store their grain. Only those producers who planted within their allotments are eligible for the government loan or support price.

A storage fee of 14c per bushel now or 13c per bushel starting June 10th, will be deducted from the loan rate. A farmer would net approximately \$2.10 to \$2.15 per bushel under the government loan, depending on grade of wheat.

For detailed information, farmers should contact the ASC Office.

Mr. and Mrs. Virgil Casbeer and children visited relatives in Hamilton last Sunday. They were accompanied home by Mrs. Casbeer's mother, Mrs. C. A. Simpson, who had been visiting relatives in Hamilton.

Mrs. J. S. Pickard of Dallas spent Monday with her daughters, Mrs. LeRoy Miller and Mrs. Jerry Covington and their families.

Mr. and Mrs. Lester Dellis and Joy of Fort Worth spent the weekend with Mr. and Mrs. Dale Reid, and other relatives.

Brownies And Girl Scouts Have Many Activities At Annual Day Camp

By ALMA WILLIAMS

Girl Scouts and Brownies of the Goldthwaite Area held their annual Day Camp last week Monday through Thursday. Headquarters, for this camp, called "Reservation Pow-Wow," were held at the American Legion Hall and the City Park.

At the entrance to the Legion Hall was a huge bulletin board with the names of the staff members, consisting of the director, camp chairman, assistant camp chairman, unit leaders and program aides. The time schedule for the entire four days, names of each tribe and the location of each camp. Inside the Hall was the Council Ring, the guest register and the First Aid Station with a registered nurse in charge during the camp hours. Also the Art and Craft tables for each troop.

The first day of camp was spent indoors, due to rainy weather, doing Craft work, such as belts made from cedar discs, cut and varnished by the girls, and strung on cord, barometers and bulletins for their camps. Each camp elected a hostess for the day and these girls were responsible for greeting the guests. At each camp they had their own first aid station and a "First Aider," their Buddy Wash Racks, bulletin boards, made of burlap and lashed to sticks, tables made by lashing limbs together, their own fireplaces, clothes lines and garbage disposals.

The Cliff Dwellers, (Troop 8) were the first camp, with their camp atop a hill which you ascended by means of steps cut into the side of the hill and a rope to help pull yourself up. This camp had arranged a museum, based on ideas they got on their recent trip to San Antonio. They had also made Buddy Burners (a roll of cardboard dipped into paraffine and placed in a small can), over which they cooked their lunch. This camp also made Indian belts.

The second camp was peopled by the Comanche Tribe (Troop 2) which consisted of the youngest Brownie Troops. They made Indian jackets, head bands and Insect Homes (containers for holding insects). This was their first cook-out.

Aztec Indians (Troop 7) held down the third camp with the warriors in camp at all times. Here they had their council ring and fire, around which they practiced their dances and held their council meetings. This tribe was making bracelets, ice tea holders and doing pebble painting.

Navajo Indians have always been noted for their war like behavior, so at this camp (Troop 4) guards were on duty and demanded the password before allowing anyone into their camp. This was the largest camp of the group. They had a large Nature Board here on which they displayed their specimens for nature study. Each girl had her own Indian symbol at this camp and all of her belongings had this symbol on them. They had shells with their names painted on them for place cards. They were making Drums out of coffee cans and doing Sand painting (they dye the sand different colors and then make their pictures). This Troop donated their tables to the City Park at the close of the Camp-Out. They also had a Capers Chart, which allowed each girl to draw for her camp chores for the day. They also erected Tepees covered with burlap and painted them.

The last camp (Troop 3) was

known as the "Friendly Tribe" or the Tejas Indians. Their camp was also atop the hill but on the opposite end from the Cliff Dwellers. You reached it by means of steps in the hillside the same as the Cliff Dwellers. Over the entrance to their camp was a "Shrunken Head of a Cliff Dweller." Remember this is the "Friendly Tribe." These girls are the oldest Girl Scouts and they were busy making Moccasins from real deerhide. Very Pretty At the base of this camp was their War Dance Circle. This tribe was experimenting with cooking a new way, called the "Bean Pot Hole," for the first time. They dug a hole, filled it with fire, then when the fire died down they placed a covered iron pot filled with beans in the hole, covered it with fire and left it overnight. It was reported later that the beans were cooked to perfection by this method.

Wednesday was guest day at the camp and approximately 80 guests called and were shown through the camp that day.

Forty-six girls and 23 staff members took part in this four day Camp. On the last day of camp, Mrs. Pat Nesmith of Brownwood, Girl Scout Field Director for Heart of Texas Council, was a guest of the camp. She ate lunch with the Tejas Indian Tribe. In the afternoon Lee Tesson with two Boy Scouts, gave an interesting demonstration on opening a Council with Tom Cody Graves acting as Drummer. Mr. Tesson told an authentic Indian story and Jerry Head showed them how to light a fire with flint. At the end of the demonstration, Mr. Tesson stood in the Flag Ceremony which took place both morning and evening. The camp opened each morning with the Horseshoe Formation for the flag ceremony at 9:00 a. m., with five girls as color guards and closed each day at 3:00 p. m., with the same ceremony. The Camp closed Thursday afternoon at 3:00 p. m., with a commendation from Mrs. Nesmith on their fine camp.

Waco Couple Killed In Auto Crash Here

Clayton Hanna, 29, and his wife, Anna Baker Hanna, of Waco, were killed Saturday evening when their late model Oldsmobile crashed headon with a cattle truck about one-quarter mile east of Goldthwaite on U. S. Highway 84.

Hanna was killed instantly, and Mrs. Hanna died a short time later in a San Saba hospital.

Mills County Sheriff C. F. Stubblefield said that they were driving their car west towards Goldthwaite when it collided with the truck, headed east, driven by H. C. Dockum of Waco.

They were former residents of Brady and were enroute to that city when the accident occurred.

LITTLE DOG MISSING

A little white Fox Terrier dog belonging to the Hanna couple, and with them at the time of their accident, is reported still missing. The little dog had just recently had his tail removed and members of the family report that the bob tail still contained the stitch. Anyone knowing of its whereabouts is requested to contact Mrs. Billie Letbetter who was a personal friend of Mr. and Mrs. Hanna. She will see that the family gets the dog if its whereabouts is reported.

15 STATES HAVE RIGHT-TO-WORK LAWS

Mississippi is the 15th state to guarantee a citizen's right to work without joining any organization. Governor White signed such a law on February 24th.

The right-to-work laws are in no way anti-union. They simply affirm a fundamental and essential freedom — that a man may or may not join a union, as he chooses, and that in either case he has a right to make his living at his trade. In other words, the laws protect the individual from coercion by either the unions or business.

Active right-to-work law campaigns are underway in other states. Labor will not be truly free and independent until all 48 states have passed them.

DIVIDENDS PAY FOR NECESSITIES

The News-Herald, of Italy, Texas, has made this editorial statement: "The American way of capitalizing industry amounts to a partnership of millions of wage earners and investors.

"A survey of this community to determine the number of people who benefit from stock dividends, would surprise many who have the antiquate picture in their minds of a stockholder as a bloated individual manipulating a pair of shears as he clips coupons. It would show more than a few, we are sure, who depend on their dividends to help pay for the necessities of life."

In this modern era, stock ownership is primarily for the many with moderate incomes, rather than for the few in the upper brackets.

Inside WASHINGTON MARCH OF EVENTS

After Army - McCarthy Hearings—What Then? Here Are Some Good Guesses as to Results

Special to Central Press

WASHINGTON—A survey of both Republicans and Democrats on Capitol Hill indicates a widespread belief that the outcome of the dispute between Senator Joseph R. McCarthy (R), Wisconsin, and Army Secretary Robert T. Stevens and their co-principals will take this pattern:

1—The Senate investigating subcommittee will issue a majority report critical of both McCarthy and his associates, on the one side, and Stevens and his colleagues, on the other. 2—The Democrats on the subcommittee will write a minority report, likewise criticizing both sides, but in stronger language. 3—No attempt will be made to prosecute anyone for perjury. 4—By subcommittee vote, McCarthy may be asked to remove Roy M. Cohn from his job as chief counsel. 5—The senators may likewise suggest that Stevens find a replacement for his legal aide, John G. Adams. 6—The Democrats will seek to use the McCarthy-Army battle as a campaign issue. 7—The Republicans will counter with the charge that the "mess" inherited from the Truman administration was responsible for the whole thing. 8—Subcommittee Counsel Ray H. Jenkins will be a formidable contender for the GOP senatorial nomination in Tennessee in 1956.

TAX REFUNDS—The Internal Revenue service is pressing the most intensive campaign in its history against fraudulent claims for refunds on alleged overpayments. So far this year, officials say, nearly 500,000 returns have been set aside for special, painstaking audit to determine whether Uncle Sam is being "buncoed."

About half the returns given the special audit treatment contains errors in favor of the taxpayer. The average saving to the government was \$56 per return. On another front, brisk activity is being shown against persons claiming non-existence dependents and using similar devices to beat the tax bite.

During the eight months which ended Feb. 28, the "T" men investigated 2,303 cases of suspected fraud. Evidence justifying prosecution was gathered in more than 1,200 of the cases. Treasury Secretary George M. Humphrey ordered the various crackdowns in an effort to compensate, in part, for the government revenue lost through tax reductions.

GOLD—The gold-mining industry has been in the "doldrums" for 20 years, says Democratic Rep. Gracie Pfof of Idaho, and she demands an investigation. Mrs. Pfof says the whole trouble is that gold has been held at a low fixed price since 1934, while the prices of other commodities have skyrocketed.

"If something could be done to stimulate the gold-mining industry," the congresswoman declares, "it not only would help that industry, but also the lead-zinc industry when gold is found in combination with these metals. In addition, opening the gold mines would create jobs for some of our lead-zinc miners who are out of work."

LOWLY COPPER TO THE RESCUE—A research expert is convinced that the good old Lincoln penny can solve the nation's farm surplus problems.

Stanley F. Reed proposes that: "Every time the government spends one dollar to support the price of an agricultural commodity in surplus, one penny should be spent on research directed to the specific utilization of that commodity." As an example, he cites his own work in developing a strong, light and cheap building material from surplus wheat.

Reed believes that putting the Lincoln penny to this use would be singularly appropriate—he points out that President Abraham Lincoln created the Agriculture department exactly 92 years ago.

VIC'S SOLILOQUY

Mills County Chapter, American Red Cross, disaster relief chairman, Ray Duren, has a bit of information that should prove of interest to everyone at this time of year. He has asked us to pass it on to our readers. He feels it is important for folks to know something about Tornado Safety Rules. These rules are reproduced with permission of U. S. Department of Commerce, by the American National Red Cross. We present them as follows.

TORNADO SAFETY RULES To know what to do when a warning is received, or a tornado is observed, may mean the difference between life and death!!

I) There is no universal protection against tornadoes except caves or underground excavations. When time permits, go to a tornado cellar, cave, or underground excavation which should have an air outlet to help equalize the air pressure. It should be kept fit for use, free from water, gas, or debris, and preferably equipped with pick and shovel.

II) If you are in open country: 1.) Move at right angles to the tornado's path. Tornadoes usually move ahead at about 25 to 40 miles per hour.

ing parties since last report: Walter Mathis and Miss Jessie Wilkey, Arthur Hunt and Miss Alice Franklin, A. L. Withers and Miss Dora Tatum.

Mrs. J. H. Randolph, accompanied by Miss Donald Oldfield of Bastrop, Miss Louie Anderson of Abilene and Miss Frankie Boatright of Sweetwater called on the Eagle Wednesday.

Mrs. Eli Fairman left Thursday for Georgetown to attend the closing exercises of the Georgetown University, in which institution her daughter, Miss Kate, is a student.

Mrs. C. H. Bennett and Miss Floy Nash, after spending a few weeks here visiting E. G. Crawford's family, left the first of the week for Lampasas to visit friends. From there they will go to Kaufman.

W. F. Hearne and family now occupy A. E. Weathers' residence south of the Square.

Mrs. V. D. Wilson, who has been here for some time visiting her parents, Mr. and Mrs. J. H. Mullens, started Thursday for her home in Arizona.

Misses Angel and Berta Baker and Lizzie Crews of Hamilton arrived in the city Thursday to visit Mrs. J. M. Linn.

T. N. and W. W. Berry were here from Pleasant Grove Thursday.

Messrs. Hudson and Rahl have installed in their market an immense refrigerator in which to keep their meat.

2.) If there is no time to escape, lie flat in the nearest depression such as a ditch or ravine.

III) If in a city or town: 1.) Seek inside shelter, preferably in a steel reinforced building. STAY AWAY FROM WINDOWS.

2.) In homes: The southwest corner of the lowest floor or if the basement offers greatest safety. People living in brick or stone houses should seek other shelter, preferably in a storm cellar or the basement of a frame house. If time permits, electricity and fuel lines should be shut off. Windows on the north and east side of the house may also be opened to help reduce damage to the building.

3.) Standing against the inside walls on the lower floors of an office building offers some protection.

IV) If in schools: 1.) In city areas: Especially if school building is of good steel or reinforced construction, stay inside, away from windows, remain near an inside wall on the lower floors when possible. AVOID AUDITORIUMS AND GYMNASIUMS with large, poorly-supported roofs.

2.) In rural schools that do not have reinforced construction—remove children and teachers to a ravine or ditch if storm shelter is not available.

THE ARMSTRONG TIRE. 6:00 x 16 4-Ply Black \$9.99 Exchange Plus Tax. ARMSTRONG TRACTOR TIRES With 2 Year Unconditional FIELD HAZARD GUARANTEE. Shelton Bros. Garage, Second & Fisher Streets, Goldthwaite, Texas.

V) If in factories and industrial plants: On receiving a tornado warning, a lookout should be posted to keep safety officials advised of the tornado's approach. Advance preparation should be made for shutting off electrical circuits and fuel lines if tornado approaches the plant. Workers should be moved to sections of the plant offering the greatest protection.

VI) Keep calm! It will help to get excited. People have been killed by running out streets and by turning back the path of a tornado. Even though a warning is issued, chances of a tornado striking one's home or location are slight. Tornadoes cover such small zone, as a rule, that rarely only a few places in a warned area are directly affected. You should know about tornadoes though. "Just Case."

VII) Keep tuned to your radio station for the latest tornado advisory information. Do call the Weather Bureau, except to report a tornado, your individual request may up telephone lines needed to receive special reports or to relay advisories to radio stations for dissemination thousands in the critical area.

Next week we will present concluding remarks contained in these tornado safety reports. Some of our readers may wish to keep these on file for their study. It would be well every member of the family read these safety rules.

Mr. and Mrs. Jack Locklear and children of Brady were guests of his parents, Mr. and Mrs. C. Locklear, last Sunday. Earl Locklear of San Saba was also a guest in the home of his aunt and uncle, Mr. and Mrs. Locklear.

Miss Lydia Estelle Kitzman Is Bride-Elect of Jim Tom House

Mr. H. L. Kitzman, Sr., of Pattison has announced the engagement and approaching marriage of his daughter, Lydia Estelle, to Jim Tom House, son of Mr. and Mrs. Tom H. House of Route 3, Goldthwaite. Miss Kitzman's mother was the former Martha Ehiert of Pattison.

Miss Kitzman is a resident of Pattison and is a graduate of Pattison High School. Mr. House is a graduate of Goldthwaite High School and Texas A. and M. College.

The wedding will be June 10 at eight o'clock in the First Methodist Church of Pattison.

The bride will be given in marriage by her brother, William B. Kitzman of Carswell Air Force Base, Fort Worth.

Mrs. A. Milby Dow of Houston, sister of the bride elect, will be matron of honor. Other attendants will be Miss Gielster Kitzman of Houston, sister of

the bride elect, and Mrs. James Humphreys of Waco, sister of the prospective groom.

Andy Dale Young of Burkett will serve as best man. Ushers will include Karl Meyers of College Station and Oliver S. Kitzman, brother of the bride elect, of Kelly Air Force Base, San Antonio.

Mrs. C. E. Meyers will play the piano and Mrs. George M. Pattison will sing. Martha Diane Dow, daughter of Mr. and Mrs. A. Milby Dow and niece of the bride elect, will be the flower girl.

The Rev. G. Z. Sadler, retired minister of the Pattison Methodist Church, will read the service, assisted by the Rev. I. J. Waldon, pastor of the Pattison Methodist Church.

The couple will make their home in Pattison where Mr. House is employed as agriculture teacher in Pattison High School.

Sheer Flattery

By VERA WINSTON

PERMANENT pleated, sheer, nylon tricot, is the fabric chosen for a nice dress good for now and right through the summer. It is pleated from the graceful yoke to the hem. The waistline is cinched by a black patent leather belt. A high round neck is finished by a string bow tie. This is a dress that takes to simple or more elaborate accessories nicely making it a useful member of the wardrobe, and one that is youthful and flattering.

**Pvt. Wayne S. Long
 In Basic Training
 At Fort Bliss**

Fort Bliss, Texas (Special) — Pvt. Wayne S. Long, son of Mr. and Mrs. J. C. Long, Box 387, Goldthwaite, recently began eight weeks of basic training in the Antiaircraft Artillery Replacement Training Center at Ft. Bliss, Texas.

The first eight weeks of basic training are spent on fundamental infantry subjects like army drill, rifle, machine gun, and bazooka marksmanship, and familiarization with army technical subjects. This first phase of training is climaxed with a one week maneuver in the field.

Upon completion of the first eight week cycle, he will either be assigned for further training at Ft. Bliss in the techniques of antiaircraft artillery or he will be transferred to another training center for schooling in some other army skill.

Should he remain at Ft. Bliss, his second eight weeks will see him learn the uses of various electronic equipment employed by the AAA-RTC. He will also be expertly trained in the firing of light and medium antiaircraft artillery at low flying and high altitude aerial targets on the one-and-one-half million acre Ft. Bliss ranges.

**Earl Armstrongs
 Visit Homefolks**

Mr. and Mrs. Earl Armstrong and son Butch, of Williamsburg, Virginia, were recent guests of her parents, Mr. and Mrs. Ernest Wilson of Goldthwaite.

Mrs. Armstrong is employed in Virginia by Colonial Williamsburg, Incorporated, the organization which, through the beneficence of John D. Rockefeller, Jr., was responsible for the restoration of Williamsburg to its eighteenth Century appearance, when it was the capital of the wealthy Colony of Virginia.

She tells us that each year thousands of tourists explore Williamsburg, visiting the many restored buildings and craft shops, where history is made come to life, through authentic furnishings, costumed attendants, and craftsmen who still practice their arts of cabinet making, bootmaking, spinning, and the like.

Butch also reports that he has learned much about the early history of our nation from living in the area where so many important events took place.

PESTICIDE OUTLOOK

The overall supply of insecticides, fungicides and weed killers is generally adequate this year. Unless unusually heavy demands are suddenly made for these products, there will be enough for all anticipated requirements.

Early season orders for pesticides was rather slow and manufacturers were not inclined to increase production as much during the past winter as in previous years. This could lead to some problems of distribution in case of epidemic infestations of pests.

If favorable rains come to the cotton belt of Texas and the southern states in June and July, boll weevil populations might increase quickly to enormous numbers. The situation would be serious if pesticide stocks had been purchased only for usual needs. Manufacturers might have trouble in shipping the chemicals to the danger areas in time to halt the outbreak. However, ample capacity exists for the production of all the major chemicals.

Insect infestations and fungus infections are, to a large extent, dependent on weather conditions and other natural factors. Few of these are predictable to any satisfactory degree.

The diversion of acreage this year to crops other than cotton, wheat and corn, may affect pesticide consumption locally but probably will not mean a surplus of chemicals. In the overall picture, weather influences infestations much more than proposed shifts, especially cotton. However, some crops planted on diverted acres will themselves require application of chemicals.

Some growers may use more pesticides per acre on the reduced acreage allotment in an attempt to increase their rate of production. Use of insecticides nearly always results in more cotton, weather permitting. Treated plots sometimes yield as much as 25.5 per cent more cotton than untreated plots.

Neil Hunt, son of Jesse Hunt of San Antonio, returned to his home last Friday after a visit with his grandparents, Mr. and Mrs. A. M. Hunt of this city.

Center City News

By MRS. JOE GREEN

There was Sunday School at each church here Sunday.

The Vacation Bible School began here Monday. Fifty-two were enrolled and it is hoped many more will enroll later.

We were all surprised Saturday afternoon when Mr. and Mrs. Hollis Hendry of Hot Springs National Park, Arkansas, came to see us. Mr. and Mrs. William Richard Hendry and daughter, Malinie, of Grand Prairie, Mr. and Mrs. John Blackwell of Goldthwaite. We were glad to see them. Mr. and Mrs. Hendry look well and we regretted they did not stay longer and visit. They were able to see a number of their former neighbors and friends.

Mrs. Tom Watson passed away Monday night, May 24. We extend our sympathy to her loved ones.

Congratulations are in order for John Howard Owens and Wandalene Head who were married last Saturday night.

Hugo Frank, brother of Walter Frank, passed away suddenly Saturday night at his home near Adamsville. We extend our sympathy to the bereaved family and loved ones.

Mrs. Charlie Horner, who has been sick so long, is able to be out again and will help with the Vacation Bible School here. Mrs. Horner gave a werner roast Saturday night. Everyone had a good time.

Saturday was my Dad's birthday. I spent most of the day with him. Eva Payne and I enjoyed the day very much.

Mr. and Mrs. Charles Lloyd spent Sunday with Dr. and Mrs. Huddleston here.

CARD OF THANKS

It Takes SO LITTLE PURINA to Grow GOOD PULLETS

GOOD PULLETS pay best

This is a fine year to see what a really good growing feed will do. Good egg prices are expected again next fall. Extra eggs from well-developed pullets should pay you well for the small cost of good growing feed.

Purina GROWING CHOWS are BETTER this year

Always the nation's leading growing feeds, Purina Growing Chows are better than ever this year. Eight small but mighty growth and health boosters are MICRO-MIXED into the feed so each bird gets her full share each day.

Purina Will Make Good Pullets at LOW COST

Whether you use a complete growing ration or one to balance your grain, you'll find PURINA mighty low in growing cost. It takes less PURINA than poorer quality feeds—and you grow a bigger, better pullet besides.

Brown-Mills Soil Conservation News

By CHARLES HAENISCH

To approximately 35 farmers and ranchers from the Goldthwaite Work Unit area of the District, the term "range management" took a new meaning last week. This group along with technicians of the Soil Conservation Service, attended the Range Management Field Day, sponsored by the Brown County Farm and Ranch Club and this District, on the R. J. Henry Ranch northeast of Brownwood.

Those attending observed the benefits that could be derived from the presence of cover on rangeland. The effects of cover on the many factors affecting plant growth was shown.

The group heard Mr. Henry, owner of the ranch, relate how he had improved the range condition on the ranch since its purchase in 1949.

John Royal, rancher, Supervisor of the Menard Soil Conservation District, and Area II Vice President of the Texas Association of Soil Conservation District Supervisors, told of the benefits he had received from conservation ranching on his ranch.

Hosea Pleads With Israel

ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—Hosea 4:6-7:16.

By Alfred J. Buescher

Hosea spoke for Jehovah to Israel's priests: "My people are destroyed for lack of knowledge; because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to Me."

The prophet also called upon the house of the king to repent, "for judgment is toward you." Not only Israel, but Judah, too, was living in sin, and Hosea said that Judah also would fall.

Because of evil doing, Hosea declared the Lord has withdrawn from His people. "They shall go with their flocks and with their herds to seek the Lord, but they shall not find Him."

"Come, and let us return unto the Lord; for He hath torn, and He will heal us; He hath smitten, and He will bind us up," Hosea pleaded. MEMORY VERSE—Hosea 6:3.

HOW SOON WILL I NOTICE IMPROVED PERFORMANCE FROM NEW Mobilgas Special?

Some improvement will be evident almost immediately. But it's the second tank which tells the story. That's true because with the second tank, there is no dilution with other gasolines. New Mobil Power Compound works to end power wasting "ping" and "rumble"...relieve spark plug fouling...control stalling and free engine parts of sticky gum. This takes a little time. That's why we suggest you try at least two tanks of the New Mobilgas Special with Double Power.

PARENT PROBLEMS

Children Should Have Some Outdoor Home Jobs

GARRY CLEVELAND MYERS, Ph.D.

It's amazing how many mothers with able-bodied children eleven to fifteen mow the lawn regularly alone. Even more mothers of such children mow the lawn.

For either parent, it might be reducing exercise. But this is not the reason they do it.

Finally, the parents do such things themselves because their children never have been educated to share in home responsibilities. They have not been trained in earlier years to do less desirable jobs. Indeed, the average child does very few regular jobs about the home; and it's not unusual to see a boy or girl sitting on a lawn, cultivating the weeds and vegetables of the garden, taking leaves in autumn or making snow in winter.

Reasonable Share
 A well-brought-up child does a reasonable share of the various jobs about the home. Where there are several children who are old enough, they take turns doing the more arduous, less attractive jobs. In such assignments and a program are decided in a family council. Even then, the parents see that each child receives his responsibility.

Many parents have been misled by the silly doctrine so widely disseminated by "experts" that children should not be made to do what they don't want to do. That parents should find ways to make all jobs about the home attractive that the children choose readily to do them.

Parents' Failures
 Failing to make this work, most parents suppose they have not

been skillful enough at making the jobs attractive. Many mothers write to condemn themselves for this failure. It doesn't occur to them how absurd it is to suppose most regular jobs can be made so alluring that the child will just choose of his own free will to do them.

Finally disillusioned, the parent may, in desperation, argue with the child, accuse him of laziness and lack of love, or try to force him to do certain jobs. By that time, it's pretty late to find effective measures.

When Child Is Paid

Some parents resort to paying the child for these jobs. This often leads him to strike frequently for higher wages. They in turn try to force him to do the job to win the pay.

Of course, where a job like mowing the lawn has been done by hired help, there may be some sense to paying an older child who applies for the job and does it faithfully. Usually, however, paying a child for jobs about the home is unsound procedure.

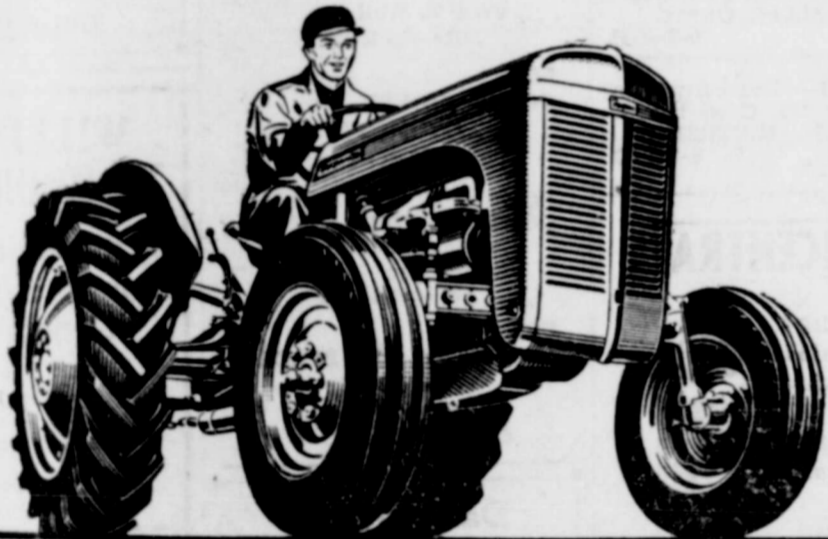

Good Equipment

If your child mows the lawn, provide him with a mower that cuts well, and with keen grass shears to do the trimming.

If you have a child of 5 or 6, now is the time to prepare him gradually to do some regular jobs about the home and to be ready to mow the lawn dependably when he is twelve or fourteen.

Varied Breads to Make From Baker's Loaves

By ALICE DENHOFF

HAVE you ever wished for a coffee cake that ordinarily would take hours to make or a bread with a flair for a take-it-easy supper?

Each of the recipes given here starts off with a loaf of enriched bread, which means that more than half the work has been done by your baker. You may use bread that is not strictly fresh and a wonderful variety—rye, French or white—to create these.

Barbecued French Bread, fine for a supper special, is a good choice for a buffet, too, since the recipe is for 12 portions.

Melt 2 tbsp. butter in skillet. Add ¼ c. chopped onion and sauté until tender. Add ½ c. chili sauce, 2 tbsp. vinegar, 1 tsp. Worcestershire sauce, 2 tsp. brown sugar, ½ tsp. celery salt, ¼ tsp. dry mustard. Cook over low heat until mixture thickens.

Cut on Bias.

Cut a 1-lb. loaf French or Vienna bread crosswise into triangular slices by slanting the cut, taking care not to cut completely through the loaf crust. Put 1 tsp. barbecue sauce between each slice of bread. Sprinkle 8 oz. grated process cheese between slices and over top of loaf. Wrap loaf in aluminum foil. Heat in 400° F. oven for 15 min. or until piping hot and crusty.

Caramel Pecan Squares, perfect with coffee, are easy to prepare. The recipe is for 16 squares.

With a sharp knife, remove crusts from a 1-lb. loaf of unsliced enriched bread. Cut in lengthwise halves. Make a lengthwise cut in the center of each half and divide into 8 sections. Do not cut completely through lower crust.

Preparing Caramel

Combine ¼ c. melted butter, ½ c. firmly packed brown sugar, ½ c. chopped pecans and 2 tsp. water and spread mixture to the bottom of a shallow 9-in. square loaf pan. Place bread, cut slices down, over caramel mixture. Bake at 400° F. for 10 min. Let stand in pan 1 min. after removing from oven. Invert pan to remove bread squares so that caramel mixture is up. Serve at once.

For Coconut Fans

Glazed Coconut Loaf is excellent and easy to fix, too, considering how good it is.

For 12 servings, remove the crusts from a 1-lb. loaf of unsliced enriched bread, using a sharp knife. Cut bread diagonally, almost through to bottom crust, into 12 slices.

Combine ½ c. firmly packed brown sugar, ¼ tsp. cinnamon, ¼ c. softened butter and 2 tsp. honey. Spread 2 tsp. mixture between each slice of bread and sprinkle rest on top of loaf. Sprinkle 2 tsp. shredded coconut over top.

Place loaf on greased cookie sheet and bake at 400° F. for 10 min.

News Of The Ebony Community

By CLEMENTINE WILMETH BRILEY
(Written for Last Week)

Rain amounting to .3 inch fell here late Sunday evening, and it was needed. We keep wondering, "Will the oats grow tall enough for harvesting?" The Colorado backed Buffalo Creek up to the Malone pasture last week.

Charlie Griffin's patch of corn in his sandy field is looking fine now. Knowing the generosity of the Griffins, it gives us a promise of roasting ears. Another thing we notice in the lane along the Griffin field where the sand is piled almost as high as the fence posts, is the beautiful display of wild white daisies and red wild zinnias blooming luxuriantly.

Wild flowers are everywhere, but the yellow flowers of the bitterweed— not the kind that poisons cattle, but the kind that makes the milk bitter — are trying to crowd out everything.

I am still reveling in the beauty and fragrance of my bed of volunteer sweet peas.

Clayton Egger of Houston spent a week of vacation at home this past week. He spent his time getting his sheep sheared and looking after the many other duties on his ranch here.

Mr. and Mrs. George Russell and Ruthie of Big Spring spent the weekend at the Thompson home.

Mr. and Mrs. Eugene Egger and Mr. and Mrs. Dewey Smith are still having to spend much of their time in Brownwood looking after their parents, Mr. and Mrs. Bob Egger. Mr. Egger seems to be gradually sinking.

Daughter Grace writes that school in El Paso will be out May 28, and Bill will then take a week of his vacation to get them moved into their new home.

Now that school is out and Mrs. Cecil Egger is relieved of her bus driving and lunch room duties, she has gone to Brownwood to be with her mother, Mrs. Smith, who on account of a serious foot ailment has not been able to walk since last September.

Friday we came by Memorial Hospital to see Charlie Griffin. Charlie, who has been nearly

A few years ago when blood was needed, no matter how grave the situation, the patient had to wait until donors could be rounded up among relatives and friends. Then there was the additional time while the blood was typed, matched, and drawn.

Now, thanks to the generous people in your community who are blood donors when the Bloodmobile visits your county, you can get blood without delay.

Will you be a donor at the next visit so that blood will be

Recent guests in the home of Mr. and Mrs. Wilford Gray were: Dr. and Mrs. A. D. Sears and little daughters, Doyle Ann and Debbie Lynn, of Dallas; Mr. and Mrs. J. Alva Hallum and family, Miss Loretta White

and James Hallum, all of Brownwood.

Mrs. L. R. Hendry of Coleman was a guest of her daughter, Mrs. Charlie Wilson and Mr. Wilson and other relatives here a few days last week.

Mrs. Mayme Price of Abilene visited her sister, Mrs. Oscar Burns and Mr. Burns recently.

Ten Faculty Members Receive Service Pin Awards At Graduating Services

Another mark of progress in the Public Schools of Goldthwaite was the institution of Service Pin Awards to teachers of long standing service. This custom is to be continued in the future and each teacher of the faculty will be awarded pins when they have reached the division of years.

In the five-year division, awards went to Mrs. Alyne Lett-better, Mrs. Dorothy Weatherby, Mrs. Ruth Carothers, Miss Laura Nelson and Y. B. Johnson Jr. Awards for at least ten years service and less than 25 years were made to Mrs. Gladys Coekrum, Mrs. Bonnie Evans, and Mrs. Euna V. Barnett. For service of twenty-five years or more, Mrs. Mamie Palmer and

Miss Love Gatlin were honored. In making the awards, Superintendent J. T. Jones told the ten that received awards that the entire community is appreciative of their long years of faithful service and the products of their teaching labors are found in top positions throughout Mills County, all of Texas and in many places throughout the United States. "We are all proud of you and I am glad to present these tokens of community appreciation," Jones said.

Mr. and Mrs. Hubert Starks and children of Artesia, New Mexico, are visiting his parents, Mr. and Mrs. J. A. Starks.

WITNESS 'STANDS BY' AS LEECH GETS GOOD NEWS

MRS. WILLIE HENDRICH LUDWIG (left) has been requested to "stand by" in Frankfurt as a witness in the case of the ax slayings eight years ago of three U.S. Army officers at Passau, Germany. At right, former Capt. James M. Leech, of Lima, Ohio, who had been accused of the killings, is shown playing with his dog as he heard that attempts to extradite him had been halted. Prosecutor Thomas Lancian announced that evidence is "not in its present form considered to be legally sufficient." (International Soundphoto)

Funeral Services For E. J. Ward Were Held Last Thursday Afternoon

Funeral services for E. J. Ward, 87, a resident of Mills County since 1932, were held at the First Methodist Church of Goldthwaite, Thursday, May 27, at 4:30 o'clock. Services were conducted by Rev. Ed H. Lovelace, pastor of the church.

Edgar Jordan Ward was born August 27, 1866 in Weakley County, Tennessee and passed away Wednesday, May 26, 1954 in a Stephenville hospital. He was the son of J. J. Ward and Almeda Ward. His mother, before her marriage, was Miss Almeda Hatcher.

At the age of seventeen he, with his parents, moved to Stephens County and settled on a ranch six miles north of Breckenridge. Four years later in the fall of 1887, he embarked in the mercantile business in Breckenridge.

On December 13, 1887 he was married to Miss Lena Sprey Douglass, daughter of Mr. and Mrs. J. J. Douglass of Breckenridge. To this union three chil-

dren, two sons and a daughter, were born. One son, Ralford Douglass Ward, now living at Pharr in the Rio Grande Valley and his daughter, Mrs. Albert Tully, living in Fort Worth, survive him. His other son, Fred Thomas Ward, passed away in Fort Worth on December 4, 1939 and his wife, Mrs. Lena Ward, passed away November 7, 1945. A grandson, Eli Ward Tully, lost his life on February 22, 1945 while in service in World War II.

Other survivors are three grandsons, Fred Thomas Ward, Albert Tully Jr., and Douglass Ward. One granddaughter, Mrs. Carol Walthall, and three great-grandchildren, Jordan, Andria and Nicola Tully. He was married to Mrs. Lila Crawford in May 1946, who also survives him.

Mr. Ward was converted and joined the Methodist Church in January 1888, having been a member of the church 66 years. At the time of his death his membership was in the First Methodist Church of Goldthwaite.

Pallbearers were: Dow Hudson, Brian Smith, Fred Reynolds, John Berry, Scott Thompson and Dutch Smith.

Funeral arrangements were under the direction of the Roy Wilkins Funeral Home with interment in the Goldthwaite Memorial Cemetery.

Former Resident Is Reported To Be Seriously Ill

Word has been received here by relatives of the Littlepage family of the serious illness of Earl Littlepage, of Dublin. He has been carried to St. Joseph's Hospital in Fort Worth. Very little hope is held for his recovery.

Earl is the son of the late Noel Littlepage and Mrs. Littlepage of Dublin. The Littlepages are former residents of Goldthwaite having moved to Dublin a number of years ago.

CARD OF THANKS

To those who expressed their sympathy in so many beautiful and practical ways during our recent bereavement, we extend our heartfelt thanks.
