All patrons of the school district are urged to come and get acquainted with their child's teacher. The teachers are anxious to know the parents and this will be a good chance for everyone to get together.

There will be a short program and introduction of teachers and announcements followed by a social hour, which you are sure to enjoy, according to an announcement by Mrs. Homer McCasland, P-TA Reporter.

## Quarterback Club Members And Guests Enjoy Annual Barbecue

By ALMA WILLIAMS  
At the annual Quarterback Club Barbecue last Friday night there were approximately 120 present to enjoy the delicious barbecue and all the fixings that go with it. The festivities got underway about 7:00 o'clock with the Goldthwaite Band rendering music. The lines began forming about the tables at eight o'clock and everyone feasted to their heart's content.

After everyone had finished eating, Raymond Little, president of the Quarterback Club called the meeting to order for the introduction of new coach, Ray Standley, who made an interesting talk about the coming football season and then introduced the football squad. Supt. Jones was presented to

A community wide mass Chest X-Ray Survey will be conducted in Goldthwaite on Friday and Saturday of this week. The survey will be set up at the Duren Equipment Company and every citizen of Mills County 15 years of age and above is urged to have their FREE chest x-ray made.

The survey will be conducted from 9:00 a.m. to 12:00 noon and from 1:00 to 4:00 p.m., both days. Portable x-ray units which will be set up by the State Department of Health will be able to take care of 1500 x-rays per day. This will be ample to take care of the county population in good measure during the two day period, officials have announced.

General chairman of the project, Warren P. Duren, has announced that committees have been working during the past several days to get everything ready for the survey.

The chairman pointed out the following as some important facts for folks to consider in connection with this survey.

- 1) X-rays are provided by the State Health Department FREE of charge.
- 2) Physicians of the County urge 100% participation.
- 3) Reports are confidential.
- 4) It is not necessary to undress.
- 5) Healthy people should be X-rayed once per year.
- 6) No one under 15 years of age is eligible. Children are infected with tuberculosis from adults. Find the adult with unknown tuberculosis first and the child will be protected.

So again, everyone in Mills County is urged to be on hand Friday or Saturday September 2 and 3, to have their free chest x-ray made.

## \$100.00 In Free Prizes To Highlight Dollar Days Here Friday & Saturday

One hundred dollars in Free Prizes will be given away in Goldthwaite Friday and Saturday of this week as part of the special dollar days promotion in connection with the free Chest X-Ray Survey to be conducted during the same days. Fifty-four local firms are taking part in sponsoring the free prizes by their contribution to the fund.

Prizes will be given away in the form of merchandise certificates which will be honored by any of the participating firms. All firms taking part will be listed on the trade certificates for the convenience of those who will be awarded a certificate.

There will be free registration for the prizes. Everyone is invited to register when shopping with Goldthwaite Merchants

during dollar days on Friday and Saturday.

Drawings will be held at 11:00 a.m. and 3:00 p.m. on Friday and Saturday. Twenty-five dollars will be awarded at each drawing in three prizes as follows: First prize, \$10.00; Second prize, \$10.00 and third prize, \$5.00.

Drawings will be conducted on the courthouse square where there is plenty of room for everyone to be on hand for the occasion.

So every one in Mills County and surrounding area is invited to be on Goldthwaite on Friday and Saturday of this week to get their free chest x-ray, register for the free prizes and shop with Goldthwaite merchants for the many dollar day bargains that are offered.

## Cross Extends Emergency Call Flood Disaster Area Funds

Emergency appeal to the County Chapter, American Red Cross, from national headquarters for funds in support of flood disaster areas of the Eastern United States was received this week. Following telegram was received by Warren P. Duren, County Chapter, American Red Cross, from Midwest headquarters: "Needs continue to mount in the disaster affected areas. Estimated number of people who will register with the Red Cross for rehabilitation exceeds 10,000 and continues to mount. This will re-

quire funds in excess of \$8,000,000. Your chapter has been assigned a rock bottom quota of \$130.00 and expect you will make every effort to have it substantially oversubscribed."

County Red Cross officials are extending this flood disaster appeal to Mills County citizens with the feeling that the quota of \$130.00 will be subscribed to in short order.

President Eisenhower has stated that this requires immediate action.

Contributions are to be brought or mailed to Glynn Collier at Mills County State Bank.

## Sox Wind Up 1955 Season Second Game Of Play-Off

Red Sox hung up their batting gloves for the season Saturday night after a defeat in the hands of Seguin in the second game of the play-off. A score of 9 to 5. The Sox were not out of the playoffs until the 9th inning.

Seguin scored first with a home run in the first inning but was quickly tied with a run over the center field in the second inning, by William Seguin scored two runs in the 4th and this was Bobby Tullos who came run with one runner base to tie the score.

In the first of the 7th inning Seguin scored two more runs to bring the score 5 to 3. In the last 7th with a runner on base Seguin hit a round which tied the score at

hitter for the Red Sox as he collected three hits in five times at the plate. John Gilliam was almost in the same class as he hit safely two times in four times at the plate.

Saturday night brought to a close another good season for the Goldthwaite Red Sox Ball Club. They have played in the Hill Country League for the past several years, two years making the finals and this year earning a place in the first round of the play-off.

Managers, Clyde Estep and Bill Hightower, express their thanks and appreciation to all the boys who did such a good job of playing ball this season. They especially thank the young players—Winners, Gilliam, Carroll, Tullos and Lester. They think these young men will be a good start for the 1956 Red Sox Ball Club. Also to the public who so generously gave their aid and support to the club all during the season, and for the gifts presented to them last Saturday night.

Then to Charles Conradt, who so gladly helped the management in all of their work, they are deeply grateful.

If anyone has an outstanding bill against the Red Sox Ball Club, they are to present it to Charles Conradt for collection within the next few days.

the inning went by with the side scoring but things changed for the Red Sox in the 8th and before Seguin could score he had scored four runs. The Red Sox were un-

score in their half of the 8th thus ending the third round of the play-off. The Red Sox were in the play-off. Stanley was the leading

Democratic Pros Insist Stevenson Is Their Man Say South Won't Accept Harriman Or Kefauver

WASHINGTON—While such top-level Democratic leaders as New York's Carmine DeSapio warn that Adlai E. Stevenson doesn't have next year's presidential nomination "in the bag," there are others who insist he does.

These are the party's hard-bitten professionals who say Stevenson is "in" if for no other reason than that no other Democrat could get the nomination away from him.

They point out that while Stevenson is acceptable to the South, neither of his most likely opponents for the 1956 nomination can claim much support in Dixie. These two potential foes are Gov. Averell Harriman of New York and Senator Estes Kefauver of Tennessee.

Therefore, reason the professionals, the Democratic presidential nominee of 1952 is also a cinch to get the nod for 1956 as well.

HEALTH INSURANCE—White House sources say President Eisenhower will really go to bat in 1956 for his health insurance plan—and one of the main reasons is his appointee as the new Secretary of Health, Education and Welfare, Marion B. Folsom.

Twice since he became President, Mr. Eisenhower has asked Congress to approve health insurance. The first time, his request was rejected by a House coalition consisting of Democrats who thought the chief executive had not gone far enough and Republicans who thought he had gone too far. His second request was just ignored.

However, Folsom is expected to work hard in 1956 for congressional approval of the health insurance program, and Mr. Eisenhower will back him up with all his political and personal strength.

Folsom has long been an advocate—in fact, an architect—of such social welfare measures as Social Security. He is an expert in the health insurance field, too. For instance, he has proposed a "deductible" health plan similar to automobile insurance in which you yourself pay for any repairs up to a certain sum, while the insurance company foots the bill for more expensive jobs.

Similarly, Folsom would protect people against the really big hospital bills they might face some day, while they take care of the smaller ones themselves.

TAX TIPS—The government is spending some \$500,000 a year for tips on tax evaders. However, the money used to pay informers has turned out to be a sound investment, netting the U. S. \$65 million over a number of years.

What's in it for the informers? Up to 10 per cent of the taxes Uncle Sam collects as a result of their aid. So far, the highest reward has been almost \$80,000; the lowest, \$2.20. And it's tax-free!

Anyone can become a tax informer—provided the information is valid. And payments, of course, hinge on how much the government itself collects.

How is it done? Nothing to it—just a visit or a call to a local Internal Revenue Service office.

It's wise to remember, though, that the informer wastes his own and the government's time if he merely wishes to report vague suspicions. The IRS wants specific data and adequate details.

Many informers turn in evaders with no thought of a reward in mind. Sometimes, patriotism is their motive; sometimes disgruntlement or disgust.

Motive is beside the point, as far as tax officials are concerned. They want Uncle Sam to get the money that is due him, and that's why Congress willingly goes with a provision for "commissions," so to speak, for informers who help see that he gets it.

VIC'S . . . SOLILOQUY

From time to time we receive reports from some of our friends, neighbors or subscribers telling about their vacation trip to one place or another. Some are very brief while others are lengthy. Some tell a little and others report a lot. All of them carry an interesting note.

A comprehensive report about a five week's vacation and sight-seeing trip was turned over to us by Mrs. Mattie Keese. It tells of many interesting places she was privileged to visit. I'm passing it on to you readers—it may give someone a good idea about where to go for a vacation trip.

Mrs. Keese wrote as follows: "I am happy to be back home after a five weeks vacation and sightseeing trip. On leaving home I went to Arlington where I have three daughters and several granddaughters. One of my granddaughters was very ill in the hospital and I stayed there until the doctor reported her out of danger. I took a plane at Fort Worth and flew to Ada, Oklahoma, and had a week's visit with my daughter and family. Some of her children who are in service were home one from Germany and one from Colorado. I enjoyed seeing them very much and hearing about the countries they were stationed in.

"I took the bus from Ada to Magnolia, Arkansas, to visit my son, Carl and family, but my grandson and his girl friend met me at Texarkana. After lunch there we drove on to Magonia, which is a very pretty town and has many rich oil people living there. Carl works at one of the plants. I stayed with them one week, we visited Rock Springs one day—so much there to see.

"The mountains and pine timbers are so beautiful, we drove part of the way and walked part way to reach the tower on top of the highest mountain. We went up on the elevator to the top of the observatory which is 815 feet above the city streets. It may be reached by automobile, horseback or walking over beautiful paths. They have all kinds of antiques for sale. There is a large lake down in the hills for swimming, but I did not go swimming as I had not brought my bathing suit.

"After a week's visit in Magnolia I took a plane to Gulfport and Bloxi, Mississippi. I had a wonderful time there with my son, Barton. The first Sunday I was there they had a boat dedication on the coast. I never saw so many people in my life, they said there were three or four thousand people at the

dedication. A priest made a wonderful talk and prayer, the gulf was crowded with boats from other places all of them were decorated and anyone could go for a ride. They served lunch of shrimp, sandwiches and drinks, mostly beer and pop, but I did not partake as I don't drink beer or like fish either.

"We spent one day in New Orleans and saw so many of the war things that they used when my daddy soldiered there. We went through the old Cathedral, we had to have a guide there, some of the statues, they said are over 400 years old. We saw many of the old Spanish buildings that were there during the war and enjoyed the friendliness of the people.

"The next Sunday a couple of friends took us to Mobile, Ala., to see the most famous flower garden in the United States. The man who started this garden, gave it to the state of Alabama, when it became so large and famous. It covers several acres of land on the coast and on his birthday, he celebrates by having a free entrance, at other times you have to pay an admittance fee of \$2.00. They have guides in the garden to keep you from going over the same paths twice, they told me I walked six miles that day. They have seats every so

often and free drinks for the beautiful flowers again. I wish that everyone could see them again.

"The next and last place I visited was the factory where they make dog and cat food, the shrimp that they catch themselves. I never saw so much canned stuff in my life, but was very interesting to watch.

"The people on the coast are so very friendly and nice. Every day I was there someone had us for lunch or tea at us places. The first Sunday I went to church I was the only lady present with a hat on. I felt like pulling mine off and sticking it under the seat. I attended services each Sunday that I was away and I found that the Christian people were working and trying to do on God's cause and build his Kingdom. I stayed well and enjoyed every minute of my time and hope I can live it again, with God's help."

## Miss Martha Jo Price Becomes Bride Of Billy Mace Collier

MRS. BILLIE MACE COLLIER Tri-Photo Photo

Miss Martha Jo Price, daughter of Mr. and Mrs. Walter O. Price of Fort Worth became the bride of Billy Mace Collier of Kaufman, son of Mr. and Mrs. T. J. Collier of Goldthwaite, at

8:00 o'clock Saturday evening, August 27. The impressive ceremony was read by Rev. John W. Ford, pastor of the First Methodist Church of Corsicana, in the Memorial Chapel of Polytechnic Methodist Church of Fort Worth.

Immediately following the ceremony the bride's parents were hosts at a reception in the church parlors.

Wedding music was presented by organist, Donald Bellah and John Ed Francis, vocalist. Glynn Collier of Goldthwaite, brother of the groom was best man, Jim Bob Steen of Marfa and Jim Thornton of San Saba were groomsmen. Richard Gary of Corsicana and Nell Tibbets of Dallas ushered.

The bride, given in marriage by her father wore a gown of white imported Shiffli embroidered tulle over blush satin and pale pink net with a portrait neckline outlined with pink seed pearls and short, puff sleeves complemented with matching gauntlets. The bouffant skirt was floor length and extended into a chapel train.

A shell cap of medallions re-embroidered in tiny opalescent paillettes held in place the imported blush illusion bridal veil, which fell to fingertip length. She wore her grandmothers gold wedding band and a pearl lavalier, a gift of the bridegroom. Her bouquet was of fleurs d'amour, stephanotis and a white orchid in cascade arrangement.

Mrs. Perry Shankle was matron of honor and Miss Maurine Kavanaugh of Gainesville was bridesmaid. Mrs. Jimmy Woodall was bridesmatron. They wore identical dresses made with pink and white crystalline bodice having portrait neckline and puff sleeves and floor length skirts of pink net. They wore pink net bonnets and mitts and each carried a bouquet of

We did not receive a rain last week and the weather remains dry and hot.

We wish to express our thanks and appreciation to W. J. Wharton, A. L. Crawford and William G., and Floyd Daniel, who did so much work cutting and raking the grass burrs in the North Brown Cemetery.

W. L. Daniel and his daughter, Glenda hauled feed during last week.

George Crawford and Ronald Ratliff helped W. A. Elms stack feed last week.

W. J. Hopper took a bale of cotton to the Priddy gin last Thursday. I did not learn if it was the first bale.

Vance Harris gathered corn and Wayne drove the tractor to pull the trailer for the corn gathering.

Mr. and Mrs. Jim Smith visited Mr. and Mrs. W. O. Oden Sunday afternoon.

Mr. and Mrs. Hank Wrok of Priddy were called to Lubbock to the bedside of Gus Bufe. Mr. Bufe is a brother of Mrs. Wrok. He has a host of relatives and friends who wish for him a speedy recovery.

Allen Oxford spent Saturday night with Alvin G. Tiemann.

Guests of Mr. and Mrs. W. A. Elms were their son, W. L. Elms of Marfa, Mrs. Mildred Welch of Ripley, California and Mr. and Mrs. W. P. Oxford.

Mr. and Mrs. Woodrow Ratliff were called to San Saba to attend funeral services of his nephew, Doyle Ratliff last Thursday.

Mr. and Mrs. F. H. Tiemann attended church at Priddy Sunday.

Mr. and Mrs. W. L. Conner, Mary and Dorothy attended Bib-

le Class at Mullin Sunday.

This scribe enjoyed a short visit with Mr. and Mrs. Burt Hopper, Joe Ann and their son last Tuesday afternoon. While there I learned that Mr. and Mrs. Albert Hopper had celebrated their birthday by having all their children and grandchildren home.

Other guests present were sisters, Mrs. Frank Wolff of New Braunfels and Mrs. Otto Grelle and family of Caradan. His brothers, Mr. and Mrs. Burt Hopper and family, Mr. and Mrs. Henry Hopper and daughter and Mr. and Mrs. Fritz Hopper all of Priddy.

Mr. and Mrs. William Cook and children of Houston, Mr. and Mrs. Earl Ethridge and Joe, Mr. and Mrs. Floyd Daniel and Mark were guests of Mr. and Mrs. Woodrow Ratliff and sons last Sunday.

He passed away in Fort Worth last Friday where he had made his home since moving back from Wyoming, where he was engaged in ranching. Survivors are six sisters, Mrs. Ruth McCloud and Mrs. Carrie Crawford of Fort Worth, Mrs. Annie Welch of Autoa, Mrs. Julie Welch of Dublin, Mrs.

### News Of The Ebony Community

By CLEMENTINE WILMETH BRILEY

Mr. and Mrs. Stanley Reeves; Mrs. Reeves' sisier, Mrs. Lanford of Oklahoma and her little grandson, David; Mrs. Brownie Reeves White; and John and I went to Gorman Tuesday to visit at the Roscoe Reeves home. It was in 1900 that the Bill Reeves family left Ebony and moved to Gorman. I had never before had the opportunity of visiting them there. Roscoe is now the only one of the family that remains there. I was delighted when we drove up to a big two-story white house. Brownie said, "I believe that is Aunt Georgia's old home." There were Roscoe and Ruth to greet us. "Yes," they said to Brownie's question, "that house burned but we built this on that foundation with just a few changes." It is a lovely home. I immediately fell in love with that genial person, Ruth. And what a feast they had for us in their dining room. Shortly after dinner we went driving. Went through the Gorman Peanut Plant, headquarters for The Southwestern Peanut Growers' Association. Saw the rocks and sticks separated from the peanuts. Went into a room where 40 little mills were grinding out peanuts, hulled and cleaned and graded. Went into the packing room where the sacks are filled

automatically and the suspended sewing machine sews across the tops. Then they're laid on the shafts of the loading car which backs into the waiting freight car, carefully places the sacks, then draws out the shafts and is ready for another load. The manager said they ship most of the peanuts to Chicago and the West Coast.

Though Roscoe is a veteran rural carrier, he took us out four miles from town to his stock farm where he and his sons, Roscoe Jr., 14, and Cecil Clay, 11, raise cattle and hogs. Back at the house, Roscoe brought out two ice cold watermelons. After the watermelon feast, we said Goodby, feeling that the day would always be a happy memory.

Wednesday John took Ernest Malone back to Algerita where he got some more of his belongings, got his mail, talked to his friends, and took on a supply of groceries.

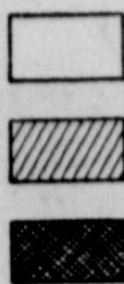

Thursday we went to Brownwood to do our weekly wash, get our groceries, and bring Mrs. Edna Dwyer and her daughter, Mrs. Opal Cawyer, out to the Dwyer home. They have enjoyed very much having the use of the Wilmeth home while the Wilmeths were away in South Dakota. And especially have they enjoyed the visits of many friends who called while they were there. When we arrived at the Dwyer home, we noticed at once that the doors were open. It was that good neighbor, Mrs. Cecil Egger. She had been there and had the whole house spic and span. As we came home, we passed her on the way to town to look after her invalid mother. Soon school will begin and she will be on the job again; driving the Mullin school bus and cooking in the lunch room.

Marie Wilmeth visited at the Dwyer home Friday and Saturday. She loaded her car with good dirt from her Aunt Edna's cow lot to use on her yard in Abilene.

Mr. and Mrs. Hubert Reeves and Nancy called on Mrs. Dwyer Friday evening. Mrs. Reeves said her sisters, Neil and Shirley Guthrie of Baytown, brought their father, John Guthrie, to her house Sunday. He seemed very much improved. They took him on to Coleman to visit his son, Paul.

Austin Cawyer came Friday night, and he and Mrs. Cawyer left Saturday taking Mrs. Dwyer with them to Orange. As soon as she can have a date from the Anderson Hospital at Houston, she will go there for further surgery. Daughter Opal says nothing keeps up her spirits more than visits and cards from her friends. Don't fall her. Her Orange address is 2423 McKee Drive.

**U. S. Farm Exports For Last Year Are Reported Up Seven Per Cent**

COLLEGE STATION, (Spec.)—Exports of United States agricultural products for the year ending June 30 totaled \$3,130,000,000, an increase of 7 percent over the previous year and 11 percent above the 1952-53 total.

Extension Economist Pat Wooten says the U. S. Department of Agriculture has reported that all major commodity classes showed some improvement but it took a grain buying upswing in June to bring that commodity up to the level of the

year before.

Exports registered gains in 1954-55 mainly for vegetable fats and oils and livestock products, but increases were also listed for cotton, tobacco, and fruits and vegetables.

Cited by the economist as contributing factors to the increase were improvements in economic conditions abroad and Europe's poor grain harvests in 1954.

Satisfactory levels of gold and dollar accumulations attained during the year also made it possible for some countries to expand their dollar purchases of American farm products, said Wooten. On the other hand, some European countries continue to maintain restrictions against imports from the United States. Exports would probably have increased further had foreign demand been able to fully assert itself, he said.

The large supplies and Government programs aided the flow of farm products abroad. The most important of these programs were sales for export at competitive prices, sales for foreign currencies, barter agreements, grants to foreign countries for emergency relief and welfare donations in foreign countries.

**PRESERVING OUR BLACKLANDS**

Texas and U. S. Agriculture department researchers are working on a program to preserve and improve growing conditions in one of the state's most innately fertile regions—the Texas Blacklands.

The seven million acres of flat to gently rolling fertile soils has been subjected to generations of continuous row crop plantings and the result of their overwork presents two dread problems: erosion conditions and nitrogen deficiency.

The soils are primarily deep, high-line clays that can store 6 to 10 inches of available water. They continually shrink and crack, keeping plant. Virgin grassland in the area contains five per cent organic matter. Continuous rowcropping reduces this level to between 1.4 and 2 per cent.

Scientists say this resilient, fertile soil cannot remain pro-

ductive unless relieved from continuous cropping to corn, cotton and sorghum.

**LIVESTOCK-FORAGE TO PREVENT EROSION**

By substituting feed crops for cash crops, and using the land for grazing purposes, a long-term test has proved the crops can more than pay their way, conserving water and preventing soil loss simultaneously.

The typical blacklands farm can grow innumerable soil-holding and valuable feed crops. Barley and oats make fall and winter cool-season pasture and sweet clover and sudangrass provide summer grazing. Many other varieties of grasses also fit well into the grazing picture.

**NITROGEN BUILDING LEGUMES**

The nitrogen deficiency in the blacklands soils, which has accounted for a decrease in corn production in particular, is being overcome to a large degree through use of nitrogen-building legumes.

Sweetclover is one of the most successful of such plants.

(Written for last week)

Well, it's still hot and dry out our way. We are sure needing rain, we have had some small showers but no rain to speak of.

There was church at the Baptist Church Sunday night, with a good attendance at both services.

Mr. and Mrs. Herbert Coffman had as their dinner guests last Sunday the following: Bro. Simms and family and Mr. and Mrs. Joe Alton Kemp and girls.

Mr. and Mrs. J. Frank Marlor are celebrating their 50th wedding anniversary the 4th of September. Everyone has an invitation to an open house at their home from 2:00 until 5:00 in the afternoon.

Mr. and Mrs. Ercher McCasland, Mr. and Mrs. Henry Venable and Mrs. Sherwood Owens attended the funeral services for their aunt, Mrs. T. J. Smith at Belton Saturday afternoon. The Star School starts the

5th of September and I think most of the children have had their vacations and are ready to start back to school.

Mrs. W. T. Alexander, who underwent surgery a few days ago, is at home but will have to take it easy for some time yet.

Eva Faye Green spent the afternoon with Hilda Mae Frank last Sunday and Mr. and Mrs. Walter Frank, Hilda Mae and Eva Faye were Goldthwaite visitors Sunday night.

Uncle Joe Dalton has been on the sick list, Joe Deats carried him to the hospital at Brownwood one day last week. He is at home again and doing very well.

Allen Carter is not feeling well these days.

**ATTENDS GRADUATION EXERCISES AT N. T. S. U.**

Mr. and Mrs. J. D. Walton and their daughter, Mrs. Dolores Hudson, visited their son and brother, Glyn Walton and family at Sherman last week. They also attended the Commencement Exercises at N. T. S. U. where their son and brother, Emory C. Walton was a member of the class.

An experimental crop of corn grown after sweetclover averaged 50 bushels an acre—more than twice the present average yield in the area. Use of sweetclover proved even more effective in aiding growth as than use of nitrogen fertilizer,

and also helped the soil hold moisture.

Texas blacklands, once the most fertile and desired locations, are not a permanent asset to the state. They become so only when we make efforts to preserve and maintain them.

**Purina Research Announces A BRAND NEW WAY TO WORM CHICKENS AND TURKEYS.**

Now—treat for worms the easy way through the drinking water!

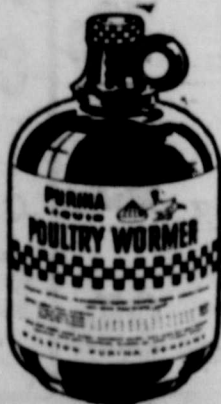

Purina Liquid Poultry Wormer! It's the biggest poultry news we've heard in a long time. Big news because it does such a tremendous job of worming chickens and turkeys—big news because it's so easy to give and costs so little.

Purina Liquid Poultry Wormer, you see, is the brand new drinking water treatment for roundworms. Birds worm themselves just by drinking the medicated water from their regular waterers. Because it's a liquid, this new product is a natural for broiler producers who have a medication barrel on their water system. It mixes easily and of course doesn't clog lines or valves.

And just as important is the fact that you don't have to interrupt or change your feeding program to worm your birds. You keep feeding just as usual.

But the best news of all is that Purina Liquid Poultry Wormer does a better job of removing roundworms than any other compound ever tested by Purina! It even knocks the small, undeveloped worms that other type wormers so often miss.

What does it cost? Only 30 to 50¢ per hundred birds! Where else could you find a safe, effective wormer that's so easy to give and still costs so little? That's why we're sure Purina Liquid Poultry Wormer will make such a big hit with poultrymen in this area. Ask for it today—at the Store with the Checkerboard Sign.

### Koen Descendants Meet At Lake Eanes For Eighth Annual Reunion

The descendants of the late Ben F. and F. D. L. Koen met at Lake Eanes near Comanche, Saturday and Sunday, August 27 and 28, for their annual reunion. The Koens, were originally from Northern Tennessee, near Nashville. The oldest brother, John Wesley Koen was born 150 years ago. He was not represented at the reunion this year.

The business meeting was opened with a prayer, by the assistant chairman, O. V. Koen of Austin, and closed by the crowd singing "God Be With You 'Til We Meet Again". The oldest Koen woman descendant, present, (82 years of age) Mrs. Beulah Witsel of Toas, New Mexico. She was presented a golden carnation corsage; also Henry Koen (77 years of age) of Harrison, Arkansas, the oldest Koen man present was presented a golden boutonniere. The youngest member was the infant son of Mr. and Mrs. Bobby Carr of Grand Prairie.

Nine of the eleven children of F. D. L. and Susanah Koen that lived to be grown were represented.

### Ben W. Newhouse Named To Committee

Ben W. Newhouse, superintendent of the Balmorhea School system, formerly superintendent of the Mullin School, has been appointed by the State Board of Education to serve on a committee for study of the maximum utilization of school buildings of the State according to an announcement carried in the Pecos Enterprise.

Mr. Newhouse is to represent the Texas Small Schools As-

sociation of which he is president.

The advisory committee is made up of representatives from state wide organizations, and will be called together in early September for its organization.

In view of the estimated increase of 300,000 children in our

Texas public schools by the board feels that it is everything practicable to make available to local schools all the information which assists them in providing facilities to take care of children who will be in attendance during the next five

The story of "SOULS IN CONFLICT," newest release by Billy Graham Evangelistic Films, Inc., is the story of all three—a trilogy that proves a change of outlook is brought about only by a supernatural change of the heart.

Billy Graham, whose three previous films have amazed religious leaders and motion picture authorities alike, produced "SOULS IN CONFLICT" in conjunction with his much-headlined London Crusade, and Ray V. Mayfield, Jr., pastor of First Baptist Church, in this city, announces the local presentation of the picture on Sept. 7, in the First Baptist Church at 8 p.m. No admission will be charged.

Joan Winmill, star of the British TV spy thriller, "Epitaph for a Spy," and herself a convert to full-time Christian service, plays the actress, Eric Micklewood is the jet pilot and Charles Leno the factory worker. "SOULS IN CONFLICT," a full-length feature in color, was produced for Billy Graham Evangelistic Films by Great Commission Films, Hollywood, in association with Anglo-Scottish Pictures, London.

By MRS. DUTCH SMITH

(Written for last week)

We have received one inch of rain since I wrote my last letter. Mr. and Mrs. Johnnie Smith

visited their parents one night last week.

Mr. and Mrs. Johnnie Smith, Mr. and Mrs. Carl Brown and Dutch and I were in the Bob Bohning home near Lometa Wednesday night.

Mrs. Carl Brown and Mrs. Dutch Smith accompanied the Johnnie Smiths to Austin last Thursday. They brought me back Thursday night.

Mrs. Bob Artz of Austin has returned home from a visit with her parents, Mr. and Mrs. W. H. Hightower. While here she also visited her sister, Mrs. Alex Shaw, Mr. Shaw and son.

Word has been received here telling of the serious illness of Mrs. Allen Eckert of Rosco. The Eckerts are former residents of this community.

We would like to say congratulations to Mr. and Mrs. Billy John Eckert who are rejoicing over the arrival of a daughter, Joy Lee. Also congratulations to grandfather, Eckert.

Mr. and Mrs. Dutch Smith accompanied Mrs. Fred Laughlin and Jimmy to the bus station where Jimmy took the bus for Dallas to see about joining the Air Corps.

Mr. and Mrs. Terrell Casbeer were in the Dutch Smith home Thursday night.

### Social Security Information As Effecting Farmers And Farmhands

This is the third in a series of articles on social security for farm operators answering new questions.

BY JAMES B. MARLEY  
District Manager of the Austin, Texas social security office.

In my last article, I stated that a self-employed farmer for social security purposes is a person who operates a farm either as an owner, lessee, or renter. The way in which you pay for the use of the land which you do not own does not matter. It may be money rent or any other kind of rent. A common non-cash rental arrangement is the share-renting arrangement under which the share-cropper pays a share of the crop or livestock raised to the landowner for the use of the land.

For social security purposes, a share-cropper is considered a self-employed farmer. By "share-cropper" I mean a person who undertakes to produce a crop or livestock on another person's land with the crop or its proceeds to be divided and with the amount going to each depending on the amount of the crop or the number of livestock produced.

To be self-employed, a share-cropper must have the responsibility for the production of a crop during the growing season. Moreover, the share-cropper's arrangement with the farm owner must be one whereby the share-cropper's earnings from operating the land are a percentage share of the total crop produced or livestock he raises.

While a self-employed share-cropper is one who enters into an agreement to produce a crop or livestock on land belonging to someone else, it is not necessary in all cases that he do every part of the job. For example, a landowner may have planted or set out the fruit trees, bushes, or plants in former years and turned over their cultivation and care to the share-cropper. In another situation, the landowner might undertake to harvest or sell the crop produced by the share-cropper. Neither of these circumstances would prevent the share-cropper from being considered self-employed.

The phrase "to produce a crop or livestock" does not mean that a share-cropper must necessarily assume responsibility for paying the expenses of raising or harvesting the crop. Seed, feed, fertilizer, tools, machinery,

insecticides, etc., may be shared farm owner. As long as the share-cropper has the responsibility of farming the land during the growing season on a percentage of the crop or proceeds arrangement, he is a self-employed share-cropper for social security purposes and his net earnings from such work are building old-age and survivors insurance protection for him and his family.

If the farm owner also participates in the crop production, and at the same time, shares responsibility for any losses as well as profits, such an arrangement is more likely to be a business partnership. Both parties, then, are self-employed farmers for social security purposes. I shall discuss such farm partnership in my next article.

### Raising Pullets In Confinement Has Several Distinct Advantages

COLLEGE STATION, (Spec.)—Raising the pullet flock in confinement has several distinct advantages over the more common practice of growing them on range. According to Ben Worrell, extension poultry husbandman, the greatest benefit in raising pullets under a confinement system is that they should come during the summer months when they need protection from the sun and local storms—wind, rain and sometimes hail which often trouble in pullet flocks on range.

Wormell include the great saving of space. About three acres of land are needed to range raise 1,000 pullets while the same number can be handled in a 20 by 100 feet shelter house. Feed losses on the range due to wind, rain and that eaten by other animals and birds is often heavy. Poultrymen who raise their pullets in confinement say this loss is practically eliminated.

Reduced losses from diseases and predatory animals can be expected, says the specialist when the growing birds are con-

finied. But the top saving comes in labor. The feed room is part of the building and makes the feeding job much easier than range feeding where feed troughs are scattered over a wide area. Even greater savings of time and labor can be made by using mechanical feeders.

Too, mechanical waters can be used in the house to provide a continuous supply of clean water which is a must for economical production of all poultry.

In summary, Wormell points out that about the only disadvantages to the confinement method are the higher initial cost for housing as compared with cost for range shelters and the increased trouble from cannibalism. This trouble can be largely controlled, he adds, by debeaking. Whether or not the advantages offset the additional housing cost required for confinement rearing should be considered by the poultryman when he makes his decision on the method to be followed in growing his pullet flock.

### Brown-Mills Soil Conservation News

**By CHARLES HAENISCH**  
Last week a group of Brown-Mills Soil Conservation District cooperators near Priddy attended the field day program held on the Clinton Harbor farm near West Point, Texas in the Bastrop-Fayette Soil Conservation District. The group witnessed the harvesting of cotton which was producing approximately one bale of cotton per acre under dry land farming.

The group saw Mr. Harber plant his cover crop using the deep placement fertilizer drill developed by him. He was planting a cover crop of Wilmet vetch, placing in on the side of the old beds in the Harber manner.

Those that attended the field day felt that this type of operations, with a few minor adjustments, could be used in this area.

Dick Vestal, Vocational Agricultural teacher at Priddy; Ewell H. Priddy; and Ernest Kohler attended the field day.

Blue Panic, a grass introduced to this area three or four years ago, is proving to be well adapted to the area.

J. H. Priddy, Chairman of the

Board of Supervisors of this district, planted an eight acre field to Blue Panic on June 1st of this year. The field had been in Madrid sweetclover for two years previously. An average plant collected for display purposes had grown to the height of six feet in a period of only eighty days. Plants in the field were from four to eight feet high.

Farmers and ranchers in the district have planted this grass in the past but due to droughty condition very little success has been obtained in getting the grass established.

The field of Blue Panic on Mr. Priddy's farm shows what the grass will produce when moisture is available.

A new district marker will be erected between the Brown-Mills Soil Conservation District and the San Saba-Brady Soil Conservation District in the near future. The marker will be erected south of the Colorado River bridge on L. B. Burnham's land. The 3 x 5 foot marker will have "Entering the Brown-Mills Soil Conservation District" on one side and "Entering the San Saba-Brady Soil Conservation

District" on the other. The supervisors of this district are in hopes that agreements can be made with adjoining districts to have markers erected on all major highways at district lines.

Last week technicians of the Soil Conservation Service staked terraces on the Lee Roy Warren farm east of Goldthwaite and on Jim Soules ranch at Star. Harry Welch, south of Center City, constructed a waterway on his farm to dispose of terrace water. Technicians staked a pond for Arthur Wilcox near the Colorado River and checked a pond for completion on E. L. Sanders ranch south of Goldthwaite.
