LEW W. TABOR

is the new office manager for the Mills County ASC office. Mr. Tabor was formerly ASC office manager for Concho County and made his home in Ballinger. He replaces A. C. Henderson here. Mr. Henderson having been transferred to Breckenridge.

Mr. Tabor, his wife and 15 year old son, Glen, who is a freshman in high school, are making their home at 1517 Queens Street, in the Lowell Burk house near the old high school building. Mr. Tabor states that he thinks they shall enjoy living in Goldthwaite as the people are so friendly and makes one feel so at home.

Laymen's Revival To Begin At Mullin

There will be a Laymen's Revival at the First Baptist Church of Mullin, beginning November 22, and continuing through November 24.

Prayer services will begin at 6:30 each evening with preaching service following at 7 o'clock. There will be testimonies given each evening, singing by quartettes and the men's choir.

Everyone has a most cordial invitation to come out and enjoy these services, according to an announcement by Rev. Alvis Bell, pastor.

Ray Duren Attends Lions Club Meeting At Corpus Christi

Ray Duren, Deputy District Governor of Region 12, and Mrs. Duren attended the Cabinet meeting for Lions of District 2-A in Corpus Christi last Sunday. This was a quarterly meeting and involves 150 clubs.

Mr. Duren was the only representative of Region 12 to attend. He and Mrs. Duren returned home Monday night.

AUSTIN, Tex.—Days of old seem to have dawned over Texas lawmakers. They ended their first called session this week and launched into number two. It's the first time in more than a decade that a governor has convened a legislature in two rapid-fire special sessions.

Main topic for the second session is a bill to authorize closing of public schools threatened by occupation by federal troops.

Gov. Price Daniel issued the second call when it became apparent that this issue couldn't be squeezed into the final days of the first session.

House and Senate had difficulty coming to agreement on details of the first session's five-point program: water planning, lobby control, crime, study, practice before state agencies and money for an Insurance Department building.

DELAY SPOTLIGHTED—Senate Investigating Committee is continuing its drive to establish whether the Insurance Commission dilly-dallied with reports of irregularities in a Dallas firm.

Former Insurance Department Examiner Wayne Tinkler told the committee that he began an examination of Preferred Life last March. He ran into difficulties, and asked for help from the department's legal counsel. He didn't get it, said Tinkler, and finally turned in a report in June.

His audit indicated that Preferred's president owed the company some \$194,000 due to stock manipulations, Tinkler reported. "But no action was taken in the Department until September, when a brief conference was held."

BOND PROGRAM LAUNCHED—At least one phase of Texas water conservation program now has the official go-ahead. By approving a constitutional amendment, voters cleared the way for insurance of \$200,000,000 in bonds to finance local water projects.

Though only about one-tenth of the electorate (185,000) turned out, all three proposed amendments received approximately 3-to-1 majorities.

Other two will provide increased retirement benefits for state employes and authorize higher old age pensions.

WHO FOOTS THE BILLS—Texans depend on severance taxes, mainly on oil and gas, for nearly one out of every three state tax dollars.

The Analyst John F. Sly of Princeton said this reliance on natural resource taxes has been increasing over the years. Sly, in addressing a meeting of the Texas Research League in Austin, gave what may be a preview of the searching study of Texas' tax structure being undertaken by the League.

Some Sly statistics: State taxes increased from \$123,000,000 in 1940 to \$625,000,000 in 1957. Severance taxes jumped from 16 per cent to 30 per cent of the total in that period. Texas' state and local taxes are \$130 per capita compared to the national average of \$158.

EMBARRASSMENT OF RICHES—Combination of late spring rains and early fall rains has caught many Texas farmers in a squeeze.

There wasn't enough time in between to raise a crop and get

Eagles Meet Llano Friday Night To Close 1957 Conference Play

The Goldthwaite Eagles will play host to the Llano Yellowjackets tomorrow night on the local field with game time beginning 7:30 o'clock. This is the last conference game and the last game of the season, also the last game of all for some of the Eagle players.

Mills Co. Voters Favor 2 Out of 3 State Amendments

Mills County voters were slow in getting to the polls last Tuesday to vote in the special election. Some of the county boxes did not report until Wednesday afternoon.

The same trend followed here, as elsewhere over the state, of favoring the proposed amendments to the State Constitution except in the first amendment or retirement fund, which did not carry in Mills County.

Heaviest favorable voting went to the pension fund amendment which was approved 249 for and 54 against. The third or water amendment received the second heaviest vote with 184 for and 111 against. In the first or retirement amendment the votes were 137 for and 165 against.

Mills County voters numbered a total of 303, with no absentees, which was very light for the city and county.

South Central Dist. Scouters To Elect New Officers Tonight

The South Central District of the Comanche Trail Council, Boy Scouts of America will hold their annual District meeting Thursday night, November 14, at 7:30 o'clock in the Goldthwaite High School lunchroom.

Guest speaker will be Barry Halton, Director of Community Service on the Public Relations Staff at SMU. Mr. Halton is a graduate of Notre Dame, football star and later coach with Knute Rockne, former coach at Trinity University and a captain in the Naval Reserve.

During the business meeting, election and installation of new officers for 1958 will be conducted. This meeting is primarily for people interested in Scouting in this district though anyone wishing to attend may do so, according to an announcement by Val Hinkle, Scout District Representative. Plates for this banquet are \$1.00 each.

Worship Program Scheduled For Star Methodist Church

A new program of worship services are being launched in the Methodist Church of Star. Under the direction of the Church Lay Leader, preaching services will be held on the second Sunday of each month beginning December 8th. In the past the preaching services have been held only on the Sundays when the pastor is in the Star Church (1st & 3rd).

If this new program develops, plans are to expand it to provide preaching services in the church every Sunday. The lay preachers and retired ministers will fill the pulpit on the Sundays when the pastor is in other churches of his charge. The first step has been made by providing services for the second Sunday of each month, according to an announcement by Rev. Jesse A. Long, pastor of the church.

Last year the Eagles defeated the Yellowjackets by a score of 12-0, at Llano, giving the Eagles a second place win in the district. If the Eagles win tomorrow night, then they will be in second place again this year, as of now they are tied with Llano for second place. Mason is in first place in the District so far.

Last week the Eagles had an open date, thus giving the Eagles a chance to rest after their vigorous nine games in nine weeks. They will be out in full force tomorrow night to win over the Yellowjackets and the fans will see a good game of football at the last game of the season.

Linda Langford, Crowned Queen At Harvest Festival

A large crowd attended the Harvest Festival which was presented by the Goldthwaite P.T.A. at the High School gym last Friday night.

Linda Langford, Senior representative was crowned Harvest Queen, her escort was Don Woods. Attending Queen Linda were; Princess Diane Dellis and her escort Roger Kennedy of the Eighth grade, and Princess Roberta Childress and her escort Byron Harper of Grammar School.

PROCLAIMS CHRISTMAS SEAL DAY—Governor Price Daniel has proclaimed "Christmas Seal Days" as that period from November 15 to December 24. Bearing the request for the proclamation was Miss Carolyn Calvert of Austin, Texas' first Miss Christmas Seal and the reigning Miss Texas. Christmas Seals are being mailed over Texas Friday. They support work of voluntary tuberculosis associations toward control of the disease.

Mullin Homecoming Football Game; Crowning Of Sweetheart Tonight

Mullin will be hosts tonight to the visiting team from Carleton when they meet for the last game of the season. Game time will be 7:30. This is the Homecoming game for the Mullin Bulldogs. They have won seven games and lost only one to Sidney.

Region 12 Lions Yearly Meeting Held Here, Nov. 6

The Region 12 Lions Club meeting which was held at the Elementary school lunchroom last Tuesday night had an attendance of 85 members and guests. Among the clubs were representatives from San Saba, Llano, Mason, Rochelle, Brady and Goldthwaite. Eden and Melvin, who are in this region had no representation present.

The Lions and their guests enjoyed an interesting talk by District 2-A Governor, Niel Methena, Del Rio and also by John Painter, Past District Governor from San Antonio.

Entertainment for the evening was furnished by Tall Twisters, Truett Auldridge and Floyd Spradley.

At the half time, the Football Sweetheart will be crowned. No one knows who she will be until time for the ceremony.

The starting line-up for Mullin will be: Duren center; Williams, right end; Sanders, left end; White, right half; Smith, left half and Bean, quarterback. Others who will play during the game are, Ethridge, Sanderson, Hutton, Ashford, Hodges, Bramblett, Singleton, Shelton and Dellis.

Mullin P-TA To Meet, Nov. 18

The Mullin P-TA will meet at the Mullin High School Monday night (November 18), at 7:30 o'clock, in regular meeting.

Mills County Schools To Collect Clothing For World's Needy, Dec. 2

During the week of December school children of Goldthwaite and Mullin will collect used clothing for orphaned and needy children, and children in the United States and countries overseas, it was announced today by Superintendent J. T. Jones of Goldthwaite and Superintendent D. Cecil Handley of Mullin.

The drive, which is part of World Clothing Week, will continue for five days, December 1 through December 6th. Mr. Jones and Mr. Stanley expressed the hope that every family in Goldthwaite and Mullin will immediately gather up the outgrown and worn clothing which accumulates in every household and send it to school during World Clothing Week. All types of infants, children and adult clothing and shoes are needed. Bedding, too, can be put to good use.

The Supts. states that: "Statistics show nearly half the world's children are inadequately clothed, housed, and fed. Thousands of children in our own United States cannot attend school regularly because they lack proper clothing. Overseas, orphaned and needy children and adults desperately need help. Through World Clothing Week, the school children and the entire community, can make a substantial contribution towards alleviating the distress of these unfortunate ones."

World Clothing Week is conducted under the auspices of the Christian Children's Fund, Inc. Since 1938, C.C.F. has been active in child welfare work. Today it provides vital assistance to orphaned and needy children in 250 orphanages in 34 countries.

Dr. W. R. Carmichael, Superintendent of Schools in Bryan is Chairman of the Texas Drive.

SOLILOQUY

A RECORD WILL BE SET

The traffic accident records of the next two months will decide whether or not Texans will plunge deeper in the traffic quagmire of death and destruction.

Frankly, the future isn't bright, for December has come to be regarded as the most deadly month of the year—from a traffic standpoint—with November close behind.

In 1955, for example, 263 persons died on Texas streets and highways during December's 31 days, bringing the traffic fatality toll to 2547 for the year. In 1956, 252 were killed during the same period—for a record year's total of 2611.

Thus far, more than 2,000 people have been killed during the current year. The final outcome of a higher or lower toll depends on what the individual motorist and pedestrian does in the next 60 days.

Yes, believe it or not, we more or less have control of our own destiny. If we are careless, we are sure to meet with accidents in every walk of life. But if we are careful and keep on the lookout for hazards, we may easily steer clear of those things which cause trouble. It is folly to say that it is all a matter of luck, because luck actually doesn't enter into it at all. The degree of safety we enjoy will be determined by our attitudes. A good safety attitude means being aware of potentially dangerous situations we must face each day, and learning to act in advance so as to prevent accidents.

Consider, for a moment, this season of the year and your own attitudes. We may not have ice and snow within the next two months, but we will certainly have damp, cool and occasional foggy days and nights. We know that winter is on the way just as surely as we know it will be followed by spring. Too, shorter days create special hazards that are inherent with darkness on streets and highways. Therefore, it behooves each driver and pedestrian to be aware of these unsafe conditions and stay alert to their dangers. Slower speeds are necessary, autos need to be in exceptional mechanical condition and pedestrians must use extra caution when crossing streets.

It is true there won't be much vacation travel in the next two months, but traffic will be heavy during Thanksgiving and Christmas holidays, and over the football weekends. Also, there will be considerably more driving after dark. That is, the earlier hours of the evening will necessitate more nighttime driving. Records of the Texas Safety Association reveal that 14 percent of all rural fatal traffic accidents occur between 6 and 8 p.m.

One thing for certain, Texans are entering the most dangerous traffic period of the year. A record will be set—whether it is GOOD or BAD will depend on each of us.

WANT LOWER TAXES?

Interested in lower taxes? Then try playing it "safe" for a year.

J. O. Musick, General Manager of the Texas Safety Association, reported today that the economic loss from accidents in Texas, last year, cost us more than 300-million dollars.

For this amount, he said we could have operated all state supported schools from the first grade through college levels. We would still have enough left over to take care of our eleemosynary and correctional institutions. Plus, state parks, monuments and museums.

"The loss," Musick said, "is equal to more than one-third of the state's entire budget for a year."

TSA records show that a total of 6,176 persons were killed from accidents of all types, during 1956, and 781,789 were injured.

GOOD BYE HUCK FINN!

Stephen Foster's "Old Black Joe" is a piece of immortal Americana, loved and sung by tens of millions of people over the generations. But it has been banned from certain air networks—on the grounds that it contains racially offensive phrases.

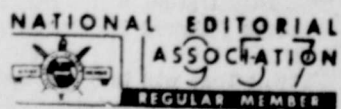

Now the New York City Board of Education has taken "The Adventures of Huckleberry Finn" from its approved textbook list for grade and junior high schools. A great many excellent critics regard Huck Finn as the greatest of all American novels, and practically all put it very high on the short list of genuine classics. The New York Times reports a publisher as saying the book was banned because, like Stephen Foster's wonderful old song, it was held to contain racially offensive material.

There is only one logical end to such trend. All literary and musical material which happens to offend anyone should be banned—whether those offended are white men, yellow men, or black men; Protestants, Catholics or Jews; business men or labor leaders, and so on ad infinitum. Then we can all live in a cultural vacuum comparable to the Dark Ages.

Inside WASHINGTON
MARCH OF EVENTS
Would Reorganize Congress | Senator Mansfield Urges To Save Taxpayers Money | Two Sessions Held Yearly
By HENRY CATHCART
Central Press Washington Writer
WASHINGTON—Senator Mike Mansfield (D), Montana, is convinced that tax money could be saved by a reorganization of Congress so that it would hold two sessions every year instead of one.
Mansfield proposes that the second session of the year be devoted entirely to appropriations matters while the first concern itself to purely legislative matters.
"As it is at the present time," explains the Senator, "appropriations bills are sandwiched in between regular legislative measures. This, in my opinion, makes for inefficiency and lack of proper consideration for budgetary requests."
In addition, Mansfield believes financial affairs of the nation should be placed on a calendar year basis rather than on the basis of July 1-June 30, as they are now.
● NETWORK BLUES—Chances are that Congress will finally do something this year to give the federal government more control over radio and television networks.
A group of mass communications and legal experts told the government that this authority was needed to keep the networks from becoming too powerful and strangling improvement of television fare.
This finding is similar to a recommendation by the House anti-trust subcommittee and its chairman, Rep. Emanuel Celler (D), New York, an outspoken and frequent critic of the networks.
The gist of the recommendations is that the networks, principally through their methods of selling advertising time and network programs to subsidiary stations, are preventing local outlets from introducing good new local programs.
This, the communications experts said, prevents local stations from coming into their own and transforms them all into network satellites. At present, the government possesses little authority over the networks—hardly recognizes them, in fact, except as multi-station owners.
● STANDING ROOM ONLY—All the talk about outer space has failed to distract the concern of some U. S. population experts who fear the U. S. may soon be running out of living space.
The baby boom continues, with some four million new Americans expected to check in before year's end. Where will they—and their future little brothers and sisters—all go? ask the experts.
Here is how the experts see the living space question: as cities expand, they take farm land out of production. Upstream industries drain needed water from downstream agriculture. Where does it all end?
One official predicts "water will become our most precious mineral." The answer may be the encouraging reports that the time is near when potable water may be cheaply converted from salt water.
● GOP PROBLEMS—No doubt about it, President Eisenhower's use of federal troops in the Little Rock school integration crisis has probably destroyed Republican chances of building a real party organization in the South for at least a decade and possibly more.
Many rank and file party members, such as county and ward chairmen and precinct workers, have resigned. So have top state officials.
The rebellion is not unanimous, however.
For example, in Pinellas (St. Petersburg, Fla.) county, GOP chairman Edward A. Turville chided Republican congressman William C. Cramer, an Eisenhower critic, and also A. S. Epple, a Florida Republican committee chairman, who resigned in protest over the President's calling out the troops.

Mullin FHA Girls Attend District 3 Meet At Hamilton

By Mrs. Galloway, Sponsor
Mullin F.H.A. Chapter was well represented at the District III meeting held in Hamilton, November 2. Eighteen girls, their sponsor, Mrs. H. E. Galloway, and four mothers, Mrs. Melvin Pafford, Mrs. Edgar Smith, Mrs. Dennis Edmondson, and Mrs. Glenn Calder made the trip by school bus.

Mullin Chapter presented the Devotional, "Father, I Thank Thee" during the morning session. This was based on the second purpose of the organization which is to promote better home and family life for all.

The following girls had special parts: Commentator, Betty Adams; Girl at Prayer, Mary Calder; Choral Groups, Glenda Calder, Jeannene Driskill, Jean Pafford, Willa Dean Anderson, Ann Hohertz; pianist, Nancy Reeves. Various religious scenes were portrayed by the other chapter members.

Miss Eldora Edmondson, a local member is district Public Relations officer and is responsible for reporting the meeting to area and state news letters and local papers. She also had a part in the closing ritual.

All girls reported an enjoyable time and are looking forward to the Area Meeting in the spring.

Fill Kitchen Cookie Jar With Cinnamon Goodies

By ALICE DENHOFF
Is there a more tantalizing, delicious aroma than that of spicy cookies baking in the oven? In case you've forgotten what it's like, try this recipe for some delightful cookies flavored with that most inviting of all spice treats—cinnamon.

Known in China
Cinnamon is one of the oldest spices, dating back many centuries before the Christian era when it was known in China. Early Arabian traders brought it to Europe. Later it was brought to America and finally made its way to your own kitchen.

To bake about 3 1/2 doz. whole wheat cinnamon cookies, cream 1 c. light brown sugar and 1/2 c. shortening together until fluffy. Add 1/2 tsp. baking soda and tsp. grated lemon rind and tsp. grated orange rind with 3/4 tsp. salt.

Beat in 1 egg. Combine 1 3/4 c. whole wheat flour, 3/4 c. double-acting baking powder, 3/4 tsp. ground cinnamon and 1/4 tsp. ground allspice.

Add alternately with 1/2 c. fresh orange juice to first mixture. Add 1 c. seedless raisins and 1/2 c. chopped nuts. Drop from tsp. onto an ungreased cookie sheet. Bake at 375° 12 to 15 min. or until brown around the edges.

Chocolate Nut Cookies
Spice Chocolate-Nut Refrigerator Cookies is our next offering. The recipe makes about 3 doz. Sift together 2 c. all-purpose flour, tsp. double-acting baking powder, 1/2 tsp. salt and 2 1/4 tsp. double-acting baking powder together and set aside for later use.

Cream 3/4 c. softened butter or margarine, 1 1/4 c. sugar and 1/4 tsp. pure vanilla extract. Beat in 1 egg. Stir in flour mixture and 2 tsp. milk. Mix well. This dough will be thick. Shape into 1-in. balls. Dip each into 1/2 c. sesame seed. Place on ungreased cookie sheets and set each 1-in. apart to allow room for spreading. Flatten in crisscross fashion with a fork. Bake 10 min. at 400°.

THE GOLDTHWAITE EAGLE

OUTDOORS IN TEXAS

BY—VERN SANFORD

It was bluebird weather when duck season got under way this year. Nevertheless many hunters shot their limits. . . from the Red River to the Gulf.

Then came a good norther. And now the weather is better for duck and goose shooting. This type of hunting is about the hardest and most difficult gunning in Texas. So much depends, not on what is done in Texas, but on conditions in Canada throughout the early part of the spring and summer.

If conditions are right north of the border, and there is a big hatch, Canada will send more ducks down the various flyways into the United States. Many will stop before they get to Texas. But countless numbers have wintered on the Texas coast for so long that it is family tradition for them to return to the Lone Star State. And here they head.

More and more ducks remain in Texas waters every year, in order to produce their families in the South.

However, they represent but a small amount of the total duck population. And this number is reduced considerably after the first few days of shooting.

Good Shooting is Everywhere. Most duck and goose hunters think of the Texas coast as the best hunting place in the state. That isn't necessarily true. There are thousands of ducks killed each year on the streams and farm tanks of Texas. Excellent hunting exists on all the major impoundments in the state and in the grain fields of the Texas Panhandle.

Grain field hunting is about the easiest on the gunner. He hides behind a shock of grain or in a hurriedly-thrown-up blind.

Duck hunting under most conditions is hard work. Usually the worse the weather the better the shooting. It usually takes a cold drizzle to get the ducks and the old honkers to come down close to the ground. That is, close enough to reach them with a blast from the shotgun.

Of course the ammunition manufacturers have learned to load the standard length shells with a little more powder and shot. But, the duck and geese

are smart, too. They just fly a little higher.

No Motor Boat Hunting Most waterfowl shooting is done on water. For this reason it is necessary to have a good boat or waders.

Boat hunters can use outboard motors to take them to blinds or bring them back to the shore. They also can be used to pick up dead ducks, providing the gun isn't used. But, the law is strict on the use of any kind of power boat for hunting ducks.

There was a time when most hunters had well trained dogs to retrieve their birds. But the growth of cities has slowed down the raising of good duck retrievers. Now it's largely a do-it-yourself job.

Duck hunters have to get up early, as the season opens a half-hour before sunrise. Usually a hunter will want to have his decoys spread out on the water a half-hour earlier than that. Then he crawls into his blind and starts tooting on a duck call.

Frankly, more ducks are frightened off by callers than ever come in. However, many won't believe this.

There are a few hunters who really can talk to the ducks on these wooden callers. Too many of us, don't have the proper ear. We have not been around ducks long enough to know their language or to understand them.

One of the most disconcerting things that can happen is for the man in the next blind to blast away on his duck call when a flock is coming down to your decoys. They take to wing and that's the last you ever see of them.

It may be helpful for a hunter, on a large body of water, to have a call. But only if he uses it in a very limited manner. Just one or two quick quacks will be heard by the flying ducks. If they are interested in the decoys no more calling is necessary. On the other hand, many hunters achieve the same results by whistling or by bark-like a dog. This is a common practice on the coast.

Care of the Gun It must be remembered that duck hunting usually is hard on the gun too. Especially is this true when hunting around salt water. It doesn't do much good to carry a gun onto the water in a soft lined case, then let the gun get wet and put it back into the case. That salt water remains and the gun soon is covered with rust. Perhaps one of the simplest

DOG DAYS—The Russians have sent a shaggy dog aloft in Sputnik II, so what's more natural than a curious pup showing up at the Hayden Planetarium in New York, to get latest information about space satellites. Maybe the mutt wanted to hear the "beeps" from his "pal" up above, as heard in a recording in the Planetarium.

ways is to use one of those plastic bags that your cleaning comes in, nowadays. You can haul your gun onto the water and bring it back in this plastic bag, and then throw the bag away. Then, as soon as you can, wipe the gun off with some good rust inhibitor or oil. In that way you can keep from having a badly pitted gun.

Tell your wife to save these plastic bags for you. You can use them to save your feathers in when you return from a hunt. Then make some nice feather pillows.

Another way to do yourself a good turn is to keep a record of the ducks you kill. Then send the information to the Game & Fish Commission. Also be sure and send in any bands you find on the birds you kill. These bands provide valuable information. They help boys in the commission office select the season dates next year.

Fishing is Good, Too! Just because it is duck season you don't have to neglect fishing. Fact of the matter is that some of the finest strings of fish are caught by duck hunters after the flight has gone on for the day.

If you have your waders along, try some in-the-water fishing. You may find a new thrill there that you have been overlooking.

Hillside Mission

By LIDA BYRNE

In certain dispensations of time on this earth there have been some outstanding events which took place, and it appears that it is about time for another cycle to make its advent. The question for us to ask ourselves is not what we used to be, but what kind of lives are we living now? Are we ready for any eventuality?

The Bible says in Romans 12:2: "And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect will of God." One's mind can be changed very quickly, but we should not wait for a tragedy to take place before attempting to change our mind, for then it could be too late. We do not need to make any public display of our conversion because our Lord said in St. Matthew 6:6: "But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly."

With regard to things to come to pass before the next dispensation, our Lord tells us in St. Luke 21:28: "And when these things begin to come to pass, then look up, and lift up your heads; for your redemption draweth nigh."

NEWS from

YOUR

COUNTY AGRICULTURAL AGENT
TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE
High production, long period
of lay, low death loss and good
feed efficiency are the "bread
and butter" of the present-day
producer. If any of these are
neglected, the result is lower
profit. The modern hen is
bred to lay at a high rate, but
skillful management must be
practiced to gain maximum
profits.

Only healthy pullets should
go into the laying house. Give
them ample ventilation and
fourteen hours of light a day
to increase egg production.
Health is important. If disease
appears, a prompt and reliable
diagnosis should be made. Care-
fully check some birds each
week for external parasites,
and if found begin treatment at
once. At the first signs of can-
nibalism or feather picking, de-
beak the birds. Cull sick or in-
jured birds for four or five
months after birds are in pro-
duction and dispose of dead
ones by completely burning or
using a disposal pit.

Gather eggs at least three
times a day and if possible
store them at 55 degrees F. to
help preserve egg quality. Keep
a good set of records. They
are so important that an oper-
ation may fail without them.
Sanitation must be practiced
in a floor operation. The best
prevention of disease and
parasites is clean and sanitary
living conditions. Use about
three inches of litter on the
floor and give each bird about
three square feet of floor space.
Provide four to six inches of
feeder space and one inch of
water space for each bird.
Furnish one nest for every four
hens and keep nonlayers out
of the flock. Do not mix
young pullets with old hens.

A hen in a cage depends on
the producer for food, water
and proper living conditions.
Remember this and give them
the care they deserve in regard
to sanitation, ventilation, feed,
water and disease and parasite
control.

MILLS COUNTY CHOSEN
FOR FARM STUDY
G. G. Reese, County Agent in
Mills County, received word this
week that Mills County has
been chosen as the location
of an agricultural research pro-
ject. The study will be conduct-
ed under the direction of Dr.
R. L. Skrabanek of the Texas
Agricultural Experiment Sta-
tion at Texas A. & M. College.
The main purpose of the study
will be to determine the effects
of the drouth upon agriculture
in Mills County.

Skrabanek visited with Reese
in September when the study
was in the planning stage. In
his recent letter to Reese he in-
dicated that their plans called
for talking to farmers and
ranchers. They also hope to

follow up on people who have
moved out of agriculture since
1950. By talking with this
group, they hope to determine
the extent to which drouth was
a factor in their getting out of
agriculture.

A definite date for the begin-
ning of the study has not been
set but the researchers indicat-
ed they hope to be in Mills
County before December 1.

According to Dr. Skrabanek
results of the study will con-
tribute a great deal in planning
steps to be taken in future
drouths wherever they might
occur in the nation. County
Agent Reese feels that Mills
County farmers and ranchers
should get a great deal of know-
ing that a study of their situa-
tion will be beneficial to other
farmers and ranchers through-
out the country.

Gentle Reminder
BAY CITY, Tex.—A fond father, picking his son up at the football field, noted he was more tired than usual and asked if he had had a rough day.

The son replied that he had forgotten his basket and that he had to run 1,600 yards as some sort of penalty.

Dad thought this was a good idea and would indelibly impress the youngster.

Well, after running that many yards I'll bet you won't forget that basket again," he said.

"That reminds me, Dad, take me back to the gym quick—I forgot my basket."

Higher Learning
GEORGETOWN, Tex.—Yelled

an upperclassman on the campus of Southwestern University: "Freshman, where's your green beanie?" (All freshmen are required by upperclassmen to wear the skull-type cap.)

Replied freshman Ray Allen Holubec: "I'm a graduate student."

"Oh yeah?" sneered the upperclassman.

Hurriedly replied Holubec, "I'm a graduate of Granger High School."

His cap went on right soon.

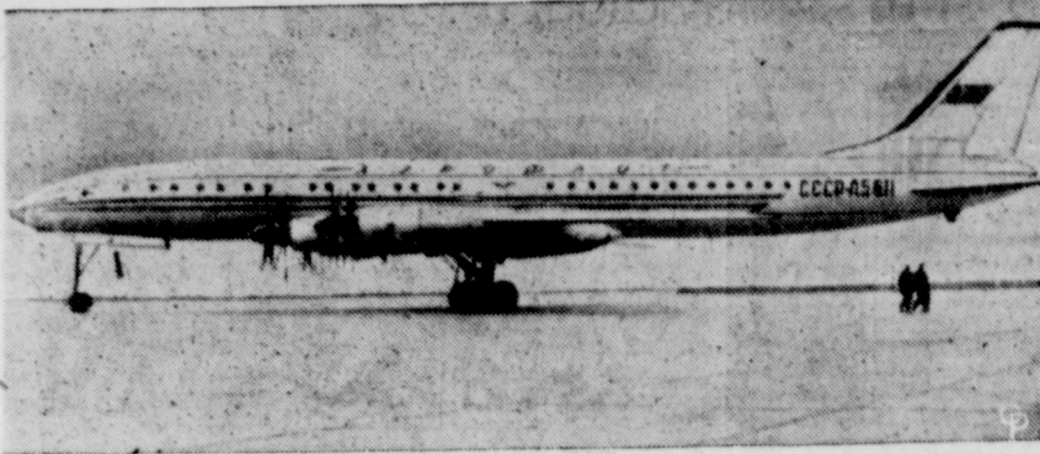

Why Mothers Get Gray
ENNIS, Tex.—"Anything can happen," said Mr. and Mrs. H. A. Docteur of Ennis as they told about their daughter, Barbara, breaking her arm by sitting on it.

Barbara, a seven-year-old second grader, said she was trying to arrange her multi-ruffled petticoat at home when she "just flopped" in a chair with her arm under her.

Wrong Brand
WACO, Tex.—A Baylor coach almost did not get a chance to read the final reports of the game with Villanova.

When Line Coach Harden Cooper stepped out on the front porch he came eye to eye with a skunk between him and his newspaper.

Quickly retreating he called, police, who in turn called Bill Berry. Berry had reported skunk, missing.

WORLD'S 'LARGEST'—Two men at a Moscow airport are dwarfed by the TU-114, which Russia says can carry 129 persons from Moscow to New York in 10 to 12 hours. The plane, described as "the largest and speediest passenger aircraft in the world," is powered by four prop-jet engines twice as powerful as those of similar craft outside Russia. The announcement said the plane has two elevators, a telephone system and a restaurant for 48 persons. (International)

Enough
McGREGOR, Tex.—When Mayor Jim Gilmore turned in his resignation to the city council he set some kind of record for brevity and clarity.

His letter of resignation read, in full: "Five years is enough, I quit."

My Feet Get Itchy
ABILENE, Tex.—Abilene police can usually depend on Mike Gariety to stop in for a visit when things get slow.

Recently he came by, with the assistance of eight Negro boys who found him loose about 9:30 p.m. near Lincoln Junior High. They dropped him at the police station. He was armed with a toy double-barrel shotgun.

Mike is 7, and a regular visitor with the city officers. Every few weeks, police say, his bare feet itch and he goes for an unauthorized stroll. A while back he got on a tricycle and rode across Abilene to a feed mill building, which he promptly climbed.

Another time Police Radio Operator Allen Hatchett encountered Mike. On a borrowed tricycle he had left home and pedaled the vehicle three miles to Municipal Airport. Hatchett saved him the trip back.

After his last trip an officer jokingly told Mike he might have to spank him if he caught him gallivanting around again. The boy studied the policeman a few moments, then replied, "My mother will do that when I get home."

Standleys Visit
Upper Room Chapel

Mr. and Mrs. Ray Standley and Dick Standley of Goldthwaite were among the nearly five thousand people who signed the guest register at the Upper Room Chapel, at Nashville, Tennessee recently. The chapel, opened less than five years ago, draws visitors from every state and many countries.

Focal point of the chapel is the almost life-size wood carving of the Last Supper done by Ernest Pelligrini after the famous painting by Leonardo da Vinci.

Other features of the chapel include a lovely prayer room, an interesting high pulpit, a chancel rail that carries the symbols of the disciples and an elaborately carved gate. Below the chapel are the museum and devotional library.

Odd Fact
When police in Flint, Mich., arrested a man, who drove past highway barricades and through 300 feet of freshly laid concrete, he explained he was in a hurry to get home.

Paul wrote to the Philippians from his prison in Rome. One end of a long chain was fastened to his wrist, while the other end was fastened to that of his guard.

Always in his prayers, Paul wrote the brethren, he thanked God for them and their faithfulness, "for your fellowship in the Gospel from the first day until now."

Paul wrote that the Gospel was being preached because many of the brethren were "much more bold to speak the word without fear," although some tried to stir up strife.

Stand fast in the faith, Paul wrote, and do not be terrified of adversaries, but suffer persecution willingly for Christ's sake.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

The Beliches, the Brileys, and Mrs. Garland Malone and her son, Jay Malone, both of Ysleta, went to Van Horn Saturday to attend the Ernest Malone funeral. We arrived at the home of his sister, Mrs. Clara Bean, about noon. She was really glad to have us come, for until we got there, she was the only relative there. Since Ernest went to McCloskey Hospital about the last of August, she has made about six trips to Temple to see him. During his last week there she was right there with him to do anything for him that she possibly could. She has had to make all decisions and all arrangements by herself.

Ernest was born Feb. 10, 1884 at Greenville, Texas. He departed this life Oct. 31, 1957 at McCloskey Veteran Hospital at Temple, Texas. Most of his early years were spent with his parents in different places in West Texas.

In 1919 at the death of his grandfather Wilmeth, his mother, Mrs. Nellie Malone, inherited a small farm, and Ernest and she came to Ebony to live. She stocked her land with cattle, chickens, and turkeys. Ernest did not farm, but he did the milking, got breakfast, fed and petted the cattle, took the produce to town, and got the wood and water.

He was a unique character. Very tender-hearted. He never wanted to hurt anyone. He pet-

ted all his cattle and treated them like folks. None of them were ever for sale. Not even the steers. He would keep them until his mother would be forced to sell them to keep from overstocking the pasture.

His mother passed away in 1947. He stayed on at the farm until about two years ago, when his health became so bad he could not stay by himself any longer. He was a World War I veteran.

Funeral services were in the Presbyterian church. Bro. Charles Williams, preacher of the Van Horn Church of Christ, was the officiating minister. He was laid to rest in Van Horn's pretty little cemetery, in the same lot with his father and his mother and his youngest brother, James V. Malone, who preceded him by many years.

He is survived by his two sisters, Mrs. Clara Bean of Van Horn and Mrs. Angus Burn of Manila; also two nieces, Miss

Mullin FHA Chapter Plan Year Books

Mullin F.H.A. Chapter has been very busy this week putting the finishing touches on the year books which will be distributed at the November Club Meeting. The Chapter meets once a month and they have planned ten interesting meetings on the following chapter goals: "to promote better family living," and "to un-

derstand our neighbors both at home and abroad."

Homemaking III class assisted by some of the senior girls, did all the typing. Most of the books, which are white with a red design of an F.H.A. girl, were made by Homemaking II Girls.

Nancy Reeves is chairman of the program committee. She is assisted by Eldora Edmondson. Other committees listed in the year book are:

Social: Ann Hohertz, Christal Caldwell, La Rita Morris. Finance: Mary Calder, Betty

Adams, Peggy Patrick, Parky Edmondson.

Scrapbook: Jeannene Driskill, Reta Gayle Pyburn, and Jean Pafford.

Mrs. Roy Wilkins spent Friday in San Angelo with Mr. and Mrs. Bill Harper and daughter, Gay. Mrs. Harper and Gay accompanied her home and Mr. Harper came Saturday for a visit.

Mrs. Dixie Sewell of Brownwood spent the weekend with her sister, Mrs. Edgar McNutt.

Census Bureau States Mills Co., Is Divided Into Three Divisions

In a joint program with the State of Texas and each of its counties, the Bureau of the Census is establishing areas, known as "Census County Divisions," for use in statistical reporting.

Mr. James R. Kirby, a member of the Census Staff, was here from Washington last week to consult with county officials and solicit their advice in regards to the proposed areas for Mills county.

The proposed Census County Divisions should be particularly useful for local administrative purposes. The Census County Divisions are generally larger in area and population than the Justices' or Commissioner's precincts; they have clear-cut boundaries which can be easily identified; and they are intended to remain as permanent areas. For part, they are based on communities which are focal point of each statistical data for the divisions will serve as a with which to measure sphere of influence by such communities. The Census Divisions will be a help for the use of county local newspapers, and civic organizations.

Mr. Kirby, assured the county divisions of the Bureau of the Census not interfere in any of the use of Justices' or Commissioner's precincts or counties.

For Census purposes Mills County has been divided into three Census County Divisions as follows: Goldthwaite, Priddy, Star.

Vets Land Bonds Sale Still Slow

AUSTIN (Spec)—The Veterans' Land Board has now purchased \$114,143,000 worth of Texas farmland with the \$100,000,000 available to it. Land Commissioner Earl Rudder said this week.

Payments from veterans participating in the program are used to buy more land.

Eventually, a \$25,000,000 "profit" will be realized from the first \$100,000,000 in the program, Commissioner Rudder said. This money will be put in a fund which the State Legislature controls.

The land commissioner also noted that the bond market continues to block the sale of some part of the second \$100,000,000 worth of bonds in the program.

No more than three per cent interest may be paid to purchasers of these securities. Bonds on the market are now selling at an average interest of 3.43 per cent.

Mr. and Mrs. Bobby Brown and children, Guy, Greg and Teresa of Fort Stockton were guests of Mr. and Mrs. Luther Ward and Odena Saturday and Sunday.

Misses Pat Thomas and Lavana Benningfield, students of A.C.C., Abilene were guests of the L. V. Benningfields last weekend.

IT'S A SPOOFNIK—With the whole world talking about Russia's newest satellite, Sputnik II, Kathy Migon of Miami, Fla., gets into the act. it out of the fields. Agriculture agents in North Texas reported that farmers there stood to lose millions from ruined cotton.

Some ranchers, according to the U.S. Dept. of Agriculture, have "a very unusual situation—more grass than stock to eat." This time last year those same ranchers were selling off stock at a sacrifice because they had no feed.

Small grain and winter legume prospects are extremely good, says USDA, though dry weather is needed for additional planting.

COTTON ACREAGE TUSSELE—For the third straight year East Texas and West Texas cotton farmers are at odds over acreage allotments.

State and county allotments are to be announced by USDA before Dec. 14 when cotton farmers will vote on whether they want a market quota program for 1958.

West Texas farmers contend

that their area has been penalized. They say an undue portion of the state's cotton acreage is allotted to the older cotton-growing counties of east and central Texas. One group of West Texans went to federal court last year to try to get the allotments changed.

Opposing them is the Old Cotton Belt Association which has announced it will fight new efforts to wrest acreage from its area.

SPEED LAW QUESTIONED—Governor Daniel has been requested to ask the Legislature to re-write the automobile speed limit law.

A recent opinion from the Court of Criminal Appeals called the law "vague and indefinite and therefore invalid." Involved was a conviction for driving 90 miles an hour.

If this law is too shaky for court tests, the Harris County district attorney told the governor in effect, a new and stronger one should be written immediately.

ENGINEERS URGE WATER PLAN—Texas Society of Professional Engineers has added its voice to those urging an expensive, long-range water program.

Importance of water to Texas' future justifies an annual expenditure of \$100,000,000 in the opinion of TSPE's special water study committee.

TSPE's report recommended: (1) adoption of the governor's proposed legislation, (2) salary increases for the Water Board members, (3) planning on the lowest level possible to allow proper development of an overall program, (4) sale of water storage acquired by the state in federal reservoirs to any qualified political sub-division, as quickly as possible.

SCHOOL WORK OKAYED—Improvements have been authorized by the State Board for Hospitals and Special Schools for nine schools and hospitals. Included are state schools at Abilene and Austin, state hospitals at San Antonio, Kerrville and Harlingen, the Austin State School Farm Colony and the Confederate Home for Men. Costs will total \$261,000.

Mrs. Harley Ethridge of Mullin underwent major surgery at Memorial Hospital, Brownwood last Friday. At last report she was doing nicely and hoped to be home soon.

Mr. and Mrs. O. W. Hunn of Rhome and Mrs. Marvin Sargent and son, Gregory of Fort Worth spent the weekend with their mother and grandmother, Mrs. L. B. Ashley.

PARENT PROBLEM

Baby Learns To Drink From A Bottle Or Cup

By GARRY CLEVELAND MYERS, Ph.D.

SUPPOSE there's no problem of milk supply and the mother may want to nurse her baby for a few months to give the baby a good start.

Dr. Spock says: "The sensible time to wean a baby to a bottle is at about 3 months. By this age, the baby's digestive system will have settled down and he will be about over any tendency to colic."

Satisfactory Time
"But if a mother would like to go on nursing until her baby is 4, 5 or 6 months old, or stop at 2 months, those are satisfactory times to wean, too. It is a little safer not to wean the baby in very hot weather."

If the baby won't take the bottle, keep trying to give it to him from time to time, omitting one breast-feeding, and more later, gradually starving him into wanting the bottle.

It's a fine idea to offer the baby a sip of milk from the cup when he is 4 or 5 months and soon after to encourage him to hold the cup himself.

If he refuses the cup, don't force it on him. Keep on trying him gently again and again later. The milk and cup should be the same temperature as his accustomed bottle.

Try Orange Juice
Giving him orange juice from a cup might be a good way to prepare him for taking milk in this way later.

When at 5 or 6 months he wants to grab everything and put it in his mouth, give him an empty cup or glass that easily hold himself and put a few drops of milk in it gradually more later.

It is better, as you can let him hold the cup himself for you to put it to his mouth.

One Swallow
As he begins drinking from a cup he may want to take a swallow at a time. Let him take several gulps in one comes slowly.

Some mothers just offer full of milk as they hold the milk. But he may grab it and spill the milk on himself and be frightened.

There are plastic cups, market, with covers which a small edge-opening for to come out. Some mothers these work well for several or more, even after the child has been taking milk from himself. Slow and easy is your slogan at this time.

It is well to have the gradually disappear the bedtime bottle which last to be given up.

Keep It Longer
While it may be desired the bottle to disappear by the end of the first year, many babies keep the bottle longer, with the doctor's approval.
