Eagles Lose Homecoming Game 46-12; Play At Burnet Friday Night

The hard fighting Eagles lost to the Santa Anna Mountaineers last Friday night by a score of 46-12. Though the Eagles lost by count, they played a much better game than the score indicated as can be seen by the statistics below.

A team which showed as much fight as the Eagles did on Friday night, deserves a much better fate than what happened to them, stated Coach Blansit. In the game against the Mountaineers, Gerry Head scored on an eight yard run through

the center of the line in the first quarter for the first touchdown for the Eagles. In the fourth quarter, Del Barnett scored on a seven yard run around right end for the second TD, try for extra points failed in both attempts.

Just prior to game time, parents of all football boys were honored by being seated on the sidelines and introduced to the audience. Then the Pep Squad leaders led the boys from the dressing room onto the field through a lane formed by members of the Quarterback Club to show that they were backing the Eagles all the way.

HALF-TIME FESTIVITIES AT HOMECOMING GAME

As the whistle blew for the half-time festivities, the Santa Anna band marched onto the field and provided the large crowd of fans with an interesting interval of fine band music and marches. As the Santa Anna band left the field the Goldthwaite Band came on and after several drills, Mrs. Allen Moreland, Band Director, announced that the Football Sweetheart, Miss Jackie McCasland, would be crowned. Amendments Most Important Phase Of General Election Next Tuesday

The nine constitutional amendments on the ballot will prove the most important phase of the general election for voters of Mills County as they go to the polls next Tuesday, November 4, to cast their ballot. Aside from the amendments

that are to be voted on there is not much of a battle shaping up between candidates for the various offices to be filled.

The Democratic party has a full slate of candidates that were nominated in the July primary election and the August run-off primary for all of the offices to be filled. There is no opposition for local offices.

The Republican party has candidates for the offices of Governor, U. S. Senator, Commissioner of Agriculture, and Supreme Court of Texas, place one.

Under the Constitutional party column on the ballot there are candidates listed for the following offices: Lieutenant Governor, Attorney General, U. S. Senator, Commissioner of Agriculture, Land Commissioner, State Treasurer, Railroad Commissioner, Comptroller of Public Accounts and Judge, Court of Criminal Appeals.

In addition to the Democratic, Republican and Constitutional party columns on the ballot there appears a column for Independent party without candidates and a write-in column.

In order to give voters of Mills County some additional information with respect to the amendments that are to be voted on the Eagle presents this week in this issue a brief explanation of the amendments on page two. On another page there appears another article on the amendments which not only tells in short order what the amendments would provide, but, some pros and cons on each of them. Voters are urged to read these presentations and study them before going to the polls Tuesday to cast their ballots.

All Mills County polls will be open from 8 a. m. to 7 p. m., next Tuesday, November 4, for the general election.

Boy Scout Finance Drive Is Over The Top

Scout executive Joe Galbreath, Brownwood, sent the local committee and workers a letter of congratulations on a "job well done."

Drive chairman Yarborough has expressed his appreciation to his advance planning committee, all workers and each individual who contributed to the fund, for their cooperation that helped to make this year's drive most successful.

Inside WASHINGTON MARCH OF EVENTS

FBI Shows Real Interest in Mexican Student Riots | Federal Agency Convinced They Were Inspired by

By HENRY CATHCART

Central Press Association Washington Writer

WASHINGTON—U. S. federal investigative agencies are officially greatly interested in the recent Mexico City student riots that terrorized the Latin American metropolis recently.

On the surface the riots were conducted by university students in protest over an increase in the city's bus fares that didn't affect them directly. It also appeared outwardly as just another instance of student exuberance that got out of hand.

But the FBI is convinced that this was more than just a Latin American version of college party raid.

They have solid information that Red agents from the U. S. seized on the situation and ceded in inflaming student sentiment to point of anarchy. Some Washington sources convinced it was a trial run to see how far students, or any other Latin American group, can be provoked to violent action.

In any event the FBI deprecates the incident as a fine test-tube operation for the Communists who now have a pattern they can follow if time comes when they want to resort to mass revolution.

● THAT WHOPPING DEFICIT—The federal government now announced officially what everyone in Washington knew unofficially—the government will go into the red by a whopping \$10 billion during the 12 months ending June 30, 1958. And that's precious little can be done about it now.

President Eisenhower is trying to enforce the strictest kind of economies, and is hopeful of holding spending down to the now-expected total of nearly \$80 billion.

But the inescapable fact is that more than half of the expected deficit results from the recession and consequent smaller corporation and personal incomes, which in turn means smaller tax payments to the Treasury.

Even if rigid economies are successful, and even if business volume picks up more than now forecast, not much of a dent can be made in the \$12 billion over-spending figure. This is because any improvement from now on will be primarily reflected in the 1959 tax collections rather than those for the current year.

The government expects to be in the red for a couple of more years, but is now hopefully shooting for a balanced budget in 1960. A blow-in in the Far East or elsewhere, of course, could push that happy day so far into the future as to be completely unpredictable.

● MISSILE MADNESS—The dawnning missile age already has wrought many changes in military thinking and planning. Most of them were anticipated and nicely worked out. But one development has taken the Pentagon by surprise, and they have not yet learned to cope with it.

It is the nationwide enthusiasm of the youth of America to join in the experimentation and fun. The kids are firing everything from power-loaded water pipes to complex multi-stage rockets capable of rising thousands of feet in the air.

The fellow who handles the army's liaison with this current crop of budding missileers is Lt. Col. Charles M. Parkin. He has received quite a bit of publicity and the youngsters have singled him out as their favorite source of information and advice from the government.

Parkin told newsmen, "They think nothing, apparently, of tucking into their letters enough solid rocket fuel to render me of no service whatsoever to anybody. It got so bad I inquired of the postal authorities and they assured me it was not only very dangerous, but also illegal."

So, young missile-men of America, Parkin wants a request relayed to you. Confine your letters to paper and pencil. He can do without samples of homemade explosives!

It gets tiresome to search for food, more so when very little is thrown away. This youngster in Pakistan comes from a family which lost this year's harvest in the floods. Rev. Geo. B. McCrary Guest Speaker At Self Culture Club

The Self Culture Club met October 23, 1958 in the Jennie Trent Dew Library with Mrs. J. C. Evans and Mrs. J. H. Saylor hostesses.

Club members enjoyed an unusual program. Three seniors from the Government class taught by Miss Love Gatlin brought a review of the 9 Constitutional Amendments which are to be voted upon in the General Election on November 4, 1958. Aubrey Hillman discussed the first three of these amendments, Benna Reid interpreted the next three proposed changes in the Constitution, and Linda Dennard gave an exposition on the last three of these amendments. The club was grateful to the seniors for the needed information that they received.

The Rev. George B. McCrary, pastor of the First Methodist Church, was guest speaker and his talk was very interesting and enlightening. His subject was "Religion in the News."

M.Y.F. To Sponsor "Trick Or Treat" For CROP, Tonight

When your doorbell rings for Hallow'e'n Trick or Treat be ready with your hand-outs — not candy or doughnuts or apples this year, but gifts of money for CROP (Christian Rural Overseas Program). CROP is the community appeal for Church World Service which distributes American "surplus" food to hungry people in other countries. Through the churches and other agencies CROP gifts and US government surplus food are given free to people who need them most overseas. CROP gifts of food, fiber and cash have amounted to more than 16 million dollars.

Last year the young people of Texas collected \$49,058.67 on their Hallow'e'n project. They hope to make it much more this year. Make your gift a generous one when the young people of the community come to your door.

CROP Trick or Treat in Goldthwaite is sponsored by Youth of the Methodist Church. The committee in charge includes Linda Yarborough, Chairman, Alfred Starks, Charles Sherwood, Dick Stanley, Sammie Lou Rahl and Franklin Great-house.

The young people will meet briefly for instructions Thursday evening, October 30, at 6:30 o'clock. After the collection they will return to the same place to count the results of their canvass. Identification tags are supplied to all who ask for contributions. Leaflets with information about CROP are given to each donor.

Refreshments will be served after the canvass. All the youth and juniors are invited to help in this worthy project.

beauty costs more than health

Figure it out. The average family doctor bill is only \$66 a year. Three \$20 permanents plus a few sessions at the beauty parlor cost a lot more. One reason for medical costs staying so low is modern drugs and prescriptions.

of the river—On the 28th ult.,
Gen. Miramon with about 8,000
men, attacked Vidaurri's army
containing the same number.—
(The Letter:) "As the attack-
ing array advanced, Vidaurri's
gunners were distinctly seen
holding in their hands lighted
port-fires awaiting the orders
of their commanders, but the
army of Mexico steadily ad-
vanced.

When within two yards of
Vidaurri's lines, the order to
'fire' was given, and sixty pieces
of cannon and eight thousand
small arms belched forth their
murderous hail upon the assail-
ants.

In an instant, and before the
troops had time to waver, the
order to 'charge' rang down the
line from the sharp voices of
General Miramon; the order
was obeyed, and before the ar-
tillery men could reload their
pieces, a large portion of them
were lanced at their guns, and
the batteries were taken."

The Weatherford News says
that the grass hoppers are
swarming through the northern
counties, and the farmers have
deferred sowing their wheat,
until they leave.

We see that a gentleman has
been appointed by the Secretary
of the Interior, a special agent,

to inquire into, and report upon
the conduct of Indian Agents in
Texas, and upon all difficulties
between citizens of the State
and reserve Indians.

The San Diego Mail arrived
at San Antonio on the 20th inst.,
making a trip in twenty days.

THE CAMELS HAVE COME
(From the Galveston News)

The ship Thomas Watson
and the bark Lucerne, from the
Canary Islands, have arrived at
our port, consigned to Isaac B.
Williams & Co., having on board
eighty-nine camels, in good or-
der and condition. But two of
the animals were lost on the
passage. Most of them will carry
fifteen hundred pounds weight,
or, in other words, three bales
of cotton or seven barrels of
flour, or three gentlemen with
their usual traveling baggage.
About one-fourth of the ani-
mals are females. They are
private property, having been
imported on account for Mr.
Watson, of Washington City,
under the care of Mr. J. A.
Machado.

The Sherman Patriot says the
stage came through to that
place in 19 days, from Sacra-
mento. This is the second
through stage with passengers.

The Houston Telegraph is
happy over the prospect of
plenty of ice next year. A wealthy
company has been formed,
and their arrangements are on
a scale sufficient to insure an
adequate supply of the highly
important article.

The week has been full for us.
We are having our revival at

Mrs. O. O. Smith, Mrs. W. P.

afternoon.

Mr. and Mrs. W. W. Williams
were at their farm Saturday
afternoon.

Melvin Tiemann of Dallas was
a recent guest of Mr. and Mrs.

Mr. and Mrs. G. C. Price of
Arlington, California are re-
ported to be in our neighbor-

hood.

I visited Mrs. H. P. Harris at
her new home on Fisher Street
Thursday afternoon. She and
Mrs. McCasland were putting
out flowers and working the
flower beds.

Bob and Ruth Reynolds, L. C.

night her brother-in-law and

am baby-sitting with four to-

All this week Chelmont, El
Paso's newest shopping center,
is having its grand opening. We
have especially wanted to see
"The Dancing Waters," foun-
tains that dance to music. Con-
trolled by the man at the organ.

Then the radio talks of the
Dallas Fair. Its crowds and at-
tractions. It makes me home-
sick. So long we lived in Dallas,
and we hardly missed a year at
the Fair.

When the folks got back from
church last night, the front
flower bed was running over
with water. Bill discovered a
break in the pipe. So the water
had to be cut off. The plumbers
worked on it all day today. We
finally got it back on late this
evening. They had to take up
our prettiest pyracantha. We
set it out in the back yard. I'm
hoping it will grow.

This has been "Teacher Ap-
preciation Week." And the P-
TA's have been doing nice

things for the teachers to show
their appreciation. Grace and
five other teachers got their
pictures in the paper. The El
Paso Pilot Club—an organiza-
tion of civic-minded women—
selected them as outstanding
teachers of the El Paso Schools.

And we had rain again Mon-
day, .84 inch, bringing the to-
tal for the year to 16 inches.
Normal is only 6.07 inches.

Clara Malone Bean of Van
Horn visited in Fort Worth last
week. She was a guest of the
Bateman's and of her "Aunt
Louise," Mrs. Jo Wilmeth.

Mrs. Frank Wortman of Tut-

day. She was Thelma Harring-

Harrington of Mullin. She reads
the Ebony News. Her brother,
Barney Harrington, once lived

Barney married one of the Vol-

Pros And Cons On Nine Constitutional Amendments To Be Voted On Tuesday

BY VERN SANFORD
Press Association

is being stirred up by the build-up to the election, Nov. 4. One of them, providing for annual sessions and amendments to the Constitution, is a subject of hot debate.

outlined outline of the amendments and arguments presented for and against them. (Numbers correspond to the order in which amendments will appear on the ballot.)

1. Would provide for annual sessions of the Legislature. Odd-year sessions would be devoted to all matters, as before, and even-year sessions would attend to budgeting and emergency matters. Legislators would receive an annual salary of \$7,500 (instead of \$25 a day for a 120-day session) and an unspecified amount for "expenses of office."

PRO: Supporters say annual sessions will allow more time for consideration of important matters. State financing planning could be done for one year at a time. No more having to

"guesstimate" financial needs for two years ahead. Better pay would be a step toward attracting the best qualified persons to lawmaking. Such influential and hard-working groups as the Texas Junior Chamber of Commerce are pushing this amendment.

CON: Equally outspoken are the opponents who say it would cause needless expense when money is already short. More time in session means more chances to spend money. Proposed salary still is not enough to attract top-notch talent, but "expenses of office" could open the door to "fat-cattling" with public funds. Sen. Dorsey Hardeman of San Angelo is the recognized spokesman for the "antis" which include some other lawmakers and other groups.

2. Would allow counties to extend participation in their retirement, disability and death compensation plans to elective officials of the county and precinct. Present arrangement covers only appointive officials and employees of the county.

PRO: It is a permissive law. No county has to do it unless the voters say so. It would give elective officials the same privilege as appointees, be an attraction to office.

CON: It sets no requirement for length of service. An official might serve one term or less—and receive benefits.

3. Would allow the County Commissioners Court to fill vacancies in the office of County Judge and Justices of the Peace only until next general election. Presently such appointments are for the remainder of the unexpired term, up to four years.

PRO: It would give voters the right to choose their own replacement to office as soon as possible.

CON: Since campaigns are so costly, there would be less incentive to run for the office for only a two-year term.

4. Would provide for automatic resignation of a district, county and precinct official who announces for any other public office more than one year before the end of his term

PRO: It would keep officials on the job rather than out campaigning for some other office.

CON: It would discriminate against district, county and precinct officials since other officials—U. S. senators, state senators, railroad commissioners and others with more than two-year terms—can run for another office in mid-term.

5. Would allow Home Rule cities to extend terms of their elective and appointive officials from two years to four years.

PRO: It is permissive; each city can make its own decision. Two-year terms hardly allow an official time to get a program started before he has to get out and run again.

CON: Elections every two years give voters more control, build up citizen interest in government.

6. Would provide pensions, not to exceed \$80 a month, for retired Texas Rangers and widows of Rangers who retired before the 1958 State Employees Retirement System was established. Money would come from the Confederate Pension Fund.

PRO: Since funds are available, it would put no extra burden on taxpayers. Protective dating clause would prevent marrying for pensions.

CON: It would allow ex-Rangers to receive pensions for as little as two years' service and with no payments on their part, a more generous arrangement than is provided for other state employees.

7. Would allow Legislature to appropriate money for advertising the advantages of Texas in nationally-circulated publications. Use of the name or picture of any living state official would be prohibited, and public funds would have to be matched by private funds.

PRO: Texas is one of only three states without a state program to attract tourists and industry. Proponents say it would pay for itself many times by bringing new money into the state.

CON: This should be handled by the businesses who would benefit through their trade associations, chambers of commerce, etc.

8. Would allow the Legislature to appropriate money to pay for medical care for people who receive old age assistance, aid to the blind and aid to dependent children.

PRO: It would provide help for people whose small monthly checks cannot possibly cover medical emergencies. Since payments would be made only to the vendor (doctor, hospital or what not), the money could be used only for its intended purpose.

CON: It would cost the state an estimated \$9,000,000, with no limit on how much it could drain from the Treasury. It would mean double taxation for cities and counties already providing medical care for their needy.

9. Would allow the Legislature to authorize creation of hospital districts in Amarillo, Wichita County and Jefferson County.

PRO: It is permissive. People in the affected areas could decide what they want to do with it.

CON: Proposed amendment is long (1,000 words), detailed and so complicated that few voters can even understand it. If such provisions are needed, they should be made in statutes rather than by adding to our already-long Constitution.

Texas Education Agency Committee Visits Schools Here

A committee from The Texas Education Agency in Austin spent Tuesday of this week visiting in the Goldthwaite Public Schools, examining the plants and curriculum.

The committee was composed of Charles Bitters and Jake Payne and after looking into all phases of the work, made a very favorable report, according to announcement by Supt. J. T. Jones, with compliments on the elementary reading (The Joplin Plan) progress. They were impressed with the improved science program and the improvement in the health and physical education departments. The improved library was a highlight to them.

Among the things listed still needed were: Better dressing and sanitation facilities in Health and P. E.; better farm shop buildings; a band hall and written school board policies.

Here...
you'll find a Faith
to live by...

It's quiet inside. Quiet with the peace of centuries, for this is God's House.

Within these walls, the worries which loomed so large outside become less fearsome... for the first time perhaps you see them in their true perspective. If this alone were the reward of Faith, it would be enough. But there is more.

Faith is a source of strength, a reservoir of power that helps you meet the needs of every day. By worshiping with your family each week at your church or synagogue, you're giving them a measure of security no amount of money could buy. The Faith to hope... to grow... to live by.

Build a stronger, richer life...
Worship together every week.

THE FANTASTIC STORY of MUSA-SHIYA THE SHIRTMAKER

If the shipping department of a factory had not made an error, the world would never have known of Musa-shiya the Shirtmaker and the most astounding advertising campaign in history would never have been launched.

Following World War I an English textile factory was getting back on a peacetime basis. In error it sent a full five year backorder of shirting material to Musa-shiya, a Japanese shirtmaker who operated a small shop in Honolulu. Business was poor and Musa-shiya was near bankruptcy, when the customs office informed him that certain bales of cloth and a fat bill for duties awaited his pleasure at the port of Honolulu.

When the little shirtmaker realized what had descended upon him, he asked for time and went into the silence for purpose of mental refreshment. Remembering a friend in a big mercantile establishment, he hid himself there and sought counsel. How in the name of the horned prophet of evil was he ever to get rid of all that English shirting? And in the meantime where was he to put it? His little box of a shop wouldn't hold one bale.

"You'll have to advertise," advised his friend. "Leave it to me. I'll have our advertising agents help you out."

This merely compounded the little Japanese shirtmaker's troubles. Advertising to him was an uncharted sea. The advertising agent called on Musa-shiya and suggested \$300 as a modest starter. "Too-o-o much. Maybe I think thirty dollar plenty," said the shirtmaker. He was told that wouldn't even get him in print. The agent explained the costs of various advertisements and finally Musa-shiya agreed to try the plan and what was destined to be the most astounding and far reaching campaign in the history of advertising was launched.

Two column by five inch ads then started appearing regularly in the Saturday Honolulu Star-Bulletin. The ads were written just the way Musa-shiya talked—in colorful pidgen English which is used throughout the Orient. Here is an example of one of Musa-shiya's ads:

"Well here come storek again—but Musa-shiya, the shirtmaker, is able prepare. Wonderful accumulation of baby things in dry goods selling corner of Musa shop. Everything for the baby—especially diaper. Exclusive of storek, which find most easily, many persons not finding little shop of Musa-shiya the shirtmaker in King Street, Makai side, between fish market and river."

Tourists started sending copies of Musa-shiya's ads to their friends in many countries. Soon Musa-shiya was receiving orders from all over the world as well as doing a thriving business in Hawaii.

And that is the story of how a well planned, small advertising campaign made an unknown Japanese shirtmaker not only wealthy but world famous.

Your local newspaper doesn't promise to duplicate this story for its advertisers, but it does take your sales message into the homes of your customers where full and careful consideration is given your suggestions. Who knows, perhaps you too can be a Musa-shiya.

SERVE GREEN AND YELLOW VEGETABLES IN DIFFERENT WAYS

Do you include a yellow or green vegetable in each day's menu plan? Recent surveys show that many Texans do not. Extension foods and nutrition specialists point out that these vegetables are necessary to complete a well-rounded daily diet because they furnish vitamin A.

Fall vegetables offer good choices in green and yellow vegetables. Serve them in different ways to add color, flavor and nutrition to daily meals.

Here are two easy-to-do recipe suggestions:

Sweet Potato Banana Balls
2 pounds sweet potatoes
1 tablespoon butter or margarine
1 teaspoon salt
1/4 teaspoon grated lemon rind
1/4 cup sugar
1 egg, beaten
2 medium bananas
3 cups crushed cornflakes
Cook potatoes until soft. Remove skins and mash. Add seasonings and beaten egg. Mix well. Shape potato mixture into 8 balls, mold around 1/4-inch chunks of banana. Roll in corn flakes. Place on a lightly greased cookie sheet. Bake at 350 degrees F. for 15 minutes. Serves eight.

Diced Rutabagas with Basil Lemon Butter
2 tablespoons butter or margarine
1 tablespoon lemon juice
1 teaspoon salt
1/4 teaspoon crumbled whole basil leaves
3 cups, diced hot rutabagas
Melt butter or margarine, combine with lemon juice, salt, basil and pepper. Pour over hot diced rutabagas. Serves six.

Choose Accessories Carefully
Accessories should accent or compliment a costume—not call or hold attention to themselves.

Choose them to add spice to a simple solid color dress or suit, or to supply the unifying note with a striking print dress or plaid suit.

Plan your accessories carefully before you buy—remembering the color and design of your basic dresses or suits. Avoid bargains with which you have nothing to wear.

Avoid too many different colors in one costume. The eye jumps from one spot to another, and you lose the effect of unity. A general rule for the use of contrasting color, texture or pattern in accessories is never to repeat more than three times—generally two are smarter, for example, shoes, bag and gloves, or shoes, bag and hat, or bag and hat.

Intensity of the color is important. Don't overdo it. The more brilliant or intense the color, the smaller the area it should cover. Unusual colors draw the eye just because they are complex in makeup. Use them with care.

Basic colors in accessories, namely black, brown or navy, are always in good taste and easy to use.

Color in shoes is a fashion to be used with caution. It calls attention to the feet and ankles. Be certain yours can stand the spotlight.

A final suggestion: Look smart but not extreme. Don't overdo. The best dressed women are often the most simply dressed.

RIGHT TRIM ADDS "STYLE FLARE"

The right kind and amount of trimming adds interest and individuality to a costume. Too much can be distracting and confusing.

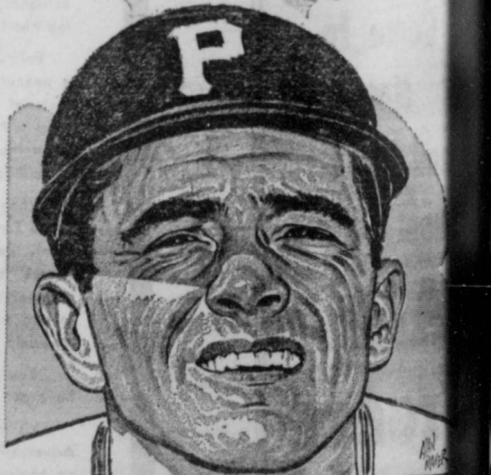

The secret of effectiveness in trimming lies in discriminating use. Self-covered buttons and belts, or those that blend with the garment, can be used without danger of a spotty or over-decorated effect. Self trim of this type becomes part of the design of the garment and gives more leeway in choosing other accessories.

If you plan for contrasted trim, study your figure carefully to determine where to place the emphasis. In other words, "accent the positive." Make certain the trim is appropriate to the garment and the occasion for which it will be worn.

Shop for ideas that are different. Study garments displayed in exclusive dress shops and adapt ideas to your own taste and personality.

A final word: When in doubt, leave that extra trim off. It's better to use too little trim than too much.

CHRIST
CAN CHANGE
THE WORLD

By L. L. HAYS

An animating universal-
I've been informed that
lower animals are more
qualified hearing musical
than that as it may.
I lived in South Texas
the Eighties and Nine-
ties was pastor of the old
church, one Dr. Starett
from Chicago Seminary
to my community seeking
the climate for his afflict-
ion. I had him preach

through a revival at my church.
His pulpit power was more than
common. His stabbng illustra-
tions simplified the Gospel. He
would have been acceptable in
any pulpit. I noted, however,
that when the songbooks were
passed around, he always re-
fused to accept one. On one
occasion, sitting by me as usual,
he refused, saying, "I have no
ear for music." He is the only
person I ever heard hint such
a thing.

We render our best music at
places of public worship. We
sing at the new-made grave to
soothe the spirits of the bereft.
I don't know how military rules
operate now, but when I was
young, soldiers marched to bat-
tle under strains of band music
animating them to shoot down
fellow men on the battlefield.

No one is required to accept
my views. Because music is an-
iminating, we would-be worship-
ers have prolonged the period
of singing in public worship and
lost much, getting away from
old time testimony service. I
have forgotten many good ser-
mons I've heard in the last
sixty years, but some of the
testimony of that far off day
still lives with me.

The world is not waiting to
hear what we have read or what
we think about God, but it
needs to know what we know
about God.

Yours in Christian Bonds,
L. L. HAYS.

Want to increase your catch
of fish?

Here are a few facts gathered
at random from fishermen who
have been at it for a long, long
time.

One angler says that he who
fishes an hour or two immedi-
ately following dawn and just
before dark likely will have bet-
ter luck. Reason given: Fish just
seem to bite a trifle better dur-
ing early morning hours and
late in the afternoon.

Another angler contends that
fish strike better on cloudy days
and just before a storm. Reason:
Fish feed on insects and
insects are more active then.

Fish where fish are more apt
to be found, is the quite logical
advice of fisherman number
three.

He drops these hints:
Crappie usually stay near the
shore in the spring and move
into deeper water, 13 to 15 feet,
in the summer.

Black bass stick close to shore
at moderate depths, usually
three or four feet down. Seldom
are they found below 10 feet.
They lurk about vegetation,
rocks and stumps.

White bass ordinarily are
found near the surface, often
in the middle of a body of wa-
ter. Sometimes, however, they
are caught at depths of 30 or
40 feet. They feed almost ex-
clusively on gizzard shad. Often
their presence is indicated by
schools of shad leaping from
the water in an attempt to es-
cape the hungry fish. (Try a
spinning top-water lure or go
deep with a spoon.)

Catfish bite well at night.
They may be caught at almost
any depth. Usually they are
found in three to 10 feet of
water.

A seasoned angler says, give
the fish the kind of bait to
which it is accustomed. For ex-
ample, he uses a silver lure that
resembles the gizzard shad,
when fishing for white bass.

Another says: If you're fish-
ing in an area where noise pre-
vails, don't worry about the
noise you may make. But, if you
are fishing in a secluded spot—
better be quiet as possible.

This tip from an old-timer:
Four times as many fish will
congregate in an area where
food is distributed regularly, as
compared with normal areas.
So, if you want to improve your
angling average, try feeding
fish on a regular basis.

Some Timely Tips
Long ago we learned that
everyone has at least one good,
original idea. Also we discov-
ered that no one individual
knows all about anything. So,
in our contacts with outdoors
people we're ever on the alert
for tips to relay to our readers.
We'd like to include a few,
right now, for your considera-
tion. Chances are you heard
about some of them so long ago
that you had forgotten them.
If so this will serve to remind
you. Anyway, here they are:

SEA SICKNESS—If you are
afraid of becoming seasick,
take along a bottle of Karo sy-
rup. As soon as you feel the
least bit woozy take a couple
of spoonfuls of the syrup. You'll
be in tip-top shape in just a
few minutes.

Candy with dextrose ingredi-
ents serves the same purpose.
TO FIGHT FIRES — You'll
find a heavy blanket, especially
an old army blanket, mighty
useful in that boat of yours.
Not only will a blanket make a
comfortable seat cushion, but

there are times when it also
provides much needed warmth.
A blanket comes in very handy
in case of cold winds, sudden
rainstorms, or emergency camp-
ing out.

Perhaps most important is its
availability to smother gasoline
flames. A blanket soaked in wa-
ter is a mighty potent weapon
against a fire.

MOTOR CARE — When you
get ready to dock your boat for
a few days, leave your outboard
motors running while you dis-
connect the gas line. Your mot-
ors then will continue to run
until the gas in the carburetor
is burned up. Purpose is to drain
the carburetor completely.

This will help prevent gum
inside the carburetor. Also it
will keep the cylinders from
sticking when you get ready to
start up again.

Another good motor tip,
especially in cold weather, but
a good habit to develop, is to
kick the motor over a few times
after you tilt it. This will re-
move all water from the cylin-
der heads and help prevent
freezing.

MOTOR OIL—Many an out-
board enthusiast learns too late
how all-important oil is to the
motor. Every outboard gas can
says on it, in jumbo type, that
you should add one-half pint of
oil per gallon of gas. Unfortu-
nately the same instructions
also specify one quart of oil for
the six gallon can. It doesn't
take much of a mathematician
to figure that at a half pint
per gallon there should be three
pints or a quart and a half of
oil for every six gallons.

If you think that a quart of
oil is enough, just try it for
six months. Then take your mo-
tor in and have it rebuilt. That's
what has happened to a lot of
good motors, including a couple
belonging to yours truly.

Our advice is to use AT
LEAST a half pint of oil per
gallon of gasoline. Should you
use too much oil the only pos-
sible harm is fouling up some
sparkplugs. They can be re-
placed a lot cheaper than it
costs to overhaul a burned out
motor.

GUN CARE—No equipment
lasts forever. But you can pro-
long life by exercising care and
cleanliness. Especially is this
true of firearms. Give your gun
a thorough going over after ev-
ery day of firing.
A can of Glidden's silicone will
give a nice polish to your gun-
stock and also improve its ap-
pearance tremendously.
