Baptist Brotherhood Meets Monday Night

Mills County Baptist Association Brotherhood will meet at the First Baptist Church, Goldthwaite, Monday night, July 13, at 8 o'clock. Men of the First Baptist Church of Mullin will present the program.

Refreshments will be served.

Mr. and Mrs. Jack Hayes, Mrs. Lee Robinson and Miss Sylvia Poer of Houston, Mrs. Inez Poer, Miss Diane Poer and Lt. James Coleman of San Antonio and Mr. and Mrs. Danny Phillips of Lubbock were weekend visitors of Mr. and Mrs. Roy Letbetter.

From the Mills County ASC office today comes a reminder that the annual referendum on wheat marketing quotas is only a few weeks off. On Thursday, July 23, wheat growers in Texas and 38 other commercial wheat States will go to polling places in their local communities to decide on the program under which they will produce and market the 1960 wheat crop.

At the beginning of June, the Secretary of Agriculture as required by law proclaimed marketing quotas on the 1960 crop of wheat and announced a minimum national acreage allotment. Next step is for farmers to adopt or reject the quota program.

Every wheat farmer who plans to produce more than 15 acres of wheat in 1960 is eligible to vote in the referendum. At his polling place, the grower receives a ballot on which he votes for or against marketing quotas.

If two-thirds or more of those voting say yes, then quotas stay in effect. This means that the farmer who complies with his wheat allotment can market all his wheat without restriction and is eligible for price support at least 75 per cent of parity. Any farmer can produce 15 acres of wheat without penalty. The farmer who exceeds his allotment and produces excess wheat is subject to a marketing penalty.

On the other hand, if more than one-third of the farmers voting favor no quotas, they do not take effect. That means no penalties or marketing restrictions, with price support at a reduced rate to those who comply with allotments.

If wheat quotas are approved for 1960, it will be the seventh successive year they have been used. That referendum date again — July 23rd.

Council Talks About Water Problem

Street Paving Makes Progress

City Manager W. C. Barnett reported to the city council Monday night that street paving is progressing satisfactorily.

He announced that one block had been paved on West Fifth Street and that Parker Street from Hannah Valley Road to Little Street has been paved during the past week. The Parker Street project covers three blocks.

Plans are progressing as property owners are getting organized for paving on Reynolds Street, West Sixth Street and other areas.

Residents whose streets are being paved are well pleased with the appearance and improvements.

Members of the council expressed themselves as well pleased with the street paving program to date.

Four city employees who have been assigned additional duties since street paving has been undertaken were granted a salary increase on recommendation of City Manager Barnett. These employees are D. W. Arnold, Fred Laughlin, Jimmy Huffman and Jack Huffman.

Quarterly treasurer's report and monthly operating statement for the various departments were presented to the council.

Lifesaving And Water Safety Course To Begin Monday

A Senior Lifesaving and Water Safety Course will be started Monday at the Municipal Swimming Pool, Howard B. Campbell, who is a qualified Red Cross instructor, will be in charge of the 17 hour course of instruction for all those who qualify.

Try-outs and registration is scheduled for Monday evening at 8 o'clock.

Those desiring to take the course and want additional information should contact Mr. Campbell at Campbell Gas Company.

Goldthwaite Lions Named To Offices In District Lionism

CHARLES CONRADT

HAROLD YARBOROUGH

Two members of the Goldthwaite Lions Club have been named to office in district Lionism it was announced this week.

Charles Conradt, retiring president of the Goldthwaite Club has been named Deputy District Governor and Harold Yarborough zone chairman of Zone A in district 2A-1.

Conradt's district is comprised of nine clubs in that many towns and he will have two zone chairmen serving under him.

Yarborough is zone chairman over Goldthwaite, San Saba, Brady, Rochelle and Melvin.

Leon H. Lee, Rochelle, is zone chairman for zone B made up of clubs in Mason, Llano, London and Junction.

L. J. Ward was re-elected as secretary-treasurer for his fourth consecutive term.

City council meeting in regular session Monday night spent considerable time discussing the problems of providing or developing a more adequate water supply for the city of Goldthwaite.

N. E. Trostle, engineer for Brown County Water Improvement District, met with the council for an informal discussion of the problem. He was invited to visit with the council by Mayor Y. B. Johnson and City Utilities Manager W. C. Barnett.

Johnson and Barnett had previously met with some officials of the Brown County Water District to discuss the city's need for more water.

The possibility of buying water from the Brown County district was discussed and Mr. Trostle informed the council that that organization is willing and able to sell Goldthwaite water that is already filtered and ready for distribution. Of course there is the matter of getting the water to Goldthwaite.

Trostle mentioned to the council that in his opinion the matter of a closer source of supply, such as creeks or lakes, should not be overlooked in any study or survey that might be undertaken.

The city water supply at present comes from five Trinity sand wells. These wells are from 350 to 500 feet deep and have produced in past tests at their peak approximately 500,000 gal-

lons per day.

During certain periods of the year, or as rain conditions are favorable, this will supply the demand.

However, there are times when the demand is twice as much as the wells can supply. That's when the water problem becomes serious and residents are required to curtail the use of water to insure sufficient supply for domestic use.

The wells are not large producers, mostly ranging 40 to 50 gallons per minute. If the city gets a 100 gallon well it is very fortunate. A 500 foot well with equipment ready to be tied into the city water system costs from \$15,000 to \$20,000.

So the council has come to the conclusion that it needs to investigate a feasible supply other than wells.

This brings up for consideration getting water from the Colorado River, the Bayou, creeks or lakes or purchasing water from the Brownwood Water District.

If water is secured from the river, or a lake it would require settling basins, filtration plant with necessary pumping or lift stations and pipe lines to the city.

If water is purchased from the Brownwood Water District the only matter involved is approximately 35 miles of pipe line to get it here.

Goldthwaite High School Band To Open Season With New Uniforms

An order for band uniforms consisting of forty regular suits, four twirler uniforms and a Drum Major uniform has been placed by Goldthwaite School with McDowell Brothers, Band Uniform Specialists, Oklahoma City. New uniforms are to be delivered in the latter part of August ready for the opening game of the football season.

Obtaining the uniforms is a long sought accomplishment as the suits now worn are more than twelve years old. The purchase was made by a request from Supt. Jones and Band Director Moreland. A loan of approximately \$2,600.00 is obtained from Mills County State Bank and will be repaid through the creation of a Special Band Uniform Rental Fund.

Rules and regulations will be placed in effect that will retire

the indebtedness and keep the suits cleaned twice annually.

A moth proof closet is to be constructed in which the uniforms will be kept and they will be issued on each occasion for their use. The semester rental basis was set by the school board at \$7.00 per semester on a non-refundable basis.

Looks help make a band better but nothing will help quite as much as encouragement to the school officials, band director and school board.

The donations of sizeable nature will be refunded to those people making such contributions last fall and winter in a drive spearheaded by Supt. Jones, Eagle publisher, Vic E. Koleber, secretary of Band Booster Club, A. L. Oliver, band director Moreland and many others. If you contributed, ask for a return immediately.

Council Approves Uniform Curb, Gutter Ordinance

The city council meeting in regular session Monday night approved an ordinance setting plans and specifications for uniform curb and gutter for the city of Goldthwaite.

The matter had been under consideration for some time and City Manager W. C. Barnett and the committee had been instructed to prepare this ordinance.

With approving this ordinance the council voted to purchase curb and gutter forms to be leased to contractors and property owners to construct curb and gutter so that all will be built according to the same specifications.

Forms to be purchased include 100 feet of straight-away curb and gutter forms for \$824.

Truett Auldridge, local contractor, is the new president of the Goldthwaite Lions Club.

He was installed with other newly elected officers at the regular meeting of the club Tuesday night at the Legion Hall. Installing officer was Ray Duren.

Other officers installed for the coming year are: 1st vice-

Registered Goat Breeders Make Plans For Annual Sale

On July 1st a meeting was held in Goldthwaite, by 30 members of the Central Texas Registered Goat Breeders Association, to work out plans for their 3rd annual Registered Buck and Doe sale.

These breeders decided that the Mills and adjoining counties 3rd Annual Billy and Doe Sale would be held on August 29th. This sale will be held at the Mills County Livestock Show Barns in Goldthwaite.

Members of the association are lining up 155 registered billies and 40 registered Does for this sale. Last year the association had the highest average sale, for Does in the state with the Billies having the 2nd highest average in the state.

There are 40 members of this association with 35 members

consigning to the sale. The president is V. Z. Cornelius; Chairman of sales committee is Bob Kerby and the sec-treasurer is Dr. T. C. Graves; Luther Jernigan is in charge of the grounds and a clean up date will be announced at the time the goats are sifted for the sale.

The sifting of the sale goats will be on August 1, at the Mills County Show Barns. Each breeder's goats will be sifted and only top goats will be selected for the sale. There is no limit on the number of goats that any breeder can sell in the

sale, if his goats are selected at the sifting. In this way the best quality goats can be obtained for this annual sale.

Mr. Cornelius stated that the quality and size of the goats, in this year's sale, would be increased. This will be due in part to better condition of the goats and a large number of goats to select from.

The auctioneers will be Malcolm Jernigan and Lem Jones, assisted by Pete Gulley.

Dinner will also be served on the grounds during the day of the sale.

Many leading goat breeders will be consignors to this sale which will provide an excellent opportunity for goat producers to purchase needed breeding replacements that are needed for their herds.

Mr. and Mrs. Bill Harper and children of San Angelo spent the weekend with her parents, Mr. and Mrs. Roy Wilkins and Charles.

Linda Reports From Colorado Springs

(Ed. Note:— Linda Yarborough and Judinell Benningfield are representing Goldthwaite at the Senior Girl Scout Roundup

in Colorado Springs. Linda sent the following report on their activities to The Eagle in the form of a letter to her parents, Mr. and Mrs. Harold Yarborough.)

By LINDA YARBOROUGH

Colorado Springs — Friday Night, July 3. After leaving Dallas we went around and met all the girls we could. We all met in one car and sang and talked together. Judy and I got on the very back seat of the car and guess what?, the back seats didn't lay back and all the others were filled so guess who sat up all night. We finally got to sleep anyway.

We got into Colorado three hours behind schedule. When we got there the press and Air Force Band met us. There were several men who were branding the girls on the trailer hitch too. They cut brands out of iron on tape and warmed their branding irons and it was on. That was real cute. Then it was time to eat and around 7:30. They had a long cafeteria style table and fed us at the station.

We were one of the first patrols through so we all went to buses and had a police escort out of town. Then we came to the site, it is about 10 or 12 miles out of town.

We were the first patrol to get set up. It took us all one day to check in and be checked by the nurses, find our patrol equipment and so on. Then it was lunch time. We went for our groceries and ate. All afternoon we set up camp until dark and ate supper and were in bed at 8:30 here, 9:30 Texas time. We got to sleep the next morning as long as we wanted to since camp didn't officially open until the third. Today is the third and all the foreign countries are here. They have been in Colorado Springs, learning to talk, eat and to live like we do. Pretty tough to learn in four days, right. All the girls I have talked to from foreign countries can talk English fairly good. It is hard to understand at first but you get used to it.

Tonight we had Area Camp gathering, welcoming us to camp and Alaska presented the new flag to the president of Girl Scouts of the United States. Hawaii carried in a large silver star and did a hula dance and presented their star and said they also wanted a star on the U. S. flag. Then we sang and it was ever beautiful with 10,000 girls singing. I've never heard anything more beautiful in my whole life. Then we came back to camp. I called you and then we had our snacks. The first night our snacks were watermelons. Brother, they really feed you up here. In the trading post they have candy, mints and gum and there are Coke and 7-Up machines all over the place.

In each section and camp we have troops which 4 patrols make up a troop. In ours there is Ohio, Massachusetts, Michigan and ours, of course. In our section camp there are over 460 girls. Our troop leader is from Canada and is real cute, we call her "Fergi" but her real name is Ruth Ferguson and our assistant troop leader is from Buffalo, New York and we call her "Salty," her real name is Ann Salter. She is also our song leader and is real young. "They are both a ball."

As you can tell, I am having loads of fun. I am writing on my bed roll by flash light and I hope you can read it. Our swapping is really fun, and we have all sorts of things pinned on our hats, you should see it, I bet it weighs 5 pounds, at least.

Judinell didn't have to stay at the First Aid Station. She told some tall Texas tales and they let her out.

Well, must go now. There isn't anything else to tell except that it is raining and tomorrow will be a big day! for Alaska and California.

I wish everyone could have a chance to come to National camp like this one. It is simply marvelous.

Webb; Miss Norma Lee Robertson gave 14 used books; Mrs. Molly Dinklage gave three copies of Gene Starton Porter's books; Kenneth Shaw and Mrs. Raymond Summy also gave books.

Meeting adjourned to meet again in September at the Library at the call of the chairman.

Those present were Judge Wm. G. Yarborough, Mrs. Raymond Little, Mrs. C. A. Keeler, Mrs. Lee Roy Stacy; Mrs. Walter Doggett and W. C. Barnett.

MRS. DA VAUGHAN TREADWAY

Lana Archer, DaVaughn Treadway Exchange Vows In Church Ceremony

The First Baptist Church of Bentonville, Arkansas was the scene of the marriage of Miss Lana Archer and DaVaughn Treadway at 3 o'clock Sunday afternoon, June 21.

The bride is the daughter of Mr. and Mrs. Leonard Archer of Bentonville, Arkansas and the granddaughter of Mrs. M. E. Archer and J. F. Dennis of Goldthwaite. The bridegroom is the son of Mr. and Mrs. Wilbur Treadway, also of Bentonville, Arkansas.

Rev. Alton Butler, pastor of the church, read the double ring ceremony, under an arch decorated with white gladioli and greenery. Two pairs of seven branched candelabra and baskets of white gladioli and asters were arranged on either side of the arch.

A program of traditional wedding music was presented by Miss Araminta Richardson, organist, and Douna Cunningham of Rogers, soloist.

The bride, given in marriage by her father, wore a dress of Chantilly lace and silk organza styled with Sabrina neckline and long sleeves forming points over the hands. The skirt flowed to a chapel train. Her fingertip veil of silk illusion was attached to a tiara of seed pearls and sequins. The bride's bouquet was of white carnations centered with a white orchid.

Miss Linda Archer, twin sister of the bride, of Miami, Florida, was maid of honor. Bridesmaids were Mrs. Ralph Griggs of Fayetteville, cousin of the bride, Mrs. Gene Grace and Mrs. Michael Rizzuti, both of Rogers, Arkansas. They wore identical sheath style dresses of

re-embroidered blue lace with chiffon cummerbunds. Their headresses were Dior bows with short veil and each carried a nosegay of white carnations with blue ribbons.

Bobby Williams, brother-in-law of the bridegroom, was best man, Michael Rizzuti and Eddie Hammontree lighted candles and ushered and Gene Grace also served as an usher. Miss Margaret Holderby was in charge of the guest book.

Immediately following the ceremony a reception was held in the dining room of the church.

After a short wedding trip the couple will be at home at Vallejo, California.

The bride graduated from Bentonville High School in 1957 and attended Draughon's Business College at Springfield, Missouri and Tulsa, Oklahoma. She has been employed at the Daisy Manufacturing Co. of Rogers.

The bridegroom graduated from Bentonville High School and attended the University of Arkansas before entering service in the United States Navy.

In each section and camp we

ENGAGEMENT ANNOUNCED—Mr. and Mrs. Clay Bunn of Route 2, Sweetwater, announce the engagement and approaching marriage of their daughter, Miss Laurretta Kathryn Bunn, to Ira Odell Adams, son of Mr. and Mrs. Emory Adams of Route 3, Goldthwaite.

By CLEMENTINE WILMETH BRILEY

The Dwyer-Brileys visited Mr. and Mrs. Alvin Hanna Sunday after church, June 28. And what a delightful visit. The Hannas are tip-top farmers. Their deep freeze is full of good things of their own raising. Mrs. Hanna served us delicious home grown steak. And oh, that pecan pie! It was just out of this world. After dinner they entertained us showing us relics they had rescued from what seems to have been Camp Colorado, first established near our present Ebony in 1856. There were square nails, pieces of dishes, pieces of horseshoes, balls and caps, a half dime, dated 1858, and many other things. They were found on the Bolinger place near the Colorado, and were unearthed by the big flood of 1936. On our way home we stopped by to see the Frank Crowders. Their house has been sheetrocked and painted on the inside. Mrs. Crowder has brought some beautiful pieces of furniture, and it is now a very pretty home. Frank also has a half dime from Camp Colorado, and another coin dated 1853. Both he and Mrs. Hanna have interesting collections of Indian arrowheads.

The Mitchells, O. R., Ruth, Robert, Jill, and Jan arrived back at the Briley home Monday evening, June 29. They had not only visited the Beliches in El Paso, but had also gone on to Colorado and had been on top of Pike's Peak. They said it was wonderful. They came back by Lamesa to spend the night with the Don Vinzants. Since Don is in school in Fort Worth, they brought Carol Jean and the interesting little great-grandson, Larry, to spend the week with us.

Mr. and Mrs. Cecil Egger were happy to have their daughter, Ynell and her baby spend the Fourth with them. Joe Reeves of Lubbock, who

is having six weeks of training at Camp Hood, spent the weekend of the Fourth with his parents, Mr. and Mrs. Hubert

Reeves. Friday evening Don Vinzant arrived from Fort Worth to spend the weekend with us. Shortly afterward here came the Beliches, Bill, Grace, Billy and Johnny. They had driven all that long distance from El Paso and had arrived here well before sundown. All we lacked now to make our family circle complete were the Sheffields — Tommy, Marilyn, and Becky — but they didn't come.

The Wilmeth family again met us in reunion at the home of Mrs. Edna Dwyer, Saturday, July 4. The wide veranda's were beautifully enclosed with shrubs and flowers. The spacious living room was luxuriant with a newly installed wall-to-wall carpet. The dining room gleamed with a handsome new china closet. Mrs. Dwyer's daughter, Mrs. Austin Cawyer, of Victoria, arrived the Sunday before to help with all preparation. Austin Cawyer of Victoria, Mr. and Mrs. Lawrence Wilmeth of Sealy, and Mr. and Mrs. Harold Everett and Shelly and Sherry of Abilene arrived Friday evening. The Fourth dawned bright and beautiful. The Briley family furnished 14 guests (all previous named). Mr. and Mrs. Jim Wilmeth came from Brownwood. Dr. Marie Wilmeth of Abilene, who is attending a workshop at Denton this week, came

with Mr. and Mrs. J. F. Bateman and Joe of Fort Worth. Lucy Gale Wilmeth, daughter of Mr. and Mrs. Ralph Wilmeth of Fort Stockton, who is in nurse's training in Parkland Hospital at Dallas, also came with the Batemans. After dinner there were the usual "42" games among the men, and plenty of chatter among the women. The children and all who like to go bathing in the river found it just right that afternoon. About the middle of the afternoon here came Thelma Stanley, daughter of the late Charles Wilmeth. She had driven by herself from McKinney. She said she got lost. She said she came almost to Ebony, but decided she was on the wrong road, so she went back to the Jim Wilmeth house in Brownwood and went in and

took a nap. Mrs. Wilmeth's grandson happened to call the phone. When she told her predicament, he offered to go with her and show her the way. We were delighted to see her, and her lively chatter up for lost time.

There was a good congregation at Oakland for the Sunday. Mr. and Mrs. C. Whittenburg and Clint Jack, Mr. and Mrs. Tommy son and boys of Wichita, Mr. and Mrs. Burgess of book. Also a couple of kind Burgesses. All these besides ones who are there every day. Don Vinzant preached us.

Mrs. Willie Belle Kirby July 4th with her son, Mr. Mrs. Hermon Anderson Brad at Evant.

INDIAN MURDERS
As we were going to print we received a letter from Burnet Correspondent, from whom we condense the following:—On the 6th a party of Indians, after killing three men in the Davis settlement, Burnet County, crossed over the Burnet, where they murdered and scalped an old citizen Root Adams; they then crossed the Colorado, near the works. A party of four men here followed them, and coming up with them, one man was killed in a hand-to-hand fight with Mr. Gid Gow. We will publish the letter in our next issue."—Southern Intelligencer.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Texas—About the only cheerful remark heard around Texas Legislative halls of late is, "Think how bad it would be if it weren't air conditioned!"

(House and Senate chambers are cooled this year for the first time, though most of the rest of the Capitol is not as yet.)

Many remember summer sessions in pre-air conditioned days. Scorching extraordinary was the one in 1949 which ran to July 6, longest regular session in Texas history.

Lawmakers and reporters complained that the huge granite blocks in the Capitol walls collected heat like a Dutch oven. Coat and tie rules in the legislative chambers added to the misery.

Some observers said that the 1949 Legislature (which also had a tax problem) didn't really quit. It just sort of melted down. A special session was called the next winter to clear up money problems.

For all its comforts, air conditioning hasn't taken the sweat out of passing a tax bill.

Both House and Senate have

passed tax bills, and a new conference committee was put to work to try to piece them together. But the floor action preceding passage gave no indication that any of the conflicting groups is ready to give an inch.

House membership is split three ways into (1) those who don't want the majority of new taxes to fall on business, (2) those who don't want a majority to be sales taxes and (3) those who apparently don't want any new taxes.

Each of the first two groups has been able to defeat the other's proposals with the help of the "no-taxers." Hence, despite public impatience and their own wariness, lawmakers have been ensnared in a one-step-forward-and-two-backward pattern.

Something Old, Something New—Given to the conference committee on taxes were a new bob-tailed bill from the House and an old, nearly full-size bill from the Senate.

House bill would raise about \$106,000,000 over two years — about \$70,000,000 less than is needed. Senate bill, designed to raise about \$160,000,000, is the same one passed by the Senate in the first special session. It contains more sales taxes than business taxes which the House refused to accept on the last round.

Cut from the House bill before passage were the \$50 deductible sales tax (a 2 per cent levy on costs over \$50) and the natural gas severance beneficiary tax. Both fell by the wayside in one of the "if you kill my tax, I'll kill yours" sessions.

GANG VIOLENCE VICTIM—A policeman inspects the body of Raul Baruchi, 17, sprawled in an apartment building hallway in East Harlem, New York, as teenage gang warfare exploded again in Manhattan. He had been shot behind the left ear. Shortly after, another youth was shot in the leg and another boy was gunned down on the Lower East Side of New York.

Remaining in the bill were levies on which the House has been able to agree all along—on cigarettes, liquor, auto sales and corporation franchises.

"New wrinkles" added were (1) a licensing fee for private clubs that sell liquor and a 10 per cent tax on mixing drinks and (2) a 1.5 per cent sales tax on boats, motors and airplanes.

Bill also contains a provision to cut the sulphur tax from \$1.40 to \$1.03 per ton.

House conferees, none of whom served on the committee last session, are Reps. Menton J. Murray of Harlingen, Frates Seeligson of San Antonio, Wesley Roberts of Lamesa, Joe Ed Winfree of Houston and John Allen of Longview.

Senate conferees include four who served before, Sens. Rudolph Wehnert, Dorsey Hardeman, Bruce Reagan and Jimmy Phillips, plus one new member,

Sen. Wardlow Lane.

Senate Okays Beach Bill—After considerable haggling and several close votes, the Senate passed a bill to guarantee public access to public beaches.

Mustang and Padre Islands are exempted from the provisions of the bill. Sen. Bruce Reagan of Corpus Christi, who sponsored the amendment, said that the islands were being developed with a systematic plan for public parks, beaches and recreation areas.

Opponents to the exemption said it would allow at least one-third of the beaches on the islands to be under private control.

As passed by the Senate, the bill does not try to define boundary between state and private land, but simply affirms the public's right to come and go from state beaches by way of roads.

Fee Bill Added To Call—A bill to let state colleges charge a \$30 a semester activity fee got a new lease on life when Gov. Price Daniel submitted it to the Legislature.

Bill had been introduced twice, but flizzed out in the Senate when Sen. Henry Gonzalez challenged it on two points: (1) it was not "within the governor's call" for the session and (2) in order to be considered "within the call," it would have to be regarded as a revenue-raising measure which must originate in the House.

Governor Daniel's action changed this, and the Senate went back to work on the bill. A similar bill was passed by the House last session.

Land Sale Approved—House passed a bill that would allow the state to sell a tract of about 40 acres just north of the State Hospital in Austin.

State Hospital Board has declared the system does not need the land. Austin city officials would like to see it privately owned so property taxes could be collected on it. Location is such that it could be used for a shopping center.

Bill sets the minimum price at \$1,500,000.

The Goldthwaite Eagle

Every once in awhile a newspaper reporter or columnist or a press association manager receives a letter from a Linotype operator who works on some newspaper that publishes his material.

For you who do not know the duties of a Linotype operator — he is a typesetter who sits at a huge machine and types out on a keyboard, much like the typewriter, a message which has been sent him by a reporter. This message is converted by the machine into metallic type on what are known as slugs, made from molten metal — a line at a time. Hence the name Linotype.

Every so often, a Linotype operator will dash off a note on one of these machines to a

friend. Then all he has to do is pull a proof of the type and mail the proof to the person. We like to get these letters because they are different and so individually manufactured.

We have such a letter from Floyd McKnight, Linotypist on the Bishop (Tex.) News. Here is what he says: "We use your column in our newspaper every week. Since I run it out on the Linotype each week and just happen to be one of those habitual fishermen, I'd like to tell you what has been happening up at Lake Corpus Christi on the Nueces River the past few weeks.

"This writer is not a fresh water fisherman. All my fishing is in salt water in the bays and the surf.

"However, I took my family to the lake last weekend for a camping trip and saw something I did not believe possible. Men, women and Negro kids were catching bass in every slough I drove by. They told me the fish had been hitting that way for several weeks.

"Believe it or not, they were catching most of the bass on my favorite salt water spoon — the No. 5 Tony Accetta. Occasionally there was a good catch made on some kind of a hump-backed wiggler.

"I saw a ten-year-old boy catch seven bass in eight casts with a Tony.

"Guess I will have to take my salt water outfit and go up this weekend for a try at it."

Thank you, Floyd, for the letter.

I'd like to answer the same way . . . in type . . . as I'd like to mention something that is developing.

First, salt water fishermen and inland lake fishermen are learning that fish will hit all types of lures. A lure that is good for salt water fishing often is equally as successful in still water fishing, and vice versa. So it looks like the rig you already have will serve well in

Lions Elect International President

Clarence L. Sturm of Manawa, Wisconsin, was elected International President of Lions International at the Association's 42nd Annual Convention in New York City. Lions International, with 590,000 members in 92 countries or regions, is the world's largest service club organization. Lions International is best known for its many youth programs, community service projects, sight conservation activities and aid to the blind. Last year Lions Clubs around the globe completed more than 180,000 individual worthwhile community service projects.

both instances.

Second, I have been told that Lake Corpus Christi really should not be fished this year as the fish still are small.

Third, I am also told that if Lake Corpus Christi is not over-fished this year, it should be as "hot as Falcon" next year. And Falcon, as you know, has gained the reputation of being one of the top fishing spots in Texas this year.

Anyway, best of luck to you — and may you take them large and often.

SKINNING THE CATFISH

That old saying that there is more than one way to skin a cat must have originated with an old-time trotline fisherman.

Actually, there are several ways to do the job. However, here's one sure way that certainly makes for more tasty meals.

First, hang the catfish while still on the stringer, from a tree limb or from a nail driven into the tree or a post.

Next, cut off the tail, just above the tail fin, so that the fish will bleed freely. Then leave the fish hanging until all blood drains from the body. This should take but a few minutes.

Your next operation is to cut through the skin, around the head and below the gills. Then take a pair of sharp-nosed pliers, grab the skin, and pull downward, so as to peel the skin off the fish, all around its body.

After all the skin has been removed, your next operation is to gut the fish. In performing this operation, you'll find that all blood has drained from the fish's insides, and the cleaning problem is not nearly so messy.

Removal of the blood from the body, before cleaning the fish, seems to add a much better flavor to the fish.

To kill a cat, most fishermen take a sharp-pointed icepick and thrust it through the soft part of the head, above and between the eyes, into the brain. This kills the cat quickly.

Others prefer to drive a large nail through the fish's head and into a tree or pole. This latter procedure not only kills the cat quickly, but it also provides a firm anchoring base for the skinning operation, as well as the gutting process.

After gutting the fish, cut completely through the meat, under the gills and around the head. Then sever the head with a sharp snap of the wrist or by means of a meat cleaver or a sharp butcher knife.

Final operation before washing thoroughly is to remove the fins so that all that is left of the fish is meat and backbone.

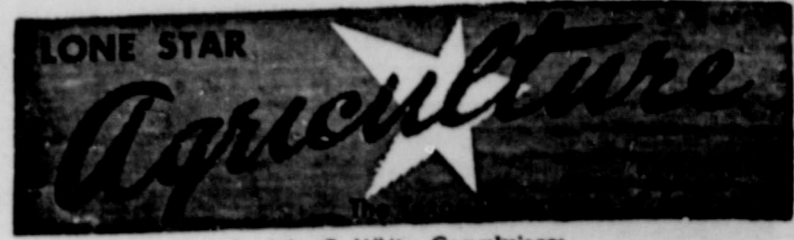

Some fishermen — as a matter of precaution against finning — either break or clip the sharp points off of each of the fins. This eliminates the possibility of injury to the fisherman, from a wildly flipping catfish — while boating, stringing, or cleaning.

We've seen some pretty careless fishermen get badly finned while cleaning a catfish they already had killed. And we've seen plenty more who were finned while the fish was flopping around in the bottom of the boat.

I know one fisherman who clips the sharp points off the ends of the fins of every catfish he catches on his trotline — even before taking the fish off the line.

Furthermore, we've seen some even more careful souls who don't even make an effort to remove the hook from a well-caught cat until they have it on the cleaning block. This means cutting the steagon, after the fish is netted, but it also brings greater assurance that there will be no personal injury from that member of the finny tribe.

Mrs. Ralph Massey and son, Jimmy, of Teague spent several days last week with her parents, Mr. and Mrs. Vic E. Koleber. She was joined by her husband for the holiday weekend and they also visited his parents, Mr. and Mrs. Jess Massey and other relatives.

Cultivating Cotton By Fire Improves Weed Control

Commercial weed-burning equipment now available may prove to be a great boon to Texas cotton farmers.

Extensive field tests under guidance of U. S. Department of Agriculture research engineers indicate that careful adjustment and operation of liquefied petroleum gas burners used in flame cultivation of cotton can result in more efficient weed control. The tests showed that most of the several such burners currently available provide satisfactory results.

Flame cultivation, often used as a supplement to mechanical and chemical cultivation, consists of applying controlled fire along the sides of rows in a way that does not injure the crop but kills weeds before they become firmly established. Tractor-drawn flame equipment normally treats each side of several rows at one time.

Safe and effective use of the flame treatment depends largely on accompanying use of other equipment to carefully prevent formation of ridges, clods and depressions between cotton rows. Such irregularities — as well as high wind — can deflect the cultivating flame and possibly cause serious damage to cotton plants, particularly those shorter than 10 inches. For this reason, flaming would probably not be practical in the North Central-West Texas "wind belt" where the cultivating season is almost always accompanied by variable wind gusts.

In calmer parts of the state, however, flaming is especially effective as a supplement to other methods of cultivation when herbicides are applied first to control young weeds temporarily until the cotton grows to a height of at least 6 inches — the minimum height for safe flame cultivation.

For those interested in using flame control for their cotton field weed problems, the following five cautions are recommended:

(1) Flaming only after cotton plants are at least 6 inches high.

(2) Thin uniform, square-ended, 8-inch long flames that cover a 10-inch band of the row and strike the ground 2 inches from the base of the cotton

plants.
(3) Positioning of burner at an angle of 30 degrees to ground.

(4) Burners wide enough to provide sufficient heat to weeds, while unit is moving at three miles per hour.

(5) Alternate opening each flame to prevent overheating if the burner becomes buried or clogged.

NEWS from YOUR COUNTY AGRICULTURAL AGENT
TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE
BRUCELLOSIS FIGHT
Half of the 3,152 counties in the United States and its possessions are now modified certified brucellosis areas, said Dr. C. M. Patterson, extension veterinarian. This means that tests show less than one per cent of all cattle and five per cent of all herds within the county are infected with brucellosis.

Of this number, he said, only three counties in Texas—Jeff Davis, Brewster, and Presidio—are certified. Officials have noted that the program's greatest gains have been made in those areas where livestock producers have cooperated by using the two main features of the program simultaneously—blood testing of animals to identify infected herds, and protection of calves through vaccination, Patterson said.

In addition to the 1,576 counties already certified, another 546 are currently working toward that goal and are expected to be certified soon. Up to the present time, 18 entire states, plus Puerto Rico and the Virgin Islands, have been certified, the veterinarian said.

When the national program first began in 1934, more than 11 per cent of the cattle in the U. S. were infected. However, as a result of the program, the infection rate among all cattle tested has been reduced from 2.6 per cent in 1954 to 1.3 per cent at the end of February this year. This reduction in animal infection has also reduced the incidence of undulant fever, the form the disease takes in humans, from 6,321 known cases in 1947 to 802 in 1958. Contact

PARENT PROBLEM

Inspire Your Child To Read Great Books
By GARRY CLEVELAND MYERS, Ph.D.
TO my knowledge, no modern writer expresses what he wants to say more clearly than does Somerset Maugham. Of himself he writes:
"At eighteen, I knew French, German and some Italian, but I was extremely uneducated and I was deeply conscious of my ignorance. I read everything that came my way."
Kept Record
A record he kept of his reading for two months included three of Shakespeare's plays, two volumes of Mommson's History of Rome, three novels, some French classics, a couple of scientific works and a play of Ibsen's. These were voluntary readings while he was a medical student in St. Thomas Hospital.
The available information on earlier great writers whose works have lived reveals that they were omnivorous readers during childhood and youth.
Read to Him
If you wish to prepare your young child, now only two or three, to write and speak well, and do well on a college entrance examination, you must read to him every day and keep on reading to him after he enters school. You must do your best to help him acquire skill in reading.
Let him see you reading books. Try to fire him with a zeal to read many great books. Inspire him to continue reading books that have lived.
Teachers Will Help
His teachers, from the earliest grades through high school and college, will conspire with you to this end.
Perhaps you have said to your own son or daughter, nine, 14 or 18, "I wish you would read."

AM THE WAY, THE
AND THE LIGHT."
and life at its best is full
of triumphs and trials, then
of comfort and assurance,
his life is not all, in St.
1-6. "Let not your
troubled: ye believe in
me also in me. In my
house are many man-
nere not so, I would
id you. And if I go and
a place for you, I will
again, and receive you
self: that where I am,
ye may be also. And
I go ye go, and the way

ye know, Thomas saith unto
him, Lord, we know not whither
thou goest; and how can we
know the way? Jesus saith unto
him, I am the way, the truth,
and the light: no man cometh
unto the Father but by me."
We find that man transgressed
God's law, falling from that
perfect state to a sinful state.
Then Jesus made it clear, that
the only way to the Father is
by Him. Therefore he made the
way for man, that he might re-
turn to that perfect state, and
as he spoke he made it plain
only by Him would we have ac-
cess to the Father when he
said, "I am the way."

There is a right way to do a
thing and a wrong way. There
may be several ways we can go
from Goldthwaite to Brown-
wood, the best way is by high-
way 183-84. There is only one
way to go to the Father,
through the shed blood of Jesus
Christ. Let us use God's word to
confirm this parable, Matthew
7:13-14. He tells us of the broad
way that leads to destruction
and the narrow way that leads
to life eternal. Many go by the
broad way, but few go by the
narrow way.
Yonder on Golgotha Brow,
many that had Jesus crucified
were there but few were there
that followed Him. Jesus chose
the narrow way conquering
death for all. Just now you have
followed every way of life;
would you try Jesus' way and
follow Him?

WASHINGTON AND
"SMALL BUSINESS"
By C. WILSON HARDER

By an overwhelming majority (85% of the votes) the national Federation of Independent Business has endorsed a bill known as H. R. 1823 permitting broader local control of labor disputes.

Under its provision, the National Labor Relations Board could turn over to local states with the proper machinery set up, some labor dispute matters.

Perhaps the bill does not go far enough. C. W. Harder, but to the nation's independent businessmen, it is a step in the right direction.

For about 25 years now, the National Labor Relations Board has been the power to step into labor disputes. Seldom, if ever, has the NLRB gone against labor, or decided against the union leader's demands.

That is perhaps understandable because the labor leaders who pay close attention to who is in this bureau, are not prone to be happy with impartiality.

But over and beyond all this is the fact that often the economy of a community, even a whole state, or a region, can be tied up in a labor dispute and the local people being damaged by it can do nothing but sit on their hands and wait for wheels in Washington to ponderously move toward some solution.

Actually, the powers of the NLRB were all set up in the mid thirties on a rather fuzzy defini-
© National Federation of Independent Business

tion of the right of the federal government to regulate interstate commerce.

When the U. S. Constitution was written this clause was inserted to prevent individual states from levying tariffs against each other.

But when NLRB was set up, this clause was interpreted to mean that the Federal government has the right to step into any situation remotely concerned interstate commerce.

Thus a manufacturer may make a unit sold only in the state, but in all likelihood, some of his raw materials come across state lines, so voila, he's in interstate commerce whether he knows it or not. And this permits the NLRB to come into his plant and hold elections to determine which union he shall deal with, and to do a host of other things.

Now by and large, the NLRB suits the big labor leaders just fine. It is much easier for them to deal with the bureaucrats of NLRB than to try and sell their bill of goods to the local heads of the soon-to-be 50 states.

Obviously, it will be a long and bitter fight, because it is a certainty that the labor bosses will not endorse this bill.

Public opinion could not only be a powerful force in many labor disputes, but in most cases, in this day and age, public opinion would be quite fair on issues involved in a labor dispute.

But the NLRB is impervious to public opinion. It is only when affairs are handled at a local level that the common sense factor of public opinion can enter into such matters.

By MRS. J. A. JONES
As tomorrow (Saturday) is the 4th, I guess everyone is planning on a big time.

Mr. and Mrs. Willard Edington, Jack and Marsha and Mr. and Mrs. Taylor Duncan and daughter, Annette, all went to Brady Thursday to see the horse races.

Monday visitors with Ed Jones were W. P. Perkins and son, Willard, from Brownwood and Mrs. Leroy Johnson and son from California.

Robert Phillips went to Goldthwaite on business Tuesday.

George Garner of Goldthwaite spent two nights with us this week. He and Alton fished, they didn't have as good luck as they once did, but they caught a good mess of fish for both families.

Lem Egger and his grandson, Woodie, are fishing this week. They caught a couple of nice yellow cats Wednesday night.

Mr. and Mrs. Chuck Rowlett moved their chicken house this week. Their young pullets are about ready to put in the laying house.

Mr. and Mrs. A. R. Rowlett cleaned up their camp ground yesterday. They are planning on a camping spree over the week-end.

Kelly Reunion
Held June 28

The annual Kelly reunion was held at the American Legion Hall in Goldthwaite Sunday, June 28. More than one hundred relatives were present from many places in Texas and as far away as Oklahoma. No date was set for next year's reunion.

Dr. and Mrs. Robert Henry Johnson and sons of Big Spring spent the holidays with his parents, Mr. and Mrs. Bob Johnson and other relatives.

Question: I operate a farm with the help of one regular employee and several part-time employees. Do I have to pay social security taxes on each of my employees?

Answer: If an individual is employed by you for as much as 20 days in the year, you are required to pay social security taxes on the cash wages figured on a time basis. If the worker is paid at least \$150 cash wages, you must pay the social security tax regardless of the number of days he works for you.

Question: I am a 48-year-old widow. My 17-year-old daughter and I are receiving social security payments. My daughter was married June 29. Will I have to return our June checks?

Answer: Yes. The June checks, which are received in the first week in July, must be returned. A child's payments are terminated with the month before the month of marriage; and your payments are terminated at the same time because you no longer have a child of the wage

Hillside Mission
By LIDA BYRNE

What causes some people to be afflicted? The Bible says: "Fools, because of their transgression, and because of their iniquities, are afflicted." Psalm 107:17. Is there any hope for such people? The Bible says: "Then they cry unto the LORD in their trouble, and he saveth them out of their distress." Psalm 107:19.

Mr. and Mrs. Arvin Davis of Midland spent the weekend with his mother, Mrs. Ethel Davis. Their daughters, who had been visiting their grandmother for several weeks returned home with their parents.

Mr. and Mrs. Ed Gilliam Jr., and sons, John and James, attended the annual meeting of the Texas Bar Association in Dallas last weekend.

COUNCIL TALKS

(Continued from Page One)

program was also discussed. This can be done through creating a water district and issuing bonds. The debt can be retired through regular tax bonds or revenue bonds. A water district can be organized and tax bonds can be issued for financing with the bonds being retired from the revenue from sale of water. In this manner the revenue is pledged to retire bonds and taxing is not necessary.

Engineer Trostle informed the council that he met with them "as a neighbor" to discuss the problem.

He said it appeared entirely feasible for the council to have a thorough engineering study or survey made with respect to the overall picture of providing an adequate water supply for the city.

Such a study or survey and possible cost of the project was discussed further by the council but no definite action was taken.
