NEWS OF THE WEEK.

WASHINGTON NOTES.

SPOTTED TAIL'S TALE.
The Secretary of the interior has a letter from Spotted Tail, who says that both he and his people want to be like whites. We have a good country and behave ourselves and work. The letter closes: I want to tell you these last words: I have had enough of the military; I want my people to work; I want no more scouting. I have had my help for. We want to freight and work the ground. I never laughed but once; that was when the agent of lower Brules said I kept his people here. They visited us and I fed them. They gave them 350 head of horses and sent them all home to their agents. Since we have been here my people have had no whisky. Wherever the military are there is always whisky and that makes trouble. I want you to come here and stay a month and see how it is. My friend, this is all I have to tell you. (Signed.)

SPOTTED TAIL.
Witness, LEWIS RICHARDS, Interpreter.
Secretary Schurz has replied to Spotted Tail's letter, thanking him for his expressions of good will and promising to visit him on the 30th of August and spend several days on the reservation.

THE MOHON QUESTION.
It is the determination of Mr. Evarts to begin inquiry and if possible stop the importation of delinquent women from foreign countries, by which means alone this scandalous infatuation is kept alive. The statistical information in the possession of the government is very crude, but sufficient to show that the bulk of these women came from England, Wales, and Germany. This government will enter into correspondence on the subject and will insist upon the enforcement of the provisions of treaties prohibiting the emigration of criminals to the United States; and as this class of persons are brought here for purposes in violation of the statutes of the United States, this government considers it has a right to protect.

UNCLE SAM'S BONDS.
Within about two weeks the New York banks have paid into the sub-treasury the enormous sum of \$55,000,000 in legal tender notes, in payment for four per cent bonds. Of this amount nearly \$34,000,000 were paid in during August, or within the space of nine days.

CRIMINALITIES.

A MURDEROUS MISSOURIAN.
A dispatch from Richmond, Mo., on the 5th, gave an account of a most cold blooded murder. Dr. Jas. Keys, a hotel keeper and physician, who was a native of Missouri, had a peculiar habit, shot and instantly killed Dr. James W. Roberts, a physician of long practice and good standing in Ray county, a man about sixty years of age, while Keys is about thirty years of age. The victim was quietly sitting in a store, when Keys entered and accused him of having talked about the family of Keys. Dr. Keys answered, "I have done nothing of the kind, sir." At this instant Keys drew his pistol and fired twice, one ball passing directly through the heart of his victim and the other through the breast. Roberts never spoke again, but was dead when the bystanders reached the scene. Keys once mounted his horse and made his escape. No posse was sent after him, nor any special effort made to effect his capture. The constable came to Richmond, Mo., on the 4th, and a reward was raised to defray expenses of telegraphing to a few neighboring points. It is stated that Keys had settled all his debts, had made arrangements to leave home and had his horse ready near where the shooting was done, ready to mount and leave, which he did as soon as the deed was done. Keys is about five feet, eight and one-half inches in height, light, thin, full face, a narrow nose, thin lips, fast, with a kind of a whine and of weak voice. Jet black hair and beard, the latter about five inches long; eyes black, and generally dresses in black.

A TRAGIC DEMISE.
A shocking tragedy occurred at the iron foundry, 87 Polk street, Chicago, on the afternoon of the 5th. Solomon Senn, partner in the firm of Schillo, Kassman & Senn, shooting the foreman of the firm, Conrad Engelman, through the head and then after snatching a revolver at his own head, retiring into his private office and cutting his throat from ear to ear with a knife. Both men leave families and were sober and industrious and not quarrelsome. Senn was wealthy and Engelman poor. The quarrel was about a pillar which was being cast in the shop and which Senn claimed was being spoiled by Engelman. The latter denied this, and after resigning his position on the spot and being paid off, Senn reiterated his charge. Engelman gave the lie and the double tragedy was at once enacted.

A DESPERATE CRIMINAL.
Peter Akers, a forger, under sentence of five years imprisonment, attempted to commit suicide at Kansas City, on the 4th, by cutting three gashes in his left arm with a pocket knife. He had made his escape by jumping from the car window, the train running at full speed, while being taken to Jefferson City, subsequently recaptured and returned to Kansas City, and was in jail waiting to be transferred. A letter was found in his cell addressed to Marshal Liggett, in which he purposed committing suicide to avoid imprisonment, and appropriating his body to the dissecting room. On his way to the depot the prisoner stated to Deputy Hay that he would rather go to the gallows than to prison. A telegram afterward stated that the Deputy had arrived, and lodged his man safely in the pen.

A HORRIBLE CHAPTER.
James Ross, residing near Sussex, Va., married Agnes Shaw a year or two ago, and subsequently cast her off and took up with another woman named Maggie Fins, and had children by her. A day or two ago Agnes Shaw, the first wife, hearing that Ross had gone to Petersburg, took a friend named Frank Barber and went to Ross's home and during a fierce quarrel with Maggie Fins, getting into a quarrel with Maggie, killing her instantly, and Agnes Shaw chopped the head of her rival's child off with a spade. They have both been arrested and have confessed the crime.

COUNTERTENNER'S ARREST.
A man turning a huckster wagon into and about Kansas City came into Mount Pleasant on Friday and passed several half dollars in the evening. Next morning they were found to be counterfeit. Mr. Wm. J. Cross went before Squire Atkins, obtained a warrant and had the man arrested. He proved to be Jas. A. Hayne. After the arrest he was searched and there was found on his person some counterfeit United States standard dollars. Squire Atkins issued a search warrant and his outfit was searched, and \$25 or \$30 more of the spurious money found.

ANOTHER KANSAS MURDER.
The body of an unknown man was found on the Shawkska river, near the road from Caldwell to Wellington. A freighter broke his wagon tongue and went into the thicket to cut a pole, and when he cut the pole his head was lying against just exactly his purpose. Hence the discovery. The body had been carried to the edge of a steep bank and then roll-

ed down into the weeds and brush, as appearances indicate. It was wrapped in a blanket, having the shirt, drawers and socks on.

TERRITORIAL RAIDERS.
Four men entered Carrey, Kan., on the 4th armed with Winchester rifles and heavy Colt's revolvers. They robbed White & Dunlap and E. Booth & Son's stores, getting from the stores and individuals over five hundred dollars. They fired over twenty shots, killing one man and badly wounding another. They took two horses and deliberately saddled them, tied their plunder on and rode off south to the Nation. Two were dark and two light complected, and all four of medium size.

CONFESSED TO MURDER.
A man at Erie, Pa., while under fear of death confessed to having committed a murder in Philadelphia some years ago, killing a porter in a dentist establishment, and robbing the place of a large amount of gold. The murder referred to is that of James Neads, in 1865. The murdered man was gagged and strangled at White's dental establishment. The parties were arrested at the time, but the evidence was not sufficient to hold them.

FREE FOR ALL.
At the corner of Madison and Fourth streets, Chicago, on the 5th, Patrick Cornelius and Michael Dwyer, brothers, were assaulted by William Thomas L. and Michael Myers, also brothers, and two men named Stapleton and Conroy. Patrick Dwyer was stabbed seven times; his brothers were also stabbed, and Cornelius had his nose bitten off. Officer Manion attempted to arrest William Myers and was knocked down with a stone. The fight was the result of an old feud.

DEMORALIZED.
The sheriff of Palo Pinto county and posse had a fight with the Jingo gang of horse thieves. Larkin Jones was killed, John Jones wounded, Enoch, old Jones and two other thieves captured. Jack Morris was left to guard the wounded Jones and assisted the latter to escape. Morris was arrested. Twenty-five masked men overpowered four guards of the Palo Pinto jail and obtained the prisoner under threats to burn the jail, and shot Morris dead in the cell.

SEDLALA PISTOL PRACTICE.
Sunday night two thieves came in on a Lexington train. One tried to escape and was fired on twice by officer Gessow. A coat stolen was found on his person. Ely Goding, clerk in the U. S. express office, was shot on the 4th by a negro boy who was fooling with a pistol. The bullet passed through the boy's left hand and lodged in Goding's forehead. Goding is not dangerously hurt.

WHOLESALE PREPARATIONS.
The governor of Pennsylvania has issued warrants for the execution on Oct. 9th of John O'Neill and Peter McManus, of Northumberland county. Mollie Maquire, convicted of the murder of Governor Hesse, near Shamokin in 1874; also for the execution of Andrew Tracy, of McKean county, who murdered a young lady to whom he was paying attentions.

STARVED BY A REFUGEE.
At Lawrence on the 9th a refugee, named George Collier, got into a row with one Wm. Burkes, about some water melons and inflicted a fearful cut on him with a knife, producing a gash eight inches long in his side. Collier fled but was arrested after a short search and lodged in jail. The recovery of Burkes is doubtful.

A PRISONER RESCUED.
A special from Arlington, Texas, says Deputy United States Marshal Geo. B. White and party, with a prisoner, Tom Alford, while on route for Fort Worth, were attacked by a party of Alford's friends. In the ensuing skirmish Marshal White was shot in the groin, perhaps fatally. Two of the Alford's were wounded, but they rescued the prisoner and escaped.

WAITING.
Smith and Hall, the murderers of Major Hugh at Murfreesboro, some time ago, having appealed to the December term of the supreme court, were not hanged at that place on the 8th, as sentenced by the lower court. They are at present in the Murfreesboro jail, where they will remain until they receive final hearing before the supreme court.

MURDER AND SUICIDE.
A Cincinnati special says that Charles Ballet, a lively stable keeper at Middletown, Ohio, shot and killed his wife on Wednesday morning, and immediately afterward placed a revolver to his own head and fired, dying instantly. Ballet was a drunkard. His wife had petitioned for a divorce, which angered him and caused the tragedy.

A MURDERING WITNESS.
Casper W. Nye, one of the principal witnesses in the Peaber murder trial at Lebanon, Pa., has been arrested on suspicion of having beaten to death Cyrus Craig, a colored man found dead a short distance from Dauphin, on July 10.

MORE MURDER.
Samuel Nussbaum, an old citizen of Cape Girardeau county, Mo., cut his wife's throat on Tuesday, then cut his own throat. Domestic troubles is said to be the cause. Nussbaum will die while his wife is recovering.

THE WARRENSBURG MURDER.
At Warrensburg, Mo., on the 9th, John Duncan, a young man, was killed by his boon companions while at the notorious Lower ranch.

AIRLINE TO REBENTRY.
Jacob Hairline was hanged at San Antonio, Texas, on the 8th, for the murder of Peter Maddox on the 7th of February.

CASUALTIES.
FATAL STEAMBOAT EXPLOSION.
At Pittsburgh on the 9th a terrible explosion took place on the tow boat Iron Valley, upward bound, opposite New Cumberland, W. Va., fifty-seven miles below. A second explosion occurred immediately after the first, throwing fragments of the wreck a great distance in all directions, destroying the entire forward part of the boat, including the pilot house. The pilot, Wm. and the captain's son, Thomas Prince, and a Mr. Presson of New Cumberland, are missing. The cause of the explosion is unknown, the engineer claims to have had sufficient water in the boilers.

SORROW KILLA.
Luke McDermott, for twenty-five years employed in the packing department of Field & Leiter's store, Chicago, was found dead in his room, having committed suicide by hanging from the neck post. Some time ago McDermott lost a son by a railroad accident, and it is stated he has since become despondent and somewhat desipated. He doubtless committed the act while in a fit of mental aberration. He was comfortably off. He has an interesting family of five children.

A TERRIBLE FALL.
In Chicago on the 5th, six masons were on the scaffolding of the new music hall, sixty feet above the ground, when the scaffolding gave way and carried with it a five hundred pound plate that was being placed in the dome, also four of the workmen, injuring them terribly; two of the men caught on projections from the walls, and were more fortunate.

TWO OF A MAN DESTROYED.
The town of Volcano, W. Va., was destroyed by fire on the 4th. The fire originated in the store building of Thompson & Barnes.

It was discovered about 4 a. m. The flames spread rapidly, and reaching some oil tanks, they caught fire and burst, the burning oil running through the streets, setting fire to everything on either side through which it passed, transforming the streets into a lake of fire.

SUNK IN A COLLISION.
At Chester, Pa., the river steamers, Mary Morgan and Pierreport came in collision on the 9th and the latter sunk, but her passengers and crew were saved. The Morgan had on board an excursion party of several hundred persons. Her bow was badly broken, and the forward bulkhead filled; but the remaining water tight compartment kept her afloat.

SUICIDES IN COLORADO.
Thomas E. Beeves, son of Sir Thomas Beves, baronet, of Norfolk, England, suicided at Denver on the 6th by taking morphine. He left a letter referring to his mispent life. He was very opulent. Was 26 years of age, and had been away from home about a year. A consumptive shot himself on the same day at Boulder, because of despondency.

ANOTHER SUICIDE.
Henry Kind, a law partner of James D. Pay, who recently died by his own hand in Oregon, committed suicide in San Francisco, Wednesday night, by morphine. His wife's father had left his estate to Mrs. Kind, of which Kind had charge. He left a note to his wife saying he had squandered the entire property, which was the reason of his act.

DAMP CHILLS GRABED.
John Thomas, Mary Hanson and an Italian musician named Frank Deluca, were drowned in the Mississippi above La Crosse on the 4th. They were part of a picnic party, from La Crosse, in three boats. One boat containing six persons was upset in passing a dam, and the above drowned before they could be rescued.

FATAL PREMEDITATION.
At Louisville on the 8th, a colored man named Geo. Brown, aged 24, committed suicide by drowning in the canal. Arrangements for his marriage were all complete, but he objected to being married in church, and stated his preference for death to such a fate.

KILLED OUTRIGHT.
At Lewistown, Me., a train ran into a team containing Peiree and two other ladies, who were killed. The train was crossing in Lisbon. All were instantly killed. They were returning from a wedding excursion.

DIED ALONE.
An elderly farmer, living near Wichita, was found dead on the 5th. He had been burning straw on the 5th. He had evidently been attempting to prevent the fire spreading, and died from the heat and over-exertion.

FOOT SCOTTS STORM.
Fort Scott was visited on the 6th by a heavy storm of wind, rain and hail, doing considerable damage. It was estimated that four inches of water fell in one hour.

THE SOUTH.
Eighteen cases were reported to the board of health of Memphis on the 5th. Five deaths had occurred since the night before. The fever at this date is gradually spreading and a greater mortality may be expected. At a meeting of the board of health it was resolved that rations and medical attention be supplied to all camps and societies alike, provided that all money or contributions received by said camps or societies be turned over to the safety committee. The city remains remarkably quiet and dull. The weather is clear and warm.

Reports from New Orleans on the 5th announce the city free from yellow fever, and the physicians say it has run its course for the summer.

Little Rock, Ark., advises that Gov. Miller has directed a health organization of the State board of health for the protection of the public health against epidemic diseases, and requesting cooperation of local boards. Quarantine regulations will be thoroughly established.

On the 7th there were seventeen new cases in Memphis, ten whites and seven colored. Among the deceased were Lizzie Hotter and Rev. Father John Harvey. This is the second Catholic priest who has died of yellow fever since this year. The deceased was assistant priest at St. Patrick's church; and only 24 years of age. From the locality of the new cases reported to-day the fever seems to be spreading, and approaching the heart of the city. The secretary of war forwarded 500 army tents to Memphis.

Memphis reported twenty-nine new cases on the 7th. Nineteen were colored. The deaths have been about equal, and are spreading rapidly. The Howard's assigned twenty-five additional nurses to duty.

St. Louis reports three cases at the hospital, and requests a quota of the government funds appropriated for yellow fever sufferers.

Twenty-two cases were reported on the 8th, at Memphis, and five deaths. The Howard's assigned two additional physicians to duty. Hon. John Johnson, superintendent of the quarantine, and D. T. Porter, chief executive of the city, to-day issued the following:

To inspecting officers and police officers on duty at Memphis: Until further orders you are hereby instructed not to permit any person or persons to be landed from any boat or other water craft at this port who have not had yellow fever, and in addition cannot give satisfactory assurance that they are free from the disease themselves. These restrictions also apply to the railroads leading into the city. The Howard association to-day placed thirty additional nurses on duty. The weather is very chilly and damp, unfavorable alike to the sick and well.

Of seventy-five deaths at Hayti from yellow fever, eleven were Americans.

At Memphis the fever still rages without abatement; on the 9th, 40 cases were reported. The death rate is small in proportion to the number of cases in the city. The city is almost deserted, many of those who remain are protected by previous attacks, and it is reasonable to assume that many who have contracted the disease will recover. Although the disease will stay until frost, the rate of mortality will not exceed its present number for any one week in the future. The board of health report the number of deaths from yellow fever since its appearance to date as 97.

At Havana for last week, a decrease of forty from last week's report.

One case is reported from Louisville and precautionary measures are rigidly observed to prevent infection.

POLITICAL MATTERS.
KENTUCKY ELECTION.
The State election passed off quietly. Blackburn, Democratic candidate for governor, 1,736; Evans, Republican, 1,536; Cook, Nationalist, 20. The remainder of the ticket received about the same vote, except for treasurer, Stoll, Republican, 1,826; Tate, Democrat, 1,497. In the local contest for representative, Lurch, Democrat, received 1,730; Castle, Nationalist, supported by Republicans, 1,285; Woodford, Democrat, 1,285. The Democratic central committee estimate the total vote at not over 200,000, a falling off of over 50,000 on the Filidand Hayes vote, and over 15,000 on the last gubernatorial vote. In Louisville alone, the vote falls off over 8,000. The Republicans make slight gains in the legislature and defeat the speaker of the last house, but the Democratic majority is still overwhelming in the general assembly. The call for a constitutional convention fails for the want of a constitutional majority in its favor.

MARYLAND DEMOCRATS.
The Democratic State convention assembled at Baltimore on the 7th, nominated Wm. T. Hamilton for governor, G. J. M. Gwynn for attorney general, Thos. J. Keating for comptroller, and Spencer Jones for clerk of court of appeals. The following is among the resolutions adopted: The Democratic party of Maryland, having no other purpose to fulfill except to secure the good government of this State, and to aid in the reform of the administration of federal affairs, respects the rights of the State who share its opinions to unite cordially with it in the attainment of these great objects.

The resolutions also call for a reduced state of taxation, the abolition of unnecessary offices, reduction of salaries and fees, free and pure elections, and registration laws.

TENNESSEE'S DEBT.
The returns indicate that the proposition to settle the debt of the State at 50 cent and 4 per cent interest will be rejected by not less than 15,000 majority. Party lines were not regarded in the contest. The Republicans in the eastern part of the State voted almost solidly in favor of the compromise, while most of those in the middle and western sections went against it. The Democrats also were generally divided on the question. Many men of both parties voted for its rejection on the ground that the proposition was merely a modified form of repudiation.

BUREAU OF ENGRAVING AND PRINTING.
Hon. Edward McPherson publishes an open letter to Hon. John W. Glover, replying specifically to the criticisms made upon the management of the bureau of engraving and printing in his so-called G. O. report. He concludes: "You cannot put your finger on a single dollar of expenditure while I was in charge of the bureau for which the government did not receive an equivalent. I defy you to the test, and am willing to stand or fall by it."

OPENING THE OHIO CANAL.
The Republican State central committee at Columbus on the 8th decided to open the canal on Aug. 20th. Secretary Carl Schurz will speak at Cincinnati, Aug. 20th, at Columbus, Aug. 21st, and at Toledo, Aug. 22nd. Sherman will speak at Steubenville, Alphonso Taft at Cleveland, and Chas. Foster at Akron.

REPUBLICAN NOMINATIONS.
At San Francisco on the 9th, the Republican Municipal Convention made the following nominations: Auditor, Gen. John McComb; assessor, Alex. H. McComb; treasurer, J. Q. Helmeke; tax collector, Wm. Martin; recorder, Wm. K. Dietrich; county clerk, Wm. A. Stewart.

NO COLLISION.
At Boston on the 9th, the Abbott Democrats refused to unite with the Butler Democrats in calling a State convention.

A MODEST YANKEE.
It is stated very positively that Gov. Talbot, of Massachusetts will decline a re-nomination.

FOREIGN NEWS.
THE ZULU WARRIORS.
A Cape Town dispatch says that Chief Momo has submitted to the present trouble with the Basutos, therefore, it settled; but much discontent still exists. It is feared there will be a severe famine next year in Zululand, as it is now a drier time and no land is being sown, which means that the crops will be a mere cattle feed. King Cetewayo, when leaving the battle field of Ulundi, told his chiefs to look to their own safety, and seek permanent peace as best they could. His army is broken up, his nation dispersed and his king a fugitive. Zululand will probably be divided into three or four separate principalities, each under the rule of an independent chief. The British Government will receive his own territory under this arrangement. Rumors are rife of impending troubles in the Transvaal. It is feared if the colonial powers do not take energetic measures with regard to that province immediately disturbance will ensue.

Newark and neighborhood are flooded. The rainfall in Buckinghamshire is estimated at 70 tons per acre. Venard de Saint Anne, originator of the project for bridging the English channel, promises to begin operations without delay. He estimates it will require seven months for the experiment, and a million francs will suffice to pay the preliminary expenses. To raise the funds he has laid a project before the French and Belgian chambers of commerce. Six of these have expressed themselves in favor of the project. He will pay a visit to England shortly to lay the project before the English government. To span the deep water he has recourse to the tubular system.

A DIVINE DIVORCED.
A London dispatch says: Newman Hall, Congregational pulpit orator, has obtained decrees of divorce from his wife, on account of her adultery with one Richardson, a stable keeper. The trial created a great sensation. The wife brought counter charges of the same character. He admitted he abandoned his previous action for divorce because he feared it would be an obstacle to his efforts to raise funds for a new chapel and for the Lincoln memorial tower, in commemoration of Abraham Lincoln.

ALL FOR LOHNE.
At St. Johns, N. B., on the 9th the depot of the governor-general and Princess Louise for Fredericton was the occasion of a very heavy demonstration on the part of the populace.

A STEAMER WRECKED.
The steamship Louis David, from Antwerp for Naples, was wrecked on the 6th during a fog, off Cabant, France, and twenty-three persons were drowned.

FOREIGN NOTES.
Further dispatch of troops to the Greek frontier is suspended. Baker Pasha will be nominated to an important civil and military post in Kurdistan, owing to the excess of Kurds in Armenia.

The outlook for camp Bismarck is perfectly splendid. The great tabernacle is rapidly approaching completion as the railroads have employed every man who could possibly be made of use. The arrangements for fountains are nearly complete. A large stationary engine has been put in position, and the water will be drawn partly from the lake and partly from the wells—old and new—which have been sunk. A large force of boot-makers, decorators, renovators and general repairmen are always on the ground, going their level best for the great rush of the people. The master of musical matters has in press a Bismarck hymn-book for use through the various churches, choruses, choirs, soloists, bands and other auxiliaries have all signified their readiness for the coming twelve days of combined work and pleasure.

Gen. Miles has arrived at Fort Peck. He has driven the hostiles into Canada and captured all the half breeds between this point and Wood Mountain. He has divided his force into two bodies for the purpose of watching the border. The scouts all agree that Miles command is entirely superior to any other command in the west, and are always on the ground, going their level best for the great rush of the people. The Chase County Courant.

W.E. TIMMONS, Editor and Publisher.

The name of the Harvey County News has been changed to Newton Republican.

The first meeting of the Neosho Valley Press Association will be held at Humboldt, August 28.

The National Temperance Camp meeting began, yesterday, at Bismarck Grove, near Lawrence, Kansas, and will continue over Wednesday, August 20.

Vol. 1, No. 1, of the Wa-Keeney Leader, edited and published by H. P. Stultz, a very good looking paper, has made its appearance. We wish it financial success.

The initial number of the Sioux City (Iowa) Cosmopolite, a sixteen page monthly newspaper, published by D. H. Talbot, and devoted, as it says, to the interest of the people of the entire world, has been received at this office. It belongs to no political party, but is independent, giving all parties or individuals a hearing. Subscription, \$1.00 per year; 10 cents a copy.

The largest kind of Grant boom has been started in Texas. A minister, named Graves, has started a church in which Grant figures as an anti-Christ. He is to be elected President in 1880, and finally conquer and rule the world—and then comes the millenium. The church is said to be rapidly increasing in numbers. This is the worst case of boom of which we have heard.

Mr. McChintick, in his McPherson Independent, strikes a chord in the following words, which will find an echo in several thousand editorial hearts: "The editor of this paper often wishes he could be removed a thousand miles from business and business perplexities, where he could enjoy at least an hour of relief from the cares and cussedness of trying to keep together a country newspaper."

With Key, a Confederate General, in the Cabinet; Longstreet, a "Confederate Brigadier," collecting customs at New Orleans, and Mosby, a "Confederate guerilla," Consul to Hong Kong, is it any wonder that intelligent, able-bodied and one-armed and one-legged Union soldiers feel like fighting the war over again? We do not see how they can be prevented from shouldering their muskets and shooting the Administration.

The Republican press is bearing very heavily on the repudiation, by Democratic States, of their debts, and denounces such a course as villainous. We most heartily agree with them in their opinion; but they must not forget to include that rabidly Republican State of Minnesota, the home of Windom, your would-be Presidential candidate, which stands branded as a repudiator of her just and lawful debts. The pot must not call the kettle black, especially when it is itself so black that a piece of charcoal would make a white mark on it.

The Republican party of to-day is a very different political organization from what it was under the leadership of the men who built it up. In fact, but few of the great men who shaped and governed its early politics are now identified with it. Most of them have been disgraced and repudiated by it. The party has lost some of its best men, and gained but little in the character of its recruits. It has exchanged an Ewing for a Mosby; a Curtin for a Key; a Palmer for an Ackerman; a Greeley for a Logan; a Trumbull for a Longstreet, and a host of its best men in every walk of life for the specious scamps who have been attracted to it in the hour of plunder. It is these new recruits who are now apprehending the greatest danger to the country if the Democracy shall come into power. The name Republican still remains; but its men and politics have wonderfully changed.—Paula Spirit.

The New York Times a short time since, for the double purpose of creating a sensation and attracting publication away from the gigantic election frauds, perpetrated by the Republicans in 1872, devoted many columns of its valuable space to a bewildering array of figures to prove that it was the Democrats who committed all the frauds in 1876. The papers generally, however, have picked some "big holes" in the Times' charges of fraud. The Springfield Republican, especially, very loudly exposes the fraud because of the remarkable decrease in the vote in New York, New Jersey and Connecticut from 1874 to 1876, but it appears that this increase was most of it due to the addition of Republican votes to the votes cast in 1874. In New York the Democratic vote increased 25 per cent, and the Republican 33 per cent; in Connecticut

the former increased 37 per cent, and the latter 50 per cent, and in New Jersey, while the Democrats brought 19 per cent, more voters to the polls in 1876 than in 1874, the Republicans swelled their vote by 23 per cent. Facts like these knock the last prop from under the theory of the Times that a vote unexpectedly large is prima facie proof that the winning party practiced fraud.

A full line of carriages, of first class material and workmanship, substantial and elegant, is now offered at prices to correspond with the times and with the decline in all other things. A good, well made, stylish buggy, with leather trimmings, oil tempered springs, sarven wheels for \$110; With leather top and rubber back and side curtains \$150; A Phaeton with lamps and fenders \$180, and all other carriages in proportion. All fully warranted. In nothing else has the decline in prices been so slowly accepted as in carriages. The dread of unsafe work, dangerous and dear at any price, has forced many to use carriages at very dear prices, or cling to the saddle. But now, by the use of perfected machinery, we can furnish a carriage strong as the strongest and at a fair price. The Anchor Brand Axles and the Sarven Wheels insure strength, and all can see that they are getting in other respects just what they want. We use the Anchor Brand Axles, the Sarven Wheels, Oil tempered Springs, the best Swedes Iron for the Iron Work and Second Growth Hickory for the Wood Work; and we offer a Buggy that will run with the greatest ease to both horse and rider, and that will out wear two clumsy vehicles made by ordinary workmen. We furnish just the article wanted and every test is wholly satisfactory. Piapo, Coal Box or Drop Front Buggies, as preferred. Agents wanted. Where there are none, we will give the first purchaser the agent's discount of 30 per cent. Mode of buying: Deposit the price in the bank, and send us a certificate that you have done so, and the carriage will be sent as you direct. On its arrival, if you are not suited, you can return it by paying the freights. The freight will be about the same as for 400 pounds, first class, between your place and St. Louis. Clergymen and useful institutions favorably considered. To CARRIAGE MAKERS: You know that if the wheels are "Sarven" and the axles "Anchor Brand" the strength is there. They are all right and the carriage is likely to be all right. We can furnish you a carriage made by the best machinery better than you can readily make, for less money. It is of the best style, materials and workmanship; but it lacks the hand finish given to the most expensive work. This you can add. You can take off the rubber curtains and put on leather; the paint has a solid lead body and you can rub down ten or twenty more coats; and then you will have an article better than your own, touched up to suit your customers, which will give better satisfaction and more profit than your own work. Try it.

PRICES. Top Buggy, with Sarven Wheels, Oil Tempered Springs, Leather Top and Trimmings, and Rubber Side and Back Curtains, \$150 Without Top, 110. With Side Bar, 180. With Side Bar Without Top, 130. THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

HALL'S VEGETABLE SICILIAN HAIR REGENERATOR.

Is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Regenerator has increased with the test of years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world. For Sale by all Dealers.

THE HANNIBAL AND ST. JOE.

Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal and St. Joe railroad will hereafter run magnificent day coaches, furnished with the Horton reclining chairs, between this city and Chicago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very first rank in point of elegance and perfection of accommodations. Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasurably superior in point of comfort and ease of management to all others now in use, and those placed in the Hannibal and St. Joe cars are of the finest workmanship and materials; but to the traveling public it is useless to speak of the excellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H. D. Price, the efficient passenger agent of the Hannibal and St. Joe road, in this city, furnishes the information that these day coaches will be placed on the road, this week. We commend this route to those going east, who wish to secure comfort, safety and expedition. -Kansas City Journal, Feb. 9

The Hidebrand Brothers have begun the erection of another stone building at Cottonwood, which, when completed, will be occupied by Messrs. Sherman & Richardson, of Emporia, as a dry goods and grocery store. Mr. F. Oberst has returned and paid his fine and costs in the suit

against him in the City Court, and is now at work running his bakery. He went to Newton to visit friends was the cause of his absence at the time the suit came on for trial.

In another column will be found the announcement of Mr. Jabin Johnson as a candidate for re-election to the office of Sheriff. Although Mr. Johnson is opposed to us in politics, we would say he has made a good and faithful officer.

Mr. F. Byrne, of Cottonwood township, was in town, Monday. He desires us to return the thanks of himself and family to his friends for their kind attention to his wife when twins—a boy and a girl—were born to them, on Feb. 5, 1879.

The plastering of the new stone store building of Messrs. Caldwell & Co. and Edwin Pratt has been completed throughout, and it is a good job. Mr. E. W. Brace handled the trowel, and the finish he gave those walls is a good indication of his ability as a plasterer.

The School Board of this district have employed the following teachers for the ensuing year: Mr. J. F. Kurker, Principal; Miss May C. Jones, Intermediate Department; Miss Maude E. Rockwood, Primary Department, and Miss Mary E. Hunt, at Cottonwood.

Mr. Jabin Johnson's two horses were taken suddenly ill in the stable, last Saturday afternoon. They were taken out into the open air and given some oil, when they soon got over their spasms, which were supposed to have been caused by a dose of poison given them by an unknown party.

At the school examination held August 1 and 2, the following certificates were granted: A Grade, Mr. C. F. Nesbit and Miss Sadie E. Park; First Grade, Misses Anna Moffitt, Josie V. Park, Lizzie E. Staples, Mary F. Hunt, A. J. Barrington, Emma Bailey, Hattie Pugh, Anna Rambo, May Jones, Mary Maynard, Messrs. I. C. Warren, C. L. Conaway, R. W. Winchell, John E. Perry, J. L. Gierich, L. N. ILLUSTRATIONS BY PICTURES.

One of the great contrasts between the school books used by the fathers and mothers of the land, when young, and those now used by the children, are the pictures. As a curious instance of illustrating the meaning of words by pictorial illustration, the pictures in the new edition of Webster's Unabridged Dictionary in connection with the following twelve words, Beef, Boiler, Castle, Columa, Eye, Horse, Moldings, Phrenology, Ravelin, Ships, Steam Engine, Timber, illustrate and define the meaning of more than 340 words and terms, as may be seen by examining the Dictionary.

WHITE BRONZE

MONUMENTS AND STATUARY,

MEDALLIONS, PORTRAIT BUSTS, & C. Cemeteries, Public and Private Grounds.

A Few of the Advantages White Bronze Possesses over Stone Monuments and Headstones.

- 1st. Age will not impair their beauty. 2d. There being no deterioration in their value, you always have in these your money's worth; while, with marble, or even granite, what you obtain at great expense, may, in a few years, become of little or no value, as defective headstones and monuments in every cemetery bear witness. 3d. It is not then the part of wisdom to invest where you will always feel satisfied with your purchase, and also give the same satisfaction to coming generations? 4th. The designs are far more elaborate and beautiful than can be made in stone at double the cost. 5th. Beautiful emblems full of meaning can be selected from our large list without extra cost. 6th. The most delicate lines and sharpest letters will not chip nor lose a particle of their beauty. 7th. The inscriptions, without additional expense, are all in raised or black letters which can not be broken off, even with an axe; while the inscriptions of stone are constantly disintegrating on raised letters of stone ultimately obliterate them. 8th. Our inscriptions being Double Fronted or Shaded, inscriptions can be put on a stone cutter to be used in the inscriptions, and costing from five to ten dollars extra—simply send for the inscription plate, giving the number of monument and tablet required which will come by express; then with the aid of the socket wrench (which comes with every monument) the old tablet can be taken off and replaced with the new, and not requiring the labor of five minutes; then return the old tablet to the manufacturer and receive credit for it. 9th. Our monuments being Double Fronted or Shaded, inscriptions can be put on the backs equally as well as on the fronts, and thus for two or even four graves. 10th. The Shaft Monuments have from four to eight Tablets. All are filled, when made, with inscriptions, mottoes, or emblems, which can be removed as desired without marring the beauty of the monument. 11th. The price, we think, will average about the same that marble is usually furnished. If Stone Monuments were as beautifully carved, as the White Bronze are moulded, they would cost double the price of many of our designs. The durability of the White Bronze Monuments enhance their value to that of stone beyond comparison. 12th. They are easily—and if properly set, are as firm as if grown to the earth, and as enduring as the everlasting hills. 13th. They are boxed and shipped complete to set in cemetery, and not being as heavy as stone are more easily handled, and freights much less. In fact they have all the virtues without the vices of all monuments of stone, and we now feel that we can truthfully and conscientiously say without fear or favor, and back it by scientific facts, as well as historical data, that the White Bronze Monuments are the BEST IN THE WORLD. Thousands of purchasers already bear witness to the above. For full particulars call on or address,

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of our country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the Lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the Lungs. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health. This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Chemists when recommended by them from their knowledge of its effects.
