Ice - Cold Hits Mills County

Oh! Man Winter moved to Central Texas and Mills County this week with this area experiencing the coldest spell this winter.

Temperatures dropped to a low of 16 degrees Monday night or early Tuesday morning, according to a number of unofficial reports. Tuesday morning appeared to be the coldest and the worst from the standpoint of ice as a result of freezing rain and sleet Monday and Tuesday night.

Traffic started off with a snail's pace Tuesday as streets and highways were completely covered with ice. Highway crews got out early and started their sanding operations to give motorists a chance to keep moving. Schools were closed Tuesday and Wednesday as a result of the ice covered roads and highways.

A number of ranchers reported heavy losses in lambs and kids during the past few days due to the cold weather. Heaviest losses were on ranches where sheep and goats are without sheds or barns for shelter.

By Wednesday noon it had warmed up considerably and hopes were high that sunshine and warm weather would arrive before long.

School Trustee Filing Deadline Is March Third

Today, March 3rd, is the last day on which candidates may file for the trustee election and have their names printed on the official ballots. Filing deadline is 30 days before the election which is scheduled for Saturday, April 2.

Two trustees are to be elected to the board for Goldthwaite, Star, Mullin and Priddy school districts. Three members are to be elected to the county school board, one for each of precincts one, two and four.

Candidates for Mullin, Star, Priddy and the county board must file with County Judge Wm. G. Yarborough while candidates for the Goldthwaite school board must file with the secretary of the board, J. D. Harper.

Names of candidates may be placed on the official ballot by the candidates signing application, or intention, to be a candidate or by petition properly signed by five qualified voters.

Three Candidates Are Announced For School Board

Three candidates for trustees for Goldthwaite Independent School district were announced this week.

J. D. Harper, secretary of the school board, said Wednesday morning that petitions properly signed by the required number of qualified voters were turned in to him presenting Charles Conrad, L. B. Burnham and W. C. "Bill" Sherwood as candidates.

Two trustees are to be elected.

February Rainfall Measures 1.82 Inches

Harry Allen, weather observer, reported rainfall for February totaled 1.82 inches. This brings the total rainfall recorded here since January 1, to 4.17 inches.

On Tuesday, March 1, .09 inch of moisture was recorded.

Officers To Be Installed At New Rebekah Lodge

There will be a meeting Thursday (tonight) at 7:30 o'clock at the Odd Fellows Hall, over Davis Variety Store, for the purpose of instituting a Rebekah Lodge here in Goldthwaite. The lodge will be organized and named The Goldthwaite Rebekah Lodge No. 72. There will be about 25 members to be initiated and they will be known as Charter members.

Mrs. Pauline Ragsdale, Past President of the Assembly of Texas, Coleman, will preside as Instituting Officer. She will bring a team with her to help in the instituting of the lodge, initiation of Officers and the Installation of Officers. Any member of the Odd Fellows or any lady who is interested in this organization may contact Dr. or Mrs. R. Glynn Raley or they may attend the meeting and place their application at that time, according to Dr. Raley.

Eagles To Compete In Warm-Up Track Meet

Coach Jackie Williams has announced that Saturday night, March 5, the Goldthwaite Track team will go to Richland Springs for a warm-up or practice meeting. Other teams competing will be San Saba, Rochelle, and Richland Springs. This is merely a practice meeting for the annual Track Meet to be held later in March.

Laymen's Revival Starts Sunday At Goldthwaite Baptist Church

A laymen's revival will begin this Sunday at the First Baptist Church in Goldthwaite. This is a unique feature in evangelism in that the laymen of the church are leading the revival. It is the third laymen's revival that the men have conducted in the church.

Services will be under the complete direction of the men. They will lead in the music, and will lead in the preaching services.

Park Maintenance Fund Grows; \$596 Is Contributed To Date

The Park Maintenance fund campaign which got underway two weeks ago is going full force ahead as the honor roll of contributors keeps adding up.

Through Tuesday of this week 57 interested citizens from over the county had contributed, according to W. P. Duren, Park Board chairman, and Ray Duren, maintenance fund drive chairman.

Total amount contributed through Tuesday's report was \$596.

The committee has set a goal of \$1,200 to provide a maintenance fund to employ a caretaker for the park to work all year, or at least through the entire growing season.

Four hundred letters were mailed out two weeks ago to citizens throughout the county enlisting their support for this park maintenance fund. The fund committee has a goal of 100 citizens to support the move by contributing \$1 per month, or \$12 per year.

Most of those who have contributed to date have paid their entire \$12 for the year while some are paying on monthly, quarterly or semi-annually. Either way is all right so long as the committee gets the necessary support to improve and keep up the park.

Committee members feel that a good many interested parties have overlooked sending in

Mr. and Mrs. Joe P. Karnes and daughter, Wandean, of Fort Worth, spent the past weekend with her mother, Mrs. J. B. Murphy, and other relatives.

Services will be each night at 7:30 p. m. Men will be giving their public testimony in each of the services.

Men will fill the choir each night, and special music will be in each service.

There will be a special emphasis in each of the services. In the services on Sunday the emphasis will be "High Attendance." A goal of 350 has

been set for Sunday School, and a goal of 125 in Training Union.

On Monday night the emphasis is Pack-A-Pew.

Tuesday night the emphasis is "Bring A Family."

Wednesday night the emphasis is "All-Church Night."

The emphasis on Thursday night is "Andrew Night."

Friday night is "Ladies Night."

The emphasis on Saturday night is "Youth."

Higher Attendance will be the emphasis on the closing Sunday service.

Those who will be preaching are: J. D. Berry, Sunday morning, March 6; Winell Page, Sunday night, March 6; Luther Ward, March 7; Maeborn Sanner, March 8; Billy Hale, March 9; R. T. Ratliff, March 10; Hawley Jernigan, March 11; Del Barnett, March 12; J. D. Harper, Sunday morning, March 13; and Charles Conrad, Sunday night, March 13.

"All are invited to attend these services as the Laymen seek to lead in witness and testimony for Christ in our community," said Rev. Presnell H. Wood in announcing the services.

Eagle To Publish Fifth Annual Soil Conservation Issue May 26

Plans are underway for the fifth annual Soil Conservation issue of the Eagle to be published on Thursday, May 26, it was announced this week. The announcement was made by members of the Eagle staff and Hubert Berry, supervisor of the local work unit, Soil Conservation Service.

Members of the Eagle staff, members of the Soil Conservation Service and a number of other interested individuals will take part in preparing material for this special issue.

The special edition will come out during Soil Conservation Week which will be observed this year from May 22 to 29. Many churches in the area will observe Soil Stewardship Sunday on May 29.

Last year, the fourth annual such issue, received favorable comment from a wide area. There were more than fifty

special feature articles and pictures telling the story of benefits from soil conservation practices. A large number of business firms and individuals who are interested in the program carried special advertising messages in the issue. Also a number of contractors who do much of the work in connection with soil conservation practices in the area.

Plans this year call for more pictures of soil conservation and range management practices and their benefits in Mills County.

A number of those who carried ads in last year's issue have already indicated that they will again want space this year for their special messages.

Work on preparing material is now underway with typesetting on feature stories for the issue to start this week.

DISTRICT BASKETBALL CHAMPIONS—Priddy high school girls won the district 25-B basketball championship for the 1960 season just closed. Pictured here they are, left to right: Joyce Hopper, guard; Shirley Stahnke, forward; Judy Goerdel, Loyce Hopper, Dorothy Kunkel, Eunice Striepe, Joe Ann Senger, Diana Hopper, all guards; Carol Ann Selheimer, forward; Carolyn Spinn, forward; Anita Marwitz, guard; Mildred Spinn, forward; and Diana Oliver, guard. Esther Pearl Hohertz was not available when the picture was made. In center is Coach James W. Ables and Jerry Schlee, manager.

The Priddy Pirates played 12 district games winning 11 of them. During the season they played 17 games. They played Jonesboro of District 26-B for the BI-District title, Tuesday night at Hamilton.

ABOUT CIVIL RIGHTS—While the Senatorial windbags are going full blast in Washington with one of their pet election year projects Congressman O. C. Fisher has this comment on the subject. He states:

"While the Senate argued over the issue of Civil Rights or Civil Wrongs, the House coasted along with annual appropriation bills last week, and maneuvered for a test on the civil rights issue in early March.

"The House debate will begin on March 10, and a bill is certain of passage, though probably milder than the Senate version. It all boils down to the big battle for the Negro vote in 1960. While all sorts of pretensions are advanced, every one knows what the real objective is. In calmer, more objective moments most politicians will admit that special laws are not needed for any minority group, racial, religious or otherwise, but not so on election years."

☆☆☆

THE GREAT BANK ROBBERY—Newsweek says, under the title "The Great Bank Robbery": "For Americans wondering why the U. S. soil-bank program has not been more successful in holding down the staggering farm surpluses, U. S. Comptroller General Joseph Campbell had an answer . . . Of all the 23 million acres that have gone into the soil bank, nearly one-quarter (or 5.4 million acres) of the 'idle' land has not been producing crops anyway . . . Campbell said owners of fallow acreage have been paid \$54 million a year for five years. Thus the government, now moving to halt the abuses, spent a total of \$270 million to reduce crops that never existed."

☆☆☆

MORE DOORBELL RINGERS—President Canham of the Chamber of Commerce of the United States urges that retired citizens plunge into politics—and says that they will find it active, rewarding, exciting, productive and engrossing work. He points out that retired people can serve the political parties of their choice by working at the precinct level, and that they do not have to become candidates for office. As he sees it, "We need more doorbell ringers."

☆☆☆

UNCLE SAM'S PROPERTY—The following editorial reprinted from the New York City Daily News:

"The House Government Operations Committee has just taken an inventory of all the property the Federal Government owns. These holdings add up in value to the enormous figure of \$265 billion—including 778 million acres of land (one-fifth of the nation's area) valued at \$72 billion.

"Not only that, but in the last year the Government has acquired \$2 billion worth of property that it didn't have a year ago.

"If this keeps up, Uncle Sam some day may have enough property to liquidate the national debt, now standing at about \$290 billion—assuming, of course, the debt doesn't increase faster than Uncle's grabbing of property."

☆☆☆

GOVERNMENT FUNCTION—We live in an era in which, apparently, vast numbers of people regard the government as the proper source of almost every kind of handout, grant, and so-called "benefits."

So something that Henry Hazlitt has to say in Newsweek about government is important. In his words: "Its true function is to maintain peace, order, and justice; to protect life and property; to refrain from burdensome and inequitable taxation; to remove the punitive laws and deterrents that previous governments have imposed. Its function is to permit and preserve a sound currency. When it fails to do this, it must bear sole responsibility for the failure."

Once government breaks its historic bonds and goes beyond these functions, the result is always the same: Oppressive taxation, a degraded currency, diminished incentive, and a steady whittling away of the freedoms of all citizens.

(Taken from The Eagle Files of March 5, 1910)

Mr. Grover C. Price and Miss Myrtle Bryan were happily united in matrimony February 22, 1910, at 3:30 o'clock p. m., at the residence of Rev. C. H. Miles.

Mr. Allen Dennis died at his home in Hannah Valley Saturday night, after a long illness and his remains were interred in Rock Springs Cemetery.

Mrs. McDaniel, mother of D. J. McDaniel, died Thursday morning as a result of injuries she received when she fell from a hack and the vehicle passed over her. She was visiting her daughter, Mrs. J. H. Straley and family in the Priddy community, and had started with the family to attend church services when the wheel of the vehicle fell into a rut and she was thrown out.

Lathe Eddy of Star was kicked by his horse yesterday and his jaw was shattered. A telephone message was received here early in the morning telling of the injury and calling for an automobile to carry him to Temple.

The claim is made and confidentially believed that there are more autos in Goldthwaite than any other town of the same size in Texas.

MARCH OF EVENTS
BENSON FARM PROGRAM
15 NO HELP TO NIXON

ONLY CITY POLICE
RETRENCHMENT

By HENRY CATHCART
Central Press Association Washington Writer

WASHINGTON—A few years ago, a novel was written on the engaging premise that the number of farmers had diminished that it was politically smart to direct federal cultural policies to the benefit of consumers in the nation's population centers.

There are a growing number of men in Congress who believe that such a situation is actually coming to pass and can be seen in some of Agriculture Secretary Ezra Taft Benson's policies. Some people argue that if Benson is popular in parliament where it is in the cities—certainly not on the farms.

Benson is seeking ways of reducing production and getting the government out of the business of buying and storing billions of dollars in surplus farm production. In advocating this course, Benson is seeking to reduce federal spending on farm programs—a program which appeals to city folk and the federal tax bite to support them.

Benson's foes are not confined to the political opposition in Congress. Some are Republicans—and some now openly contending that Richard M. Nixon has a more pathetic feeling toward farmers than Benson has.

Benson and the administration's farm program is one of the heaviest burdens Nixon has to carry these days as he points sights toward the Republican political convention. He knows that the program is unpopular to large segments of the community, but is fenced in in any effort to dissociate himself from it.

Nixon's biggest asset with farmers these days is their knowledge, as well as his, that regardless of the election outcome Benson is through.

THE UNHOLY ALLIANCE—In the last session of Congress the top-heavy Democratic majorities in both houses tried to after time to override presidential vetoes of important legislation. They succeeded only once.

Republican strength to resist these override attempts came partly from unity in their own ranks. However, the real strength was the informal coalition that has existed for years between the GOP and the large and potent bloc of southern conservatives.

Time after time, these two groups banded together to nullify the Democratic majority. Now pay-off time is at hand. Southern Democrats are collecting the debt owed them by Republicans.

The southern group is opposed, of course, to any liberalizing of civil rights laws. Northern Democrats are just as determined to push them through this session of Congress.

In the House, the rules committee, which regulates the flow of legislation to the floor, is under control of southerners. No civil rights legislation can get through the body. The practical way to by-pass this group is to have a charge petition signed by half the House membership.

Such a petition has been in existence for many months, carries about 150 signatures so far, or some 70 short of the number necessary to bring the legislation to the floor for debate and a vote.

Of the signatures already on the document, all but about are those of northern Democrats. Republicans have refrained from signing it. Thus, the back-scratching technique of coalition is blocking civil rights legislation—a goal pledged Republicans and Democrats alike.

PARENT PROBLEMS

Parents Responsible For Acts Of Violence

By GARRY CLEVELAND MYERS, Ph.D.

WILL WINDOWS disappear from school buildings?

According to the papers, so many kids stone school windows that architects for the public school system of New York City are going to reduce the size and number of windows in new schools. Also protective wire-mesh screens, steel panels and fences will be installed, making school buildings look like jails.

Next Target?

When there are no school windows to stone, churches may be the next target of young vandals.

Other large cities and suburbs are having similar problems, for they too have many children who have never learned to respect the rights and possessions of others.

Vandals of the ages from seven to 15 didn't get that way all at once. They were capable of being vandals from the time they could first throw a ball or rock a distance of a few feet.

Cost Of Vandalism

During 1958 the total cost of vandalism to the public schools of New York City was \$520,007, of which \$401,307 was for 160,521 broken panes of glass.

A recent editorial in the New York Times, entitled "Vandalism Redesigns Schools," stated: "We haven't succeeded in redesigning the young people who commit this destructive, costly, antisocial vandalism, so we will redesign the school buildings, to shut out the sunlight and thwart the delinquents."

Amazing Fact

Then the trial adds this amazing fact.

"If a policeman, by great good luck, happened to be on the scene and saw some of this rock-throwing, what could he do? He couldn't by law go to the rock-thrower's home and tell the boy's parents that they would have to pay for the

broken glass, even up to a limit of \$25. This might make the parents feel that they were somehow responsible for a boy who was destroying public property. No, let the taxpayers pay."

Yet, strange as it seems to many of us, when a bill for making parents responsible for their children's vandalism comes up before a law-making body of New York City and some other cities, the heads of various organizations for child welfare and home education are arrayed almost solidly against it.

What Pressures?

Until parents with babies in arms know that they will be held legally responsible for any damage their children might do to the public property when they are six, ten or 14, what popular pressures will there be on them to bring up their children to respect the rights and possessions of others? And don't public buildings belong to all the people?

Nor have the leaders of organizations who have opposed making parents responsible for their children's vandalism done much, if anything, to arouse parents to the need of disciplining children from their pre-school years to respect the rights and possessions of others. On the contrary, haven't they been foremost, during recent decades, in advancing the theory and practice of excessive permissiveness, especially in the nursery?

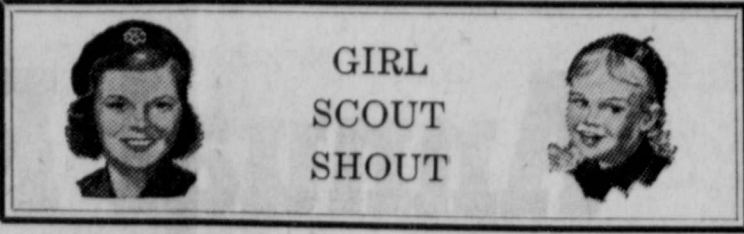

(My bulletins, "How to Teach Child the Meaning of No" and "How Juvenile Delinquency Can Be Curbed," may be had by sending a self-addressed, U. S. stamped envelope to me in care of this newspaper.)

Answering Parents' Questions

Q. What do you consider the best place to get a baby for adoption?

A. A licensed adoption agency recommended by your city or county child welfare agency.

TODAY'S Menu

Some Delicious Dishes With Hawaiian Flavor

By ALICE DENHOFF

LET'S hula into the kitchen and whip up some delicious dishes with a Hawaiian flavor, the first a fine Friday special for luncheon or supper.

To serve 4, combine 2 c. milk, 1 (4 oz.) can flaked coconut, tsp. salt, 1½ c. cut corn, 1½ c. torn spinach and 2 (5 oz.) cans shrimp, drained.

Cover and cook over low heat until vegetables are tender, stirring occasionally.

It's the coconut that gives such a fine flavor to this mixture.

Pork Hawaiian
Next, Sweet and Sour Pork, Hawaiian style.

To serve 4, heat 2 tbsp. salad oil; add 1 lb. (1 in.) pork cubes and cook until browned on all sides.

Add ½ tsp. salt, ¼ c. sugar, ¼ c. vinegar, ½ c. water and 2 tsp. each chili sauce and soy sauce.

Cover and cook over low heat stirring occasionally.

Combine 2 beaten eggs and 2

tbsp. all-purpose flour; blend.

Add a small amount of pork liquid; blend. Add to remaining pork mixture, stirring well.

Add 1 diced, medium-sized pepper and 1 c. sliced celery.

Cover and cook over low heat 30 min., or until vegetables are tender, stirring occasionally.

Stuffed Avocados
Stuffed Avocados turn up frequently at Hawaiian luncheons with, of course, some pineapple as an ingredient.

Here is a nice recipe to serve 4.

Cut 2 medium-sized avocados in halves. Brush with 2 tbsp. lemon juice.

Drain 1 (5 oz.) can shrimp and combine with 1 (8¼ oz.) can drained pineapple chunks and ¼ c. French dressing; toss lightly.

Fill avocados with shrimp mixture.

Top with ½ c. toasted flaked coconut and arrange on crisp lettuce.

WASHINGTON AND
"SMALL BUSINESS"
By C. WILSON HARDER

Up in the Arctic there is a small animal called the lemming that travels around in big packs. Every once in a while, the leaders of the pack are seized by some undefined hysteria and rush pell mell for the cliffs overlooking the Arctic Ocean with the entire pack following. They all jump over the brink and are drowned. One of Nature's oddities.

Yet perhaps no more odd than the spectacle of some 170,000 Americans being led by self-appointed hysterical leaders to the brink of destruction.

In a recent public address, Senator Andrew Schoepfel, Kansas, spelled out danger.

"The first duty of any society," he said, "is to provide for its self preservation. We are making the United States the worst place to buy and the best place for the world to sell, and if we continue our present policies we will have full employment in Manila and Milan, and increasing unemployment in Topeka and Detroit."

"Many American corporations," the Senator said, "have from 50 to 70% of their entire production abroad. In answer to those who claim that present trade policies result in a gain for our economy, I say those who gain do so at the expense of American worker and small businessman."

Sen. Schoepfel reports Japanese can buy American grown cotton for 7 1/2 cents per pound

cheaper than U. S. mills can buy it for; then manufacture it into textiles and land finished goods in this country for half U. S. manufacturing cost.

In 1947 U. S. exported \$748 million in textiles, imported \$24 million worth. By 1955 exports dropped two-thirds, imports jumped five times.

The gallant General Robert E. Lee lost his war at Gettysburg, although it took about two more years for that fact to be recognized. The U. S. may have already lost its economic war with Russia, but it is yet to be recognized.

For with the Communistic bloc of nations dumping goods on the U. S. shores made by virtual slave labor, and huge U. S. corporations dumping almost tariff free goods made by cheap labor in foreign subsidiaries, the spectre of the American collapse on the economic front hangs over the land.

It is a sinister paradox, Russia, since the days of Marx and Lenin, has been intent on destroying American capitalism. And in using the economic weapon, Russia has as allies that group of monopolists within the framework of American capitalism who for the temporary gains in profits to be made today from producing in cheap labor nations, have pressured government into destroying the protective tariffs that protect the big segment of American capitalism that believes in free and independent enterprise.

The hour is late. But if believers in free enterprise aid men like Sen. Schoepfel to keep Congress on main battle instead of side issues, the fight can still be won.

MORE Cold Weather! I used to love to see the snow in the winter time, but not any more. Maybe we all want spring to come before it is springtime.

The Rev. G. C. Henry attended a Bible Conference at Jacksonville, Monday through Wednesday. He returned Thursday, and Mrs. Sallie Chancellor, who had spent some time there visiting her daughter, returned home with him.

James Driskill of Zephyr was a Mullin visitor last Friday. Minister and Mrs. Fred Kirbo and family have moved to their new home near Mullin. Mr. and Mrs. J. E. Phillips and family have moved into the home with Mrs. Hazel Cobb.

Mrs. Margaret Tolver visited with C. C. Tolver and family of Brownfield from Saturday until Monday.

Mrs. Verna Lee Dudley visited recently at Seagraves with Mr. and Mrs. Mabler.

John McKenzie and daughter, Ozella, of Pearl visited Mrs. L. J. Vann and Mrs. Jewell Ivy. They also visited with the J. S. Kemp family.

Pvt. Don Locks is leaving for Korea soon. He has been visiting here with his wife and her family, Mr. and Mrs. Davee.

Mr. and Mrs. Kyle Lawson visited recently at Lampasas with Mr. and Mrs. Bill Lindsey and family.

Mr. Floyd Moody of Abilene visited here last Sunday with Mr. and Mrs. E. L. Fisher and family.

Retired Workers Advised To Apply Early For Retirement Insurance

Retiring workers were advised to call on the Social Security Administration two or three months before the date of retirement, by Maurice M. Chastain, district manager of the Temple office.

"Early application for the social security benefits will enable us to attend to the necessary details and avoid a delay in the payment of the first check," he said.

"Claims for the retirement and family insurance payments require some action before they can be certified to the Treasury Department for payment," according to Chastain. "By filing early, payment can be made soon after retirement."

An applicant should bring some evidence of his age and an earnings statement showing the amount of his wages in the last year. The self-employed person should furnish a copy of his latest income tax return.

No appointment is necessary to file a claim. The Temple office of the Social Security Administration is located at Suite 909 First National Bank Building. The office is open Monday through Friday from 8:30 a. m. to 4:45 p. m.

A representative of the Temple office will be in Goldthwaite at the Department of Public Welfare at 8:30 a. m. March 4, 11, and 25.

OUTDOORS IN TEXAS

You can catch crappie any time, but it's easier in the spring. At this season of the year crappie, notably a roamer, lies down closer to home... thoughts of spawning. They swim in tight groups, at the same depth. Find one school, and you can follow your limit before breakfast. Crappie abound everywhere—rivers, lakes and streams. It was with the advent of dam building in Texas that they really came into prominence. Dammed up water submerged many a tree and that is kind of habitat crappie like it. If you have to do is locate a spot. If you're on the lake, look for a stump sticking out of the water. Go there and tie your boat to the stump. If it's the top of an old submerged tree, you're in luck.

pull up a couple of turns of the reel. Stay right there for a couple of minutes. If nothing happens, start reeling up very slowly. It won't hurt to jiggle the bait lightly, because a crappie loves a slowly moving target. It's important to note the depth where the first crappie takes hold. That's where all his brothers and sisters are. Also, it's a good idea to put a blue or red pencil mark on your line to indicate where to stop letting out line. Spinning gear is ideal for crappie fishing. To begin with, the crappie is a small, sporting-type fish. He requires no big rig. He wants his food presented in a natural way, and a spinning outfit is tops. Although a big hook is recommended, it can be the wire kind—light, without restricting the minnow's movement. If there is room, the angler can let his minnow swim free, without any sinker. But if necessary or desirable, he can put a split shot in the line, say a foot and a half above the minnow. That gives the live bait a little room to move around. Some crappie fishermen use bobbers. That's all right, provided the rule is observed that the bait must get down to the depth where the fish are. A bobber will mark the distance, and you can rig up your crappie outfit so the bobber will keep track of the depth. My preference is to get the crappie by feel, not by movement of the bobber. A crappie strike is very light, very gentle. He may even touch the minnow or lure a couple of times before he decides to take it. When he does, he often swims up with it, so that you have to reel in to find out if he's on there. Once you feel his weight on the line, don't set the hook as you would with a bass. A hard pull would be likely to tear the hook out. Simply pull up, reel in enough to keep the tension on, and you'll get him. Somewhere between the depth where he's hooked and the place where you are, he'll offer a little resistance, but not much. Nobody ever called a crappie a fighting fish. He makes up for that deficiency by being a willing feeder and by his excellent flavor

When properly cooked. The crappie, like most fish, lives where he finds the most cover and the most food. In his hiding place, such as an old sunken tree, he is in the midst of branches where you're going to foul and lose hooks, sinkers, and line. That's part of the game, and it is to be expected. So when you go crappie fishing, take plenty of equipment, because you're going to lose part of your rig now and then. If you don't, you are in the wrong place for crappie. But the loss is small compared to your gain, if you get a string of these silvery beauties.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

We ended our letter last week with the announcement that Mrs. Garland Malone had passed away Saturday afternoon, Feb. 20. Grace and I went out to Ysleta Sunday afternoon to see those who were left of Garland's family. There was Jay, her son; Mrs. Breeding, her mother, 83, known to all as "Nan"; and Ben Clayton, her nephew. We met Ben's father, Collins Clayton, and his wife, Marge.

Jay said the funeral would be Wednesday, Feb. 24, with services at the Ysleta Methodist Church at ten o'clock and burial at Van Horn about two. Van Horn is 120 miles from El Paso. We woke Wednesday morning to find the earth covered with a 3 inch snow and a biting cold wind blowing. The radio was saying, "No school today. All roads out of El Paso are closed except Highway 80 to Van Horn."

Grace and John and I arrived at Nan's home not long after nine. The service at the church was beautiful. Garland was a devout member. She taught a Ladies' class and was very highly esteemed. The minister said many nice things about her. At Van Horn we went to the home of Mrs. Clara Bean.

She and her friends had prepared lunch for all of us. At two we went to the cemetery. The weather was bitter cold and it was snowing little tiny flakes. A bank of beautiful flowers brightened the scene. The Van Horn Methodist minister read some appropriate passages of scripture and offered a brief prayer. Then Garland was laid beside her husband, Jay Sr., who died 33 years ago when Jay Jr. was only two.

The Van Horn Cemetery is beautiful. The Garden Club has made it their project. It is planted in evergreens and is kept in perfect order.

The paper says 2,000 teachers are expected here next week to attend the Trans-Pecos Teachers' Association. When we got back from the funeral we found a letter here from my niece, Mrs. Ralph Wilmeth, of Fort Stockton, telling us that she and Ralph would be here Thursday for the Teachers' meeting, but she enclosed some news much more exciting than that. It was a news account of Lucy's wedding. Lucy has been taking a four years Nurse's course from Texas Woman's University at Denton. We had no idea that she had marriage on her mind, but here it is from the Fort Stockton Pioneer: "Miss Lucy Wilmeth and Bruce Griffith were married in a double ring ceremony at 5:30 p. m., Feb. 3 at the Church of Christ, with John McClish, minister, officiating. The bride is the daughter of Mr. and Mrs. Ralph Wilmeth. Griffith is the son of Mr. and Mrs. Adron Griffith. The bride was given in marriage by her father. Her sister, Miss Nan Wilmeth, was maid of honor. Neal Griffith, brother of the bridegroom, was best man. Ushers were Joe Wilmeth, brother of the bride, and Gary Vannoy. After a wedding trip to Sonora and San Antonio, the couple are now at home at 200 Meadow Lane, Bryan."

Austin, Texas—We may have a muddy spring this year . . . but will there be enough water for Texans in 2010?

This is not a fantastic question, but one that Texas' state and local officials, engineers and water planners are grappling with now. Out of their efforts come these items of news and views:

1. Gov. Price Daniel told a farm convention in Austin that Texas has made great progress in statewide water management in the past three years. But, he said, "much more remains to be done."

Water planning and development, said the governor, is essential to the state's growth and prosperity in the years ahead.

2. A series of three meetings will be held during March along the Colorado River and its tributaries to discuss water needs of those areas for the next 50 years.

Meetings will be held with the U. S. Commission studying Texas' major river basins. They will be in Wharton March 8; Big Spring, March 15; and Austin, March 17. Colorado River Industrial Development Association (CRIDA) will sponsor the Austin and Wharton meetings, and the West Texas Chamber of Commerce the Big Spring Meeting.

3. State Board of Water Engineers called for a "time out" until March 8 on the longest-ever water hearing. At issue in the hearings which began Nov. 2 is whether the Trinity River Authority and City of Houston

shall be granted permits to build two downstream reservoirs on the Trinity River.

Water Board, apparently getting short on patience, advised opponents to get together and solve their problems cooperatively. Hearing has been given to long, bitter arguments and frequent flare-ups among participants.

San Jacinto River Authority has been chief objector to granting of the permits. SJRA contends that Houston will shortly need more water for domestic use but that Trinity water, because it contains sewage from Dallas and Fort Worth, is not suitable. San Jacinto officials say Houston should work with SJRA to meet the city's domestic water needs.

In the far-ranging testimony, water engineers discussed the probable water needs of Houston, Dallas and Fort Worth in 2010, and the possibility that Texas might be subjected before 2010 to a drought worse than that of 1950-57.

4. Texas is losing the battle for industry because of inadequate water supply, the director of UT's Balcones Research Center told an Austin meeting.

"Central Texas is in good shape," said Dr. J. Nells Thomson, "but the rest of the state is in sorry shape."

Texas has an average annual rainfall of 27 inches compared to an average of 30 inches for the U. S. as a whole, said Dr. Walter Moore, also a UT engineer. But he said Texas has a special problem—an evaporation rate 50 to 100 per cent higher than the U. S. as a whole.

Auto Deaths Drop—Texas had an "almost sensational" 28 per cent drop in traffic deaths in the first seven weeks of the year, Governor Daniel announced.

This is the period since the new Safe Driving Auto Insurance Plan went into effect.

There were 69 fewer deaths during the first seven weeks of this year than during the same period in 1959. Drop was from 243 deaths in 1959 to 174 this year.

Board of Insurance Chairman Penn J. Jackson said he felt the new insurance rates, which are higher for careless drivers, were due at least to a portion of the credit for the improved safety record.

Conclusive evidence, both the governor and insurance board chairman agreed, would have to await more time and statistics.

Industry Seekers Named—Nine men have been named by Governor Daniel to the new, enlarged Texas Industrial Commission.

He also gave them as their 1960 assignment the gaining of 254 new industries for Texas—one for each county.

Members of the old three-member Industrial Commission were appointed to the new board. They are E. B. Germany,

Dallas; Houston Harte, San Angelo; and Chester C. Wine, Laredo.

New members are Robert F. Haynsworth, El Paso; Ray H. Horton, Houston; Morris Higley, Childress; Richard H. LeTourneau, Longview; James A. Redmond, Beaumont; and Al H. Chesser, Austin.

Fish For Farmers Questioned—A House of Representatives committee looking for ways to save tax money quizzed spokesmen of the Game and Fish Commission on its fish and quail re-stocking programs.

Committee members questioned whether the Commission should give out free young fish raised in the state hatcheries. They go to farmers and others to stock tanks.

A Commission official said the little fish cost the state about 1.5 cents each to raise.

Legislators also considered at length the Commission's quail hatching operation near Tyler. Quail, it was brought out, cost about 69 cents each to raise, are sold to landowners for game re-

stocking at 50 cents apiece.

Polio Outbreaks Foreseen—State Health Department predicts a rise in the number of polio cases in the spring months ahead.

Most of the victims, said the Department, will be among those who have not taken advantage of polio shots.

Last year's record shows that three out of four polio victims had not had any vaccine and 9 out of 10 had not had all the recommended series.

Texas had 526 cases of polio last year, approximately 13 per cent of the 3,984 cases recorded in 1952 before Salk vaccine.

A Health Department official deplored parents who, "in the face of almost daily urgings, ignore the chance of giving their youngsters an infinitely better chance to escape polio."

Buy A License Before You Get Fishing Fever

Austin, (Spec.)—"The fishing season is here, so get your 1960 fishing license before you get fishing fever," warns the director of law enforcement, Texas Game and Fish Commission.

Last month, 37 persons were charged with fishing without the required licenses. "Most of these probably were individuals who forgot about a license until they were already in the boat and fishing," said the director.

According to the Commission's monthly report on game

and fish law violations, hunting contrary to the laws also ran high. A total of 70 persons were charged with illegally hunting at night. Some 29 were charged with hunting without resident licenses. Another 29 were charged with hunting in closed season, and 23 were filed on for hunting from an automobile.

Wardens arrested 19 persons for killing doves out of season, 5 for hunting on game preserves, 14 for headlighting animals, 13 for killing deer in closed season, 12 in possession of wild doe deer, 2 for killing curlew, and 10 persons were charged for polluting public water.

A total of 413 violations were reported in January. Of these, 39 were dismissed in court, 3 served time in jail, 6 appealed, one had his fine suspended, and two were found not guilty.

Fines for the month amounted to \$15,609.15 and court costs totalled \$662.00, making \$16,271.15 the amount paid by hunters and fishermen for game and fish violations in January.

Death Claims Lon A. Williams, Mills County Pioneer, Feb. 23

Funeral services for Lon Arillas Williams of Mullin were held in the Mullin Church of Christ, Thursday afternoon, February 25, at 3 o'clock. Services were conducted by Charles J. Hill Jr., minister of the Goldthwaite Church of Christ. Burial was in Oak View Cemetery at Mullin.

Mr. Williams was born in Mills County September 20, 1887 and passed away in a Brownwood hospital Tuesday evening, February 23, at 9:30 o'clock. He was a member of the Mullin Church of Christ.

On September 6, 1908 he was married to Lizzie Kelso at Mullin.

Survivors are the wife, Mrs. Lon A. Williams of Mullin; three sons, Leonard Williams, Dalhart, Victor Williams, Goldthwaite and Ward Williams of Anna; two daughters, Mrs. Mildred Wilkins of Burnet and Mrs. Ollene Blackburn of Houston; one brother, Burl Williams of San Francisco, Mexico; eight grandchildren and two great-grandchildren; and a host of friends.

Funeral services were held at 3 o'clock on Thursday at the Mullin Church of Christ.

Glynn Collier, Tom Cooksey Jr., Norma Lee Mosler, M. L. Etheridge and Raymond Summy.

Funeral arrangements were under the direction of the Roy Wilkins Funeral Home.

Humble Official Injured Fatally In Car Wreck

William Carl McDaniel of Cisco died in a hospital here last Thursday, from injuries received in a two-car collision South of Goldthwaite Wednesday evening. Mr. McDaniel, 64, was chief clerk of Humble Pipe Line Company's North Texas Division.

J. A. Robinson, superintendent of oil movements at the Cisco Division, was injured critically in the accident and was flown to a Houston hospital Thursday afternoon.

The 1959 Pontiac station wagon in which McDaniel and Robinson were riding was driven by

Dr. Jim T. Lawrence of Breckenridge. He was also injured but not seriously and was released from the hospital Friday. The three men were en route to the Texas Open golf tournament at San Antonio.

Mr. and Mrs. Arthur Doose of

Gouldbusk, Coleman County, were occupants of the other car involved. They were hurt but not seriously and are still hospitalized at Childress Clinic and Hospital.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By L. L. BERRY

plowing and range seeding is an important step in reestablishment of our infested soil. B. Burnham treated 100 acres last year and was pleased with the re-

Mechanical disturbance and seeding in one operation has been practiced for several years in South Texas, but is a relatively new conservation practice in the Brown-Mills Soil Conservation District. The benefits, in most cases, are amazing; namely, a seedbed favorable for plant growth, the loosened friable soil is able to store large amounts of rainfall rapidly, and undesirable vegetation is retarded, if not completely eliminated.

Mr. Burnham is now in the process of employing a contractor to plow and seed an additional hundred acres on his ranch near the river. He believes this method of treating rangeland is the quickest way of getting the production from his land that it is capable of producing. Many ranges are low producing, not as much from low fertility as from lack of ability to take and store moisture. Drought conditions are prevalent on many tight blocky soils regardless of amount of annual rainfall. This condition is due largely to the lack of soil cover and organic matter.

After root plowing and seeding these areas, management is very important, according to Mr. Burnham. Grass seedlings

need adequate time to become well established before grazing. In a matter of twelve months, production has been increased several times.

There are many areas in the Brown-Mills District that would respond favorably to plowing and seeding with a large crawler type tractor. The cost would appear high; however if time means anything, you can ill afford to depend on nature entirely. It took several years to reduce our grazing lands from excellent condition to mostly undesirable vegetation; likewise, without some drastic steps, it will take several years to bring them back. You possibly have heard it said, "it takes grass to grow grass." This is more evident during a long period of scant rainfall.

Crew Leaders For 1960 Census Are Appointed

Appointment of crew leaders for the 1960 Census of Population and Housing in this area was announced today by Supervisor W. G. Stacy of the Census Bureau's temporary district office in San Angelo, Texas.

Each crew leader will supervise about 20 enumerators in the big nationwide census which begins April 1. Crew leader training will begin on March 9 for rural crew leaders while their city counterparts will start training on March 14. Topics to be covered in the training sessions include procedures for recruiting of census takers, canvassing methods, preparation and submission of reports, and the supervision of census takers to insure a complete and accurate count.

The crew leader is one of the key people in the field operations of the 1960 Census of Population and Housing. It is his responsibility to recruit and train the census takers; plan and allocate work assignments; review the work of the census takers and take remedial action where necessary, and to handle problems of difficult enumeration.

Names and addresses of crew leaders follow: Nelson J. Nuckles, Lampasas; Herman Thompson, Brownwood; and Allen W. Hardgrave, Goldthwaite.

Mills County Bond Sales For January

"Savings Bond sales for January 1960 totaled \$39,178," W. P. Duren, Chairman of Mills County Savings Bond Committee, reported today. "Our county has reached 18.6% of its 1960 goal of \$210,000."

Sales in Texas for January were \$16,537,766 which is 10% of the state goal.

"When we buy our Country's Savings Bonds we are helping to save things that money cannot buy," concluded Mr. Duren, Chairman of the Mills County Savings Bonds Committee.

Mr. and Mrs. B. A. Hodges of Austin were Goldthwaite visitors Sunday.

Questions And Answers About Social Security

Question: I am drawing social security retirement benefits. My wife is age 49. We are considering the adoption of our granddaughter, age 11. If we adopt her, how will my benefits be affected and when?

Answer: If you and your wife adopt this child, both your wife and the child will become eligible for benefits effective with the month of adoption. Each will receive a benefit equal to one-half of the amount of your benefit, subject to a maximum amount. Your benefit will remain the same amount. You should get in touch with your social security office when the adoption is final.

Question: My left knee was injured in a fall. I'm working full time, but I have considerable discomfort on rainy days. As I have been working, I would like to know if I am 55 years old, on collecting disability from my social security account?

Answer: No, disability is not covered unless you are unable to do gainful work with or without reasonable accommodations. Only a disability benefit you from doing gainful work will for disability benefit.

Thursday, March 10 — The Mullin H. D. Club will meet at 2:00 p. m. with Mrs. Moezel Harper. They will have the pro-

gram on the Legal Status of Women which was postponed from February 25.

Friday, March 11—The County 4-H Organization leaders, food leaders and clothing leaders will meet at 2 p. m. in the agent's office.

The Year Book suggestion this month is: "A woman who wants to do something finds a way, the others find excuses."

**EATING ENOUGH
VEGETABLES**

Are you including enough vegetables in your daily diet? Besides being nutritionally necessary, vegetables offer the color and flavor variety that adds to eating enjoyment. Three kinds of vegetables should be included daily in your meals, according to the Texas Food Standard, which is the daily food guide for Texas. A green

or yellow vegetable, sweet or Irish potatoes, and any one from the long list of other vegetables should make a total of three kinds for a day.

Ideas on how to get the most from fresh, frozen and canned vegetables are given in a bulletin entitled "Vegetables." It tells and shows how to select, care for and cook vegetables to preserve color, flavor and nutrition. A special section of the bulletin gives suggestions for colorful, tasty vegetable platters. Recipes, with that special "something," are given for many different vegetables. You can get copies of the bulletin from my office.

4-H'ERS

4-H'ers learn to do clearer thinking . . . It's part of their pledge. They do this by taking part in club meetings, learning to lead and follow, and they do it by carrying out many kinds of activities in home economics and agriculture and related activities. They learn to keep records, organize their work, and think through problems. We are proud of the adult leaders in Mills County who help plan and conduct 4-H Club

purchase in connection with daily living needs is bought in terms of a fixed amount for a fixed price, carefully supervised regulation is essential to make certain that the specified amount is delivered for the specified price.

The division of weights and measures of the Texas Department of Agriculture has the responsibility of checking all such weighing and measuring devices in the State, ranging from intricate pharmaceutical scales to huge commercial scales such as those used at public weighing stations and cattle auction markets. Thousands of inspections are made each year, including spot checking of gasoline pumps throughout the State.

It was 161 years ago, on March 2, 1799, that Congress passed the first Federal weights and measures law in the U. S. It was pointed out then that "weights and measures may be ranked among the necessities of life to every individual of human society. They enter into the economic arrangements and daily concerns of every family."

Texas businessmen, it has been pointed out, have even greater financial stakes than family consumer units in making sure that their scales and measuring devices are completely accurate. Where large volume business is transacted, it is possible to give away thousands and tens of thousands of dollars worth of goods by means of scales that are inaccurate on the side of the purchaser.

It is also emphasized that it is almost impossible to name anything the American consumer wears, uses or eats that has not been weighed or measured once or many times in its production and distribution.

ZORA ROWLETT LISTED ON H. P. C. HONOR ROLL
Brownwood, (Spec.) — Zora (Mrs. A. R.) Rowlett of Mullin has been listed on the honor roll at Howard Payne College for the fall semester, with 36 grade points. Dr. Z. T. Huff, academic vice president and dean has announced.

A junior student, Mrs. Rowlett is the daughter of Mr. and Mrs. G. R. Wilson, Route 3, Brownwood.

Baking Heart of Texas

**\$100 TO HAMILTON HOUSEWIFE FOR
'QUICKIE' YEAST BISCUIT RECIPE**

**'BAKING HEART'
OF TEXAS IS
CONTEST AREA**

The Baking-Recipe-of-the-Month contest is unique because it is specially designed for a unique part of America—the Home Baking Heart of Texas.

Here, where delicious yeast breads are the pride of all good cooks, this continuing monthly contest invites friendly competition, and the exchange of outstanding recipe ideas, between every homemaker and her neighbors.

There will be new cash prizes every month, new opportunities for homemakers to win deserved recognition for their baking skill.

An extra benefit—particularly for women who have never experienced it—will be the deep satisfaction of working with Gladiola Hard Wheat Flour. It's the flour made expressly for yeast breads, Texas style.

MRS. ALVIN C. PERRY, Hamilton, Tex.

**Gladiola Hard Wheat Flour
a 'must' for yeast dough,
says Mrs. Alvin Perry**

Delicate, fluffy "snow biscuits," so simple to make they're the perfect answer when you want to serve hot yeast bread on short notice, have brought a special Gladiola Flour award of \$100 to Mrs. Alvin C. Perry, Blue Ridge Road, Hamilton, Texas.

Mrs. Perry is donating half the money to the Blue Ridge Baptist Church for use in the Sunday School, where she taught for several years, and to further the work of the Baptist Training Union.

Regular Cash Prizes

The special award is a prelude to regular cash prizes beginning next month in Gladiola's Baking-Recipe-of-the-Month contest, now open to all homemakers in this area. The complete recipe for "quickie" snow biscuits is printed below, in file card size, for Glad Times readers.

A long-time user of Gladiola Special Hard Wheat Flour, Mrs. Perry has tried other flours when Gladiola was not available. "It's always a disappointment," she says. "It's like trying to make orange juice with apples. All-purpose flour was never intended for yeast breads."

'Smooth as Silk'

Mrs. Perry is passing along her baking know-how to her daughter, now in high school. First lesson: how to recognize good dough by its "feel" in your hands.

"Perfect yeast dough is smooth as silk, and so elastic it springs back 'alive' when you poke it. That's the dough you always get with Gladiola Hard Wheat Flour. But when dough is sticky and limp, with no strength or snap to it, you're off to a bad start. It won't rise properly, it'll have 'tunnels' and 'scars,' and it just can't hold all that good yeast flavor."

GLADIOLA SPECIAL
HARD WHEAT FLOUR

Contest a 'Good Thing'

Gladiola's Baking-Recipe-of-the-Month contest, says Mrs. Perry, is "bound to be a good thing" for any woman who now uses all-purpose flour for light bread, rolls and other yeast breads. "She's going to try Gladiola Hard Wheat Flour, and from then on it'll be a must."

Rules of the contest, which pays \$200 in cash prizes every month, appear in other columns of Glad Times.

**11 CASH PRIZES EVERY MONTH
Here are easy contest rules**

1. Anyone may enter Gladiola's Baking-Recipe-of-the-Month contest except employees (and their families) of Fant Milling Co., its affiliated companies and its advertising agency.
2. Write down your favorite yeast bread recipe using Gladiola Special Hard Wheat Flour. List all ingredients, then explain briefly each step in the procedure.
3. Cut off the strip that says "Gladiola Special Hard Wheat Flour" from the folder enclosed in every bag. Send it—with your recipe, name and address—to Glad Times, Sherman, Texas.
4. You may send in as many yeast bread recipes as you wish. Mail each recipe in a separate envelope, enclosing a Gladiola strip as explained in Rule No. 3.
5. Each month's recipes are judged separately, with an independent graduate home economist as the final judge. Recipes received in March will be eligible for prizes to be announced in June.
6. For the outstanding recipe received each month, Gladiola will pay \$100. Half the prize money—\$50—goes to the homemaker who submitted the recipe. The remaining \$50 goes to the church of her choice as her special contribution.
7. Ten other yeast bread recipes will be chosen each month for Honorable Mention prizes of \$10 each.
8. All recipes submitted become the property of Fant Milling Company, Sherman, Texas, with full publication rights. Recipes cannot be returned.

'QUICKIE' SNOW BISCUITS

Gladiola's Baking Recipe of the Month

Mrs. Perry's Snow Biscuits

(A simple recipe for hot yeast bread when time is short)

- | | |
|---------------------------------|---|
| 1 cup warm water | 1 package active dry yeast |
| 1 tablespoon sugar | About 3 cups sifted GLADIOLA Special Hard Wheat Flour |
| 1½ teaspoons salt | |
| 3 tablespoons melted shortening | |

Put warm water in mixing bowl; add the sugar, salt and shortening, then the yeast, stirring until dissolved. Add GLADIOLA Special Hard Wheat Flour to make a soft dough. Turn onto a lightly floured board and knead for 5 minutes. Let rest for 8 to 10 minutes. Roll out ½ inch thick, cut with a biscuit cutter. Place in a lightly greased shallow pan, and pierce each biscuit four or five times with the tines of a table fork. Cover and let rise 20 to 30 minutes. Bake in a hot oven (425 degrees) 15 to 18 minutes or until browned. Makes 24 2-inch biscuits.

AT WINTER OLYMPIC GAMES—Germany, Russia and France won gold medals at the Winter Olympic Games, Squaw Valley, Calif. There is one bright spot for the United States and she is Carol Heiss (bottom, right, and center) of Ozone Park, N. Y., who was far ahead in women's figure skating competition. At top, left is Jean Vuarnet, 27, of France who won the men's downhill event with a time of two minutes and six seconds. At bottom, left, is Georg Thoma, 22, of Germany, who captured the Nordic combined ski event. At top, right, is Klara Gusova, 22, a Russian school teacher. She received the gold medal for winning the Women's 1,000-meter speed skating event at Squaw Valley.

County Residents Are Responding To Annual Texas Heart Fund Drive

Mills County people are responding with their usual generosity to the appeal of the American and Texas Heart Associations for funds to carry on their campaigns, according to Mrs. M. Y. Stokes, Jr., Mills County Chairman.

Community chairmen who are in charge of the fund raising are: Mrs. E. J. Drucekhammer, Priddy; Mrs. Glenn Calder, Mullin; Mrs. Virgil Tubbs, Caradan; Mrs. Darrell Head, Center City; Mrs. Dutch Smith, South Mills County; Mrs. Haw-

ley Jernigan, West Mills County; Mrs. Alma Sutherland, Pleasant Grove; and Mrs. Lee Roy Stacy and Mrs. V. A. Hudson, Goldthwaite. At Star the school children are soliciting funds. A number of other volunteer workers are assisting the chairmen, and it is planned to complete the campaign this week.

All those who have not been asked for a contribution but would like to share in the work are asked by Mrs. Stokes to leave their donation with one

of the workers named above or at the bank or post office.

Forty per cent of the funds collected in Mills County will remain in the county for local use, primarily in disseminating educational material. Most of the other funds are spent in research and in keeping physicians and surgeons informed of the latest discoveries in the heart field. A very small part of the collections go for collection expenses as there are only two paid field workers in the entire state of Texas, all others engaged in the annual campaign donating their time and services.

Heart disease strikes close to every Texas home. It causes 54 of every 100 deaths today. In fact, according to government statistics, heart disease causes nearly twice as many deaths as the next five leading causes of death — cancer, accidents, pneumonia, diabetes and cirrhosis of the liver—combined. One-third of its victims are under 65—those still active in business and the home. A half-million elementary and high school children also have heart disease.

CARD OF THANKS

We want to thank all our good neighbors and friends in and around Mullin from the depth of our hearts for all the many kind deeds they have done for us during our siege of flu. To each and every one we are deeply grateful. May the dear Lord's mercies abide with you all.
Mr. and Mrs. L. L. Landers.

Just How Liberal---?

By
CONGRESSMAN O. C. FISHER

Just how liberal must a man be these days to get elected President? This year, more than ever, that question is being bandied around.

In the Democratic camp, there is Kennedy, Symington, Stevenson, Humphrey — all described by observers as ultra-liberals — and Lyndon Johnson, a middle-of-the-roader.

As a general rule a liberal is a free spender. And the more he spends, or promises to spend, the more liberal he becomes. These liberals are not to be confused with the authentic liberal who is progressive but keeps his feet on the ground.

The Radical Liberals are organized. They make a lot of noise. Scores of their organizations plug for welfare, "human"

rights, "civil" rights, socialism and more spending.

There's the Conference on Economic Progress, whose spokesman, Leon Keyserling (who headed the Council of Economic Advisors to President Harry Truman when he was in the White House, recently demanded a minimum budget of \$89.5 billion — \$8 billion above the Eisenhower budget.

Then, there's CIO's COPE, a political action arm of the unions, which forever plugs for spending "a la" Keyserling, Big

Government.

And Americans for Democratic Action (ADA), made up of prominent radical-liberals, agitators for the usual liberal program, only more of it. ADA's counterpart in Texas is Democrats of Texas (DOT), whose news organ is TEXAS OBSERVER.

Now, it is disturbing to see so many of our prominent politicians catering to these extremists, courting their favors. At least it appears they think they must have this type of support in order to be elected.

But where does the great unorganized, public come in? Large, it is believed, public is more than the politicians give for being. It is a general public opinion spending, ruinous, gratuitous hand-out-have-you.

Be that as it is, the candidates do seem to think they their pitch for the liberals as a jective, then try the people they have a remedy for need.

IKE ON FIRST STOP OF LATIN AMERICAN TOUR—President Eisenhower on a good-will visit to South America, stopped in the United States' commonwealth and praised Puerto Rico as an example to other aspiring people throughout the world. A band of demonstrators, dissatisfied with Puerto Rico's commonwealth government status, clamored outside San Juan's airport (top, right) demanded independence. Another group (left) carried signs welcoming the President. At bottom, President Eisenhower salutes the National Anthem is played on his arrival at Ramey Air Force Base, Puerto Rico, where he spent the first night on his Latin-American
